WEST TEXAS PRESS ASSOCIATION
NATIONAL EDITORIAL ASSOCIATION

PUBLISHERS AND THE CODE.

At the mid-winter meeting of the State Press Association down at Austin recently, it was agreed that a test case would be made in the courts to determine whether the code was enforceable.

During the same week, the state press association of Oregon threw the code idea overboard declaring that "too many high-salaried employees were being maintained at the Chicago headquarters, and that no benefits had been received by the Oregon publishers." The Texas publishers might wait a bit and see if the Oregon publishers are devoured by the Blue Eagle before spending any money to find out something that may be had free of any cost.

KATE SMITH LOSES RANGER JOB.

Those who have been charmed with the sweet voice of Kate (Moon over the mountain) Smith will be grieved to know that though Kate was a ranger appointee of Ma Ferguson, she no longer holds that dignified title under the present administration. Neither does 1613 others. The others were not all fat singers for the list includes barbers, bakers, doctors, pill rollers and one magician.

When Gov. Allred's crime commission got down to Ma's special ranger list, they looked over the bunch and declared "it to be all tommy-rot, and as such, sullied the name "Texas Ranger".

Maybe Kate was totin a gun as a means of flesh reducin'.

DANCING FOR CRIPPLED CHILDREN.

In the future we will not be so hot for the President's Birthday Ball affairs that carries with it the alibi that the proceeds will go for the benefit of crippled children. Inquiries concerning the possible entrance of children in the Warm Springs Hospital for treatment prove that the cost is beyond the average man's pocketbook for room, board and medical attention.

Thousands have been under the impression all along that the millions of dollars raised from the balls were to pay the expenses of patients who were unable because of a poverty stricken condition, to pay for the service.

Texas raised thousands of dollars, but that money should have been turned over to the Shriner Hospital at Dallas where hundreds of cripples have been cured, and where the money is needed and used in a most worthy cause.

GOVERNOR ALLRED STANDS PAT.

During his campaign for the office, Gov. Allred told his people that he was opposed to horse-race gambling. He stated that he would insist that the law permitting race-track gambling be stopped during the first session of the legislature. He did. He still is insisting that the law be outlawed. Here is what Gov. Allred told six million or more Texans over the radio recently:

"During the 17 months since this law was enacted Texas has witnessed and suffered every evil pointed out by Washington as attendant upon gambling. The very foundation of morality and character of our people is being undermined by legalized commercialized, and advertised gambling.

"Within its shadow stalks every kind of racketeering. The tout, the thug, have been brought within the law and invade the realms of decency. Embezzlements, suicides, swindlings, and social disasters have followed in a dire chain of events.

"Texas has had to pay too dear a price in manhood and womanhood, in crime and racketeering, in business losses and failure, to countenance any longer this open gambling, this raging fever, this prairie fire of corruption loosed upon us at a time when every demand is for reconstruction, for restoration, for rebuilding of society upon the old foundation stones of honesty and common decency.

"For the sake of the homes and children of Texas, for the sake of legitimate business, I earnestly urge you to carry out the will of the people and repeal this pernicious law. "We simply cannot afford to bargain with a vice..."

House and Senate listened gravely to Governor Allred's message. Their gravity increased when the governor took the issue to the 6,000,000 stockholders of the state in a "Fire-side radio chat" Tuesday evening. Legislators well knew they were in for a bombardment of messages from the "folks back home" urging repeal of horse racing.

Results were watched closely. Here, for the first time, Governor Allred had gone over the heads of the assembled

legislature and appealed to the people of Texas for action and help.

Will that appeal be answered?
—The State Week of Austin.

SIDELIGHTS
By Marvin Jones

Home Owners' Loan Corporation
Many people have expressed an interest in having the activities of the Home Owners' Loan Corporation extended until all applications that have already been filed with the organization have been acted upon.

I have had this matter up repeatedly with the Banking and Currency Committee, as have several of the other members. The chairman of that committee has introduced a bill which will make adequate provision for taking care of the applications now pending in the files of the Corporation. He expects to press this matter, and I have no doubt that both the House and Senate will take favorable action thereon.

Crop Production Loans
Both the House and the Senate last week agreed to the House Crop Production Loan bill which makes provision for 60 million dollars, or so much thereof as may be necessary for loans to farmers for the purpose of financing current production. It carries a provision that the recording, filing and registering fees shall not exceed 75 cents per loan, and the interest rate will be 5 1/2 percent per annum. These loans are to be made in cases where credit is not otherwise available, and the borrower must agree to cooperate in the crop adjustment program.

An effort is being made to speed the administration of this loan. It has been my privilege to handle these measures in the House for the last several years. I feel that conditions now prevailing make their continuation for this year urgently necessary.

Public Works
It now seems probable that the public works measure will be enacted. I have been urging that a full share of such fund as may be provided should be made available

for projects in the country districts.
It could be used for road building, grade crossings, local parks, soil erosion and other rural projects, in addition to the projects that would be available for cities and towns.

In addition to the 70 thousand miles of unpaved state and federal roads, there are more than one million miles of farm-to-market roads which could well be graveled. No more useful form of public works could be devised than a vast road-building program. This would be of advantage to all the people.

State Board
Although the method has not as yet been definitely determined it is probable that it will be necessary for all projects to be approved by a state board. While the funds for the works program will probably not be available until after July 1, it would be well for the plans for local projects to be ready before that time. The measure provides for a continuation of relief funds until July 1, when it is hoped the funds will be available for the work projects.

Mr. and Mrs. John Clark visited in Amarillo Monday.

NERVY SALES METHODS

Business and professional men are frequently annoyed by mail order firms which send them goods not ordered, with a request that the merchandise be either paid for or returned. Such sales methods are entirely indefensible.

It is unfair to place upon a busy man the burden of wrapping and remailing stuff he does not want, yet the average person feels an obligation to pay for it or send it back. This method of alleged salesmanship no doubt produces results, or it would not be resorted to by the concerns which practice it.

One way of handling such cases is reported by a Michigan paper. A doctor was sent \$10 worth of cigars with a request to try them and remit if satisfied. In case he did not smoke, it was suggested

that the doctor could find some friend who would be glad to take them off his hands. The doctor wrote in reply:

"Cigars received. I enclose in payment two prescriptions well worth \$10. If you do not need them you can sell them to some friend."

Townsend Pension Plan Has Senate Hearing

Dr. F. E. Townsend, author of the \$200 a month pension plan, appeared before a senate committee at Washington Saturday. The Senate Finance Committee did not take kindly to the plan. With the doctor sitting in a circle of senators,

he was bombarded with questions. Some questions sought information, while others sought only to ridicule the idea.

Senators and spectators, it is reported, showed by frequent laughter that they enjoyed the hearing, but the old doctor never smiled. His plan of more than two years was on trial for the first time, and he was in dead earnest. Sen. Pat Harrison of Mississippi announced that the pension plan would not be considered further.

Mrs. Homer Powell and Mrs. Bess Rolf and son Jack attended services and also visited friends at Amarillo Sunday.

FOODS TASTE BETTER

When Cooked Electrically

Electric Cookery brings out the flavor in foods. Only a small amount of water needs to be used to cook vegetables, as they are practically cooked in their own delicious juices. Meats shrink very little cooked electrically, as there is no excessive dry heat to rob them of juices and flavor.

The results are foods taste better and retain the vitamins because the flavors and health properties are not destroyed by excessive cooking or drowned in excessive water to be poured down the sink. Of course you can look for better health from this modern electric cookery. Before you buy your next range . . . investigate the electric way of cooking.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

West Texas Utilities Company

TEMPLE OF TRUTH
By the Apostle

Somebody has been called down, and it is none other than the old Apostle himself. It all came about because he could see no reason why this nation should become involved in a World Court. The objection comes from good old Arkansas—the home state of Senator Joe T. Robinson, chief exponent of the World Court. This professor of economics in one of the leading universities of the south probably does not know that the Apostle was once regaled in a robe and cap and saw a handle attached to his name in the Ozark region many, many years ago. Handles are

worthless in every day life, but they mean a lot to a professor in getting a job. All I have to say in rebuttal is that if Joe Robinson is sincere in his statements, he knows about as much about world courts as the professor, and neither of them know any more about a world court than a billy goat knows about the technicalities of psychonalysis. Not a senator defending the world court idea in Washington during the debate could give one reason why this country should join the World Court and submit questions affecting the United States to judges of whom an overwhelming majority are appointed by nations that have swindled this nation out of more than ten thousand million dollars lent them during war time when they were flat of their backs.

And here comes a letter from Heene Burch of 1223 Seventh Ave., Ft. Worth asking for a copy of the Leader of January 30th. She's one of these wide-awake students of Texas history, and is making a scrapbook. Won't some one please send this little lady a Leader of the issue of the 30th so that she can complete her scrapbook up to date? It will be a fine thing to do as we can't find an extra here in the office. The young folks certainly are taking advantage of this

opportunity to learn Texas history. An article every week.

Young folks—and elders too—who want to learn something of their state before the Centennial starts, should read these articles appearing in the Leader every week, and save them.

J. H. Hurn was down at the state capitol last week. He brags about how fine the old hut looks after his visit of about 50 years ago. In this connection we are giving a bit of the capitol history in this issue of the Leader. Better cut that out and scrapbook it along with the other history.

The College Hill Widow says a lot of women who died of a broken heart did the wise thing as their husbands intended to shoot them anyhow.

Charley Speed says the roosters are not crowing for day any more. Maybe they are depending on the Blue Eagle.

Man is the only animal who can be skinned more than once.

A bright future often depends upon clearing up a dark past.

Inventor Jim Heckman is apply-

ing for a "hen attachment" invention to be used as an auto accessory. He read in the paper where the temperature of a setting hen was 102 degrees. He readily reasoned out that two hens would mean 204 degrees. Two crated hens perched on top of an auto block keeps the motor warm. Simply raise the hood, insert the two hens and the next morning remove the hens and the motor kicks right off regardless of how cold the weather might be. "Hot hens hurry Henrys" is the name of the new invention, though they work equally well on any kind of a car.

I read in the paper where an unmarried mother and her three brothers were riding along in a jitney. The car hit a tree, her gun went off and the baby's papa was ready for a funeral. South Carolina trees are doing their duty.

Rosie Pill is the name of one of the Bruno Hauptmann jurors. Bruno no doubt would refer to her as a "Bitter Pill" since her decision wasn't altogether rosy for the accused.

Another year has rolled around and a certain good lady friend hastens to send in cherry greetings in the form of a comic as the first one on the list. Thank you, Maye, thanks a lot. Nothing had been said about the birthday this time and it is surprising how many remembered the date.

After all is said and done, nothing has suffered quite so much during the depression as the United States Constitution which has been kicked around like a hat in a bar room fight. Mister Justice Hughes does not seem to think that the Constitution should be changed like a pair of pants any old time some of the brain trust wants to start a new experiment. Wouldn't it be a joke on us if the Supreme Court put us back on the gold standard and made us use buttons for money?

Of course those people way back yonder believed it, and they actually punished their fellow neighbors for witchcraft stuff that we consider today nothing short of lunacy. Then what will they think in the future when history tells them that in 1933-34 the most highly civilized nation on the globe made the poor devils pay 7 cents more a pound for meat because the government paid 7 cents a pound to destroy meat?

Some times it begins to look like an ideal time for some one to pray for a shower of brains!

The latest song hit back east is "If I had the wings of a ladder." The Hauptmann trial gave birth to this latest spasm which sounds like a half baked croon.

Life consists of yearning for the things we want, and worrying about the things we don't want.

Skinny legs make the feet look larger. Eat more yeast or smoke more cigarettes.

The man who used his wife's pancake hat for an ash tray has gone to see Doc Brinkley at Del Rio.

Speaking of taxes, the National Investment Transcript says that when you buy a loaf of bread, you pay 27 kinds of taxes. If you carry it home on foot you are wearing out shoes taxed 23 times. If you ride in an auto you are paying a tax of 42 different kinds on that.

Adios—Until this same time next week.

Miss Lorraine Hayes of Smith visited homefolks Sunday and enjoyed the birthday celebrated of her father Mr. E. G. Hayes.

HOW LABOR CAN USE THE EMPLOYMENT SERVICE

By Frank W. Persons, Director United States Employment Service

A German-American machinist came to one of the offices of the United States Employment Service recently and said: "Maybe you cant get me a job right away, but the Government would like to know I was out of work I thought. If men out of jobs don't register, the Government don't know how many of us have got no work, and how can they do something about it?"

In Germany, England, and in other European countries where systems of unemployment insurance are in operation, a man or woman automatically registers at a public employment office as soon as they are out of work. They have to do so in order to claim their unemployment insurance benefits.

Between July 1, 1933, and September 30, 1934, 13,679,000 men and women in this country came, as did the German machinist, to file their applications for employment at offices of the United States Employment Service. These applicants were men and women from all occupations—skilled and unskilled, commercial and professional, domestic servants, farm laborers. Organized and unorganized workers have made use of the Employment Service. During these 15 months, 7,835,000 jobs were secured for unemployed workers by the Employment Service.

The fact, however, that thirteen and one-half million men and women applied to public employment offices during this period does not mean that there is, in the United States, an incentive for all unemployed to register at the Employment Service comparable to that prevailing under the unemployment insurance schemes of European countries. Only during the period of registration for C. W. A. jobs last winter was there an approach to universal registration in this country. But we do now have a more complete register of the unemployed than has ever been available before.

After registration, one more thing is required in order that a worker may obtain the advantages of this free employment service. He must keep his application active. That is, he must let the employment office know at periodic intervals that he still wants assistance in finding work. He can do this by calling at the office each month. It is necessary that employment applications be kept active in order that employment offices may fill requests for workers promptly. If an employer calls for a carpenter, he wants one today, not next week. The employment office has to know which of the registered carpenters are available, who are still actually looking for jobs.

The business of the United States Employment Service is to help workers find jobs. In order to perform these functions effectively, we deem it highly important to get the best qualified worker for every opening which an employer calls upon the Service to fill. This is the sole basis on which we offer our service to employers. In filling their vacant jobs through the United States Employment Service, the employers are not only performing a useful public function—they are also certain to get man and women workers who are best qualified for the jobs offered.

But many a workman has said: "Why put in my application at the employment office? They haven't enough jobs to go around." That is true at the present time. There are not enough jobs to go around, and the Employment Service cannot make jobs. It can, however, help to speed up the process of finding jobs. In recommending

Employment Service can and does curtail the time spent in job seeking.

We have about 800 employment offices located throughout the country. Of these, 168 are permanent offices of State employment service which are affiliated with the United States Employment Service and which receive Federal aid. The others are emergency offices of the National Reemployment Service.

Clearance of information between these wide-spread offices makes it possible for the unemployed miner in West Virginia to find other work which he can do in an entirely different occupation and perhaps in a distant city. It can help workman who has been permanently displaced from his job by the introduction of machinery to find employment in some other industry which can use his previously acquired skill.

When we have complete registration, the data available will be most useful to the Government in finding solutions for the problem of unemployment. Already, from such information as we have, we are trying to determine in which industries and occupations the opportunities for employment are increasing and in which industries they are declining. We find that widely different industries employ workers with closely similar occupational requirements. On this basis, we hope to be able to suggest lines of vocational training which may be reasonably sure of leading to steady jobs.

Not the least of the benefits of competent men for positions, the

the public employment service is the fact that it is operated without charge, either to applicants or to employers. No one pays a fee for getting a job through the offices of the United States Employment Service.

The public employment service has no selfish desire for a monopoly in the employment field. Offices of the United States Employment Service are not the only agencies in the country which are capable of doing good placement work. Many trade unions have for years operated an efficient employment service for their members. The public employment service does not conflict with them in their field of activity. There is, on the contrary, an increasing co-operation based on mutual purpose and mutual understanding.

We want the Employment Service to be exactly what its name suggests. While our primary objective is employment, great emphasis must be laid on the second of these words—service. Service implies an efficient and impartial operation. No employment office can render sound public service and play favorites. It must have no interest whatever in the political, religious, or other affiliations of those referred for placement.

Economic insecurity is labor's heavy burden, and unemployment is the worst form of insecurity. The Nation's energies are being devoted to reducing and to overcoming unemployment. The Employment Service is one unit in the attack. It is not the whole battery, but it is certainly on the front line of action.

QUICKER, SAFER
STOPS

With Dodge Perfected, Dual-Cylinder Hydraulic Brakes

JUST when others are offering their first hydraulic-type brakes, Dodge gives you the extra safety of Perfected, Dual-Cylinder Hydraulic Brakes, pioneered years ago by Dodge and proved in the service of hundreds of thousands of owners.

With 20% more braking surface—fully equalized against skidding or swerving—they get thousands of extra miles from tires and brake linings—give greater operating ease, quicker, surer stops—more safety than ever. Remember, there can be no successful imitation of Dodge brakes—no other safety!—without Dodge experience and manufacturing precision.

Here is a big, smart, 85-mile-per-hour car that actually gives you three to five more miles per gallon of gas than lower-priced cars. And even more astonishing economy of oil! With all its savings, the Dodge "Red Ram" engine gives brilliant new ranges of speed—flashing pick-up—silky silence

and ease. Its famous patented Floating Power engine mounts smother vibration, which racks ordinary cars to pieces.

The final word in protection—the famous Dodge safety all-steel body is known to nearly 3,000,000 Dodge owners.

Only the genius of a manufacturing organization such as Dodge—with such complete facilities, with 20 years of experience in building nearly three million fine vehicles—could create such astounding dollar-for-dollar value!

SOCIETY ITEMS

GIRLS AUXILIARY PARTY

The "Lottie Moon" girls of the First Baptist church met in the basement of the church Thursday afternoon, February 14, for a Valentine party.

bearing out the Valentine sentiment were enjoyed by all present. The lunch, consisting of sandwiches, fruit, and cookies was served in picnic style.

Those present were Thelma Heatherly, Bonnie Foust, Lois Heatherly, Ruby Blackman, Hazel Bingham, Ruth Blackman, Juanita Bingham, Edith Earthman, Peggy Owens, Mildred Dozier, Frankie Hommel, Olivia Watson, Charline

Owens, and the sponsor, Mrs. Earthman, Mrs. Cornelius and Julia Earthman.

MIDWAY

Mr. and Mrs. John Goldston are the proud parents of a new daughter-in-law, who became a member of the family last Friday evening when their son LaVern and Miss Lucy McMahan of Clarendon were united in marriage at the Methodist parsonage by Rev. Landreth.

They are now living at the Leathers apartments in Clarendon. LaVern is in the employ of the Sinclair station.

A number of people from our community attended the funeral of the baby of Mr. and Mrs. Clyde Osburn of Clarendon last Tuesday.

Ms. Clayton lost 300 baby chicks last week when her brooder house burned up.

Miss Katie Meaders made a business trip to Wellington last Wednesday.

There is quite a bit of sickness in our neighborhood. School was dismissed from Thursday until Wednesday, the teachers and several of the children being sick.

Mr. and Mrs. John Goldston and children, Mr. and Mrs. LaVern Goldston visited with Mr. and Mrs. Gene Chamberlain of Spade Flat Sunday.

Mr. and Mrs. Ben Andis, Mr. and Mrs. J. C. Longan, Mrs. Roberson

CHURCHES

Mid-week services, Wednesday, 7:30 p. m. Large congregations attended all our services last Sunday and a splendid group were received into the Church. The attendance at Sunday school was the largest in months. Our attendance continues to increase in all departments. All who will, and are not enlisted elsewhere, are invited to attend all our services. You will find a welcome and a blessing.

Bill Gamblin to Represent Panhandle F. F. A.

At a recent meeting of the Panhandle association of Future Farmers of America, Bill Gamblin of Clarendon was elected to represent this district on the state F. F. A. planning committee.

This committee will meet in Ft. Worth on March 16 to plan the program for the state F. F. A. Convention which will be held in Lubbock sometime in July.

Bill is vice president of the Clarendon F. F. A. chapter and he holds the same office in the district organization.

The Texas Association of future Farmers of America is made up of more than ten thousand farm boys who are studying Vocational Agriculture in Texas High Schools.

The expenses of Bill Gamblin will be paid by the district F. F. A.

Clarendon Aggies Judge In McLean Meet

On February 16, judging teams representing the Vocational Agriculture department in Clarendon High School, competed in the annual contest held at McLean. The local boys entered in both the livestock and dairy cattle divisions, placing second and third respectively in these contests. First place in both contests went to Tulia. Schools represented in this contest besides McLean were Clarendon, Tulia, Claude, Pampa and Panhandle.

In the livestock contest Tulia led with a score of 1364; Clarendon was second with 1337; Claude, 1279; Pampa, 1250; and Panhandle, 1076. Marti Mason was second high man of the contest with 465 points, Bill Gamblin ranked fifth with a score of 445, and D. W. Tomlinson was eighth with 427 points. In the livestock contest the boys judged beef cattle, horses, hogs, and sheep, giving oral reasons on one class of each.

In winning the dairy contest the Tulia boys scored 1262 points; the other scores were as follows: Claude, 1196; Clarendon, 1154; Pampa, 1092; Panhandle 1059. The members of the Clarendon dairy team were Bob Wilson, Truett Holtzclaw, and Wilfred Hott. This was the first contest that these boys ever entered and they made a very commendable showing. During the next few weeks these future farmers will judge at the livestock and dairy shows at the following towns: Shamrock, Groom, Tulia, Amarillo, Lubbock, and Plainview.

visited in the Longan home Sunday.

Mrs. Chas. Corder and three children have been sick with flu. Mr. and Mrs. Harold Longan made a trip to McLean Sunday.

Mrs. John Chamberlain, Mrs. George Kettle, Mrs. A. E. Allgren and Mrs. A. A. Pierce and Mrs. Holland, Mrs. Naylor attended the birthday dinner party in the home of Misses Naylor's Thursday, all reported a delightful time.

Misses Willie Lucille and Betty John Goldston spent from Sunday until Tuesday with Mr. and Mrs. Gene Chamberlain. The Pitman family have moved to the place Chas. Corder moved from.

WINDY VALLEY SCHOOL NEWS

We are all very glad to have Miss Baley with us again. She came back to school last Friday, February 15.

Last Friday night February 15, a number of pupils surprised Mr. Jackson with a birthday party. Mrs. Jackson had to tell him that Mr. Baker was coming to keep him at home. We played many delightful games. They were "California Winsum", "Say, Do You Love Me," "What We Are To Be," "Jig Saw Puzzles," "Pitching Hearts," and "Rolling For Love." After these games cake and ice cream was served to Misses Lealo and Opal Hudson, Jemy Jewel Nichols, Alvin Darnell, Lavonia Swinney, Robbie Lee Russel, and Jo Nell Stogner, Messers Everett Nichols, J. T. Russel, Pete Giles, Troy Walker, Red Riffle, Jack Simmons, Roy Britt, and host and hostess, Mr. and Mrs. Jackson.

The Windy Valley basket ball boys played Chamberlain Monday, Feb. 18. The Juniors and Seniors of Windy Valley were defeated by a small score. We are going to Chamberlain Wednesday Feb. 20 to play ball. We hope to have the pleasure of beating them.

Friday Feb. 22 the Windy Valley boys will go to Hedley where they will enter the county tournament. We hope to win the county tournament this time.

We did not take a half holiday for Valentine, because Mr. Jackson said we would have to many holidays for the coming three months.

At the last recess Miss Baley came in Mr. Jackson's room and wrote on the board "Seventh Grade come in my room after school." All the Seventh Graders thought it was about History, for she teaches their History, but she had a surprise for them. She gave them some cookies cut into the shape of hearts.

The County Superintendent, Mr. Baker, came to see us last Wednesday. We were sure 'proud to see him. He brought us some new song books and magazines. Mr. Baker gave us a very nice talk, in which we all appreciated. We hope he will come back soon.

Friday March 1 all the boys and girls are going to Clarendon to fix the booth for Windy Valley. We will use Saturday March 2 to represent Windy Valley. We will go to the Methodist Church at 10:30 to sing. We have picked two leaders from here to help lead the singing.

We all enjoyed the party that we had before our Valentine boxes were opened. Mrs. Batson's pupils came to see us and we all dressed up for the party. We wore little paper caps with Valentine on them and some of us had a mighty hard time trying to keep them on. Those visited us were Mrs. Riffle, Norma Jeanne Riffle, Mrs. Nichols, Mrs. Shaw, Mrs. Johnson, Claudine John son, and Margie Ruth Drake. We hope they will come again soon.

Prizes in reading were given to Mary Ruth Walker, Darathy Jean Young, Ethel Skinner, and Robie Lee Russel. Mary Ruth and Dorothy Jean are both in the fifth grade. They tied this month and they are going to try to do the same thing again next month.

We have memorized the pledge to the flag. When we say it we stand and place our right hand over our heart.

The fifth grade students are making a salt map of South America. They are putting the different countries on the map and coloring them with scraps of crepe paper.

These articles were suggested by Dorothy Jean Young, Ethel Skinner, Louise Skinner, and Miss Swinney.

The Kokernot Kluth News We have a new picture of a mascot. Miss Baley hasn't put it up, because she hasn't had time. Our president was absent at our last meeting. We got along all right, because Jemy Jewel Nichols took her place. Mrs. Jackson visited our club for a while.

Primary Room We are studying about George Washington this week. We have written a story about his life. We have cut silhouettes of him and learned a song about him.

Ara Pauk won the permanent this month and Mason Cole got the haircut for making the highest grades.

Mrs. Batson asked U. G. how much nothing and nothing was and he said "gero".

Romaine said, "Come one, lets go to the autumn-and 'tory'."

The other day U. G. was having some trouble with his writing and Dorothy Jane and Jearl had been trying to help him. Later Mrs. Batson told him to get busy any he

said disgustedly, "Well, I can't do my writing 'cause Dorothy Jane and Jearl have got me all mad and blumfuzzled."

We had a Valentine Party in Miss Baley's room last Thursday afternoon. We had Valentine hats to wear and Mrs. Batson gave us suckers dressed as the Queen of Hearts.

Dr. C. W. Galloway visited his mother in Erick, Oklahoma Monday.

W. A. Kinslow of Hedley, and father of Mrs. Ed Dishman, is reported as being seriously ill at this time.

COUGHS

Don't let them get a strangle hold. Fight them quickly. Creomulsion combines 7 helps in one. Powerful but harmless. Pleasant to take. No narcotics. Your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion.

Our Weekly CHURCH CHAT

W. E. FERRELL
Pastor First Christian Church

Analysis of Bible—John.

Today we begin our analysis of the last of the four gospels, the Gospel of John. In this gospel we will find many interesting things.

THE WRITER. The Apostle John, the beloved disciple, the son of Zebedee.

THE DATE. This is uncertain. Probably late in the first century.

MAIN PURPOSE. To inspire faith in Jesus Christ as the Son of God.

KEY VERSE. "But these are written that ye may believe that Jesus is the Christ, the Son of God, that believing ye might have life through his name." John 20:31.

CHARACTERISTIC FEATURES.

It is considered by many to be

the deepest and most spiritual book in the Bible.

2. In it Christ gives a more complete revelation of Himself and of God than in either of the Synoptic Gospels.

(1) Of his person and attributes. See the "I Am's" of Christ. John 4:26, 6:35, 8:23, 8:58, 9:5, 10:7, 10:36, 11:25, 13:13, 14:6, 15:1.

(2) Of his divinity. 1:1, 10:30-38, 12:45, 14:7-9, 16:15.

(3) Of the work of the Holy Spirit. 14:16, 14:26, 15:26, 16:7, 8, 16:13, 14, 15.

(4) Of His own divine commission. For example, in the fifth chapter, He declares Himself to be sent from God, six times consecutively, verses 23, 24, 30, 36, 37, 38.

(5) Of the Fatherhood of God. Christ speaks of God as the "Father" over one hundred times. For example, God is the spiritual father, 4:23. He is the life-giving father, 5:21. The message is the father's, 7:16. The father is greater than all, 10:29. The works of the father, 14:10. God is the indwelling father, 14:23. He is the eternal father, 17:5. He is the Holy Father, 17:11. The Righteous Father, 17:25, etc.

3. Perhaps the most notable of all of the peculiarities of this gospel is the fact that over one half of the space, in the book, is given to the events of Christ's life and His sayings during the last days.

The gospel of John is one of the most interesting books in the New Testament as it sets forth facts to prove that Christ is God's son and helps us to appreciate him as our eternal saviour.

(Next week we will continue the distinctive features of this book)

New Term Used by Dodge Has Definite Meaning and Apt Application

Like automobile engineering itself, motor car terminology is becoming more and more scientific. At least so it seems when you come to a crowded automobile show exhibit and find yourself looking at the new "Synchronomatic Dodge."

Being of an inquiring turn of mind, you ask the attendant, "what does 'synchronomatic' mean?" Then the attendant, probably for the fifty-seventh time that day, comes back with, "well, sir, the word is a contraction of two words—'synchronous,' meaning happening at the same time or speed, and 'automatic,' meaning self-acting.

"There is no such word as 'synchronomatic' in the dictionary—not yet, that is. But I'm sure it will get there eventually, just as did the word 'dependability' which, though applied to Dodge cars for many years, did not 'make' the dictionaries until a couple of years ago.

"Dodge engineering for 1935, introduces quite a variety of features that are synchronomatic. Take our new front suspension, for example. Its effect is to synchronize the action of the front wheel on one side with that on the other side. The process takes place automatically. So we call the suspension method 'synchronomatic.'

"Or take the new Dodge transmission that makes gear shifting so easy this year. It is so arranged that the rotation of the two gears to be meshed is synchronized, made to occur at the same speed while the shift is being made. The driver has nothing to do about it. The transmission automatically attends to the synchronization. Therefore we call the transmission synchronomatic. Get it?"

"But that is not all. There is an automatic engine choke which synchronizes its action with the temperature of the motor and then does, automatically, whatever choking may be necessary to get an instantaneous start. We also have an automatic spark-timing control which synchronizes its setting with the engine load or idling conditions. There is a carburetor heat control which, again automatically, synchronizes its work with the changes in engine temperature. Even the water circulation through the engine is synchronized by the automatic working of a thermostat making the water flow faster or more slowly, as happens to be necessary for best engine operation at any given moment. And, of course . . ."

By this time, however, you pass on, making way for another show visitor wanting to know, "what does 'synchronomatic' mean?"

ASHTOLA SCHOOL NEWS

Vera Barker
Our Junior boys were defeated in a basketball game Friday afternoon by the Martin team. Friday evening the play "Truth Takes a Holiday" was presented. Very few were present because of bad weather. The returns were \$7.75. This will help secure Inter-scholastic League material. No definite date is announced

for P. T. A. meeting at this time. An interesting program will be presented at the next meeting, however, including a one act play "Ambition" and a talk on "The New Curriculum" by Dr. H. A. Finch.

At the ninth grade class meeting last week Eileen Rhoads was elected secretary and treasurer in the place of Ruth Warrick, who resigned the position.

The date for the high school banquet is set for Thursday, February 28th. Plans are being made for a very enjoyable evening.

WORKER'S EDUCATION CHATS

Interest is gaining very rapidly in the discussions in the classes of Worker's Education in Donley County. Everyone present expresses much enthusiasm in their attendance and thought contributions. We are giving a study of old age pensions that everyone should be thinking about. If the pension does pass the ones that are of the required age will benefit and should study with us on the history of the pensions in Europe and other foreign countries as well as what the other states of this country are doing to provide for the aged. We are giving some thought and study to the proposed Sales Tax, that in all probability will have to be passed to pay for the pensions.

Classes meet at the following places:

- Lelia Lake on Monday evening.
- Martin on Tuesday evening.
- Ashtola on Wednesday evening.
- Martin on Thursday evening.
- Giles each Friday evening.

Classes are held in the school-houses and begin at seven o'clock, and run to ten o'clock. Everyone is cordially invited. If you have a problem that you would like to bring up for group discussion that would interest most of the class, we would like for you to mention it. All classes are of the open-forum type, round-table discussions.

Earle Jones
Counselor Donley County.

SUNNY VIEW

The Sunnyview pupils will present "The Red Headed Step Child" Friday night, Feb. 22nd. Every one try to be present.

Mrs. F. L. Behrens is spending this week with her daughter, Mrs. Roy McKee of Lelia Lake.

Mr. and Mrs. Winfield Mosley, Mr. and Mrs. Leroy Tidrow, were callers in the Perry Tunnel home Sunday night.

A CHILD'S LAXATIVE SHOULD BE LIQUID

(Ask any doctor)

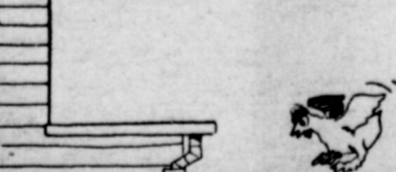

For your own comfort, and for your children's safety and future welfare, you should read this:

The bowels cannot be helped to regularly by any laxative that can't be regulated as to dose. That is why doctors use liquid laxatives.

A liquid laxative can always be taken in the right amount. You can gradually reduce the dose. Reduce dosage is the secret of real and safe relief from constipation.

The right liquid laxative dose gives the right amount of help. When repeated, instead of more each time, you take less. Until bowels are moving regularly and thoroughly without any help at all.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, natural laxatives that form no habit—even in children. Its action is gentle, but sure. It will clear up a condition of biliousness or sluggishness without upset. Every druggist has it.

Misses Dorothea and Neva Riley spent Saturday night and Sunday with their sister, Mr. and Mrs. R. H. Mosley.

Mr. and Mrs. Bill Meaders and family and Mary Ellen Williams sat until bedtime in the Loyd Moreland home Sunday night.

Mr. and Mrs. Sam Dale and daughter Lucille spent Sunday afternoon with the lady's parents, Mr. and Mrs. R. A. Brame.

Miss Nannie May Behrens is

spending the week with her sister Mrs. T. T. Waggoner of Claude.

Mr. and Mrs. Loyd Moreland and children spent Sunday afternoon in the J. F. Cannon home.

Master Bobby Jiggs and Lenord Mosley are spending part of this week with their grandparents, Mr. and Mrs. Hugh Riley.

Mr. and Mrs. N. L. Jones and Mr. and Mrs. Parker were callers in the eJan Hester home Sunday afternoon.

Mr. and Mrs. Hugh Riley and son H. L. spent Sunday with their daughter, Mr. and Mrs. Elmer Palmer.

Mrs. Millard Starks who has been ill for some time is much better.

Don't Get Up Nights

MAKE THIS 25c TEST
Use Juniper oil, Buchu leaves, etc., to flush out excess acids and waste matter. Get rid of bladder irritation that causes waking up, frequent desire, scanty flow, burning and backache. Get Juniper oil, Buchu leaves, etc., in little green tablets called Bukets, the bladder laxative. In four days if not pleased go back and get your 25c. Get your regular sleep and feel "full of pep."

Stocking's Drug Store
Douglas & Goldston

ter. Mrs. Neal Bogard spent Monday with her mother, Mrs. M. Stark.

Mr. and Mrs. Sam Roberts spent Saturday with their daughter, Mr. and Mrs. Floyd Parker.

Miss Kathleen Riley of Amarillo spent last week with her parents, Mr. and Mrs. J. N. Riley and family.

STRANGER STILL AT LARGE

EVERYONE ELSE HAVING FAILED, PINKY RORBACK, OUR BURLY BUTCHER, IS ELECTED TO ARREST THE STRANGER WHO CAME TO TOWN WITH A MYSTERIOUS BUNDLE—HUMAN FEET WERE PROTRUDING FROM THE BUNDLE. ARRIVING ON THE SCENE OF ACTION, HOWEVER, PINKY PASSED UP THE HONOR.

DEATH CLAIMS J. S. SOLOMON SUNDAY MORNING

Was Father of Girl Killed
By Houston Upton Who
Was Tried Here

Funeral services were held for John Stewart Solomon, aged 75, at Floydada Monday afternoon. Mr. Solomon passed away at 3 a. m. Sunday having been afflicted with cancer of the face for more than a year. Services were conducted at the First Methodist church at Floydada with the pastor, Rev. I. A. Smith in charge.

Interment was made in the local cemetery with the Masonic lodge of which he had been a member for many years, in charge. Failing health caused him to resign from the office of justice of the peace in July of last year, an office he

held since January, 1927. Born in Dale County, Alabama, March 7, 1859, he came to Freestone County, Texas, when 17. He later resided in Wise, Dallas and Hall Counties and moved to a farm in Floyd County in 1918 and to Floydada in 1923.

He is survived by his widow, six daughters and four sons: Mrs. G. W. Trussell of Boyd, Mrs. J. E. Moore, Mrs. A. E. Hutcherson, J. F. Solomon and E. W. Solomon, all of Memphis, Mrs. N. W. Williams, Mrs. W. H. Henderson, Miss Lillie Solomon and M. L. Solomon, all of Floydada, and H. M. Solomon of Coleman.

All of the above named relatives attended the last rites.

Mrs. Solomon is a sister of R. L. Bain of Clarendon, and Tom Bain of the Naylor community.

Mr. Solomon was the father of one of the girls murdered by Houston Upton, and whose trial here in July of 1922 resulted in Upton being given a life sentence.

Officers Kept Busy on Seed Theft Cases in Donley

The sheriff's office reports the arrest of one young man charged with theft of cotton seed, and his confession. Several others will likely be arrested on similar cases within a few days.

For some time seed had been sold to a firm in Memphis by a party who used various names. He claimed to live in a number of different sections of the county from Antelope Flat to Spade Flat. When he pulled in a trailer of seed Saturday night, the Memphis firm made notation of the car license.

While the Sheriff was busy on another phase of the case, deputy Wright answered the phone by which he was advised from Memphis as to the car number. The records here disclosed the owner. The Memphis party identified the son of the car owner as the party who had been bringing in seed at various times.

Monday deputy Wright arrested Alvin Swinney and brought him to Clarendon. When confronted with facts gathered by the officers, he is said to have readily admitted selling five loads, but the mill had really bought seven loads for which they had paid him \$229.65, it is said.

A fine of \$50, and costs amounting to \$24.70 was paid. The father of the accused agreed to pay the McKnight gin, from where all the seed is said to have been taken, the \$229.65. This closed the case and the officers are looking for the parties who stole seed from Ben Bain with a fair chance of finding out the guilty parties.

Old Fiddlers to be Heard Thursday Night

Those musicians who come to the Thursday night musicals at the courthouse, and any others who wish to come, are cordially invited to come to the courthouse this Thursday night at seven thirty to hear particulars about the old fiddlers contest which will be given in connection with the play "Bertie's Cave Woman" at the College on March the sixth.

Prizes will be given away at that time to the best fiddlers and guitar players. Anyone interested in this contest, be at the courthouse this Thursday night. The public is also invited to attend.

W. G. Word visited relatives in Amarillo Sunday.

Mrs. E. A. Teague, for many years a resident of Clarendon, is now residing in Boise, Idaho, according to a recent letter from R. J. McCaslin, husband of her youngest daughter who asks that the Leader be sent them.

Dramatic Class Adult School To Present Play

The dramatics class of the local adult school has been winning quite a bit of favorable comment. To date they have presented their first play, "Bertie's Cave Woman" to the public nine times and have several arrangements for showing it in the future. Requests are coming in to hurry and get the second play ready for presentation in places where "Bertie's Cave Woman" was played.

This must mean there is the unbeatable combination of a good play and good acting. Several people have seen this play three or four times and have announced their intentions of seeing it again when it is presented in Clarendon.

"Bertie's Cave Woman" is the story of a group of English high-brows thrown by an unwelcome fate into the uncouth atmosphere of western ranch life and natives of the open spaces who decide to give them something to remember in the way of western wildness.

In addition to this hilarious comedy there will be an old fiddlers' contest. Many of the musicians of the county have already announced their intentions of entering and a score or so is expected to participate. The play and fiddling contest will take place at the college auditorium the night of Wednesday, March the sixth. Tickets will be placed on sale at local stores. Watch the signs.

T. D. Nored, formerly manager here for the Utilities company, was over from Paducah Tuesday where he has a similar position.

Monte Garrison, formerly manager here for the Utilities company, is the big shot at Vernon, having been transferred there from Wellington.

WAR DEPARTMENT HELPS IN MAKING FLIRTATION WALK

Picture Will be Shown Here
Wednesday and Thursday
Next Week

See your army and navy in battle maneuvers on land, sea and air—filmed for the first time through the cooperation of the War Department. This picture, "Flirtation Walk", will be shown at the Pastime Theatre next week, Wednesday and Thursday, February 27-28.

Dick Powell and Ruby Keeler are the big shots in this picture in which are incorporated Hawaiian lagoons where the palms fringe the waters of romance. Dick Powell captures Ruby Keeler's heart as he sings the native Hawaiian song of courtship in a spectacular scene produced by Bobby Connolly, director of "Ziegfeld Follies."

"Hundredth Night Show", staged by cadets of Annapolis. Pat O'Brien, the chin-busting Irishman of "Here Comes the Navy" picture gets a lesson in anti-aircraft gunning.

Romance, laughs, war pictures on land, sea and air all to be seen in "Flirtation Walk" at the Pastime Wednesday and Thursday.

Miss Laura Catlett visited relatives in Erick, Oklahoma the first of the week returning Tuesday.

Herman Cross of Brice was operated on for appendicitis Monday at Dr. Odum sanitarium at Memphis. Herman is the nephew of Major Hudson.

Mr. Frank Pracher is seriously ill at this time. He has been an invalid since a stroke several months back.

Harvey Shaw of Windy Valley blew into town Tuesday. Harvey says it is too dry to do anything yet down his way.
