PANHANDLE PRESS ASSOCIATION WEST TEXAS PRESS ASSOCIATION NATIONAL EDITORIAL ASSOCIATION

#### ANCIENT AND MODERN FOSSILS.

A report from Fossil, Oregon states that a deposit of a certain type of clay there has yielded up a quantity of nuts that are estimated to be 30 millions years old. They are said to be of the "wall" variety, pretty much similar to those still growing there. Modern nuts are principally of the "loose" variety, many of them coming under the fossil classification.

#### CANDIDATES AND COMMON SENSE.

There will be an array of candidates in the field this year asking for the governorship of Texas. Because of his political affiliations, the best man for that job can never be given an opportunity to further demonstrate his ability. That man is Col. W. E. Talbot of Dallas. He won his title during the world war. Since that time he has been engaged in the insurance business in Dallas. He has studied out more plans for finding a manufacturing market for Texas cotton and other raw products than all the rest of the men in the nation to date. He is an empire builder. His only weak point of judgment is in being aligned with the Republicans.

...

#### RECONSTRUCTING HOME FIRES.

...

Little more than a dozen years ago conditions gave birth to a trite request to "keep the home fires burning." It had to do with national solidarity. A nation of home owners is the strongest because its people are the happiest. A nation of happy home-loving, home-owning people is invincible.

The Home Owners Loan Corporation was devised to save the town homes. The Federal farm loans was devised to save to the owners, farm and ranch homes. Schemes for human betterment being worked out under the present administration will make it possible for one to own a home. Conditions over the years have been such that it was cheaper to rent than to own a home. That day is passing. The change cannot be brought about too quickly. ... ...

#### ROOT OF EVIL DOMESTICATED.

#### THE DONLEY COUNTY LEADER, JANUARY 11, 1934

A mere sum of \$150 was the total cost of the trip not Texas Man Returns From counting the labor of dragging the old tub in shallow water that amounted to practically the same thing as a field following an overflow. The Dallas Chamber of Commerce put up \$100 of the money and the organization has pictures to tell the cock-eyed world that Dallas has a port as well as an experienced Commodore. What they need most of at this time is a half million more dollars to scrape out a straight from a national meeting of all channel to the Gulf and let the original river go hang. ... ... ...

#### ROUNDING UP THE CHISELERS.

There will be more, and there already has been a drop in the prices of a number of manufactured commodities. That is the next big job of the administration. During the next few days or weeks there will be announced reduced the entire Maytag line of washing prices on practically every device of any consequence used in the home. The price reduction may extend to implements the manufacturer or retailer with now. If not, it will later. Everything used in the home will good merchandise at the right get consideration.

The administration is after the "controllers," too. Up to the present, a few men have controlled industry-manufactured and mining outputs in volume. Often in the past a dozen men sitting around a counsel table in a big city office could bring famine if they wished. They did do it on er percentage of increase than any many occasions. They could and did often paralyze the wheels of industry. Often this action affected a wide territory. The happiness and comforts of thousands of citizens were entirely dependent upon the whims of a few men.

Apparently at this time the new day is breaking. The New Deal is becoming more involved. It is striking at the seat of our national woes. ...

### RUGGED INDIVIDUALIST vs RADICAL.

Some time back the United States Daily, an alleged brain labor and the added purchasing baby of the United States Chamber of Commerce, ceased power is reflected immediately in publication. The United States Chamber of Commerce has more or less dabbled in national politics. That body opposed the ex-soldier's adjusted compensation payment teeth and

toe nail. That Chamber has all along sought to handicap the Warren, and who grew to man-Rooseveltian ideas of pulling us out of the depression. It is hood here, is seriously ill in a sanistrictly a big man's organization being fed largely through tarium at Las Vegas, Nevada. He small Chambers of Commerce in the little towns who unwittingly believe they are getting somewhere.

David Lawrence was editor of the big United States daily for some time. He is today lined up with the Saturday lain is visiting her grandparents, Evening Post in an apparent effort to handicap the present Mr. and Mrs. E. P. Weister of 143 administration by attempting to show that Franklin D. Roosevelt is an irresponsible radical.

Roosevelt is a radical but not irresponsible. England declared Washington to be a radical back in 1777 and thereabouts. Webster defines a radical as being "one of the ultraliberal party in politics." Roosevelt is that. There is no denying the fact.

Back under the Hoover administration the so-called leaders were known as "rugged individualists." It must have been a failure if we may judge from the condemnation heaped upon them. We need more radicals of the Roosevelt type Leaders who can feel for common humanity. Men who are really patriotic to the point that they prefer to save the nation and bring back happiness to her citizens.

	preserving!' said the druggist heartily.
J. R. Arbuckle, the coffee king, who left an estate of \$100,000,000,	"And he sold the woman more than \$15.00 worth of cosmetics."

## Maytag Convention

Walter Rogers, President, Maytag Southwestern Company, 2115 Griffin Street, Dallas, Texas, distributors of Maytag Washers and Ironers in Texas, has returned Maytag sales executives held at the home office and factory, Newton, Iowa, December 29th and 30th.

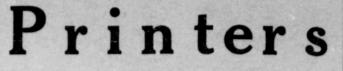

"The surprise feature of the convention was the official announcement of radical price reductions in tub aluminum models. We feel that price will go far in 1934," he continued

"Increased business activity is evident in all parts of the country. For the year just closed, washing machine sales have shown a great other mechanical line, the output for 1933 being 50 percent greater \*\*\*\*\*\*\*\*\*\*\*\*\*\*\* than in 1932. An unusual number of sales were made during the holidays in what is generally regarded as a dull season."

"Our own local business revival is being repeated in dozens of neighboring communities. New public and private enterprises are providing an additional market for increased sales," Mr. Rogers concluded.

Ray Warren, brother of J. A. is showing some improvements at last report.

Miss Filora Wilson of Chamber-East King street, Tulsa, Oklahoma.

## Guarantees --

This bank guarantees deposits. This insures

the depositor of the security of his funds. It also guarantees him against need when the time comes

when money is necessary. A further guarantee

is that your return check is the best form of re-

ceipt in making any kind of payments.

# **Farmers State** Bank

\*\*\*\*\*\*

Often ones heirs fall out about the estate on the way tended was necessary to business Mrs. Otis Jackson and Mrs. Eula home from the cemetery after the victim has been quickly success. gotten rid of on account of being dead. Dallas gives us more insight into the falacy of "storing up riches" when burial of tered a drug store and said to the a man's body cannot be made until the heirs get ready to druggist: settle their differences. It seems that during the time that the old man was storing up riches that are later causing so much domestic disturbance, he paused long enough to write at least one will wherein he declared he wanted to be buried by his first wife up north. Possibly the added expense of transportation may have something to do with it. Money makes trouble in many ways, and not the least of these ways is in the hands of an administrator when the heirs fuss and grumble. Some of the heirs may reach the point of disgust and almost wish the old man had not died at all. ... ...

#### GOVERNMENT OWNERSHIP RAILROADS.

Reminded of a helter-skelter era back in 1919 and thereabouts, members and leaders of the Brotherhood of Railway Trainmen are advocating the government ownership of railroads. Uncle Sam pays the mail clerks more than the engineer is getting in some instances. The motive in seeking a new boss is not so much the consideration as the lavish salary that Uncle Sam pays when an organization is strong enough to play a part in politics. On the other hand, the railroads were operated at a great loss under governmental authority just as the postoffice and mail service in general is today. Government management has seldom proven a success. Not because it was impossible, but simply from mismanagement. There is no indication that there would be any change, and the public would suffer grave consequences were the railroads or any other common carriers taken over by Uncle Sam.

### OPENS TRINITY TO NAVIGATION.

Commodore B. M. Hatfield has landed at New Orleans after a perilous journey from Dallas down the Trinity, thence through intra-coastal canals. His idea was to demonstrate the feasibility of the Trinity river as a deep water stream suitable for navigation as far as Dallas up stream. This is a severe blow to Ft. Worth not to mention a number of country stores in young and other counties.

The flat boat used by the Commodore was covered with tarpaulin. Seven sturdy sons comprised the crew though he had but one left when he reached New Orleans. In reciting little incidents of his trip, the Commodore related how the crew used a block and tackle in navigating forty miles of ity where it had a 2-inch depth. This experience may have had a tendency to discourage his sailor crew, many of m might have sailed the 'mighty main' at some previous

which the ingredients were proportioned, show a wide range of costs. ever have anything to go wrong at Group X, with the best scientific a critical time? This week the proportioning, is within a few cents of being worth double the old style ration represented by Group Z. Group Y was mixed according to some of the better practices of feeders. Group X was mixed according to the exclusive data developed by the Research Division of Purina Mills, the result of years of Society and the Naylor community analytical, biological and practical hanging fire when that blamed farm tests.

The difference between paying a feed cost of forty cents for ten pounds of chick growth and paying seventy-one cents is obviously so great that no poultry raiser can afford not to take warning. He should examine carefully his methods and his cost sheets. The feed consumed as against the weight developed by the chicks in a given period of time will soon tell him where his profits

have gone.

Do you drive your car into a garage for repairs and just "trust to luck" to get a good repair job at a FAIR price? Your neighbor has had work done here if you haven't-ask him.

We will appreciate giving you an estimate of the cost of a repair job.

#### Mrs. Edith C. Boyd Gets Crown And \$50 For Single Glass

GRAND Champion Jelly Maker of the United States!

That's the title that was captured recently by Mrs. Edith C. Boyd of Downsville, N. Y., when a glass of her ripe grape jelly was selected as first choice from among 5,842 glasses entered in a contest con ducted by Household magazine. In addition to the champion's crown and national recognition, Mrs. Boyd won \$50.

Although she has been making jelly for her family for a number of years, Mrs. Boyd never before entered samples of it in a competition. She was amazed when leadhome economists, acting as judges, selected her entry as the very finest from the standpoint of color, texture, flavor, and clearness. Here is the recipe that the grand champion used:

4 cups (2 lbs.) juice 7½ cups (3½ lbs.) sugar ½ bottle fruit pectin

<sup>1</sup>/<sub>2</sub> bottle fruit pectin To prepare juice, stem about 3 pounds fully ripe grappes and crush thoroughly. Add <sup>1</sup>/<sub>2</sub> cup water, bring to a boil, cover, and simmer 10 minutes. Place fruit in jeily cloth or bag and squeeze out juice. (If Malagas or other tight-skinned grapes are used, the juice of 1 lemon should the prepared juice.) are used, the juice of juice.)

Measure sugar and juice into large saucepan and mix. Bring to a boil over hottest fire and at once add bottled fruit pectin, stirring constantly. Then bring to a full rolling boil and boil hard 'a minute. Remove from fire, skim, pour quickly. Paraffin hot jelly at once. Makes about 11 glasses (6 fluid ounces each).

(Benefit Parent-Teachers Association)

Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, disziness, headache. You have be-come an ugly-looking, foul-smell-ing, sour-thinking person. You have lost your personal charm. t your personal charm. y wants to run from you on't take salts, miners

low yolks and firm, thick whites. These are things the housewife looks for because they signify an attractive appearance when the eggs are served on the breakfast egg platter.

That the interior quality of an egg was controlled by the feed was brought out in an experiment in, the Purina Research Laboratories. Into a two-gallon glass jar, the in-vestigators broke 12 dozen fresh elect eggs, the highest quality sold by a store specializing in quality foods. The yolks of these eggs varied in color from light lemon to deep orange. The yolks and the thick portion of the whites rose toward the top and about four

ourtesy-Purina Mills

inches of thin white settled to the

bottom,-evidence of either low vi-tality in the hens or a faulty ration.

See jar on right. In a second jar, these research workers broke another 12 dozen

workers broke another 12 dozen eggs of the same external appear-ance and evidence of freshness as the first 12 but laid by hens on a special ration developed at their Experimental Farm to produce quality eggs. To make the test comparable, all of the second lot of eggs were at least 10 days old.

Surrounding each yolk in the sec

#### THE THING THAT KILLS

What kills a church? Exclusive-

What kills a town? Exclusive-What kills a nation? Exclusive-

Every church in its beginning is

inclusive; rich and poor, learned and unlearned, find in it sanctuary, the result of perfect equality. Every town in its beginnings is

inclusive; there are no uppety-ups, and the place grows and flourishes like the proverbial green bay tree. Every nation in its beginnings is inclusive; the people are welded together by persecution as are pieces of iron under the blacksmith's hammer.

But by degrees distinctions arise; my lady in purple disdains the society of her sister in gingham, and the church begins to fail. By degrees class consciousness gets into the town; it loses its democratic spirit, and the "for rent" signs multiply.

By degrees tariff walls are builded higher and higher; the other fellow's goods are excluded, and the nation is plagued by depression and doesn't know what ails it.

Let him who runs read aright. Houston Post.

M. R. Ayers and family of the Chamberlain community moved. this week to a farm north of Lefors where he will farm about 500 acres this season with improved machinery.

## COALS OF FIRE

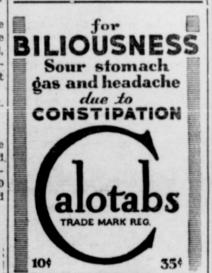

THAT'S WHAT

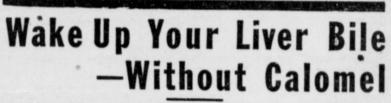

A farmer boy went to the city against his father's wishes. The old man wanted the boy to help him on the farm and predicted disaster for him in the big town. Evidently the father was wrong for in his first letter home the boy

wrote: "I have a fine position with a good company; that's a feather in my cap." In his second letter he said, "I am breaking into society and have been put up for a good club; that's another feather in my cap." Then he wrote, "I am engaged to the most popular girl in town; that's still another feather in my cap.

There were no more letters for a time until one day the father received a wire collect saying: "Please telegraph me railroad fare home; I'm broke.

To which the father wired back: 'Nothing doing! Take the feathers out of your cap, stick them on your back and fly home."

Alter C'gradia

HERE HE COMES AGAIN- NOW

TAKE IT OFF

QUICK

FOOL HIM THIS TIME, WHEN HE GOES TO HIT YOUR HAT,

AND WELL

GIVE HIM

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. ?

If this bile is not flowing freely, your foo doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

CHAS. MCMANUS

It takes those good old CARTER'SLITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at all stores. O 1931, C. M. Co.

Autos washed by the super-power water force process where necessary. Motors cleaned.

Washing-Greasing-Repairing

Only the best oils and greases used.

You can't beat our service-why pay more?

Among the ailments treated at the Milling Sanatorium is diseases of the prostate gland. The institution has several former patients in Donley county who have been cured of prostate gland trouble without the use of either knife or drugs. These patients, out of the gratefulness of their hearts, and in behalf of suffering humanity, contribute this space to the cause of helping others. This advertisement this week is being run without the knowledge or consent of the management of the Milling Sanatorium out of gratitude for the help received while patients of the institution, and the good health enjoyed since that time. Write them for further information.

## in Many Ways No Substitute for

Methods of determining quality are constantly adding to the many troubles of the poultry raiser. If you are a producer for the fancy markets it is no longer enough that your eggs be fresh, that they be of uniform size, spotlessly clean or even that the yolks be of the same shade. Hotel chefs and dis-

**Test Selected Eggs** 

**City Buyers** 

#### Watery-Running Whites --- Inferior

criminating housewives have added still another and by far a most dif-ficult test designed particularly to show up inferior quality.

Poached eggs are a breakfast or a luncheon favorite with millions of city customers. The next time you poach look at the water in which your eggs have been cook-ing. If it is full of shreds of white floating around, your resulting prod-uct will have lost much of its valable egg white. The yolk will not be covered with cooked white and a watery taste will be most notice-able. You will be fortunate if the eggs do not break in removing them from the water.

By using the right quality of feed with healthy birds poultrymen can overcome this objection. At the Purina Experimental Laboratories, exhaustive tests were made on the

Firm, Thick Whites --- Superior

eggs produced by different experi-mental rations.

Different feeds it was found in-fluenced directly the firmness and poaching qualities of eggs. From these tests, it was possible to de-velop a laying mash that makes firm, thick whites—the kind that noach best. poach best.

poach best. The way to prove, of course, is to do. Poaching in the old fash-ioned way will demonstrate imme-diately the superior qualities of sci-entifically produced eggs. It is a showmanship test that many pro-ducers are now using to demon-strate to egg buyers, to housewives, and to hotel chefs why their se-lected eggs are entitled to a pre-mium price.

## Mother Nature

Old Mother Nature has no substitute when aid is needed for torpid, constipated liver. That's why Carter's Little Liver Pills are made out of pure vegetable calomel. Starting thirty-two ounces of bile flowing freely, they thoroughly cleanse body of all waste Red bottles. All Druggists. Insist or Carter's by name. Take Carter's.
