A WAR FOLLY STILL UNCORRECTED

Of all the war follies of the Wilson administration, the surrender to the rail labor element in the matter of wages, has probably vexed the country and cost the people more money than any other. The reason is that when all other wages and income has been on a decline for the past several years there has been no readjustment of the wage scale of rail workers and the whole people have been forced to pay higher freights than economic conditions justified. For the past several weeks the rail and labor executives

have been in conference looking to a pitiful ten percent re-duction in wages, and so far the labor leaders have stoutly resisted any such decline.

This is one of the greatest difficulties in the return of better business and the country will certainly suffer if public opinion doesn't force the rail workers to the same basis of other folks, labor and capital alike.

Such a folly has been a burden on the backs of the nation too long.

TEXAS HONORED BY JESSE JONES APPOINTMENT

「東」「「夏」」

When President Hoover named Jesse Jones of Houston as a member of the directorate for the Reconstruction Finance Corporation, he not only pail tribute to an able man and leading Democrat of the Southwest but he honored. Texas, as well.

Jesse Jones has the confidence of the people of this section, and his official connection with the work of the new relief corporation will bring that organization the confidence which will make its success easier. Headed by General Dawes and manned by three leading Republicans and three Democrats such as Jones of Texas and Harvey Couch of Arkansas, the nation will recognize at once the fact that the corporation is really a business concern, and one in which "politics" will have little weight—something entirely desired and necessary if we are to get the results for which the body has been formed.

Except for those pessimistic souls who refuse to see any hope for the business recovery of the nation, and those who would rather suffer and die than recognize any leadership to recovery through a Republican administration, the nation as a whole expect much from the finance corpor-ation, and its prompt creation by congress has already brought confidence and improved business outlook.

Texas has been honored, and the nation will be well served by Jesse Jones.

CONVENIENCE an Important Electric Refrigerator Advantage

ACCEPTED as a necessity from the standpoints of economical, dependable and health-guarding refrigeration, the modern Electric Refrigerator is essential for yet another important reason-convenience.

With this indispensable Electrical Servant in your home, you'll enjoy the constant

abundance of clean, pure, sparkling ice cubes . . . you'll appreciate the absence of worry and the immaculate cleanliness of Electric Refrigeration . . . you'll prize the ability to leave your home at an instant's notice-and be gone for days at a time-without danger of foods spoiling or your perfect refrigeration being disturbed for a moment.

Further advantages, too many to be enumerated, will be yours once you've installed a modern Electric Refrigerator in your home! Telephone or drop in at the Merchandise Showroom for a complete demonstration.

With all these important advantages, can you imagine a finer servant than a modern Electric Refrigerator? Let us explain the Convenient Payment Plan which enables you to install yours now-with the subsequent payments following in small monthly installments.

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule ... and adds only a small amount to your total bill?

It may not be generally known that General Robert E. Lee, the 125th anniversary of whose birth will be celebrated on January with 19, was technically a prisoner of war at the time of his death in 1870, but such is the case, according to a writer in the Pathfinder. was After Lee's surrender to Grant at Appomattox on April 9, 1865, he was released on parole. President Johnson's amnesty proclamation issued the following month did not include Confederate officers above the rank of colonel, or any who had been educated at West Point or who had resigned from the United States army to join the Confederacy, so Lee was ineligible for amnesty on all three counts.

I should say yes. If all the students in this school were inand in setting forth academic activities before the public, our page in The Clarendon News student enterprises. If we, as students, want our school to be successful in every line, an excellent way to gain this success is by publishing an account of

incidentally, was 8 o'clock, to the finish was a hilarious success. The garbs and adornments which bedecked those who were daring enough to dress for the occasion were most funny Screams of laughter from the girls and deep guffaws from the boys greeted every new comer. The games that were played by the group were of the kind which is not so often enjoyed in the younger set in these days. "Winkum", "Clap-in-Clap Out", "Airplane", and other games were played throughout the evening. The girls sold a big joke on the boys when instead of receiving promised kiss, they all got their eyes full of flour. This called forth a game of trickery for the boys to play on the girls. Then came the judgement of the tackiest person there. Helen Lawler was given the unanimous decision for the girls and Billy Thomas was judged the tackiest boy. Miss Lawler was presented a squeaky rubber doll and Billy Thomas got a very useful toy
