## DONLEY COUNTY SHERIFF IS SUED FOR \$25,000 DAMAGES BY BORGER CITIZEN

Papers were served on Guy S. Pierce, sheriff of Donley county Monday making him defendant in a suit in which the plaintiff is claiming damages in the sum of \$25,000.

The damages are proportioned as \$10,000 actual, and \$15,000 exemplary.

The case is based on action taken by Sheriff Pierce some weeks ago when Sheriff Alexander of Hall county called Pierce and asked him to look out for a car of a certain description and number occupied by two men and a woman, a barrel and a police dog. It was alleged that parties of this description in a car of a certain number had robbed a filling station in Hall county.

A car of the number sought, bearing a police dog and a barrel and occupied by two men was held up at Hedley by Sheriff Pierce and deputy Guy Wright. It is said that every item tallied as per request of the Hall county sheriff except that a woman was missing from the car.

The two men are said to have refused to stop at Hedley when so commanded by officers, and that a short distance west of there, a tire was shot off the fleeing car by one of the officers, after which the two men surrendered.

They were taken to Memphis and detained until next day when it was determined that they had no connection with the high-jacking job. Being liberated, the men are said to have called at the Sheriff's office here on their way to Borger, and expressed regret at the occurrence, and are further said to have stated that "no hard feelings were held toward the sheriff and his deputy for having done their duty" as one of the men expressed it.

Joe Ivy, one of the two men, now brings suit as named above. In the allegations set forth by the plaintiff in his claim for damages, he states: "Plaintiff had a pound of country butter in his car which defendant and his said deputies unwrapped and spoiled by his further damage in the sum of 25c."

Sheriff Pierce states that the dog was fed at Hedley during the time the men were being held at Memphis, and that every courtesy was shown the men as well as the dog. He is of the opinion that he never saw \$25,000 and never will, and further, that country butter never did excite his curiosity as he was raised on it.

Judge Link of Clarendon and ex-District Attorney James C. Mahan have been retained to represent the Sheriff. The case will likely come to trial here at the March term, if at all.

## REPEAL VOTED 18TH AMENDMENT BY BOTH HOUSES

### Thirty-Six of Forty-Eight States Must Approve Amendment

Both houses of Congress have voted a repeal of the 18th Amendment this week. This action sends the prohibition issue back to the states for ratification or rejection of appeal.

Texas senators divided on the issue, Sheppard voting against repeal and Connally for it.

Texas congressmen voting for repeal were Briggs, Buchanan, Cross, Dies, Eagle, Johnson, Jones, Kieberg, Lanham, Mansfield, Williams, Thomason, Summers, and Rayburn.

Texas congressmen voting against repeal were Blanton, Patman and Sanders.

Ratification by the necessary thirty-six states may be done by either state convention, or by act of the legislature. The legislature of Texas would have final say in the matter.

Early ratification by the wet states is expected with Delaware and Maryland leading. California is expected to take action within the month. States of the south appear to be backward about rushing matters.

## Clarendon Band Director To Go to Washington

Monday, the Legislature concurred in resolutions previously passed by the Senate designating the "West Texans" as the official state band to attend the inaugural ceremonies at Washington on March 4th.

Gus B. Stevenson, director of the Clarendon band is also a member of the "West Texans", a band composed of west Texas musicians. His many friends will be glad to learn that he is to represent Clarendon and Donley county at Washington.

Members of the band are to dress in typical west Texas style of thirty years ago, 7-gallon hats, chaps, boots, etc.

## Lions Minstrel to Appear Before Hedley Crowd

Announcement is made that the Parent-Teacher association of Hedley has asked the Lions minstrel troupe of Clarendon to put on their act there Friday night of this week.

This minstrel composed of people both in and out of the Club recently staged a very successful show at the Pastime, and the show at Hedley will be a benefit show the proceeds going to the Hedley Parent-Teacher association.

## John Daves of Quail Killed By Pistol Shot

Shortly after dusk Wednesday evening, John Daves, filling station operator of Quail was instantly killed. Jack Allred, young farmer of the community went to Wellington and surrendered to the sheriff.

Motive for the shooting is unknown, and no trouble on any previous occasion had occurred so far as other citizens could learn.

## W. H. Patrick is Speaker On Banker's Program

Mr. Patrick, president of the First National bank of Clarendon was one of ten speakers to appear on the speaking program at Ft. Worth Wednesday, the occasion being a meeting of the bankers of the 7th District.

## Speaking at Jericho Will Be Monday Night

Announcement has been made by W. T. Hayter, president of the Farm and Home Owners Protective League of Donley county, that a meeting of citizens has been called for Monday night at Jericho.

Judge Gough of Amarillo and several local speakers will make talks. All those interested in seeking a remedy to prevent mortgage foreclosures are asked to be present, as well as the general public.

## Well Known Firm Mechanics Dissolve Partnership

The firm of Johnson & Dawkins has been dissolved by mutual assent the past week. Mr. Dawkins becomes individual owner of the building of the Clarendon Iron Works, the firm name under which these mechanics operated. New machinery will be installed.

Mr. Johnson is erecting a new building 30x50 feet north of the Rayburn Smith filling station northwest of the depot. He retains the machinery of the old firm according to agreement.

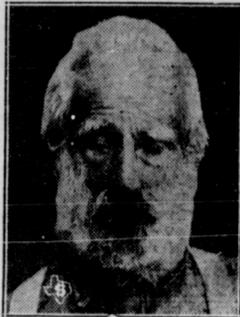

Messrs. R. R. Dawkins and Will Johnson have been in business here for the past seven years and are well and favorably known to a large number of patrons who appreciate the skill of first-class all-round mechanics.

## Interscholastic League To Meet Here March 24-25th

A schedule of the events to be available for contests in the Interscholastic League meet here the 24 and 25th of March was printed in the Leader last week.

Except for a possible few minor changes, this list will not be changed and those interested will do well to study them carefully.

## Oldest Texan Dies

Here is B. L. (Black) Shirley, of Springtown, Texas, who died last week. He was more than 114 years old, according to results of careful research. Shirley was the oldest man in Texas, as far as is known, and one of the oldest in the United States.

## Old-Fashioned Spelling Bee At Naylor Friday Night

Those who escaped the joys of the Blue-Back Speller also forfeited the joys of the spelling matches or "bees" of the long ago. Those who waded through Webster's spelling book of blue back fame, will have another opportunity to enjoy the thrills experienced in their youth at Naylor school house at 7:45 Friday night.

A general invitation has gone out to the spellers good, bad and indifferent to be present. If anyone has a "Blue Back" speller containing the words from "shady" to "incomprehensibility," they are kindly asked to bring it with them.

## Chamberlain Citizens Make Plans For Building

An enthusiastic meeting of the citizens of the Chamberlain community was held at the temporary school building Monday night for the purpose of devising plans for a new school building to replace the one burned recently.

After hearing from a number of the citizens, a vote was taken and the majority favored issuing bonds in the sum of \$3,000. This sum and the amount on hand would enable the community to have a four room brick structure modern in every detail costing about \$4,500.

Walker Lane, architect and district clerk, submitted plans for a building that met with unanimous approval.

Clarendon visitors were Odo Caraway, F. W. Rathjen and Dean Clark, all of whom offered their services in any manner to help the community.

## Highway Matter is Making Slow Progress

Highway department engineers continue on the survey on No. 5 east of Clarendon, several changes being made from the original survey in an effort to curtail expense of land purchases.

The Jury of View has had nothing to do for several days due to the above changes. When the field notes are approved by the Department at Austin, the Jury of View will then proceed to secure title to right-of-way.

## Forgets

This pretty young woman found herself in the lobby of a Houston hotel recently, unable to remember a single event in her past life. After newspapers published her picture, she was finally identified as Marjorie Cottle, 18. She still doesn't remember anything. Doctors claim her loss of memory resulted from mental strain.

## REGULATIONS OF CROP PRODUCTION LOANS IS MADE

### Fix Maximum of Loans At Three Hundred Each If Farm Passes Test

Regulations governing the 1933 crop production loans from the Reconstruction Finance Corporation were outlined by Manager Owen W. Sherrill of the Southwestern loan office at the opening session of a three-day meeting of officials, field inspectors and office workers of the Texas-New Mexico-Arizona region, which opened Saturday morning in Dallas.

Such regulations were announced in Washington Friday by Secretary of Agriculture Hyde and relate to the distribution of the \$90,000,000 to farmers of the nation, authorized in a bill signed recently by President Hoover. From this amount \$10,000,000 has been asked for distribution in the southwestern region, Mr. Sherrill said. Last year approximately \$4,000,000 was loaned in the region.

Mr. Sherrill said that \$300 will be the maximum loan to any farmer, and farmers who are delinquent in repayment of two or more prior loans will be limited to \$100 in order to conserve the crop production loan fund. The loan will be a first lien on the crop produced.

Congress has authorized Secretary Hyde to require acreage reduction up to 30 percent as a loan condition, Mr. Sherrill said, and this will be enforced except in the case of minor producers and growers of perennials. Orchardists will not be required to cut down their trees or otherwise reduce their producing capacity to qualify for aid.

The acreage requirement will not apply to farmers who intend planting no more than eight acres of cotton, two and a half acres of tobacco, forty acres of wheat, twenty acres of corn, two and a half acres of sugar beets, eight acres of potatoes, thirty acres of rice or eight acres of peanuts.

The aggregate loans for tenants of an individual land owner will be limited to \$1,200 compared with \$1,600 in 1932 when the maximum loan to individuals was \$400 instead of \$300 for 1933.

The interest rate will be at the rate of 5 1/2 percent, the same as last year, with the obligations due next Oct. 31.

In counties where fertilizers are not commonly used, the rate of borrowing must not exceed \$3 an acre for truck crops, including potatoes. In counties where fertilizer is required, the rate for general field crops will be \$6 with \$10 in the case of tobacco, and \$20 an acre for truck crops.

Borrowers will be required to agree to plant a garden for home use, and to grow a sufficient acreage of feed crops to supply their live stock. A total of \$1,000,000 has been set aside of the appropriation in the United States for feed loans for live stock in drouth and storm-stricken areas.

Loans will be made only to farmers who are unable to obtain funds for crop production from other sources. No loans will be made to applicants with a means of livelihood other than agriculture nor for payment of taxes, debts or interest or for the purchase of machinery or live stock. The department will be ready to disburse loans, it was said, in about ten days.

## Italian Assassin Sentenced To Eighty Years

Giuseppe Zangara, alleged Patterson N. J. anarchist who seriously wounded Mayor Cermak and three others recently at Miami, Florida was given 80 years of penal servitude by a Florida court Monday.

Twenty years is the maximum sentence for attempted murder in that state, and Zangara was given the maximum in four cases.

The shooting is alleged to have occurred when the Italian attempted to kill President-elect Roosevelt, who escaped injury when the pistol was fired four times into a thick crowd.

## Youngest

Emery B. Camp of Rockdale, Texas, is probably the youngest member of the 43rd legislature of Texas. He is 23. Camp defeated two widely known citizens, both much older than he, to enter the legislature.

## Farmer Plows Up Ancient Spanish Vessel

C. R. Moore of Hale county plowed up an ancient brass vessel on his farm 18 miles northwest of Plainview this week. The vessel is 10 inches in diameter at the top and 12 at the bottom and stands on legs 15 inches in height.

When the find was submitted to Dr. W. C. Holden of Tech college, he pronounced it as being ancient Spanish or Aztec probably lost during the 16th century by early Spanish explorers.

This specimen was located within a few miles of where a sword and spurs of a Spanish Don were found under a ledge of rock on the bank of a draw in 1925.

## Lions Club Hears Report On Several Projects Tuesday

At their Tuesday luncheon hour, members of the Lions club heard a report on relief for crippled children from H. Mulkey. One child is now taking treatment and two more are to begin soon.

Letters were read from Rep. Puryear and Senator Clint Small relative to their opinion on the abolishment of the state Fish, Game and Oyster commission. The Club had lodged a protest with the representatives and were pleased to learn that the matter had been given favorable attention.

Talks were made by a number of members relative to local affairs of civic interest, and announcement was made that the Club would present their minstrel at Hedley Friday night of this week in response to a request from the Parent-Teacher association.

## Why Texas Prison System Makes Money

Here are a few of the reasons why the Texas Prison System has made money since the inception of Lee Simmons of Sherman, Texas, as head of all state prison farms and the penitentiary at Huntsville. This is just a few of the 1,300 hogs on the Harlem state farm at Richmond. The system is now practically self-supporting.

## Clarendon Girl Contestant For Royal Honors

The ladies of the Business and Professional Women's club of Clarendon are sponsoring Miss Julia Mae Caraway of Clarendon as one of the leading contestants for a list of young ladies of the Panhandle from which a queen is to be selected for the Fat Stock Show at Amarillo March 6 to the 9th.

This is the highest honor that can come to a young lady in the Panhandle and the rivalry becomes keener with each succeeding year. Gene Howe, better known as "Old Tack", has been selected to place the crown upon the head of the victor.

## Home Destroyed by Flames Tuesday Afternoon

About three o'clock Tuesday afternoon the fire department was called to the east part of town where fire had been discovered in the Roy Lane home.

Due to the fact that no one was at home the alarm was not turned in giving the fire department an opportunity to make an effective effort toward saving the home.

The contents show almost a total loss and the building is said to be beyond repair. A small amount of insurance was carried.

When the department received this call they had just returned from a call to the J. H. Hurn home on the west side where a trash fire caused the destruction of some yard fencing. Both of these fires are of undetermined origin.

## Pierce Takes Finger Marks From Groom Safe

Finger print expert I. B. Pierce and photographer Earl Alderson were in Groom Tuesday morning for the purpose of photographing finger prints which they found on the postoffice safe broken into there Monday night.

Mr. Pierce has furnished finger print evidence in a number of cases in the aPhandle that have led to apprehension of the guilty parties, and has the only bureau of this kind west of Wichita Falls at this time.

## Cabinet of President-Elect Brings Surprises

The matter being practically decided, announcement is made from a source presumed to be correct that President-Elect Roosevelt has selected members of his cabinet, and that such appointments have been accepted.

The secretaries will be: State, Cordell Hull of Tennessee; Treasury, Wm. Woodin of New York; War, ex-Governor Dern of Utah; Navy, C. A. Swa. son of Virginia; Interior, Harold Ickes of Illinois; Agriculture, Henry A. Wallace of Iowa; Commerce, Daniel C. Roper, North Carolina; Labor, Miss Frances Perkins of New York.

Thomas J. Walsh of Montana is slated to become U. S. Attorney General and James A. Farley, campaign manager for Roosevelt, will become Postmaster General. The state of New York will have the majority of representatives in the new cabinet.

Mr. and Mrs. Charles Barnes of Ponca City visited her brothers, Frank and Ollie Hommel over the week end.

## BOY SCOUT AND MUSICAL PROGRAM FRIDAY NIGHT

### President of Adobe Walls Council to be Principal Speaker on Program

Boy Scouts and their sponsors are expecting a large crowd to be present at the Baptist church at 7:30 Friday night of this week judging from the sales of tickets by members of the local organizations.

At every turn one is accosted by a Scout eager to sell a thirty-five cent ticket to the affair.

A. G. Post, president of the Adobe Walls Council, will be the principal speaker according to late advices. Mr. Post has had many years of experience in the work and is expected to bring a message that will be greatly appreciated by both old and young.

C. A. Clark, district Scout Executive, who has visited here a number of times, will also address the gathering on this occasion. He is also one of the live wires in the movement and has a wonderful influence over his young charges.

Fred Story of Clarendon is also said to have a well set talk which he will deliver the youngsters.

Music of that quality best known from the ability of the musicians, will be a pleasant feature of the program. Those who will appear in a musical role are Mrs. Jane Bownds, Mrs. Earl Alderson, Mrs. J. M. Bass, Misses Gertrude Shepherd and Virginia Cluck, and I. B. Pierce of Hawaiian guitar fame and Elmer Palmer who has an established reputation in local string bands.

The program of music will begin along with the banquet which is to be served in the church dining room. The speaking will follow the banquet and will be heard in the main auditorium.

## Local Labor Projects Await More RFC Funds

Sandbeds that have been the bane of all vehicles for years have been remedied by an application of clay on the streets on the south side which is the last work that can be done until more government funds are received.

The clay is laid over the sand, wet down and then rolled. After a short time, travel completes the job leaving an excellent roadbed. It is said that the material being used will not work up and become muddy in wet weather after the roadbed is thoroughly packed from use.

## COMPLETION OF MUSEUM BUILDING EARLY IN MARCH

### Panhandle-Plains Museum Building at Canyon Will Be Dedicated in April

The Panhandle-Plains Historical Society Museum will be accepted early in March by a committee from the Society and a committee representing the State of Texas.

The State's representatives will be J. E. Josey of Houston, J. E. Hill of Amarillo, and Judge Henry Paulus of Yoakum, these being members of the State Board of Teachers College Regents. They were appointed by A. B. Mayhew, president of the Board.

Although the inspection and acceptance of the building will take place early in March, the Museum will not be open to the public until after April 14, the date of the annual meeting of the Society. Professor L. F. Sheffy, who is in charge states that all of the time between the completion of the building and the April meeting will be needed to move and arrange the materials.

The Museum Building, which is of white Texas limestone, has been built at a cost of nearly \$55,000, more than half of which was furnished by the citizens of north-west Texas. T. D. Hobart of Pampa is president of the Society and H. E. Hoover of Canadian is chairman of the building committee.

**The Family Circle.**

S. A. Mulline of Dothan, Houston county, Alabama tax collector pled guilty to violating the federal seed loan act in the U. S. District court there Thursday. His five sons had pled guilty to the same charge the day before. Now the next question is, is it a family of musicians or bridge players?

**Friendly Corporation.**

Whether you realize it or not, the West Texas Utility Company is the greatest agency we have that is continually selling West Texas to its own people. Their only purpose in view is that where others prosper, the company will reap its prorata share of such prosperity.

**Congress Gets Busy.**

Those who have been grumbling about Congress doing nothing will be glad to know that sufficient interest was aroused Friday for them to pay tribute to their members who have died recently, and on Wednesday of this week, one member read Washington's farewell address to the assemblage. We failed to learn the name of the reader, though it is most likely to have been one of the many flunkies.

**West Texas Wool.**

According to Robert M. Pitt, the third generation of Boston wool buyers by that name to patronize West Texas, this section produces the best grade of wool on the globe. He also gave out the information that the best grades of all-wool suits for men were being wholesaled now at \$5 to \$7.

Pitt says that with modern machinery, a suit may be manufactured for less than a dollar. The material costs \$3, which leaves a nice profit when sold to the retailer at anything above \$5 a suit.

**Consolation.**

While the Chinks are being chunked by the Japs they have the consolation of knowing that the League of Nations offers sympathy. Just what would have become of the Chinks had this sympathy been given the other side, is hard to conjecture at this time. The Chink being a born money-grabber, and money-grabbers being shy on sympathy, no doubt the Chinks would prefer to receive war material rather than sympathy though coming from an agency that was designed to end war.

**Texas Fever Tick.**

Not many years ago, dipping vats were dynamited. Some people of east Texas refused to believe that ticks could be eradicated from cattle. They looked upon government authority as a fad, nonsense and a humbug.

Today only forty-one counties are under quarantine, 157 being released recently. In 1906 fifteen southern states were tick infested. Today only parts of Texas, Florida, and Louisiana are under quarantine. It is believed that the tick can be eradicated within five more years with proper co-operation on the part of the stock owners.

**Tom and Sam.**

The wets gained some surprisingly new ground in the Senate when Tom Connally lined up with them. Texas dry leaders would never have thought Tom would have heard the call.

Then there is another senator in the person of Sam Bratton of New Mexico who cuts a wide swath in the Methodist church out there. In fact he is better known as "Sacred Sam" among the common run of politicians. Sam also heard the call and lined up with the wets in the show-down. These boys may be churched, but we doubt it.

**Where Credit is Due.**

Here comes a letter from Ray H. Nichols stating that he is in charge of the State Press Bureau at Austin. Ray also tell us that the Bureau will send out news matter of interest to the people regarding the actions of lawmakers at Austin. He also wants to know if we will publish the articles.

We will if they are of any news value.

If the papers of the state have awakened to the fact that they are honestly due the people some consideration in giving them information from down Austin way, a long step forward has been taken.

Give us the dope. Let's tell the folks the facts, and then if they haven't got sense enough to know what to do next, perhaps we can all sell out to them. It doesn't require much intelligence for a newspaper man to make an ass out of himself when he starts out to do missionary work.

**Physical Iconoclast.**

In the death of Black Shirley at Springton Friday, Texas lost her oldest inhabitant, aged 114. If he did nothing else, he shattered a number of theories of ologies and lams. His knowledge of vitamins and technocracy rated less than D-minus, and his knowledge of dietetics was little better.

It is said that he drank whisky until he reached an age of more mature judgement at 104, and rode horseback until he was 110, whatever else may be ascribed to his longevity, an active life coupled with a keen interest in world affairs is the only theory left to posterity.

At the time of his death it is said that a plug of strong chewing tobacco lay near him, and his third wife stood by his bedside—he was game to the last.

**Jones Talks Sense.**

It is so seldom that one hears of anything sensible being discussed by the United States congress except upon the part of a very few that we wish to mention the bill introduced by Con. Marvin Jones of this district who is also Chairman of the House Agriculture Committee.

This Jones bill if enacted into law would provide for refinancing farm loans on a long time payment basis with an interest payment of 2 1/4 percent, with an additional 1 percent payment on principal each year. The bill also includes President-Elect Roosevelt's idea of a consolidation of government departments and bureaus.

This bill would provide for the issuance of 2 percent government bonds in return for farm loans up to 80 percent of the value of the farm.

ruin the laboring man. Each publication takes an extreme view and no one would dare doubt the sincerity of either Thomas T. Waggoner or the doughty Joe J. Taylor, to say nothing of their ability to smash precedents, demoralize proponents, and totally annihilate antagonists. The divergent views of these learned gentlemen would tend to convince us that we are not now in "one hell of a fix", but may soon be if the sales tax becomes the law of the land.

After the smoke of battle has cleared, we rise, Phoenix-like from the ashes of oblivion, to state that a sales tax applies to the spender, and protects those who would save for the rainy day. Under the present system of taxation, the poorer class pays the bill indirectly, and the very system itself penalizes those who would save. Every worth-while movement in favor of the masses has always found objectors within the ranks of those whom it would benefit. Do we not

read in history that Americans joined the British army and fought against their neighbors who marched under the banner of George Washington?

**Legal Lights.**

Legal decisions are said to have ever been the guiding light posts along the strange paths of progress of savage man.

In the case of Gromer v. Standard Dredging Co., 224 U. S. 362, 371 the Boulder Canyon dam project act has been tested in the case of Arizona against California and was held by the Supreme Court to be constitutional as a project for the improvement of navigation.

The Boulder canyon project is also known as the Hoover dam. It was first hatched in the minds of real estate men of Los Angeles when that fair Pacific coast city ran short of fresh water. It was also designed to change the water course from running down through

**CHILDREN'S EYES NEED SPECIAL CARE**

"What a shame," we often say, when we see youngsters from six to fourteen wearing glasses. It seems a tremendous handicap for youth.

But often it is a blessing, rather than a pity, for visual defects in the eyes of boys and girls may often be corrected so that glasses worn when young may very often be discarded later in life, whereas if the defect were not corrected, serious eyestrain might result and the child's general health, as well as his vision, be impaired for life.

So we say, "Children's eyes need special care." Modern ophthalmic science can detect, and correct, those minor deficiencies now, which may become serious deficiencies if neglected.

Don't take a chance with those precious eyes. It will take but a few minutes to reassure yourself—and it may mean so much later. An appointment for an examination of your child's eyes can be arranged at your convenience.

the Grand Canyon and rendering it further unfit as a tourist attraction by reason of the long climbs up and down steep banks.

Now we get further enlightenment from the highest court to the effect that it is a navigation project. Los Angeles will become a city on the inland waterways extending from the Pacific ocean half way across the continent. Great ships will sail through the tunnels, across flumes and finally drop anchor in the midst of America's greatest desert.

The gigantic irrigation project's possibilities thundered through the corridors of the national capitol have become a myth. Estimated to cost double the price of the Panama canal, the brutal expenditure of the millions becomes a nightmare to the burdened taxpayers of the nation.

**Cannon Fodder.**

Congress has voted large sums to be expended in military training of young men in need of employment. Proponents of the bill blandly tell us that the purpose of the bill is to rid highways of hitchhikers. In reality, it is to train men to correct with arms later, the mistakes of our national lawmakers today.

If the instigators of this crime were really sincere, arrangements would have been made to train these young men in useful pursuits rather than converting them into military puppets. There is a crying need for practical training of our young men. Great schools could have been established similar to our soldier training camps during the World War if nothing else, where the youth of the land could have received training in

trades and professions that would later make a greater nation rather than perpetuate that relic of barbarism—war.

At the same time, it will be noted that girl hitch-hikers will be permitted to go on hitch-hiking because they do not make good soldiers. Many a brave girl has left a home of poverty and braved the censure and dangers of a cold

world in order to secure employment to better her condition and render financial assistance to those back home. Thousands of happy homes have been made a "hell on earth" through poverty and forced future mothers of great Americans to become nomads. Thousands of these girls of noble character are today enacting a role of heroism never before discovered.

I'm for women's rights. GW says I am and anything a 229-pound determined woman says, is bound to be right.

I've heard some men rave about women wearing knickers. Which is alright by me whether they fit snug or have a circus tent impression as they swish in the wind. In the old days one woman with long skirts gave more germs a free ride than a march wind. Sweeping the streets or highways with long skirts is dangerous to the "skirter" and to the general publictoo.

If women want to wear pajamas, that's also their business, though most of it is confined to the young women. The louder the colors the better. If the young lady who kicked off my hat Monday had of had on skirts, she would have bumped the sidewalk and had concussion of the brain. As it was, I picked up my hat and no damage. I'm for it.

Some folks think that a woman ought to hold a baby under one arm and cook hash with the other. Perhaps she should, but she should not have skirts flopping into the fire, especially while she is holding the baby. A skirt fire is a one-woman act. She ought to wear pants, and the knickers look plenty good, and I've seen some mighty good lookers with overalls on. Clothing does not always make the woman even if some of them think that way.

The men folks of the movies around Hollywood are taking to wearing skirts. One fellow said they were good enough for his

mother, and they were good enough for him. Personally, the only experience I ever had was in wearing a dress to slip up on a chicken hawk. Hawks are not afraid of women and what I did to that hawk while I was disguised, was a plenty. After that I just a dress on in case a hawk showed up again, and this went on until cold weather. Besides who would want to look at a man's shins? Skirts started as a shin exhibit in the first place. Every time I look at a 16-inch double-column display advertisement on a windy day, I think she ought to wear knickers. That is unless she is a advertising specialist.

Furthermore, if any of you women want a defender, come around. I see and hear more and say less about it than any man in the county of any age.

Most neighbors like to lend and borrow. Most of the borrowers have lent anything that you want. Ever live by folks who wanted to lend all the time but didn't have anything to lend?

Lovie Beavers can yodel and sing cowboy songs like nobody's business. She is a daughter of Rev. and Mrs. M. M. Beavers and is one of the finest girls ever. These kind of girls who have talent for making folks happier, and will use it, are the most valuable people in any community.

In looking over the fashion ideas in a woman's magazine this week I found some pictures of a Florida hat that reminded me of a skillet. Speaking of skillets, they have a new one on the market now with a crease in the bottom on the inside next to the wall that drains the grease off what is cooking in the middle. What a great thing that would have been back in the days when we had fried mush for breakfast. In this age of goober-hull breakfast foods, the young folks don't know a thing about fried mush, or how it was made.

No wonder Texas has a large immigrant population. With cow girls like this, who wouldn't "stick 'em up" and sing "I Surrender Dear." This is Bee Brenner, a Port Arthur girl now singing with Joe Candullo in the Adolphus Junior ballroom, Dallas.

Castoria is about the only thing that survives the ages and they still cry for it as much as ever, if they ever did.

My first experience in driving a jitney was my hardest. It refused to stay in the road, and when it was headed through the sandy country among the shinnery, the blamed thing would hunt acorns and nothing else. When I got it headed out it took across the pasture in the dim moonlight and in crossing a ravine where the broom weeds were highest, it climbed on the back of a Black Polled-Angus bull big as an elephant. He didn't savvy the program and got up to leave with that machine right on top of him. My oldest boy was the only one to start with me, and when the bull slid us back to ground again, my oldest boy had gone through the windshield. I was a friend to the gentle black breed of cattle from that time on. If he had been a Jersey, he would have stepped in my eye and hooked me all over a 16 section pasture. Cattle are like people, some are better than others. Or some people are like cattle, whichever way you want to take it; if you know what I mean.

A sense of humor is life's fire escape. If you expect to find anything sensible in this column, you are on a cold trail.

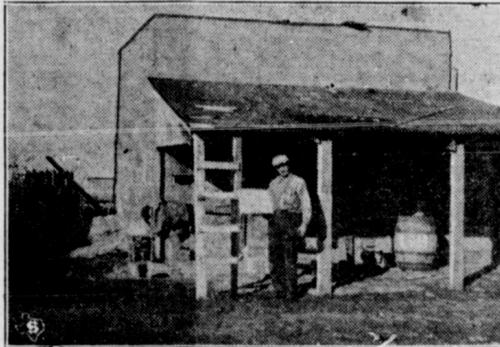

Preacher Ferrell, he of the magical arts and mystifying gyrations, was giving a demonstration in reading through cloth recently when he spread a dark cloth over a newspaper and read aloud to his audience. When he locked up, all the older women had walked out on him and most of the girls.

When times slacked in Amarillo a printer became a cafe waiter. When a patron complained of finding a button in his soup, the printer said, "beg your pardon, merely a typographical error, it should have been mutton instead of button."

Some women make up their minds to stay home, and more of them make up their faces to go out.

Speaking of Scotch jokes, Sandy died of shock while pitching pennies to children when the string broke.

**Here's Ideal All-Weather Smoke House**

The weather does not interfere with the butchering of hogs by Jess Higgins, Salt Branch farmer in Taylor county. Higgins' smokehouse, pictured above, is built of rock, well insulated with 10 inches of cottonseed hulls. Ice taken from a nearby lake in winter usually lasts through July. A basement provides storage, and the water tank on top is excellent insulation against the sun's rays.

The only difference in a rhinoceros and a hippopotamus is that one wears a radiator cap and the other doesn't.

Headline: 'Surprised by Friends.' Friends sometimes surprise the best of us. I knew an old brother who surprised his minister by giving him a pounding. The same party also left the country owing me five bucks. Friends surprise us most when they pay back what they have borrowed.

The Nut family were in Saturday. Old man Coco, the half-witted father who looks more like a monkey than he does a nut brought the children along, Ches, Wal and Fig, also the cute little daughter Hazel. Butter would have come but he was too strong and unruly.

When Ed Fox, he of the Jitney-Jungle grocery first came to the Panhandle fresh from College, he dressed the part and was instantly taken to be a doctor (medical, not

DD.) An old rancher who was naturally proud of a son who was and had been sick for some time called Ed in on the case. Being of a sympathetic nature, Ed immediately began operations looking toward recovery of the patient by advising a bath solo accompanied by lye soap and corn cob rubs. This operation completed, he picked the ticks out of the ears of his patient and was rewarded by seeing the strapping youth restored to health in 24 hours. The old man sought to reward friend Fox but all money was refused. Finally the old man gave Ed the best saddle that he ever rode in his 49 years experience as a puncher in the Panhandle. The truth leaked out that he was no medic when they had to chase the "doctor" out of bed with a shotgun every morning.

Tom Murphey qualified as an aerial marksman Saturday by shooting a coyote from a jitney traveling at the rate of 42.17 miles per hour. (P. S. This coyote deal can be proven if necessary.)

If you want to aggravate an enemy, send him two jig-saw puzzles scrambled in the same box.

**Get Rid of That SORE THROAT!**

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of genuine Bayer Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so before gargling take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Bayer Aspirin relieves neuralgia, neuritis, too. You may use it freely, it does not hurt the heart.

**NO TABLETS ARE GENUINE BAYER ASPIRIN WITHOUT THIS CROSS**

A lady from Moore county wants the Apostle to head this column with his actual photograph. This is a serious request requiring serious consideration. There was a time when horses were advertised in this manner, and it is my belief that a fellow ought to have horse sense before printing his own picture in his own paper. Some birds are as keen to get their pictures in the paper as a patent medicine showman is to get his mug on the bottle. Besides, lady, if you knew just how onery the Apostle looked, you would have more feeling for handicapped humanity than to make this request.

No such thing as an "oppression" period since Saturday. Mrs. R. W. Fowlkes of Chamberlain sent in a sack of those speckled butter beans. The kind that have a 'nutty' flavor when cooked properly. J. P. Reynolds brought in a dishpan of sausage ready to be seasoned with garlic, onions, caminos, sage and all the cove that makes real sausage. Sar: Dale brought in a big sack of sweet potatoes. Now that we have plenty, we observed Thanksgiving, Christmas and New Years dinners that have been skipped back yonder when the 'pickin' was poor. We are now eating our Fourth of July feed to make sure while the opportunity is here. It's great to live in a country where there lives real folks.

## WOMAN LOST 20 POUNDS IN 4 WEEKS

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce as tens of thousands of men and women know.

For your health's sake ask for and get Kruschen at any drug store—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

**LUCKENBACH STORY AN 82-YEAR SEA ROMANCE**

EDGAR A. LUCKENBACH LEWIS LUCKENBACH

THE L.L. LUCKENBACH, THE SHIP THAT SUCCESSFULLY FOUGHT A SUBMARINE.

By L. JAY STEVENS

For more than three-quarters of a century no name has been better known in American shipping than that of Luckenbach. No name has meant greater progress in the arduous but romantic task of carrying goods from port to port in this country and abroad. And no name has loomed larger in tying together our Eastern, Gulf and Pacific coasts via the broad highway of the sea.

This was emphasized recently by the appearance of two fast new freight carrying giants, the "Andrea F. Luckenbach" and the "Lewis Luckenbach," of 14,400 gross tons each, the two largest freighters under the American flag. They have joined their nineteen fleet comrades in the growing exchange of commodities by way of the Panama Canal between Boston, New York and Philadelphia and Los Angeles, San Francisco, Portland and Seattle, with the Pacific lines also making port at Mobile, New Orleans and Houston, Tex.

The Luckenbach story is an 82-year tale of romance and adventure conducted by three generations of a single family. It includes in abundance everything a sea story should have—speed records, thrills, vicious storms, saving of life and even a winning battle with a German submarine. And glorious chapters are still to be written.

Way back in 1850 Lewis Luckenbach bought a tiny tug, the "Bluestone," for marine trucking work on the Hudson River. Presently he ventured down the Atlantic Coast and devised the idea of towing several barges behind a single tug. Insurance companies would have no part in such a radical enterprise. But he got away with it and thus started a practice which has since saved millions of dollars in towing operations.

All of the 21 big ships of this fleet, the largest privately owned steamship line in America, are named for members of the family. One of them was the first commercial vessel through the Panama Canal in 1914. More than 123,000 gross tons of them engaged in the armed service of the Government during the war, four were sunk by enemy gunfire and torpedoes, one successfully fought a submarine for four hours and then they all brought thousands of soldiers home.

Last month, for the first time in their long history, all the Luckenbach ships were thrown open to from two to ten passengers each, and have been filled to capacity ever since with people seeking health and rested nerves by long inexpensive trips "by freight" without the jazz and excitement so hard to escape ashore.

County Supt. Schools

All the Trustees and Principals of the county will be present at a meeting in the District Court Room at Clarendon Saturday to organize a Donley county Trustee-Principal Association. Mr. J. E. Rogers of Thrift, Texas president of the Wichita county Trustees Principal Association will be present to outline the work. Mr. Rogers is a Trustee and the organizer of the first Association. Mr. B. V. Williams Superintendent of Estel-line Public Schools and the Corresponding Secretary for the Association in Wichita county when it was first organized will give some pointers on the scope of the Associations Program. The major premise upon which the organization is founded is "Better Educational Opportunities, Equalized and at Smaller Costs", and with this idea firmly in mind the principals

The Wonder Tomato we introduced two years ago, are having good reports come in from mail order sources as well as local trade. Here is a sample from one of our mail order customers. Read this letter from the owner of the Imperial Barber Shop, Claude, Texas:

Claude, Texas  
October 17, 1932.

Dear Mr. Jones:

"About May 10th I received from you 100 tomato plants, mostly Wonder, the balance McGee. I also set out 7 other varieties. Since you asked me to give these a test, especially the Wonder, will tell you that from the start to finish, the Wonder did best of all. McGee was next, began eating ripe tomatoes July 8th. What I like about the Wonder is that they don't crack when we have a change in the weather like some other varieties do. And I have found that it pays to get the big transplanted plants and put them out early. Can sell around 2000 of these early plants for you next spring. Be sure to have them early like you did this year, and the transplanted kind.

Respectfully,  
R. E. Blanton."

er: The really Governor Ferguson's message to the Legislature is for suggestion and recommendation for a three percent Sales Tax law.

In the message she recognized the necessity of reducing taxes especially on farms, homes, and real properties. Her next suggestion as regards the Sales Tax Law was that it be substituted for or levied in lieu of the Ad Valorem Tax going to the state.

Almost instantly there was concerted opposition by many organizations and individuals. Even Grayson County, through the Commissioner's court, offered vigorous protest supplemented by individual petitions, numerous signed perhaps, by business men and others in Sherman and elsewhere.

Beyond question taxes upon agriculture in some way must be reduced. Real estate in Texas has been the dumping ground for every demand for more money whether it be the support of the State government; the roads, the schools, the pensions or what not for twenty years. The consequence if the values of real estate, because of excessive taxes, have been driven down and down to the point at which nobody will buy and nobody can sell. Real estate has been destroyed by taxation.

While it is true, hundreds and hundreds of individuals, a good many industries and some considerable commercial organizations, whose incomes are three to ten times as much as the incomes from farms and real properties, have either escaped all taxation or contributed but little. It is safe to say the burden of taxation has been carried by real estate for many years and for a time long enough. It is but fair to say that a tax based upon income is just and every income protected by the state, privileged or permitted by the state, should contribute to the support of the state through taxation.

At this time, the state moves under a large deficit. That deficit must be paid or repudiated. Farm lands, homes and other real estate cannot pay that debt and continue to support the state government.

So that, it occurs to this writer, it is not only necessary but it is in

**Dramatic Moment in Woman-Attack Trial**

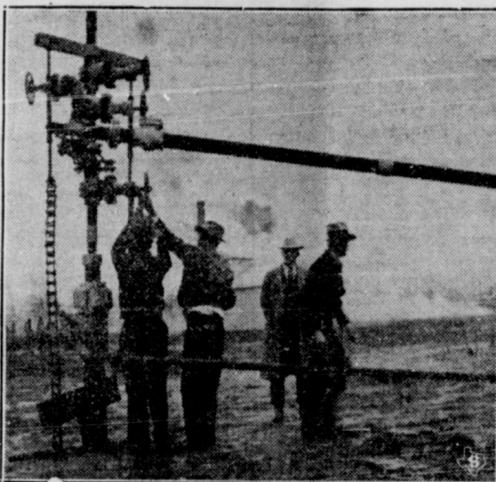

"There is the man who beat me, threatened to kill me, and then criminally attacked and shot my wife," said G. W. Dillehay, left, pointing an accusing finger at J. M. Pickett, right. This dramatic moment occurred in the district court at San Antonio. Pickett was sentenced to 99 years for the crime. Mrs. Hazel Dillehay and her husband both were disappointed in the verdict, thinking that Pickett should have been sentenced to the electric chair.

fact wise and fair to put on a Sales Tax.

It is all foolishness to talk about the retail merchant paying the whole of this Sales Tax. He will not do it. He may pay a part of it and he should pay a part of it. In the main, however, the retail merchant will pass that Sales Tax on to the consumer and the public may rest assured the retail merchant nor the wholesale merchant will not pay more than their proportionate share on a fair basis of this proposed Sales Tax.

Again, it is said that the proposed Sales Tax is the tool of the rich man and that the poor man will pay the tax. That depends upon how much the poor man buys for himself and his family and in the same way that depends upon how much the rich man buys in the support of his family. As an illustration, the poor man will buy a "Tin Henry" at a cost of \$500.00 and the poor man will pay say \$15.00 sales tax. The rich man will buy a Pierce Arrow at a cost of \$3000.00 and he will pay \$90.00 of the sales tax. In the two cases, the Ford purchaser has what he is

**Oil Rangers On the Job**

Here are employees of the State Railroad commission pictured as they shut down the Cranfill-Reynolds No. 1 McGrade in the Sanchez Survey, Gregg county, East Texas. They are guarded by specially commissioned rangers helping Commissioner Ernest O. Thompson make proration effective in East Texas. The operators subsequently commended the commissioner in his firm stand.

satisfied with, perhaps, in the way of an automobile, and the rich man has exercised his desires to purchase the sure enough automobile and both of them measure their tax, which will go to the support of the state government, by exercising their own desires and preferences.

There is nothing unfair about it. It had as well be remembered by the rich and by the opponents of this proposed law now as later that favors, large favors, and frequent favors, must be passed out to the men who till the soil. Prosperity will never come to the rich nor even the middle classes again until the men and women who make—produce—what we eat and what we wear—the two imperative necessities of life—at a profit.

This true, then, it behooves the rich who want to be prosperous to lighten the burdens of agriculture by lessening the taxes on agriculture and the quicker that is done, the quicker will prosperity come around the corner.

There will be some minor injustices perhaps, here and there, in the operation of the Sales Tax. But from the very first day it is put in operation, in this writer's judgment, it will be fairer, yes doubly fair, to all the people, as compared with the gross and almost criminal unloading of taxes upon agriculture during the last twenty years.

We do not care to enter into a controversy with the Commissioner's court nor the individual business men anywhere. But fundamentally a Sales Tax, in this writer's judgment, is equitable, fair, just, wise, necessary and will generally prove to be satisfactory.

Some will oppose the tax because it was suggested by Governor Ferguson, whom they do not like. Whether one likes Mrs. Ferguson or not has no part in the consideration of the proposed Sales Tax Law. Mrs. Miriam A. Ferguson, the wife of James E. Ferguson, is now Governor of the State of Texas and a call to duty, supported by the best citizenship, is made to every citizen of this state to lay aside the personal prejudices and contribute everything possible and within their power to help her make the best governor the state has ever had. We really hope to see the proposed Sales Tax Law

enacted and we have full confidence that such enactment will do away entirely with the Ad Valorem Tax going to the State for its support.

Our Weekly CHURCH CHAT

W. E. FERRELL, Minister First Christian Church

Theme: "THE CHURCH LOST AND FOUND." III. "Steps Leading Away from the New Testament Plan."

We have studied the lessons on the purpose of the church and some of the fundamental principles of the New Testament Church, and today we desire to study some of the "steps" leading away from the New Testament plan.

One of the first steps away from the divine plan was the creation of a third group of officers in the local congregations, known as bishops. In the New Testament the terms "elders" and "bishops" are used in reference to the same officers. See Acts 20:17; Phil.1:1; Tit.1:5,7; This change was the beginning of the Roman hierarchy, and the appointing of a pope.

Another step was the development of the priesthood, which made it impossible for a man to approach God directly in prayer, and resulted in the placing the matter of forgiveness largely in the hands of man.

Another step, was the introduction of infant baptism. It is well to remember that this was not taught in the Scriptures. In every case of conversion, we note that every person who became a member of the church, heard, believed and obeyed, these things an infant cannot do. Infant baptism goes back to the days when the idea of total depravity was developed. The Bible teaches that little children come into this world innocent and free from sin, therefore needs no redemption. Infant baptism is an idea taken from distorted theology and not from the Scriptures.

Another step from the New Testament plan, was the substitution of sprinkling for baptism. In apostolic times, baptism required much water, the candidate went to the water instead of having the

DOROTHY DARNIT

water brought to him. He was taken down into the water and buried in a liquid grave, and raised again to walk in a new life with his Savior. The first substitution was in the year of 251 and was known as "clinic baptism". Sprinkling was legalized by the Council of Ravenna in 1311. Another idea borrowed from Rome and not the Bible.

Another step was the changing of the purpose and observance of the Lord's Supper. The early Christian's met 'every first day of the week.'

The acceptance of creeds in place of the Bible was another step that led away from the New Testament plan. The Bible is a sufficient guide if we will follow it. The results of these departures was that the church was lead away from God's plan.

BOOK TALK  
By Lallah Wright  
\*\*\*\*\*

The subject of heredity has afforded material for many good books.

Edith Olivier presented, in "Dwarf's Blood", a versatile group of characters. Sir Nicholas Roxerby was the last member of a fine old English family. His resemblance to his Roxerby ancestors stopped, however, abruptly after the ostentation of his physical being; his soul was trapped in a quagmire of ineffable misery by the congenital essence of his inferior dwarfish mother. Bob Roxerby, his father, married a dwarf in Australia, her only attraction being her money. Nicholas and his mother had always felt for each other that bitter hatred which exists between two people linked together by such inescapable chains. Mrs. Roxerby could never look at Nicholas without the feeling of humiliation she had suffered at the hands of Bob Roxerby. Nicholas, in turn, was repulsed at sight of his mother and was inexorably embittered for having been brought into the world. At last he had an opportunity to leave Aus-

tralia to go to England as the Roxerby scion, leaving, he thought, all his tragical past behind him.

In England he married Alethea Bracton. Their first child was a girl, Portia, who had the stature of a normal person and the soul of a dwarf. She was an ego-maniac, selfish, exceedingly termpgant in temper, and as impassionate as metal. The second child, Hans, was a dwarf boy with a blessed convivial temperament and the blood of the genius in his veins. Through his ability as an artist he finally became the medium for freeing Sir Nicholas' spirit of its inferior complex.

In "So Big", Edna Ferber made heredity a blessing in some characters and a curse in others. Roelf, a genius, sprang from unaesthetic people. The only hint given as to where this spark of genius originated was in the scene wherein Roelf's mother showed Selina a beautiful chest carved by an old member of her family and presented as a wedding gift. Two generations later, the blood of this member was manifested in Roelf's success as a sculptor.

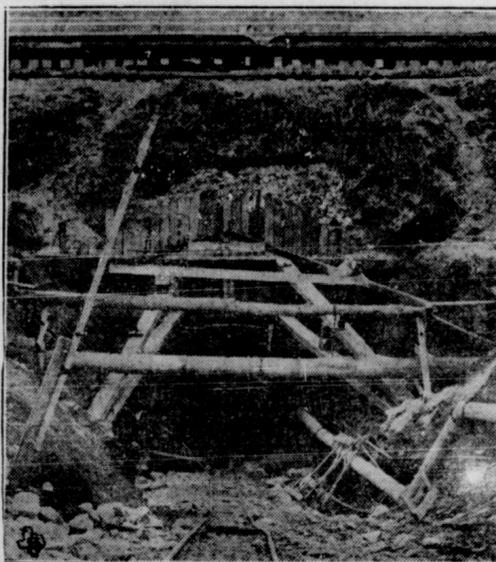

Selina was inspired by Jane Austen's books to be a writer. But the pell-mell of farm drudgery caught her too soon, and her dreams were never made a reality. She intended to develop her spurt of ambition through her son, Dirk. But the indolent blood of his father was too strong in his veins; he preferred the tinsel to the gold.

The beautiful story of Fannie Hurst's "Stardust" dwells entirely on this subject. Lilly Becker revolted against the sterile sewing-circle type of living in St. Louis, and after her marriage to Albert Penny, she ran away, alone, to New York to continue her study of music. Life, in its ferocious brutality, showed her that her ambitions exceeded her capability, so she made herself a means to an end by training her child, Zoe, to be all she had hoped to be herself. Lilly's mother and father were the vine; Lilly was the grape; Zoe was the wine. Lilly saw that she could not be Venus, so she stepped aside, gracefully and gratefully, to make Zoe her Venus, and to accept the stardust closest to Venus.

Diet Didn't Do This! HAPPY little girl, just bursting with pep, and she has never tasted a "tonic" Every child's stomach, liver, and bowels need stimulating at times, but give children something you know all about. Follow the advice of that famous family physician who gave the world Syrup Pepsin. Stimulate the body's vital organs. Dr. Caldwell's prescription of pure pepsin, active senna, and fresh herbs is a mild stimulant that keeps the system from getting sluggish. If your youngsters don't do well at school, don't play as hard or eat as well as other children do, begin this evening with Dr. Caldwell's Syrup Pepsin. This gentle stimulant will soon right things! The bowels will move with better regularity and thoroughness. There won't be so many sick spells or colds. You'll find it just as wonderful for adults, too, in larger spoonfuls! Get some Syrup Pepsin; protect your household from those bilious days, frequent headaches, and that sluggish state of half-health that means the bowels need stimulating. Keep this preparation in the home to use instead of harsh cathartics, that cause chronic constipation if taken too often. You can always get Dr. Caldwell's Syrup Pepsin at any drug store; they have it all ready in big bottles.

## LABORERS LEAD LIST CONVICTS IN PENITENTIARY

AUSTIN, Texas, Feb. 20.—In the average population of the Texas prison system of 5,500 during 1932, there were 2,666 prisoners without religious beliefs, the annual report of the Prison Board, released Saturday, shows.

The report said that only one man of Hebrew faith was in prison. Others were listed as Baptists 1,069, Catholics 700, Methodists 417, Presbyterians 51, Lutherans 26, Episcopalians 14, miscellaneous 103.

There are more laborers—1,169 in prison than men of any other occupational group, but there are three "peace officers," 14 actors, nine ball players, five cowboys, 33 undertakers, 23 printers and journalists, seven school teachers, five veterinary surgeons, and 744 farmers.

Only one physician and one lawyer are in prison, but there are 25 nurses and 20 musicians.

Harris County has furnished 563 prisoners to lead all other counties, but Dallas County has sent 325, Bexar 156, El Paso 190 and Tarrant 177.

Texas has produced 3,515 of the prisoners, but 236 of them come from Oklahoma, 254 from Louisiana, 76 from Missouri, 58 from Mississippi, 74 from Tennessee and 53 from Alabama.

Mexico furnished 302 prisoners, Germany 9, Australia four and Italy and Poland three each.

Burglary, apparently is the most popular crime because 1,404 are serving sentences for that offense. Murder comes next with 902 prisoners and miscellaneous theft with 651.

A total of 1,481 prisoners are serving sentences of between two and three years while 768 are doing between five and six years and 242 are serving life terms. "First timers" number 3,777.

Of the total population, 3,808 have a common education, 712 have a "fair to good" education and 670 are illiterate.

One prisoner is less than 16 years old and 11 are more than 70. Most of them are between 20 and 30.

Representative George Moffett of Chillicothe was a business visitor here over the week end.

Mrs. John Eudy of Clarendon and her sister, Mrs. Ben Eudy of Memphis visited in Brownfield over the week. They were called there on account of the death of the father of Mrs. Eudy, Mr. E. C. Massengill.

## DEPARTMENT OF PUBLIC HEALTH OFFERS ADVICE

Austin, Texas, Feb. 22.—"Each family must make every penny count in times such as these," said Dr. John Brown, State Health Officer, in discussing the subject of food values. "Each family needs at least milk, bread, cereals, vegetables and fruit."

"It is not only essential to live on a well balanced food plan each day, but in times of stress when we need be extra cautious, it is well to increase certain foods which have been termed the "protective foods." These are milk, green vegetables and fruits.

"The amount of milk needed each day is one to two pints for each child and at least one half pint for each adult. For bread and cereals choose whole wheat, rye and white bread; oatmeal and other dark colored cereals, flour and spaghetti. Vegetables should include potatoes and one other vegetable if possible. Some fruit or tomato three or four times a week. Use fats and sweets in moderate amounts and as your money permits add cheese, eggs, meat or fish."

The State Department of Health has a supply of pamphlets dealing with diets, food orders and menus that will be sent on request. This department wishes to be of help to every one in matters pertaining to health and welcomes inquiries as to the method in which they can serve you.

### Chamberlain School News

Well folks we got back from Lakeview and we certainly had a good time, although we got beat. The games that were played were very interesting. Lakeview won both places but they had a right to. We can't say a thing against them for they were certainly good ball players. The last two games of the tournament were the best and they were also very close. Brice and Lakeview played the first game for high school position and Estelina and Lakeview played for the "All Star" position.

We expect to celebrate Washington's birthday by playing basketball. Lelia Lake is expected to be around to play the boys and girls. Also the outsiders will play a game.

Monday night the people met at the school house and made a decision on the kind of school house to build. I think we will have a dandy house next year.

Wednesday night the club women are going to entertain the

basketball boys and girls. Why Teachers Go Crazy While discussing the early trains in the 5th grade history class, the teacher asked: "Where do the passengers ride?"

"In the train," promptly answered one of the pupils.

1st Sap—Let's lay us off a race track 440 yards long and it will be a quarter of a mile.

2nd Sap—No it won't be a quarter of a mile, either, it will be a fourth.

Teacher—Who was Henry Clay? Pupil—I don't know.

Teacher—Well, scratch your head and think.

Pupil—I scratched it before I came to class.

### Poll Tax Payments Short More Than 50 Percent

Poll tax payments for 1931 totaled 2008 according to tax collector M. W. Mosley. The 1932 payments ending February 1st amounted to only 996 or less than fifty percent of what they were the preceding year.

Mr. Mosley maintained his lead in the preceding year. Had 21 more polls been paid, it would have been up to the standard of the preceding year. Mr. Mosley states that the Jericho community maintains the highest tax payment standard in the county.

Illness of a relative called Lott Kimbriel to Van Zandt county Sunday.

Mr. and Mrs. H. W. Uhrig are moving to Hereford this week.

### Rotarians Talk Sales Tax At Friday Luncheon

Denzil R. Davis as chairman of the program committee for the day sprung a new line of thought when he asked that members debate the "sales tax" question. In his quest of debaters, it developed that plenty were ready to take the affirmative side of the question, but the negative had no defenders.

Judge Cole volunteered to condemn the sales tax idea for the sake of argument and debated both sides before closing a ten-minute talk. The Judge stated that the poorer class would have the taxes to pay under the sales tax plan, and that the advalorum tax would not be lessened any.

Dr. B. L. Jenkins espoused the cause of the sales tax as being the only method of taxation making property safe from confiscation. It was his opinion that a sales tax would fall heaviest upon those who purchased most.

J. C. Estlack also spoke in behalf of the sales tax citing the fact that merchants of Dallas ran page ads condemning the measure as proof that it was being opposed by men of means rather than the poorer class. He also stated that sales tax was applicable to the "spender" without disturbing the "saver," whereas our present tax methods penalizes those who would save an accumulate property of any kind.
