A THOUGHT FOR TODAY

My opponents tell me that I am a dreamer. I am. No man has ever done anything without first of all dreaming about it. We dream of things and then if we are men of action we set about realizing our dreams in our waking moments.—Ramsey MacDonald.

FEWER BANK FAILURES

Less than a month ago twenty-five banks on the average were failing every twenty-four hours. Two weeks after the formation of the \$500,000,000 National Credit Corporation only seven out of 20,000 banks closed their doors in a week.

There have been still fewer the past two weeks, and in the last ten days a number of banks have been refinanced and reopened.

The business horizon is much brighter.

NOT FAR APART, BRO. STRICKLAND

"Sam Braswell of the Clarendon News is a trained musician. He is not only a singer of note, but a good band master, and when they want some special music over at Clarendon, Sam is called in to put the matter over, or at least help. Being a trained musician, however, Sam seems to think that musical appreciation of all people run in the same channel. Last week, in an editorial he tells us that "we respond with the heart to the misery and woe of the great grand opera artists." Maybe Sam does, but we respond in another way. We just turn the nob on our radio and get Amos 'n Andy or somebody singing "Carry Me Back to Old Virginia" or some melody like that we can understand. No, all great minds do not run in the same channel, Sam."—Terry County Herald.

We believe Bro. Strickland of the Herald didn't get us exactly right on our grand opera editorial—what we were trying to say was that the woe and joys of grand opera "characters"—not the actors—were present in the every day lives of our acquaintances and that we should be prepared to sympathize with them in our daily contacts. Yes, we love the music of the opera, all right, Bro. Strickland, but you haven't got much on us when it comes to enjoying "Amos and Andy", and as for the vibrant strains of "Carry Me Back to Old Virginny", we love them and their kind just as much as anybody. This editor is not a "highbrow" musician—if he is a musician. He thinks he is democratic enough in his preferences to love the best of all music aside from jazz and crooning, which we have long felt brought the depression to this nation, and which we maintain is no music at all. Let us have more music and better music.

A TOOL THE DEVIL WANTS TO KEEP

It was once announced that the Devil was going out of business, and would offer all of his tools for sale to anyone who would pay the price. On the night of the sale they were all attractively displayed, and a bad looking lot they were.

Malice, hatred, envy, jealousy, sensuality, deceit and all other implements of evil were attractively spread out, each one marked with its price. Apart from the rest lay a harmless looking wedge-shaped tool—much worn—and priced much higher than any of the others.

Someone asked the Devil what it was. "That's Discouragement," was the reply. "Why have you priced it so high?"

"Because," replied the Devil, "it is more useful to me than any of the others. I can pry open and get inside a man's consciousness with that when I could not get near him with any of the others—and when once inside I can use him in whatever way suits me best. It is much worn because I've used it on nearly everyone and very few know it belongs to me."

It hardly need be added that the Devil's price for discouragement was so high it was never sold.

He still owns it—and is still using it. He is using it in your business now that summer is over and most all of us have our day. Let's forget this tool and get to work. The business is here if we work for it. Will you get yours or will you let the people of some other city get all the trade. If you are wise you will trade at home and you will prosper. Trade away from home and you will go down. When a businessman shops out of town it makes people afraid of his merchandise. The first thing your customer will think of is that your merchandise is not what it should be or you would trade at home. When you show people you have confidence in your line, you can make other people interested. Trade at home if you want prosperity for your own town.—Journal, Hominy, Oklahoma.

Industrial Possibilities of Texas

BY COL. WM. E. TALBOT

(Editor's Note:—Following is the 9th of a series of articles by Col. W. E. Talbot, agency manager for the Southland Life Insurance Company and the prime mover in the campaign for Texas Industries, in which he discusses the possibilities of Texas from an industrial standpoint, answering the question: "What manufacturers does Texas have and what can we profitably manufacture?" Other articles will follow.)

STORY NO. 9

Special To The Clarendon News
Take the question of food manufacturers.

What does it mean to a community to have a plant of this kind? First, it means that the product of the farmer is going to be sold. The surplus is usually going to be taken off the market, which is the cause of depressed prices. Employment is going to be given to the people of the community and payrolls are created through the different channels of trade.

A survey of the different plants of Texas shows that the average number of employees for a food plant is 80 men and women, with the monthly payroll of \$7,706.00, and that the annual amount spent in that locality for raw materials is around \$436,091. It shows that the average sale to their own community is approximately 18½ per cent.

Today we are buying our tomatoes and corn from New Jersey and Maryland, our okra and beans from Colorado, our asparagus and berries from California, grape fruit juice is shipped from Chicago, and one of our own main food products, tamales, chili and beans, and chili con carne, is shipped in from Missouri.

Now we are going to buy these commodities any way, suppose that we can increase the local consumption of any plant from 18½ to 37 percent, what does it mean? It means 80 additional men and women are employed. It means approximately a payroll of \$15,412.00 against \$7,706.00, and it means a purchase of raw materials of \$872,000.00 against \$436,000.00.

In other words, by buying your own products you can increase these amounts to the extent of your patronage. Won't this go a long way toward solving the unemployment situation, the need for chevity and to increase buying power?

It is simple, it is possible, and it is within your power to do these things for your own community.

When are we going to wake up?

The Magnet . . .

No CITY, no town, can long exist industrially unless it can retain its home industries and, perhaps, attract other industries.

What influences an industry to locate in a particular community? Quality and cost of labor; quality, cost, extent and availability of raw material; a market for its product, and last, but far from least, the availability, dependability and cost of electric power.

Electric power is the motive power of industry because it makes possible the most efficient use of machinery, and because its cost is almost negligible.

The modern transmission line electric system, therefore, is not merely a company furnishing dependable electric service, it is a magnet attracting and keeping industries . . . and jobs . . . in the territory it serves!

To West Texas' unexcelled advantages from the standpoints of natural resources, raw materials, intelligent labor, low production costs, an enthusiastic market and a policy of genuine cooperation with new industries, the West Texas Utilities Company—serving 125 prosperous cities and towns in West Texas, the "Land of Opportunity"—adds the provision of the dependable and inexpensive electric power supply demanded by modern industries.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

Book Club To Have Book Tea

At the regular meeting of the 1926 Book Club at the club room on Tuesday afternoon of last week, with Miss Temple Harris and Mrs. Van Allen Kent as hostesses, Committees were appointed and plans completed for the book-tea to be given by members of the 1926 Book Club on December 1st, 1931 from 2:30 to 5:30 o'clock, at which time they will show and have for sale a large selection of children's books, ranging from toy-books to those most suitable for early adolescent age. The proceeds derived from therefrom to be divided equally, after expenses are paid, between the club-room and Good-fellows' fund. Members of all organized study clubs of the city will be guests for the afternoon and each member of the book-club will invite one guest, preferably one who is not a member of any study club.

At the completion of the business session with Mrs. Ed Teer as leader, "Coronado's Children," by J. Frank Doby, was studied. Mrs. Manley Ozier told the story of the lost San Sabá Mine and was followed by Mrs. W. A. Clark Jr., with Tales of Cow-Camp. "Lost Nigger Mine" was interestingly related by Mrs. Clifford Davis and the story was completed by Miss Temple Harris by relating "Midas on a Goat-Skin".

A social hour followed with dainty refreshments being served while still more discussion was made of the oncoming book-tea as the members are so enthused they wanted to linger and discuss different phases of it.

Mrs. Chamberlain Is Hostess

With members of the Friday Bridge Club as her guests, Mrs. P. L. Chamberlain entertained on Friday afternoon at her beautiful home on West 4th St.

The games began at 3:00 o'clock and lasted until late afternoon when a delightful refreshment course was served to:

Mesdames Dee Brooks of Ft. Worth, Charles Trent, Forest Taylor, James H. Morris, C. E. Miller, Floy Lumpkin, Frank Stocking and Miss Helen Martin.

New Contract Club Organized

Rumors that have been afloat for some time concerning the organization of another Contract Bridge Club materialized last Tuesday with the first meeting being held in the home of Mrs. Kelley Chamberlain. As yet the club does not have a name but will be identified soon by a suitable name, meanwhile the members are studying rules, practicing the art of correct bidding and perfecting the game in other ways.

Charter members of the club present to participate in the playing on Tuesday were: Mrs. Phillips Gentry, Mrs. Ira Merchant, Mrs. Sam Dyer, Mrs. Seldon Bagby, Miss Mary Cooke, Miss Loraine Patrick, and Mrs. Kelly Chamberlain, the hostess. Miss Elgin Patrick was an invited guest.

Study Club Has Good Program

With Mrs. Fred Buntin as hostess at the Ladies Club room on Friday afternoon members of the Mother's Study Club studied "How to Tell Good Pictures" under the leadership of Mrs. Will Patman, who discussed the above mentioned topic.

Mrs. T. H. Ellis gave a sketch of the life of Michel Angelo, showing some reproductions of his paintings together with some of the outstanding Madonnas by other prominent pictures.

Mrs. R. W. Wilkerson reviewed chapters six and seven of the book "Character Training" now being studied by this group. Bobbie Boston pleased those present by the rendition of a beautiful violin solo, Mrs. John M. Bass accompanying. Rosaline Bass, as usual, delighted the group with one of her favorite readings.

During the business session Mrs. Harlan Navlor and Mrs. Frank Heath were voted into the membership of the club. A dainty salad course was served at the close of the program.

Mr. and Mrs. Will C. McDonald announce the birth of a daughter on Sunday, November 15th at the Adair Hospital. Mrs. McDonald and the baby are both doing nicely at their home in West Clarendon.

B. P. R. Club Entertained

Loveliest of social events for some time was the Thanksgiving dinner party given Thursday evening by Mr. and Mrs. Sam M. Braswell, at their home, for the members of the B. P. R. Club and a few invited guests.

The intriguing autumn season had brought all her favorites of the garden and arranged them to show up at their very best advantage, to welcome the guests as they entered from the chilly blasts that had descended on us earlier in the evening.

The dinner table, a thing of beauty with snowy linens draped with yellow streamers, was centered with a large pumpkin hallowed out to form a reception for green feathery carrot-tops. Extended out from the pumpkin were nuts and cranberries arranged in points. Four tall lighted yellow tapers supported by large yellow skinned onions cast a soft glow over the table where a miniature turkey strutted before each plate to serve as place markers and later furnished a part of the continued story of the first Thanksgiving as read by each guest.

Much toasting was done between the serving of courses with the wraens of corn and feathers furnished by the hostess, with Mr. T. D. Nored holding the lucky number and receiving a handsome prize.

Games of '42' followed the completion of the meal with the following taking part in the playing: Mr. and Mrs. G. L. Boykin, Mr. and Mrs. H. T. Burton, Mr. and Mrs. C. C. Powell, Mr. and Mrs. J. R. Porter, Mr. and Mrs. Fred Rathien, Mr. and Mrs. T. D. Nored, and Mr. and Mrs. R. Wilkerson.

Mr. and Mrs. Floyd Keener and children motored to Amarillo on Friday. Mrs. Keener and children visited with relatives while Mr. Keener transacted business.

BRONCHOS WALLOP WARRIORS AGAIN

REID AND NICHOLS SCORE 19 POINTS. PLACE BRONCHOS IN FINALS

Swooping down off the picturesque hills surrounding the Miami Indian reservation with the chill blasts of a winter blizzard, a stampeding and frisky herd of Bronchos trod the championship hopes of a fighting band of Warriors into shattered dreams with a nineteen to nothing victory, thereby advancing into the finals for District One honors. Throughout the first half the Indians were a determined eleven, and every offensive drive was frustrated either by the alert Warriors or the medicine men, known in other like contest as officials.

So well did the Redskins have the Indian sign on the Maroon and White forces of generals Stocking and Hutton, under the leadership of Captain Raymond Nichols, that the Bronchos failed to exhibit a severe scoring threat through the entire first half. On the other hand it was for the paintless and purple jerseyed Warriors to supply the major thrill for the initial thirty minute period. This they did with a beautiful 50 yard drive featuring sensational broken field work by Morrison and plunges by Rankin and Talley which was finally halted on the Maroon nineteen yard line after the local fans had all but frozen from the combined fury of the elements and the thought that the Bronchos goal line might be pierced by the frantic assault of the Indians.

The minor thrills of the first half were supplied by the officials who staged a regular field day, especially were they liberal with the five and fifteen yard penalties to the local team, several promising drives were nipped in the bud by these frequent gifts from the hands of the officials. Five first downs were registered by the Bronchos in the first half as against four by the Warriors.

In the third quarter the Maroon jerseys showed signs of life and worked the ball deep into Miami territory where a fifteen yard penalty and another five yard set back terminated the advance. This ill term of luck incensed the Bronchos who promptly swarmed through the block and recovered a Warrior nunt on the host's twenty-nine yard line. From this point the Broncho attack took on a savanna and battering advancement, which grew as the game progressed. Featuring Captain Nichols, the local battering ram at his best, ably aided by his

colleagues, Andis, E. Watson and Reid pushed to the four yard marker from where Andis squirmed across, however it was disallowed and instead they were given fifteen yards in exchange. So enraged were the Bronchos at this last free gift, Andis dropped back and looped a lazy floater into the arms of Fred Reid who cleverly eluded two would-be scalpers and scampered over into the elusive pay territory for six points. Here the stage was set for Mr. Nichols to contribute to the merriment of the Clarendon fans with the most powerful smash of his career for the seventh point.

Having tasted of the Warriors hospitality, the Bronchos again started a drive which the quarter ended about midfield, continued penalties hampered the local cause, but added further to the fury of the Horses. Soon after the start of the final quarter Fred Reid, flashy half, swept wide around left end and raced untouched forty-five yards and his second touchdown of the day.

Morrison fumbled and Clarendon recovered as the Miami player was tackled viciously by a Broncho. Pushing to the ten yard line Nichols plunged across the goal and was pushed back, where the referee ruled the ball was dead where it finally stopped. The ball went over and Morrison kicked out, but a couple of passes Andis to Reid and then Andis to Behrens placed the ball on the two yard line. Reid shot over tackle for the score but it too was called back. On the next play Nichols advanced the ball across the line, but the ball festered again where it was finally pushed back, Nichols failed to go over on the third try but the Captain rammed clear of the line on the final try and the score was counted, making the tally, Clarendon 19 Miami 0. The Warriors opened with a series of frantic passes in the final minutes but a halt was called when Reid intercepted a Warrior bound aerial as the game ended.

Staging a last half come-back that was commendable, the Clarendon Bronchos defeated Miami Saturday, for the second time this season, 19 to 0.

If there was any feeling of "cockiness" with the opening whistle the Warriors rapidly dispelled this feeling. Playing clean, hard football, the Miami boys fought the Bronchos off their feet during the first two periods.

Entering the third quarter with renewed vigor, the Bronchos knocked at the Warrior's goal continuously during the third quarter, finally lifting the latch with a 15 yard pass to Reid who stepped across the goal line for the first tally of the game. Nichols carried the ball over for the try for point.

In the last quarter, Reid tallied with a 45 yard run following a beautiful blocking by E. Watkins, Nichols and others.

Best score was made by Reid after much difficulty. It was 17-0, but after three attempts and being called back to score was made.

The Bronchos meet Dalhart today for the District Championship. The game is to be one of the hardest fought battles of the Panhandle. A play by play report of this game will appear in next week's paper.

C. M. J. C. CAGERS ARE TWICE VICTORS

On last Wednesday, the 18th, the C. M. J. C. Cagers downed Lelia Lake 26 to 10. On Thursday the 19th they downed Ashtola 20 to 0. In both these games the boys exhibited a fast display of basket ball while their opponents looked comparatively weak.

The local boys seemed to be able to score almost at will against Ashtola. They made shots which were as lucky as skillful, but never-the-less the local boys looked good and need the backing of the public.

Jean Penland, Lois Wallace, Eleanor Morris, Elizabeth Kemp, Pauline Sanford, Pauline Shelton, Carol Holder were among those who attended the game at Miami Saturday.

POISON in Your bowels!

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue; foul the breath; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commend it to everyone. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative druggists sell.

Alpha Delta Psi Society Activities

On Tuesday evening at 7:30 the Alpha Delta Literary Society met in its regular weekly meeting. The president, Miss Barbara Smith, called the meeting to order and the business was first disposed of. The financial condition of the Society was discussed and it was decided that more dues could easily be used if they could be raised. The meeting time was again changed from Tuesday to Wednesday evening at 7:30. Miss Pauline Slover, Miss Barbara Smith and Ancil Barton received a hearty vote of thanks from the other members of the Society for cleaning the society room.

Miss Pauline Slover pleased her audience with a very humorous reading which was given in negro dialect. Miss Adaline Smith presented a beautiful piano solo which was enjoyed. Phifer Estlack gave a very interesting and educational talk on "An Interview with Murriv, Governor of Oklahoma." The Critic's report was given by Miss Nora Fay Brown.

Mrs. Claude McGowen and Miss Mary Smith were visitors of the evening.

YOUNG PEOPLE'S FORUM HOLD HOLIDAY BANQUET

The Young People's Forum of the First Presbyterian Church held its annual Thanksgiving banquet in the dining room of the church, on Monday evening. To three of the Forum's many interested mothers, Mesdames F. O. Wood, G. L. Green and Melvin Cook, and numerous "young sisters," is due the thanks of the members for a beautifully served banquet. Among those on the program were Delphia Bones, who rendered two piano solos with her usual brilliance of execution; Nova Cook, who was her accustomed artistic self in a reading; Bill Word, who favored the guests with two vocal solos; Loree Hamm, who rendered a clever retrospect based upon the secrets of her Family Album; James Smith generous with two saxophone solos, and Phifer Estlack, who gave a most excellent address in which he sketched the history of "Follow the Gleam." The suave and witty toastmaster for the occasion was Bill Wood, President of the Forum. A unique feature of the menu was the dessert—pumpkin pie made upon James Smith's favorite recipe. The guest book reads: Benton Smith, Elizabeth Kemp, Robert Green, Kenneth Sherman, Martin Lee Kelly, Jr., George Edward Chamberlain, Annie Mae Morgan, Helen Lawler, Ancil Barton, Fred Bourland, Lodi Green, Phifer Estlack, Loree Hamm, La Trice Quattlebaum, James Smith, Bill Montgomery, Nova Cook, O. T. Smith, Delphia Bones, Pauline Slover, Mrs. R. S. Rob McKee, Mary Naylor, Bill Word, Bill Wood.

Nola Gordon visited in Condell, Oklahoma over the week end.

The eighth grade class elected their officers who are Paul Greene, President; Price Whitlock, Vice-President; Helen Louise Greene, Secretary and Treasurer; Travis Dyer, Reporter; and Mr. Rex Reeves, Sponsor. The class will meet a little later and select the colors, songs, and class yell.

Palo Duro Literary Society

Assembled once again in the society room, the Palo Duro Literary Society had another of its far-famed interesting programs. It has been estimated that practically three fourths of the entire membership was present to enjoy the following numbers:
Vocal Solo—Wilma Hukel.
Tap Dance—Mary Travis Dyer.
Piano Solo—Pauline Shelton.
Short Story—Lee McKinney.

In the absence of the critic, no one expressed his opinion of the program; but since the reporter has the privilege of writing anything, that omits the probability of its banishment from the range, here is an opinion of the program.

As for the first number, no one is bored when Wilma sings, of course that "Walking My Baby Back Home" recalled painful memories, but the "Darktown Strutter's Ball" displayed all "loom. But that tap dance was the special feature of the evening. By the time Mary Travis was tired, we were just getting the swing of it all. The writer made no investigation, but stakes are even that a number of those present went home and tried some of those same fancy stunts.

No one even attempts to copy Pauline Shelton's playing, and the only criticism I have for her number is that she refused to play an encore. Well, we are all modest at times, I suppose.

O. Henry held his own last Wednesday evening when Lee McKinney read from the Author's collection. The story was excellent, even if the reporter did fail to catch the joke until it was all over.

Should any one doubt the veracity of these statements concerning the Palo Duro Literary Society, let his visit us on Wednesday evenings at 7:00, all his doubts will be removed.

Both Mrs. Horace Westmoreland and Mary Travis Dyer were visitors of the Society for the evening.

We regret to say that Elenor Morris became ill in Miami last Saturday during the football game between Miami and Clarendon. She was too ill to return home, so she remained in Pampa. It is thought that she will be able to return home today. It will probably be several weeks before she is able to continue her school work.

ON TO DALHART, CLARENDON! Let's give those fighting Bronchos the support they deserve. On tomorrow afternoon they will be fighting against great odds in an effort to bring credit and honor to Clarendon and Donley county. The Dalhart wolves are decided favorites in this championship battle, but the Bronchos of Coaches Stocking and Hutton are going about their preparation with a set determination to overcome their weight handicap and foreign soil with more fight and grit. They know full well what a task confronts them on the sandy Dalhart field tomorrow, and they need the support of every Clarendon football fan. Make your plans now to be on the sideline when the game is called.

And now Bronchos, a word to you, when you trot into the Wolves' fair tomorrow you are carrying far more than the mere hope of your followers for a victory. Bronchos, you are carrying into that battle the honor of your respective homes, coaches, sweethearts, friends, city and even the entire country. Even more than that, Bronchos, you are taking with you the wishes and the confidence of the other teams in this south division. The teams and cities of Memphis, Miami, Wellington, Shamrock, McLean, Quisque, Turkey, Estelina, and others are with each of you to the man, and believe that you will bring honor to yourselves and to them with a win over the wolves.

ORGANIZATION OF GIRLS' BASKET BALL TEAM
On November 12th, the basket ball girls assembled and elected officers for the coming season. The following officers were elected:
Captain—Wydel Stillwell
Asst. Captain—Dorothy Keener
Sec. and Treasurer—Melba Johnson
Reporter—Clynelle Gilbert.
The Broncholets are wide awake and the prospect for a winning team is in evidence. These reporting for practice are: Ella Stewart, Vera Noland, Eleanor Morris, Lois Wallace, Evelyn Murphy, Ruth Lawler, Ruth Cauthen, Lela Barnes, Thelma Reid, Wydel Stillwell, Clynelle Gilbert, Dorothy Keener, Melba Johnson, Lucy McMahan and Lucille Andis.
The girls have only played one game this season, which was a practice game with Lela Lake, the Broncholets scoring 46 to Lela Lake's 12.

Bronchos displayed in the Miami city. He stated that the scores were made on breaks. Well, Tom, where were you when Andis carried the ball over for the first touchdown and the score was disallowed and the Bronchos stung with a fifteen yard penalty? Was that a break for the Clarendon team? Where were you when Nichols smashed across for a score in the fourth period and the ball declared dead at the point where it finally rested? Was that a break for Clarendon? Where were you when Reid knifed off tackle a few minutes later but the score was also disallowed? Where were you on the next play when Nichols crashed over and failed to count when the official held that the ball was to stay where it was finally pushed back? Where were those breaks for Clarendon players? Yes, Tom, you were right in the part that there were breaks, but a little mixed up in which team received those breaks. And I suppose Reid's ability to ston the forty-four yards around end was nothing but a break, as was the pass to him which scored a touchdown and Nichols dive for the third counter. We would suggest that Tom celebrate in Amarillo and the News and send Adrain Odum to Dalhart tomorrow, as Clarendon isn't so uncooperative of Mr. Horner's efforts.

SOUR CREAM ROAST
Dredge round steak with flour and brown on both sides. Place in a bakin' dish; cover with sour cream or milk and roast covered until three fourths done. Cut it in two; place pimentoes on one half and cover with the other half, then place pimentoes on top of all and finish roasting in covered roaster. At the last remove the lid and brown the roast for appearance's sake and to make good gravy. The acid of the sour cream dissolves the connective tissue of the meat and makes it tender, besides imparting a good flavor.

Thanks, Miami, for the fine time and the splendid hospitality Clarendon received in your good city last Saturday. It was a real football game and the Warriors are a powerful football team, the most powerful and best coached aggregation the Bronchos have met this year with the exception of the Panama Harvesters. It was the cleanest and hardest fought gridiron battle, not excepting the famous ruddle fights of SMU and Texas and Texas and A&M I have ever seen. The tackling was vicious and hard, but clean.

This Tom Horner, sports writer of the Amarillo Daily News, is losing lots of friends in Clarendon, with his unfair writings of the Broncho performances. Tom, it is evident, has something against the Bronchos and is taking it out through the columns of The Amarillo News. His story of the Miami game was anything but complimentary of the great game the

**Lamesa vs Floydada
In District Two Fight**

Greek meets Greek in Lamesa Turkey Day.
Two champions, Floydada and the Lamesa Golden Tornadoes, will play for the gridiron laurels of this district in Lamesa Thursday. Floydada won this right last week when they whipped Littlefield at Lubbock 14 to 13. Floydada made its two touchdowns when it came back a veritable fighting machine in the last half. Superintendent V. Z. Rogers, Lamesa, is responsible for getting this championship contest here. Without doubt it will be the most thrilling battle ever played on the Lamesa gridiron.
Floydada's line is adamant; its backs are plunging demons and its quarterback has a head a mile long. They will be set oppositions for the Golden Tornadoes; the battle will be when the irresistible whirlwind hits the immovable Floydada line.—Lamesa Reporter.

**Local Citizens Are
On W. T. C.-C Work**

Special To The Clarendon News
STAMFORD, November 24.—Members of the local expenditures and taxation committee appointed by the Clarendon recently composed of F. E. Chamberlain, A. A. Mayes, H. B. Kerbow and Tom Goldston received copies of the program and policies of the central committee on public expenditures and taxation of the West Texas Chamber of Commerce this week.

The reduced-public-expenditures campaign of the West Texas chamber of commerce—it is also a program and major policy of the WTCC for 1932 and future years—is going to each of the communities served by the chamber. The set-up which is calculated to bring sharply to public attention the present unbalanced ratio of public receipts to expenditures in Texas, with recommendations of C. N. Bassett's central committee, was sent this week from the West Texas chamber's headquarters office to the one hundred thirteen directors, and to the chairman of local committees appointed in more than 65 member towns.

This is the program, as it was submitted last week to the legislative survey created by the 2nd legislature, by Houston Hart, president of the West Texas chamber of commerce, and D. A. Bandeen, manager:
(1) That, in so far as the state is affected, its budget be balanced by curtailing expenditures rather than by imposing new and additional taxes;
(2) That property valuation for state revenue purposes be made equal and uniform.

**Positive Proof
of FORD ECONOMY**

City of Detroit purchases 137 new Ford cars
Hundreds now in use prove low cost of operation

THESE 137 new Ford cars represent one of the largest deliveries ever made to a municipality at one time.
21 radio-equipped Ford scout cars were traded in on this purchase. They had been operated day and night for two years in heavy traffic and all kinds of weather.
Their individual records ranged from 78,434 miles to 143,723 miles with a grand total of 2,283,097 miles. The operating cost of the 21 cars was 2,234 cents a mile—less than 2 1/3 cents. This cost included all fuel, oil, tires, repairs and every other item except depreciation and insurance.
Of 577 Ford cars in Detroit City service, the 300 in the Police Department traveled a total of 6,591,937 miles during the past fiscal year, at an average cost of 2.9 cents a mile.
Many claims have been made on operating costs, but here in the carefully kept motor car records of the City of Detroit is positive proof of Ford economy.
In the paragraphs above, it is seen that 21 Ford scout cars averaged less than 2 1/3 cents a mile and 300 Ford cars in all branches of Detroit police work averaged 2.9 cents a mile!
Day and night, twenty-four hours a day, these Ford cars are in operation. Few branches of transportation demand such grueling service. The records show that low fuel and oil consumption is but one of the Ford's many economies. Ford materials, simplicity of design and accuracy in manufacturing provide unusual strength, stamina and freedom from replacements and repairs.
The individual car buyer as well as the purchasing department of a city or a business cannot afford to ignore the proved economy of the Ford car.

Occasionally larger taxpayers are advancing half or all they owe, long before due date. After all of us have paid who can, there yet will be left enough unpaid taxes that schools will have a struggle. I will start now to plan how I can do "my bit".
