COTTON CHECKS ARRIVE MONDAY BRINGING CROWD

\$168,086.00 Is Represented In Total Amount of Checks Received to Date

Soon after notices were mailed out Monday acquainting growers with the fact that checks had arrived, men began milling in and out of the City Hall where county agent Broun handed out the long-looked-for mazuma that makes the smiles come.

Three hundred and thirteen checks representing \$93,697 made up the lists that came Sunday and Monday of which has been paid out over the week.

Approximately \$97,000.00 is yet due on the plow-up trade made with Uncle Sam way back in the summer. In some instances farmers are getting more for the cotton per acre plowed up than they are getting for the cotton left since picking has given them a chance to figure on it. This is not true in every sense, but in some instances the owners are glad of the bargain made.

Petty Thieves Again Gather Supplies Here

About ever so often Clarendon citizens are raided by petty thieves. It has become so common that it occasions no surprise. Thursday night a trailer belonging to J. M. Stephens was taken from his home. More than 80 gallons of oil was stolen from A. L. Chase at his warehouse after the lock was broken. The spare tire was removed and gas tank drained at the J. C. Estlack home.

Depredations generally consist of the theft of wheels and tires. The character of thefts leads officers to believe that the same parties do not commit the petty thefts each time.

CARVER CLOSES BAPTIST REVIVAL SUNDAY EVENING

Good Attendance Results In Twenty Additions to the Church, Pastor Reports

In speaking of the results of the revival at the First Baptist church, B. N. Shepherd, the pastor, is greatly encouraged with the results of the meeting and highly encouraged because of the cooperative spirit shown by his membership and those of the other churches.

"We had a fine attendance," he said, "despite the busy season, and you may tell the folks that we had twenty additions," pastor Shepherd related to the Leader man Wednesday.

The sermons preached by the visiting minister, Rev. Douglas Carver of Whitedeer, were of the type that have a lasting effect. The influence will be felt long after the revival date will have been forgotten.

Aside from being a convincing preacher of the Word, this young man of thirty is also a song leader and soloist above the average. Mrs. Carver's efforts met with a hearty response as a pianist, and the two of them in singing duets were among the high lights of the revival.

As a fitting climax to the last service Sunday night, Rev. Carver led the Sheriff to the pulpit and asked that he hold a "gun" on the congregation until the congregation could be "held-up" for the price of a new suit each for Pastor and Mrs. Shepherd.

The congregation entered into the novel plan or idea with a vim and the funds were gladly provided as a token of appreciation, much to the pleasure of the esteemed people who have labored faithfully in the interests of His kingdom in Clarendon.

Mr. and Mrs. W. E. Davis were from their ranch in Briscoe county Saturday. Mr. Davis says they need rain badly for late feed winter pasture.

DEATH COMES TO OLD CONFEDERATE HERE THURSDAY

Came to Panhandle in 1891 Settling Near Deep Lake In Hall County

In the passing of James Moulton Dickson at the home of his daughter, Mrs. A. E. Benson here at 5 p. m. Thursday, the Panhandle lost one of her earliest settlers and best citizens.

Mr. Dickson was a native of Tennessee being born on November 7, 1844 near Pulaski. At the early age of sixteen, he ran away and joined the forces of the Confederacy under Capt. David Ray of the Third Tennessee Infantry.

He later engaged in the battle of Gettysburg where he received his baptism of fire that tested his faith in the cause of his homeland that he loved so well. He was in a number of lesser battles and was a prisoner on an island in Delaware bay and later at Cape Hattan where the prisoners were forced to subsist on such sea foods as they were able to secure to avoid starvation.

He came to Texas in 1882 settling in Ellis county where he resided nine years. In 1891 he came to Hall county settling near Deep Lake. It was during his residency there that he filled the only public office of his career. He was prevailed upon and accepted the office of county commissioner. He found no charms in public office, and being devoted to farm life, he traded his holdings at Deep Lake for land near Brice which he owned at the time of his death here September 28th.

Surviving members of his immediate family are two daughters, Mrs. W. H. Youngblood of Brice and Mrs. A. E. Benson of Clarendon. His only son is Geo. R. Dickson of Memphis. His wife passed on in 1899.

He was a faithful member of the Methodist church. Rev. Landers, pastor of the Memphis church, said the last service at Lakeview where interment was made with his Masonic brethren in charge. Funeral arrangements were under the direction of the Buntin mortuary of Clarendon.

Those attending the casket were Hardy, George and Floyd Benson, Boyd and Hubert Dickson and Mead Halle, all grandsons of the venerable man whose good deeds are to live after him.

Some years ago Col. R. S. Kimberlain provided a barbecue annually for the old Confederate soldiers. Each year saw a lessening of the number until today but two remain. These remaining men are W. H. Martin and Mr. Roberts, father of Mrs. J. J. Alexander. Mr. Dickson found much pleasure in meeting with other soldiers of the old South and had a wonderful fund of information relative to the experiences through which he passed as a boy.

For the past several years Mr. Dickson has been spending his winters in California, but the summer called him back to the Panhandle where he spent his time with his children in looking over his holdings near Brice.

Mrs. L. A. Brown of Houston who has been visiting Mrs. W. A. Massie returned to Jacksboro Mon.

Bible Class Holds Monthly Social Tuesday Night

The Come as You are Men's Bible Class, which meets in the Pastime Theatre, held its monthly social at the First Christian Church Tuesday evening. This was considered as one of the best socials held this summer as the attendance was very good, and many interesting Bible questions were discussed. After the Bible lesson, all present gathered around the table and took part in a real honest to goodness, "water melon" feast. The men of the city are missing some real treats by not meeting with this class in its regular Sunday Bible Study and monthly meetings. This class is doing its bit toward making the city wide "Go to Church" campaign a success and they invite all men to meet with them.

Death of R. H. Davis Occurs At Lelia Saturday

Elder Perkins Cooper of the Church of Christ of Tucumcari, New Mexico held the last service for Richard Harrison Davis here Sunday afternoon at 4 o'clock, with the Buntin mortuary in charge of arrangement.

Mr. Davis was a native of Mississippi where he was married to Miss Lucy Gilbreath on February 3, 1878. While he had resided at Lelia some time ago, he and Mrs. Davis were back from Palo Pinto for a visit at the time he was taken ill soon after September 1st. He was a faithful member of the Church of Christ.

Those surviving him are Mrs. Lucy Davis of Lelia; E. A. Davis, Huckaby; Willard and B. A. Davis of Ft. Worth; R. C. Davis, Palo Pinto; G. A. and O. B. Davis, Lelia Lake; Mrs. J. B. Gaither, Hale Center; Mrs. Will Shelton, Santos Texas.

Those attending the casket were J. O. Howard, John Gerner, J. H. Howard, Howard King, W. P. Howard, Holly Woods.

Joe Ritter Loses Saddle To Sneak Thieves

Joe Ritter had an unknown visitor Monday night who was of careless habits to the extent of permitting Joe's \$125 saddle to take up with him some time during the night. The thief had taken the precaution to cut the phone wire to prevent the owner calling the officers too quickly.

The Sheriff reported Wednesday that a slight clue had been found. This is but one of many small thefts over the week, another being the loss of casings from a trailer in a field near Ashtola the same night.

McKnight Man Is Jailed On Dry Check Charges

Sheriff Guy Pierce arrested L. C. McCrory at McKnight Tuesday night and brought him to Clarendon where he is being held in jail pending a hearing. The Sheriff states that a number of "dry check" charges are pending against the accused, and that he is wanted in Jack county on a similar charge. The County Attorney also issued an order to hold him for payment of a fighting fine long past due.

Mr. McCrory has been representing various life insurance companies in this section at various times for the past few years and has a wide acquaintance.

Registrations For Highway Work Are Scarce

Perhaps those who wish to get in on the highway work if it ever starts are of the opinion that they will be compelled to begin work at a command somewhere down the line if they register. Such is not the case.

The names are being collected at this time to better know the number and to have the workers located when the work begins. This is not on the RFC basis. The wages to be paid are said to be fair.

Those who have teams and trucks are asked to register these if they expect to get a job later. Only thirty have registered to this date with Secretary G. L. Boykin. If any further information is desired, see him after 3 p. m. at his office.

Lions Club Visits Mulkey At His Home Tuesday

Because of an accident to his foot, Homer Mulkey was unable to attend his Lions club Tuesday. After a regular session down town, the Club adjourned to the Mulkey home where he was permitted to make up his attendance.

Speakers at the Tuesday luncheon were J. E. Toer who spoke on "Why I like to live in this community."

J. T. Patman confined his remarks to fire prevention in Clarendon.

Mayor Cagle spoke on "How to make the Lions club better."

Sheriff Pierce spoke on "How to improve friendly relations with neighboring communities."

Rhea Couch was a guest of the Club but made no extensive remarks according to the report given the Leader for publication.

Don't Expect the Harvest Too Soon

Warren in Philadelphia Public Ledger

NO POLITICS IS INVOLVED IN NEW RELIEF BOARD

Men Proposed For New Relief Committee Have Popular Approval

Any charge that the men proposed for the new RFC committee are Ferguson appointees is a misstatement of facts, according to information gotten first hand from each of the men whose names have been proposed.

H. T. Burton, who was selected as chairman for the proposed committee stated today that he could not accept the chairmanship of the committee because of the fact that his time was taken up with school work, and further, that he had intended resigning from the old committee of which he is now a member. He says he never voted a Ferguson ticket at any time. He first heard of his appointment through Judge Lowe.

G. E. (Dick) Allen says he knew nothing about such appointment until his wife called his attention to the statement in the Clarendon News.

Ed I. Fox of the City Grocery & Market says he knew nothing about his name being proposed for a place on the committee until informed of that fact by J. T. Patman.

G. E. Norwood knew nothing of his appointment on the proposed new committee until so informed by J. T. Patman.

Ed Duncan knew nothing of a committee change and had not been consulted for a place on the committee previous to being informed by Mayor Cagle that his name appeared on the proposed new committee.

The four last named, G. E. Allen, Ed I. Fox, G. E. Norwood and Ed Duncan are not members of any civic club, and are not members of the Chamber of Commerce. So far as car be learned, neither of the five men named on the new proposed committee take any active interest in local or state politics.

It is understood that the State Chairman of the Relief Committee, through his staff, put forth extra effort to secure men of unquestioned ability and integrity to fill the places of responsibility, and men who were not under any obligations to any organization either local or state. These men are well and favorably known over the county and the Commissioners Court is expected to confirm their appointment since their names have been proposed.

Just who will be suggested to take the place of Mr. Burton is not known at this time, or at least such information cannot be had by the Leader.

The committee now performing this service are honest men who have given of their time ungrudgingly for the good of the community.

Old-Fashioned Pie Supper At Midway Friday

The Midway community will stage a pie supper at the new school house Friday night of this week. The quality of the pies will be in keeping with what they have at the "all-day dinners" of recent date, and you know what that means.

What do they expect to do with the money? Simply don't know, but they will likely be needing something for the new building. Anyhow the pies are worth the price besides the pleasure of meeting all the folks that it takes to make up a big crowd.

Newest Business Firm Owned By Youngest Members

The Leader carries an advertisement in the Classified Column this week for the newest business firm in town. Not only is it the newest firm, but it is also backed and owned by the youngest "men" in the business line here.

This firm is composed of two boys Homer Charles Speed whose age is around 12, and Coleman Huffman Jr. whose age is 11 years. Homer is a son of Mr. and Mrs. Ed Speed and Coleman is a son of the well known bakery firm, Mr. and Mrs. C. Huffman.

The youngest business fellows of the town are renting out bicycles. In looking for an entry into the business world, could a boy find anything better? There is a bicycle riding craze on and these boys have shown a decided business judgment by taking advantage of it. Their prices are reasonable too, being only 15 cents an hour.

Fellowship Church Supper Wednesday Evening

The Fellowship Supper held in the basement of the First Christian church Wednesday evening, was considered by all who attended a great success. About fifty people gathered for the occasion and supper was served buffet style and every body had a "big feed" and enjoyed the hour. After supper the minister, W. E. Ferrell, made a short address on the subject, "How to Win Souls." Great stress was laid upon the importance of soul-winning, prayer, co-operation and church attendance. This is the first item on the Christian Church Newer Religious program. Other events are to be put on as the "Go to Church" campaign moves forward.

Here's luck to the boys and may makers of Clarendon some day.

They were not political appointees and, should a change be made as has been proposed, the present Committee will leave behind them a clean record of a difficult task well performed. The present committee members are Odos Caraway, chairman; G. L. Boykin, C. J. Douglas, H. T. Burton and Homer Mulkey.

Early Cotton Ginnings Fall Below Last Year

According to information supplied by Thomas A. Ballew, collector of cotton statistics for Donley county, 98 bales were ginned in this county this year prior to September 16th. The amount at the same period last season was 181 bales.

Federal cotton bureau grading from District No. 2 which includes Donley county, this week gave out the following information:

A sufficient number of samples was received from the High Plains of Texas, District 2, to provide the sufficient data on which to base a report this week for the first time. More than 40 per cent of the cotton classed this week from that area was White Strict Middling and better in grade compared with 37 per cent to date. Approximately 27 per cent of the cotton classed from that area was equivalent to the Extra-White Standard; 15 per cent was equivalent to the Spotted and Yellow Tinged Standards this week. Seventy-five per cent of the cotton classed from that area this week was 7-8 inch or longer in staple length compared with 78 per cent to date. Twelve per cent was 15-16 inch or longer in staple length this week compared with 18 per cent to date.

Warren Lott Preparing For Butcher Shop Space

The front end of the Lott filling station building is being remodeled so far as the front partition is concerned to make space for installing a butcher shop set of fixtures. It is understood that the filling station will be continued as before with Warren Lott in charge.

Frank and Bill Hermesmeyer of Jericho were in town Saturday looking relieved over the turn of affairs for the better.

Mrs. Harry Hall of Hedley Dies in Amarillo

The death of Mrs. Eva Pearl Hall, wife of Harry H. Hall of Hedley occurred in an Amarillo hospital Saturday to which place she was taken when her condition became serious.

The remains were returned to Clarendon by the Buntin mortuary and prepared for shipment to Decatur where the funeral services were held Sunday with interment in the old family cemetery at Slidell.

She was born in Montague county on May 3, 1907 and had resided at Hedley for some time. Immediate surviving relatives are the husband and two small daughters.

LOCAL CITIZEN SUGGESTS NOVEL MEMORIAL STONE

Because of Its Nature This Memorial Would Have A Two-Fold Value

Among the several ideas suggested for a memorial of some kind to be erected to the memory of Donley county boys who paid the supreme sacrifice in the World War, the original idea offered at this time by J. W. Martin is timely indeed.

The idea suggested is not only original but it is feasible because of the fact that the cost is very little. The one big idea that will no doubt appeal to many is the fact that the monument will be made of native stone and of such a kind found only in favored locations.

Here is the idea as suggested by Mr. Martin: Over in the canyon northeast of Clarendon are to be found petrified logs. A log of suitable length could be found with a sloping top on which could be placed a suitable bronze plate, as Mr. Martin has it planned. In the event the top of the petrified log would not afford space for a plate of suitable size, it could be placed on the side of the stone, he says.

This suggestion by Mr. Martin has such merit that we are glad to give it this publicity. Perhaps other sufficient number will agree with him that we shall see this worthy project on a suitable location here in the near future.

ANNUAL FLOWER SHOW SATURDAY AT CLUB ROOM

No Admission Fees Charged And No Entry Fee Same As Previous Years

Beginning at 1 p. m. Saturday, the Les Beaux Arts Club invites the public to visit the free annual flower show sponsored by the Club which will be found in the Club Room at the City Hall.

Prizes will be offered as follows: Best blooming plant—A shrub. Cosmos, best bouquet—A shrub. Best mixed garden basket—Collection of cuttings.

Roses, best bouquet—Bulbs. Dahlias, best bouquet—Better Homes & Gardens, 1 year. Blue ribbons will be offered first prize winners.

Flowers should be brought to the Club Room for exhibit early Saturday morning. Anyone unable to bring or send flowers, should get in touch with one of the committee who will see that the exhibit is accorded attention at once.

The ladies of the committee are Mesdames W. W. Taylor, Homer Glascoe, J. D. Stocking, F. L. Bourland, J. D. Swift, Cal Merchant, T. H. Peebles.

Rev. Ingram's Friends Do Him Honor Sunday

A number of friends of Rev. C. B. Ingram met with him at the Methodist church Sunday afternoon to help him celebrate his 81st birthday.

W. T. Hayter, one of the speakers at a similar occasion a year ago, was one of the speakers to pay tribute to the venerable parson. Other speakers were Mrs. J. G. Dillard and W. A. Armstrong. Rev. Ingram made a talk in appreciation of the many expressions of friendship.

ANOTHER MOVE TOWARD STARTING WORK ON NO. 5

Deeds Are Being Prepared In Clarendon and Near Bell Creek This Week

Due to a misunderstanding, no effort to secure deeds to property in town over which Highway 5 is to be laid has been made until this week. The County Commissioners were of the opinion that the City would see that such property right-of-way was furnished, and the City Dads knew nothing of the matter from having never been consulted.

This week the matter is being looked after more patiently. A committee known as the highway committee from the Chamber of Commerce composed of T. D. Nored, Sam Braswell and Homer Mulkey is seeing after the deeds to the town property from the end of the pavement on West First street to the city limits.

Jack Killough of the Donley County Abstract company is preparing the deeds and abstracts, it is said, to such property as will have to be purchased.

The property affected near the track on the west side is that of Mr. Knorpp near the track, the J. J. Alexander home place and a direct line to the end of the pavement.

Deeds are also being prepared to right-of-way to property east of Bell Creek near Hedley and along about the Neely place.

If all of the deeds can be had in time, the matter will go before the Highway Commission at Austin at their meeting on the 15th. It is hardly expected that such is possible. In that case, it is not expected that work can begin on the highway before the first of December.

Since home labor is to be employed, it will really be better to have the matter delayed until December in order that cotton gathering may be completed. Those in authority to know say that the matter will be rushed to a completion at the earliest possible moment so far as the county and city authorities are concerned.

TEXAS RELIEF COMMISSION.

In order to keep the record straight, it might be news to some to know just how the Texas Relief Commission came into being. The Federal authorities asked the last Legislature to pass a law making such a commission possible. This was done and the number of members limited to seven. The law specified that the Governor should appoint three members; the Lieutenant Governor two members, and the Speaker of the House two members.

CUTTING OUT HIGHWAY MUDDLE.

Now since there appears to be nothing definite about constructing a highway across the county from east to west for the tourist, perhaps it might be well to build two across the county from north to south.

There is more need of a highway from Jericho south to Silverton than there is from east to the west, if we may look at it from a business standpoint. Then in order to even matters, give the east side of the county the same break by connecting Lakeview with Hedley and on north to 66 Highway.

If it is impossible to do something for the general public, why not get busy and do something for ourselves?

FIRE PREVENTION WEEK.

All of next week has been designated "Fire Prevention Week" over the Nation. The idea is designed to teach our people to be more careful, and to more fully understand that every one pays fire insurance. The cutting down of fire losses should interest every one old enough to understand, because it is an inescapable expense.

The fire insurance rate in Clarendon is based upon the yearly losses. Those who own property pay a direct insurance rate. This rate is reflected in every thing that is bought or used because it is an expense that must be added to the sale price of a commodity somewhere. That somewhere, is the ultimate consumer.

If you rent a house, you pay fire insurance. When the purchase of a suit of clothing is made, or groceries or anything else, the buyer pays a percent of fire insurance. Besides the saving in mere dollars and cents, thousands of lives may be saved through the year by cutting down fire hazards, and using diligence in avoiding a fire at any place wherever possible.

FREEDOM OF THE PRESS AND RADIO.

People have long since learned that the ether waves are politically controlled. When you hear an address now on government or bureau, you may rest assured that the story has been "cocked and primed" by an expert lest something get away that will stir up friction.

A few of the large dailies yet remain outside the fold of the nationally controlled organs of news disseminators. Despite the fact that weekly papers are in the majority in point of number, very few editors have the intestinal fortitude to express a candid opinion. Still fewer have sufficient knowledge to give expression to a sensible idea. The great big majority do not own "their own soul" as the saying is, and never attempt anything that will give offense in the least; no matter how urgent the information at hand, or how much the readers of that sheet are entitled to it.

In this as in every great crisis, the free, untrammelled press is the means by which the public gets the actual information. It is not always desired because of the nature of it, but if the condition exists, there is but one way to remedy that bad condition, and that is by and through public sentiment. The people deserve to know the truth about public affairs no matter how much or who it might hurt. Only when our political leaders learn that their actions will become public property, and only then may we expect a square deal at all times. We need more publicity of the right kind.

PLANNING NEW TIME OF CITY.

Several years ago Thomas A. Edison said something about a new type of city building. He never got around to the job of outlining his plans, but along comes one Edgar Chambless at this time who wishes to be heard on the subject of city designing.

First, Edgar suggests that a city be strung out in one continuous building of a height of four stories. The transportation lane and highway will occupy the bottom story, we learn. The roof will consist of swimming pools, beer gardens, skating rinks, dancing spaces and possibly the gymnasium since plenty of fresh air and sunshine are necessary to proper physical development.

As to the intervening stories, the homes would all be located on the third story. When the lady of the "room" desired anything from one of the grocery stores on the third

floor, she would have only to press an electric button and pick up the articles. We mean by this that deliveries would be made through a pneumatic tube as mail is being transferred in the larger cities at this time.

There would be nothing to hinder each family from having a yard and garden on a space adjacent to that portion of this centipede-modeled affair occupied by the family. All purchases, rents, taxes and in fact the entire family expense would be on a cooperative basis. This seems to be the idea uppermost in the minds of national leaders at this time anyhow.

EDITORIAL MUSINGS

CLAUDE NEWS:

John L. McCarty, editor of the Dalhart Texan, had his paper filled from "kiver to kiver" with beer ads last week. This, too, following his great work as ring leader of the Prohibition cause in the Panhandle. In fact he was a delegate to the state convention, where he voted DRY, first, last and all the time. Some people will censor Editor McCarty for filling up his paper with beer ads, after fighting for the DRY cause so ably and efficiently, but The Claude News Editor DOES NOT. It is legitimate to take advertising for beer sales when the new law says beer selling is legal. Mr. McCarty is in his rights and would be foolish not to take legitimate advertising.

QUANAH TRIBUNE-CHIEF:

Local option prevails in Hardeman county and 3.2 beer may not be sold here though the law does not say anything about its transportation into the county and its consumption at home. Of course, it's the consumption not the sale that the dries seek to prevent but the lawmakers apparently have taken the opposite view.

CANYON NEWS:

Building the highway east from Canyon with local labor will mean something like \$30,000 to be distributed among laborers of the county during the coming few months. The wheat growers of the county will receive about \$290,000. In addition something like a half million dollars will be spent at the Palo Duro State Park. All of this is new government money which will be turned loose in business channels of Randall county.

Mr. and Mrs. John Henry Crawford announce the arrival of a 9 1/2 pound son Saturday which is their first born.

Mr. and Mrs. S. G. Adamson and children of Hedley were Clarendon visitors Saturday.

Wake Up Your Liver Bile - Without Calomel

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in pimples. Your head aches and you feel drowsy and out. Your whole system is poisoned.

It takes these good old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. 25c at all stores. © 1931, C. M. Co.

AMBITION

I want to be a helpful man And render service true, To cheer some pilgrim out of luck And show him what to do. For if I give him a sunny smile, 'Twill make another life worth while.

I want to be an earnest man, Engaged in useful work, To fill the hours with honest toil, My duty not to shirk.

For if I look with willing mind Some useful work I'll surely find. I want to be a kindly man, With sympathetic heart, For those in sorrow or distress, To render my full part. For after all 'tis what you give That makes you feel it's good to live.

But most of all I want to be A man of sterling worth, That I may prove my self to be Full worthy of my birth. For though I fill an humble place, I then can walk with happy face. —Greenville Kleiser.

A German Girl's Taxes

Let any American who is inclined to believe that his personal taxes in whatever form are too high consider the case of a German stenographer, an unmarried woman. The information is from M. F. Farmer's article in the Baltimore Sun. A specific girl is paid wages of \$450 a year. Her wage tax is \$15, her emergency wage tax \$4, another wage tax of \$4 is collected for the city of Berlin. The Government takes 10 per cent of her wages for her church. So far the stenographer has paid \$68. Of the balance of \$382, life in-

TEMPLE OF TRUTH
By the Apostle

There is nothing more pathetic than a broke man looking over past due accounts unless it would be a horse fly trying to suck blood out of a radiator cap.

I tried to bunk with a scientist once—he was a kind of comet hunter, so to speak. He was most entertaining. I couldn't sleep when he was awake and the devil couldn't sleep when he wasn't. He'd snore violently for a short spell, then he'd rise up suddenly and stroll into outer darkness. He'd return later with the tale of a fresh comet that had just broken lose and got away. While relating his last find, he'd always slip his icy hooks up against my person in such a way that it seemed impossible for me to completely ignore him. His lovely wife became fed up on his peculiar habits, smote him across his mid section with her hand bag and went back home to her mother. He later became entangled in a rope and fell from a bridge. His death seems to have been caused by his intellectual dome falling to slip thru the noose. It seems that quite a few of our scientists take on immortality in this manner.

All advancement is discovered by chance. Way back in the 90's, a woman appeared at a picnic in the Panhandle wearing a hat. The sun-bonneted sister gave her the once over, tried a bonnet on her and all that. They wanted to see the advantage in a hat. They decided that a hat made a woman look younger.

UNVEILING NEXT WEEK

By L. F. Van Zelm

It was many miles to a town, but many a man was started out next day to Dodge City, Gainesville and other places in search of a hat to make peace in his home. One woman can cause a lot of trouble in a community besides gossiping, but this is the only instance of such a proof.

R. W. Scales of near Hedley, and one of the best fellows you nearly ever saw, was in recently, paid up his sub and asked that the paper be sent to his old mother down at Brownfield. Not every mother has a son like R. W., but they ought to have.

A lot of folks just now living locally, stately and nationally, if not inter-nationally, are observing the hay fever season. Judge T. H. Feebles, who also happens to be a victim, has one consolation. He says he read where a French scientist has said that a common scrub can't have hay fever. It takes a thoroughbred. Not all thoroughbreds have it, he says, but no scrubs ever have it. That's sopin'.

Did you ever know of a fact of anything told by a fortune teller coming true? The Apostle has had his fortune told, and if half of it comes true, he's sitting on top of

the world. Somebody please come around and add some encouragement.

This Go-to-Church movement is a good thing, but there are two things that will make men go to church most any time. One is bad health and the other is an impending grandjury investigation.

When Chicago prison keepers heard that prisoners in New York state had ball games, chicken dinner, radio and movies, they beat them at one sweep by providing fan dancers.

Gold fish have more privacy in Cuba than the president.

Farmers here Saturday bought over 1500 pounds of cabbage to be made up into kraut. Kraut and 3.2 and things go into a Dutch lunch, you know.

Over in Waurika, Oklahoma a very unusual ceremony was performed last week when a boy married his parents. The boy was Rev. C. A. Baxter, and his parents are Mr. and Mrs. J. M. Baxter. The old couple had been divorced for seven years. Now a preacher who can get the old folks settled down again has really done something. That is why it is being mentioned here.

You folks who are having a hard time getting up money for the preacher have all the means necessary for raising it right at home. Simply give an "operation convention." Every one who has had an operation is keen to talk about it. Charge each entrant a fee to get in, and charge them so much by the hour for talking about it after they get in, and you will be surprised how many thousands of dollars will pile up. As a side show to the affair, have a place where those who enjoy ill health can talk their "ailments." Charge and manage on the same plan as the "main show" and pay off the preachers besides "a good time will be had by all." As an extra inducement, offer prizes, etc.

While the men folks drank 3.2 at the Fair at Amarillo, the women bet on the horse races. It was said to be a great Fair this year with plenty of excitement.

An old man was in this week and said he had been married 42 years and he and his wife had never had a cross word. As he left he turned and said: "Do you want any proof?" Then the old battle-scarred Apostle said: "Yes sir, and lots of it!"

Over in Old Mexico they have a new wrinkle on their NRA. They are selling cars by the pound, bananas by the yard and beer by the bale.

When some men see what their daughters come dragging in for a husband, they think the girl has had a "son-stroke."

Some folks have a fine family tree to brag about, but the crop is a total failure.

G. J. Teel came in during the week and paid up for the Leader to keep after him for two years. He is the first 2-year man this season. Who'll be next? Thanks, Mr. Teel.

Old Brother Ingram is selling monuments for a side line. If you want a square deal, or as square as it can be had anywhere, give the kindly old parson a chance at your needs. He will greatly appreciate it. So will his hundreds of friends.

And don't forget to see our advertisers when you need something in their line. They are making it possible for us to give you a paper, and the more business they get, the

more they can spend for advertising. When they spend more with us, we will in turn give you a still better paper.

HOPE

There's a new moon tonight, and so I wonder
If you will see it—and if it will start
Some vague regrets for all the crashing thunder
Of bitter phrases rooted from the heart;
Is it not strange when pride has slowly cooled down
How one can miss a glance—a touch of hand—
And how the timid bow-boy that we ruled down
Can raise his havoc with the peace we planned?

How do you spend your time—are you pursuing
The fevered lures that help you to forget,
Or like a certain lad—are you re-
newing
Your joust with grief through nights as black as jet?
There's a new moon tonight—perhaps you'll see.
It's radiance—and muse a bit on me.

LET YOUR LIGHT SO SHINE

Add a candle to a room full of candles and the light is not appreciably increased but bring in a 200-watt tungsten and the candles become dull and yellow.

The world is full of people who give out only a candle glow, and that is why the opportunities for those of the electric light type are so promising. There is a great shortage of students in schools of all kinds. This means that the uneducated boy or girl will be just another candle added to a world already full of candles; it also means that those who have the good judgment to equip themselves with the proper type of education will be comparable to the electric light in the room filled with candles.

For more than thirty years our school has been bending its efforts to convert the human candle into the human electric light bulb—taking youngsters out of the mediocre class and raising their earning power and placing them on the road to a successful business career. How well we have succeeded is testified to by more than fifty thousand office workers distributed all over the English speaking world, many of whom are at the head of large business enterprises. What we have assisted others to do we will be glad to do for you.

May we send you our annual describing the work we are doing? Its free.

HOW TO RUIN A BOY

If a boy has a heritage of good health, good common sense and a taste for the better things of life he has no need of an inheritance of cash. In fact, in so many cases the money actually brings about the ruination of young men and boys. Money is a handicap to a normal boy. He can have more fun without it than he can with it.

Good advice for parents is not to create too much wealth for coming generations. Instead of aiding them to enjoy life the parents may actually be forcing their descendants to languish in prison cells. Children should be willed something of im-

portance—good examples, health, character, willingness to work and other things that matter. Money, beyond enough to pay for necessities, is of so little value.—Ingham County News, Mason, Mich.

CITY GROCERY
AND MARKET

Hello Neighbors! Moving is "some" job and getting the stock back in place is a bigger job. We like the new location four doors north of the Postoffice fine. It will make it more convenient for our customers and friends to load up. There is plenty of parking space. You don't have to hurry. Take your time in selecting your purchases and feel right at home any old time.

We deeply appreciate all the favors and consideration shown us since we first opened a grocery and market in Clarendon. You will find the market at the front here where you can see just what you like. There will be plenty of clerks to wait on you. We are going to be disappointed if you don't visit us Saturday whether you need anything or not. We are meeting new folks every day since the move, and that makes it even better.

institution with 87 teachers and 1,322 students. President Zook ran this university ably."

The National Council of State Superintendents and Commissioners of Education meeting in Washington says it is the obligation of the Federal government to aid public schools in states hampered by lack of funds.

According to Commissioner of Education George Zook, the elimination of child labor by the National Recovery Act has taken out of employment approximately 100,000 children, thus placing an additional burden on the public schools of the nation. Thousands of school officials whose schools have opened for the fall term find an increased number of students and a decreased amount of cash to run on.

Two prominent Newport young

ladies, Misses Annebelle Shipp and Earline Morris, who have been studying sign painting in college at Denton, are at home now and so desiring to do a little practice work in the art of sign painting had a leading groceryman of Newport furnish them with red paint and coloring. They went out one afternoon last week just a mile out on Bowie road where there is a huge rock which was pulled out with a big tractor. The rock is about 6 ft. high and 10 ft. in length and is as smooth on the side as if it had been sawed. After cleaning the smooth side of all dirt the ladies painted one of the most attractive signs

for the Newport groceryman that was ever seen, and one that is attracting much notice from passers

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can be controlled. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may keep you constipated as long as you keep on using it! And the habitual use of irritating salts, or of powerful drugs in the highly concentrated form of pills and tablets may prove injurious.

A week with a properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin will tell you a lot. A few weeks' time, and your bowels can be "as regular as clockwork." Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the

Dr. George F. Zook, assumed the position of U. S. Commissioner of Education last July, succeeding Dr. William John Cooper. "Time" published the following interesting biography of Dr. Zook: "In a farmhouse near Fort Scott, Kansas, 48 years ago was born George Frederick Zook, son of Douglas and Heler Zook. In 1902 George Zook entered the University of Kansas, carrying his spare clothing in a shoe box. He worked his way through by driving a hearse. He made Phi Kappa Phi. Five years after graduating he married a class mate, Susie Gant. Specializing in Modern European History, George Zook became a fellow at Kansas, an assistant at Cornell, an instructor at Pennsylvania State College, then an assistant professor, then an associate professor, then a full professor. From 1920 to 1925 he was chief of the division of higher education of the U. S. Bureau of Education. "Eight years ago Dr. Zook became president of the University of Akron (Ohio) a tax supported

"Did the work" says Miss Glivar
WHY DON'T YOU TRY IT?

After more than three months of suffering from a nervous ailment, Miss Glivar used Dr. Miles Nerveine which gave her such splendid results that she wrote us an enthusiastic letter.

If you suffer from "Nerves," if you lie awake nights, start at sudden noises, tire easily, are cranky, blue and fidgety, your nerves are probably out of order.

Quiet and relax them with the same medicine that "did the work" for this Colorado girl.

Whether your "Nerves" have troubled you for hours or for years you'll find this time-tested remedy effective.

Mexican Excavations Hold Structure Thought to be Ancient Mayan Temple

Excavations in the heart of Mexico have disclosed an ancient structure like a Mayan temple, and have fired imaginations of students of that mysterious race.

Archaeologists were unwilling to pronounce it definitely of Mayan origin, but nevertheless said it might be such and intimated that their present theories might be upset regarding the tribe which inhabited the Yucatan peninsula and Central America and disappeared mysteriously about the 14th century.

The discovery was made in diggings near the Mexican national cathedral, on the site of the great

Aztec central pyramid, which was destroyed by the Spanish conquistadors to provide material for the first church in the new world.

Origin of the Mayans and the reasons for their disappearance are as baffling as the temples they left for the jungles to reclaim in south-eastern Mexico, but it has been doubted whether they ever inhabited central Mexico.

Some months ago the Mexican government began removing old buildings on the central plaza, around which most of the recorded history of Mexico is written, in an attempt to settle the 400-year old

Wass you dere?

question of what was below the Aztec pyramid. Excavators have found hundreds of human bones already, and it is possible they are those of Spaniards killed on the "tragic night" in 1520, when Hernando Cortez and his followers fled the fury of Aztec hords after their emperor Montezuma had been killed. A score of Mexican archaeologists have been studying the findings—monuments, idols, pottery, and evidences of a great underground structure of some kind. The foundation is like that of a temple discovered in Yucatan. It had been covered with cement and stone, indicating that a subsequent civilization wished to destroy monuments of an earlier race, but wanted the work in them. Building bigger structures atop the old ones was a common practice in Mexican civilizations, and Mexican pyramids often have two, three or more layers, one above the other.

REGARDS TO THE LINOTYPE OPERATOR

It's nice to be a poet
It's wonderful to know
That every time we write a rhyme,
We'll find it printed so;
It's nice to be a poet
The life we live is Great!
Excepting that we write it "fat"—
And find it printed "FATE"!

It's nice to be a rhymor
It's fine to write in verse,
It's wonderful when we can pull
A jingle not so worse!
It's nice to be a rhymor,
Excepting—maybe—but—
We execute a rhyme for mute,
And find it printed "MUT"!

It's nice to be a singer
Of that artistic type
We're more refined than those who grind,
A danged old linotype.
It's nice to be a singer
Financially and all,
I'm here to tell it is like well—
I'd find it printed, "HALL"!

NO MORTGAGE

Brown County (Nebraska) Democrat: An incident which occurred here some time ago is just too good to keep. An embryo business man of the city, age 10, is known as quite a hustler. He is always surrounded by pets, dogs, rabbits, guinea pigs, ducks, etc., and is already some trader. One day he found himself in financial difficulties. It was necessary to raise 35 cents at once, and he confided his trouble to a salesman who happened to be in town. He thought he might be able to help him, but of course must be protected. That was all right with the youth. The salesman made out a note for fifteen days, and this was duly signed with considerable gusto the salesman then proceeded to make out a mortgage, covering about all the property the boy had; one female dog, with issue, guinea pigs, rabbit, etc. After he had finished this he presented it for signature, and the boy asked what this was. He was told it was a mortgage and just what it covered, whereupon the youth looked his Shylock right in the eye and said: "I'll be damned if I sign a mortgage." whereupon the deal was off. However, the salesman loaned the youth the 35c on his honor.

REGARDLESS OF THE PRICE

The man who has plenty of feed coming on this fall finds it greatly to his advantage to find some way to get the better price for it besides selling it on the open market.

A weekly cream check is a handy thing to have around. Poultry and cows both require feed, and usually enables the grower to get more out of it.

APPEAL IS MADE TOWARDS BETTER CHURCH GOING

Church Attendance Drive To Continue Over Period Of Eight Weeks

This week the Minister's Alliance, through their secretary make a special appeal to encourage church attendance in the following paragraphs:

Go to church if you wish to be healthy. A healthy mind means a healthy body. No man who does not "GO TO CHURCH" can have the greatest tonic for the body. No man can have a clear conscience unless he GOES TO CHURCH. Faith and deep religion can accomplish more than the most renowned physician.

Sin never makes one happy. The world today is seeking happiness, but happiness will never be found in purely material things, nor outside one's soul. True happiness may be found in God. You cannot commune properly with God by constantly absenting yourself from the house of God.

Let any Christian man deny that he is happy when he quits the Church and neglects to attend regular services. He may be rich and enjoy himself without stint, with the pleasures of this world, but in the final analysis, he knows and feels that there is something lacking. Men who have not entered the church for years cannot conceal their delight, when they get back into the fold. They know they are doing right when they go to church. And there is great satisfaction in doing what is right.

Therefore, while there maybe a thousand and one reasons why a person should GO TO CHURCH, there are also positive commands in God's Word, that demands that To be well pleasing to God we we strictly observe this practice. must have faith in Him and obey His commands. There can be no real worship that will be acceptable to Him if we neglect His word or disobey His commands. He met with the Jews in the temple of

long ago and blessed them when they worshipped Him in spirit and in truth. He will meet with the people of this age, if they will come to the regular appointed meeting place to worship Him. He had the church established that meeting places might be erected all over the world for this great purpose. He has left every man without an excuse.

Be healthy in mind and body. Go to church next Lord's day and every Lord's Day. Keep in touch with God. Get your neighbors to do likewise. Help along the splendid "GO TO CHURCH" movement in this glorious land of ours.

TIRE COMPANY MARKS 35TH ANNIVERSARY

Goodyear Stages Homecoming Conference at Akron In Celebration

AKRON, O.—Reminiscing over the years that have brought to their concern the title of world's largest rubber company, executives of the Goodyear Tire & Rubber Co. have just completed observance of the concern's thirty-fifth anniversary.

Of particular interest has been the company's strong financial position during the depression years, the most recent semi-annual statement, issued in August showing a total net profit of \$560,951 and cash and securities on hand amounting to \$51,000,000. The concern has no bank indebtedness and its ratio of current assets to current liabilities is nine to one.

Beginning in 1898, Goodyear was an extremely small concern, inadequately financed, trying to break into a business then largely in the hands of others. Early years of the present century found the company making bicycle and solid rubber carriage tires in a small one-story building on the site of the present huge plants, but advent of the automobile and belief of the management that the new vehicle would revolutionize transportation was responsible for beginning of a fight to secure auto tire business.

With mediocre success until 1908—when Goodyear was doing but 1 1/2 per cent of the tire business—the concern introduced the straight side, no-rim-cut tire, in opposition to clincher types made by other concerns. Success of this policy is

indicated by the fact Goodyear during the next eight years grew to a position of dominance. Pioneering other developments in tires the company a number of years ago became the largest rubber concern in the world, a position it still holds, with factories, plantations and branches throughout the world.

The anniversary was marked by a "Homecoming" at which nearly 1000 Goodyear domestic and export sales representatives came to Akron for a four-day conference.

Mr. and Mrs. James Wall returned to their home at Jacksboro Monday after spending the week end with his mother, Mrs. W. A. Massie.

CHILLICOTHE IS BEATEN 18-0 BY BRONCHO SQUAD

Over-Eagerness and Penalties Cuts Down Clarendon's Scoring Chances

The Clarendon Bronchos won their second straight inter-sectional gridiron classic here last Thursday afternoon when they defeated Chillicothe High School 18-0.

Both squads were slowed down under the sweltering heat, but managed to turn in some fairly good playing before the game ended. Clarendon held her opponents well in check throughout the game, but on several occasions found that her own "punching power" was somewhat lacking.

The first quarter opened with both squads sparring for a chance to detect the others' weak points. The Chillicothe boys had one of their punts blocked at an early period of the game, which as a matter of fact marked the beginning of their downfall. The Bronchos were quick to take advantage of this "break" and forced their way deep into Chillicothe territory. Failing to have the punch to carry the pig skin on down the field, the Bronchos were compelled to punt. The punt placed the opposition in a dangerous position and they quickly returned the punt which again brought the Bronchos into scoring distance as the quarter ended.

Realizing that the sweet morsel of victory was almost in their grasp, the Maroon and White staged a touchdown drive with E. Watson making the final plunge. The try for point was no good. The half ended with Clarendon holding her opponents far from the danger zone.

The Bronchos made their second tally in the third quarter when McMahan intercepted a Chillicothe pass and ran 35 yards with a clear field ahead. The try for the extra point was no good.

The third and last touchdown of the game was added during the fourth quarter, after a series of good runs, with Whitlock plunging over the final stripe. Again the try for point was no good.

Several of the boys on the Broncho squad "showed their stuff" while the game was progressing. Clarendon's defense was well handled by such players as Martin, McMahan, Mann and E. Watson. Word, Evans and Greene were the best ground gainers for the Maroon and White. The generalship of the team was handled by Whitlock who kept his plays well under control, having used only four during the afternoon.

Penalties from off-side and holding cost the Bronchos two touchdowns. O. C. Watson made one when he scooped up a blocked punt and raced across the goal line only to have it called back. The other touchdown was made by Greene who weaved his way through from the line of scrimmage.

Over eagerness coupled with the tension of responsibility cost two of the squad what might have been the high-lights of the game when Martin dropped two passes and Holtzclaw one with a clear field ahead in each instance the passes were thrown.

Line-up for Clarendon:
McManhan—Center.
Mann—Left Guard.
Barrow—Right Guard.
Noble—Left Tackle.
Behrens—Right Tackle.
Martin—Left End.
Watson, O. C.—Right End.
Whitlock—Quarterback.
Greene—Left Half.
Word—Right Half.
Watson, E.—Full Back.

More than twenty members of the Broncho squad were used during the game.

TOO MUCH
Here is one that is going the rounds of newspapers which sum up the cause of every kind of trouble, it seems. The writer gives his ideas in a terse and trenchant manner:
"Too much oats and too much wheat,
Too much corn and too much heat,
Too much cotton, too much oil,
Too much hours that we don't toil,
Too many highways, too many cars
Too many people behind the bars,
Too much poverty, too much wealth,
Too many people have poor health,
Too much politics, too much booze,
Too many wearing high heeled shoes,
Too many loafing, too many bets,
Too many failing to pay their debts,
Too many spending dough for gas,
Too many taking Europe's sass,
Too many living beyond their means,
Too many buying canned corn and beans.
Too many candidates after your votes,
Too many wearing old overcoats,
Too many hiring their washing done,
Too many playing bridge for fun,
Too many looking to Uncle Sam,
Too many people don't give a—,
Too many poets, too much prose,
Too many girls without underclothes,
Too much buying of goods on time,
Too many people don't have a dime
Too much ball, too much play,
Too many officers on big pay,
Too many taxes, too much spent,
Too many folks spend every cent,
Too much fun, too much ease,
