Bert Smith Freed Of Bank Robbery Charges Wednesday

LELIA LAKE GIN MAN NOT GUILTY

PAMILY AND FRIENDS JOY-OUS OVER VERDICT OF PANHANDLE JURY.

"We knew Bert was innocent, that's why we haven't worried over the outcome" is the way Vester Smith, brother of the accused Lelia Lake ginner expressed the family feeling and viewpoint in an interview with a News representative here yesterday following the verdict of acquittal which the jury returned in the case of the State of Texas vs Bert Smith for participation in the robbery of the

Stinnett bank last November. This interesting case to Donley County people went on trial at Panhandle Monday in the district court presided over by Judge Pickens with a jury composed of Carson county citizens. Clem Cal-houn noted prosecutor from Borger represented the state, while Judge B. Y. Cummings of Wichita Falls, and Attorneys Clayton Heare and Marion Reynolds of

Shamrock represented Smith.

Judge Cummings stated here last evening that the high class last evening that the high class and clean cut witnesses from Clarendon and Donley County people was the most convincing array of testimony it had been his pleasure to observe, and that the alibi of Bert Smith as to his being far from Stin. Other at the time of the robbery was incontestible.

Another strong testimony to the innocence of Smith was that of Reuben Franks, assistant cashier of the Stinnett Bank at the time

ed Smith was arrested in connec-

tion with the case. innocence at all times since the brary from four to five o'clock on robbery but on advice of his attorneys has remained silent as to the peculiar situation he found himself in at the time of his arrest following the crime. Mr. Smith was on bond of J. W. Adams, a former resident of Lelia Lake, for another offense at the time of the Stinnett affair and alleges that when he was told by Adams that the money was hid-den under his (Smith's) residence at Lelia Lake he was placed in such a position as to hardly know just what to say or how to act. If he went with Adams to get the money he would probably be arrested by officers watching the place with the implication that he had come with Adams to make a of the money. If he had told Adams he was going to noti-fy the officers of the money be-ing under his residence, then ing under his residence, then Adams would probably have disappeared leaving him to shoulder payment of the bond in the other case mentioned above. Adams, so Mr. Smith says, argued with him that the money placed under his residence was not the Stinnett loot as Mr. Smith surmised, but was money he had received by in-heritance. Mr. Smith realized that ers to clear him of the charge as

Franks, former assistant cashier of the looted bank, J. W. Adams and T. A. Popejoy are the others implicated in the robbery and will go to trial presumably this week at Panhandle.

Taxes Half Paid State and County

Advices received from the office of the Sheriff and Tax-Collector state that the payment of taxes for the past year are coming in very slowly. With less than two weeks in which to complete the payment of the tax moneys, the amounts in hand are less than onehalf what they will be when the final payments are made, Parts of the county are meeting their payments more than half way, but other parts are falling down on the job with the result that the sums in hand are less than half

the entire total. Supporters of the centralized Supporters of the centralized road work argued that the citizens of the county were not satisfied with the present inherited plan of working the roads as it had proven wasteful and extravagant, that there was nothing to lose by giving the preposed plan a trial, that if it should fail it would be an easy matter to return to the present system. They claimed to have data and information which indicated that a substantial saving could be effected every year, while

Advices from the office of the County Clerk indicate that the mortgages issued in the present year are to be more than they were during the past year of 1929. Almost literally speaking, the folk of the county are placing a plas-ter on everything except the wife and children. 116 of these instruments were filed for record in the office of the Clerk for the week ending with Saturday, January 11th. The weather, like all other mato have them shattered within a few months or years. This time, a record of 23 years standing was shattered when the mercury dropped to a spot eleven degrees below zero and remained in that position through one night. "Kernel Tack" of the Amarillo News-Globe paid a neat tribute to several local citizens the first of this week when he discribed his tribulations in getting home from the JA ranch during the peak of last week's blizzard. He also complimented the JA management and urged Panhandle people to visit the ranch and enjoy the scenery of the canyon enroute.

Setting new records for continued and low temperatures in late years the weather has caused a partial paralysis of business in the Southwest and has taken a toll of life unusual in this section. The bright side of the dark picture is the thought of uniformly heavy crop yields fol-

lowing such a winter of moisture and extreme cold. Here in the Panhandle such a winter usually precedes or produces a spring of few sandstorms and light winds. Here's hoping that the extreme cold here is an authentic harbinger of the greatest crops in the history of Donley County.

Experts in economics in America have calculated that seventy-one per cent of the income of each individual is spent in his home community on the necessities of life, such as housing, groceries, fuel, clothing, etc. If you are spending that proportion of your income at home, you certainly owe approximately that percentage of your spare time to the promotion of your home community's welfare or in part. and progress. The making of your income and the spending of it brings with it other obligations which one cannot ignore without injury to his community and his own integrity.

A few days back we heard a local citizen complaining of the seeming light regard in which the young men of today hold their personal credit and financial obligations. Really, considering the great ease of credit in recent years such a situation is not to be wondered at. Even many of the older and more settled have been lured by easy credit into contracting heavier obligations than their prospects would warrent, although it is seen growing more apparnt | in late months that such a condition could not survive. Our young mer—all of us—can read the signs of the times and recognize the fact that our bills must be paid if we are to have privileges of credit. The nation's and our own financial integrity depends on ready response to obligations, therefore we must see to it that we do our part personally. Pay your bills promptly and make no bills you will be unable to meet.

An ex-crook, reclaimed to the straight and narrow by a prison which actually punished, says American prisons do not punish. He says the sob sisters and the softy brethren have through their pet methods of prison reform about eradicated from American penal institutions all comblance of aid to the reformation of crocks, and that is the real reason why we have our continued crime wave. Few citizens have any sympathy for those who would mistreat prisoners in the least, but it is certainly true that maudlin sympathy has brought about a condition which in some instances have coddled the prisoner and made him believe that he was not to blame for being a crook, that society was all wrong, to the point that any hope of reforming him has been totally lost. We need a law-abiding citizenship, juries that will convict when the evidence justifies, and a penal system that will cause a criminal to recognize that he has transgressed, while at the same time bringing those influences to bear which will encourage him to reconstruct his thinking and go straight when he has paid the penalty. Justice is not a milk and cider proposition. Society is entitled to more consideration than the criminal who has forfeited his rights.

Several months ago this writer in company with many other local citizens joined in a movement to assist radio station KWKH at Shreveport, Louisiana, in keeping its allocation and standard of power. In all feelings of justice and fairness it appeared that the station should not be molested. However, in recent months, there has been a growing disregard of the decencies of expression from station KWKH and now official complaint is being filed against the owner of the station indulging in coarseness and profanity on his programs. Very little objectionable language comes over the radio into American homes at this time and certainly KWKH should be officially notified to refrain from the broadcasting of language unfit for the reception into our homes. Only clean, high-grade programs are fit for reception in America.

We are all humans, subject to our own peculiarities. We object to change, and most of us detest preaching and dislike being told; yet every one of us wishes to be healthy, wealthy and wise. We all get in a rut more or less, and true it is that the only difbetween a rut and the grave is the depth; and the longer we stay in a rut the deeper it gets. How readily we discard the old and accept the proven new depends on how deep we have sunk.

When the Board of Directors

of the Clarendon Lions held their

meeting Thursday evening of last week and passed for the moment the matter of a highway marker showing the town name to another date, they started something they could hardly stop. The report was made to the luncheon Tuesday and a great argument was started immediately. A meeting of the Activities Committee was called for Wednesday evening, at which time further plans will be made to To create a purposeful parent-ood; one keenly alive to its res-

New Mail Route

A new mail route put into ser-vice between Clarendon and Pamcities of the eastern section of the state a great many hours. Letters mailed now in Dallas and fort Worth one evening, are delivered in Pampa about the time the business houses of that city are opened in the morning following. These same letters would have reached Pampa late in the afternoon under the old plan. The saving in time from the mail go-ing into Pampa amounts to ap-proximately six hours under the present schedule. Mail from Pam-pa to the same town reaches them more than twice this many hours ahead of their former schedule. In addition to this, a pouch is left in the depot for Clarendon on the evening delivery, expediting the handling of mails from that city to here by several hours, since it slows the distribution of the it allows the distribution of the mail in the evening rather than waiting until the following morn-

Doctors Disagree

When children are irritable and peevish, grind their teeth and sleep restlessly, have digestive pains and disturbances, lack of appetite, and have itching eyes, nose and fingers, doctors will not always agree that they are suffering from worms. Many mothers, too, will not believe that their carefully brought up children can have worms. The fact remains that these symptoms will yield, in a great majority of cases, to a few doses of White's Cream Vermifuge, the sure expellant of round and pin worms. If your child has any of these symptoms, try this harmless, old fashioned remedy, which you can get at 35c per bottle from Douglas & Goldston Drug Co. Douglas & Goldston Drug Co.

Then he followed it up with the comparison that every bride dreads. "My mother never made miserable stuff

like this!" Norma tried to fight back her tears, but failed.

"I make it just the way your mother taught me," she sobbed. "She showed me how to make all your favorite dishes. We never told you."

Gene was sorry. He put both arms about her and kissed away her tears "You haven't made any changes at all?" he

questioned, puzzled. "No," Norma told.him. "Not one . . . that is, yes; one little one. I've been using a differ-

ent brand. One of the neighbors said ..." "You go back to White Swan Coffee," her husband exclaimed with mock severity. "Darling, there is no better."

So, Norma went back to White Swan and

now everything is serene again.

ity. Some of the artful processes are as old as the happy custom of serving coffee; others are as new as science can devise them; all are

employed with the skill acquired by more than a half century of roasting and blending a coffee of unrivaled goodness.

Freshness is one of the most vital of the many factors which insure the White Swan flavor. It always comes to you fresh from the roaster. Your dealer is within easy shipping distance of one of the 22 Waples Platter Houses strategically located to insure prompt distribution. In addition, a fleet of motor trucks operates over established routes, making regular deliveries to the 10,000 White Swan dealers.

By going to the very source for its product, by controlling every step of its preparation and distribution, this sixty-year-old institution of the Southwest makes sure that no finer coffee can be brought into your home for the price you are asked to pay.

To guarantee this, the Waples Flatter Company has become importer, roaster and packer, as well as distributor of the inimitable White Swan Coffee . . . available at your grocer's in one and three pound cans.

Political Calendar for 1930

Voters and prospective candidates for public office in Donley County will do well to clip the following dates and information as set out in a political calendar for the coming year.

Texans will elect a new set of officials this year. United States Senater Tom Connally, who was chosen in 1928 for a six-year term; a few State Senators and district judges who are elected for four-year terms and three or four state officials also who are not obliged to run every two years, will be on "easy street" insofar as campaigning for reelection is concerned, but every-one else, including the 18 Con-gressman, will be required to stand for re-election. It will be an "off year" only for presiden-tial candidates.

The political calendar for the year follows:

Jan. 31-Last day for payment of poll tax or to otherwise qualify by obtaining voting credentials.

June 2-Last day for candidates for state offices and district offices, in districts containing more than one county, to file requests to have their placed on the ballot.

June 9-Meeting of state excutive committee.

June 14—Last day for county

and precinct candidates and district candidates, in districts composed of only one county, to file requests to have names placed on ballots. June 16-County executive com-

mittee meets to determine the or-der of names on ballot and esti-mate expenses of election. June 23-Last day for candidates to pay assessments for their share of expenses incident to hold-

ing election.

FAMILY DOCTOR

LEARNED THIS ABOUT

CONSTIPATION

Dr. Caldwell loved people. His

years of practice convinced him

many were ruining their health by

careless selection of laxatives. He

determined to write a harmless pre-

scription which would get at the

cause of constipation, and correct it.

Today, the prescription he wrote in 1885 is the world's most popular laxative! He prescribed a mixture of herbs and other pure ingredients now known as Dr. Caldwell's Syrup

Pepsin, in thousands of cases where

bad breath, coated tongue, gas,

headaches, biliousness and lack of

appetite or energy showed the

bowels of men, women and children

were sluggish. It proved successful

in even the most obstinate cases;

old folks liked it for it never gripes;

children liked its pleasant taste. All drugstores today have Dr. Caldwell's Syrup Pepsin in bottles.

Acidity

The common cause of algestive difficulties is excess said. Sods camnot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell the public to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts inparent. All gas is dispelled; all sour-ness is soon gone; the whole system is sweetened. Do try this perfect anti-acid, and remember it is just as good for children, too, and pleas ant to take. Get the genuine—

of Magnesia

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhes; effective, too, for older children. Twenty-five million bottles were bought last year.
