## ASSURANCE GIVEN AGED, PENSION APPLICATIONS WILL BE INVESTIGATED

Definite assurance that all applications for old-age pensions in the Amarillo district would be investigated before the end of the month was given State Representative Eugene Worley of Shamrock, by Orville S. Carpenter, executive director of the Texas Old-Age Assistance Commission, in Austin last week.

Worley returned Sunday after making a trip to Austin to intercede in behalf of hundreds of needy aged people whose applications for old-age pensions have not been acted on.

"Out of a total of 4,173 applications from the 20 counties comprising the Panhandle district I found 3046 had been investigated," said the state representative. "This percentage of 73 is much higher, I found than for the whole state, which is only 52 percent."

"Mr. Carpenter gave me assurance all applications now pending are being investigated as rapidly as possible and that all of them will be acted on before the end of the month."

Representative Worley said cases had been called to his attention, where aged persons in dire circumstances are not getting their pensions while neighbors who are better off financially, are getting their checks. He said old-age assistance officials are rushing investigations in these cases and pointed out that as soon as an application is acted upon favorably, checks are mailed for past-due payments as well as for the current month. Each person qualifying will receive payments from July 1st.

Ross Harwood Beville was a student in the Capitol Radio Engineering Institute, from which he graduated with highest honors in June of this year as told in an article in the Leader about that time.

## Donley Old Settlers Ready To Celebrate

## Annual Reunion Will Be Held At Tate Park Northeast Of Hedley Friday

The sixth annual reunion of the Old Settlers Association of Donley county will be held at Tate grove, six miles northeast of Hedley Friday, August 14th.

President W. I. Rains has performed every service possible to make this convention a success. He has had fine cooperation, and appreciates it in every respect.

The program committee, Homer Mulkey, Clyde Bridges and W. C. Payne, have been right on the job. Mr. Mulkey will take down the loud speaker and the High School band that will be directed by Ray Robbins.

Ed C. Boliver of the Hedley Informer and J. C. Estlack of the Donley County Leader serving on the invitation committee, have been letting the old folks know all about the big day just ahead.

Nothing takes the place of good eats, judging from the actions of the committee on barbecue. Mill Mosley, Less Hawkins, Clay Cavender and Orville Doherty are sure going to have the barbecue beef "right up to snuff" flanked with plenty of gravy and hot coffee to go with it.

Frank Whitlock of Clarendon, he who has barbecued more meats of more kinds than any other man in the Panhandle, spent Thursday and that night barbecuing the meat for the picnic folks.

String bands from Hedley and Lelia Lake will supply old-time music, that kind that you can "feel it in your bones." Donley county has the musicians and these boys will be right on the job.

Those who enjoy group singing can "just holler their heads off," one of the committee stated Tuesday. Judge S. W. Lowe will deliver the principal address of the day.

Bud Heffner will have his bunch of singers on the job. Brownie Nan Lamb will give a reading. Billie Marvin Land, fresh from Arkansas where he has been on vacation, will display singing skill and guitar stuff you don't see every day in a boy of his size.

Races? Sure! Potato, sack, cigar, and the fat men will get up steam in a grand stampede for a prize in the hot afternoon. There will be games for the little folks, and a doll contest. Little girls under ten years of age should bring their dolls all dressed ready for the contest.

Those who have resided in Donley county for 20 years are eligible. The elders may bring their families. This is a round-up for pioneers. If you are a pioneer, be there.

## U. S. COTTON YIELD SET AT 12,481,000

## Government Estimate Shows Texas Crop 72 Percent Of Normal

The 1936 cotton crop estimate by government reports is placed at 12,481,000 as compared with 10,638,391 in 1935 and 9,631,000 in 1934.

The Texas crop is estimated at 3,850,000 bales. Due to the fact that a large cotton growing area is facing the critical stage due to the drought, another estimate is expected before September 1st.

The crop situation in Donley county has not as yet reached the critical stage, though rain is badly needed. Crops on the sandy soils are said to be safe in making a short yield if no more rain falls, but other than sandy soils will yield little or nothing, according to farmer estimates here this week.

The west side of the county is in a fine condition so far as cotton is concerned. Corn is almost all ruined, though rain would save scattered crops. Little corn is grown here.

Row crops are needing rain badly. Some has been cut. If no more rain falls before October, Donley will fall far short of enough feed to carry the stock through the winter even with the addition of cake, or other prepared feeds.

Several farmers plan to sow black amber cane should showers bring any moisture up to September 10th. Such would be only a chance at that late date, but it costs little to gamble in cane seed.

## State Democratic Convention Will Meet in Ft. Worth

An effort will be made to dispense with the "run-off" primary at a meeting of the state democrats September 8th, it is announced. It is believed that the so-called second primary is unnecessary after being in force 18 years. It is believed people would vote "for" some one rather than "against" some one with only a single primary.

Delegates from Donley county to the convention are W. T. Link, J. R. Porter, W. P. Cagle, J. Less Hawkins, J. P. Pool and C. B. Morris.

Creator Carves Palo Duro State Park From the Prairie

The following beautiful tribute to Palo Duro State Park appeared in the Amarillo News a few years ago. The article was not credited to any writer, though it is given credit for being the most beautiful tribute ever written describing the Park.

One far-away day back yonder the Creator took the lashing rains for a chisel, the roaring winds for a scapel, and engraved down deep into the green levels of the Panhandle's plains a mighty cleft.

From the arc of the rainbow the Maker took brilliant hues and across the enduring walls of the chasm splashed the colors of the ages.

In gorges and among giant statues seeds of the pungent cedar, the gracefull hackberry, and the russet sumach were sown.

A silver thread was woven into the carpet of the chasm's floor,

## City Dads Maintain Same Tax Rate in Clarendon

At a meeting of the City Commissioners and Mayor Friday, the same tax rate was extended another year.

The tax rate is one dollar and a quarter a hundred. This is said to be the third year that this rate has prevailed.

and dripping springs and falling sheets of water were hung to veil the sheer cliffs.

Stars at night look down upon a yawning gash where purple mist lays as a blanket. Where Redmen's fires flamed.

Life came to it. A coyote came to sing a sad song; birds of plumage of colors myriad flew there to play a cheerful symphony; a deer and a rabbit brought grace and speed; bobcats howled their ferocity.

One time a name came to it, Canyon Palo Duro.

A rugged frontiersman, trail blazer, gentleman of the West

drove down into the canyon. Brought cattle. And courage. And vision. The first ranch came to the canyon. And the plain above other lands awaited ranches.

Men, thousands of them, later lived above the canyon's rim. Some of them dreamed that they too would go down that trail and into that fairyland that has beckoned to man since the first day's dawn painted its majesties.

An awakening has come. A man has started staking that trail.

And on into years men will silently move down the Goodnight Trail.

## Beards Tour Arkansas Over Vacation Period

Major Hudson is substitute mail carrier for Johnny Beard on Route One while Johnny and family are touring Arkansas.

They left Saturday going direct to Hot Springs. The drought section will determine the portion in which they are to spend the vacation.

## DROUTH RELIEF BEING STARTED

## Emergency Fund of \$30,000 Allocated to Panhandle For Immediate Use

Government drought relief in northwest Texas was begun the first of the week with L. H. Hauer, regional director in charge of the Amarillo office.

This part of the Panhandle has been allocated \$30,000 for emergency grants for drought-stricken farmers and stock men. Assurances have been given that a million more will be available if and when it is needed.

Government authorities state that the next ten days will determine the drought-relief set-up in the southwest in this division that takes in a part of Texas, Kansas, New Mexico and Colorado.

Feed loans are already being made to prevent stock losses. Loans are to be made to wheat farmers to enable them to sow wheat should there be moisture fall by planting time.

The resettlement division is steadily making loans on farm plans, but this is not included in the emergency relief allocation.

## Mare's Nest Found On Bank Salt Fork

## Mystery Thick as Clabber When Whole Works Blows Up As Hole is Explored

Several perfectly good theories went to smash a few days ago when Sid Harris across Salt Fork induced the laws of the county to explore mysterious diggings and what appeared to be a newly-made grave on the bank of Salt Fork.

Harris had perceived men digging in a secluded spot among the red hills. They were strangers. It all looked dubious, not to say spurious. Like every good citizen, Harris conveyed the information to Sheriff Guy Pierce who leaves nothing undone in the way of exploring alleged crime.

Sheriff Pierce, deputy Quisenberry, county attorney King, Justice of peace Davis made up the investigators. They dug into what appeared to be a grave with markings at head and foot. The markings appeared to be anything but English. Judge Davis read them as Mexican cow brands.

After digging down several feet, the men located a small receptacle bearing information of a geological nature. It was not really a "mare's nest" after all, but instead, was a bit of exploring being done for an oil company. No, the geologists didn't even leave a card!

## Illness In Family At Distant Points

## Parents Are Informed Two Daughters Must Undergo Operations

Having members of one's family ill at home is no pleasant task. To have two of them ill with pending operations at widely separated points still is worse.

It was this form of trouble that beset the family of City Commissioner W. B. Halle this week.

A phone message from Rogers, Arkansas Monday informed Mr. Halle of the critical illness of a daughter, Mrs. Herrington, who recently moved to a farm near Rogers, and a newly purchased home. Mrs. Nadine Halle Martin, who was married here Saturday did the phoning. Mr. Halle left immediately for Rogers, his car being driven by Donald Matthewson.

Then Tuesday, Mrs. Halle was informed by phone message that her daughter, Mrs. Buel Gray of Borger, was seriously ill, and was being taken to Pampa for an operation. Mrs. Halle was taken to Pampa immediately to be with her daughter.

Mr. Halle returned to Clarendon Wednesday reporting that Mrs. Herrington was much improved.

**BRIDGEPORT LIFE GETS JOB DONE.**

Among the most valued exchanges coming to the desk of this writer is the Bridgeport Life, Bridgeport, Connecticut. Printed on book paper, well illustrated and 'newsy' to the last line, the editor, Mr. Robert M. Sperry, is one of the most courageous writers of the weekly press of America today.

We wonder if his people really appreciate the value of such a newspaper as is the Bridgeport Life. It is but one among thousands standing four-square for the protection of the good citizens of the section whom it serves.

Send a dime to Bridgeport Life Publishing Company, 743 Hancock Avenue, Bridgeport, Connecticut and get a copy.

**THE LIGHT UNDER THE BUSHEL.**

The three most powerful agencies for civilization are said to be the school, the pulpit and the press. With no thought whatever of ignoring the value of the first two named, this editorial is directed to the press.

If the newspaper does not stand for law, order and system and American ideals, it falls far short of its obligation to that section where it is being published.

Human life is the most valuable asset, yet how many publications have the intestinal fortitude to voice a protest when a human life is snuffed out through carelessness, or by downright murder? It is true that an untrained public is not in a position to appreciate the iconoclastic attitude of the average editor in condemning lawlessness, but the public should be trained to an appreciation of the fact that editors and publishers should voice a protest against any encroachment upon the rights of the individual as guaranteed under the Constitution.

We do not live in the Stone Age. Stone Age tactics should not be tolerated. Brutal murders committed in the Panhandle have been soft-pedaled from a standpoint of publicity to the extent that would lead the fair-minded man or woman to believe that newspapers encourage crime. The same is also true of other forms of crime.

Let the public understand that the criminal "makes" the news—the newspaper merely publishes the kind of news that is made. Writers, editors and publishers have a solemn duty to perform, a moral obligation to discharge, and, above all, it takes a real man or woman to get the job done.

**Hawaiians Will Come To Texas In August**

Dallas, Texas, August 10.—Hawaiians will substitute the claim to their slogan, "the world's most beautiful islands," by bringing natural color and sound moving picture travelogues from Hawaii to the Texas Centennial Exposition August 14.

The showing of the hour-long, color-sound pictures will be a feature of Hawaii Day at the \$25,000,000 world's fair, and will be shown in several air-cooled theatres on the grounds with no admission charge to Centennial visitors.

"A special radio broadcast direct from Honolulu to the Exposition will be arranged on Hawaii Day," announced H. F. Cullen, appointed Hawaiian Commissioner to the Centennial by the Governor of Hawaii. Honolulu wishes to personally say "aloha" and congratulate the Texas' world's fair on its historic achievement.

The radio program will go direct to the Gulf Broadcasting Studios on the grounds, and be heard from the loud speakers located throughout the Exposition.

"We are bringing Hawaiian leis to place around the necks of Centennial officials in token of our esteem and friendship" said Mr. Cullen of Honolulu, who is assistant secretary of the Hawaiian Tourist Bureau.

Hawaiian music will be featured on all orchestra and band programs during the day, in honor of the American-owned islands.

Miss Carrie Davis of the Utilities office spent the past several days in Denton and other central Texas points on a vacation.

**Jap's Cheap Labor Effects All America**

**Injects Peasant Class Into Our Home Surroundings**

Dr. No-Yong Park, Chinese philosopher and lecturer, closed a speaking engagement at West Texas State Teachers College Friday night with his second address, "The Retreat of the West from the Orient."

The retreat is along all phases of life, according to Dr. Park, because Occidentals have failed socially, economically, politically, and religiously to gain a substantial foothold in the East against Japanese competition.

Without overriding the 5-5-3 naval agreement, Dr. Park explained that Japan has seized the unrestricted opportunity of building 10,000-ton vessels of war and has turned them out by the thousands.

Commercially, Japan finds it profitable to buy Texas cotton here, ship it to her factories, make it into cloth, reship it to the American Atlantic Coast via the Panama Canal, pay duty at United States ports, and undersell American cloth makers in their home markets, so stated No-Yong Park.

The simple desires of its people, cheap labor, a progressive and optimistic national psychology, and superior leadership and energy are Japan's underlying powers, according to the lecturer.

**Mr. and Mrs. J. Y. Welch of Rusk County Build Home From Their Own Timber**

Back from the road, set in a thicket of trees is a four-room log house home. At the west of the log house, which blends into the landscape, is an out-door living room with a rock garden and a fish pond bounded on one side by a brook of clear running water.

This is the home of Mr. and Mrs. J. Y. Welch of Rusk county. They built their home from the trees that grew on their own land, plus a small cash outlay of \$200.

They selected uniform logs from their land, cut and peeled them in the summer of 1934. They filled the cracks of their log house with post oak glade dirt and roofed their home with pin and sap shingles. On the inside are two native rock fireplaces.

Mrs. Welch, who is a member of the Minden home demonstration club, finished the majority of the inside of her home. She painted the woodwork, varnished and waxed the floors.

This farm woman's main hobby is writing poems. The following is one of her latest:

**VALUES**  
 You need not pity me who am a farmer's wife,  
 Oh, you who never knew a want in all your life:  
 Yours is a mansion rich with brownstone front, so fair.  
 (I have a brown stone walk; my own hands laid it there!)  
 In jeweled gown you play at bridge and win a "booby" prize  
 While in your idle way you talk with supercilious eyes  
 About the "farmer's wife" and scorn her frugal lot  
 Because she wears a gingham dress and keeps an humble cot.

I covet not your silken gown and store of jewels rare,  
 For I have richer gems than yours for my happy soul to wear:  
 My silks are woven from the beams a new moon smiles on me;  
 My silver is sifted from the sheen of my silver maple tree;  
 My diamonds are the dews of dawn sprinkled on my flowers;  
 My rubies and my sapphires gleam on my roses after showers;  
 My gold is the love of an honest heart, true to every test—  
 I am as rich as Sheba's queen and in her splendor dressed.

I rather pity you for your satiated state:  
 You never felt the thrill of hope nor guessed that dreams could wait.  
 You never saw a country sun come smiling o'er the hills  
 Kissing the dew-drowned daisies nor knew the joy that fills  
 This soul of mine as I drink in the diamond-sparkling dawn  
 When frost-froked fairies find first fresas on my lawn,  
 And ring my lily-of-the-valley bells out in a peal of bliss  
 And tease pink hyacinths into bloom by peading for a kiss.

I do not envy you your rank or store of gold,  
 For I have more in fee than my sun-browned hands can hold.  
 While you may hold the title proud of gay society's belle,  
 I am queen of a farmer's heart and of my home, as well.  
 I reign with joy here in my sphere, and you would envy me  
 Could you but see through eyes like mine the glories that I see—  
 You have more gold than I, 'tis true,  
 But I have far more dreams than you.

**Ford Economy Demonstrated By Actual Test**

"In the early days," according to Doas Palmer, local Ford Dealer, "engineers were chiefly concerned with building engines that would run. In so doing, many engineering refinements which would produce fuel economy were evolved rather slowly. Today, there isn't really a great deal of difference, in dollars and cents, over a year's time between large cars and smaller ones—provided operating conditions are similar.

"Of course, other factors, such as high speed, excessive use of low and second gears, starting and stopping in traffic, and so forth, enter into the picture. However, we're willing to prove that our Ford V-8 will give the snap and power the public wants, along with really economical performance.

Just ask anyone who's ridden in our 'Scottie' cars this last month how many miles it took to exhaust the gasoline in the gallon jug. You can pretty nearly write your own ticket in one of our cars when it comes to gas mileage. That's why

we stress satisfactory and economical operation, rather than miles per gallon—which is only the first page in the real story of all-round economy."

Mrs. L. R. Douglas and daughter Jackie of Rhame are guests of her sister, Mrs. Glenn A. Rieger and family.

**JUST PLAIN JOHN**  
 The rugged men of the Southwest refused to observe the amenities when Vice President Garner visited the Texas Centennial Exposition. They had been warned the correct address was "Mr. Vice President." One glance at the ruddy features of the sage of Vvalde made him just "John" to the thousands.

Mr. and Mrs. Horace Pyle of Logan, N. M. are here visiting her mother, Mrs. Cy Johnson and other relatives.

TEMPLE OF TRUTH

By the Apostle

Nature ever tries to keep her affairs on an even balance, we are told. Candidates itching for office are scratched by the voters, for instance.

Those who oppose the sales tax idea state that it just "barks at the rich while biting the poor."

What a lot of people become tired of prison life because their advice is "barred."

There was a time in the west when men died with their boots on. They still are dying with their boots on—the accelera.

A death a day will keep the tourists away, is a saying that might be applied to Potter county. Seldom does a day pass that some reckless bozo does not run into a

tourist and kill or cripple. Occasionally, the tourist strikes first, then the Potter county guy gets the worst of the scrimmage.

If the highway department would erect a white cross at every point where some one has been killed on the highways of the state, it might prevent at least half of the folks from being so reckless.

Or a skull and cross bones would be better, perhaps.

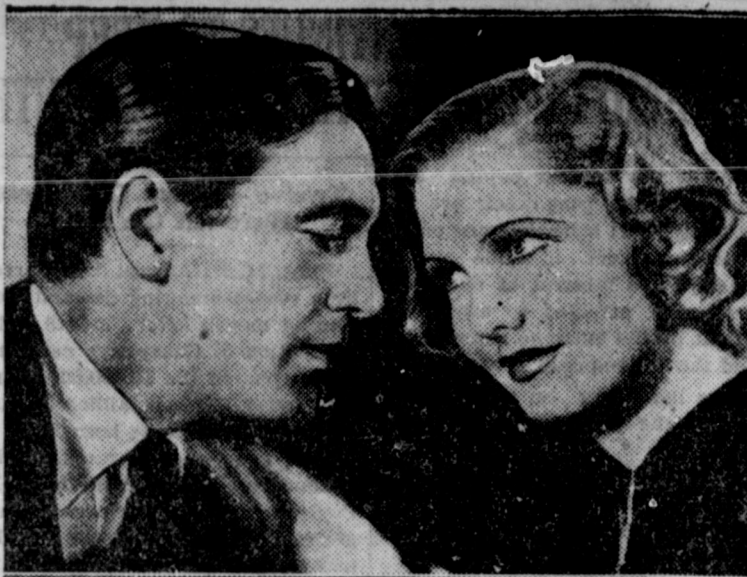

Live and Learn— "King Solomon and King David led merry, merry lives, With many gay companions and many, many wives; But when old age o'ertook them, with its many, many qualms, King Solomon wrote the Proverbs And King David wrote the Psalms."

Hastoon Yazzie of Hashknife is preparing for winter by hauling out a load of free road maps to be used in papering his parlor.

"Movements" are seldom started without some leader trying to stir up hate. He knows that hate is based on prejudice, and that more people have prejudice than brains.

Another smart man's brains have come out for air. He suggests that the A&M colleges cross grasshoppers with political bees so that they will chew up the ragweeds.

After all is said and done, the greatest reward of this life comes to the father and mother who have raised a good son or daughter of whom they and their neighbors are justly proud.

The fellow who whizzes round the corner, or leaves black streaks of his tires on the pavement may have a lot of "guts," but they are where his brains ought to be.

It must be disgusting to a wife killer to be harrangued in court for a couple of months and then declared not guilty. If he'd been convicted, he might have a chance at the movies. Out in California, a woman had to go back home, pull her husband's body out of the bath tub, shoot him the second time and drown him all over again in order to draw a salary of \$50 a week. Conditions are simple getting tougher on women every day. (Watch the men come to the front on this murder-salary-movie racket!!!)

Bachelor Bill suggests that men might get along better with their wives if they would swallow their pride and treat them as an equal.

Since learning that the Du Ponts make wars and depressions any old time they get ready, the people back east are said to be refusing to buy or use any of the numerous products manufactured by Du Pont factories.

"But it's all the ammunition of the cowardly character assassin."

The present day "cow-waddie" knows nothing about it, and but few cowboys that are left can do it. What? Plait! It really should be spelled p-l-a-t as that is the word. It may appear incongruous or unsophisticated, (whatever that all means) to a lot of folks. A long time ago we had some expert platters. A few could plait up to 32 strands, round or square. During idle time, the average cowpuncher would plait his bridle reins, watch chain, hat band and perhaps other jewelry. Some collected enough "curls" out of the middle switch of a cow's tail to plait a hair rope. The various colors were expertly platted in just as they did in plaiting a watch chain or other hair-made articles of the highest skill. No sir, plaiting has just about become a lost art among the American element. The Mexicans, from whom they learned it, con-

tinued to plait beautiful articles. About the only place an American does any plaiting now is after he breaks into state's prison some place. The prison always maintains a "store" from which the articles are sold. Only by that means does a convict have any ready money to use in getting started after he gets out. But how many of the present-day cow-waddies want to break in to prison to learn an art that was common to the cowpuncher and the cowboys a quarter of a century ago?

Referring to an article in the Amarillo News Monday which read as follows:

"A man who said he was T. M. Shaffer of Clarendon, was found sprawled face down, \$3 in one hand and a highway construction torch in the other. To police "Shaffer" maintained he had been "doped" by four men from whom he had accepted an invitation to ride. "Shaffer" said he had been robbed of \$150."

Well, when T. M. Shaver of Clarendon read the article Monday, he promptly called the Amarillo News office and "denied the allegation, and defied the allegation," as the old saying goes. He thought there might be some intimation on the part of the News that a fish had followed him out of Colorado and made an attack in a spirit of revenge.

The article is true except that he was not robbed of \$150. He never did have that much, he states. He was not on the highway west of Amarillo, but in Clarendon. Further, it was not T. M. Shaver at all and he does not even know, neither does anyone else here know one "T. M. Shaffer."

It looks like some more spite work on the part of local jealous fishermen who can't inveigle the Colorado spotted beauties into a skillet.

Considering the heat, this is enough for one week. In closing, may we say "commend us if you can; censure us if you must, but never ignore us."

## Family Reunion Held Near Lelia Lake

Last Sunday a reunion of the Gerner family was held at Lelia Lake on East Lake Creek on the Gerner farm to observe the 85th birthday of Mrs. Amelia Gerner. All the children, grand children and great grand children were present for the all day barbecue and picnic.

Four generations were represented.

Those attending were Mrs. Amelia Gerner, Mr. and Mrs. H. Ernest Smith and family of Amarillo; Mr. and Mrs. J. C. Smith and family of Lelia Lake; Mr. and Mrs. L. B. Gerner and family of Dallas; Mr. and Mrs. J. C. Gerner and family; Mr. and Mrs. E. H. Gerner and family, and Albert Gerner of Lelia Lake as the immediate family.

Other relatives including some guests present were Mr. and Mrs. Geo. Smith and family; Mr. and Mrs. Waite Smith; Mr. and Mrs. Lemuel Smith; Mr. and Mrs. Herman Smith; Mr. and Mrs. Harold Smith; Mrs. Laura Russell; Mr. and Mrs. Louie Walsmith; Mr. and Mrs. O. C. Edwards and family and Mr. Earl Pearce, all of Amarillo.

Mr. and Mrs. H. E. Christie and family, Mrs. L. B. Noble and Greer Cottingham of Lelia Lake.

An abundance of meats, bread, pies, cakes, salads of various varieties and many knick-knacks fed the crowd of fifty-five in number for dinner and supper with a good supper left. H. Ernest Smith, grocer and druggist of Amarillo brought a supply of iced drinks.

An afternoon feature was a ball game. One team was selected from the city players of Amarillo and Dallas, pitted against a rural home team.

A fast game beneath a broiling August sun resulted in a victory for the city team by a close call. A large proportion of the city team were young ladies—probably accounting for the teams success. A score of 10 to 9 indicates a heavy barrage of slugging on both teams.

### KINDNESS

Life's all too brief for care and grief;  
Too short for bitter tears;  
So, let's be gay, each passing day,  
And fill the world with cheer!

Yes, let's be kind! Let's bear in mind  
That Life is far too short  
For single flash of anger rash,  
Or word of hateful sort!

Too often—we speak angrily  
To those we hold most dear!  
Yes, every day, in thoughtless way  
We make a sigh or tear!

I can divine of naught more fine  
For man to leave behind;  
Than this fair fame, "He had the name  
Of always being—kind!"  
—Bindery Talk.

Dr. C. Frank Brown and family of Dallas returned home Tuesday after being guests in the home of Dr. and Mrs. O. L. Jenkins a few days.

### Lanes Visit Relatives In New Mexico

More than a week was spent by Mr. and Mrs. M. E. Lane and four children in touring New Mexico scenic parts of mountains and stream.

A visit was made to a brother of Mr. Lane who resides west of Eastancia. Then a trip was made to Belen, Albuquerque and other points north to where an aunt lived on the Rio Grande.

The party first visited formerly resided at Goodnight until he moved west some 33 years ago. He is a dry land farmer, and they are having plenty of mountain showers for crops this year. Mr. Lane here states that corn is expected to make 40 bushels, and beans accordingly.

Beans, Mr. Lane said, are selling out there for less than three cents.

Roy Terrell, aged 84, and an annual visitor in these parts, came in from Clay county Monday to visit his daughter, Mrs. Geo. Doshier. When he arrived, he found all his relatives were visiting in New Mexico.

### Ft. Worth Invites Highway Employees

Fort Worth, August 10.—Thirty thousand employees of the State Highway Department will be given a week-end holiday to attend the Fort Worth Frontier Centennial on August 22nd by an order issued by the State Highway Commission received here today.

The order granting the holiday was passed by the State Highway Commission in response to an invitation extended by J. J. Hurley, city projects agent, who has been appointed to make arrangements for entertaining the huge group of state highway employees.

The order gives the state highway employees a holiday not only on August 22, which occurs on Saturday, but also on the Monday following. All state highway offices throughout Texas will be closed on those dates.

The commission appointed H. H. Allen, its public relations director, to confer with Miss Margaret Hall, chairman of the special days committee of the exposition and Hurley. Allen will forward an invitation to highway employees in each district to attend the exposition.

### John Morgan Returns From Missouri Sunday

Mr. Morgan has been a patient in a Savannah, Mo cancer hospital for several days, and went there for a facial operation.

He reports drouth conditions much worse to the east of here, the timber dying in the Ozark mountains. His old home section in eastern Oklahoma was dry, no crops and timber dying.

"Donley county is the best looking crop place on the whole trip," he states. Mr. Morgan has lived in Donley thirty-three years.

He talked with a man from Manitoba, Canada who told him that crops were eaten by hoppers, or what the dry weather did not get, and that the Dakotas, Iowa and Nebraska were bare. Dry weather and hoppers have cleaned out everything, Mr. Morgan was informed.

### Breedlove Struts His Stuff In Barbecuing Chicken

We have it on reliable authority that county agent H. M. Breedlove barbecued forty chickens at the Midway school for the big feed held by the community there Friday night, or possibly late in the evening.

Eighty-one were present bringing plenty of trimmings to go along with the barbecue. It was a swell affair, we are assured by several who had an opportunity to get in on it.

### When First Whites Landed In Texas 1519

A battered Spanish galleon limped into the stillwaters of Corpus Christi Bay four hundred and seventeen years ago this past spring. Her masts were torn away, her sails in ribbons, and her hull showed the terrific battering she had received from the maddened seas.

The commander, Alvarez de Pineda, ordered anchors dropped and boats lowered away. He and his ragged sailors made a landing party, and on the smooth beach in the still halfmoon of curved green shore, they raised the gold and crimson standards of Aragon, and lifted their voices in a Te Deum of praise for deliverance from death.

It was the year 1519, spring, and the Holy Thursday of Corpus Christi.

Pineda had sailed from Jamaica months before to seek the Southwest Passage to India. He never found the passage, but he made a map of the coast of Texas which was to bring hundreds of navigators, explorers and adventurers to these shores. And on the map was the Bay of Corpus Christi, so named because God had sent them safe harbor from the storm on this holy day.

The story of Pineda and his coming to the Land of the Tejas is told in the Cavalcade of Texas, dramatic spectacle of the birth of an empire, presented twice nightly at the Texas Centennial Exposition as their outstanding attraction.

Here on the world's largest stage—a miniature of Texas almost a block long—300 Texans reenact the stirring history of the past, from the day the storm-tossed Conquistadores found the safe haven of Corpus Christi Bay and gave it a name, down to the present time.

Cavalcade of Texas is the most thrilling drama ever given on any stage, splendidly mounted and costumed, and expertly directed, with a hundred head of cattle to add to the realism. It is a story all Texans will thrill to.

# "Mr. Deeds Goes To Town" Hailed Better Than Prize Winner, "It Happened One Night"

There have been lots of pictures that were hailed as favorable comparisons to "It Happened One Night," the now immortal Columbia production that Frank Capra injected with the directorial genius that is so definitely his. It is admitted, however, that none really came up to the high standard of romantic comedy that Capra set with that prize-winning film.

Now, with his inimitable magic touch, Capra has brought forth another "It Happened One Night," a gay charming Cinderella story called "Mr. Deeds Goes To Town," which is coming to the Pastime Theatre next Sunday and Monday, August 16-17th., with Gary Cooper and Jean Arthur in the leading roles. Critics have welcomed it as the only picture that could be regarded as a contended for the many honors that fell to the Clark Gable-Claudette Colbert vehicle.

It is fitting that only Capra should surpass Capra's achievement. Gary Cooper is said to give a performance that will make fans sit up and take notice. Always a great favorite with the movie-going public, Cooper in this film emerges an entirely fresh personality, full of charm and good humor.

Jean Arthur, who plays the feminine lead opposite Cooper, continues to fulfill every expectation of her boosters. In the short space of a year, during which she has played leads in "The Whole Town's Talking," "Diamond Jim," "If You Could Only Cook" and Public Hero Number One," Miss Arthur has clambered up the ladder to stardom with startling rapidity. In "Mr. Deeds Goes to Town" she cements her future as an important screen personality.

"Mr. Deeds Goes to Town" tells the story of Longfellow Deeds, a

rustic young man who suddenly falls heir to \$20,000,000 and goes to New York City against his will to claim his money. The adventures that befall him are said to make for some of the choicest hilarity the screen has seen in years.

He gets mixed up with a girl newspaper reporter; goes out on a roaring drunk; feeds doughnuts to a horse to see how the animal will eat before asking for a cup of coffee; dashes madly around the city streets in his underwear; tries to give his entire fortune away to needy farmers.

## Surface Burial Vaults Overcomes the Horrors of Underground Burials

The burying of our dead is the last loving tribute of respect that we can show them, and our mind goes beyond the mere formality of the occasion. The separation that death brings, the vacant place in the home that can not be filled, the voice that is hushed, the kindly eyes that are closed for all time, and the last unselfish deed has been performed, is not all that remains in our memory, there is the falling of the clouds on the box or the casket encasement, the ugly mound above ground, the watery grave when the rains begin to fall, and the rodents that make their bed from the shroud and linings of the casket, there is the disintegration of the body hastened by the ravages of the under-ground insects. You have not been satisfied and I have not been satisfied but up until recent years we have done the best that was possible.

Since the introduction of the SURFACE BURIAL VAULT we may overcome all of the under-ground horrors of burial. For those who have an abhorrence of the under-ground grave, the SURFACE BURIAL VAULT with its security, sanitation and beauty provides a perfect tomb. It is the most perfect tribute to be paid the memory of those who are gone.

Before making final arrangements investigate this outstanding burial receptacle and give it your serious consideration.

We have a complete stock of Elberton Blue Granite Monuments and can give quick service on erection of the stones as all work is done here.

"Article XVI, Section 20:

"(a) It is hereby declared to be the policy of this State that the open saloon shall not be reestablished. The sale of spirituous liquors, manufactured in whole or in part by means of the process of distillation and or liquors compounded and or composed in part of such spirituous distilled liquors, for private profit, is prohibited within this State except when such sale is made to the State. The State of Texas shall have the exclusive right to purchase at wholesale and to sell at retail such distilled spirituous liquors. Such sale shall be made only in unbroken packages and no such liquors shall be consumed on the premises where sold. The Legislature shall pass laws to prescribe regulations relative to the manufacture, sale, transportation, and possession of such spirituous liquors and relative to the establishment of State dispensaries; provided, however, the Legislature shall have the power to regulate the sale for private profit and possession of distilled liquors for medical, scientific and mechanical purposes.

"The manufacture, sale, transportation, and possession of all liquors, the alcoholic content of which is entirely and exclusively the result of the fermentation process is hereby authorized under such restrictions as may be authorized by law.

"(b) The Legislature shall enact a law or laws whereby the qualified voters of any county, justice's precinct or incorporated town or city, may, by a majority vote of those voting, determine from time to time whether the sale of intoxicating liquors for beverage purposes shall be prohibited or legalized within the prescribed limits; and such laws shall contain provisions for voting on the sale of intoxicating liquors of various types and various alcoholic content.

"(c) In all counties, justice's precincts or incorporated towns or cities wherein the sale of intoxicating liquors had been prohibited by local option elections held under the laws of the State of Texas and in force at the time of the taking effect of Section 20, Article XVI of the Constitution of Texas, it shall continue to be unlawful to manufacture, sell, barter or exchange in any such county, justice's precinct or incorporated town or city, any spirituous, vinous or malt liquors or medicated bitters capable of producing intoxication or any other intoxicants whatsoever, for beverage purposes, unless and until a majority of the qualified voters in such county or political subdivision thereof voting in an election held for such purpose shall determine such to be lawful; provided that this subsection shall not prohibit the sale of alcoholic beverages containing not more than 3.2 per cent alcohol by weight in cities, counties or political subdivisions thereof in which the qualified voters have voted to legalize such sale under the provisions of

Chapter 116, Acts of the Regular Session of the 43rd Legislature." Sec. 2. Such proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State of Texas, on the third day of November, 1936, at which election all voters favoring said proposed Amendment, shall write, or have printed on their ballots the words: "For the Amendment to the State Constitution providing for the establishment of a State Dispensary System having the exclusive sale of distilled liquors, and providing for local option."

And those voters opposed to said proposed Amendment shall write or have printed on their ballots the words: "Against the Amendment to the State Constitution providing for the establishment of a State Dispensary System having the exclusive sale of distilled liquors, and providing for local option."

If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for such election, and shall have the same published and such election held as provided by the Constitution and laws of this State.

Sec. 4. The sum of Eight Thousand (\$8,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

Among the foolish hot weather statements, "Is it hot enough for you," is said to head the list. Just when old Donley was expected to take the lead in a heat record Sunday, Childress ups and beats us by four degrees.

The instrument kept by official weather recorder Joe Goldston chalked up 114 for Sunday afternoon as the highest. Memphis went to 116 and Childress went to 118.

This is the second time of the year for Clarendon to reach 114, which is also said to be a new record since official tab has been kept.

The freak whirl, much stronger than the average large whirlwind, played out near the depot.

Complete Stock Ford Parts And More Mechanics Are Required

In keeping with the policy of the Palmer motor company to keep thoroughly abreast of the times, and to meet the requirements of the public, a complete stock of Ford parts have been added to their stock. These parts are on display, and represent a wide variety of accessories and necessary purchases that will be made in the natural course of auto use.

Recently, Rex Lawrey, an auto mechanic of the Fred Jones auto repair shops in Oklahoma City was placed in charge of the auto repair department. This week an additional mechanic became necessary in order to handle this increased volume work with dispatch, and H. V. Shirk of the auto repair department of Walter Irvin, Ford Dealer of Amarillo joined the personnel of the repair department. Both men are highly skilled and factory trained.

Parish Dever, an experienced man in his line of work, has charge of the washing and lubrication. "No one grease will meet the needs of every part of the car," Mr. Palmer stated Tuesday. Hence several grades have been stocked for the lubrication department. The same is true of oils, Mr. Palmer states.

"It is our policy to make repairs at a minimum of cost to the patron, and in order to accomplish this fact, we have added every modern device and tool necessary to meet with the advanced Ford economy methods advocated by the Ford Motor company," Mr. Palmer stated in summing up the many tests that may be made to locate motor troubles quickly.

**Tells How Cartoonist Got His Start Toward Daily Newspaper Field**

While visiting here over the past week, Harry Moore, former resident of Donley county and a brother of Mrs. Chas. G. Speed, gave some interesting facts about a number of things happening in his adopted state.

He was accompanied by Mrs. Moore on their first visit back here in fifteen years, and reside at Ajo, Arizona. They are neighbors of the Gatlin family, Miss Bertie Gatlin being connected with the local phone office for a number of years.

Mr. Moore is machine shop foreman for a large copper company in Ajo where all the underground water is hot.

Walker Moore, a brother, who married Miss Elizabeth Phillips, resides at Tucson and has charge of the CCC service in eastern Arizona and western N. Mex.

Jack Moore, the youngest of the family, is married and resides at Deming where he is employed by a gas company. All of the Moore men grew up here with the exception of the youngest.

Harry Moore is personally acquainted with J. R. Williams, cartoonist, who features "Out Our Way" which we see in the dailies every day almost. Williams was formerly a machinist in a railroad shop years ago at Gallup where he drew down twenty-five dollars a week. His wife encouraged his drawing ability, he took her advice and now averages around seventy thousand dollars a year for his artistic ability. His drawings are based on past experiences, the "Bull of the Woods" being his old foreman in the machine shop.

Upon the birth of the little Miss more than a year ago, Mr. Chisum, wealthy auto dealer of Amarillo, was given the privilege of naming his niece. In return, he presented her with a new Plymouth car.

Saturday, he remembered her again with a substantial gift in the form of a nice corner residence lot in the favorite part of town, said to be valued at approximately one thousand dollars.

Little Miss Tony Salmon is a grand daughter of Mr. and Mrs. Salmon of Clarendon, local dry-goods merchants.
