

CCC SOIL CAMP FOR COUNTY BEGINS TO RECEIVE ENROLLEES

Enrollment of veterans for the soil erosion CCC camp here started Monday. About 200 veterans representing several counties in this section were enrolled. Captain Benjamin Tolbert, commanding officer, was assisted in the enrollment by a group of one officer and 12 men from a CCC camp at Canyon.

Several carloads of equipment for the camp have been received and all preparations for the enrollment of the men and the opening of the camp, including five 40-man barracks, were completed last week.

The veterans will work in the soil conservation program to be carried out in this county under the direction of the Soil Conservation Service of the Department of Agriculture. The technical and engineering staff of the SCS arrived here several days ago and preliminary work on the program, including the organization of the Brownwood Soil Conservation Association to assist in the work, has been started.

INJURED IN RUN-AWAY

Mrs. Virgie Potter, 26, Owens, was thrown from a wagon when the team which she was driving became frightened and ran away Wednesday morning. She suffered a broken arm and probable fractured skull. Her three children who were with her in the wagon were uninjured though they were all thrown from the wagon. Mrs. Potter was brought to Central Texas Hospital for treatment.

Sewing Project Is Given City Support

The City Council agreed to sponsor a sewing room project under the WPA program at a called meeting Monday afternoon. The sewing room is to be operated at the Community House, where it was formerly operated under the work relief program.

Details of the city's application for funds for construction of a fire station on the south side were discussed and R. R. Holloway, member of Brownwood school board, outlined plans of Brownwood Independent School District for a WPA application for construction of a stadium and athletic field at the high school.

South Texas Farm Buys Jerseys Here

Joe Shelton, manager of Shelton Brothers Dairy, this week sold and shipped 11 head of young registered Jerseys to the Sartatia Plantations, Sugarland, Texas.

The plantation, one of the largest in South Texas, is improving its herd, and inspected Jersey cattle in all parts of the South before making the purchase.

FURNITURE NEEDED

Donations of furniture of all kinds to be used at the Community House is being sought by Junior Service League, sponsors of the house. The greatest need is for chairs, but furniture of any sort will be welcome. Officials of the League request that anyone who has old, discarded furniture they are willing to donate call Miss Marjorie Scott at 91 and someone will be sent for the furniture.

FAMOUS COLLECTION OF CURIOS GIVEN TO HPC BY A. BOENICKE

The famous Boenicke collection of curios, one of the largest and most interesting collections of this type in the state, has been given to Howard Payne college. Plans are being made for a suitable building to house the collections, to be known as the "Boenicke Memorial Museum."

A. Boenicke, 80 year old ranchman who lives in the Salt Branch community, gave the collection to the college so that it would be kept in Brown county for his children and friends to see and enjoy. He has received numerous offers from colleges and universities for the collection.

Mr. Boenicke has been working on the collection for more than 50 years, devoting all of his attention to it during the past twenty years. The curios, collected from many places in Europe, Canada and the United States includes a large number of horns, mounted animals, valuable old coins, arrowheads, and many other things of interest.

Zephyr And Mullin To Divide Students Of Pompey District

Half the students in the Pompey school district will go to the Mullin school and the other half will go to Zephyr for the next school term. Contracts for dividing the district were signed last week. The two teachers of the Pompey schools are to be employed in the Mullin and Zephyr schools.

Both the schools will operate a bus to Pompey, which is just across the county line in Mills county.

The tax money will be divided equally between the two schools during the year. The per capita for each student will be divided along with students division, so that if one school has several more students than the other it will receive tuition and per capita according to students.

This follows a similar deal which was closed recently in which all students of Mercers Gap school, in Comanche county will be transferred to the Blanket school next year. This contract was taken to Austin recently by W. B. Jones, superintendent of the Blanket school, for the approval of State Superintendent L. A. Wood.

PLAN SUGGESTED TO WELCOME STUDENTS

Suggestions for a program to welcome new students of Daniel Baker and Howard Payne colleges which would include a picnic or barbecue supper, a drive over the city and a visit to Lake Brownwood have been made by Robert Sparks, manager of the Lyric theatre, who would be willing to help with the program if cooperation will be given by business men and civic organizations here.

The Lyric will give a ticket to each new student enrolling in the two colleges here, he said. Mr. Sparks will welcome any suggestions and assistance in arranging the program.

COURT CONSIDERING PROPOSED HOSPITAL AS CHARITY MEASURE

Members of community council who appeared before Commissioners' Court this week to request a county appropriation to help finance the construction of a city-county charity hospital here were told that the county would have to vote bonds for the amount requested before any allotment could be made.

The council might circulate a petition and secure the required number of signers asking the commissioners' court to call the bond election, commissioners said.

Total cost of the proposed hospital building would be \$17,000. Under the plan as outlined by the council, the county and city are each asked to furnish \$4,840 and an application would be made to the WPA for \$7,320. The building would be one story and have 20 rooms. Place would be provided in the building to take care of several old people now being cared for at the City-County Welfare Home on Melwood avenue. Expense of maintaining this home would be eliminated if the hospital were built, council officials pointed out. The hospital would be operated with a matron in charge at an estimated expense of \$250 monthly. Employees would be the matron, a student nurse, a cook and a janitor and yard man.

The hospital would not be operated in competition with other hospitals in the city as only charity cases would be admitted to the city-county hospital. Doctors would be asked to volunteer services in surgical cases. The hospital would be a central place where all charity cases could be attended and the plan would eliminate a great deal of lost motion which exists in the present arrangements, officers declared.

The matter has not yet been presented to city council. The plan was presented to the commissioners court by J. Edward Johnson, president of the Community Council, and Mrs. H. G. Lucas. A plan for the establishment of a county health unit has been submitted to the commissioners court by Dr. Don C. Peterson of the State Health Department. The plan for the unit, which includes a doctor in charge, a nurse, a sanitarian and a statistician or book-keeper, is also being studied by the Community Council.

Total cost is estimated at \$9,600 per year, fifty per cent of this amount to be paid by the state and federal governments and the remaining fifty per cent to be divided between the city and county.

Aggregate resources of state banks and trust companies in North Carolina increased by more than \$61,000,000 between March 5, 1934, and the same date of 1935.

FIRST WPA PROJECT IS FILED BY COUNTY

Brown county's first WPA project, application for transferral of work of the local sewing room project from the relief to the WPA program, has been approved by the district officials and sent to San Antonio for approval there. The total cost of the project is estimated at \$3,261.35, the WPA to furnish \$3,052.47 and the city of Brownwood \$207.88. A total of 16 people would be employed on the project for four months.

Planning boards have been announced for Llano, San Saba, Concho, Gillespie, Menard, Kimble, McCulloch and Brown counties and a number of projects are now being studied by members of the staff in the district offices here. Delegations from the various counties in the district are frequent visitors here seeking information regarding the program and discussing matters relative to proposed projects.

In addition to the sewing room projects two other applications, one from the city of Ballinger and one from Kimble county, have been approved here and sent to the state WPA offices.

Blanket School To Get Two New Buses

W. B. Jones, superintendent of the Blanket High School, left with two drivers this week for Detroit, where he will take delivery on two new school buses for the Blanket district. The buses will be driven from Detroit to Blanket to effect a saving in freight.

Purchase of the new buses was necessitated by substantial increase in prospective enrollment in the Blanket schools, due to consolidation with the Mercer's Gap school and other nearby districts. Forty-two pupils will be transferred to Blanket from Mercer's Gap, which is over the line in Comanche county.

The words "United States of America" may be expected to disappear soon from the postal paper of the Philippine islands.

Lumbermen Of Seven Counties Meet Here To Form Association

Lumbermen from seven counties in this section met here Saturday to organize the Heart of Texas Retail Lumber Dealers' Association. R. B. Williams of Coleman was elected president, W. H. Miller of Brady, vice president, and Paul Richardson of Brownwood was named secretary.

Counties in the district are: Brown, Coleman, Lampasas, Comanche, San Saba, McCulloch and Mills. There are 39 lumber yards in the seven counties.

The local association is affiliated with the Texas Association of Lumber Dealers. Thirty-four district organizations are being formed in the state.

The next meeting of the association will be held in Comanche during September.

COLLEGE STUDENTS TO GET GOVERNMENT AID THIS SESSION

Financial aid for more than 100 students in the two local colleges will be given by National Youth Administration funds during the next school year. According to the NYA program the NYA in cooperation with the participating college will give part-time work relief jobs to students representing up to 12 percent of the enrollment as of October 15, 1935.

Letters received by officials of Daniel Baker and Howard Payne college from Lyndon B. Johnson, NYA state director, stated that funds would be available to the local colleges under the NYA and that the plan will be handled about the same as it was all last year under the FERA. A total of almost \$20,000 was sent here by the FERA in 1934 and 1935 for the assistance of students in the schools here.

The NYA plan provides that a student can earn as much as \$15 per month on part-time jobs. He will be allowed to work as much as 50 hours per month at 30 cents per hour.

Aggregate resources of state banks and trust companies in North Carolina increased by more than \$61,000,000 between March 5, 1934, and the same date of 1935.

DISTRICT PROJECTS FURNISH EMPLOYMENT TO 883 DURING WEEK

Seasonable employment has enabled the reduction of the number of persons employed on work relief projects in the counties of relief district 11-A, and in one county, Concho, it was not necessary to carry on any work projects during the week which ended August 15. The Weekly Progress Report to the Texas Relief Commission from district headquarters shows 883 people were employed on work projects during the week.

With the close of seasonal employment the full program will be resumed in all the five counties.

The report on the projects in the various counties of the district and the number of persons employed on each follows:

Brown county: Total employed, 368; total authorized to be employed under projects approved, 373. Projects: Sewing room, 16 persons; Brownwood city schools improvement work, 8; administrative, 2; clerical help for county agent, 2; Bangs school grounds improvement, 22; road improvement in precinct 4, 20; road improvement in precinct 3, 52; road improvement in precinct 2, 57; street improvement in Brownwood, 40; May school grounds improvement, 15; canning plant, 19; commodity distribution, 4; road improvement in precinct 1, 40; NRS clerical, 1; improvement work on tract at Lake Brownwood boat docks, 60.

Coleman county: Total employed, 224; total authorized to be employed, 502. Projects carried on the past week: Coleman street paving, 100; sewing room, 51; clerical help for county agent, 1; commodity distribution, 6; NRS clerical help, 4; budgetary administrative assistants, 4; terracing work, 6; community garden, 19; canning plant, 33.

Runnels county: Total employed, 173; total authorized to be employed, 494. Projects: Ballinger drainage work, 100; sewing room, 27; budgetary administrative, 6; canning plants, 33; NRS clerical, 5.

McCulloch county: Total employed, 119; total authorized to be employed, 332. Projects: County agent clerical help, 5; budgetary administrative, 4; community garden, 7; Pear Valley school improvements, 57; Harkrider school work, 12; canning plant, 31; commodity distribution, 3.

This smiling Alpinist, schooled in mountain warfare, is one of the type Italians are counting upon heavily if the Ethiopian war breaks. They figure the Abyssinian mountains will be easy for boys like this.

Carole Ann Collier of Temple, has four great grandmothers, two great grandfathers, four grandparents and numerous great aunts and uncles.

FHA Field Office Be Here Next

Joe W. Bratcher, field representative of the FHA from Worth office will be in the first part of next week with C. Smith Bell, chairman, on receiving from this county.

Eight applications, approximately \$15,000 each, by the two men last week were mailed to the district for commitment for insurance. Loans must be from private lending and are guaranteed by the district and approved in the district.

Food Distributors Hold Meeting

Legislative measures to food distributors to up in the November session were discussed by Flournoy, secretary of Retail Grocers Association called meeting of grocery section held at Hotel Wednesday night.

The meeting was about 40 food distributors senting Brown, Eastland, Erath, Coleman, Erath and counties.

WORKS PROGRESS DIRECTOR PLEADS FOR COUNTIES AND CITIES TO ASK FOR MONEY

By H. P. DROUGHT, State Administrator
Works Progress Administration

TEXANS today face the challenge of President Roosevelt and of 147,387 of our own destitute citizens. "The federal government must and will quit this business of direct relief," President Roosevelt has declared. "We are tired of living on the dole."

Works Progress Administration has been organized and has started operation in Texas for the purpose of giving jobs to every employable man and woman registered on the relief rolls of the state. We have been allocated more than \$50,000,000 to expend in every county and city in Texas. That vital task has been placed squarely before WPA by the national administration. Our responsibility is yours in the counties and towns of Texas. We have the money to spend, you have the need. Work projects and yours are the man and women who must have work.

advice from Washington authorities that not nearly enough proposals have been presented at national headquarters. Thus admonished, every state will be striving to gain precedence for its program. Texas has presented a mere three and one half million in works proposals for federal improvements at the end of the week of August 17. We are anxious to have twenty million dollars in projects in the hands of federal examiners by the end of this month. Our state is peculiarly adapted, due to physical advantages, to such ambitious projects as lateral farm-to-market roads. Too, elasticity of project requirements makes it easy to find many types of needed improvements to which WPA energies may be devoted. With proper cooperation from our political subdivisions, any of which may participate in the program, this state can forge far ahead on the federal allotment schedule. This opportunity for states, counties, and cities to get per-

DEMONSTRATION CLUB PROGRAM PRESENTED AT ROTARY LUNCHEON

An interesting presentation of home demonstration club work and 4-H club work among girls was given at the weekly luncheon of the Brownwood Rotary Club last week under the direction of Miss Mayesie Malone, county home demonstration agent.

Principal speaker on the program was Mrs. Roy Mathews of Bangs, who recently was elected president at large of the Texas State Home Demonstration Assembly at the annual assembly at College Station. Mrs. Mathews has been prominent in club work for a number of years, and during the past year served as district president.

Portions of Mrs. Mathews' talk follow: "Each year under the leadership of our Home Demonstration Agent we take up different phases of work, each pertaining to home problems, and work them out in the form of demonstrations. Each demonstration has definite aims and definite goals and each woman carrying that particular demonstration seeks to attain these goals."

"A few years ago our entire time was devoted to the canning demonstration. This perhaps meant more in actual dollars and cents than any program ever launched in Brown county. Women now have learned to can and need help in other lines."

"This year we are carrying two major demonstrations. All programs and demonstrations are centered around these two: yards and bedrooms. "Yard goals: Lay walks where needed; root 50 cuttings, 5 varieties; do some screen planting. "Bedroom goals: Provide some means for raising windows properly; quilt protector; 1 piece of bedroom linen."

"Each club has demonstrators and cooperators. The county agent, Miss Malone, called in a demonstrator from each club and made a mattress in her office. Each demonstrator went back to her community and gave the demonstration as it was given to her."

"Expansion, perhaps, is our greatest field. Help as many as possible. "Another phase of our work is the council, composed of the president and a delegate from each club. They come together once each month, as your board of directors from your bank, to discuss problems and make plans for the month's work."

"The state is divided into nine districts. Once each year we have district meetings where we hear reports and make plans. These district meetings are made up of delegates from councils and clubs. These delegates are part of the Texas Home Demonstration Assembly which meets once each year at A. & M. College. Its purpose is to hasten a fuller, richer, rural home life for Texas women."

"So you see we are engaged in a great work, one that strikes at the very root of all civilization. "One speaker at the short course said that the rural women ruled the world for the greatest percentage of all leaders in every phase of work come from rural homes. This is a challenge to all rural mothers and homemakers to make their home and its surroundings the most beautiful and inspirational that it is possible for them to make it. "To help and cheer our fellowman man To smooth his pathway when we can To keep faith, come what may To work with courage and to pray To live the years from end to end Not selfishly, but like a friend."

Three prominent 4-H club members appeared on the program, Miss Gertrude Fry of Zephyr, who won first place this year in the Brown county bedroom improvement contest, discussed this work. Miss Alice Humphries of the McDaniel club discussed yard demonstration work. This is her first year in club work and she told of her pleasure in the activities of the 4-H clubs.

Miss Edith Kimmons of the Zephyr club read a paper on "Home Gardens." Miss Kimmons' paper follows: "This is my second year of club work. I joined the club December 20, 1933, because I was interested in the work that the club girls of Texas were doing. I have been garden demonstrator for my club both years. I like the work and am always interested in seeing our pantry shelves filled at the end of the year besides having an adequate supply of fresh vegetables during the time we can have a

2,879 ENROLLED IN PUBLIC SCHOOLS IN 1934-35 SESSION

The total enrollment in Brownwood public schools as shown by Superintendent E. J. Woodward's annual report, recently approved by the State Department of Education, was 2,879 for the 1934-35 school term. Average membership in the entire system was 2,665 students, and average attendance was 2,199 students. Twenty of the students enrolled came from out of the state.

Enrollment Figures. Further figures on enrollment show that the registration in the elementary grades (from the first through the sixth) was 1,753 whites and 78 negroes, a total of 1,831. Enrollment in Junior High School was 483 and in Senior High School was 547. There were 18 enrolled in the negro high school.

Per Pupil Cost. Figures on per pupil cost, based upon salaries and average daily attendance, show an increased cost per pupil of \$3.70 over the 1933-34 term. Average per pupil cost the past term was \$39.39, while the cost in the previous term was \$35.69. The cost in the 1934-35 term still was \$2.49 below the cost in the 1932-33 session, which was \$41.88 per pupil.

Brownwood High School graduated 133 students at the close of the 1934-35 term. The youngest graduate was 14 years old. Ten of the graduates were 15 years of age, 47 were 16 years, 41 were 17 years, 21 were 18 years, 7 were 19 years and 6 were 20 years of age.

Experienced Faculty. Eighty-two teachers were regular members of the faculty the past term. Of this number 66 held permanent certificates, 33 of these based on college degrees. Thirty-six of the 82 teachers had had more than 10 years' teaching experience and 62 of the 82 had had more than five years teaching experience. Ten of the 82 teachers had taught in the Brownwood school system for more than 10 years and 42 had taught here more than five years. The eight school buildings and two home economics cottages owned by the district are valued at

\$313,675, the report shows. The school sites and grounds are valued at \$102,000 and the school furniture at \$24,000. Equipment for teaching science, home economics, manual training and commercial subjects is valued at \$14,250. The equipment for the library and for transportation is valued at \$5,700. Total value of buildings and equipment is \$459,625.

Library Enlarged. The district transported 40 students at public expense last term, operating one bus. The school purchased 1,921 new volumes for the library last year. This did not, of course, include the large number of books purchased for the library by Parent-Teachers Associations and other organizations. The total number of usable volumes in the library at present is 7,781. Two

faculty members devote more than half of their time to library work. An increase in attendance is expected for the 1935-36 term which will open September 9. FOR SALE OR RENT—8-room house; 3 sleeping porches, 2 hot and cold water baths, 2 garages, one storage room. Close to Howard Payne College and business district. J. H. Staton, Phone 606. W. CCC SOIL CAMP FOR COUNTY BEGINS TO RECEIVE ENROLLEES

Enrollment of veterans for the soil erosion CCC camp here started Monday. About 200 veterans representing several counties in this section were enrolled. Captain Benjamin Tolbert, commanding officer, was assisted in the enrollment by a group of one officer and 12 men from a CCC camp at Canyon.

Several carloads of equipment for the camp have been received and all preparations for the enrollment of the men and the opening of the camp, including five 10-man barracks, were completed last week.

The veterans will work in the soil conservation program to be carried out in this county under the direction of the Soil Conservation Service of the Department of Agriculture. The technical and engineering staff of the SCS arrived here several days ago and preliminary work on the program, including the organization of the Brownwood Soil Conservation Association to assist in the work, has been started.

INJURED IN RUN-AWAY

Mrs. Virgie Potter, 26, Owens, was thrown from a wagon when the team which she was driving became frightened and ran away Wednesday morning. She suffered a broken arm and probable fractured skull. Her three children who were with her in the wagon were uninjured though they were all thrown from the wagon. Mrs. Potter was brought to Central Texas Hospital for treatment.

Sewing Project Is Given City Support

The City Council agreed to sponsor a sewing room project under the WPA program at a called meeting Monday afternoon. The sewing room is to be operated at the Community House, where it was formerly operated under the work relief program.

Details of the city's application for funds for construction of a fire station on the south side were discussed and R. R. Holloway, member of Brownwood school board, outlined plans of Brownwood Independent School District for a WPA application for construction of a stadium and athletic field at the high school.

South Texas Farm Buys Jerseys Here

Joe Shelton, manager of Shelton Brothers Dairy, this week sold and shipped 11 head of young registered Jerseys to the Sartalia Plantations, Sugarland, Texas.

The plantation, one of the largest in South Texas, is improving its herd, and inspected Jersey cattle in all parts of the South before making the purchase.

FURNITURE NEEDED

Donations of furniture of all kinds to be used at the Community House is being sought by Junior Service League, sponsors of the house. The greatest need is for chairs, but furniture of any sort will be welcome. Officials of the League request that anyone who has old, discarded furniture they are willing to donate call Miss Marjorie Scott at 91 and someone will be sent for the furniture.

FAMOUS COLLECTION OF CURIOS GIVEN TO HPC BY A. BOENICKE

The famous Boenicke collection of curios, one of the largest and most interesting collections of this type in the state, has been given to Howard Payne college. Plans are being made for a suitable building to house the collections, to be known as the "Boenicke Memorial Museum."

A. Boenicke, 80 year old ranchman who lives in the Salt Branch community, gave the collection to the college so that it would be kept in Brown county for his children and friends to see and enjoy. He has received numerous offers from colleges and universities for the collection.

Mr. Boenicke has been working on the collection for more than 50 years, devoting all of his attention to it during the past twenty years. The curios, collected from many places in Europe, Canada and the United States includes a large number of horns, mounted animals, valuable old coins, arrowheads, and many other things of interest.

Zephyr And Mullin To Divide Students Of Pompey District

Half the students in the Pompey school district will go to the Mullin school and the other half will go to Zephyr for the next school term. Contracts for dividing the district were signed last week. The two teachers of the Pompey school are to be employed in the Mullin and Zephyr schools.

Both the schools will operate a bus to Pompey, which is just across the county line in Mills county.

The tax money will be divided equally between the two schools during the year. The per capita for each student will be divided along with students division, so that if one school has several more students than the other it will receive tuition and per capita according to students.

This follows a similar deal which was closed recently in which all students of Mercer's Gap school, in Comanche county will be transferred to the Blanket school next year. This contract was taken to Austin recently by W. B. Jones, superintendent of the Blanket school, for the approval of State Superintendent L. A. Wood.

PLAN SUGGESTED TO WELCOME STUDENTS

Suggestions for a program to welcome new students of Daniel Baker and Howard Payne colleges which would include a picnic or barbecue supper, a drive over the city and a visit to Lake Brownwood have been made by Robert Sparks, manager of the Lyric theatre, who would be willing to help with the program if cooperation will be given by business men and civic organizations here.

The Lyric will give a ticket to each new student enrolling in the two colleges here, he said. Mr. Sparks will welcome any suggestions and assistance in arranging the program.

COURT CONSIDERING PROPOSED HOSPITAL AS CHARITY MEASURE

Members of community council who appeared before Commissioners' Court this week to request a county appropriation to help finance the construction of a city-county charity hospital here were told that the county would have to vote bonds for the amount requested before any allotment could be made.

The council might circulate a petition and secure the required number of signers asking the commissioners' court to call the bond election, commissioners said.

Total cost of the proposed hospital building would be \$17,600. Under the plan as outlined by the council, the county and city are each asked to furnish \$4,840 and an application would be made to the WPA for \$7,920. The building would be one story and have 20 rooms. Place would be provided in the building to take care of several old people now being cared for at the City-County Welfare Home on Melwood avenue. Expense of maintaining this home would be eliminated if the hospital were built, council officials pointed out. The hospital would be operated with a matron in charge at an estimated expense of \$280 monthly. Employees would be the matron, a student nurse, a cook and a janitor and yard man.

The hospital would not be operated in competition with other hospitals in the city as only charity cases would be admitted to the city-county hospital. Doctors would be asked to volunteer services in surgical cases. The hospital would be a central place where all charity cases could be attended and the plan would eliminate a great deal of lost motion which exists in the present arrangements, officers declared.

The matter has not yet been presented to city council.

The plan was presented to the commissioners court by J. Edward Johnson, president of the Community Council, and Mrs. H. G. Lucas.

A plan for the establishment of a county health unit has been submitted to the commissioners court by Dr. Don C. Peterson of the State Health Department. The plan for the unit, which includes a doctor in charge, a nurse, a sanitarian and a statistician or bookkeeper, is also being studied by the Community Council.

Total cost is estimated at \$9,600 per year, fifty per cent of this amount to be paid by the state and federal governments and the remaining fifty per cent to be divided between the city and county.

FIRST WPA PROJECT IS FILED BY COUNTY

Brown county's first WPA project, application for transferral of work of the local sewing room project from the relief to the WPA program, has been approved by the district officials and sent to San Antonio for approval there. The total cost of the project is estimated at \$3,361.35, the WPA to furnish \$3,053.47 and the city of Brownwood \$307.88. A total of 16 people would be employed on the project for four months.

Planning boards have been announced for Llano, San Saba, Concho, Gillespie, Menard, Kimble, McCulloch and Brown counties and a number of projects are now being studied by members of the staff in the district offices here. Delegations from the various counties in the district are frequent visitors here seeking information regarding the program and discussing matters relative to proposed projects.

In addition to the sewing room projects two other applications, one from the city of Ballinger and one from Kimble county, have been approved here and sent to the state WPA offices.

Blanket School To Get Two New Buses

W. B. Jones, superintendent of the Blanket High School, left with two drivers this week for Detroit, where he will take delivery on two new school buses for the Blanket district. The buses will be driven from Detroit to Blanket to effect a saving in freight.

Purchase of the new buses was necessitated by substantial increase in prospective enrollment in the Blanket schools, due to consolidation with the Mercer's Gap school and other nearby districts. Forty-two pupils will be transferred to Blanket from Mercer's Gap, which is over the line in Comanche county.

The words "United States of America" may be expected to disappear soon from the postal paper of the Philippine islands.

Lumbermen Of Seven Counties Meet Here To Form Association

Lumbermen from seven counties in this section met here Saturday to organize the Heart of Texas Retail Lumber Dealers' Association. R. B. Williams of Coleman was elected president, W. H. Miller of Brady, vice president, and Paul Richardson of Brownwood was named secretary.

Counties in the district are: Brown, Coleman, Lampasas, Comanche, San Saba, McCulloch and Mills. There are 39 lumber yards in the seven counties.

The local association is affiliated with the Texas Association of Lumber Dealers. Thirty-four district organizations are being formed in the state.

The next meeting of the association will be held in Comanche during September.

COLLEGE STUDENTS TO GET GOVERNMENT AID THIS SESSION

Financial aid for more than 100 students in the two local colleges will be given by National Youth Administration funds during the next school year. According to the NYA program the NYA in cooperation with the participating college will give part-time work relief jobs to students representing up to 12 percent of the enrollment as of October 15, 1935.

Letters received by officials of Daniel Baker and Howard Payne college from Lyndon B. Johnson, NYA state director, stated that funds would be available to the local colleges under the NYA and that the plan will be handled about the same as it was all last year under the FERA. A total of almost \$20,000 was sent here by the FERA in 1934 and 1935 for the assistance of students in the schools here.

The NYA plan provides that a student can earn as much as \$15 per month on part-time jobs. He will be allowed to work as much as 50 hours per month at 30 cents per hour.

Aggregate resources of state banks and trust companies in North Carolina increased by more than \$61,000,000 between March 5, 1934, and the same date of 1935.

DISTRICT PROJECTS FURNISH EMPLOYMENT TO 883 DURING WEEK

Seasonable employment has enabled the reduction of the number of persons employed on work relief projects in the counties of relief district 11-A, and in one county, Concho, it was not necessary to carry on any work projects during the week which ended August 15. The Weekly Progress Report to the Texas Relief Commission from district headquarters shows 883 people were employed on work projects during the week.

With the close of seasonal employment the fall program will be resumed in all the five counties.

The report on the projects in the various counties of the district and the number of persons employed on each follows:

Brown county: Total employed, 368; total authorized to be employed under projects approved, 373. Projects: Sewing room, 16 persons; Brownwood city schools improvement work, 8; administrative, 2; clerical help for county agent, 2; Bangs school grounds improvement, 22; road improvement in precinct 4, 20; road improvement in precinct 3, 52; street improvement in Brownwood, 40; May school grounds improvement, 15; canning plant, 19; commodity distribution, 4; road improvement in precinct 1, 40; NRS clerical, 1; improvement work on tract at Lake Brownwood boat docks, 60.

Coleman county: Total employed, 234; total authorized to be employed, 502. Projects: Coleman street paving, 100; sewing room, 51; clerical help for county agent, 1; commodity distribution, 6; NRS clerical help, 4; budgetary administrative assistants, 4; terracing work, 6; community garden, 19; canning plant, 33.

Runnels county: Total employed, 173; total authorized to be employed, 404. Projects: Ballinger drainage work, 100; sewing room, 27; budgetary administrative, 6; canning plants, 33; NRS clerical, 5. McCulloch county: Total employed, 119; total authorized to be employed, 332. Projects: County agent clerical help, 5; budgetary administrative, 4; community garden, 7; Pear Valley school improvements, 57; Harkrider school work, 12; canning plant, 31; commodity distribution, 3.

This smiling Alpineist, schooled in mountain warfare, is one of the type Italians are counting upon heavily if the Ethiopian war breaks. They figure the Abyssinian mountains will be easy for Loys like this.

Carole Ann Collier of Temple, has four great grandmothers, two great grandfathers, four grandfathers and numerous great aunts and uncles.

FHA Field Map Be Here Next

Joe W. Bratcher, field representative of the FHA from the first part of next week with C. Smith Bell, chairman, on receiving from this county.

Eight applications, approximately \$15,000 each, by the two men last week were mailed to the district for commitment for guarantee. Loans must be guaranteed by the district are approved in the district.

Food Distributors Hold Meeting

Legislative measures to food distributors to up in the November session were discussed by Flournoy, secretary of Retail Grocers Association called meeting of grocery section held at Hotel Wednesday night.

The meeting was about 40 food distributors senting Brown, Eastland, Coleman, Erath and counties.

THE EARLY HISTORY OF TEXAS

AS SHOWN FROM THE AUSTIN PAPERS

This is one of a series of special collections of the early history of the state...

hogs, ducks and geese abounded on the place for it was in those early days a paradise for game...

Erskine's papers have been compiled and annotated by his son, B. H. Erskine of Crystal City...

"When taught by the great Comanche raid in 1846, previously recorded, the Republican Government saw the necessity of having organized companies of Rangers...

"We have historic evidence, that Andrew Erskine was a Ranger in 1842, engaged in seven fights with the Indians, under his renowned Captain 'Jack' Hays...

"In 1842 about 100 years after Banderó fought the Apaches, Captain Hays started with about 40 men, intending to go out through the pass and scout up the Guadalupe River...

"The Indian chief laid an ambush secreting warriors on both sides of the pass, and a dense body of them being in a ravine which entered the pass on the West side...

"The wounded were Tom Galbreath, Den Highsmith, Kit Ackland, Sam Lucky, Saul Walker and Andrew Erskine...

"It is quite remarkable, so many of these young Rangers, who fought this battle became noted men afterwards, 'Jack' Hays became a colonel of a regiment of volunteers...

"DOWTY—Mrs. Sam J. Dowty, 1206 Vine Street, for many years a resident of Brownwood, died Monday at 8:46 p. m. following a several months illness...

Lyric Friday and Saturday, Aug. 23-24

Una Merkel and Nat Pendleton in 'Murder in the Fleet'

SINGING CONVENTION AT RANGER AUG. 24-25

A real song festival is promised those who will attend the big singing convention, which will be held in Ranger Saturday night, August 24, and Sunday, August 25.

Several noted quartettes and singers from over Texas have been invited to attend and take part, and some have already notified the local singing association of their intention of being here.

The convention is being sponsored by the local singing association, of which Dr. A. K. Wier is president, the trustees of the Independent School District and the Chamber of Commerce.

Over 500 letters have gone out to singers of this section of the state inviting them to take part, and no doubt the seating capacity of the auditorium will be taxed to take care of the crowds.

"Finally the Comanche chief was killed by Kit Ackland in a desperate knife battle. The gallant Ranger was also badly cut. The Indians soon withdrew to the north end of the pass and the Rangers to the south end where there was a big water hole and went into camp...

ABUNDANT SUPPLY OF STONE FOR BUILDING EXISTS HERE GEOLOGICAL REPORT SHOWS

A BRIEF listing of Brown county's undeveloped natural resources with suggestions for possible future development is given in a preliminary report submitted to the Chamber of Commerce by Charles Lawrence Baker, geologist of the Bureau of Economic Geology, University of Texas. A survey to determine the value of Brown county stone for building purposes and of other undeveloped resources is being made by Mr. Baker and G. A. Parkinson, quarry expert of the bureau. A detailed report will be submitted upon completion of the survey.

The preliminary report follows:
Underground Waters

Chemicals from underground waters.—Oil and gas development has discovered waters which are high in essential and profitable compounds which are the basis for several chemical industries. Most of these valuable "mineralized" waters in Brown county have not yet been completely analyzed in order to determine their full chemical compositions. Natural gas is the cheapest fuel known for the evaporation of these waters and the refining of their chemical substances.

Possibility of flowing artesian waters from the Cambrian Hickory sandstone.—Some of the present and best quality underground water in the state is in the Hickory sandstone. It is possible, though not certain, that in the southern part of Brown county in lower areas adjacent to the Colorado river where the Bend arch brings the horizon relatively close to the surface, flows can be developed without prohibitive expense.

Surface oil sands.—Brown county possesses some outcropping oil sands from which it is possible that sometime petroleum products may be developed.

Building Stone
Building and structural stone.—It is known that Brown county is fairly well supplied with at least fair grades of limestone and sandstone, and it may be found when proper investigation is made that some of these are of superior quality and suitable for wider applications and markets.

Among limestones which may be of high value because of their yellow color are the Clear Creek and Home Creek. These, if hard enough to polish in Brown county, are of great beauty of yellow and red colors. According to Dr. Drake's very competent work it is already known that some of the sandstones of the Strawn group are suitable for building purposes.

Such stone is in every way much more satisfactory for almost any building construction than is lumber, and is destined to be used widely and with real economy in the future. Many of the limestones will make a good grade of lime. Brown county has good cement

FIRST BALE GINNED FRIDAY BRINGS 14c

Brown county's first bale of cotton was ginned at Brooksmith Friday morning. The cotton was grown by W. T. Martin on his farm north of Brooksmith and ginned by the S. S. Thomas gin, which bought the bale weighing 450 pounds for 14 cents per pound.

The earliest bale ever ginned in Brown county, according to available records, was ginned on July 29, 1896. Records of first bales since 1890, except for 1930 which is not available is as follows:

Forty-Five Year Record

1890, August 11; 1891, August 11; 1892, August 9; 1893, August 12; 1894, August 21; 1895, August 24; 1896, July 29; 1897, August 11; 1898, August 18; 1899, August 16; 1900, August 18; 1901, August 7; 1902, August 5; 1903, August 18; 1904, August 12; 1905, August 9; 1906, August 18; 1907, August 29; 1908, August 21; 1909, August 17; 1910, August 2, by W. J. Chamberlain; 1911, August 7, by J. P. Alexander, 10 cents per pound; 1912, August 1, Hugh Williams, 12 cents; 1913, August 11, C. L. Beard, 12 7-8 cents; 1914, August 19, Ray Coomer, 10 cents; 1915, August 9, J. W. Lynch, 10 cents.

1916, August 11, J. W. Lynch, 15 cents; 1917, August 8, Leo Gobel, 26 cents; 1918, August 10, Mr. Style, 8 cents in the seed; 1918, August 30, Steve Teel, 35 cents; 1920, August 31, T. O. Spert, 25 cents; 1921, August 6, T. O. Spert; 1922, August 22, F. D. Carnes, 23 1-2 cents; 1923, August 8, Leo Gobel, 21 cents; 1924, August 13, J. F. Whiteley, 19 1/2 cents; 1925, August 6, Ed Jones, 23 6-16 cents.

1926, August 21, T. O. Spert; 1927, August 6, C. W. George; 1928, August 17, C. Newsom, 20c; 1929, August 12, D. L. Teel; 1931, August 14, J. H. Buse; 1932, August 11, Bud Rhee; 1933, August 9, T. A. Lacy; 1934, August 6, Lois Miller.

Vending machines in Germany distribute such merchandise as beverages, cigarettes, phonograph records, bird seed and flowers.

Eight hundred blind boys and girls in 23 German schools have become members of a special Hitler Youth corps. They have their own publication.

en a thin layer placed above the ceiling of a wooden shack will save its cost in fuel in a single winter. It makes a swelling house much cooler in summer. At present the mineral wool sold in Texas comes from Ohio, Indiana or Missouri, the freight charge being as much as the cost of the material at the plants in the north. Mineral wool is a new product with a great future.

ALLEN COMMISSIONED IN NAVAL RESERVE

Dr. Homer B. Allen of Brownwood has been commissioned as surgeon with the rank of Lieutenant Commander in the United States Naval Reserve. This high ranking commission, equivalent to that of major in the U. S. Army, was granted because of his special training in surgery and by reason of his membership in the American College of Surgeons.

Dr. Allen is subject to call to active service at any time of national emergency or war, to serve either on board ships or at a shore hospital as may be required.

First Brownwood Bale Is Ginned

Cotton for the first bale of 1935 cotton ginned in Brownwood and the second in Brown county was grown on Mrs. E. C. Coomer's farm three miles north of Brownwood on the May road. The 495 pound bale was ginned at McDonald & Funderburk Gin Tuesday afternoon, August 20.

The first bale ginned in Brownwood last year was ginned August 15 and was grown by B. S. Wilson of McDaniel. The first bale brought in in Brown county this year was ginned last week and was grown by W. T. Martin of Brooksmith.

All Brownwood gins have opened for the season and are said to be in good condition. Ginners are not expecting to receive much cotton for ginning, however, until the first of second week in September. A few more bales will be brought in before then, but not many, the ginners say. Brown county's cotton crop this year is estimated at about 12,000 bales.

Mexican Dies Here In Shooting Affray

Sisto Adamez, 40, Mexican, was found shot to death Sunday night in front of Pat's Grocery on Melwood avenue. When police reached the scene Adamez was lying on his face clutching a small calibre revolver in his hand.

He had been shot seven times, three times in the chest, once in the head and three times in the back. There were no eye witnesses to the shooting.

Funeral services for Adamez were held Monday afternoon at Greenleaf cemetery with White & London Funeral Home in charge.

TAKEN TO PENITENTIARY

Four men were taken to the penitentiary at Huntsville from Brown county jail last week.

The men taken were: Charley Dunn, to serve five years for night time burglary; Carroll Hutson, to serve five years for automobile theft; Earl Haynes, one year for theft of chickens; and Walter Moe, alias W. R. Reese, two years for theft.

MILK ORDINANCE—

(Continued from Page 1)

disease occur from the use of milk, that can be prevented by a more rigid enforcement of the handling of, and production of milk.

"The City Council is seriously concerned relative to the health protection of the citizenship by a rigid enforcement of the city's milk ordinance, and the health department is very mindful of its duties, but in order that we may have the cooperation of producers as well as distributors, and the public in general, we urge your cooperation and assure you that in the enforcement there is nothing personal; there shall be no discrimination shown, no special privileges to any one and our efforts shall be for the general good of all.

"The public is urged the more extensive use of milk, and in doing so demand the certificate of quality which must be displayed on the package, its grade, which is either, A, B, C, or D, with the producer's name on the label. Any violations reported regarding the requirements, by a consumer will be given prompt attention by the city milk inspector.

"To the producers and distributors: We assure the city's cooperation, but we must insist the milk our people drink must be carefully produced.

"W. H. THOMPSON, Mayor."

CHESTERFIELD CIGARETTES
VICTORY & PEACE TOBACCO CO.

© 1935, LEGGETT & MEYER TOBACCO CO.

IT'S YOUR PRIVILEGE and YOUR RESPONSIBILITY!

Saturday, you vote — or you should vote. The issues to be settled mean much to Texas. By all means, exercise the privilege accorded you as a good citizen, and vote as you may decide. But—

Along with the privilege goes responsibility! To vote for repeal is to SANCTION, with your ballot, the things the saloon-keeper mentions in his advertisement printed herewith. You become a party to all the evils hard liquor means to a community. To fail or refuse to vote is to agree to the same things, since you may — if you choose — by your vote, do what you can to stop the evils.

VOTE AGAINST REPEAL and you take your stand on the side of good citizenship, clean morals, the best interests of the community and all that's really worth while in the lives of men. You also say to all officers in your county and state that liquor dispensing is condemned, and they are expected to follow your demand that its sale and illegal distribution cease, and can depend upon your support in every way to this end.

By all means, VOTE. Be frank and fair with your own conscience, your home and community, and in the full knowledge that the RESPONSIBILITY is YOURS.

A SALOON-KEEPER'S ADVERTISEMENT

A saloon-keeper in Flagstaff, Arizona, some years back had some cards printed for advertising purposes. He retained the price of beer to five cents a glass and other hard drinks in proportion. His two sons finally quite a successful business men, since they had finally parted with their. On one side of the card was printed:

J. J. McMURTRY
Dealer in
Whiskies, Wines, Beer and Cigars
Beer five cents a glass

"THE TEMPLE BAR SALOON"
Flagstaff, Arizona

On the other side of the card was written the following:

"Friends and Neighbors: I am grateful for past favors, and having supplied my store with a fine line of character and liquor, I wish to inform you that I shall continue to make drunkards, paupers and beggars out of the sober, industrious, respectable part of the community to support. My whiskies will invite riot, robbery and bloodshed.

They will diminish your comforts, increase your expenses and shorten life. I shall cordially recommend them as sure to multiply fatal accidents and incurable diseases.

They will deprive some of life, others of reason, some of character and all of peace. They will make fathers of character, mothers widows, and all poor. I will train your sons in infidelity, dissipation, ignorance, lawlessness and every other vice. I shall corrupt the minds of your children, and I shall encourage them to do as they please and cause as much trouble and sorrow as I can. I will thus accommodate the public. It may be at the port—the business man's will. I know the drunkard and do not mind him, but I do not expect an easy living and if I have paid my taxes and I want an easy living and if I shall not be better off, I will not be better off.

"This shall not be my case. I refer you to the kingdom of heaven, and I shall not be better off. I have resolved to carry on my business as a saloon-keeper, but I shall best to diminish the wealth of the nation and I shall best to prevent moral purity and intellectual growth.

Should you doubt my ability, I refer you to the lawlessness, the poverty, the police courts, the howl, the penitentiary and the gallows, where you will find many of my best customers who are ignorant, I will do my best to convince you, but do what I say. Allow me to inform you that you are fools, and I am an honest saloon-keeper."

Signed: "J. J. McMURTRY"

On the 24th of August the citizens of Texas will go to the polls to vote on the question of whether the State shall legalize the sale of intoxicating liquors, such as whisky, and should go and vote no. Every one who is qualified should go and vote no. It has been legalized in some states, and the insurance companies have been so successful in the west states, that they have been able to legalize vice never im-

County Voters Oppose Repeal Favor Pens

Vote Cast In Special A Election Saturday Textbooks Opposed.

County's status as a was maintained in the election Saturday with a more than two against repeal of prohibition. Only two of the 30 county returned a majority for repeal. Ward Wood and the Cross Creek in the county voted in favor of the amendment, and a voters favored temperance amendments, amendment, suspended the abolition, were defeated in Brown county. Complete county returns amendments follow:

For: 985; Against: 630.

For: 1449; Against: 1421.

For: 1421; Against: 1421.

For: 1057; Against: 950.

Four boxes in Brown a majority of 220 votes in and of the prohibition and a majority of 790 old age pensions. The a majority of 346-vote commitment of and voted against the amendments.

Amendments Explain repeal amendments in day was written to submit option for state prob the open saloon and as Legislature to regulate license or state mo the old age pension am the Legislature a minimum of \$15 per month more than 65 years the amendments' aim to authorize the Legislature to submit amendments to amend the present Constitution submission to regulate.

Four other amendments were:

To abolish the fee system existing county and precincts in counties of more than population and district empowering county in counties of less than population to decide abolish or retain their.

To authorize the State to textbooks to denominate private schools and to apportionment of schools per capita basis. To permit commitment in early stages of initial hospitals for observation 90 days, without bail.

To authorize the courts (the juries) to place contribution.

Route For Highway 23 About Se

The work of obtaining pay on Highway 23 in county is about completed. Property of 26 of the land actually secured and cond suits filed on 13 tracts. There are 45 tracts at the new routine. The county commissioners not be able to trade on the six tracts as soon as can be contacted.

We Invite You to Enroll in Daniel Baker College

Fall Term Opens September 11th, 1935

Daniel Baker College is a member of the Association of Texas Colleges and is ranked as a standard college of the first class.

We are fully accredited and offer a modern liberal education, our courses leading to the degree of Bachelor of Arts and Bachelor of Science in Education.

We offer: Pre-Med, Pre-Law, Pre-Engineering, Home Economics, and Teacher Training Courses.

In our Fine Arts Department we offer courses in: Piano, Voice, Violin, Speech Arts, Public School Music, Art, and Public School Art. We have a Band, Orchestra, and Glee Club.

For information, write the Registrar.
