Excellent music was furnished by Joe David on his trusty violin, and Reid Aycock and Wayne Keener on guitars. Special numbers were played at the request of a number of the candidates. A surplus of ice cream and cake was left after the festivities closed.

F. O. Wood acted as master of ceremonies in which he acquitted himself in a manner that was both surprising and disgusting. Surprising in that he survived the ordeal, and disgusting when he fined various candidates and made them appear to enjoy the punishment. Half the success of the affair was due to the diplomacy of Mr. Wood.

The Limit.

Levying taxes appears to be an easy matter, and the only bounds is the ability and patience of those who are to pay them.

A Busy Banker.

As a suggestion to fellow professionals during the dull season, Mayor Holland of Weatherford by avocation, and a banker by vocation, weaves cotton cloth from which his suits are made.

The Difference.

In England, the nation makes appropriations for dole payments to the poor. In America we make the same kind of national donations, but the big corporations get the consideration while the needy keep on expecting something that never comes.

readers that for \$5 extra, he will write a monthly letter to each subscriber telling them the things that the libel laws will not allow him to print. If that hint gets any bonds. encouragement, there might be a number of jelly fish publishers take to letter writing when they aught to be printing at least some of it in their papers.

High Housekeeping.

The last year that Woodrow Wilson was keeping house in the White House, Congress donated \$229,000 to pay his expenses for the year. Coolidge managed by great yankee ability to make out with \$397,000. Last week Hoover asked for \$559,000 for White House expenses for the present fiscal year. They're simply having a tough time getting by at the national capitol, and the above items do not include any crumbs for the protesting World War veteransthey didn't get anything.

Discovery.

During the beer barrage laid down by the Republican convention in Chicago last week, there developed many forms of "wets" and "drys" from the arid dessert type through gentle dews, showers and cloudbursts.

Since the Democrats meeting in the same building next week are also said to be getting in shape to lay down a beer barrage, perhaps they can add to the above list, or at least define that class more nearly like a coconut-dry on the outside and wet in the middle.

Farm Relief.

It remained for the piney woods of East Texas to work out scheme for farm relief without in any way reflecting up on any of the experts employed by the government at \$75,000 a year. Farmers in the timber belt are

advised to cut stove wood all summer. With the arrival of cold weather, those now burning gas will be appealed to in a patriotic manner to make a change from gas to resinus pine containing re heat units and far less exys in an effort to help the wood stters who in turn have promised to accept supplies in exchange from the home merchants.

> If such a law were to be passed. t would simply mean that counties like Donley would have to help pay for the absurd foolishness of citizens who should have and could have avoided this predicament by exercising just a bit of plain common sense. Should we be forced to help pay for worn out highways in which we could share no part except perhaps on the "pay" end of the transaction? Is it any fault of ours that our neighbors lose their heads when the glib tongue of the bond buyers begin to paint wonderful pictures of prosperity when the taxpayers shall have voted themselves into bankruptcy?

Panhandle counties contracting the bond fever are entitled to our sympathy, but that is all we have to offer for an incurable diseas that is eating away the most vital foundations of development for which there is no remedy except to give them your property and pay the difference.

Town Pests.

Albany's city dads down in Shackelford county right in the county capitol, have recently discovered three deadly menaces to the health and happiness of the citizens of that noble little city.

First and foremost, the mo-

squitoes have become a pest according to the Albany News of which Col. Dick McCarty is chief ramrod. Col Dick's sympathies have been aroused on the 'skeeter' question for has he not also suffered from the tiny prowlers raising knots on his shins also, to say nothing of making mountains out of mole hills on the fair faces of the damsels of his city in which he has defended against the inroads of dangers for near a half cen-

tury? Next to 'skeeters', flies have also become a menace to the health in general, and the peace and dignity of the citizens who sport ive. Merchants have already a bald pate. While Col Dick has nified their intention of trading | not intimated as much, how could ir wares for wood as in the old a brother enjoy the camp meetin's while pests grazed over his dome taking an occasional nip only to stir up a flood of profanity right in the presence of those who only deserve piety?

While nobody has been run over for some 24 hours, the speeders also come in for a share of condemnation at the hands of the astute editor who joins in the denunciation along with his brethren of official dignity, tried and true. Some citizens have ventured out without an armed guard only to be knocked hors 'd combat, nux vomica not to say quo vadis finally being swept up epluribus unum by

kindly disposed rescuers. Conditions on all three points have become serious to the extent that the matter has been called to the attention of the City Counci without regard to either de

or checker games in any and all stages. As their first act, 150 feet of fire hose was immediately ordered. Our informant does not state to what use it will be put, but with plenty of pressure behind their brand of hard gyp water, we venture to predict only disaster to either mosquitoes, flies or speed-

It is surprising how rain, or even damp weather can affect clothing. The best fabrick often shows the effect by needing a pressing to restore it to its natural appearance.

Aspirin is the trade-mark of Bayer manufacture of monoaceticacidester of salicylicacid.

Spots of mud, if allowed to remain on the fabric too long, often makes a permanent spot that is difficult to remove. These spots often discolor or remove the original color.

You save by having your clothing cleaned immediately when needed.

EMPLE OF TRUTH

When you look at the above picture you will have a pretty good idea of what the old Apostle found in the small grain belt of old Donley Monday. The wheat farmer is going down for the third time. He has ben in the "soup" for three vears and it looks like his last when wheat is bringing in less than 30 cents a bushel. It is no fault of the grower. He worked and applied his skill and produced starving American citizens but the monied powers won't let him sell is the roses planted on life's pathit. The producer and consumer way that lends fragrance, and not both must be doomed to misery and want in what is said to be one of the greatest--if not the greatest--civilized nation on the Globe.

When it comes to plain old common sense and sound reasoning, we can learn a lot from the experiences of others, and especially best known as "Uncle Ben" to a wide circle of friends in Donley county where he has lived an honored citizen for a long number of years, can tell us a lot about high taxes and just where it will lead to if we don't put a check on it and get back to a common-sense level. He and his good wife have been married longer than any other couple in Donley county. They have viewed life from all angles and know hardships and how to overcome them. This is a mighty good time to listen to these older folks and get advice that is worth a lot to us and which costs us

Carl C. Barker up in the Ashtola community has the best looking patch of field corn in the county so far as known. It is the yellow 90-day variety, over waist high and loks fine even though it went through a hail storm. He's not looking for prices to be much this summer at roasting ear time, but that bunch of national high-jackers will have a hard time starving him and his family with all the god stuff growing on his farm.

Speaking of corn, Walter Morrow of the Martin community has the next best looking corn crop. It looks like his family will have "corn on the cob" pretty soon.

Preachers are having a hard time getting along these days with the members on bed rock. They can't dress up much but then the members don't feel so timid about going to church with the same old Sundies of 1931 on when they meet the preacher in the same fix. There is just this about it, the lowly Nazarene was born of the wife of a carpenter and knew and sympathized with the common people per forming among other miracles the feat of increasing two loaves into many. We also read where he chased the money changers or gamblers out of the temple. Wonder what he would do now were he to exercise the same ideas in the middle of this mess we are having

WALLACE-NAYLOR

Two popular young people were united in marriage Saturday night at nine o'clock when Rev. Gaston E. Foote, pastor of the San Jacinto Methodist church, performed the marriage ceremony for Mr. Leamon Wallace and Miss Mary Naylor in his study in Amarillo.

The bride was beautiful gowned in eggshell colored crepe trimmed in green, with accessories to match

The bride is a daughter of the late B. F. Naylor who was one of several of that name coming to Donley county in its early development, and who have had an important part in bettering the interests of those who came later. She has always been popular, and an active worker in the Methodist church. She has resided in Clarendon all her life and was educated in the local schools.

The bridegroom came from Greenville some two years ago. He is a young man of much promise and is actively engaged in business with his father who has established a new business in Amarillo this week. He is a son of Mr. and Mrs. J. H. Wallace ofthis city.

The happy couple took a wedding tour of New Mexico and will be at home at 606 Alabama Street, Amarillo where their many friends will find them after the 24th.

Mr. J. C. Ray & Family Clarendon, Texas. Dear folks at home:-

How are you all these spring days? I am well and happy and truly hope you all the same.

We had a very pleasant east bound voyage this trip, with only a few days with rough weather We sailed from Tampa, Florida May 3rd with a cargo of grapefruit, lumber and pine products for Le Havre and London. The weather was warm and the sea smooth around the Florida straits about three hundred miles off the New England coast, then w leave northern route. Late on the night of May 11th we knew we were close on the ice for the temperature of the sea dropped fifteen de grees, from 52 to 37 degrees in about two hours. We slowed down to about 10 knots and radioed the clear but about four a. m. the the position of some large bergs. I went on deck and was sarprised to see the mountains of ice not We had missed a growler (small berg) only a few yards. The Chief Officer estimated the larger one to be about one thousand feet long and seventy feet above the water. They are said to be about seven-eighths below the water line. The ice patrol sometimes dynamite too far south and are dangerous to navigation to break them up so they will melt easier. These were the first I have ever seen and a morning sun reflecting on them.

"Sanctification"

At conversion, all must be surrendered to Christ--set apart for His use. Such self-surrender is sanctification. The tabernacle and all its articles of furniture were sanctified (Ex. 40:9, 10). In like manner, Christians are set apart for God's service: "Sanctified in Christ Jesus, called to be saints" (1 Cor. 1:2).

It should be noted that sanctification is enjoined upon Christians, who are already represented as sanctified. In the Scripture just quoted, sanctification is alluded to as something already attained, while in 1 Thess. 5:23, Paul writes "The God peace himself sanctify you wholly." So that sanctification is a present possession, and yet a thing to be sought after.

To see how that is so, it must be remembered that, at conversion, a Christian is set apart to God. Sorrow for sin and pardon of sin are useless, minus a changed life. "From justification arises our title to heaven: from sanctification arises our meekness for heaven." No unholy person will be presented to Christ in glory. No unclean thing can enter the heaven ly ark; so, sanctification is imperative. But the work is not complete in a moment. Conversion may be sudden, but to become wholly sanctified is a gradual process; there should be a daily growing in grace; a steady but sure advance , until all that we are and have be wholly set apart for the Master's use.

How can the work of sanctification be accomplished? By be coming "partakers of the divine nature" (II. Pet. 1:4). The cultivation of our own natures, unaided by the Holy Spirit, will result in utter failure. From the great fountain of holiness must flow the crystal stream into our own lives, until we become possessed, in full measure, of the "divine nature" and are at one with God.

,In our Sunday morning theme: "THE CHURCH AS A HEALING MEDIUM", we will try to show the effect that the "church" has had upon the nations of the world, and prove that the "church" is the State's hope of stability. At middle-age your vital organs begin to slow down. You may not be sick, simply sluggish. But why endure a condition of half-health when there's a stimulant that will stir a stagnant system to new life and energy in a week's time?

This remarkable stimulant is perfectly harmless. It is, in fact, a family doctor's prescription. So, if you're tired of trying every patent medicine that comes along, tell the druggist you want a bottle of Dr. Caldwell's syrup pepsin. Take a bit of this delicious syrup every

powerful medicine.

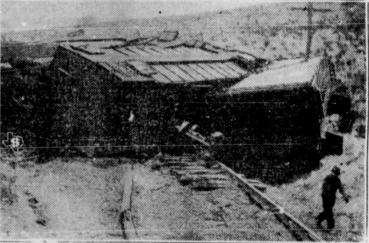

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is need. In cases of colic, diarrhea or similar disturbance, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't cat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed. Wednesday and Thursday 29-30th Jack Holt and Constance
