## MAHAN SPEAKS TO ROTARY CLUB LUNCHEON HOUR

### District Attorney Condemns Waste in Court Procedure Suggesting Remedies

District Attorney James C. Mahan was the principal speaker before the Rotary club at their luncheon hour Friday at Hotel Clarendon. Coming as an especially invited guest through the efforts of the Vocational Committee with R. E. Drennon in charge of the regular program.

The speaker confined his remarks to court procedure and condemned waste under the present methods. As one suggestion, he surprised his audience by stating that the office of district attorney should be abolished by having a prosecutor of equal ability in each county as a county attorney.

He pointed out other duplication of effort for which the taxpayers were responsible for the extra expense. He favored abolishing the grand jury system and the prompt trial of any accused without waiting for the district court to meet. This method, he said, would often save the accused a jail sentence pending court action, and would also save the county the expense of taking care of the accused.

He condemned the fee system as being an injustice to the official and an extra burden to the taxpayers in many instances, and especially in the more heavily populated counties.

Donley county's champion declaimers were heard in the persons of Bobbie Boston from the senior division on the subject of "Washington", and Aubrey Brady, whose subject was "To the fellow who will take my place."

These youngsters will enter the district contest at Canyon and judging from the way both boys stand a mighty good chance to win.

Judge A. T. Cole recited "Burning Deck" in which history tells of the predicament of a young lad many years ago. The Judge did not spring this humorous exhibit.

## 93 GALLONS OF WHISKEY SOAKS THROUGH CRACK

### Three Dandy Good Stills Are Included in What Might Be Termed Orgy of Waste

Tuesday forenoon was a sad forenoon around the courthouse. Sheriff Pierce and Deputy Ike Rains functioned as pallbearers. Judge Fires with the assistance of District Attorney Mahan were the executioners.

It all came about when Pierce received orders from the Court to destroy all the bootleg evidence gathered from the profession, it having become worthless as further evidence according to the Court.

Ninety-three gallons of snake bite remedy, much of which would slip a thumb nail, was poured into the abandoned cistern on the courtyard. It cracked the bottom of the cistern, or at least the liquid passed out through a crack in the bottom of the old jug and disappeared from view. Several dozen bottles of choc and home brew also went the same route, and the snake season just opening.

Among the other evidence collected by the officers is included twenty-two barrels and some twenty kegs of five and ten gallon sizes. Yes and one and a half barrels of gasoline "toner" perhaps to age the new product.

Three complete stills, cookers, worms and other gewgaws for the manufacture of the brands that would make a jack rabbit spit in the face of a bull dog. A roll of bedding was on the list it being possibly from the hospital department of the factory lest a customer become over enthused and remain indefinitely.

Local Track Squad is Third in Team Winnings Among Nineteen Contestants

At a meeting held at the Court-house this afternoon, state engineer Gib Gilchrist of the Highway Department gave out information of general interest, most of which came in the form of replies to questions.

Donley county highway work on No. 5 is substantially as follows: The county is to purchase and fence the right-of-way. The state is to complete the work of grade and drainage. The county is to obligate itself to pay for a third of the cost of the grade and drainage when paving or topping is made.

District engineer W. J. Van London explained that the highway would be located on the south side of the Denver tracks clear across the county on the survey approved from the east county line to Clarendon, with the possible exception of a change at the Browder ranch.

## CREDITABLE SCHOOL EXHIBIT SHOWN FRIDAY AFTERNOON

With the ladies and children in the majority, a large number of people took time off to visit the school exhibit at the South Ward building Friday afternoon.

Work in grades from the first to the fifth were shown in a big variety, the showing coming up to and in some individual instances exceeding the work of former years.

While on a far less extensive scale as to room numbers than in former years due to the necessity of economy, many were the compliments heard as the throng passed from one room to another. The instructors are due no little credit for their skill and patience for the work they are doing in these grades as shown by results Friday.

Miss Melba Miller of Wichita Falls spent the week end here with her uncle, C. E. Griggs and family and other relatives.

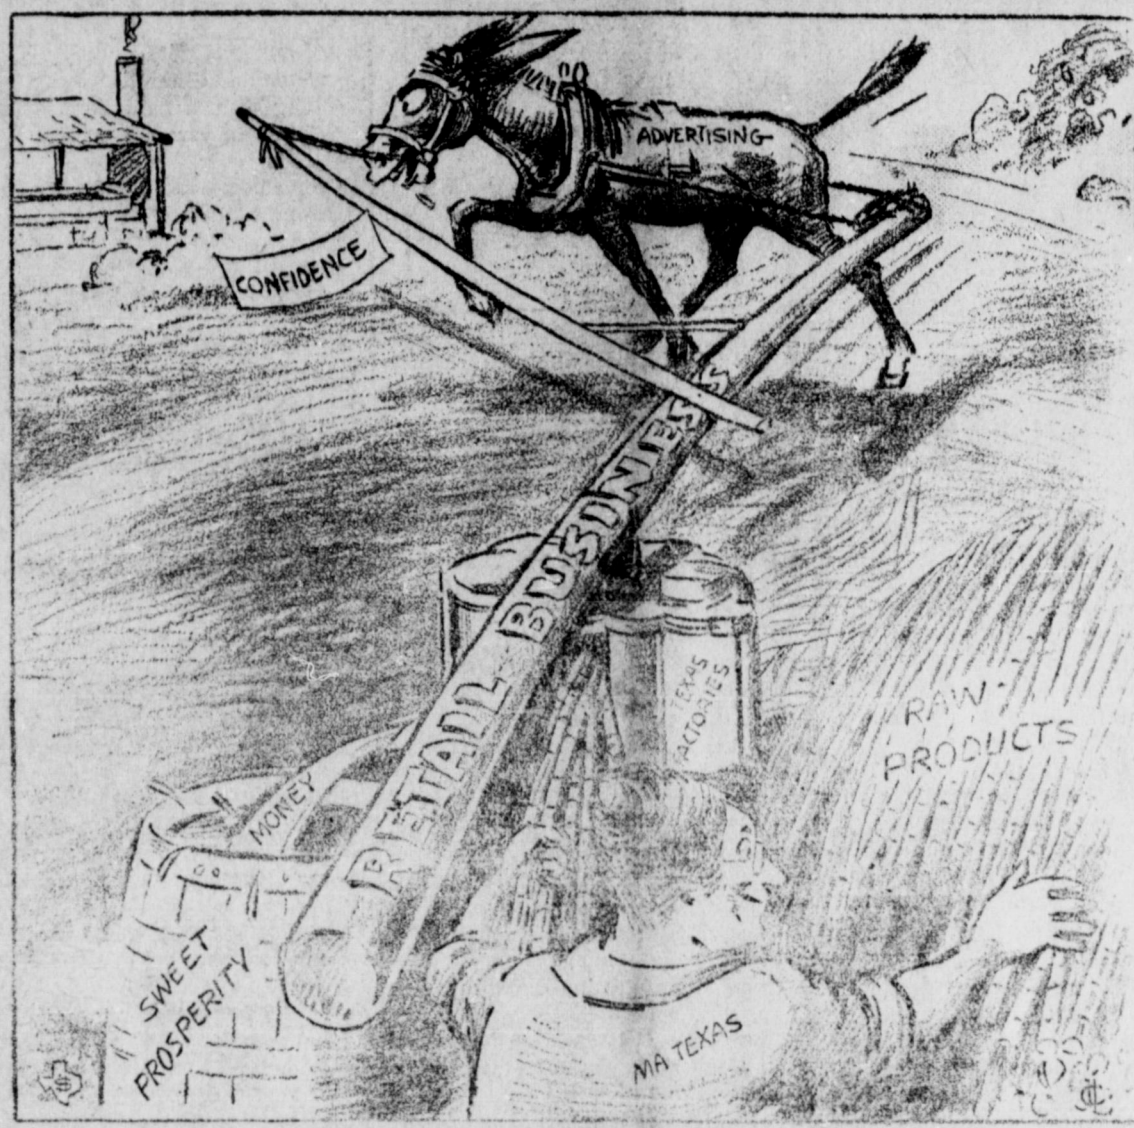

C. H. Ellis, Lelia Lake's popular postmaster for many years, has returned from an Amarillo hospital. His health has improved since undergoing a major operation.

## Chickens Missing - Owner Finds Diamond Ring

As further evidence that stealing does not pay, and if the stealer lost the ring, the party taking the hens from the poultry yard of Mrs. Geo. Lutz Saturday night came out loser by big odds.

Upon investigating the theft, the diamond ring worth about \$35 was found near where the hens are alleged to have been located when last seen by the owner.

Mrs. Lutz has no desire to keep the ring and has an ad in the classified column of the Leader in this issue stipulating the conditions whereby the owner may regain the ring, if the chicken thief lost the ring.

Chicken theft is a felony in Texas and the owner may be faced with the problem of whether to "shell down" and get the ring with a possible sentence, or keep the hens and let the matter drop.

### Jo Veta Jackson Selected As Most Beautiful From 48 Contestants

Clarendon's first beauty show sponsored by the Pastime Theatre Friday evening exceeded even the most sanguine expectations of the manager, Homer Mulkey who had the cooperation of forty-eight merchants and business men and the same number of girls.

Miss Jo Veta Jackson representing the Bon Ton confectionery was adjudged first place and winner of the loving cup given by the West Texas Utilities Co. Miss Obie Crabtree, representing the Phillips 66 distributing agency, was given second place and a box of candy. Miss Betty Weatherly drew third place in representing the Clarendon Beauty Shop and a prize of a box of candy.

Each of the three young ladies were presented with a large bouquet as a special expression of appreciation for their assistance in making the show a success.

Out of town judges were selected, a Mr. Bailey, W. J. Wooten and Cecil House given the hardest task of their experience in making the selection after no little difficulty with forty-eight beauties parading before them during the course of the evening.

The contestants appeared on the stage in groups of ten except the last group of eight, each young lady carrying a card bearing the name of the firm represented. The girls again reappeared on the stage for final judging.

Financial.

The soldier paid with patriotism. The ex-soldier is being paid with hypocrisy.

Biblical.

There might have been a time when the reader did not understand the meaning of "watch and pray", but he does now when he walks across the street.

Irony of Fate.

Many of our greatest artists starved in the studio attic, and years after being buried in a potter's field, their products sold for a fortune.

Prophecy.

Congress may be trying to balance the budget, but we'll miss our guess if it doesn't result in more taxes rather than reducing expenditures within the income.

Only Natural.

Listening in over the radio on the "harmony" banquet at Washington recently, one could readily recognize it as a Democratic party feast with a three-way split and Al Smith threatening to take off his coat and fight.

Banking.

The bill now being considered by the House banking committee to guarantee depositors against loss will go a long way toward recovery. If they can also guarantee that a depositor will not overdraw his account, we'll have prosperity.

Gobs of Goodies.

Right when we aught to be getting on a lamb's quarter diet, Grady Roberts of the Chillicothe News keeps reminding us of "that rich brown ham gravy." How about serving both at the first banquet of the Amarillo silver anniversary press meet in May?

Suggestion.

We need less government in business and more business in government. We need fewer bureaus and investigations and more common sense action. We need less fraud and graft and more patriotism. Otherwise, whither are we heading?

Reflection.

Reports from Jackson, Mississippi published in the Wichita Falls Times under date of April 5th state that more than 100,000 farms in Mississippi had been seized for sale because of delinquent taxes since January 1st of this year, says the New Orleans Pacayune.

During the same period, 29,456 farms were seized for sale on account of delinquent taxes in the state of Louisiana. Arkansas, despite the drouth of two years ago, fared a little better with only 508 farms being sold under the hammer for delinquent taxes reports the Shrevesport Times.

Each state is loaded down with highway bonded indebtedness. The highway bonds did not cause the trouble directly, but low prices of farm products did. Bonds were voted when the farmers were enjoying a Cadillac, and must be paid for when they have been trimmed down to a jitney income.

Carrying On.

Farmers of Donley county in the main are in much better condition financially right now than during the past two years. Actual cash is scarce but they have a bit more than that of the past two years at the opening of spring.

During 1930-31, farmers had lost their bearings in many instances like men of other trades and professions. He was temporarily halted in his recovery by listening to a lot of ballyhoo about the government going to take charge of his case. The moment the farmer made up his mind that his help was to come within him-

self, he got right in the job and began to come out of a serious predicament.

Every time the government dabbled with the farmer's business, it got him in bad with himself. The sensible farmer expects the government to do nothing more than merely umpire the game and see that he gets a square deal which is more than he has had for a good many years.

The Test.

Kentuckians are said to be the best judges of horseflesh, but who else wants to eat horse flesh in this nation besides Kentuckians?

Historical.

Quoting from an ancient paper of Virginia, we learn that the Washington family was noted for more than mere greatness. An item reads: "Augustine Washington (father of George) six feet in height is of noble appearance and manly proportions, with great and extraordinary muscular powers. Over at the Principia iron works, where he acts as agent, he lifts up and places in a wagon a mass of metal that two ordinary men could hardly have raised from the ground."

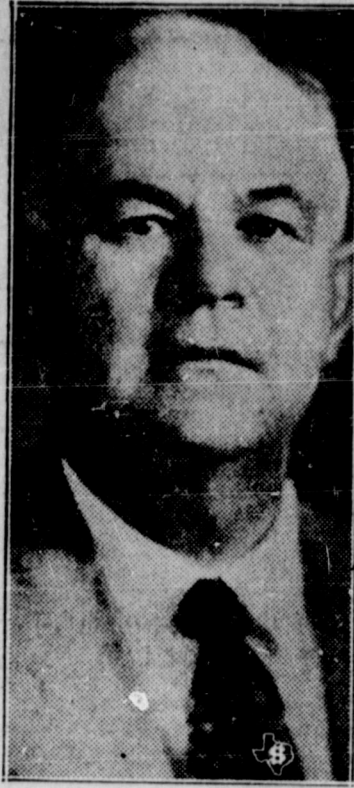

George lives in history because of political power. His father of muscular power barely receives honorable mention, and very few school children ever heard of Augustine Washington who was nothing more than the father of the man whom the nation seeks to honor through this year.

Tolerance.

John F. Grant, Republican candidate for the governorship of Texas recently made the rounds of west and north Texas. He visited every newspaper office on the round and was accorded no end of courtesies with a lot of free publicity thrown in for good measure. Had such a candidate made such a visit not many years ago, democratic publishers would have waved the "bloody shirt" and called the people to arms. The victim would have been a fit subject for mob law. Instead of courteous mention, he would have been viciously condemned on general principles.

Not so today. Mr. Grant is an affable gentleman filled with a patriotic spirit and a desire to serve his state where he has made his fortune. Many newspaper men

Victim and Route of Bandit

John McCommas, left, Dallas bank messenger who was robbed of \$38,000 by a "powdered faced" bandit Friday, told police that the bandit, who wore dark spectacles, his car and made him follow the route shown in the diagram at the right. On Royal street he forced McCommas to leave the car, then abandoned it at the point shown.

as well as voters to a large extent, honest, strightforward men, good believe the state would be infinitely better off with two contrasting parties strongly entrenched, each keeping a watch on the exponents of the other to the resultant good of public weal. We are at least more tolerant if no better.

Tell-Tale Signs.

Literature has much to do with the moulding of character. People are often judged by the character of their libraries, and individuals may be judged largely by the magazines read.

News stand men stock up with magazines most in demand. One may get a pretty fair idea of the character of the inhabitants of a small town by noting the titles on the magazines and other reading matter offered for sale on the news stands. There is no direct reflection on the news stand dealer because he is merely catering to public sales.

Today's best sellers are too often filled with lewd sex stories of red hot mammas and dissolute papas parading in unashamed licentiousness. So-called art is minus its fig leaves and the major portion of liberal society tries to get a kick out of it all for jaded nerves and dissipated bodies by adding fuel to the flames that will ultimately consume all sense of decency and self-respect. Serving the devil in youth and forgetting that "The devil has no happy old men."

Weekly Poem

TRIBUTE TO MONUMENT OF CONFEDERATE SOLDIER ON COURTHOUSE LAWN

What are you thinking, there, old soldier? As proud and erect you stand, With your knapsack on your shoulder, And your gun within your hand?

Ah, well do I remember It was in the year of '61 That so bravely you enlisted To the sound of life and drum!

And well, too, do I remember The day you marched away, Looking so brave and handsome Dressed in your suit of gray.

Leaving home and loved ones, Perhaps no more to see, To fight for the dear old South-land And your country's liberty.

And Lee, as brave a general As ever gave command, Marched you forth to battle And you fought them, hand to hand.

It was in those bloody conflicts Thousands of our heroes fell, And many a widow and orphan To you a tale could tell,

Of the hardships and privations They five long years went thru, When their homes and property were destroyed, By the boys who wore the blue.

And when the war had ended, And the cannon had ceased to roar, Thousands of our brave men had fallen Their homes they would see no more.

About the few remaining I have one more word to say, Must they, will they be forgotten, Our heroes of the gray?

A World's Record

MORE than three thousand births without a single loss of either mother or child! That is the official Platt County record of Dr. W. B. Caldwell, in fifty years' family practice in Illinois.

No wonder mothers have such entire confidence in giving little ones Dr. Caldwell's Syrup Pepsin!

If you have a baby, you have constant need of this wonderful preparation of pure pepsin, active senna, and fresh herbs. A child who gets this gentle stimulant for the stomach, liver and bowels is always healthier. It keeps children's delicate systems from clogging. It will overcome the most stubborn

condition of constipation. It builds them up, and is nothing like the strong cathartics that sap their strength and energy.

A coated tongue or bad breath is the signal for a spoonful of Syrup Pepsin. Children take it readily, for it is really delicious in flavor. Taste it! Take Syrup Pepsin yourself, when sluggish or bilious, or you are troubled with sick headaches and no appetite. Take some for several days when run-down, and see how it picks you up.

It is a prescription preparation which every drug store has ready; in big bottles, just ask anywhere for Dr. Caldwell's Syrup Pepsin.

**TEMPLE OF TRUTH**  
By the Apostle

The old Apostle has been talking too much again. Now he is caught between a rock and a hard place, or a Kansas cyclone and a newly made grave. It looks like nothing can help him out except a Hoover commission and they ain't ever done anything yet.

It all comes from quoting a citizen of Moore county on his tax problem last week. Mrs. Holcomb's son, notoriously known as the "World's Worst Hick" jabbed his Moore County News full of free space graft and set himself down to demand an "apology" of the Apostle for contaminating the minds of the public.

Hick alibis by saying that the highway bonds of Moore county have not been sold. Not depending on his own mind which is something akin to a perambulating encyclopedia, he takes himself to the county assessor who informs the Hick that the tax rate will "probably" not be more than 30c on the hundred, or 40c at the most.

While the Hick was a bond booster, and likely the informant as well, no one took the trouble to find out anything about the tax increase that would result from the bond issue because the folks in town were doing the big end of the voting and those in the country had nothing else to do but take anything that was handed to 'em. All bond issues are largely based on supposition and "probably" this and "probably" that until it is too late to head it off.

The Apostle knew nothing about the innermost secrets of Moore county's financial status. He did not know that the bonds had not been sold. He had no other information other than that given him by a citizen of that county and he, like the Hick and the assessor quoted, apparently knew nothing definite.

The Apostle refuses to "apologize" at present. He prefers to arm his informant with a double-barreled nigger-shooter and sick him on the Hick who bumped Alford and skinned Terrell's shins by kicking.

**New Uniform Designed For 4-H Club Girls**

WHEN the boys and girls meet in Washington, D. C., for their Sixth National 4-H Club Camp this June, the girls are going to look very trim and smart, according to Mary Grace Ramey.

The girls' new uniform, which she describes in an article in the April County Gentleman, is so simple, she says, that any girl can make one herself with little difficulty.

"The dress is made of a green cotton broadcloth with a detachable collar of white," Miss Ramey says in her article. "The tie is white crepe de chine. Pearl buttons fasten the sleeves and the belt has a matching white pearl buckle. The correct length for the skirt is fifteen inches from the floor and the coat is long enough so that it covers the skirt yoke. The frock itself has no sleeves, but it does cover the tops of the arms just a wee bit. It looks prettier this way. The blouse and skirt yoke are in one, and every girl will fit her frock neatly to her individual figure.

"To keep the crisp knife-like edge on the skirt pleats, a row of machine stitching very close to the edge of each pleat will prove an invaluable aid.

"A rather small, soft crusher hat, of white felt, and sports shoes with approved heels, such as our pictured 4-H club girl has on, are the accessories recommended for the 4-H girl delegates to wear with their uniforms."

James C. Mahan Announces For Re-Election

District attorney James C. Mahan makes his announcement for re-election in this issue of the Leader, a personal statement of his will be found in another column of this issue.

Mr. Mahan was first elected to the office of District Attorney of this district in 1926, taking over the office on the first day of January, 1927. He was re-elected in 1928 and again in 1930.

It has often been said that Mr. Mahan has few equals in the state as a prosecutor, discharging his duties regardless of personal feelings or public opinion. His long years of experience, even yet young in years, coupled with his talent and training, has enabled him to accomplish an enviable record during the period of representing the state.

BANKERS DEVELOP  
NEW FINANCE AID

President of American Bankers Association Describes Plan and Services of National Credit Corporation

NEW YORK.—The National Credit Corporation, a billion dollar cooperative institution, is the method worked out by bankers to put into practical effect the central point in President Hoover's plan for renewing the commercial and industrial activity of the nation as proposed in his statement to the nation of October 7, Harry J. Haas, president of the American Bankers Association stated in a recent interview.

The corporation is strictly cooperative in character, he said, to unite the entire banking system and increase the effectiveness of the financial services of banks to their communities in the rural districts as well as the cities. The plan will marshal the banking resources of the country, he explained, by creating a national institution whose funds will be loaned when necessary to banks which have assets in their portfolios that are thoroughly sound but are not eligible for loans at federal reserve banks.

To Benefit Everybody  
"There is no citizen in the United States but will benefit in very practical ways from the results of the operation of this forward-looking plan of cooperation, which may be regarded as one of the most constructive steps that have been taken toward revival of sound business activity," Mr. Haas declared, adding:

"The National Credit Corporation represents an instrumentality that should have far-reaching effect in restoring the confidence of the public. The plan not only has been formulated by the country's leading banking authorities, but also will be carried out locally as well as nationally by banking representatives who have given their time and thought to this undertaking as a real public service.

"The American Bankers Association convention was in session at the time the plan was proposed and unanimously endorsed it in principle. I have examined the detailed formulation of the working plans as developed by the incessant labors of some of the Nation's leading bankers who have undertaken to put it into practical operation in single-minded devotion to the national welfare, and I am able to say without reservation that the National Credit Corporation as set up by them constitutes a practical, sound and efficient means for carrying out President Hoover's proposal."

HARD TIMES RENEW  
BANKER'S OPTIMISM

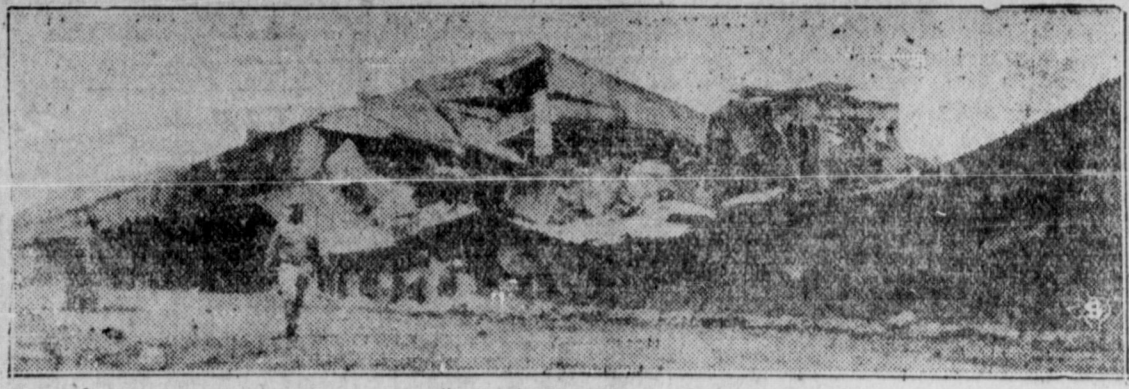

Former Bankers' Chief Finds Much in the Past Year to Inspire Confidence in Financial Reliability

ROME C. STEPHENSON, retiring president of the American Bankers Association, declared in an address on the expiration of his term of office that, in travelling about among the banks from one end of the country to the other during the past year, he had "come out of it with a renewed faith in the strength of our banking structure and our banking situation, and a renewed faith particularly in the spirit and courage of the men in the banks that have enabled them to rise unconquered over difficulties such as men never had to face before, or to accept with fortitude misfortunes that were beyond human power to prevent."

When he reflected, he said, that the "entire human economic structure has been brought to the verge of ruin under the difficulties that have swept over not only the nation but the entire world, and that the results of events of this kind react with particular directness upon the stability of our banks, and yet how few have succumbed, we may well renew our confidence in the banks of America; when we think also of how many of our bankers have stood up under the stress and storms of these times and how relatively few of them have been proved wanting in the series of crises that have assailed them, we may well feel a sincere pride in our fellow bankers." He added:

"So I come out of this year of somber experiences not as a pessimist, but as an optimist—as one with a renewed faith and confidence in the spirit of his fellow men under overwhelming difficulties. And particularly do I come out of this year as a banker who is proud of his fellow bankers for the undaunted way in which they have met their part of the great test through which the times have put the nation. I believe that this year has brought new honor to our banking traditions and our banking profession and has won for the banker new title to the faith and trust of all classes of his fellow citizens."

Heavy Damage and Three Injured in Panhandle Fire

Damage approximating \$125,000 and injury to three employees resulted last week when fire destroyed the plant of the Texas Elf Carbon company near Pampa, Texas. The three men injured were overcome by heat and fumes and taken to a Pampa hospital. Fire destroyed 600,000 pounds of carbon black, and endangered 25,000,000 pounds stored nearby.

Give Our Vote

We wouldn't wonder that Miss Pauline Jarrell, pictured above, was named Miss Plains at a recent Lubbock, Texas, beauty contest in which girls from all over West Texas competed. She won the right to go to Roswell, N. M., to try to win the title of Queen of the Southwest. If she wins there, she will go to Los Angeles to participate in a beauty contest in connection with the Olympic games. We'll lay odds on her!

Tough Job

This is Robert Cooper, first city manager of Port Arthur, Texas, assuming office April 18. His job will be to put city finances in condition so employees, including himself, can be paid. He was named after Port Arthur voted recently to adopt the city manager form of government by a vote of almost 5 to 1. Port Arthur is now \$350,000 in debt, and its former Mayor, J. P. Logan, is under indictment charged with paying poll taxes for others.

There was a god attendance at Sunday School Sunday morning. Mr. and Mrs. Stanifer of Cottle county returned home Thursday after visiting in the home of her parents, Mr. and Mrs. J. H. Duckett.

Billie Leverne Rampy returned from Dallas Thursday where she went for treatment.

She has so much improved that a change of braces and a different kind of exercise was all that the medical staff recommended.

If her condition continues to improve, she will not have to return for treatment for six months. It has looked for months like Franklin D. Roosevelt would be the Democrat nominee, it now looks like his nomination is assured since Al Smith says he is going to take off his coat and fight him, on the awful charge that Frank is allying himself with the common people. That accusation reminds us of private John

Allen of Mississippi, who so long and faithfully served his district in Congress.

Before he ran for office, he was known only as John Allen. His opponent was a noted Colonel in the Confederate army. They met in joint debate at the capital of Mississippi. The Colonel opened the discussion along this line:

Gentlemen I love the south. I love the Confederate cause, Jackson the Capital of our great state is very dear to me, and I am glad that I had the honor of directing

the defence against it when this city was so gravely in danger of being captured on a cold and dark rainy night when the onmarching hords of the yankees was checked and our capital was saved.

John Allen answered that part of the argument along this line, Gentlemen, I too was there on that memorable night when your capital was so much in danger of falling into the hands of the enemy. That was an awful night, I was only a private and I fought in the cold rain, sluch and mud. The Col-

### Senior Day

The Seniors of Lelia Lake left Friday morning for a picnic which had looked forward to all during the last year of their school work. Most of the Senior girls spent Thursday night together and because of the excitement of the coming day, they could not sleep. Two of the girls were freezing cream at one o'clock.

At five o'clock the bunch met at the school house and put up the flag. After this, we started on our journey. Only two cars were needed as there are only eight Seniors. We arrived at Dripping Springs at 7:15. We prepared eggs, ham, coffee and bread for breakfast. While we were eating breakfast, drops of rain began to fall, which caused us to think our Senior Day would turn out to be a rainy day as our Junior Day had been. We hoped we could have as much fun as we did on Junior Day.

Before our breakfast food was put away, we began our adventure down the canyon. While climbing down the canyon, we decided to go up the highest hill we could see. After we got up the hill we went through rocks and started down the canyon. We met the other bunch where we had left them and started for camp. Two of our girls who had kept late hours the night before decided to go to sleep. Our sponsor stayed with them.

The other Seniors started down the canyon again. We climbed and climbed. We came to rocks that had initials of some of the seniors of Lelia Lake. Of course our initials were placed among the others. We got lost among the many different canyons, but finally found our way to camp.

It was not long until noon, so the group of six went to a nearby hill. This hill was steep and sandy, so we slid down it. We had so much pleasure in this that we hurried to camp to tell the others.

We then prepared lunch. Sandwiches, "onions," pickles, cookies and ice cream were eaten by the hungry group.

Immediately after lunch the sleepy group were coached to slide down the hill. When they saw the hill, it took more coaching. Finally they consented and slid down. They looked as if they could have killed us as they were hitting so many bumps, but they soon laughed with us.

We took one more trip down the canyon. This time we took pictures. This trip was cut short because we were so tired.

The group ate supper and then started to Clarendon. Coming home, we sang and two of our seniors said so many funny sayings that the group was glad to visit the theatre to stop so much laughing. We saw a good show and the beauty contest.

Among the souvenirs which were brought home was a "black dirby." This is to be worn to school by our senior boys. Hearts made from rock were also brought home.

This was the most enjoyable day the class has ever spent, and in the future as each Senior looks back at the day, we may be sure a smile will appear on his or her face.

### Chapel Program

The fifth and sixth grade had charge of the chapel program Friday, April 15, with the help of four eighth grade girls. The program was rendered as follows:

"Kipling's If" and "Crossing the Bar," fifth and sixth grades.  
Playlet, "Advertising for a Companion"—Beatrice Hardin, old maid; Dona Mae Koen, poet; Rubye Jones, an Irish; Virginia Williams, a Dutch.

Quartette, Carry me back to old Virginy by Orville Dodson, Millard Cruse, Laird Reeves and Edward McDaniel.

"Oh! Doctor" (a negro minstrel) by pupils of the fifth and sixth grades.

The program was enjoyed by all. We cannot say we wish them to have charge of the program again soon, because we will not have any more chapel programs this term of school. We hope in the future that they will have charge of the program and render as good a program as this one.

—Gaynell Humbert

### Seventh Grade Picnic

The Seventh grade class and invited guests went on a picnic Saturday morning about 8:30. We went in wagons to Mr. Harold Smith's creek. It was a very interesting place for there were many shade trees, a creek the best of all, and pretty white sand.

After we had all of our exploring finished, we went on farther down the creek and took pictures. Then we played several interesting games.

Those to enjoy the lunch were: Maxine Tomlinson, Lanelle Lewis, Elsie Sisson, Rosa Lee Green, Bobby Leathers, James Bullard, Harold McDaniel, Laird Reeves, Othell Walling, Billie Floyd, Bernice Self, Marie Howard, Vernelle Leathers, Frances Johnston, Anna Bell Creamer.

—Gladys Humbert.

### Play Ground Ball

In the first of the three games series to decide the playground Ball championship of Lelia Lake, the junior boys hung a stinging 13 to 0 defeat upon the senior boys. The junior boys proved themselves to be supreme in every department of the game and behind the super-pitching of D. W. Tomlinson held the seniors well in hand. Only two men got as far as third base, while Tomlinson was holding the seniors, the juniors pounded the offerings of Eddins, Reynolds and Waldron to all corners of the lot.

After this championship is decided the juniors challenge the seniors to both volley ball and basket ball, or any other sport that they can name.
