HEDLEY WOMAN FLEEDED OF \$45 IN NOVEL SCHEME LAST THURSDAY

Told Officers She Was Forced to Endorse Worthless Check While Alone, By Woman Who Had Asked About Rooms

Crooks last week enacted a novel crime in Donley County when they fleeced a Hedley tourist camp proprietress out of the sum of \$45 on a spurious check.

Although the money was obtained last Thursday it was not reported to the sheriff's department here until the week end, according to Deputy Sheriff Guy Wright who explaining the incident, Tuesday, said:

"A woman, a man, and a little child, drove into the camp and asked about accommodations. When told by the elder lady who was alone, that the custom was 'cash in advance' the woman returned to the car and got a check, payable to C. H. Riley Jr. with the signature, C. H. Riley Sr.

The woman endorsed the check with the name of Mrs. Riley Jr. and forced the tourist camp lady to endorse it afterwards.

Taking the check to the bank, before the woman could turn in an alarm, the trio secured the cash upon the sub-endorsement."

Wright said the check was drawn on a Shreveport bank which returned it with the notation that worthless checks had been passed under this name for the last two years.

Wright issued the following description as a warning to others in the county:

Woman, about 5 feet and 3 inches tall, light hair, gray eyes, weighing about 140 and around 33 years of age. She was wearing a brown seal skin coat, and brown hat.

The man remained in the car and the meager description given was dark skinned, possibly about 5 feet and 8 inches tall. The car was a '31 or '32 black Chevrolet.

SELECT COUNTY FUND DEPOSITORY

The county commissioners court in session Monday selected the Donley County State Bank as the depository for county funds for the next two years, County Judge S. W. Lowe said today.

Approval of accounts was included in the business transacted by the commissioners.

CAR LICENSE SALE SLOW

Sale of 1937 automobile license plates remained slow this week as deputy tax collector Glenn Churchman reported only 16 for the month, including Wednesday.

Out of this number 15 were for passenger cars and one for a farm truck.

Former Companion Of Desperadoes Arrested Here

Doyle Meeks Formerly Of Hedley Wanted In Potter

Doyle Meeks, formerly of Hedley admitted West Texas bad man, was taken into custody near Hedley yesterday morning on a Conversion by Balise warrant from Potter County, according to Sheriff Guy Pierce.

Meeks, Pierce said, was at one time connected with Perch Mouth Stanton and Roy Honeycutt, who killed Sheriff Mosley at Rome, although he was not with the pair at the time of the murder.

Stanton was later electrocuted at Huntsville and Honeycutt died in a gun battle with a posse in New Mexico after killing a deputy sheriff.

Pierce said he did not know the nature of the charge in the warrant but was of the opinion that Meeks was wanted in Amarillo on a complaint alleging that he had absconded with money owned by a tourist camp firm at which he was working.

BAND BENEFIT NETS OVER \$58

Amateur Program And Box Supper Very Successful

Although only a small crowd attended the benefit amateur program and box supper, given by the Clarendon High School band at the College Auditorium last Friday night, over \$50 was netted for the uniform fund, it was announced today.

John Earl "Buddy" Ryan and Ernest Thompson won first place in the amateur program with an exhibition of boxing. Second prize was awarded to a novelty tap dance chorus, under the direction of Miss Mary Cooke, composed of Avis Lee McElvany, Jo Word, Dorothy McCormick, Peggy Word, Eloise Hill and Vivian Taylor; and third prize was awarded to Charley Ann Whitl, dance.

Frank Whitlock was the master of ceremonies and auctioned off the boxes.

Another source of revenue was the "ugliest" contest. Ray Robbins, band director received the most votes with Johnnie Beard and H. T. Burton second and third.

Rev. J. Perry King assisted Mr. Whitlock in the sale of coffee and cold drinks.

Mrs. Ida McMurtry Passed Away In Amarillo Tues.

Mrs. Ida Mae McMurtry, 52, 512 West Tenth Avenue, owner of the McMurtry Apartments and resident of Amarillo for 15 years, died early Tuesday morning at St. Anthony's Hospital.

She was a member of Central Presbyterian Church. Survivors include her mother, Mrs. Cora Brown, Deinstas, Calif.; two sisters, Mrs. Charles A. Gatlin, McLean, and Mrs. Willie L. Harless, Longview, and a brother, J. E. Stevens, Indio, Calif.

Her only son, Carroll, was killed in an automobile accident in 1929. Funeral services will be conducted at the Central Presbyterian church at 11 o'clock Friday morning, with interment in the Citizen's cemetery at Clarendon at 2 p. m.

Stults Is Elected Scoutmaster Monday

Ray Robbins Is Assistant Scoutmaster; Committees Are Selected

Monday night some twenty potential Scouts met with J. M. Hill, H. M. Breedlove, J. R. Bulls, C. B. Morris and A. C. Stults in Aggie Hall for the purpose of organizing a Boy Scout troop for Clarendon.

Much interest was shown with every indication that the Scout troop would soon become one of the most active in the district.

C. B. Morris was elected district committeeman, E. D. Landreth, secretary-treasurer; R. S. McKee, vice chairman; R. E. Drennan, Court of Honor; Homer Mulkey, finance chairman; Bill Patman, camping chairman; Jerome Stocking, health chairman; Guy Pierce, safety; J. Perry King, cubber.

Five men were selected to direct troops, as follows: R. Y. King, J. M. Hill, J. R. Bulls, Edd Speed and H. M. Breedlove.

The next meeting will be held this Thursday evening at the same place at 7:30.

WPA Work In County To Be Shifted Soon

Hedley Street Project May Be Re-Opened; City Hopes To Complete Dams

WPA work in Donley County was to be juggled this week and the majority of the county planning board recommended changes that would result in a saving of money for Donley County.

With the completion of the WPA school project, yesterday, the board hoped that approximately 28 men would be transferred from there to the NRWR road project north of Clarendon. The 35 men, formerly working on the road, would be retained in Hedley, their home, to be employed on the street project, in that city, which was shut down a few months ago.

Under the road set-up, the county had to furnish transportation which necessitated running a truck from the project to Hedley and back to Clarendon.

The Hedley street work consists of grading, leveling, and dressing with caliche, principal city streets. The road project is the surfacing of a strip, four miles north of Clarendon on Highway 88, which when completed will eliminate four dangerous curves.

City Commissioner T. M. Pyle said Tuesday that the 28 men relieved from the school job may be temporarily employed doing finishing work on the city flood control dams.

Guy C. Holder and A. W. Long, WPA supervisors from Amarillo were in Clarendon Tuesday discussing the changes with both the city commission and members of the County Planning Board.

Palmer Motor Co. Leads District In Sales

At the close of the sales contest on car accessories and batteries staged by the Ford motor company, the Palmer Motor Company headed the list in this zone.

Sixteen salesmen representing the winning firms of the southwestern division were in attendance at a Ford banquet at Oklahoma City Saturday night at the Biltmore hotel.

Mr. Elmer Palmer, the only salesman from Texas, was in attendance. He and his firm was paid a distinct compliment by the Ford motor company.

Mrs. Palmer and son James Wesley accompanied Mr. Palmer to the big city. They returned home Sunday.

Meetings To Discuss 1937 Farm Program Planned By Agent

Ranchers Range-Program Also Outlined

Meetings will be held, starting today and continuing through Wednesday of next week, for the purpose of discussing the 1937 Agricultural program and the program for ranchers which is a continuation of the farm program, County Agent H. M. Breedlove said yesterday.

Breedlove said the program is practically the same as last year's. Only a few changes have been made with the major ones being that there will be no minimum on the reduction of the cotton and general base. The maximum reduction is 35% on cotton and 15% on the general base, the same as it was last year.

Interplanted feed with peas will be considered 100% soil depleting.

There will be a soil conserving base which will be the difference between the total base acres and the measured cropland. The soil conserving base must be planted to a soil conserving crop or a soil conserving practice carried out.

Grain Sorghum must be planted solid or broadcast on the rented acres.

"There are a few other changes that will be discussed at the meetings," Breedlove said.

"The Range building allowance is that any rancher can get for range building practice the range capacity of the ranch, multiplied by \$1.50. The range capacity will be determined by the range inspector. After the Range building allowance is established the rancher can earn this by several methods," he explained.

"First, by setting aside one fourth of the grazing land for six months during the growing season from May 1 to November 1st. This will earn one third of the allowance. The other ways of earning this is by clearing mesquite from the land, killing prairie dogs, clearing the land of prickly pears and cactus, contour listing or furrowing ridging range land, building spreader dams, plowing fire guards around pasture, building range fences."

Meetings will be held at the following places:

Giles—Thursday, 11 at 2:30 p. m. at school house.
Hedley—Thursday, 11th at 7:30 p. m. at school house.
Ashtola—Friday, 12th at 9:30 a. m. at school house.

NEW FARM CHECKS THIS WEEK BOOST TOTAL SUM IN COUNTY TO \$152,241

Sixth Shipment Of 71 Checks Total \$9,936.45; Others Are Expected Daily; Sharp Incline In Business Noted

Nine thousand nine hundred and thirty six dollars and forty-five cents was received here this morning in federal farm checks to make the total payments in Donley County, since Friday, \$18,615.45 and boost the total to \$152,241.

Today's shipment was the sixth mailed to County Agent H. M. Breedlove's office, from the Treasurer Department at Dallas, and brought the total checks to 938.

About 49 checks were received last Friday totaling \$6,979; 13 Monday reached \$1,700 and 71 today amounted to \$9,936.45.

Approximately \$100,000 is yet to be paid farmers and landowners here who complied with the conservation and acreage reduction program last year, and checks are expected daily, Claude Moore, Assistant Agent said.

Clarendon business men reported a sharp increase in business last Saturday and are preparing for a sharper rise this week-end.

Woman Sure Dead But She's Jailed

"She was dead all right—dead drunk."

The statement was made by the sheriff in answer to numerous questions concerning "the woman brutally beaten and left murdered, in a pool of blood, west of the railroad tracks here yesterday morning."

The crowd started gathering in the sheriff's office soon after a Buntin & Son ambulance, and the sheriff answering a call which informed them that a woman was lying in the road, bloody and probably dead.

The reek in the immediate vicinity gave mute evidence of the name of the brutal attacker, Pierce said, and the bruises and lacerations were attributed to attempts she made to recover her footing. "This was readily understood considering that she weighed about 225 pounds," the sheriff stated.

It took three men to lift her into the car that took her to the Adair Hospital where she slept peacefully until around noon. Soon after that time she departed the haven of help but, hitch-hiked a ride back to the court house with the sheriff, who picked her up in about two blocks.

Appearing before the Judge where she was fined \$50 she made her first coherent statement. Mixed with less refined words she told the judge that she didn't give a hoot if she was fined \$150. The judge almost obliged by raising the ante to \$100 and she again joined the sheriff's company and tripped merrily to jail where she may stay for around 40 days.

Millions Are Given To Red Cross Relief

President Asked For Eleven Million For Flood Relief; Over 17 Million Given

It was impossible to keep a record of the names of those who contributed to the Red Cross cash fund. Many sent in checks and cash from all sections of the county. Those at and around Lelia Lake contributed here.

A total of \$442,590 was collected here. Hedley citizens collected \$74.10 despite the fact that several Hedley people left money here. Ashtola citizens gathered in \$24.10 besides the amounts paid in here by people living up there.

Numerous individuals left clothing and bedding of all kinds at the Leader office. Donley county citizens were most liberal, and that applies to all ages. In many instances, children gave pennies.

When the President's call went out for eleven million dollars for the flood sufferers, China raised thirty thousand as an expression of appreciation for relief given them in flood disasters by this nation. Japanese in Dallas representing their government, gave \$300.

More than seventeen million has been given to the Red Cross to date. The mid-west division of the Red Cross which includes the "dust bowl," gave a third of the millions collected.

VISITING WITH OUR NEIGHBORS

Next Sunday is Valentine Day. A good day for a good deed. Our women folks all like to be remembered on Valentine Day. One of the most pleasant memories I have today is the fact that I sent my dear old mother a valentine every year. After she passed on more than two years ago, among her effects we found several of those large red heart-shaped valentine boxes. Your mother will appreciate the little gifts more than you will ever know. Send her one while you may. There will be a time when you can't. Yes, and the wife is entitled to one, too. The sweethearts will naturally get theirs anyhow. It's the wife that is neglected after the sweetheart day is a matter of

history. It seems such a short time since Johnnie Frank Alexander was a little boy here. He got himself married last week in Ft. Worth where the parents, Mr. and Mrs. Byron Alexander have been residing for some time. And this young man has a lot of friends in old Donley who will be glad to know that he found the "best woman in the world," and that he is in business doing well. He is a grandson of the late Judge J. J. Alexander, a leading pioneer of this county for near a half century.

There is more complaint about boys shooting in town. On December 24, 1894, my older brother was killed by careless handling of a target. That was a sad Christmas, and every Christmas reminds me of that sad event. Elders should avoid these tragedies by knowing what their boys are doing with

their guns. It takes but a moment to sadden a home for all time. Some of our folks are really alarmed over the shooting affairs now going on right here in town.

A local man tells about a feed store sending him laying mash by mistake when he asked for cow feed. Next day he found an egg in the cow manger. We want to run the fellow's picture in this column next week. Perhaps the cow's picture too, if possible.

Believe it or not, this is the time to plant English peas. They will come up early, get well-rooted before the hot weather and bear practically all summer. We have the best luck with telephone or marrowfat varieties. And again, the ladies who wish to exchange flowers, we will run their advertisement free. This is to encourage flower planting. Just exchange plants—no sales.

The best Red Cross program to come over the radio was the Kate Smith singing program. Miss Smith has given more than a hundred thousand to charity since she became a movie actress. Well, I just had to send in a bit to encourage her along. She sang several songs, and then asked that the money be mailed to her in New York City. More than two hundred thousand is said to have been sent her, according to a report made the following Sunday. She's an Alabama girl, big and fat and making good. "When the Moon Comes Over the Mountain," is her favorite.

Let's have the flower exchange going this coming week. Call 386. Thank you.

THE 25-MILLIONTH

F O R D

HAS JUST BEEN BUILT

IT HAS never occurred before in automobile history that 25 million cars of one make, bearing one name, have been manufactured under one management. The 25,000,000th Ford car rolled off the Ford Rouge Plant production line on January 18, 1937.

25 million cars since 1903... more than one-third of all the cars ever built... enough cars to transport the entire population of the United States.

The figures represent a remarkable contribution to the social welfare, the industrial stability and the general progress of our country.

People respect Ford efficiency. They know Ford uses fine materials, the best workmanship at good wages, the most exact precision measurements. They know these things are passed along to purchasers in the form of extra value. Naturally, they like to do business with such a company.

That is the only reason it has been required to produce 25 million cars. Naturally, too, they expect more of a Ford car, more this year than last year—more

each year than the year before. They have every right to. The experience gained in building 25,000,000 cars enables Ford to produce today a really superb motor car at a really low price—with the Beauty, Comfort, Safety and Performance of much more expensive cars.

The 1937 Ford V-8 combines advanced design, all-steel construction, extra body room, and brilliant brakes with a choice of two V-type 8-cylinder engines—the most modern type of power-plant on land, sea, or in the air.

The 85-horsepower engine provides top performance with unusually good economy for its high power.

The 60-horsepower engine gives good performance with the greatest gasoline mileage ever built into a Ford car—and wears the lowest Ford price tag in years.

People expect more of a Ford car because it's a Ford—and they get more, for the same reason. It is undeniably the quality car in the low-price field.

Outlook For Cotton For 1937 Is Not All Dismal, Says Texan

AUSTIN, Feb. 10.—Placing the blame for loss of American cotton markets on high tariffs, the "amazing apathy" of the people toward conditions, federal crop control and the declining quality of United States cotton.

Although much more United States cotton would have been sold if it still held its dominant position in the world cotton market, Dr. Cox found that consumption had increased 28,000,000 bales this year, and that the United States will supply 44 per cent of that demand.

Federal control of price and supply has caused Texas and United States cotton to be "priced out" by foreign growers, Dr. Cox averred.

"Other countries are willing to supply demand at present prices. Under these circumstances, does not our program of restriction serve to transfer production to foreign countries?"

The inability of Germany and Italy to get dollar exchange in America has also led to substitution of foreign cotton for United States, he said, blaming this inability on the present tariff policy.

"They argue that the high tariff protects American labor from the low standard of living of foreign labor. This tariff is paid by people like cotton growers and is really a tribute laid on society for the benefit of a special group."

HEDLEY CAGERS TIE FOR CROWN WITH WIN OVER LELIA

Regular Schedule Comes To Close With Clarendon And Hedley In Playoff

FAITH

Who can breathe the fragrance, sweet
Of dew-wet bud or flower,
And not feel deep within his heart
Some great transcendent power?
Who can watch a full-orbed moon
Slow-climbing into sight,
And feel within himself afraid
With such celestial light?
Who can look on yonder hills
With fluffy clouds piled high,
And not feel sweet enduring peace,
And faith to satisfy?
—Ida Rice Humphreys.

OUT OF THIS LIFE

Out of this life I'm unable to take
Things of silver and gold I make.
All that I cherish and hoard away.
After I leave, on earth must stay.
All that I gather, and all that I keep,
I must leave behind when I fall asleep.
And I wonder often what I shall own
In that other life, when I pass alone.
What shall they find and what shall they see
In the soul that answers the call for me?
Shall the great Judge learn, when my task is through
That my spirit has gathered some riches, too?
Or shall at the last it be mine to find
That all that I'd worked for I'd left behind?

McLean Wins Forfeit Game From Alanreed Cagers

McLEAN, Feb. 6.—When the Alanreed Longhorns left the floor with two minutes to play in the final quarter, the McLean Tigers were awarded the game, 1 to 0. The score when the battle suddenly terminated was 37 to 24 in favor of McLean.

Coach Coy Palmer of the Longhorns took his team from the floor when Referee Red McCarty of McLean banished an Alanreed player from the game, allegedly for talking back to him regarding a decision. When the Longhorns failed to return to the floor, McCarty declared the game forfeited to McLean.

Alanreed had won the first game of a round robin schedule in the district. Alanreed lost to LeFors who in turn lost to McLean. Should a playoff between McLean and Alanreed be necessary, it will be played in Alanreed, the toss of a coin deciding the site after last night's game.

Lelia Girls Blast Hedley In Last Conference Tilt For Unmarred Record

Although the county title was already in the bag, the Lelia Lake High School basketball team finished out their conference schedule undefeated with a lopsided 43 to 8 victory over Hedley at Lelia Monday night.

LaFon of Lelia was brilliant in the goal tossing role and rang up 22 points. She was, however, closely pressed by her team mate, Cruse, who was only four points behind with 18.

Lelia's fast defense kept Hedley scoreless till midway in the third quarter when Virginia Watt snarled a field goal. At half time they had gone to rest with Lelia leading 16 to 0 when they had scored 11 points after a listless first quarter when the tally was 3 to 0.

THE ROSTER:

Lelia Lake: Cruse, LaFon, L. McKee, Holland, Gerner, B. McKee, Bain and Bullard.

Hedley: Abernathy, Watt, McLaughlin, Pickett, Edwards, Monroe, Adamson, Stone and Hansford. Referee: Cottingham.

B. F. Kirk, who divides his time between superintending and coaching, pulled his team through sickness and hardluck to the title. In the first Hedley game and the last Clarendon game, three of his regulars missed service.

BRONCHOS DEFEAT LELIA LAKE FRI.

Wins Cinches Tie For First Place In County

A long field shot, in the closing seconds of play, gave the Clarendon High School Bronchos a two point decision over the Lelia Lake cagers and a lead in the county race at the Lelia gym last Friday night. The score was 16 to 14.

The bout was the most thrilling of this year's card, and Lelia, who had started slow, finished with a rush that had the near 200 cash customers screaming for the kill when they pulled even with the ponies with the final whistle only one minute away.

Starting the last quarter with the count 14 to 9 against them, Lelia put on a scoring rally that swept through the Clarendon air tight defense. King got a field throw in the net, Boyce, Cruse and Sneed counted once each, on free pitches, and the game was knotted. It was looking extremely rocky for the horses, who were on the run against a clicking offensive drive, till Cornell snarled a Lelia pass whipped it to Cooke who pivoted and sailed a long shot through the hoop for two points and the game.

The game opened with the lead seesawing. Britt tallied 2 points first for Lelia. Butler tied it for Clarendon. Rolls edged the Bronchos ahead with a free shot and Boyce got a foul toss for Lelia. Cooke and Cornell got field goals and Britt picked up one with a free basket, and the first frame was over with the score Clarendon 7, Lelia 4.

From that point the Ponies drew steadily ahead with a lead of 11 to 7 at the half and 14 to 9 at the end of the three-fourths mark.

LELIA LAKE GIRLS COP COUNTY CAGE CROWN FRIDAY

Down Clarendon 24 to 12 At Lelia For Title

Downing Clarendon 24 to 12 at Lelia last Friday night, the Lelia Lake High School girls copped the county cage crown, in the Class A division.

Although Lelia was never in danger, the game was a thriller to the 200 rabid Lelia backers that turned out to see their favorites climax a brilliant campaign. The win marked the third straight in county competition, and their one remaining game with Hedley had no bearing on the championship.

L. McKee started the ball rolling in the first period with a free toss for Lelia. LaFon and Cruse swung into action and as the first period ended Lelia had counted 11 points. Clarendon's lone first frame tally came from a free shot by Thompson.

Slowing down in the second quarter, LaFon snared 5 points for the Champions and Grady hit the hoop for two for Clarendon. The score at the halfway mark stood at 16 to 3.

Grady drew first blood with a field shot as the third period opened but LaFon and Cruse dropped court shots to go further ahead. Grady sank a foul pitch before the third frame stopped.

Clarendon started the final quarter well when Teat and Thompson popped two field shots in rapid succession, however the sparking LaFon got down to business and counted with two free pitches and one shot from mid-court to chill any hopes Clarendon might have had. Teat and Grady ended the scoring with foul tosses.

LaFon led in points with 17 for Lelia with Grady first for Clarendon with six.

THE BOX SCORE FOR THE GAME:

FATHER—cattle to near the Dobie Walls, on the Canadian, November 1876, also drifted the Goodnight cattle from the Canadian above Tascosa to the Palo Duro Canyon in Randall County.

I was camped, at that time, on the head of Duck Creek, Dickens County, close to the upper McKinzie crossing of Duck Creek and saw one of the severest blizzards that ever struck that part of the country. Buffalo drifted past our camp like an immense trail herd for two nights and one day, at times during the day, when one could see, there would be no more than two or three abreast and again so wide you could not see across them, but after it cleared off you could see the drift had been several miles across. This mighty herd never checked up until it reached the Salt Fork of the Brazos and from there to below Fort Concho was just a mass of buffalo.

But I am digressing from my story. I lived near Mr. Bugbee for over 20 years and we often talked of this storm and how he was caught in it driving his cattle from the Arkansas River to the Canadian. He had been ranching there several years at what was called the Aubury Crossing, later Lakin. He left there in October, 1876, with his wife and two children and several wagons, one well fitted up for Mrs. Bugbee, the others a mess wagon and supplies to last several months; his herd of cattle and horses.

He crossed the Cimarron at the point of Rocks, where the trail that had been used hauling buffalo hides from the Canadian to Granada, Colo., and other towns on the newly built A. T. & S. F. Railway, south on that trail to the Beaver in No Man's Land, Cold Water and Teepee Creek and to North Palo Duro Creek, just over the Texas line. He camped there the night this storm struck him.

Cator Brothers had a camp they had occupied since 1872 while buffalo hunting. In Billie Dixon's account of the fight of Dobie Walls he says Jim and Bob Cator rode to the Dobie Walls the day after the fight and added two more guns for the defense. They were not in the fight, but Charlie Armitage and another man, I forget his name, who had gone to school with the Cator boys in England, were there. Their names are now on the monument, on the fight of the old Dobie Walls. Bob Cator died of blood poisoning in Washington. Jim never left the old buffalo camp, bought land and cattle, had the first post office in Hansford County, called Zulu, and died there a few years ago, undoubtedly the first settler in the Canadian Country.

Billie Dixon said Charlie Armitage killed the negro who blew the trumpet during the fight. There is not the slightest doubt but those few men whose names now adorn the Dobie Wall marker killed more Comanche, Kiowa, and Cheyenne Indians than all the U. S. soldiers and Texas Rangers put together since the war of 1846 in Texas.

But I am getting away from the Bugbee drive to the Canadian and starting of the first cow ranch on that river. When the storm struck Mr. Bugbee, he, together with his

"THE TWO BABYLONS"
(Art. II)

In the place of Christ they exalted another God on earth "even our Lord the Pope." For the adoration of the unseen God whom we worship by faith, (2 Cor. 5:7) they introduced graven images. For the Bible and the Bible only, they substituted creeds and traditions. For Christ the one mediator, they gave Mary the mediatrix. For the sacred law of marriage, celibacy was erected. For confession to God, confession to the priest. For Repentance toward God, penance and indulgence. For the Bible doctrine of "death our last step"—pergulatory and a second chance. For Christian Baptism—sprinkling. For true communion—transubstantiation, and irregular times for partaking. For heart-felt praise in song—the supplement of an instrument. For a rational, thinking religion—mysticism and superstition.

Thus the innovated corruptions entered into the category and contributed to the establishment of spiritual Babylon, the mother of Harlots. Since modern Babylon is called "the mother", then the daughters appear as those religious organizations which were born of the reformation.

The Babel builders have ignored the Most High. Their course of action in laying the foundations of Babel finds its parallel in all human philosophy that is not built upon the word of God. "To the law and to the testimony: if they speak not according to this word it is because there is no light in them" (Isa. 8:20) Nimrod's tower of Babel ended in confusion; Gilded Babylon was overthrown, and today spiritual Babylon totters to her fall.

Abraham heeded the call of God to forsake Babel. Tens of thousands of captive Hebrews obeyed the prophetic command to "flee out of Babylon", and today the message resounds:—from all that is error, from all doctrines and traditions from all that is not built upon the enduring Word, from all that is Babylon, "come out of her my people"—(Rev. 18:4)

Swinney Has Fine Grade White Leghorns
In looking over the Classified Column this week you will see a mention of white leghorn hens being offered for sale by John Swinney down in Windy Valley.
John has some of the best Missouri strain, state blood-tested and all that. His flock is among the very best in the Panhandle, but he has too many to keep with the facilities he has to get along. If you want some real hens, see him right now. They won't be long in selling.
Mr. and Mrs. Glenn Casey and children of Amarillo visited Mr. and Mrs. Allen Bryan here Sunday.

Mr. Bugbee sold this herd of cattle out in 1882, but bought ranches, raised and traded in cattle extensively in Texas up to the time of his death in 1925 at his home in Clarendon. He handled Texas cattle for 55 years. I still contend that Mr. Bugbee was ranching on the Canadian in the winter of 1876 when Mr. Goodnight was on the St. Charles River, Colo., waiting for spring when he could go to where his cattle had wintered in Palo Duro Canyon.

ALLRED TO MAKE PWA GRANT PLEA

AUSTIN, Feb. 11.—Governor Allred will leave next Saturday for Washington to ask President Roosevelt's approval of 45 per cent federal grants on Texas PWA projects for which communities already have voted bonds. The grants would aggregate approximately \$10,000,000.

The Chief Executive said he would be accompanied by Ed Clark Secretary of State and member of the Planning Board, and Robert Lee Bobbitt, who will become chairman of the Highway Commission this month. They likely will attend a banquet at Washington Feb. 15 honoring James A. Farley, national Democratic campaign director.

The Governor's trip will put him out of the State at the time that Harold L. Ickes, Secretary of the Interior, is here.

 Doctor T. S. Barcus, Presiding Elder, will be the preacher at the morning hour at the Methodist Church next Sunday. It is expected that a large congregation will hear his message which is always unusually good. The pastor will preach at the five o'clock services bringing a message on "Moses, the Man of God." This is one of a series of sermons on representative characters of the Old Testament.

For several weeks each Sunday has shown an increase in the attendance at Sunday school and church services. There are many others who should worship with us and we are still expecting more new faces. Come with us and let us honor the Lord together.

BAPTIST CHURCH
 * There is Always Worship *
 * Fellowship :: Service *

By what rule are you measuring the usefulness of your life? Behind what excuse are you hiding to justify your uselessness to your church? Would you consider a man who did not go home regularly the right sort of a husband or father? Would you believe that a business would prosper without regular and faithful attention? Would your child make the best grades and reach the highest degree of efficiency in school by attending classes only occasionally? Apply rigid rules regulating righteous living to your life and see if they would not require a little more regularity in the matter of worship. No church can accomplish its highest end in any community, nor for the sake of humanity, nor for the glory of God whose members are not regular, loyal, faithful attendants upon the services. The great promise in God's Word is pronounced on those who, "Forsake not the assembling of themselves together." Every christian heart should leap with joy as did David's when he said, "I was glad when they said unto me, let us go into the house of the Lord. Delight yourself with the privilege of worshipping in your church next Lord's Day.

Regular services at the Baptist Church morning and evening. We are happy to believe that you will be blessed by coming. You are most heartily invited.

Quins Employ Own Technique In Film

When the Dionne Quins started work on their second Twentieth Century-Fox feature, "Reunion"—the dramatic home-coming of the Country Doctor's 3,000 grown-up "babies"—opening Sunday at the Pastime Theatre, the littlest starlets decided to follow the Will Rogers technique of acting and make up their performance as they went along.

Upon the board shoulders of Director Norman Taugrog fell the burden of taking advantage of the natural actions of the babies and adapting them into the story.

"It's much better all around," Taugrog said. "I'm sure I'd rather see the Quins being themselves than any other way. Of course, some of their impromptu 'business' was a little surprising to their fellow actors, but I'm certain the results obtained will greatly please theatre-goers.

"The difference between the Quins' first picture, 'The Country Doctor' and 'Reunion,' Taugrog added, "is that in the first one the script was written for the Quins, while in their new picture the script was 'written' by the Quins themselves."

In one scene Jean Hersholt laid down a small camera and Cecile picked it up. Annette found the combination and Marie, Emile and Yvonne helped to undo the catches and pull out the film.

Dan Clark kept the camera motor running, and it was such excellent "business" that Taugrog immediately changed his scene to make the extraction of the roll of film a part of the action.

Another time Taugrog looked around for his copy of the script only to find that it was gone. He glanced across the lawn and saw Marie surrying toward Cecile, Yvonne, Emile and Annette with the script in her little hands. All five grabbed the scenario and started to tear out pages. Only the timely intervention of Dr. A. K. Dafeo, the famous doctor who brought them into the world and who acted as supervisor of their scenes, saved the script from complete mutilation.

"They were pretty cagey about their tearing at that," Taugrog said, "because they destroyed none of the pages listing their scenes, confining their havoc to those of Jean Hersholt, Rochelle Hudson, Helen Vinson, Robert Kent, Slim Summerville and Dorothy Peterson."

District Supervisor Visits Adult Teaching Classes Here Monday Night

J. W. Chapman of Amarillo, District Supervisor of WPA Adult Teaching, visited classes in Clarendon Monday night and held a meeting of teachers in the County Superintendent's office here Tuesday morning.

The adult schools are primarily for the purpose of enabling persons of low incomes to better themselves, Chapman said, however, many educated people are taking advantage of this opportunity to review. This is especially true, he stated, in the English classes.

At present there are five varied classes in Clarendon, according to Chapman, with the enrollment in each between ten to 25 persons.

Chapman said classes were now being held in the homes of the teachers but he hoped for a central location soon.

Right through the seasons—on every farming operation—plowing, planting, cultivating, haying, harvesting, threshing, feed grinding—you'll save time, labor, effort, money, with a John Deere Model A or B General Purpose Tractor.

These are General Purpose Tractors in fact as well as name—adjustable rear wheels, 56 to 84 inches... individual rear wheel brakes for short turns... hydraulic power lift... narrow, compact design for perfect vision in cultivating... wide, roomy platform to enable you to stand as well as sit... four speeds forward... straight-line draft in plowing—not a thing has been overlooked.

And, like all John Deere Tractors, they have the two-cylinder engine design that enables you to burn the low-cost fuels successfully at a big saving in dollars and cents.

The Model A handles the load ordinarily pulled by a six-horse team. The Model B handles the load of a four-horse team.

SIDELIGHTS

By Marvin Jones

There are many angles to the farm tenancy problem. Land tenantry has been increasing gradually for a number of years, and every thinking person will agree that it is desirable to check this increase and turn the trend back in the other direction. There are more than two million farm tenants, many of whom desire to be and are capable of being farm owners. But securing a solution to the problem is not easy. The damages of half a century cannot be repaired in a day.

Any approach toward a solution for the tenancy problem must take into consideration these points: It must be made financially profitable to own a small farm home, and a way must be found to finance the purchase of small farm homes by owner-operators on long-time payments at low interest rates.

The most important step in making farm ownership profitable is to maintain a fair price for farm products. This question of price is the most important single element in the whole subject. Much progress has been made along this line through the operation of the recent farm acts, but further provision must be made and maintained in order to assure a fair price for the things the farmer raises.

Tenancy is but an outcropping of the real problem. The problem itself is one of price and income. Neither landlords nor tenants have had sufficient income. They had to compete with a business system which has not taken into consideration their needs.

For a number of years industry received consideration while the farm problem grew. The market for industrial products has been protected to allow prices which brought a profit. Exportation of these products has been encouraged by cheaper freight rates which have not applied to agriculture. Similar discriminations have prevailed. The problem, then, is to bring agriculture into balance with industry.

The question of taxes—state, county, and district—is also extremely important. In most of the states an undue share of the taxes has been borne by the farmer. In many instances, a full property levy is made by both state, county and district units against all lands regardless of whether there is a crop failure or any form of income from the land. Some of the states have already taken steps to im-

The Texas Planning Board has been informed by the Texas Forest Service that the East Texas timber belt is today capable of yielding 100,000,000 cords of wood suitable for pulp manufacture. The total pulpwood requirements for the entire United States for 1930 was only 13,000,000 cords.

prove this condition. Much assistance can be rendered if the others will cooperate also.

I believe it is important that one tenant legislation that is adopted should provide for participation of local citizens familiar with conditions in their own section in administering the program. Wherever possible the tenant should be consulted, so he will feel a personal interest and responsibility in his homestead.

We are all familiar with famous old songs about home—"Home Sweet Home" and "The Little Gray Home in the West" and others. These songs were not written about a rented shack or a tenant's temporary abode, but about a home in the real sense of the word. It is in the home that the fine and enduring sentiments, the worthwhile traits of character, are begun. That is why homes for the tenant are important to all of us as citizens.

Farmer Protests To State Legislature

Resolution Condemns Alleged Statement of Carpenter Against Old Folks

A matter that has stirred much protest in which O. S. Carpenter, head of the Old Age Assistance Board, is alleged to have stated that pensioners should lose their voting rights, was offered in protest by Rep. C. E. Farmer of Tarrant county. The following account is taken from the House Journal of the Legislature:

Mr. Farmer offered the following resolution:
Whereas, On yesterday, February 3, 1937, Mr. Orville S. Carpenter, before the State Affairs Committee of the House of Representatives, is reported to have given utterance to the following expression:

"My opinion is that persons on the pension rolls should lose their voting rights. There are over 300,000 persons in the State over sixty-five years old, and they don't have to pay poll taxes. That is a powerful block and easily can influence pension legislation.

"Why should a person who is receiving aid from the State have so much to say in determining how much he receives?"; and

Whereas, This expression from the executive head of Old Age Assistance was carried on the wings of the press throughout the State of Texas and the nation, bringing great reflection upon the old people who have builded well in their young days the great State of Texas; and

Whereas, It is incumbent upon the House of Representatives to resent this insult to our old people; now, therefore, be it

Resolved, That the Members of the House of Representatives hereby condemn the said utterance of the said Orville S. Carpenter for its undemocratic, un-American and un-charitable reflection upon our aged mothers and fathers, and we resent in no uncertain terms the insinuation that our aged parents should be held to be paupers by one who is profiting from the same old age assistance to the amount of \$5,000.00 per year, and yet desires to retain his right to vote, while denying it to a poor mother or poor father who receives only \$10.00 per month; be it further

Resolved, That it is the sense of this House of Representatives that by this expression, the said Orville S. Carpenter has shown his unfitness to administer this law in the proper spirit, and is void of the proper human sympathy, and that he should not further hold this position of great importance to the people of the State of Texas; and his resignation is hereby invited, if not demanded, that the Governor may place at the head of the Old Age Assistance Department a man who is in full sympathy with the rights of our old people, and who has a heart filled with the milk of human kindness.

OH, DOCTOR!

I know I've got gastritis, Halitosis and the flu; Sinus trouble and neuritis And a bum appendix too. I should have some tonsil jerking For my rheumatism's bad. It's so hard to think of working When one feels so very bad. Acidosis and diabetes, Psticosis and the Itch??? I should get some doctor's treatise But be blest if I know which. —Sand Dune Sage.

Texas' First News Print Mill Planned

Newspaper Material Will Be Manufactured in Piney Woods Country

Dallas and East Texas capitalists, bankers, lumbermen and timberland owners, meeting here yesterday, mapped plans for the construction of the first newsprint mill in the South.

Wirt Davis, Dallas banker, was authorized to appoint a committee on organization plans for a \$5,000,000 plant to use East Texas pine. Texas Mill No. 1 of the Southland Paper Mills, Inc., would be located at a site selected by engineers now at work in East Texas. The mill would have an initial capacity of 150 tons of newsprint daily.

Ted Dealey, president of the Texas Newspaper Publishers Association, announced Texas, Oklahoma, Arkansas and Louisiana publishers had agreed to purchase a substantial output.

Cotton Retains Position In Textile Fiber Fields

While rayon and other textile fibres may be taking the place of cotton in some uses, the king crop of the South is more than holding its own in the textile fiber fields, says Rodney Whitaker, Bureau of Agricultural Economics, United States Department of Agriculture.

The increased use of cotton for industrial purpose has helped to maintain the crop's position as a textile fiber, Whitaker reports. He cites the automobile industry as one of the many industrial uses of cotton.

In 1929, a peak year, the automobile tire industry used more than 700,000 bales of cotton. A sharp decline was noted during the depression years, but in 1935 more than half a million bales were used in automobile tire manufacturing. Additional quantities of cotton were used in car tops, upholstery, and seat covers. A study of the cotton situation over a long period shows the total cotton used has more than doubled since 1890. Use of all textile fibers has a little less than doubled.

TEXANS DISCOVER BIRTH CONTROL AND BABIES DECREASE

Austin, Texas, Jan. 30.—Wider dissemination of birth control data and an influenza epidemic were attributed Saturday by the Bureau of Vital Statistics to an abnormal decrease in births and increase in deaths.

Dr. W. A. Davis, State Registrar, reported that births in 1936 totaled 115,212, 3,454 fewer than in 1935. Deaths totaled 68,500, an increase of 3,897 over the 1935 total. The statistics were contrary to the expected trend with an increase in population. An increase in deaths of 1,057 from 1934 to 1935 was considered a preparation toward gaining population.

An influenza epidemic during the first three months of 1936 was credited with adding 3,000 deaths more than normal.

Newsprint from Texas pulp is assured with the recently formed \$5,000,000 Southland Paper Mills, Inc., which will manufacture newsprint from East Texas pine pulp. Daily capacity of the mill will be 150 tons of newsprint.

The number of trench silos increase in Texas from 12 in 1930 to 8,000 in 1936, according to statistics compiled by the Texas Planning Board. Last year the Board estimates that there was stored underground in Texas 600,000 tons of feed worth about \$3,000,000.

COUNTY BASKETBALL CHAMPIONSHIP TO BE DECIDED AT HEDLEY MONDAY NITE

Game Between Clarendon And Hedley Will Start At 7:30 With Two Well-Matched Quints In Playoff For Right To Represent Donley County In District Meet

Two well matched cage teams with determined spirits will meet in the sugar game of the county championship whirl when the Clarendon High School Bronchos tangle with the Hedley Owls on the latter's home court Monday night.

The winner will not only wear the crown for 1937 but will represent Donley County in the district tournament in Pampa, February 19 and 20th.

Both mentors are optimistic and report their charges in fine condition. Bill Leggett, Hedley coach, radiates confidence and apparently is already wondering about the draw in the Pampa pairings. Leggett said last Monday night after his Owl's lopsided win over Lelia, that the game site meant around 8 points to him.

Undoubtedly Clarendon is at a disadvantage on a large court. The Bronchos won handily over Goodnight at home but were roundly outplayed on the Goodnight floor. They downed Hedley here but dropped their second game down county. In their two matches with

Lelia, Clarendon finished out in front here by about 9 points but barely managed a two point win at Lelia.

Clarendon People Attend Hardware Convention At Amarillo

Mr. and Mrs. L. E. Thompson, Joan and Neal Thompson, Mr. and Mrs. O. C. Watson, Dorothea Watson, Mr. and Mrs. B. C. Antrobus and Ralph and Guy Kerbow attended the 28th annual convention of the Panhandle Hardware and Implement Association which closed Tuesday.

R. F. "Bob" Douglass of Shamrock was elected president at the close of the two day meeting. Colonel E. O. Thompson was the principal speaker at the banquet.

Mr. and Mrs. T. W. Turner of Dalhart spent the week end with her brother and family Mr. and Mrs. Ed Speed.

CITIZENS PLEDGE TO A STATE-WIDE SAFETY DRIVE

Allred Asks For Drivers License Law With Teeth And Double Patrol

AUSTIN, Feb. 10.—At its initial meeting, the governor's traffic safety committee of 100 citizens, pledged to a state-wide safety drive, laid down objectives aimed at reducing the highway death toll based on principles of engineering, enforcement and education.

C. J. Rutland of Dallas was named to head the body with Governor Allred honorary chairman and George Clark his secretary.

Allred declared for a driver's license law with "teeth" in it and urged members to advocate a highway patrol double the size of the present force.

Committeemen, representative of all sections, demanded higher standards of safety, not only through enforcement but education of children and adults.

"By the formation of the safety committee and by this meeting I believe we can do something about safety in Texas as well as talk about it," Allred said.

"We have found the present driver's license law to be weak and ineffective, we are sadly in need of a rigid law and measures making more effective the regulations of trucks and buses whether common carrier or privately owned.

"Take home with you the message that Texas has declared relentless warfare on traffic accidents. Let us act to end the reign of 'sudden death'."

Clarendon Men Are Given High Posts

Chamberlain Is President; McCleskey Vice President Panhandle Club State University

AUSTIN, Feb. 8.—Two graduates of Clarendon High School have been elected officers in the Panhandle Club at The University of Texas, composed of students at that institution from various sections of the Texas Panhandle. George Chamberlain of Clarendon, a junior pre-law student, has been elected president and George W. McCleskey of Memphis has been chosen vice-president.

Chamberlain is associate editor of the Cactus, student year book at the University and is a member of the Student Discipline Committee. He is representative to the Inter-City Council from the Panhandle Club. He belongs to Kappa Alpha, social fraternity. He is the son of Mr. and Mrs. F. E. Chamberlain of Clarendon.

McCleskey is a first year law student at the University having transferred last fall from North Texas State Teacher's College. He is a member of the Hildebrande Law Society at the University. At North Texas State Teacher's College he was on the debate squad and made a sufficiently high scholastic record to obtain an assistantship in the department of economics. He organized the Young Democrats on that campus and served as its president. He was graduated from Clarendon High School where he participated in debate and dramatic activities and later attended Clarendon Junior College, belonging to Alpha Delta Psi, social fraternity. He was graduated with honors from junior college. He is the son of Mr. and Mrs. George H. McCleskey of Clarendon.

Oriental Duck Brings Out Young Pupil Talent

Last week an Oriental duck of the Japanese variety got loose in town. In its flight, the bird landed near the South Ward school. Its peculiar markings and brilliant coloring and size instantly made it a target for pupil interest. Teachers, too, were intrigued by the unusual visitor.

After the capture of the bird, pupils of the lower grades were asked to write a theme or draw a picture using the duck as a subject. In this theme writing contest, James Wesley Palmer, aged 8, was adjudged the winner. Melba Ruth Grady, aged 7, was second.

Those who preferred to display artistic talent, drew pictures of the duck. In this class, Jimmie Douglas drew the best picture, and Dewey Tom Heath came out second in the list of contestants.

We can't reproduce Jimmie's picture, but here is James Wesley's description of the duck:

HERE AND THERE

By Dick Cooke

HERE—Heard, favored but on which no action was taken was the subject of a new county jail brought up by Sheriff Guy Pierce at the Commissioners Court meeting Monday. The building, (estimated) would be 30 by 60 feet and would cost about \$7,000 or \$8,000. A one story spanish structure was considered. The north wing composed of three cells with an additional woman's ward, while the south or living quarters would have four rooms and a bath.

HERE—Approximately 242 checks totaling \$2,096 was received by needy old aged in Donley County during the month of January, it was revealed by a report received by County Clerk W. G. Word this week.

HERE—A determined drive to collect money due the Adair Hospital was rumored this week. Odos Caraway, chairman of the board, stated Monday that "some people were obtaining revenue from the hospital in various forms, and yet paying nothing toward the upkeep." Caraway was before the court to obtain \$400 to pay outstanding bills, "when," he said, "if people would meet their obligations there would be no need of this."

HERE—John Molesworth and son of this city purchased 28 registered bulls recently from Travis E. Dameron of Hereford. Four hundred cows were also contracted of O. G. Hill at Hereford by the Molesworths.

THERE—Measurements of dust in the air during "dusters" at Goodwell, Oklahoma, last year, revealed an average of .093 of a pound of soil per 1,000 cubic feet of air. The amount of dust that entered building was measured at .65 of a pound per square feet of floor space.

THERE—Revenue agents and the sheriff of Saline County, Arkansas reported after a raid last week: One very tipsey sow, three litter pigs, not intoxicated, one 150-gallon still and 350 gallons of mash. Agents came upon the mother as she devoured sour mash bubbling over the top of a container. All their "sooys" were ignored and soon the mother toppled over and "passed out."

HERE—A 22 rifle slug, entering a window, flattening itself on the wall then dropping into a wash basin, prompted Sheriff Guy Pierce to warn parents this week that children shooting rifles within the city limits would be vigorously prosecuted. Pierce said this was not the only complaint received or the only warning issued, and although he realized the children were possibly shooting at birds, the parents should realize that these highpowered guns were dangerous at almost a mile.

HERE—Another warning, issued by the sheriff's department, grew out of complaints lodged by business men saying valuable tools and pipe, probably mistaken for scrap iron, were being taken. One man reported that upon tracing a missing \$7 plow piece he found that it had been sold to a local junk man for six cents.

HERE—The Sheriff "managed for two a bed" Tuesday night and another for them Wednesday night, though probably not so well thought of. The two, giving their names as Jimmie Bear, 32, and Walter B. Williams, 15, were destitute, they said, so the sheriff gave them a note to a local rooming house. Arising Wednesday morning they repaid the hospitality by taking towels and soap. Upon the landlord's complaint, the sheriff said they were "vags" and registered them in his own private hotel.

HERE—Dr. M. L. Stricklin was in Amarillo Monday to attend a meeting of the Potter County Medical Association at which Dr. Grisby, professor of medicine at Baylor University was the principal speaker. Dr. Stricklin and Dr. Grisby are long time friends.

THERE—Richard Morris, (former Clarendon boy) County Attorney of Armstrong County said yesterday that no charges were filed in the fatal auto accident in which one woman was killed and her husband injured near Claude, January 31st. The driver of the death car alleged that three negroes were riding without lights, Morris said. The negroes claimed they were two car lengths off the pavement and parked on their side of the road. Other witnesses testified various other things and the case was dropped.

THERE—There are about 5,000 or more child brides under the age of 15, according to records. Including the ones 15 and the total reaches 20,000. In 1890 1,411 brides of under 15 were recorded, not including widows and divorcees. In twenty years the number was up to 3,482. By 1930, the figure was 4,506.

HERE—Roy Thomas Darbison is still being held in the county jail in lieu of \$3,000 bond set in the Davis auto death case. Means, co-defendant, made bond last week. If not making bond, Darbison has upward to 40 days in jail till the next term of court. It is rumored that Dusty Miller, Amarillo attorney, will represent Means and Darbison.

THERE—Stanley Backus, 19 year old husband of 12 year old Elizabeth Backus, was jailed after the girl was placed in a New York hospital after telling authorities that she was an expectant mother. Legislators discussed new laws to curb "cradle" marriages.

THERE—Tennessee moved rapidly to outlaw child marriages after violent protest of the wedding of Charlie Jones, 22, and his baby bride of 9 years.

HERE—Born to Mr. and Mrs. C. O. Hill of Hedley, on Monday, a girl, Marie.

THERE—Bishop Edwin D. Mouzon of the Methodist Episcopal Church, South, died suddenly at his home in Charlotte, N. C. last night. He was 68. He began preaching in the Texas Conference and served at Austin, Galveston, San Antonio and other pastorates.

HERE—Resulting from the general uptrend in business here, The Clarendon Radio and Electric shop is one of the latest joining the remodeling movement. They report this week an addition of a balcony in their shop to allow greater display space. Other improvements will follow. With the placing of inlaid linoleum this week, the Norwood Pharmacy lacks only display cases to complete their renovation.

"One day I saw a duck by the schoolhouse. It was black and green on its body, and around its eyes was red and his eyes were black and orange. A boy caught it for my teacher and she put it in a closet. Then she put him on her desk and then the teacher asked us to draw a picture of him and he acted very queer when they fed him apple. He didn't seem to like it. The children had fun with him."

The duck was brought from his home in Dallas by ranchman W. J. Lewis, and given Park Chamberlain, Miss Elizabeth Stevens brought the information to the Leader office by request.

Former Clarendon Resident Dies Wed.

J. R. Simmons Succumbs At His Whitesboro Home Yesterday

J. R. Simmons, 82, former Clarendon resident and father of Nollie Simmons of this city, died yesterday at his home in Whitesboro. Funeral arrangements had not been announced by press time today.

Mr. Simmons resided in Clarendon for about six years before moving to Corpus Christi in 1921 because of failing health. He returned to Grayson County, where he was born and reared, a few years ago and has lived there since that time.

Although in poor health, Mr. Simmons seemed to be hearty for the past few weeks. Death presumably was caused by a heart attack.

Nollie Simmons said last night that he was leaving immediately for Whitesboro and that Helen, Avis and Thad Rodgers, grandchildren, would leave today.

Services will probably be held Friday or Saturday, Mr. Simmons said.

Mr. and Mrs. Lawrence Whitlock of Amarillo visited her sister, Mr. and Mrs. Geo. Wayne Estlack Sat. night.
