## ROTARIANS MAKE PREPARATIONS FOR STATE MEETING

### State Convention Mineral Wells First Week in May Announced

A busy session was held Friday when the Rotarians made fourteen nominations for various offices for the ensuing term and nominate delegates to the State Convention at Mineral Wells in May and the International Convention at Seattle, Washington in June.

The International Service committee had charge of the program Friday.

Judge A. T. Cole discussed "communism" and its dangers starting off with the statement that this government was adopting far too many ideas and methods bordering on communism. He discussed the various phases of communism already adopted in this Nation and predicted the probable result, unless the people took more interest in governmental affairs.

Nominations were made for the various official positions of the Club, interest being added by more than one nominee for each place. The Program Committee proper of which R. S. Cope is chairman, will have charge of the entertainment for the luncheon hour program next Friday.

## LAST RITES FOR REVEREND DUBBS IS HELD HERE

### Was Last Survivor of Adobe Walls Battle and First County Judge

Relatives and friends paid their last tribute of respect to Rev. Emanuel Dubbs Sr. aged 89, Wednesday in a service held at the First Christian church at 2:30 p. m. By special request of the deceased two years ago, his grandson, Rev. Emanuel Dubbs Jr., pastor of the Dumright, Oklahoma Christian church, conducted the services.

Rev. Dubbs was the first county judge in the Panhandle serving Wheeler county from 1882 to 1890. He came to the north Panhandle in 1871 and was the last survivor of the famous Adobe Walls Indian battle in 1874.

He married Miss Angelina Frede in Ohio, his native state, in 1868. She passed away in 1911 in Clarendon and his body was placed beside her grave Wednesday. To this union six children were born, a daughter passing in infancy. The surviving sons are C. W., W. F., and S. S. of Amarillo; C. D. of Newkirk, N. M. and F. A. of Brewster, Oklahoma.

Since 1922 he had made his home in Milford, Indiana where he had married the widow of his brother in 1918, and who survives him. Enfeebled by age, Mrs. Dubbs was his constant companion and nurse and her christian character and noble deeds were a source of much consolation to him and those dear to him and her up to his death at Milford, Indiana April 23, 1932.

The tribute of the grandson, Rev. Dubbs Jr. was beautiful in its sincerity, and impressive in its sublime description of one of God's noblemen, pioneer, soldier, executive, minister of the Gospel and who spent years in the new west a friend of man and a defender of law and order. The promise was abundantly fulfilled and relatives and a legion of friends appreciate the practical manner in which the grandson discharged his obligation to T. M. Little Sr. as a friend of many years, offered prayer and commented on the life of the deceased extolling the virtues of the venerable man known and loved in Donley county as a leading citizen since its earliest settlement.

Judge A. T. Cole recounted personal experiences in his association with Rev. Dubbs paying special tribute to a noble christian character and picturing him as one who loved humanity and was generous and charitable.

## Martin School Building Is Burned Early Monday

Fire of undetermined origin totally destroyed the Martin school building about 12:30 Monday morning. Insurance to the amount of \$5,000 was carried. It is said that a better building will be ready for the next term of school this fall.

The school board at Ashtola came to the rescue of the Martin community and very generously donated the use of the Ashtola school building for the remainder of the term. The Ashtola school closed more than a week ago.

Attending the casket were J. R. Tucker, O. D. Liesberg, Roy Clappitt, G. A. Anderson, F. A. White and Homer Mulkey.

Honorary pall bearers were W. L. Butler, Lee Casey, Jim Casey, S. B. Arnold, F. C. Johnson, Hugh Eldridge, J. E. Teer, J. D. Mc Adams, Nat Wood, C. L. Knight, R. H. Martin, James Trent, W. C. Stewart and C. J. Talley.

Floral tributes were beautiful covering the casket in profusion. Hundreds of friends joined saddened relatives in paying their last respects to him who has left an indelible impression upon this section because of the noble example of a practical christian character. Miss Ester Belle Haning and Mrs. R. H. Carver had charge of the music.

Plans had been made to celebrate the 84th birthday of the mother, Mrs. Williams, at the Mulkey home here Friday of this week where Mrs. Williams had made her home since the death of her husband a few years ago.

Mrs. Ponder had visited in Clarendon on numerous occasions and has many friends here who will be grieved at her passing, and deeply sympathize with the aged mother and other relatives. She leaves a husband to mourn her death. Funeral arrangements had not been completed up to the time of going to press, but it is presumed the services will be conducted in Amarillo.

## TWELVE CLUBS ARE REPRESENTED HERE SATURDAY

### Mrs. O. L. Fink Elected President of Federated Clubs of County

Undaunted by the terrific sand storm Saturday, twelve clubs were represented in a meeting of the Federation at the Ladies Club Room during the afternoon. This was the first meeting since January

The Federation had been without a president for several months causing interest to disintegrate until little was being done in a cooperative way on the part of the various clubs of the county.

Mrs. O. L. Fink, long identified with progressive club work in the county, was elected president at this session. Mrs. Tom Goldston, also well known for her interest in public affairs and women's work, was elected vice-president.

Twelve clubs were represented at this meeting, one new club added, making a total of sixteen clubs with membership in the Federation

An unusual interest was manifested concerning the activities of the Federation. A number of short talks were made in which individuals mentioned the benefits to be derived from a council and federation.

Mrs. James Trent was elected a delegate to the district meeting at Canadian this week with Mrs. H. T. Burton alternate.

The Federation voted to have a program at each meeting. The Pathfinder Club will present a program at the next meeting, May 4th. All ladies interested in club work are urged to be present at the next meeting.

## DONLEY COUNTY HIGHWAY MATTERS INTERESTS MANY

### County Commissioners Will Pass On Highway Contract On May 9th

Interest in highway building in Donley county has taken on an added impetus since the visit of the highway officials here last Thursday, at which time a meeting was held at the courthouse.

A session was held by the County Commissioners. The minutes of the meeting read as follows:

"Mr. Harris explained that this session was called for the purpose of conferring with the state highway officials, Messrs. Gilchrist, Van London, and Bailey.

Mr. Gilchrist explained that the state and federal government were ready to construct Unit No. 1 which consists of grade and drainage on State Highway No. 5 through Donley county if the court would furnish right-of-way. Right-of-way to be on south side of the railroad through entire county. Mr. Van London stated that there had been request that the survey be changed through the Browder place, this would be granted if suitable location could be found.

Mr. Gilchrist stated that where Federal aid was used that there was no law to force contractors to use any certain per cent of home labor but every effort would be made to use as many Donley county laborers as possible.

Mr. Van London promised to show the Court the definite location of right-of-way through the entire county as near as possible. Court, after much discussion of matter, decided to take no action until next regular session which will be May 9, 1932."

The Highway Department officials are enthusiastic over the prospects of highway construction prospects in Donley county as is evidenced by the following news item appearing in the Amarillo News the day following the meeting at the courthouse Thursday:

"The state engineer went to Donley County yesterday afternoon on his return trip to Austin. He expressed much interest in getting that county's paving program finished at the earliest possible date. He pointed out that it was important to get the longer stretches paved first and that public sentiment would then aid in closing the shorter gaps, such as in Armstrong County on Highway No. 5. With Donley County's paving in, the Armstrong County gap would be the only one between Amarillo and Fort Worth.

Mr. Gilchrist complete his tour of the North Plains Wednesday including No. 33 to Canadian, No. 4 to Perryton and across through Spearman to Dalhart and back here on No. 5. He commented favorably on the hard-surfacing done on No. 117."

At the meeting Thursday, Gib Gilcrest, state highway engineer, stated that the highway work in

## PLENTY SPOOKS AT CHAMBERLAIN FRIDAY NIGHT

### Choice Music by Clarendon String Band And Quartet From Goldston

What is said to be the best rural play ever to be presented in Donley county is to be shown on the stage of the Chamberlain school Friday night of this week. The "Ghost Chaser" is the name of the play that is destined to furnish plenty of baffling mystery through out the evening.

This three-act comedy centers around a very mysterious old house. A famous detective has many spooky problems to solve. The Chamberlain folks announce that it is all free and invite the public to laugh with them—including the candidates.

The cast:  
Maggie Saunders, the housemaid  
Rose Ada Reid.

Wilson, the new butler, Howard Hughes.

Estelle Colfax, owner of the estate, Leota Rampey.

Beverly Wright, a friend of Estelle's, Miss Maude Crawford.

Jimmie Wright, Beverly's brother, Wendell Wilson.

Samuel Higginbottom, a famous detective, Vernon Reid.

Slim McGee—The Shadow.

The Clarendon "Rag Hounds" composed of such talent as I. B. Pierce, Buck Tidwell and Reid Aycock will furnish plenty of string instrument music in a big variety.

The famous male quartet of Goldston will be on hand to sing songs ranging from the ridiculous to the sublime and vice versa. Humorous songs including some of the latest, is on their list.

"Chamberlain school. Who'e show is free. Friday night, April 29th. Come early to get a seat" is the way the school folks announced the trouble Tuesday when the Leader office was invaded by an enthusiastic committee.

## Rev. Crimm Will Conduct Revival Here

Rev. E. N. Shepherd, pastor of the First Baptist church announces that Rev. B. E. Crimm will conduct a revival at the Baptist church beginning May 5th, and will continue until May 29th.

Rev. Crimm's home is at Marshall. He is engaged in a revival at this time at Hugo, Oklahoma. He has conducted revivals at Turkey and Wellington where the church people speak highly of his ability and the excellent results of his efforts.

Donley county would be based on a contract entered into with the County Commissioners on the 14th day of October, 1929, or a similar contract if a new contract was demanded.

A certified copy of this contract above referred to is printed in this issue of the Leader for the information of the general public.

**Too Much Salary For County Judge**

\*\*\*\*\*

Back in 1919 when the writer came to Donley county, the salary of the county judge was \$1100 a year. It was raised that year to \$1500 and remained at that figure until 1929.

During 1929, the county judge's salary was raised to \$2100 and remained at that figure until 1931. A raise was made during 1930 and the county judge's salary was increased from \$2100 to \$2220, that being the salary paid since January 1st, 1931.

During these hard times when tax money is scarce and only about 60% of the people able to pay their taxes, the county judge's salary should not be more than \$1200 at the most.

I have been solicited to make the race for this office, and should I decide to do so, and should I be elected, I shall insist that the pay of the county judge be reduced to \$1200 a year, thus saving the taxpayers \$1020 a year or \$85.00 a month on that office alone.

We need more economy in our government. The taxpayers should be given a better deal, otherwise they never will catch up with their tax payments. The taxpayers are being forced to economize, and it is nothing more than right that I should be willing to do the same thing if they see fit to elect me to be office on a platform of rigid economy.

Chattel Slaves.

The laws of Georgia require that one pay all back taxes before being privileged to vote in a general election. Most of us here in Texas look upon the payment of a \$1.75 poll tax voting requirement as nothing short of disfranchisement of the laboring class.

Funny Bankers.

Bankers as a rule are not especially noted for having a highly developed sense of humor, but the Irving Trust Company of New York will have a chance at making folks smile. The trust company recently had to take over the bankrupt funny magazine, Judge, established in 1881, as receiver.

Petticoat Rule.

On April 5th Jasper, Arkansas elected seven married ladies to the seven offices to be filled in the town's administration. These ladies went in over the protest of seven male candidates on a "clean up the town" platform.

The local newspaper states that "it was one of the most spirited elections ever held in Jasper." At last reports the ladies had every scalawag running for cover. It merely goes to prove that a town's greatest asset is its good women. Luck to them.

The United States.

In writing on the subject of "What's the matter with the United States", William Allen White, famous editor of the Sunflower State says among other things, "the people of the United States are scared, angry and asleep in an enchanted spell without a plan, program, leader, vision or leader."

A Kansas minister says that if he had added "they have no money, ambition or religion, he would have come nearer hitting the nail on the head."

Soldier Payment.

Should the ex-soldier be paid what is justly due them under the Wright Patman bill, Donley and nearby counties would benefit as follows: Donley, \$168,502.04; Armstrong, \$54,662.18; Briscoe, \$91,787.80; Carson, \$127,172.90; Collingsworth, \$237,449.62; Potter, \$756,633.60; Gray, \$362,717.80; Hall, \$278,581.72.

These figures are taken from the Congressional Record and are presumed to be correct. Should debts be paid to these men now, it would mean much to this immediate section of the Panhandle. Write your congressman to vote for the bill.

Radio Programs.

At this time when thousands are disgusted with radio programs consisting of cheap music, stupid jokes and tiresome advertising that have vulgarized a wonderful invention, it is encouraging to learn that the international radio programs begun on the 14th of this month will continue through the year.

It is estimated that over one hundred and seventy-five million English speaking citizens of the United States, Canada and England, all using the same language, may be reached with the same broadcasts to better cement the interests of these people, and create a better understanding.

Personal.

One may gain some idea of the value of information emanating from the Bureau of Census in Washington by reading "Canal Boat Children in the United States," a neat booklet of twenty-two pages giving a history of the habits and customs of the whole 323 children of the entire United States making their homes on canal boats.

People interested in canal boats should read it—it's paid for already. Of course the cost of issuing such a small booklet will not break Uncle Sam, but it does show to what ends these bureaus may go to keep the boys busy, and

justify a large expense account. Why not a treatise on how to grow spinach in a bath tub?

Arkansas is Killed.

Representative Johnson of Johnson county, Arkansas is quoted in the Little Rock Gazette as saying that a member of the Highway Commission of his state has profited to the extent of a million and a half dollars.

The Legislature, serving without pay, was dismissed recently by the Governor. When over two thousand taxpayers met in Little Rock recently to insist that the Governor call a special session of the Legislature wherein the members promise to serve without pay, the Governor refused their request.

It was the purpose of the Legislators to take drastic action in reducing state expense accounts which they claimed would save the taxpayers upwards of five million a year. Another meeting of the taxpayers is scheduled for May 2nd in Little Rock.

Dirty Shame.

Did you know that during a legislative session of 30 days, the taxpayers are charged with fees amounting to \$420 as one little item. What for? Nothing else but shining shoes of the members.

Colored porters are paid at the rate of \$3 per day to keep the shoes of the members bright and shiny. The total cost for a 60 day session amounts to \$840. This is but one of the small items of waste at the expense of the taxpayer.

On top of this disgraceful method of "hooking" the taxpayer, state employees often eat at state expense totaling more than \$150,000 during the year.

These facts are mentioned here merely to show the average taxpayer what goes with his money. This legalized graft is but a drop in the bucket to other forms of indiscriminate waste going on in the state, and which 95% of the weekly papers going into the homes of the common people are afraid to mention.

Spreading Idle Rumors.

Idle rumor is a busybody. It never does any good, and it frequently does considerable harm, and all too often innocent people are its handmaidens.

In this issue of the Leader appears a certified copy of the contract upon which the Highway Department asks your County Commissioners to issue county

warrants variously estimated at \$30,000 for the purchase of a right-of-way across Donley county paralleling the Denver railroad on the south side.

The Leader is willing to pay for the certified copy and print it for the express purpose of acquainting the public with the real facts that will face your Commissioners on May 9th.

Read it. Make up your mind regarding the investment. The Leader is of the opinion that the voters possess sufficient intelligence to take care of the matter once they know the facts, and the voters are entitled to the facts.

Slashing Gov. Expense.

Municipal, county and state governments must follow the precedent set by private business, and slash expense, throw out inherited impediments to progress, and eliminate waste, if their cost of operation is to be cut. A recent survey shows that the average cost of government of 146 towns and cities in Texas rose from \$24 per capita in 1915 to \$56 in 1929.

We cannot have tax reduction so long as we demand "improvements" costing millions for which we have no real need. Thousands of Texas citizens today are forced to do without the "necessities" that our forefathers never knew.

We cannot have tax reduction so long as we pay little attention to our country government, make a practice of electing unsuitable men to office, and follow that by dashing to the polls to vote for bond or warrant issues.

The public alone has the power to bring taxes down. When it exercises that power, the tax problem will solve itself.

Lactealists.

The newspaper profession of the Panhandle is threatened with the loss of one of its most valuable members in the person of none other than Henry Deskin Wells, more commonly known to the tribe as plain "Deck."

Deck lays claim to owning the champion milk producer of the Panhandle, a twenty-pound canine being worthy of the effusive promulgations of the famous juggler of words. This milk producer is referred to as a "mother dog" which leads to the natural conclusion that it is of the female species.

Collingsworth county leads in many industries, and possibly the dairy industry if we are to believe that Deck owns and operates a dog dairy equipped with a mother dog, weight twenty pounds giving a half a gallon per day, and who would there be to doubt it? May we ask about the cream test since we might be interested in purchasing stock of the Wells Canine Dairy?

It's a long leap from the highest pedestal of the Fourth Estate up to a dog dairy, but Deck Wells can make it. He has never failed in any of his other undertakings, once his mind is fully made up.

Press as a Factor.

The modern day press, whether it be a country weekly or daily, a magazine or periodical of any nature, continues to bring more publicity that the "power of the press" has been an educational fact for more years than the average man cares to juggle in his statistical sojourn.

Some are devoted to specialized subjects, others are purely political or religious, and some are merely the mouthpiece of organized gangs corrupt in their actions using the publication as a cat's paw with which to mislead the public.

At this particular time, the country weeklies of Texas could render no greater service than to expose graft and to expose the many instances of waste of the taxpayer's money.

Some no doubt heed the jingle of the shekels and keep quiet. Others refuse to step out on the side of the common people because they are moral cowards.

In a state like Texas, with only one party dominating, the country weeklies are in a position to render a great service by exposing corrupt practices and arousing public sentiment. Texas can never "clean up" except through the influence of aroused public sentiment.

The Star-Telegram, so far as known, is the only big daily in Texas with the required intestinal fortitude to expose petty graft and waste of tax money. This daily is gradually edging into the limelight of popular favor and may become a great power on the side of the people during the campaign.

Yes, "the power of the press" is a great factor; but perhaps we ought to say that "the powers that be" are greater just now.

Federal Officers Raid in Freestone County

An all-night dragnet at a Freestone county bridge near Fairfield, Texas, last week resulted in the seizure of more than 100 gallons of whiskey, confiscation of six automobiles and the arrest of 14 men and a woman by federal officers. The boxes and sacks in the picture show the seizure and Officers Paul Kern, G. C. Quinn, W. R. Dickens, Joel R. Patterson and Frank Haddix are shown left to right.

Dave Shanks a Candidate

Now that I am a candidate for the Senate from the Panhandle (31st) District, some tell me that I must be careful of what I say and do in order to keep everybody and everything in line so that I may be elected.

My reply to this is that I am running for the Senate for the reason (a) I want to be Senator, (b) I know at least in part, the needs of this district, (c) I think that I can serve the people in the capacity of Senator in such a manner as will be a credit to the district. Other reasons will be given later.

The public of this senatorial district don't want a mealy-mouthed, jelly bean with a twine string for a back bone in the Senate. At least I don't think they do, and I know people. If they do I don't want the senatorial job. While I want everyone's vote, I want it without obligation to any special few but with only the obligation that all public officials are due-to-serve to the best interest of the people they represent or serve.

If you people of the 31st Texas Senatorial district send me to the Texas Senate, and I hope you do and I am asking you to do it, do so with the understanding that I am going to be the Senator. No lopped-jawed set of lobbyists are going to get their claws hung into me. No bunch of beer-soaked political ham-strings are going to

own me. I am no novice in dealing with the public. I know the value of team work. I am not posing as a "know-it-all". I make no rash promises as to what I will do. I am not afraid of criticism, ridicule, or any sort of political bluffers. If elected to the Senate I'll do my best as I see it.

Mr. Shanks is a candidate for

the position now held by C. C. Small of Amarillo, formerly of Wellington.

THE CHALLENGE  
Manhood is put to the test in times like these. It tries the nerve of the man of steel who hopes for a better day, and believing this, maintains his credit and good standing in his community. The future holds in store a reward for the man worth while in every walk of life just as it always has and always will. Every man owes it to himself to maintain that self-respect that commands public esteem.

**TEMPLE OF TRUTH**  
By the Apostle

Robert A. King who thirteen years ago produced "Beautiful Ohio" died recently in New York City. Just before his passing, he asked that "One Day in May" be played on his machine. He also wrote "America's Fair Women" and "Moonlight on the Colorado", but his biggest seller of modern days was "I Scream, You Scream, We All Scream for Ice Cream."

To my mind, had he never written but the one song, "Moonlight on the Colorado," his life as a song writer would have been a howling success.

A fellow writes me attacking the Leader's slogan of "A Common Paper for Common People." He says common people are nothing but trash.

That is his idea about the matter. When I speak of the common people, I mean the "salt of the earth", the folks worth while. The folks who do and the folks who are not leeches on the general public employing skin games to "get by" without working.

Common people trash! William Jennings Bryan, the most sincere patriot since Washington's day was a 'commoner.' He was referred to as the "Great Commoner." He earned the title by standing solidly for a square deal for everyone, and that included the common people more than any one else because they are still in the big majority. Bryan was one of America's greatest men, and the only great American in public life for more than twenty years, and whose motives were never questioned. He lived and died with the respect of all right-thinking Americans regardless of race, party or creed. It's an honor to be classed as a commoner.

Some three years ago when times were flush, unable to find my screwdriver, my son was hastily dispatched to a neighbor to secure the loan of such an article. In a short time the boy returned minus the screwdriver saying that the neighbor told him to tell his daddy "to buy a screwdriver of his own." And I did just that.

Time went by and that neighbor often rode up the hill with me because I often passed near his home. Recently as we made the evening trip home, we fell to discussing conditions in general and when I asked him how he was getting along he replied: "If this d-med racket keeps up much longer, we'll get to where we will lend screwdrivers." We had a laugh about the matter. It only goes to show that even a depression has its good points by making people more neighborly.

Did you ever see a fellow who was stung by a rattler? Yeh, it's a fact that snakes bite instead of sting, but this fellow bot a second-hand flivver.

What the high wind did to the fruit crop Saturday was a plenty. Trees that were not pruned to make them spread close to the ground, lost practically all the fruit and that applies to all kinds of fruits.

The Apostle owns a rose colored cat. Some people do not believe there is such a thing but it is a fact. This cat is yellow.

Did you ever wake up in the morning with a birdcage taste in your mouth? Well, you need lamb's quarter greens and lots of 'em.

A recent government report taken from figures received from all the states shows that there were 15 divorces granted to every 100 marriages. The same report states that 40 years ago, the rate was 5.5 divorces to every 100 marriages.

Oswald Jacoby, nationally known bridge authority, came to Dallas Monday, April 18, to lecture on bridge, and left Monday, April 25, with a new wife. She is Mary Zita McHale, Texas' best woman tennis player. Jacoby met her at 7 o'clock Monday evening on the courts of the Dallas Lawn Tennis club and awakened his host, Eli Sanger, at 3 A. divorces to every million marriages; today there are 1,540. Increasing at this rate leads to the inquiry as to whether home life has grown less interesting, or has the prejudice against divorces about all vanished. Probably there is quite a bit of each.

The same report tells us that five wives are granted divorces to every two husbands. Now have the women become more independent, or are the husbands getting sorer and just walking or autoing off and leaving them?

**Old Timer Visits Clarendon Over The Week**

S. J. Newcome, a resident here many years ago and among the few who came here in 1892, paid Clarendon a business visit the past week.

He is now making his home at Little Rock, and is interested in a chain of hotels over the state. While a resident of Clarendon, he conducted a grain and saddle business. G. W. Antrobus, H. W. Taylor, W. H. Patrick and possibly a few others were among the few grownups here at that time who continue to make Clarendon their homes.

The many friends of D. P. Ross will regret to learn that his health has been declining for some time at his home in Amarillo. Mr. Ross was a resident of Clarendon for more than thirty years.

**R. F. Morris Passes Away Wednesday Morning**

A message received by a son, J. H. Morris, conveyed the sad news of the passing of R. F. Morris at Willington, South Carolina early Wednesday morning. His death was due to heart failure from which he had suffered for some time and his death was not unexpected.

Aside from a son here, Mrs. Brice Kennedy, a teacher in the Clayton, N. M. schools, and Mrs. Roberta Ryan, librarian of the Wichita Falls schools, are his daughters and the only relatives in the southwest so far as can be ascertained.

Mr. Morris came to this section in 1919 and remained here until little more than a year ago he and Mrs. Morris returned to the old home in South Carolina where he had large farming interests claiming his attention.

Mr. Morris was an active worker in the Presbyterian church and has many friends here who will regret to learn of his death.

Dr. and Mrs. Geo. Slover were guests of Mr. and Mrs. H. T. Burton Tuesday.

Mrs. R. A. Chamberlain returned home Monday after a very pleasant visit of several days with her daughters at Ft. Worth and Greenville.

A cranky gasoline lamp in a chicken brooder located in Olan Castleberry's garage flared up Wednesday morning calling out the fire department as a matter of precaution. No damage was done by the lamp except to create excitement.

### HIGHWAY DEPARTMENT CONTRACT WITH COUNTY COMMISSIONERS

A copy of the contract for proposed highway construction in Donley county is printed here that the public may have a better idea of its contents. This is a certified copy taken from the records in the office of the County Clerk.

The State of Texas)  
County of Donley)

Came to be considered the question of the construction of earthwork and structure on State Highway No. 5 from Hall County Line to Armstrong County line in this County.

Should the State Highway Department decide to advance the necessary funds for the construction of earthwork and drainage structures, we agree to furnish the State Highway Department the necessary Right-Of-Way, to be in no case less than 100 ft. wide, and on location approved by the State Highway Department; this right-of-way to be furnished free of cost to the State of Texas and to be fully fenced and delivered with satisfactory title.

We understand that if the Highway should be constructed on such a proposal as is herein contemplated, this county will not be relieved in any way of any obligation that may exist now or in the future to furnish its proportionate share of the complete construction of this highway.

We further agree that if any bond issue is voted in this County or in any Road District embracing this highway, to provide such funds in the election order as may fulfill the county's complete share of such construction in such manner as may be required by the existing policy of the State Highway Department at the time such election is called.

It is understood that this action is taken primarily to expedite the construction of earthwork and drainage structures in order that such earthwork may become seasoned and settled, and does not, in any way, bear on the ability of the County to provide funds, or its willingness to provide its necessary share of construction.

### COPIOUS RAINS FALL OVER ENTIRE TEXAS PANHANDLE

Donley County is Drenched By Slow Rainfall Over Two Days

Beginning with intermittent showers Tuesday, the rainfall grew more generous Tuesday night with a fall of .47. This continued at intervals until near daybreak this (Thursday) morning when the official gauge in charge of Joe Goldston showed a total fall of 1.59.

Reports from Lubbock territory gave the fall over the south plains as ranging from one to two and half inches. The Denver road reports rains on that line from northern New Mexico south to Wichita Falls.

A highway meeting scheduled for today at Albuquerque was postponed due to washouts and muddy highways. The Pecos valley reports a heavy rain by radio this morning.

West Oklahoma reports good rains over the territory covered by the Rock Island.

Wheat men are jubilant as they see an end to high winds. The acreage has been greatly curtailed by adverse weather conditions, and with a prospective short crop over the western states as far north as the Dakotas, it is believed that a fair price will prevail this season.

The plentiful supply of moisture means much to farmers of Donley county. Sudan will be planted at once, they say, and the remainder of the land not already prepared, will be made ready for general crop planting this month and next.

Grass already coming, will afford excellent pasturage within a few days. Stockmen had reported an extra amount of 'seeded' grass appearing to take the place of the acreage that failed to show up last season. This gentle rain soaking into the ground as it fell is a boon to stockmen.

T. M. Little Jr. and A. M. (Dusty) Taylor returned the last of the week from a business trip down in the Del Rio country where they report business conditions improving.

W. A. Clark Jr is attending an educational rally at Dallas this week end.

This is the first trip to the Panhandle for these ladies and both were thrilled with the new scenes. Fortunately, they had been advised to wear winter clothing since the cool, bracing atmosphere here was quite different to the balmy spring breezes of the lower altitude to which they had been accustomed at this time of the year.

Bro. Ingram preached at Jericho Sunday morn; Grandview at 4 o'clock; Hopkins that night. He also preached in the Hopkins community, Monday. Out of the four sermons preached, he had six conversions.

A "whale of a crowd" heard and saw the Hudgins school put on "Worthy Vagabond" at the Chamberlain school building Friday nite.

The Clarendon "Rag Hounds" spread the music for which the crowd asks the Leader to thank them.

There is quite a bit of friendly rivalry between the two schools as to which has the best amateur talent for presenting the plays. The matter has not been definitely decided say the folks out that way Chamberlain is coming back with "Ghost Chaser" Friday night of this week.

Mrs. Fred Chamberlain and Mrs. W. G. Word are representing the Presbyterian church at the meeting of Dallas Presbyterian at Sherman, Texas. They expect to return the latter part of the week.

### What April 21 Means to Me

April 21, 1836 there occurred the battle that is remembered by all Texans. That battle was the battle of San Jacinto where the Mexicans were so hopelessly defeated by Houston's army. After that day, Texas has never been under the rule of a foreign nation. Anytime San Jacinto Day is mentioned, most Texans feel a great reverence for the liberators of our country as well as a just pride that our forefathers had a sense of justice and wished for freedom enough to give their lives that we might be Americans instead of Mexicans. The battle of San Jacinto really made it possible that we all become Americans, therefore it is the most momentous day in Texas history.

Correction—The name of Virginia Gee Leathers was omitted from the A & B honor roll last week. We are glad to include her on the list.

## Etex Chamber Leader Dies in Crash

Above is the wreckage of the plane in which Henry G. Black, prominent Galveston business man, fell to his death last week, and Miss Susie Bell Fain, his passenger, was seriously injured. Black had named director of the East Texas chamber of commerce just prior to the crash at Lufkin. Miss Fain, also attending the convention, asked for a ride in the plane and Black complied.

ginia. As his father had a very strong character, and his mother was one of the daughters of the Aristocracy, it is no wonder that Thomas grew to be such a wonderful man.

He was educated at the famous old William and Mary College. In 1767 he was admitted to the bar and became successful and later married a wealthy widow, Mrs. Martha Skelton.

Both he and John Adams were members of the Continental Congress. June 11, 1776, Jefferson was appointed head of the committee to draft our constitution of the U. S. When it was finished, it proved to be mostly of his work.

He was later the second governor of Virginia. During all his political life he had been against slavery for the colonies.

In 1785 he was made U. S. minister to Paris, and in 1796 he became vice-president of the U. S.

In 1801 he was again a candidate to be elected president, and as the final vote had to be taken from the House of Representatives and he had some political "pull" he was selected president. During his two terms, he did much good for the U. S. Among the most outstanding acts was the purchase of Louisiana. At the end of his last term, he retired to Monticello, but retained much interest in public affairs and was still considered the real Republican leader for several years.

## CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drugstore the genuine always bears Chas. F. Fletcher's signature.

Lelia Lake school receives several good magazines monthly and weekly. They are "Nations Business Review", "Review of Reviews", "Popular Science," and The Scholastic, Texas Outlook, American Legion and the Congressional Record. These magazines are very helpful and educational to the scholars of our school.

The students of Lelia Lake appreciate very much the good books found in our library. Not many schools the size of Lelia Lake has such a quality or number of books as our school has. The users of these books take good care of the books and that is the reason we have as many good books as we have.

There is not much that a student might wish to know that is not available in the books of our library.

We have already told the public how our parents and kinsmen have helped our library very much by donating books that they had in their homes. Some of the books given were of apparent value and we wish to thank the donors one and all.

The well formed system and routine in which our library is kept goes a long way in preserving our library.

The keepers of our library are very cooperative and help much in the tidiness. The librarians are: Ruth Davis, Cynthia Mae Eller, Elbert Bain and Leroy Leathers.

—Edward Morton.

**Where Does She Get Her "Pep?"**

**S**HE doesn't look seventy. Nor feel that old. The woman who stimulates her organs can have energy that women half her age will envy!

At middle-age your vital organs begin to slow down. You may not be sick, simply sluggish. But why endure a condition of half-health when there's a stimulant that will stir a stagnant system to new life and energy in a week's time?

This remarkable stimulant is perfectly harmless. It is, in fact, a family doctor's prescription. So, if you're tired of trying every patent medicine that comes along, tell the druggist you want a bottle of Dr. Caldwell's syrup pepsin. Take a bit of this delicious syrup every day or so, until you know by the way you feel that your lazy liver is again active, and your bowels are poison-free.

Men, women, and children who are run-down, who tire easily, get bilious spells or have frequent headaches, are soon straightened out when they get this prescriptional preparation of pure pepsin, active senna, and fresh laxative herbs. (Syrup pepsin is all the help the bowels need, and you do not form the very bad habit of always taking cathartics.)

Keep a bottle of Dr. Caldwell's syrup pepsin in the house, and take a stimulating spoonful every now and then. It is all that a great many people ever take to keep strong and vigorous, and absolutely free from constipation.

Chevrolet dealers sold 17,452 new and 26,573 used cars during the first ten days of April, H. J. Klingler, vice-president and general sales manager, announced.

The performance was the best for any ten-day period this year and exceeded sales during the first full ten-day period following the announcement of the present line of cars on December 5, Mr. Klingler said.

He reported that the April sales mark was 4,000 new cars higher than for the previous ten days, and 88.7 per cent above the corresponding period for March.

Improvement was general throughout the country, many zones more than doubling their sales performance over the first ten days of March, and a number of dealers reported selling more cars in the first ten days of April than during the entire month of March, Mr. Klingler said.

In the month just ended, Chevrolet dealers conducted a used car campaign which resulted in the sale of 85,298 cars to retail buyers.

Passing out of the shadow into the pure light, stepping behind the curtain, getting a clearer light, laying aside the burden of this weary mortal coil. Done with world's vexations, done with its tears and toil, tired of earthly playthings, tired and ready to sleep. Ready to bid her friends farewell and wondering why they weep.

Passing out of the shadow into eternal day. Why do we call it
