

Plans For Annual Banquet Are Complete

County Agent To Be Ready For Duty Here February 1

COUNTY AGENT IS HIRED BY COURT

TO BE IN COUNTY FOR WORK ABOUT FEBRUARY FIRST OR BEFORE.

A little less than one year ago, the Commissioners' Court of Donley County honored petitions from all parts of Donley County asking for a County Agent and voted funds for hiring him. The demand over the state had been such that a man was not available until shortly after the first of the year when communications were received from Mr. Edmunds, supervisor from this section of the state, saying that Donley County was next in line for a man to do this sort of work.

At the meeting of the Commissioners the fore part of this week, the matter was brought to their attention and an agent was asked for this county without a dissenting vote. One commissioner voted against the project and later asked that the vote be made unanimous for the hiring of the agent.

The authorities at College Station were notified by wire that the necessary action had been taken and notice was received back that the agent would be on the ground for active service about February first or a little sooner. The name of the agent to be placed in this county has not been learned, but some representative is expected to be here for immediate service to the county.

Panhandle Secretaries Coming

The Association of Commercial Secretaries of the Panhandle section of the state are to be guests of the Clarendon Chamber of Commerce at the annual banquet here Tuesday evening of next week, according to advices received from the office of G. L. Boykin local Chamber of Commerce secretary. This meeting was called for the day of January 28th when it was first learned that Joseph F. Leopold was to be the guest of the Chamber of Commerce and the speaker of the evening at the Annual banquet on that same evening. The session was called to meet here at Guy Hill of Shamrock, who is president of the Panhandle association.

The present plan of operations for the secretaries is that they will meet here in the afternoon at 5:00 o'clock and that they will later go into the banquet hall with the gathering that is scheduled to represent the Clarendon Chamber of Commerce. Their work will be in the nature of a series of conferences with Mr. Leopold as the representative of the United States Chamber of Commerce. Mr. Leopold is Manager of the Southwestern Division of this body and has his headquarters at Dallas.

Open Nights For Slow Tax Payers

"For the benefit of Donley County citizens who haven't yet paid their taxes my office will be open every night next week until ten o'clock" said Sheriff and Tax Collector Mosley in conversation with a News representative here yesterday.

According to Mr. Mosley there is a great volume of tax paying to be done as well as a majority of car license to be issued in Donley County and with just a week to go after tomorrow.

The severe weather has interfered seriously with the tax paying in the past two weeks and it is very likely that all next week there will be long lines of waiting citizens at the tax collector's office taking turns in securing car license, poll tax receipts and paying property tax.

Mr. Mosley and his office force are generous in providing these extra hours at night beginning Monday of next week, and the added hours should lighten the work of each day and accommodate many people who have not as yet been able to get to the tax collector's office.

HEADQUARTERS OF ROADS MOVE HERE

SPACE ALLOTTED OFFICES IN COURTHOUSE FOR NEXT FEW WEEKS.

A telephone call the fore part of this week from engineer LaRoe, chief of the State Highway mapping forces in the Panhandle was the first intimation of the impending removal of the Highway offices from Panhandle to Clarendon. Mr. LaRoe asked the County commissioners for space in the courthouse for a time that may be indefinitely extended as the need for their services arise.

This office space was granted by the Court when they met the fore part of this week and the room on the second floor of the courthouse that was formerly occupied by the County Home Demonstration Agent was allotted for their use. It is understood that the removal from Panhandle to this city will be undertaken as soon as the weather moderates to a sufficient extent to allow them to make the move easily.

The work to be done consist of a profile map of the work that is being done on the roads in Donley and Armstrong Counties. The road surveying crew is working on this task at the present time and are securing all data to show the necessary cuts and fills to bring the road to the Panhandle to this city will be undertaken as soon as the weather moderates to a sufficient extent to allow them to make the move easily.

The move of this Panhandle office to Clarendon may also be connected with the projected building of the State Highway Department warehouse in the city in the very immediate future. Land for this use was leased from the city a short time past and the building is expected to be erected at once, or as soon as conditions allow for construction to be carried on easily.

DONLEY COUNTY MAY RECEIVE DAM

PROJECT UNDER CONSIDERATION TO DAM MULBERRY TO AID FLOOD CONTROL.

G. L. Boykin, Secretary of the Clarendon Chamber of Commerce recently received a communication from the Wichita Falls Chamber of Commerce, asking for data on the possible damming of Mulberry to allow the waters to be later used for irrigation purposes and to assist in flood control on the Mississippi River below the mouth of Red River. A dam would be built at some location which would be most advantageous for the use of the impounded waters for irrigation purposes in times of drought.

The project is assuming greater proportions than was first thought when the letter first arrived in Clarendon and other counties are taking the matter up and are working to the securing of the dam. In addition to its being a merely local project, the matter will come under the attention of the United States Government as a part of the project to assist in flood control through tributaries to the Mississippi river.

Plans for the final working out of this project have not as yet been launched, but the Wichita Falls Chamber of Commerce, led by Orville Bullington, is working on the proposition and will keep local interested persons in touch with the situation.

Mr. and Mrs. T. G. Stargel announce the arrival of a daughter, Jean Elizabeth, on Monday evening, January 20th. Both are reported to be resting easily.

R. H. Muir, Sr., who was carried to Amarillo this week after a paralytic stroke on his ranch near here, is reported to be improving steadily.

Baptist Revival Starts Feb. 5th

OFFICIALS AND BOARD ARE NAMED FOR CLUB ROOM FOR YEAR AT HAND.

A short and to the point revival is planned for the First Baptist Church of this city, beginning on Wednesday evening, February 5th. This announcement was carried in the last issue of the News and plans are already well under way for this event to be one of the most far-reaching ever attempted by this congregation. Rev. B. N. Shepherd, local pastor, will preach at all services and will be assisted in the musical programs by Lee Stulce, well-known singer and director of singing.

In connection with the revival services, a census of the city will be taken in the immediate future, in an effort to enlist all the membership of the Baptist Church in the work of that organization. Rev. Shepherd asks that all musicians of the city hold themselves in readiness to assist in the services, promising that some worthwhile results will come from the series of meetings.

Clarendon Boy Is New Sales Manager

The News has been apprised of the fact that Tom Coke Connolly, son of Mr. and Mrs. T. F. Connolly of this city, has been named Sales Manager for the Westmoreland Company. The company is operating six wholesale houses at present time, with headquarters in Amarillo and this promotion comes as a result of the excellent sales record set up by Mr. Connolly in his several years connection with the company as a salesman.

Tom Coke has made one of the biggest records as a salesman that has ever been made by a man in this capacity for the same company.

Mr. and Mrs. Ralph Andis and son, Billie Ralph, left Sunday morning for Dallas, where Mrs. Andis will receive medical attention.

George Moffitt of Chillicothe, was a business visitor here Tuesday night and Wednesday. Mr. Moffitt is connected with the Clarendon Motor Company.

Mr. and Mrs. O. D. Leisberg are in Amarillo at the bedside of their daughter, Mrs. Bob Lynch, of Claude, who underwent a serious operation a few days ago and who is critically ill.

Weather or Not

The memory of the oldest resident of the county is doing its best to recall a spell of weather similar to that one which has stricken Donley County during the past two weeks. Some state that the winter of 1912 has the record for a long cold spell, while others are strong in their belief that the winter of 1899 still holds the record up to the winter of 1930. At any rate, the battle goes merrily on and quotations from all almanacs are being batted back and forth merrily and "Tack" of the Amarillo News-Globe is receiving his due share of publicity from his predictions of last Summer and Fall.

Wednesday of this week has been the only clear day registered for a little more than two weeks, with the maximum on the thermometer standing at 33 during the day. A minimum of cold for the week is minus 8, while the average will not be more than ten above for the past seven days.

Predictions for today indicate partly cloudy and continued cold. Water pipes in many parts of the city are reported freezing in the day time, this pointing to the fact that the cold is continuing its search for buried pipes. Little suffering is reported from any cause with the Goodfellows relieving their due number of calls for those of the city who are in poor circumstances. Cattlemen report no loss to this time although it has been necessary for the owners to feed heavily to prevent their stock from suffering.

Late reports from the bedside of O. C. Hill, stricken by paralysis the early part of this week, indicate that he is resting easily and that a great deal of improvement is noted in his condition.

NEW OFFICERS ARE NAMED FOR ROOM

OFFICIALS AND BOARD ARE NAMED FOR CLUB ROOM FOR YEAR AT HAND.

The original corps of officials that were named at the opening of the Woman's Club room in the basement of the City Hall have been retired after a most successful year's work in conjunction with this new item for the city. The room was finished by the city when the official home of that organization was remodeled to more nearly care for the needs of the Clarendon officials. It was finished and left bare, the women being charged with the job of furnishing the place as they saw fit.

During the little more than one year that the room has been in use by the clubs, a sum of approximately \$400.00 has been expended in equipment for the place. The ladies have done about all they had planned to do with the main room and are now planning to start their work on furnishing the kitchen with silverware and other necessary items that will properly come under their control.

Officers for the new year were recently named and are: president, Mrs. J. L. McMurtry Vice President, Mrs. Joe Goldston; Secretary, Mrs. Homer Glascoe; Treasurer, Mrs. Paul Shelton. The Board of directors is to be composed of the presidents of the various clubs of the town and county who are most interested in the workings of the body. These are:

County Federation, Mrs. J. A. Thompson; Clarendon Home Economics Club, Mrs. M. T. Crabtree; Pathfinder Club, Mrs. J. L. McMurtry; McDowell Club, Mrs. Clark Hemminger; 1926 Book Club, Mrs. Elba Ballew; American Legion Auxiliary, Mrs. C. G. Stricklin; Les Beaux Arts Club, Mrs. Homer Glascoe; Little Theater, Mrs. Joe Goldston; Mother's Club, Mrs. Paul Shelton; Women's and Girl's Demonstration Clubs over the entire County, Miss Harvey Thompson.

Standing committees for the year are to be composed of the following: Finance, Mrs. Elba Ballew, Mrs. W. C. Stewart, Mrs. Paul Shelton, Mrs. Chas. Trent; Purchasing, Mrs. J. W. Evans, Miss Anna Moores, Mrs. Holman Kennedy, Mrs. Homer Glascoe; Calendar, Mrs. C. G. Stricklin, Mrs. Clark Hemminger, Mrs. H. T. Burton, Mrs. B. L. Jenkins, Jr., Property, Mrs. M. T. Crabtree, Miss Harvey Thompson, Mrs. A. T. Cole, Mrs. Clyde Douglas; Little Theater, Mrs. Joe Goldston, Mrs. U. J. Boston, G. L. Boykin, Sam M. Braswell.

JOSEPH F. LEOPOLD
CLARENDON MAN SPEAKER AT MEMPHIS ANNUAL FEED

W. H. Patrick, President of the First National Bank of this city, was the speaker of the evening at the annual Chamber of Commerce Banquet held at Memphis Tuesday evening of this week. Mr. Patrick was accompanied to Memphis by Messrs. Tom F. Connolly, T. D. Nored and Secretary G. L. Boykin. Each of those present for the event state that it was a most auspicious affair and that the program outlined for their body during the coming year is one of which any city might be proud.

New Implement Company Opens

This week's issue of the News carries the announcement of the opening of the Clarendon Implement Company in their location in the White Motor Company building on East Second Street.

Mr. Brady was not in position last week to announce location for his place of business although he was desirous that the farming public especially know that the new business was soon to be established.

In addition to his proclivities as a representative of the International Harvester Company, Mr. Brady is a practical farmer with splendid ideas on the development of Donley County in a diversified manner. His experiences in the wheat country near Perryton will stand him in good state in explaining to reluctant dairy farmers the advantages to be gained by practicing more diversification.

A full line of this line of merchandise will be on display at the showrooms mentioned herewith when the initial opening is held.

Clarendon Folk At Convocation

Rev. and Mrs. L. L. Swan and Mrs. Bagby returned Tuesday evening from Amarillo, where they had been attending the annual Convocation of the Episcopal Church of the District of Texas since Saturday.

A large delegation of delegates and visitors contemplated being present but were prevented owing to weather conditions. A very enjoyable and profitable time was experienced. Rev. Swan was re-elected president of the Council of Advice and of the Mission Department of the Executive Council and Mr. George Ryan alternate of the Provincial Synod to meet at Little Rock, Arkansas. Henry L. Gooch of Amarillo, District Treasurer of the Field Department vice Mr. J. B. McClelland deceased.

The next meeting of Convocation will be at San Angelo, January 18th, 1931.

Mrs. Felix Kemp of Enid, Oklahoma, is here for a visit in the home of Mr. and Mrs. G. G. Kemp.

Mr. and Mrs. G. G. Kemp, Mrs. Felix Kemp and Miss Elizabeth Kemp were business visitors to Amarillo Friday of last week.

News In Error

The last issue of The News carried a story telling of the release of Bert Smith of Lelia Lake from charges with the robbery of the bank at the time of the robbery. In some unaccounted for manner, the proof reader failed to see that a word had been left out of one of the paragraphs which caused it to read as though Mr. Smith had been conferred with Franks on the robbery. The paragraph read:

"Another strong testimony to the innocence of Smith was that of Reuben Franks, assistant cashier of the Stinnett Bank at the time of the robbery, and who is also accused in the crime. Franks testified that in his conversations with others in the plan to loot the bank Smith's name had been mentioned, that he didn't know Smith and was surprised when he learned Smith was arrested in connection with the case. The paragraph should have read:

Another strong testimony to the innocence of Smith was that of Reuben Franks, assistant cashier of the Stinnett Bank at the time of the robbery, and who is also accused in the crime. Franks testified that in his conversations with others in the plan to loot the bank, Smith's name had NOT been mentioned, that he didn't know Smith and was surprised when he learned Smith was arrested in connection with the case.

This typographical error was called to the attention of the News and we offer this as a correction. Mr. Smith stated Monday evening that he was certain that no offense was meant and that he was well pleased with the story carried as it was.

NOTABLE PROGRAM ARRANGED FOR EVENT—OUTSTANDING SPEAKERS

FIRST CHRISTIAN CHURCH BASEMENT TO BE MECCA OF CLARENDON CITIZENSHIP TUESDAY EVENING, JAN. 28TH. PROGRAM TO BE OUTLINED.

Review of accomplishments for the past year and a setting of the program for 1930 will be dominant in the program of the annual chamber of commerce banquet, scheduled to be held (rain, shine or snow) next Tuesday evening in the basement of the First Christian Church in Clarendon.

A most excellent menu has been arranged by the committee in charge of the affair and the ladies of the church are well along with their plans to make the banquet one long to be remembered. Tickets will go on sale Thursday and Friday of this week and already many have been sold and reserved.

One of the features of the banquet will be the presence of more farmers and other citizens from over the county than has ever been present at a similar occasion, according to plans now being worked out by various business men and members of the chamber of commerce of Clarendon.

The ticket sales committee, with this in mind, are urging that every man and woman of Clarendon intending to be present at this annual occasion get tickets early as the plate reservation list is limited and the committee and ladies must know in advance just how to prepare for the attendance.

President Odos Caraway adds his suggestion to this plan and is hopeful that the entire accommodations of the basement will be sold out by Saturday evening of this week. Secretary Boykin, with the committee named, is busy with all final details of the program. The appearance here of Joseph F. Leopold, manager of the Southwestern division of the United States Chamber of Commerce, as the speaker of the evening is ample proof of the high order of the program, for Mr. Leopold is justly recognized as one of the outstanding experts in the commercial circles of this section and is without peer as an inspirational and instructive speaker. Henry Glosbe of the Amarillo News-Globe is to be the toastmaster, and those who know him testify to his ability along the lines of the snappy handling of any program. John Boswell, newly installed manager of the chamber of commerce of Wichita Falls will be here to make the response and add his prestige to the occasion.

Following is the menu and program for the evening:
Fruit Cocktail
Queen Olives
Roast Turkey and Dressing
Creamed Potatoes
English Peas
Cranberry Jelly
Giblet Sauce
Hot Rolls
Sweet Milk
Donley County Pie
Henry Ansley... Toastmaster
Agricultural Editor Amarillo News-Globe
March... Miss Fray Stallings
Invocation... Rev. B. N. Shepherd
Saxophone Solo... Gus B. Stephenson
Introduction of visitors... Toastmaster
Response... John Boswell
Manager Chamber of Commerce, Wichita Falls.
Instrumental Trio... Decker, Tyree and Decker
Presentation 1930 Plan of Work... O. C. Watson, H. J. Edington, W. H. Patrick.
Saxophone Solo... Gus B. Stephenson
Address of Evening... Joseph F. Leopold, Manager Southwestern Division United States Chamber of Commerce, Dallas.
Election of 1930 Directors
Adjournment

A partial listing of the accomplishments of the Clarendon Chamber of Commerce during the past year has been compiled by Secretary-Manager Boykin as follows:

1. Forty-eight farmers taken to Panhandle-Plains Dairy Show.
2. Several 4-H Club Dairy Prizes awarded.
3. Poultry Hatchery established by Frank White, Jr.
4. 300 bird Poultry show held.
5. 400,000 baby chicks placed in county.

6. Farmers Short Course held, 1,000 in attendance.
7. 500 pounds pure seed distributed to farmers.
8. Terracing School held.
9. County exhibits taken to Fort Worth and Amarillo.
10. Secretary accompanied Panhandle-Plains exhibits three weeks.
11. On petition, County Court approved request for County Agent.
12. County Poultry and Club Show conducted.
13. Two 4-H Club girls given trips to Dallas Fair.
14. Helped establish co-operation between Commissioners' Court and Highway Department.
15. Helped secure new Right-of-Way for Highway 5.
16. Secured work on Highway 88.
17. Conducted Yard Beautiful Contest.
18. Supported and started reorganization of Clarendon Municipal Band.
19. Helped circulate petition for County Junior College.
20. Put up proper air-marker.
21. Put up Christmas Lights and decorations.
22. Brought Santa Claus to Clarendon with gift for every child in the county.

In looking forward into the new year the committee in charge of mapping out the work for 1930 will submit a number of suggestions including:

1. Continuation of Five Year Plan of Dairy Promotion. Emphasis on improved herds and markets.
2. Poultry and Hogs: Encourage poultry and hogs for every farm.
3. Improved Farm Methods: Seed selection, terracing, soil conservation, crop rotation, quality reduction, co-operation with county agents and farmer's organizations.
4. Fair exhibits, County, Tri-State and Panhandle-Plains.
5. Hard surfaced Highways and improved laterals.
6. Civic Activities: City Auditorium, Free Mail Delivery, Municipal Band.
7. Yards Beautiful Contest.
8. Junior College—County wide.
9. Temporary Airport.

REV. MARLER TO PREACH HERE SUNDAY, JANUARY 26

Rev. W. H. Marler will fill the pulpit at the First Christian Church both services on Sunday, January 26th. Rev. Marler will deliver two sermons and his appearance here is welcomed by many of the members of the local body. The entire public is invited to attend and take part in any of the services of the day.

Lion and Mouse Postponed Week

The first Little Theater play which was scheduled for production Friday evening of this week has been postponed until the following Friday evening, or that of January 31. Difficulty in securing attendance of those with parts is attributed as one cause for the postponement, while the inclement weather that would forestall large attendance will be found to be the other. The decision to postpone the presentation was reached Monday afternoon when the directors met at call of Mrs. Joe Goldston, who is president of the association.

"The Lion and the Mouse" is a well known production that has stood the test of time and has proven its merits in many instances. Mrs. Rita Foster Stocking is handling the direction of the production and indicates that matters are moving toward a very successful completion. The cast is proving its adaptability to the parts given out and it is thought that the play is to be one of the best productions ever played to Clarendon audiences.

NATIONAL EDITORIAL ASSOCIATION

It is just about as amusing to hear a "wet" bemoaning the passing of legal liquor, as it is to hear an old, man bemoaning the loss of his youth—and it is just as hopeless.

Another week and the zero hour on securing a poll-tax will have struck. Every citizen of Donley County should pay his money and get his receipt for there will be matters of great importance come before voters of Texas and this county in the coming year. Get your poll-tax receipt—besides it is an aid to the school funds of Texas.

Next Tuesday evening is the occasion of the annual chamber of commerce banquet in Clarendon. Many visitors will be present and it behooves our people to be on hand to welcome them and impress them with the progressive determination of our community. It is an opportunity to express your loyalty to your town and community. Buy your ticket and be there on time—it's your affair, you know.

Clarendon's city library has this week added scores of new books to its interesting shelves. More than that it is now open three afternoons each week instead of one, as formerly the custom. Many families, many people, old and young, are improving their minds and employing their time as patrons of the library and many more should avail themselves of the added service and range of reading the institution now affords. The finest library in the world would be of no service if people didn't avail of its privileges. Use our city library.

The News has been taken somewhat to task by its contemporary, the Claude News, for its expression in favor of the present Texas marriage law. Our contemporary argues that Texas officials and ministers are losing fees to neighboring states and that in its opinion the law doesn't prevent hasty marriages. Unfortunately for this law as with every other good law there are those who press the financial rather than the moral and social objects it endeavors to attain, and while we know Editor Waggoner stands for all good objectives, moral and social, yet he has seemingly fallen in with the line of reasoning of those who consider the loss of a little money in fees. The Texas law is in line with a movement all over the nation seeking to set up safeguards against hasty marriages (sometimes called "gin marriages") and while we recognize that we will not get full value from our law until other states have a similar measure, yet all movements must begin somewhere and we are happy that Texas is among those states with the vision and courage to do what is patently needed under the circumstances. True, many couples still drive over the borders into neighboring states to get married without the physical examination and three days' notice, but the time and trouble incident to such a drive has set up a bar to "gin marriages" and impulsive unions which would be extremely difficult to rightly measure. Our law is a good law and when other states have a similar measure and we extend the physical examination to the bride as well as the groom it will be just about as perfect as present-day mortals may expect to attain.

PRODUCING WANTS

Bruce Barton, author and advertising expert, recently touched on an important matter in radio address in "The New Business World Series" conducted by Merle Thorpe, editor of Nation's Business, the official publication of the Chamber of Commerce of the United States.

The war, Mr. Barton pointed out, with all its horror and cost had a tremendous liberating influence in giving to millions of people the right to have wants. Caste was largely swept away and the doors of opportunity opened. "All over the world people are going to want the things that we in America have and that, in our motion pictures, they are seeing us enjoy. To satisfy those wants they will work harder and produce more."

"Some of you have read about Elias Howe who invented the sewing machine. It was a wonderful device which could make, and since has made, life easier for millions of women. Howe perfected it, but he had no advertising and no salesmen, and he could not make women want it or buy it. He passed his life in poverty, and was finally reduced to the ignominy of having to attend his own wife's funeral in a borrowed suit of clothes. Ultimately, of course, the sewing machine did achieve its purpose, but the old generation of women whose work might have been made easier by it lived out their lives and died because there was no advertising to tell them about the sewing machine or teach them how to use it.

"When new inventions come today they do not have to wait a generation, or a year, or even a month. The radio, the automobile, the electric refrigerator are heralded to the whole world instantly and begin at once their work of making living easier."

Commander Byrd is spending lots of unnecessary money on that South Pole expedition. He could have spent the winter here in the Panhandle, used all his equipment and been among the finest people in the world.

One note of optimism pervades nearly every conversation about the severe cold weather we are having this winter. Nearly everybody recalls that severe winters are followed by bumper crop years. We all hope that dope is right—and if it is, watch Donley County next fall.

Putting an agricultural agent to work in Donley County marks a new era in the orderly advancement of this county. The News wishes to congratulate the commissioners court on their wisdom in matching funds with the government in bringing such an aid here for the benefit of farmers, business men and all. The basis of our prosperity is the farm and the agent's services in the matter of terracing, seed selection, proven methods and specific aid in specific problems just at this period will be worth thousands of dollars to our people. Welcome the county agent—then use him.

People of Clarendon joined with thousands over the nation Tuesday morning of this week in tuning in on the opening ceremonies of the five-power disarmament conference which convened in London, England. To sit in one's own home and be among those present at conferences of world importance on another continent is one of the amazing privileges of this modern age. There is no need for any man to longer be of restricted vision or confined in thinking or activities to the narrow limits of one community. God didn't intend it that way, and now modern progress so challenges man that he dare not neglect or refuse to accept this new and wider sphere—world-wide, if you please.

PRAYER FOR EDITORS

This is the "invocation" delivered by Rev. T. D. Batesman, of the First Presbyterian Church, Columbus, Miss., at the annual convention of the Mississippi Press Association, held in that city:

"Eternal God, our Heavenly Father, we ask thy blessing upon these newspaper people who are wont to communicate with the ends of the earth. They are people who can smell a revolution in China, people who have a license to enter the gates of princes and potentates, but who will have a mighty hard time getting inside the gates of Paradise.

"Have mercy on these people who are tempted by every devil from the printer's devil to the devils of newspaper headlines, and these same who are so busy listening to the sounds of wires and the songs of women that oftentimes the voice of God finds no listener among them and no place in their hearts.

"Have mercy, O Lord, upon the people who are chased by the Colonial Dames, W. C. T. U., Kiwanis, and Chamber of Commerce. Have mercy on these people who have to hobnob alike with Jew and Gentile, white and black, Democrat and Republican, Baptist, Methodist, Presbyterian, and Episcopalian, those who came over on the Mayflower, those who came over in the Cauliflower

"Have mercy, O Lord, on these people and help them in their dash from ballroom to church social and back to rum-runners, and who have to associate with anybody from Andy Mellon to Andy Gump. Any of them would walk two miles for a good story.

"Make this a good convention in the Friendly City. It's an easy matter to break into the Commercial Dispatch. But how will some of them break into the Pearly Gates? We pray Thy blessings upon them. When they have done with newspapers here and stories and their cares are finished here, may they have a finer story for St. Peter than they ever had in newspapers here. And though it is so hard for newspaper men to get into the Kingdom, may they receive a warmer welcome in Jerusalem than they do in Columbus today. Amen."

ADAPTS LUNCHEON CLUB IDEA TO NEW FARM ORGANIZATION

Three or four years ago Frank Browder, far mediator of the Denton Record-Chronicle, conceived the idea that if luncheon clubs served a good purpose among business men—and their growth and multiplication indicated that—they would also be helpful to farmers. Out of that grew the organization known as the Farm Club, of which forty to fifty of the most successful farmers of Denton County are interested members. The club meets once or twice a month, according to farm conditions and seasons, and in the evening, since mid-day meetings would be impractical.

A few town men, particularly interested in agricultural matters, are honorary members who attend the meetings, listen to the discussions of farm matters and sometimes aid with their own ob-

servations. The club started with a half dozen members and has grown, although it selects its own members and membership is only on invitation.

The idea has spread to nearby counties and the town of Arlington recently sent a group of its own farmers to attend a meeting, so they might see how the club functions, with the purpose of organizing a similar club at Arlington.

Exchanges of ideals and discussions have helped materially in meeting agricultural problems in Denton County. The meetings have built up a spirit of fellowship between town and county that has been helpful, and have developed acquaintances among the

farmers of different parts of the county whose contacts, in the ordinary course of events, would have been quite casual.

With a fast-growing interest in cheese factories in Texas, it will be of interest to note that the American dairy and cheese industry, doing a business of five billion dollars a year, far outranks the automobile industry whose total output is valued at four billions. There are nearly 3,000 cheese factories, 5,000 creameries and over 300 condenseries and evaporated milk plants in the United States, according to the National Dairy Council figures.

PROMPT DELIVERY SERVICE

Complete Electrical Equipment

An analysis of electrification in West Texas shows a development startling in its completeness, and almost unbelievable in the brief span of time during which this electrical transformation has taken place.

And yet—the top has just been scratched!

Numberless small communities, and countless individual farmers and ranchers are just awakening to a realization of the extreme economy of electrical service.

They have come to realize that Electricity can perform the tasks at which they have been toiling in a fraction of the time, and at a fraction of the expense of old-time, old-fashioned methods.

Have you fully investigated the many electrical time and labor-saving devices which you can install at small expense, and operate for practically nothing? Come in, and let us talk things over—you will be surprised at the extreme economy of complete electrical equipment.

Mr. and Mrs. Loyd Shelton spent Friday night in the home of Mrs. Shelton's parents, Mr. and Mrs. G. F. Leathers.

Misses Mary and Ruby Batson

of Memphis, spent the week-end here with friends and relatives.

The hearts of this community were made sad Friday when the death angel claimed little Charles Gene Whatley, the youngest child of Mr. and Mrs. Gene Whatley. Every body who knew little Charles Gene loved him because of his intelligence and effort to make every body happy. Our only consolation is to look away from our self as we miss him so much and realize that he is well and happy now with Jesus, for more than we could every make him on this earth and to think of the time when we shall all be together. Over there where there is no more sickness or death, but joy and happiness for ever.

Pleasant Valley

We surely would like to get even with the weather man that predicted all this snow and cold weather for us. We missed several days having school the last three weeks.

Miss Lucy McMahan spent the week-end with Miss Thelma Robinson.

We are sorry to report Mrs. Lee Singlettery in the hospital. The doctors expect to operate this morning (Tuesday). Every one hopes for her a speedy recovery.

Mr. and Mrs. Potter and Mr. and Mrs. Algran were callers in the Longan home Saturday evening.

Mrs. D. C. Shelton spent several days last week with her sister at Quail who has been critically ill.

Mr. and Mrs. E. Dunn, Mr. and Mrs. Ben Andis, Miss Lucille Andis and Mrs. Elvin Tinkle, Mrs. Della Mahaffey and daughter, Miss Faye and Miss Nan Forter were callers in the Longan home Sunday afternoon.

The Jones family, who helped Charley Herndon through the fall work moved to Lelia Lake this week.

Mr. and Mrs. Potter and Mrs. Lonnie Morris called on Mrs. Lee Singlettery Sunday afternoon.

Mr. and Mrs. Higgins and family visited Mrs. Jess Davis Sunday.

Mr. Sherman Clayton of San Antonio, spent Friday night with his sister, Mrs. John Potter.

Mr. W. H. Corder, who has been in Amarillo hospital for more than a month came home Wednesday.

Miss Evie Friday spent the week-end with Miss Eula Allen. The girls are both teachers in the Windy Valley school.

Mr. and Mrs. Edgar and family spent Sunday with Mr. and Mrs. Mill Allen.

Mrs. W. K. Davis received a telegram this week from her son in South Carolina announcing the arrival of a 10-pound boy.

Mr. and Mrs. D. C. Shelton and Mrs. Sam Robertson were callers in the Hugh Riley home Sunday evening.

Loyd Moreland received word this week that his father, who lives at San Angelo had slipped and broken his leg. Last reports he was resting well.

Mr. and Mrs. Carl Peabody spent Saturday night and Sunday with Mr. and Mrs. Loyd Moreland.

Misses Evie Friday and Eula Allen visited Miss Nathel Lamberston Sunday afternoon.

Mr. and Mrs. Lee Marshall spent Sunday with Mr. and Mrs. Pink Marshall.

Mrs. D. C. Shelton and daughter, Mrs. Sam Robinson, visited relatives in Hedley Monday afternoon.

Mr. and Mrs. Ross Hayworth and family left for Hood County on Wednesday, where they will make their home the coming year. The French family are also moving to Oklahoma City.

Helen and Laverne Goldston spent several days in town last week on account of the bad weather.

Mallie Dorsett spent Saturday night with the Longan boys.

Misses Laverne Lamberston, Ota May Allen, Alverda Dorsett, Messers Garland Cannon, Alton Dorsett and J. T. Lamberston all called on Miss Vera Reed Sunday evening.

Mrs. Hugh Riley spent Monday with Mrs. Elmer Palmer in Clarendon.

Mrs. Riley and Mrs. Elmer Palmer and Mrs. Vaughn all called on Mrs. Lee Singlettery Sunday afternoon.

Mr. and Mrs. Corbin and Miss Ruth Corbin, also Lonnie Wood were callers in the Longan home Monday afternoon.

Four hundred and eighty-five thousand tons of cargo were moved thru Corpus Christi port in September, bringing the total since the port was opened to 8,122,332 tons.

SALE OF SARGON BREAKS RECORD

FAMOUS MEDICINE RAPIDLY BECOMING HOUSEHOLD WORD THROUGHOUT AMERICA—24 CARLOADS SOLD IN 25 DAYS IN 27 STATES—OVERWHELMING DEMAND THE ONE GREAT OUTSTANDING PROOF OF ITS WONDERFUL MERIT.

Most medicines are sold by the dozen or by the gross. A few are sold in larger quantities, but think of a medicine that sells in such enormous quantities that wholesale dealers are forced to buy it in solid carload lots to supply a demand that has been so phenomenal as to almost stagger the imagination.

That's just what has happened with Sargon, the celebrated new medicine that is now sweeping the country like a great tidal wave. Not only is the trade buying it in carload lots, but they are buying carload after carload, each carload containing over 20,000 bottles of Sargon and Sargon Soft M is Pills.

Twenty-four carloads in 25 days sold in only 27 states is the amazing record recently made by these wonderful medicines.

In the State of California where Sargon was introduced in April of last year, it has required 21 carloads to supply the ever increasing demand in this one state alone. Texas dealers required 9 carloads in only four months.

A single New York firm, with wholesale branches in leading cities, is selling at the rate of over a Million and a Quarter bottles a year.

"Phenomenal and bewildering" is the way one of the big drug jobbers of the country describes the marvelous demand for Sargon.

"It's the greatest seller within the memory of the oldest members of our organization," said another.

"We are selling more Sargon than any other ten medicines put together," said still another. And so it is everywhere Sargon has been introduced. From Coast to Coast and from the Gulf to the Great Lakes, Sargon is known and honored.

Million upon millions have used it and have told other millions what it has done for them. When suffering men and women find a medicine that helps them, they naturally want to tell their friends about it and in this way Sargon is fast becoming a household word throughout America.

Douglas & Goldston Drug Store, Agents.

WHAT A PARENT-TEACHER ASSOCIATION IS NOT

It is not a grievance committee to whom shall be referred incidents, affecting the individual parent and the individual teacher or the individual child.

It is not a framer of school regulations. It is not an organization to supplant the school trustees, but to co-operate with them.

It is not a dispenser of school positions. It is not an advocate of persons but of principles.

It is not an organization whose sole purpose is to raise funds to supplement the school budget.

A new half-million dollar lime plant of the Haden Co., has been completed on the Houston Ship Channel and is now making 100 tons of lime from oyster shells a day. It is one of the largest lime plants in the United States and the only one using oyster shells exclusively.

Panhandle-Plains, Inc., Meeting Projects \$50,000 Program for 1930

A dream—indulged in for years by broad-gauged Panhandle citizens—emerged as a probable actuality from an all-day conference of 40 enthusiasts at Amarillo Thursday.

The South Plains, Inc., the Panhandle-Plains, Inc., and "the Wonder District," are beginning to get together for the common good. At least that was the opinion of every man present, after discussion.

"Sectional identity" was the stumbling block at the start. But straight from-the-shoulder talks by John G. Farmer, general passenger agent of the Rock Island at Fort Worth, and O. V. Vernon, manager of the Amarillo Chamber of Commerce, cleared the atmosphere to such an extent that it was agreed the boards of directors of the three organizations would get together soon and arrange a cooperative financial and exhibit plan.

Other high lights of the first general meeting of the Panhandle-Plains, Inc., Thursday were:

Announcement by the new finance committee that they expected to drive for a fund of \$50,000 in 1930.

General Manager Howard A. Ferguson's outline of his plan of work for the new year.

A fine address by Dr. J. A. Hill, of the West Texas Teachers' College, pleading for less tenancy and large wheat acreage, and more effort at developing home-owning and home-life.

One hundred per cent attendance of the directors.

Delegates were entertained at luncheon at noon by the Amarillo Chamber of Commerce. Four standing committees, on exhibits, finance, itinerary and publicity were appointed. Many good talks were listened to during the day, mostly horse sense, partly humorous. Optimism for the future was the keynote throughout.

At the morning session minutes of the preceding session were read and approved. The body was then informed officially by President J. W. Stevens of Tulsa that Howard A. Ferguson of Amarillo had been selected as general manager by the special committee appointed for that purpose, and had entered upon his duties. Mr. Ferguson told of his plans to use the three exhibits in a year again, as they have been carefully boxed and stored, of his idea of mixing the educational with the exhibit program this year, so that prospective settlers would get a broader view of this territory, and his determination to cull out everything but straight business methods in getting to the people desired.

O. V. Vernon, manager last year, recited the achievements of 1929. Mayor Ernest O. Thompson expressed his satisfaction with the work done the past season and said he felt sure the city of Amarillo would continue to contribute its financial and moral support to the movement. The mayor observed that it seemed to him an unique situation when the railroads interested in the immigration drive would fight lustily over extensions and then turn right around and co-operate harmoniously in the work of this organization.

E. B. Black, past president, fittingly expressed the thanks of the organization to Amarillo for the generous support given in past years. As chairman of the new finance committee, he then made the statement that the organization would endeavor to raise \$50,000 for the 1930 budget. He smilingly asked his audience not to faint at the figure, but remarked that "you don't get much unless you ask for it." Mr. Black drew a laugh when he said his committee consisted of "three hills"—Dr. J. A. Hill of Canyon, J. E. Hill of Hereford, and F. H. Hill of Panhandle.

W. H. Carville, chief clerk of the Santa Fe at Amarillo, who handled the literature for the three railroads last year, F. D. Daggett, general passenger agent of the Fort Worth & Denver City Railway at Fort Worth, and J. G. Farmer, a general passenger agent of the Rock Island at Fort Worth, all made short addresses, expressing satisfaction with the results obtained to date and pledging continued co-operation in 1930, although all three said they could not name the exact amount to be contributed until the question had been submitted to their respective vice presidents in charge of such expenditures.

Short talks were also made by J. D. Tinsley, agricultural agent of the Santa Fe and others.

Following the luncheon L. A. Wells, newly appointed representative of the West Texas Chamber of Commerce at Amarillo, told of his meeting with the board of that organization recently and of plans made to co-operate with the Panhandle-Plains, Inc. He closed with a plea for less wheat acreage in large bodies and more diversification.

Counties Give Reports

Reports by counties followed, many of those represented pledging definite amounts, while some asked for more time in which to get the project through their local organizations. The net result was very gratifying to the officers of the Panhandle-Plains and showed an unmistakable growth in confidence, support and general interest.

Standing Committees Named
Four standing committees were announced by the president as follows:

Exhibits—George Briggs, Pampa, chairman; W. H. Upchurch, Canyon; E. W. Thomas, Memphis; C. B. Martin, Parker; D. Hanna and Col. R. P. Smythe, Plainview.

Publicity—Sam Braswell, Clarendon, chairman; Maury Hopkins, Plainview; W. H. Carville, Amarillo; John L. McCarty, Dalhart; Seth B. Holman, Amarillo.

Finance—E. B. Black, Hereford, chairman; Dr. J. A. Hill Canyon; F. H. Hill, Panhandle; J. E. Hill, Hereford.

Itinerary—W. H. Clutter, Amarillo, chairman; Dr. O. H. Lloyd, Vega; E. B. Muse, M. B. Yates, J. D. Tinsley, G. L. Boykin.

Delegates who registered were: Dr. J. W. Stevens and Allan Heard, Tulsa; Dr. O. H. Lloyd, Vega; M. B. Oates, agricultural agent, Rock Island, Wichita Falls; L. N. George, W. H. Upchurch, Dr. J. A. Hill and J. S. Humphreys Canyon; E. B. Black, J. E. Hill and J. A. Miller, Hereford; George Briggs, Pampa; Sam Braswell and G. L. Boykin, Clarendon; Maury Hopkins, Plainview; G. Granville, Borger; E. W. Thomas, county agent at Memphis; A. T. Holcomb, John L. McCarty and J. O. Colquitt, Dalhart; Garnett Reeves, Lubbock; H. W. Carville, O. V. Vernon, R. E. Townsend, P. C. Bennet, Frank Ford, Howard A. Ferguson, W. H. Clutter, B. Frank Bennett, Mayor E. O. Thompson, L. A. Wells, H. M. Luna and J. D. Tinsley, Amarillo; John G. Farmer, Fort Worth; V. E. Kummers, Fort Worth; F. D. Daggett, Fort Worth.

Can't Praise Too Highly, She Says

GREENVILLE WOMAN SUFFERED FOUR MONTHS WITHOUT ANY RELIEF—GAINS ON ARGOTANE.

"I am certainly very grateful to the good people who told me about the good Argotane in the papers for now my strength is coming back to me and I sincerely hope my statement will be the cause of others getting relief," said Mrs. L. A. Aldridge, residing on Route No. 7, eleven miles east of Greenville, Texas, while talking to the Argotane representative.

"I was sick for over four months she continued, and finally got in such a bad shape and felt so miserable I thought I would simply have to give up entirely. My liver was sluggish, and I would bloat and have heartburn and spells of indigestion and my nerves were in such bad shape I couldn't sleep well at night. I always had to be

POLITICAL EYES NOW TURNING TO GOVERNOR RACE

MOODY MAY CHOOSE TO RUN AGAIN IF FERGUSON ENTERS FIELD.

By GORDON K. SHEARER

United Press Staff Correspondent. Austin, Tex., Jan. 20—(UP)—With five months yet to go before the closing date on formal notices of candidacy, entries already are being made in the race for next governor of Texas.

All who send in the specified information and \$100 to State Democratic Chairman D. W. Wilcox of Georgetown by June 2 are entitled to go on the ballot—if they meet the requirements.

What those requirements will be remains in doubt. Tom Love particularly wants to know. He has sent his \$100 and application early so it can be determined. If voting for Hoover last time is a bar Love wants to know as soon as possible. Ear Mayfield, former U. S. Senator, already is in actively with a campaign organization, tho up until recently he had not made the formal notification. He is not worrying about who else gets into the race. The man who decides his political course on what someone else does, will not get anywhere, Mayfield confided.

At last reports, former Gov. James Ferguson was still withholding a decision about whether he or "Ma" will be a candidate. And the feeling is generally spreading that should either "Ma" or "Pa" announce, Gov. Dan Moody will brave the third term bugaboo and announce too. Precedents do not greatly bother Governor Moody. He broke one when, as attorney general, he announced for governor against Mrs. Ferguson, who was completing her first term. It would be a daring stroke but it would, if successful, again put Governor Moody in a place

very careful what I ate and even then gas would form and fill me up in a very uncomfortable manner."

"Argotane is the only thing that ever helped me and I began to improve almost as soon as I started taking it. I began to eat and enjoy my meals and pretty soon I could tell I was gaining in strength. I am growing stronger day by day and all my aches and pains are disappearing. My nerves are perfectly quiet and I sleep like a child and can eat and digest anything I want. This is what Argotane is doing for me and I can't praise it too highly. Genuine Argotane is sold in Clarendon by Stocking's Drug Store who are direct laboratory agents.

where national political honors might find him. He overcame the bugaboo of youth when first elected governor—perhaps he could do the same with the no-third term tradition.

At least Governor Moody is going to be in the limelight during the coming 30 or 60 days that the state legislature is in session. His proposal for state roads built with convict labor ties into one of the two main issues before the public. It connects the prison reform movement and the road issue. Incidentally it might do away with the demand for a \$300,000,000 state road bond issue, which a large majority of the gubernatorial candidates have declared against. As the cigaret ad says so many people can't be wrong.

Konjola Wins; Suffering Of 3 Years Ends

STOMACH WAS IN DREADFUL CONDITION—UNTIL KONJOLA WAS TRIED ALL MEDICINES FAILED.

MISS BERTHA PARK

"During all the years that I suffered I tried medicines and treatments galore but until I started on Konjola I did not get the slightest benefit," said Miss Bertha Park, 5170 San Francisco avenue, St. Louis. "Three years of suffering from stomach trouble made a wreck of me. For every meal I paid a price in misery. Gas, bloating, heartburn and indigestion pains were sure to follow. I dieted without result, except to lose weight and strength. Constipation did not yield, except temporarily, to the strongest laxatives.

"With the very first bottle of Konjola came the realization that I had found the right medicine. As I continued taking it, my appetite increased, my digestion was restored, and I rapidly gained in

MARKET CHANGES LITTLE DEMAND SOME IMPROVED

The cotton market during the period Jan. 11-17 witnessed narrow fluctuations and on Jan. 17 quotations were changed but little compared those of Jan. 10. It was said that both domestic and foreign demand showed a slight improvement compared with that prevailing during the previous week, but that the advanced basis asked by holders of cotton as restricting business. Inquiries continued to be directed to the medium and higher white grades with some inquiries covering low grade cottons in the better qualities. According to the Weather Bureau, considerable plowing was accomplished last week in the western cotton belt, but in the east field work was at a standstill. According to the Bureau of the Census, domestic mills during Dec. consumed 453,892 bales compared with 533,501 for Dec. 1929 and total consumption for the 5 months ending Dec. 31 amounted to 2,742,602 bales compared with 2,779,359 for corresponding period the previous season. According to the same source, the number of bales on hand on Dec. 31 in consuming establishments was

1,844,248 against 1,733,930 on Dec. 928. The number of bales on hand in public storage on Dec. 31 was 5,914,422 compared with 5,236,722 a year ago. Quotations for Middling spot cotton for Jan. 17 Norfolk 17.19c, Augusta 17.06c, Savannah 17.14c, Montgomery 16.45c, New Orleans 17.05c, Memphis 16.55c, Little Rock 16.38c, Dallas 16.20c, Houston 16.95c, Galveston 17.00c. Average for the ten market Jan. 17th 16.80c against 16.69 Jan. 10 and 19.12c on same day last year. Reported sales of spot cotton in the ten markets for the week were 84,122 bales against 90,492 the week before and 132,547 for the corresponding week the year before. Jan. future contracts for the week at N. Y. advanced 8 points to 17.20c. New Orleans 1 point to 17.94c, and at Chicago 1 point to 16.96c. Certified stock Jan. 17th, N. Y. 90,951 bales, New Orleans 56,846, Houston 40,958, Galveston 15,677. Total stocks N. Y. 93,247, New Orleans 510,465, Houston 1,114,312, Galveston 467,501. Exports for this season to Jan. 17th were about 4.7 million bales compared with about 5.3 million for the same period one year ago.

USEFUL HINTS FOR CUTTING GAS BILLS

Before baking potatoes, let them stand in hot water for 15 minutes. If this is done, only about half as much gas will be required to bake them.

Green vegetables cooked in a small amount of water require less gas and retain their mineral salts, color and flavor to a greater degree.

It is wasteful to use the giant burner for boiling. Too rapid boiling increases evaporation, but saves no time in cooking, since water cannot be heated beyond the boiling point.

Too hot an oven produces large holes in quick breads. Five to eight minutes will heat the gas oven for most mixtures, and ten minutes for biscuits.

The life of a gas range depends upon the care given it. Every part should be kept clean if it is to operate most economically and efficiently.

An interesting feature of the government's helium plant near Amarillo is the tank cars that are now being built in which to transport the gas to the aeronautical fields. Each car will carry three huge cylinders, firmly tied in pyramid shape to the cars. They will be filled under a pressure of 2,000 pounds to the square inch, and the three cylinders will transport, at this pressure, 200,000 cubic feet of gas. The cylinders are tested to 3,500 pounds of pressure before being put into service.

A State pecan marketing association is being organized under auspices of the West Texas Pecan Association.

A NEW AGE OF LUBRICATION BEGINS WITH THIS NEW MOTOR OIL CHARACTERISTIC:

"Penetrative Lubricity"*

CONOCO Alone Has this New Characteristic

Since the discovery of the wheel, lubrication has been a necessity and a problem. The first rude barrows which pre-historic men built, needed lubrication, and one of the brighter tribesmen began rubbing the axles of his primitive cart with raw animal meat.

With Watt's invention of the steam engine in 1763, metal-on-metal friction resulted. Then it was that animal and vegetable oil lubricants became definitely unsatisfactory. Their tendency to leave corrosive deposits ruled them out.

Mineral Oils Are Discovered
After the drilling of the first oil well in 1859, mineral oils became commercially successful. Because petroleum was plentiful and was free from gumming and corroding tendencies, it rapidly supplanted animal and vegetable oils.

Germ Process and Penetrative Lubricity
The Germ Process adds one startling characteristic to CONOCO Germ-Processed Motor Oils. It enables them to penetrate metal surfaces. This means that an enduring oil film actually penetrates all working parts and clings under all conditions. In starting when 40% to 60% of motor wear occurs... in speeding when any failure of the film is fatal to motor life, remember this—the permanence of this film precludes any possibility of metal abrasion. The germ essence naturally adds greater "oiliness" and we call that lubricity. So we have Penetrative Lubricity as the outstanding characteristic of this new oil.

THE FOUR AGES OF LUBRICATION

ITEMS OF INTEREST IN DONLEY

ASHTOLA

It seems that it just clears up enough that we can have a very good sized crowd at Sunday School every Sunday. There was no preaching, but B. Y. P. U. at 7 o'clock.

The Ashtola Home Demonstration Club met with Mrs. J. C. Drennan January 15. Miss Mary Lovell is our club living room demonstrator and Mrs. N. L. Jones our club poultry demonstrator. Miss Thompson gave a very interesting talk on the living room after which a dainty plate of sandwiches, cake and chocolate was served by the hostesses to the following ladies: Mmes. Jones, Holly, Merrill, Hill, Randall, Swinburn, Roberts, Allen, Poovey, Johnson, Tims and Misses Thompson and Lovell.

School attendance the past week was small on account of the snow and cold weather.

Mrs. Davis, one of the teachers spent Wednesday night with Mrs. Howe Smith and Thursday night with Mrs. H. C. Tims.

Miss Mary Lovell returned home Saturday evening after spending a week with her aunt, Mrs. Henry Lovell, in Clarendon.

Miss Jessie Swinburn visited Miss Vera Johnson Sunday.

Mr. and Mrs. Elba Ballew visited Mr. and Mrs. L. B. Merrill Thursday.

Mr. and Mrs. Edd Lovell spent Saturday night with Mrs. Albert Reed and family.

Miss Thompson met with the Girls Club at the school house Wednesday morning with a good attendance. She gave a talk on caring for baby chicks.

C. B. Harp and family visited in the Lu McClellan home Sunday.

The following visited Elsie Gregg and family Sunday: Mr. Jean Payne, Charles Phifer Jewel Reed, Willa Poovey, Vee, Cleo and Ruth Moreland.

Those who visited J. F. Parker and family Sunday were: Rantz Cockrell, J. M. Jordan, Leo Wallace, Grandpa Gregg, Virgie Wallace, Irene Collier and Ima Poovey.

A. L. Allen and family visited their son, Sam and family, at Hedley Sunday.

We are glad to report Miss Gladys Holly able to return to her work at Olton Saturday after being at home sick for several weeks.

Mr. and Mrs. Clarence Hickcock visited at Newlin and Estelline Sunday.

W. F. Barker and son, Clyde, were dinner guests of Cecil Merriam Sunday.

Mrs. Sam Allen of Hedley, and son of Hedley, are spending this week in the A. L. Allen home.

Misses Jessie Swinburn and Beatrice Randall, who are attending school in Clarendon, spent the week-end with homefolks.

We are sorry to report Mrs. Oscar Kempson on the sick list this week.

J. R. Brandon, was a McLean visitor Friday.

The weather continues bad and cold with the ground covered in snow.

John White, wife and son visited the lady's parents Monday night near Claude.

BRICE

Mr. Ben Hill of Clarendon, was a business visitor in the Flat Tuesday.

Mr. and Mrs. Edward Wheeler returned home Tuesday from Clarendon, where they had been at the bedside of Jim Pharr, her brother.

Mr. and Mrs. M. L. Pittman and son, Luther Nyal, of Martin, spent Thursday with her brother, Lafe Smallwood and family. They called in the D. T. Smallwood home awhile in the afternoon.

Mrs. C. K. Killough is on the sick list this week.

D. T. Smallwood and Mr. and Mrs. Edward Wheeler motored to Clarendon Wednesday afternoon to visit with Jim Pharr at the sanitarium a short while.

Mrs. D. B. Gentry, Miss Mary

NAYLOR

Messrs. Seal and Zink of Memphis were visitors of Mr. and Mrs. Richmond Bowlin Wednesday.

Misses Rachel and Louise Tidrow and Lucille Johnson spent Saturday night at Memphis guests of Mr. and Mrs. Frank Proctor and spent Sunday at Quitaque.

Mr. and Mrs. A. E. Tidrow were Clarendon visitors Monday.

Mr. and Mrs. Walter Scott and family were Hedley visitors Saturday.

So many of Naylor folks enjoyed the sunshine of Saturday and made a getaway to town.

Rev. Charlie Williams filled his regular appointment Sunday. We are always glad to have him with us.

W. M. Pickering has suffered somewhat from hunters, having had a cow and one of his work horses shot. We ask hunters to be careful.

Wylie Buchanan of Clay County, is spending several weeks with Mr. and Mrs. R. Bowlin.

Despite bad weather our school is doing fine work.

Mr. and Mrs. R. Bowlin, also Mr. and Mrs. Rhea Bowlin spent Sunday at Hedley guests of Wynne Bowlin and family.

Mrs. Robert Johnson and sons, shopped at Clarendon Saturday.

W. M. Pickering made a trip to Amarillo Tuesday, taking a load of sweet potatoes he had sold to the M. System.

GOLDSTON

Rev. Gattis, the Methodist pastor, filled his regular appointment Sunday morning at eleven o'clock. Sunday School was well attended in the afternoon considering the cold weather.

We had another nice little snow Sunday night.

S. J. Dyer and his sons, Cecil and Clyde, and Mr. Jolly motored to Panhandle Tuesday of last week.

Mr. Lee Martin, who has recently moved into the community took his wife to the Adair hospital last Monday afternoon.

Leonard Goldston and J. A. Stewart killed hogs Tuesday of last week.

Sam Hill was a Clarendon visitor Wednesday of last week.

There was singing at the school house last Sunday night.

Lola Fay Stevens visited with Dorothy Dilli for a couple of days last week.

Mr. and Mrs. Leonard Goldston and children visited relatives in Clarendon Saturday of last week.

Sid Harris visited his parents at Hedley Saturday of last week.

Mr. and Mrs. Clemens have a very sick baby in the hospital at Clarendon.

Mrs. Dilli and children and Joseph Dilli and wife visited Mr. and Mrs. George Dilli near Pampa last Sunday.

Misses Dixie May and Allen Parks of Clarendon attended Sunday School here last Sunday.

W. L. Goldston made a trip to Groom Monday of this week.

Mrs. W. C. Hughes visited Mrs.

Mrs. Gollighugh Monday afternoon.

Miss Cleo Pope visited a couple of days last week with her sister, Mrs. Joseph Dilli.

Mrs. Mahaffey of Clarendon, who has been helping in the L. J. Goldston home for some time returned home Tuesday of last week.

Mr. Elmore and Son, Fontayne, made a business trip to Alanreed Tuesday of last week.

Mrs. Henry Wilson and children of Alanreed, are visiting with her parents, Mr. and Mrs. Parker, while her husband is moving to Dalhart.

L. J. Goldston was a Clarendon visitor Tuesday of last week.

Clyde Hudson has been carrying the mail on this route for several days as the regular carrier has been on the sick list.

Mr. and Mrs. Clyde Dyer visited relatives in McLean Wednesday night of last week.

Mr. and Mrs. W. C. Hughes attended a party at the O. L. Smith Ranch Wednesday night of last week.

Mr. and Mrs. Fontayne Elmore spent Wednesday night of last week with Mr. and Mrs. Clyde Hudson near Clarendon.

Mrs. Elmore was on the sick list last week.

We had a severe snow storm Friday of last week which drifted the snow so badly we had no mail for two days.

Howard Stewart of Clarendon,

SELECTION OF EGGS IS IMPORTANT TO HATCH

Will your eggs hatch? Will they produce strong vigorous chicks? These are questions of timely interest as the hatching season is just ahead.

"Select eggs that are uniform in size, shape and color with firm smooth clean shells," says the 1930 issue of the Purina poultry book, in reminding poultry producers to eliminate the question mark from the next hatch. "Do not keep longer than two weeks and turn them daily to avoid any

possible adhesion of the yolk to the shell. Be sure and keep in mind that the fresher the eggs the better the hatch and the more vim, vitality and vigor in the chicks, providing the breeding flock has been fed and cared for properly. To get better chicks out of your incubator put better eggs into it."

The information given in the booklet is the result of a recent study made in 2584 hatcheries in all parts of the country.

The Waggoner Ranch in Wilbarger, Archer, Wichita, Baylor, Foard and Knox counties contains 512,000 acres or more than 800 square miles—approximately two thirds as large as Rhode Island and one-third as large as Delaware.

Mr. and Mrs. Monty Garrison and children of Childress, visited in the Elmore home last Saturday night and Sunday returning home Sunday afternoon.

Mrs. Clyde Hudson visited with her parents, Mr. and Mrs. G. R. Grant, Thursday of last week.

- HYDRAULIC SHOCK ABSORBERS: Four Delco-Lovejoy hydraulic shock absorbers on all models eliminate road shocks and increase comfort.
50-HORSEPOWER MOTOR: A great six-cylinder motor, increased to 50 horsepower, gives smoother, quieter operation, with greater power.
BRONZE-BUSHED PISTONS: The stronger, lighter pistons are bushed with high-grade bronze to provide smoother operation and longer life.
NEW HOT-SPOT MANIFOLD: A larger hot-spot manifold insures complete vaporization of fuel—improving performance and efficiency.
STRONGER REAR AXLE: Larger and stronger rear axle gears—made of the finest nickel steel—add to durability and long life.
NEW ACCELERATION PUMP: A new automatic acceleration pump provides the flashing acceleration which modern traffic necessitates.

- WEATHER-PROOF BRAKES: Fully-enclosed, internal-expanding, weather-proof brakes assure positive brake action at all times.
GASOLINE GAUGE ON DASH: The instrument panel carries a new grouping of the driving controls—including a gasoline gauge.
NON-GLARE WINDSHIELD: The new Fisher body non-glare windshield deflects the glare of approaching headlights.
LARGER BALLOON TIRES: New, larger, full-balloon tires with smaller wheels improve roadability, comfort and appearance.
TWO-BEAM HEADLAMPS: Two-beam headlamps controlled by a foot button permit courtesy, without dimming the lights.
ADJUSTABLE DRIVER'S SEAT: All closed models have an adjustable driver's seat—a turn of the regulator gives the proper position.

Friday Afternoon Bridge Club

Mrs. C. E. Miller entertained members of the Friday Afternoon Bridge Club and other friends Friday at the beautifully appointed home of Mrs. P. L. Chamberlain.

A number of rounds of bridge were played and Mrs. P. L. Chamberlain received high score for club members. Mrs. W. S. Bagby guest high score. Mrs. Clyde Price low score. Mrs. Sam Dyer cut consolation.

At the conclusion of the games a lovely two course luncheon was served to the following: Mmes. Tolman Kennedy, Chas. Trent, P. L. Chamberlain, E. W. Taylor, Dorr Ellis, O. L. Jenkins, W. S. Bagby, Sam Dyer, P. B. Gentry, Clyde Price, C. W. Bennett, Jr., B. F. Kirtley, Ralph Kerbow, M. P. Gentry, Forest Sawyer, Earl Alexander, Ira Merchant, Cleo Norwood, Misses Mary Cooke, Beulah Baird, Anna Moores, Evers, Stroder.

Mrs. Carl Andis and Lois Cox Entertain

Tuesday evening the telephone force entertained in the J. R. Cox home with a forty-two party by Mrs. Carl Andis and Miss Cox.

Miss Elma Smith and Mr. Guenter Langkan favored the crowd with several delightful selections on the piano. Dainty refreshments were served at a late hour to the following guests: Mr. and Mrs. Rhea Couch, Mr. and Mrs. Earl Naylor, Misses Elma Smith, Lela Lamon, Fanny Perry, Eula Naylor, Messrs. Carl Andis, Joe Holland, J. R. Cox, Jr., Guenter Langkan, Ed Smith and Charles Walker. Hostesses Miss Lois Cox and Mrs. Carl Andis.

Christian Ladies Aid Meets

The Ladies Aid of the First Christian Church met at the home of Mrs. Frank White Wednesday afternoon with 13 members and one visitor present.

The Vice President, Mrs. G. A. Anderson, presided in the absence of the President, Mrs. O. D. Leisberg.

Mrs. R. C. Bryan led the devotional, taken from the 11th chapter of Luke, which proved very interesting. At the conclusion of the lesson the hostess served a delicious two course lunch.

The Aid will meet next week at the church with Mrs. Frank White leading the devotional, which will be the 12th chapter of Luke.

Baptist W. M. S. Holds Meeting

The East Circle of the Baptist W. M. S. met in the home of Mrs. E. R. Tatum Wednesday afternoon with 8 present.

Mrs. J. T. Warren led the Mission study and Mrs. W. C. Stewart led the Bible study.

Refreshments were served at the close of the lessons.

Methodist Missionary Society

The Woman's Missionary Society of the Methodist Church met in the home of Mrs. W. M. Murrell Wednesday afternoon.

Mmes. U. J. Boston, Tom Goldston, Paul Shelton, Fred Buntin, led the discussion of the lesson on "What Next in Home Missions."

St John's Chapter Meets

Members of St. John's Chapter met with Mrs. Clyde Price Wednesday afternoon with an average attendance. During the business session it was planned to have a Saturday market once a month, taking orders over the phone, the first one to be held next Saturday, January 25.

After a discussion of the lesson refreshments were served.

POLITICAL OPERATION NOT GOOD BUSINESS SAYS E. H. HURLEY

"I am against government ownership principally because I am a business man; and like most other business men, I have observed that even poorly-managed private concerns are better directed than public concerns," said Edward H. Hurley, former chairman of the Federal Trade Commission, recently.

"Today the important point is not who owns a thing, but who manages it. Big business is no longer managed by the people who own it. The railroads and the power companies today are owned by millions of stockholders and bondholders direct, or by insurance companies and savings banks, which own them in trust for millions of policy holders and saving depositors.

"You can't properly manage a thing unless you know how to operate it. The private manager must make the income of the business at least equal its expenses. Back of the private manager there

Digest on Rights of Married Women

Austin, Tex., Jan. 20.—(UP)—So many calls have been made upon the Texas State Library for information regarding the civil rights of married women in Texas that a compilation of the laws has been prepared by Miss Doris H. Connerly and placed in the library.

There has been no attempt to include all the laws affecting all women, but only the ones that set out special provisions bearing upon their civil rights. Labor laws, suffrage and such topics are not included. Specially full reproduction is given the sections of Texas law under the titles Husband and Wife; Descent and Distribution; Wills and the section of the penal code bearing on Wife and Child Desertion.

Substance is given also of the laws on separate property, community property, homesteads, guardianship of children, inheritance of property, regulations of wills, marriage and divorce, acknowledgments of administration of estates.

The compilation opens with the marriage laws, including the "notice of intention" law. It will be a surprise to some that marriage stipulations may be entered into aside from those of the usual marriage ceremony.

These stipulations may be such as the parties desire provided they are not contrary to good morals, contrary to some law, or do not affect the status and inheritance of children. Such marriage contracts to be effective must be entered into before the marriage ceremony.

Errors in the laws passed by recent sessions of the legislature are bringing down considerable adverse comment upon the heads of the lawmakers.

Acts that have either been knocked out by the courts or have been ignored because they did not work out as expected include the law that sought to give unclaimed bodies from state institutions to the medical school for dissection. Moreover, the law that under it bodies of Confederate veterans could be claimed for dissection.

Another law sought to prevent "bootlegging farm labor" by prohibiting removal of workers or tenants during the night. It was roundly condemned by the Court of Criminal Appeals as too definitely drawn to be intelligible.

Another sought to arrange for elections to prohibit stock running at large in Harris and Galveston counties. It was found the wrong statute was amended.

One wholesale attempt was made to correct errors by ordering a codification. This then was adopted by the legislature. After hundreds of errors have been found in it, still others are being encountered from time to time.

stalks the bankruptcy court and the fear of being thrown out of a job.

"With the government manager the case is different. The fear of being put out of a job is ever present, but it is not linked with the fear of waste, inefficiency or bankruptcy. He knows that the government cannot go bankrupt as long as it has the taxing power and while the people have anything on which to levy a tax. He knows that in the last analysis his job depends upon votes, and that there are many quicker and easier ways to get votes than to conduct a public business so cheaply and efficiently that it will show a profit.

"Inherently the man in politics is no better or worse than the man of private business, but he is in another kind of game, and plays according to different rules."

DRIVERS LICENSE WANTED FOR PARKS

MAJOR PARKS PROJECTS FOR TEXAS SEEKS REVENUE TO SECURE LAND SITES.

The cherished dream of a state park in the Paloduro Canyon looms nearer as representatives of the major park projects of Texas joined forces Monday of this week at Austin to work out plans looking to that end.

Committees representing the four major state park projects in the Davis Mountains, the Guadalupe Mountains, Paloduro Canyon and Caddo Lake section, met there Monday night with local citizens, members of the Legislature and members of the State Park Board in an effort to work out a satisfactory method of financing the purchase and improvement of the proposed parks.

Following a round table discussion Fred M. Herndon, secretary of the Texas State Parks Association, made a motion for the appointment of a committee of five persons, one representative each from the four projects together with D. E. Colp, chairman of the State Park Board, to work out the financing plan. This motion was unanimously carried and Lee Satterwhite of Odessa was named chairman of the committee with the following members: C. H. Walker of Pampa, representing the Paloduro project; H. L. Burney of El Paso, representing the Guadalupe Mountain project and Robert Key of Marshall, member of the State Park Board, the Caddo Lake project.

made by D. E. Colp, chairman Texas State Park Board, San Antonio, who called the meeting at Austin of committees of these projects to complete plans and try to get a promise from Gov. Dan Moody for an early submission of the bill.

"These parks" Mr. Colp says, "will attract enough outside tourist traffic to bring to the Highway Department over \$1,000,000 annually in gasoline taxes. These tourists will spend nearly \$5,000,000 for gas and nearly \$1,000,000 for oil, tires, repairs and storage will bring the total to \$12,000,000, with hotel, drinks, cigars and other purchases making \$25,000,000 annually from an investment of \$1,000,000 in parks. Small parks will serve as depots between the larger ones.

"Railroads and power industries are in favor of this legislation; in fact, nearly all interests, except the oil people, and they are somewhat divided. Many of the oil people oppose anything that touches on a tax on automobiles or its accessories."

Brief improvement items show that San Marcos, spending \$250,000 for new buildings in 1929, will exceed that in 1930. Jacksonville is soon to start on a \$100,000 city hall. Laredo will have completed a \$500,000 building program by the end of the year. Austin set a new high building record in October and total for the year is \$3,000,000 with much work in adjacent suburbs that cannot be included. Architects are working on plans for a 300-room hotel on the foundation of the Nalle building, unfinished office structure. Many, practically all, the Texas towns and cities are going ahead in building and improving and adoption of "city planning" programs by an increasing number of towns shows attention is being given to the esthetic side of city-building.

The scratch feed is put in the litter to give the chickens exercise. Keep the litter in the house about 6 inches deep and scatter the whole-grain ration through it at feeding time. A good scratch ration is 2 parts of corn and 1 part each of wheat and oats. Un-

less a good grade of heavy cats is available it is advisable to omit this grain from the ration. The morning feed should be a light one, to keep the lens scratching most of the morning, and the evening one should be large enough to have the birds go to roost with full crops. Stir up the litter frequently with a fork; this prevents it from becoming packed down and compels the birds to hunt for the grain.

Announcement Column

The Clarendon News is authorized to announce the names under each public office listed below, as candidates for said office, in the Democratic Primary in July, and in the second primary in August if necessary:

For District Attorney, 100th Judicial District: JAS. C. MAHAN.

GREAT THINGS ARE SEEN FOR DAIRY EXHIBIT

COUNTIES PROMISE TO MAKE FIGHT FOR HONORS AT PLAINVIEW.

Plainview, Jan. 16—A 20 to 30 per cent increase in both attendance and entries is predicted by the directors of the Texas Panhandle-Plains Dairy Association, which will hold its annual show in this city on April 7, 8, 9 and 10. At the same time the directors report that plans for the third annual show are being received with enthusiasm by chambers of commerce, farmers, business and professional men in each of the 54 counties comprising the Texas Panhandle.

From Shamrock the report comes that business men of that city, through the Shamrock Chamber of Commerce are arranging transportation for 100 farmers to the dairy show. Last year the attendance from Wheeler County only reached 18. Collingsworth and Carson Counties will increase their entries in the show this year 33 per cent, it is estimated, while Potter County will have from 15 to 20 head more to be judged than were entered from that county last year.

"You may look for Swisher County to have the largest number of entries, the most enthusiastic group of farmers and business men in attendance, and to carry off the majority of the premiums as we did last year," R. C. Nichols, well-known Jersey breeder of Swisher County, reported.

30 Head from Dawson

"Dawson County will probably have 30 head of the best Jerseys in our section entered at the show," W. W. Evans, county agent of that county, stated. E. W. Smith, Lamesa editor, is working with Mr. Evans in building up the interest in that county in purebred dairy cows.

"Randall County will have as many entries as last year and I would not be surprised to see a substantial increase in both entries and attendance from our section," was the statement made by W. H. Upchurch, county agent of Randall County.

Representatives from Hereford state that Deaf Smith County will have more entries due to the development there following a dairy show in connection with the Deaf Smith County fair. More time. See me if you need a good milk cow. E. M. Ozier. (50tfc.)

LEGISLATURE TO GET FULL SLATE

FOURTH SPECIAL SESSION GETS IN ACTION WITH HEAVY DOCKET.

By Gordon K. Shearer
United Press Staff Correspondent

Austin, Tex., Jan. 20—(UP)—More than legislation is expected to be the result of the fourth special session of the Texas legislature which opened this week (Jan. 20) for a 30-day run. Many believe that the end of the 30 days will find business in such condition that additional time will be needed.

Beside legislation the session is expected to bring out some of the leading issues of the 1930 state campaign.

Gov. Moody limited the call to the two topics of prison operation and fee regulation. He may submit other topics as the work progresses. The legislature can act upon no topic he does not submit.

This bars consideration of a state income tax, for the governor has said definitely he will not submit that. Its suppression at this time may result in it being a big issue of the summer campaign.

It is also reasonably sure that the governor will not submit an alteration of the liquor laws. A request that he do so to permit the Dean state prohibition law to be modified to conform to federal law has been made. The W. C. T. U. filed protest and expressed the hope that he would submit only

DALLAS TO BE HEADQUARTERS COTTON BODY

TEMPORARY LOCATION IS GIVEN UNTIL FINAL CHOICE IS MADE.

Washington, Jan. 16—Dallas was selected as the temporary headquarters of the \$30,000,000 America Cotton Co-operative Association, the national sales agency for cotton, by the board of directors here late Tuesday. It is understood that the board was unable to reach a decision as to the place for permanent headquarters and that matter was deferred pending further investigation.

C. O. Moser of Dallas, president of the American Cotton Growers' Exchange, who has had several years' experience in co-operative marketing cotton on a large scale, was elected vice president and secretary of the new organization.

For the time being he will be in active charge of the Dallas headquarters to be maintained in the headquarters of the American Cotton Growers' Exchange, which is one of the co-operative members of the new organization.

The main official of the new set-up will be the vice president and general manager, but his selection was deferred until a later date. Other officers elected were: President, Allen Northington, Montgomery, Ala.; Alabama Farm Bureau Cotton Association; treasurer; Charles G. Henry, Little Rock, Ark.; Arkansas Cotton Growers' Co-operative Association. The following are members of the executive committee, in addition to the president of the association:

Southeast Division—U. B. Blacklock, Raleigh, N. C.; North Carolina Cotton Growers' Co-operative Association.

Mississippi Valley Division—N. C. Williams, Lake Providence, La.; Louisiana Farm Bureau Cotton Growers' Association.

Southeast Division—Sam L. Morley, Oklahoma City, Ok.; Oklahoma Cotton Growers' Association.

Far West Division—Gowan Jones, El Paso, Texas; Southwestern Irrigated Cotton Growers' Association.

The board of directors adjourned Tuesday, but the executive committee will continue to meet here for several days. Mr. Moser will not return to Dallas until the close of those meetings, it was said.

legislation to strengthen the Dean law.

The fee regulation promises to be a dead issue before the state campaign opens, for there is now every indication that no open fight will be made upon the proposed bill limiting maximum salaries. Sen. Pink Parrish, author of the bill, is confident there will be no fight on it. He points out that the organizations of public officials are sincere in their announcement that they will not oppose the measure. Their members, he points out, know that the limitations the bill proposes are more favorable than might result if the bill were defeated and made the subject of a general state campaign. It is also election year and officials who seek re-election would not be helped by a general discussion of the fees some are paid.

The prison topic remains as the one likely to furnish the big campaign material. With three plans suggested by various members of the Texas prison centralization commission and Gov. Moody proposing an alternate plan of employment of convicts in road building, there is little expectation that the question will be settled at the session. In that event it is almost sure to be a campaign issue. This time it is physical surroundings, lack of reformatory opportunity and lack of medical facilities, rather than cruel punishments, that are being held up as needing reform.

A bill carrying out the suggestion of a majority of the commission for building a \$4,000,000 industrial prison near Austin has been prepared by Sen. Edgar Witt of Waco.

Numerous changes are to be noted in the house of representatives since last session. The senate personnel remains the same.

1929 SETS RECORD FOR BUSINESS ORGANIZATIONS

Austin, Tex., Jan. 20—New corporations organized in Texas during December totaled 162, according to Bervard Nichols, editor of the Texas Business Bureau, issued monthly by the Bureau of Business Research at the University of Texas. These new enterprises were capitalized at \$8,423,000. These figures compare with 123 companies granted charters during December, 1928.

During 1929, a total of 2,630 corporations with capitalization of \$285,612,000 were organized, a new high record so far as numbers are concerned. In 1928, charters were granted to 2,488 companies capitalized at \$390,288,000.

TEXAS PRO LAWS ARE SUCCESS DR. WEBB THINKS

W. C. T. U. LEADER ALSO SEES EFFECTS COMING FROM 18TH AMENDMENT.

Dallas, Tex., Jan. 20—(UP)—Prohibition has been 90 per cent successful in Texas, Dr. Atticus Webb, superintendent of the Anti-Saloon league, said in looking to the tenth anniversary of the adoption of the 18th amendment on Jan. 16.

He sees inebriation passing with the generation, declaring it to be confined to a great extent to the "baldheads," and that youth is not taking to the hip pocket flask, home brew and cocktails as is generally believed.

Credit for increasing observation of prohibition laws was emphatically denied all law enforcement agents by Dr. Webb. Rather he attributed it to an innate respect for law, especially inculcated by educational campaigns of churches and temperance unions.

"Among state officers enforcement of the law is not so good today as it was 15 years ago," he said. "Propaganda of weeds has to some extent paralyzed state officers and given them the impression that it is not the state's duty to enforce liquor laws."

He pointed out that in 80 counties of Texas during the last 18 months 1894 indictments for prohibition law violations have been returned in state courts, of which only 1595 have been brought to trial, with 1188 convictions.

"The 'moral pest' in federal courts have been no more than cheap license to bootleggers," Dr. Webb continued. "Ninety per cent of the penalties issued in federal courts promote rather than suppress bootlegging."

"It is easy to get liquor in Dallas because in state courts of this county of 350,000 population only 11 bootleggers were brought to trial in 1929, and fewer still before that."

PANHANDLE SEES BIG YEAR AHEAD

RAIL IMPROVEMENTS TO LEAD IN INDUSTRIAL PROGRESS OF SECTION.

Amarillo, Texas, Jan. 21—(UP)—The Panhandle of Texas, which public school geographers of a quarter-century ago described as "the great American desert," is in a position to make the rest of the nation take notice in 1930, according to the following review compiled and presented by the Amarillo chamber of commerce.

Construction costing upward of \$25,000,000 is in prospect during the year, and some of it is already under way. Most of this amount will be spent for new railways and improved highways.

After leading the nation in railway building the last three years the Panhandle is still the center of the big rail fight, with three main lines, the Santa Fe, Rock Island and Burlington, struggling for supremacy. It appears certain now that the Santa Fe will get more than 200 miles under construction and the Rock Island more than 160 miles under way in 1930.

The Rock Island has been granted permission to build from Dalhart in Dallam County, to Morse in Hutchinson County, a distance of 58 miles, connecting the main line at Dalhart with their recently completed branch between Amarillo and Liberal, Kansas. Surveys for this road are now being made.

This company also is favored by the I. C. C. examiner for a permit to build from Shamrock in Wheeler County to Quanah in Hardeman County, 109 miles. This line would skirt the boundary of Oklahoma and give Amarillo a new trunk line southward.

A second new trunk thru the north panhandle to the mining district of Colorado at Las Animas, 218 miles, is proposed by the Santa Fe, and a hearing has been set for Jan. 22 in Amarillo. The petition is unopposed. The company also has other projects planned.

Panhandle counties will spend \$10,000,000 or more for the construction of 300 miles of hard-surfaced roads. Bonds have been vot-

Presbyterians Announce Services

The local Presbyterian Church as announced previously will begin a week of Evangelistic services, opening Sunday, February 2, and extending through the following Sunday. Rev. Gaines B. Hall of Wichita Falls, will do the preaching.

These meetings are part of a State wide campaign emphasizing the matter of personal evangelism, in which every Presbyterian Church is joining. These meetings will be "different" and the public is invited.

Friends of Mrs. R. A. Chunn will be grieved to learn that she is confined to her home this week with a rather severe cold and complications.

Why Suffer?

With a cold and its attendant worries? Take steps in time and prevent these colds. It is easy if you start in time.

CAPITOL News

PUT THIS IN YOUR PIPE AND SMOKE IT

Anyone who thinks that the preparation of tobacco for consumption in pipes, cigars, cigarettes, and even snuff requires nothing but sunlight and some machine processes should hear the latest estimate of Commerce's latest estimate on this subject. More than 115,000,000 pounds of sugar, licorice, and other materials were used in the manufacture of tobacco products in 1928, the Department states. This includes about 43,000,000 pounds of unrefined sugar and 33,000,000 pounds of licorice.

Moreover, that "mild" taste so widely advertised and so relished by consumers requires more than 34,000,000 pounds of aromas, flavin, essences, extracts, and so forth. These materials include a number of fruits, such as prunes, figs, peaches, and John's Bread, which are dried and pulverized especially for tobacco blending. Still other ingredients well known to tobacco manufacturers are deer tongue, or powdered vanilla leaves, made from a wild leaf growing in Florida, Georgia and the Carolinas, and Tonka beans, honey beans, gums, and syrups, according to the section of the country.

TO COUNT CITIZENS WHO HAVE NOT ARRIVED YET

Every twenty-six seconds another person is added to the population of the United States, according to the present rate of progress of births over deaths and immigration over migration. What a nice job that is making for Uncle Sam's nose-counters when they start their rounds in April. About a half million people who haven't been born or haven't arrived yet will be added to the 120,000,000 who are already waiting to be counted in the coming census taking.

There are many things, too, besides the bare enumeration of persons that our census takers will have to consider. If you live in the country, you will be asked whether your farm is owned or rented, how many horses, mules, chickens, cows, and so forth, are on the farm, and similar questions. If you live in the city, you will be asked the usual things about your age, sex, business, land of birth, and parentage. Because of the distances that rural census takers will have to travel from farm to farm, a month will be devoted to the country census in comparison with the two weeks to be spent on the urban districts.

We will know any number of things that we never guessed before when the final census report is made: how many doctors, teachers, lawyers, farmers, grocers, preachers, motormen, etc., there are in America; how many Americans were born in England, France, Germany, and every other alien country; how many factories and stores we have, what they make and sell, and where their products go; these are some of the high lights of information to be gleaned this year. An entirely new feature of the 1930 census will be the counting of our Mexican population as a separate race. This is likely to have an important effect upon our restrictive immigration policy which, so far, has not been applied to countries of North, Central and South America. Counting the Mexicans may have an effect also on interests such as sugar and railroads, that depend upon Mexican labor in the Southwest.

BOY SCOUTS IN THE SENATE

To be a Boy Scout is probably the ambition of every youngster who is not yet old enough to join

a troop. But imagine belonging to a Boy Scout Troop that holds its meetings in the Capitol of the United States. There is such a troop which has been recently organized by pages of the Senate, and it is sponsored by a Senatorial committee. The Chairman of the troop committee is the Reverend Dr. Z. B. Phillips, Chaplain of the Senate.

The idea of forming this unique troop was originated by one of the pages, Eagle Scout James Coleman of Columbia, South Carolina, who was appointed a page by Senator Smith of his State. His brilliant record as a Scout in South Carolina was largely responsible for Coleman's present position, and his eagerness for more scout life led him to evolve the Senate scout plan. Linn C. Drake, Scout Executive of Washington, D. C., brought about the organization of the troop, of which Charles E. Jackson, Secretary to Senator Smith, is Scoutmaster. The official headquarters of the Senate page group of scouts is a room in the basement of the Senate.

PROTECTING OUR OWN JAZZ

Whether the glesha girls of Japan will be invited to dance at the cherry blossom festival in Washington this spring is a question that the State Department may have to settle. One would hardly think this a contentious matter—unless one knows the attitude of Missionaries in Tokio toward the carefree dancers of Japan. When a report reached Tokio that the Washington Chamber of Commerce might invite the girls to this country, missionaries threw up their hands in consternation and protested vigorously. The geisha girl is considered a highly frivolous creature in Japan, religious workers are reported to have said, and what effect the dancers might have done upon American womanhood and manhood could not be foretold.

Those in charge of the festival have announced that they have not invited the young ladies yet, and that if they do so the approval of the State Department will first be obtained. American and British business men in Japan do not agree with the Missionaries; they think that an appropriate touch might be added to the festival by the Japanese dancing without any harm being done over here. The glesha girls themselves are exhibiting no concern whatever over the proposition, although it is generally thought that they will welcome a trip to these United States of America.

RUTH BAKER PRATT—SHE ALWAYS WINS!

While one of our Congresswomen holds the center of the feminine political stage in her flight for a Senate seat, as other is drawing the spotlight in her own state, Ruth Baker Pratt, once a capable crusader against municipal corruption in the city of New York, is being considered by her party for the gubernatorial nomination this year.

If Congresswoman Pratt achieves the position of Governor of the Empire State, she will have done for her party in New York what no male Republican has been able to accomplish for eight years. Although Mrs. Pratt has not expressed any desire for this unique honor, it is generally conceded that she would receive a windfall of votes that has been conspicuously absent from the results of any Republican campaigns during the past decade. This is what Alan Fox, leading Republican of New York has to say.

"I do not know, nor can one tell whether conditions today warrant the nomination of a woman for

governor of this State. The State convention must decide this. Surely, male candidates can not poll fewer votes than they have during the past ten years. Mrs. Pratt is a vote-getter. She always wins."

WOMAN OF DESTINY

Waiting to grow up can be extremely hard at times. When one is patiently counting the years as they creep along and looking to a future that means nothing less than an aviation career, it becomes almost unbearable. This is the case of Miss Pretto Bell, twelve-year old aviatrix-to-be.

Pretto was seized with a longing for airplanes and all that goes with them when she was only nine years old. At that time she announced firmly, "I want to fly. I want an airplane of my own." She says it and means it with increasing determination every year. A huge scrapbook full of newspaper and magazine clippings that have to do with aviation testify to her interest.

It is necessary to be sixteen years old, however, before obtaining a student pilot's license, although by a special dispensation of the Department of Commerce, it is sometimes possible to begin flying instruction at fourteen. To relieve the tedium of waiting, Pretto has registered for a course in the Curtiss-Wright Flying Service school at Los Angeles, California. She will have an opportunity to familiarize herself with the principles of flying and will probably learn to take a motor to pieces and put it together again with neatness and dispatch before she attains the age of discretion.

HENRY YOUNGBLOOD ASKS RE-ELECTION

The Clarendon News is authorized to announce the candidacy of W. H. (Henry) Youngblood for re-election as Commissioner of Precinct No. 2, subject to the action of the Democratic primary in July.

Mr. Youngblood has held office now just a year and has made a fine record in the road work and finances of his precinct, and it is on the basis of this record that he asks continuance in office. He says that every official act is open to inspection of the public and promises if re-elected to conduct the affairs of his office with fairness to all, as in the past.

See his name in the announcement column.

Dangerous Business

Our stomach and digestive systems are lined with membrane which is delicate, sensitive and easily injured. It is dangerous business, then, to use medicines containing harsh drugs, salts or minerals, when we are constipated. In addition to the possibility of injuring the linings of our digestive system, these medicines give only temporary relief and may prove habit forming. The safe way to relieve constipation is with Herbine, the cathartic that is made from herbs, and acts in the way nature intended. You can get Herbine at Douglas & Goldston Drug Co.

Over a Billion Deadly Germs in a Single Drop of Water

Germs are so small that there may be as many as one billion, seven hundred million of them in a drop of water. And just a few of these tiny germs, if they get into your blood through a cut in your skin, may make you so sick you will be in bed for weeks—may cause the loss of a limb through blood poisoning—may even infect you with that most dreadful and fatal of diseases, lockjaw.

Just because you can see no dirt in a cut does not mean that it is clean. You cannot see germs. The only safe and sane thing to do, is to thoroughly wash every cut, no matter how small, with Liquid Borozone, to kill the germs, and then dust it with Borozone Powder, to hasten the healing. Liquid Borozone costs 30 cents, 60 cents, \$1.20 and \$1.50; Borozone Powder, 30 cents and 60 cents. It can be had at Douglas & Goldston Drug Co.

Mayfield Platform Announced As Senator Plans Governor Campaign

Austin, Tex., Jan. 20.—(UP)—Substitution of farm ownership for farm tenantry is one of the chief planks in Former U. S. Senator Earle B. Mayfield's formal announcement as a candidate for governor in the Democratic primaries this year, which he issued Sunday.

Let the state of Texas, he proposed, by constitutional amendment, issue 35-year four per cent farm loan bonds, to be sold only as needed and the proceeds be used in carrying out the supplemental work of the state.

He would create a "State Farm Loan Board" composed of the land commissioner, the commissioner of agriculture, and the attorney general, whose duty would be to put into effect the land settlement policy as adopted by the legislature.

After making a searching investigation of the application of those who wanted to become owners of a farm, after bringing "the landless man and the manless and" together, the "Farm Loan Board" would then market sufficient bonds with which to pay cash for the land and then sell it to the farmer on 35 years' time, taking his vendor's lien note in favor of the state at six per cent interest payable annually.

Four per cent of this interest would go to pay the interest on the bonds and two per cent would be set aside as a sinking fund which would liquidate the entire indebtedness on the farm in 35 years. The purchaser would be allowed to pay the state every year as much as he desired to pay, but would be required to pay annually the six per cent interest.

When as much as 50 per cent of the loan had been paid, the state could float the balance in the Federal Land Bank at Houston, and the law would provide that the purchaser not only give on the land but cultivate it himself. Sale to anyone should be limited to 200 acres or a cash valuation not to exceed \$10,000. The plan does not involve a

dollar's worth of cost to the taxpayer, Mayfield declared. He merely advocates that the state shall do today what it did 50 years ago, proposing that it establish a rural credit system whereby it can use its credit in this way to bring about farm ownership. Better it would be to vote such a system than \$350,000,000 of bonds with which to construct highways that would wear out before the bonds were paid, he declared.

Other planks in his platform call for beauty shop, ginger ale, malt and cigarette taxes. Tax adjustments to relieve ad valorem taxes is advocated but not an income tax.

Public utility regulation through the present state highway commission is suggested. Tests for oil on Imperial Prison Farm and use of oil funds to may produce for prisoners building, on land now owned by the state is his prison platform coupled with a "happy medium" between "wholesale pardons" and "closing the door of hope" for prisoners.

Fair play is promised West Texas in the congressional re-dis-

Glycerin Mixture Stops Constipation

The simple mixture of glycerin, buckthorn bark, saline, etc. (Adlerika) acts on BOTH upper and lower bowel and relieves constipation in TWO hours! Brings out old waste matter you never thought was in your system. Don't waste time with pills or remedies which clean only PART of the bowels, but let Adlerika give stomach and bowels a REAL cleaning and see how good you feel. For Sale by Douglas & Goldston Drug Co.

A Great Discovery

When Pasteur discovered, in 1852, that the infection of wounds was caused by malignant bacteria, he performed a service of inestimable value to mankind. Since then medical science has been producing better and better antiseptics, to kill these germs that may enter the smallest cut and give us diseases such as typhoid, tuberculosis and lockjaw. Now, all you have to do to be sure that these dreadful germs will not infect a wound, is to wash that wound, however small, thoroughly with Liquid Borozone, the modern antiseptic. You can get Liquid Borozone, in a tin to fit your needs and purse, from Douglas & Goldston Drug Co.

Mrs. Della LaFon and daughters, Lois, Margaret and Johnnie, Tina and Ina Faye Pittman and Roberta Adkins and Carl Pittman spent until bed time with Mr. and Mrs. M. L. Pittman Sunday night listening to the radio. Mr. and Mrs. A. A. Smith spent Sunday with his sister, Mr. and Mrs. E. L. Mason. Mr. and Mrs. Warren Peabody and little son of Dumas, Texas, spent Friday night with his parents, Mr. and Mrs. W. D. Peabody. Miss Ola Bell Cash spent Saturday night with her sister, Mrs. Maxey, in the Hudgins community. The forty-two party met with Mr. J. B. Turnbow, Mr. and Mrs. Pete Hearne, Charlie Hearne, Sam Tankersley, Wallace Walling, Walter Morrow, Wayne Morrow were present. There wasn't any school Friday on account of bad weather. Mr. and Mrs. Smith and family, Mr. and Mrs. Masco, and family, Mr. and Mrs. Oscar Kempson and baby, Mrs. Silas Hayter and children spent Sunday with Mr. and Mrs. Hardin Edding. Louise Patterson spent Sunday with Mrs. J. L. Hood. Lois LaFon and Tina and Ina Faye Pittman called on Mr. and Mrs. J. L. Hood Sunday. Mr. and Mrs. J. B. Turnbow spent Monday morning with Mr. and Mrs. Sam Tankersley. Mr. and Mrs. Ralph Nichols spent Sunday with the lady's parents, Mr. and Mrs. Russell, at Clarendon. Mr. and Mrs. M. L. Pittman and son, Luther Nyal, spent Wednesday with her brothers, Lufe and D. T. Smallwood in the Brice community. Miss Emma Ayers spent Monday with Mrs. F. L. Jones out South of Clarendon. Mrs. A. J. Sibley and Sam Guy-

MARTIN

There was no Sunday School or church Sunday on account of bad weather. Rev. Jewel Sibley, associational Missionary, will preach here Friday night, Saturday night and Sunday and Sunday night. Mr. and Mrs. Moree of Goodnight, recently moved into our midst. We welcome them into our community and wish them much prosperity. Mr. and Mrs. Wallace Walling and children spent Sunday with his father and mother, Mr. and Mrs. Will Walling, at Lelia Lake. Miss Isabel Baley, who is teaching school at McLean spent the week-end with her father and mother, Mr. and Mrs. Edwin Baley. Mr. and Mrs. Luther Pittman and children were all day visitors with Mr. and Mrs. U. G. Pittman Sunday. Miss Jolly Sowell spent last week with her sister, Mrs. Thompson, at Clarendon. Mr. and Mrs. Elmer Kennedy of Hedley, spent Sunday with Mrs. Oswell Jones.

Our Beauty Parlor Service

Try as you will you cannot give your scalp, hair and complexion the expert attention you will receive in our beauty parlors. Not only have we the modern equipment, but we have the skilled operators who specialize in the different branches of beauty culture which enables our establishment to render an efficient and highly satisfactory service.

The Eyes of Texas

Kenneth Fink

Austin, Tex., Jan. 18, 1930—The \$250,000 memorial arch, which was provided for in Major George W. Littlefield's will, will be lost to the University of Texas unless it is placed in the location specified in the will, Mrs. Littlefield, widow of the donor, and H. A. Wroe, executor of the estate, announced last Wednesday. With "dead week" when no written work or quizzes are supposed to be given, and with final examinations coming in the next two weeks all social activities have been postponed to allow students to get ready for the examinations. More coffee probably will be consumed in the next two weeks than the entire quantity used in Austin since the University opened in September. Figures in the Daily Texan state that 21.39 years is the average age of all students enrolled in the University this long session. The average age for Freshmen in the College of Arts and Science is 18.45 years, which is slightly younger than the average last year which was 18.65. School of Law students average highest (except for the Graduate School) near 23 years. The office of the Registrar has compiled figures which show that 394 students have withdrawn from the University since September. Of these, 72 withdrew 10 days after January 2. Twenty-two University faculty members are mentioned in the 1929-30 "Who's Who Among North America Authors," which is published at Los Angeles. The student body has been Monday spent Sunday afternoon with their daughter and sister, Mrs. Bryan Owen, at Clarendon. Mr. and Mrs. Sanders and family of Brice, spent Monday with Mr. and Mrs. Sam Tankersley. Mr. and Mrs. Ernest Davis spent Sunday with the lady's parents Mr. and Mrs. Haley, at Clarendon. J. T. Easterling spent Sunday afternoon with Horton Sibley. Lawrence Wheeler spent Saturday night with J. L. Ayers. Pete Blair, Marvin Peabody and Howard Hame spent Sunday with Hubert Ford. Ella Mae Sullivan, who has been very ill is improved at this writing. Mr. and Mrs. Moree spent Friday night with Mr. and Mrs. Clark. Mr. and Mrs. Thompson of Clarendon spent Sunday with the lady's parents, Mr. and Mrs. Sowell.

amusing itself at the expense of members of itself all day. Because of the sleet which fell during the night, the ground and sidewalks were completely covered with ice. On the campus today students not having classes lined up and watched those on their way to classes slip, slide and take falls in various amusing and awkward positions. An anonymous ex-student has given the University of Texas a chime which will be installed in the middle tower of the Main Building before March 2. Sounding every quarter of an hour they will play four tunes: "The Eyes of Texas," "America," "Dixie," and "Come to My Bowler." The chimes, which consist of eleven bells and gongs with a big clock and electric motor weigh 4,000 pounds. They were made by the French manufacturer of Paris who made the chimes for the cathedral at Rheims. Plans have been made for the University to file suit for the recovery of title to about two hundred acres of oil land in Crane County, on which some twenty oil wells are now producing at an estimated value of several millions of dollars. The University ranks ninth in enrollment of full-time students, according to statistics published in a recent issue of School and Society, among the 226 schools on the approved list of the Association of America Universities. The University ranks fifth in engineering and law schools enrollment, and seventh in enrollment in the school of medicine. More attempts are being made to organize parties of students to go to Europe this coming summer than ever before in the history of the University of Texas. There are several explanations which may be offered for this: The Passion Play will be given at Oberammergau again this summer; people are becoming more "Europe-minded" and travel-crazed; and those making up the various parties hope to get their own passage free. A temporary floor is being in-

Bleeding Gums Healed

The sight of sore gums is sickening. Reliable dentists often report the successful use of Loto's Pyorrhea Remedy on their very worst cases. If you will get a bottle and use as directed druggists will return money if it fails, Clarendon Drug Store.

stalled in the auditorium-gymnasium for the basketball game with Baylor January 25. The brick finishing work inside the main auditorium is almost completed; the concrete section of the walls around the swimming pool is complete and the brick work has been started. The concrete tunnel which will connect the Power Building with the auditorium-gymnasium is about half finished. An image from a man made from a sandstone concretionary boulder has been found in a gravel pit near here. The image weighs 75 pounds; it was found at a depth of 16.5 feet. This discovery, according to J. E. Pearce, professor of anthropology in the University, adds to previous evidence that man inhabited North America 50,000 to 100,000 years ago. The present card for the Longhorn baseball club calls for 20 conference games, exhibition games with Iowa, Northwestern, New York Giants, New York Yankees, and other exhibition games will be booked with Texas League clubs and college teams in the immediate vicinity of Austin. It is hoped to be able to book more exhibition games with either northern or midwestern nines as they come south for training.

WHY HE CAN'T PAY HIS BILL

"I have your statement showing that I owe you \$760.00 and I am enclosing a check for \$5.00 for which please send me a receipt. I am sorry that I can not pay more at the present time, as money is scarce now. My own living expenses are terrible and I can hardly get along. I will try to send you another check for \$5.00 when I sell my hay, which should be in July. I cannot pay you more at that time for my daughter finishes at Bristol this year and that costs a heap of money. I thought I could send you a check when I got my cotton money, but it took all I could rake and scrape to put in Deleo lights as my wife didn't have electricity to run the sewing machine and vacuum cleaner. Then too we had to build a shed to put the Ford in so we could put the Cadillac in the garage and build a concrete bridge over the brook in our front lot, as well as a new road so we could get in and out better. "I can't send you the corn money in the fall because my son is going to college and although the lads of today are very economical about hats and garters, still a coon skin coat costs a lot. And even junk-yard Fords come rather high by the time they are decorated for college use. I might send you the hog money but the Misus and I have planned a trip to Niagara in the fall and after working hard all these years I think she deserves a trip. We can't go before taking out all the red plush and putting in overstuffed cane and mahogany. This is a terrible strain on my finances especially as the new well that was needed closer to the house and the new up to date barn have to be paid for. "All the farmers here are in a hard shape financially with strawberries this season at 75 cents a quart and the price of gasoline so high. Then too, there is an epidemic among the married women to have their plain gold wedding rings platinized and set with diamonds and everybody is having their tonsils and teeth removed."—Tulsa Bulletin.

A pecan grove is one of the best horticultural properties a man can leave as an estate, in the opinion of President McHatton, of the National Pecan Growers Association, and interest in the pecan industry, on a commercial scale, is increasing in many parts of the State. A 25-year-old pecan orchard is a dependable income producer as more and more Texans are finding, and the amount of grafting, top working and planting of new trees of improved varieties is almost amazing, looking at the State as a whole

Bladder Irregular?

If functional Bladder Irritation disturbs your sleep, or causes Burning or Itching Sensation, Backache, Leg Pains, or muscular aches, making you feel tired, depressed, and discouraged, why not try the Cystex 48 hour test? Don't give up. Get Cystex today. Put it to the test. See for yourself how quickly it works and what it does. Money back if it doesn't bring quick improvement, and satisfy you completely. Try Cystex today. Only 60c. For sale by Douglas & Goldston Drug Co.

New Chevrolet Sedan a De Luxe Creation

Every line and contour of the new Chevrolet Sedan bespeaks the aristocracy of the country estate. The body is beautifully finished in Boulevard maroon with black mouldings, black rear quarter and wheels, while trimming is of a contrasting shade of Aurora red. Interior trim is a harmonizing color of high grade mohair.

LIONS ARE TOLD OF BUILD WALLS FLAT COUNTY HOSPITAL AND RAISE THEM INTO POSITION

MANY COMPLIMENTS ARE GIVEN MANAGEMENT OF INSTITUTION IN CITY.

The Lions were told some of the many things being accomplished by the County hospital here Tuesday at their usual luncheon. Lion Caraway told of the financial end of the work and of the compliments that had been given the institution since it has been opened here. A number of the Lions were personally acquainted with Mrs. Teat, the matron, before she came to this city and each of them stated that she was well fitted for the position that she now holds. Others who spoke to this subject during the luncheon are Lions Murrell; Merchant, Noble, Wilder, Allison and Alexander. Each of them expressed their willingness and pleasure at having the hospital here and urged that an extra special effort be put forth to keep it in operation.

Lion Alexander stated that the Commissioners Court had put their official okay on hiring a County Agent and that the man would be put to work just as soon as he arrived on the ground in the county. The Court also allowed a room in the courthouse for the use of a late Highway crew that has had its headquarters in Panhandle for the past several months.

Lion Douglas spoke on the matter of proposed mail boxes to be left at the depot, and told the club that the mail would now leave Clarendon if it were placed in the postoffice after 8:30 in the evening, when heretofore, it would not have been distributed before the following evening. This little item will oftentimes save twelve or more hours on a letter over the old system. The mail is made up each morning before the early trains instead of in the evening as it had been before this date.

Lion Boykin spoke his mind and stated that he had absolutely no control over the weather, and that he would have it changed if he had his way about it. Incidentally, he announced the Chamber of Commerce Banquet for next Tuesday evening and urged every Lion to make his plans to attend, with his lady.

The first Little Theater play was announced as having been set for Friday evening, January 31. Lion Braswell stated that the cast and the director were working together to make this an outstanding success. The funds are to be used in connection with the securing of a curtain for the college auditorium, this being the first major project for this organization.

The remainder of the hour was taken in a discussion of attendance on the Chamber of Commerce banquet on next Tuesday evening.

The application of Rayburn Smith was read and held over to the next meeting as is the rule of the club.

Adjournment as usual.

LELIA LAKE BOY BURIED HERE LAST SATURDAY

The funeral services for Charles Eugene Whatley, five year old son of Mr. and Mrs. I. E. Whatley of Lelia Lake, were held in the First Baptist Church here last Saturday. Rev. E. L. Kennedy of Lelia Lake conducted the last rites. Interment was had in the Citizens Cemetery of Clarendon.

Charles Eugene Whatley was born March 6, 1924 and died at the home of his parents January 17th, 1930. He was 5 years, 8 months and 11 days old at the time of his death.

The youngster had a great host of friends despite the fact that he was only a few years old. He is survived by his parents, Mr. and Mrs. I. E. Whatley and a host of friends who join the bereaved family in sympathy at this sad time.

NEW TYPE OF HOUSE CONSTRUCTION PRODUCES SPEED AND ECONOMY.

By Wyatt Brummitt

A real revolution in house construction is under way. It began about fifteen years ago with what were frankly admitted to be experiments; but five years ago a drastic change was made and a new kind of house was produced. Today, with nearly a thousand homes built in the new manner, the experimental stage is passed. The plan, like every important advance, is essentially simple. To begin with, after adequate footings and foundations have been put in, a solid first floor, of either all-concrete or concrete and steel construction is put down. And then the walls are built, not in the old-fashioned way which means continual extra work in piling masonry up and up, or erecting framework or scaffolding to overcome gravity, but flat, using the floor as the working base.

Here's the routine. First, all openings, such as doors and windows, are established and their frames are laid in place. Then a layer of insulation-board is placed flat on the floor. On top of this a five inch of cinder concrete is cast. The next step is a two-inch layer of cement mortar, reinforced with a criss-cross of metal bars. While this mortar is still plastic, the exterior finish is pressed in to it—face brick, field stone, stucco or whatever the finish may be. When a wall has hardened, it is a simple matter to attach a derrick-hoist to it and swing it upright into position, with its lower edge securely and permanently tied into the foundation. And there's a complete wall, one or two stories high and all set to take the second floor joists and the roof.

The other three walls are built, then, lifted upright, with their corners fitting snugly into the previously finished walls. All that remains, then, is to

complete the house within this monolithic shell. According to the Carroll Triply Co., of Chicago, who hold the patents on this type of construction, the unusual degree of insulation obtained by the triply wall makes possible the use of gas for heating. The half-inch of insulation board, plus five inches of cinder concrete, containing millions of minute dead air spaces, afford in themselves insulation of a much higher type than is ordinarily found in homes. The addition of plaster on the inside and cement mortar plus a finish on the outside produces a wall of remarkably high resistance to the passage of heat or cold.

Houses of any architectural form may be built with this system. But, whether simple or elaborate, they are all fireproof, structurally strong and economical, both in construction and maintenance.

TEXAS INSOLVENCIES ARE SMALLEST EVER RECORDED

Austin, Tex., Jan. 20.—Commercial failures in Texas during December showed a small seasonal gain, according to Bervard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas.

A total of 47 insolvencies having liabilities of \$4,185,000 were reported, compared to 54 failures with liabilities involving \$1,085,000 in December, 1928. Mr. Nichols said. The record for the entire year was favorable. Not only were failures the fewest for any year since 1920, but also total liabilities were the smallest on record. During the year, 515 concerns having liabilities of \$8,720,000 failed, whereas 547 companies with liabilities of \$11,858,000 went into bankruptcy during 1929 averaged \$17,000, against \$22,000 in 1928. It appears, therefore, that the year just passed was possibly the most favorable one in the past decade from the standpoint of profits, Mr. Nichols said.

With an inexhaustible supply of clays and shales, there is increasing interest in the industries using those for their basic supplies. Most of the Texas clays used go into bricks, but there are several tile factories, a new one being that at Natalie, Medina County, recently completed at a cost of \$145,000.

CLUB NOTES

Monday, January 20, 1930 Martin Home Demonstration Club girls met with 9 present for the demonstration in club sewing. First year club girls worked on button holes. Second year club girls worked on decorative stitches suitable for underwear. Third year club girls drafted a dress pattern. All the girls in the club graded themselves by the following score card. They aim to attain perfection if possible by the end of their 4 years of club work by application of health rules, principles of clothing, food preparation, etc., learned in the club.

Here is the score card:
Inventory Guide for Girls
1. Personal appearance.....20
Correct posture.....10
Good Looks.....5
Hair, eyes, complexion, teeth, etc. Grooming.....5
Bathing, daily.....5
Complexion; care of hands and hair.....5

2. Character and personal character.....25
Cheerfulness and enthusiasm.....5
Sympathy and interest in others.....5
Unselfishness.....5
Loyalty and sincerity.....5
General attractiveness.....5
3. Culture and refinement.....15
Good manners.....5
Accomplishments and social grace.....5
Education.....5
Reading good books and magazines.....5

Note: Girls should score herself according to age and grade she is in.

4. Health.....25
Health habits.....15
Bowel movement every day.....1
Leafy vegetable 3 times a week.....1
Starchy vegetable every day.....1
Other vegetable every day.....1
Raw fruit every day.....1
One pint milk daily.....1
6 glasses or more of water every day.....1
Eat candy only at table after meals.....1
8 hours or more sleep with fresh air.....1

The Hedley Home Demonstration Club Girls met January 20 at 3 p. m. with 17 present. The girls made patterns and cut club aprons out. Seven girls reported poultry work started. After instructions were given as to how

aprons were to be made girls were asked to bring them ready to finish during the next club meeting which will be February 3rd.

Lelia Lake Club Girls met Tuesday morning for a demonstration in Attractive Meal Service. Eight were present and each claimed she learned, beneficially, a number of good table manners, as well as learning approved forms of serving meals.

Three Lelia Lake Club Boys came to Club at 6 p. m., which was to have been their time of meeting at the school, but since no more boys came and the weather was getting colder the meeting was called off until next regular meeting day, Feb. 3rd.

Nine Giles Home Demonstration Club Girls had the same demonstration recorded for Lelia Lake girls, when the Giles Club met January 22nd at 3 p. m. Every girl plans to put the usages taught into practice in her own home and one of the boys who was in the class room while the girls were getting their demonstration asked for and received the Table Service Literature.

The County Home Demonstration Council meets in the Club room at the City Hall Saturday at 2:30 p. m. Let's start the new council year by every club having at least one representative present.

The County Judging Committee to assist Miss Thompson with the Living Room Contest work is Mrs. J. D. Stocking and Mrs. M. T. Crabtree.
Miss Mayme Dingler's room and Mrs. John Greene's room were scored and pictured Tuesday. The committee plans to score all 9 of the rooms in the contest before the week is over if possible. Much interest is being taken in this work and many improvements are planned.

BAPTIST DISTRICT MEET POSTPONED ONE WEEK

The meeting of the Baptists of the tenth District of the state has been postponed one week, according to advices received from Rev. Shepherd, who was to appear on the program of the meeting. Inclement weather and an impassable road were given as the causes for the postponement of the meeting. It will be held on Tuesday, January 28th at the usual time and place.

Dr. H. L. Wilder, Henry and Loyd Stallings were in Plainview last Sunday afternoon for a short stay. Dr. Wilder attended a meeting of the Hale, Swisher, Briscoe and Floyd medical associations in that city.

Many New Books At City Library

According to announcement in these columns last week the first shipment of new books have arrived and are on the shelves at the City Library. Mrs. Burton, the librarian, has furnished The News with the following list and with the arrival of other orders now in transit will publish still other lists.

The books added to the library are varied in adaptation and appeal as the list appended hereto indicates:

The Little Colonel in Arizona—Johnston.

Twinkly Eyes of the Farm—Chaffee.

Eight Cousins—Louisa M. Alcott.

Two Little Fellows Start to School—Josephine Lawrence.

Little Jack Rabbit and the Squirrel Brothers—David Cory.

Little Jack Rabbit and Chippy Chipmunk—David Cory.

The Tale of Cuffy Bear—Arthur Scott Bailey.

The Tale of Tommy Fox—Arthur Scott Bailey.

The Adventures of Joel Pepper—Margaret Sidney.

Miss Minerva Broadcasts Billy—Sampson.

Bunny Brown and His Sister Sue at Aunt Lu's—Hope.

Bunny Brown and His Sister in the Big Woods—Hope.

Tom Swift and His Motor Cycle—Victor Appleton.

Tom Swift and His Airship—Victor Appleton.

Tom Swift and His Electric Rifle—Victor Appleton.

Tom Swift and His Airline Express—Victor Appleton.

Tom Swift and His Electric Runabout—Victor Appleton.

Tom Swift Among the Diamond Makers—Victor Appleton.

Polly of the Hospital Staff—Emma C. Dorod.

Tell Your Own Fortune—Webster-Hopkins.

The Return of the Native—Thomas Hardy.

Bluebonnet's Family—Caroline E. Jacobs.

Pollyanna's Western Adventures—Harriet L. Smith.

Whitelocks of Jalna—Mazo de la Roche.

Can't Get a Redbird—Dorothy Scarborough.

Ethan Foome—Edith Wharton.

Fugitive's Return—Susan Glaspell.

Hudson River Bracketed—Edith Wharton.

Texas manufactures more than half of the cotton gins produced annually in the United States according to a Dallas manufacturer.

If you want to buy something. Advertise for it in the News Want Ad Column.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhea checked. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always able to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

The Mark of Genuine Aspirin..

Bayer Aspirin is like an old friend, tried and true. There is no satisfactory substitute for either one. Genuine Bayer Aspirin is the accepted antidote for pain. Its relief may always be relied on for an occasional headache, to head-off a cold, or for more serious pain from neuralgia, neuritis and rheumatism. Bayer Aspirin bears the word "genuine" in red, and the name Bayer, on the box.

Aspirin is the trade mark of Bayer Manufacturer of Monacocyclohexanone Salicylicacid

Makes Life Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia!

When tongue or breath tells of acid condition—correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

"Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

PHILLIPS Milk of Magnesia

Our Opening Day Saturday, January 25th

We will have a full line of International Harvester Machinery and equipment on display at our new place of business and extend a hearty invitation to all of you to come see us.

See This Machine and Have it Explained.

GUESSING CONTEST

In connection with the opening of our place of business, we will have a guessing contest at 3:00 p. m. Saturday. Prizes of \$5.00, \$3.00 and \$2.00 will be given. Details will be secured at our store.
