## IKE RAINS GETS TWO MEN AFTER CHASE TUESDAY

### Men Charged With Having Robbed a Claude Filling Station

Receiving a phone message from Sheriff Brunson of Claude about 4 a. m. Tuesday morning that a filling station on the east edge of Claude had been robbed, Sheriff Pierce and deputy Ike Rains went out on the highway west of town to investigate.

Within a short time, two men came by in a two-door Ford. When the officers fell in behind them, the race started east on the highway, the men in the lead sticking to the road north of the track through town. When they attempted to turn the corner at a 60-mile speed near the burned gin, their car turned over.

Rains had a flash light and was able to follow his man for a time but was no racer on foot, he and Pierce each losing their men.

The officers then separated, each driving a car and keeping a watch for the alleged burglars. Finally Rains spied the two men in the railroad cut east of town near the Sam Roberts farm.

When the men saw him, they attempted to hide under a culvert but later gave up to Rains who brought them to town. When questioned at the jail, one of the men is said to have owned up to the burglary job.

The wrecked car was taken to the Palmer garage and Sheriff Brunson of Claude came down and took the two men back with him. They claim to live in Oklahoma. Tires and tubes were the principal items taken in the robbery.

Hon. D. O. Benne of Mobeetie, candidate for the office of representative to the Legislature in this district, was in town Tuesday.

Mr. and Mrs. Ray Goodson and daughter of Wellington visited the lady's father, Mr. and Mrs. Hugh Brown here Sunday.

## GENTRY FIRST IN HOG CALLING DONLEY COUNTY

### Breaks Into Finals Monday Night at Amarillo Fat Stock Show

The Auditorium of Clarendon College was comfortably filled Friday night to witness the first hog calling event ever to be held in Clarendon.

Eight men entered the hog calling contest and were A. D. Arnold, J. A. Ringwall, Bill Hatfield, Dr. Shoffitt, Dude Gentry, T. E. Trostle, O. H. Brewer and Rev. C. B. Ingram.

These 'hog callers' performed to the hilarious enjoyment of the crowd each strutting his stuff even more than he ordinarily would had the hogs actually been somewhere near. Each caller received a round of applause.

In making up their decision, the judges selected Dude Gentry, O. H. Brewer and A. D. Arnold for the finals. The contest was close according to the judges who gave Arnold 86 points, Gentry 87 and Brewer 88.

In the final round, Dude Gentry was declared the winner and received a prize of five dollars.

Husband callers were few, the flu having played havoc with the arrangements of Miss Buttrill in this particular. The ladies to 'husband' call were Mrs. Joe Ritter of Chamberlain and Miss Fanny Perry and Mrs. J. C. Estlack of Clarendon.

Miss Perry was declared the winner and received five dollars as a prize.

The purpose of the whole affair was to secure funds to enable the baby beef boys to take their animals to the Fat Stock show at Amarillo.

Dandy good old time break-down music was furnished by Joe David, "Kootch" Decker, Elmer Palmer and E. R. Aycock.

## ROTARIANS TAKE TIME TO DISCUSS SOME DRAWBACKS

### Personal Worries And Method Of Overcoming Them Gets Plenty of Attention

The program carried out at the Rotary luncheon Friday noon had plenty of novelty, entertainment and even thrills when members were asked to discuss the chief worries or 'drawbacks' in each of their particular classification of work.

Rotarian Denzel Davis had charge of the program and adopted this novel method of eliciting information that might be of general and practical value to the membership.

After listening to the many 'drawbacks' in each of the professions and trades, some of the members expressed themselves as being better satisfied with their individual lines of work.

Rotarian B. L. Jenkins as chairman of the Club Service committee announced that his Committee would have an extra good program for Friday of this week. A number of visitors will speak to the Club on this occasion.

Adjournment was made by singing America.

## PEN TERMS ARE AFFIRMED FOR 2 IN LOCAL JAIL

### One Had Occupied Death Cell Now Going Back For Term Of Ninety-Nine Years

One cold winters night back in January of 1930, Bryan Nall, prominent young man storekeeper for the Farmers Union at Eli was shot in what is purported to have been a plain case of high-jacking.

Young Nall died soon afterward but lived long enough to tell what happened. Hess Tyler, a young man who made his home in Memphis, was arrested on a charge of murder and was given a death sentence by a Hall county jury at Memphis a month later.

Tyler appealed the case and got a new hearing. The case came to Donley county on a change of venue and Tyler was given 99 years. Since that time, the case has been on appeal, being affirmed by the higher court during the week.

During June of 1930, the Donley County State bank was robbed about noon and the robbers had apparently made a clean getaway with a sum variously estimated at approximately \$8,000.

The diligence of local officers went unrewarded with only slight clues found. As time went by, a detective said to have been in the employ of the insurance company, began tracking a man through Oklahoma after securing information from a woman who is said to have been "thrown over" by the alleged robber.

John E. Asten, at work with a gravel gang on a highway job near McAllister was arrested charged with implication in the local bank robbery. He was returned to Clarendon and in due time tried and given 20 years on the charge.

Although another man is said to have helped pull the job, he has never been apprehended. The woman who is alleged to have driven the car used in making the escape, is said to have been granted immunity for supplying the information necessary in capturing one of the men. Asten must now serve his twenty years unless the governor intervenes, according to the higher court.

The Clarendon Junior band under the direction of Gus B. Stevenson, will play a number of patriotic airs. A number of schools will have quartettes as special numbers on the program.

Mr. Bridges states that the meeting will be held in the school auditorium, and that the public in general is invited to be present.

### Three Men Jailed Tuesday On Liquor Charge

Three men were arrested on the dump grounds north of town Tuesday evening shortly after seven o'clock by Sheriff Pierce and deputy Ike Rains and taken to jail.

A liquor charge was made against each of them and their bonds set at \$1000 each by Judge Leon O. Lewis Wednesday morning, pending action of the Grand Jury.

A quantity of liquor and a model A Ford coupe is being held by the Sheriff. The men gave their names as C. E. Sutton, O. K. Loving, and W. H. Edge and stated Collingsworth county as their place of residence.

Mr. and Mrs. S. H. Lovell returned from Electra Monday where they spent the past two months with their daughter and husband, Rev. and Mrs. C. H. Russell. Rev. Russell is pastor of the Methodist church at Electra.

## MCKNIGHT WINS FIRST HONORS IN COUNTY CONTESTS

### Wins Basketball Tournament Honors in Rural Schools Contest at Hedley

Friday and Saturday were great days for the pupils and teacher-coaches of Donley's rural schools. The tournament was held at Hedley, practically every rural school of the county participating.

The McKnight basketball team coached by their principal, Raymond Matthews, played eleven games scoring 279 to 198 points. Finis Walker on the team as guard and co-captain, scored 110 points in the eleven games.

Only two games were played by girls. Goldston won over Ashtola, and Chamberlain stepped in to win over Goldston by 17 to 26.

In the games played by the Junior boys, Hudgins beat Giles; Windy Valley won over Chamberlain 24 to 25. Goldston got busy and won over Hudgins 15 to 18. Goldston was then beaten by the boys of Windy Valley.

Senior Boys' games, Smith beat Goldston 27 to 26; Chamberlain bested Bray by a score of 16 to 15; McKnight trimmed Windy Valley by a score of 27 to 15.

On the second round, McKnight scored 34 while Ashtola got 21; Smith had a penchant for stacking up points in a game with Chamberlain, the score being 47 for Smith and 28 for Chamberlain.

In the final closing game of the tournament, McKnight won over Smith by a score of 24 to 22. McKnight winning first honors among the rural schools of the county, Smith being a very close second.

Mr. and Mrs. W. H. Burnam have received news that Dr. and Mrs. Scott A. Burnam will be making their home in Oklahoma City after the 7th, the doctor having been transferred to that point from Chicago where they have been residing for the past two years. Dr. Burnam is in the Government packing house inspector service.

Champions.

From all accounts, the Japs are the champion liars of the world.

Historical.

There is one consolation at least—nothing can happen to you that has not happened to some one else.

Prognostication.

If the Literary Digest's straw vote on prohibition indicates anything at all, it shows that the wind is blowing the foam off beer mugs.

Anticipation.

The average voter today is looking for a candidate who would take the "T" out of tax and use the remainder on useless appropriations.

Green.

Five percent seems like a pitiful return on your money, until after you have tried to make ten and lost your wad.

Discovery.

The latest explanation for the cause of the depression is that it resulted from a collision when farm prices going down met higher taxes coming up.

Military.

Following the federal court decisions relative to National Guard occupation of the East Texas oil fields, there is nothing left for Gov. Sterling to do except to "demobilize" himself.

Renting Mules.

Over in Van Buren county, Arkansas farmers are unable to buy mules. Owners cannot afford to sell them on a credit. As a consequence, mule owners are renting their mules for the crop season at \$25 a head.

Farm Relief.

The Texas Agricultural Experiment Station has just issued a bulletin on "The Relation of Lime and Phosphoric Acid to the Bone Development of White Rats."

All the folks in Donley county who are interested in "white rats" should avail themselves of this wonderful opportunity. Had the state spent the same money in determining a method of getting rid of "white elephants", the taxpayer might feel that he had something for his money.

Hidalgo County.

Time was when the folks down in Hidalgo county in the Rio Grande valley began making a second California out of their section of country. Citrus orchards and truck patches covering thousands of acres brought millions of dollars to the Magic Valley.

As time went on, these industries continued to grow until the depression hit the Valley, magnificent schools had been built, numerous highways and other public necessities had been constructed by issuing bonds. It was a wonderful country, still more wonderfully developed and the end was not in sight—until the panic struck.

The total public debt of Hidalgo county is \$43,728,439.95. This is a per capita debt for the entire county of \$554. That includes men, women and children of all races even to the Mexican, according to county auditor Chas. D. Turner.

As a result of the excessive bonded indebtedness, property has reached a very low level in fact so little is changing hands that an estimate cannot be made, but well improved property is being offered for less than half what it was selling for in 1929. Truck growers and citrus fruit producers face a high market rate and a low market that is located at a great distance. Hidalgo's condition at this time

should be a warning to others regarding bonded indebtedness.

Not Worth It.

In reading a card of thanks in the McLean News recently, the last statement stands out as being extraordinary. It appears that one Moulton King had a fire and the neighbors gave him a lift just as neighbors should.

In thanking the folks for their kindness, Moulton winds up by saying "I feel like I am not worth the trouble I have been to others."

Not having had the pleasure of a personal acquaintance of a man who feels that way about it, we cannot say how much or how little trouble he has been to his neighbors, but men who feel that way under the conditions mentioned above, are as scarce as feathers on a goose egg, and most people would agree with us in saying that Moulton King is a mighty fine fellow, or a mighty good judge of human nature, the former preferably predominating.

Too often we find in each town or community, a Moses who labors under the delusion that he is a born leader and that he has a 'corner' on knowledge. He wants to 'ramrod' everything and leaves the impression that God made a mistake in creating any one but him. He expects special favors and seems to think the public can never repay him for what he imagines he is worth to the community. Certainly no one would expect him to agree with Moulton King to say the least of it.

Vision And Faith.

The conduct of the American people regarding public affairs, or matters that affect even the people of a state or county, would indicate that we have lost sight of our governmental affairs.

This is nothing new in the history of the human family. Reading ancient Biblical history we find a hint of the same conditions as recorded in Proverbs 28:12 when the writer tells us that "Where there is no vision, the people perish; but he that keepeth the law, happy is he."

Having lost a vision of our governmental affairs, we have evidently lost faith in our government. To condemn rather than to make an effort to correct an evil has become a habit if not "second nature" with most of us.

We often condemn the action, or lack of action, of a public official and then refuse to vote at the next election in an effort to remedy the evil. We often fall for political "soft-soaping", stale jokes and a glad hand rather than estimate the worthiness of the candidate by his past record, or real qualifications in the absence of such past record of service.

We have lost sight of our governmental machinery to the extent that crooked politicians appear to have the upper hand of us. Laws favoring the classes rather than the masses are placed on our statutes far too often. It is up to us to remedy this evil. Elect the best men to office within our judgment, and then never lose sight of the fact that we must request, and perhaps demand, the service that we have a right to expect.

Chamber of Commerce.

Chambers of commerce are of three kinds: good, bad and indifferent. Most of them are of the last named type because there is little that they can do.

Right at this time such organizations can be of lasting service to the state by sponsoring a movement known as the "State Taxpayers' Association," which has for its object the "reduction of costs in

government, and lowering of taxes."

Only recently the Chamber of Commerce of Albany, down in Shackelford county, sponsored such a movement. J. T. Newsom, state organizer, was induced to attend an open meeting of the citizens of the county.

As a result of this meeting, old Shackelford is lined up with over forty taxpayers of the county on the board of the local organization that will affiliate and cooperate with the state organization.

The state association is non-partisan, having for its object the promotion of economy in precinct, town, county, state and national government, and that reforms advocated include the re-adjustment of taxation so that real estate will not be compelled to continue a disproportionate burden as it has done in the past.

Every chamber of commerce in every small town should have a Tax Revision committee selected for the purpose of assisting in securing for every real estate owner a square deal. This is a time for every chamber of commerce to redeem its name and be of real service to the local people.

What will the Clarendon Chamber of Commerce do about the matter? It's squarely up to us to back the endorsement of the West Texas Chamber and others of the state if we are to get any beneficial results within a reasonable time.

Modern Washington.

A certain number of years ago, George Washington was born. That fact is one which, thus far, has escaped being debunked. Had he been born in 1932 instead of 1732, history would have recorded something like the following, if anything:

At the tender age of two weeks George bashed his dear mamma on the head with a 20-pound mallet, which he had found in the kraut barrel. When his father came home from collecting garbage, George was spoken to rather severely thusly: "tck! tck!"

"I cannot tell a lie, father," said George defiantly. "I did it with your mallet, and was it fun?"

Instead of whaling the dickens out of him, George's papa let him off for telling the truth, which had practically become a lost art in the family.

At the age of 8 months and 14 days, George cut the fire hose and burned down the City Hall.

"I can't tell a lie, father," said George aiming a well-directed shoe at papa Washington's left eye. "I did it with my cigarette lighter, and wasn't the blaze swell?"

A few years later, he threw his grandmother across the Delaware. "Sure I did it," boasted George, "with my little slingshot."

He kept the family pretty well entertained as time went on until one day he discovered a hatchet that was neither locked nor tied, and he proceeded to chop down the cherry orchard. Papa Washington would not have been so angry had it been the pear orchard, or the apple orchard, but somehow he wanted to chop down the cherry orchard himself. Papa so far forgot himself during this fit of anger that he spoke a very curt word to

George bringing the mother on the scene which resulted in papa Washington having to buy a cute roadster for George in order to maintain a perch on the family tree and remain in his own household ever after.

SOME GOOD MEN GUILTY

For many years we have had a political situation in this State that reflects small credit upon the intelligence of the whole people.

If there be a dog fight that is an ugly affair, there is small surprise when all the dogs around that have fight in their make up, get into the game. That's the nature of dogs.

But, gentle reader, full grown, capable and worthy men, with a purpose to pass this country along in good form to coming generations, if at all constructive, will not encourage, contribute to nor continually "growl" until they get into a political dog fight that means nothing for good and much, maybe, that is bad for the country they profess to love and serve.

In the mountains of Kentucky and elsewhere families that are wholesome and making good citizens, fall out and fight. They then sometimes, develop feuds that run for years and men that were once good citizens, become bad citizens. Boys that have fine qualities for leadership are developed with souls all shriveled with hatred and become the coldest blooded murders, persuading themselves that they have performed a patriotic duty when they land a bullet in the body of one they hate, regardless of circumstances. The justice of their action is amply supported by the blindness of their hatred.

For a long term of years we have been throwing more fuel into political fires in Texas and promoting a program that breeds demagoguery just as surely as a dead mule breeds magots. Then we find ample reason for support of our conduct in our political hatred for those whom we oppose by parading political scalp with, apparently, never a thought of the hurt to our State as result of this character of political "dog fighting."

Just as in case of the mountain feuds, good men are warped into hatred and growing up a generation saturated with political hatred to a point where constructive thought and patriotic service is benumbed largely into the background.

It has come to be perfectly pitiful to hear upstanding, outstanding capable and worthy citizens who, like the feudal mountaineer, give vent to their political hatreds when cool, capable and constructive counsel for solid conduct in going right is their unquestioned debt to society as a whole and particularly to those immediately about them. Counties, cities and towns pick this up and the great cause of temperance even has had its garments severely scorched by the fires of political hatreds.

When a lad in Mississippi, on the occasion of the visit of Sam P. Jones, of Cartersville, Ga, to Tupelo, we listened to a discussion of

To this Mr. Jones replied: "Yes, brother: Heaven is one place and hell is another too, and if you think you are going to heaven you'll never get there Bud, traveling toward hell."

That philosophy is pretty sound. If we are striving for constructive statesmanship, economy in government and justice among men, we'll never get there preaching political hatreds and forgetting those who would lead us along constructive paths because of our love for political dog fights.

It is just simply remarkable, if not infact, downright disgraceful to hear men, fit for leadership, openly admit and declare that "I'll vote for anything to down that scoundrel."

If political wrangling that develops good men into this type of argument is not to be justly classed as "political dog fights" then we appeal to our constructive political writers to supply us with a better name and illustration.

In the meantime, let us plead with all, to line up for some man

or some program worthy of your support on a basis higher than hatred of an opponent. If there is no such offered, then just keep out or offer yourself for office and maybe we can support you whether anybody else does or not.

Electric Refrigeration Will Protect His Health

ONLY mothers know how constant are the demands for between-meal snacks... how often that growing son of yours demands something to eat! A glass of milk, a sandwich, some cheese and crackers — something from the refrigerator.

Those foods he so confidently accepts... Are they safe? Are they health-building, or dangerous to health?

Scientists have found that any food is exposed to bacterial action when the temperature rises above fifty degrees. Thus it becomes unfit for use long before its taint is recognized by the normal senses.

But there's one certain and dependable way of eliminating this danger from your home—Electric Refrigeration. The modern Electric Refrigerator guarantees a constant cold, always below the fifty degree mark... And Electric Refrigeration is just as economical and just as convenient as it is healthful! You owe it to yourself and to your family to investigate without delay. Call in at the Merchandise Showroom or see your Electrical Dealer.

Convenient Terms

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

If baby has COLIC

Ach! In the night, Colic! No cause for alarm if Castoria is handy. This pure vegetable preparation brings quick comfort, and can never harm. It is the sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it safe for frequent use.

And a more liberal dose of Castoria is always better for growing children than strong medicine meant only for adult use.

TEMPLE OF TRUTH  
By the Apostle

It's like this. We are right up to the point of having to study out a plan so that GW can support a husband. We got her lined up at the hog calling contest to call a husband and win a five dollar prize and what does she do? Fell down on the job. The judges claimed that she did not snap into it natural like. If they could have heard her at home a hour before, she would have won two prizes. It just don't pay to try to be stuck up by talkin' to a husband soft before the public when they know it's not natural.

The College Hill widow says that when a girl builds air castles, she never thinks of a kitchen but she always includes a double garage.

Little Miss Geraldine Clayton is the proud owner of the toy shovel used by the little folks in placing the dirt around the tree on the Courthouse lawn during the Washington celebration the 22nd.

And speaking of that celebration did you ever see anything more impressive than the flag ceremony put on by Captain Chas. Trent and his Legion fellows?

That was the biggest thing we have attended since our mommer cut our hair with the mule shears so we could go to the circus.

That was back in the days when we would flop a stove lid over and sop sop with a rag and black our boots. It might not have been the best kind of a job, but what was the difference since we did not know any better? We put hog lard on our hair according to custom then and when we got around the stove, the grease ran down inside the collar. That fact kept us away from the stove and we nearly froze to death one June night out north of Amarillo.

Mrs. A. M. Lanham came in Saturday to hand us the price of a subscription sent her by a friend. Mrs. Lanham is not an old lady, but she has been here long enough to know how to be a good neighbor, a friend of the sick, and to practice Christianity. We need millions more like her.

Mrs. Harry Shaw of Windy Valley was in Saturday to subscribe for the Leader and made us feel like we were getting somewhere when she said the Leader was the best weekly paper she had ever read. She had been borrowing it from a neighbor for some time and we are glad to add her name to the list.

H. C. Shaw Jr. and her brother, Alfred Bowling came in with Mrs. Shaw. These boys are husky lads, bright of mind and each wore a bouquet of freckles on their faces. Next to a sore toe or a skinned nose, there is nothing that we like to see on a real boy than a batch of freckles.

Karl Adams has two Russian wolf hounds. Great tall, stringy fellows with sense like a human. They resemble a greyhound only larger and shaggy, and what they can do to a wolf or coyote, is a plenty.

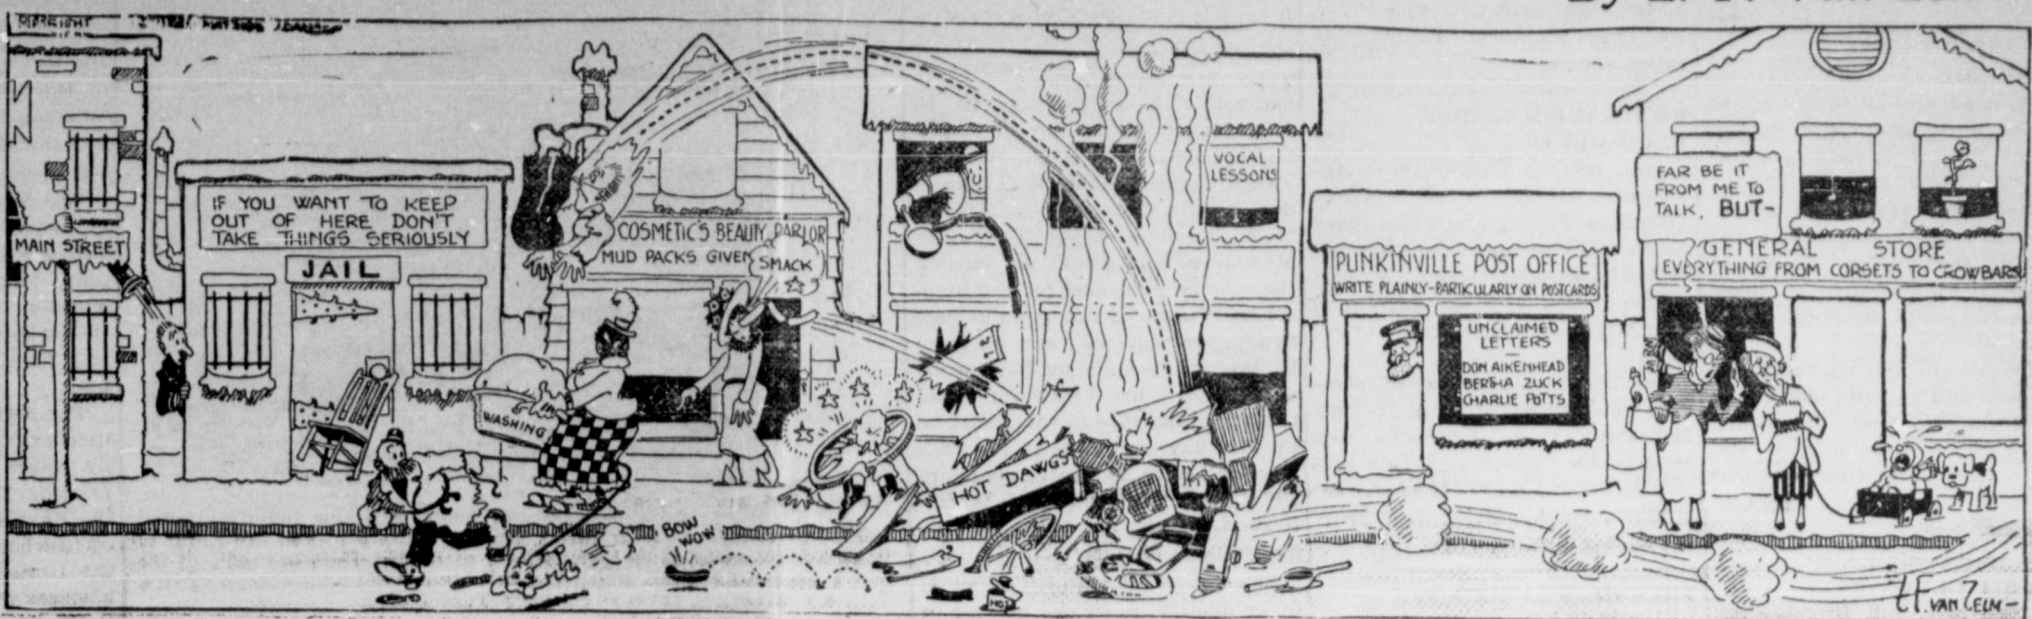

We had a big run on eggs in exchange for subscriptions Saturday. Long after dark, Clarence Ayers brought twenty-one dozen to the house when he found the office locked. We have more Ayers on the subscription list than any other name, all hustlers and friends of the Leader, and we appreciate their help.

One of the most sensible statements to come from Hollywood this season is to the effect that movie queens are to discard silk pajamas for the old-fashioned nightgown made of cotton.

Quite a number of folks are ignoring the fact that we had a blizzard last winter or spring on March 26th and the last snow storm on April 5th. A lot of spuds have been planted and thousands of onion plants and sets have been put out the past week.

And there's D. O. Stallings who ought to have been a florist instead of a coal merchant. He has onions well up and owns the only 'potato' onion patch that we have heard anything about. He also has the best rose collection in the county.

Many a woman is miserable because she doesn't know where her husband is, and would be twice as miserable if she did know.

**First Spring Omens Appear Over The Week**

Peach and apricot trees are in full blossom at this time. Fruit growers take this to mean that we are likely to miss a full fruit crop as the late March frosts always kill early blooming fruits.  
Flem Caraway, champion strawberry grower of the county, is all set for an early crop after the plants took out for a rest Christmas.  
Onions have been planted to the number of several thousand and spud patches planted the past week. There is every indication that gardening will play a prominent part in Donley county again this season.

**W. A. Poovey Announces For Commissioner**

After due consideration of the responsibility of the office, Mr. Poovey states that he has decided to enter the race for the office of County Commissioner from District No. 1.

Since this week was citizenship week, some of the 8th graders have been studying and reporting on some of these laws. Other articles will appear later.

**The Law of Health**  
The good American tries to gain and to keep perfect health.

"The welfare of our country depends upon those who try to be physically fit for their daily work." To do so I will keep my clothes, my body, and my mind clean. I can learn my lessons better if my mind is clean, and my appearance will be much better if my body and clothes are clean.

I will avoid those habits which would harm me and will make and never break those habits which will help me. Smoking cigarettes and drinking drugs are habits I hope to never cultivate. Studying habits should be made and never broken.

I will try to take such foods, sleep and exercise as will keep me in perfect health. I shall eat different kinds of wholesome foods and not just the same kinds all the time. I will set a time of so many hours to sleep and try to stick to it. I will try to get sufficient exercise every day.

**The Good American Is Self-reliant**  
I will gladly listen to the advice of older and wiser people. I will always go ahead when older people tell me anything and do not dispute their word.

I will love and respect the ones who care for me. Older people know life and me better than I. I will learn to think, choose, and act for myself. I will try to observe what is taught me.

I will never be afraid of being laughed at. If I make a mistake, and am laughed at, I must pay no attention to the laughing. There is nothing like trying to do anything. I will not be afraid of doing right, when the crowd does wrong. They may laugh at me, and think I am wrong, but I may be right after all.

I will not fear anything, for fear never made a good American. I shall try not to think about fear, and I will be alright. Always look the world in the face, and you will meet success.

—Billie Howard.

**The Law of Good Workmanship**  
The good American tries to do the right thing in the right way. The welfare of our country depends upon those who have learned to do in the right way the things that ought to be done. Therefore:

I will get the best possible education, and learn all that I can from those who have learned to do the right thing in the right way. Education will help me in my future life. A good education always helps you to get a position. It causes you to have a higher social standing. Education helps in everything you do.

I will take an interest in my work, and will not be satisfied with slipshod and merely passing work. A wheel or a rail carelessly made may cause the death of hundreds. So I must carelessly learned and

done now, may cause endless trouble for me later.

I will try to do the right thing in the right way, even when no one else sees or praises me. But when I have done my best, I will not envy those who have done better, or have received large reward. Envy spoils the work and the worker.

—Beatrice Hardin.

**The Law of Kindness**  
One of the essential laws of good citizenship is that of kindness. I will be kind in all my thought, especially about my fellow people. I will not spite or hold grudges against any person, no matter what race or color he may be. I will not think of myself more highly than of any other girl or boy.

People should not think themselves better than other persons. I will never despise any one. I should think of other as just as I am. I will not make fun of others because they do not wear as nice clothes as I do.

I will be kind in all my speech. I will not speak any words, which will make some boy or girl feel badly. If I say anything to harm others, I will lose my friend.

I will be kind in all my acts. I will not say anything which will harm anyone. If I told a story about anyone, it will make them feel as if I was not his friend. I will try to think: "How would you like to get your feelings hurt, and feel as if you did not have a friend?"

I will not be so selfish as to want people to choose my way of doing things. It will make others have a hard opinion of me. Their way of doing may be better than mine.

If any one should ask a favor of me, if I can, I will do it. It will make them feel as if they have a friend.

I will always try to apply this rule: "Do unto others as you would have them do unto you."

It pays to be kind and courteous to all—old and young.

Wilota Grimsley.

**Juniors Baseball Game**

The Junior girls baseball team of Lelia Lake has been playing a good many games this season, and one of the most interesting was with Hedley Tuesday afternoon, Feb. 23. There were nine innings played as the usual rule. We are sorry to say we were defeated by one score, but we are expecting to win the game which we have scheduled with them next week.

—Anna Bell Creamer.

**Why Should Lelia Lake Organize A Boy Scout Troop**

The purpose of the Boy Scout club in Lelia Lake is just this: "To inflame the civic temper", to develop the virile virtues in the town to help us to live at peace with all the people of the world.

Theodore Roosevelt said, "If you are going to do anything for the average man, you have got to begin before he is a man. The chance of success lies in working with the boy, not the man."

Lieutenant-General Baden-Powell, the first master of Boy Scouts said, "The boys of the nation are full of enthusiasm and spirit, and only want heads to be turned the right way to become good useful citizens. They want a hand to guide them at the crisis of their lives when they are at the crossroads where their future branch off for good or for evil."

The purpose of Boy Scouts meeting is to utilize the boy's leisure time under competent and sympathetic leadership; to popularize a large number of outdoor games and occupations of various sorts in which each boy can have a full share; and to provide the incentive that will attract and hold the boys by means of a compact well organized club body. It is the purpose to supplement all existing educational advantages and not to replace any of them.

Why not start a troop of Boy Scouts in Lelia Lake? Is there not some one who would like to be troop master for Lelia Lake? The boys here need the training as well as the big town's boys who have the organization. I believe we could organize a troop and there would be some one that would be glad to be troop master. Nearly all the boys would like to be in the troop. Suppose you be one who helps plan such a movement.

—E. J. Myers.

**Beautifying Lelia Lake**

To make Lelia Lake beautiful should be one of our greatest desires. More flowers and shrubs should be planted in the city residence yards. Shade trees always add to the appearance of any place. We should have more of them.

In order for any town to be beautiful it must be clean. Tin cans and other rubbish should not be scattered. These should be kept together and hauled to a certain place called a "junk yard." Rubbish attracts insects such as mosquitoes and flies, that are dangerous because they carry disease germs.

The roads are fairly good. They should be kept graded and the sidewalks need to be straightened or leveled.

What can the pupils do? They can keep paper off the school ground. Pieces of bread should not be scattered because these attract flies. There are enough shade trees on the school ground, but some

flowers would add to its appearance. The school clubs might donate the flower seed and they could be planted by the pupils.

—C. O.

The Seniors have been writing "If's" and a 7th grader tried it. This one beats them all because of its rhyme. It was written by Marie Howard.

**"What If"**  
Oh! What a girl this girl would be  
If she had the eyes of Bertha Lee.  
If she had Francis' finger nails  
and Othell's pretty blond hair.  
If she had La Nelle's ability to speak  
and Maxine's pretty white teeth.  
She might be tall like Marie,  
Or very short like Rosie Lee.  
If she had Vernelle's nose  
And Elsie's pose,  
Every boy would fall for her  
If she had all of those.

—C. O.

**Texas Whirlwind Club**  
The Texas Whirlwind club met in regular session Feb. 23, 1932. The house was called to order by the president, and the minutes were read and approved. As there was no business, old or new, the following program was rendered:

Reading—Vernelle Leathers.  
Original poem—Marie Howard.  
Guitar Solo—Bertha Lee Howeth  
The report of the critic was offered and the motion was made and seconded to adjourn. The house adjourned until our next regular meeting March 9, 1932.

—Marie Howard

**Chapel Program**

We had our usual chapel program Saturday afternoon. This program consisted of a play, "The coward" given by the Seniors. This play was to commemorate the declaration of Texas Independence. The school sang two songs, "Texas Our Texas" and "The Eyes of Texas." Everyone seemed to enjoy the play very much.

We had several visitors for the chapel program. We are always glad to have visitors. The next chapel program will be conducted by the Sophomores.

—Marie Underwood.

**Advance Work in Interscholastic League Work**

All the students seem to have taken an interest in Interscholastic League work, from the way they have entered the various events. There has been more entered the junior boys and girls baseball and senior girls volley ball than any other event. Quite a few have entered tennis. We have some very good material working out at various track events.

While some are working at the out door games, they are not all taking part in this, but some are working out in declamation, spelling, debating, and extemporaneous speaking.

We are working hard and we hope to carry away some of the honors.

—Effie Dean Bullard.

**Bi-Centennial Celebration**

Lelia Lake was a member of the Clarendon patriotic parade Monday. We were glad to be present with all the other schools. From this school there was over eighty pupils that is eighty started the march and some dropped in after we started. Even though we did not win the prize, we enjoyed all the events and especially the show.

We want to express our appreciation to the trustees for giving us one-half holiday. They have been very liberal to us this year. We also wish to express our appreciation to the Clarendon people who furnished the show and the other events of the day.

—Oleta Camp

**Wake Up Your Liver Bile —Without Calomel**

**And You'll Jump Out of Bed in the Morning Rin' to Go**

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in pimples. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Recent substitutes. 25c at all stores. © 1931, C. M. Co.
