COMMISSIONERS' HIGHWAY PROBLEM BOBS UP AGAIN

County Will be Required To Furnish Right-of-Way For Grade

At a meeting of the County Commissioners held here Monday, the old highway problem of many years ago came to light when Sam Braswell Sr. read a telegram to the Commissioners from Judge Ely in which it is said Ely announced that the Highway Department was ready to construct Unit No. 1.

Unit No. 1 is that portion of the highway from Hedley to Memphis, and Ely pledges the Highway Department to put in the grade and drainage without cost to the county, if the right-of-way is purchased by the county.

Just what, where or how the highway is to be routed across that country, or if it will follow the present highway, is not known.

Braswell also announced a phone message from Van London, highway engineer of this district, to the effect that the Department would put in the grade and drainage across the county on No. 5 if the county would furnish the right-of-way.

Just where the highway would be located, it is not known at this time so far as can be ascertained.

The highway matter was passed until the meeting on March 21st, when it will be thoroughly aired.

Work on the Donley county highways continues at this time, a caliche topping being placed on the sandier portions. Many do not understand the advantage in buying a highway right-of-way when the present highway is being put in good condition, and especially when some claim that a great many have not and are unable to pay taxes.

F. E. Chamberlain representing the Adair hospital, called attention to the fact that the fund account was overdrawn \$614, and asked for an appropriation of \$1000. The request was readily granted upon motion of J. Less Hawkins, and second of Roy Beverly, and unanimous vote of the Board.

Sid E. Harris presided as chairman at this meeting due to the temporary illness of Judge J. J. Alexander.

HOW TO APPLY FOR GOVERNMENT CROP LOAN AID

Applications For Federal Aid Must be Filed Prior To April 30th

Arrangements for handling the United States Government Loans for crop production in this area are rapidly being completed by C. L. Geesey, field representative of loans for Donley, Armstrong, Carson, Gray, Wheeler, Roberts and Hemphill Counties, and who will have headquarters at Pampa, Texas in care of the Pampa Chamber of Commerce. Mr. T. R. Broun, County Agent of this county is cooperating with Mr. Geesey in this work.

All applications for loans must first go to your local county committee, composed of J. D. Swift, Banker; U. J. Boston, merchant; and G. M. Allen, farmer. After this committee passes on the application, they will be sent to the field representative and from him to the regional office at Dallas, Texas. If the application has been approved through the different channels of procedure, a check will be sent from the Dallas office to the Field Representative who will personally deliver this check to the farmer making the loan.

A digest of the provisions of the Farm Loan plan is given below:

Explained in detail

1—Security: Absolute first lien on entire 1932 crop.

2—Loan limit to individual farmer, \$400.00.

3—Limit to all tenants in single county of one landlord, \$1600.00.

5—Loans will not be made to minors, to persons who did not farm in 1931, nor to persons having a means of livelihood other than farming.

6—Loans will only be made to farmers who are unable to obtain loans for crop production in 1932 from other sources.

7—Proceeds of loan may be used only for crop production purposes and shall not be used to purchase machinery, livestock, nor to pay taxes, debts, etc.

8—Loans will not be made for a total acreage of crops in excess of the average acreage planted in 1930 and 1931.

Fertilizer is explained.

9—Maximum loan for field crops in counties where fertilizer is not essential, \$3 per acre. Of the \$3 maximum \$1 may be used to purchase seed; \$1 to purchase feed for work stock or fuel and oil for tractors; and \$1 for repairs and miscellaneous expense. Local Mechanic Uses Scraps In Making Windmill

If very many men possessed the energy and skill of Will Johnson of the Clarendon Iron Works plant very few windmills would be sold.

Installing his windmill this week, it worked just as he expected. The wheel is made from scraps of mills picked up at odd times. The tower is made from forty-eight shaft housings off Fords.

In fact all the above ground portions of his windmill has been constructed from odds and ends with the exception of the tail. This tail proudly advertises to the world the makers of a well known mill product, a distinct compliment paid them by the genius in this case, states Mr. Johnson.

The mill is doing duty in his back yard at his home where he nurses with satisfaction a strawberry patch, and annually raises one of the best gardens in the county with the aid of irrigation methods.

WHAT A STEW!

Interest Growing in City Election April 5th

With the announcements of R. S. Moss and H. J. Edgington this week, interest has begun to pick up in the city election when two commissioners are to be elected.

A number of other men have been urged to make the race, and possibly two new candidates will be ready to announce next week.

Neither Mr. Sims nor Mr. Chase have expressed themselves as favoring re-election to date so far as can be ascertained.

H. C. Brumley has been asked to act as judge of the election, and H. J. Edgington, Nathan Cox and C. L. Benson have been asked to perform the offices of clerks. The election will be held at the City Hall April 5th, which is the first Tuesday in April.

District Club President Will Speak Saturday

Mrs. J. A. Hill, district president of the Federated Clubs, will speak at the Presbyterian church in Clarendon at 3 p. m. Saturday of this week.

All the ladies of the county interested in club work of any kind are urged to be present. All those having club problems are also invited to bring those problems that Mrs. Hill may discuss the matter with them.

Mrs. Hill is the wife of President J. A. Hill of the West Texas State Teachers training school at Canyon, and is a fluent speaker well versed in club work. Those who can avail themselves of this opportunity, will enjoy a treat.

Jim Hinkle of near Goodnight and a big wheat farmer of that section, was in town Wednesday on a business mission.

BISHOP BOAZ TO DELIVER SERMON THIS EVENING

Presiding Executive North-West Texas Conference Has Special Message

On a tour of his conference district delivering "Spiritual Life Conferences", Bishop Boaz will speak to his membership at the Methodist church at 7:15 this evening.

The Bishop has been here on numerous occasions and is considered one of the most forceful men in Methodism today. His many friends both in the church and out, will be glad to take this opportunity of hearing him.

He was president of old Polytechnic college at Ft. Worth at one time and the family name is closely linked with the progress of Tarrant county and the state in the many professions.

Horned Rabbit is Killed By Hunters

While hunting near his farm, T. E. Naylor discovered that the party had killed a rabbit bearing a well defined horn some two inches in length firmly set on the left side of its head.

In describing the horn, Mr. Naylor states that it looked like any other horn. Clyde Bain and Floyd Naylor were in the party that has been thinning down the population of pests of that community recently.

Mrs. John Stansberry and daughter, Jonnie D. are visiting her brother, O. W. Latson and family.

Former Clarendon Boy Held On Negligent Homicide

Horace "Dude" Miles, formerly a resident of Clarendon, was indicted Monday by an Amarillo grand jury on two counts charging negligent homicide and failure to stop and render aid.

It is said that young Miles ran down and killed Mrs. Ruby Lawrence and Pat Hooker, and seriously injured Mrs. W. M. Seymour late Saturday night on a street of Amarillo as they were returning from a dance on foot.

Miles is being held in the Potter county jail in default of bond in the sum of \$4,750. Hooker was well known over the Panhandle as one of the most skilled old-time fiddlers and figured in many contests.

Spring Term District Court Opens Here Monday

Judge A. J. Fires, district judge of this district, will open the spring term of district court here next Monday at 10 a. m.

District Attorney James C. Mahan, will look after the state's interests in the criminal cases.

The Grand Jury will also get under way Monday, and unless they work up some new business, the term will be exceedingly short. The District Judge and District Clerk are to arrange the cases requiring a jury so that they will be tried during one week at the last of the term in order to save the taxpayers extra expenses of having a petit jury summoned for each week of court.

Mr. and Mrs. C. W. Howard, "Snooks" Cooper and Ara Duckworth of Bray were in town Saturday on their way to spend the week end at Canyon and Amarillo.

HUDGINS FOLKS INVITE PUBLIC TO ENJOY GOOD PLAY

Illustration of Temptations Of Large Cities Warning Given Young People

"The road to the City" is a play with a moral designed to illustrate some of the handicaps of the youth going into the larger cities. A penalty for mistakes and a reward for the faithful as a premium placed on manhood and womanhood makes the story all the more interesting.

Life in the rural district is compared to that of the city with a warning to those who would leave friends behind to travel new paths.

Plenty of fun is mixed up in the handicaps that overtake those who seek new worlds to conquer. There is many a laugh in "The road to the City" as tense moments come to those who become enmeshed in the tangles of romance.

The play will be presented under the direction of Frank Behringer, principal of the Hudgins school. There will be no charge for admission and a general invitation is given all who wish to enjoy a school play where the actors do their very best.

Cast:

Men:

Robert Darnell, a country physician, Frank Behringer.

Richard James, man from the city, Tommy Jacobs.

Jud Judkins, a young farmer, Hall Hardin.

John James, Richard's invalid father, Donnie Jacobs.

Dulke, a man of mystery, W. K. Hardin.

Women:

Jet Sanderson, at the crossroads Marie May.

Toto Lee, her cousin, Lopez Whit.

Lilly Morton, a girl from the city, Annie Marie Hardin.

Mrs. Sanderson, Jet's widowed mother, Dixie May.

Marie, a lady's maid, Ruby Wood.

Hudgins school, Friday evening at 8 o'clock. Two Clarendon men will speak on "schools" and "citizenship" the same evening.

Mrs. Eula Cox was a business visitor in Amarillo Saturday.

"DULCY" PROVES BEST ALL PLAYS LITTLE THEATRE

Auditorium is Packed With Throng Eager to Applaud Master Production

The Little Theatre movement in Clarendon took a long stride forward in the presentation of the three-act comedy at the College Auditorium Tuesday evening, it being pronounced the best play yet to be staged.

The play was given under the direction of Mrs. Rita Foster Stocking, to whom much credit is due for the splendid manner in which it met the approval of the public. She also took the leading role of "Dulcy", playing it up to the highest expectations of the large audience that enthusiastically voiced approval of her efforts.

R. E. Paxson, who played opposite her in the role of "Gordon Smith" was no less pleasing.

Eunice Johnson, the charming daughter of "Mr. Forbes", and Mrs. Elba Ballew as her stepmother delighted the audience with their customary skill of natural talent and skilful training.

Tom F. Connally played the part of the hard-boiled business man representing "Mr. Forbes", in a very efficient manner of grace and ease most natural.

Winfield Mosley as a "scenarist writer", Bill Word as a brother of "Dulcy", Robert Dillard as an "advertising manager", Carl Parsons as the "butler", Elbert Bowen as "Schuyler Van Dyke", and Frank White as "Mr. Patterson" his cousin, all appeared especially fitted to act their parts and played in a most creditable manner.

Jones And Moffett.

Congressman Marvin Jones has introduced a bill in Congress providing for research work in the utilization of waste farm products, the federal departments of agriculture and commerce to cooperate with some educational institution in Texas to conduct the experiments.

The bill is designed to find usefulness for cotton and corn stalks, various kinds of straws and such other waste farm products that might form the basis for a manufactured article and thus create a market for the farmer.

Representative George Moffett of Chillicothe, and a frequent visitor to Clarendon where he has large financial interests, introduced a similar measure in the Texas Legislature last session but saw it go down to defeat while measures of far less value were passed with enthusiastic acclaim by a bunch of fellows who don't care a hoot about their constituents back home.

Marvin Jones is chairman of the Agricultural Committee of Congress, and Mr. Moffett is a hard-headed business farmer on a large scale in Hardeeman county. Both men know what the farmer needs most—less waste and more and better markets.

County Audits.

In speaking of thorough county audits honestly made, District Attorney Wm. McGraw of Dallas county says:

"These audits you have been hearing so much about might cause some individuals some embarrassment, and they will result in returning no inconsiderable amount of money back into the public treasury. But that is not the important thing, nor is that the most benefit to be derived from the audits.

"The great good that will and is coming from it is the public interest that comes again from the people themselves. It has stirred such an interest all over the state that a great awakening in politics is on the horizon.

"By remedying present conditions contempt of the masses for public office will be restored to that wholesome respect for such trusts that once existed. The people are not interested in government as it was, but they are becoming interested. Conditions that have come to light (in Dallas county) through recent disclosures are the fault of us all. They are the fault of the public because of the lack of interest that has been manifested by the public in public affairs.

"There was a time when we thought of a public office as a public trust, the people thought they could buy honesty in public office. No public office belongs to any one, no one deserves a public office, but holding such an office is an opportunity to do great things."

Donley's Highways.

It begins to look like there has been a change in tactics to secure a change in the old highway locations in this county by having the Highway Department designate the various parts of the highway as Nos. 1, 2, 3 etc.

Some who are opposed to spending county funds on a right-of-way at this time when the old highway is being put into good condition, see in the new plans reported, a scheme to avoid giving the people a vote on buying the new highway location.

Since the County Commissioners cannot expend as much as two thousand dollars on a highway project without a vote of the people if the people demand that vote, there is but one way around the rights of the taxpayers—chop up the highway into sections and vote for a piece at a time.

That portion of the proposed highway from Hedley to Memphis

is known as Number 1. As so handed to taxpayers on the east side of the county, their highway grading is proposed as the first undertaking as presented to the County Commissioners Monday.

If the Commissioners fall for this, vote money to buy a "piece" of the right-of-way, a proposition to buy another "piece" of right-of-way known as Section Number 2 will bob up. Thus it may be seen that the right-of-way can be purchased a piece at a time without giving the taxpayers a chance at voicing their sentiments by a vote.

This matter will come up again next Monday, March 21st. Any taxpayer has a right to be heard by going before the County Commissioners. If you want to know what it will cost, where the new road bed is to be located, you have a right to make inquiry, and the Commissioners will no doubt be only too glad to explain their position.

IN MEMORY OF FATHER HUGHES

The passing of William T. Hughes leaves a vacancy in his family circle that can never be filled.

His community sustained the loss of one who has at all times stood for higher ideals of life and good citizenship.

During the twenty-two years that it has been my pleasure to know him I can truthfully say father Hughes has lived a consistent christian life.

Unassuming in his ways, yet he was at all times ready to sacrifice if need be to help someone that was in distress.

He was loyal to his savior, his family and his fellow man. We shall miss his pleasant visits in our home where his smile and cheerfulness helped so much in solving life's problems.

Having lived his three score and ten years and expressing a readiness to go, he willingly answered the call of the heavenly father, who said come unto me all ye that are weary and heavy laden and I will give you rest. With an eye of faith we see him in the realms of eternal bliss, where sorrow and disappointment will never more mar his pathway. To all of his loved ones, let's say in the language of David, we cannot bring him back but we can go to him.

—Mrs. W. A. Hughes.

Stock Hauling Law Effective Announces Chief of Patrol

L. G. Phares, chief of the Texas Highway Patrol, announced Saturday that a campaign would be launched at once, with the assistance of the State Live Stock Sanitary Board, to enforce the law requiring permits for transportation on the highways of live stock and poultry.

The legislature enacted a statute requiring those hauling live stock to obtain owner's permit certificates in an effort to prevent the removal of cattle from a quarantined district. Highway patrolmen or other officers can without a search warrant, require the driver of any vehicle moving live stock or poultry to produce a permit signed by the owner authorizing the transportation of same.

Failure to possess such a certificate or permit subjects the of-

Got to have her tonsils and adenoids removed and a new appendix thrown in. If Damrocks broke loose on a Ava Maria from Asia Minor, it would just be too blamed bad for us to let all that good music spill on the atmosphere and not be able to corral it.

Just to show how much some newspaper men know about live stock, we read in an East Texas exchange this week where a duroc Jersey bull farrowed seventeen pigs.

One night during the recent cold spell, we dreamed of being back in Arkansas chasing a pack of bawling hounds through the briars and brambles and woke up to find our night gown wadded up around our neck. We are willing to wear a "noobey", knit Sox and stand for a ball of asafetida hung to our neck, but somehow, we never have been able to train a night gown to be bridle wise.

It takes a smart man to make money, a genius to save it, but any fool can spend it. Right here we plead guilty to spending a lot for oil stock and leases during the time that we were all crazy about something and never did find out what it was.

Far be it from us to start any argument with the women folks, but we want to suggest right here, sister, that if you expect to get a sealer his season, you had better begin to save your money right now. The old man never will plunk down the price of something like \$18 when you need it most—he just ain't built that way. GW has saved up \$3.15 and still has hopes. She calls it a 'sealing fund' but it looks like a vacation trip to the old man.

A beautiful little girl with a red top-not handed us this:
How much does Toledo, O?
How much does Pittsburg, Pa?
How many eggs did New Orleans, La?
Whose grass did Springfield, Mo?
What made Chicago, Ill?
You can call Minneapolis, Minn.
So why not Annapolis, Ann?
If you can't figure that out,
Why Topeka, Kan.

The College Hill widow says that if a woman can attract several men—that's triumph; if she can catch a man off guard—that's marriage; if she can hold a husband in the straight and narrow path—that's a miracle.

A poultryman whose chickens had the gaps asked for advice over the radio as follows: doctor, the patient stretches the head out at full length of the neck, wings droop, appears weak in the knees and dizzy, etc. The radio man's advice: "Have the prostrate removed, cleanup, cleandown and shellout. Cut out starches, sweets and water and take our kidney, liver, gall and adenoid remedies. If wings are sprouting, this means that the patient is just two laps from the pearly gates and you better get a hump on yourself and I don't mean maybe."

ASHTOLA SCHOOL NEWS

Ashtola was glad to hear that school will go on for a while longer. We will have a seven months school.

Junior and Senior Banquet

The Juniors and Seniors are going to have their banquet Thursday the 18th. The students are very busy with the preparations. The color scheme is to be white

and pink. We have white and pink tables and pink candles. A five course meal will be served. The main dish is baked chicken, cream potatoes and English peas. We plan to have Bro. Shepherd of Clarendon as speaker. We also have several other interesting numbers on program. The Seniors are Mary Sue Graham, Tate Poovey, H. W. Lovell Jr., Ruby Lee Mason and Laura Mae Harp.

The Sophomore class is going to serve.

Senior Day

The Seniors at last got off on that long talked about senior day picnic. Due to the weather they

were not permitted to go as they had planned, therefore we went the first pretty day.

The destination was held a secret by the sponsor until we turned to drive into Lelia Lake. We were not disappointed and not knowing where we were going was lots of fun.

The day was spent fishing and boat riding. Where the most fun came in was seeing the new bands at work trying to row a boat and fish.

The day lasted far into the night. You certainly can see the effect today at school.

IN WASHINGTON'S TIME

In Washington's time grocers carried a meager stock of unsanitary goods from which the customers took a choice—or did without. Today we enjoy all of the best the world has to offer at the lowest prices in thirty years.

In Lincoln's time little improvement had been made. Shoes continued to be made largely by the 'community shoemaker' and a snug fit was unexpected. Today we enjoy the use of the best leathers and cloths made into shoes that protect the feet from every standpoint.

Never before in the history of our Nation have Uncle Sam's family enjoyed luxuries and necessities at such a reasonable price. The Leader tells you what and where to buy each week through the advertisements of reliable merchants. You have the opportunity of knowing before you visit the store.

Tom S. Hollon, Waco city tax collector, above, refused to accept \$14,600 in currency and silver, proffered in full payment of \$23,000 in taxes the city of Waco levied on the Texas Cities Gas company. This precipitated a controversy from which the following resulted: City Attorney John McGlasson, below, has been instructed to file suit against the Texas Cities Gas Co. for the \$23,000, plus 10 per cent penalty, plus \$290,000 penalty for failure of the gas company to file annual reports of its investment in Waco. McGlasson has also filed suit against the Callahan Construction company and others for \$418,000, alleging the Lake Waco pipeline is deficient; and has been instructed to file suit against the Lone Star Gas company for \$700 back tax on an easement across a Waco cemetery, where, legal papers state, the company ran its lines one dark night after the city of Waco refused it permission to do so; and he has stated that he will file suit for injunction seeking to prevent the state fire insurance commission from penalizing Waco 3 per cent on insurance rates for bad fire record, asserting the commission has the right to give credits but not to assess penalties. Hollon is temporary chairman of the tax division of the Texas League of Municipalities.

*** CHAMBERLAIN ***

Richard Dingler and family and sister Miss Gertrude returned home Friday from Goodland after visiting for a few days with relatives there.

Hauley Harrison attended to business at Paducah Thursday. Billie Lavern Rampy received

medical treatment in Clarendon last week as a result of a fall on a piece of glass. The wound on her knee will prevent her from attending school for a few days, but this will not discourage Billie, for she was physically unable to attend school last year, yet by studying at home she made her grade, and this year so far she has been exempt in all her work. No a broken piece of glass cannot put the skids under a kido like that.

Carl Adams motored to Pampa Monday.

The following were guests in the Hughes home Sunday: Misses Amie Hinkle, Pauline Brazil, Elcie May, Loma and Gelema Ayers, and Cleo Foster, Messrs. J. L. Lamberson, Tomas Carter, Jacob Longdon, Arlie Wood, Bruce and Glen Riley.

Mrs. C. L. Benson visited in the home of her mother Mrs. N. D. Hudson Monday.

Mr. and Mrs. Thackston of Goodnight were Sunday guest in the home of her sister Mrs. Melvia Rampa.

Melvia Rampa and Owen Hott has become very popular recently, for some seventy five or thirty pretty school marns have called on them in the last few days. Th's popularity is probably not all together because these boys are members of the school board, but because they are real handsome looking fellows.

Founders Day is Observed By Sims P-T A.

Observing the thirty-fifth anniversary of the Parent-Teacher Association, members of the Sims P. T. A. had one of the most impressive and entertaining programs of the entire year in the auditorium of the Jr. High building on Thursday of last week.

The program opened at 3:00 o'clock with a delightful folk-dance by sixteen pupils of the two

first grades. A pageant "The Child Foursquare" which portrayed the mission of P. T. A. work was very impressive as well as the vocal solos, "The Glee of the P. T. A.," by Mrs. O. T. Smith, singing in her usual impressive manner. Then the candle-lighting ceremony was conducted by Mrs. Paul E. Shelton

after which the audience was dismissed by repeating the P. T. A. prayer. Miss Waldron and Mrs. Headrick's rooms tied for the picture so each will be presented with one.

Weekly Poem

RIVER OF LIFE

The more we live, more brief appear
Our life's succeeding stages;
A day to childhood seems a year,
And years like passing ages.

The gladsome current of our youth
Ere passion yet disorders,
Steals lingering like a river
smooth
Along its grassy borders.

But, as the careworn cheek grows wan,
And sorrow's shafts fly thicker,
Ye stars, that measure life to man
Why seem your courses quicker?

When joys have list their bloom
and breath,
And life itself is vapid,
Why, as we near the Falls of death,
Feel we its tide more rapid?

It may be strange—yet who would change
Time's course to slower speeding
When one by one our friends have gone,
And left our bosoms bleeding?

Heaven gives our years of fading
Indemnifying fleetness;
And those of youth a seeming length
Proportioned to their sweetness.
—Thomas Campbell.

H. J. Edington Announces For City Office

The Leader is authorized to announce H. J. Edington as a candidate for the office of a place on the City Commission.

He has been a resident of Clarendon for the past seven years, is interested in a property way and has served on a number of equalization boards to the satisfaction of the public.

He favors keeping the city out of debt by practicing the necessary economy in a manner that will not be a burden to the taxpayers. He asks the consideration of the voters on his record as a citizen, and his ability to serve the public.

Collingsworth Relatives On Visit With Mayor

What evolved into a visit or get-together of childhood acquaintances took place here in Clarendon Tuesday.

County Commissioner and Mrs. H. I. Cagle of near Quail visited his brother, Mayor W. P. Cagle, being accompanied by Mrs. Mattie

West, a sister of Mrs. Cagle. When they had gathered in the home of the honorable Mayor, Mrs. Rich Holder was invited to join them for a real visit.

All of these folks were children together down in Wise county some years ago—too many to enumerate according to the Mayor who is not finicky about giving his exact age. It was a great visit, the Mayor being a generous host and expert entertainer.

Explosion Saturday Causes Death Windy Valley Man

An explosion at the Wilcox refinery west of Pampa Saturday afternoon injured six employees among them being R. H. (Bob) Bell, formerly a citizen of Donley county and a nephew of Mr. McCauley of Lelia Lake.

Bell succumbed to his burns a few hours later. Funeral services were held at Pampa and the body brought to Clarendon for burial.

The explosion took place near the tower on the pipe stills where the injured parties were working. Bell was yard foreman at the refinery and was caught in the first explosion and a number of smaller explosions, it is said, as other smaller tanks caught fire.

Amarillo Players Add Much To Crippled Children

A large number attended the "Scandals of '32" here Thursday night adding a nice sum to the fund of the Crippled Children's Council.

The play was sponsored by the local Lions club and was directed by Mike Hollander of Amarillo. Individual comedy applied to local men made a big hit with the crowd. Choruses, soloists and dancing by skilled school girls

were some of the high lights of the evening's entertainment.

Chamberlain School News

Friday night was no exception to the rule that our pupils at all times please their audience when a program is announced. There were many expressions from the large gathering that the program was a good one.

The girls won their debate by a small margin from the boys who affirmed that Radios were more

useful than Newspapers. The songs by the Glee Club met a hearty response, and the little folks played their part well.

Our boys are working out for track, with first place in mind.

Howard Hughes, Windal Wilson, J. E. Duckett, and Doyl Brazill are training for Rural Pentatholon

Oh yes, we will have a play ground team, both girls and boys. They hit 'um hard and far away.

In practice Howard Hughes is throwing the 12 pound shot 42 ft. The boys say if they had a set of these they would be fine to play marbles with.

The pupils are practicing on the comedy "Sweet Mama", watch for the date of play, exerciser.

It's in the Lelia Lake High School This fine old Junior class We work, we play, we'd like to say There's none that can surpass.

Whose Home?

"There is a queer little house; It sits in the sun. When the good mother calls The children all run.

This queer little house Has no windows nor doors. The roof has no shingles; The rooms have no floors.

In this queer little house It is as quiet as a mouse But they still live In the queer little house."

Getting Plowing Done in a Big Way

F. Richards of Pipe Creek, Texas, in Bandera county, owns an animal show and a big Texas ranch. Which makes the spring plowing on the Richards ranch a sure thing, because Rubber, the elephant, has power to burn, and power is what it takes to pull a plow. Above you see Rubber turning up furrows with ease, while Odell Campbell, her negro keeper, rides, and Adolph Stricker, a cow hand, holds the plow. Below is Rubber hauling fence posts. Richards says there is nothing an elephant can't do, and that Rubber is a most efficient farm animal.

HOLD FAST

In these days of stress and distress, of doubts, fears and distrust, we are liable to lose sight of the old landmarks, the true and tried virtues that have stood the test of the ages.

Some would stampede, some desert, some mutiny, some surrender, and thus forsake the eternal principles and ideals that were the guiding stars in the lives of our forefathers.

Faith—in ourselves, our fellow-men, and in the future; honor, grit, manhood, character, backbone, integrity—those are the things that count. Nothing else matters so very much. A man may lose his fortune—it can be rebuilt. But if he loses his honor, he is a total and hopeless wreck.

These trying times will pass one of these days, and the man who, during the ordeal, balked, sullied, repudiated his debts, lost his faith, or showed the white feather or a yellow streak, will be poor indeed.

Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blotches. Your head aches and you feel down and out. Your whole system is poisoned.

It takes these good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. 25c at all stores. ©1931, C. M. Co.

Activities in The Several Departments Denote Lively Interest

On Friday evening, March 18th at Eight o'clock p. m., the Goldston High School pupils will present "Fingerprints." This play is a comedy-drama with a western ranch setting. The city folks get the surprise of their lives when they come to the ranch intending to slick the owners out of their ranch. Many complications arise when the city slicker falls in love with the ranch owner's pretty sixteen-year old daughter. Hosi Hawks, the fingerprinter, the colored cook, and the French maid will furnish plenty of fun.

The cast:
Ned Thorndyke—Granville McAnear.
Jimmy Lee—J. D. Hendrix.
Pamina Thorndyke—Laverne Risley.
Hosi Hawks—Leonidas Elmore.
Roger Whitney—Nelson Seago.
Mrs. Roger Whitney, Sr.—Irene Rhodes.
Paulette Whitney—Virginia Harris.
Amelia Thorndyke—Lucille Walling.
Mignon Poncare—Dorothy Dillie.
Corcelin—Minnie Gollighugh.

There will be other attractions along with the play. There will be a small charge to the play.

Due to bad weather the pupils did not get to practice any of their track and field events, nor did the girls get to practice volleyball, but they hope to be able to get under way this week and next. However, they did get to work on their literary events during the severe weather. The fifth grade pupils are working on the Picture Memory contest very enthusiastically.

Everyone who can should attend this play and enjoy an evening of real entertainment.

R. S. Moss Announces For City Commissioner

The Leader this week carries the announcement of R. S. Moss as a candidate for the office of City Commissioner of Clarendon.

Mr. Moss has been in business in Clarendon for the past thirteen years. His judgment and skill in handling his personal affairs has enabled him to continue to spread out and accumulate more property.

Being engaged in an auto service station line, and conducting the only electric auto repair shop in the town, he has become acquainted with a large number of people.

Being a home owner and the owner of business property, he is acquainted with the needs of the city, the tax situation and has always been a booster for sane and sensible progress.

He solicits the votes of the Citizens of Clarendon on his merits alone, having been solicited to make this race by a large number of taxpaying voters.

Marvin Smith For Tax Assessor

Herewith appears the second article of my announcement for the office of Tax Assessor of Donley county.

Feeling that I am both worthy and competent in asking for this office, I sincerely solicit your votes in the July Primary.
