Dark Horse.

There is a strong supposition that a "dark horse" will develop at the National Democratic Convention at Chicago, and it is being said that Albert C. Ritchie, four times governor of Maryland and an avowed wet, will be the man. Just what Southern dry Democrats will do about the matter, remains to be seen, but they will do a plenty from recent reports in Democratic camps. There appears to be no such thing as harmony among the leaders.

Another Leader.

There comes to our exchange desk this week the third issue of the Clay County Leader published by W. C. Tillman and T. B. O'Bryan at Henrietta. Judging from the issue received, these native Texans know what a first-class weekly should be. Plenty of common sense reading matter, sprightly editorials carrying a punch and advertising neatly arranged in such a manner as to command the attention of the prospective purchaser. Luck to you, boys.

The Fee System.

There is a whole lot of encouragement in the fact that public sentiment is shaping against the iniquitous fee system in vogue in county offices of this state. It is a relic of the dark ages designed to encourage a trifling officer to perform his duty. That law should be repealed at the next session of the Legislature. Any public officer who must be bribed by a fee in order to get him to do his duty, ought to be forced to resign his office.

The Railroad Commission.

If we are to believe ex-Gov. Pat M. Neff, his fellow member on the Railroad Commission, has been guilty of a lot of waste, extravagance and questionable methods that should not be tolerated beyond the coming election.

Pat M. Neff has never betrayed the confidence of the people of Texas, and when he charges C. V. Terrell with misconduct in his official duties, it is high time for the voters to rise up and swat the said Terrell in the July primaries in such a manner that it will be a lesson to any office holder that he cannot betray a public trust and get away with it.

Making it Safe.

During the past two years the Carnegie Endowment tells us that Great Britain spent 535 millions for war armaments alone which does not include pensions, interest on war debts or other payments for past wars.

During the same period your Uncle Samuel paid out over 727 millions for war armaments alone. France 455 million, Italy 258 millions, Japan 232 millions and Russia 579 millions.

All of which should cause us to wonder if the World War decision really made the world safe for democracy, or that it was a "war to end wars."

Hidden Taxes.

Many citizens labor under the mistaken impression that because they do not own property they do not pay taxes. As a matter of fact they pay an ever increasing amount of taxes each year—hidden and direct. Every dollar they possess carries an invisible tax mortgage.

There must be taxation, of course, to meet the cost of government, and economic taxes are right and fair beyond any question.

The present cost of being governed is costing the nation a sixth of her income. This cost is mounting higher each year regardless of fluctuations of income or values. This has continued until taxation in many of the southern states has amounted to confiscation, and we may expect the same conditions in West Texas unless we call a halt.

State and municipal governmental expenditures have increased 20 percent a year during the years since 1913.

Every ten people employed must support at least one on a public payroll. The number on the public payroll has doubled in relation to the number actually employed at this time. If this condition of system is continued until 1953, there will be one person on the public payroll to each gainfully employed. In other words, one-half the nation will be supporting the other half.

All salaries of people on state and municipal payrolls are exempt from Federal income tax, so our Federal income rate must carry the extra load.

All of this simply means that the governmental agencies are living beyond their means. They should be forced to cut expenses just as you and I have been forced to cut corners the past few years.

Levying taxes is an easy business, and many a bungler is on the job, and the only limit is the patience of those who must bear the burden.

Political Economy And College Professors

It is deplorable that many of our school teachers and college professors have often suppressed their own views and have taught their text books of errors, through fear of losing their jobs if they taught otherwise.

Professor Edward A. Elliott, Economic teacher of Texas State Federation of Labor, a few days ago is reported to have said "wage cutting by employers of labor, over the entire nation is largely responsible for the disorganization of the markets and for the general depression of the economic conditions facing the United States."

This boldly reverses the teachings of the past. At the same convention President Parks of Dallas, is reported to have said, "I am convinced that proper relief from our present unemployment must come through the rebuilding of the entire economic system that will not only provide employment but will keep man power absorbed as new mechanical devices are developed for its displacement."

He thus boldly avers that our past economic teachings have been erroneous and must be revised. He says further, "The economic structure on which this country has been operating has 'crumpled' and a system of government is to be condemned which allows the hoarding of food and money while thousands of people go hungry and are idle."

Mr. W. G. Steward, a thoughtful economic student and writer recently said, "The great Universities and Colleges of this country for many years have consistently disposed of man after man who has dared to tell the truth about where our nation was drifting until at the present time practically all of the teachers of political economy are so thoroughly cowed that they fear to teach anything but the propaganda put out by the great money powers."

Only recently a teacher in one of our State Universities said to his students, "If I should tell what I know about finances to my classes today I would be 'fired to narrow.'" This is a typical example of the condition in practically all of our schools.

Intellectual leaders under the circumstances can do little towards helping to correct present conditions until first the Presidents of our great Universities will set their economic teachers free from the thralldom of Wall Street dictation and then we can soon be on the way to a real solution.

If our common schools and colleges are to reflect hope for the human race and become beacons of truth and progress, our teachers should scrap those old text books on political economy and at least make an effort to retrieve our future citizens and our government from the errors under which the present generation is sorely handicapped.

"Our Weekly Church Chat"

"THE BIBLE"

After an absence of about ten months, we are returning to you with our Weekly Church Chat. It is our purpose in these Chats to bring lessons of importance from the inspired Scriptures and from time to time we will deal with problems of life that should be of interest to you. In all of our studies, the "Bible" will be our text book.

The Bible will answer all of our questions, because we believe it is God's Inspired Word. The Bible, and not creeds of churches, or interpretations of commentators, will be our sole standard of appeal in religious matters. Error proceed from man, but never from God. His Word is absolutely infallible. "To the law and to the testimony: if they speak not according to this word, it is because there is no light in them" (Isa. 8:20).

In the Old Testament the approach of Christ is gloriously predicted. But in the New Testament He appears as our living, loving Lord. Without the "Bible" men would not know how to come to Him, or to live acceptably in God's sight. Belief cometh by hearing, and hearing by the Word of God" (Rom. 10:17). Without the Bible, men would be in utter ignorance of the future. There is a Bible because there is a God, and there is only one God. The Bible does not need to be defended, it needs to be taught. The Bible is the book of life, let us study it's great lessons and live. Our greatest desire should be to please our Creator, to please Him we must know His will the Bible reveals His will and what we must do to obtain eternal life.

As Christians we are followers of Christ, we must listen to Him when He speaks. Sunday morning we will study, "The Voices of Jesus." This will be a lesson of interest to all who desire to know Christ. Sunday night our subject will be, "Cleansing The Fountain". This message will be "something" different, but will reveal the cause of all spiritual trouble and will reveal God's remedy and help you to live according to His plan and program.

You are invited to study these lessons with us. The First Christian Church, W. E. Ferrell, Minister Clarendon, Texas.

Goldston, A Community Of Readers

Goldston school are using their leisure quite largely by reading good literature. This has been and being manifested by the amount of reading that they do. The pupils alone have checked 759 books out of our school library this year. Since we have only 150 books in our school library, these figures show that each book in our collection has been read an average of a little over five times. However we have evidences that they have been read more times than that, because frequently the parents of the pupil who checks a book from the library read it also. There have been cases where two or three children of a family have read a book.

Reading, in the use of leisure, is further manifested in our community by the fact that a number of the families belong to the Pathfinder Library at Clarendon. We are not able to give a count on the number of books that have been used in this way; but we are sure there have been quite a number. Besides getting books from the Pathfinder Library, we have received and passed around magazines that were given to us by the Lions Club of Clarendon. When we receive a supply of these magazines the patrons seem very anxious to secure them, and they are all willing to pass them on to a neighbor when they are through with them.

A further evidence of the fact that the pupils are reading extensively is shown by the number of Reading Certificates that they have earned this year. Seven of the pupils of the Goldston school have received these certificates which are issued by the State Department of Education and signed by the State Superintendent of Public Instruction. In order to be eligible for one of these certificates a pupil must read and report on at least fifteen books from a prescribed list of forty-two books. Several more pupils have almost completed the required number of books, and we believe that they will before school closes. Nearly all of the certificates secured this year have been earned by the seventh grade pupils, but the pupils of the lower grades are planning to read thirty books another year so that they will be eligible for a double seal certificate.

We certainly appreciate the interest in reading for these certificates, because so far as we know the pupils of the Goldston school have been the only rural pupils of the county to receive Reading certificates. Those who have received Reading Certificates are Louise Seago, Mary Earthman, Raymond Clemmons, I. B. Clemmons, Viola Clemmons, Eldon Dyer, and J. D. Hahn. None of them have stopped reading good books since they have received their certificate. This is evidence that they are reading for knowledge and entertainment instead of for some visible reward.

Mr. and Mrs. Gene Noland and daughters, Misses Vera and Eugenia, and Misses JoElla Stewart and Lucille Andis spent the week end with Mr. and Mrs. Johnnie Rex McClellan at Camp Pleasant on the J A ranch. Miss Eugenia remained for a more extended visit.

Miss Ineva Headrick "t Saturday for a visit with relatives at Wichita Falls. She will visit her father, Mr. M. W. Headrick and other relatives at Mission before returning.

THROUGH GOOD TIMES AND BAD

The "live at home" idea is gaining ground. That system of saving practiced in the homes of Donley county the past season has meant much to our people.

It safeguards one against the sudden calamity that often befalls us at times and assures independence that is within the grasp of practically every family.

Cooperative Use Pays Well

Here is a lesson in the value of co-operation.

Time was when every community had its own small, isolated electric power plant—if it had any electric service at all.

That was before it was technically possible to link up groups of towns and provide them with power through widespread systems of electric transmission lines.

Today many communities share each power plant. Thus they utilize the facilities more efficiently and receive a higher grade of service at a much smaller cost. The small town's new industrial importance is a direct outgrowth of this improvement in power supply.

The West Texas Utilities Company is rendering this dependable, inexpensive and elastic type of power supply to 125 progressive West Texas cities and towns.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

WE can never be sure just what makes an infant restless, but the remedy can always be the same. Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as Baby has a fretful spell, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of colic. Sometimes constipation. Or diarrhea—a condition that should always be checked without delay. Just keep Castoria handy, and give it promptly. Relief will follow very promptly; if it doesn't, you should call a physician.

TEMPLE OF TRUTH
By the Apostle

The above photo was taken just as the hail storm struck the old Apostle down at Hedley Saturday. He looked worse when he started down main street with a shoe and sock in each pocket and his pants rolled above his knees wading through muddy water and a slush of hail. And how it hailed! It did everything except rain pitchforks and nigger babies and might as well done that for the way the pretty gardens and well kept flower yards looked after the squall passed over.

Anyhow, along after night Mr. T. R. Moreman came along and took pity on the Apostle's bedraggled appearance and invited him out to his home where he could park on a nice clean bed and forget his troubles.

Mr. and Mrs. Moreman opened their home to the storm derelicts in that manner known only to old-time southern hospitality. The house was filled up, or shild I say beds, because the folks stranded there by highway washouts had gone to bed. The gentleman of the house informed me that he was of a Virginia strain and Kentucky bred in answering a flood of questions in my effort to find out why he and his good wife should feel so kindly toward these far less fortunate. I certainly do thank these good people and enjoyed the short visit very, very much.

Life is worth living after all. The Apostle is in receipt of a nice letter from his good friend W. W. Halcomb of the More County News with whom he had a humorous tilt recently, relative to highway construction, and which some fools mistook for a pitched battle and ran all over town trying to tell the public about it by displaying a copy of that paper.

The latest from the fashion center is to the effect that a woman should only wear hair the color of copper shavings this season, eyebrows arched like a rainbow only black (shinola will do), wasp-like figure (starve her), and long slender hands. That's getting off light even at that.

J. W. (Shorty) Bland is going in for 300 acre cotton crop expecting to give 'em the crop after it is gathered, and pay the difference out of his wife's chicken money. Don't forget the watermelons, Shorty. (P. S. Also the promise.)

The country is being saved again. The Government has sent 14 men, two carloads of nets and household junk and two boxes of pencils down to Port Arthur to study the habits of the Shrimp. A shrimp is a water spider and some folks eat 'em if you don't happen to know it.

Well, well! Here's a fish story that is a fact. "Kooch" Decker and Carl Tyree saw a 3 1/2 pound bass flop into their boat right out of Lake Johnson near Lelia last week and brought the fish to town to prove it.

A local candidate who was laid up for repairs recently with two carbuncles on his jaw is again rid of 'em and is talking more about the curative value of salve made from one-eyed peas than he is his race.

Our canned peas are about gone except for a small batch that the GW is keeping in case of sickness in the family.

Two of our kids graduating this week don't mean a thing. They'll be just as expensive as before and bother me more by trying to tell me something I don't care to hear. Speaking of graduating, when the oldest boy got that way, the Apostle as a green hand at the game wanted to show his appreciation by allowing the head professor to bite a hunk out of the Apostle's weekly allowance of brown mule. He turned it down in the

Now he is afraid it will break if he bends, and he thinks it will hatch if he stands still. That accounts for that military bearing here lately--no he don't mean to put on the dog.

WHETHER you should use a Mid-continent or a pure Pennsylvania grade motor oil is a matter for your engine to decide. The important thing is to get the finest oil in these classes that money will buy.

Sinclair Opaline Motor Oil is a scientific blend of the oldest Mid-continent crudes mellowed and filtered for an average of 80 million years. Included in this blend is the famous Cambro-Ordovician crude taken from a mile and a quarter below the surface in Oklahoma.

Sinclair Pennsylvania Motor Oil could not be better, for it is made 100% from the costliest Pennsylvania grade crude oil—the famous Bradford-Allegany crude which was formed in the Devonian

Age more than a hundred million years ago. Mellowed and filtered in its earthy bed for successive ages—ages which saw the rise and fall of life in strange forms—Bradford-Allegany crude has no superior among Pennsylvania crudes for sheer lubricating quality.

Sinclair not only de-waxes Sinclair Pennsylvania and Sinclair Opaline in the refining process—it goes one step further and takes out the non-lubricating petroleum jelly by chilling the oil down to as low as 60° F. below zero.

Note how Sinclair Pennsylvania or Sinclair Opaline stands up in the heat of hard, fast driving. Note especially at draining time how little oil has been used up—positive, visible proof of protection for the last mile as well as the first!

R. H. TEMPLETON ENTERS RACE FOR JUDGE OF 100th JUDICIAL DISTRICT

Having been solicited generously both from my home county and the other counties of the district to become a candidate for the office of District Judge of the 100th Judicial District of Texas, I have decided to become a candidate for the nomination to this office, subject to the action of the Democratic Primary to be held in July.

In announcing as a candidate for this important office, I am not unmindful that in order to discharge the duties of this important office acceptable to the people and according to the law, its occupant must possess many qualifications. Among these, he must be learned in the law, experience in its practice both civil and criminal, have poise and judgement, patience and consideration in dealing with men, and, above all, a disposition and desire to render service commensurate with the high duties of this important office. The people of this district will be the sole judge of the qualifications of the candidates offering for this office, and, as many do not know me or my qualifications, it will be in order to submit such qualifications as I may possess in order that they may determine whether or not my qualifications measure up to the above requirements.

First: I am now in the prime of life, in good health, at an age with experience when my service should be at their best, and, it is at such a time when I can render the best service that I offer my services to the people of this district.

Next: In addition to my literary training and degree, I hold the LL. B. degree from the University of Tennessee and LL. B. degree from the University of Texas. I have licenses to practice law in the states of Tennessee, Texas, Oklahoma, and New Mexico. I have this much to submit as to whether I am learned in the law.

After graduating from the University of Texas, I located at Wellington where I have been engaged in the practice for the past twenty-five years. From here I have established a practice that has carried me into nearly every county in this part of the Panhandle. There is not a county in this district and but few counties in the surrounding territory that I have not tried both a major civil and criminal case in. This practice has carried me into all the courts of this state, and, today, I have cases pending in all the courts from the Justice to the Supreme Court. I have this much to submit as to being experienced in the practice of the law, and believe it sufficiently broad to qualify me for the discharge of the duties of this office.

In addition to the practice of the law in other courts, I have served as County Judge of Collingsworth county for eight years, and four years as County Attorney. Also, served as Mayor of Wellington. During my eight years as County Judge I was not reversed in a single case. As to my disposition to render faithful and efficient service while in office, I am willing to refer to any responsible citizen of Collingsworth county where I have served as an officer.

The office of District Judge is the biggest business office in the district because it must dispose of the big business, both Civil and Criminal, in the District. This office spends much of the people's money and consumes much of their valuable time. In addition to the above qualifications, the District Judge should have a broad practice of successful experiences in business affairs and know how to dispatch business, to the end that strict economy should be practiced in this office both as to spending the people's money and consuming their time. Besides my own business, I have had the experience in helping manage the affairs of Collingsworth county for eight years, and believe that I know how to conduct this office economically both as to time and expenditure of the public money.

It is contrary to the spirit and genius of the law that the Trial Judge should become a partisan and take sides in any controversy before him, but it is his bounden duty to be fair and impartial to all litigants and their attorneys in all cases that come before him, and to follow the law as it is written regardless of whom or for who it may be. I have no pets and will be under no obligations to any one except the people who elect me, and I promise to be fair and

OUTRAGED TAXPAYERS MAKE DEMANDS

The following article is taken from the News-Globe of Amarillo, Sunday edition. It so aptly voices the sentiment of millions that we are reprinting it for the benefit of readers of the Donley County Leader.

"Telegrams to all Texas Congressmen demanding economy in federal expenses were sent yesterday by a group of 50 Amarillo taxpayers and prominent citizens.

The message was directed to the 18 members of the Lower House and Senators Tom Connally and Morris Sheppard.

The circulation of the petition was prompted by an editorial in The Daily News Thursday, under the title, "Cut or Come Home." Walter Browne secured the majority of the names to the telegram.

"I could have got a thousand," said Mr. Browne, "if I had the time. Everybody realizes that something must be done."

The Texas representatives were told that the public is aroused over the failure of Congress to cut expenses and that the prevailing sentiment is to elect new members unless "the present members meet the issue without further delay."

A copy of the message follows: "The people of this part of Texas are begging and pleading that their representatives in Congress assist in balancing the budget by reducing expenses instead of further increasing the terrific burden of taxation. Why should not government employes have their salaries reduced in proportion to those who are carrying them on their backs. They demand drastic reduction in allowance for personal expense of Congressmen. Never have the people been so aroused and so indignant as over the failure of representative government to function.

"Those members of Congress who are listening to the lobbyists of the groups and blocs that are fighting for the best of it are antagonizing and embittering the average American citizen who is still in the majority. The proposed economy bill, which is equivalent to but one per cent reduction in the national budget, is an insult to the American citizen. The prevailing sentiment is to elect new men to Congress unless present members meet the issue without further delay."

It was signed as follows:
R. S. Sutton, J. N. Beasley, F. P. Works, Jr., W. W. Gibson, Ed Oberleek, H. T. Neely, C. W. Carson, R. L. McClellan, A. J. Mayfield, J. M. Neely, M. C. Nobles, C. D. Nobles, S. J. Cates, H. C. Abbott, Thomas Currie, T. J. Wagner, W. R. Browne Jr., B. Fingold, N. O. Glenn, J. M. Bralley."

impartial as a judge should be to all litigants and their attorneys in all cases brought before me and not to take sides directly or indirectly and to follow the law and all the law as it is now written upon our Statutes Books and do my utmost to enforce the same, both Civil and Criminal.

I am very desirous to be the next District Judge of this District and I promise the people that if I am honored with this office that I will give them the best efforts of my life to make them the kind

of District Judge that they are entitled to, and will do my utmost to conduct the office economically both as to the time consumed and the money expended in running this office. And on the basis of qualification and fitness for this office, I respectfully solicit the support of the people of the 100th Judicial District.

Respectfully Submitted,
R. H. TEMPLETON

The lesson was very interesting and profitable. Those present were Mesdames Wes Mabry, Frank Jackson, Gerald Knight, Clyde Roden, Burly Brown, Sloan Baker, Berl Smith, Jess Grimes and two new members Mesdames Robert Jackson and Flaves Hams. Visitors present were Misses Ara Faye Womack and Nell Hampton, Misses Mary Lee Mabry, Mildred Brown and Miss Buttrill.

Morgan Baker was bit by a rattlesnake last Fri. Although he was pretty sick for a few days, he is doing fine now.

Mrs. Cottingham and niece of Lelia Lake were Smith visitors Monday.

The hail and rain storm Saturday caused a great deal of damage to crops and gardens.

Mr. Marvin Smith was a visitor from Clarendon last week in the community.

Mr. and Mrs. Clarence Jackson returned to Clarendon Monday after a visit in the W. E. Baker home.

Mr. and Mrs. Firis Davis returned to Groom Sunday after being at the bed side of Mrs. Lena Smith for some time. Mrs. Smith is much improved.

Mrs. Gus Sanders is leaving for Ft. Worth after an extended visit with her mother, M. J. Mary Richerson.

Mr. and Mrs. M. A. Beasley spent Sat. night with Mr. and Mrs. Sloan Baker. Ara Faye Womack returned home with them to spend a few weeks.

Inez Crow has accepted a posi-

tion in Memphis. Mr. and Mrs. Jess Grimes took dinner Sunday with Mr. and Mrs. James Long.

Among those sick this week are Mrs. Paul King and Mrs. Clyde Roden. Both are better at present. Albert Ward of Turkey visited home folks Sunday.

Mr. and Mrs. Henry Moore, Mr. and Mrs. Barney Lockhart, Mr. and Mrs. Richard Longshore visited in home of Gilmer Lockhart Sunday.

Mr. and Mrs. Garland Gardenhire visited Mr. and Mrs. Frank Jackson Sunday.

B. F. Shephard of Memphis gave a very interesting talk after S. S. Sunday. Mrs. Shephard, B. F.'s mother, was a visitor also.

The younger set gave Mr. Sloan Baker a surprise birthday party. They met at the school house and came together. Many interesting games were played and at a late hour refreshments of ice cream and cake were served to Messrs and Mesdames Jess Grimes, Gerald Knight, Marion Long, Robert Jackson, Hollis Neese, Sloan Baker and Misses Celest and Mildred Brown, Mildred Baker, Lore Harris, Ruth and Francis Knight, Eva Alexander, Inez George, Mary Ledford, Eva Edward, Ara Faye Womack, and Messrs Charles George, Johnnie Alexander, Monroe Jackson, O. Mother of 7—Still Young

THE woman who gives her organs the right stimulant need not worry about growing old. Her system doesn't stagnate; her face doesn't age. She has the health and "pep" that come from a lively liver and strong, active bowels.

When you're sluggish and the system needs help, don't take a lot of "patent medicines." There's a famous doctor's prescription for just such cases, and every druggist keeps this standard preparation. It is made from fresh laxative herbs, active senna, and pure pepsin. Just ask for Dr. Caldwell's syrup pepsin. Take a little every day or so, until every organ in your body feels the big improvement.

The next time you have a bilious headache, or feel all bound-up, take this delicious syrup instead of the usual cathartic. You'll be rid of all that poisonous waste, and you haven't weakened the bowels. You'll have a better appetite, and feel better in every way. The constant use of cathartics is often the cause of a sallow complexion and lines in the face. And so unnecessary!

Would you like to break yourself of the cathartic habit? At the same time building health and vigor that protects you from frequent sick spells, headaches, and colds? Get a big bottle of Dr. Caldwell's syrup pepsin today. Use often enough to avoid those attacks of constipation. When you feel weak and run-down or a coated tongue or bad breath warns you the bowels need to be stimulated. Give it to children instead of strong laxatives that sap their strength. It isn't expensive.

Eggs! Eggs! EGGS!!!

Quite a number of our farmer friends have requested us to renew the egg campaign at this time that they might get even with the Leader on subscription.

This campaign will be limited as to time.

Eight dozen eggs pays for a new or renewal subscription limited to one year.

Subscriptions outside the county due to a high postage rate, may be paid for with 12 dozen eggs.

Only fresh hen eggs will be accepted as we can dispose of no other kind.

Bring in your eggs any time. This offer is made to egg producers only.

If you are behind on your subscription, take advantage of this offer right now before the offer is withdrawn.

6 GUM-DIPPED CORD PLYS UNDER THE TREAD

GUM-DIPPED CORDS
 The Firestone patented Gum-Dipping process transforms the cord into a strong, tough, sinewyit. Liquid rubber penetrates every cord coat every fiber, guarding against internal friction and heat, greatly increasing the strength of the cord body and giving longer tire life.

TWO EXTRA GUM-DIPPED CORD PLYS UNDER THE TREAD
 This is a patented construction, like two extra Gum-Dipped cord plies so placed that you get 50% greater bond between tread and cord by, and tests show 20% greater protection against punctures and blowouts. It's a new standard for tire performance on high speed cars.

NON-SKID TREAD
 Tough, live rubber specially compounded for long, slow wear. Scientifically designed non-skid gives greater traction and safe, quiet performance.

★ One of the largest magazine publishing houses published a survey which they recently made to find out the tire buying plans of car owners for this year. In this survey they covered twelve states and interviewed 1,403 of their subscribers. They found that 68% of these interviewed are going to buy tires this summer, and that 27.2% of these car owners are going to buy Firestone Tires—the next highest is only 20.6% which shows the demand for Firestone Tires is 32% more than for any other make.
