LEY INTERESTS.

Twenty-six business men of the City of Hedley met in the organization meeting of a Commercial Club for their city on Tuesday evening of this week. A body was formed to be known as the Hedley Commercial Club, which is to have regular meetings at luncheons, for the purpose of furthering the regular meetings at luncheons, for the purpose of furthering the interests of Hedley. The object of the Club has been given as to pro-mote the civic, commercial, in-

mote the civic, commercial, in-dustrial and general welfare of to full blast. These will start at

"LAWYER, AS PRIEST IN TEMPLE OF JUSTICE, SHOULD BE FIRST TO OBEY LAW "

000

"The lawyer writes the laws—the lawyer construes the laws; the lawyer should be the first to obey the laws," declared Federal District Judge William H. Atwell in addressing a meeting of the Junior Barr Association in Dallas recently.

"The duties of the attorney are not difficult of discovery," declared the Judge. "He must be gentlemanly decent to his client, and with all whom he deals. He must be fair with the court. He may not deal in sharp practices with either the client, the court, or the jury. He may not mistake the law. He may not seek to improperly influence the jury nor color the testimony of the witness. He is compelled to support the Constitution.

"This law which men practice is a jealous mistress. One may not drink deeply of its secrets while philandering at other founts. A smattering of a legal education, the swinging of a lawyer's sign, are too often made the ballast for political fortune or the entree for obtaining money by dishonorable professional tactics.

"Law is a necessary correllary of civilization, and since that is true no priest of its principles should be saint in court and sinner on the street; saint in court and disreputable in private life.

"The lawyer has become a fixture in the temple of justice. Such ministers are not at liberty to perform as they may see fit without any regulations of license. Upon being given the right to appear each obligates himself to demean himself uprightly and to support the Constitution of the United States and of the State."

There is no more serious and solemn place than the courtroom said Judge Atwell in touching on regulations looking toward respect and order that Judges enforce during sessions of court. The Judge owes a duty to the lawyer to see that perfect order prevails so that the lawyer can be heard properly, Judge Atwell pointed out.

The speaker also touched on the practice of some lawyers in criticizing courts when they lose a case. This he attributed to a symptom of "this criticizing era in which we live."

The renow who Doesn't owe a cent in town. The smooth talker with an out of town check. The one who doesn't "suppose you will trust him." The last minute applicant who must have it at once. Take it from us or they will take it from you.— Selected.

Buying Comfort

Although not a commodity, and not rated in dollars and cents—it is possible to a dually purchase "Comfort" by having complete electrical equipment in your home.

What could be more comfortable than conveniently placed lightning fixtures; floor and wall plugs where they're needed; radio; the labor and time-saving Hotpoint Electric Range; the health-assuring Frigidaire; and the indispensable Vacuum Sweeper? Electrical appliances add to your comfort, and the comfort of those about you, a hundredfold.

Let us show you how Electricity—the modern servant—can increase the beauty, comfort and livableness of your home.

Itor its hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle has the house. Just a few drops, and that colie or constipation is relieved; or diarrhes checked. A vegetable pro-duct; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castorial Remember the name, and remember to buy it. It may spare you a sleep ready, always safe to use; in emer-gencies, or for everyday aliments Any hour of the day or night that Baby becomes fretful, or restlean Castoria was never more pepular with mothers than it is today. Every aruggist has it.

The knowing woman no longer submits meekly to regular, systemic suffering. For this kind of pain is

WENTY-SEVEN years ago the Ford Motor Company L was formed to provide reliable, economical transportation for all the people. That original purpose has never changed. The constant effort in every activity is to find ways to give you greater and greater value without extra cost - frequently at lowered cost. This applies to distribution and similar important factors, as well as manufacture.

been fair to both the dealer and the public. Within the past three months, it has been possible to effect still further economies. Today, the discount or commission of the Ford dealer is the lowest of any automobile dealer. The difference, ranging from 25% to nearly 50%, comes right off the price you pay for the car.

- Alla

HOW FORD METHODS CUT COST **OF DISTRIBUTION**

Lower profits in selling save you at least \$50 to \$75 in addition to the many savings in manufacturing

For the Ford Motor Company believes that its full duty is not only to make a good automobile at the lowest possible price, but to see that there is no waste, extravagance, or undue profit in any transaction from the time the car leaves the factory until it is delivered to your home. It is obvious that hard-won savings in production will be of little value if they are sacrificed later through excessive selling costs.

EVERY purchaser of a motor car has the right to know how much of the money he pays is for the car itself and how much is taken up by dealer charges. If these charges are too high, one of two things must happen. Either the price of the car must be raised or the quality lowered. There is no other way. The money must come from somewhere.

In the case of the Ford, the low charges for distribution, selling, financing and accessories mean a direct saving of at least \$50 to \$75 to every purchaser in addition to the still greater savings made possible by economies in manufacturing. Ford charges are not marked up or increased to cover a high trade-in allowance on a used car. Isrd

The profit margin on the Ford car has always

THE business of the Ford dealer is good because he makes a small profit on a large number of sales instead of a large profit on fewer sales. He knows, too, that the extra dollar-for-dollar value of the car makes it easier to sell and more certain to give satisfactory service after purchase.

Consider also that the Ford car is delivered to the purchaser equipped with a Triplex shatter-proof glass windshield, an extra steel-spoke wheel, and bright, enduring Rustless Steel for many exterior metal parts, in addition to four Houdaille double-acting hydraulic shock absorbers and fully enclosed fourwheel brakes.

If for any reason you wish to buy certain small accessories, you will find that these, too, are sold at the usual Ford low prices. Replacement parts are also available at low prices through Ford dealers in every section of the country.

I HESE are important points to remember in considering the purchase of a motor car. They show why it is possible to put so much extra quality into the new

Ford and still maintain the low price. They are also the reasons why more than 35% of all care sold today are Model A Fords.

FORD MOTOR COMPANY

relieved by Bayer Aspirin just as readily as an occasional headache, twinge of neuralgia, or the more intense pain of rheumatism. Try it for the days you dread and share the gratitude of business and professional women for Bayer Aspirin. Doctors declare it safe to use freely. Any drugstore.

A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesis has acidity com-pletaly checked, and the digestive organs all tranquilized. Once you have tried this form of relief you will experience a new freedom in eating. This pleasant proparation is just as good for children, too. Use it when-were coated tongue or fetid breath signals need of a sweetener. Physi-cians will tell you that every spoon-ful of Phillips Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the mame!

Maumesia

AUNT SAMMY TAKES THE AIR

hints to housewives throughout structors or students. the country. Five times a week this lady takes the air and chats

to her housekeeping nieces concerning actual work done by the Bureau of Home Economics at Washington. All things of interest to the homemaker-menus and re-cipes, clothing and child care, bud-gets and household bulletins-are given their appropriate share of attention by this recently acquired better half of the government.

It has been suggested that a transfer of the radio from the living room to a dining alcove near the kitchen might prove pleasant and profitable to the whole family. Music especially arranged for the dinner hours will help digestions, and homemakers will find the kitchen a livelier place during the preparation of meals. They might even have an opportunity to put into immediate practice some of Aunt Sammy's culinary hints as they come through the air. An extra pantry or storeroom could possibly be made over into a dining alcove of this sort, if the home does not already possess one.

POLITICS AND PERSONALI-TIES

The Naval Parley and a seem-ingly never-ending prohibition rumpus have crowded the present business of the Senate, tariff revision, almost out of the newspapers. Now that sugar, cement, boots and shoes, hides and wool have been disposed of for the present, leaving only relatively mild schedules to be cleaned up, a some-what cursory attention is being paid to tariffs. Even the habitual statement-makers are becoming languid on the subject.

Nevertheless, the consumers' fight is not over. Senators who have had their pet schedules mown down under the ruthless majority vote vow bitterly that when individual amendments are offered they will have enough ammunition to stage a second war. Nobody to stage a second war. Nobody has any idea what will happen in conference, but it isn't very likely that any troubled waters will be made calmer. Altogether, the con-sumer can only wait patiently for the time when he may be able to throw his hat in the air and give three loud cheers for his es-cape from Smoot-Hawley. Inc. If and when that time does come, we suggest that he save sufficient breath for three extra hurrah's for the following; Senators Norris Simmons, Borah, LaFollette, Har-Simmons, Borah, LaFollette, Har-rison, Robinson of Arkansas, and Walsh of Montana, who with their loyal co-workers routed the Old Guard from its seemingly impregnable position of dispenser of

zations in America-of South America." The Academy of Inter-While Uncle Sam radios advice and information to his farmers, "Aunt Sammy" broadcasts helpful

HELLO, MOON!

To signal the moon by radio is the ambition of Dr. A. Hoyt Tay-lor, Chief of the Radio Division of the United States Naval Research Laboratories. Dr. Taylor, who is the first person ever to broadcast a speech by a President of the United States, a Cabinet member, or a member of Con-gress, asserts that his idea, al-though it might sound fantastic, is easily within the range of possibility.

To carry a radio signal the 250,000 miles to the moon and return it at its speed of 186,000 miles per second should require wo and eight-tenths seconds. The signal would be very weak, Dr. Taylor says, but it might be detected by receiving instruments with their present high degree of refinement. It is planned to use a high frequency wave which pen-etrates readily the earth's atmos-phere and probably goes far be-yond. Twenty kilowatts of power, the equivalent of about forty flat-irons will be used. This irons, will be used. This experi-ment, the outcome of which may

upset or prove a number of theoies concerning atmospheric and astronomical conditions, has been promised for the near future.

ESSAY AND LESSON TESTS FOR ELEMENTARY SCHOOLS ANNOUNCED.

Washington, D. C., Feb. 10-Stressing the need on the part of school children to set a good example in safety on the nation's highways, Thos. H. MacDonald, chairman of the Highway Education Board, Washington, D. C., and Chief of the United States Bureau of Public Roads, today cn-nounced completion of the plans for the ninth annual street and highway safety campaign for ele-mentary school children and teachers throughout the United States.

This campaign, consisting of two contests, one for children, the other for teachers, is conducted by the Board in co-operation with State, county and municipal educaitonal authorities.

The one contest, open to all elementary school pupils of the fifth, sixth, seventh and eighth grades, 14 years of age and under, is for the best essays on the subject: "What I am Doing to Set a Example in Safety on the High-ways," while the other, open to all elementary school teachers, is for the best lessons on the subject: "Teaching the Essentials of Street and Highway Safety." The two contests are conducted simultaneously in the schools of the country.

Both state and national prizes state or territory, these papers, will be awarded, and one pupil with the best lessons, are for-ane one teacher, first national warded to Washington where winners in their respective contests, will be brought to Washngton as guests of the Highway Education Board for a week. which there is a crisp leaf of let-tuce, cabbage, or, if these are not obtainable, raw vegetables and fruits of whatever kind you can get. Grated raw carrot, chopped celery, green pepper, and thinly sliced Jerusalem artichokes and turnips are some of the foods you can get in winter time to put into salads; also apples, oranges, grapefruit and grapes. Bananas are good in salad, but do not take the place of other fruits, as they contain more starch and sugar. of modern, motor-age, living. In practically every part of the country there are new houses, finished or under construction, which embody all or many of those Some of the dried fruits, particu-

larly prunes and dates, are appe-tizing additions to salads, of mix-ed fresh and canned fruit.

characteristics. In California, for example, the United States Army Air Service is taking the lead in Vegetable and fruit shipments this season exceed last year's by 3,000 cars with 6,624 cars shipped up to recent date.—San Juan Sentinel. March Field, which are as modern as the fleet planes that maneu-ver overhead. A double concrete

Many hog feeders make the mis-take of providing too little wat-er for their herds. Hogs need from 4 to 12 pounds of water daily per 100 pounds live weight. If the water is too cold in winter the here are not lively to dwinter the hogs are not likely to drink enough. Ice on top of the water in the trough is another reason why hogs go thirsty.

CORRECTION OF ERROR

are architecturally revolutionary, as far as Army posts are concern-ed, for they have been designed with an eye to beauty as well as to the other qualities of modern construction. In other parts of the country there are small and large homes which, by the judicious use of modern materials from foot-ings to chimney can are making The advertisement of the Clar-endon Hatchery in this issue of the News, carries a price of four cents per egg for custom hatch-ing. This is in error, and should read three and one-half cents per egg. Those who have contemplated bringing their eggs to Clarendon for hatching will be pleased to read this correction since it will mean a considerable saving to them. ings to chimney cap, are making the dream of the ideal house of the future come true. Many of the designs which have been aired in home journals and

REPRESENTATIVE DISTRICT
I am again announcing as a candidate for Representative, subject to the Democratic Primaries. I do so inviting you to investigate my past services before finally deciding for whom you will vote for this office. At the proper time I hope to be able to meet as many of you as possible and personally solicit your consideration of my candidacy.
The Flappers of '44" will be to meet as many of you as possible and personally solicit your consideration of my candidacy.
T feel greatly indebted to you for past favors and assure you, if re-elected, I shall continue to give, you the best representation possible.
Very truly yours, DEWEY YOUNG.
Wery truly yours, DEWEY YOUNG.

endon is not such an institution. It has been our policy to give as generously as possible to every local call of real merit. We support the above named enterprises and any others which seem to be for the up-building of the community and good of the people.

This is not intended as a boast. It is only fair and we consider it no more than our duty and privilege. We make this statement for the benefit of those who might not be informed as to these facts. We are a part of the community and are whole heartedly for Clarendon and Donley County and will continue to carry our part of the load.

We solicit your business on our own merits only.

Doctors Disagree

Doctors Disagree When children are irritable and peevish, grind their teeth and eleep restlessly, have digestive pains and dis-turbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suf-fering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Ver-mifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harm-less, old fashioned remedy, which you can get at 35c per bottle from

Douglas & Goldston Drug Co

All of the functions of life are not pleasant to consider. Perhaps this is why some mothers refuse to think that such symptoms as restless sleep, loss of flesh, lack of appetite or itching nose and fingers in their children, can be caused by round or pin worms. Many mothers have proven, however, that a few doses of White's Cream Vermi-fuga, that sure and harmless worm expellant, will make these symptoms disappear. You can get White's Cream Vermifuge for 35 cents per bottle from Mr. and Mrs. Clyde Fletcher and daughter, spent Saturday night with their parents, Mr. and Mrs. B. F. Fletcher.

We're established here to save you

¹⁰ OUT-PERFORM

... the vital reason why BUICK outsells every other fine car by 2 to 1

Keep in mind, when you buy your car, that you are buying miles -and that you will get more and better miles in a Buick, as more than 2,400,000 owners have proved.

Buick builds so thoroughly-builds such extra strength and stamina into the Buick Valve-in-Head engine and sealed chassis -that many Buicks, five, ten or fifteen years of age, are still in service ... and the speedometers of many of these cars register 100,000 miles and more.

Buick is built to out-perform. This, together with the beauty and comfort of Buick's Bodies by Fisher, explains why America is driving 700,000 more Buicks than any other car in Buick's price class ... and why Buick today wins from two to five times as many buyers as any other car priced above \$1200. Come, see Buick's wide range of body types. Then take the wheell A single drive will convince you that Buick is the big motor car value of the day.

> Bulck offers 15 body types, priced from \$1260 to \$2070, f. o. b. factory. Marquette offers 6 body types, ranging from \$990 to \$1060. Special equipment extra.

Convenient terms can be arranged on the liberal G. M. A. C. time payment plan. Buick and Marquette delivered prices include only reasonable charges for delivery and financing. Consider the delivered price as well as the list price when comparing automobile values.

TEN TOWNS ATTEND MEET HERE TUES.

JOINT MEETING OF ZONES selves the "Class." Each of them BRINGS LARGE REPRE-SENTATION TO CITY.

had was their purity, strength, faith, and courage. The posses-sion of money alone does not Welcoming District Governor A. Ston of money alone does not give man this distinction, for it is to be remembered that this money at one time was produced bicago office of Lions Interna-C. Kater of Houston and Secre-tary-General Melvin Jones of the Chicago office of Lions Internaand mayhap through the loss of represented in a joint meet here Tuesday at noon. Shortly before the meeting convened for the noon hour, the entire gathering was hour, the entire gathering was tional, ten towns of Group 31 were

carried outside the hotel and a not be used to judge a man for group picture was made, giving definite proof that Melvin Jones had visited Clarendon and that the the blind, with other towns of the vicinity were present to assist in the hearty welcome tendered him.

The first part of the hour was taken by the Clarendon Lions in handling their routine business. On calling roll, it was learned that three Lions were absent from their usual places. It is certain that two of these will make up their attendance and it is thought that the third man will come into the group to make the third one hundred per cent attendance for the year.

The various guests for the day were introduced and it was learned that Amarillo, Claude, Memphis, Estelline, Childress, Turkey, Quitaque, Pampa, McLean and Clarendon were among the mem-bers responding when the towns were called to their feet. Thus it seen that ten of the twelve clubs of this section were represented at this meeting.

The matter of the Paloduro Park riosity seeker who was given the proposal was presented the gathering by Lion W. H. Patrick, who was followed by the introduction of Lion Homer Mulkey, Group Chairman of this immediate section. Lion Mulkey then introduced W. C. Davis of Childress, Deputy District Governor of Lions, and Lion Davis then in turn introduced . Kater of Houston, the District Governor.

the cross as the burdens become heavier. The "Vision of Sir Launfal" Lion Kater spoke to the assembly for a few moments, giving of ub and its purpose. ing preceded the announcement of the New Oakland Eight. In addition it incorporates General Motors' sixteen years' experience in building fine eight-cylinder automobiles. This mature background accounts for its sound basic design.

Superior Performance

The New Oakland has an 85-horsepower engine. This is the highest power ever employed in a car of Oakland's size and weight, racing cars excepted. Oakland develops one horsepower to 37 pounds of car weight. That's why few cars are as fast. That's why few, if any, can pass it on the hills. That's why it accelerates so rapidly. In fact, that is ping power impulses inherent in eightcylinder design. This smoothness is intensified by such features as its complete down-draft fuel distribution, its patented laminated spring and rubber engine mountings and a new type of cylinder head which assures uniform combustion.

Only a close inspection and a demonstration will enable you to understand fully the many advantages provided by the New Oakland Eight.

The New Oakland Eight, \$1045 and up, f. o. b. Pontlac, Mich-Igan, plus delivery charges. Lovejoy Hydraulic Shock Absorbers included in list prices. Bumpers, rear fender guards and spring co.ers extra. Central Motors Time Payment Plan available at minin

AMOUS NAME-Finer Car-

Once again Pontiac has improved upon 5 AND a car already noted for its excellent qualities. To the hundreds of thousands who own Pontiacs, and to everyone interested in low-priced automobiles, this announcement is important. For it introduces the New Series Pontiac Big Sixa new and finer car with a famous name.

New Beauty, Smoothness, Safety

Smart new bodies by Fisher make the New Series Big Six a more beautiful Pontiac. Pontiac's smoothness is increased by a new type of rubber supports tor its 60-horsepower engine.

Sims Motor Co.

Improved non-squeak four-wheel brakes and a new sloping non-glare windshield add to the car's safety.

Time-Tried Performance When these and other improvements were being made, all of Pontiac's basic big car excellence was retained.

Come in. Let us show you the many advantages of this finer car with a famous name—the New Series Pontiac Big Six.

The New Series Pontiac Big Six, \$745 and up, f. o. b. Pon-tiac, Michigan, plus delivery charges. Shock obsorbers standard equipment. Bumpers and spring covers at slight extra cost. General Motors Time Payment Plan available at minimum rate.

Consider the delivered price as well as the list (f. o. b.) price when comparing automobile values . . . Oakland-Pontian delivered prices include only authorized charges for freigh and delivery and the charge for any additional accessories or financing desired.
