GOVERNMENT TO SPEND \$300,000 FOR LAKE-SITE PURCHASES IN THIS AREA

Location Has Been Selected For Donley County's Dam By Commissioners' Court; Committeemen Appointed

AMARILLO, Aug. 26.—In a long distance telephone conversation last night, Carl Hinton, P. W. C. A. director told the Globe-News the Texas Panhandle would receive approximately \$4,750,000 of WPA money for soil problems and that the amount would be spent largely in the construction of ponds and lakes.

He declared a decision had been reached by the Resettlement Administration to spend \$300,000 for lake site purchases in this area. It was announced that work on the land purchase would begin about September 1st.

John McCarty, President of the Panhandle Water Conservation said last night a meeting would be called in Amarillo September 8 to congratulate Hinton and Senators and Congressmen in their lead toward a dust bowl program.

The Donley County Commissioners court recently recommended a lake site for this county on the J. R. Porter farm and appointed C. T. McMurry, J. H. McMurry, John Blocker, Shorty Spalding and John Howard committeemen.

President Vetoes Fund For \$500,000 Rogers Memorial

President vetoed Saturday a bill passed by Congress appropriating \$500,000 for a federal cooperative memorial building to Will Rogers, to be erected at Claremore, Okla., Rogers' old home town.

The President pointed out that the bill did not specify for what the money was to be spent in not specifically designating the use of the building. The bill did not specify the type of the building.

"Will Rogers was a beloved figure in our national life," the President said, "and I shared in full measure the admiration and affection which his fellow-countrymen everywhere accorded him."

It is said that the building, half of which is being paid by contributions from Texas and Oklahoma, will be used for a crippled children's hospital just as the donors believe Will Rogers would have liked. Donley county was generous in contributions, and these liberal friends of the lamented humorist will be glad to know that the money is to be well spent in a hospital building at his old home town.

Lelia Schools To Open September 6

Manual Training And Home Economics to be Taught This Term

The Lelia Lake Schools will open for the new term on Monday, September 6. An enrollment of 200 is expected. This will be an increase of more than 10% over last year's figure. The increase is due to a greater number of transfers from adjoining districts when high school work is not offered.

The work in vocational subjects which was begun last term will be continued, and one additional unit added. The addition is a second year course in show work. This is for the benefit of those pupils who completed the first year course last year, and who want to continue in this field. Present plans call for a first class manual training department for boys with home economics for girls. One unit of each was accredited last year and another will be asked for this year. This is in agreement with a state-wide trend toward a more practical curriculum.

One change in the Lelia Lake bus route should be noted. On the return run from the Fairview school the route is as follows: 1 mile north, 2 miles west; south to the north line of the Lelia district and then following old route to school building.

Due to resignations during the past week, the faculty has not been completed.

Raymond Wilson is superintendent, and Buren Carr is principal this term. Both are recognized educators of excellent training and experience.

SWAP FEED FOR MILKERS.

At this time there is every indication that Donley county will have a bumper feed crop. Other sections will produce in like manner bringing the price down. Donley county needs a lot more good Jersey milk cows. Is it not possible to swap a lot of this good feed, headed stuff, for cows? South Texas cannot grow feed like we have here. They do have the cows. Is there not some way by which an exchange may be made through the facilities of the office of our county agent? You feed growers talk this matter up and realize a fair price for

your feed by joining the cream can brigade. Donley county never had a better payroll than the cream can because it is something coming in all through the seasons.

"The Child in the Corner ... NEEDS GOOD LIGHT, TOO!"

Home lighting problems have been solved by the student lamp. Installed today, the I. E. S. student lamp is a guarantee of ample light conducive to sight conservation when your boy or girl begins the forthcoming school term.

IT IS unfortunate that so many West Texas school rooms were built without consideration for "the child in the corner". Too often he or she is surrounded by blackboards that give off no light. Crowded conditions make it impossible to seat every child where ample light is obtained from outside.

It is safe to predict that school rooms of the future will be constructed so as to assure students the maximum light provided by nature. But, meanwhile, it is impractical to re-build the present facilities. Hence, it is highly important that artificial light be used to give EVERY child an opportunity to develop under normal circumstances.

Nor can the most scientifically constructed school room, depending upon nature alone, provide sufficient light on gloomy days during the winter school months. Children are required to read on cloudy days when light is reduced to less than 10 foot-candles.

This company has developed a school lighting system that is economical. It is designed primarily for "the child in the corner". At the same time, it throws no major burden on school trustees—responsible for school finances. Inquire at our local office for free estimate.

The main industries of Europe is in getting ready for war. Just read of a bozo in England who owns the finest floating palace in existence in the form of a private pleasure steamer. It is many times larger and more expensive than any yacht of any American. It cost more than three million, and the article said this Englishman made his dough from selling air-

planes during the world war. He had a factory, like several others, but never got anywhere near the front line trenches. Now he is sailing the seas in luxury while millions sleep beneath the sod in making him a market.

Carefully reading up on these new-fangled foreign ideas being injected into us by fairly slow degrees, I have arrived at a definition for each. Taking as a basis, suppose you owned six cows:

Communists would take them all.
 Socialists would take three.
 Facists would make you keep and feed them but take the milk.

Well I see where Japan continues to acquire Chinese territory and at her own figures.

As long as the yellow races want to work on each other, the white races ought to back out of the way and encourage them to do a good job of killing the white man's enemies.

Despite all you heard about it at the time, the return of alcoholic drinks has failed to drown any of the new taxes.

Hastoon Yazzie was out looking for a constable of the Hashknife community Saturday night after his neighbor outlawed. The only thing he charged against his neighbor was that he made his boy of five years drunk on wild-cat likker, whipped his wife, threw the cookstove into the yard and poured sand in the lard bucket. This is the leading social event of the week.

With a 15 million bale cotton crop predicted by the federal government, we hear a lot more about acreage and market control. Nothing is being said about underconsumption. So long as millions in America need cotton cloth, the growers are not to blame. They are simply doing their duty. It would seem that the better method would be to devise a plan whereby the consumer could honestly earn the means to do a lot of necessary buying.

A college professor touring the southwest this summer is jubilant over the prospect of having discovered a "podless pea" which he believes will save women endless hours of labor. He found the seed on a New Mexico sheep ranch. There was plenty of seed with not a pod in sight.

Why is it that fish appear to get away on a vacation about the same time that you do?

More junk has been shipped from crossings to Japan than from any other section of the streets or highways.

And wasn't that rain a huxy? A lot of our folks are sowing turnips. Not only turnips but radishes, mustard, chard, rutabagers, and rape. The last named will remain green all winter and makes an excellent "greens salad."

If you happen to have a short wave on your radio, tune in on the Tokio, Japan station about 7:45 a. m. and hear the Jap speak English telling you all about the wonderful Jap victories in China. The number on your dial should be about 12. The Jap is a great deal like the old Indian fighters. No white man ever admitted that his squad had ever been whipped by Indians.

Their hands were typical of those who had earned more than they got, the skin being wrinkled from sun, cold and toil. Their faces were traced with furrows of care in a criss-cross of wrinkles, but in their eyes burned hope and anxiety. Their clothing told an eloquent story of their being victims of underconsumption rather than overproduction. Both sought the "old-age" pension as a final means of overcoming a handicap not of their own choosing for they had both labored long and hard. Did they get a pension? No! They were too proud to be classed as paupers. They honestly admitted ownership of a humble home in the suburbs of a jobless village, a cow

and 15 chickens anchored to a lot 50x140 feet. Their delusion shattered by being informed that no "old-age" pension could be theirs, they looked down at the sidewalk. With a sigh, that old lady said: And they told us it was a pension for old folks over 65. We'd planned on that to carry us through the winter since we are both too old to work." Thousands of old folks have been politically misled. The crudest form of deception is to hold out false hopes. A child will soon forget, but not these needy old folks.

"SLIM" WITH PAT O'BRIEN COMING TO PASTIME THEATRE

"Slim," a Warner Bros. melodrama dealing with a class of young men whom the movies have overlooked up to now—the lads who string high-tension power lines across the country—will open as the feature attraction at the Pastime Theatre at the Saturday night Prevue.

Co-stars in the picture, and pals in the story, are Pat O'Brien and Henry Fonda, the latter carrying the title role and the former acting the part of "Red," who teaches "Slim" the business.

The girl whom they both love is the attractive and capable Margaret Lindsay, who plays a hospital nurse, as she did in the recent "Green Light" and in many another picture.

Nine-tenths of the action of "Slim" is outdoors, and there are said to be many amazing scenes depicting the perils and thrills of the wire-stringers, who erect 100-foot-towers, clamber up and down them, and put into position the strands that carry energy, sometimes braving blizzards to do so.

J. Farrell MacDonald is the boss of the crew to which O'Brien and Fonda are attached. One of the pals of the boys is Stuart Erwin. Other players in the noteworthy cast include Joseph Sawyer, John Littel, Craig Reynolds, Dick Purcell and Jane Wyman.

"Slim" was made from the best-selling novel of that name by William Wister Haines. It was directed by Ray Enright.

Disappointed In Big City Shows Down State

"Arriving in Dallas Friday, we naturally made our plans to see the Exposition that evening," a member of the Leader force stated upon his return Sunday.

The party of three found most all the feature exhibits closed or moved out entirely. In fact the Casino was the only show in operation. It is said to have been A-plus from every standpoint.

Over at Ft. Worth Saturday night, the show was closed on account of rain. The alleged strip-tease show and street carnival could not operate due to the heavy rain.

In the party was Mr. and Mrs. Alfred Estlack and Dick Cooke, all of whom report few people interested in either of the shows.

Mr. and Mrs. Chas. Blackman of Bellevue, Texas visited her aunt, Mrs. J. C. Estlack, Tuesday on their way to Colorado on a vacation trip.

Mrs. Mary Gray and daughter, Jaunita, of Hutchinson county is visiting her mother, Mrs. W. B. Halle and other relatives here this week.

Broncho Gridmen Will Start Heavy Drills Next Week

After two-weeks of moderate drills, Coach Harold (Chesty) Walker said yesterday Clarendon high school Bronchos would settle down to hard work next Monday.

Only two lettermen, Jelly McGowen and Billie Cooke, have reported to date but the third and final, Jimmie Watters is expected by school opening.

The rumor that a valuable prospect, Boyd Allison, had moved from town, was squashed when he reported for training.

Walker indicated yesterday his charges may win some games. "They're still pretty green", he asserted "but a few weeks of hard

training will help a lot. There's no hope we will set anything afire this year, but the nice set up is they're most all freshmen, sophomores and juniors and we should have a good club in following seasons."

Lyle Holmes Beats Dad To Win Dalhart Golf

Lyle Holmes Monday won the Dalhart Invitation Golf tournament by defeating his father, B. F. Holmes, both of Shamrock, 1-up on ten holes in an agreed nine hole match.

In the Dalhart semi-finals, B. F. Holmes avenged the 7 to 6 drubbing here at the hands of Johnnie Austin by ousting the Pampa hot shot 6 and 4.

Lyle advanced to the finals by downing Harry Meade, John Reynolds and Joe Langhorn. Besides Austin, B. F. beat Blake Bolton, and Joe Story.

WHEELER GRIDSTERS HOME

WHEELER, Aug. 25.—The second week of football training will close here this week-end. The team returned from a camp at Nacona last week and have been working out on the Britt ranch. Home practice will begin with the opening of school.

Syphilis Is New Public Enemy No. 1

NEW YORK, Aug. 24.—United States public opinion is ready for a Nation-wide crusade against syphilis, and the next few years will probably see this once-secret scourge combatted everywhere in the open.

As far as United States health authorities are concerned, syphilis has succeeded tuberculosis as public enemy No. 1 along the disease front.

Dr. Thomas Parran, gray, mustached Surgeon General of the United States, calls it "the most urgent public health problem in the country today."

It is primarily a disease contracted by young people. Dr. Parran finds that there are now over 500,000 new cases in the United States every year and the number has been rising sharply.

Scandinavia Is Model Dr. Parran believes that if public opinion is sufficiently aroused the United States can duplicate the tremendous strides made in Sweden, Norway and Denmark in the prevention and treatment of syphilis. By education and diligent public health work, along with provision of free treatment, these countries have cut their syphilis rate down to about seven new cases in 100,000 population per year.

In the United States the rate stands at almost 800 new cases per 100,000 of population. A basic program for eradicating syphilis in the United States has a very simple principle, Dr. Parran writes in his recent book, "Shadow on the Land: Syphilis." It is: "Find and treat."

In practice, Dr. Parran, would like to have:

- 1. Wide use of routine blood tests in hospitals, by industries, insurance companies, etc.
2. Compulsory blood tests for engaged persons, similar to State laws which now exist in Connecticut and Illinois.
3. Free or low-priced public clinics for treatment.
4. Federal appropriations to the States and localities to aid in setting up programs.
5. Widespread public education by placards, articles and books.

How Public Votes. In recent months the Institute of Public Opinion has conducted several Nation-wide polls on phases of the syphilis crusade and the accumulated results show overwhelming rank and file support for each of these measures.

Jean Harlow's "Double" Used in Few Uncompleted Sequences of "Saratoga"

Behind the release of the new Metro-Goldwyn-Mayer picture, "Saratoga," which opens TODAY at the Pastime Theatre with Clark Gable and Jean Harlow in the starring roles, lies one of the most unusual technical tasks ever attempted in a Hollywood studio.

When the flood of letters began pouring into the M-G-M studio demanding the release of this picture, Director Jack Conway was faced with the problem of devising a means of finishing the few uncompleted scenes without the feminine star.

The solution lay in rewriting these sequences to eliminate as far as possible the character she played; reediting scenes already filmed, to conform with the new treatment; and the use of several technical devices.

Fortunately, the ending of the picture with Miss Harlow and Clark Gable had already been filmed. Miss Harlow was in all the scenes up to the next to last reel of the production. A double was used in the few rewritten scenes, but her appearances were minimized. In these instances, only "long shots" were made, the double appearing with her back to the camera. In no place is her face seen. Other details, such as entering doors or running across a lawn to "tie in" with scenes already made by Miss Harlow, were used.

"Saratoga," a racetrack story from the pen of Anita Loos and Robert Hopkins, deals with the romance between the daughter of a wealthy horse owner and a bookmaker. Much of the action is laid at the Saratoga racetrack. The final two reels dealing with intrigue over a horse race and a bet were rewritten so that most of the action was in the exterior reproduction of the racetrack where "long shots" with the double could be most easily made.

Decision to release the picture was made following floods of preview cards urging this release and polls conducted by eastern newspapers showing a practically unanimous desire on the part of Miss Harlow's fans for the picture.

DONLEY INCLUDED IN PANHANDLE YOUTH PROJECTS

Improvements of Permanent Nature Is Planned Under County Agent Direction

Approval of eleven National Youth Administration projects which will employ 370 youths between 18 and 25 years of age has been made by J. C. Kellam, State NYA Director, according to Phil B. Wilson, Panhandle NYA Representative.

"The work program is set up to take care of all of the available certified youths in each of the 26 counties of the Panhandle district," explained Mr. Wilson. "With our districtwide projects sponsored by the A&M Extension Service under the County Agents and the County Home Demonstration Agents, the Texas Relief Commission, and with our own NYA Sewing Room project, we can find a job for almost all of the youths who are eligible and want to work. Special projects which are sponsored by the Texas Highway Department in Hall, Childress, and Briscoe counties, by the County Judge in Childress county, and by the City of Amarillo, will take care of all additional youths and should leave improvements to the various communities which will be of a permanent nature."

The districtwide County Agents project which is in operation at the present time under the direction of District Agent Parker D. Hanna in Randall, Deaf Smith, Donley, Wheeler, Gray, Oldham, Hartley, Dallam, Sherman, Hansford, Ochiltree, Hall, Hemphill, and Roberts counties is set up to take care of all remaining youths in the district whenever youths in the new counties are available for assignment. At the present time 51 boys are working on this project, and are assisting the county agents in the development of agricultural extension and experimental work, vocational agriculture, and other rural community activities.

Mrs. Mary Gibbons of Ft. Worth visited Mrs. John Clark, Tuesday.

Mr. and Mrs. Jiggs Mosley and family spent the week end with relatives at Clarendon and Hedley.

"Well, now, Lucindy, I shore am proud you went right along with Mr. Rainwater on that thar Seeing Texas tower, for if it is as you say that you ketchin' him a bein' shoved around by a young feller in one of them Chinese Rickashays settin' along side of a young gal and them Rickishays I reckon was imported plum from China by thar enterprisin' R. C. Bowen who aint satisfied with runnin' them big fine busses of his'n plum from Corpus Christi to Amarillo as well as all over Texas and him also runnin' several air ships but had to git hold of a passel of them Rickishay carts so's to cart folks all over the Pan American grounds; as I was a sayin' it is a good thing you went with yer old man, for no tellin' whit sich old felleers as him and Ebernezer Tweekins will do if they git off by their selves where the lovin' dotin' wife of their buzoms cant see 'em," declared Mrs. Tweekins.

"Yes, men shoire likes to git out and cavort around by their silves and leave the lovin' wife of their buzom at home; and them was also Jeems Rainwater's figgerations; plum complete by me goin' right with him.

"Well, whilst Bill wuz a-haulin us into Clarendon with our busted flivver hooked onto the back of his wagon and with me a settin' up in the seat with Bill an' my ol' man a settin' in the back end a sed by an' I told Bill I wanted to his head off at everybody who pas-holdin' Tigfe who wuz a barkin' as a present fer Alvir Jones to set in to rock little Jimmie Allred be pinted out to some good places to sleep in. Bein's she is about to buy a good stout rockin' chare wean him," sez Bill."

"Well, I reckon I better haul ye right straight to whar Mr. Louie Thompson is a-holdin' forth stiddy goin' a sellin' furniter at live and let live prices, an' that bein' the favorite furniter tradin' place of

me an' Mirandy an' the rest of the Possum Holler fellers which don't want to be held up on no furniter prices," he sez.

"Bein's I got to go thar today to git a cradle fer our little baby, Walter Woodul, who Mirandy's a-goin' to set in to wean right away, an' she's a goin' to make the little pest sleep by hisself, by golly, an' wean him whether he wants to be weaned or not so she told me to be shore to rickollect the cradle."

"An' she told me to be shore to look at some of them fine settin' room sets advertised in the Donley County Leader an' bein's Sulferino and Pasadino is now at the sparkin' age she figgers if she can fix 'em up a nice settin' room from the Thompson Furniture store they kind of their sparkin' at home instid of in them derved automobiles which has dern nigh ruind the gals an' boys by gittin' 'em weaned away from home she can yet keep her gals at home longer."

"Now Mirandy's exackly right an' if more folks would be fursighted enough to fix up nice settin' rooms an' sparkin' parlors fer gals thar mought be more sparkin' done at home an' less on them country roads in them automobiles," commented Mrs. Tweekins.

"An' I reckon Tobe Spikins told ye about me a-ketchin' my ol' man a dickerin' with Mr. Louie Thompson at the Furniture Co., fer a pair of them twin beds, an' I heard him a-tellin' Mr. Thompson that from now on out henceforth and forever he wuz goin' to sleep alone by hisself in both of them twin beds by golly with one foot pintin' north and the other one pintin' southwest, a snorin' as loud as he durned pleased."

"Shet your mouth! Wouldn't that beat a goose a cacklin' fer Jeems Rainwater to be sleepin' in two twin beds atonst?" exclaimed Miss Safronia.

"Yes an' him all arrayed out in them big flowered sleepin' britches

I ketchin' him a gittin' fer hisself at a dry goods store."

"Now I do wish you would shet yer mouth; shorely the men folks ain't took to sleepin in big flowered britches have they?" inquired Safronia in great amazement.

"But did ye say ye ketchin' Mr. Rainwater that very same day when you and Bill driv up to the Furniture Co. to git the stout cradle fer Mirandy to put her little Walter Woodul in so's she can make him sleep by hisself a buyin them 2 twin beds?"

"Shore I did and as soon as I seed what he wuz a buyin I then and thar hauled off and bought a full and complete settin' room set from Louie Thompson as well as fine dinnin' room table and chares and one of them buffays and several fine rockin' chares and I also bought one of them kitchen cabinets for Alvir Jones which Mr. Thompson sed wuz the most leg savinest proposition he knowed of and every farmers wife in Donley county which has to walk several miles a day over one up them big farm kitchens ort to make her ole man git one and fer me to rib up all the farmers wives beknowed by me when I got moved onto my new farm—to come right straight to The Thompson Hardware Co. and (nowhars else) them a bein the headquarters fer fine furniter in Donley county and git themselves one of them fine kitchen cabinets sich as he sold me and also some fine settin' room sets and bed room sets sich as he sold me."

"Shorenough?" and don't ye know after I bought all them fine articles from Louie Thompson he jist hauled off and sent Alvir's little Jimmie Allred a present of one of them fine baby auto seats which Alvir kin put little Jimmie in and hook him on to the automobile and haul him right along with 'em every whar they go same as Mirandy Smith does her little Johnnie Garner."

"No I wish I had one for my little Tom Love," sighed Mrs. Tweekins.

"Yes and I told Mr. Thompson as soon as we got moved for him and Mrs. Thompson to come right out to see us and I'd cook him sich a dinner as he aint never et on my new gas stoye or on my new Range me a figgerin on gittin of 'em both so's to have 'em handy in case one or the other busted up on me."

"Well he said him and Mrs. Thompson shore would pay us a visit to our new home which he said wuz the sensibilst thing a body ever done which is to git a home and put some good furniter in it, then we needn't keer a durn whether school keeps or not and sez he, now Mrs. Rainwater dont you and Mr. Rainwater do like some other git rich filks does, git a automobile before ye git a home and fine furniter fust then if ye want to, git a flock of automobiles and a steam yatch or two fer ridin around in the Gulf of Mexico when we git our new port down yander at Point Isabel, thats alright but dont let no slick tonged automobile feller nor steam yatch salesman inveegle ye into gittin ary automobile or yatch until ye first git a fine home, sez he and I told him I wouldn't."

"Yes Jeremier Plunket he sez many young jelly beans is a ridin around in flivvers which aint never paid him fer thare furniter he sot up in thare houses when they got married and he sez thare ort to be a law agin young fools gittin automobiles to joy ride around in 'em when they aint yet paid for thare furniter," said Safronia Higgins.

"Yes and I told Mr. Kerbow whilst I wuz a gittin furniter I reckon I ort to git one of them fine gas heaters to set up in our livin room beins my ole man wuz so lazy I couldn't skeerely git him to cut or tote in enough wood to keep us warm or fer me to cook a meals vittles and that we wuz a figgerin on gittin het up by the Lone Star Gas Co. with Star Gas and also set up one of them gas heaters in our settin room and one of them water

heaters in our bathroom of the new house which the Lumber Co. is goin to build fer us as well as set up one of them Kelvinator Gas Ranges in our kitchen."

"Well Kerbow he replied back and lowd mast all men folks wuz plum lazy and triflin and he reckined if hit warn't fer the wimmin folks a gittin right in behind 'em on most of 'em would drap dead in thare tracks with cussed laziness; but he said hit was a awful fine idear fer me to git them heaters and also a gas range sot up in our house and that he would also send out with them articles some of that fine new purty flowered linoleum—which he had jist got in so's to kiver up the kitchen floor to save frum scourin so much when my ole man tracks mud in (him never stoppin to clean his feet).

"Now you shore wuz lucky to fall in with ol' lazy Bill Smith, for I reckon he knowed which store to pint you to do yer tradin which you say you done thar in Clarendon after you seed it wuz sich a sizeable town and Bill a-guarantein you ye wouldn't git skunt out of none of yer lie money if you follered after his pintin'," said Mrs. Tweekins, as the three ladies resumed their conversation after par taking of another friendly dip of snuff.

"Bill sez 'Now ye're right, I know where square dealin' store-keepers hold forth and whilst I been dealin with them fellers for nigh on to 15 years an' hain't never been skunt nary nickel an' I believe all them is honest and square dealin' still to be dead shore of ye gittin a plum square deal, I'll jist haul ye ground to the places whar Mirandy told me to goto day, an' I go to trade at her favorite places or go to bed without my supper, which she's dead sure to make me do if I fergit ary single errand she sent me out to do today, fer believe me, I shore do know Mirandy Smith."

"Well, twon't sprize me nary bit, fer Bill is of a awful fergitful nater an' if hit warn't fer Mirandy a-tyin' them strings around his finger he mought fergit to fetch hisself back," remarked Safronia.

"Well, Bill lowed he wouldn't fergit none of them errands she sent him on fer nothin' fer he wouldn't git nary bite of supper sot out if he did."

"Jist as he got plum down to the gate she hollers at him agin' an' sez she:

"Don't ye fergit to go to Clarendon Hardware Co. and git that Kelvinator Refrigerator which all the Possum Holler wimmin is bragging so much about and also tak a look at one of the Kelvinator Gas Range to be hooked up to Star Gas and whatever you do dont forgit to fetch out several cases of Co Co Cola for them Clarendon jelly beans which is a coming out a sparkin'."

"Well durn the luck why cant them Clarendon jelly beans drink butter milk when they come to our house instid of me having to haul out several cases of Co Co Cola every trip which you know dont last till it is skeerely all gone when them Clarendon jelly beans gits to our house on their sparkin' trips', I sez plum peevd up but she throwed the dish rag at me an sez she "Git out o here and foller my orders before you git a whole pan full of dishwasher throwed on ye."

Buttermilk nothing, You know them Clarendon boys is plum eddicated to drinking Co Co Cola and nothing else fills the bill with 'em. They know Co Co Cola aint a goin to swell 'em up in their stummicks like butter milk does but is plum soothing and camifying to their

nerves and make's 'em feel more like love making than butter milk does, so you march yer self right straight to the Co Co Cola Bottling Works where they make and bottle up that healthful drink is sich big quantities in their sanctaceous bottling works in order to supply the big demand all over West Texas for sich a drink they have almost run them other cold drink fellers plum out of business; and you fetch out them cases of Co Co Cola and quit yer grouchin you lazy forgetful lummock" she hollers at him as he drive out.

"Well Lucindy did ye ever git Rainwater Jones sot up in that filling station a sellin that Co Co Cola?" asked Mrs. Tweekins.

"To be shore he did."

"Well sez Bill as he driv along, "what special articles would you like to git in the way of presents fer them Jones youngsters, sez he. Well, sez I, I wuz a figgerin' sorter on gittin a pianny and also a victroler fer them twin gals, Margie Neal and Katie Daffan, beins they are jist at the sparkin' age, I lowd sich articles as them would help to keep 'em at home instid of gallivantin around them prairies a joy rididin on them huggin' and pettin'."

"Well sez he reckon you couldn't do better than to git one of them Radios from Thompson Hardware Co. which article my own gals is aasterin me to death to git 'em for a christmas present and Mirandy sez we ort to git one so's to keep 'em home evenins instid of wantin to gad around on joy ridin petten parties" and jist about that time my ole man he speaks up agin and sez "Gol durn it Bill cut out so much gab and git a move on them durn mules and git me as quick as you can to some place to git a good drink of that thar Co Co Cola under my own belt before my slats falls in and I'll feel a whole heap better my self and I dont blame them Clarendon jelly beans for wanting their favrite drink of Co Co Cola instid of butter milk. Well Bill he jist up and lowed he want goin to drive them mules nary bit faster and git them eggs all shook up till they wouldn't be fitten for nothin but scrambling which he wuz haulin to the Hotel and git Mirandy all riled up at him for doin such a caper when she cautioned him to drive slow and not bust the eggs because them Lims wouldn't eat busted eggs.

Well I jist nudged Bill in the side with my elbow and sez to pay him no mind for he is all peevd up because he busted that belt buckle off and as soon as he can git a good feed in his stummick and some new galluses so he can begin to cavort around gittin acquainted with them big business fellers he'll soon be alright.

So Bill he replied back that he

did all his cold drinkin in Clarendon and he would haul us to the Co Co Cola Bottling works where he could also tank up on Co Co Cola and maybe he'd git over his peevement and notgit to hankerin after no licker which he couldn't git in Clarendon no how". Then sez he after deliverin Mirandy's orders to F. E. Thomas Feed Mill for that wagon load of Thomas Home Products Poultry Feed so's she can set into feeding 'em plum heavy on that thar fine aetickles before them hens begins to moult on her and stop layin eggs right here in the middle of the summer, I'll haul you right over to Thompson Bros. and let you begin dickerin with Louie Thompson about yer Farm Tractor where a score of people are buyin 'them newfangled farmin implements sich as a Farm-mall which all the Possum Holler fellers is a gittin at Thompsons and also one of them stalk cutters and several sulky plows which you will be shore to do as soon as you land yer self in Clarendon. Thompson told me tother day that most of the Donley County farmers has now paid their debts and is gittin new empelments and they're enjoyin a powerful fine trade this fall so to be shore you'll want to do yer tradin thar with them boys but I reckon before you can git very fur on yer journey today I better haul you at onst to Thompsons the best repair shop in Clarendon where me and Mirandy gits all our repair work done and let 'em see if yer ole liz can be made to git as fur as Possum Holler and if it cant I'd advise ye to sorter horn swoggele her off on some of these here automobile fellers or else wait til ye git to Dallas to the Pan American Exposition which

you can ride right squar smack dab into one of them Bowen Motor Coaches and then git out an ride in one of them Bowen Rickishay carts all over the Pan American Exposition grounds and you wont need new automobile whatever" sez he.

"But don't be goin' yet, Sister Tweekins, fer I ain't nigh done tellin ye what all I seed and done while I wuz a sojournin in Clarendon," said Mrs. Rainwater as her visitors arose and began tying up their bonnets, preparatory to taking their departure.

"Oh, we'll come back agin, Lucindy, jist as soon as we git the dinner dishes washed and I'll fetch along my little Jimmie Allred, and let ye look him over to see what's aillin' him, fer I'm powerful afeart he's gittin' the seven year itch, he's that peevish," replied Mrs. Tweekins, as she and Safronia departed after many good-byes and promises to come again.

THE REST OF THE RECORD

BY JAMES V. ALLRED Governor of Texas

ful appeals of wives, mothers, relatives and friends. Although he might have a Legislature on his hands, although he might have sickness in his home or several other trying ordeals, he was placed in the position of weighing the life of a man and almost standing outside the death chamber watching the condemned man pace back and forth waiting for the deadly hour of twelve o'clock and the last walk to the little green chamber. I don't think I ever slept a wink on the night any man was compelled to pay the penalty.

Now it's different. Before the Governor can commute a death penalty, or grant any other kind of clemency, it has to be recommended by the Board of Pardons. The Governor can refuse to follow the Board if it recommends clemency, but cannot grant any what-

ever unless the Board recommends it.

There are three members of the Board. One only is appointed by the Governor, and the others by the Supreme Court and Court of Criminal Appeals. The members of the Board have several investigators and, of course, no other responsibilities than looking into clemency cases. In this manner both the convict and the public get a better deal than under the old system where the Governor was charged with all the responsibility in addition to his other duties.

I am proud of this great reform. We are not having any complaints about wholesale abuses of the pardon power. It is all based now on merit, and unquestionably everyone is much better satisfied.

Naturally I have been quite busy catching up with my correspondence after a two weeks vacation. However, on Friday of last week I flew down to Palacios on the Gulf Coast to review the 36th Division of the Texas National Guard in camp there. Texans generally probably do not realize what a wonderful organization of the young men this is. Unquestionably we have one of the best National Guard units in the nation. Nearly 8,000 men train intensively at Palacios each summer for two weeks. This is in addition to their regular drills and parades back home. They are well equipped, well officered, and as fine soldiers as any I saw during the World War.

The total cost for military defense in Texas which is borne by the Federal government approximates more than a million dollars annually. The National Guard has in its possession more than four and a half million dollars of Federal property, guns, uniforms and equipment. Its payroll, including both men and officers from the highest to the lowest military grade while large in the aggregate, averages only \$83.50 per capita per year. Their time is given free as a patriotic duty.

In addition to the 36th Division, we have what is known as the 56th Cavalry Brigade, about 1100 in number who train for two weeks each year at Mineral Wells. As Commander-in-Chief of the Texas militia I always visit these two camps. It was a great joy to me upon my recent visit to Mineral Wells to hear one of the Federal army officers praise the cavalry brigade. He said that we had as good, if not the best, in the nation.

Of course, we don't want war, and I pray God we may always be spared what is going on in Europe. It has been the policy of the State, however, to maintain a regular militia from the beginning. The wisdom of this was demonstrated in the World War when our National Guard was the first nucleus around which our defense was built.

It is heartening to know that if a war emergency should arise, our guard is manned, officered, equipped, trained and ready for immediate service.

Of course, as most everyone knows, soldiers don't have much

use for a sailor. I was in the Navy during the World War and I had quite a bit of fun out of some of the National Guard officers by reminding them that their Commander-in-Chief was once a sailor!

I wasn't greatly surprised to find upon my return from Mexico that the politicians have been "buzzing" quite a bit. It is my understanding that State Superintendent of Education L. A. Woods has been running around over the State making speeches condemning me for cutting the ad valorem property tax rate to the lowest it has been in some twenty years. I think this gentleman will find out next summer that the public won't approve of his making political speeches on State traveling expense.

ALLRED'S CRIME REHABILITATION PLAN IS PROVING VERY SUCCESSFUL

AUSTIN, August 24.—Governor James V. Allred put his arm upon the shoulders of a convict several years ago and thereby began a criminal rehabilitation system that has been 94 per cent successful.

Today more than 2,000 men and women are carving a new role in community life through the aid of voluntary parole boards set up in 212 counties, a result of the convict's visit to the chief executive's office.

Beginning his first term in 1935, Allred found on his desk a recommendation for clemency for the prisoner which had been unnoticed for months. He sent for the man, had a heart-to-heart talk with him and granted him a pardon.

"He put his arm around me," the prisoner later told someone. "It was almost worth going to the penitentiary for."

His words reached the governor who decided that other prisoners, serving first terms and unhardened to crime, should be given an equal opportunity to regain a place in society.

Finding that Texas law made no provision for parole supervisors, he called upon civic groups in each county to nominate members for voluntary parole boards. The re-

sponse was immediate and in 1935 and 1936 more than 2,000 persons, recipients of clemency, were ordered to report to the boards which helped them find jobs and otherwise guided their restoration to normalcy.

Preaching service, 10:45 to 11:45

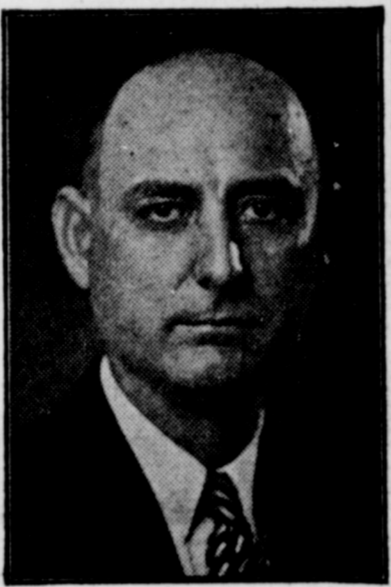

You will always find a hearty welcome and a helpful service at the First Methodist Church.

Judge A. J. Folley Is Visitor in City

"Like the job better than any I have ever had," he replied when asked how he liked the work. "It is different, far different from the district court. It is more confining, we do not get out as much as other judges do."

Likes New Work "The court work is one that I have always wanted to do. I like it, although there is a lot of hard work."

The Amarillo court docket is "nearly worked up to date," he added. The district has 46 counties in it and from year to year an in-

TO A WELL-LOVED POET

Although you write no sonnets Your emotion Of wagging tail is lyric With devotion.

Your bark lolls like a ballad And your eyes Hold triplets of rapture And surprise.

And when you beg a favor Or a bone, You are alive with rhythm All your own.

Your smallest growl's a couplet, Pointed, terse; While every hair is vibrant With blank verse.

Deep in your heart is beauty And strange lore— In fact, you are a poet I adore.

—Edith Lombard Squires in Our Dumb Animals.

Mr. Melton Cannon and daughter Nada Sue of Rolls, Texas spent the week end with Mrs. Richard Cannon and other relatives. Nada Sue stayed to visit longer. Mr. Cannon returned home Monday.

SURPRISE! GABLE SINGS and DANCES IN "SARATOGA"

Clark Gable has blossomed out as a song and dance man in "Saratoga."

Anita Loos and Robert Hopkins wrote a comedy musical number into the script of the new Metro-Goldwyn-Mayer story of the American turf which stars Gable and Jean Harlow, and which comes Thursday and Friday to the Pastime Theatre.

Clark wears a jockey outfit in the number which is one of the highlight comedy sequences of the film.

The star made his debut as a singer and dancer in "Love on the Run", but only in a small way. The music for "Saratoga" was especially written for Gable and he joined Dave Gould's dancing classes to learn the steps.

Mr. and Mrs. A. H. Baker visited relatives in Panhandle Sunday.
