PAUL SMITH CROP PLANTED TUESDAY

Job Completed in Few Hours Using Three Tractors And Nineteen Teams

Lying on his back in the local hospital, but Paul Smith of the Sunnyview community has one happy thought to occupy his mind since Tuesday morning.

Neighbors gathered at the farm early Tuesday. Three tractors and nineteen teams with plenty of man power completed the planting by 10 a. m.

Some seventy acres of maize, kaffir and cotton were planted. Ernest Davis had planted the corn crop the day before.

Not only was the main crop planted, but the truck patch and garden as well in a fitting climax to this neighborly deed.

One fellow was heard to remark "A fellow never knows how many real friends he has, until he is down and needs them." Paul Smith has plenty of friends; friends that a deserving citizen such as he deserves.

Tractors used were those of G. M. Allen, Elba Ballew, C. T. McClenny and that of Ernest Davis the day before.

Those who were present at the "working" were G. M. and Riley Allen, Elba Ballew and his hired hand Frank and William Hardin and Mr. Ochiltree, a brother-in-law.

Others were Glenn and Newt Williams, Buck Roberts, John White, Arthur Davis, W. F. Davis and Junior Davis, Z. D. Davis, Emmett McClenny, Gene Hester, Buster Riley, Heckel Stark and two of his colored men, J. N. Riley and Bruce Riley, W. J. Whitt, M. L. Putman, Jesse Cornell, Arlie Wood, S. T. Lamberson.

One is assured by such evidence as this that the citizenship of Donley county is above par. Our people are neighborly. They help in time of need. In this instance, Paul Smith and his estimable family are more than proud that they live here. His large circle of friends are hoping, helping and praying that Paul Smith will soon return to his family well again.

Speed Demons Are Given Fair Warning

Life and Property is Held Too Cheap in Mad Rush

Motorists who have been troubled with nails, tacks, bolts and other hardware puncturing tires over our detours since work began on Highway 5, will now have something else to worry about.

Plainclothes officers riding in high speed unidentified cars are to get over our highways in an effort to put a stop to speed demons trying their skill.

It is claimed that speedsters are able to see uniformed highway patrolmen on motorcycles in time to check their speed and thus save paying a fine. Six such officers have been patrolling this Panhandle district for some time.

L. G. Phares, head of the safety department, is giving the public warning through the newspapers.

The highway speed limit is 45 miles an hour on the highway, and 20 miles an hour through towns. The penalty may include a jail sentence as well as a fine.

Statistics indicate the death of 276 and 3753 crippled by autos in this state since January 1st, 1935. The property damage is held to be enormous.

Memphis Students May Attend College Here Next Year

Can Attend State Accredited College and Save Expense Boarding at Home

Through the efforts of their superintendent of schools, Mr. W. C. Davis, parents of high school graduates of the Memphis public schools are looking forward to sending their children to Clarendon next year.

The local school board met Tuesday afternoon, and it is understood that every cooperation is being offered Memphis to make this big saving of expense and inconvenience possible.

Clarendon Municipal Junior College is a fully accredited junior college, and is a member of the Southern Association of Junior Colleges.

Those interested call attention to the fact that pupils of the Memphis area may get two years of college work here, and make daily trips over the new highway by bus. This will enable pupils to stay at home while attending college. The saving is a big item.

Supt. Davis has been conferring with Dean R. E. Drennan of the College, and the school boards of Memphis and Clarendon are expected to work out a feasible plan within a short time.

School authorities are becoming more interested as the plans are being discussed. Many advantages are to result to both the college and patrons if such a plan becomes a possibility.

CLARENDON FOLKS IN MEMPHIS PLAY

Winning Play to Enter State Folk Festival Contest At Dallas in June

A number of towns of this district vied with each other at Memphis Tuesday night in presenting plays in an elimination contest held under the auspices of the Upper Red River Valley Folk Festival.

Supt. W. C. Davis of the Memphis schools had general supervision, and J. Claude Wells of the Democrat had charge of the publicity. Both men worked faithfully, and saw their efforts crowned with success in the enthusiasm shared by other towns in response to the invitation to compete for a prize that means the door receipts as expense money in sending the winning show troupe to Dallas. The state contest will be held June 14-21.

Clarendon selected the old-fashioned school as their presentation. The blue-back speller and McGuffey's second reader were used. The cast in dress and manner represented a school recitation of forty or more years ago.

Mrs. C. A. Burton, a teacher of the old days, and a supply or extra even in the present time, was most proficient in her decorum in the aged school room picture.

Members of the cast were Mr. and Mrs. W. C. Stewart, Mrs. O. L. Fink, Mrs. Will Johnson, Mrs. C. D. McDowell, Mrs. A. T. Cole, Sloan Baker, A. N. Wood, J. T. Patman and J. C. Estlack.

MILLION AND HALF ASKED BY ALLRED

Texas' Governor Makes Trip To Washington in Interest Old Age Pensions

Governor Allred, accompanied by Orville S. Carpenter, executive director of Texas Old-Age Assistance, made a plane trip to the national capitol Monday to solicit federal aid to match the state funds in payment of pensions beginning July 1st.

After a conference with John G. Winant, chairman and other officials of the Social Security Board, returned to Texas by plane Tuesday.

Governor Allred stated that the national board made it clear that no persons should receive assistance except those in need, and that the same limitation is included in the Texas law.

Carpenter filed with the national Board his application for \$1,500,000 for the first three months of old age assistance, which sum is to be matched by the state, and making a total of \$12,000,000 a year.

The state has now more than \$2,000,000 on hand to began payment from state funds secured from liquor license.

The Governor informed the National Security Board that he would propose to the next session of the legislature the passage of a law that would make unemployment insurance possible, and work in harmony with the national act. He stated that he would further seek the passage of a law that would take care of the blind and crippled, a feature provided for under the National Security Act. Funds by the several states must be made possible to match federal money.

Governor Allred has not indicated any necessity for calling a special session of the legislature within the immediate future.

Carpenter was advised Wednesday that the National Security Board had allotted \$1,181,250.00 to match state funds for payment of pensions beginning July 1st.

State officials have estimated that \$1,300,000 of state and federal funds will be required monthly to pay pensions to needy Texans over 65 years of age.

Traxler Is Removed To Oklahoma Prison

Fearing For His Life, Trip Is Made by Plane Tuesday

Pete Traxler, recently captured near Canadian after being badly wounded by officers in an exchange of shots, and who has been under guard at a hospital in Canadian, was taken to Oklahoma state prison at McAlistier Tuesday by plane.

Traxler, having lost all his bravado and brag, feared for his life and requested local officers to accompany the Oklahoma officers on the trip.

Traxler, identified as a high-jacker on several occasions on Highway 66 in this and other Panhandle counties, is wanted on murder charges in Oklahoma. He is said to have slain nightwatchman George Loper at Pauls Valley in May during his second successful jail break there.

Officers found in his possession articles taken from tourists on Highway 66 when he was captured. His partner in crime, Arthur Spencer, also identified by his victims, is held in the Potter county jail.

MEMBER OF PANHANDLE PRESS ASSOCIATION

FOLLY OF PAST TURNS YOUTH AGAINST WAR.

That half a million young American college students could be induced to assemble one day and declare that they will never don their country's uniform or fight their country's foe is something to disturb the graybeards.

Before we let ourselves get too worked up over it, however, it might be sensible to sit down calmly and try to figure out whose fault it all is.

It won't do to blame it all on personal soft-headedness or cowardice. That answer is too pat; it explains nothing, but merely substitutes one puzzle for another. These youngsters did what they did because they had something on their minds. What was it, and how did it get there?

It is reasonable to assume, first of all, that they were thinking about 1918.

As we get far enough away from the World War to obtain a good perspective on it, we can see that it was one of the great tragedies of all history; not because it took such a frightful number of lives, but because those lives seem to have been poured out for so little purpose.

A war to save democracy, which left democracy on the verge of death; a war to end militarism, which left militarism stronger than ever before; a war to crush despotism, which succeeded only in replacing the despotism of divine right with that of brute strength—what young man, collegiate or otherwise, could look back at that without feeling that somebody had sold his elders a colossal gold brick?

We have had other post-war generations, but none of them looked back at any such things as that. Our other wars, bloody and stupid and avoidable though they may have been, did at least settle things. This one left a worse mess than it found and settled next to nothing.

But that isn't all that may have been on our collegians' minds. They also had the recent munitions trade disclosures to mull over, and the mulling can't have been very pleasant.

If the profits-before patriotism revelations of the last year have not been enough to set any young man's heart against war, nothing could ever do it.

To ask a young man to give up his life for something bigger and better than himself is one thing; to ask him to do it so that some TNT magnate or armor plate peddler can reap a 60 per cent dividend is something quite different. It's not exactly surprising if collegiate youth choked on it.

In other words, if our young men are swearing off on war, we have only ourselves to blame.

The stupidity which brings on wars that should be avoided, the greed which debases the high ideals for which men are asked to die—there are the real villains behind the students' anti-war demonstration.—Portales Valley News.

WITH OUR EXCHANGES

Mail Order Teeth.

Walter Crowell orders his store-bought teeth from a mail order house. Here is a part of his instructions:

"My mouth is three inches wide across and 5-8 of an inch threw the jaw and gums are uneven like saw teeth. Jaw is shaped like a horse shew, with the toe forward. If you want more particulars I will send you my picture."—Groom News.

Take Him Out.

We are powerfully in favor of the injunction granted against a statue of Buffalo Bill as a part of the Texas Centennial. If any of Co.'s relatives or the peoples of his native or adopted state want to erect a statue to the great pioneer and plainsman, OK! But Texas Centennial funds should be reserved for Texas and Texas history. We always admired Buffalo Bill, and have read his life story fifteen or twenty times. As an American, we still like him, but as a Texan, we can't see any possible reason why he should have a place in our Centennial celebration.

—Ralls Banner.

Maybe We Deserve It.

Maybe we deserve it. Maybe the Panhandle is getting only what it asked with the cur-

rent governmental program to condemn all land to public domain.

Did we make any concerted effort to keep our government from moving whole communities out of the Tennessee Valley? Did we ask with much emphasis just why men who had lived on land owned by their fathers for generations should be summarily moved out? Did we make any effort to keep the government from spending \$13,000 per family to settle groups in the Alaskan Matanuska Valley?

We subscribed, by omission of action, to the new theory in our United States, that the individual's life, liberty, and pursuit of happiness belong to the state and not to himself or his local community.

We said, as it were, "Oh, that program doesn't affect us. Why bother?" Now we've concrete example of how such a program could affect us. We must defend our own lands. We need not expect much aid from any other area. We subscribed to the theory that an all-wise government had the right to make a lake of the Tennessee Valley. We were propagandized into that belief. Let's expect other people to be propagandized after viewing such films as Tugwell's "The Plow That Broke The Plains" and reading the constant barrage of news articles, magazine stories, laid down for the most part by the government agencies themselves.

The rest of the country believes with the same hazy thinking we used in the Tennessee project that the Western plains should be turned back to public domain. And remembering what happened to the valley dwellers, we'd better prepare

for either a long trip or a good defense on our home grounds. (Louise Evans in Amarillo News)

VISITING WITH OUR NEIGHBORS

As a rain prophet, J. N. Riley claims that he can beat "Old Tack" forty ways. "I am not as old as some fellows who make a pass at the job, but you will have to credit me with three rains to date since the locusts blossomed out," he said Monday. Mr. Riley dotes on the amount of locust blossoms as to the amount of rainfall during the season. To Monday, he had hit it squarely in the face three times. "I don't aim to go fishing down in Louisiana this summer, but want to stay right here and see the folks rained out," was the statement of the "rain prophet," as he rushed home to prepare for a flood.

Among the large number of women folks visiting the Leader office Saturday, two young ladies, Misses Vivian Veazey and Donaleta Hall were most interesting. Both around 16 years of age, but they are taking an active interest in world affairs. Vivian is the Leader reporter from the north Goldston community, and a good one. She wants to be a newspaper reporter when "she grows up," she said. And she'll likely do just as she wants.

Mrs. L. A. Bray, reporter on the Mission Times down in the Rio Grande Valley, stopped in Saturday to see what the Apostle looked like, as she told a party on the street. Being a "zoo" is a great life. She did not make the trip across the state, 700 miles, just to see the zoo, but had been visiting a son in Amarillo. Sprightly old lady, filled with curiosity, and a wonderful lot of energy and learning. We hope she calls again.

T. E. Johnson, editor of the Amarillo Globe came in Saturday. T. E. resided at Giles before the dailies discovered his talent. His visit included a trip to the JA ranch in connection with the arti-

cle in Sunday's Amarillo News. He was accompanied by Mr. Van London, district highway engineer. Van is proud of the way they are whipping No. 5 into shape for the Centennial traffic next month. So are the local folks, Van. Come again.

Mrs. Lalar Wilkerson and her son Drew graduated from Clarendon Municipal Junior College Thursday evening. It is a rare thing for mother and son to be so honored at the same time.

Slats Parker, plutocrat of the barbering profession, operates a boat and trailer in quest of the finny tribe for recreation. Homer Taylor made the metal boat in which are located gas tanks taken from "flivvers." The tanks are pumped full of air and sealed. This prevents the boat sinking under any circumstances—a mighty fine idea.

If Commissioner Flop Pyle could see the little lady namesake in the Merrell home at Ashtola, he would instantly give her a present. Maybe an auto or something. If he does, this advertisement is worth a \$100.

AT FIRST METHODIST CHURCH SERVICES AT Services: 10 a. m.—8 p. m.

In the absence of the pastor the services Sunday will be in charge of Doctor T. S. Barcus, Presiding Elder of the Clarendon District. Our people always hear Doctor Barcus with great pleasure and profit. We invite others of the community to worship with us Sunday and share the blessing of these services.

Sunday School will open at 9:45 with a complete department organization, a class and group for every age, with well equipped leadership for every group. We believe that our Sunday School has something worthwhile to offer those who come with us.

The pastor continues the revival meeting at Quanah for another week. E. D. Landreth, pastor.

Phil Engle is making a trip in the Brownwood and Albany sections on a business mission.

TEMPLE OF TRUTH
 By the Apostle

Man's only utopia on earth is a quiet, shady place where he can sit on his shoulder blades, cock his feet higher than his head, indulge in a smoke and his favorite magazine.

Query: Did the cowpunchers ever yodel? Naw! Just the waddies had that ambition to try.

Present day outlaws are arrogant—not brave. They gloat over pistol-whipping a harmless, defenseless victim on a lone highway in the dark hours of night. The yellow rats wilt and whine when they do not have an advantage. Surrounded by officers at the Ca-

nadian bridge, Pete Traxler whimpered and whined that "a service station operator at Panhandle had done him wrong by tipping him off to officers." His bravado exercised over a helpless victim of a robbing spree was gone. Alleged men of this type seek to secure the luxuries of life from the energetic class rather than earn an honest dollar by labor. Greed becomes a craving appetite and human life is a cheap atom in their manner of reckoning. "Crime is the master of hell, and greed sits at the foot of the unholy throne." Death is the reward of those who protest against becoming a victim of the merciless outlaw. For this reason, the same penalty should be meted out to the outlaw when captured.

Criminals are a menace to public safety, but sympathetic jurors and legal technicalities are worse. Once an outlaw is given a second chance, he takes that chance. Murderers and highjackers are in a class to themselves. They deserve a second chance under no circumstances.

In the hectic days of Adas Ababa as the natives stormed the French legation, a number of births were noted, according to the daily press. It takes noise to produce "frogs," and it isn't always thunder. During the world war, our returning soldiers tell us of the im-

mense number of babies born in France. But the most of them were mulattos, daddied by black troopers from America and Sengalese Africa, a French province. If the white troops were "saving the world for democracy," so were the blacks. It all goes to show that our nation has no business dabbling in the affairs of a foreign nation.

Springtime—
 "With birds and bees an' bugs and trees
 An' heat and everything
 A lazy spell just comes
 An' takes me with a sting."

An' I jest set, and look and let
 Things go as they will.
 'Cause summer time is lazy time
 For me an' I keep still."

A party living in this section recently 'ordered' a set of teeth from a Chicago mail order company. And were they great! While he couldn't use them, they didn't cost him much. It takes a mighty expert workman to make a set of teeth that will satisfy the patient. It can't be done by mail, either.

There's nothing in a name. A man by the name of Peckenpaugh is a director of the Denver railway system, and Upthegrove is the name of a man on the Texas & Pacific board.

Blue Bug Bessie, who likes to look at 'funnies,' says the nearest to good luck that ever came her way was to be sick for a month on a bed in a room where the walls were papered with funnies. Except that the blame things were upside down.

Dutch Mantell, noted wrestler and promoter of Amarillo keeps only one book in his library. This he reads daily. It is the Bible. He is said to be one of the best Bible scholars in the state.

Just before the crash—
 "Nobody can make me dim MY lights."

Social Suggestion:
 A well known social writer says, "Never keep tabs on a man. If he deserves it, he is not worth the effort; and if he doesn't, he'll promptly do something to deserve it."

Again, the same writer says, "No matter how innocent a man may be, the consciousness that his wife has her eye on him makes him as nervous as the sound of a traffic cop's whistle."

Red Klan's pet squirrel revolves in a cylinder 19 inches in diameter. A hole equal distance on each side of the cylinder permits the squirrel to stick his head out to exercise his neck. If the cylinder, revolving at the rate of one hundred and five times a minute, permits the squirrel to change from one hole to the other every three seconds, how long will it take the squirrel running like h - - l to stick his head out both holes at the same time?

Perhaps these folks who know every place where young folks may stumble, have been plowing in that field themselves.

The voices most frequently heard over the radio have not been cultivated—just summer followed.

Every time a 'goody-goody' guy acclaims personal perfection, it recalls—

"I cannot steal, I cannot lie.
 Indeed my sins amount to nought,
 Though, candidly, the reason why
 Is, I'm afraid of being caught."

The only pessimist that won was a man living in Shamrock. He got into a fight. His suspenders broke right at the start. He could not hold up his pants and fight too, so he got licked. A pessimist is said to be one who wears both belt and suspenders. He put on both, hunted the other fellow up and whipped him. The pessimist won—this time at least.

The reason Senator Borah is not getting any votes in the corn belt primaries, the old corn growers think it is just another "corn borah."

"The last Roundup" is in Ethiopia, in case you have missed it.

National theme song: "Five Little Piggies."

Shezza Fizzle says the only way they can get their money's worth out of our present phone rate, is when her mother lays the receiver in the baby's crib, and asks central to call her at the bridge club if the baby cries over thirty minutes.

This writer is in receipt of advertising matter from a friend back east calling his attention to a "real" story of the west as embodied within the lids of "Honey in the Horn," a book of which one H. L. Davis is the author. We are advised that the old west is pictured with its shooting, fighting, drunken brawls, mean women and the whole works. It must be admitted that the old west (as well as the new West) had its scum element. It was the harum-scarum element that made that kind of history. We do not care to get down in the gutter to read a bunch of filth today any more than we cared to associate with that element in the years long gone. The big majority of citizens of the old west typified the best womanhood and manhood found in America at any age in any era.

We have a lot of reverence for a cemetery until oil is found near it. Then its time for grandma to move over and let the drill go forward to the depths of liquid gold.

This annual clean-up week reminds us of the story of the man who took a bath every week whether he needed it or not.

The College Hill widow says matrimony is like a bull fight. Rough going, and you never know how it is going to turn out. If you win; you lose.

Hastoon Yazzie says the "trial and error" theory may work in some cases, but he doesn't like for the doctors to fall for it any stronger.

National theme song:
 "I'm putting all my eggs in one askit."

Comes now an East Texas sec-

tion asking the Centennial board to erect a monument in their midst to Black-eyed Peas and Gravy. Their principal claim is based on the statement that East Texas would never have survived a settlement without them.

We always did have great respect for the old lady who invented gravy.

Ima Fizzle says it was "evolved." At any rate, lets erect a monument to the "unknown rescuer" in West Texas, too.

Resettlement Plan Makes Power Market

Dealers are selling a million and a half dollars worth of farm machinery to Texas farmers who have received loans this season from the Resettlement Administration, according to information received by R. C. Land, county supervisor. Mr. Land estimated that \$9000 of this is being spent by the 76 families who have received loans in this county.

"A still larger amount is being spent for horses and mules," Mr. Land said. "In Texas as a whole, it is estimated that 20,000 mules are being bought and 5,000 horses and mares, at an average of \$85 a head, which means a total of \$2,125,000 being paid out to producers and traders in work animals." In this county, he said 85 mules and 140 horses and mares have been bought, or will be bought.

The supervisor said that these purchases would seldom have been made unless the money had been loaned by Resettlement. Every farmer receiving a loan had to present written statements from banks or others that they had refused to make the loan.

"Yet these borrowers have proven their ability and willingness to

repay the loan, in practically all cases," the supervisor said. "They may not have been good risks for banks or other agencies, but Resettlement has helped them work out plans which have put them back on their feet. Many of those who were on relief last year, unable to obtain credit of any kind, are now being financed by private individuals or agencies, after having received a new start from Resettlement."

It is estimated that clothing and groceries being bought in Texas, as a result of Resettlement loans, total as much as the amount spent for work stock, and that physicians and pharmacies will receive more than \$300,000.

"The average borrower is being allowed \$12 this year for medical expenses, which he would not have been able to obtain, or would not have been able to pay for, without this loan," Mr. Land said.

Another \$300,000 is being invested in 10,000 cows, \$90,000 in 10,000 hogs, \$27,000 in 40,000 hens, \$220,000 in household equipment. More than two million dollars is being spent for seed, feed and fuel, but those who were in the program

last year are spending very little for seed and feed, which they are required to grow for themselves.

In addition to the money filtering into the veins of Texas business from these individual farmers aided by Resettlement, more than \$3,500,000 is being spent for land and construction on 533 farms, which will be sold on forty years time, with three per cent interest, to families selected from outstanding tenants and other low-income farmers who have demonstrated their willingness to repay.

WHICH SHALL IT BE?

"Isn't it funny that princes and kings,
And clowns that caper in sawdust rings,
And common folk like you and me
Are builders for eternity?
Each is given a bag of tools,
A pile of rocks and book of rules
And each must build ere life has flown,
A stumbling block, or a stepping stone."

The Growth of Bureaucracy

By RAYMOND PITCAIRN
National Chairman
Sentinels of the Republic

During the past five years the population of the District of Columbia, seat of our national government, has increased more than 22 per cent. No state, or group of states, has approached that rate of growth during the same period. It compares with a population increase of 3.9 per cent for the nation as a whole.

What caused the jump? A recent report of the Census Bureau, whose estimates supply the figures, attributes it to an unprecedented peacetime influx of Federal employees to jobs in the scores of new bureaus and commissions functioning during the past few years at Washington.

These are significant facts. They introduce an arresting element of novelty in the American picture. Except during the brief emergencies of war-time our most striking growths heretofore have occurred along what might be described as our geographical and industrial frontiers.

Population increased at the swiftest pace in states where new and productive lands were being developed by agriculture; in cities where new and productive industries were originating and expanding. Inevitably such growth meant greater opportunity for the men and women who took part in the development; greater wealth for the nation and its citizens as a whole.

But an unprecedented increase of job-holders at Washington has quite a different meaning. It shows only a growth of Bureaucracy. Unlike the men and women who, by their energy and their labors, continue to develop America and to bear the costs of its government, many political job-holders produce little or nothing. They consume, instead—out of the share of all men and women who labor in the home, on the farm, in the factory or in business.

And the greater the number of those who merely consume, the greater the burden on those who produce.

The widow, the small business man, the school teacher and thousands of other small investors have renewed confidence in the state to protect them from the depredations of the smooth tongued swindlers.

THE MILLING SANATORIUM

MINERAL WELLS, TEXAS

The rheumatism hit me during the 1929 Fat Stock Show at Fort Worth, Texas. I went to the Doctor and he said it was caused by my teeth. I had the teeth pulled that were bad. Went to Hot Springs, New Mexico, took a course of baths, went home and got worse. Then I went to Marlin, Texas, and went through the Clinic. They said it was my tonsils, so I had them removed for the second time; took a course of baths, went home and got worse than I ever was. I then heard of the Milling Sanatorium at Mineral Wells, Texas. I took treatment for eight weeks. Went from from there to the Cheyenne Frontier Days Celebration, where I took part in the roping, bulldogging and bronco riding, and have been doing it ever since and still feel fine. CHEVROLET SETS RECORD IN APRIL

Chevrolet dealers' car and truck sales in April totalled 134,431 units, setting a new all-time high mark for any single month in the company's history. W. E. Holler, vice-president and general sales manager of the Chevrolet Motor Co. announced. Sales for the year to May 1, totaling 406,620, set a new all-time record for the first four months of a year.

The achievement followed close on a record-breaking March, which until April figures were in, stood as the greatest single month Chevrolet ever experienced.

April sales represents an increase of nearly 25 per cent over sales in April, 1935, which totalled \$9,811. The first four months' sales were an increase of 48 per cent over those of 1935, which were 274,121.

Sales of used cars in April totalled 197,270, Mr. Holler reported,

producing a total of 679,104 used car sales for the first four months. Both these figures represent new all time highs. The greatest previous single used-car month in the company's history was March 1930 when 194,542 units were sold, and the greatest corresponding four-months' period was in 1935 sales totalled 456,538.

"All phases of the dealers' business shared in the increase," Mr. Holler said. "Whether considered from the standpoint of total unit sales, of truck sales, or of used car sales, April set a brand new mark. Heavy volume of used car business contributed to the new car results by keeping dealers' inventories advantageously low."

Lalar Belle and Margaret Wilkerson are visiting their grandparents, Mr. and Mrs. Drew at Seymour.

Mr. and Mrs. E. B. Mace of Dalt-hart stopped here Saturday on their way to Hot Springs, Arkansas where they are going for the benefit of Mrs. Mace's health.

NEW RULINGS ARE ANNOUNCED BY STATE COMMITTEE

College Station—Land owners having multiple tenants on a contiguous block of farms may fill out a master work sheet instead of separate work sheets for each farm, it was announced by the State Soil Conservation Committee.

They also pointed out that payments will be prorated among all tenants similar to the way old parity payments were distributed and the land owner will be held responsible for compliance.

Of great importance to Texas farmers, members of the State committee commented, is the new rule that two rows of corn or grain sorghum interplanted with one row of cowpeas will count as two thirds soil-conserving. The county committee will determine the percentage of land occupancy.

Sudan grass has been ruled a soil-conserving crop regardless of use and can be harvested for hay or seed, used as a pasture, or left on the land.

The same is true of oats if followed by a summer legume after harvesting. The State Soil Conservation Committee assumed that crops will be grown and compliance will be sufficiently late to allow for this purpose.

It was also announced at the same time that the base rice acreage and production for 1936 will be the base that was established in 1935, except where producers are eligible for upward adjustment.

Upward adjustment will be made where the years of 1929 and 1930 were excluded from the previous base calculations; where the producer did not grow rice in one or more years in base period; where production was below a 10 barrel acreage on account of uncontrollable natural causes.

J. Perry King, Pastor

There is Always Worship Fellowship :: Service

In addition to the Young People's Revival which is to be conducted in the very near future by Rev. S. L. Tidwell of Plainview, and Rev. Carroll Holtzclaw of Hereford, we are announcing the date for our revival in the summer. Beginning August 2, and continuing through the 16th we plan one of the most intensive evangelistic efforts the church has ever put forth. Dr. E. D. Head, pastor of the First Baptist Church Houston, is to do the preaching in this meeting, and Rev. C. B. Stephenson, pastor of Magnolia Park Baptist Church Houston, is to lead the singing and have charge of the Young People's work. The meeting that will be announced next week is in reality a preparation for the summer campaign. With the prayerful co-operation and sympathy on the part of her membership there are great days ahead for the First Baptist Church.

Regular Services Sunday Morning and evening. We are always happy to have you in the service.

Fly Control Is To Prevent Breeding

Austin, May 20—Thousands of children and adults die every year from diseases carried by the fly. Typhoid fever, tuberculosis, summer complaint, cholera, intestinal diseases, and frequently death follow closely in the trail of the common fly.

"The control of the fly menace comes at the top of the list of necessary public health measures which should be applied by every city and community in the State," urges Dr. John W. Brown, State Health Officer.

"The most effective measure for control is to prevent breeding," he said. "Flies breed in filth, and about eighty days are required to complete a life cycle. During her life time of several months, one house fly lays from 600 to 1000 eggs. Thus it can easily be seen that in a season which usually begins in the spring of the year, the descendants from one fly number countless thousands.

"To eliminate flies the breeding places must be destroyed. Manure

flies, garbage, and other organic filth furnish the requirements of warmth, moisture, and food necessary for the propagation of the fly. Flies should be kept from contact with food or drink or utensils in which such food and drinks are prepared and served. Likewise they should be kept from access to privy vaults where they pick up the infections, which they later spread to humans by contact with the food and drink, and by unwashed hands and utensils.

"See that your windows, doors, and porches are screened so that the stray fly from some careless neighbor will not molest your fam-

ily. See that your grocer keeps meat, vegetables, and fruit screened from flies.

"Organize health measures to destroy the breeding places, contro the flies' access to your home and food, and establish standards of cleanliness in your community that will eliminate the fly."

Mr. and Mrs. Elmer G. Hayes and daughter, Miss Lorena, visited relatives in Lockney Sunday.

Fred Thompson of the Thompson ranch south of McLean, had business in the county seat Saturday.

THE GREAT CONTROVERSY

W. Wallace Layton, Minister

Identity of the N. T. Church Article XV

To be perfectly scriptural we must observe the same day as was observed by the Apostles and their brethren. When the Old Law was nailed to the cross so also were the ordinances connected thereto which included the Sabbath. The Sabbath (rest) is in no manner connected to the Lord's Day observation of the New Covenant. They are as distinct as Judaism and Christianity. The Sabbath was a day of rest while the First Day of the Week is

a day of spiritual activity, rendering worship to God. "And upon the first day of the week we came together to break bread." (Acts 20:7 "I was with you in Spirit on the Lord's Day." (Rev. 1:10) This was the day upon which Jesus arose from the grave, and was set apart in memorial to that world renowned event. They kept it holy, so also must we.

The items of worship which characterized their religious services must be studied and practiced today. "And they continued steadfastly in the Apostles doctrine; fellowship; breaking bread and in Prayer." (Acts 2:42) The Apostles doctrine is the authoritative word that must be revered in our assemblies. Hence we have no man-made articles of faith, book of discipline, nor creed, but only

the "scriptures which complete the man of God." (I Cor. 4:6) (II Tim. 3:16,17) By fellowship we learn that a cooperative effort is put forth by the Children of God in carrying on the work enjoined upon the church. We never appeal to the outsiders for help in "doing" the work of the church. We are never found offering for sale fine Turkey suppers, running pop-joints or raffling off quilts and cakes, to raise money for the Lord's work. That is one of the most disgusting practices ever invented by man and palmed off in Gods name. "Let each one of you lay by in store on the first day of the week." (I Cor. 16:2) The work and progress of the church is OUR responsibility, and the members are left to their own judgment to "give as they are prospered" (II Cor. 9:5-9) There is

no unscriptural circuit rider or presiding elder (whatever they are) to tax the members for their dues. We do ONLY as inspiration tells us to do. (To be cont.)

"MISS AMERICA" NOW FILM STAR

"Through these portals pass the most beautiful girls in the world." When Irene Ware, who is now a film star, was once a member of Earl Carroll's Vanities, that notice above the stage door was no idle boast.

PANHANDLE GETS NEEDED RAINFALL

Moisture Map Includes Wide Scope From Texline To Snyder

Following the quarter inch fall here Sunday afternoon, showers continued over the north plains section Monday growing heavier in the afternoon, and at night.

Dahart and Amarillo, the two driest spots, each received an inch. Vega, Hereford, Dimmitt, Friona got 1 1/4 inches, as did Dumas and Texline.

Extending west, Clovis was included. The rainbelt veered around Frainview with a slight fall at

Lubbock. To the east, a quarter inch fell at Quitaque, Turkey, Ralls Slaton and Shallowater.

Rains on the north plains were spotted. Texline got a half inch late Monday, the first in many months. This rain area covered the driest portions of the plains, but came too late in the Hereford country to save the wheat, it is reported.

Abilene, Haskell and Stamford report a heavy fall Monday night. Snyder and Sweetwater got a fall of an inch or more. In some places over the entire area, cloudbursts occurred where it rained 5 inches within a few minutes as at Friona.

Mrs. Brite Tucker of Amarillo visited in Clarendon Tuesday with her aunt, Mrs. Emma Weatherly, and other relatives.

Paducah Boosters Visit Here Tuesday

Cottle County to Stage Big Centennial Rodeo May 26-7-8th

A motorcade of twenty-eight autos from Paducah arrived here at noon Tuesday and paraded up and down main street dispensing songs and shouts with an occasional shot to draw attention.

Gay colors predominated. Cowboys and cowgirls rode horseback on ponies provided locally. The cowboy stringed band was "caged" on a trailer.

Bluebonnet girls dressed in blue, and Sweethearts of Paducah dressed in pink dispensed songs typical of the West, "Old Faithful" being among that number rendered by the beautiful girls of talented voice. The Cowboy Stringed band accompanied.

Sam Braswell announced the purpose of the visit. Short talks were made by other visitors. The crowd gathered in the block in front of Pastime show.

Sam Lemons Visits Clarendon On Business Trip

Many will recall the school boy of years ago who staid in the home of his grandparents, Mr. and Mrs. S. B. Kutch, and attended school here. That lad was Sam A. Lemons.

He was here again Monday representing the Tulia milling company. He took a bit of time renewing old acquaintances, noting a number of decided changes in landmarks as well as faces.

Sam attended State University in 1927, later completing his college course at Texas Tech. He makes a good impression on the public, and gets the business for his company, which means a lot to Sam.

Wallace Weatherly Becomes Oil Magnate in Mexico

It was several years ago that Wallace W. Weatherly left here and cast his lot in New Mexico by locating some three miles north of Eunice. That section is now included in the latest oil field.

Owning 320 acres, the first well was brought in on the Weatherly tract a few days ago. There is plenty of room for many more wells. This is a wildcat well and extension of the field discovered some five years ago ten miles to the northwest.

Wallace is a son of Mr. and Mrs. R. C. Weatherly of Clarendon.

POPPY DAY HERE NEXT SATURDAY

Little Red Flowers Are Made By Disabled Soldiers In Veteran's Hospital

Saturday the women of Aubyn E. Clark Unit of the American Legion Auxiliary will be on the streets with baskets of memorial poppies to be worn in honor of the World War dead. They will work throughout the day, distributing the little red flowers and gathering contributions for the welfare of the disabled war veterans and the families left in need by the death or disability of a veteran. Their unselfish efforts will give every individual in the city an opportunity to pay personal tribute to the men who gave their lives for the country, and to extend a helping hand to those who sacrificed health, strength and happiness on the altar of patriotism.

The Auxiliary women are the wives, mothers, sisters and daughters of men who served in the war. They will do the hard, unaccustomed work of Poppy Day without any recompense except the knowledge that they are helping keep bright the memory of the war dead and helping keep hope in the hearts of those who are bearing the war's burden of suffering and privation. They deserve the thanks and applause of the entire city.

When we meet these women on the streets Saturday, let us all show understanding of the work they are doing. Let us meet them with a smile of appreciation and put on our poppies, glad for the opportunity they are bringing us to honor the nation's heroic dead and aid those still within reach of our help.

Mrs. Ben Hill and Mrs. C. J. Douglas are co-chairmen of the Poppy Day committee, and will be assisted in the sale by a number of other prominent workers of the Auxiliary.
