Wellington City Council Votes For 15 Cent Gas

Wellington, May 26—The first steps in securing a municipal gas system for Wellington, with a rate of 15 cents a thousand, were taken by the city council last week.

The move to install the plant was taken after a conference with Dunn, Simpson and associates who have holdings in the Leila field and who agreed to construct a pipe line from there to Wellington.

Other civic improvements voted by the council was the granting of a franchise to install a power and light system and to mark all streets in an effort to secure free delivery.

Called Meeting For F.F.A. Club

A called F.F.A. meeting will be held at 8:15 Tuesday, June 2 in the chapter room at the college, according to J. R. Gillham, advisor.

The meeting is important to chapter members and students who plan to enroll in vocational agriculture the coming school year. Plans for taking part in the State F.F.A. Leadership contests to be held in Huntsville June 28, 29, will be formulated. The annual summer trip will be discussed and the date set for the trip will be set. The program for the club rodeo July 3rd, will be gone over.

BILL COOKE COPS MEDAL IN CITY GO

Turns In Sub-Par 70 In Qualifying Round; 32 Contestants Enter Play

With a sub-par 70 over the long Hillcroft golf course, Billie Cooke, 16, was medalist in the qualifying rounds of the 10th annual city tournament here Sunday. Thirty-two shotmakers entered the play.

All other favorites found early trouble and Cooke was never hard pressed for the honors after his par 36 on the front nine. He crossed home in 34 blows, two under perfect figures.

Dudge Gentry, who sailed around in 69 strokes while warming up Saturday, blew himself out of the running by slipping five over par on that many holes and wobbled in on the first nine with a bad 42. He settled on the last round with a 38 for a total of 80.

Ira Merchant, fresh from the grass greens of California, never got the feel of the sand and needed 81 shots. M. P. Gentry, defending champion and Bill Cooke Sr. were the closest to the medalist with 78's.

Others finding berths in the championship flight were E. Hicksey, 79; Neal Thompson, 85; Alex Cooke, 85.

Wesley Knorpp, Glenn Allison, U. J. Boston, John Swenney, Joe Bownds, T. F. Connally, Frank Whitlock and T. M. Shaver made the second flight; Fred Buntin, Tom Murphy, Clyde Douglas, Kelly Chamberlain, Homer Parsons, C. Huffman and Dick Cooke, third flight; J. R. Gillham, Pud Bain, Glenn Churchman, Otto Beach, W. W. Nobblet, W. G. Word, H. M. Breedlove, and Buddy Knorpp, fourth flight.

Tommie Clifford Blanks died Saturday, May 22 following a brief illness. Cause of his death was given as peritonitis. He is survived by his mother and father.

See Airplane Crash Sunday Near Oklahoma City

Visiting over the school closing period in Oklahoma City Sunday, Mr. and Mrs. Frank White Jr. were guests of the manager of the airport. "Hundreds of planes maneuvered in practice," Mr. White said.

A plane trailing a large sign failed to make the grade and fell in flames. The pilot jumped from the cockpit just in the nick of time to escape death by burning, and that just as he "pan-caked" his plane to earth. The plane quickly burned, Mr. White states.

MAYOR PROCLAIMS SATURDAY, MAY 29 POPPY DAY TO HONOR WAR VETERANS

Saturday, May 29, was designated as Poppy Day in Clarendon by a proclamation issued today by Mayor W. B. Haile. In the proclamation, Haile called upon all citizens to observe the day by wearing memorial poppies in honor of the World War dead.

Saturday will be Poppy Day in Clarendon and in thousands of other cities and towns throughout the United States. Millions of bright red poppies will be worn in America's annual tribute to the

GAS EXPLOSION IS FATAL TO ADKINS

Former Local Man Victim Of Blast At Dumas; Last Rites Held In Amarillo

AMARILLO, May 26.—M. F. Adkins, son of Mr. and Mrs. F. D. Adkins of Clarendon, died early Sunday morning of burns received in an explosion in the Shamrock Oil and Gas Company's gasoline extraction plant at Dumas. Funeral services were held Monday afternoon in Amarillo. Rev. T. D. Sumrall, pastor of the Fundamental Baptist Church of Amarillo and Rev. T. E. Yarborough, pastor of the Dumas Methodist Church, officiated.

Adkins, a gasoline treater, died approximately 24 hours after the explosion in the pump house. He received third degree burns. Two other men were burned in the blast.

Adkins lived at Dumas. He is survived by his wife, a young daughter, three brothers, a sister, and his parents, Mr. and Mrs. F. D. Adkins, Clarendon. The brothers are Carl Adkins, Dumas, Otis Adkins, Borger, and Tillon Adkins, Maple. The sister is Miss Frances Adkins of Clarendon.

The Shamrock McKee Plant, 11 miles northeast of Dumas, probably will be shut down about two weeks as result of the explosion, which company officials said resulted when too much pressure accumulated in tanks.

Foster Mother of Joe Cluck Is Aged 91 Now

Recently in the Dallas News appeared a lengthy account of Mrs. Harriet Standifer Cluck now in her 91st year. She makes her home with a daughter, Mrs. S. A. Friedman of Waco.

Long known as the Queen of Chisholm Trail, she made her first passage with her husband trail driving this trail to Abilene, Kansas in 1871. The family home was on Brushy, down in Williamson county. Later she was postmistress at Cedar Park, and was a student of Salado College in Bell county.

Orphaned in early infancy, Joe Cluck of Clarendon was adopted into the family of his uncle and aunt. The hero of this sketch reared Joe Cluck to manhood, and it was from her that he learned many of the fine ideals of life which he has found profitable to practice.

Clarendon Girls Received College Degrees

Joyce Link and Wanda Mayfield of Clarendon were among the graduates in the thirty-first annual commencement program of Abilene Christian college Monday, May 24 when the largest class in the history of the school received B. A. and B. S. degrees. Miss Link majored in English and will receive a B. A. degree. Miss Mayfield also majored in English and will take a B. A. degree.

Merchants Sponsor Double Dollar Days

Special Bargains Are Being Offered Friday And Saturday

A plan designed to promote more neighborly spirit and to attract careful buyers from all sections of the trade territory. More than forty merchants signed an agreement circulated by the publisher of the Donley County Leader in getting the matter properly before the attention of those interested.

The plan had been suggested for some time. Various merchants here had noted the success of the "Dollar Day" idea in other towns. Now the plan is being given a trial believing that buyers will appreciate the bargain spirit shown by those who wish to more properly advertise their places of business.

Dates may be changed at any time. The first dollar days will be Friday and Saturday of this week. Merchants advertising in the Leader this week offering special Dollar Day bargains include Norwood Pharmacy, Clarendon Furniture, Gulf Service Station, Beach Auto Store, Armstrong Service Station, Shamburger Lumber Co., Reiger Drygoods Co., Ben Franklin Store, Clarendon Radio and Electric Shop, Clarendon Hardware, Parsons Bros., Farmers Exchange, Shaver and Whitlock, Clarendon Food Store, Clarendon Hatchery, Piggly Wiggly, Watson and Antrobus.

In addition to the above, the Leader carries numerous bargains of other merchants who cannot arrange to take advantage of the Dollar Day plan. You save your subscription price many times over by reading the Leader advertisements.

The Donley County Leader will observe the days along with fellow merchants by making a dollar a year rate for Friday and Saturday. This applies to the two days only.

Legislative Mills Grind Grist Slowly

Governor Allred Prevents New Expense Until Old Bills Are Paid

Governor Allred during the regular sessions of the state lawmaking bodies since January 12th, had advocated more tax on gas, oil, sulphur and corporation franchises to bolster the state's financial condition, now some \$15,000,000 in the red.

The law-makers refused to act, except from a minority of the lower house did he get even so much as a kindly hearing. As that body passed the proposed bills on to the

John Rhodes Again Enters Business Here

Having disposed of his interest in the grocery line recently, Mr. Rhodes has now entered another line, his place of business being located in the old hardware building of Watson & Antrobus.

Mr. Rhodes will buy cream, poultry and eggs. He is also stocking up with a general line of feed.

Texas Liquor Law Points Clarified By Court Rule

AUSTIN, May 26.—Further interpretation of Texas' complicated liquor laws, from the Court of Criminal Appeals:

1. Policemen have no right to seize whiskey in a car which they have trailed past the city limits.

2. The law authorizes peace officers to seize liquor being transported to dry territory, but not to arrest the transporter unless the officers have a search warrant.

3. Over a quart of whiskey, wine or beer is illegal in a dry territory.

Pampa Top 'O Texas Fiesta Boosters To Be Here Sat.

A delegation from Pampa, boosting The Top of Texas Fiesta to be held there June 3 and 4, will be in Clarendon Saturday afternoon and will give a program on Kearney Street at 3 o'clock.

Preceding the program, the Clarendon High School band will play a concert at 2:30.

To Make Tour of Pacific Coast With Sister

Mrs. Zevilla Pierce Lynn of Amarillo, daughter of Mr. and Mrs. S. A. Pierce here, will leave Sunday for San Francisco to visit her sister, Mrs. Pauline Pierce Lamb.

DUST BOWL DRENCHED WITH THREE INCH RAIN WEDNESDAY AFTERNOON

Fall Extends From Northwestern Oklahoma On the North To Big Springs on the South. Copious Rains Continue Throughout Drouth Area Over Wednesday Night

F.F.A. Boys Feeding Pigs For Fall Exhibits

Five F.F.A. Club boys have 21 pure bred pigs on feed for fall fairs and stock shows, it was learned yesterday. A number of other members are feeding late pigs which will be shown at the Pan American Exposition if a livestock exhibit is held.

The pigs will be entered in the Tri-State fair and a local show will be held if a sufficient number other than those listed are finished by September, it was announced. The five feeders are:

Earl Shannon is feeding a litter of five Hampshire barrows; Billy Goodman is feeding a litter of seven Poland Chinas; Joe Williams is feeding a litter of six Duroc Jerseys; Frank Mahaffey is feeding a single Poland China; and Allen Pittman is feeding two Duroc Jersey barrows for single entries.

Layton Resigns Pastorate Church of Christ

The resignation of W. Wallace Layton of the local Church of Christ is a source of regret with the membership and the many friends Mr. and Mrs. Layton have made during his pastorate of almost two years here.

He will preach his last sermon here next Sunday. Tuesday he expects to start to Yuma, Arizona where he will be engaged in a meeting until about July 1st. After that time, he will become pastor of the Church of Christ at Ranger. He is leaving against the desires of his church here, but is actuated by a larger field in which to carry on his ministerial work.

Track Goes Out

A cloudburst at Washburn Wednesday night is said to have amounted to around six inches of rain within an hour. Two hundred feet of the Denver track washed out just west of Washburn.

Allred Signs Bill For West Texas Hospital

AUSTIN, May 26.—Governor James V. Allred last week approved an appropriation of \$817,000 for a new hospital for the insane for West Texas after vetoing a similar amount for a new institution in East Texas.

He asserted the financial condition of the state did not justify building two hospitals at the same time and, moreover, the legislature made the appropriation in the knowledge that he would disapprove to one for East Texas.

In a message to the legislature Jan. 25, he said he pointed out that the board of control had recommended he construction of a West Texas hospital.

Pierces Make Tour Over Much Of Down State Country

Much of the most interesting part of the down state country around San Antonio, Medina valley, Hondo, Del Rio and Angelo was seen on a week end tour made by Mr. and Mrs. Guy Pierce and children and S. A. Pierce.

Some time was spent in the I. B. Pierce home in Medina valley. A trip was made across the river at Del Rio to take a look at Vie Acuna, a border town of Old Mexico.

The return trip from Del Rio was begun at 7 a. m. Friday and Clarendon was reached at 7:30 that evening.

Relatives Meet Here Sunday First Time In 45 Years

There was a happy gathering of relatives in the home of Mr. and Mrs. M. V. Harvey Sunday. Mr. and Mrs. Tom Rothwell of Childress, and Mr. and Mrs. W. B. Hughes of Silverton were among the visitors.

Mrs. Hughes and Mrs. Rothwell, and Mr. Harvey are cousins. The ladies met Sunday for the first time in 45 years.

Vicious Fish Bite Several Heads

Imagine if you can, rowing along in a boat through a maize field and see fish jumping out of the water to bite the maize heads. That is what happened to Earl Duke, farmer in the Deep Lake community of Hall county.

The big rain the first of the week brought this true story to the fore again. It happened back in 1923 when it rained so much that fall that cotton sprouted in the boll. Head feed was gathered from boats in the Claude country the same fall.

MEMBER OF
 PANHANDLE PRESS ASSOCIATION

WHAT "FREEDOM OF THE PRESS" MEANS—

Our people have heard, and will hear for centuries to come, it is to be hoped, a great many things said in support of freedom of the press. We have long since come to realize that a free people must have a free press—that one of the first acts of tyranny, wherever it may rear its head, in order to perpetuate its power, is to gag the press.

But occasionally someone takes up the assumption that the newspapers are demanding freedom of the press because it is something which is particularly beneficial to the newspapers—that it gives the newspaperman the right to print whatever he likes about whomever he pleases.

This, however, is not at all true. The public is protected by the laws of libel, both civil and criminal, and no self-respecting newspaper would print anything falsely dangerous to the character of anyone in public or private life.

As a matter of fact, freedom of the press is not in the interest of the newspapers themselves so much as it is in the liberties of the whole people. Senator Bennett Champ Clark, of Missouri, brought out this fact recently in a terse paragraph of his address before the convention of the American Newspaper Publishers Association at New York when he said:

"It should never be forgotten that while our constitutional guarantee of freedom of the press incidentally inures to the benefit of the press, that is not its primary purpose.

The framers of our Bill of Rights were not concerned with granting special privilege to one class of citizens. They were asserting and guaranteeing to the whole people a right to an adequate medium of expression and information absolutely uncontrolled.

"It is in the light of this public interest that the constitutional provision was framed and it was in the light of that primary purpose that the supreme court of the United States has in several cases recently construed it."

Here is the truth of the situation. When we speak of freedom of the press we do not mean freedom of the newspapermen to print what he likes regardless of truth or consequences, but the preservation of the liberties of the people. Without a free press there could not long be any free speech or freedom of action.

AS ONE EDITOR SEES IT

Only recently the Texas law makers voted to increase their pay from \$5.00 to \$10.00 per day while in a regular 100 day session, and the people approved the amendment. Now comes some guy who would put the gang on regular \$3000 per year salaries and subject to "duty" all the time. Ye gods and little fishes! Well here's my suggestion: Reduce the salary of both Senators and Representatives to four bits a day, limit regular sessions to thirty days every other year and abolish special sessions altogether. The State of Texas needs a good long respite from Legislative damphoolishness almost as badly as does the United States need delivery from the antics of Congress and the New Deal. How about a Legislative moratorium to last until folks can pay off the billions already saddled upon them by "big hearted Statesmen" who are fine and dandy spenders of the people's substance.—Alice News.

Lillie Jewell Barnes is visiting her brothers and sister in Denver.

Mrs. Lalar Wilkerson, Margaret and Lalar Belle, are spending the summer with Mrs. Wilkerson's parents in Seymour.

Mr. Bush of McLean, who has been seriously ill for some time in a Pampa hospital, is recuperating at the home of his daughter, Mrs. Fred Russell.

What Is News?

"News is anything that interests people. Its importance depends largely on the number of persons it interests. News may concern people. It may deal with freaks of nature. It may deal with politics, religion, science, sports or a hundred other subjects. It may be humorous, tragic, pathetic. Above all, it should be interesting; the more interesting it is the better; the more human interest it has, the better."—From the Associated Press instructions for correspondents.

The Hill City Times is a newspaper. Its duty to its subscribers is to print the news of the community and Graham county. Yet nearly every week we are approached by some well-meaning soul with a request not to print a certain article. "We don't want mother to know"; or "They are such fine folks and this news would ruin their social standing"; or "That will give the town a bad name, we don't want news like that published," and hundreds of other reasons are offered to us in an attempt to suppress news.

The Hill City Times is not a newspaper without a soul as some newspapers are known, and we do not intend to print all the news items, regardless of their effect on the community or the persons they implicate, but it is the intent of the editor to give the readers of the Times all the news of Graham county, as it comes under the definition as given above by the Associated Press.—Hill City Times (Kan.).

DEATH RIDES SPEEDING CAR

To collide with a stationary object while traveling 60 miles an hour in an automobile is equivalent to a fall off a 120-foot cliff, says State Bureau of Motor Vehicles of New York.

Motorists know only that they are going fast when they reach 60 miles an hour on the road, according to Deputy Commissioner Carroll E. Mealey.

"Motorists should know," said he, "that at that speed the automobile is traveling 88 feet every second. While your heart makes one beat, the automobile travels nearly five times its own length. "And after the driver sees a hazard in the road ahead, the vehicle travels approximately 60 feet before completion of the foot movement from the gas to the brake pedal."

BOARD URGES SEXUAL STERILIZATION

Concurring with the late Justice Holmes of the Supreme Court "three generations of imbeciles are enough," the Texas state Board of Control has again recommended that the Legislature study the feasibility of sexual sterilization of the hopelessly insane and feeble-minded wards of the State.

In the Board's annual report, the sterilization recommendation first made two years ago was repeated with the comment that "this Board knows of no other method for the prevention of the several types of in sanity, imbecility, and idiocy which are definitely known to be hereditary."

"Survival of Unfit "We are told," the report continued, "that the race developed through the ages under the laws of heredity by the survival of the fittest and that in the early ages the weak and defective perished.

"Modern civilization with its many betterments, including human sympathy, has made it possible and indeed a reality for the mentally weak and defective to reach maturity and procreate their kind.

"Today we breed from the top and bottom but more rapidly from the bottom."

The Board pointed out that 28 states have sterilization laws and that in one state, California, there are 10,163 cases of official sterilization.

Boll Weevil Emergence Already Greater Than Average for 11 Years

College Station, Texas, May 26—Emergence of boll weevils in College Station experiments already has exceeded 60 per cent, greater than the eleven-year average, Dr. F. L. Thomas, chief of the division of entomology, Texas Agricultural Experiment Station, said today.

Cotton growers may expect trouble from this pest if the weather is at all showery during the nest month. This probability is further supported by records from the field which have been obtained by members of the United States Bureau of Entomology and Plant Quarantine. In Calhoun, Jackson and Brazos Counties there have been found as many as 20, 39 and 390 weevils per acre respectively. These examinations were made in seven fields of Jackson County, twenty six fields in Calhoun County and five fields in Brazos County, and are based on an estimate of 13,000 plants per acre.

THE OLD SLATE

"Say, what has become of the little old slate That we used at school, back in—say '98? The little old slate that was bound with red felt— And don't you remember how musty it smelt? Or, maybe, that smelt that I'm thinking about, Belonged to the sponge that we used to rub out The words and the numbers we'd awkwardly writ. (But, some little rascals — my goodness!—used spit!)

And then, as they dried it—It's hard to believe— They used nothing less than their hand, or their sleeve! That seems like a terrible thing to be told— But things are so different, before you are old. And don't you remember that sharp little sound The slate pencil made, as we scratched it around? And oh, what a SCREECH, now and then we would make— I'll bet teacher thought that her ear-drums would break!

What wouldn't you give to be back in that seat With your little slate, when all life was so sweet? And wouldn't you like to take back with you, too, That same little happy-eyed gang that you knew? But I don't believe we would be different men If we COULD go back, and start over again. But oh, if we could, it would surely be great To start out once more with a new and clean slate!"

House Votes \$10,000,000 For Plains Conservation

WASHINGTON, May 26.—A \$10,000,000 fund for the construction of small dams, reservoirs and ponds for water conservation in the Great Plains drought area was voted by the House of Representatives Tuesday during consideration of the \$1,500,000,000 relief appropriation.

Although subject to reversal by a later vote of the House, the amendment, sponsored by Marvin Jones, is expected to be retained.

The Jones amendment did not add to the total of the relief appropriation, but earmarked ten million dollars of the fund for specific use in the dust bowl.

Hooray! Hooray! Practically all the children in the Panhandle have seen rain the past few days. And wasn't that rain a humdinger?

And Postmaster Forest W. Taylor claims credit for making it rain every Sunday night for three weeks. He has been a little weak on rain until last Sunday night. He says he goes in cahoots with a new breed of square turtles at the Country club for his rain forecasts.

As a rule it isn't long after a man begins courting trouble until he finds himself married to it.

That Casting Job.

Well, folks, we are just about through casting the larger school kids "upon the sea of life." This casting talk is done by the fellows who deliver the addresses for closing exercises. It must have come from the thought that each kid must paddle his (or her) own canoe. Right here locally, the juniors get tossed upon the sea of life; then as a senior, there is more tossing. The final fling comes when the budding genius pops out of junior college. The speaker regards this "flinging" process as a religious ceremony, or it at least would be sacrilegious not to fling them somewhere in the talk. The speaker warns against rocks and shoals of temptation. Before a kid gets into the swim these days, he (or she) has learned a whole lot. As much as you and I learned the first forty years, but they absorbed

more knowledge in the first twenty. Our sincere wish is that each will be given a break. Business men should not hold school training against an applicant. If they do, it merely means that the youngster must get on WPA and continue loafing after school closing. Anyway, this sea of life stuff is pretty well muddled up by this time with speakers stirring it every year by the thousands for ages.

Just Cleaned 'Em Up.

A few years ago some moving pictures were so rotten the industry was being lambasted by practically every fair-minded, decent citizen that ever saw a moving picture. Today the 'suggestive' stuff is cut out. Free love, slobberitis and loose living has no place on the screen of a picture show. The criminal is no longer played up as a hero, but a public rat instead. The Catholics started the clean-up, and when they had broken the ice and made it safe for others to speak right out publicly, rotten pictures caught hail columbia from every angle. That's a good way to get a good job done. But why not handle our political handicaps in the same manner?

The Lying Triumvirate.

Visiting in a neighbor town recently, a brother with a "cause" was billed to speak. A friend with whom I was eating prevailed upon me to attend what we knew would be 'just another meeting.' We went. A home man slobbered over a choice variety of carefully prepared adjectives in introducing another home man. We two 'sitters' knew that a hard chair would be the principal drawback to a bad situation. The second home man spilled some more flowery language, complimented himself lavishly at first, then finally discovered the object of his duty. He reached back and drew forward a frowny guy who proved to be the loud-lunged brother who spoke in sonorous tones of about 20 words a minute. It was more of the dirge type, but his agony lasted 1 hour and 45 minutes. The chair appeared to be coated with nail points.

Yep, it was just 'another meeting,' the home folks footing the bill. The local paper referred to it as a "great" speech. Again, it just proved that publishers, lawyers and preachers are the biggest liars in the world in defending helpless victims as occasion demands.

Where Modesty Aint.

The governor of New York state vetoed a law against 'strip-tease' shows. A strip-tease act in a public show is where a female throws modesty to abandon, and sheds her clothing piling the brassiere on top. The crowd is made up largely of women and old men—strange as that may seem. Or at least that is what New York papers had to say about the matter.

Over In Georgia.

One of the easiest things in the world is to draw up rules for the guidance of human conduct. Probably the hardest thing in the world is to induce people to live up to such rules. The folks over in Georgia are apparently between a rock and a hard place. They have plenty of booze of all kinds under prohibition at present. Soon they are to vote on repeal that the state may collect revenue. We had the same thing in Texas, but statistics show that drunkenness has not increased since repeal was voted.

Gov. James "Veto" Allred.

Down Austin way political enemies have agreed that the Governor's middle name is "Veto," since he has vetoed so many extravagant bills. So long as they pass spending laws, and have no method of getting the money except by taxing property owners, it will continue to be Gov. James "Veto" Allred. Or that is what Gov. Jimmie says, and he says what he means.

Ghosts of the Clouds.

During the past ten years, nine dirigibles have been the means of rushing 234 mortals into eternity. They were the Macon, Dixmude, Akron, Shenandoah, ZR-2, R-101, Roma, Italia and lastly the Hindenburg. Only one is left, the Zepelin. Plans are in process for this nation to get into the dirigible business again. It means money for the builders, is the reason.

Welcome!

"Oh, here's to the chigger That isn't much bigger Than the point of a very small pin, But the bump that he raises Itches like blazes. And that's where the rub comes in."

Humanity's Ego.

There must be some divine power regulating man's affairs on this earth because the average man knows he could do a better job if left alone.

Monuments to Slaughter.

Preceding Memorial Day, folks will gather in and clean up the cemetery. While the work is going on, an average of three hundred over the nation will be slain by autos as a daily average. On Memorial Day when the crowds get moving, some eight hundred will be slain by autos, if the average is maintained for the special day. Estimates are based on past statistics.

Horace Russell Passes.

About 7 o'clock this Tuesday morning Horace M. Russell, of Amarillo, president of the Panhandle-Plains Historical Society, passed away. He had been seriously ill for several months. Horace had lived in the Panhandle over thirty years. He was head man in the Russell printing and stationary firm. He held positions of note and was a very valuable man in every walk of life. But above all, Horace M. Russell will live in the memories of men, women and children of both high and low estate because his name and large contributions to charity headed the list when humanity's necessity demanded help. He was a man in every sense that the word implies. His going is an irreparable loss to his people.

Jim Trent and Marshall Morris returned Friday from a fishing trip on Lake Kemp. High wind caused a lack of results.

Mr. and Mrs. E. P. Thompson and daughters, Annie Ruth and Martha, of Memphis, were Clarendon visitors Friday.

Rev. R. S. Barcus, presiding elder of the Clarendon district, of the Methodist church, was in Memphis on business Friday.

New Coupe Also Is Light Truck

The latest innovation in light trucks, or commercial cars, is this Utility Coupe Pick-Up which is being introduced as part of the new line of Terraplane Commercial Cars. The new car is changed from passenger to business car by a sliding steel pick-up box, which offers a surprisingly large amount of loading space. The picture shows the new Utility Coupe with pick-up box extended to its full length (it can be pulled out to any one of three positions). The steel box, which is mounted on rubber covered metal rollers, is 49 1/2 inches long, 38 inches wide, 11 1/2 inches deep and has a loading height of 32 inches under the rear deck door. This door may be removed. In announcing the new model, the company stated that a survey of many lines of business revealed that this type of car is amazingly well suited to the needs of many businesses.

The Good Will Club entertained the Girls of yesteryears May 18, in the beautiful home of Mr. and Mrs. J. B. Masterson, made ready in every way, gathered the girls of the 70's who have staid young despite the fact that time has colored the hair a lustrous grey, yet the interest of youth, the twinkling eyes and smiling lips revealed the happiness of each heart. With such hostesses as Mrs. J. B. Masterson, Mrs. R. E. Mann, Mrs. Royce Hall and Mrs. Chas. Barnett a good time begins as you enter the door and lasts until good byes are said and then lives on and on. Contests were held, each were entered in by all with interest as keen as youth. Many games were enjoyed, merriment and laughter ran high. At the appointed time refreshments consisting of angel food and ice cream and mints were served.

Far too soon the "Girls" must say good bye to the best of hostesses and each other, each feeling that the best of life is the "Evening."

Tax Penalties Will Increase July 1.

Amarillo, May 26—A saving of tax penalties, interest and fees can be effected by property owners who pay their 1936 assessments before July 1. These assessments were due January 31.

By paying before the July deadline, they will be levied only a four per cent penalty. After then the penalty becomes eight per cent, six per cent interest is charged and a \$1 fee assessed.

Firestone TIRES GIVE YOU GREATER PROTECTION AGAINST SKIDDING AND BLOWOUTS

YOU will know the minute you see this tire why car owners everywhere call it the greatest tire ever made to sell at these low prices. The deeper, wider, flatter non-skid tread made of tough, long wearing rubber will give you protection against dangerous skidding.

But tires cannot be judged on tread alone. Under the tread of Firestone Standard Tires are two extra layers of Gum-Dipped cords. This Firestone patented construction feature binds the tread and cord body into one inseparable unit. Every cotton fiber in every cord in every ply is saturated and coated with pure liquid rubber which counteracts the internal friction and heat that ordinarily destroy tire life. This Firestone patented process of Gum-Dipping gives greater protection against blowouts and is used only in Firestone Tires.

Come in, join the Firestone Save A Life Campaign today by equipping your car with a set of new Firestone Gum-Dipped Tires.

DO YOU KNOW THAT last year highway accidents cost the lives of more than 38,000 men, women and children? THAT a million more were injured? THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?

Table with Firestone tire prices for Standard, Sentinel, and Courier models in various sizes.

ZENITH RADIO CORPORATION TO MOVE INTO NEW QUARTERS

THE LARGEST RADIO MANUFACTORY ON ONE FLOOR IN THE WORLD

Will Have Ample Capacity to Continue Company's Rapid Rate of Expansion

According to a statement just released by Commander E. F. McDonald, Jr., president of Zenith Radio Corporation, the company will within a few days occupy its new factory at 6001 Dickens avenue in the northwest section of Chicago. Machinery is now being moved into the buildings, preparatory to starting manufacture.
 Hugh Robertson, vice president and treasurer, in charge of preparing the company's new home for occupancy, describes the new plant as the largest radio manufactory on one floor in the world, capable of producing 10,500 radio sets every eight hours, or nearly 22 radios a minute.
 Buildings are brick and concrete extending four city blocks along Dickens avenue. The new factory is well ventilated and lighted.
 The company will fabricate its own steel into chassis frames and various other metal parts for home, farm, boat, trailer and automobile radios. A special section is set aside for automotive radio engineering, design and manufacturing, a division of the company's business which is undergoing considerable expansion.
 A new method for increasing production capacity provides for

Commander E. F. McDonald, Jr., President Zenith Radio Corporation

the distribution of parts to the manufacturing lines during the night, so that manufacturing may proceed without interruption during the daylight hours.
 Operations are so planned that production flows in an orderly manner from one end of the mammoth building to the other. Raw material enters at the receiving platform and flows through a central inspection department. As the raw material swings out of the department it is divided among multiple manufacturing lines, each affording a vista over

300 feet long and each employing hundreds of specialized operators. At every important point in the manufacturing process, engineers will check the hundreds of individual operations necessary to the making of a radio set. It is estimated that at least one out of every three workers in the new Zenith factory will in one way or another be responsible for inspection operations to assure accuracy and good performance.
 The final product, after passing through these multiple inspections and being packaged, rolls out to

depressed and canopied railroad sidings and concrete truck roadways with facilities for loading 35 standard freight cars and 16 highway trucks and trailers at one time.
 The Zenith Radio Corporation, which between May 1 and December 1, 1936, doubled its business over the same period of the preceding year, and recently announced the resumption of dividends to stockholders, serves not only the entire domestic market, but exports its radio products to 97 foreign markets.

The farmers of this community have been very busy the last few weeks as we have had plenty of rain during the month of May which has made listing and planting a pleasure. Most of the cotton and some feed has been planted. Every thing was coming up to a perfect stand until the rains Sunday night and Monday. Since then some of the farms will have to be planted over as the ground was packed too hard for the seed to come up. Regardless of this the farmers are happy over the rains.

Tillie Rexrode spent Sunday nite with Mr. and Mrs. Chappell.

Rusty Gibson spent last week visiting his brother, Slim, near Clarendon.

The friends of Mrs. Ruth Killough formerly of Brice, are very happy to hear the report of her improvement and take this opportunity to wish her a speedy recovery.

Mr. Smithey, our postman is ill at the time of this writing and Mr. Roy Blackman of Chamberlain is substituting for him. We hope that he will be well soon.

Largest Telescope In World Now Being Erected in California

SAN DIEGO, Calif., May 25—San Diego County will share international attention with New York and San Francisco in 1939. While the two metropolitan centers hold expositions, this county will celebrate completion of the world's largest observatory and telescope. When the work is done astronomers will look into a 200-inch mirror, the largest ever made, and peer into the universe, far deeper than is now possible.

Speaking of the significance of this great telescope to be located

on mile-high Palomar Mountain in the northern part of San Diego County, Capt. Clyde S. McDowell, supervising engineer said: "The 200-inch telescope will enlarge the astronomical horizon until the volume of space available for study is approximately eight times that at present.

"Though spectroscopy studies thus made possible, more will be learned of the atmospheres surrounding the brighter stars; we will learn more about the planets and asteroids in our own solar system."

Dr. George Ellery Hale, chairman of the observatory council in charge of the project, began a search for the best site for the telescope 14 years ago.

After carefully comparing the advantages of 15 peaks in Arizona, California and Australia, Dr. Hale

advised the Rockefeller Foundation and officials of the California Institute of Technology that Mt. Palomar has less fog, no glare from near-by lights, plenty of water, and is easily accessible.

Work was started on the observatory two years ago. A new wide "highway to the stars" was built by the government, state and county, at a cost of a million dollars. This road will soon be dedicated, and ready for the massive equipment which will begin moving up the mountain from Rincon on the edge of the Rincon Indian Reservation.

For the past two years a large crew of men has been busy converting the peaceful mountain plateau into a small village where research scholars from all over the world will carry on continuous investigations into the universe. Virtually all of the structural steel of the 200-inch telescope has been erected.

When completed the observatory will be a three-story structure, rising 128 feet. Its dome will be 135 feet in diameter. The top floor will be for observation and the second floor will be a mezzanine. The lower floor will be divided into photographic dark rooms and laboratories, well equipped library, reading room, and a compact kitchen.

The 18-inch scout telescope also is completed. This Schmidt combination telescope and reflector is about 300 feet from the big observatory. The telescope is being used for preliminary study of the heavens and numerous graphs and charts of the universe are being made with it.

J. Perry King, Pastor

There is Always Worship Fellowship :: Service

One of the joys of life is service. We have many things to vex us and try us almost to the breaking point but not so with service. It is rare that one ever finds an unhappy person who is actively engaged in service for his Lord to humanity. A long time ago one of the greatest of men said, "Service pays a dividend in life, in death, and after death."

Invest in the happy privilege of service through the week days and then climax with the worship hours in your church on Sundays. There you will find God, good friends, and a glorious fellowship.

Regular services Sunday morning and evening at the Baptist Church. We were happy to greet many new friends and visitors in the services last Sunday in addition to the faithful loyal regulars. God bless you, and make you happy always when you go into the house of the Lord. We never tire saying, we are glad to see you.

completed. These are equipped with the latest type facilities, even to thermostatic heat control. A million-gallon water reservoir and a 50,000-gallon water tank have been finished, as well as oil storage and liquid tanks. Electrically operated pumps will enable the observatory to draw 17,000 gallon of water daily from springs on the 720 acre site.

Two important transportation problems face observatory officials. The first involves the moving of a huge section of the dome, and machinery for the telescope. This is set for early summer. Sections of the dome weigh 60 tons.

The second and more exacting task must be tackled in the summer of 1939, when the mirror, now being ground in a special cork-lined building at the California Institute of Technology, is to be moved to the observatory. This mirror, weighing 20 tons must be transported about 127 miles and fitted into place at the bottom of the 65-foot cage in the observatory dome. A special truck will be required to transport the mirror safely.

Because of the tremendous cost of constructing an observatory of the size of the Palomar project, experts estimate that at least a half century will elapse before an institution excelling the Palomar plant will be built. The cost of the Palomar observatory will exceed \$6,000,000, it is believed.

GEORGE B. BAGBY WEDS MISS DALENE GRAY

Miss Dalene Gray, daughter of El W. Gray of Muleshoe, was united in marriage to Mr. George B. Bagby of this city in a ceremony in Amarillo Sunday morning. Vows were read in the Central Presbyterian Church by Dr. R. Thomsen, pastor.

Mrs. Bagby was connected with the Clarendon school system this year. She is a graduate of the Abilene High School and completed her studies at the West Texas State College and at Mary Hardin-Baylor.

The bride was charming in a dusty pink suit of sheer crepe with navy blue accessories and wore a corsage of white orchids.

Mr. Bagby is the son of Mrs. Lolie Bagby of this city and was reared here. He is a life insurance underwriter.

The pair left after the ceremony for an extended wedding trip. A week will be spent in New Orleans

after which the couple will sail aboard the S. S. Sixaola for Havana Cuba. From that city they will tour the West Indies. On the return trip, Mr. and Mrs. Bagby will spend a week at the Pan-American Exposition. They will be at home in Clarendon after July 1st.

KENNETH BROWN WEDS MISS ILA RUTH RAY SUNDAY AFTERNOON

Kenneth E. Brown of Lubbock, formerly of Clarendon, and Ila Ruth Ray of Fort Worth, were married in the home of Mr. and Mrs. R. H. Ray in Amarillo Sunday afternoon at 3:30 o'clock. Dr. R. Thomsen, pastor of the Central Presbyterian Church, officiated.

The bride wore a dressmaker style dress of pastel green with a corsage of gardenias. She was attended by Miss Bertha Ward of Fort Worth.

William Word of Amarillo was best man.

The home was decorated with

ferns and pink roses. An improvised altar was arranged in front of the fire place. White candles were on the mantel.

Relatives and a few close friends of the couple attended the wedding and an informal reception which followed.

Mr. Brown is the son of Mr. and Mrs. T. F. Brown of Clarendon, where he had lived for a number of years. He was connected with the Retail Finance Co. in Amarillo until being transferred to Lubbock recently. He is a graduate of all Clarendon schools.

The bride is the daughter of Mr. and Mrs. R. L. Ray of Fort Worth. The couple will make their home in Lubbock.

FRIENDSHIP CLUB

Mrs. J. W. Rowland entertained the members and guests of this club at her home Tuesday afternoon. The guests rooms were beautifully decorated with roses and larkspur. The meeting was opened by the president, Mrs. C. R. Skinner. The entertaining feature of the afternoon was sewing and visiting. In the late afternoon Mrs. Rowland assisted by her granddaughter Avis Darnell and Bertha May Thomas served ice cream and cake to the following guests:

Mesdames Elry, Knight, Devers, and R. O. Thomas. Misses Avis Darnell and Bertha May Thomas. Club members Mesdames C. R. Skinner, L. Ballew, H. Tyree, G. J. Teal, J. D. Stocking, Eva Womic, J. E. Mongole, and Hostess Mrs. Rowland. The club will meet June 8 with Mrs. C. R. Skinner.

CLARENDON H. D. CLUB

Mrs. G. A. Anderson entertained the Clarendon Home Demonstration Club Friday, May 21 with the president Mrs. Estlack presiding. Mrs. Cap Lane read the club prayer. Members answered the roll call with salid hints.

Mrs. John Clark and Mrs. Cap Lane had charge of the program, the subject, salid making.

Delicious refreshments were served to Mesdames Karl Adams, A. H. Baker, C. L. Benson, John Clark A. L. Chase, John Black, J. C. Estlack, O. L. Fink, G. L. Green, M. A. Hahn, Frank Hommel, Cap Lane, C. D. McDowell, Ed Speed, W. D. Van Eaton, A. W. Simpson, A. G. Lane, Misses Etta and Ida Harned and the hostess, Mrs. G. A. Anderson.

Club adjourned to meet with Mrs. G. L. Green June 4, 1937 at 3:00 P. M.

ROLLS-BAKER

Mr. and Mrs. Ira Rolls of this city announce the marriage of their daughter, Nola Mae, to Virgil Baker of Borger, Texas.

The young couple were married in Claude May 17. They plan to make their home in Borger where Mr. Baker is employed by the Phillips Petroleum Co.

MISS AGATHA TAYLOR WEDS ENOCH DARNELL TODAY

With the first rays of the morning sun glinting softly on the improvised altar in an east window of the music room of the home of her parents, Mr. and Mrs. C. W. Taylor, Agatha Taylor became the bride of Enoch Darnell this morning. The ceremony was read by Rev. J. Perry King.

The room was beautifully decorated with blue larkspur and pink roses and the dining room table, where the wedding cake was cut carried out the motif with pink candles in a lovely center piece.

The bride was attractive in an ensemble of shrimps color with navy blue accessories. She wore a corsage of pink rose buds, Lilly of the Valley and blue cornflowers.

Mrs. Allen Bryan played the wedding march.

Mrs. Darnell was graduated from all of the Clarendon schools. She also attended college in Alpine, Canyon and Los Vegas, New Mexico.

Mr. Darnell is the son of Mr. and Mrs. R. T. Darnell of Vigo Park, Texas. He formerly attended school here and was graduated from Montezuma College in Las Vegas, N. M.

The couple left immediately after the ceremony for Las Vegas where they will spend the summer before going to Vigo Park where they will make their home.

Guests at the wedding included close friends and relatives in Clarendon and Misses Ethel and Edna Crane, Mrs. Wooten, Mr. and Mrs. Ed Enoch, Mr. and Mrs. Shields, and Mr. and Mrs. Leonard Darnell all of Amarillo; Mr. and Mrs. William Hood and daughter, Janet of Memphis and Mr. and Mrs. Grady Halbert of Kirkland.

Mrs. W. L. Crane of Amarillo and granddaughter, Shandra Shane are visiting her sister, Mrs. John Clark.

Gentry, Cooke, Hickey And Merchant Advance In City Golf Tournament

The 10th annual city golf tournament reached the quarter finals Wednesday with Dude Gentry, Bill Cooke, E. Hickey and Ira Merchant advancing.

All matches will be finished by Saturday with the exception of the finals which are scheduled for Sunday. The championship title will be over a 36 hole route.

Gentry came forward with a 3-2 win over Billie Cooke who was medalist last Sunday with a sub-par 70. Gentry took the first hole, after Cooke was in trouble, and was never forced the rest of the way.

Bill Cooke trounced youthful Neal Thompson 6 and 5 and a drab match yesterday morning.

Merchant eliminated M. P. Gentry, defending champion, in the opener 4 and 2.

Joe Bownds, Glenn Allison and U. J. Boston will fight it out for winner of the second flight. Boston has advanced to the finals with victories over T. F. Connally and John Swenney. Swenney downed T. M. Shaver in the first match. Bownds beat Wesley Knorpp and Allison defeated Frank Whitlock.

Third flight contestants in the fray are Tom Murphy, Clyde Douglas and Dick Cooke. Murphy is scheduled for the finals by advancing over Homer Parsons and Dr. H. F. Harter. Harter previously won over Kelly Chamberlain. Clyde Douglas downed L. E. Thompson and Dick Cooke defeated Fred Buntin.

Only three matches in the fourth flight had been reported last night.

They were H. F. Breedlove's victory over Glenn Churchman, Otto Esach's win over Buddy Knorpp and Pud Bain's triumph over W. G. Word.

Consolation matches had not been reported but will probably be played Friday and Sunday.

Besides the first flight, other matches scheduled are second flight, Joe Bownds vs. Glenn Allison, with Boston vs. Winner.

Third flight, Tom Murphy vs. the winner of the Cooke-Douglas bout.

Fourth flight will find W. W. Noblet against J. R. Gillham, with Breedlove vs. the winner, and Otto Beach and Bain.

Program For Greenbelt Tournament Announced

Qualifying rounds for the Green Belt Golf Association tournament will begin at 8 o'clock, Monday June 7, at the Quana Country Club course in Quana, according to the program released recently. Entrance fees will be accepted until noon the same day.

A driving contest will be held at No. 1 tee at 5 p. m. with match play starting Tuesday and continuing through Thursday.

The entertainment consists of bridge and forty-two, barbecue on the club grounds, stag smoker and calcutta pool, all set for Monday afternoon and night, dancing at the club house Tuesday night and bridge and forty-two Wednesday.

Wins Golf Title

MEMPHIS, May 25.—Regnal Greenhaw Sunday defeated Thomas Hampton 2 up on the thirty-sixth hole to win the Memphis golf title.

Baptist Take Easy Soft Ball Victory As Lane Is Touched For 1 Hit

Pitching one hit ball combined with 14 opponent errors, McHenry Lane twisted the Baptist to a 16 to 2 victory over the Junior High School in the Donley County Soft ball League opener at the College Field Tuesday night.

Lane started the bout with three consecutive walks and pulled himself out of the hole by whiffing the next three juniors. He was credited with six straight strikeouts in the first two innings, and 8 for the game.

The two school boy's runs resulted from a single by McMahan and two Baptist errors.

U. Z. Patterson, Baptist, lined a homer in the third for the first circuit blow of the season.

The Baptist collected six hits and were credited with 2 errors. The Junior High School got one hit and 14 errors.

Donley County Leader, \$1.50 a year.

Methodist Nosed Out 22 to 21 In Softball Scrap

Jumping of Guy Pierce for 13 runs in the first inning, the Methodist weren't good enough to win and were nosed out 22 to 21 by the Lions when Dr. Hicks lined a drive into centerfield scoring two mates in the seventh. The contest was the second of a double softball bill at the College Field Friday night.

The Methodist got only eight additional scores after the bloody first. They totaled 17 hits and 11 errors. The Lions garnered 20 hits with 10 errors.

The HEN or the EGG?

Is the hen that lays the fertile egg
The mother of the flock?
I mean the hen that lives within
The harem of the cock.

Or the hen that sits for twenty days
And brings the brood to life,
Is she the mother of the flock
Or the brood cock's second wife?

Or the hen that's made of seasoned wood
And called an incubator;
Is she the mother of the flock
Or just its radiator.

Or the brooder in whose warm abode
The little ones will hover;
Is she the mother of the flock
Or just a kind step mother?

The little chick must puzzled be
To know which is its "ma"

But its life is never darkened
By too much mother-in-law.

Memphis Picked To Win Grid Crown Next Fall

Wellington, May 26—The nine clubs of District 3-B may wage a hot fight all the way for district honors, according to Coach Joe Coleman, as practically every team in the district during spring drills displayed vast improvements over

the lineup of last season.

When asked whom he considers the strongest contenders for first place in the district, Coleman said that at the present time the Memphis Cyclone is favored, although a pre-season estimate of any club is hard to make.

The Cyclone will probably come up with a greater passing offense together with one of the heaviest lines in the district which will average 175 pounds to the man. With 11 lettermen returning, McLean also appears to be a strong contender. According to this rough estimate, the fight for top honors will be centered in McLean, Memphis, and Wellington.

A total of 65 lettermen will return to the schools for the season. The number returning to each club are as follows: McLean 11, Memphis 10, Wellington 7, Wheeler 5, Mobetie 12, Lefors 8, Clarendon 3, Shamrock 7, and Lakeview 1.

Scholarships Are Awarded On Merit System

AUSTIN, May 26.—Thomas Ulvan Taylor, "Grand Old Man" of The University of Texas and for 46 years dean of the College of Engineering, has established a Foundation to make financial awards to a few senior engineers each February for the purpose of helping to pay their second semester fees. A number of gratitudes for this fund have come from former students of Dean Taylor's who have sought to repay in this some of the kindnesses he has rendered them.

A sufficient sum is already set aside for the fund to permit the awarding of these gifts for the next five years. It is expected that other ex-students and friends will contribute from time to time, enlarging the fund so that additional awards can be made.

For the next five years awards

will be limited to five in number. Recipients must be students who have "earned their way by the sweat of their brows in some such capacity as waiting on the table, washing dishes, janitor work, filling station service, of similar occupations," Dean Taylor asserted. In addition they must be students who have completed 85 per cent of the prescribed work for their undergraduate degree in engineering with a "C" average.

The funds have already been invested in United States Government securities, and the Foundation will be administered by three life trustees: John A. Focht, professor of highway engineering, chairman and treasurer; C. E. Rowe, professor of drawing, secretary; and John D. Miller of Austin.

Mr. and Mrs. Jiggs Mosley and children of Amarillo were guests of the Elmer Palmer home here Sunday.

How Times Have Changed

"IRONING out the wrinkles —1750 and 1937 style." The 18th century outmoded iron was charcoal powdered and crude as compared to its 20th century electric streamlined equivalent. The irons are one of the many interesting comparisons drawn from the exhibition, "Two Hundred Years of Streamlining in the Kitchen," now being held at Hammacher Schlemmer, in New York City.

*** * * * * CHAMBERLAIN SCHOOL NEWS * * * * ***

The very successful term of the Chamberlain school was brought to a close this week. The teachers and pupils were very busy Monday, Tuesday, and Wednesday finishing the tests, checking in the books, grading papers, and making final reports. Morning was spent checking books and practicing the final programs. The pupils were dismissed at noon. The teachers graded the exam papers and completed the report cards.

The entire community together with many visitors assembled at the school house Monday night and enjoyed a splendid three act play given by Mr. Todd's room. The play was entitled "The Deacon Slips." The characters and parts played by each were as follows: Mildred Greendale—Owner of the Farm—played by La Rue Shadel.

Deacon Slips—From Center Square Missouri—played by James Hott.

Freta—His daughter—played by La Verne Marshall.

Paul Hearman—In love with Mildred—played by Wayne Mirris. Leslie Jerksome—Agent for "Cayuga Salve"—played by Bailey Estes.

Eunice Moredough—In the Matrimonial Market—played by Pauline Mays.

Caleb Ringling—A crook who means business—played by Orval Scott.

Harold—With no mind of his own—played by True Barbee.

Mr. Brown—An attorney—played by George E. Moore.

Tuesday morning, the report cards were given to the pupils and the pupils of Miss Taylor's and Mrs. Todd's room practiced their program. School was again dismissed at noon and the teachers spent the afternoon working up their Head Teachers Report. A large crowd fattered at the school house again Tuesday night and enjoyed the following program given by the primary and intermediate pupils:

Reading—"Vacation Time"—By Dewey May.

Play—"The Father's Convention"—by six boys.

Play—"The Baby Tree"—by the primary girls.

Dialogue—"The Building of the Nest"—by four boys.

Reading—"A Chip Off the Old Block"—by Jiggs Mann.

Play—"The City Cousins"—by four girls.

Play—"Epamanandias" by Douglas Lowe and Rose Mary Kyle.

Reading—"Building a Bridge for Him"—by La Rue Shadel.

Play—"The Balloon Man"—by the primary boys.

Play—"The Cute Family"—by Mrs. Todd's room.

After this program the seventh grade graduating class was addressed in a very impressive manner by County Superintendent Kavanaugh. Mr. Todd presented diplomas to Wayne Morris, J. T. Finchum, James Earl Hott, Rex Moore, Homer Hardin, Pauline

Mays, Pauline Blanks, and Orval Scott. Homer Hardin made the highest average of the class, and Bally Estes next to the highest and Pauline Mays, third highest.

The entire community gathered at the school house Wednesday where an unusually successful picnic was enjoyed by all. Various games were played by teachers, parents, and pupils, the outstanding games being "dare base" and "playground ball."

The teachers have expressed their sincere appreciation for the splendid cooperation that the trustees and patrons have shown in their work. The trustees and teachers have enjoyed a 42 party the fourth Thursday night of each month. School business and affairs were discussed at each party which brought about a very friendly understanding of the problems in common to both trustees and teachers.

All three of the teachers, Mr. and Mrs. Bill Todd formerly of Brice, and Miss Agatha Taylor of Clarendon, were all reelected some two or three months ago. Miss Taylor has recently turned in her resignation. This vacancy has been filled by Miss Mildred Pittman of Brice.

The entire community is very sorry to lose Miss Taylor from their school faculty after three years of unusually splendid work. Miss Taylor leaves a very pleasing record at Chamberlain together with many friends including both pupils and parents.

The Community will be glad to welcome Miss Pittman of Brice who comes to the Chamberlain community bringing with her an outstanding record of school teaching experience and high morals of living.

Definite results from one phase of the Texas Planning Board's work was announced this week by Maj. E. A. Wood, director of the Board. It was the feeding of 200,000 head of Texas cattle. These cattle are being finished for market on Texas feedstuff. Heretofore Texas cattle have been finished for market on mid-western pastures.

The Texas Planning Board is now studying the future possibilities of Texas fibers, new uses for Texas farm products, new markets for Texas farm products, slum clearance in Texas, improvement in social and economic conditions in the State, highway safety and maintenance of Texas forest reserves.

Senator Connally Favors Extending Low Interest Rates On Farm Loans

Washington, D. C. Senator Tom Connally declared early this week that he will actively urge the extension of the 3 1-2 per cent interest rate on certain federal land bank loans.

House Bill Number 6763, which would extend the 3 1-2 per cent interest rate, has been favorably reported to the House of Representatives. Unless this or some similar bill is passed before July 1st, the interest rate on such loans will automatically revert to the original higher rate of 4 1-2 to 5 per cent.

Senator Connally's views on the matter are set fourth in the following statement:

"I strongly favor and shall insist upon the passage of a bill to continue and extend the 3 1-2 per cent interest rate on federal land bank farm loans. It would be utterly unwise to increase the interest rate on loans to the Federal Land Bank at this time. One of the greatest services which the government can render is to make it easy for farmers to become the owners of the land which they till. The establishment of farm homes ought to be one of the cardinal policies of the federal government."

Lose Unsightly FAT!
Quickly—Safely with WATE-OFF
Drugless Preparation for Scientific Weight Reducing

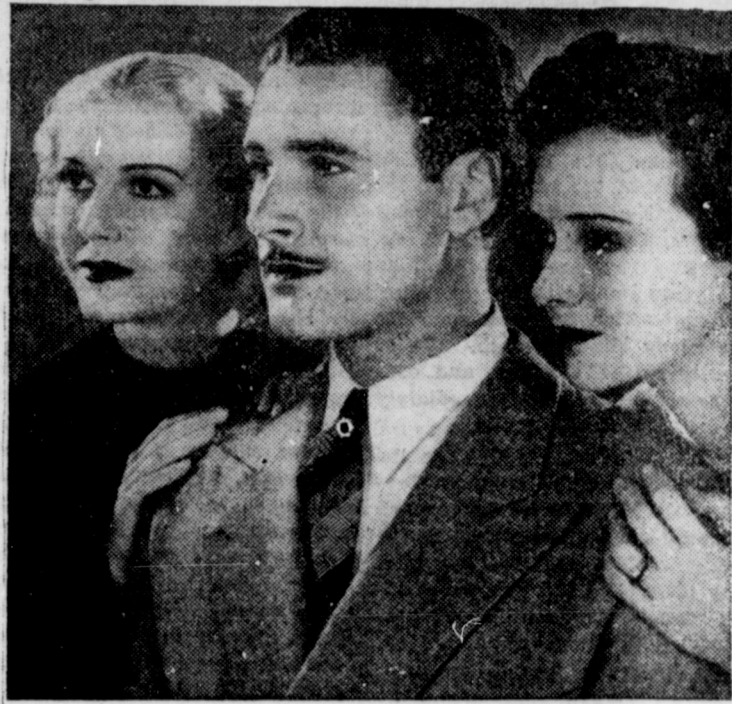

WATE-OFF is a compound of pure vegetable matter. WATE-OFF contains no dangerous drugs of any kind—no dinitrophenol—no salts or other harmful laxatives. There is absolutely nothing in WATE-OFF that can do you the slightest harm. Many users report that after taking WATE-OFF for just a short time they actually feel better than they have in years. Yet, WATE-OFF makes it possible for overweight women, and men too, to take off five pounds a week, or even more, without strenuous exercising and without starvation diets. In fact, as you take off weight with WATE-OFF, you not only LOOK better but you actually FEEL better.

The instructions say: Take WATE-OFF before meals, 3 or 4 tablets a day, then eat your hearty fill. Users say: "Results are simply amazing. Unsightly flesh frequently melts away like magic—and, without causing the skin to sag or wrinkle as so frequently happens with fast-acting but dangerous drug reducers. You have seen WATE-OFF advertised in Pictorial Review, Physical Culture and other leading magazines at \$2.45. Here now is your opportunity to purchase this same fine preparation for only \$1.19, with our guarantee that if you're not satisfied with results you may return the empty carton and we will return your money."

They Saw the Green Light

How a girl may love a man, even though she blames him for the death of her mother and how another girl can love that man so well that she sends him to the arms of her rival, are but two of the many unusual situations in which Errol Flynn, Anita Louise (left) and Margaret Lindsay find themselves in "Green Light," the Cosmopolitan production based on Lloyd C. Douglas' Famous book, which opens at the Pastime Theatre at the Saturday Prevue, Sun, and Monday, May 29-30-31.

Those farmers who have purchased homes and have loans on them in the federal land banks are making earnest efforts to complete their payments and become the absolute owners of the land upon which they live.

"The government can afford to continue the 3 1-2 per cent interest rates on such loans. By doing so it may enable farmers to meet interest payments and to also pay a portion of the principal indebtedness. To increase the interest rate at this time would have the opposite effect."

Man Who Became Father Twice After 94 Dies

New Bern, N. C., May 26—George Isaac Hughes, whose record of becoming a father twice after passing his 94th birthday astonished the medical world, died today at the age of 97.

His 29-year-old second wife and their two babies, Franklin Roosevelt Hughes, 29 months old, and Mary Gertrude, about a year old, as well as children by his first wife were at the bedside.

"Green Light" To Cast Its Gleams At The Pastime Theatre

"Green Light," that stirring story of heroism, sacrifice and love, which had many hundreds of thousands of readers in its book form a couple of years ago, comes as a photoplay to the Pastime Theatre Sat. Prevue, Sun. and Mon.—a faithfully made, splendidly-cast Cosmopolitan production, released by First National.

Errol Flynn, the young Irishman who made sensational hits in "Captain Blood," and "Charge of the Light Brigade," is the masculine star of Lloyr C. Douglas' gripping tale. He plays Dr. Paige, the scientist who almost gives his life in researches destined to alleviate human suffering.

The girl he wins, after much misunderstanding and unhappiness, is the lovely little blonde Anita Louise, who had a recent triumph of her own as the mother of "Anthony Adverse," in the film version of that book, and shares sterrar honors with Flynn.

The saintly philosopher, Dean Harcourt, friend and advisor of all the characters in the story, is played by the distinguished British character star, Sir Cedric Hardwicke, who was brought 6,000 miles from the London stage to the Hollywood cameras for just this one job.

Margaret Lindsay portrays a devoted hospital nurse who loves Flynn, but has to surrender him. Henry O'Neill as a surgeon who unwittingly forces Flynn into a long martyrdom.

Walter Abel, whose most recent success was as the district attorney in "Fury," was especially engaged to enact the role of Flynn's friends and fellow scientist.

Enthusiastic reports about "Green Light" have come from

preview audiences. It was directed by Frank Borzage.

Cotton Exports Drop 8 Per Cent Aug—April

Raw Cotton exports from the United States in April amounted to 373,000 bales, valued at \$27,672,000, compared with 468,000 bales valued at \$33,356,000 in March and 353,000 bales, valued at \$22,381,000 in April, 1936, Harold M. Young, manager of the Bureau of Foreign and Domestic Commerce office in Dallas, said Monday.

August-April exports totaled 4,762,000 bales valued at \$324,122,000 compared with 5,167,000 bales at \$332,008,000 for the same period in 1935-36, a decline of 8 per cent in quantity and 2 per cent in value.

I'LL OIL-PLATE YOUR ENGINE

Nobody but a Conoco Mileage Merchant like me can Oil-Plate your engine, because nobody else can change you to Conoco Germ Processed oil. There's a patent on it. The Germ Process is not like all the processes that "take away" from an oil—sort of like making skim milk. Instead of that, after the oil is refined in every right way, something altogether extra is put in Germ Processed oil. This is a great discovery, because then a genuine plating of oil is able to form in your engine.

If you would imagine a slippery skin of oil really grown to every working surface—and not just floating around—that's a picture of Oil-Plating. A plating can't flow down while your car is parked, so you won't punish your Oil-Plated engine doing all the stopping and starting you please. Or if you're hitting a pace all day—maybe even pulling a trailer up the mountains—it does not make Oil-Plating rub away. That's letting you out of all the worst wear, at the same time that your Conoco Germ Processed oil is saving you quart after quart.

New Administration-Library Building—University of Texas

With only a few minor details yet to be attended to, the new unit of the Administration-Library Building of The University of Texas, located in the center of the main campus at Austin, is ready for occupancy. The cost of the two units comprising the imposing structure, including fixtures and furniture, totaled approximately three million dollars. Not a penny of this sum came from the taxpayers.

From an architectural standpoint, the tower, 308 feet high, with its 28 book-stack stories, is its outstanding feature. Its higher elevation causes it to rise several feet above the Capitol dome. In addition to book stacks, its space will be devoted to offices for a number of members of the faculty.

The new unit of the building contains the offices of the president, registrar, auditor, comptroller, librarian, and dean of the College of Arts and Sciences. Among the many attractive features are two rooms, exposed on three sides, and entirely glass-enclosed, for pleasure reading.

Students who attend the 1937 summer session will be the first to have opportunity to use the building in its completed form.

One of the pretty sights in the line of orchards is that of the Luttrell orchards on Bell creek along Highway 5 east of Lelia Lake. Mr. Luttrell is expecting a half crop of peaches and apricots, but a full crop of many other varieties. His berries are showing up a fair crop and the grapes are full. This is said to be the leading orchard farm of the county.

Mr. and Mrs. Conda Jones are out at Hot Springs, New Mexico for a spell. Mr. Jones is said to be improving and both are enjoying the rest, the hot baths and the beautiful scenery of volcanic mountains. Mr. and Mrs. Jones are mighty fine folks, and their large circle of friends here wish them every moment a happier one, good health and a safe return to their old home near Martin when they get tired of other places.

Among the happiest folks over the rain of more than three inches over this section are Frank, John and Bill Hermesmeyer. These men stocked up with cattle some time ago, and also have a wheat crop that needed every drop that fell. They have a stock farm east of Jericho where they have lived for perhaps thirty years. John is a member of the county board of commissioners, and doing a real job of it on his second term.

Speaking of county commissioners, Donley county is proud of the men serving in that capacity, all dirt farmers. John Hermesmeyer near Jericho, Will Chamberlain over across the river on Spade Flat, Garland G. Reeves out at Chamberlain and Claude Nash, newest man on the Board, and who

Top O' Texas Fiesta At Pampa June 3-4 Is Spectacular Show

The Top O' Texas Fiesta to be staged in Pampa at the top of Texas on June 3-4 is one of the greatest shows to ever be staged in the Panhandle.

A mammoth roдео, a large number of interesting concessions, two score bands, parades, dances and other features will furnish entertainment throughout the two days for young and old.

On the morning of June 3 a mammoth parade will be staged featuring old-timers who settled this country when the Panhandle was sparsely settled. Cowboys, Indians, the Pioneer, the Farmer, the Oil man, all will be graphically featured and this parade alone will be well worth traveling miles to witness.

The entire Panhandle is cordially invited to be guests of Pampa on the first week-end during June and it is assured that those who participate in this gala occasion will be amply repaid in full for time and expense incurred.

regulation, sales of hard liquor by the drink, ratification of the child labor amendment, abolition of the poll tax, reduction of the automobile license fee, universal hunting and fishing licensing, old age pension liberalization; abolition of the liquor board, the Department of Agriculture and several other boards; strengthening the anti-pollution laws; submitting amendments for a unicameral Legislature, reducing length of general legislative sessions, extending terms of county, district and precinct officials to four years, classifying property for taxation and advertising Texas.

Governor Alford used his veto powers freely, rejecting, in addition to the pardon board bill, measures remitting taxes to Harris County for flood control purposes, exempting merchant-owned trucks from contract-carrier regulations, authorizing purchase of part of Padre Island for a park, and appropriating \$817,000 for a new hospital for the insane in East Texas.

In the contest to bring about action on the race betting repeal bill, the governor also vetoed the joint rules of the Legislature, which he

said enabled a minority in the Senate to thwart the will of the majority.
