## FACTS ABOUT PROPOSED AMENDMENTS

By Gerald C. Mann, Secretary of State

### Proposed Amendment No. 1

#### OLD AGE PENSIONS

The first proposition to be found on the ballot in the August 24th Special Election on Constitutional Amendments is the so-called Old-Age Pension Amendment. This year, for the first time, the amendments will be numbered, according to Secretary of State Gerald C. Mann.

The Old Age Pension Amendment proposes to give the Legislature the authority to pay these pensions to persons over the age of 65, who are not habitual drunkards nor habitual criminals, nor inmates of any State Supported institution. Those who are eligible must have lived in Texas at least 5 years, during the nine immediately preceding application and in the State continuously for one year.

All other restrictions and limitations would have to be set up by the Legislature.

The Amendment authorizes the Legislature to accept money from

the Federal government for the same purpose. It is presumed that Federal funds would match State funds. The maximum amount to be paid by the State would be \$15 per month. It is presumed that the Federal government would match State Funds. The total pension per person per month in this case it is presumed would be \$30. The amounts might be smaller, however; but not larger.

It is estimated that the cost of this pension to the State would run between forty and fifty million dollars annually. No provision is made for the income. It would be up to the Legislature to determine where the money would come from. The Legislature would have to enact such laws as it deemed proper to utilize the right granted by the amendment. The Legislature might do this at once, or some time later—or that matter not at all. The amendment is permissive and not mandatory, though few doubt that some form of old age pensions would be enacted if the amendment is adopted in August.

### Postmaster Explains Facts Of His Lionship

The program committee to function at the Lions luncheon hour Tuesday was found to be badly scattered when the crucial moment arrived. In fact Postmaster Chas. H. Bugbee appeared to be the only one who could make it possible to be present. He held the Lions at Bay with a humorous explanation on "why he wanted to become a Lion."

Dr. O. L. Jenkins' announcement that it would soon be possible to remove the casts from the limbs of the little daughter of K. C. Reid, a protege of the Club.

Round table discussion consumed a portion of the time for the pleasure and profit of the membership.

C. B. Morris, H. M. Breedlove and J. E. Teer as a program committee for next Tuesday, announce something "extra strong" in the way of entertainment.

### County Board of Education To Meet August 10th

A large number of school buses have been purchased in preparation for the opening of the various rural schools, some of which will send the higher grades into Hedley and Clarendon.

The final arrangement date for transportation is to be made in a meeting of the County Board here August 10th, it has been announced. W. A. Poovey of Ashtola is president of the Board.

### Less Than 10 Percent County Population On Relief Roll

One hundred and eighty-three families are now on the county relief roll, representing nine hundred and sixty-two individuals. This is less than 10 percent of the county's population.

Of the above number, it is said that about 160 can qualify under the new works program.

### Grandfather of Jim Baker Was Texas Ranger

Relics now in the possession of Jim Baker of the Martin community recall the trying times when Texas was young and settlements scattered.

These relics consist of a shot pouch and a powder horn, and were the property of R. D. Richardson and were used before the Civil War. Mr. Richardson, grandfather of Jim Baker, was an early Texas ranger and Indian fighter. He first settled where Corsicana now stands, erecting the first house there.

Later he went into Jack county where he had several skirmishes with Indians as a Ranger. At that time long rides were made during dry weather and both water and food was very scarce. The blood stain on the shot pouch mentioned above, was caused by carrying a buffalo melt next to the pouch on the saddle.

Jacksboro was a mere fort location at the time. Settlers, few in number, were frequently forced to flee to the fort for protection from marauding Indians. On Salt Flats between Jacksboro and Graham, the noted Indian massacre of whites occurred in the early 70's.

### Norwood Pharmacy Employs Pharmacist

Taking the place left vacant by Ted Williams, Paul Slaton of Wichita Falls this week joined the staff at the Norwood pharmacy. He is a registered pharmacist and comes highly recommended. He formerly was employed by a leading drug firm in Wichita.

### Huey Long to Use Radio In Speech Friday Night

The Leader is requested to announce that Senator Huey Long will speak over the NBC network at 7 p. m. July 19th. The subject of his talk will be "The need of sincerity and truth in Mr. Roosevelt's promises."

## FRED WILLIAMS BUYS CLARENDON NEWS ON FRIDAY

South Texas Publisher To Take Charge of Work Here Today

After operating the Clarendon News here since 1916, Sam Braswell disposed of his interests to Fred Williams of Taft, San Patricio county, Friday.

Mr. Williams, wife and little daughter were here for two days but returned to south Texas to make preparations to move their effects to their new home. They will arrive today, according to plans.

Mr. Williams was connected with a Corpus Christi publication for some time, operated a plant of his own, and more recently was publisher of the Taft Tribune, it is said.

He comes recommended as a young man of sterling qualities and well qualified to make a success of his chosen profession. Clarendon welcomes Mr. and Mrs. Williams and their little one, and hopes they will find the location of their choice one of pleasure and profit.

Braswell has not announced his intentions at this, though it is said that he will engage in Centennial revivals over the state.

### Local Boy and Girl Making High Grades at Tech

Friends here will be glad to know that John R. Ragland, son of Mr. and Mrs. Geo. E. Ragland, and LaVerne Lott are making creditable grades of which any boy and girl should be proud at Texas Technological College at Lubbock.

Each of these two students made the spring semester honor roll at this school with an average grade of A- on 15 hours or more semester hours work.

### Lutz Trades Home for Farm Near Hereford

Geo. Lutz, formerly in the second hand business here, has traded his home in Clarendon for a 160 acre irrigated farm near Hereford. He expects to move to the farm soon.

Miss Ada E. Russell becomes owner of the Lutz home in Clarendon, and will soon become a citizen of our fair city.

## McELVANY BUYS SERVICE STATION HERE SATURDAY

New Sinclair Station Was Formerly Operated By George Carter

Operation of the service station was taken over by Mr. McElvany Sunday. He will continue to be assisted by "Cat" Armstrong, popular man around filling stations for several years in Clarendon.

The station was operated by George Carter who has not announced his intentions at this time. It is hoped that he will find something attractive here, and that Clarendon will not lose his popular family.

Mr. McElvany came to Clarendon some six years ago and engaged in the tire business. He later contracted the sale of two popular makes of cars within recent months.

The station is ample to permit of a proper display of his large stock of tires and the auto show room. The location is across the street from the City Hall on Highway 5.

### Nazarene Revival to Begin At Hedley Sunday

Rev. R. M. Parks, who is conducting a Nazarene revival in a tent here at this time, will begin a revival at Hedley next Sunday, the 21st, and will continue to August 4th.

The Parks-Hawkins quartet of singers will be in the meeting at Hedley, it is announced.

## CLIFFORD DAVIS GETS APPOINTED TO BETTER JOB

Had Served This County As Relief Administrator Since August, 1934

Notified of his appointment Monday as assistant Works Progress Administrator of the Amarillo district, Clifford Davis left Monday night for San Antonio where district and state officers of the W. P. A. are in conference.

Mr. Davis will office in Amarillo. The district including 26 counties of the Panhandle will be under the direct supervision of A. N. Meredith, district administrator, and formerly county relief administrator of Potter county.

It is generally understood that the Works program will displace the relief program in force for the past several months.

Under the Works program, unskilled laborers will be allowed \$21 a month; intermediate labor \$30 a month, skilled labor \$38 a month; professional and technical labor \$42 a month.

A total of 130 hours shall constitute a month under the Works program, and all labor will be closely supervised to insure a full days work for the price paid by the government. This is the information given to the press at this time.

The construction of "farm to market" roads will be one of the prime objects under this WPA program. Projects, with a few exceptions, will be limited to not more than \$25,000, it is announced by officials in charge of the new set-up.

### Moon Stages a Show Monday Night in Total Eclipse

It was approximately 10:25 p. m. Monday when the full moon became totally invisible. This period has been agreed upon by several who timed the lunar object.

Rocking chairs were well filled in the yards of a large number of homes as the audiences of the nation watched the finest eclipse spectacle in years.

A clear sky gave local citizens an opportunity to watch the moon in its various phases of being blotched out by the shadow of the earth. Orange and bronze coloring did not appear until the moon began to escape the shadow.

## HOWARD RANCH SERVES FISH TO FRIENDS SUNDAY

Old Timers Get Together For Big Feed and Musical Program

They never do things by halves down at the Howard ranch on the Palo Duro southwest of town. Sunday a large number of old friends of Mrs. M. T. Howard and son, A. W., and family gathered in response to an invitation to enjoy a real fish fry such as was common in these parts long ago.

Two large lakes supplied plenty of the finny tribe when a seine was brought into action. Camp fires were built and the big noon-day meal prepared in the open picnic style.

After some sixty guests had eaten to their heart's content, the crowd adjourned to the beautiful ranch home where A. W. Howard, master violinist, gave the folks a real treat. Accompanists were his talented daughters, Misses Chrystal and Phyllis, who took turn about at the piano.

Miss Bobbie Claire Davenport of Memphis gave a beautiful musical reading with her sister, Miss Anna Kathryn at the piano.

A number of those present who are not so situated that they get into the open often, enjoyed the wonderful scenery of the canyon and the happy privilege of meeting with a jolly group of old timers. They are just as enthusiastic over the wholesome hospitality of the Howard ranch owners as anything else, and more so to judge from the expressions heard.

## PICNIC TRIP IS MADE MONDAY BY SONS OF LEGION

"Ole Swimm'n' Hole" With Plenty of Food Gives 25 Youngsters Real Thrill

Some twenty-five Sons of Legion were accompanied to the old Word ranch headquarters late Monday afternoon by ten grown-ups for just such an outing as would appeal to any normal boy.

Upon arriving at the ranch, the swimming hole attracted attention immediately. Swimming, diving and more or less water fights and duckings under close supervision afforded plenty of amusement that was verified by the amount of noise made.

A plentiful supply of food was taken along. With this an ample supply of lemonade, ice cream and other tempting dainties were the finishing touches to a healthy appetite.

The crowd left long after dark, more time being consumed with the eats than any other part of the enjoyable affair.

Among the grown-ups were Mesdames Curtis Thompson, Henry Tomb, Clarence Pipes, Tom Tucker, Gus Stephenson, and Miss Jane Kerbow. Men folks making this trip were G. G. Reeves, C. B. Lane, "Lump" Lumpkin, Shorty Eastman from the Chenault ranch.

If the boys have their will gratified, these trips of a like nature will be made more often.

### Mrs. Gibbs is Found Dead In Bed Friday

Mrs. Geo. Gibbs, the large kidly old lady who used to live here was found dead in bed at Carey Friday morning. She had been dead about forty-eight hours, it is said.

Mr. Gibbs was relief operator here for some time, and was stationed at Ashtola at the time of his wife's death.

### Home is Destroyed by Fire Early Friday

The Tom Davis family on the Lovelace place near Hedley were deprived of all their family effects in a fire that destroyed their home about 9:30 Friday morning.

The fire is of undetermined origin. The owner of the farm resides in Georgia, the farm being managed by R. F. Morris for a number of years.

## OILERS BAG ALL HONORS IN SOFT BALL SCRIMMAGE

Disregard Heat and Insects To Win Seven Straight Games in First Half

The Oilers, made up of players from service stations, defeated all comers in the first half of the soft ball league games. This team won every game—seven of them without a loss.

The schedule for the second half follows:

- July 22—Oilers vs Methodist
- July 23—Highway vs Lions
- July 25—Oilers vs Transients
- July 26—Methodist vs Highway
- July 29—Lions vs F. F. A.
- July 30—Transients vs F. F. A.
- Aug. 1—Lions vs Methodist
- Aug. 2—Highway vs Transients
- Aug. 5—F. F. A. vs Oilers
- Aug. 6—Transients vs Methodist
- Aug. 8—F. F. A. vs Highway
- Aug. 9—Lions vs Oilers
- Aug. 12—F. F. A. vs Methodist
- Aug. 13—Highway vs Oilers
- Aug. 15—Lions vs Transients

### County Superintendent Asks Transfers to Be Made Now

All transfers of both high school and elementary pupils must be made by August 1st. Final tabulation of transfers must be in Austin by August 15th, and no transfers can be made after August 1st. Any district dissatisfied with any transfers may appeal to the County Board of Trustees.

## RACING STOCK ATTRACTED MANY TO CLARENDON EARLY IN THE CENTURY

Money, Saddles, Boots, Blankets And Often the Horses Themselves Were Put Up as Bets When Kentucky Ideas Prevailed

### G-Men at Pastime Theatre Sunday and Monday

Most every one has read about Uncle Sam's "G-Men" which means "government men" instead of "gun men" as some suppose. The picture to be shown here Sunday and Monday will give one a fair idea of what these men have to face, the methods used and the results.

The Union station massacre will be shown. Thrills? Just plenty of them with a number of close shaves thrown in. This is the contribution of the movies toward teaching the public that "crime never pays."

See this picture. You will appreciate the information and enjoy the thrilling moments that are brought out so vivid and real. Reading about the daring exploits of G-Men is interesting, but seeing the picture is great.

### Legion Rodeo at Claude Is August 8-9th

The 5th annual rodeo of the American Legion sponsorship will be held over two days, August 8-9th. Business men of Claude are solidly behind the movement.

This rodeo event attracts a large crowd each season. Besides the average or ordinary western stunts, many other attractions are provided.

Prizes in calf roping, bronc riding, steer riding and bulldogging total \$296.00.

### First Rental Checks Arrive Here Monday

County agent H. M. Breedlove announces the receipt of fifty-four cotton rental checks totaling \$1,568.53. All producers receiving a check have been mailed notices.

### United States Court Holds Processing Tax Illegal

A U. S. Circuit Court of appeals in Boston Tuesday held the processing and floor taxes under the A.A. illegal.

The court found that no such authority to impose taxes had been granted or a decision of the Supreme Court.

Government attorneys immediately announced that the matter would be passed to the supreme court for final decision.

### Several Attend Ceta Canyon Conference From Here

Those in attendance on the Presbyterian conference at Ceta Canyon from here are Mesdames A. L. Chase, F. E. Chamberlain, Rev. Robt. S. McKee, Robert McKee Jr. Arthur Chase, Neil Cook, Jean and Ruth McDonald.

### Will Begin Revival Sunday At Hedley Church

James L. Standridge, pastor of the local Church of Christ, will begin a revival next Sunday for that denomination in the Hedley church.

The series of sermons will end on July 30th. Preaching twice daily, at 10 a. m. and at 8:30 p. m. The public is cordially invited.

### LEARN TO KNOW YOUR NEIGHBOR

Out in this western country where our miseries and sorrows, joys and prosperity are shared more in common than in any other section, we are a lot more neighborly because of it.

If our neighbor prospers, we also prosper right along with him. But if he is getting nowhere, we are down and out just the same as he. Being neighborly helps all of us to get along much better.

Our neighbor offer at this time is that we will send you the Leader from now until January 1, 1936 for only 50 cents. This applies to both new and renewal subscriptions. Tell your neighbor about it. A few people still are borrowing the paper from a neighbor, a lesser number don't take it because they don't feel like spending \$1.50 for the year. Now you can get the best county paper you ever saw for 50 cents.

(By Wanda Mayfield)

"Go!" yelled the starter, and a bunch of horses started around the beaten track in a flurry of dust. The bay from Dallas, an expensive bay ridden by a trained jockey took the lead, and the standing crowd of cheering men and women were glad they had placed two dollars on him. He was a sure bet. But wait, an old roan from the cocklebur patches of Brice was leading the second round. They were neck and neck, then from the straggling line behind suddenly there sprinted out the local pet, a two-year-old who had won previous races at the track. He gained steadily and dashed over the finish line a couple of paces ahead of the roan, with the highfalutin Dallas colt taking third place.

This pictures one of the most exciting races ever held at the Clarendon Race Track; time, 1906. Near the city lake there was a track that drew speculating men in tight leg trousers and black derby hats, and ladies in modish dress, gigantic hats fitted with duster veils, and high top shoes. There were not any grandstand seats; the people perched on their buggies or wagons or stood at the edge of the track.

There were no stalls for the horses to line up in; they were arranged close together, "no daylight between", and at the signal the race began. Three men judged the winners of the race and awarded prizes. Familiar names connected with races at that time were Paul Atteberry, Tom Bugbee, "Doc" Howard, Bob Blair, H. Lott, Manly, J. W. Kent, and Harry Weatherly.

Persons who were residents of Clarendon when horse racing was the greatest sport of the Panhandle will remember the furore caused when it was found that a particularly swift horse, Heefly, owned by H. Lott, was being treated with a pint of choice whiskey before he won each race. This encouragement was considered illegal, but nobody could prove it, so other horse fanciers tried the "sousing" method. "Heefly" was never defeated on the Clarendon track, and his fastest time was made when he was twenty-three years old.

These memories of Clarendon's racing days were recalled by Bob Blair in an interview recently.

## Fred Buntin To Erect A Service Station Of Spanish Design On West First Street

A service station soon to be erected by Fred Buntin will be one of the beauty spots along Highway 5, according to the designer. The location will be located on the south side of the highway, opposite the location of what has been known as the old JA house in the west edge of town.

The building will be an "L" of Spanish design, stucco with concrete floors and fireproof.

The east wing of the "L" will be used in housing the wash and grease racks, and will measure 20x20 feet with a glass front next to the highway.

The front portion will have a drive-in space of twenty feet on

the inside with three pumps on an island and one on the inside next to the wall. A space for filling cars to the outside next to the highway will be provided making it unnecessary to even drive inside.

The main building will be 16x20 and will contain an office space and a display room for accessories behind a large glass front. The middle portion of the back room will be used as a general supply room.

Rest room for men on the east of the supply room and for ladies on the west, it being possible to enter either from the outside.

Work is to begin at once and Harlow Stephenson will have general supervision of the work.

SUCCESSING DESPITE HANDICAPS.

Old Donley county has the best prospects for a bumper crop at this time than has existed for years. All the cotton allowable is looking fine. Plenty of feed stuff is being grown for home consumption and market. The women folks are already canning vegetables and chickens.

At this time it looks like we are going to pull through despite anything the national lawmakers can do in the way of experiments. It might be better if they would adjourn and not meet again for ten years.

DAN CUPID AND OLD AGE PENSIONS.

"After "going together" for some time, a 76-year-old couple were able to be married through the aid of the Ohio old age pension system. Until they received pension checks, John Shields and Mrs. Polly Sebring, both of Prospect, were residents of the county home."

The above item appeared in the daily press this week. Only two things are likely to rob the poor house of its inmates—death or old age pensions. In this particular instance, two old people may live happily in a home all their own, even though a rented home beats a poor house by far. No doubt each of them contributed several thousand dollars in Taxes, directly or indirectly, during their more active years.

Relation of Clarendon to Other Cities With Lighted Athletic Fields

By J. L. Kerby

During the past spring, the school officials in our present football district were able to bring about a change in the size of the district. Before this year, we have played in a district so large that it was necessary to divide it into 4 sections and have playoff games before the winner of the district would be picked as champion. For the 1935 season our district has been made smaller and is composed of only 8 teams and we shall play a round-robin style of play rather than divide into sections, that is, each team will play a total of at least 7 conference games. We believe that this will ind more interest to the race for championship and we hope to be able to keep the district unchanged in future years in order to build a wholesome rivalry within the conference.

This Fall our district is composed of Memphis, McLean, Shamrock, Wellington, Lefors, Wheeler, Mobeetie, and Clarendon. The reader can readily note that these teams have been strong in the past and it will be very nearly impossible for a team to win the district championship without the loss of a game.

Out of this district there are 5 teams which have lights installed on their fields. Those teams are Shamrock, McLean, Memphis, Lefors, and Wellington.

Wheeler intends to have lights installed for the 1935 season. Mobeetie has scheduled all games away from home during the season because the school does not have a lighted field. When the following schedule was made for Clarendon it was made in the hopes that our installation would be made before Sept. 20, 1935:

- \*Sept. 20—Claude at Clarendon.
- \*Sept. 27—Wellington at Wellington.
- \*Oct. 4—Shamrock at Clarendon.
- \*Oct. 11—Groom at Clarendon.
- \*Oct. 18—Lefors at Lefors.
- \*Oct. 25—Mobeetie at Clarendon.
- \*Oct. 31—Inter-Squad Scrimmage at Clarendon.
- \*Nov. 9 or 11—Memphis at Clarendon.
- \*Nov. 16—McLean at Clarendon.

This committee was selected outside the publishing profession to avoid "frittering away" the appropriation of \$500,000,000 set aside for publicity.

Publishers will be asked to print "accurate and attractive news of the Centennial free" as has been done for the past year. The committee evidently thinks the "free" scheme will work since an "expert press agent of San Diego" has been employed to get out the free dope.

Publishers will likely return the "free" copy with a rate card and ask that a reasonable fee be paid for the service. Especially since the press agents and others in the Dallas office will be of the high-salaried class.

This is a mighty fine time for the publishers of Texas to stick up for their rights and make their influence felt.

\*Nov. 23—Wheeler at Wheeler.  
\* Conference Games

From the above schedule it can readily be seen that 6 of the 9 games scheduled will be played in Clarendon; and, as was stated before the games will be played under lights if possible.

If for some reason we are unable to get lights this year, it may be necessary to make some changes in the schedule. If the day crowds are insufficient to take care of the expenses, we may be forced to request that those teams who have lighted fields make us offers of guarantees to play on their field rather than on our own. Of course we shall not follow such a method unless we are unable to meet expenses as happened in our day games of 1934. We do not believe such a measure will be necessary because we believe that the people in the city will back us and help us get the lights installed; and then we can probably have 5 or 6 home games every year.

In case we do not get lights we face a serious problem of having to change districts in 1936, which would take us out of the district of ancient rivals and would force us to play new teams. It will not be surprising to find that in our section there will be an ALL-Lighted district in 1936, which will be composed of those teams which have lighted fields. Panhandle now has a lighted field and made a very strong attempt to get in our district this year and will probably make the same attempt in 1936. When this ALL-Lighted district is formed, Clarendon certainly wants to be one of the members.

Next week's article will be a summary of plans of installation which have been tried and our plan for installation in 1935.

Donley County Leader \$1.50 a year

All phases of work at the Park has progressed well during the past few weeks, and it has been stated that the Palo Duro has more approvals through the office of the National Park Service than any five combined Parks in this division.

Several projects are now underway at the Park. The four stone cabins at Cow Camp have been supplied with temporary furniture. Permanent furniture of cedar is now under construction. Water lines are being run to the cabins. The springs on the north side of the canyon that furnish this supply are being developed to capacity. Geologists from Amarillo are making extensive surveys of the potential water supplies in the canyons.

The Advisory Committee has set a price for the use of the lodge for parties and entertainments. The charge will be \$7.50 for day, and \$12.50 for night entertainments.

Facilities for Week End Trippers to Park

Canyon, Texas, July 13, 1935.—The National Park Service has approved the construction of 20 more cabins in the Palo Duro and work was started Monday by Supt. Louis J. Bryan working on a test cabin to determine the cost. The first cabins will be of stone, located west of the lodge on the same ledge of rock as the ledge occupies. As soon as the test cabin is completed, the 19 additional cabins will be constructed.

The Park Lodge building, which has had no work done towards its completion for some time, will have a hardwood floor laid in its dining room, as the result of many requests for the lodge as a place of amusement.

TEMPLE OF TRUTH  
By the Apostle

Women are getting to be plenty smart. If a woman wants to be extra smart, she can, by using a foundation pattern supplied by the Home Demonstration Department of the Extension Service of the state A & M College, use two feed sacks and a dab of bias tape and make herself a two piece dress. They look swell. Where the country has a demonstration agent, she can tell 'em how to make the dress. A few in this county have made such clothing. What have the men done? Yeh, what have they?

Jumping at conclusions often brings regret. This is best illustrated by the story of the painted Easter chicks taken home to the kiddies with blue, green, yellow, red and other solid colors sticking up from the box of chicks like a rainbow. To satisfy the family curiosity, the chicks were turned out with the poultry in the barn lot. The old rooster came over and looked over the colored visitors with

quite a bit of resentment. He immediately flew over the fence and walloped the peacock.

A school teacher spends all the money made in getting a degree. Then the spending keeps right on going to school to hold a job. Funny how dumb a teacher must be! Lawyers and doctors seldom do that way.

I hid his crapes boans, broak his fish pole, soad up his pans legs and still he runs out at nite. win I ask him for mune he soaks me in the eye as his tempur is hard to handel. We ar all out on underclose and my muther is comin to stay this summer to help me handel him. Their ain bin no etin terbaker in the hous sins may and I surtlnly miss it. Pleas hurrie up and git moar releaf to us My next babe will be born augus 5."

The human animal is a wonderful affair, but one often wonders how we survive. We have depressions, political scandal, drouth, New Deal, threat of war, insects, hot winds, jazz bands, cellophane skirts, section 7a-2, floods, fanatics, scandal mongers, egotists and now Aimee is about to get married the third time.

A visiting woman never has better clothing at home than she has with her.

If we have run short, how about celebrating national toothpaste week.

The man who knows itall never finds out one thing: That is, just how disgusting he is to the general public.

Some one has suggested that there should be badges to distinguish between government employees and taxpayers. This is hardly necessary as one has stooped shoulders and a haunted look.

"Ain't it funny; some folks you don't miss, And some folks you miss just a pile--- And the folks you can't miss you see lots, And the others just once in a while."

Face-lifting surgeons also erase old finger markings enabling a criminal to disguise both face and fingers. This scheme has now been overcome by the government by photographing the blood vessels behind the eyeballs.

Hay fever has broken out in Brown county, all on account of the Kimkosky-Cashimmelsky wedding.

When the kids come in from college, they generally find fault with mother's grammar, but certainly not her cooking.

The big guns hold conferences in Dallas. Next size guns have dutch lunches in Amarillo, and so on by degrees until we get back home where the "spit and argy" club cuts a wide swath.

A local lady tells me that the slogan "your own friends won't tell you" is not true in every case. She says her friends delight in telling her of her husband's escapades, most of them imaginary. She's at least got good sense not to believe the rot.

Another thing, the dailies spell it "okeh", but the country weekly cracks down on "okay."

John D. Rockefeller is to get \$8,000,000 life insurance July 18. Nice to provide for old age, etc.

Being denounced is bad, but hearing a rival praised is still worse, so the College Hill Widow tells us this week.

Despite the cussing and fussing, radio advertising persists. Last night it led off with "here is a message for all you tired and weary under the New Deal looking for help. Do you wake up weary and tired after 13 hours in bed? Do you feel hungry after going without food 4 days? Do your garters bag at the back and your shoes slip up and down on the heels until dame nature wisely puts a blister there? Does your head feel unrelated to the body after a "night before?" Gentlemen, (also ladies) here is instant relief for you. Send for our free sample. It is good for 99 years if you get it right now. The method is simple. You merely pay the postman \$4.99 to cover cost of postage and packing. Next you remove the stopper, turn a bit into a glass and drink yourself back to gladiator strength at one gulp. How simple! Men fall for it--so do ladies. Don't delay. Send for it right now or you will always be glad you didn't. The chance of a lifetime, folks, the chance of a lifetime."

It is my creed that if you are good and honest six days in the week, you don't have to be so durned pious on Sunday.

"After God got through making the rattlesnake, Gila monster and vampire bat, he had a little material left from which he made the community knocker. A knocker is a two-legged animal with a cork-screw soul, a water-logged brain and a combination backbone of glue and slime. Where his heart

ought to be he has a tumor of questionable principles. When he starts out to look for a victim, good people look the other way, angels weep and the devil locks his door."

Governor Allred is said to be the first governor to admit a man into his sanctum minus necktie and sox.

Speaking of the weather, Bill Barker says he wishes it would rain until his wife would have to hang clothes on the line from a row boat.

Don't get hot. Eat nothing and avoid your wife's relatives. Chew your food well. Go nude or go to bed. Bald heads should use oil to avoid shrinkage.

One of the proposed amendments to be voted on August 24th will appear in the Leader each week in a condensed form. This favor is done the voter by secretary of state Gerald C. Mann. Read the pension plan in this issue.

Adios amigos. See you next week.

CHEVROLET TO SPONSOR G-MEN PROGRAM IN JULY

Detroit, July 8.—Chevrolet Motor Company, using as a story background actual cases from the official files of the Federal Bureau of Investigation of the United States Department of Justice, will sponsor a series of weekly radio broadcasts to be known as "G-Men", beginning the middle of July.

Plans for the program over the Red network of N. B. C. were announced here by company officials following their return from Washington, where they conferred with Attorney General Homer Cummings, J. Edgar Hoover, director of the Federal Bureau of Investigation, and other interested department heads.

A complete episode, based on government records of the bureau's special agents, will be dramatized in a half-hour program each week.

All the scripts in the series will be based on the factual records of the Federal Bureau of Investigation, and will be submitted to Director Hoover for checking before a program goes on the air.

Phillips H. Lord, nationally known for his depiction of the radio character "Seth Parker," who will write the scripts, is now in Washington making a first-hand study of the operations of the Federal Bureau of Investigation, which has made available to him its records of completed cases.

While pleased with the public interest in the spectacular cases it has handled, the Department of Justice, Washington understands, feels that emphasis on its work has been somewhat distorted, and that the drama of the sustained, persistent and relentless pursuits of criminals, originating in its great scientific laboratories, has been subordinated.

Chevrolet Motor Company believes it is discharging a public duty by holding up a clear mirror to the G-Man and letting the true reflection, as contained in the official records, speak for itself. The radio programs therefore will accent details only as they may be accented in the archives.

"The G-Man is entitled to the widespread honor in which he is held today," an official of the company said. "He has done and is doing magnificent work in righting a situation that several years back seemed rapidly delivering the United States into the hands of the criminal element."

"In line with its other activities of a public welfare nature, Chevrolet offers this radio series in the hope of extending accurate knowledge about the workings of the Department of Justice, and in the belief it may double, by spreading that knowledge, the effectiveness of this arm of government service by increasing public co-operation in the war on crime."

"If this can be done, the G-Man will be an instrument of law enforcement which should cause potential violators to hesitate a long time before taking the chance of having the Federal Bureau of Investigation going to work on them."

"Public enemy after public enemy has been overthrown. Gang after gang has been jailed or exterminated. Some years ago we doubted if it could be done. The law-breaker was in the saddle. But it has been done. We will present the true histories of how it was done in the hope that misguided persons will see the hopelessness of crime, and be more convinced than ever that the G-Men get their man."

"If there are some who are still dazzled by the false glamor of the gangster, we hope these radio programs will show how little glamor is left to the criminal when he comes to the end of the road."

Decision Dispenses With All State Transient Bureaus

Austin, July 14.—The Texas transient bureau no longer will extend aid to state transients, it has been announced by Mrs. Zuleika B. Hicks, assistant director of social service for the Texas Relief Commission.

The regulation, which became effective July 10, is in accordance with a resolution adopted by the State Board of Control, designed to stop transiency in Texas. Hereafter, Texas transients will be urged to return to their legal residences and settle down in order to

become eligible for local work opportunities, either under increasingly improved commercial conditions, or under the Works Progress Administration program.

Mrs. F. C. Johnson left Sunday to visit relatives in Wichita Falls and Bowie.

DOLLARS WASTED ON UPKEEP CAN'T BUY NEW ROADS

Inferior roads seem cheap and easy to build. They stretch a paving fund so that it covers a lot of territory. But after a year or two, the trouble begins! Maintenance costs go up and up. Soon all your paving money is spent on upkeep... and no more new roads are built.

That's why it's wise—and economical—to build concrete roads. Concrete lasts! It requires almost no upkeep. Each year, the

paving fund builds more miles of concrete until the whole job is done—for keeps.

Concrete's smooth, non-skid surface is safe and satisfactory to drive on. It speeds up traffic... reduces accidents... saves motorists up to two cents a mile in gas, tires, oil and repairs, as compared with driving on inferior roads.

Get concrete. Insist on it—for safety, comfort and economy.

## Local Woman Wins Recipe Endorsement

Mrs. Earl Alderson, Clarendon, Texas, has just been awarded a Certificate of Recipe Endorsement by Better Homes & Gardens for her recipe, "All Good Pie."

This certificate, which brings national recognition to Mrs. Alderson is given by Better Homes & Gardens only to distinguished recipes which pass its testing kitchen's tests for dependability, excellence of taste, and family usefulness.

In addition to the signed certificate, Mrs. Alderson also received six copies of her endorsed recipe, each bearing the Better Homes & Gardens stamp of recipe endorsement, which she can give to her friends.

In awarding these certificates, it is the magazine's aim to provide proper recognition for the creative work done by women in their own kitchens, and also to raise the standard of accuracy and dependability of recipes as a whole. No other magazine or institution gives this personal recognition and service to its subscribers.

Mrs. Alderson's endorsed recipe follows:

**ALL GOOD PIE**  
4 eggs beaten slightly  
2 cups sugar  
1 cup nutmeats, chopped  
1 cup butter  
1 cup raisins  
1 teaspoon cinnamon  
1 teaspoon cloves  
1 tablespoon vinegar  
1 tablespoon water

Mix the above ingredients thoroughly and place in one large or 2 small size pastry lined pans. Bake in a hot oven (450 degrees) for 10 minutes, then reduce the oven to (325 degrees) and continue baking until the filling is firm. Serve with whipped cream.

W. A. Armstrong, formerly county treasurer of this county, was over from Clovis Tuesday. Mr. Armstrong is engaged in the grocery business and says he is well pleased with conditions of his town.

B. F. Kirtley made a trip to Hubbard City the first of the week to return Mrs. Kirtley and son Basil who have been visiting there. They visited a brother of Mr. Kirtley at Wichita Falls on the return.

## I WROTE YOUR NAME

"I wrote your name on paper white,  
Then burnt it into ashes gray;  
But ashes are a sorry sight,  
And so I threw them all away.

I wrote your name upon the sand  
One sunny, summer afternoon;  
But bright waves reached their eager hands  
To blot the letters out too soon.

I wrote your name across my heart,  
And watched to see it quickly fade  
But, oh—this is the strangest part—  
Your name has stayed, and stayed, and stayed."

### INTERESTING FACTS REGARDING TEXAS HISTORY IN AN EARLY EXCITING EPOCH

SERIES II, No. 18

Yellow fever took a dreadful toll of the early settlers in certain portions of Texas, in the river bottoms and along the coast. In the fall of 1853, there was scarcely a village along the Texas coast that escaped the epidemic. R. J. Clow of Lavaca wrote in his correspondence with his sister-in-law, Mrs. Mary A. Maverick of San Antonio. He gave in his letter of November 24, which is among the Clow and Maverick family archives in the University of Texas library, a graphic description of how it feels to be a victim of the fever, and also tells of the effects of the disease in other sections of the State.

"Dear Sister Mary," he wrote. "I have just perused yr. letter to Lizzie under date 13th. It is now Wednesday night 1/2 past of p. m. and as I am somewhat of an invalid yet (altho have been up all day in my room) I have told her that I would rather try and write you a letter to going to bed & trying to sleep. So here goes. You must know that I arrived at home on Saturday the 12th a fine harty Stout-looking fellow as you have seen—with whiskers too. On Sunday I enjoyed myself with my family which thanks to God were well—the children as fat as pigs—and as noisy & dirty too. Lizzie thin from her sickness, but yet cheerful & happy at my arrival. On Monday I worked at the store where from sickness (every one having been sick & still weak) I found things in much confusion, and many customers to be served, on Tuesday the same, on Wednesday same, (The weather very hot for the season of the year) until dinner time, when I began to feel the symptoms of the Epidemic—I told them at Store I felt a little unwell & would not be over that evening. I came home and Lizzie sent after the Doctor. After talking a while, he told me he would not prescribe for any patient setting up—laughingly—and so I must lay down. By this time I had a right smart little chill—and by the time I took the mustard foot bath I was in for the regular fever. And in a short time some-what

flighty, and for five mortal days I did not step my feet out of bed—I am now up in my room out of danger but weak as a child, eating but little as yet and drinking Good Brandy, toddy, Port Wine, etc. I never had any thing to weaken me so in so short a time. I intend taking a walk to the store on tomorrow but shall not exert myself. We have now every one had it in my family, my clerk my partner & two col'd persons. There is still one young man that is staying in the store who has been with it all and yet has escaped. (Mr. Gooch). We have great cause to be thankful not having lost one, out of so much sickness—and yet the town has suffered awfully. 50 odd deaths out of a population of a little upward of 200. Agreater proportion than in N. Orleans. The South this season has suffered in the extreme. New Orleans is not now held out as the great bug bear. There is scarcely a village that has escaped. None that I have heard of on our Coast except Matagorda, and they had no intercourse with any of the Coast places, keeping up a strict quarantine.

I can't say I suffered much. It is not so painful as severe billious fever. After the fever is broken you must keep in bed and eat nothing for days. Nor attempt to get up no matter how well you feel, under four or five days—a relapse is almost certain death. You of course have seen a list of the deaths. I believe that my case is the last.

"All the time whilst I was gone—after having heard of the epidemic breaking out here—I felt comparatively happy in the thought that my family was at San Antonio—and did not know any better, until I reached N. Orleans on 8th inst. Found letters from my partners giving me an account of my family having passed through the ordeal—having remained too long before attempting an escape. I am truly glad I labored under the belief, or I should have been very unhappy. I left N. York on 10th Oct. and was one month getting home by the Western route the

rivers being very low. I was not anxious to get home before frost, and as it was I arrived soon enough."

In the above letter Mr. Clow referred to the time required to travel overland from New York to Texas. In the following letter, dated Lavaca, October 18, 1856, his references to the trip to the North of Sam A. Maverick and his sons Lewis and Sam, husband and sons of Mrs. Mary A. Maverick, are revelatory of the eagerness with which the settlers welcomed any contact with "the world," as they termed the North and Eastern states:

"Mr. Maverick and Sam arrived in the stage at 10 o'clock at night and came straight to our cottage, with the peaches (for which accept our thanks). Lizzie had just gone to bed, but I happened to be up reading; so soon as Lizzie recognized Mr. Ms. voice, she dressed herself and came in. They stayed with us about half an hour, when the stage called for them; and we had to bid them a reluctant adieu. Lizzie and myself both remarked that Mr. M. looked better than we had ever seen him. He was in fine spirits too, and he and Sam anticipated, a pleasant journey. I have envied Lewis and Sam's feelings for this, their first sight you may say of the world. Where the great improvements of the age, will be as novel to them as to a five year old child; and with this great advantage in their favor, they have read of all these things. And have a historical account of all the National and Noted places of our glorious union. I can imagine that they (Lewis & Sam) would almost deny themselves the privilege of sleep, for fear of losing the opportunity of seeing all as they sped on in the steamers and "steam horses" in their varied route to the North. May they reap the full mead of pleasure from such quickening and soulstring feelings. The same exquisite sensation can never be realized to the same extent, but once. This trip to the North and a general tour through the Union will be of more advantage to them than four years schooling in San Antonio. We are quite in good spirits about our railroad. Since the departure of Mr. Maverick & Mr. Clark for the North for the purpose of obtain-

ing Iron, the citizens say 'We know that Mr. Maverick would not have any thing to do with the matter, if there was any duplicity or humbug about it.' Mr. M., I need not inform you, has an enviable character throughout the State, for probity sincerity and honesty of purpose, and I anticipate great advantages to the stockholder in the Rl. Rd. from his visit to the North."

Further reflections on pioneer methods of travel are given in the following letter which Mr. Clow wrote Mrs. Maverick from Lavaca, January 9, 1857:

"Kate had a letter to send you, but her ma either forgot it, or thought the writing was too poor for you to read. Altho the matter I thought very good for a 7 year old. She (Kate) frequently threatens us so soon as the rail road is done, to go up and stay months with you. I will say enpassant when that road is finished to San Antonio, I fear she will be grown and her habits fixed, altho I hope to the contrary, but I have heard so much that has never been realized as yet, in regard to the rail road and rail road matters, that I have very weak faith in any thing I hear in relation to it. Neither Mr. Clark, Mr. Maverick or any of the Plenipos has arrived yet. I have just learned that Mr. Osgood has arrived on the steamer "Danl. Webster" (Vanderbilts first boat on the New line, in opposition to Harris & Morgan). His wife (Osgood's, who is the contractor) has been looking for him every boat for the last two months, and his contract is to have the road finished to Victoria by the first July next, and 40 miles finished by 1st Jan. next. There is 14 miles of the road graded, only, out of this stupendous contract, and nearly all of that has been done by the funds raised in poor Lavaca!! I have not heard of San Antonio expending one dollar yet, that the effects of it is visable. I cannot say how much old Enoch has stolen. He and Timm put the enterprise back at least 10 years by destroying confidence in the management, with the people."

"I had no idea that you would have received a letter from Sam so soon. Just to think of it! to get a letter from Scotland and it appears only about a month since he left New York. In old times had you recd. one in 6 mos. it would have been considered pretty expeditious!

"Steam ships, Rail Roads, and telegraphs have, and are creating a perfect revolution in the affairs of the Mercantile world, and mail facilities. This is now emphatically a fast age. It appears that the students at Sam's institution numbers almost double that of the population of our City. I presume he is well pleased."

"I feel satisfied that Lewis is having a good time of it in New York, during the Christmas holidays, when he can see all sorts of sights, from the show, pomp, & glare of the "fifth avenue millionaire," to the squalid poverty and misery of the "five points," contrasts the most glaring and melancholy to one who may have been raised where such misery is unknown. And yet these caveling hypocrites of the north are continually harping upon the condition of the poor slaves of the south! If they could have seen our darkies in their ball attire "tripping the fantastic toe" during Christmas eve, I think they would have been forced to say they appeared happy at least."

"We had a quiet Christmas of '55—You know it was very cold. Warm Christmas' are almost always dull. Our little ones enjoyed themselves fully. "Santa Claus" having provided for them abundantly, out of his rich and inexhaustible stores of Toys, candies, etc.; Lizzie & myself went to a party the other night where she enjoyed herself in dancing several sets."

## Our Weekly CHURCH CHAT

W. E. FERRELL  
Minister First Christian Church

### "THE COMING REVIVAL"

A revival is coming. The most clear-visioned leaders of the Christian world discern the signs of its advent. There are many indications that there is impending a mighty work of grace in the hearts of men.

I. What is a Revival? What does 'revive' mean? To give more life. A revival is inseparably connected with the life of God in the soul of man.

A revival quickens into joyous activity the dormant powers of the church. It awakens the careless members to a sense of guilt and misery. It floods the soul of the devout Christian with streams of Joy and Love. It loosens the tongue of the timid saint. It banishes malice and envy and evil passions from the hearts of God's people. A revival does more: It awakens the thoughtless sinners and leads them to Christ. It helps the inquirer to take the final step of surrender. It calls out a confession of Christ from secret disciples. It leads young converts to follow the Lord in the path of duty. It does more:—It attracts the attention of the goddess and reckless to the reality and power of true religion. It bears irrefutable testimony to the divine origin and quality of the Christian faith.

II. Do We Need A Revival? Is such a work of grace needed among us? Ask your self this question. Has your life reached its highest possible efficiency in the kingdom of God? Do you enjoy that perfect love of which John wrote, the love that casteth out fear? Do you want anybody saved? Do you need a revival? Is your heart constant in its love to Christ as your supreme joy?

III. Can We Have A Revival? May we hope that revival is possible for us? Yes, if God's promises are true, and we believe they are. A revival, if had at all must come from God. Genuine revivals are not gotten up, they are sent down. It is the divine life we need, only the Holy Spirit can meet our hunger. To have a revival is to get acquainted with God. In God's word we read, "If my people who are called by my name, shall humble themselves and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sins and will heal their land." 2 Chron. 7:14. Here is the divine plan for a revival, humility, prayer, faith, and repentance. God will listen, God will forgive, God will restore, God will revive.

A revival will begin at the Christian church, July 28th. Leslie Moore of Claude will do the preaching.

## Drying Fruits And Vegetables

Willie Leggett, H. D. A., Taylor County

It is very economical to dry fruits and vegetables from standpoint of jars as well as storage space.

The food should be in perfect condition and prepared as soon as picked. Small fruits and vegetables may be dried whole, but peaches and apples should be sliced to expose to the air. Texture and flavor are best when product is dried rapidly. This will also protect color.

A wooden frame with shelves made of coarse heavy wire screen cloth spaced about three or four inches apart makes an excellent drier to be used on top of a stove. Sheets of tin roofing may be used as trays for outdoor drying. The food should be covered with net or cloth to protect against insects and dust.

In using stove, oven, leave door partly open to allow moisture to escape. Dry the vegetables hard. Fruits should be leathery but not hard.

This solution is generally used in pre-cooking foods to be dried: 1 1/4 teaspoonful of salt (preserves the vegetables or fruits). 1 teaspoonful of soda (preserves color). 1 gallon of water (opens pores of vegetables or fruits). Have water boiling and place the fruit or vegetables in it the length of time specified below. This helps to preserve the color.

### Beans

Place in above solution and let stay 10 to 15 minutes, depending on the age of the fruit. Remove and drain.

Cut beans in two inch pieces and spread on wire screen. If desired the beans may be strung and hung in the sun instead of placing on the screen. (The beans will shrink to about one-half size).

Pack in pasteboard boxes, grit boxes, or in air-tight containers.

### Corn

Shuck and remove silk. Place the corn on cob in above solution and let cook 5 to 10 minutes. (soda is usually left out for the solution).

Remove and drain. If the ears are real large, slice down the rows and cut corn with a sharp knife twice, if necessary three times, but do not scrape the ear as the extra liquid is not desired. Spread on the wire screen and let dry.

Place in a pasteboard box or air-tight containers.

### Okra

Wash the okra and cook in a-bove solution of soda and salt, and let cook two or three minutes; drain.

Cut in half-inch piece, and place on the wire screen to dry.

Pack in pasteboard boxes, grit boxes, or air-tight containers.

### Stringing Okra

After cooking in solution, remove it and string just below the stem. Place in sun to dry.

Pack in pasteboard boxes, grit boxes, or air-tight containers.

### SHIRLEY GOES MODISH

Wait till you see Shirley Temple's wardrobe in her new picture, "Our Little Girl," coming Wednesday and Thursday at the Pastime Theatre. These six-year-old girl modes were specially designed by Rene Hubrt, Fox Film stylist. Shirley adores pretty clothes. One model that delighted her, when she put it on for the first time, is of white and red lacquer red cotton broadcloth. It has a little yoke, back and front. Box-pleated insets on either side of the front panel, attached to the yoke, are of the red.

## Goodnight Trail Paves Way For Pleasant Travel

Canyon, Texas, July 12.—The uncharted trail of 1875 that led to the first Panhandle home, that of the Goodnight family, and over which cowboys bumped along over the prairie sod in the proverbial chuckwagon, is now a paved high-road leading sophisticated motorists to the Palo Duro State Park.

From aCanyon this road, officially designated as State Highway 117, and familiarly known as "Goodnight Trail," has been paved to the Park Gate, where the road into the canyons begins.

A cowboy of the Goodnight "Outfit", who had to take his wagons apart to lower them into the canyon piece by piece on his lariat rope, should he return, might wonder somewhat that a crossing point on the northwest wall of the canyon has been made into a beautiful winding road. He might be amazed to see the stream of "horseless carriages" racing along the paved approach to the canyon, carrying the modern pleasure seekers.

Canyon is the gateway to the park. Here are located two significant institutions—the Panhandle Plains Historical Society Museum and the West Texas State Teachers College. The former is a preserver of the culture of the old West; the latter, an expression of hope for the new West. From Canyon, where it connects with paved roads in three directions, "Goodnight Trail" beckons to the people of the Panhandle-Plains and the great Southwest.

## IF YOU MUST DRINK

To the married man who cannot get along without his drinks, a subscriber suggests the following: Start a saloon in your own house. Be the only customer. You will have no license to pay. Go to your wife and give her \$8 to buy a gallon of whiskey. Remember there are 69 drinks in one gallon. Buy your drinks from no one except your wife. By the time the first gallon is gone she will have ten dollars to put in the bank and eight dollars to start business on again. Should you live ten years and continue to buy booze from her, and die with snakes in your boots, she would have money to bury you decently, educate your children, buy a decent house and lot, marry a decent man and quit thinking about you.—EX.

THE SPANIARDS NOW LIVING IN MEXICO PAID NO ATTENTION TO TEXAS UNTIL ONE DAY.....

Dear Don: I hear there are some Frenchmen living on the Gulf of Mexico. Their head man is named La Salle. Better find them and drive them out of Spain!

DON ALONZO DE LEON, GOVERNOR OF COAHUILA RECEIVED A LETTER.

HAVE YOU HEARD OF ANY FRENCHMEN AROUND HERE?

NO

DON ALONZO ASKED A QUESTION AROUND THE FORT IN COAHUILA

GOVERNOR, SOME INDIANS TOLD ME THAT THERE WERE SOME SPANIARDS LIVING ON A RIVER UP IN QUIVIRA

(QUIVIRA - LAND OF TREASURE)

HOWEVER A FRANCISCAN PRIEST HAD SOME NEWS

I'LL BET TWOBITS THOSE AREN'T SPANIARDS BUT FRENCHMEN. I'D BETTER GO AND SEE OR KING PHILLIP WILL BE ON MY NECK.

**Last Respects Paid Young Mother Friday**

One of the saddest and most impressive funeral services held here in a number of years was that of Mrs. Nathal Gertrude Lamberson Riley, wife of Hal Riley, at the Methodist church Friday morning at 10 o'clock.

The double service was held for the young mother and her infant daughter, Peggy Ann Riley. Rev. E. D. Landreth, pastor of the Methodist church, and Rev. J. Perry King, pastor of the Baptist church, conducted the service.

The Buntin mortuary had charge of funeral arrangements.

Mrs. Riley passed away at a local hospital at 12:30 Thursday, the 11th. Flowers in profusion and a large number of friends attending the last rites attested the high esteem in which the family was held.

She was a daughter of Mr. and Mrs. S. W. Lamberson and grew to womanhood in this section. The Leader joins with the many friends in expressing deepest sympathy to the bereaved.

**County Arranges For Bus To Short Course**

All members of the 4-H clubs have been mailed letters by the county agent asking them to notify him promptly if they are to go to A&M for the Short Course. The bus leaves the office of the county agent here at 8 a. m., Saturday morning, July 27th.

The last day of the Short Course on August 3rd, the bus will leave College Station for Galveston where the day will be spent in sightseeing. The return home will begin on the next day.

Several farmers of the county will make the trip with the boys. Those to make the trip will be enumerated in the Leader next week.

**SHIRLEY TEMPLE ACTS, SINGS, TUGS HEARTS IN "OUR LITTLE GIRL" DRAMA**

"They're calling 'Our Little Girl,' Shirley Temple's greatest. This Fox Film picture, coming Wednesday and Thursday at the Pastime Theatre, has been lauded everywhere.

In this production, the first since the child screen wonder received the special award from the Academy of Motion Picture Arts and Sciences, she gives a powerful portrayal of a child's heartbreak.

When those she loves grope in the shadows of misunderstanding, Shirley meets the crisis with a brave smile. She plays at being happy to rebuild a shattered dream.

"Our Little Girl" is a poignant story, tenderly conceived, freighted with heart-tugs yet leaving the audiences, from all reports, strangely happy.

Hundreds of novels and short stories in print and typescript were read before this particular story was selected for Shirley. When the list thinned down to thirty, the producer discovered that "Our Little Girl" was ready-made for the adorable star.

It tells the story of a happy family disunited by suspicions, threatened with wreckage, and of a little girl who runs away from her home when she finds all the joy and safeguards gone.

Shirley Temple 'IPA

Alone Shirley Temple suffices to make any picture popular. But Producer Edward Butcher has loaded "Our Little Girl" with talent. Rosemary Ames plays Shirley's mother; Joel McCrea, who needs no introduction, plays her father.

"Poodles" Hanneford, world-famous clown and circus rider has an amazing act; he clowns, rides, falls, and thrills in the circus sequence which has everything complete from the wild animals to the big three-ring tent.

Lyle Talbot, Erin O'Brien-Moore, Jack Donohue, continue the list of fine supporting cast. The direction is by John Robertson.

When Irvin S. Cobb presented Shirley with the Academy Award, he said: "You have made more people happy and made more children laugh than any child your age in the history of the world!"

"Our Little Girl" is said to sustain this encomium.

**Newspaper Circulation Man Again Visits Clarendon**

Frank Kane of the Kane Circulation Company of Weldona, Colorado, is spending several days visiting his many friends here. Mr. Kane first came to Clarendon in June of 1929 at which time he conducted a circulation campaign for the Donley County Leader. This campaign proved to be one of the most talked of subscription campaigns in Texas from a weekly publication standpoint regarding new "paid in advance" subscriptions.

At the conclusion of the circulation campaign, Mr. Kane issued a sworn statement covering the number of new "paid in advance" subscriptions which method assured our advertisers—both local and national—of a greater circulation than any other weekly in the Panhandle.

Remarkable to say, the confidence of our subscribers has been maintained in the policy of the Donley County Leader as the circulation today is on a parity with that of 1929.

Contrary to the custom of most circulation men, Mr. Kane continues to feel a kindly interest in the publications he helps to promote and pays return visits to the field at will whenever he chooses. He leaves behind plenty of good friends who are glad to welcome him back wherever he has conducted a campaign.

**SIDELIGHTS**  
By Marvin Jones

In my judgment, a program of road building is the key to the future of our country. For a number of years I have been urging a complete and adequate road building program.

This should include not only the through roads, but also the state, county and farm-to-market roads. In fact, I regard the latter fully as important as the through roads.

Prosperity must begin at the grass roots. One might as well talk about a pipe line without gathering lines as to talk about main highways without feeder roads. They must all be a part of the same system.

Since the beginning of the new Administration, I have talked repeatedly with everyone, including the President, who has anything at all to do with the shaping of the program. The Chief Executive, in making the allocation, has decided that a definite percentage of the funds allotted for road building under the Public Works program shall be used for the secondary and farm-to-market roads, and is having the program shaped to this end.

The people of our section are glad to know that the Texas Highway Commission has decided that in applying that part of the federal fund that has been set aside for the main arteries, the gaps in the federal highways in the Panhandle are to receive attention.

But just as important, if not more so, is the other wing of the program. Everyone in our section should be interested in this phase of development.

I served four years on the Roads Committee of the House of Representatives, and during that time urged a proper development of the farm-to-market road system. I have been urging it from year to year since that time. Naturally I am glad to know of the prospects of construction along these lines, and I am sure everyone in the Panhandle will rejoice with me.

No finer form of Public Works projects could be fashioned for our section of the country than a complete, well-rounded road building program in the interest of all our people.
