

Few Run-Offs Feature County Voting

North Donley Citizens Ask Highway 66 Designation

CITIZENS URGE 66 DESIGNATION

BORDER CITIZENS OF DONLEY AND GRAY URGE 66 ON SOUTH SIDE

Petitions signed almost unanimously by the citizens living in Gray and Donley counties along the route of Highway 66, urging the state highway commission of Texas to designate the official route of the highway on the south side of the Rock Island railroad, have been presented to the commissioners courts of Gray and Donley and have been placed in the hands of the district engineer in charge of highway matters in this territory.

J. E. Hunt, John Frazier, Jr., A. P. Brown, E. L. Lamb, Geo. Shoop, and Henry Boydston were in Clarendon a few days ago with the petitions and were jubilant over the fact that so nearly one hundred per cent of the citizenry effected had signed the petitions. These gentlemen also stated that the filing of the petitions would set at rest many false impressions concerning the status of the designation through Donley County and would clarify the situation concerning any blame that might now be erroneously held against the Donley County commissioners court for delay in the designation.

The Donley County court, according to Judge J. J. Alexander, notified the highway department through the district engineer many weeks ago that it stood ready to cooperate in the designation and securing of wider right-of-way on the South side of the Rock Island. It is ready to cooperate now and will be ready when the department is ready to go ahead.

The petition asks that the highway on the north side of the rail road at Rockledge utilize an underpass and come to the South side at a point from a half to a mile and half west and to continue on the South side as at present to a point about four and half miles East of Groom where it will cross to the North side via another underpass to join with the designated route in Gray County continuing into Amarillo as at present.

The petition contends that it is more economical to use the underpasses and the South side designation, widening and changing the road to suit the department, than it is to build the road on the North side where it encounters numerous canyons and where great expense would be incurred in right-of-way, fills, cattle underpasses, etc.

According to reports there is some resentment on the part of Donley County residents in that section of the county and other points that it should be represented that the Donley County Court stood in the way of the completion of the designation and construction of the gap here in question.

GOOD SPIRIT IN REVIVAL

TYNDALL REVIVAL ENTERS THIRD WEEK WITH INTEREST GAINING STRENGTH

The revival meeting being conducted by the First Christian church at the big tent tabernacle on the grounds of the old Grammar school building is creating much interest in Clarendon and the communities nearby. The services have been somewhat hampered in the past week due to the primary elections, but notwithstanding these handicaps the crowds continue to come to the services conducted by Dr. John W. Tyndall.

A feature of the services has been the fine music which the choir and congregation have been furnishing. This has been very inspiring to the attendance and is responsible for no little amount of the interest in the meeting.

Dr. Tyndall is delivering many fine messages to the revival crowds each night and every morning he is teaching the cream of the Bible to the members who are in his big Bible class. This class is held each morning in the First Christian Church.

LARGE CROWD AT GOLDSTON MEET

GIRLS CLUB REAPS BENEFIT FROM FINAL EVENT OF THE SEASON

The Goldston Girls' Club was the one to benefit from the visit of the Clarendon folk on Thursday evening of this past week. Clarendon was well represented with more than 150 people and the Goldston folk were there in quite large numbers to witness the program and to take part in the festivities of the evening.

W. H. Patrick was the master of ceremonies, using his well known line of humor to keep the ball rolling nicely all though the short program that was presented for the entertainment feature of the evening. The Clarendon band was there and gave a short concert in the open before going into the auditorium of the school to remain for the evening. Band Director Stephenson had been asked to present a saxophone solo, which was done to the great satisfaction of the entire gathering. County Agent T. R. Brown was next in line, asking that the community name a representative to sit with other representatives of the county in determining a plan of action for the coming year and to select those objectives that are more in demand.

A short intermission was declared in which pop corn, soda water and cream cones were sold to the waiting and hungry multitude. After the band had finished for the remainder of the program. The light footed artists were the first on the program and were followed by a recounting of the fishing activities of the Master of Ceremonies while at Aransas Pass for the past few days.

Introduction of the candidates followed, with each one being asked to consider the particular candidate when the polls were reached Saturday. The entire gathering was invited to the election party Saturday night where the returns from all the county and state were to be posted.

The band played a final number and the program was ended to allow the girls to sell the remainder of their products that some of their number may attend the Short Course at College Station.

LOCAL GOLFERS DIVIDE CONTEST

CHILDRESS PLAYERS TAKE SIX MATCHES OUT OF TWELVE HERE SUNDAY

Due to the inconvenience of the time only a few of the Hillcroft golf team members were able to make the trip to Childress Sunday to meet the players of that city in the second inter-city tournament in the same number of Sundays. Many of the club's best golfers failed to make the trip, thus causing a material decrease in the strength of the Clarendon aggregation. With this taken into consideration the locals staged a stiff battle and emerged from the contests with a split of the matches with six won and six lost. All but two of the matches lost were extra hole affairs, with the match between Kenneth Kerbow and his opponent running to the twenty-first hole before Kerbow was finally beaten.

The Childress Club royally entertained the Clarendon golfers, and all are loud in their praise of the hospitality of the host city. A fine dinner was served the local delegation which was followed by a brief rest before the matches were started at 1:30 o'clock.

The Childress golfers were severely beaten in the matches that were played with the locals on the Hillcroft course last Sunday. The Clarendon players, winning matches, Walter Wilson, A. N. Wood, Clarence Miller, Lee Vaughn, Frank Whitlock and Melford Osborne.

Those of the local team losing matches were: Kenneth Kerbow, Ira Merchant, R. C. Weatherly, Sr., Lee Casey, Holman Kennedy and P. B. Gentry.

Donley Voters Are Victims of News Map

Wednesday morning the citizens of Donley County were somewhat taken aback when the Dallas Morning News appeared with a political map on the front page showing the vote of all the Texas counties in Saturday's primary. The surprise came to all who saw the map when it was shown that our own Donley County was sporting a large "M" in the center of the area. This was worse when looking at the key to the vote revealed that the "M" indicated that the county supported Earl B. Mayfield for Governor in last Saturday's Election. This was made even worse when upon further scrutiny of the map the Donley citizens noted that our county was the only one in the entire Panhandle and West Texas which was not listed in the supporters of Clint C. Small of Wellington. It is doubtful if any other sectional county polled such a unanimous vote for the West Texas candidate.

After some comment and debate as to what was the best course to pursue in righting the wrong which was committed against the people of Donley County by the Dallas News, several prominent business men of the city drew up a telegram and rushed it to the Dallas Morning News editor. The telegram which was sent to the paper is reprinted below:

The Dallas News, Dallas, Texas,

We are shocked, grieved, mortified, surprised, astonished, chagrined and all hot and bothered about the political map that appears on the front page of the Dallas News of today's issue which shows that the only county giving a majority to Earle B. Mayfield in the entire Panhandle and West Texas was Donley. Next to the Bible we have heretofore considered the Dallas News our standard of truth and as Small had an overwhelming majority of the votes cast in Donley County in the recent primary election we sincerely hope that a proper correction can be made of what we consider a reflection on the fair name of our county.

MANY PEEVED CITIZENS.

NEGRO SLAYER GIVEN DEATH

JURY RETURNS VERDICT IN SEVEN MINUTES AFTER CONFESSION

MIAMI, Texas, July 29.—Jesse Lee Washington, convicted of the slaying of Mrs. Henry Vaughn near Shamrock, prepared to leave today for the penitentiary, where the State will exact the penalty of death in the electric chair. The sentence was returned by a jury in District Court here Monday night, seven minutes after it had received the case.

Despite the orderliness with which the speedy trial was made, five Texas rangers armed with two machine guns and gas bombs continued to keep watch today, determined that the State should not be robbed of its penalty by mob hands.

Public sentiment was tense and dangerous in the vicinity of Shamrock several days after Mrs. Vaughn was found dying, her head crushed with an iron pipe.

The negro pleaded guilty at arraignment and placed himself at the mercy of the court. The first testimony in the brief trial was that of the slain woman's husband. He told of plowing in his field on the day of the tragedy and of having sent Washington, a farm hand, to the house for water.

News of what occurred there was brought to Vaughn by his small brother.

Dr. J. V. Gooch, Shamrock, said Mrs. Vaughn's head had been beaten almost to a pulp. She had not been criminally assaulted, he testified.

Washington admitted in his confession that he had gone to the Vaughn home and attempted to "work" Mrs. Vaughn, who fought him. He struck her over the head with the pipe several times in the yard and left her dying, his confession said.

Sheriff McKinney told of capturing the negro by tracing the hoofprints of the horse he rode.

Henry Vaughn, husband of the murdered woman, and one or two

NEWS ELECTION PARTY SUCCESS

OVER ONE THOUSAND DONLEY CITIZENS WATCH SATURDAY ELECTION RETURNS

The Saturday night election party was one of the largest in the history of Donley County election parties, with more than one thousand persons crowded around the board carrying the returns. The crowd began gathering on the street between the First National Bank building and the Goldston Building about 7 o'clock Saturday night. At 8 o'clock the Clarendon High School Band gathered in the street between the above mentioned buildings, before the election board, and gave a lively concert which lasted until nearly 9 o'clock, about the time the returns began coming in rapidly.

By eight-thirty the crowd had begun to be very interested in the returns concerning the Governor's race. The early close race between Mrs. Ferguson and Ross Sterling holding the spotlight. As the time grew later the county races were attracting the greater part of the attention of the watchers. The gradual decline of Senator Clint C. Small in the governor's race caused much of the onlookers interested in this race to wane. The closeness of the county races were creating much interest and comment from the watchers, and the crowds stayed until after one o'clock Sunday morning watching the returns from the late boxes of the county.

Several fisty encounters during the night enlivened the party to some extent, and served to keep the crowd in a good humor.

Most of the boxes sent in their count early, and very few of the races were changed after eleven o'clock. The success of the party was assured by the hearty and fine co-operation given the News force by Messrs. J. T. Patman, James Patman, W. M. Patman, Joe Goldston, and A. M. Beville. These citizens mentioned above deserve the thanks of the people of the county and the News especially wishes to thank them for their unselfish help Saturday night.

The State races were received by radio and announced to the gathering from the front of the board while the county and district races were received by telephone.

Another mammoth election party will be held from the same place Saturday, August 23. Much interest is promised throughout the county over the run-off in county races as well as over the Sterling-Ferguson battle. All the people of the county are invited to be present for the News election party on that date.

OPPOSES THE FERGUSONS

HON. ROSS STERLING

Mr. and Mrs. E. A. Simpson of Amarillo and Mrs. Henry Probst of Dallas stopped Sunday for a short visit with friends before going on to their home. Mr. Simpson has been in East Texas the past week in the interest of Clint Small's candidacy and Mrs. Simpson had visited in Dallas with Mrs. Probst.

relatives probably will be allowed to witness the negro's electrocution at Huntsville Sept. 5.

Clarendon Baseball Team Splits Games

The Clarendon Baseball team split its first series of games played with the highly touted Memphis Owls Friday and Saturday of last week. The games were well played contests with the local nine whipping the Owls in the first encounter by a score of 8 to 5 on the Memphis diamond, and losing the second game here Saturday afternoon 12 to 6.

The Clarendon club has only been organized one week and the victory over the Owls came as a distinct surprise to the team as well as the local followers. The Memphis game was marked by the fine pitching of Fitzgerald, local hurler, and the heavy clouting of the Clarendon sluggers, Burleson, Memphis pitching ace; was hit hard from the start of the contest, and finally was given his ticket for the showers in the eighth inning after a vicious batting attack by the locals had salted the game away. Fitzgerald pitched a fine game and was given good support by the Clarendon infield and outfield.

The Memphis Owls invaded Clarendon Saturday afternoon with vengeance in their eyes and hopped on the Clarendon hurlers in the first inning and continued the assault through the following innings which resulted in the final defeat of the Clarendon team 12 to 6. The Memphis hurler was hit freely but succeeded in keeping the Clarendon hits scattered while the Clarendon hurlers were unable to keep the Memphis hitters from bunting their hits.

Other games are being planned in the near future.

Mrs. B. N. Shepherd and Miss Gertrude left Monday for a two weeks visit with relatives.

Mr. and Mrs. James Orr of Ferris, Texas arrived Wednesday for a short visit with their friend, Miss Catherine Patrick.

Mrs. A. C. Munice and daughter, Miss Clema, of Wellington, who have recently returned from an extended visit in Los Angeles, California, are guests in the home of Mr. and Mrs. J. R. Bain. Mrs. Bain is Mrs. Munice's daughter.

COLE HANDLES ROTARY PERIOD

SPEECHES AND REPORTS ARE ORDER OF THE DAY IN FRIDAY ROTARY LUNCHEON

It was Rotarian A. T. Cole's time to preside over the regular weekly luncheon period of the Rotary Club last Friday and he delivered his part to the pleasure of all the members present. Rotarian Cole took charge of the chair in line with the purpose of Rotarian President B. L. Jenkins, who has planned to let every member of the Rotary group have an entire meeting over which to preside. This plan is meeting with the entire approval of the club, and all members are gathering some very valuable knowledge and experience from each of the weekly luncheon periods.

The speech of the day was given by Rotarian D. R. Davis when he spoke at length on the public utilities companies and their relations to the public as a whole. The speech so interested the group that he was requested to prepare and present further information along the lines of public relations and thrift of the Rotary members. This supplementary address will be delivered by Rotarian Davis in the near future.

Boys work constituted the main topic for the address and report by Rotarian R. E. Drennon. His talk was very pleasing and showed that the Rotary club's interest had not been waived in the least. The baseball league, which has been sponsored by the Lions and Rotary clubs of the city has grown both in interest and rivalry. The games are all well played contests and all the rotarians are invited to attend the games played each Friday and Tuesday afternoon. Out of town games were reported on and other games were spoken of.

Chas. Speed was the guest of the day at the luncheon, and expressed his appreciation and thanks at being able to attend the period. He also commended the local body for the splendid

SUNDAY BAND PROGRAM GOOD

LARGE AND APPRECIATIVE AUDIENCE HEARS BAND AND ORCHESTRA

The Clarendon High School Band made their regular semi-monthly appearance Sunday afternoon at the band stand in front of the old Grammar school building. The concert was enjoyed by a good gathering of citizens who surrounded the curb in automobiles. The program which was presented Sunday was one of the most pleasing and entertaining programs given by the musicians in a long while.

The orchestra, still a new feature of the semi-monthly Sunday programs again made a great hit with the hearers by their fine selections and excellent rendition. The orchestra and band, under the direction of Gus B. Stephenson, always are popular with the citizens of Clarendon and Donley County, and both organizations are rapidly forging to the front in musical circles in the Panhandle and West Texas.

The program as presented Sunday afternoon was:

Band
Men of the Western World, March, Emerson.
Midsummer Eve, Serenade, G. E. Holmes.
Masterbilt, Overture, Harry L. Alford.
Ambition, Overture, Harold Bennett.
Orchestra
Military Escort March, Harold Bennett.
Golden Rod, Novelette, James Revard.
Dreaming, Waltz, Harold Bennett.
Project, March, Harold Bennett.
Band
Them Bases, March, G. H. Huffine.
Sabbath Chimes, Reverie, H. LaForest.
The Avenger, March, K. L. King.

Mrs. C. E. Griggs, Mrs. Land, and Ardis Patman left Wednesday afternoon for Hobart, Okla., where they will be joined by a sister of Mrs. Griggs before going on to Texarkana, Ark., in response to a message stating that the parents of Mrs. Griggs were not doing so well. Ardis Patman will stop at Sweetwater for a visit with relatives.

CAMPFIRE GIRLS FINISH OUTING

AWARDS ARE MADE AT LAST CAMP FIRE AFTER ENJOYABLE WEEK'S OUTING

Saturday afternoon the members of the two camp fire groups of Clarendon girls broke camp and returned to their homes in the city after having spent a week in camp at the grounds of the Clarendon Country Club. Twenty three members were present for the camp during the week, and their sponsor, Miss Lorena Steagall is most high in her praise for the way the girls conducted themselves throughout the entire time of the camp.

The Council Fire Ceremony was presented Thursday night, and proved to be one of the most beautiful and impressive events of the camp. The girls making the highest averages in Tent Inspection were Misses Mary Frances Caraway, Donna Downey, Mary Travis Dyer, Roberta LaFon and Helen Louise Green. The awards for this distinction consisted of a camp bead and a box of candy.

Miss Agnes Caraway presented each girl who participated in the Fire Makers ceremony with a Fire Maker's Bracelet. The Fire Makers ceremony was directed by Miss Lorena Steagall with Miss Geraldine Pratt, Hazel Gilbert, and Frankie Zeigler acting as principals.

Mr. J. W. Martin spent the week end in Wellington adjusting affairs pertaining to his place of business there.

work they are doing in the Community.

After the song period adjournment was made in order.

HEAVY VOTE POLLED HERE

SMAALL RECEIVES 1552 VOTES IN DONLEY COUNTY IN SATURDAY'S RACE

With the heaviest vote ever polled in Donley County, approximately 2332, interest ran very high with all the voters of the county. Probably the most interesting race of the election was that of the Governor's race. This was due to the fact that one of the candidates was so well known to the voters of the county. In this race the Donley voters gave 1552 votes to the Wellington man, which defeated his nearest opponent, Mrs. Ferguson by more than 4 to 1. This was practically the expected vote for Senator Small since the News had predicted a strength of 1540 votes for the candidate to the Dallas News a few days before in the Dallas paper's survey of the situation.

Very little demonstration was in evidence for the respective candidates in Clarendon, and the day passed off rather quietly for an election that was so filled with interesting and complicated races.

In the United States Senator's race Morris Shepperd carried the county by an overwhelming majority receiving a vote of 1480.

In the much discussed governor's race Clint C. Small carried the county by a landslide, with Mrs. Ferguson a very poor second. Ross Sterling, opponent of Mrs. Ferguson in the August runoff, polled only 30 votes.

H. L. Darwin and J. D. Parnell ran a very close race for the office of Lieutenant Governor, with Darwin gathering a 28 vote plurality.

James V. Allred proved to be the popular candidate for Attorney General in Donley County and polled 1297 votes to lead Cecil Storey by a big majority, who was running in second place with 450 votes.

George H. Sheppard led Arthur Mills for State Comptroller of Public Accounts by a vote of 1300 to 422 votes.

John E. Davis led the field for State Auditor over Walter C. Clark by 105 votes.

S. M. N. Mays, only candidate for Superintendent of Public Instruction, received a vote of 2184 for his office.

J. E. McDonald with A. H. King led the field in the race for Commissioner of Agriculture. McDonald polled 617 votes and King followed closely with 545 votes.

G. E. Johnson led J. H. Walker, present office holder, for Commissioner of the General Land Office in the county by a vote of 1010 votes to 546.

Pat M. Neff received a large majority over the other candidates for State Railroad Commissioner with a vote of 1155 while W. Gregory Hatcher trailed with 370 votes.

Marvin Jones won the right to retain his seat as Congressman from the 18th District by a landslide in the county over James O. Cade.

James C. Mahan was the winner over W. A. McIntosh for District Attorney 100 Judicial District by 1176 votes to 846 votes.

J. J. Alexander re-elected to County Judge over Frank Kendall with a majority of 330 votes.

R. Y. King was re-elected to County Attorney after a spirited race with R. J. Dillard finally defeating him by 145 votes.

J. R. Bain led the race for Sheriff with Guy Pierce following with a vote of 1067 to 828.

M. W. Mosley outdistanced his opponents and will be nominated without a run-off, polling 1459 votes.

Roy Beverly displaced W. H. Youngblood in the race for Commissioner of Precinct 2 by a majority of 208 votes.

J. R. LaFon was nominated to the office of Public Weigher by a majority.

M. J. Smith and Les Hawkins will meet in the run-off for Commissioner of Precinct 3 after a very close race with Smith having a plurality of 54 votes.

L. A. Stroud was elected Justice of the Peace over W. G. Brinson by a vote of 322 to 272.

Walter Ginn succeeded in polling a majority of votes over John A. Simmons for Constable of Precinct 3 by a final count of 358 to 250.

In the race for Commissioner of Precinct 4 G. W. Beck emerged the victor leading the two other candidates by a majority of 3 votes.

NATIONAL EDITORIAL ASSOCIATION

PANHANDLE PRESS ASSOCIATION

Less than six weeks now until the free-gate Tri-State Fair and Exposition opens at Amarillo. With Donley County crops among the very best in the section and with an active county agent on the job 1930 should see Donley County win the blue ribbon and first prize money at the big show. If we get all ends of the county working together Donley can win. Let's do it.

Lynch Davidson had the support of thousands of voters and had he chosen to run for governor might have been elected. But it is just as well that he didn't. He has shown a small, mean spirit in his attack on Sterling, his fellowtownsman, Sterling, the man he criticises, has the very self-same qualifications as a high-class business man, that most of us thought Lynch Davidson had. They are very much the same type of business men.

There is so much general dissatisfaction on the present primary election system in Texas, that there is apt to be an open revolt in the conventions this year. It was reported on the streets here the first of the week that there would be a resolution presented at the county Democratic convention next Saturday urging the return to the convention plan of nominations in Texas. The situation is ripe for the question to become of paramount interest in the coming weeks.

Few lacerations of feelings have resulted in the county races in Donley, and most everybody, candidate and voter alike, are maintaining the usual cordial relationships since Saturday. That's fine. Now we have four weeks more of argument, and we will all get down to a real serious effort to make a living. Politics has its place in the scheme of life in Texas as elsewhere, but none of us should let the issue become too serious. We'll all live to laugh and cry again regardless of the outcome.

THE SMALL CAMPAIGN

Hon. Clint C. Small has made a remarkable campaign for nomination as governor of Texas on the Democratic ticket, and there are elements in it that are worthy of attention.

Mr. Small was pretty well known in West Texas, but was as little known over the state as any man on the ticket Saturday outside of Mr. Loven and Dr. Walker. With this in view it is really remarkable that he polled over one hundred thousand votes in a field of eleven candidates, many of whom were men of state-wide reputation and had held the public eye for many years.

In many other sections of the state than West Texas, Mr. Small piled up thousands of votes, which places him in a commanding position for future activities in state politics, if he chooses to continue his public service.

There is every reason to believe that Clint Small may be elected to the governorship or other high office in later campaigns if he decides to run and if his activities for good government square up with his campaign slogan of "Let's adjourn politics and develop Texas."

THE DAY OF THE DEMAGOG HAS PASSED IN TEXAS

With Texas taking new rank among her sister states with a population of over five million and offering the greatest undeveloped resources of any state in the union, it is particularly pleasing that in this year's elections voters have the opportunity of wiping demagoguery forever from the political horizon.

The issue is clear cut. Either Texas will elect Hon. Ross Sterling and proclaim to the world that cheap, raucous appeals to prejudice and to class such as always indulged in by the Fergusons has no recognition in this state and that incipient Bolshevism is damned and doomed here, or like the Biblical "sow," we will "return to the wall" of internal disgrace and outside ridicule by an indefensible return of proxy government to the capitol at Austin.

Jim Ferguson is in his glory when he is attacking some clear-headed, competent business man who has amassed a competence through sheer energy and application coupled with good judgement. He enjoys "pouring it on" somebody who has made a financial success, and never fails to stoop low enough to appeal to the baser passions of greed and avarice to drive home his point. His speeches are the same sort that inflamed Russia to irresponsible "Red" government. Carried to their logical analysis, every man in Texas who has made a few dollars by hard work and tending to his own business, comes under the fire of his low satire and his greedy, vicious mind.

Texas will not abide the spectacle of "Ma" Ferguson sitting in the governor's chair at Austin with Jim on the outside selling pardons and contracts at so much "per." A proxy governor without responsibility has already brought Texas into utter ridicule over the nation and shamed us here at home. Texas will not repeat the error. The day of the demagog has passed in Texas.

THE BEST CONDUCTED DEPARTMENT OF STATE GOVERNMENT

Combed with a fine tooth comb in the past ninety days, the conduct of the state highway department under the direction of Hon. Ross Sterling its chairman, has come through the suspicions and innuendoes of the campaign with not a charge of misconduct or graft.

With this sort of scrutiny withstood there is no question that the state highway department at Austin is the best conducted department of the state government—and all because, for the first time in many years Texas has had a really, big, successful business man at the head of a department, backed up with such men as Hon. Cone Johnson of Tyler, and Judge W. R. Ely of Abilene, our own West Texas member of the commission.

The business of the state of Texas is a tremendously large one, and the transactions of the highway department every year, runs into the millions of dollars.

Texas is to be congratulated in having its largest department accredited as its best conducted department and more than that Texas is to be congratulated on having the opportunity of placing at the head of the entire state government such a man as Hon. Ross Sterling, the man who has made this remarkable record and the man whom those who believe in good government, without the suspicions of graft, delight to support for governor in the run-off on August 23rd.

TIME IS IMPORTANT

One may lose and regain a friend; one may lose and regain money; opportunity ignored may come again; but time is lost forever.

A minute is the biggest little thing there is. Save it! Use it! There is nothing more valuable, nothing that should be more appreciated.

You have no more right to take a man's time by keeping him waiting than you have to take his watch.

The big man of business is always on time. He keeps his appointments. He respects the rights of other men. One of these is time.

Next in importance to being on time is being there ahead of time. It may mean a moment wasted, but being behind time may lose an hour, a day, a week, a month, or a year.

—ALLAN F. WRIGHT.

Last week the editor of The News wired a forecast of the vote in Donley County on the governor's race to the Dallas News on their request, and we would be powerful chesty about our guess on Small's vote which missed the county total only twelve, but for some other guesses we made that didn't pan out so well. Somehow, life is like that. About the time we think we have it all figured out something turns up to prove that we are pretty far off. For instance that prediction of ours about the bottom dropping out of the Ferguson vote. It dropped lower than it ever dropped before, all right, but it wasn't enough to hold up our reputation as a first-string forecaster.

One of the most important pieces of news in Sunday's daily press was overlooked by many ardent voters in their search for news of the election of Saturday. That was the announcement of the department of commerce at Washington of the increase during the week previous of sixteen percent in business activity over the nation. We all agree that business has been so low that it doesn't seem possible for it to sink any lower, and it is most cheering to see evidences of revival over the nation. Better business surely isn't far away, now.

LAND VALUATION SCHOOL WELL ATTENDED AT A. & M.

COLLEGE STATION, Texas.—Devoted to discussion of the more important economic and physical factors that determine land values, the first soil and land valuation short course at the A. & M. College of Texas, held recently, met with a more than pleasing response on the part of the twenty-eight land appraisers who attended, Dr. J. O. Morgan, vice dean of the school of agriculture and professor of agronomy at the college, who directed the short course session, has announced. In addition to the special lectures and discussions, observation trip for the purpose of studying farm land from the standpoint of appraisal was conducted. Judge M. H. Gossett, president Federal Land Bank, Houston, was the principal speaker at the banquet session. Land appraisers from towns and cities in virtually all sections of Texas attended and expressed the hope, Dr. Morgan said, that the short course would be repeated next year.

Quality Meats For August

Our market has nothing but the best in meats of any kind. In Baby Beef, full pen fed stock, you will find a meat that will satisfy you exactly. A full assortment of prepared meats, ready to use. Try our oven baked meats, you'll like the flavor and the cooking. BUY YOUR AUGUST MEAT FROM US

PROMPT DELIVERY SERVICE

Your Power Supply and Your Neighbor's

The grouping of electric service requirements of a widespread area into one large electric system has brought about today's efficient power supply in small communities. Just as in the large city, mass production and mass distribution of electricity become possible. Greater efficiency in operation, and hence greater economy result.

The transmission system of electric power supply is among the outstanding industrial developments of the past fifteen years. Supplanting isolated local plants, it has brought greater efficiency, greater dependability and wider distribution of electric service to small towns and rural areas.

With 2,500 miles of high tension transmission lines, the West Texas Utilities Company distributes economical energy to 115 prosperous cities, towns and communities in West Texas, the "Land of Opportunity".

Meeting the Needs of Millions of People. The low-priced automobile has brought greater opportunity and added hours of recreation to millions of men and women.

BECAUSE the automobile is such an important factor in the lives and prosperity of so many people, the purpose of the Ford Motor Company is something more than the mere manufacture of a motor car. There is no service in simply setting up a machine or a plant and letting it turn out goods. The service extends into every detail of the business—design, production, the wages paid and the selling price. All are a part of the plan. The Ford Motor Company looks upon itself as charged with making an automobile that will meet the needs of millions of people and to provide it at a low price. That is its mission. That is its duty and its obligation to the public. The search for better ways of doing things is never-ending. There is ceaseless, untiring effort to find new methods and new machines that will save steps and time in manufacturing. The Ford plants are, in reality, a great mechanical university, dedicated to the advancement of industry. Many manufacturers come to see and share the progress made. The greatest progress comes by never standing still. Today's methods, however successful, can never be taken as wholly right. They represent simply the best efforts of the moment. Tomorrow must bring an improvement in the methods of the day before. Hard work usually finds the way. Once it was thought impossible to cast gray iron by the endless chain method. All precedent was against it and every previous experiment had failed. But fair prices to the public demanded that wasteful methods be eliminated. Finally the way was found. A better way of making axle shafts saved thirty-six million dollars in four years. A new method of cutting crankcases reduced the cost by \$500,000 a year. The perfection of a new machine saved a similar amount on such a little thing as one bolt. Then electric welding was developed to make many bolts unnecessary and to increase structural strength. Just a little while ago, an endless chain conveyor almost four miles long was installed at the Rouge plant. This conveyor has a daily capacity of 300,000 parts weighing more than 2,000,000 pounds. By substituting the tireless, unvarying machine for tasks formerly done by hand, it has made the day's work easier for thousands of workers and saved time and money in the manufacture of the car. All of these things are done in the interest of the public—so that the benefits of reliable, economical transportation may be placed within the means of every one.

at home, Texas will not repeat the error. The day of the demagog has passed in Texas.

"INFIDELITY"

Much infidelity is caused through man's hatred of Christian principles and those who endeavor to practice them. Many know the truth and right, but deliberately choose error and evil. They are infidels because an attitude of unbelief best accords with their manner of living. "This is the judgement, that the light is come into the world, and men love the darkness rather than the light, for their works were evil." John 3:19. Such, "hold down the truth of God in unrighteousness," and have "exchanged the truth of God for a lie," and "refused to have God in their knowledge." Rom. 1:19, 25, 28. The root of their skepticism is sin. Parcel has said: "There is in Christianity light enough for those who sincerely wish to see, and darkness enough to confound those of an opposite direction." It may safely be said, as a rule, that to those who sincerely wish to see, the light will shine, and into the minds of upright seekers the truth will come. Yet one cannot fail to note that there are a few exceptions. Infidels of another class are to be met with. They are honest and earnest, ever searching for religious truth, and yet they do not find it. What should be our attitude toward such as these? In the first place we should respect them. An honest doubter, is to be preferred to an unthinking sponge that takes in everything. Wholesale denunciation is as useless as it is unchristianly. You cannot bully doubters into believers. Neither will it help to pass such by in silent contempt. Far more creditable is it to make an effort to reasonably to reply to them. There may be some way in which you can help them. They may be overlooking the most convincing proofs, or fallen into the common error of judging Christianity by the lives of the worse kind of professors, or the word of God by the tradition of men. False professors are responsible for much infidelity. The reply to such scepticism is the True Christian Life, and the Intellectual Reason for Our Hope. Come to the evangelistic services conducted by Dr. John W. Tyndall, in the Big Tent. Learn more about God, and your duty to Him.

W. E. Ferrell, Minister.

ST. JOHN BAPTIST CHURCH

Rev. L. L. Swann, Rector Services for the Seventh Sunday after Trinity.
Shortened form of Masters and Sermon, 11 a. m.
Church school and Bible class, 9:54 a. m.
All are cordially invited to attend the church services and the church school exercises. Come and bring your friends and children.

PRESBYTERIAN CHURCH

Robert S. McKee, Pastor
Sunday school, 9:45 a. m. Let everyone attend this service for there will be no other service during the day.
Women's Auxiliary meeting Wednesday at 3:30.

FIRST BAPTIST CHURCH

Rev. B. N. Shepherd was in his place for both services Sunday after an absence of ten days in a revival meeting at Alto, Texas. We had two good services. We were glad to welcome into the fellowship of the church Mr. and Mrs. C. C. Bishop and daughters Lucille and Loise.
Rev. Shepherd left Monday for Seranton, Texas, where he will be in a meeting for the coming weeks. Both Sundays during his absence, Rev. I. W. Fulgham of Turkey will supply for him.
Representatives of the B. A. U. went to Martin, Sunday and presented the work of the B. A. U. there, with a view to the organization of a Union in that community. At the conclusion of the service, a committee was appointed to bring a recommendation as to officers and time of meeting.

Since 1922 population of the United States has increased 11 per cent while percentage of them living in electrically wired homes has increased 75 per cent. Electricity represents less than 2 per cent of the average American family's total expenditures.

Relief From Curse Of Constipation

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."
But immediate relief has been found. A tablet called **Roxxall Orderlies** has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.
Stop suffering from constipation. Chew a Roxxall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Roxxall Drug Store.
DOUGLAS & GOLDSTON DRUG CO.

CHEVROLET Six-Cylinder Trucks

Bigger, Faster, Sturdier and more economical

In size, speed and durability, the Chevrolet Six-Cylinder Truck is superior to any haulage unit ever built by Chevrolet. Yet, for all these decided advantages, it shows (according to many prominent fleet users) a lower maintenance cost than any other low-priced truck of similar capacity!

These basic facts should be borne in mind by everyone considering the purchase of an inexpensive haulage unit—because capacity, speed, ruggedness and operating economy are the big points to consider in these days when business men are watching transportation costs.

Many important features of the Chevrolet Six-Cylinder Truck are given below. Study them carefully. Then use them as a basis of comparison—to prove quality—to prove modern design—to prove OUTSTANDING VALUE!

Unusual Features of the Chevrolet Six-Cylinder Truck

50 h. p. valve-in-head motor . . . 48 lb. crankshaft . . . bronze-bushed pistons . . . positive pressure fuel pump . . . deep channel steel frame 187 inches long . . . mounts 9-foot bodies . . . low loading height . . .

four long semi-elliptic springs and low center of gravity preventing sidesway . . . wide variety of bodies . . . small down payment . . . easy terms . . . and the protection of Chevrolet's liberal new service policy.

Junior Department Enjoys Picnic

True to their regular custom the annual picnic for the Junior department of the Methodist Sunday school was held on Friday afternoon at the McAdams ranch. The party of Sunday school students gathered at the church and from there motored to the McAdams ranch for an afternoon of genuine pleasure. The water at this place is ideal for the youngsters to play in and was delightfully soothing after the hot ride out.

Adding to the pleasure were games supervised by Miss Fannie Perry and Mr. Ira Smith, but that which gave more delight than any other thing was the serving of an abundance of banana cream and cookies just before the party motored back to town in the cool of the early evening.

Epworth Leaguers Have Outing

On Thursday afternoon members of the Epworth league donned hiking clothes, motored to Gunboat mountain and hiked over the immediate surrounding country.

They met again at the mountain where devotional services were held by Andrew Reav before the continuation of joy making. Many witty sayings and outbursts of laughter kept the party amused until supper was announced. After this was duly disposed of by the twenty members present it was voted to make home the next destination.

Miss Lorraine Patrick Honors Guests

Miss Lorraine Patrick contributed to the week's activities with a delightful affair Thursday when she entertained with a bridge party in honor of her charming cousin, Miss Mary Kate Hearne of Seattle, Wash., and her friend and former room-mate at S. M. U., Miss Ann Craven of Childress, Texas, who are house guests in the W. H. Patrick home. The entertaining rooms of the home were made more attractive by the use of summer flowers in hues and set the color scheme of pink and green and the appointments of the two course luncheon carried out the same scheme.

Misses Hearne and Craven were each given honorific gifts and Miss Leta Verne Martin was presented high score. Seated for the games were: Mesdames Don Ellis, Sam Darden, Carl Bennett, Jr., Charles Trent, Clifford Davis, Floyd Lumpkin, Seldon Bagby, Phillip Gentry Richard Bell, H. D. Ligon, Charles Bugbee and Edwin Foust of Fort Worth, Texas. Misses Lotta Bourland, Catherine Cole, Mary Cooke, Nettie Sims, Leta Verne Martin, Agnes Caraway, and the honoree Mary Kate Hearne of Seattle and Ann Craven of Childress.

Story Hour Enjoyed

Mrs. Sam M. Braswell captivated the hearts of the children present for the regular Pathfinder Story hour on Tuesday afternoon with fairy stories of varied nature. So interestingly were these told that the children were completely entranced and continued to be held so by the charming personality of the speaker. Children who are not present for these hours each week are missing a real treat.

Good Will Club Entertained

So interesting have the members of the 1930 Good Will club found their meetings to be that they continue seeing each other each week regardless of the hot and unpleasant weather. Mrs. A. O. Yates was the delightful hostess on Monday when the ladies gathered to work on their quilt. This quilt is of the sun-bonnet pattern and promises to be quite attractive when completed.

A cooling ice course was served late in the afternoon to Mrs. L. M. Bones, Mrs. L. H. Johnson, Mrs. Fred Russell, Mrs. R. Y. King, Miss Lucille Yates, and Mrs. A. J. Thompson of Okarchee, Okla.

B. B. Hudgins Family Attend Reunion

Mr. and Mrs. B. B. Hudgins, Miss Hudgins and Mr. and Mrs. Leonard Goldston and three sons have returned from attending a reunion of the Saunders family. This family party was given by Mr. J. H. Saunders of Pampa, Texas, for his father, Mr. C. W. Saunders of Amarillo, Texas. The occasion being the 84th birthday of Mr. C. W. Saunders, father of Mrs. Hudgins, also. This reunion was held in a picturesque spot of the Reynolds ranch, twenty five miles north of Pampa, Sunday, July 27th, and was attended by eighty-five relatives who came from Ft. Worth, El Paso, Albuquerque, New Mex., and various other points. In at-

tendance also were two brothers of Mr. Saunders, John Saunders of Shreveport, La., who is 82 years of age and Howard Saunders of Roswell, New Mexico, age 72 years. Many interesting events happened on this day that will long be remembered by this group. Some met relatives for the first time in years, others for the first time in life. Edibles of every kind and variety were in evidence at the noon hour even barbecued beef and pork and chicken in every form. This day will long be remembered by those present as the most enjoyable for many years.

Swimming Party Is Enjoyable Event

The Business and Professional Women enjoyed a swimming party at Cooper's Natatorium on Tuesday evening which was quite exhilarating after such a hot and unpleasant day spent in the offices and other business establishments of the city. After the swim the party motored to the home of Mrs. Louie Holloway where ice cream was served. Dancing followed. Miss Opal Pyle was visitor of the evening.

Contract Club Entertained By Miss Baird

On Wednesday at 9:15 A. M. members of the Contract Bridge club gathered at the home of Miss Beulah Baird for a morning of leisure and pleasure, with their favorite game, contract bridge. Miss Anna Moores was given high score favor at the close of the games. Enjoying this were: Miss Nettie Sims, Miss Lorraine Patrick, Miss Anna Moores, Miss Fannie Florence Sims. Mrs. Charles Trent, Mrs. Charles Bell and Mrs. T. H. Ellis.

Mrs. Charley McMurtry Hosts

Opening her hospitable ranch home to friends, Mrs. Charley McMurtry was hostess on Monday with a bridge party which was greatly enjoyed. The decorations were unique in that they were wild flowers of varied hue and assortment. Those who have been out recently near running water have marveled at the beauty and brilliance of those flowers thus Mrs. McMurtry used her ingenuity in the use of them. After introductions and friendly greetings, bridge was indulged in until late with Miss Obie Crabtree being high score winner. Mrs. E. B. Reeves was fortunate in the cut. Present for this lovely affair: Mesdames W. L. Ball, E. B. Reeves, S. L. Ball, D. B. Headrick, W. F. Ball, and Miss Ione Ball, all of Amarillo. Mesdames J. L. McMurtry, Earl Ryan, John Blocker, Dorr Ellis, Miss Lorraine Patrick, and Miss Obie Crabtree, all of Clarendon. Miss Ann Carver of Childress, Miss Mary Kate Hearne, of Seattle, Wash., Miss Kate Nowlin of Athens, Texas, and Miss Hazel Reeves of Dallas, Texas.

Mr. and Mrs. F. C. Baldwin Honored

Mr. and Mrs. Phillip B. Gentry honored Mr. and Mrs. F. C. Baldwin who left for their home in Louisville, Ky., on Thursday Morning with a farewell party at the country club on Wednesday evening. A plunge in the cooling waters of the club lake gave the members of the party not only an exquisite thrill but an appetite that welcomed the aroma of frying bacon and other edibles prepared in the open. The congeniality of the crowd and the smiles that were hurled back and forth made this a most enjoyable and memorable occasion. Indulging in this were: Mr. and Mrs. Sam Dyer, Mr. and Mrs. Forest Taylor, Mr. and Mrs. Meredith Gentry, Dr. and Mrs. O. L. Jenkins, Mr. and Mrs. Seldon Bagby, Mr. and Mrs. Ira Merchant, Mr. and Mrs. Charlie Bell, Mr. Holman Kennedy, Mr. Christon Weathers of Louisville, Ky., and the honored guests, Mr. and Mrs. F. C. Baldwin of Louisville, Ky.

RANGER CAR WITH CONDEMNED NEGRO KILLS BOY

VERNON, Texas, July 30.—Vell L. Verne Barrett, 12, son of Mr. and Mrs. C. W. Barrett, was instantly killed last night five miles northwest of Vernon when he was struck by an automobile manned by Texas rangers taking Jessie Lee Washington, negro, to the state penitentiary to be electrocuted for the slaying of Mrs. Henry Vaughan near Shamrock. The car was driven by Ranger Sergeant M. T. Gonzaulas, who was accompanied by Ranger A. G. Goss. The child was riding on a scooter on the highway when struck, officers said. Gonzaulas said every effort was made to avoid hitting the boy, who darted out in front of the car. County and district officers were investigating the accident.

Borger Christians Sing At Revival

Tuesday night a special musical program was presented at the Tyndall Revival tabernacle by the Christian Church Singers from Borger. The Borger singers were brought to Clarendon to help in the meeting through the efforts of their pastor at that place, who will be remembered as Rev. Emanuel Dubbs, son of Mr. and Mrs. Will Dubbs of this city. Twenty-two of the Borger Christian Church choir made the trip to Clarendon and presented the musical program during the Tuesday evening service of the First Christian Church. The singers were enthusiastically received by the large crowd which was present, and their songs were a source of inspiration to all who were present. The special evangelistic services conducted by Dr. John W. Tyndall, and the First Christian Church, will continue another week. The people are enjoying the special lessons and sermons at the morning session and evening hour. Several of the organizations of the town have accepted the invitation to attend in body and to furnish the songs and music the night they attend.

The Borger singers plan to return next Tuesday night, with more music and songs. The Confirmands of Clarendon will attend Friday night of this week and furnish a musical program. Services will continue every night, and will close with next Friday night services. The program until the close of the meeting is as follows: Friday night, "Miraculous Healing." Saturday night, "Inspiration of the Bible." Sunday night, "The Gospel—Made Man." Monday night, "The Ten Commandments That Men Have To Obey to be Bible Fathers." Tuesday night, "The Ten Commandments That Women Have To Obey to be Bible Mothers." Wednesday night, "The Ten Commandments That Men Have To Obey to be Bible Husbands." Thursday night, "The Eleven Commandments That Women Have To Obey to be Bible Wives." Friday night, "Why the Protestant World Should be United."

To all those who desire to know how to make the home better, an invitation is extended for some very valuable information will be given during the last week of the meeting. Nothing like it has ever been presented in Clarendon before, and these lessons will linger on and bear fruit long after the evangelist has departed. Those from Borger who made the trip to Clarendon Tuesday night for the services were: Mr. and Mrs. R. C. Williamson, Ellis Williamson, Roy Jean Williamson, Mr. and Mrs. Geo. Sal-lee and nephew, Mr. and Mrs. E. D. Hammond, Mrs. Lugar, Mrs. C. E. More, Tolhelma Moore, Helen and Mildred Crepps, Buster Reynolds, Mrs. B. R. Anderson, Mr. J. B. Jones, Mr. Leon Peterson, Mrs. J. P. Rutherford, Mrs. J. Evans, Mrs. R. Hurst, and Rev. and Mrs. E. Dubbs, pastor of the Borger First Christian Church.

GETTYSBURG CYCLORAMA FEATURED AT STATE FAIR

The famous Cyclorama of the Battle of Gettysburg, will be offered visitors to the 1930 State Fair of Texas, it has been announced here by T. E. Jackson, president of the State Fair, who has recently contracted for this wonder picture. The famous picture is 400 feet in circumference, 68 feet high, and occupies a building 130 feet in diameter and 65 feet high. The picture was painted by Paul Philippoteaux, a celebrated French painter, who, with sixteen other artists, worked for over two years on the cyclorama. The original cost of the picture was \$120,000, and four tons of paint were used in the making. The picture has never before been shown except at some National exposition, and the State Fair of Texas is probably the only State exposition which will ever have the privilege of showing the picture to its patrons. This will be the only place the picture will be shown until the Chicago World's Fair in 1933. Local United Confederate Veterans will play an important part in the showing of the picture at the State Fair, it has been announced. Work will be started immediately upon construction of the huge building in which the picture will be housed here. The building will be over 500 feet in circumference, 130 feet across, and 65 feet high. This is as high as a five-story building, and will be the largest special building ever erected at the State Fair for an attraction.

INTERESTING BRIEFS

Texas has the largest helium gas plant in the world—at Amarillo. Direct and indirect subventions to commercial air lines cost British taxpayers \$5 for each mile flown last year in the Empire and \$1.28 for each mile flown to other nations. French subsidies were \$1.09 a mile, German 90c, Italian 77c and United States 70c. International Statistical Institute, The Hague, Holland estimates the world population at two billion. Asia has 950 million, Europe 550 million, North and South America 230 million and Africa 150 million with the remainder on the islands of the world.

MRS. WALTER M. PARKER DIES AT GOLDSTON SAT.

Culminating an illness which has had a duration of over a year, Mrs. Walter M. Parker quietly passed to her reward Saturday night at her home in the Goldston community.

Mrs. Parker has lived in the County for some fifteen years, and during that time this fine woman has commanded the esteem and love of all the people who have come within the radius of her chery disposition. On account of her impaired health Mrs. Parker has been unable to take active parts in her community affairs as she wished but those who knew her knew she was one of the most enthusiastic women in Donley County, and was more than willing to do more than her share to help anyone. The large number of friends of the family indeed regret the loss of this fine woman, and extend their entire sympathy to this family in their irreparable loss of their loved one. Besides the husband, she leaves to mourn her loss several children as follows: Mrs. Jack Weston, Mrs. Odos Spier and Preston Parker of Clarendon, Mrs. Henry Wilson of Dalhart and Merle aged 17 and Earl aged 13 who are still at home.

Mrs. J. C. Burroughs of Hollis Okla., is a sister and remained with her during the last days of her illness. G. W. Carroll and son Edward and J. W. Carroll, both brothers of Cooper, Texas had been here some time and had returned home Friday preceding her death. Mr. Burroughs and Mrs. J. G. Sloan of Hollis were here for the last rites conducted at the Baptist church Monday afternoon by Rev. Chas. Williams of Goodnight an old friend of the family. Interment was had in the Citizens cemetery.

COTTON CURTAILMENT STILL IN EVIDENCE IN TEXAS

AUSTIN, Texas.—During June, curtailment was still in evidence in the cotton industry, according to Bernard Nichols, editor of the Texas Business Review, issued monthly by the Bureau of Business Research at the University of Texas. "A total of 4,854 bales of cotton was manufactured into 4,098,000 yards of goods by the 21 Texas mills reporting to the Bureau of Business Research," Mr. Nichols said. "This compares with the consumption of 7,060 bales and an output of 6,381,000 yards of cloth in June last year. During the first half, these mills used 36,326 bales and produced 20,778,000 yards of cloth, whereas the same mills manufactured 50,021 bales of cotton into 38,302,000 yards of cloth in the first six months of 1929. Cotton goods sales amounted to 3,186,000 yards in June, making 24,883,000 yards in the first half, compared with sales of 5,123,000 yards in June a year ago and 27,181,000 yards in the first half. Unfilled orders fell from 4,588,000 yards on June 1 to 4,166,000 yards on July 1. Last year on July 1, bookings totaled 12,742,000 yards. At the present rate of production, unfilled orders are equal to scarcely a month's run. This is the smallest amount reported for any month this year."

PRECINCTS 2 AND 18 ELECT DELEGATES TO CONVENTION

In the recent Democratic precinct elections H. C. Brumley was elected chairman of Precinct 18 for the duration of the following two years. Delegates from this precinct as selected to attend the County Democratic Convention next Saturday were W. A. Massie, J. N. Riley, Bennett Kerbow, S. T. Clayton, W. C. Stewart, and R. D. Drennon.

The chairman of precinct 2 for the following two years will be J. T. Patman, and delegates to the county convention as selected were Dave Johnson, M. M. Noble, Ira Merchant, Mrs. Nora McMurry, G. L. Boykin, and W. M. Patman.

Mrs. P. L. Chamberlain and daughter, Donita and Mrs. Herman Bennett are visiting with relatives in Clovis, New Mex.

Mrs. O. B. Stanley and son O. B. Jr., of Fort Worth and Mrs. T. P. Moreman of Hedley were guests of Mrs. Eula Cox on Friday.

Miss Eunice Griggs returned Sunday evening from a six weeks stay in Colorado. She was a student of Boulder University during this time.

Messers Tom Goldston and Clyde Douglas left Thursday for Drake, Colo., where they will spend a time fishing and hiking. They expect to spend a part of the time in the camp with Dr. and Mrs. C. G. Stricklin.

Dr. H. F. Harter and Mr. Mick Clark returned Sunday from Colorado where they had been enjoying the cool climate and mountain scenery for a time.

Mr. Frank White and daughter Marjorie, returned Thursday evening from a tour of Colorado. Miss Dorothy who was with them on this trip went on to California for a stay of six weeks with relatives.

Mr. and Mrs. John Dickson of Burton, Texas and Mr. and Mrs. S. A. McCarroll of San Angelo, Texas left for their homes Monday after a visit in the home of Mr. and Mrs. F. A. White.

TEXAS TO PAY 69 CENTS FOR STATE TAXES

AUSTIN, Texas, July 30 (UP)—The State Automatic Tax Board today fixed the 1930 State tax rate at 69c. Seven cents of this is for Confederate pensions, 35c for schools and 27c for general purposes. The tax is 1c higher than the State tax for the preceding year. On the State's property valuations it is estimated that each cent of tax produces a revenue of \$300,000. In this year's tax the school rate is increased 4c over last year and the general purpose rate reduced 3c. The school tax, it is estimated, will permit a per capita payment of \$17 to the schools. In announcing the rate, Governor Moody said that the average tax rate for the four years of his administration has been 67c. He said this is the lowest average since the present constitutional tax limits were fixed.

SOIL EROSION DISCUSSED AT FARMER'S SHORT COURSE

COLLEGE STATION, Texas.—"No one knows to what extent soil erosion should enter into the valuation of land," A. K. Short, conservation and terracing agent of the Federal Land Bank of Houston, said Wednesday in addressing the field crops and farm engineering group of the Farmers Short Course at the A. & M. College of Texas. "We know that it is the greatest destroyer of our national wealth. We know that it has been and is, our greatest destroyer of the farm home."

At the Spur substitution of the Texas Agricultural Experiment Station it was found that level land planted to cotton last soil, by erosion, at the rate of 8,583 pounds an acre over a three year average. On the plot with 2 per cent slope planted to cotton there was an average annual loss of 25,395 pounds of soil. An analysis shows there was sufficient nitrogen lost from that level plot to produce eight bushels of corn or 362 pounds of seed cotton and on the plot having 2 per cent slope sufficient nitrogen to produce 23 bushels of corn or 1,088 pounds of seed cotton was lost, the speaker pointed out. The loss in potential production through loss of phosphoric acid and potash was even heavier.

"When we find that the Blackland, the former banner cotton producing area of the South, has declined in yield approximately 40 per cent in the last twenty-five years and the state average only 25 per cent, we are bound to admit it is not the so-called marginal lands that have been responsible for our decline in acre yield of cotton," Mr. Short continued. "In considering the actual loss as measured by the decrease of acre yield of farm crops, we must not lose sight of the fact that while acre yields are declining the cost of production from every angle has been climbing higher. It costs at least 100 per cent more today to cultivate a piece of land and live on the farm than it did even thirty years ago."

Decrease in quality of production as well as quantity lowered was another factor discussed by the speaker. However, he brought out the fact that experiments have shown that weak seed planted in highly fertile soil produced better corn of a higher yield than certified seed planted in soil depleted of the elements that produce good corn. Certified seed planted in highly fertile soil yielded by far the best corn from both a quality and quantity standpoint. "Farm land permanently protected from erosion should, and will, have a high value," he added.

"Considering land values from the loan standpoint, there can be two solutions to the problem," the speaker continued. "First, on short-term loans, three or eight years, decrease the valuation and increase the rate of interest to insure against a loss by erosion, or foreclosure; second, refuse to make long time low rate interest loans until land is adequately protected by terraces."

AMARILLO TO STAGE HORSE SHOW AUGUST 2

AMARILLO, July 30.—The Midsummer Horse Show at Amarillo to be held August 2 under the auspices of the Tri-State Fair Association and the Junior Welfare League, has attracted 118 entries in the 15 classes of competitions.

Horses that have won prizes in Madison Square Garden, New York; Columbus, Ohio; Lexington, Kentucky; Fort Worth, San Antonio, and other big shows of the country are entered in the competition. These horses are now owned by residents of Amarillo, Pampa and Panhandle.

The 15 classes will be divided between a matinee and night performance. The matinee is intended primarily for children, and will include children's classes and the jumping horse class. Each program will be about three hours long, the matinee starting at 2:30 o'clock and the evening program at 8 o'clock.

Seats for the matinee will be 50 cents for adults and 25 cents for children between 7 and 15. Evening admission will be 75c for the grandstand. Most of the boxes already have been reserved at \$1.50 for each seat.

The fair association is improving its stables at an expense of several hundred dollars, and the improvement will be complete in time for the show. The event will be the first effort toward annual horse show in Amarillo that promises to become one of the greatest in the Southwest.

Traffic congestion causes a loss to St. Louis estimated at \$37,000,000 annually. Elimination of all down town parking and construction of subways are recommended as essential remedies.

TO THE VOTERS OF DONLEY COUNTY

I wish to thank those that voted for me in the race for Tax Collector, and hold no enmity against those that did not, as I told most of you that if you did not prefer to vote for one of my opponents that I would appreciate your vote. Having preferred to vote for one of my opponents you have nothing on me as I voted for my preference and where have I a kick coming.

5 Farm Women Honored at A & M

COLLEGE STATION, Texas.—Texas farm women as very material contributors to the welfare of the state were honored on the opening day of the twenty-first annual Farmers Short Course here Monday in the award by The Farmer's Wife, national farm woman's magazine, St. Paul, Minn., with the cooperation of the Extension Service, A. & M. College of Texas, of the title of Master Farm Homemaker to five outstanding farm wives of the State.

The five women accorded the recognition, winners in the statewide competition, are: Mrs. John McCarroll, Mobeetie, Wheeler County; Mrs. L. H. Lane, Mission, Hidalgo County; Mrs. C. B. McBride, Indian Creek, Brown County; Mrs. O. A. Blankenship, Amarillo, Potter County; Mrs. J. Lumpkin, Dalby Springs, Bowie County.

In the presence of a host of farm women and girls attending the short course, the five winners were presented by Miss Lucile W. Reynolds, of the Farmer's Wife staff, with gold pins emblematic of the title accorded. The five women in question are Texas representatives among nearly 100 outstanding farm women of twenty-one states to be honored by the farm women's magazine and co-operating state colleges this year. They make up the third group accorded such recognition in Texas.

The five were selected on basis of records by state judging committee of which Miss Bess Edwards, assistant state home demonstration agent of the Extension Service, was chairman. The winners are mothers of two to seven children and reside on farms of 12 to 640 acres.

"KNOWING OURSELVES" IS FEATURE OF SHORT COURSE

COLLEGE STATION, Texas.—Anger, fear and love these three basic emotions constitute individually or collectively the great driving force behind the lives of men and women and to understand their relation to one's personality is, in a large measure, to understand one's self. Miss Cora Walton, suggested in a talk before the girls' division of the Farmers Short Course at the A. & M. College of Texas. Her subject was "Knowing Ourselves."

Life at its best may be expected to make two important demands of one, Miss Walton said, the demand for a fine physical, emotional and intellectual independence and the demand for a generous and enriching mode of adjustment to members of the opposite sex.

"Some one has said," Miss Walton pointed out, "that every human being has four main desires—for recognition, security, response and new experience. But emotional desires," she added, "are not the only things to consider in this attempt to understand ourselves. We should know just who our physical defects and assets are and we should have some understanding of our intellectual ability. If we find that we have failed to utilize our best mental resources it may be because of some emotional upset. In such case we can usually bring to bear some control of our emotions which will help us 'snap out' of our indisposition. Control of the emotions is largely a matter of training."

As for love, the speaker declared that to reach full maturity all individuals must learn to respond to someone of the other sex.

TERRELL GIVES OUT CROP REPORTS FOR JULY

Eastern District, 49 counties, acreage, 92 per cent, condition, 78 per cent.

Northern District, 22 counties, acreage 94 per cent, condition 79 per cent.

Western district, 44 counties, acreage 93 per cent, condition 76 per cent.

Central district, 44 counties, acreage 95 per cent, condition 81 per cent.

S. Western district, 37 counties acreage 96 per cent, condition 82 per cent.

N. Western district 58 counties acreage 97 per cent, condition 78 per cent.

Texas harvested 17,968,000 acres last year. A reduction of 6 per cent this year, including abandonment, leaves 16,889,920 acres, or in round numbers 17,000,000 acres in cultivation.

Forty per cent of the cotton is late, planted since May 15th, and much of it is not blooming, and not any of this late crop is assured, and it is impossible to estimate the outcome of the cotton crop.

March and April. The estimated yield is eight bushels per acre.

Grain sorghum and hay have been increased in acreage and the condition is fairly good, but the late hay crops will be short unless general rains come soon.

Prices of cotton and wheat, the main market crops, are very low, and this destroys the purchasing power of the farmer, and hurts business generally.

There is a world panic, but the economic writers, employed by business, say that business is improving and unemployment is decreasing. We have not felt the improvement yet.

Domestic consumption and exports of cotton have decreased 1,822,193 bales during the last ten months, and may reach two million bales by the close of the cotton year, August 1st. This is one cause of the low price of cotton. There may be other contributing causes. The outlook for the farmer and business generally is not very bright.

This report is based on conditions of July 15th, and includes reports from more than 200 counties.

Wheat is poor, generally, because of the extreme drought in

undertaking of financing and building an inter-American highway.

In accordance with the resolution engineers of the Bureau of Public Roads are now en route to Panama, where they will open a field office to cooperate with South American governments in the work preliminary to construction of a highway link between the capitals of the American nations. Guatemala, Costa Rica and Panama have bespoken their assistance, and South American nations are expected to follow suit.

The projected highway, when completed, will be the longest, most picturesque and potentially the most important thoroughfare in the world.—Washington Post.

Texas with 5,421 is third among the states in the number of combines—machines that harvest, thrash and sack the grain in the field.

Hot dry weather is reported in every district, and cotton is failing for lack of moisture. Only a few counties report any rain in July. Cotton is reported good in only a few counties. Very little insect damage is reported. The Southwestern District reports some damage by boll weevil.

It now looks like the crop may be as short as last year. A short crop would seem to be the only hope for better prices this fall.

Corn is reported good from Austin south to the coast, and some counties of central and north Texas report good corn. The average yield per acre of corn and oats is estimated to be 20 bushels.

There is a world panic, but the economic writers, employed by business, say that business is improving and unemployment is decreasing. We have not felt the improvement yet.

Domestic consumption and exports of cotton have decreased 1,822,193 bales during the last ten months, and may reach two million bales by the close of the cotton year, August 1st. This is one cause of the low price of cotton. There may be other contributing causes. The outlook for the farmer and business generally is not very bright.

This report is based on conditions of July 15th, and includes reports from more than 200 counties.

Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always Castoria! Harmless as the recipe on the wrapper; mild and bland as its taste. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is need. In cases of colic, diarrhea or similar disturbance, it is invaluable. A coated tongue calls for just a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

Fletcher's CASTORIA

has been attending church at Ashtola.

Mr. and Mrs. Charles Hearne and children spent Sunday with the lady's parents, Mr. and Mrs. Lyle at Clarendon.

Mr. and Mrs. Wesley Sullivan and children spent Sunday with his parents, Mr. and Mrs. Sullivan at Clarendon.

Royce Turnbow spent Sunday with Billy Walker at Clarendon.

Mr. and Mrs. O. D. Hearne and children left for Carlsbad Cavern to visit a week or two.

Mr. and Mrs. W. T. Lindsey and children of McLean Mr. and Mrs. Thompson of Erick, Okla., spent Sunday with Mr. and Mrs. J. G. Powell.

Mrs. H. B. Catlett spent Sunday with Mrs. Spitzer at Clarendon.

Mrs. J. D. Wood, Mrs. Rufus Poole, Mrs. Chester Hodges, and Mrs. W. E. Hodges spent Wednesday afternoon with Mrs. Willie Roberts.

Mr. and Mrs. Arthur Wood and children of Clarendon, and Mrs. Jones of Ashtola spent Sunday with Mrs. J. C. Wood.

Mrs. Richard Cannon of Pleasant Valley spent Monday with her mother, Mr. and Mrs. Poole.

J. Sayer and W. K. Leatherrock are two more Oklahoma newspaper men coming to Texas. They recently bought the Longview Daily News from Hal Winsborough and Joe Herrin of Marshall. . . . Paying \$11,600.00 for a 99-year lease, the Main-Walker Holding Co. will

remodel the Bender Hotel at Houston and build an annex on the lot adjoining it on the rear. . . . Marshall is to have a 5-story \$200,000 office building.

Mr. and Mrs. Charley Bairfield are now comfortably located in the J. Roy Bartlett rent home.

When PAIN Comes

WHAT many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes the acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia.

One spoonful of this harmless, tasteless alkali in water neutralizes instantly many times that much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drugstore.

Our Beauty Parlor Service

FAMILY DOCTOR LEARNED THIS ABOUT CONSTIPATION

Dr. Caldwell loved people. His years of practice convinced him many were ruining their health by careless selection of laxatives. He determined to write a harmless prescription which would get at the cause of constipation, and correct it.

Today, the prescription he wrote in 1885 is the world's most popular laxative! He prescribed a mixture of herbs and other pure ingredients now known as Dr. Caldwell's Syrup Pepsin, in thousands of cases where bad breath, coated tongue, gas, headaches, biliousness and lack of appetite or energy showed the bowels of men, women and children were sluggish. It proved successful in even the most obstinate cases; old folks liked it for it never gripes; children liked its pleasant taste. All drugstores today have Dr. Caldwell's Syrup Pepsin in bottles.

ITEMS OF INTEREST IN DONLEY

LELIA LAKE

Mr. and Mrs. E. C. Henderson of Quail visited Mrs. Henderson's brothers A. N. and John Stavenhagen Sunday.

Mrs. H. M. Reed and Mrs. Will Walling were guest of Mrs. John Stavenhagen Saturday evening.

Miss Ruby Moore spent the week visiting with her grandparents, Mr. and Mrs. Bailey at Hedley.

ASHTOLA

The Baptist closed a meeting here Sunday after eight days and nights of preaching. Bro. Sibley the Baptist Missionary preached some very interesting sermons and Bro. Walker did some real personal work. There were several conversions and two additions to the church. They were baptized Sunday afternoon in Bro. Holly's tank.

Mrs. Carter and her friend Mrs. Bobbins from Dallas are visiting her mother, Mrs. H. W. Lovell this week.

Miss Mary Lovell left Saturday night for College Station to attend the short course. She having won a trip in the living room contest.

Mrs. Al Henson and children also her mother-in-law, Mrs. Henson, spent last week in Oklahoma visiting relatives.

DRY BASEMENT IS AID TO HEALTH

Modern Methods Insure Dry and Livable Basements Under All Conditions

By WYATT BRUMMITT

It is not only possible to have a dry, healthful basement under all ground and weather conditions but, builders agree, no other kind of basement need be tolerated.

There is more or less moisture in the ground at all times. In some localities, where the natural drainage is poor, the amount of moisture may become so great that there is actually a "head" of water pressing against the basement walls and floor. But, whatever the conditions, it has been found that a concrete wall, constructed according to well established principles, is a watertight wall.

There are two types of concrete walls—monolithic and masonry. The first, as its name implies, is a solid unit of concrete, cast between forms. The second is built up with units of concrete masonry laid in cement mortar. Naturally, the monolithic wall lends itself well to massive work, but even in relatively thin sections it makes a strong, dense barrier against moisture, termites (those destructive, boring ants), rodents and all the other agents of decay, disease and discomfort. Under ordinary circumstances, such a wall requires no extra treatment to insure water-tightness. However, where poor drainage indicates the possibility of external water pressure, an external coat of cement plaster, plus provision for artificial drainage, is advisable. A protecting coat of hot tar or asphaltum, mopped on, is another effective means of securing moisture protection.

A wall built of concrete masonry at Memphis Saturday night and their son Kay Smith and family at Lakeview Sunday.

ry units is an effective, watertight wall, providing ordinary care is taken to insure strong, tight mortar joints, using cement mortar. Additional protection measures for a masonry wall depend on the type of masonry used. A coating of plaster or tar is seldom required when dense, strong masonry units are used.

It is, of course, important that the basement floor should be just as impervious to moisture as the walls; for external water pressure acts simultaneously on both floor and walls. A standard five or six-inch concrete floor, equipped with proper backwater or seal trap drains, can be relied on to keep out ground water, providing that the joint between floor and walls has been properly designated and filled with pitch.

A dry basement adds much useful space to the house, space for recreation rooms, work rooms or for the safe storage of food and goods.

PARK DAY AT CANYON BEYOND EXPECTATIONS

At ten o'clock Sunday, July 13, there was a train of over one hundred cars waiting to be admitted to the Light House Canyons. By six in the afternoon 1433 cars had passed through the ranchmen's gates.

Three places of interest were visited: The Light House Canyons, Big Sunday, and Cooley's Canyon. Over five thousand Panhandle Plains people picked up their lunch and went picnicking. There were twenty out-of-State cars; some from Mexico, and Canada, and two from foreign countries.

On the basis of averages this motor-picnic spent \$15,000 and saw, according to their own stories, as much as if they had paid \$60,000 to have made similar out-of-state trips. In other words, a Palo Duro Park would save the vacationist of this section \$45,000 per week-end. No one can estimate the number of tourists that will come from other states when we get the park.

This is not Canyon's or Amarillo's project. It belongs to Texas. The people of Texas should know what Texas has. Possibly it should

be a Natural Park. But the people of Texas must be interested before many people in the other states will be.

We plan to have another Park Day soon. So the thousands of people who did not get to see the future "Play Ground of Texas" many have an opportunity to do so.

TEXAS STANDS HIGH IN SOUTHERN POTATO ACREAGE

COLLEGE STATION, Texas.—Texas has the largest Irish potato acreage of any of the Southern States despite the fact that commercial potato growing is relatively a new industry in many sections. J. F. Rosborough, horticulturist of the Extension Service, A. & M. College of Texas, pointed out before the horticultural group at the Farmers Short Course here in a discussion of the "Growing and Handling of Irish Potatoes."

"The potato crop of the South when viewed quantitatively is not of a great importance as is the northern supply, but the larger part of the southern crop is marketed at a season when the consuming public is eager for fresh vegetables and is willing to pay a premium for them.

"It is interesting to note that although the acreage in this state is large the yields are comparatively small. Potatoes require a soil that is filled with humus and is well supplied with plant food; thus, it becomes necessary, in order to secure high yields, to have special care to deep and thorough preparation of the seed bed, the addition of plant food material to the soil and to frequent and thorough cultivations.

"Purchasing the best seed available is the initial step to take in the direction of increasing acre yields and next in importance is the treatment of seed with disinfectant to destroy the organism of scab and the resting stage of Rhizoctonia fungus. Formulas recommended for these solutions are one pint of formalin to thirty gallons of water, or four ounces of bichloride of mercury (corrosive sublimate) dissolved in thirty gallons of water. It is preferable to treat all seed potatoes before cutting.

"If the seed are planted as

soon as cut, there is little opportunity for injury unless exposed to the sun for an hour or more before being covered in the furrow. Seed pieces are best planted in rows thirty to forty-two inches apart, spacing the seed three to five inches deep. Frequent cultivation and perfect tillage of the soil must be maintained."

Perryton has been made district headquarters of the Texas-Louisiana Power Co. with much of the business formerly transacted with Fort Worth headquarters now being transferred to Perryton. Perryton eHerald pays tribute to the company's service in that section of Texas.

Chesterfield

MILDER, YES—BUT SOMETHING MORE. Chesterfield offers richness, aroma, satisfying flavor.

BETTER TASTE—that's the answer; and that's what smokers get in Chesterfield in fullest measure—the flavor and aroma of mellow tobaccos, exactly blended and cross-blended. Better taste, and milder too!

They Satisfy

RATHJEN TELLS OF MOUNTAINS

LIONS ARE TOLD OF BEAUTIES OF DRIVE TAKEN BY DELEGATION

As a follow up on the initial report made last week by Lion Rathjen, the Lions were told Tuesday of this week of the beauties of the mountain drive tendered the Lions delegates and alternates by the Lions Club of Denver as a part of the entertainment features of the convention. The beauties of the trip were really too much for words to describe and the Lions were urged to make the trip if they cared anything for the beauties of nature as they may be seen in the Colorado mountains.

Continuing with the report of the work of the convention, Lion Rathjen stated that too much happened and too many words were spoken to allow anyone but a shorthand expert to get the full benefit of the entire convention. A more detailed report of the convention will be available for the Lions after the minutes of the session have been put into book form.

The four days of the convention were sketched rapidly by the Boss Lion with the high spots of each day's work being given due share of the attention. The lack of a showing as made by the Texas delegation was given its due share of attention of the speaker and he was quick to urge that the state hand itself together to make a better showing at the next convention to be held in Toronto, Canada in 1931. The singing was given particular attention with special mention being given the winner of the Atwater-Kent prize and the accompanist, her father.

More reports from the workings of the convention may be expected when the detailed minutes of received from the International office.

Lion Chase reported on the final program of the session at Goldston, stating that a good crowd was present in spite of the many vacationers and the absence from the city. The program was reported as most enjoyable.

A card from Lion Wilder was received and read to the club. The content of the card was such that some of the members will probably take exception to the statements contained thereon, but will be unable to contradict what was said.

Lion Alexander stated that the right-of-way for the eastern end of the Highway in the county would probably be all secured this week and that the work would be ready to start on the second section by the time the route was secured for the first section.

Lion Stephenson reported that the Clarendon boys went to Memphis last Friday and were defeated by the small score of six to five. More games are in prospect for the future. The game for Tuesday evening was also mentioned and a full attendance was urged. The invitation of the Tri-State Fair to the Clarendon band was also mentioned and an answer was promised at a later date.

Adjournment as usual.

REGULAR LEGION MEETING IS TUESDAY

The regular meeting of the American Legion Post of Clarendon is scheduled to be held in the Legion Hall Tuesday evening of next week. It is vitally important that a large attendance be present at that time as the matter of a delegation to the Department Convention at Austin will be discussed and the possibility of nominating delegates will be brought up. A social meeting will also be discussed and plans laid for this event in the near future. Other matters of importance will also be talked about and passed to the public for their consideration. The members are asked to make their plans to attend this meeting.

ODOS CARAWAY GETS MANY COMPLIMENTS

Odos Caraway, who so successfully managed the Small campaign for Governor in Donley County is receiving many compliments from his friends here and from Small leaders over the Panhandle for his appreciated efforts.

Early in the campaign Mr. Caraway was elected the president of the Small-for-Governor Club of Donley County and through his untiring labors he secured hundreds of members in the club, conducted delegations from this county to Amarillo and Pampa for Small rallies, and placed scores of Small tire covers on the automobiles of this section.

The fact that Mr. Small received practically seventy percent of all the votes in Donley County is testimony to his thorough methods and is winning for him the deserved commendation. It is useless to point out that had West Texas counties polled as heavy a percentage of votes for Mr. Small as did Donley the record would stand entirely different in Texas today.

Paducah is the site of the unusually handsome \$200,000 court house of Cottle County, just completed. . . Cisco is to have a new Federal Building costing \$95,000, while Breckenridge, its neighbor, is to have an allotment of \$110,000. . . Lubbock is to vote again on a \$250,000 bond issue for a criminal courts building. Success of the issue means a \$335,000 Federal building on the site of the present county jail.

COMING OF THE WHITE MAN

JACK AND ETHYL

Posed as Watona and Chief Yequina, NBC, Wednesday, August 13, 8:00-8:30 p. m.

Watona watches with her father, the approach of the "Tonquin" bringing white settlers to Fort Astoria. Posed by Jack and Ethyl (Ted Maxwell and Bernice Berwin)

While our Puritan forefathers fought the war of 1812, Western pioneers were molding the vast wilderness in the North Pacific states and laying the foundation of Astoria, Oregon and other cities of today in that state and Washington.

Jack and Ethyl, in the August "Let's Get Associated" series, typify the native Indian and the valiant pioneer of that northern land which has given so much in natural resource to the wealth of the United States. Jack is heard during the weekly Wednesday night NBC broadcast as Alexander MacKay who lead the famous Astor expedition and Ethyl portrays Watona, 16 year old Indian princess whose vain attempt to save white man's life brings to a thrilling climax "The Life of Alexander MacKay."

The second episode in the dramatic biography, will be presented Wednesday, August 13 between 8:00 and 8:30 o'clock. It deals with the founding of Astoria, Ore. and the first conflict with the Indians who inhabited the Columbia River district. Chief Yequina heads the tribe of red-men who resent the advent of MacKay and the expedition's attempt to establish Fort Astoria. In subsequent episodes, the NBC network audience will hear dramatized the historical massacre aboard the Astor ship Tonquin and the futile attempt of Princess Watona to save MacKay from the death at the hands of her father's tribe.

The "Story of Alexander MacKay" is the fifth of a series of dramatized biographies of early Westerners. The script is by Carlton E. Morse, author of the preceding stories, and correct historically.

METHODIST CHURCH

S. E. Allison, Pastor

Sunday school meets in all its departments at 9:45 a. m. J. R. Porter general superintendent.

Preaching services conducted by the pastor at 10:50 a. m. and 8 p. m.

The Senior and Hi-Leagues meet at 7:15 p. m.

On account of the pastor of the Presbyterian church being away for the month of August, the Union Sunday evening services will be discontinued. We have services in our church each and every Sunday evening.

A most cordial invitation is extended to come and worship with us.

JERICHO REVIVAL HAS FINE SPIRIT PREVALENT

The Jericho revival meeting being conducted by Rev. Hugh E. Lusk is drawing splendid crowds, and from reports it seems that the people of that section of the county are responding to the calls from the pastor and have a very fine spirit. The music for the meeting is being handled in a very efficient manner by Joe Cannon with Mrs. Cannon at the piano. Long time residents of Jericho state that the present revival is drawing greater crowds than any like series which has been held in that place for the past several years.

REV. J. H. WATTS

The Rev. J. H. Watts, former resident of Clarendon and resident of Austin for the past four years, died at an Austin hospital last Wednesday afternoon at 6:30. Rev. Watts was 75 years of age and has been a methodist minister for over 40 years. Rev. Watts has a host of Clarendon and Donley County friends who are grieved by his passing.

Funeral services were held from the University Methodist church last Friday afternoon at 4:30. The services were conducted by Rev. Dr. K. P. Barton, assisted by the Rev. S. W. Williams and the Rev. J. Fisher Simpson. Interment was made in the Oakwood cemetery at Austin.

Rev. Watts is survived by his widow and six children, three daughters, Mrs. Virgie Keakey of Roaring Springs, Mrs. Paul Nash of Demmitt, Mrs. W. J. Bybee of Lockney, and three sons, the Rev. H. B. Watts, pastor of University Methodist church of Austin, J. W. Watts of Clarendon and W. L. Watts of Vernon.

BURTONS RETURN FROM TAOS, N. M. VACATION

Superintendent and Mrs. H. T. Burton and daughter, Miss Nelda Sue, and Mr. and Mrs. L. E. Thompson of Hedley returned Sunday from their vacation trip to Taos, New Mexico and other points of interest in that country.

Supt. Burton reports many fishing tales which will make local fishers sit up and take notice. Some of the stories have been questioned, but just the same the party reports a very good trip and had enough fish to appease the appetite of all. Very few days passed which did not produce the maximum limit of fish.

One of the most fishy of all stories which Burton related to friends here was the rainy spell which they were in. The rain began falling Sunday morning and did not stop a minute until Wednesday morning. After that the party was in two other floods, but all these did not dampen the spirit of the vacationers.

HOKUS POKUS STORE IS IMPROVING BUILDING

Monday and Tuesday of this week workmen have been busily engaged in replacing the old awning in the front of the Hokus Pokus grocery store. The awning has been in a bad state of repair for quite awhile, and the new improvement will make a pleasing appearance for the place of business. The roof of the store is also being repaired by the crew of workmen this week and will afford a much better covering than the store has enjoyed in a number of years.

CONDEMNED NEGRO IS CLARENDON VISITOR

Jess Lee Washington, tried for the murder of Mrs. Henry Vaughn near Shemrock, was a Clarendon visitor Tuesday shortly after noon. He was accompanied by two rangers and the party stopped here for a short time for refreshments before they continued their journey. The place of their journey's end was not determined. The negro was tried the early part of this week at Miami and was given the death sentence. The date for his death has been set at September 5th.

MRS. FERGUSON LEADING 67,849

DALLAS, July 30.—With 784,574 votes counted at 1 p. m. today Mrs. Miriam A. Ferguson of Austin was leading Ross S. Sterling of Houston 67,849 votes in the standing of candidates for the Democratic nomination for governor in Saturday's Democratic primary.

CAFE DAMAGED BY FIRE OPENED AGAIN TO PUBLIC

The crew of workmen who have been busily engaged in refinishing the Ideal Cafe for the past three weeks finished their work and turned the place of business over to its operators. Several weeks ago the place was damaged considerably by fire and water, caused by the fire starting from an unknown origin. The properties of the place of business have been repainted, as well as the walls and the floor of the cafe being put in first class shape.

The business was opened to the public last Saturday.
