## ANNUAL REUNION OF OLD SETTLERS AT TATE GROVE

Music, Feasting, Speaking Will be Features of The Second Annual Meet

Uncle Ed. H. Watts of Giles is chairman of arrangements for the second annual reunion of old settlers of Donley county to meet at Tom Tate's grove six miles northeast of Hedley the 19th. Uncle Ed has a number of other committees helping and reports indicate that this will be a far better affair, if such a thing is possible, than the first one held last summer.

S. G. Adamson of Hedley is chairman of "hostilities" which includes seating capacity of the crowd, water, lemon ade, ice water, melons and a dozen other things. Uncle Sime is not as old as his name would indicate, but it is a custom among the old timers to "uncle" any one who serves on a committee except that the ladies are "aunted". The aunts will be right there with the chuck and grub in baskets boxes and tubs. The old wash pot will be cleaned up for the coffee making in which Uncle Bill Rains is said to be the main "shofer" in guiding the liquid to the cups after wrangling the pot a half day to bring the 'java' up to the right pitch.

Uncle Milt Mosley whistled up a bunch of old musicians. Fiddles, guitars, banjos and mandolins are said to be on the list. There may be some performance in the nature of an old-time square dance just to recall old times, though this will be a side feature of the main event.

Those who have resided in Donley county previous to 1912 alone are eligible, except that the editors and their families of the county newspapers are invited. The limit was set at a twenty-year residence to bring out the pioneer flavor, according to one old uncle who has a part of the arrangements in charge.

Don't forget the date and the place—Tom Tate's grove six miles northeast of Hedley on Friday, August 19th. The folks who get there first will get the most pleasure out of the reunion.

## Methodist Revival to Begin August 21st

Rev. E. V. Hendricks, pastor of the Methodist church at Hedley, announces a revival to be conducted by him at McKnight beginning on Sunday, August 21st.

The revival will continue over the week. The public is cordially invited to take a part in this revival. There will be plenty of enjoyment for those who enjoy the old-time hymns and revival songs familiar to the general public.

## COLLEGE WORK IN IMPROVEMENTS DONE BY PUPILS

Much Needed Changes Made Without Extra Cost To Taxpayers

In cooperation with the School Board, Dean W. A. Clark Jr. of the College is making some changes in class room and equipment facilities at this time that will mean much to the students when school opens September 5th.

The biology room formerly used for high school biology laboratory work is being remodeled and changed to meet the needs of additional work of the college department classes. In addition to an aquarium contributed by Barcus Antrobus, tables have been added and rearranged for more convenience.

The chemical laboratory is being changed up in the room across the hall from the room mentioned above. As in the other room, tables have been worked over, some made new entirely with water and gas installation, and the wood work refinished. The equipment in this room last year was limited to a capacity of twenty-four pupils working in shifts of twelve at a time.

This year the equipment will accommodate sixty-four students working in shifts of thirty-two at a time. Eighteen of the latest improved fume hoods are being installed, two of which are of the closed type so necessary for health protection assuring every safeguard in this respect. A large circulating fan is to be installed this week that will insure fresh air circulation at all times.

The physics laboratory room of last season will become a recitation room this year being centrally located for the convenience of classes from each of the other departments of biology, chemistry and physics. Chairs with side arm (continued to back page)

## Canyon Museum Building Is An Assured Fact

Bids will be opened August 20th for construction of the Panhandle-Plains Museum Building at Canyon according to an announcement from Dr. J. A. Hill, president of the West Texas State Teachers' College.

This building will cost \$50,000.00 half of which amount was contributed by the state, and the other half by popular subscription. Relics of pioneer days in the Panhandle worth thousands of dollars have been collected over the past ten years. Other valuable exhibits dating back to prehistoric days have also been assembled there. A large building is now necessary to care for these valuables.

## COTTON GAINS NEARLY \$12 BALE OVER THE WEEK

Low Government Crop Report Sends Price Skyward With Buying Brisk

According to statistics, cotton prices reached its lowest level in seventy-four years six weeks ago. Private estimates had caused the price to advance to some extent, but the government estimate of 11,306,000, or some five millions bales short of last season, is said to have been the determining factor that boosted prices to 7.37c Wednesday.

Large banking corporations are working on plans to finance the movement of cotton to the textile mills. Dozens of textile mills on the eastern seaboard have opened over the month, and twice as many during the past week.

Rising prices in many lines has forced bond brokers to again enter the speculative market boosting prices of \$10 to \$60 per bond with buying more feverish since the beginning of the depression.

Prices on rubber, silk, sugar, steel products, paper and many other miscellaneous lines took a sharp advance in prices the past ten days. This is taken as an indication that September will see a wonderful recovery from the dull period of the past two and a half years.

Mills in the east closed for more than a year are now running on full time. Others working on half time are also behind with orders received during the month. The mills said to be affected most are those supplying necessities of wearing apparel and the building trades. The latter is taken as an indication that employment will be far more general this winter.

## Carpenter Vineyard Contains Many Varieties

No vineyard in the county has better varieties from an all-purpose standpoint than that of S. S. Carpenter whose farm is located some 12 miles south of Alanreed. His is a newly improved farm, but he has a nice bearing orchard in addition to one of the best vineyards.

His best grapes are Heribmont, Agawam, Concord, improved Niagara and others of which he has lost trace of the variety named. The fruit is just now ripening and his next job is finding a market for a quality that can't be beaten anywhere.

## Judge Alexander Announces Budget Hearing 29th

In preparing a budget of county expenditures for the coming year in compliance with the new law that went into effect in July, Judge J. J. Alexander announces a number of reductions in salaries and other items that will effect a saving to the taxpayers of approximately \$17,500.00.

As provided for in this new budget law, any taxpayer interested in the county expenditure plans, may inspect this budget on August 29th. That is the motive for the existence of the law—that the taxpayer might know what to expect in the disbursement of funds.

## LET THE PEOPLE RULE

I became a candidate for the office of County Judge of Donley county upon the solicitation of a number of the best citizens of the county who agreed with me upon the matter of no bond issues, and reduction of taxes by bringing about more economy in county government expense.

I continue in the race by reason of the fact that 627 good citizens supported me in the first primary, and the further fact that numbers of others have given encouragement who voted otherwise in the first primary. I greatly appreciate this sentiment in contending for the rights of the people.

I believe that more people by far now understand the real issues in this campaign. I believe that it is generally understood that the political ring that opposed me in the first primary had a motive contrary to the best interests of the taxpayers at large, and that the reports circulated by this "ring" are now found to be false and misleading with only one purpose—to prejudice the voters against me.

The question now squarely up to the good citizens of Donley county is, shall the county affairs be hampered by a political ring, or shall the people rule? I refuse to believe that you will be dictated to on the 27th primary vote, and that you will judge me on my record as a citizen of Donley county for the past 13 years.

## SALT FORK ON HIGHEST RAMPAGE IN MANY YEARS

Parched Crops Receive Much Needed Moisture Insuring Peak Production

Old J. Pluvius played pranks in Donley county last night. About 1 a.m. this (Thursday) morning, a deluge or young flood fell over the watershed northwest of Clarendon sending Salt Fork up to a high mark. In fact the river is said to be higher this morning than for several years according to an old-time ranchman who has resided here for years. Water was lapping the bottom of the iron bridge shortly after daybreak.

Cars on the highway stalled by "drowning" when the rain fell in sheets. Reports from Jericho indicate a rainfall of one inch. Ashtola reports two and a half inches. The water almost went over the railway dump at that point. Goldston community got a good rain which means much to crops replanted after a late hail destruction.

Martin community had a down-pour, the heaviest this season, in the same length of time. All of the territory northwest of Clarendon received a good rain while the fall was two-tenths in town according to government weather reporter, Joe Goldston. The rain did not reach beyond the eastern limits of town.

This moisture came in the nick of time to save a good corn crop. Feed in some places was also badly in need of rain. Cotton, though late, will make a fair crop according to farmers of that section.

Advancing prices and moisture at the right time has given farmers much more hopeful future than for the past two years. Winter pasturage will be planted at the earliest possible moment to permit of a sale of feed produced.

## Martin Schoolhouse Contract Let to Amarillo Firm

A contract was let this week by the School Board of Martin for a building to replace the one burned some time back.

The new building will be of brick construction, three large rooms and a basement. The basement will be arranged for an auditorium, and will be of sufficient size to accommodate any crowd that might assemble in the neighborhood.

The Vogle construction company of Amarillo was low bidder with \$4,974. Work begins this week, and will be rushed to meet the demands of school opening this fall.

## REVIVAL BEGINS CHRISTIAN CHURCH ON AUGUST 18TH

Revival Over Three Weeks To Be Conducted By Dr. C. R. L. Vawter

According to a telegram received by W. E. Ferrell, minister of the First Christian Church, the Vawter Evangelistic party will arrive in our city and conduct a three weeks evangelistic campaign for the Christian Church. The party consists of the following workers.

Dr. C. R. L. Vawter, world known evangelist, recently spent several months in Australia and other foreign countries, and has astonished and won thousands with his heart-appealing, soul-stirring messages on the gospel and its power.

Mrs. Vawter has one of the finest soprano voices in America and has sung her way into the hearts of thousands of people. Her solos have a wonderful way of touching the hearts of her hearers.

W. D. (Billie) Reaves, the chorister, is one of the best song leaders found anywhere. He works wonders among both adults and children.

Howard House, the pianist, is also a talented artist. He draws beautiful pictures illustrating the song. His work lives on after the meeting.

The Vawters bring with them one of the most complete lines of musical instrument carried by any Evangelistic party. They bring a set of the Notre Dame Chimes, with which they present music that will be a treat to music lovers. There are only two sets of these chimes in the world.

No finer party of Christian workers can be found than the Vawters, and Clarendon, is exceedingly fortunate in securing such a team of workers.

They will begin a campaign about the eighteenth of this month.

## Phillips Service Station Opens Saturday Morning

J. D. Phillips, who has been operating the Phillips 66 station near the courthouse, announces the opening of his new station on the corner opposite the Antro hotel next Saturday morning.

Mr. Phillips has hit upon a novel plan to award purchasers that day by giving away picture show tickets with purchases. Read his advertisement in this issue of the Leader for full particulars.

The station will handle a full line of Phillips 66 products in addition to servicing cars, washing, greasing etc. He asks for a share of your business assuring the public of that same degree of courtesy shown at the former station.

## GOVERNMENT TO EXPEND MILLIONS ON TEXAS ROADS

Money is an Emergency Loan To Be Repaid Over 10 Years Period Beginning in 1938

The Texas Highway Commission is considering the closing of gaps in state highways as the most important feature of road construction under the new emergency loan act of the federal government.

The federal government made an appropriation of \$120,000,000 for highway construction available after July 23rd. Texas will get \$4,664,621 of that sum. Supplementing this amount with funds already on hand, the Highway Commission now has \$11,000,000 available for highway work.

C. E. Swain, federal district engineer with headquarters in Ft. Worth, is said to suggest the closing of the gap on Highway 5 in Cooke and Montague counties. Conditions affecting this section of No. 5 is the same as those on No. 5 in Donley and Armstrong counties.

It is the plan of the Federal government to provide jobs for the jobless by giving workmen a thirty hour week on these projects. It is further suggested that this work begin during August.

As a matter of information, the State Highway Commission must secure the approval of the federal district engineer on highway building where federal aid is used as it will be in this instance. The amount of traffic will be the determining factor in making federal allotments, it is said.

Since Highway 5 through this section is the main commercial artery it is believed that it will have serious consideration at an early date.

There is said to be a movement on foot now in Donley county to secure highway construction from Clarendon to the Armstrong line. The County Commissioners of Armstrong county have already secured the right-of-way, most all of which was contributed. It is suggested that the J. A. ranch and the Denver railroad will contribute right-of-way over their property through Donley county. This could not be verified at this time, but has been rumored for some time.

## Legion Will Sponsor Band Concert at Memphis

The Aubyn E. Clark Post will sponsor a band concert of the Clarendon band with the Memphis band at Memphis, Friday 15th according to band director Gus B. Stevenson.

A general visit is being planned with most of the local Legion boys expecting to make the trip to the neighboring city with the band.

Governor Ross S. Sterling

Governor Sterling received a total of 296,383 votes in the recent primary.

Mrs. Miriam A. "Ma" Ferguson

Mrs. Ferguson received a total of 402,239 votes in the primary July 25th.

**In Hollywood.**

A new stunt was pulled in the movie colony near Hollywood this week when a newly married 'star' sent his double on their honeymoon.

**Sign Language.**

If the phrase of "Boy, Howdy!" had not been adopted in West Texas, a lot of folks would now be carrying on a conversation in the sign language.

**Preachers' Salaries.**

The depression cut the salaries of a lot of our preachers, but flying glass cut the salary of Rev. J. G. Smith of Flatwoods, Kentucky last week when he was laid up and had to hire another preacher to fill his appointments.

**Stop! Look! Listen!**

The stop, look and listen sign was not put at the railroad crossing for the benefit of the engineer. It is merely the obituary notice for the guy who raced the train for the crossing and which ended in a tie.

**Helping The Neighbors.**

Take advantage of the offers for subscription payment advertised on a page in this issue of the Leader. The depression has affected us all alike, and the offer is made to help you. It has always been the policy of the Leader to help those who are willing to help themselves.

**The Governor's Race.**

This matter of questioning a man's motives who differ with us on political issues, or candidates for office, is entirely wrong. Good men, true, honest and upright citizens differ with each other on many questions as they have a right to do, and its ill-becoming in anyone to reflect on the other's sincerity.

**Mr. Taxpayer.**

Every few years you are the center of attraction. Right now the politicians are all for you. After a few weeks, you will swing back into nothingness again. Your days are few and far between. Now is the time to stir yourself every shining hour. After the primary, you won't be so important. You will be overlooked.

Men of "big" vision will again be in the saddle. They will reward faithful helpers and faction leaders who create public opinion to sustain their views in befuddling the minds of the voters while seeking to feather their own nests.

As stated above, your days are few. Now is the time to have your say in the matter. See that your neighbors get out to vote. A majority of the votes elect, but the majority do not vote every time.

**Taxation—Damnation.**

Voters have been treated to an eleventh-hour poison bath. There has been some investigation of past records in behalf of common humanity, but not enough. There has been a deluge of promises but mighty little of facts.

There has been very little logical facts produced relative to high taxes, but we have them with us just the same. Taxes based on war-time valuations to be paid for with products grown under prices the lowest in 74 years.

There must be a general cutting down of county expenses if we are to survive. It may done voluntarily or it may be done when the public is invited to inspect the county budget.

There is a growing sentiment among some of our county officials that something must be done in

the face of the fact that possibly not more than twenty-five percent of the taxes will be collected this season. Reductions should be made on an equitable basis in proportion to the expenses of the office. Purchases should be cut down wherever possible. It is just as necessary to economize in county affairs as in personal affairs.

**With Our Exchanges**

**Landers Views Politics**

Last minute campaign lies are the worst of any, if there is any distinction to be made in lies. It is a pity that politics is not on a higher plane, but it has become an accepted belief that lies will be told on candidates, regardless of the candidate's former life. This is one of the important reasons that deters many a good man from offering for office. Voters should learn to discount any statement made at the last minute to discredit a candidate.

**DEBT CANCELLATION**

Nothing is clearer today than that the United States played the role of an international sucker in the late world war. Americans who doubt this radical statement have but to study the latest move on the part of European powers to dodge their obligations. We hear that England, France, Italy have entered into a "gentlemen's agreement" to settle their reparation bill against Germany at one cent on the dollar—that is if Uncle Sam can be persuaded to forget about the huge sum remaining on the books. To call this \$11,000,000,000 war debt is not only incorrect, but playing Europe's game. Actually the war debts proper, totalling about the same sum, have already been cancelled, and the huge total still owing to us was borrowed after the armistice. Our European allies said at the time they needed it to rebuild their shattered fortunes, but most of it has since been used to maintain the greatest armaments the world has ever seen. Andy Mellon and his multimillionaire compatriots are all for cancellation. Why? Because the payment promise would imperil the collection of private loans the bankers have made in Europe of late years. In other words the American taxpayers has not been robbed enough already. We are to pay for the war a second time instead of Germany. Germany has donated nine billion and we have chipped in with eleven more. Now we hear Mr. Mellon is on his way home—to try and stack the deck against the American taxpayers. A pretty spectacle and one worthy of the malodorous record of Mr Mellon in the treasury.

**WHY HE COULD NOT PAY**

Gentlemen:  
I am enclosing \$4 on my account that is much past due, but wish to inform you that the present deteriorated condition of my bank account makes it impossible for me to send you my check in full in response to your request. My present financial condition is due to the effect of the Federal laws, State laws, County laws, Incorporation laws, By-laws, brother-in-laws, mother-in-laws, and laws that have been foisted upon an unsuspecting public. Through these various laws I have been held down, held up, set on, walked on, flattened, squeezed, and broke until I do not know what I am,

where I am, or why I am. These laws compel me to pay a merchant's tax, capital tax, income tax, incorporation tax, real estate tax, auto tax, property tax, gas tax, light tax, water tax, cigarette tax, school tax, liquor tax, syntax and carpet tax. In addition to these laws I am requested and required to contri-

The government has governed my business so that I do not know who owns it. I am suspected, expected, inspected, disrespected, examined, re-examined, informed, required, commanded and compelled until all that I know is that I am supposed to provide an inexhaustible supply of money for every known and unknown need, desire or hope of the human race, and because I refuse to donate to them all and then go out and beg, borrow or steal the money to give away, I am ousted, cussed, discussed, boycotted, talked to, talked about, lied about, held up, held down, and robbed until I am just about ruined.

The only reason that I am clinging to life at all is to see what is coming next.

**TO THE VOTERS OF  
LEGISLATIVE DISTRICT No. 122**

With this I want to thank my supporters among the voters of District No. 122 for their handsome attitude toward me.

I suppose that the 2188 men and women that decided to vote for me did so under the assumption that I would make a clean campaign. I can assure them that I carried out this implied mandate in full, and that the reputation of each one of my four competitors, so far as my tongue and my pen are concerned, is as good after the campaign as it was before. The three lawyers who ran against me returned the compliment in like spirit.

I had a very definite and clear-cut idea of what I would try to do

in case I was sent to Austin. It is obvious that if the producers of the new wealth of this district and of Texas could have the opportunities guaranteed under the Federal and state constitutions—equal opportunities and equal burdens—the general welfare and well being of all citizens alike would be more in line with what we all wish and hope in our moments of quiet reflection.

If the man now to be chosen to represent this district in the next legislature should prove to be unequal to such a task I shall in all likelihood make the race again.

Yours cordially,  
Richard Wischkaemper.

**THE COMMERCIAL USE OF TEXAS HIGHWAYS IS A PRIVILEGE, NOT A RIGHT**

● The highways of Texas are the property of its citizens. They constitute a system of nearly 200,000 miles of road of which 20,000 miles are designated as State highways and the remainder are county roads. All types of road are represented in this system, less than 5% have so-called "permanent" surface.

The total cost of these highways is unknown but it amounts to many hundred million dollars. From 1917 to 1930, inclusive, counties and road districts of the State issued \$243,592,834 in bonds for the construction and improvement of roads and bridges. In the two-year period ending August 31, 1930, the State Highway Commission expended \$89,032,825, of which \$22,488,426 was for maintenance of the State highways.

In view of these tremendous costs the preservation of our highways from rapid wear and destruction is a matter of very vital interest to their owners, viz., the public. It is especially important that they be made to outlast the life of the bonds, which run from 20 to 30 years.

The use of the public highways for commercial purposes is not a right but a privilege which may be withheld or granted subject to such restrictions, regulations and charges as the Legislature may see fit to impose. Such regulations are intended to promote safety, preserve the highways and safeguard the interests of the public.

Texas Railroads, which pay the entire cost of construction and maintenance of their own roadbeds and, in addition, make substantial contributions to the cost of Texas highways, are thoroughly regulated with respect to their services, rates, methods and practices. There is no good reason why commercial users of the highways, built and maintained at the expense of the public, should not likewise be regulated to such extent as the public interest requires and pay such charges as will represent proper compensation for the privileges granted them.

● The statutes governing highway transportation as enacted by the Forty-second Legislature represent the wishes of the citizens of this State and express their desire to give equal rights to all and special privileges to none. These statutes should be given a fair trial and their value ascertained. Unless this is done, a chaotic condition in transportation as a whole will surely ensue.

TEMPLE OF TRUTH By the Apostle

The above picture shows what good pie will do for a fellow. That snapshot was taken just after taking on a bait of the GW's 'punkin' pie Sunday. The recipe was in the paper last week. Sweet 'taters will do if you are short on punkin. Look up the paper and cut out that recipe if you overlooked it.

Here's a tip for the ladies. The most beautiful primroses in the county are growing on the north side of the Y. E. McAdams home northwest of Goldston. They grow in the shade where nothing else will do much good. Try it next season.

A Kentucky exchange gives the following recipe for "preserving" children:

Take one, large grassy pasture, one-half dozen children, two or three small dogs, a pinch of creek and some pebbles. Mix the dogs and children well together and put them in the pasture, stirring constantly. Pour the creek over the pebbles. Sprinkle the pasture with flowers adding a generous amount of cedar trees. Spread over all a deep blue sky and bake in a hot sun. When brown, set away to cool in a bath tub.

Father criticised the sermon, mother disliked the way the organist was dressed, sister thought the choir sang something terrible. The subject had to be dropped when the small son with all the boyishness of fairplay chipped in with: Dad I think it was a dandy good service for the price of the nickel you dropped in."

Some folks have a hard time finding a shady spot in the desert of life because they can't sit in their own shadow.

Some fellows who came from a good family are footsore from traveling.

Song titles, ancient and modern "You Were Meant For Me" and "You Foment For Me."

While on a recent vacation trip up near Taos, Ben Tom Prewitt tried his skill at making sour dough bread since it was strictly a man's camp. The results of that effort were a surprise to the whole crowd. The bread not only raised the lid of the Dutch oven, but it raised the temperature of the climate to the extent that the crowd returned home for a cooler climate.

Most people get fat below the Mason-Dixon line.

The Apostle's fourth to the oldest son is crazy to get a saxophone. We will stick to the family cow for a while. Besides making the same noise, the cow gives milk.

Well, well, we are to be taken to a big show the night of the 11th, just after midnight. The old earth will pass through a shower of meteors so the sky skimmers tell us. That will be nothing as compared to the big show on the 31st when the sun eclipse is pulled off. The sun puts on this show from 1 to 2:20 p. m., August 31st. Get the smoked glass ready.

Did any one ever see vine okra? This is no joke, and when the Apostle heard of that okra growing on a vine, he took a preacher and a good solid citizen of twenty years standing to form a committee of investigation. That vine is growing on the west fence of the garden owned and operated by one Tom Messer of McKnight. Tom told the truth about the okra. It grows on a vine and the pods get to be 15 inches long some times. The Apostle is making a date with Ed Wheeler, former champion okra king of the Panhandle, that he may take a look at the vine that means his ruin for okra honors. Ed is all o. k. as long as they stay on the ground, but when okra begins to climb trees, Ed is blown up.

Theme—THE TEMPLE BUILD BY GOD, THE HOUSE IN WHICH I LIVE.

V. THE DOORS OF THE HOUSE THE MOUTH—Psa. 51:15.

There are three kinds of doors in this wonderful house that we are studying, the mouth, nose and ears. The mouth is the most important. We are not quite so dependent upon the ears and nose. Some people live, even the deaf. Others there are who get along very well with very funny noses, but no one can live without a fairly good mouth. The mouth is the passage way to the lungs. By it we utter sounds, speak and partake of food. The mouth renders us splendid service, and because it can be put to both good and bad uses, I am taking it as a text.

You look into the mouth and there you see the tongue. It is one of the most principal pieces of furniture in the house. It is by the tongue we taste, and by it we speak words. The Arabs have a saying, "The tongue's greatest storehouse is the heart." The Bible says: "Out of the abundance of the heart, the mouth speaketh." To keep your mouth right, and your tongue right, you must keep your heart right. "The tongue can bless it can curse, it can sing, it can lie, it can hate, it can love."

The mouth is the most important door into the house. We must keep this door way clean. The mouth is really a broadcasting station, the first and best of all such stations.

Jesus in His brief ministry had much to say about the use of the mouth. He warns us that by "Our words we will be justified and by our words we shall be condemned." He also plainly states that we must confess Him before me if we expect to be confessed before the

Father in heaven. Again we read, "For with the heart man believeth unto righteousness, and with the mouth confession is made unto salvation." There is coming a time when every tongue will confess Christ to be the Son of God, some to their eternal glorification others to eternal condemnation. Let us use our mouths and tongues to glorify Him now that we might be glorified later on.

In our sermon, "Christ, the King we hope to show you how to use your tongues to praise the King of Kings, we will present this lesson Sunday morning. At the evening service, our subject will be: "The Second Coming of Christ" we will show how the nations of the world will appear before Him to praise and confess Him, and to be judged. You will enjoy these lessons, so be present.

Wake Up Your Liver Bile - Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up."

They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. 25c at all stores. © 1931, C. M. Co.

## Your Electric Power Supply MUST Be Flexible

Electric power, to serve any community adequately, must be flexible. It must meet all requirements, large or small—from a large factory to a small household—at any time and at any place.

Small local plants serving single communities lack this flexibility --- they lack the variety of volume and demand which enables a larger system, serving a wide area by transmission lines, to operate efficiently.

The transmission line delivers larger amounts of power at once without the delay of installing additional equipment. Thus it clears the way for a rapid and permanently expanding industrial growth.

The present day industrial progress of small communities is based in a large measure on the ample and economical power supply which resulted when transmission systems replaced inefficient and expensive small local plants throughout the nation.

The West Texas Utilities Company, through its widespread 2,500 mile transmission line network, makes available to 125 progressive West Texas cities and towns over 100,000 horsepower of electric energy --- ready at the turn of a switch.

Miss Della Leaverette spent last week with her sister, Mrs. Shipman of Clarendon.

Miss Byrdine Elkins and Mr. Bill Kelly of Pampa spent a few days last week in the Lu McClellan home.

Mr. W. A. Povey and children visited Mrs. Lee Ramsey who is sick in Amarillo Tuesday. Mrs. Ramsey returned home and Helen stayed.

**\* CHAMBERLAIN \***

Is it hot enough for you?

The summer session of school opened Monday, with Clarence Jackson as principal and Miss Maud Crawford immediate teacher and Miss Mary Sue Waters with the primary department.

Mr. and Mrs. Luther Dean were guests in the Charlie Skinner home of Leslie Sunday, Miss Howard of that community accompanied them home for a few days visit.

A nice rain fell here Saturday night. It should stimulate the one eyed peas and enable the natives to endure a little more of this Hoover prosperity.

Speaking of Hoover, reminds us of the experience of an old boy who voted for the first time in the recent primary. After his ballot was placed in the box and he was leaving he suddenly turned around and asked if he could get that ballot back. The judge asked him why he wanted it back, and he said "I want to see if Hoover's name is on that ballot, if it is I want to scratch that name until it will look like a tom cat had been dragged across it."

Mr. N. Dinger is still confined to his bed but cheerful, and we feel sure he will soon be up mingling with friends again.

Mr. and Mrs. J. H. Duckett are spending a few days in the home of their daughter, Mrs. Lennard Darnel of the north plains.

Mrs. John Blackman of the south plains is visiting in the home of B. L. Blackman and other relatives.

**\* SMITH \***

The meeting at the school house under the leadership of Mr. Henard East proved very successful and beneficial. There was plenty of interest shown especially among the young people and several converts. We hope we may be fortunate to secure Bro. East again at a future date and wish him Gods speed wherever he may go. We appreciate the help of the Jones family during the meeting also any others that have helped in any way to make the meeting go forward.

Morgan Baker proved to be of much help in leading the prayer meetings. He brought some wonderful and inspiring messages.

You can't blame the American Legion of Texas for calling it a tie! They couldn't decide which of these girls was best able to represent the Texas Legion at the national bathing beauty contest, Portland, Oregon, so both will go. The girls are Miss Gonzales, Sylvia Watts, left, and Miss Reiguo, Dorothy Rigsby, right. The contest was held at Corpus Christi at the Legion state convention.

Mr. and Mrs. Sloan Baker and family left Friday for Welling, Oklahoma for a visit with relatives. While away Mr. Baker will go to Muskogee for a tonsil operation.

A miscellaneous shower was given by the ladies of the community for Mrs. O. B. Smith at the home of Mrs. Gerald Knight last Wednesday afternoon. After admiring the presents, refreshments of cream and cake were served to some thirty five guests.

Mr. and Mrs. F. O. Harris had the misfortune of losing their home by fire last week. All their kitchen equipment was lost, but most of the other things were saved.

Mrs. Frank Jackson accidentally burned her foot last week but it is doing nicely.

Miss Nell Hampton has been visiting in the home of Mr. and Mrs. Frank Jackson.

**MADDOX-WOMACK**  
Last Thursday, Aug. 4, Mr. Bill Maddox and Miss Ara Faye Womack were united in marriage at Hollis, Okla. The Rev. Henson officiating. Mr. and Mrs. Sloan Baker accompanied them.

Ara Faye is the sister of Mrs. Sloan Baker of Smith community, Mrs. Milton Beasley of Hanel Chapel community and Mrs. Hicks Daniel of Amarillo. She has been living with her sisters for years being in Smith community for some time. She attended Smith school in 1931. She has made many friends wherever she has gone and loved by old as well as young people.

**This Baby has a secret which every mother should know!**

If you could see this adorable youngster in real life, you'd be attracted immediately to the exquisite texture of her skin... Smooth as the velvet-iest rose petal, it is the pink of perfection—and very kissable!

What is her secret? It's as simple as A-B-C. Or perhaps, we should say "Z. B. T." For that is the name of the pure, smooth, snowy-white powder which rains down every day on her precious little body... Z. B. T. Baby Talcum!

Her doctor told her nurse, and her nurse told her mother that Z. B. T. is the very best health and beauty treatment for an infant's delicate skin. If you should ask your doctor, he'd say that this very same Z. B. T. is perfect for grown-ups, too!

For Z. B. T. is a mildly medicated compound tale that not only soothes the skin, but *heals*, as well! Free from lime, mica or any other irritant, Z. B. T. contains a special ingredient which absorbs moisture, neutralizes acids, and guards against infection.

### MESSER FARM IS PROSPERITY MODEL DONLEY COUNTY

#### Income is Derived From Big Variety of Sources Over Twelve Month Period

Just what may be accomplished on a sandy land stock farm in Donley county is amply demonstrated in the arrangement and results of the Tom N. Messer farm located a short distance north of McKnight.

The home consists of a comfortable bungalow with plenty of out houses, barn, lots, etc. The windmill arrangement with tank assures irrigation for garden, orchard and berry patch.

A storm cellar also answers for the purpose of storing food supplies. Shelving is filled with canned fruits and vegetables, some of which has been there for four and five years. Each year a plentiful supply is stored against any possible adversity of weather conditions and failure.

The home canned food supply consists of berries, plums, grapes and other fruits. The vegetable list includes a wide variety of the women folks of the home. Mr. Messer himself is an adept at canning proudly displaying fruits that show up to better advantage than the average.

The orchard contains mixed varieties with a fairly good crop this year despite the ravages of a hail storm. The skillful arrangement and location is of the best with a net fencing against stock and rodents. Vegetables are grown between some of the trees as a guard against waste land.

Hogs, milk cows, poultry and stock cattle enter into a well-rounded arrangement that largely guard against depression periods supplying the home with food products and some for a year-round market.

A four acre vineyard is planned for this winter. The soil is of a tight red sand admirably adapted to furnishing an iron supply so necessary in grape growing. Those now in bearing give every promise that the new venture will prove to be a success furnishing a generous supply for market besides plenty for home use.

#### COLLEGE WORK—

(continued from front page)

convenience for making notes will be provided, as well as a large recitation or teacher's table.

The physics laboratory this season will be installed in the room used by the Alpha Delta Psi Literary Society last season.

Minor changes have been made in the storage room to meet the improved requirements of each of the departments dependent upon that supply.

All of this work is being done under the direct supervision of the instructor, Dan Clark. Pupils are doing practically all of the work and will be credited on their school expense as payment. The work is of excellent quality and speaks well for their previous training.

#### Many Friends Attend Last Rites Mrs. Heizer

Among the out-of-town friends here last week for the funeral service of Mrs. R. S. Heizer were Mr. and Mrs. J. C. Bagwell, and Miss Emma Bagwell, Mr. and Mrs. W. M. Miller, all of Claude. Mr. and Mrs. Alexander and Mr. and Mrs. Crowley of Wellington.

Those from Memphis were Miss Vada Crowley, Mrs. Roy Webster, Jim Webster, Mrs. J. P. Wheeler, Mrs. Dovie Webster and Misses Bernice, Loraine and Marvin Webster.

Out-of-town relatives were Mr. and Mrs. C. L. Arnwine of Rusk; Mrs. Laura Clark and Mrs. Willie Clark of Jacksonville; Joe J. Scoggins of Tyler; Mr. and Mrs. H. L. Wheeler of Optima, Okla.; Mrs. Lola Brooks of Guyton; Mr. and Mrs. S. M. Miller of Kirksville, Mo. Rev. and Mrs. J. A. Scoggins, Roby Texas; Miss Mamie Heizer of Roscoe, and Mr. and Mrs. Charles Bairfield of Miami, Texas.

Watt Hardin on the McCauley farm in the Hudgins community is showing his herd of hogs how to 'put on airs' by building them a sandy good feeding machine. He will feed tankage and threshed headed grains.

Mr. and Mrs. Harry Long and children of Arkansas City, Kansas are visiting Mrs. Long's father W. D. Jordan at his ranch home.

#### Thompson Farm Interesting Rural Study of Plans

One of the busiest places in the county is the farm home of Mr. and Mrs. J. A. Thompson of a mile north of Lelia Lake on the location of the oil test well.

They have better than 500 acres of good tight sandy land well adapted to growing a variety of crops, and are taking advantage of this fact. This is the home place, though they own acreage of farm property and town property scattered from Lelia to Dalhart.

Seventeen hundred bushels of corn carried over from last year as well as roughness was a safeguard against what might happen this season. The corn crop of hickory king is already made this season. Several tons of alfalfa is stored in the barn. The farm is stocked with some forty head of good hogs, chickens, turkeys and cows.

Fruits and vegetables are grown and large quantities stored for winter use through the canning method. Canned meats are added later in the fall. The melon crop has been damaged by dry weather but the main field crops are all practically made with the exception of cotton which is looking good.

#### Donley Bank Installs Iron Bar Doors

As an extra precaution against robbers coming in the two side doors and so the doors may be left open during business hours to let in more air, iron bar doors have been installed over the two side doors of the Donley County State Bank. These doors are seldom used by the bank during the business of the day, but keeping them closed cuts out all the air so with the new iron doors properly locked they will serve two purposes. It has been through one of these doors that the robbers have twice entered the bank.

Mr. and Mrs. Dewey Herndon returned the last of the week from a visit with her relatives in Washington county, Arkansas. They report good crops, plenty of fruit, cool weather and no mosquitoes.

Mrs. John Humphrey and children left Monday night for Brawley, California where they will join Mr. Humphrey who is working on a ranch there.

#### Donley County Man Grows Okra by The Ton

J. L. Giesler, residing on the D. W. Turner stock farm south of Alanreed is trying a new variety of field crop this season. Five acres of his crops is devoted to the growing of okra of the Jumbo variety.

According to reports that are reliable, over four thousand pounds of okra has been sold from the patch to date, most of it going to the Pampa market. The owner gets two cents at the field, or five cents a pound delivered at Pampa.

#### Memphis Rotarians on Visit To Local Club

Jeff Watson and Ralph Cabaniss of the Memphis Rotary club were up Friday for the luncheon hour. Both men made excellent talks as they always do on these occasions.

Secretary Arch Dyer opened up on a lengthy explanation of "classification" finally making an excellent address out of the matter. His remarks showed a close study of the situation and plenty of interest.

An extra song service was led by Robert S. Cope with Rotary Ann Wiedman at the piano.

The Vocational Committee will have charge of the program Friday of this week.
