Howard of Clarendon.

Mr. Boliver was a native of Honey Grove, Texas where he was born February 6, 1877. He passed away in an Amarillo hospital Thursday, January 26, 1934. He had been in failing health for several months, a major operation some weeks ago failing to benefit him, some time was spent in an Amarillo hospital as a further effort at recovery.

Early in life he took up newspaper work. He was connected with publications at Newcastle and Olney before coming to the Clarendon News then owned by Joe M. Warren. In 1917 he purchased the Hedley Informer from Claude Wells and continued its publication to his death. He was a member of the State Press Association and the Panhandle Press Association. Those of his profession regarded his ability highly and held him in highest esteem as a man.

He led a blameless life seeking at all times to serve humanity. Enjoyed the goodwill and friendship of his neighbors, and few men ever had the universal goodwill in his home town as did Ed Boliver.

The Leader with the many friends of the family expresses sincerest sympathy to the bereaved in the passing of a good and useful man.

ANNUAL BANQUET AFFAIR GETS OUT LARGE NUMBER

Walter Cline as Principal Speaker Discusses Most Everything

Visitors from Amarillo and Pampa mingled with home folks here Thursday night to enjoy the festivities of the occasion, and the interesting talk by Hon. Walter Cline of Wichita Falls.

The speaker refused to confine his remarks to any one theme, choosing rather to pay scant mention to the alleged depression, then included foreign and domestic relations of both public and private life. His talk met with a happy response because of its "metropolitan" nature.

J. T. Patman awarded the cup to Winford Gattis by special request of Ernest Pope, Gattis having been given credit for dressing the best store window. This is the third year the Hanna-Pope firm has been awarded the cup, and it becomes their permanent property.

Board members elected to fill expiring terms were J. T. Patman, Sam Braswell, Bill Ray and J. D. Swift.

The meeting was held at the Antro hotel and the banquet served by the Antro coffee shop was pronounced among the best ever served the organization.

COUNTY SCHOOL NEWS

By Sloan Baker County Supt. Schools

Mr. George H. Fern, Director of Industrial Education in Texas and State Supervisor of Relief for unemployed Teachers endorses the School program in Donley County. There are four different classes being conducted in Donley by unemployed teachers—Mrs. Stella G. Jones, Hedley, Art Class; Miss Alice Bishop, Hedley, Spanish Class; Miss Helen Goldston, Ash-tola, Sewing Class; Mrs. Maurine Lackey, Clarendon, Kindergarten.

Librarians, Stenographers and clerks do not receive money from the Teacher's relief fund, but are under the Civil Works Administration. Teachers receive pay from the T. Fund which is a Federal Fund for teachers.

The County schools are starting on Interscholastic League work. We should have many well prepared contestants this year. Midway was host to T. T. Meeting for the fifth district last Friday night. "Home Room Program" by the Midway Students, Educational talks by trustees and trustees of Sunnyview, Fairview, and Midway; a social hour with sandwiches, cakes, coffee, and cocoa served by Midway ladies combined to make a very enjoyable occasion. Chamberlain will be host to T. T. Meeting district Three Friday night. County wide T. T. Banquet will be served February 16th in Clarendon at the Girl's Dormitory.

The Donley County Board of Trustees will meet next Saturday at 2 p. m. in the County Superintendent's office.

The Donley County schools held meetings in honor of President Franklin Delano Roosevelt's fifty-second birthday Tuesday night. The children of the schools are sending donations to the Warm Springs Foundation for Crippled Children. The Endowment of this Warm Springs Foundation is a birthday gift of the American people to Mr. Roosevelt. The children of Donley County are glad they have an opportunity to have a part in this gift to their President.

Facts collected by the Federal Office of Education, National Education Association, and other agencies show the extent of the emergency in education. More than 1,300 rural schools, it is estimated on the basis of recent reports, are closed. More than 100,000 children are being denied that fundamental right of an American citizen—an education.

Some high schools that were free now admit only those children

whose parents have money enough to pay tuition. Hundreds of thousands of children will have their educational opportunities curtailed this year through shortening of the school term. One of every twelve city school systems has shortened its regular school year one month or more. School terms in our great cities will be shorter this year than they were a century ago.

Estimates of the number of teachers unemployed run as high as 200,000.

One of every four teachers with jobs will be teaching this year for less salary than the blanket code minimum for unskilled labor yields on an annual basis. Our school districts owe their teachers more than \$40,000,000 in back pay.

The National Education Association, the American Legion, the Parent-Teacher Associations and the Federal Office of Education in the United States have adopted the slogan S. O. S., "Save Our Schools" The American Federation of Labor has called for support of the schools and brands elimination of kindergartens, especially, as a "form of Tragic Waste."

These organizations jointly call upon all citizens and all organizations to look to their schools. We must be vigilant lest our generation make innocent children pay for our follies that brought the depression down upon us.

\$5,000 Bond Set in Burglary Case by Judge Day

Liquid dripping from the Pastime Theatre store room above through the ceiling into the Nook Drug about 9 a. m. Sunday morning sent Lee Casey on a mission of investigation. Upon going upstairs in the Pastime Theatre, and just as he opened the door to the film room, he was struck across the forehead by a masked party who struck a second blow that was warded off as Casey made a hasty retreat down the stairway. The party is said to have struck at him a number of times on the stairway, according to Casey.

Sheriff Pierce was called from the Baptist church Sunday school and made an investigation. A search of the building disclosed a broken upper window pane above the bars at the alley, and a mask lying outside the window. Entering the basement a second time, Sheriff Pierce accompanied by Ralph Andis, found L. C. Bledsoe hid beneath the stairway. No valuables were found missing.

Bledsoe, aged about 25 and who grew up here, was arrested and lodged in jail on burglary and assault charges. Judge H. P. Day set the bond at \$5,000 which has not been made. Bledsoe is said to have made a statement to the officers.

Sinclair Station Changes Hands This Week

Historic Building is Being Torn Down Today

Constructed back in 1889, the historic old town ranch house of the J A's is being torn down today to make way for the route of Highway 5 through town.

Harry Parker of Wichita Falls was the last owner, condemnation proceedings being had recently to determine the value of the property before the owner would consent to the destruction of the building.

Mr. and Mrs. Bigger are visiting her sister, Mrs. Davidson and niece Mrs. Simmon Powell.

New Tractor Agency Opened in Noble Garage

Messrs. Lon Rundell and H. C. Brumley are to represent the Allis-Chalmers tractor company here. The new firm has headquarters in the Brumley building occupied by the Noble garage and across the street from the Holland Bros. filling station.

Both men have resided here for a long number of years and are among the leading farmers on a big scale. Mr. Rundell has recently been plowing his field of several hundred acres southwest of town. Both men feel sure that they have the most economical tractor on the market, and one that will do any form of field work.

"This is the tractor that Barney Oldfield made 46 miles per hour with on the Tri-State fair race last fall," Mr. Brumley said Wednesday in explaining the many good features of the machine. The machine has pneumatic tires and glides along easily with an ordinary plow load in high gear.

In addition to their tractor line, the firm will stock a complete line of Avery implements and extras. With prices of farm products advancing, the firm feels assured of the fact that farmers will be interested in newer methods of production that will mean a saving in both time and money. They ask for nothing more than the privilege of showing and demonstrating.

JUDGE DAY SETS SHOFFITT'S BOND AT \$10,000 TUES.

Defendant Held on Assault To Murder Charge in Jail Since December 31st

At his request, G. W. Shoffitt was taken before Judge Hubert P. Day by Sheriff Pierce Tuesday afternoon at which time he waived a preliminary hearing. Judge Day set his bond at \$10,000 pending the action of the Grand Jury in March. County attorney R. Y. King represented the state but Shoffitt has not employed any attorney as yet, it is said. The bond requirements had not been complied with up till today.

The charge against Shoffitt is "assault to murder" on the person of Guy Wright, deputy sheriff, who, with Sheriff Pierce were alleged to have been fired upon by Shoffitt on the night of December 31st as they left the house following a liquor search made at the Shoffitt home.

In the alleged fusillade of shots between the officers and Shoffitt, Pierce escaped injury but Wright was struck on the left side of the face with a charge from a shotgun, his left eye being removed several days later in an Amarillo hospital to which place he was taken on the night of the shooting. Shoffitt is said to have been struck on the arm, the bullet coming out in the muscle of his shoulder, and a flesh wound on the side.

J. M. Shannon is Improving At Adair Hospital

Little was thought of a splinter thrust in his knee some two weeks ago, but within a few days it was necessary to call a physician. Mr. Shannon was brought to Adair hospital suffering from blood-poisoning the last of the week.

His condition has been critical the past few days, but a report from his nurse this morning states that he is now showing some improvement. Mr. Shannon formerly resided in the Goldston community and has many friends over the county who will be glad to know that he is improving at this time.

The lad was unconscious for several hours, but is normal again. Just how the accident occurred is a mystery unless the wheel tripped on a plank that was found near where the wheel skidded.

TEMPLE OF TRUTH
By the Apostle

Reading modern advertisements in magazines we find "polite alarm clocks," and "considerate tooth brushes as well as courteous razor blades and a skin "you love to touch." Next thing we know they will be selling us "soothing bird-eye," and the talcum factories will go out of business.

The following article has so much food for thought that we reprint it as taken from the Blue Valley Farmer of Oklahoma City:

"When a savage produces more he has more; when an American produces more he has less. When a savage fails to produce he starves; when an American over-produces he starves. A savage saves what he has in order to live; an American destroys part of what he has to make the rest go further. A savage distributes his wealth with little ado; an American distributes his through interlocking combinations that "toil not neither do they spin." A savage with a hundred dollars in gold is a king in his own right; an American with that much gold is a criminal and subject to prosecution. When a savage appropriates the goods of his fellows he is a pariah and a killer; when an American appropriates the food, clothes and shelter of his fellows he is a king of finance and belongs to the ruling class. A savage always knows what he has; an American never knows until he hears from the supreme court. A savage is neither civilized nor smart; the average American is both.

Speaking of small dailies, or rather dailies in smallish towns, the Pampa Daily News and the Childress Index are both a credit to towns much larger than either. Either publication makes some other dailies coming to our desk look like a joke, and these other papers come from towns twice as large as either Childress or Pampa. There is some good talent behind these two dailies, no mistake about it.

The writer paid his last respects to Ed Boliver Friday. He was one newspaper man who was at all times willing to lend and borrow.

We helped him over many a hard place with our equipment, and he in turn never failed us when we needed him in any way. It always seemed like a privilege to do something for Ed because he was always trying to help everybody get a little more joy out of life.

He seldom came to our town but what he ran in "just to say hello," as he termed it. He never said a harm word about anyone. He said a lot of good things about the folks of his acquaintance. He always looked forward to a better day and

worked to that end. If he had an enemy he did not know it and we know he never deserved one. He gave the best years of his life to the service of Hedley and the folks living in that section. Handicapped by deafness, his scope was limited to some extent, but he never lost faith in mortal beings—he kept trying. His first thoughts were for those he loved best. His people will miss him more as time goes on. Those who mourn his passing most are those who knew him best. We have lost a real friend, and the county a good citizen. His family has our sincerest sympathy.

At the picture show a few nights ago a couple kept up a continual flow of conversation for some time until a man on the next seat back of them said: "We can't hear a thing that is being said." The talker did not seem to appreciate it very much and said: "Well is it any of your business what I am telling my wife?" (P. S. The racket stopped.)

Then there is the story of the Scotchman who needed a haircut. He washed his head in alum water and his shrank up.

Right at a time when we ought to be having winter, we are having spring and the merchants are supposed to be selling winter coats and dresses and the women want spring stuff to suit the hot weather. Being a merchant in the winter time with spring or summer weather is no picnic.

Besides fashion says for the women to wear cloth shoes next summer.

The College Hill widow says that too many men are of the bungalow type—no upper story.

Recently Will Rogers over the radio defined a dogy as a coyote. Immediately there was some question as to whether he had ever been a cow puncher in the old days. Then about 2 weeks later, Will sang a song over the radio as a tribute to the memory of Pres Burnam who was killed at Amarillo recently. There are at least three men in Clarendon who punched cattle with Will Rogers. He never claimed to be a rider, but he was, and is, one of the best ropers that ever rode a horse. Will's singing was a long way from perfect, but he got the job done. It had all the feeling of sincerity, and that has kept more than one cowboy songster from being mobbed, even on the range in the old days.

Just a word of thanks to R. L. Bates for that juicy baby beef steak. It is the only piece of beef we have ever found of that quality except at the City Market. There is nothing better in the meat line than baby white face beef properly fattened.

A lady here talking to her sister in Ft. Worth over the 'phone remarked that "you must be going to have cabbage for dinner down there today." The Ft. Worth sister says, "No that is the packing house you smell."

Mrs. John Clark makes kraut out of turnips, and what's more, it is good. The sample contributed to our poor farm recently was a decided treat after going the cabbage route so long. If any of our lady readers want the recipe, we will see if Mrs. Clark will let us print it.

What we are looking for is a candidate who is willing to live within our income.

Mary had a little lamb. Its fleas was white as snow. The only white fleas on record, too.

If some of the actors in the pic-

ture show were on the stage, we could have ham and eggs. You bring the eggs.

A negro beating a horse was told to stop beating and talk to the horse. By way of opening the conversation, the old darky said: "Ah cums frum N'Awleans, wheah does you all cum from?"

Speaking of the good government ideas, a local lady says that her husband who suffered (?) from stomach trouble and rheumatism and unable to work for over 20 years, is now working on the

CWA two days a week.

Remember way back when you heard some stalled motorist on the road say, "the engine sounds like a combination of asthma and hay fever and whooping cough, and she takes gas like a whale takes water—when she runs. Blamed if I don't wish I had old Henry here where I could tell him what I think of his idea of a Lizzie."

A cigarette company says the irritants are taken out and sold to another firm manufacturing sheep dip. What we want to know is,

how does it get into our coffee?

Mrs. Slim Garrison of Henderson is visiting Mrs. Harry Blair. Mrs. Garrison is better known in Clarendon as Miss Thelma Hayden.

Mr. and Mrs. R. J. Webster of Estelline are new residents of Clarendon, he being an employee of the Buntin mortuary.

Mr. and Mrs. Jim Trent returned Sunday from a vacation spent in Hot Springs, Ark.

Nerves NERVINE Nerves
Dr. Miles NERVE says "Did the work" Miss Glivar WHY DON'T YOU TRY IT?

After more than three months of suffering from a nervous ailment, Miss Glivar used Dr. Miles Nervine which gave her such splendid results that she wrote us an enthusiastic letter.

If you suffer from "Nerves." If you lie awake nights, start at sudden noises, tire easily, are cranky, blue and fidgety, your nerves are probably out of order.

Quiet and relax them with the sane medicine that "did the work" for this Colorado girl.

Whether your "Nerves" have troubled you for hours or for years, you'll find this time-tested remedy effective.

* SCHOOL NEWS ***

Everyone seems to be in good spirits this week. The weather has been cool but everyone can enjoy being at school. Every week we try to do something different, strive to show the people what students of school can do. We are grateful to the "Donley County Leader" for the space furnished us to tell the people of our school.

Spanish. The question was Resolved that History is more important than Spanish. Although Spanish was proved to be the more important both sides put up a good argument.

Now about our play. We had a good crowd, as there wasn't standing room left after the play started. We like that kind of crowd to play before. We are undecided whether or not we will put it on again, if we don't watch for another.

The girls played their first game of basketball Monday. The Clarendon girls defeated them.

Our girls haven't had much practice and also Clarendon has a dandy good team. We hope to show up better after a while. We are planning on entering three teams at the Hedley Tournament. When we get there watch us go.

Everyone is invited to attend the Teachers Association at Chamberlain Friday night the 2nd. Mr. J. C. Estlack will be one of the principal speakers. Mr. Baker will also be one of the speakers. Mr. Robert Dillard of Windy Valley will also be one of the speakers. Miss Eunice Johnson and Miss Taylor will also appear on the program, also Frank Behringer will be on program.

The Chamberlain boys went to Windy Valley Tuesday afternoon to play a ball game. The Chamberlain boys won by a score of 14-19.

The game didn't look very promising the first half as the score was 4 to 11 in Windy Valley's favor. The last half the Chamberlain boys worked up a score of 14 to 19.

Byrum Halle and Miss Martha Jean Pertle of Pampa were married January 20th at Miami, Texas. Mrs. aHile is a niece of Mrs. G. G. Kemp.

**Stop Getting up Nights
Lax the Bladder With Juniper Oil, Buchu, Etc.**

Drive out the impurities and excess acids that cause irritation, burning and frequent desire. Juniper oil is pleasant to take in the form of BUKETS, the bladder laxative, also containing Buchu leaves, etc. Works on the bladder similar to castor oil on the bowels. Get a 25c box from any drug store. After four days if not relieved of "getting up nights" go back and get your money. If you are bothered with backache or leg pains caused from bladder disorders you are bound to feel better after this cleansing and you get your regular sleep.

That means you get 30% more mileage plus immediate non-skid safety. At today's low prices, isn't that worth thinking about?!"

Our Weekly CHURCH CHAT

W. E. FERRELL
Minister First Christian Church

"Religion and Common Sense."
Text. "A Sound Mind." II Tim. 1:17

Not that we should make common sense a religion, but that religion should have as one of its supreme qualities, common sense.

I. This natural gift of judgment is a most valuable asset in religious interpretations, and should be a guard against sensationalism, sentimentality and sensuousness. It is man's primitive defense, or rather defense mechanism, against all forms of stupidity and slavery. Common sense, therefore gives us a well-balanced religion.

II. This will be a consistent religion. Life and teachings must agree. Salvation is not a whim of the infinite. It is the matter of a maturing soul. To teach one thing and live another is not common sense and many who have never accepted Christ as Lord and Master, are kept out of His Kingdom and Church because of this unscriptural practice.

III. Universality will distinguish it. It is only common sense that the truth of God must be applicable to all men, and to all of man. God has no special favorites. His way is open to all and they who seek will find Him. He has not outlined one way for one group to be saved and another way for another group. Common sense teaches us that the

DOROTHY DARNIT

By Charles McManus

Bible reveals the way which He would have us travel, and there is no escape if we neglect that way.

IV. Availability is another mark. Religion is not a cultural refinement merely, but a fundamental necessity of life, like bread and water. Therefore it must be within man's reach at all times, and herein is the value of Jesus to man-kind forever.

V. It must have immediacy. Christianity is that something in life that cannot be postponed without unspeakable loss. Life as Christ revealed it, demands, immediate acceptance and fulfillment

Common sense says: "Do it Now." VI. So must it be organized to invite enlightened men for service in their time, and to propagate the course of their own civilization. Thus it is a matter of emphasis—not idle dreaming, metaphysical discussion, or sensuous abstraction but sincere, faithful, joyous, obedience day by day to Him—who is Lord and Master. Use common sense. Find the way and follow it.

Pneumonia Most Dreaded Of Winter Diseases

Austin, Texas, January 30th.—Pneumonia is a seasonal disease, in that the incidence and mortality is much increased during wet, cold weather, according to Dr. John W. Brown, State Health Officer. It is more prevalent and serious in towns where contacts with people is more common. Pneumonia is always dangerous but it is especially so to persons in a run down condition. This accounts for the number of cases following illness with some other disease.

The germs that cause pneumonia are spread by careless coughers, sneezers, spitters, and the things that they thus infect. The first symptoms are usually a severe chill and fever, a very sick feeling, loss of appetite, rapid breathing, and a heavy sensation in the chest.

Sometimes coughing brings up blood from the inflamed lungs. Any of these signs should be the signal for going to bed at once and sending for your doctor.

The familiar rules of the prevention of other respiratory diseases apply to pneumonia. These rules should become personal habits and not be put on or off at times of prevalence or absence of disease. Persons should avoid careless coughers and sneezers, even if you have to be rude. Wash your hands thoroughly before each meal. Keep your hands, pencils, money and other such things away from your mouth and nose. Get plenty of fresh air day and night. Exercise and eat in moderation and wear clothing suitable for the weather.

TALLEY SUPER SERVICE STATION

EARLY DAYS WERE BEST IN OPINION OF W. C. COCHRAN, PIONEER OF RANGE DAYS

The following article was brought to the Leader office by Mr. J. L. Reid of Lelia Lake who is a personal friend of Mr. Cochran and well acquainted with others mentioned in the article below. Mr. Reid has lived on the frontier of Texas for more than an ordinary lifetime, and on his farm near Lelia for some forty years. He is considerably past 80 years of age.

By W. C. COCHRAN
When the Civil war closed and the men got home, they found the country overrun with unbranded cattle, from calves to four year-olds. The men that were left at home to guard the frontier had their hands full taking care of their women and children, keeping the Indians from murdering and carrying off their women and children for the ransom they might

get for them. The men left at home were required to range 10 days out of each month, or more if called upon.

The men had very little time to work the cattle. Cattle at that time were almost worthless as to money value and to realize any money out of them they had to be driven to Kansas, Colorado and California. It is generally believed that Goodnight was the first man to start driving west but I find from looking over my old papers that Bob Wylie and Capt. John Henderson drove the first herd of 1,500 longhorn steers that ever went up the Pecos, in the fall of 1865, delivering them to Ft. Sumner as food for the soldiers. The Indians were so bad that Wylie and Henderson sold their horses at Ft. Sumner. The men all came home in an ox wagon.

The late I. H. Bell of Midland, who died at El Paso a short time ago, was the last man left that made the first trip up the Pecos with a herd of cattle. They made that long trip from Ft. Sumner to Palo Pinto in an ox wagon. They would lay up in daytime and travel at night because the Indians were so bad.

Goodnight and Loving followed in 1866. The Slaughters were among the first men to start driving to Kansas, the Hittsons to Colorado. Then came the mavericking days.

Mavericking was not considered stealing in those days. Every man who could get together a few horses hired a few men and went to mavericking. Horses were high and hard to get on account of the Indians keeping them stolen all the time. I have known many men who made their start in the cow business and laid the foundation of their later big fortunes in the cattle business by mavericking.

The trail days proper started in 1871 and continued until 1885. Then came the wholesale gathering and driving off of everybody's cattle. These men would have the brands of the cattle recorded in the county where the cattle were gathered. It was the intention of most of these men to pay for the cattle when they sold them in Kansas and Colorado when they got home. The most of the cattle driven off this way were paid for with good intention. Good intentions do not go very far unless they are carried out. It was this wholesale gathering and driving off of every body's cattle that brought the organization of the Cattle Raisers' association in 1876, when a bunch of Palo Pinto and Young county men met at Graham. It was not the intention of these men to stop cattle stealing as we have it today; it was to stop this wholesale gathering and driving off of cattle.

Then came the gathering and winding up of wild and outlaw cattle. It was done in this way: an outfit of men would gather 40 or 50 gentle head of cattle, wait until the moon was shining all night, drive them to some valley or open place in the mountains where the wild cattle would come out to graze and round them up with gentle cattle. You can drive off any bunch of wild cattle after night if you can get them rounded up with a gentle bunch of cattle.

W. H. Cowden always knew where these wild cattle were located and how to get them when an outfit would come through the country gathering wild cattle and he would always go with them just for the fun he got out of it. There never was but one man in the country that could beat W. H. at tailing and tying down a steer and that was Buck Dillahunt. Dillahunt could not have done it if he had not been left handed. No right handed man stands any chance with a left handed man. In the brush gathering wild cattle W. H. Cowden learned how to handle his outlawed steers in southern Texas.

The statement was made at one of the stock conventions back in the '80's that Palo Pinto produced more real cowmen than any county in Texas. These included Goodnight, the Slaughters, the Hittsons, the Lasters, the Lynns, the Daltons, the Lovings, the Cowdens, the Edwards, the Pegues, the Daniels and too many more to mention.

The days of big cowmen and big roundups proper started in 1880, and continued through that decade. The old boys that made their long night rides and tied their horses to a bush, lay down on their saddle blankets for a bed and then made 15 and 20 miles drives without any-thing to eat, then branded 800-1000 calves roped out of the round-up, then went through the same procedure next night, were strong men in the literal sense.

The old boys were drawing \$18 to \$20 a month. They were punching cows in the old days when men sure enough had cows to work. When you saw a man ride into a roundup on a gray horse, you knew he was going to cut cows. The next horse in line was a dun with a

G. R. Grant of Goldston To Make Race For Office

After a residence of seventeen years on the same farm in the Goldston community, G. R. Grant becomes a candidate for the office of county commissioner, this being his first venture into politics in Donley county. He is a native Texan.

His official experience in the past was in Oklahoma where he was honored with the office of chairman of his Township Board, and this position carried with it the responsibility of looking after the highways and making the tax assessments in that township. Mr. Grant states that this position is quite similar to that of a county commissioner in Texas.

He makes no promises other than to assure his supporters of an economical administration should they see fit to honor him with the office. He asks the consideration of every one in his precinct, and solicits the votes and influence of those qualified to use a ballot.

S. G. Adamson and son Bernard of Hedley had business here Wednesday.

black stripe down his back.

The passing of the free range and the coming of the wire fence was a black Friday for the old boys. The wire fence stopped the big drift of cattle and that was the end of the big roundups. The old boys knew that their nights of sitting around the campfire playing a little 10-cent ante and talking about who had the best mount of horses were gone forever.

The day the cowmen first commenced going broke was when they began selling their steer yearlings. When you used to ride up to a man's ranch and see three and four-year old steers standing around under the shade trees these men did not have to make out a financial statement to borrow a few dollars. The days of big round ups of 15,000 to 20,000 cattle and the long six and eight-month trail trips to Montana and the block lives only in memory of the few men left who have seen these big roundups and made these trail trips.

All my stories have a guarantee that goes with them. If they do not go I can write another.

Pneumonia ranks second as a cause of death in Texas, in 1932 almost six thousand persons died of this disease. It should be remembered that contagious and infectious diseases cannot be decreased or eliminated without the cooperation of the people and that means that people who are sick with contagious or infectious disease should be isolated and visited as little as possible by relatives and friends.
