Creed.

We fear all things as mortals, and we desire all things as immortals. The next thing is, what are we going to do about it?

Unnecessary.

What we can't understand is why so many motorists drive to distant places to be killed when they have all the modern conveniences at home.

Nature Protests.

Many a younger man today is a physical wreck because of the life led back in better times when he soared with the owls by night and the eagles by day.

Fleishish.

"Idle rumor wrecks oldest banking house," says a newspaper headline. Anything from a machine gun to the character of the best woman in the world will likewise tumble in its wake.

Obligation.

The world does not owe a man a living, but just as sure as there is a God in heaven, the world does owe him a chance to make a living. This right is one of civilization's basic assets.

Our Creed.

We believe that no one can harm us but ourselves; that sin is misdirected energy; that the universe is planned for good. We know that work is a blessing; that winter is as necessary as summer; that night is as useful as day; that death is a manifestation of life.

Conceded.

Fortunate for those who see no goodness or greatness in any one but themselves that the good Lord does not photograph the interior of their carcasses, and with the great stereoscope of heaven flash it on canvas to the gaze of the public. We are at least spared an awful view.

Neglect.

One of the reasons why farm products never sell is that everybody uses them; only a few produce them; there are no high priced stocks buying them up; there are no protective tariffs protecting them from foreign competition; no organized method to prevent under-consumption.

Shocking.

Grandma may be shocked at the way the "sweet young things" dress nowadays, but it is likely that these same "sweet young things" are just as sweet and good as they were girls in grandma's girlhood. They may be a little bolder in some respects than grandma was, but we sorter like 'em just as they are now.

Equipment.

One of the best inheritances a man can receive from his ancestors is a good stomach. Assuming that he cares well for his inheritance, a good disposition naturally follows insuring him being cheerful, even tempered and good natured. If a man has a good stomach, he has no right to be a grouch and a crabber. If he is, he ought to be taken out behind the garage before sunup, and put on the spot.

Another Victory.

When the interests of our school hung in the balance recently, men, women and children became suddenly awakened to the fact through competent leadership. Proposed bills in our Legislature meant destruction to the schools of the state. No wonder thinking peo-

ple became aroused when mercenary motives actuated men to call upon humanity to make such a gigantic sacrifice on the altar of greed as was reported from down state.

Did you ever stop to catch a vision of the greatest standing army in the world? The school children of Texas outnumber the entire population of many nations, and far surpass the war-footing armies of many others. The destiny of our state throbs in every pulse-beat of these oncoming hosts. Texas' future rests with these teeming thousands for a state can never be greater than her sons and daughters. Herein is our amazing responsibility. It stands before us with solemn lips of question. As we lead these throngs into the larger life, we proportionately swing this great state of ours far out into her orbit of appointed destiny. This galaxy of young blood is the unerring prophecy of all the coming years.

That Press Meet.

The publishers of the Panhandle had a great time at Amarillo Friday and Saturday. Though incapacitated for attending every session, the editor of the Leader enjoyed it all. Had it not been for the Amarillo News force, there would have been very little press meet.

Old Tack welcomed the boys and girls in behalf of Mayor Rogers. Tack is editor of the News. T. E. Johnson, as vice president of the Press Association, replied to the address of welcome. Mr. Johnson is assistant editor of the News. Lyman Robbins, secretary of the Association, is also an employee of the News. Wilbur C. Hawk, financial manager of the News, and also president of the West Texas Chamber of Commerce, made an address in behalf of the Chamber.

It was an Amarillo News convention up to that time. Next day, the News gave the Association a barbecue at the Fair grounds. In fact the Amarillo News was host.

The tablets of Bayer manufacture cannot hurt you. They do not depress the heart. And they have been proven twice as effective as salicylates in relief of rheumatic pain at any stage.

Don't go through another season of suffering from rheumatism, or any neuritic pain. And never suffer needlessly from neuralgia, neuritis, or other conditions which Bayer Aspirin will relieve so surely and so swiftly.

hostess and royal entertainer all rolled into one. Best of all, every one appreciated the News force and their ability to make a success of the convention. Without them, it would have no doubt been a drab affair.

The talks, papers read and the banquets were great. The social side was one of the big issues and one of the most enjoyable occasions in all the history of the Association.

T. E. Johnson was elevated to the presidency, Dave Warren of Panhandle was made vice, and Lindsey Nunn of Pampa was made secretary. If they beat their predecessors in office, they will have to break a record—and we hope they do.

The Rolling Stock of Our Government on Wheels

When Coke Stevenson, the present and we can say efficient speaker of the present House of Representatives, wrote and passed through the Forty-first Legislature, of which he was a member, a bill creating the position of State Auditor, he performed a service that is worth millions of dollars to the people of Texas, if valued on a money basis, and from the standpoint of learning more about our State government and loose methods of spending money, a wealth of information upon which a stronger and more economical government is being built.

When Senator Margie E. Neal, the only lady member of the present Senate and one of the strong efficient and active members of that body, wrote and passed, a few days since, a resolution requiring the State Auditor to ascertain the

number of cars the State owns, the price paid for each, and other information, she caused to be furnished to the people information that they never had before. The facts found by the State Auditor, Mr. Lynn, and his two able assistants, Mr. Frank Carter and Mr. W. E. McAnnally, are illuminating. Here are the facts as to passenger cars for transportation only. (No trucks, privately owned cars or motorcycles are included.)

Highway Department, 582 cars, costing \$342,416; Agricultural Department, 12 cars, \$6,991; Comptroller's Department, 10 cars, \$7,186; Game, Fish and Oyster Department, 11 cars, \$8,751; Board of Water Engineers, 11 cars, \$7,557; Railroad Commission, 78 cars, \$54,054; Texas Agricultural Experiment Stations, 24 cars, \$13,880; University of Texas, 22 cars, \$21,193; Other Departments and Institutions, 121 cars, \$114,614; making a total of 871 cars, costing \$576,642.

The report further shows that in a great majority of cases the cars are stored at the residence of different employees, hence the cars are handy for evenings, Sunday and holiday outings and errands. They are also frequently used to transport employees from their residence to the office, and in some instances in addition to all this, the State is charged garage rent by employees. By all means the Legislature should place in appropriation bills that all users of State cars must make a weekly report under oath, showing the mileage traveled during the week and the amount of gasoline and lubricating oil used, also amount for repairs and who made them and the payment be based on sworn statements.

If the Government of Texas has become so intricate and unwieldy that it must maintain hundreds of people whose duty requires them to travel more than 13,000,000 miles in one year at a cost of \$1,082,378 for traveling expenses in addition to "rolling stock" (cars) at a cost of \$576,642, much of it purchased last year, ought to be proof sufficient in this one phase of our government, that Texas does not need additional major tax laws, but it does need more business principles and abil-

ty applied to government that will insure more efficiency and economy in the expenditure of public money.

Farm Issues

If it were better known just what truck crops have meant to Donley county, perhaps much more would be grown. The marketing of corn, peas, tomatoes, melons and other commodities in mid-summer, brings in money at a time when it is needed most.

We advise our people to plant something to sell along through the summer.

TEMPLE OF TRUTH
By the Apostle

Well, well! The old Apostle is back hanging around the pool hall again with the boys. Everything was running lovely until Monday evening late when he forgot to close the gate, and the hens got out and explored the garden both above and below ground. Our bed had cracker crumbs in it that night and what do you think happened Tuesday morning? Nothing except GW fed the cat in our favorite bowl from which we eat our oats every morning and lamb's quarter greens every day at noon. All we got to say about it is that we always did like "chickens" better than "hens," anyhow.

Are burglars becoming more musically inclined? Maybe so, maybe so. Seven fiddles and two violins have been stolen in the Panhandle within a week.

If you want to do me a real favor, chase around a Persian cat. I have a call for such a cat that will mean a whole lot to a woman who wants a cat for company. Prefer a young one, but would take an older one. No choice as to color, but a white or yellow looks the best. If you know of such a cat, call 386 and I'll take a look at it right now.

If men become bald because of the great activity of their brains, could we say that women do not have whiskers for the same reason?

Speaking of cats, our old family tom slipped into the Frigidare (advertisement), and went to sleep. GW found him Tuesday and she has not got him defrosted yet after having him in the oven 48 hours. Suggestions on defrosting frozen tomcats will be appreciated.

greetings the Apostle ever received reads: "Here is hoping that in the New Year there will be nothing the matter with you that money cannot cure. For the rest, the Law and the Prophets contain no better rule than this: Hope a little, fear nothing at all, and love as much as you can—the results are in other hands than yours."

The new 1933 rubber bathing suits seen at Amarillo's favorite bathing nat during the week of the Press meet are about 4% by volume.

There is an old saying that "you can't eat your cake and keep it", but you can lose your temper and still have it.

J. A. Thompson, who has a dandy good farm out east of town, and who raises fine seeded ribbon cane and makes still more fine syrup, says the local market for his product last season was not what it should be. He says he had to haul his syrup to Borger, Pampa, Amarillo and other towns to find a place where a good syrup was appreciated. He wants to sell cane seed and let some of the rest of the folks enjoy the luxuries of good syrup and the good market away from home. Besides, the cane makes a first-class bundle feed.

"The lady bug is very prim, And almost too austere, Her wings are shaped like old hoop

skirts, And not in mode, I fear. She does not make whoopee at night Like fire flies at play, Nor does she dress like butterflies In costumes thin and gay. She is sedate, and quite precise And at her task will plug. So of the insects, she alone, Is called a lady bug."

Miss Velma Lemons down at Brice is sending in news items from her community. She is due a lot of credit for having civic pride. She has been blind for many years, though a young lady at this time. Her items are typewritten, and the spelling is above the average, and no more interesting items are received by the Leader than from Miss Velma. We hope she sends in these items right along knowing that her friends there will appreciate them as much as we.

And another thing, folks. Our advertisers must sell their goods if they make anything to pay us for space that we in turn may be enabled to make a better paper. You folks who write, phone and call in, to tell us how you appreciate the various items in the paper, can do all of us a favor by getting better acquainted with the prices and articles our advertisers have to offer. Of course you should and will buy where you like, but do want you to give our advertisers all the consideration possible. You can't buy cheaper anywhere, and those willing to help you and us should have some consideration at buying time.

And another thing! After this week we are going to give our readers more state and national news. So many have dropped their daily papers, and many of them tell us that they have quit taking any paper but the Leader. We want to fill the gap just there and keep you informed of what is going on in a boiled down form. If you like the idea, tell us about it. If there is sufficient demand, we will spread out more and make it really worth while. What do you say?

Please pardon the blushes! Thanks for the fine words, and the fine criticisms—both help. The nice things said make us glad, and the rough stuff will make us endeavor to put over ideas in a better way.

Goodbye until next week. It is time for "us cats" to get our heads into that blue bowl again.

YOU SHOULD KEEP GOING FOR THE SAKE OF LOVED ONES

By Elsie Robinson
Are you sick of it all? Are you tired of doing the same old chores—tackling the same old worries—facing the same old heart aches? Do you wish you could duck the whole thing—do a fade out—go some where? Go where? Oh, you don't care. Any where, so long as you get away from everything. Is that how you feel? Probably. Many of us do, particularly these days—not just because we're having hard times, either, but everything's upside down.

If you let yourself feel, your heart's on the rack. If you let yourself think, you find yourself going round in dizzy circles. So then, what? Where can you find a little of your old, happy-go-lucky contentment? What should you believe? You don't know. Where are you heading? You don't know that, either. Is anything worth while? You

doubt it. Then why go on? Because you can't in honor quit.

"But my life's my own," you say "I've paid my own way, always. I don't owe anyone anything and even if I did I've a right to go if I want."

No, you haven't! Your life isn't your own. Your life is a gift which was bought for you at a great price. Millions of people whom you never saw, who never saw you, bought your life for you, gave it to you as a gift.

Tired men, weary women, frightened, bewildered heartsick people who found life tough going, bought life for you. They made it possible for you to live. They didn't know what it was all about either. They, too, wanted to quit, but something in them wouldn't let them quit.

Some vague realization of the struggles and sacrifices of those who had gone before—some muddled dream of their obligation to those who were to come after—wouldn't let them quit; would drive them on.

So they stuck—held on, though their brains were reeling and their hearts were breaking—and with their sweat and tears, their battles and prayers, they bought your life for you!

Now you want to quit—but how can you? Across the years they're watching—those millions who have handed their jobs on to you.

Your mother's there, with her faith in you still glowing in her faded eyes.

There's your father. How hard he fought to give you your chance! How strange his worn hands looked, lying still in their last sleep.

They gave you that life you want to throw away. They built that world you want to quit. They thought you'd carry on!

There are others watching you too, with eyes which yet have never known pain—the eyes of those who'll live when you are gone.

What sort of a world will you leave for them? A world made better by your sweat and tears; a faith kept shining by your battles and your prayers—or a place left sad and shameful because you turned and ran?

THE DIET CURES
By Walt Mason

Doctors used to try to bottle every ill that pains and shocks, with some liquid in a bottle and some capsules in a box. "Let the bottle be well shaken, take nine pills three times a day, they will surely save your bacon, they will drive your pains away." Now the doc prescribes no powder, and he offers me no pill, when I go, complaining louder, of my fever and my chill. But he sternly keeps repeating lists of herbage I should chew; "Eat the food the cows are eating, and you'll soon be good as new. Drugs were long ago outmoded, they will never make you well, and your works will be corroded if you take them for a spell.

But the cockleburrs and grasses which are growing in the field—they're the stuff for lads and lassies, health and comfort they will yield." If your works have known derailment, and much anguish you endure, there's a diet for each ailment, there's a weed that's bound to cure. If your bronchial system whistles when you try to get your breath, eat a peck of shredded thistles—they will rescue you from

death. If you suffer from the measles and the doctor comes along, he'll prescribe some pounded teasels and you'll soon be hale and strong. If a man has fallen arches, there's a diet, too, for that; he should shun all sweets and starches, and eschew all kinds of fat. If a vetter has the bunions or bone spavins on his knees, he should live on leeks and onions, and they soon will give him ease.

Better Business

For the past two years people have generally believed there could be no permanent improvement in business until farm products brought a good price. Wheat, corn, cotton, wool, hogs, cattle and other farm products have increased in price and business is better—not a big lot, but it's better. Whatever it takes to keep these prices advancing, let's have it—call it inflation, reducing the gold in the dollar, supply and demand, or what not.

MOTHER'S DAY—A SON'S PRAYER

(By Unknown Author.)

For the body you gave me, the bones and the sinew, the heart and brains that are yours, my mother I thank you.
I thank you for the light in my eyes, the blood in my veins, for my speech, for my life, for my being.
All that I am is by you that bore me.
For all the love you gave me, unmeasured from the beginning, Mother, I thank you.
I thank you for the hand that led me, for the breast that nestled me, the arm that shielded me, the lap that rested me.
All that I am is by you who nursed me.
For your smiles in the morning, and your kisses at night, my mother, I thank you.
I thank you for the tears you shed over me, the songs that you sang to me, the prayers that you said to me, for your vigils and ministrings.
All that I am is by you who reared me.
For the faith you had in me, the hope you had in me, for your trust and your pride, my Mother, I thank you.
I thank you for your praise, and your chiding, for the justice you bred into me, and the honor you had, mine; all that I am you taught me.
For the sore travail that I caused you, for the visions and despairs, my Mother, forgive me.
Forgive me the peril I brought you to, the sobs and moans I wrung from you, and the strength I took from you, Mother, forgive me.
For the fear I gave you, for the alarms and the dreads, my Mother, forgive me.
Forgive me the joys I deprived you, the toils I made for you, for the hours, the days and the years I claimed from you, Mother, forgive me.
For the times that I hurt you, the times I had no smile for you, my Mother, forgive me.
Forgive me for my angers and revolts, for my deceits and evasions, for all pangs and sorrows I brought you, Mother forgive me.
For your lessons, I did not learn, for your wishes I did not heed, for the counsel I did not obey, my Mother, forgive me.
Forgive me my neglect, my selfishness, all the great debts of your love that I have not paid, sweet Mother, forgive me. And may the peace and joy that passes all understanding be yours, my Mother, forever and ever. Good night, Mother, Good night!

BOY SCOUTS OF AMERICA

The Boy Scouts had a different meeting place Friday night, because they went to the Baptist church, their regular meeting place and from there traced markings to a new place. They traced and found the new place to be the vacant lot south of Bro. Shepherd's home and intend to make this their meeting place through the warmer months.

They went through their regular form of beginning a meeting which was followed by games and races. After which the First Patrol gave a program of "First Aid". The Senior patrol leader was elected and three new members received. They had a wienie roast after which they disbanded in regular form.

We wish to extend an invitation to visitors and those interested in joining.

Entertaining in the home of her mother, Mrs. O. L. Fink, Mrs. E. W. Brittain of Ironton held another reunion of the 'Old Maids' Society', with a supper-bridge party at 6:30 o'clock, May 8.

Supper consisting of a salad course and dessert was served in rooms decorated to carry out a green and yellow color scheme.

High score was won by La Trice Benson; Julia Mac Caraway got consolation.

The following were guests: Misses Lois Alexander, Wylfa Alexander, Betty Walker, Julia Mae Caraway, Eleanor Morris, La Trice Benson.

Mesdames Meade Haile, Johnnie Tucker, Tom Murphy, Joe Bownds, Milus Little and the hostess, Mrs. Brittain.

Mr. and Mrs. Van Eaton and Joe McMurtry went to Amarillo Saturday.

Mrs. Eva Atteberry and children were guests with a number of other relatives Sunday, at the home of her parents, Mr. and Mrs. S. B. Kutch.

JUST 46 POUNDS OF FAT GONE

Feels 20 Years Younger

"I surely can recommend Kruschen Salts. I reduced from 156 to 110 lbs., my natural weight and I feel 20 years younger. 'A pinch a day, keeps the fat away.'" Mrs. Vale Walter, Seattle, Washington (Dec. 30, 1932).

Once a day take Kruschen Salts—one half teaspoonful in a glass of hot water first thing every morning. Besides losing ugly fat SAFELY you'll gain in health and physical attractiveness—constipation, gas and acidity will cease to bother—you'll feel younger—more active—full of ambition—clear skin—sparkling eyes.

A jar that lasts 4 weeks cost but a trifle at any drugstore in the world—but demand and get Kruschen and if one bottle doesn't joyfully satisfy you—money back.

Weekly Poem

SUGGESTION

Do you wish the world were better?
Let me tell you what to do.
Set a watch upon your actions,
Keep them always straight and true;
Rid your mind of selfish motives,
Let your thoughts be clean and high.
You can make a little Eden
Of the sphere you occupy.

Do you wish the world were wiser?
Well, suppose you make a start
By accumulating wisdom
In the scrapbook of your heart.
Do not waste one page on folly;
Live to learn, and learn to live.
If you want to give men knowledge,
You must get it ere you give.

Do you wish the world were happy?
Then remember day by day
Just to scatter seeds of kindness
As you pass along the way;
For the pleasures of the many
May be oftimes traced to one,
As the hand that plants an acorn
Shelters armies from the sun.

ASHTOLA SCHOOL NEWS

The Senior class is making a memory book in English. In this will be cartoons, essays, poetry, keepsakes, and pictures made this year. Much enthusiasm is being shown in this work.

We are glad to welcome two new pupils to Miss Bailey's room this week. They are Justeen Gregg and Nathalene Lee of Lelia Lake and Washburn respectively.

A large crowd is expected to attend the Mother's Day program which the Sunday school is preparing.

Friday, April 28, was Senior day. The Seniors went to the J A ranch on a picnic. After a full day of picture-taking, fun, excitement, and eats galore, they returned home.

The Civics class has received material for the debate, "Beer in Texas." The class has been divided into two groups; each group is enthusiastically working on their part, and the debate will be given in the near future.

A great deal of improvement is being made on our school grounds and buildings. A much needed new windmill has been erected; both inside and out. With the other improvements already made, Ashtola's school grounds and buildings are as nice as can be found in the county.

A baseball game, Ashtola Pir-

ates vs Brice Pirates, was played Thursday afternoon, while the fans shivered in the cold north wind that swept the diamond. Ashtola lost by a decisive score, but we can hardly feel badly about it as this is Ashtola's first year to play baseball, while Brice has a veteran team, which is the best in this section. They have been unable to match games with schools in Hall county who know their record.

Thursday nite, Brice high school presented a play "Cabbages or Dollars" at the Ashtola school auditorium. Owing to the weather, attendance was very poor, but all present enjoyed the play and wish to extend an invitation to come back any time they wish. The Ashtola Pirates and Piratas served sandwiches and cake to the visitors.

Early Saturday morning the Pirates and Piratas set out for a week end camping trip to the Methodist encampment grounds in the Palo Duro canyons. Four cars carried the crews, composed of eight Piratas and fifteen Pirates to the camp ground. Saturday night games were played and songs were sung around a blazing camp fire. Sunday morning all assembled for Sunday school. The campers reached home Sunday afternoon about six o'clock, tired, but happy.

Besides the Ashtola Pirates and Piratas were visiting Pirates C. R. and Marion Cross from Brice and Harry Hartzog from the Martin community.

The senior class is to present their class play "The Alley Daffodil" Friday nite at the school auditorium. The play is directed by Mr. Bowen, senior sponsor, and everyone is urged to come. The seniors have worked hard, and we are sure you will not regret the time or money spent in coming to see "The Alley Daffodil." Admission is ten and fifteen cents.

MARTIN

Sunday school was held at the usual hour Sunday morning with a large attendance. After Sunday school Bro. Ingram and Bro. W. T. Hayter of Clarendon made a good talk on prohibition.

Singing was good Sunday night with a large number present.

The play "Deacons Honeymoon" presented by the Naylor community last Friday night at the school house was good and well attended. The proceeds being \$7.20.

This community received a fine rain last week. The small hail stones lasted but a few minutes but was sufficient to do damage to small garden stuff.

Our school for this year has been progressing just fine. The teachers are Mr. and Mrs. George Kavanaugh, Mrs. Jim Baker. We feel that we have had the best school the past year that we have ever had. We are very glad indeed that they will be with us again next session.

The young people were entertained Saturday night with a party at the home of Mr. and Mrs. Charlie Jones.

The Martin community are going to have a Mother's Day program Sunday, presented by Sunday school Sunday afternoon, beginning at 2:30. There will be a Zone Meeting. The public is invited to come.

Thursday night, May 11th, the Martin young folks will present a play known as "Dr. Jim". The public is invited. Admission 5 and 10c.

Mr. Royce Turnbow entertained the basketball boys Sunday at his home. A large number of boys were present. Mr. and Mrs. Turnbow had as their guest Sunday, Mr. and Mrs. Kavanaugh and daughter and Miss Elsie Bell Cotter, Price Shannon and his cousin from Alarreed and Mr. and Mrs. Virgil Jordan and son.

Miss Gladly Jones returned home Friday from Borger where she has been visiting Mrs. K. S. Irwin and family and nephew Dale Jones.

Mr. and Mrs. Glen Adkins spent Sunday with Mr. and Mrs. T. R. Adkins.

Mrs. K. S. Irwin and son are spending the week with her parents, Mr. and Mrs. Charlie Jones.

Mrs. J. H. Easterling spent a few days last week at Clarendon where she has been to the bedside of Mrs. Clyde Easterling.

Miss Polly Sowell spent last week at Pleasant Valley with her brother, Bill Sowell and sister, Mrs. P. O. Thompson.

Miss Ruth Hartzog of Quanah spent the week end with her parents, Mr. and Mrs. A. C. Hartzog.

Mr. and Mrs. eGeorge Bain and children of South Plains spent the week end here visiting relatives.

Mr. and Mrs. C. J. Talley spent Sunday with Mr. and Mrs. Walter Morrow.

Mr. and Mrs. Dave Patterson spent Sunday with Mr. and Mrs.

R. L. Mason.
Mr. and Mrs. George Bulman and children spent Sunday afternoon with Mr. and Mrs. J. A. Sowell.

Mrs. Ernest Wood has as her guest this week a sister from California.

PLEASANT VALLEY

Mr. and Mrs. Glenn Williams and family of Lelia Lake and Mr. and Mrs. Eliza Dunn and Ruth were Sunday dinner guests in the J. A. Meaders home.

Mr. and Mrs. A. M. Lanham of Sunnyview spent Sunday in the John Goldston home.

Mrs. Jack Whitt took her pupils to the play at Hudgins Friday nite. They reported a very enjoyable trip and the play as real good.

A crowd from this community attended the play given by Naylor at Martin school house Friday nite.

Mr. and Mrs. J. T. Lamberson, Miss LaVerne Lamberson and Harlace McMahan visited Mr. and Mrs. Hal Riley Friday evening.

Misses Mildred and Sarah Jo Tunnell spent the week end in the

home of their parents, Mr. and Mrs. Tunnell.

A crowd enjoyed a dance in the Hugh Riley home Saturday night.

Mr. and Mrs. Jiggs Mosley and Bobby Jiggs spent the week end in the home of her parents, Mr. and Mrs. Hugh Riley.

John Goldston returned home from Austin Thursday.

Mrs. Edd Bromley and sister from Hedley and Giles and Mrs. Sam Robertson spent Sunday with Mrs. Dayton Shelton of the 6666 Ranch near Borger.

Chamberlain School News

Last Friday the pupils of the Chamberlain school enjoyed a picnic at the Word ranch. All the pupils enjoyed the picnic and we surely thank Mr. Gattis for letting us come to the ranch.

On the way home Friday evening we stopped to see the play at Hudgins. It was a good play and everyone enjoyed it.

This week is review week at our school, and we surely do regret it. We have only two more weeks, counting this week. Next week all will be sad, when the long exams come before our eyes.

"PROHIBITION FACTS" By "BOZO."

Bozo, spent some little time considering the arguments advanced by the friends and foes of 3.2 beer. "Beer makes fat" said a "dry" who was trying to show that in this day obesity is the greatest crime in the social category. "Beer has no food value and cannot make fat" countered the brewers, who are hunting for women customers. The "drys" then organized window exhibits showing that a dollar spent for beer cannot also be spent for groceries, which so many need. "Don't mind that" again speak the brewers, "Beer in itself is a food." Prof. Lafayette B. Mendel of Yale contends that "beer" will produce fat. One quart of beer contains 545 calories, only 105 less than a quart of milk. If you add a quart of beer to your daily diet and don't cut down on other things you are pretty certain to take on fat.

"Bozo" thinks that, the 3.2 beer will not produce fat for thousands of people especially the little fellows, because some one else will drink the stuff and they will have to do the reducing or going without other foods.

Prof. Yandell Henderson, also of Yale, gives some facts worth considering. He says, "that after the repeal of the 18th amendment, which permits the sale of beer, that the stronger beverages must be absolutely separated from the weaker ones, and controlled essentially as all narcotic drugs, such as morphine and cocaine are controlled under the Harrison act.

"Bozo" knows that people are treading on dangerous grounds when they fool with 3.2 beer. According to this Professor's statement, alcoholic beverages are dangerous and should be kept from the public. In the beer we find 3.2 percent of the very thing that causes the trouble. We would not want to put 3.2 percent of the deadly narcotics in our food, coffee, or water. We would be afraid that the small amount would soon become a habit forming drug and cause us trouble. We would not want to administer drugs to our children in that way for fear that we would produce dopers and addicts. Then why tempt them with 3.2 beer and cultivate the habit for stronger drinks?"

50,000 Chickens Point Us to Better Feeds

When college men, urged on by practical poultry breeders of various states began going beyond mere analysis of feeds and started to measure the effect of vitamins and minerals, feeding practices began to improve.

These discoveries of the most effective combinations of proteins, however, showed such outstanding differences over old methods that a leading farm paper editor sought an explanation. He interviewed among others Dr. H. J. Smith in charge of the Research Work at Purina Mills Experimental Farms.

Here, over a period of years, more than 50,000 chickens were directly involved in more than eighty experiments to find the most efficient starting mash for the use of owners of poultry.

One of the projects was the thorough testing of all packing house by-products, dairy by-products, fish meals and oil meals of various kinds for their feeding value in combination with other feed stuffs.

"The effect of these different proteins fed to chicks in different proportions were closely observed," stated Dr. Smith. "None of the men handling any of the experimental birds knew the proportions of the feeds that were fed to the various pens over a period of several years. All feed was supplied to these experimental flocks in numbered bags and they were fed according to a system known only to the Director of the Research and his office force."

What a difference the protein combination makes is most clearly illustrated in the chart. Leaving out all of the detail that scientists must have included in order to judge an experiment and placing the results on the practical basis of pounds of chicken produced from one dollar's worth of feed in six weeks' time, the chart gives every poultryman good reasons for new courage.

"Translating results of our Laboratory and Field Research into terms that poultrymen can understand and utilize is the main duty of our department," said Dr. Smith. "Producing chicks at lower cost will be all important in 1933."

BOWELS

need watching

Let Dr. Caldwell help whenever your child is feverish or upset; or has caught cold.

His simple prescription will make that bilious, headachy, cross boy or girl comfortable, happy, well in just a few hours. It soon restores the bowels to healthy regularity. It helps "break-up" a cold by keeping the bowels free from all that sickening mucus waste.

You have a famous doctor's word for this laxative. Dr. Caldwell's record of having attended over 3500 births without loss of one mother or baby is believed unique in American medical history.

Get a bottle of Dr. Caldwell's Syrup Pepsin from your drugstore and have it ready. Then you won't have to worry when any member of your family is headachy, bilious, gassy or constipated. Syrup Pepsin is good for all ages. It sweetens the bowels; increases appetite—makes digestion more complete.

Our Weekly CHURCH CHAT

W. E. FERRELL
Minister First Christian Church

"WHY MOTHER?"

There is a proverb which says, "God could not be everywhere; so He made mothers." It is not good theology, but it conveys a noble interpretation of the function of motherhood. The divine care for human lives has no better symbol than the unremitting attention which a true mother gives to her children. There is profound pathos in the lives of those little ones whose parents delegate their most sacred duties to hirelings. Nurses and governesses can never be satisfactory substitutes for mothers. A woman who is a mother only in the sense that she has given birth to children is a libel on the holiest office conferred upon her sex. The shrinking from motherhood, which characterizes so many women in our time, is not only a mark of selfishness; it is also an evidence of an inferior judgment about the way to be happy. Felicity, belongs only to those women, who frankly accept the natural terms of wifehood, and by bearing and nourishing children, enter into the fellowship with God's plan of setting the solitary in families.

The mother is the soul of the home. This is the language of sentiment but it is nobly true. The foundation of the home may be of wood, brick or stone; the floor may be inlaid hardwood, or pine, or slab, or beaten sod; the roof may be shingles, or slate or tile; the illumination may be tallow candles, coal-oil lamp, has jet or electric bulb; however or of what sort the material things may be, the home is inanimate without her. She is its heartbeat, she is its atmosphere. Her heart pumps its life current. She is its pulse. She is its light. She tends its altar and keeps the altar fires alive. Without moth-

er, the home is pulseless, inarticulate, empty, and dead. Without her, home is not home.

Sunday we will observe "Mother's Day and will bring a special sermon, at the morning hour, "The Mother's Influence." Sunday night our sermon subject will be, "Salvation and Knowledge." Men have always wanted to know how to obtain salvation or eternal life, and God has always wanted men to know how to get these precious blessings. You will enjoy this lesson.

RADIO: THE WONDER OF THE AGES

From the remotest corners of the earth one can sit in the quiet of his home and tune in on a most interesting program all because a genius discovered the principles of radio.

Little did this genius know he was opening up an industry in which millions of dollars would be spent creating employment for hundreds of thousands of men and women.

We make a specialty of training young men for Radio. Our equipment is standard such as is prescribed by the Government. Our instructors are licensed by the government, which means that they are qualified. Our broadcasting station, KGKB, which operates on 1500 kilocycles was secured primarily for the use and benefit of our students of radio. You learn to do by doing. You have an opportunity to work in the transmitter room with a licensed operator, thereby getting some experience you could not get in any other way.

No other Radio school that we know of has three distinct advantages. Why not train in a school that enjoys a national reputation? The best is none too good and you are entitled to the very best.

Write for our Radio booklet R-6 which fully describes our Department of Radio.

BRICE

Brice a Baptist church had a large crowd at Sunday school and church Sunday morning. Brother Milton Evans preached and delivered a good sermon. He is our pastor.

Mrs. N. L. Murff is still on the sick list. She doesn't seem to be any better but we are hoping for the best.

Brice Flat had a good rain last Wednesday night. The farmers were very glad as they are planting their crops. Most everyone is working on their garden spots and hope to raise lots to eat, if God be willing.

Mr. Robert Holley, Merle and Katherine Lemons spent Sunday in the home of W. H. Lemons and family. Everyone seemed to enjoy the day.

Susia Salmon gave a party last Saturday night. She invited the seventh grade, some out of the fifth, sixth and other grades.

We have three blind men in our Legislature of Texas. Olan Van Zandt graduated from the school in 1911, then went to the state University, where he received high honors. He graduated from the University in 1915. Mr. Van Zandt motto is, "I don't give quarter and I don't expect it. He is now serving his fourth term in the house of Representatives. He is from Grayson county.

Lon E. Alsop is another Blind Representative, serving his second term. He believes that a blind person stands a better chance for work if he resides in a small town.

He also thinks that a blind person should discard all outward signs of blindness. I must say that I agree with Mr. Alsop in his sayings. Judge Savage of Dallas, says that Mr. Alsop is more active in the work of the Legislature than some of them who have sight.

T. M. Hicks of Grand Saline is serving his first term in the House of Representatives. He graduated from the Louisiana school for the Blind. Mr. Hicks is a bachelor and believes in traveling alone. Mr. Hicks goes around in Austin by himself and thinks that every blind person should learn to go alone and mix and mingle with the sighted.

I must say that I truly agree with these blind men although I do not know them personally as they were scholars of the Texas School for the Blind before my time.

Mr. Molten Youngblood and wife are visiting Mr. Henry Youngblood and family. Molten is a son of

Henry Youngblood and he is from Caluornia. This is the first time they have seen him in seven years. Misses Sybil and Virginia Smallwood from Amarillo visited Mr. D. T. Smallwood and Mrs. Grace Pitman Saturday and Sunday.

Miss Mamie Smallwood went shopping in Amarillo last Friday.

Brice high school took a play to Ashtola last Thursday night. The name of it was "Cabbages or Dollars." They gave this same play to the Brice community a few weeks ago. The ball team also went from here that afternoon and played Ashtola. Brice won the game.

Miss Laurell Holland spent last Friday night with Miss Virginia Lemons.

Mr. Zack Salmon and family spent the week end with Mr. Churchman and family at Clarendon. Her father is now back home and seems to be some better.

They have now invented what is known as the talking books for the Blind. These are books printed on something like phonograph records but you have to have a certain kind of machine to play these on. I think that this is a great thing as the Blind will not have to use their fingers so much. They can have this machine and the records can read to them.

Mr. C. J. Holland and family went shopping in Memphis last Saturday.

We are expecting visitors for our Mother's Day program this coming Sunday. I am sure we will have a

most enjoyable program. Mother should mean a great deal to all of us. She has spent many a weary day and night worrying about her children. All who attend this program will hear a lot of mother Sunday.

IMPROVED CORD DEFEATS TIRE FABRIC FATIGUE

Dealer Says Supertwist Absorbs 22,500 Flexings Hourly in Ordinary Driving

Improved cord for tire fabric has been one of the most important factors in increasing tire mileage, in the opinion of Joe Holland of the Holland Bros. filling station, local Goodyear dealers.

"The most talked-of and widely imitated cord is the Goodyear Supertwist, a patented cord which stretches up to 61 per cent farther than ordinary cord," Mr. Holland declared. "This is important since it has been long realized that one of the major causes of tire failure is 'fabric fatigue' which causes breaks in the 'shoulder' or sidewall of the tire. Supertwist cord is specially constructed to withstand constant flexing by springing back to normal position after each movement of the tire carcass thereby increasing the life of the

tire," Mr. Holland explained.

"Few motorists realize that while driving 35 miles per hour a tire flexes between 375 and 425 times per minute, or a minimum of 22,500 times per hour and at higher speeds there is even more flexing," Mr. Holland said.

"Before Supertwist fabric was developed by Goodyear, flexing breaks, or fabric failure due to fatigue, were the cause of 95 per cent of all tire adjustments, but now less than two per cent of replacement adjustments are the result of such breaks," Mr. Holland pointed out.

Holland Bros. have a unique testing machine in their filling station which impressively demonstrates the unusual qualities of Supertwist cord.

A SMALL PRESENT

More than I have would I offer—
More than myself,
A jinni, with jewel-filled collar
To set on your shelf.

Fairies in shoals I would send you,
Goblins and elves;
Loyally they would befriend you,
Delighting themselves.

Angels gold-crowned and pearl-feathered,
Peace in their wings,
Near your dwelling would hover,
Untethered,
More mighty than kings.

None of these things can I proffer,
Not even an elf.
Only one gift can I offer—
Only myself.

Wake Up Your Liver Bile —Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just delays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute, 25c at all stores. © 1931, C. M. Co.

The "gadget" is a little machine that shows the difference between ordinary cord, used in other tires, and Supertwist cord, used in Goodyears. That difference is in the stretch and come-back—you can see how Supertwist cord stretches and comes back, how the cord in other tires loses its life and elasticity. It takes about 3 minutes to tell the story—but as this customer said—"If every car owner could see that demonstration, there wouldn't be anything used but Goodyear Tires."

Western Union Announces Longer Office Hours

In keeping step with the program for a 'new deal' in effect on business generally, R. T. W. Welch, manager of the Western Union Telegraph company, has announced that effective May 9th, the hours of the telegraph office will be extended 8 a. m. to noon, 1 p. m. to 6 p. m., and 7 p. m. to 8 p. m. with the approach of summer and longer daylight hours, the new closing hour of the Western Union office will afford additional time within which all who desire may file their telegrams. The extended closing hour of 8 p. m. will be of particular advantage to those who wish to avail themselves of the cheaper rate service of the telegraph company, such as night messages and the night letter.

STATE NEWS

Austin, Texas, May 9th—The Graves bill that would cut the number of boards, bureaus and departments of state government from 138 to 19 passed the House today.

Wichita Falls, May 10—A mass meeting was held here tonight in which representatives of the various independent oil associations branded present east Texas oil conditions as "chaotic and ruinous and threatening ruin to the greatest asset of the state." It was pointed out that no price reductions were being made to the consumer of gasoline and oils though crude prices had been reduced

from 80 to 10 cents a barrel. A movement was started to bring pressure to bear to remedy conditions through national lawmakers.

Crowell, Texas, May 10th—Q. R. Miller, former sheriff charged with misapplication of funds while in office, was granted a change of venue to Quanah today on his second trial scheduled for May 22nd.

Austin, May 8th—The estimated deficit in the general revenue fund is \$6,679,195, and the school fund \$7,617,796 according to auditor Moore Lynn.

San Angelo, May 10th—Wool prices of the best grade reached 18 cents here today. This is the highest price paid in three years.

Vernon, May 9th—Pete Thomas and Eldridge Brashear were released on \$1000 bond each today on a charge of horse theft. The lads are charged with theft of several head.

Longview, May 8th—S. R. Jones was stripped of his commission as a Texas ranger by rangers Taylor and Turner after an investigation into alleged extortion beer plots. Jones and constable E. L. Hunicutt are under 11,000 bonds each to await action of the grand jury. This is said to be the first case of the kind on the border since beer sales began in Louisiana.

Austin, May 9th—Representative Pope has introduced a bill in the Legislature designed to permit a reopening of poll tax paying at the \$1.75 rate that those who have not paid may do so in order that they may vote on the beer bill August 26th. It is believed that a million dollars will accrue to the state through this means.

Mrs. Curtis Thompson and sons Jimmie Gene and Curtis left Saturday for Stephenville for an indefinite visit.

Mrs. Allen Beville and daughter of Amarillo spent the week end here visiting her mother, Mrs. Baird.

Junior Les Beaux Award School Prizes

At a meeting of the Junior Les Beaux Arts club Wednesday, awards were made to a number of pupils for meritorious work being sponsored by this excellent club of young lady members.

In the poster making contest, Romona Smith received first prize of a dollar. Lowell Heckman was awarded second prize and Joseph Jones third prize. Both lads received fifty cents each.

Majorie Shepherd and Jane Kerbow each received prizes of fifty cents for having exhibited the best note books in Junior High school.

Misses Jean Bourland and Carol Holder were hostesses at this meeting. The program was of unusual interest because of the fact that it was based on local poetry, music and art.

Pauline Shelton played a piano composition, "Scatter Flakes," and gave a summary of the life of the composer, R. Dean Shure, who was head of the music department of old Clarendon college about twelve years ago.

Mrs. Davenport of Hedley read a number of her poems, among them being "Yucca Blooms" which received recognition by a California publisher as one of the best selected by him for 1933. She described her old home in "Wind in the Old Ranch House." Other of her poems read were Goodbye Cowboy, Lady of Las Vegas, Rain and some twenty other poems of exceptional merit.

The Rural Aid Warrant is in the hands of the County Depository, but will not be cashed until called in by the State General Fund Treasurer.

The Rural Aid Bill number 254 in the House of Representatives provides for \$6,000,000 during the next biennium. Transportation of pupils to high schools is provided for in this bill and high school tuition is also taken care of. The rural aid supervisor will be dispensed with if the bill becomes a law, putting that duty in the hands of the County Superintendent and the local trustees. The Senate has a similar bill providing for \$8,000,000 the next biennium. The Senate and House Committees are working on these two bills in conference.
