THE CLARENDON NEWS

SUMMER RATES NOW IN EFFECT

WATER CONSUMPTION EX- PECTED TO TAKE AD- VANCE AS RATES DROP

Following the plan set forth for the past three years, the water rate for the growing months of each year is lowered to allow for a maximum amount of water to be used at a cost that will allow many users to keep their gardens and yards in first-class condition.

The rates this year will be the same as were in effect during the summer months of 1930. The minimum amount of water to be used will amount to 3,000 gallons at the former rate of \$1.50. The next step will amount to 400 per thousand gallons and all above this amount will be charged out at the rate of 30c per thousand gallons of water consumed.

This rate has been in effect for a short time and will continue throughout the next four months. It is hoped that the Clarendon citizens will take advantage of this low rate and keep their property in beautiful state of growth comparable with that of other years.

Mrs. C. G. Stricklin and daughter, Miss Beverly Gray and Vernon Tucker returned to their homes here Friday from a visit to Greenville and other central Texas points.

CLOTHIERS CINCH FIRST HALF FLAG

UMPIRE'S DECISION DECIDES CLOSE CONFLICT BE- TWEEN TWO TEAMS

The decision of umpire Killough of a long fly down the left field foul line which the Grocers threw back into the infield scored three runs with the score tied at 1 all on the game and cinched the first place for the Dry Goods nine in the first half of the city league race. The decision came from the umpire's belief that if a fly ball is fair when it passes third base and then falls foul the hit is fair, and such tells the story of the Friday ball game between Fitzgerald, Clothier's hurling star, and Stephenson, Grocers' ace.

Fitzgerald pitched a splendid game allowing only two hits throughout the seven inning stretch, while the Dry Goods team were gathering but six off the efforts of Stephenson. The game was close and hotly contested from the first and was a first class exhibition of baseball. The Grocers got off to a one run lead in the fourth inning when the Dry Goods defense weakened and together with an infield hit Stephenson slipped across the plate. In the sixth the league leaders got on on by the aid of an error, and two men were walked and one scored when Schatz threw the ball into center field. Then the foul ball episode occurred by which three more came in. The game ended with the score 4 to 1 in favor of the Dry Goods.

The Gassers had a field day Tuesday afternoon at the expense of the Baptist team, making 20 runs to the Babies 4. The entire Gasser club fattened their batting average at the expense of Nichols and Reavis of the Baptist team. Plenty of batting punch was demonstrated by the Filling Station club, and their improved defense play stamps them as one of the strong contenders in the second half play.

The games for the next week include the Gassers vs Grocers Friday and the Baptist vs Dry Goods in the Tuesday battle.

Mr. and Mrs. G. G. Kemp, Elizabeth and Eunice Johnson, visited in Chillicothe Saturday and Sunday.

SMITH W. C. D. HOME DEMONSTRATION CLUB MEETS

The W. C. D. Home Demonstration club met Wednesday, May 27th in a very interesting and instructive meeting with Mrs. E. E. Shipman acting hostess for the afternoon. Topics for discussion and study included fabrics, hats and hose. A great deal of good was derived from the meeting with every one looking forward to the coming lessons.

Those present for the occasion were Mrs. Wes Mabry, Mrs. Berl Smith, Mrs. Frank Jackson, Mrs. Burly Brown, Mrs. Jess Grimes, Mrs. Sloan Baker, Mrs. Henry Scott, Miss Mildred Brown and the hostess, Mrs. E. E. Shipman.

The club will meet Wednesday afternoon, June 10th at the home of Mrs. Jess Grimes. All members are requested to be present at this meeting.

LELIA LAKE TRIP IS MOST ENJOYED

LARGE DELEGATION FROM CLARENDON MET BY LELIA LAKE RESIDENTS

The most representative delegation to visit any of the neighboring communities in the past few weeks of these trips was that one which visited the neighboring city of Lelia Lake on Tuesday evening of this week. Headed by the Clarendon band, the delegation stopped at the school house, where they mingled with the Lelia Lake residents for a time before the program was started in the auditorium of the school building.

A highly entertaining program was presented, with the band taking their due place at the beginning of the event. A violin solo by Mrs. G. Lester Boykin followed close on the program of the evening, with Miss Delphia Bones at the piano, Miss Mary Cooke then gave two interpretative dances to the pleasure of those gathered for the event.

Two Lelia Lake citizens then entertained the folk with their fiddling, these being Messrs. Walling and Reeves, both well known to Clarendon and Lelia Lake residents. They were accompanied by Sam Roberts.

A reading by Miss Eunice Johnson of this city was one of the high spots on the program, this being enjoyed by both the visitors and the hosts for the occasion. A dance by Loyd Stallings was then given with Messrs. Walling, Reeves and Roberts at their respective instruments.

A surprise package was then placed in the hands of Homer Mulkey, who sold it to W. A. Armstrong for the sum of \$3.00. On opening the package it was learned that it contained an "All-Day Sucker". Announcement of the coming July Third and Fourth celebration in the city of Clarendon was then made by G. L. Boykin, who gave something of the details of the celebration and extended the Lelia Lake folk an invitation to attend and assist in the same.

A closing number by the Clarendon Band was followed by a general exodus of everyone in the building, they being served with ice cream, cake and punch as they left the building. The proceeds of the affair were to go to the Club girls and women to assist them in making their annual pilgrimage to the Short Course at College Station.

Elmer Palmer of this city was the presiding officer for the evening, proving his ability in this direction much to the surprise and pleasure of Clarendon and Lelia Lake folk.

FINE PROGRAM AT GOLDSTON

SPLENDID CROWD MAKES GOODWILL TRIP TO GOLD- STON THURSDAY EVE.

Something like one hundred Clarendon citizens made the trip to Goldston last Thursday to attend another goodwill visit to the neighboring community of the county and trade territory. The Clarendon band was the main program attraction and that organization made a big hit with the Goldston citizens.

The get-together meeting got under way about 8 o'clock with the school house crowded to its capacity with those people of both Clarendon and Goldston interested in the purpose of the affair. The band presented a number of offerings which met with the delight of those present. Aubrey Brady presented his prize winning declamation and received the plaudits of the group. R. E. Ware was then presented in a number of old time fiddling selections accompanied by Elmer Palmer. One of the biggest hits of the evening's entertainment was the tap dance offered by Loyd Stallings.

The auction block was next introduced with Homer Mulkey offering a fine cake to the highest bidder. After considerable bidding and raising the cake was finally bought by H. L. Brady for the sum of \$2.50.

A clarinet trio followed as the next feature of the entertainment, and was very well received by the crowd present. As the concluding number on the program Gus B. Stephenson played a popular saxophone solo with Elmer Palmer accompanying.

The sale and consumption of ice cream and cake was the order of the evening for the next several minutes, a net sum being realized from the sale of the refreshments.

Mrs. Jack Rogers of Hedley is visiting her parents, Rev. and Mrs. E. C. Bowen.

Panhandle Baptists Met Here Last Friday

The Panhandle Association of S. S. and B. Y. P. U. Convention met with the First Baptist Church of Clarendon in a social-business meeting, Friday night May 29th.

Members of the welcome committee met the guests at each entrance and conducted them to the rooms where the socials were held by departments, Beginners, Primaries, Juniors, Intermediates, and Senior-Adults. There the social committees led in a light program of real fun. At 9:15, refreshments were served to 223. Representatives were present from Lelia Lake, McKnight, Estelville, Memphis and Clarendon.

By 9:30 all were in the auditorium for the business meeting. The nominating committee presented the names of Miss Jessie Cook, Lelia Lake, for president and Miss Ruth Thompson, Clarendon, for secretary-treasurer, and they were elected. It was decided that these officers should serve only till the general meeting of the Association in the fall.

Thus all the officers for the various organizations in the association would be elected at the same time.

The attendance banner was won by McKnight. The basis for award now is the number of people present in the business meeting in proportion to the church membership in the church from which they come. This new method equalizes the chances of each church winning the banner.

The next meeting of the Convention will be at 2:00 o'clock, Sunday, August 30th, at Estelville.

COLLEGE PARK WILL BE PLANTED WITH GRASS SOON

Work has been started which will prepare the athletic field of the College park to receive a turf of bermuda grass in the near future. Plows have been busily engaged in the plowing of the field, and in a very short time grass will be set out and the necessary care will be taken to insure the proper growth of the thick covering. The work is going forward under the direction of John G. Hutton and it is expected the 1931 football season will be around the bronchos will be playing on a fine mat of grass second to none in this country.

The wire fence has been placed around the park and it is now available for any sort of athletic event. It is planned to cover the fence with a thick growth of vines, which will make the athletic plant of the local schools one of the most beautiful and most complete in the Panhandle.

FORMER PIANO TEACHER VISITS FRIENDS IN CITY

Clifford C. Fuller, former Piano Instructor in Clarendon College, and now concert pianist of national reputation, was a visitor in the city from Saturday until Monday. Mr. Fuller was here during the school terms of 1923-24, leaving here for a year's study in Indiana. Since that time he has been playing the accompaniment for a singer and has covered all of the United States with the exception of the Southwest. He left Tuesday evening for Amarillo, where he is enroute for Los Angeles, California and a concert tour of the Pacific coast.

Mrs. Ralph Paxson and daughter Helen Jean left Tuesday morning for Elk City, Oklahoma where they will be the guests of her parents, Mr. and Mrs. S. C. Blackmore the remainder of the week. They were accompanied by Mrs. E. T. Leverett, who will visit her mother-in-law Mrs. Nancy B. Pipkin.

Judge A. T. Cole Is Heard Ladies Night

Amid the soft glow of lighted candles the beautifully decorated club room of the Clarendon Hotel presented an even more beautiful setting for the second Rotary Ladies Night last Friday evening. A full attendance of Rotarians and their ladies gathered at the hotel and enjoyed the excellent program to the fullest extent. The presence of the Rotary ladies added charm to the atmosphere of the evening's formal affair.

Following the splendid banquet prepared by Manager Allen of the hotel the group held a short business session consisting of the regular routine matters.

The Rotary quartet composed of Rotarians R. S. Cope, D. R. Davis, R. E. Drennon and Jack Jones pleased the assembly with three numbers. Following this the program was turned over to E. T. Cole, who addressed the Rotarians and ladies on the subject "Criminology."

Miss Angelina Dubbs returned to her home here last Thursday from Vega, where she has been teaching for the past term of nine months.

AGGIE COURSE IS SAVED FOR C. H. S.

CHAMBER OF COMMERCE AND SCHOOL BOARD WORK OUT PLAN

Ever since the announcement that the school board would be forced to discontinue the vocational Agriculture course in the High School on account of lack of finances, there has been general regret at the loss of such a practical course of instruction for the youth of this community.

The patrons of this school are very fortunate in a plan that has been worked out by the Clarendon Chamber of Commerce in conjunction and on request of the school board, which will make it possible to retain the popular course in the schools.

G. L. Boykin, secretary of the chamber of commerce, and former teacher of agriculture in the local schools, will be in charge of the department the coming year according to the plan worked out by the two organizations.

Mr. Boykin will devote a half day to the class work at a high school, and in the afternoon will be at the chamber of commerce office to supervise the work of the community there. The directors of the chamber of commerce agreed to the request of the school board in sparing Mr. Boykin for half time and will employ stenographic help in the chamber of commerce office, so that there will be some one there at all business hours and to give the secretary relief from the minute details of the office.

With the federal money appropriated for the agriculture instruction and the liberal attitude of the chamber of commerce officials, the school will be able to keep up this work and the first of the week and the finest animals in this entire country will be here to make the cowboy entrants put forth their best efforts in the coming contests. The rodeo stock contracted for include 10 goats, 20 calves, 20 cows, and 20 two-year-old steers. These animals come from the ranges of the C. F. Huff of Elmore of Donley county.

Thirty Kiddies Attend Pathfinder Story Hour

Popularity of the Pathfinder Club Story Hour was evidenced Tuesday evening of this week when some 30 children gathered in front of the Girls Dormitory to enjoy the first hour of the 1931 series. After listening to a very interesting story for a permitted to indulge in a variety of playground activities. Their play was under the supervision of Mrs. Harlan Naylor, who conducted the affair with a splendid degree of nicety.

The next hour will be held next Tuesday, June 9th, at which time Mrs. Boykin and Mrs. Bryan Porter will act as sponsors with Mrs. Porter story teller. The hour will start promptly at 7:30 o'clock each evening of the schedule.

Friends of Abe Cole will be glad to learn that he is recovering fine from the appendicitis operation and will be brought to his home this week.

Mrs. Georgia Burrell returned Tuesday from Lefors, where she has been for the past week visiting in the home of her daughter, Mr. and Mrs. W. C. Breining.

FORMER TEACHER WINS HONORS AT W. T. S. T. C.

The News has been informed that Mrs. A. B. Kennedy, former teacher in the Clarendon Public Schools, has been signally honored. Mrs. Kennedy has been attending school at the West Texas State Teachers College at Canyon and has recently been awarded the Faculty Scholarship for the highest grade throughout the year of three quarters. Mrs. Kennedy maintained an average of six "A's" throughout the year. She will probably be unable to accept the proffered scholarship as she plans to be back in the Clarendon schools another year. Mrs. Kennedy has been visiting here in the home of Mr. and Mrs. J. H. Morris.

Mr. and Mrs. Loran Naylor of Panhandle visited here Wednesday night, and will spend the summer in Lubbock where they will take a course in Texa Tech.

ATTEND PANHANDLE OF TEXAS, INC. MEETING

O. C. Watson and Sam M. Braswell were in Amarillo today to attend a meeting of the Committee of the Panhandle of Texas, Inc., the agricultural exhibition organization of this section. Mr. Watson is a member of the board of directors and Mr. Braswell is president of the organization.

They were accompanied by Cal Merchant.

Two Goodwill Visits To Be Next Week

Two community visits will be made by the business men of Clarendon next week and trips will be made to Martin and Brice. The visits have met with a great deal of success thus far this season and others will be made to the various communities of the trade territory upon the invitation from the citizens of those places. The first of these was an invitation was received from Brice and accepted for the evening of June 12th.

The Clarendon trippers will first be called to make the trip to Martin on Tuesday evening, June 9th, where the band will be presented in a program supported by a number of other Clarendon entertainers.

The Brice trip will be Friday evening, June 12th, and will also feature the finest in entertainment to be found in Clarendon.

A large representation is asked by the business men for each asked to make their plans to be at each of these places by 8:00 p. m. to help start the program off on time.

Mr. and Mrs. Clyde Naylor and daughter, Cecelia, and Miss Claudia Atteberry of Pampa visited relatives here Wednesday night for a while.

Misses Elgin Patrick, Latrice Benson and Lois Alexander returned to their home last Saturday, accompanying Mrs. W. H. Patrick, who had gone to Sherman for the graduation exercises of Kidd-Key College.

RODEO CONTRACTS SIGNED BY CHAMBER OF COMMERCE

Contracts for the rodeo stock to be used in the Fourth of July celebration to be staged here next month was signed the first of the week and the finest animals in this entire country will be here to make the cowboy entrants put forth their best efforts in the coming contests. The rodeo stock contracted for include 10 goats, 20 calves, 20 cows, and 20 two-year-old steers. These animals come from the ranges of the C. F. Huff of Elmore of Donley county.

CLARENDON GIRL TAKES POSITION IN HOUSTON

Clair Marie Braswell, who received her Bachelor of Arts degree at C. I. A., Denton, on Monday of this week is in Houston, where today she begins her work as assistant technician in the laboratories of the Jefferson Davis Hospital in that city. For the past two years, Clair Marie has been student assistant in the biology department at C. I. A. and in the past year has been doing an honor course in biology which counts on her Master's degree, if she decides to finish later.

Mr. and Mrs. Sam M. Braswell drove down Saturday to attend the Commencement exercises. They were accompanied by Miss Fray Stallings, who was guest of Clair Marie's during the time and who remained over for a visit in Dallas with her aunt. Mr. and Mrs. Braswell returned here Monday night.

The graduating class at C. I. A., this year numbered one hundred and eighty-eight, the largest class in the history of the school. Four received Master of Arts degree, the first to be granted by the school.

Country Club To Protect Property

Plans are being carried out this week by the Clarendon Country Club officials which will insure the stockholders complete protection of their property from trespassers. Arrests of three members of a party of six trespassing on the club property over the week end was made by Game Warden O'Neil and each was fined \$24.75 in Justice of the Peace, L. O. Lewis' court. Apprehension of the other violators are expected soon. These offenders entered the club grounds after midnight and were using fish traps when caught by Alva Vaughan, grounds keeper of the club.

All non-members are warned not to trespass upon the club property, and as further protection of the properties a giant search light will be installed in the near future on the club house which will make it easy for the keeper to apprehend any trespasser on the Country Club property. Ground Keeper Vaughan will be deputized by Game Warden O'Neil in the next few days.

Mr. and Mrs. Allen J. Bryan and son, Manley and Mrs. J. W. Manley left Wednesday for a business and pleasure trip to Slaton.

MEMORIAL EVENT HELD SATURDAY

LEGION DEDICATES TREES TO MEMORY OF FALLEN HEROES

The Aubyn E. Clark Post of the American Legion, along with others of the Legion organizations in the state of Texas celebrated Memorial Day here last Saturday with a parade, dedication ceremonies for the trees in the City Park and an address in the American Legion Hall.

The parade was formed in front of the Legion Hall with the Band immediately following the colors. Legionnaires were found immediately following the band. The parade marched the length of Kearney Street, halting at the City Park, where a short dedication service was read, dedicating the trees to the memory of all dead heroes and pledging the Legion to carry on for their sakes.

Reformed, the parade marched to the Legion Hall, where the real services of the day were held. Rev. R. S. McKee led the invocation, and was followed by a half-minute of silence in memory of the fallen ones who have passed to the great beyond.

Legionnaire J. Ralph Porter then made the address of the day, departing to some extent from the eulogistic forms ordinarily taken on an occasion of this nature, to present to those present the things he thought the departed buddies would have done had they remained here to tell their buddies of their plans. The Universal Draft was the first item to be considered. Next came the care for those who are left behind, no matter whether they be parents or whether they be the families of the dead ones. The third item was in hospitalization facilities and care for those who need this attention. Last, was a plea for the reduction of those preliminary matters which must be passed through before a veteran is able to secure assistance.

Benediction followed from the Legion Chaplain, R. W. Moore. The decoration of the graves of veterans of all wars followed, small American flags being placed on all the graves of those known, with bouquets being placed on the graves of all ex-service men of the late war by the members of the American Legion Auxiliary.

Mr. and Mrs. L. L. Ballew and son, Donald, returned Monday from a visit to their daughter in Hereford and their son in Amarillo. They were also present at the graduation exercises of their granddaughter, Vivian Ballew, daughter of Wilson Ballew, in Amarillo.

LIONS HONORED BY FORMER MEMBER

With Clifford C. Fuller as the guest of honor at the Lions Club Tuesday, the program for the day was quite interesting and was filled with musical numbers from the hand of the former teacher. Five numbers were given. They are:

"Turkish March"—Von Grabill.
"Old Black Joe"—Gimbell.
"False Brilliant"—Matti.
"The Rosary"—Nevin.
"Beautiful Blue Danube"—A Transcription, Schulz-Evler.

Announcement of the trip to Lelia Lake was made and the Lions were urged to make this trip if at all possible.

The Directors were called to meet at the usual time and place on next Monday evening. The application of Rev. E. B. Bowen was presented to the club and he was elected to membership.

In the matter of further initiation of Lion Cub Henth, it was moved and passed that the punishment be deferred until another meeting, at which time both cubs would be given their just dues.

Blanks for the nomination of the Lions officers were passed to the members of the club, in compliance at the last meeting made at the last meeting of the club. The ballots will be handled by the nominating committee composed of the three immediate past presidents and their findings will be made public at the meeting of June 16th.

Frank W. Loeffler, club member of the Silver Springs, Maryland, was introduced as a guest. Lion Loeffler was in the city for a final check on the work of the Red Cross and passed some extremely complimentary remarks on the work that had been done here by the committee.

A resolution was asked and a committee was named to prepare

CREAM SHIPMENTS CONTINUE TO GROW

MAY TOTAL AGAIN CONTINUES TO TOP PREVIOUS MONTH'S RECORD

As has been the case in the past several months since the first of the year, the cream shipments continue to increase with each month's production record. For the month of May the shipments from the various Clarendon Cream stations total 351 ten-gallon cans of the commodity. These shipments were made to the creameries by both express and truck carriers. The 351 mark of last month passed the record of April by 22 cans, the previous mark being 329 containers. With continued increase of the cream from the city stations the outlook is even brighter than in the past that the year 1931 will hang up a new high record for cream shipments.

With the 351 cans of cream registered in April the year's total has been skyrocketed to 1438 cans, which keeps this year's record far in advance of the previous year's shipments from Clarendon. The warm weather seems to be the tonic needed to bring the cream shipments to a high plane, and it is expected to see the cream figures rise above the 400 can mark in the next few months.

WILSON FAVORED TO COP TOURNEY

AL COOKE DOWNED BY VET- ERAN ON 18TH HOLE— WILSON TO FINALS

From the present outlook, it seems favorable that a new name will be engraved on the loving cup emblem of the golf championship of the city of Clarendon. Both in the track and in the golf, Al Cooke is being declared the favorite to take home the cup and the title by virtue of his upset victory over Wilson played a steady game and featured his sensational tee shots both rounds. Cooke played a splendid game, but was having some difficulty keeping his long shots in the fairway. He managed on the eighteenth green with Wilson taking a par four while Cooke lost a stroke out of bounds to take a five. The win advanced Wilson to the finals.

Ira Merchant, one of the early favorites and medalist of the tourney, is matched with Dick Cooke in their semi-final match. Merchant had the misfortune of receiving an injury to a finger which will hinder his game to some extent, and the speculation as to the outcome of this match is unsettled.

In the second flight Knorpp is matched with Kent in one semi-final match with Connally and Kennedy holding the spotlight in the other match.

T. M. Shaver is waiting for another finalist in the third flight by virtue of his victory over McClesky. Stocking is matched with Carl Parsons to fight it out for the right to meet Shaver.

Dick Allen has advanced to the finals in the fourth flight defeating Boston, while Gligle Price and Harter have still to stage their duel for the privilege of doing battle with Allen.

FORMER CLARENDON FOLKS IN AIRPLANE VISIT HERE

Dr. W. H. Frye of Amarillo and son, Jack Frye, of Los Angeles, California, dropped into town last Friday morning in Jack's new Lockheed-Vega cabin plane and spent a few minutes visiting with Mr. and Mrs. T. M. Pyle. Jack was on his way to New York City and while in Amarillo decided to drop by and see a few of his Clarendon friends.

They only visited a few minutes here, and returned to Amarillo where he left immediately for New York City, arriving there at 12:30 Saturday morning, being held up by adverse weather conditions. Jack's plane has a cruising speed of 200 miles per hour, and is identical with that of Captain Hawk's in which he set many speed records. Jack is now general manager of transcontinental air lines with headquarters in California.

Misses Lois Wallace and Mary Naylor spent Tuesday visiting friends in Amarillo.

such a document praising the Red Cross for the work they had done here and for the high class of men sent here to assist in the work. Lions Patrick, Braswell and Nored were named on this committee.

Adjournment followed the singing of the first verse of "America."

"FAITH THAT WILL NOT SHRINK"

In this age of on-rushing materialism we are very prone to look on faith as an abstract something, or even to regard it as a mixture of foolish optimism and carelessness. We have partly forgotten the once recognized quiet strength and buoyancy of a faith in things eternal which smooths life's pathway and comforts "even unto death".

In Texas a few days ago at the commencement exercises of Baylor University, the last message of Dr. Brooks, dead only a few days, was read to the graduating class, coming almost as a voice from beyond the tomb. In that message was the evidence of such a faith as we have long associated with the venerable followers of the Cross and it is as a refreshing reminder in a period when the stoutest hearts need such hope and courage generated of deep and underlying faith.

Let us pause long enough to read the vocal preachments of this remarkable, yet simple faith of Dr. Brooks; "Do not face the future with timidity nor with fear," was the keynote of his departing message. "Face it boldly, courageously, joyously. Have faith in what holds. Sorrow as well as happiness must come with time. But know that only after sorrow's hand has bowed your head will life become truly real to you, for only then will you acquire the noble spirituality which intensifies the reality of life.

"My own faith as I approach eternity grows stronger day by day. The faith I have had in life is projected into this vast future toward which I travel now. I know that I go to an all-powerful God wherever He may be. I know that He is a personality who created man in His image. Beyond that I have no knowledge—no fear—only faith.

"My love be unto you and my blessing be upon you."

MARRIAGE LAW STANDS

The bills passed by the State legislature during the session which now is drawing to a close do not provide a complete record of the body's accomplishments. In at least one instance, failure to amend or repeal existing statutes must be listed among the achievements.

It now appears that the Texas marriage law, requiring three-day publication of banns and medical examinations, will emerge unscratched from the fire of criticism leveled at the measure by representatives of border counties who sought its repeal.

Whenever the so-called "anti-gin marriage law" was assailed, the house refused to take any action which would nullify its provisions, indicating that this attitude would be maintained until adjournment.

The argument that the new law is responsible for a drastic decline in the number of marriages performed in border counties, where it is an easy matter for couples to drive to an adjoining state for weddings, met a cold reception.

The legislators decided wisely that a good law, favored by a large majority of the citizens, should not be repealed to solve a problem which affects only a comparatively small number of border counties.

The attacks made on the new statutes, after they had been in effect little more than a year, were to be expected. Nearly every reform statute is attacked in the first legislature that assembles after its enactment.

The fact that the new marriage regulations survived their baptism of legislative fire is a source of gratification to thousands of good citizens.—Houston Post-Dispatch.

CLARENDON INVITES HER NEIGHBORS

Just about a month now until Clarendon will be host to Donley and surrounding counties in a big two-day celebration of the Glorious Fourth. July 3rd and 4th are the big days and this citizenship extends a cordial invitation for the entire country and neighboring towns to come and enjoy the entertainment with us.

If the weather holds about those dates from ten to fifteen thousand people will visit Clarendon on those days, and will be received with an old-fashioned hospitality.

Mark your calendar now for July 3rd and 4th. Clarendon invites you.

TRI-STATE FAIR DATE SET

Wilbur C. Hawk, president and manager of the Tri-State Fair and Exposition at Amarillo, has announced the dates of the big fair as Sept. 21-26 inclusive for 1931.

In spite of the conservatism of the country at this time, the 1931 Tri-State Fair is pretty sure to be "bigger and better than ever" when it opens on Sept. 21.

EIGHT BUSINESS AND PROFESSIONAL WOMEN ATTEND MEETING IN AMARILLO

The local membership of the Business and Professional Women's club was well represented at the federation meeting in Amarillo last week end when Mesdames Ruth Teat, Tom Kennedy, Elizabeth Holloway, B. G. Smith and Misses Norma Rhode, Lorena Steagall, Lotta Bourland and Eva Lee Morrison attended the sessions of the organization. Mrs. Frank Stocking attended the Friday afternoon tea, and favored the group with a charming reading.

A number of the high lights of the three-day meeting were related to one of the News' representatives by Mrs. B. G. Smith. Mrs. Smith was very enthusiastic over the sessions and stated that a great deal of good was derived from the interesting and inspirational messages brought to the assembly by outstanding speakers of the nation. Foster Stocking, Her number elicited much praise and was very well received by ladies present. Mrs. Stocking's reading was an offering from the local club to the program.

Friday evening the delegates were treated to a Pioneer Dinner, honoring the pioneer ladies of the Panhandle. One of the cleverest favors of the entire time according to Mrs. Smith, was received at this dinner, when each guest received a miniature covered wagon filled with candy grain. Mrs. Phoebe K. Warner of Claude was the principal speaker of the evening, and entertained the group in her most inspiring manner, in which she told of the development since she first came to this new country. Her message was of the type dear to all those who know her. Another feature of the dinner was the appearance of one of the Amarillo club members who is past seventy years of age. This charming lady told of the early settlers, their hardships, their romances, their play and the changes she has watched being made to the present time. She was one of the full of the early romance and accomplishments of the pioneers.

Saturday noon the delegates were entertained with a Round-Up luncheon. A novelty dance by Mrs. Elizabeth Holloway proved to be a great entertaining feature of the period.

National night was Saturday evening and featured several inspirational messages and addresses. Among those of national reputation were Miss Martha

Cannode of Saint Louis and Miss Daisy Leake of Temple, Texas.

Sunday morning the visitors and delegates were carried to the Tri-State Fair Grounds where they were treated to a real old-fashioned Chuck-Wagon breakfast with all the trimmings. This proved to be one of the most interesting and most unusual affairs of the entire stay, especially to those ladies from the lower part of the State, who were familiar with nothing wilder than a milk cow. The scene of cow boy surroundings and real cowboys was a thing to be marveled at by the southern visitors.

Further wonders of the Panhandle were shown the visitors when they were taken on a drive through the beauties of the Palo Duro canyons. This was an unexpected pleasure for the delegates, who had planned upon leaving Amarillo Sunday morning. But when the scenic drive was announced for Sunday afternoon, these plans went astray as the ladies accepted the invitation to see the scenic wonder of Texas about which they had heard so much.

ELECTRIC BRAIN WILL SOLVE MATHEMATICAL PROBLEMS

Construction of a machine which will utilize electricity and light to solve mathematical problems that otherwise might require billions of years to complete, has been started at the University of California, says Popular Mechanics Magazine. The purpose of this electric "brain" will be to aid in the determination of factors of large numbers greater than two billion, and in other mathematical calculations. It consists of a shaft on which thirty gears of 100 teeth each are set. Meshing with the gears are thirty other gears with a varying number of teeth. Under each tooth in the second series is a small hole, and when the machine is ready for use, some of the holes are plugged and others are open. A beam of light is cast on the side of the apparatus and then it is set in motion by means of an electric motor. The main shaft gears all revolve at the same speed, but the gears meshing with them vary in speed. When, in the course of perhaps hundreds of thousands of revolutions, one hole in each wheel reaches the same point at the same time—when the thirty holes are lined up—the beam of light strikes a sensitive photographic plate and stops it. A little counter which records revolutions made by the main shaft supplies a number from which the factors of the large figure under analysis can readily be obtained.

A powerful searchlight was employed recently to project words onto the side of the Empire State building, world's tallest skyscraper.

STRESS ON PLANE PROPELLERS FROM SIX SOURCES

Airplane propellers probably endure more different kinds of severe stress simultaneously than any other members of equivalent size and weight in industry, says Popular Mechanics Magazine. When a plane is in straight flight there are at least five major loads acting on the blades, and in turning another is added. First, there is bending, induced by the thrust of the propeller as it pulls the ship forward. Next come the centrifugal from their circular course at often in excess of 500 miles an hour. Also because of the aerodynamic action of the blades, they are given a twisting stress that tries to turn them in their sockets. In addition to the two centrifugal loads and the two torques, the propeller is subjected also to vibrations transmitted through the crankshaft, and when the ship turns off its course, another stress is added, due to the gyroscopic action of the spinning blades.

Old-Fashioned "Ironing Day" Has Been Eliminated

THE back-breaking, time-consuming agony of old-fashioned "ironing day"—made more intense by a frantic desire to get through—is but an unhappy memory to progressive Home-managers who have profited by the purchase of a modern and efficient Electric Ironer.

Comfortably seated before a table-height ironer, merely guiding the pieces through smooth-running rollers, these wise housewives complete their ironing in but one-third the time and with but a fraction of the work and nervous strain required by old-fashioned methods. Offering these important time and labor-saving advantages, don't you think a modern Fedelco Ironer a wise investment—especially when the finished work is far superior?

Ask a salesman to arrange a demonstration for you in your own home. The purchase price is unusually low, and operating costs amount to but a few pennies a week! Call him today!

ITEMS OF INTEREST IN DONLEY

Pleasant Valley

We are having some dry, windy weather, would be glad to see a good rain. Mr. and Mrs. Jess Beach and two children, Ruth and Rex, from Wichita Falls, are visiting in the Nelson Robinson home. There was a large crowd of young people who enjoyed the party in the Hugh Riley home Saturday night. Mr. and Mrs. Lonnie Morris spent Sunday in the Zeb Morris home. H. Beach left Thursday for Marlin where he will spend three or four weeks for his health. Miss Sallie Hill from A. & M. spent last Monday night with her aunt, Mrs. Hugh Riley. Rev. Scott who has spent some time in the Robinson home went to Wichita Falls Monday. Mrs. Warton called on Mrs. Lamberson Sunday afternoon. Mr. and Mrs. Longan attended the funeral of Mr. Black Tuesday afternoon, also called on Mr. and Mrs. D. W. Clappett in Clarendon. Mr. and Mrs. Aubrey Posey and baby also Ed Mahaffey, spent Sunday with Mr. and Mrs. Stanton Mahaffey. Mr. and Mrs. Clebert McCrary spent Sunday in the Dorsett home. Dad Conder is spending this week in the Longan home. Misses Sue Potter and Marjorie Harlin visited relatives at Tulia the most of last week, both of their cousins came home with them, Miss Sue Potter will go to Canyon Wednesday where she will attend school. Ike Finley from Floydada who has been visiting Mr. and Mrs. Bill Gaether spent Sunday in the Longan home. Mr. and Mrs. Loyd Morland and children called on Mr. and Mrs. Higgins Saturday night. Mrs. Elmer Palmer and baby also Mrs. Jiggs Moseley and baby visited in the Riley home Sunday afternoon. Jene Clayton from Tulia is visiting his sister, Mr. and Mrs. John Potter. Mr. and Mrs. Loyd Morland and children visited Mr. and Mrs. Richard Cannon Sunday afternoon. Mrs. Pink Marshall spent Monday afternoon in the Lamberson home.

BRAY

We are surely getting our share of high south wind. We would like very much to see a good, nice rain. Most every one is through planting cotton and most of the feed is planted everything is looking good despite the continued high south winds. J. M. Bell and daughter, Misses Ethel and Floy and master Rex were shopping in Hedley Saturday. W. O. Hill and daughter, Omelia and little Miss Fay Leach made a business trip to Hedley Monday. Mr. and Mrs. Claude Hill were transacting business in Hedley Saturday afternoon. Miss Ruby Banister spent last week visiting with Miss Alma Aufrill at Hedley. The young people were entertained with a party Friday

HUDGINS

There was a large crowd present at Hudgins Sunday night at the singing, every body is welcome to come and help us with the singing. Born to Mr. and Mrs. Morris Milsap the 25th, a girl, named Nelda Ruth. Mrs. Grimsly and daughter, Lola of Clarendon, spent the week end with her sister, Mrs. J. L. Talley. Mrs. Carley called on Mrs. Morris Milsap Thursday evening. Mr. and Mrs. W. V. O'Neal visited with Mr. and Mrs. L. O. Christie Sunday. Mrs. Green of Brice visited her daughter Mrs. V. H. Christie last week and both visited Mrs. Green's sister at Lelia Lake Saturday. Mr. and Mrs. O. D. Meador visited their daughter, Mrs. Leon Foster and family of Chamberlain Sunday. Mr. and Mrs. D. B. Perdue spent the day with Mr. and Mrs. J. L. Talley Sunday. Most everyone are nearly done planting the first time and some are planting over on the account of a poor stand, most everyone would be glad to see a good rain. Mr. Morris Milsap had the misfortune to lose his car by fire Wednesday evening. Mrs. Hicks of Clarendon spent Saturday night with her daughter Mrs. Boles and family. Charlie McCracken spent until

NAYLOR

Mrs. A. E. Tidrow and daughter, Miss Louise spent the week end with relatives at Shamrock. Our school closed Thursday, giving a fine entertainment Thursday night and a picnic Friday which proved a real get-together for the Naylor folks. Bob Bowlin of Hedley is spending the week with his grandparents, Mr. and Mrs. Rich Bowlin. Word was received Sunday that Mrs. T. L. Naylor's brother died and Naylor feels the sadness for our friends, Mr. and Mrs. T. L. Naylor and family. Sweet potato setting is now the order of the day. Naylor hopes for a good crop. Mr. and Mrs. Richmond Bowlin visited with relatives at Hedley Sunday. Mr. and Mrs. A. E. Tidrow also Frank Tidrow were Memphis visitors Monday. C. C. Carter of Clarendon was buying sweet potato plants Tuesday from our beds. Mr. Pickering this week is hauling some baled wheat from Memphis.

GOLDSTON

Sunday School was held at the usual hour Sunday afternoon. Farmers are very busy planting and cultivating crops, all would like to see a good rain. Mr. and Mrs. Spear and family have moved to East Texas. Cecil Dyer who has been going to school at Plainview returned home last week. We failed to get the news in of a fine son being born to Mr. and Mrs. Roy Stewart on the 21st of April his name being Gilbert Eugene, all doing nicely. Mr. and Mrs. G. W. Jolly of Wellington were visiting relatives here last Saturday and Sunday. Billie McAdams is visiting with his grandparents, Mr. and Mrs. Belew of McLean this week. The business men of Clarendon visited Goldston last Thursday night. Fine music was furnished by the band as well as some other entertainments which was enjoyed by all present. A neat sum was realized from the sale of cake and ice cream, which will be used to help pay expenses of a delegate to the Farmers short course at College Station from the Goldston 4-H Club. George Dilli and family of Skellytown visited Tuesday and Wednesday of last week with Mrs. Lena Dilli and family. Mrs. Lena Dilli of this Com-

bed time with Donnie Jacobs Monday night.

MARTIN

The Home Demonstration club and the community will serve ice cream and cake June 9, next Tuesday night about 7:30 or 8:00 o'clock. The Chamber of Commerce and the Band will furnish the music and program. Every one from adjoining Communities are invited to come. The proceeds will be divided between the club and community. Mr. and Mrs. R. L. Mason and children, Mr. and Mrs. A. A. Smith and son, Truett, spent Sunday with Mr. and Mrs. D. M. Patterson. Mrs. Lee Wood and Mrs. Dave Patterson, Mrs. W. F. Barker, Mrs. Alvin Pittman spent Monday afternoon with Mrs. Turnbow and her parents, Mr. and Mrs. Cox. While Mr. and Mrs. Cox were driving through from Roswell, N. M. they happened to a serious accident near Canyon, where they had a flat and turned over the truck. Mr. Cox had three ribs

munity won a prize of five dollars for naming a trio of chorus girls over Radio Station WDAG Amarillo, Texas, she sent the name "Sterling Trio" for our new Governor, there were over two hundred names sent in and they selected the name she sent. The school here will be out next week, a program is being prepared for last of school.

broke and had several gashes and bruises, Mrs. Cox has a serious gash just above her left eye, and she also has several bruises. But they are doing nicely at this writing. Misses Jewel Smith, Ruby Lee Mason, Margaret LaFon, Fina and Ina Faye Pittman spent Sunday with Louise Patterson. Lois LaFon returned home Saturday afternoon after a visit with her friend, Ruby McNeal of Brice. Mr. J. H. Easterling and son, Earl, left Saturday morning for Fort Worth to meet his daughter. Mrs. Odell Barker and son is spending the week with the lady's parents, Mr. and Mrs. Tillie Tice of Brice.

INTERLOCKING SLABS OF GLASS AND METAL. Interlocking slabs of metal and glass compose the latest form of construction material for buildings, says Popular Mechanics Magazine. The designers of these slabs claim that three-inch insulated walls of metal and glass have a heat-retaining value equivalent to a brick wall three feet thick. The weight is only one-tenth that of a twelve-inch brick wall. The slabs come in four-by-six feet squares and are ready for bolting together at the building site. The time for construction is about one-half that required for ordinary masonry, and the cost is about one-fifth less.

IN SOCIETY

Norman-Clayton

One of the prettiest affairs of the season occurred Tuesday noon when Miss Bessie Lee Clayton became the bride of Mr. Ray Norman. Promptly at the high noon hour, Mrs. Otis Naylor, sister of the bride, began the wedding march. The bride and groom were preceded by the bride's maid and best man, Miss Doris Wells and Mr. Bill Charnley, both of Amarillo. Between the French doors, a trellis of crepe paper with pot plants and ferns, and a white wedding bell, was the setting for the beautiful ring ceremony, read by Rev. W. M. Murrell.

The bride wore a lovely tailored dress of light tan georgette, with all accessories. The bride's maid was dressed in soft blue tulle crepe.

Immediately after the ceremony a sumptuous luncheon was served the immediate families and a few friends present. A huge wedding cake adorned the center of the table.

Miss Clayton has lived near Clarendon a number of years, having finished high school and college here. She taught the past school term at Vigo Park and has been active in church work all these years.

Mr. Norman has lived in Amarillo a number of years, where he is in the service of Western Union.

The couple left the same day for Amarillo where they will make their home.

Mr. and Mrs. Floyd Norman and Mr. and Mrs. Will Norman of Amarillo, were out of town guests for the wedding.

Jean Dale Porter, Mary Alice Hukel, Mary Lorena and Peggy Joyce Gorman, Billy Jo Alexander, Neida Sue Burton, Mickey Ferrell and the little hostess, Helen Jean Paxson.

Win-One Sunday School Class Honored

Mrs. J. T. Patman and Mrs. A. A. Mays were hostesses to the Win One Sunday School Class Monday afternoon at the home of Mrs. Patman.

After a short business session games of "42" were enjoyed until late afternoon. Delicious straw berries, ice cream and angel food cake was served to twenty-five members and one visitor.

Jean Bourland Honored With Party

Mrs. Frank Bourland was hostess to the younger set Tuesday evening in honor of Jean's birthday.

The rooms were lovely with huge baskets of larkspur and roses.

Dancing and games of bridge were enjoyed until a late hour when a lovely ice course was served the following crowd:

Misses Elizabeth Kemp, Melba Del Warner, Johnnie D. Latson, Dorothy Jo Taylor, Pauline Shelton, Carroll Holder, Lois Wallace, Lucille Andis, Sallie Vares King of Albany, Texas, and Jean Bourland, Carol Hudson, Bill Word, Bill Wood, Dick Nichols, Fred Bourland, James Cornelius and Henry Wilder of Pampa.

Miss Ruth Price Is Presented In Recital

Last Thursday evening in the auditorium of the College, Mrs. Rita Foster Stocking, head of the Speech Arts department of Clarendon College, presented Miss Ruth Price assisted by Miss Delphia Bones in a miscellaneous recital.

Miss Price won her audience with her charming personality and her capable ability as a reader and dramatist, while Miss Bones delighted those present with her splendid work at the piano.

The program for the event follows:

"The Blacksmith's Story"—Hyde.

"Pas Des Amphores"—Chaminade—Delphia Bones.

Italian Dialect

"Giuseppe to His Dog"—Daly.

"Da Lectal Boy"—Daly.

"Da Lonely Honeycomb"—Daly.

Yesterglow—Shure, Delphia Bones.

"Half-Way"—Fifi.

Pianologues

"Poor Butterfly"—Golden.

"Stars Are The Windows of Heaven"—Maice.

"Swan Song"—Brooks.

Miss Vera Noland Is Delightful Hostess

An enjoyable picnic was given Monday evening at the Country Club.

The crowd gathered at the home of Miss Vera Noland at seven P. M. and motored out to the Club.

Swimming and dancing were enjoyed for several hours. Then refreshments were served and then home again, and more dancing at Miss Berkeley Ryan's until a late hour.

Those present were: Geraldine Pratt, Marjorie White, Eleanor Morris, Berkeley Ryan, Eugenia Noland, and Vera Noland.

Ardis Patman, Phillips Smith, Kenneth Brown, Johnnie Blocker, Byron Hille, Billy and Paul Greene, Alex Cooke, and Burch Cooke.

Also Mr. and Mrs. Bill Greene and Mr. and Mrs. E. H. Noland.

1930 Needle Club

Tuesday afternoon the members of the 1930 Needle Club gathered at the home of Mrs. M. W. Mosely with Mrs. Jiggs Mosely acting as hostess for the afternoon. After several hours delightfully spent in conversation and fancy work those present were served with a delightful refreshment course.

Those present to enjoy the pleasant afternoon were Mesdames Ralph Decker, Ray Couch, Homer Grimsley, Carl Tyree, Marvin Land, Earnest Hunt, Joe Ritter, Carl Peabody, Don Martin, Vestal Mosely, Elmer Palmer and Miss Jane Killough and the hostess, Mrs. Jiggs Mosely.

Helen Jean Paxson Celebrates Birthday

Little Miss Helen Jean Paxson, daughter of Mr. and Mrs. Ralph E. Paxson, celebrated her fourth birthday by inviting a number of her little friends to her home Saturday afternoon, May 30th.

Games indoors and on the lawn formed entertainment for the little guests. Colorful Japanese parasols were given as favors.

The large white birthday cake topped with four burning pink candles and ice cream was served to the following guests:

Anna Rhea, Mary Francis and

WISCONSIN PLANS TO BUILD NINETY GRADE CROSSINGS

(By E. E. Duffy)

Wisconsin is now busily building overhead grade crossings over railroads with two thoughts in mind—the elimination of her most heavily traveled and dangerous grade crossings and the provision of employment.

By the middle of May, 26 overhead crossings had been awarded for construction and bids have been received on seven more, and since then ten more have been advertised for bids. The Wisconsin program calls for the construction this year, with the co-operation of the railroads, of 90 overheads which were to have been built in 1931, 1932 and 1933.

Wisconsin has proceeded on this accelerated construction program with the belief that aside from the employment of hundreds of men, it is justified through the prevention of costly motor-train accidents. The overhead crossings are being paid for with part of the funds accruing through the gasoline tax which was recently increased from two to four cents a gallon.

Although there were fewer passenger automobiles in the United States in 1930 than in the previous year, the accident total was five per cent greater, a fact that is decidedly out of line with the principles of civilization. But motorists have a predilection for running into things, and the tendency to collide with pedestrians, other cars, trains, street cars and so on is increasing. If the motorist of 1930 hadn't run into people and various other objects the motor death figure would have been reduced from 33,000 to 4,200 deaths, the difference being enough people to fill the homes of thriving Brownsville, Texas.

Wisconsin's program is not particularly amazing when considered along with the state's resources and population, but when compared with the activities of other states it can be regarded as something out of the ordinary.

Wisconsin's plans is a sensible way to provide highway facilities which will help keep motorists from breaking their necks.

At last somebody has discovered the typical family of all America. By a process as painstaking as it was exciting, the research staff of the American Magazine set out to find the home "which represents all American and most nearly typifies in every respect the 21,000,000 families composing the population of the nation."

After a long routine of statistical search, the tabulating finger landed upon Mr. and Mrs. Merrill J. Brown and their two children living in a "typical" eight-room house in Indianapolis. The story of what they think, their dreams, their principalities and their possessions, proves to be one of those heroic friendly word-pictures that hit most ordinary readers right where they live.

It will be interesting for any American to compare this family with his own. As he goes with the statistician into the home of the Browns, work, and play, he's pretty likely to find himself exclaiming, "Why, that's just like our house."

It is easy to believe that the Merrill J. Brown family is really a typical family, that the average American home is a happy home, and that woman's charm and genius and loyalty and patience make it so. The Browns have a philosophy that is typically American. "We work pretty hard," they say, "we play a good deal, and when we play we play hard. We try to live as we go along and get something out of every day. And when we play we don't think much about work. We're just ordinary citizens who try to do the right thing."

When we see something we want that will add to the family's comfort and happiness, we get it, if we can afford it. Getting what you really want when you want it makes fun for the family."

Also, it might be added that their philosophy of "buying what they want when they can afford it" is the creed that creates national prosperity.

Countenfeit stock certificates can be spotted quickly by the use of an electric detector developed in the Westinghouse research laboratories, according to Popular Mechanics Magazine. The detector operates by determining the thickness of paper. Almost invariably intimation stock certificates are printed on a stock of paper slightly different from that used for genuine shares. A certificate of the latter class serves as a standard in setting the apparatus, which brands the imitation as false as soon as they are introduced. The same apparatus, which is also expected to be of value in distinguishing rare paintings from copies and imitations.

After their wedding, Fireman Frank Slowman and his bride were conveyed from the church to their new home in Weston, Eng., on a fire engine.

Returning to his parked automobile, William O'Brien of Saugus, Mass., couldn't understand why the motor wouldn't start until he lifted the hood and discovered that the entire engine had been stolen.

Jack Morgan of Charleston, W. Va., was sentenced to 30 days in jail for stealing a baseball glove.

Thomas Williams of Birmingham, Eng., was convicted of picking pockets for the thirty-sixth time.

TO IMPROVE THE HOME

Cleaning The Garage Floor.

With a bag of cement, a stiff brush and a small quantity of gasoline or kerosene, the concrete garage floor, which often becomes stained with oil and greases, can be kept in spic and span condition. When the floor becomes stained, first wipe all excess oil off the concrete, using the brush and the gasoline to scrub it vigorously. The surface should be a hose steam and kept wet for about 10 minutes. While the pavement is still moist, dry portland cement can be dusted over it. An ordinary flour sifter can be used for this purpose. The whole surface is then swept with a fine broom. On drying, the pavement is left white and all stains are covered up.

TABLE MANNERS IN JAPAN

Japanese natives are patronizing the 21,000 restaurants in their country where one may sit at a table and eat with knives, forks and spoons. The eating places were originally created for and used only by foreigners who were averse to sitting on the floor and using chopsticks. Much of the food is served in American style.

IS YOUR FAMILY LIKE THIS?

THEN AND NOW

1881—Fifty years ago women wore hoop skirts, bustlers, petticoats, buttons, cotton stockings, high button shoes, ruffled cotton drawers, flannel night-gowns puffs in their hair, did their own cooking, baking, cleaning, washing, ironing, and raised big families, went to church on Sunday, and were too busy to be sick.

Men wore whiskers, square hats, Ascot Ties, red flannel underwear, big watches and chains, chopped wood for stoves, bathed once a week, drank 10 cent whiskey and 5 cent beer, rode bicycles, buggies or sleighs, 12 hours a day and lived to a ripe old age.

Stores burned coal oil lamps, carried everything from a needle to a plow, trusted everybody, never took an inventory, placed orders for goods a year in advance and always made money.

1931—Today women wear silk stockings, short skirts, low shoes, no corsets, and an ounce of underwear, have bobbed hair, smoke, paint, powder, drink cocktails, have operations, play bridge, drive cars, have pet dogs, and go in for politics.

Men have high blood pressure, wear no hats, and some have no hair, shave their whiskers, wear wrist watches, shoot golf, bathe twice a day, drink poison, play the stock market and ride in airplanes, never go to bed the same day they get up, are misunderstood at home, pay more attention to the other fellow's business than his own, talk depression, work five hours a day—play ten, and die young.

Stores have electric lights, cash registers, elevators, but never have what the customers want, trusts nobody, takes inventory daily, never buy in advance, have overhead, markup, 'markdown, quota, budget, advertising, stock control, annual, semi-annual, end of month, dollar day, founder's day, rummage, economy day sales, and never have any money.

If you like these conditions and think life worth living—We are for you.—H. A. Marr Grocery Co.

PIGS AND HAIR-CUTS

Porto Rican school children learn hair-cutting, shoe-repairing and lace-making during half of each school day. The other half is devoted to reading, writing and arithmetic. Other non-academic subjects of instruction include furniture-making, tin-smithing and raising pigs, chickens, rabbits, pigeons and goats. This sort of learning is designed to supplement the needs of the Porto Rican family and to prepare students for jobs in the United States.

EYE OF ELECTRICAL DETECTIVE SPOTS COUNTERFEITS

Countenfeit stock certificates can be spotted quickly by the use of an electric detector developed in the Westinghouse research laboratories, according to Popular Mechanics Magazine. The detector operates by determining the thickness of paper. Almost invariably intimation stock certificates are printed on a stock of paper slightly different from that used for genuine shares. A certificate of the latter class serves as a standard in setting the apparatus, which brands the imitation as false as soon as they are introduced. The same apparatus, which is also expected to be of value in distinguishing rare paintings from copies and imitations.

After their wedding, Fireman Frank Slowman and his bride were conveyed from the church to their new home in Weston, Eng., on a fire engine.

Returning to his parked automobile, William O'Brien of Saugus, Mass., couldn't understand why the motor wouldn't start until he lifted the hood and discovered that the entire engine had been stolen.

Jack Morgan of Charleston, W. Va., was sentenced to 30 days in jail for stealing a baseball glove.

Thomas Williams of Birmingham, Eng., was convicted of picking pockets for the thirty-sixth time.

Air planes have been successfully in Texas to hunt Eagles that prey on spring lambs.

Airplanes have been employed in Utah in taking an accurate census of big game.

Miss Florence Morley of New York, who was arrested for Shoplifting, was likened to a jackdaw in court because she had a mania for taking vari-colored articles and piling them in heaps in her home.

Mr. Ross H. Wood Beville of Amarillo spent Tuesday visiting relatives and friends in Clarendon.

For the June Bride

There is no other gift we could suggest that would be as appropriate or as fitting as FURNITURE.

We have just what you need in this line and should be pleased to show you suites that would surprise you at their extremely reasonable cost.

Other Items

We might suggest are found here in a great variety. We have but recently unpacked a large shipment of the new designs in chinaware. Any one of the patterns would be acceptable to any bride and would please her highly.

Then too, we have a splendid assortment of table glassware in the very latest designs that would be treasured for years by the bride of June.

To those brides of other Junes—we should like for you to see our store and the many splendid pieces of furniture and other household needs we have for you.

An anniversary gift would be in order. A suggestion to the husband would likely secure the wanted results.

MAKE THE BASEMENT LIVABLE

When adequately daylighted and floored with concrete, the basement has uses which are unlimited. Working and living conditions can be made equal to those in above grade interiors. Play rooms, dens, billiard rooms, workshops, music rooms—almost any type of room may be safely created in such a basement. The increasing tendency to make heating plants and service facilities clean, compact and attractive, emphasizes the possibilities of the well-built basement as an added place for the enjoyment of home life.

RUBBER WHEELS ON RAIL CARS STOP SHOCK AND NOISE

One French railroad is experimenting with rubber wheels for its rolling stock as a means of providing greater comfort for passengers, says Popular Mechanics Magazine. The wheels have been used on a gasoline driven engine and car for thirty passengers and have been found to stand wear well and to absorb shock and eliminate much of the noise.

"RIGHTLY DIVIDING THE WORD OF TRUTH"

These words are quoted from 11 Tim. 2:15. The revised version gives a different translation. The whole passage reads thus: Give diligence to present thyself approved unto God, a workman that needeth not to be ashamed handling aright the word of truth." In the margin there is still a difference "Holding a straight course in the word of truth." The meaning is clearly this: In order for the minister of the gospel to obtain God's approval and have no reason to be ashamed of his work, he must be most careful in expounding the word to give the sense according to the mind of God. Discrimination, or distinguishing things that differ, and pointing out their truth position, is in the word rendered, "dividing". Unless this is done, the reader or expounder becomes hopelessly confused. A few points will be sufficient to illustrate this. 1. It is of first importance to get to know whether any given Scripture belongs to the covenant which God made with the Jews, or to us who live in the gospel age. 2. It is also important that we distinguish between those Scriptures which apply to God's faithful people and those that apply to the world. 3. It is also of great advantage to know whether any given Scripture was meant for particular persons, in special circumstances, or whether it is of general application. In the reading of the Scripture it is necessary to ask, "Who Speaks? The Bible is the word of God, but not all of its words are the words of God. In this book there are words of the devil, false prophets and sinners. In it may be found the opinions and decrees of men, as well as the counsel and commandments of God. Again inquire, "To Whom Spoken?" Is the message to a patriarch, a Jew, an apostle, a Christian, or a sinner? Does it belong to you, or only to the one to whom it was specially addressed? A third question will be helpful, "Under What Dispensation?" Does the teaching belong to the patriarchal, Jewish or Christian age? Just as we study the literature of the world with reference to the time in which it was written, we do in our meditation on the Book of books. The fourth question is this: "What Purpose?" There is no pointless argument or message in the teaching of the word of God. Each writer or speaker had a definite purpose before him. We can scarcely hope to understand the Scriptures unless the purpose makes the teaching we know what the purpose was. plain. The application of these four questions in our study of the oracles of God, will solve many problems, answer many questions, explain many difficulties, fathom many mysteries, and throw a flood of light upon every page of the inspired book. At our Sunday morning service we will present a special

"Children's Day program. The children will have charge of the song service and will present several new numbers. The sermon for the occasion will be one of interest to all. "Rhoda of the Successful Church." Using the method outlined above, we hope to present a sermon on the important subject of: "Heart-Felt Religion." We have heard much on the subject and now we want to see what the Bible has to say on this point. We will try to give you a lesson that you will appreciate and remember. Come worship with us.—W. E. Ferrell, Minister, First Christian Church, Clarendon, Texas.

FIRST PRESBYTERIAN
Robert S. McKee, Pastor
Sunday school, 9:45 a. m.

HARD SURFACES COMES EASY TO PELICAN STATE
(By E. E. Duffy)

Four years ago Louisiana didn't have much to offer in the way of rural roads—mud and little else. At the close of 1927 that state had but 60 miles of hard surfaced pavements. But that was the start of one of the most amazing highway building programs of all history, amazing in itself and amazing in consideration of the size of the task as compared with the state resources and population.

In a handful of years Louisiana has evolved a plan that will bring that state a total of 3,000 miles of hard surfaced roads—the job is one fourth done and the way is clear for finishing it in short order. Louisiana has let 1,507 miles of concrete pavement to contract and half of this has been completed. Already this year contracts have been awarded for the construction of 760 miles and awards

are pending on an additional 180 miles. At present more than 80 paving outfits are busy laying concrete. Some of these paving outfits have had no difficulty in placing 1,500 feet of pavement daily; the best mark so far this year was the placement of 2,004 feet. Altogether the contractors now at work can likely turn out, if the weather is good, between 12 and 15 miles of pavement daily—which indeed is sur-

cess for the pavement-thirsty Louisianians.

Louisiana has been able to speed up the paving of her state system by issuing road bonds which are easily financed by part of the funds accruing from four-cent gasoline tax.

Slaming a door in the face of his wife, James C. Kelley of Evanston, Ill., broke her nose.

SPORTS SLANTS

By Sam Braswell, Jr.

Well, our hats are off this week to Clarence Miller, who piloted his Dry Goods baseball team to the championship of first half of the city league. Of course the Clothiers might lose both of their next two games, but such is not likely. However should the unexpected happen they would finish in nothing worse than a tie for the leadership if the Grocers win both of their remaining games. The Dry Goods has been a most consistent team throughout the first part of the season, and the smart baseball played by the club has been an important factor in their success. Their pitching has been above the average while the big bats of the team have boomed destructively to the opposition in the pinches. All of the clubs are busy and preparing for the second half of the race, and the brand of baseball in the next period will undoubtedly be much better than in the past.

The Texas league race is getting tight with four teams fighting for air at the top. Fort Worth has a last got to the point where they can be beaten, and are finding it tough to keep ahead of the charges of the Exporters from Beaumont, the Houston Buffs and the Dallas Steers. This Beaumont club is certainly one tough aggregation to kick off the ladder. The boys from the boys were kicked four games down the ladder by the Cats a few weeks ago, and the experts began to say "I told you so," and that they had hit the toboggan. Well, if you will look at the percentage column those same boys are riding at the top. They have been hitting with the best of them and their hurling has been consistent. Of course their opposition has been mostly the weaker clubs of the southern end of the circuit, but they have the will to win and their spirit is plenty hard to down.

Houston is just a jump behind and is making itself heard and feared by all the clubs of the loop.

There is little hope for Shreveport, San Antonio, or Galveston to rise above the tail end position, while Wichita Falls might snap out of it and make the first division.

Well, even if we can't play golf very good, we've got a cousin just out of high school who can certainly make old man par look obsolete. He is Jimmy Phillips of Ranger, who was defeated by Gus Moreland Sunday in the finals of the Ranger invitation tournament. Gus had beaten Jimmy several months ago in the finals of the Mineral Wells open tournament, but each time this Moreland did it by being under a few more strokes than our seventeen year old cousin. In the qualifications of the Ranger tournament Jimmy came in with a par—however he had to share sizzling 67—five strokes under medalists honors with Moreland who also hung up the five under mark. In the play-off in the finals Gus and Jimmy finished their first round halved with a 34 apiece—two under par. However in the last round Moreland started off with three straight birdies, while Phillips was bagging one of the desirable fowls, and the match ended on the 16th hole. In recent tournaments the young golfing phenom has eliminated such stars as Rotan, George Meredith, Ballard and other players of state reputation. Now you know where we get our sensational game. We have developed the slice to a new plane of perfection—beautiful to watch, but the devil to go after.

The University of Texas will have a right big vote in the mer Longhorns sinshrdetoains Texas league if a few more former Longhorns sign with the clubs of the loop. With Dallas there is Pinkie Higgins and Van Lamm; Beaumont, Milton Browning and Tommy Hughes; Galveston, Cecil Peoples and "Big Foot" Lewis. Contracts have been signed by Milton White and Mike De La Fuente to report to clubs at the close of school. That's a pretty fair delegation to be represented in the Lone Star circuit.

What's the matter has everybody stopped playing tennis around here? We still believe there ought to be a tennis tournament, what do you say?

It is rumored that there might be an athletic card featured along about the Fourth of July, consisting of about three first class wrestling matches with Cal Farley of Amarillo the third man in the ring. We don't know much about the details of the affair, but understand that arrangements are in the making. Two preliminary matches are to feature a local man with the main event featuring wrestlers of wide reputation. Personally we think the affair could be put over in a clean and highly satisfactory manner, and would like to see it put on. We believe it would make a big hit with the Fourth of July crowd and act as a draw-in card for many who would not come to the city otherwise.

500 MILE CLASSIC TEST FOR TIRES

FIRESTONE EQUIPMENT ON FIRST TEN CARS ACROSS LINE

Indianapolis, May 30 — The gruelling 500-Mile Indianapolis Classic was a test of tires more than ever before. The racing machines were heavier, more powerful, and capable of greater speed. The performance of the Firestone tires, on the first ten cars to finish, is the greatest proof of the advancement in tire engineering. Some of the drivers who finished in the first 10 did not make a tire change although they could do so without any loss of time,—in 15 seconds, while getting gasoline. Firestone tires have equipped the cars of the winner for 12 consecutive years, but never before so outstandingly and under such trying conditions.

In the 500-mile grind, the continuous flexing of the tires tends to generate heat, and increase the circumference of a tire by more than 10 per cent at top speed. Knowledge of these conditions is what makes the drivers so cautious in selecting the tires which they use in this race. They are glad to pay for their tires because their chances of victory and even their lives depend upon them.

In 1930 members of the Race Drivers Association presented a silver plaque inscribed: "To Harvey S. Firestone. In appreciation of his untiring cooperation and leadership in the consistent development of tires which have contributed safety in the establishment of automobile speed and endurance records."

On this Indianapolis testing ground Firestone has achieved important developments for the tire industry.

The Firestone pit has become an institution where justified confidence pervades. In fact racing drivers shift tire responsibility to Firestone engineers and devote their attention to their motors and other mechanical factors.

Firestone engineers studied how internal friction and heat eats tire vitality at high speeds, and developed the Patented Gum-Dipping Process in which pure liquid rubber penetrates every cord and coats every fiber, minimizing internal heat in Firestone Tires on highway and speedway.

Similarly the Patented Double

Cord Braker was perfected, providing 56 per cent stronger union between tread and cord body and 26 per cent greater protection against blow-outs. It is constructed of Gum-Dipped Cords in a more open construction. Two plies of this material form the union between tread and cord body as the big cars, with smooth tread to allow skidding on curves, roar and pound around the 500 mile course of uneven bricks. Without these Firestone features tires could not be expected to carry the drivers over the entire course with the assurance of safety at speeds necessary to win the victory.

AIR SQUADRONS CAN SPAN CONTINENT IN SINGLE DAY

Uncle Sam is preparing to move his army air squadrons across the continent twelve times faster than storms can gather to impede the progress of a combat force flying from the Atlantic to the Pacific, says Popular Mechanics Magazine.

Each streamlined metal monoplane, with an engine more powerful than any yet used in fast military plans, and capable of speeding 500 miles an hour with the wind, will be able to carry seven men or two 500-pound bombs across the continent faster than the world's speediest pursuit planes can fly.

The newest combination transport and bombardment low-wing monoplane, tapering from a blunt nose which houses a streamlined engine, to the tiny tail at the tail, literally cuts through the air like a giant knife. Its wheels fold up into the underside of the big wing. This plane can pick up a bomb weighing 2,000 pounds and carry it to an altitude of more than three miles. Without a heavy load, the plane can carry a pilot and observer up to an altitude of five miles.

With its new wings, some of which remain in experimental stages, the army will be able to move its combat squadrons 200 miles an hour across the continent. With them experienced weather men will fly to receive reports from department of commerce ground stations and issue hourly weather forecasts to the flight leader.

If 100 airplanes, flying at that great speed, were to start tomorrow morning across the continent, they probably would encounter two or three storms before nightfall. Although the planes would be flying as far as an hour as a storm would move in twelve hours, the weather man will be able to direct them around the threatening areas.

Now the army wants to know more about storms, especially as some of its planes are achieving great speeds. Its aerial forces, in moving long distances, want to get out of the way of storms. That's where the weather man comes in. As faster planes enter army ranks for pursuit, attack, observation and bombardment missions, the pilots need to know more about weather. When Captain Ira S. Eaker, army long-distance flyer, took off recently from California on his flight toward the Atlantic, he was told by the weather bureau at what altitude to fly throughout the length of his journey. He had only to start eastward and fly at the levels prescribed by the weather bureau.

Captain Eaker's plane, which was rebuilt in a California factory for the army in five days, represents the greatest perfection yet attained in streamlining an airplane to smooth out the air rushing along the sides of the fuselage. From a tiny spinner, covering the hub of the propeller, the tail surfaces have been smoothed out to cut down resistance and friction. The cylinders of the engine are covered at the ends by a ring, modified from a cowling worked out during

EDISON HAS TAKEN OUT OVER A THOUSAND PATENTS IN THIS COUNTRY. HE IS AT THE PRESENT TIME TRYING TO EXTRACT A SUBSTITUTE FOR RUBBER FROM THE GOLDEN ROD.

HE SAID "GENIUS IS ONE TENTH INSPIRATION AND NINE TENTHS PERSPIRATION"

recent years by the National Advisory Committee on aeronautics. This adds about twenty miles an hour to the plane's speed.

The large air wheels on which the faster plane lands are wound up by the pilot after he takes off. They fit into the lower side of the wing, and metal shields, fitting on the axles, become part of the lifting surface of the wing when the wheels are up in flying position. The wheels may be wound up or dropped down for landing in fifteen seconds. With this plane, the army coast to coast, with one stop for food and fuel, is about twelve hours.

NOTARY PUBLIC LIST FOR 1931 SHOWS LOSS IN COUNTY

The list of approved Notary Publics for Donley County finds a decided loss over the list of last year. Only forty-four qualified for the work this year as against eighty-nine for the year just past. The city of Clarendon has thirty-two notaries, and all the other towns of the county are represented on the list.

The Notary Publics that this county for further reference. The list with their location follows: J. J. Alexander, Clarendon; W. C. Alexander, Clarendon; George B. Bagby, Clarendon; W. S. Bagby, Clarendon; C. W. Bennett, Clarendon; Annie L. Bourland, Clarendon; O. C. Brown, Jericho; Herolis Burrell, Clarendon; A. B. Bynum, Lelia Lake; Joe Bownds, Clarendon; Annie Brown, Hedley; J. L. WORMS DRIVEN FROM GROUND BY ELECTRICITY

Fishermen who like angleworms for bait but do not fancy the job of digging them or searching for them with a flashlight after rain, now can catch the wrigglers by electricity, says Popular Mechanics Magazine. An electric worm expeller that forces the fishing worms from the ground is being offered for use on an alternating current or on current from an automobile battery. The expeller is inserted in a power supply and a rod is pushed in the ground. The worms, if there, will emerge within a few seconds.

MECHANICAL EYE FOR PLANES SEE 2 MILES IN FOG

For the guidance of aviators, a mechanical eye has been developed which is able to "see" for a distance of two miles in an average fog, says Popular Mechanics Magazine. The apparatus is designed to be set on the tail of a ship, sight an airway light through the fog and reproduce on the aviator's dash a synthetic beacon. The artificial dash beacon is in two parts. One shows the flyer whether the airway light is to left, right or straight ahead. The other signal shows whether he is approaching it or moving away, and the two readings, with his altitude instruments, furnish a landing guide.

All gun crews of the British navy have been provided with gas masks as a protection against bursting shells or other forms of gas attack.

Radio has been used in tests to guide the maneuvers of caval-

ry, the troopers receiving their orders in the saddle.

How One Woman Lost 102 Lbs. Fat

HOW ONE WOMAN LOST 102 LBS OF FAT
The Modern Safe Way—Right Way To Lose Fat
Just take a half teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast.

Almost Unbelievable—Nevertheless True
Dear Friends:
You advertise Kruschen Salts for reducing, so I finally tried them and when I started I weighed 219 pounds and when I took them for a year and 3 weeks, I lost exactly 102 pounds.

I am 23 years old and I look at least 5 years younger now than I did when I was fat. I have a picture of myself before and after so if you want to see them let me know.

I am always telling my friends about the wonderful salts. I am always advertising them. I took two bottles every month for a year and 3 weeks. I amounted to \$25 for reducing 102 pounds but it was worth it.

If I can be of any help to you let me know.

Yours truly, Miss Nellie Simpson, 1903 Wayne Street, Swisshole, Pa., Oct. 31, 1930.

You can hasten the reducing action of Kruschen by going lighter on potatoes, pastry and starchy meats.

Unlike other Salts, Kruschen doesn't reduce by rushing food thru your system. Rather it's an ideal blend of 6 separate mineral salts which help every gland, nerve and body organ to function properly.

Women everywhere are overjoyed with this marvelous reducing treatment. Frequently pound by pound of surplus fat leaves and soon you possess that trim, slender figure you've always craved.

An 85c bottle of Kruschen (lasts 4 weeks) is sold by leading druggists the world over—so start this SAFE method to lose ugly fat TODAY! Douglas Goldston Drug Co. sells lots of it.

ITEMS OF INTEREST IN DONLEY

SUNNY VIEW

The farmers are all about through planting their crops in this section. Friends of Mrs. Neal Bogard will be glad to know that she is doing nicely at the Adair Hospital where she underwent a very serious operation last Tuesday. Mrs. J. C. Major of Groom called on Mr. and Mrs. A. M. Lanham Thursday morning on her way home from Lelia Lake where she and her brother, Aubrey Thompson and family had been fishing. Ray Roberts of Amarillo spent Sunday with his parents, Mr. and Mrs. Sam Roberts in the afternoon all drove to Goldston to visit his sister, Mr. and Mrs. Floyd Parker. Mr. and Mrs. Luther Butler and Mr. and Mrs. Heckle Starks visited with Mrs. Neal Bogard at the Hospital Sunday afternoon a short time. Mr. and Mrs. A. M. Lanham were callers in the D. B. Bally home Thursday night till bed time. Miss Eula Haley, Mrs. Paul Smith and children, and Miss Laura Brinson, of Hedley spent Sunday afternoon with Mr. and Mrs. Nelson Riley. Mr. and Mrs. Alfred Estlack of Clarendon called on Mr. Henry Hutto and Miss Ethel Friday night till bed time. Miss Ethel accompanied them home and stayed till Sunday night. Clarendon spent Saturday night with Miss Beatrice McCracken of with Miss Ina Riley. Mr. and Mrs. Otis Naylor and son and Miss Ruth Hartzog of Clarendon, were dinner guests of Mr. and Mrs. S. T. Clayton and Miss Bessie Lee Sunday. Mr. and Mrs. Sam Roberts were visitors in the home of Mr. and Mrs. Devertie Leathers

ASHTOLA

Rev. and Mrs. Rogers of Amarillo visited Mr. and Mrs. Tyler Wednesday and preached at the school house that night, several people from Amarillo attended the services. Mrs. Wallace and daughter visited Mrs. B. L. Collier Wednesday. Kerwin Erwin and Miss Evelyn Jones were married last week and will make their home at Whittensburg. These young people have lived in this community for a

number of years and are loved by all who know them. Here is wishing them much success in the future together.

Rev. Nelson from Lake View preached to a large crowd here Sunday morning and again Sunday afternoon. These services were well attended and enjoyed.

Mr. and Mrs. Glazner of Jericho spent Sunday with Mr. and Mrs. B. L. Collier.

Mr. and Mrs. Whit Calcote spent Tuesday with the lady's parents, Mr. and Mrs. A. L. Wallace.

Mrs. Lee Ramsay and son of Channing came down Saturday for treatment and are staying at the house of parents.

Mrs. Nobles and Miss Lucy Stagner of Lelia Lake attended church here Sunday and visited friends.

Mr. Raymond Slaton and Miss Virgie Wallace drove to Clarendon Saturday evening and were married by Rev. Bowen. Their friends wish for them much happiness. They with Mr. and Mrs. Leo Wallace spent Saturday night with Mr. and Mrs. Adkins Mace at Lelia Lake.

Miss Lettie Calwell returned home Monday from Goodlett where she has been visiting her sister Mrs. Ellis for several weeks.

Mr. and Mrs. Nowlin of Hedley spent Wednesday with Mr. and Mrs. W. S. Swinburn.

Mr. and Mrs. Majoe Evans and children from LeFors is spending several days with his parents, Mr. and Mrs. Sam Evans.

Born to Mr. and Mrs. Louie Morris Wednesday, a nine pound son.

Those present for dinner Sunday with Mr. and Mrs. Slaytor were Mr. and Mrs. A. L. Wallace Mr. and Mrs. Les Wallace, Mr. and Mrs. Adkins Mace and son, and Mr. and Mrs. Raymond Slaytor.

Mrs. Charlie Meaders spent several days last week in Amarillo. Miss Mary Lovell visited Mrs. Jess Adams on Monday.

Mrs. J. L. Tims and Mrs. Jess Adamson visited in Amarillo Wednesday.

Mr. and Mrs. John Fletcher of Chamberlain visited the lady's parents, G. A. Davis and family Sunday.

W. G. Cottingham made a business trip to Wichita Falls this week.

Mr. and Mrs. D. W. Tomlinson visited the lady's sister, Mrs. H. P. Holley in Ashtola Sunday. Those enjoying the picnic Saturday night were: Mr. and Mrs. Willard Knox, Misses Wilma King

LELIA LAKE

We have had so much high wind we are needing rain, we are looking forward to the 6th of June at which time we hardly ever fail to have rain.

Quite a number of our farmers are harvesting a fine crop of Alfalfa this week.

The Bridge club met with Mrs. John Gerner Wednesday.

Mr. and Mrs. C. H. Reynolds visited in the R. J. McGowan home in Clarendon Sunday. Mrs. M. C. McGowan and Fanny came home with them for a few days visit.

Mr. and Mrs. Clyde Fletcher and children, also Mr. and Mrs. Tommie Durrett and children of Claude visited relatives and friends here Sunday.

Mrs. John Gerner and Mrs. Hal Christie are visiting relatives a few days in Amarillo this week.

Greer Cottingham returned home Sunday from Goodwell, Oklahoma where he has been in school at the T. A. M. College.

Mr. J. L. Reid and Clyde Putman motored to Oklahoma City Monday where Mr. Reid will visit a daughter.

Mrs. W. A. Kercheville and children were dinner guests of Mr. and Mrs. W. L. Butler Sun.

Mr. and Mrs. Green of Green Flat, visited Mrs. Green's sister, Mrs. T. N. Barker and family Sunday.

Mrs. G. A. Davis is on the sick list this week.

Mrs. U. F. Griffin of Wichita Falls also Mrs. B. L. Black of Truscott, Texas visited in the W. G. Cottingham home last week.

Mr. and Mrs. John Fletcher of Chamberlain visited the lady's parents, G. A. Davis and family Sunday.

W. G. Cottingham made a business trip to Wichita Falls this week.

Mr. and Mrs. D. W. Tomlinson visited the lady's sister, Mrs. H. P. Holley in Ashtola Sunday.

Those enjoying the picnic Saturday night were: Mr. and Mrs. Willard Knox, Misses Wilma King

Louise Lewis, Jaunita Simmons, Louise Batson, Lon Howard, Alvin Mace, Guinn Aten, and Guy Putman. Frances and Roby Koons are visiting in the D. W. Tomlinson home this week.

NEW OIL TRADE PROBLEM

A new problem in the oil trade, and one which will also attract the interest of the public, is revealed in a complaint filed by producers of Pennsylvania grade crude oil, who allege unfair practices on the part of the big oil companies.

It is charged that the larger companies are corraling independent service stations through exclusive dealing arrangements which close the stations to products of most of the Pennsylvania association's members. This, they contend, not only deprives them of their outlets, but also prevents the public from obtaining the brands of oil desired.

The so-called Pennsylvania oil field, situated in Pennsylvania, Ohio, New York and West Virginia, was the cradle of the world's oil industry. For more than seventy years it has been a constant producer, and a worldwide demand for its superior lubricating oils has been built up.

Now, it is asserted, this veteran field is threatened with loss of its markets through the competitive tactics of the big oil companies. The Federal Trade Commission is being asked to take steps to end the unfair competition complained of, which is declared to be in restraint of trade, because of its possible far-reaching effect upon many types of business.

that are being subjected to increasing pressure from powerful competitors, this case will be watched with keen interest.

Biblical accounts of the fiery destruction of Sodom have been verified, scientists believe, by recent excavations in Transjordan.

Eggs Higher

Early Bird Laying Mash, 100 lbs. \$1.50

This feed is made by an approved A. & M. formula. At the present price one dozen eggs will pay for as much mash as ever.

This is good feed and each sack guaranteed.

Mr. Car Owner

Here is what Race Drivers with Life and Victory at Stake have decided about Tires

FOR twenty-one years the Indianapolis two and a half mile circular brick track, surrounded by a concrete wall to keep the cars from dashing off, has been the crucible where at white heat automobiles and tires have been tested. Thousands of men have risked, and some have sacrificed millions of dollars to the end of making better automobiles and better tires.

The Gold Standard of Tire Values

World's Records

Louis Schneider and mechanic on Saturday won this race in a heavy 8 cylinder car. He made an average speed of 96.629 miles per hour—on the straightaways and in passing cars he touched 140 miles and better. He drove on 6.00-20 Firestone High Speed Tires with racing treads. He had no tire trouble.

He used Firestone Tires because Firestone experts and engineers have through twenty-one years taken this race as a challenge to tire making. From this race they have developed these vital improvements which have given to Firestone Tires the world leadership in safety, mileage and endurance.

1. Gum-Dipping. Tires had to be stronger and able to stand the heat of a hot red-brick track at high speed. Firestone met this by developing and perfecting the dipping of cords through a rubber solution to insulate each fiber of every cord to overcome heat and give the cord greater strength—and 58% greater flexibility. This is the Patented Gum-Dipping Process used in the making of every Firestone Tire.

2. The Balloon Tire was developed by Firestone to permit greater speed with comfort and safety by increasing road grip and absorbing shocks. It was made possible by the added strength and flexibility given by Gum-Dipping. In the 1925 race, some of the drivers tried the then new Firestone Balloons. The others stuck to high-pressure tires. Peter de Paolo on Firestone Balloons made a world's record. All the prize winners came in on Firestone Balloons—Now the balloon tire is everywhere the standard.

3. Double Cord Breaker. The higher-powered cars and the step-up in speed demanded still more tire toughness. At one hundred miles an hour, the circumference of a tire increases by more than 10%, and this, added to the centrifugal force, tends to throw off the tire treads. Firestone met this by developing the Patented Double Cord Breaker which gives a 56% stronger bond between the tread and the tire body and also gives a 26% greater protection against punctures and blowouts.

These are some of the great lessons that Firestone has learned on this racing track. And so the men whose lives and fortunes depend on knowing tires always buy Firestone Patented Gum-Dipped Double Cord Breaker High-Speed Tires.

There were 72 entries. Of these, 40 survived the elimination trials—and every one of them was on Firestone Tires. And every tire was bought and paid for.

We give you the benefit of all the lessons Firestone has learned from these races. You can get from us all the strength and safety in tires that the racing drivers buy.

—Firestone Gum-Dipped Tires hold all world's records on road and track for safety, mileage, speed and endurance.

—for twelve consecutive years they have won the 500-mile Indianapolis Endurance Race.

—were on the winning cars in the Pike's Peak Race where a slip meant death.

—were on the G.M.C. Truck, carrying a two-ton load, that hung up the coast-to-coast endurance record.

—were on the Studebaker car which on a board track in Atlantic City in 1928 went 30,000 miles in 26,326 minutes.

—on 125 buses of the Washington Electric & Railway Company, ran 3,674,266 bus miles during 1930 with only 13 tire delays.

—on 150 trucks of the Safeway Stores, Inc., ran 1,500,000 miles in one year without one single hour of delay on the road.

Take advantage of our liberal trade-in plan. Avoid the risk of blowout, accident or delay. Prices on these World's Record Tires are the lowest in history. Come in Today.

A. N. WOOD IN WRECK IN AMARILLO WEDNESDAY

As A. N. Wood and his small daughter, Miss Oleta, were just getting into the city of Amarillo Wednesday morning they had some sort of an argument with a truck. The extent of the damage had not been learned early this morning as Mr. Wood was having the necessary repairs made to his car to allow him to bring it home today. He reported to Mrs. Wood over the telephone that no one was injured and that he would make a trial at getting home today by noon.

MISSIONARY WOMEN ATTEND CLAUDE ZONE MEET

The local women's Missionary Society of the Methodist Church was well represented Tuesday when nineteen of the members motored to Claude to attend the first Zone Meeting of the new Conference year. Representatives were also present from Memphis and Hedley. Mrs. Kerriock of Claude, who is Zone leader, presided during the day. A well arranged program had been planned including reports from the various Societies and talks by Mrs. E. E. Adams and Mrs. Graves of the Amarillo District on "Literature and Publicity" and "Things we Should Know" respectively. Musical and reading numbers interspersed the program. The Claude ladies showed their hospitality throughout the day as each visitor was made to feel welcome. One of the most enjoyable features of the days' entertainment was the well prepared lunch served in the basement of the new Claude church. One of Clarendon's veterans in the Missionary work was again honored when the Assembly voted to call the Zone the Gable Betts Burton Zone, this name winning over Flora Foreman which was also presented. The next Zone Meeting will be held in Clarendon the last Tuesday in August.

BRADY ADDS OFFICE TO SHOW ROOM THIS WEEK

The Clarendon Implement Company has this week completed the installation of a new desk, counter and railing to enclose their office and set their parts department away from the remainder of their show room. The new piece of equipment has been under construction for some time and was painted before it was put in its present location. The color scheme of the addition is gray and white with a natural color top on the desk and counter. The book-keeping department was also removed from the small office where it had been kept and is now behind the counter.

LOCAL FOLKS REPORT SPLENDID FISHING TRIP

A fishing party composed of Mrs. R. M. Morris, Marshall Morris, Price Morris, "Slats" Parker, Jake Small of Amarillo and Raymond Davis returned to the city Wednesday evening after spending three days near Vernon on East Coffee Creek in Cara Blanca canyon. The waters of the creek are a part of Lake Kemp. Plenty of fish and a fine share of sunburn are reported by the members of the party.

T. C. GARDNER TO SPEAK AT BAPTIST CHURCH JUNE 14

T. C. Gardner, State B. Y. P. U. Secretary for Texas, and outstanding leader in B. Y. P. U. work in the South, will speak at the Baptist Church in Clarendon at the eleven o'clock hour Sunday June 14th, and in Memphis at the evening hour. Plans are being made for an afternoon meeting in Clarendon at 2:00 o'clock, that B. Y. P. U. leaders may have an opportunity for a conference with Mr. Gardner. This Association is indeed fortunate to have Mr. Gardner, even for so short a time.

SWAY OF SKYSCRAPERS IS PROBLEM FOR ARCHITECTS

In planning and erecting modern skyscrapers, architects and engineers have amassed startling new facts and have observed mysteries as well. One of the great mysteries concerns the effect of wind on high buildings, writes Don Glassman in Popular Mechanics Magazine. It must be plain to everybody that if wind can drive a ship and uproot a tree it also exerts tremendous force against a building. The Higher the building, the more wind-bracing necessary. Now the amount of steel needed to brace a skyscraper against the wind mounts, as in the case of the Empire State building, world's tallest skyscraper, two hundred of tons. The actual resistance are calculated on paper, since no experimental method has yet been devised of measuring the wind's force against a skyscraper.

So far, the sway of a building in the wind has been measured accurately in very few cases. The forty-eight-story tower in the American Insurance Union building, in Columbus, Ohio, was found to sway one-half an inch in a thirty-eight-mile, wind. Another skyscraper leaned backward, that is in the direction from which the wind blew, and the only way engineers could explain this mystery was by blaming the sun, which caused one side of the building to expand more than the opposite side.

H. G. Balcom, a consulting engineer, who has designed towers for America's highest skyscrapers, says that the Empire State is built to withstand a total wind pressure of 4,340,000 pounds on the north side, of which 318,000 represent the pressure against the mooring mast alone. The design provides for a safety factor which probably doubles the strength of the building, so that this colossal skyscraper could remain immobile in the face of a 100-mile gale, practically as rigid as a mountain. Indeed, if forty high-powered locomotives were chained to the Empire State and made to pull with all their strength, they could not budge the building more than an inch. Mr. Balcom explains that this 1,250-foot giant presented no complications in the matter of bracing, because it is not extremely high in comparison with the area of its site.

In planning narrow and high skyscrapers, the problems of wind-bracing bring nightmares to engineers. In some instances, fifteen per cent more steel is required because the tower is very high in comparison with the area of the foundation.

On a one-half-mile building there would be a much broader sway than on present buildings. But since structural steel is elastic, the leaning tower would swing back to its place.

No man ever saw a skyscraper move. But one may see evidences that it moves. To wit, if water is placed in a tank, ripples may form. Lighting fixtures of a certain length will swing; the fixtures moves if its period of oscillation is in exact time with the building's swing, but if you lengthen or shorten the suspension the fixture will cease to swing.

GOVERNOR'S LADY SPURS BUSINESS

Interest in the Wear Cotton Movement which started in the South is now spreading rapidly across the length and breadth of the country. Minneapolis is planning a huge cotton festival at which Mrs. Ibra C. Blackwood, wife of the Governor of South Carolina, will be an honor guest from the South. Mrs. Blackwood wears at gala cotton festivals a striking gown of durable cotton lace representing two major divisions of the cotton industry—combed cotton and quality mercerization.

SILENT OFFICE-SIGNAL SYSTEM LIKE DIAL TELEPHONE

Operated somewhat like a dial telephone, a silent office-signal system to summon executives to the telephone or to receive messages is being employed in Germany, says Popular Mechanics Magazine, depends on visual signals rather than on the constant ringing of bells or other audible calling devices. Indicators for the electric system are in the form of dials like clock faces, except that they contain twenty-five numbers and only one pointer. These indicators are scattered about the building, and when an official is to be summoned, a dial transmitter sets pointers of all the indicators to the number assigned him. Only one audible alarm is necessary, which calls attention to the dial, and if the person wanted answers immediately there is no further audible signal. If he fails to answer, the audible signal is repeated at intervals.

STARS WRITE OWN RECORD OF EVENTS FOR SCIENCE

Making the stars write their own records of events interesting to astronomers, is the recent accomplishment of the director of an observatory in China. The feat is brought about by a new application of the photo-electric cell, or electric eye, says Popular Mechanics Magazine, and involves the construction of an apparatus of extreme delicacy and sensitivity. To measure, for instance, and record the minute amount of light reaching the earth from a star, the rays are reflected by a mirror and focused through a condensing lens upon the electric eye, setting up a weak current that is amplified through the vacuum tubes until it can operate an electromagnetic relay. This causes a stylus connected to it to wire an irregular line on a revolving drum which represents the variations in light received, while sensitive millimeters record current strength. Synchronously an astronomical pendulum clock writes a time curve on the same drum. Other applications are the automatic recording of the meridian passage of any star saving astronomers tedious night vigils, and the study of blinking stars.

ELECTRIC EYES SEE FOR BLIND BY GIVING DIRECTION

Electric eyes now are used to "see" for blind persons in guiding them about their homes by giving them a sense of direction as they move about. The electric eye, or photo-electric cell, is made up like a flashlight with a small buzzer connected to its battery, according to Popular Mechanics Magazine. Convenient electric lights are then placed about passages and hall ways, particularly at the turning places. When the electric eye about much as a person having his sight would direct a flashlight. When the device points to a light source the contact is made and the buzzer sounds. As long as the buzzer is sounding the blind user knows he is on the right path.

FUEL WITHOUT SMOKE OR DIRT COMES IN PACKAGES

Fuel for open fireplaces that is without dirt, smoke or odor, although it gives out more heat and lasts longer than ordinary fuels used for this purpose, is being offered on the Pacific coast. It is a specially treated coke in pieces about the size of an egg and comes in a neat carton weighing seventy-five pounds. Each carton, says Popular Mechanics Magazine, contains six packages of fuel and the kindling necessary to start it. A package is placed in the fireplace, and a match applied to a circle indicating the position of the kindling. The container makes it easy to handle the fuel, and one bundle burns from four to six hours.

GAS DETECTOR FOR AIR-PLANES SHOWS POISON GAS

Navy aircraft pilots are to be protected from the danger of carbon-monoxide-gas poisoning by an automatic recording instrument, extremely sensitive to this form of gas, in cockpits and cabins. The instrument is to be installed in the big navy dirigible "Akron," to check the operation of the heating system and to warn against leaking exhaust fumes in the engine room, according to Popular Mechanics Magazine. A chemical mixture of manganese oxide and copper oxide called hopcalite, actuates the apparatus by serving as a catalytic agent to accelerate the chemical reaction which changes carbon monoxide into carbon dioxide. The recorder involves an application of principles employed in gas indicators installed in the Holland tunnel but, since it is light and portable, it can be employed also in industrial plants, boats or other places where the atmosphere may be contaminated.

MUSIC OF BELLS IS PRODUCED BY ELECTRICAL CARILLON

Tones louder than can be made by the largest bells, or notes as soft as the tinkling of the chimes in a boudoir clock, can be produced on an electrical carillon which, through electric vibrations, produces bell music in a much wider range than is possible with real bells. The carillon consists of a series of small chimes which are struck by tiny electric hammers actuated by a keyboard, explains Popular Mechanics Magazine. The notes thus made are barely audible but the vibrations of the steel chimes create small electric currents in devices somewhat like the pick-up on an electrical phonograph. These currents are amplified by vacuum tubes through a loud speaker.

Mrs. L. L. Swan is steadily and favorably progressing after her recent operation resulting from injuries sustained by a fall, to her knee and wishes to express her appreciation and heart-felt gratitude for the kind attentions and care during her illness by everybody.

C. L. Polk and daughter, Miss Lucille, left this morning for a vacation trip that will carry them to Roanoke, Throne, Kossie, San Antonio, Brownfield, Carlsbad, New Mexico and then back to Clarendon. Mr. Polk stated that they expected to be out of the city the remainder of this month and all of July, returning to their home here about August first.

Mrs. and Mrs. H. L. Brady and sons spent the last Sunday in Canadian visiting friends.

Mr. and Mrs. G. G. Kemp and daughter, Miss Elizabeth, spent the past Sunday in Chillicothe.

G. G. Kemp attended to business matters in Hedley Monday of this week.

Mr. and Mrs. B. L. Jenkins and son of Amarillo spent Sunday in Clarendon visiting with relatives and friends.

Kenneth Kerbow left Monday morning for Pampa where he has accepted a position with a pressure cooker concern.

Miss Josephine Murphy left Sunday for Jacksboro, where she will visit for a time in the home of her aunt.

Mr. and Mrs. Bright-Tucker of Amarillo were visitors in the home of Mr. and Mrs. Tucker Sunday.

Messrs C. C. Powell and J. R. Porter were business visitors in Amarillo and Pampa on Tuesday of this week.

Misses Eula and Mary Naylor will leave tomorrow for Lubbock where they will make their home in the future.

Mrs. John C. Kay of Wichita Falls spent Saturday to Tuesday in the home of Mrs. Eula Cox.

Miss Jessie Ingram who has been teaching in the Amarillo schools is home for the summer.

Mrs. B. B. Hudgins and daughters were in Clarendon a few days this week. They will leave soon to spend the summer in California.

Quite a number of the ladies from the Methodist Missionary Society attended an all-day meeting at Claude Tuesday.

O. W. Latson who has contracted a number of filling stations in Amarillo spent the week end with home folks.

Rev. W. M. Murrell left Tuesday for Abilene where he will meet the bishop and presiding elder of this Conference.

Mrs. John Bass and Children spent the week end in Lubbock with Mrs. Ross Anthony, a sister of Mrs. Bass.

Elbert Bowen, who has been a student in McMurry College, arrived Saturday to spend the summer with home folks.

SUGAR Pure Cane, 25 Pound Bag \$1.35

Messrs George Tucker and Rufus White returned to Shamrock Monday after spending the week-end here with friends and relatives.

Mrs. J. C. Kay of Wichita Falls visited old friends here over the week end. Mrs. Kay will be remembered as Mrs. Timmons who taught music in Clarendon a number of years.

Miss Eunice Griggs left Tuesday for Canyon, where she is planning to attend school for the summer session.

Miss Hazel Hurn returned to her home here the latter part of last week from Post, Texas, where she has taught the past year.

Miss Coye Latson, a teacher in the schools of Post, Texas, returned to her home the latter part of last week for the holidays.

Rev. W. M. Murrell left Tuesday for Abilene, where he will be for the remainder of this week attending to business matters.

Mrs. W. K. Kyser of Hedley, is in the Adair Hospital, where she underwent an operation Tuesday. Mr. Kyser, who is here with her, was in the News office Wednesday and reports that she is doing nicely as could be expected.

Mrs. W. F. Dubbs returned to her home here last Thursday from a two weeks visit in Amarillo with friends and relatives.

Marriage license was issued to Raymond Slater and Miss Virgie Wallace, both of the Goldston community on Friday of the past week.

Mrs. W. J. Eddleman of San Diego, California, Miss Sallie King of Albany, Texas, Mrs. H. L. Wilder and Henry, and Ethel Wilder returned to Pampa Tuesday after a visit here in the home of Mr. and Mrs. Loyd Stallings. They were accompanied to their home by Mrs. Stallings and three boys.

Miss Hazel Hurn returned to her home here the latter part of last week from Post, Texas, where she has taught the past year.

Miss Coye Latson, a teacher in the schools of Post, Texas, returned to her home the latter part of last week for the holidays.

Rev. W. M. Murrell left Tuesday for Abilene, where he will be for the remainder of this week attending to business matters.

Mrs. W. K. Kyser of Hedley, is in the Adair Hospital, where she underwent an operation Tuesday. Mr. Kyser, who is here with her, was in the News office Wednesday and reports that she is doing nicely as could be expected.

Mrs. W. J. Eddleman of San Diego, California, Miss Sallie King of Albany, Texas, Mrs. H. L. Wilder and Henry, and Ethel Wilder returned to Pampa Tuesday after a visit here in the home of Mr. and Mrs. Loyd Stallings. They were accompanied to their home by Mrs. Stallings and three boys.
