26 Club Boys Receive Gilts In Pig Club Program

Twenty-six young Donley county youths received registered gilt pigs last week in connection with the Registered Gilt Contest program being sponsored by the Chamber of Commerce and Lions Club, according to J. R. Gillham, local chamber of commerce secretary and vocational agriculture instructor. Eleven of the youths are furnishing their own gilts and fifteen were purchased by the chamber of commerce and Lions Club.

Each of these youths will fit these gilt pigs for a gilt show to be held in April. The boys exhibiting the winning gilt in this show will receive a registered Jersey Heifer and appropriate premiums will be awarded each of the other youths doing a creditable job with their gilts. The youths will breed their gilts in April or the first part of May to registered club boars, and the fifteen receiving their gilts from the chamber of commerce and Lions Club will each pay back to these organizations one pig from their first litters.

The program will be carried on under the supervision of County Agent Charles Reid and Vocational Agriculture Instructor J. R. Gillham. The program will do much to increase the feeding program in the county as each youth entering the program must agree to feed one or more pigs from his first litter for the annual club boys fat stock show.

The major portion of the county is well represented with pigs going to boys from Hedley, Lelia Lake, Windy Valley, Hudgins, Martin, Ashola, Sunnyview, and Clarendon Communities. Boys receiving and securing gilts were as follows: Chester Whites, Billie Joe Marshall, Gene Bulman, Mike Smith, Herman Moore, J. L. Williams, Billy Jack Jordan, Billie Hill, Fred Bandy, Waybourn Phillips, and C. Riddle; Berkshires, Odell Lagrone, Jim Lovell, J. Neighbors, and Ben Jordan; Spotted Polands, Jack Matthews, and Ralph Ayers; Poland Chinas, Wayne Neel, Tommie Hodnett, H. Wilson and J. Darnell; Durocs, Joe Shadle, Frankie Helton, Jimmie and Sam Owens, Jr.

WILLIAM E. PATMAN BEGINS TRAINING AS BOMBARDIER

William E. Patman has just reported for duty at the Big Spring Bombardier School where he will begin his training as a bombardier. It was announced by Colonel Robert W. Warren, commandant of the school.

Cadet Patman is the son of Mr. and Mrs. Wm. M. Patman of Clarendon. He graduated in 1939 from Clarendon High School and attended Clarendon Jr. College and West Texas State College at Canyon, where he was still a student at time of enlisting. He belongs to Tri Tau, Alpha Chi, and Pi Beta Gamma fraternities. He has a brother, Allen Patman, in service.

DOES NOT AFFECT COLLECTION OF MEAT POINTS

Lifting of restrictions on farm slaughterers of hogs, announced recently by the War Food Administration, does not in any way affect Office of Price Administration requirements for the collection of meat points in the transfer of meat, J. Doyle Settle, district Rationing Executive, announced today.

The War Food Administration announcement simply removes for a period of ninety days all restrictions on the slaughter of these hogs, Settle said.

Farmers killing their own hogs and desiring to market the meat should consult their local War Price and Rationing Board if they are not already registered as primary distributors of meat, the rationing executive said.

LAVARENE JOHNSTON IN PREFLIGHT TRAINING

Among those taking preliminary course to prepare them for actual flight training, is Wayne LaVarene Johnston, son of Mr. and Mrs. V. V. Johnston of near Clarendon. He is now stationed at the Army Air Forces Preflight School of the San Antonio Aviation Cadet Center.

At the Cadet Center, the cadets undergo thorough academic, military and physical training leading to subsequent flight training to prepare them for aerial combat.

QUAIL SEASON OPENS WEDNESDAY

Quail season opened yesterday with a quantity of bangs. Being the first day of the season, many hunters had a box or two of shells to dispose of in a hurry and the hunting is expected to be quite light from here on out as shells are hard to find any where.

The quail seem to prevail in large numbers in some sections, but in general they have left the main range and have gathered around good watering places. Quite a few have reported sore legs and blistered feet, but have a happy thought in mind after getting their limit of 12 birds.

COTTON GINNING REPORT

According to a census release by W. M. Patman, local agent, 6271 bales of cotton were ginned in Donley County from the crop of 1943 prior to Nov. 14th as compared with 7454 bales for the crop of 1942.

In taking over the duties of County Agent, Mr. Reed stated Wednesday, that he had moved to Clarendon with the intention of doing the most that he possibly could to help the farmers and ranchers of Donley county in every way possible, and will be willing to put in long hours to get the job done if necessary.

Mr. and Mrs. Reed have made their home temporarily in the Ruddell apartments, awaiting the opportunity to find them a home. It is understood that the main boss of the family is their two and one-half year old son. His name is Charles O. the third, but goes by the nickname of "Skipper".

RATIONING AT A GLANCE

By PEPPY BLOCKER

House Leader Urges Subsidies To Halt Inflation

"Wild and uncontrolled inflation simply means that farm prices, wages, personal services and consumer goods of all kinds, go up and up and the dollar goes down and down. The man who has saved his war earnings for post-war buying, the old age pensioner, the disabled veteran, the investor, the insurance beneficiary, all see their dollars evaporate in purchasing power until their means of support is totally destroyed. Then we shall have to renew our deficit spending for relief on a scale almost as large as the cost of fighting the war. Subsidies will prevent this by encouraging larger production without higher prices to the consumer. The farmers are protected. Subsidies, price controls and rationing are simply inflationary brakes to keep prices from going out through the roof. Our limited subsidy program which has been in effect for a year, has been a safety valve on the price structure and without it the price ceiling would crack. The proposed enlarged subsidy would only equal the cost of the war for three days. A dollar put into subsidies to hold price and wage levels in check pays dividends of five to one to thirty to one in preventing inflationary prices." — Congressman Wright Patman of Texarkana, Texas.

Observation On Rationing

An article commenting on public reaction to rationing—containing much food for thought for those engaged in this essential part of the war program on the Home Front—is contained in "The Easy Chair" column of Harper's Magazine, August, 1943, issue, written by Bernard DeVoto. It follows in part:

"The trouble with personal lacks is, as Thoreau pointed out long ago, that they tend to make reformers out of those who suffer from them. And one unloveliness of war is the Puritanism which always springs from the frustrations it produces. There are a number of alarming things about the domestic scene, but the belly-aching of the public is not one of them, and a principle ought to be made absolutely clear for everyone's guidance. . . . The public is not required to rejoice over being denied gasoline but only to refrain from using its automobiles. It is not obliged to feel a sacrificial ecstasy when it is denied shoes or beefsteak or nylon stockings; the obligation is of an entirely different order—it is to go without them. . . . Loud out-cries of annoyance are not only an invigorating psychological release but also a sign that the war has got home to people. . . . There would be reason for concern if the public were not vigorously belly-aching. An apathetic acceptance of annoyance and minor deprivation would signify a state of mind truly dangerous. . . . Some persons are far too much concerned about morale, but they may be sure that the American people have got it so long as they are complaining loudly. . . . Finally, it is cheap, sentimental, and false to remind the public that when it eats bread without butter it is suffering less than the soldier who has a bomb fragment through his lungs. . . . The public knows that . . . the soldier happens to be its son."

Sorghum Not Controlled

The man who said, "if it doesn't taste like it's price-controlled, don't eat it" will be able to sop his sorghum syrup with a clear conscience since OPA announced that this delicacy of the sorghum cane country is not under price control, with the exception of the controlled mark-ups of wholesalers and retailers.

War Fund Quota Still Lacking

Walter (Buddy) Knorpp, county chairman, announced today that the Donley County War fund drive is still far behind the quota by the amount of around \$900.

He stated that the drive would continue until the quota was raised and plans are being formulated at this time to organize the entire county in order to get the job done.

"There are lots of people who will and would like to donate yet," Mr. Knorpp said, "and will do so if they are contacted, and this is what we plan to do," he added.

You can leave your donation at any of the banks in the county or if you live here in Clarendon, you can call any member of the Junior Les Beaux Arts Club and they will call for your money.

It also happened that December 7th is the second anniversary of the attack on Pearl Harbor, a date that none of us can forget.

Larry Mercereau, who was a veteran of the battle for Java, having spent 16 months in that zone as a navigator on a bomber. His home is in Illinois, but he thought Texas was a fine country and he enjoyed the friendly attitude of the Clarendon people.

HARRY K. McCracken ADVANCES RATING AS AIRPLANE MECHANIC

S/Sgt. Harry K. McCracken, son of Mr. and Mrs. B. F. McCracken of Clarendon, a member of the 64th Two Engine Flying Training Squadron at Dodge City, Kansas, has been certified as a qualified airplane mechanic at Dodge City Army Air Field, big new B-26 Marauder pilot training school of the Army Air Forces Training Command.

He is now rated as capable of starting and warming up the 2000 horsepower engines which power the B-26 Marauders and of taxiing the bombers about the ramp, and has demonstrated his ability to make a preflight inspection of the B-26 airplane.

FIRST SNOW ARRIVES LAST SNOWDAY NIGHT

The first snow of the winter and a much needed rain fell last Thursday and Friday. Much benefit to young wheat was reported and the moisture came at a much needed time as the entire Panhandle has been dry for the past several months. The moisture hampered fall crop gathering some but the threat of dust storms overshadowed this, along with putting a little season in the ground to start the next year off.

The north section of the county reported a much heavier fall than around Clarendon and south of town. Snow drifts were to be seen as late as Tuesday on the ridge of the Cap. Cooler weather is predicted for this week end with a fresh north-er due to hit this vicinity sometime today.

The Canning plant at Lelia Lake will operate only on Tuesdays and Thursdays, and the one at Clarendon only on Wednesdays and Fridays, according to J. R. Gillham, local supervisor. A large number of beeves and other meats are being canned now, but it will be necessary for those desiring to use the facilities offered the public at these processing centers to make an appointment for these days, and it will be necessary that an appointment be made as the facilities of the plants are limited. Those desiring appointments for canning should contact Mrs. Stanley Carlile at Clarendon, and Mrs. J. C. Christal at Lelia Lake.

A good deal of mis-understanding concerning the processing plant has arisen. Some have the idea that the plants are government projects, but this is only partially true. They are plants operated through the vocational agriculture department of the Clarendon School for the purpose of enabling patrons to conserve foods by providing limited facilities and instruction and help in using the same by the lady supervisors. It is not and is not supposed to be a "high powered" program, but simply a service to help the public. One of three small pressure cookers and one large retort cooker, a can sealer, an electric meat grinder, knives, saws, pots, pans, and utilities are available. The ladies in charge of the plants are not there to do the work for the public as some seem to think, but they are there merely to help and instruct in the art of canning and the use of the canning equipment. It is up to the people wanting the canning done to provide the major portion of the labor and the material to can. There is no charge whatever for the use of the facilities offered.

Last week a number of ladies were contacted in an effort to secure additional needed cookers for use at the project, but they said since it was a government project, it could provide its own equipment. It is for these ladies and others information that the above information concerning the service is given. Additional cookers would be purchased however if they were available, stated J. R. Gillham, local supervisor.

Often we get all pepped up over the theory that bad luck cannot continue forever, but the mistake is made in our failure to apply the same theory to good luck as well.

INTELLIGENT.

GRATEFUL.

Thinking over the whole situation Thursday as the war news came zooming in, it just occurred to us that a real Thanksgiving should include thanks to God for all the good things he has done for us, through us, with us, by us, in spite of us and because of us.

SUGGESTION.

Mail your Christmas packages this week. Right now. Did you know that if you don't mail them

right away, they may not get anywhere because of the congestion? It's a fact. If you have a package to send, be sure to get it off the way in November at least. The mails are highly congested with packages right now.

MEL-OF-A-HESS.

When a fellow gets down to the point that he must choose an alibi from ignorance or fraud to justify his personal actions, he's in just such a fix as the heading above.

MODERNITY.

When they passed a law in Tennessee last year to prevent the marriage of children under 16, the kids in Arizona got busy and petitioned the lawmakers to pass a law against a fellow having to wear a diaper after the age of two.

EVERLASTING SIGN.

An old sage once remarked that: "If you are in trouble or inclined to worry, remember the darkest night the world has ever seen did not put out the stars."

LEND-LEASE STUFF.

Before Christmas, old Santa is pictured as carrying a large bag. After the Holiday, the old man of the family is left holding it.

QUERY.

Hear a radio announcer talk about "childless fathers" very often these days. How do they get that way?

INDUSTRIAL SURVEY.

Our Stolen Story is about the gal who applied for an industrial job and was answering questions at the employment desk, preliminary to getting her working clothes.

BIG ENOUGH to do a BIG JOB

The monster bomber is an important American contribution to world-wide war. It carries a large load a long distance—and it does a job no smaller plane can do.

Size is America's salvation today in other ways as well. The size of our land and its resources. The size of our production plants; the size of our Army and Navy—the size of one company's contribution to those armed forces—in our case it's 162 men! But more significant is the size of the electric industry that powers the machines that make the planes, tanks, guns and ships.

But size isn't everything. It must be piloted by skill and experience. America's key industries got it by growing up under the system of free enterprise, the system we're

fighting for—where free men can compete, create, and succeed in proportion to their ability.

That's exactly the way the electric companies grew—creating jobs by supplying better and better service to more and more people at a lower and lower price—building on the invested savings of millions of Americans.

Because the electric companies were ready when war came—because no war plant had to wait for power—precious time was saved in the effort for production!

How big should an electric company be? The same size a bomber should be—BIG ENOUGH TO DO THE JOB RIGHT AROUND THE CLOCK AND THE CALENDAR!

PATHFINDER CLUB

Friday afternoon, the Pathfinder Club met in the home of Mrs. T. H. Ellis with Mrs. W. H. Patrick as co-hostess.

After a brief business session, the meeting was turned to the leader, Mrs. J. W. Evans who gave a summary of current events with a comprehensive prospectus of the construction of dwellings during the post war period, including a description of the family car and airplane.

In her pleasing manner, Mrs. L. N. Cox reviewed the book "Mama's Bank Account" by Katherine Forbes. The book tells of a Norwegian family and gives a good idea of how well they adjusted themselves to the American way of living. The story is mostly about mama who is always able to think up a way to help solve the problems of any one in the household. She is clever, ingenious and has a way of making others feel at ease. One can readily see why the family so often needed mama.

Mrs. C. T. McMurtry read a clever poem showing how mama is doing her part to help the war cause.

The hostesses served lovely refreshments to fifteen members and two guests, Mrs. Frank Hutchins and Mrs. Minnie Dyer.

How About—For Instance—a Great Big Family Gift—for Your Christmas Dinner?

Group giving is fashionable this year—that is, a family group gives the family a present. In that way you can give something bigger and better.

Now we'd make this suggestion: The family holds a little conference on the matter of gifts, and talks things over frankly, instead of making the all-too-often shot in the dark kind.

First on everybody's spending list should be—more war bonds. After that is settled, there'll very likely be enough money left for a handsome present—provided it is all thrown together in one sum. And then, our suggestion is that you buy a smart dining room suite, living room suite, bed room suite or other furniture items featured in our store.

We Invite You to Come in Now and Make Your Selection and Have it Set Back For CHRISTMAS

WANT TO KNOW WHY? Because Daddy and I no longer have to worry and wonder about which oil to buy to make our car last longer. We discovered the answer in an ad—just like this one. And it said:

One of the best precautions you can take to protect and lengthen the life of your motor is to use good oil. But which oil is good? The following facts should help you decide.

Phillips makes this straightforward statement: If you want our best oil, remember we specify **Phillips 66 Motor Oil** is our finest quality . . . the highest grade and greatest value . . . among all the oils we offer to average motorists.

Phillips 66 is the name to remember when you replace summer-thinned lubricant, or make the recommended every-two-months oil change.

Broncho Range—

(Continued from Page Seven)
was well-known wherever she went, not alone as a biographer and writer, but as the daughter of a man and a woman whose selfless devotion to science made a great contribution to humanity.

Miss Curie was superbly equipped for her task by her background. United in her veins is the blood of Poland and France, two nations mute under the heel of the conqueror. This gives her at once a passionate fervor for the cause of the United Nations, and a unique ability to view the remaining combatants — England, America, Russia, India, China—with a cool detachment which supplements her gifts as a reporter.

All along the line, the events of five momentous months registered their impact on her survey. She was on hand for the Nazi retreat in Russia, the Cripps mission to India, the arrival of American troops in India. She was visiting the North African front when the news of Pearl Harbor horrified, stupefied, yet heartened, the men

of the United Nations' forces. Throughout Miss Curie's account flows the living, pulsing bloodstream of the Allies' war.

"Journey Among Warriors" presents the record of Miss Curie's experiences so graphically that the cold of the Russian winter, the heat of the Libyan Desert, the slow-paced life of Iran, the Free French in Syria, British and Americans in Africa, the life and dreams of the Chinese, and the people of India come to us with all vividness.

Her book provides details of the Red Army, its equipment, its morale, its attitude toward the war and toward the Soviet regime. Civilian life, too, is clearly illumined as she talks to peasant women in the war-torn fields, to a young major general, to wounded soldiers returning from the front, to RAF fliers in the desert, to Polish officers, and also to the great leaders in the United Nations' camp. This is a record of the war in terms of human beings—men and women. We are given an intimate picture of the fighting fronts with an emphasis on the men and women whose blood, sweat, and tears are flowing for

the cause of freedom.

Vivid and vital, the story of her journey among warriors comes to the reader with an impact which will make this book long remembered. It is a book for those of us who would understand the people who fight our battles—the Russian peasant, the Polish exile, the Free Frenchman, the Chinese coolie, and the ordinary citizens who are behind the man behind the gun.

CORRIDOR COMMENTS

"TACKY PARTY" at gym Friday night, Dec. 3rd. No admittance unless dressed "TACKY". Sponsored by Junior Class.

Have you seen the beautiful bracelet and ring which Betty Jo Rhodes received from her "sweetie"?

Frankie Hommel is wearing a lovely diamond ring

Mary Nell Hanks is a junior in C.H.S. We are glad to have her join us.

The girls' football team is really good. The other day Mary Williams made a 50 yard dash. Everyone was right at her heels, but she was too fast.

Some of our Junior boys are getting good at writing poetry. Eh, what, Grady?

We all think Carroll should get his flying license.

Johnnie Johnson was in a "spot" the other week end; both came at the same time. How did

you manage them, Chicken?

After a delightful Thanksgiving holiday, everyone came back to school telling of their doings over the holidays.

Boo Porter spent most of her time over at Mary Nell Keys' house.

Lavoise enjoyed a typically good dinner at the home of her grandparents

Peggy Stewart just "beat in time" until Thanksgiving evening when she attended a big supper.

Mary Christie visited her sister in Dalhart and had a wonderful time.

Helen Jo and Billie Jack Land were seen together both Thursday and Saturday nights. Were the shows good, kids?

La Vern was with Billy Jack's cousin from Dallas Thursday and Saturday. Some say they really got up a case before he went home.

Jane Wright and Bryant Tucker

seemed to be having a good time Sunday evening.

Billie Howerton and Larry Lane were seen together Sunday night.

Kathleen Grady had a very pleasant time over the holidays. She went to the dentist.

Marilyn Maher had a swell time in Seymour.

"Sunshine" is looking forward to December 10. We wonder why; could it be that a certain Navy Seabee is planning on a ten day leave?

Girls, if you desire to master the proper technique of hair dyeing, see Wayne Ray, Bob Bentley, or the Semrad boys.

Say, what was the matter with Kat and Faye Thursday? They seemed to be pretty mad about something. Could it be that the company they were expecting did not come?

SOUTH WARD

The following pupils in Mrs. Mears' room can count one hundred; Glenn, Bill, Bobbie, Mac, Donavan, Billy Joe, Janice, Martha and Charlie.

Miss McGowan's room is making turkeys from apples.

The pupils of Miss Mongole's room are making Thanksgiving posters.

Mrs. Prewitt's room is gaily decorated in fall tatted drawings of leaves and trees, and turkeys for Thanksgiving

In Mrs. Bain's room the room mothers are giving the pupils a Thanksgiving party Tuesday after school. The room mothers are: Mrs. Hunt, Mrs. Heathington, Mrs. Wallace, Mrs. Pipes, Mrs. Wright, Mrs. Muse, Mrs. Wadsworth, Mrs. Ballew, Mrs. Hommel, and Mrs. Ward

The pupils surely thank these mothers for their kindness.

ORGANIZATION OF FRATERNITY

The Alpha Kappa Delta Fraternity was organized November 21, 1943 in Mrs. Turner's room. Mr. Drennan is the sponsor. The officers are:

President, Dick Reeves; vice-pres., Tom Goodner; Sec.-Treas., James Wesley Palmer. There are seven charter members. They are Max Keys, Tom Goodner, Billy Roy Blackman, James Wesley Palmer, Dick Reeves, Manly Bryan, and Jimmy Douglas. Meetings are to be held the first and third Wednesday nights in the month.

The first meeting was held at Tom Goodner's home, Nov. 26. Mrs. Goodner honored the fraternity with a buffet supper. Miss Mary Nell Keys, and Miss Helen Porter assisted Mrs. Goodner in serving. After a lovely meal a short business session was held. After the business session everyone went to the picture show.

The next meeting will be held at Max Keys' home, December 1, 1943 at 8:00. At this meeting the Constitution and By-laws will be read and approved.

coming Thanksgiving holidays. Mr. Drennan made some announcements; then we were dismissed with the privilege of forgetting school until Monday to enjoy Thanksgiving and all the trimmings.

of this war. It is one of those rare reports on the war in which the whole panorama of the world at war is honestly, skillfully, and beautifully presented.

Miss Curie, besides being an ardent French patriot, can properly be termed a citizen of the world. She sees the present conflict in its global, world-wide aspect as one who has a knowledge of cosmopolitan and international affairs. Because of her family background, Miss Curie found on her daring 40,000-mile trip to the battlefields of our war, that she

AMERICA SINGS

Next Tuesday evening, December 7, at eight o'clock the students of Clarendon High and Clarendon Junior College will put on a pageant, "America Sings," in the College auditorium. The performers will wear colorful costumes, and it is hoped the people of Clarendon will come. It is being produced under the direction of Mrs. Turner and Mr. Drennan.

The public is invited. It is free! Be sure to come!

UNITED WAR RELIEF DRIVE SUCCESSFUL IN SCHOOL

The United War Relief Drive was started off in the schools two weeks ago in a big way. The pupils are very seldom asked to donate money during the school year. Mr. Burton felt that this was a drive worth contributing to. Marvelous results from Jr. High and Senior High have come in.

The report from Jr. High and South Ward teachers and pupils was \$99.50. From College and High School teachers and pupils it was \$238.07.

Mr. Burton is very proud of the way that the teachers and pupils have responded to this very worthy cause.

CHAPEL

Part of the chapel period Wednesday was spent learning some new songs, "Moonlight and Roses," "In the Good Old Summer Time," and "Where the Dear Old Shannon's Flowing." These were led by Mr. Drennan. Everyone enjoyed singing and learning some songs.

Senior orator, Johnnie Johnson, then read a poem on Thanksgiving written by one of our classmates, Peggy Stewart. Peggy, you are getting to be a real poet. Billie Jean Knox then gave a reading, "The First Thanksgiving." Both of these were thoroughly enjoyed as they were in keeping with the

YOUR INCOME TAX

By J. A. WARREN
Income Tax Service,
Clarendon, Texas

There seems to be much confusion among taxpayers regarding the filing of Estimated Reports September and December 15th, they being under the impression that this ends it all so far as they are concerned. Now this Estimated Report means just what it says, "Estimated". It is your best estimate of the amount of tax you will owe at the end of the year based on your estimated income and business deductions. But the Treasury Department does not consider an estimate as final. It is just a method of collecting your income tax currently, you who are not operating under the 20% withholding law, as salaried workers, "as you go" instead of "as you went," heretofore, and having the following year to pay your taxes. You must pay your income taxes now within the year for which the taxes are due. That is the reason for this method.

Between January 1st and March 15th, you will be required to file a correct and complete return for 1943, just as you have always done. This applies to all who have filed Estimated reports Sept. and Dec. 15th, also many who should have filed but did not do so, on those dates, and salaried persons who were subject to the Victory and 20% withholding taxes during the year, and who did not file on those dates.

All who filed, estimated the amount of taxes they calculated

they would owe the government at the end of 1943. Well, naturally, no one knew exactly, therefore, when this final report is made after January 1st, you will have your figures and data complete, hence a complete and correct report can be made. There is another reason these corrected reports must be made, that any differences between your "estimate" and payment, and your actual figures and amount finally due, may be adjusted. In fact, this means that every person subject to the 1943 requirements for filing reports must do so at that time. Then, too, your 1942 and 1943 taxes, enter into the figure for final disposal, at which time a portion of one of these years' taxes will be forgiven, so you will need at that time your 1942 income tax copy, your 1943 Estimated copy, and for salary workers, your Victory and Withholding Forms V-2 and W-2, which show the amount of Victory Tax withheld to June 30th, and the amount of the 20% tax withheld for the last half of the year. These forms will also show the amount of your salaries, and are to be furnished to you by your employers.
