BUM QUALITY A SAVING GRACE.

Beer manufacturers are solving the beer problem in Texas by making the quality so sorry that people won't drink it. Auto manufacturers might take note of this remedy and make cars so sorry that thieves won't steal them.

SUGAR TRUST HANGS ON 12 YEARS.

The Philippines are to be granted their freedom from the American sugar trust and the domination of American politicians twelve years hence. Beet growers of America have long wished for a market, or at least an even break. They could not compete with the island production on cheap labor and no import duty. Now the Senate has decreed that the Philippine islands must rustle for themselves after 1946. What the wily Japs will do for the American sugar trust is yet to be seen, but pretty accurately expected.

GOVERNMENT HELPS CONDITIONS.

In glancing over the business improvement map in this issue, it will be noted that conditions have shown a decided improvement in those areas where government money has been distributed most. The sections are readily recognized as the wheat and cotton belts. Cotton sections woefully in the dumps little more than a year ago, are rapidly coming to the front again. With the payments on cotton and wheat expected soon, the map will show a further change where money from these two sections has helped other industries in other sections of the nation. Auto and clothing industries will be benefitted most, it is believed, and the white area will spread to the north and east.

"GET ALONG LITTLE YOGI."

India has produced some smart men without question. They know how and when to take advantage of an opportunity. Instance Yogi Mhandras, Hindu ascetic going to Austria during the turmoil telling fortunes and collecting copious coin from a frugal people recently. The more astute of Austria objected when their people was being robbed. They did not believe in fortune telling. Consequently the Yogi was repulsed, expelled or kicked out of the nation by Brigade Guards. Yogi Mhandras is credited with being a graduate of Eton and Cambridge, knows the tricks of the trade in eleven languages besides the white man's educational facilities.

One does not have to seek a foreign nation to find the fortune teller doing a lucrative business. That kind of high-jacking may be heard over one or more radio stations every night right in your own home. Just why the government does not protect the gullible in this respect as in others, is a mystery to many.

BANKS IGNORE LOCAL LOANS.

Statements of banks responding to a call as of March 5th reveal a surprising condition as affecting recovery. One Oklahoma bank's statement shows an investment of over four million dollars in government bonds as compared with local loans of far less than one million. That is a fair average of the banking status of that state. Texas did not go quite so strong, and banks of the Panhandle continue to invest money in local loans in an effort to pull their customers through the recovery period.

It is possible that banks in some sections will awake to the fact all too late that customers have secured loans from the government at a low rate, and that the bank has government securities bearing only a low rate of interest and at that being rapidly taken up by the government. In that case, where can a bank make loans without borrowers?

Banks make their money on loans, not deposits. While this is all true, banking examiners continue a rigid inspection of loans of our smaller banks requiring only risks on the very best securities. The government in one sense urges banks to make loans to aid the recovery program, and on the other hand handicaps the banks by requirements that cannot be readily met. Bankers of the better class prefer to assume risks based on their individual judgment. That is what makes a banker valuable to his community—his ability to properly judge his people.

EVERY BUSINESS HAS ITS DRAWBACKS.

Bank robbers, highjackers and kidnappers are being interfered with to the extent that they have to spend at least a third of their time breaking out of jails. Becoming disheartened, should we be at all surprised that most of them go armed and a few shoot at peace officers who attempt to retard the profits of the game? Quite a number have become disgusted with their old lines and have changed over to counterfeiting money and revenue stamps.

U. S. Attorney General Cummings says that more thugs

are under arms than we have men in both the army and navy. Not only that, but when these thugs are put into our uninviting jails, the bed railing is so laden with hacksaw blades and ammunition that they can't be moved around. Often women are forced to bring sixshooters to their husbands in their cells. This deprives children of a favorite toy if they are to follow in papa's footsteps.

When jailers walk into the presence of their guests, they are often slapped down and their guns and keys taken. Guests always know the exact key for every lock including the officer's auto, but even at that it is a lot of trouble to be getting out of jail every few days or weeks. Once out again, the guest is forced to use several different autos in a race across the state escaping those who would interfere with his method of doing business. The borrowed car is always left where the exchange is made, but the change takes time and there is always unfinished business of an urgent nature to be taken care of somewhere. Thugs are not tourists, neither are jails in many instances any more than a resting place. It's surprising how any line of business can prosper with so many handicaps.

"Share Our Wealth Society" Has 200,000 Members

Promulgated and sponsored by Senator Huey P. Long of Louisiana, the "Share Our Wealth Society" has local organizations in every state today with a membership of more than 200,000 mem-

bers, according to the American Progress, official publication.

Copies of the eight page weekly may be had by addressing American Progress at 822 Perdido Street, New Orleans, Louisiana.

The program of the Share Our Wealth Society for making the United States a land of happy

homes consists of seven simple principles. Here they are:

1. To limit poverty by providing that every deserving family shall share in the wealth of America for not less than one-third of the average wealth, thereby to possess not less than \$5,000, free of debt.
2. To limit fortunes to such a few million dollars as will allow the balance of the American people to share in the wealth and profits of the land.
3. Old-age pensions of \$30 per month to persons over 60 years of age who do not earn as much as \$1,000 per year or who possess less than \$10,000 in cash or property,

thereby to remove from the field of labor, in times of unemployment, those who have contributed their share to the public service.

4. To limit the hours of work to such an extent as to prevent over-production and to give the workers of America some share and luxuries of life.
5. To balance agricultural production with what can be sold and consumed according to the laws of

God, which have never failed.

6. To care for the veterans of our wars.
7. Taxation to run the government to be supported, first, by reducing big fortunes from the top, thereby to improve the country and provide employment in public works whenever agricultural surplus is such as to render unnecessary, in whole or in part, any particular crop.

When You Discuss Electrical Appliances . . .

What are the most important operations of your home? Modern homemakers all agree on these!

REFRIGERATION . . . You need constant refrigeration the year round, and you will enjoy the money-saving, health-guarding superiority of electrical refrigeration.

WATER HEATING . . . You need hot water many times each day. The modern electric water heater gives you a surplus of hot water, and for good measure adds safety, cleanliness, health, dependability, comfort and convenience.

COOKERY . . . Nothing so important. This inexpensive "Electric Cook" is worth immediate investigation. Electric cookery is simple—yet accurate, clean and economical.

LAUNDRY . . . Very necessary—but dreaded each week. Enjoy a "happy" washday by installing a combination washer and ironer. Cut washday to a fraction of the time usually required the old way.

THESE WILLING, INEXPENSIVE SERVANTS—the electric range, refrigerator, water heater, and washer and ironer—will improve your home by doing your work better, and save time, health, money and clothes. Don't consider these modern and efficient automatic electrical servants as luxuries! . . . They are all dividend-paying necessities. They pay for themselves. Take advantage of these appliances at our convenient terms and prices—and take advantage of the lower step in electric rates. A representative will be glad to call and discuss them with you.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and operating costs amount to but a few pennies a week?

TEMPLE OF TRUTH
By the Apostle

A fellow in to see me Saturday said there was no such thing as a hell. I promptly asked him what we had been passing through for the past three years. Also where has business gone?

We'd like to see it rain all over this Panhandle country until everybody loved the gas company and felt kindly toward the telephone corporations.

Bachelor Bill says that some girls think clothes should be made to order, and husbands made to order about.

A west Texas publisher growing 'cupidish' wrote down: "Our West Texas girls are as nymphs dancing in lavender mists that fills prairie flowers with a cordial sweetened and flavored with aromatic substance." Then he looked out his front window across a field. Turning to his office force he said: "Boys, she's begun to blow out there like hell again."

Repeal stopped bootlegging in New York City, and now the folks up there are asking the government to get a state lottery game going to put the gamblers out of business—maybe.

Bill Barker claims to have a hen that lays in the yard and lays three eggs in a row, one right after the other. Friday he slipped a door knob in for the second egg. The

hen looked somewhat surprised when she counted "two eggs were only one laid before," but got busy on the third. When she went back over them to make a correct inspection, she was skeptical of that door knob. She must have concluded that row was a false alarm altogether because Bill said she moved over nearer the crib and laid three real eggs in a row in five minutes. Now he is claiming the champion egg laying hen in Donley county—five in one day.

Now a doctor claims that alfalfa is as good a food as spinach. He'll have to get up better proof than that to get us to eat alfalfa.

When W. B. Haile found his truck stuck in the sand on the Sunnyview road Wednesday, he shoveled the sand off the highway over the fence into S. T. Clayton's field again. Clayton claims to have ten acres of land now not called for in his deed, and Haile is asking a 'range delivery' price of \$200.

The fellow who traded thirty pullets for Frank Hommel's flaming red Model T, mention of which was made in this column last

week, believes he has a real automobile. He boasts of its free-squealing, scratch-lined, tumble proof advantages, but when he started for Jericho, he finally landed at Brice.

Probably the reason that no big men have ever been born in Clarendon is due to the fact that they have all been babies.

A lady reader of this column requests that her plan for making bright copper and brass be mentioned. We are glad to tell the women folks about it. This lady mixes common salt and vinegar to a paste. After the surface is thoroughly cleaned, rub over it with a cloth that has been oiled to stop the action of the acid in the vinegar. She says this plan works well on window panes. If any one else has a labor saving scheme or a help of any kind, let us have it that we may pass it on.

The ladies are going to give away a quilt next Saturday at the Fink-building next door to the Heath furniture store. They will sell doughnuts and sandwiches, coffee and pie for 10 cents. They claim they need the money and I'm sure they do folks. These women are members of the H. D. Club and made the quilt at odd times that they are offering Saturday, March 31st.

I learn over the radio that the animal is still trying to kick himself out of the jack barn on XEPN. We certainly get some good radio programs, but what are they good for?

This week a lady asks us for an opinion of a man who will eat down town and not bring anything

home. Really we thought that custom passed out when prohibition stopped all the sale of booze. As a suggestion, hang him up head down and let the ducks pick him to death. And during the same week we have a complaint from a man who says that his wife sits up late reading or playing games, and then won't get up and cook his breakfast, and he eats down town. All of which goes to show that trading husbands and wives should be a popular pastime rather than looked upon as a disgrace. In this case, the man who eats down town but does not take anything home beyond the bare necessities, should be tied up with the woman who sleeps all day—she would not know the difference. The woman who wants something to cook would no doubt be glad to get up and cook anything that was handy any old time. This is just one of the many reasons I think marriages were not arranged in heaven.

An old-timer tells of how a one legged man used to wander over the southwest in the wildest Indian days, was caught in many a tight place, but always escaped. On one occasion the Indians stole his horse. He took refuge in a hole in a bank and was there found by vicious Indians bent upon his total destruction. As they neared the mouth of his hiding place, the old man took off his cork leg and pointed the foot at them. All the savages backed off except one who drew a knife. Undaunted, the old man reached into his mouth and pulled out his upper teeth plate and held them out toward the Indian who took a wild-eyed survey of the human remnant minus a leg and teeth, and then ran screaming. This man is said to have been the only fellow who ever made the Apache tribe retreat single-handed.

COUNTY SCHOOL NEWS
By Sloan Baker
County Supt. Schools

Judge Hubert P. Day, Scout Master and Bob Goodson, Assistant Scout master should be complimented for the training which has been given Troop 37 in courtesy and obedience. Senior Patrol Leader Harold McDaniels assigned individual Scouts to the different league directors last Friday and Saturday at the Interscholastic League Meet. These Scouts aided in every way possible to carry the events through with promptness. There have been many comments as to the aid that the Scouts gave all through the two days. A "Thousand Good Turns" should be registered in the records of Troop 37 for these days of helpfulness in making the Interscholastic League Meet a success. The Director General will always know he can depend on the Clarendon Scouts to deliver the goods.

Donley County has two One Hundred Per Cent Spellers in the persons of Bernice Self of Lella Lake and Dorris Merle Everett of Hedley. Mr. Howard of Lella Lake bought these two young ladies dinner Saturday at Bain Cafe as a reward for winning. The State Interscholastic League will send them State Certificates of Excellence.

Miss Hesse Holland of Lella Lake visited friends during the League Meet Saturday. Miss Holland has taught in Donley County Schools, but is taking a holiday from school work at present.

The attendance of school patrons at the Interscholastic League Meet shows that there is much interest in League work. We will try to have a one hundred per cent par-

ticipation in the League next year as well as a hundred per cent membership. There is no better way to put our school training in action than by participation in the League Contests. The size of the school does not bar one from having winners.

Remember the One-Act Play and the Choral Singing Contest is to be held next Friday evening.

McLean High School furnished judges for the declamation contests last Friday night. These judges: A. R. McHaney, Jno. Harding and Miss Vera Cummings, rendered prompt and fair decisions. G. L. Boykin, Dennis P. Smith and R. E. Drennan will judge the Interscholastic League Contests for McLean next Friday and Saturday.

MARTIN

The pupils of Mrs. Baker's and Mr. Kavanaugh's rooms were dismissed to attend the Interscholastic League events Friday. Our 4th and 5th grade spelling team, Willie Nell Shannon and Dorris Bailey won third place and Johnnie LaFon won first place in Junior rural Declamation. We are very proud of

these pupils.

The Jess Davis family have all just about recovered from the measles without any serious results, but we can't say as much for the N. B. Watson family. The doctor had to be called for Mrs. Watson and Olivia. The little Baugh infant, niece of Mrs. Watson, which she has in her care, has developed pneumonia with measles and is very ill.

Mr. and Mrs. Kavanaugh motored to Borger Sunday afternoon to see the lady's brother. They reported bad roads over there, due to snow and rain.

Mr. and Mrs. Dave Patterson took their daughter, Mrs. Horace Wood to Mineral Wells Monday morning for medical treatment. We hope the trip will be beneficial.

Mr. and Mrs. Frances Neaves of Lefors spent the weekend with the lady's parents, Mr. and Mrs. J. D. McAdams.

Mr. and Mrs. J. D. Wood visited in the George Bulman home until bed-time Sat. night.

Most of the women will be busy now gardening since the good rain.

Mr. and Mrs. George Kavanaugh are the proud owners of a new Plymouth De-Luxe coach since the

past week end.

Mr. and Mrs. O. G. McDonald of Shamrock spent the week end with the lady's brother, Floyd Shannon and family.

Miss Isabel Baley who teaches school at McLean spent the week end with her parents, Mr. and Mrs. Edwin Baley.

Mr. and Mrs. Harry Hartzog and Mr. and Mrs. Sid Thomas spent the week end in Canyon.

Mrs. J. A. Sowell spent the latter part of the week at Windy Valley with her sister, Mr. and Mrs. J. R. Hillman.

Mr. and Mrs. Guy Jones spent the day Sunday with Mr. and Mrs. Jack Bailey.

Mr. and Mrs. R. O. Shannon of McKnight community visited in the W. F. Shannon home Sunday.

Mr. and Mrs. Jack Bailey returned home Thursday from Mineral Wells where they have been attending Grand Lodge. They reported a grand time.

Earl Shannon is still improving and will be able to come home from the hospital in a few days.

Mrs. H. B. Catlett left Saturday for Childress, to visit with her sister.

Why Children Need a Liquid Laxative

The temporary relief children get from unwise dosing with harsh cathartics may cause bowel strain, and even set up irritation in the kidneys. A properly prepared liquid laxative brings a perfect movement. There is no discomfort at the time and no weakness after. You don't have to give the child "a double dose" a day or two later.

Can constipation be safely relieved in children? "Yes!" say medical men. "Yes!" say many mothers who have followed this sensible medical advice:

1. Select a good liquid laxative.
2. Give the dose you find suited to the system.
3. Gradually reduce the dose until the bowels are moving regularly without aid.

An approved liquid laxative (one that is widely used for children) is Dr. Caldwell's Syrup Pepsin. The mild laxative action of this excellent preparation is the best form of help for children—and grown-ups, too. The dose can be regulated for any age or need.

Your druggist has Dr. Caldwell's Syrup Pepsin. Member N. R. A.

dent was elected to represent the club at the 7th District T.F.W.C. meeting to be held at Amarillo in April.

A lovely refreshment was served to several visitors and club members.

B & P W CLUB

Fifteen members and one guest, Mrs. Alta Lane, attended the regular meeting of the B. & P. W. Club Tuesday evening at the Womens Club Room in the City Hall. After a short business session at which time Mrs. Beatrice Antrobus was chosen as delegate and Julia Mae Caraway as alternate to represent this club at Lubbock on April 14th and 15th when the Clubs of District One meet in annual convention, Mrs. Lane gave a very comprehensive review of "The Magnificent Obsession" by Douglas. This was thoroughly enjoyed by all.

1912 NEEDLE CLUB

Mrs. A. A. Mayes was hostess to the 1912 Needle Club at her attractive home Thursday afternoon. The usual work of fancy needle work and pleasant conversation were enjoyed and in the late afternoon Mrs. Mayes served a lovely 2-course plate luncheon, using the

Easter design and miniature chicks for plate favors.

Those present were afternoon guests, Mrs. D. O. Stallings and Mrs. W. T. Clifford. Members present were Mmes. A. L. Chase, Annie Hall, Crockett Taylor, J. B. Baird, B. L. Jenkins and Mrs. Mayes.

KILL KARE KNEEDLE KLUB

Mrs. Homer Mulkey was a very pleasant hostess Thursday afternoon when she entertained the Kill Kare Kneedle Klub at her home.

The afternoon was enjoyed in fancy needle work, visiting and talking. In the late afternoon, the hostess served a delightful plate luncheon to Mmes. H. C. Brumley, Joe Cluck, W. A. Land, Sam Lowe, W. A. Massie, M. W. Mosley, W. B. Sims, W. C. Stewart, M. L. Stricklin, F. O. Wood, J. R. Bartlett, Cap Lane.

1930 GOOD WILL CLUB

A most interesting meeting of the 1930 Good Will Club was held at the home of Mrs. A. O. Yates last Thursday. A continuation of recipes were given, as well as a general exchange of ideas. Mrs. Melvin Cook gave a demonstration on mending with no stitch, also gave the many uses of Burlap.

while Mrs. Don Martin showed the ladies with a simple attachment for their sewing machine how they could sheer their spring frocks as well as an expert. Not a moment was lost. The club members pieced a quilt for a family in the country who lost their home by fire. They voted to quilt the quilt at the home of Mrs. H. L. Brady the following day.

Dainty refreshments were served by Mrs. Yates who made a charming hostess.

SPARKS—DAVIS

Miss Imogene Sparks and Arthur Davis were married recently. The bride formerly made her home on the J A ranch. The bridegroom is a son of Mr. and Mrs. W. K. Davis who reside in the Sunnyview community. Further details are unobtainable at this time.

AN EASTER PROGRAM

An Easter program will be rendered at the Church of the Nazarene at the Denver Hotel Sunday night, April 1st, consisting of readings, plays, songs and pantomines.

We have striven to make this program spiritual and interesting. You are invited to come and enjoy it with us.

Chatter Brings Them Fame

These three women dash from their kitchens five mornings a week to a microphone and a listening audience of thousands.

WOMAN'S idle talk isn't always to be derided! Not when you consider that three young married women have made a successful radio career of this pastime . . . a unique career built of chatter about Junior's tonsils, the price of carrots, and how to take spots off a leather coat.

They call themselves Clara, Lu 'n' Em, these three women who turn the commonplace events of the day to such unusual purpose. And, five mornings a week, a radio audience from coast to coast eavesdrops, as it were, upon their backfence exchange of comment and gossip.

Leading simple, suburban lives themselves, Clara, Lu 'n' Em are right at the source from which they build their morning programs of tri-cornered conversation. As Mrs. Paul C. Mead, Mrs. Howard Berolzheimer, and Mrs. John Mitchell, all of Evanston, Ill., they keep house

for their husbands, belong to sewing clubs, and take an active part in the community life around them. But being gifted with unusual powers of observation and interpretation, they are able to project the ordinary happenings of the day so that thousands of persons enjoy their chit-chat, as much as they enjoy talking with one another.

The trio write every line of their material, preparing it day by day, as Clara, Lu 'n' Em live. Unlike conventional performers, they have no scripts written ahead for convenience sake. And, stranger still, their sponsors, the makers of Super Suds, do not hear the show before it goes on the air. The girls arrive at the NBC studios in Chicago, from which they broadcast, just a half hour before they go on the air, run through a quick rehearsal, to which only Jean Paul King, the announcer, listens, and then "tell all" on the air.

LEADER CARRIES ADVERTISING OF TEACHERS AGENCY

Publication Well Recognized Because of Large School and College Coverage

The Leader begins this week a 24-week advertising schedule for the Continental Teachers Agency of 1850 Downing street, Denver, Colorado with whom more than four thousand teachers enrolled the past year.
Advertising of this agency during March was carried by such publications as the Scientific American, page 165; American School Board Journal, page 74; High School Teacher, page 89; Mathematics Teacher, page 158; Scholastic Coach, page 28 and several other journals and magazines of national circulation.
College dailies and university publications were utilized by the agency during both February and March.
This agency is licensed and bonded by the City and county of Denver, and the state of Colorado. The agency is a member of the Colorado Business Men's Association, Kittredge Building, Denver; where information as to their reliability may be obtained if desired.
In contacting this agency, the

Leader did so for the benefits that might accrue to our many teacher readers over this section, the Clarendon College students and those of the West Texas State Teachers College. Practically every school teacher in Donley county reads the Leader. Every school in the county and of the Clarendon trade territory receives the Leader every week. The Leader carries more rural school news than any other publication in west Texas.
Our investigations have convinced us of the reliability of the agency, and their ability to render assistance that should appeal to teachers desirous of improving their financial conditions.

Mrs. O. L. Fink and Miss Reba Longino visited her son and wife, Mr. and Mrs. Kenneth Fink at Childress the latter part of last week. They returned home Sunday.
Mrs. Tom Pate of Liberal, Kansas, and Mrs. E. C. Nall and small son, Billie Carroll of Guymon, Oklahoma, visited Mr. and Mrs. Gordon Lane for the week end.

Mr. and Mrs. M. W. Mosley, Mr. and Mrs. Frank White, Mr. and Mrs. W. A. Armstrong, Mr. and Mrs. Joyce Armstrong and little daughter, Mr. and Mrs. Bryan Armstrong and children were among those to attend the funeral services of Lee Gunn and Claude Hill at Hedley Friday.

TONGUE-TWISTERS OF TWENTY-FIVE YEARS AGO

In the Falmouth Outlook of 25 years ago is found the following:
"Some elocutionist has made a collection of more than two hundred tongue-twisters, among which are the following:
"A growing gleam glowing green.
The bleak breeze blighted the bright broom blossoms.
"Flesh of freshly dried flying fish.
"Six thick thistle sticks.
"Two toads tried to trot to Tedbury.
"Give Grimes Tim's great gilt gig whip.
"Strict, strong Stephen Stringer snared slickly six sickly silky snakes."
How does your tongue operate on them?

"We Serve to Serve Again"

Our Weekly CHURCH CHAT

W. E. FERRELL
Minister First Christian Church

"What I Believe."
There are many lessons that Easter brings to the remembrance of those who believe in the resurrection of Christ from the tomb. This season of the year demands that we check up on what we believe.

I believe that man has a transient body and an eternal soul.

I believe in the brevity of death and in the endlessness of life.

I believe that the risen Christ is the visible witness to the sublime truth that the grave has no victory and death no sting.

I believe that immortality becomes a necessity to any man who seriously sets himself to become like Christ.

I believe that everlasting life flows from the fatherhood of God as the stream flows from the spring.

I believe that he whose mercies are new every morning and fresh every evening; who brings into every epoch of my life a new surprise and makes in every experi-

ence a new disclosure of his love; who sweetens gladness with gratitude and sorrow with comfort; who makes every year better than the year preceding and every new experience an evidence of his skill in gift-giving, has for me a future of glad surprise which I would not forecast if I could.

I believe that death is only pushing aside the portiers and the passing from one room to another; that Paradise is not a distant country, but only the other room.

I believe that the dead possess a more splendid equipment for a larger life of divine service than was possible for them on earth—a life in which I shall in due time join them if I am counted worthy of their fellowship in eternal life.

I believe in holding daily life under the quite life of eternity and pasturing our thoughts in the amazing love of God.

I believe that life is ever lord of death and love can never lose its own.

I believe all will be blessed with eternal life, who keep Christ's commands.

IT NEVER HAPPENS

school and community. By freely discussing problems and difficulties that arise there develops between the boys and their teacher a comradely understanding which is rarely seen elsewhere. The Pirates always present to the world a united group, as any problems are threshed out in council to the complete satisfaction of all members. The code of the lodge brings out the best in the boys, and they must live up to its high ideals to retain membership. More than one boy has been expelled because he repeatedly failed to live up to the laws of the order. Loyalty to their school, loyalty to their teachers, and loyalty to each other characterize the members of the Pirate Crews.

O. Thompson and Mr. Jim Cannon called in the Lanham home Sunday afternoon.

We are glad to report, Mrs. Heckle Starks is better after a few days illness.

Bro. Shepherd and Bro. Campbell called in the Lanham home Wednesday afternoon. Bro. Campbell conducted a meeting at the Baptist church this past week.

Misses Orene and Ina Riley spent the week end with their parents, Mr. and Mrs. Nelson Riley.

A. M. Lanham went on a business trip to Amarillo Wednesday. Mr. Glen Reed called on Miss Rubie Peabody Saturday afternoon a short time.

Mrs. M. Starks called on Mrs. A. M. Lanham Tuesday afternoon.

Las Piratas, the sister organization strives to do for the girls what the Pirates does for the boys. Like the Pirates, it had its beginning at Brice.

The shop boys have turned their attention to beautifying the grounds around the shop. A fish and lily pond has been constructed, flower beds laid out, and a small rock garden is in the making.

The Senior play books have arrived, and the cast has been tentatively selected. Rehearsals will begin soon.

We are very proud of our senior class for this year, since it is the largest in the history of our school. One unusual feature is the majority of boys in the class, which consists of 8 boys and 5 girls.
