## Crop Review In Donley Is Encouraging

### Stores Close Here For Funeral of Early Day Educator

#### DONLEY CROPS IN SPLENDID SHAPE

#### PROSPECTS POINT TO SPLENDID PRODUCTION IN ALL SECTIONS

Donley County crops were never in a better condition than they are at the present time. This is the consensus of opinion from many who have visited the News office this week. With the exception of one or two communities, namely Goldston and Martin, the entire county is showing better crops than has been their good fortune for the past several years.

The harvesting of wheat has closed in this county, with the yield having been heavier and better quality than has ever been the case before this time. Some smut was encountered, but not enough to be of serious detriment to any section of the county.

Row crops, especially the later feed and corn are looking toward the production of a bumper crop in both these items. A part of the early feed in the communities named above is suffering a little, but would recover with a good rain in the next few days.

The acreage planted to cantaloupes and watermelons has shown a big increase, with both these items coming on the market slowly. Naturally the watermelon crop is a little late, they never coming on the market until late July and early August. Other garden produce is in fair condition although some garden spots have been burned.

There has been little increase noted in this county in the acreage planted to poultry, hogs and cows. Not all of the farms have these items although very few are without one of the three. Many have all three and are living at home in comfort without having to borrow money to buy the flour and feed needed.

The cotton situation in Donley County was probably in no better shape since cotton has been planted here. The crop is far advanced for the season, probably more than in previous years. It is of a more uniform size than has been seen for years and in many places the owners of the crop are already predicting a bale to the acre and more. The yield per acre is promising to be more in this county this season than has ever been the case before this time.

Another thing that looks good for the county for this winter is the fact that many of the farmers are canning their surplus garden produce and are putting it away against the time when fresh fruits and vegetables will not be had in abundance. This work, coupled with the work of the canning seen in the early spring points the way to a further program of living at home and indicates that little assistance will be needed in the rural sections of this county this year.

As a whole, the crop for Donley County was never better and it appears that better times are ahead.

Jack L. Wood, formerly of the Quannah Hotel, and late of other hostilities in that immediate section of the state, arrived in the city the latter part of last week to accept a position with the Antro Hotel. He is to take the place vacated by Jim Clayton, who is returning to his home in Tulsa.

#### Wellington Walloped In Sunday Golf Fete

With thirty-two of the members of the Hillcroft Golf Club in attendance on the meet at Wellington this past Sunday, the Wellington golfers had little opportunity to keep their laurels at home. No record was kept of the matches played, but everyone interested in the match has agreed that Wellington lost by a large majority. So many of the local players were in attendance that many of them paired off to represent Wellington and played among themselves that they might have a match.

Mr. and Mrs. G. G. Kemp and daughter, Miss Elizabeth and Miss Carroll Holder left Tuesday morning for a week's vacation trip to Denver, Colorado and other points of interest in that section.

#### AFFAIRS OF CITY TOPIC OF MEETING

#### OUTLINE OF CITY'S FINANCES GIVEN AND DISCUSSED TUESDAY EVENING

Probably one of the most interesting meetings ever held by the Retail Credit Men's Association was held Tuesday evening of this week in the Antro Hotel. The attendance was rather light, but this was possibly due to the absence of many and to the hot weather encountered in the summer months.

The meeting was opened at the appointed time with Vice President Ralph Andis presiding in the absence of T. D. Nored. A. L. Chase was the principal speaker of the evening, giving a short review of the business condition of the city of Clarendon as of the date of the annual audit, April first. Some very interesting lights were thrown on the affairs of the city, particularly in regard to the bonded indebtedness and to the income for the past few years. Comparison was made of the income for the past six years with the prospective income for this year, which is not so bright when compared with the returns as received from the taxes of 1930.

The figures and facts as given are to be found in the audit of the books made as of April 1st 1931 and are on file in the office of the City Secretary for inspection by all those who care to see them.

Many questions were asked concerning the affairs of the city and all of them were answered to the satisfaction of those present.

Some discussion was had on a means for attracting a large attendance at further meetings but nothing definite was reached as a decision. Secretary Powell stated that some outside speakers were promised but that they would probably not be called until late in the year.

#### LOCAL SCOUTS MAY ATTEND 1931 CAMP

#### REGISTERED SCOUTS HERE INVITED TO ATTEND ANNUAL CAMP IN N. M.

Through the courtesy of the Adobe Walls Council, members of former Scout Troops in Clarendon may attend the annual Camp to be held in the Cimarron Canyon near Eagle Nest Dam in Northern New Mexico, August 7th to 27th.

Every effort is being put forth by the Adobe Walls Scout Executive C. A. Clark of Panhandle to get Clarendon lined up for regular supervision in the Adobe Walls Council.

Under the terms arranged by the Camp committee, \$1.00 is to be paid immediately by those registering, and the balance of \$9.00 is to be paid the scoutmaster by August 7th. This will include all meals, but transportation must be arranged by each town.

Details of this splendid offer of one of the most interesting camps ever arranged for Panhandle scouts can be secured from Dennis Davis, at the City Gas Co.

#### SHERWOOD SPOTTS, WELL KNOWN EDITOR IS DEAD

Sherwood Spotts, former president of the Texas Press Association, publisher of the Bonham Favorite for many years, and recent years associated with Sam P. Harben in the publication of periodicals at Richardson, Texas, died Tuesday noon at Bonham, after an illness of several months.

The News editor received a wire shortly after the passing of Mr. Spotts, from Sam P. Harben, apprising him of the loss of this great and good man, and it was with much regret that he could not attend the funeral held Wednesday in Bonham. Mr. Spotts bought the interest of the News editor in the Harben-Braswell Co., some five years ago, the concern being known as the Harben-Spotts Co. during this period.

Mr. Spotts was high in the councils of his church, in fraternal circles and was always an active civic worker. He is survived by his widow, and a son, Ovid, who is also with the Harben-Spotts Co.

#### Girls Well Heard In Saturday Event

According to the many persons who were listening in on the program of the Kieuwa troop of the Clarendon Camp Fire Girls given last Saturday over station KGRS at Amarillo, it was one of the best that has ever been given. A large number of the girls made the trip with Mrs. Odos Caraway, Miss Mary Howren and Miss Lorena Steagall and one of the best trips seen for a long time was had.

The following program was given:

Camp Fire Cheer Song, membership of the troop.

Law of the Camp Fire, Unison. Peggy Gorman, mascot of the troop greeted the audience for the troop.

Camp Fire Girls' Credo, Peggy Word.

Piano solo, "Whirlwind", Mary Frances Caraway.

Ideals of Camp Fire, LaVerne McMurtry.

Camp Fire Walking Song, Nilsen.

Violin Solo, Virginia Cluck.

Brief History of Camp Fire and of Clarendon Camp Fire, Rosalyn Bass.

Star of the East, Trio, Eugenia Noland, Mary Travis Dyer and Lavene McMurtry. Rosalyn Bass at the piano.

Mammy Moon, Ensemble.

Now Our Camp Fire Fadeth, Unison.

Camp Fire Benediction.

For most of the selections Miss Mary Frances Caraway was pianist. Miss Lorena Steagall was announcer for the troop.

#### CONTRACT IS LET ON HOSPITAL WORK

#### CONSTRUCTION OF NEW ADDITION TO BE STARTED IMMEDIATELY

After some months of delay during which the details of a four-room addition, major changes in the interior and other matters of importance to the Adair Hospital have been threshed out, the contract has finally been closed and construction is to be started immediately on the proposed changes.

Probably the first item to be considered in connection with this project is the signing of a contract between the county and the old board of the Adair Hospital for a period of twenty years. A nominal rate of rental is to be paid by the county for the use of the hospital.

Immediately following this and as important to the staff of the hospital and to those of the county who may have need of the place is the announcement of the erection of a four-room addition to care for those coming to this place for attention. During the past winter the need for such an addition arose a number of times, there being many times when the present rooms were inadequate to care for the sick ones who applied for admission.

In addition to this new wing, the entire building is to receive a brick veneer finish and a new roof. The roof is to be replaced with another and the entire building is to be made as good as new. A new boiler is to be added to care for the needs of the new wing and other matters will be attended to bring the building to meet any demands that may be placed upon it.

Contracts for the work was closed Saturday, with all the details being ironed out to the satisfaction of everyone concerned.

John M. Bass is to be contractor and work is to start at once to insure completion before the rush of business opens in the Fall months. The contract calls for the expenditure of more than \$8,000.00.

Mrs. Jack Rodgers and baby son who have been visiting her parents, Rev. and Mrs. Bowen, returned to Happy Sunday.

Local circles and was always an active civic worker. He is survived by his widow, and a son, Ovid, who is also with the Harben-Spotts Co.

#### BAPTIST REVIVAL DOING FINE WORK

#### DR. KELLAM PLEASING GROWING AUDIENCES AS MEETING NEARS END

With the final week of the Baptist Revival rapidly drawing to a close, the services are growing in power and inspiration as they come to the climax of the two weeks' work. The sermons of the visiting minister are taking on new life and are telling by their power and by the evident inspiration he puts into them. Crowds at all of the services, whether they be for the young, middle-aged or for the more advanced ages, are growing and the interest is calculated to be at its highest peak when the services close at the evening hour on this coming Sunday.

One special service that has been announced is reputed to be the best that Rev. Kellam has yet delivered. This service is to be held at the usual hour on Friday evening and is addressed to the young folk of the community. The sermon is by name, "Spark-plugs" and is intended to be of assistance to the younger people in the selection of their life's work. Numbers of young people in other parts of the state have heard this message and a great many of them have stated that it proved to be of a great deal of benefit to them. A special invitation is extended all the young people of the city to attend this evening service and hear the message.

Prayer meetings for all ages and groups are held each evening at 8:00 p. m. and a hearty invitation is extended to everyone to attend and assist in making these meetings a success. Approximately 100 have been in attendance on the past few nights with the number growing as the week draws to a close. The morning services are held each day or one hour between 10:00 and 11:00 a. m.

As scheduled, the services will close with the evening service of the coming Sunday. A cordial invitation is extended all the people of the community to attend and assist in making this a great series of revival services.

#### VERDICT OF SUICIDE PASSED ON GILES MAN

J. B. Stotts of Hedley, aged between 35 and 40 was found dead this morning with a wound from a 410 shotgun through his left side. Death was evidently instantaneous. Powder burns were found on his clothes and on his body, indicating that the gun was fired at close range. Inquest held by Justice of the Peace L. A. Stroud returned a verdict of death from gunshot wound, self inflicted.

No reason has been assigned to the death although the man has been in ill health for some time. During the war he was heavily gassed and has shown some symptoms of shell shock in recent months. He is survived by his wife and a four-year old son.

The body was taken to Memphis for burial and the interment will probably be had Friday.

He evidently arose about daylight and made coffee. His wife, stated that she was awakened at the time but that she dozed again to be awakened by the sound of the shot. The body was found near the porch where they had been sleeping, tracks about the yard showing that he had visited a number of places before the fatal shot was fired.

#### LOCAL DEALER IN MEET IN AMARILLO FRIDAY

The Glazendon Motor Company was well represented last Friday evening in the meeting of the Chevrolet dealers in Amarillo. G. G. Kemp, as manager of the local plant was at the head of the local group and was accompanied by Bob Carr, J. D. Mitchell, Ernest Kent and Misses Herloise Burrell and Betty Walker. Eugene Letts also accompanied the group to Amarillo but did not attend any of the sessions of the group.

E. T. Pope left Saturday evening for a week's fishing and vacation trip in Colorado. He was joined at Dalhart by Ted Hanna, who will make the trip with him.

#### Return From Lions Meeting At Toronto

G. L. Boykin and Sam M. Braswell returned here Sunday evening from Toronto, Canada, where they attended the annual convention of the International Association of Lions Clubs for four days of the week.

The trip was made on a special Texas train bearing the Lone Star Lions, going via Kansas City, Chicago, Detroit and returning via Detroit St. Louis and Dallas.

The Texas delegation staged a "Texas Night" program on the first evening of the convention which was considered the best delegation show of the meeting, attended by near three thousand Lions and ladies. Souvenirs and Texas fruits and nuts were distributed to the assemblage, who went away with a new idea of Texas and her products.

Los Angeles, California, won the 1932 convention, and with Julien C. Hyer of Fort Worth the Texas International president, Texas intends to put on an even more comprehensive entertainment next year.

The local boys report good crops all the way going and coming, with local conditions as good and better than in most places visited.

Mr. and Mrs. Ben H. Williams of Pampa announce the arrival of a daughter, Ann Willette, on Saturday, July 25th at the Pampa Hospital in Pampa. Mrs. Williams will be remembered as Miss Willette Cole, formerly of this city and at one time a member of the News staff.

#### DOMINO MEET TO BE HERE TONIGHT

#### CHAMPION OF FIRST EVENT TO BE READY TO MEET FIELD

With the present holder of the Cornwallis Domino trophy ready to meet all comers in the tourney here this evening, a large evening's entertainment is promised all those who enter. At the time of the first event some three months ago, the cup was not in the hands of the handlers of this event. It has since been received and will be displayed in a prominent place, where all who play may see it and play all the harder. The winner will have his name engraved on the cup and must win it three times in order to hold it.

The doubles champions are also all set for the match, having been practicing solidly for the past three months against any who cared to play with them or against them. O. D. Leisburg and J. D. McAdams are the two contending champions on the doubles side of the meet.

As before, the entrance charge will be fifty cents, a large part being devoted to refreshments for the party and to some of the smaller prizes necessary to such an event.

The scene of the event will be at the Legion Hall, and the event will be open to anyone who may care to enter or who may care to come in and watch. Tables will be provided in plenty to care for all comers and the games will be carefully watched. As before, any man has a chance to win, even though he lose his first match. Two matches must be registered against him before he is finally defeated.

Miss Rhoda and Helen Wiedman and Miss Mary Shackelford of Austin, Texas, left Sunday afternoon for a two weeks vacation trip in Estes Park, Colorado. They were accompanied by Bill Word, who will drive their car for them.

Mrs. L. M. Cousins formerly teacher in the Clarendon school system, but now of Clarendon, was operated on in an Amarillo hospital Tuesday of this week. She is reported as making satisfactory recovery at this writing.

Mr. and Mrs. Lee Muse and daughter, Miss Coralee, left Tuesday for a two weeks camping trip on the White River in Missouri.

Bobby Batson returned home from the Adair Hospital Monday.

#### RIFLE CLUB OF GREAT INTEREST

#### LADIES OF CITY BECOMING INTERESTED IN PROJECTED MOVE

Since the formation of the Clarendon chapter of the American Rifle Club, the interest has grown almost to fever heat with more of the people of the city becoming interested as the plans are discussed. Some of the ladies of the city are becoming interested in the move and are as welcome to become members as are the men of the city.

As was explained last week, two sizes of rifles are to be secured by the club. One size is to be the .30 caliber Springfield of the latest and most improved model. The other is to be the .22 caliber of the same model and built on the same frame as the larger model. No pistols are furnished, but ammunition for them may be secured at a nominal price through the offices of the club and a place is to be provided with suitable targets for the use of the smaller arms. Each member must furnish his own ammunition.

The cost of becoming a member of the club was not mentioned in the last story on this, and is to be \$7.00 for a charter membership. After the first year, this is to be reduced to some extent and will in all probability be less than half the cost for the first year.

A range is being considered that will give all ranges up to 1,000 yards. This is for use of the heavier rifles. The .22 caliber rifles will be fired on a fifty foot range.

Those interested may find other particulars by seeing W. A. Clark, Jr., who is secretary of the local organization, or Clyde Price who is President.

Mrs. McHenry Lane is in the hospital in Amarillo recovering from an operation.

#### ROTARIANS HEAR VISITING PASTOR

#### KELLAM ADDRESSES LOCAL ROTARIANS ON VOCATIONAL SERVICE PROG.

Rev. J. J. Kellam, special representative of the Buckner's Orphan's Home at Waco, was the principal speaker at the Rotary luncheon held last Friday at the Clarendon Hotel. Rev. Kellam is in the city holding a series of Revival services in the First Baptist Church and was one of the guests at the Rotary meeting.

Other guests aside from Dr. Kellam were Rev. B. N. Shepherd, pastor of the Baptist Church of this city, R. E. Key of Tahoka, a guest of Rev. Shepherd and Rotarian Carl Troop of the Memphis Rotary Club.

Dr. J. W. Evans as chairman of the Vocational Service committee had charge of the program and acted as chairman. The musical program and other features came under the guidance of R. S. Cope and Rotary Ann Rhoda Wiedman.

#### LAST RITES FOR DONLEY PIONEER AT HEDLEY TODAY

The following is an item taken from this morning's issue of the Amarillo Daily News and will be of interest to many of the citizens of Clarendon and Donley County.

HEDLEY, July 22.—H. E. Mace, 67 year old pioneer of Donley County, died of heart failure this afternoon on his farm two miles southwest of here, following an illness of several months.

He is survived by his wife, a twin sister, Mrs. Sally North of Tahoka, and a half brother Bob Mace of Lelia Lake.

Funeral services were held at the First Methodist Church here Thursday afternoon at 2:30 o'clock.

Rev. J. W. Wheeler of Hedley, Rev. L. A. Reavis of Clarendon and Rev. E. D. Landreth of Wheeler, all former pastors of churches that Mr. Mace formerly attended, will officiate.

#### FORMER TEACHER IS BURIED TODAY

#### CLARENDON SCHOOL SUPERINTENDENT FOR QUARTER CENTURY DIES

One of the most respected and beloved instructors ever to be in the schools of Clarendon died in his home in Dallas late Tuesday evening of this week after almost a half century of instructing the young folk of this nation in the schools. Born in Versailles, Missouri in 1858, he was educated in the University of Missouri and returned to teach in the schools of his home town. After five years in California in the Fresno schools he returned to the Panhandle of Texas where the greater part of his teaching was done. He was with the Floydada schools, the schools of Claude, almost twenty-five years with the schools in Clarendon; four years with the schools at Pampa and one year of teaching in Dallas.

For the past several years he has not been in the best of health and his death came after some time of suffering. His body was returned here for burial with two sons who are in the local cemetery.

The record of Professor Silvey as a teacher was one of great success wherever he taught, with practically all of the business men of Clarendon having at one time sat before him to learn the rudiments of education.

Mr. Silvey united with the Methodist Church in 1895 and has been a consistent worker with that organization since. He was also connected with the Masonic order, the Knights of Pythias and the Woodmen.

In 1894 Mr. Silvey was married to Miss Eliza Gwynne of Saint Louis, Missouri. Mrs. Silvey is left to mourn the passing of her husband. To this union five children were born, two of whom are in the Citizens Cemetery. The others are Mrs. P. K. Matthews of Tulsa, Oklahoma; Mrs. J. B. Martin of Amarillo, Texas and J. K. Gwynne Silvey of Ann Arbor, Michigan. Mrs. W. B. Sims, a sister, lives in Clarendon and is the only remaining member of Mr. Silvey's family living.

Funeral services were held today from the First Methodist Church at 3:00 p. m. Rev. J. Sam Barcus of Sulphur Springs conducted the services and was assisted by Rev. E. B. Bowen, pastor of the First Methodist Church; Rev. W. M. Murrell, Presiding Elder of the Clarendon District and Rev. B. N. Shepherd, Pastor of the First Baptist Church.

Active Pallbearers are: W. H. Patrick, J. T. Sims, J. H. Rutherford, Fred Chamberlain, Walter Taylor and J. T. Patman. Honorary Pallbearers are: Dr. G. S. Slover, Stamford, Texas; H. W. Taylor, P. A. Buntin, L. T. Miller, Paul Shelton, W. J. Lewis, C. C. Powell, Clinton Henry, Seldon Bagby and Odos Caraway, all of Clarendon; Dr. J. A. Hill, Canyon; Lee Ledrick, G. C. Walstead, W. T. Hayter, and L. C. McMurtry, all of Pampa; G. C. Ferguson, E. C. Britain, G. C. Davis, W. N. Martin, R. H. Beville and Fancher Upshaw all of Amarillo and Dr. H. R. Greer of Dallas.

At the time of his death, Professor Silvey was 72 years, 6 months, 28 days of age. He was born December 23, 1858 and died July 21, 1931.

#### Girls Cabin Is Nearing Finish

As the News goes to press, we are told that the work has progressed so far on the Mess Hall of the Camp Fire Girls that it is almost ready for its occupancy. The work was started early this week and the men have worked so faithfully on the project that it has far exceeded all expectations of the young ladies and they are more than pleased with the results obtained thus far.

By the time of the annual encampment of the girls, the cabin will be ready for them and will be put to good usages by the young ladies for entertainment purposes and for their meals. It is so arranged that they may use it for a sleeping room if they are caught at camp in a shower of rain.

### DONLEY COUNTY TRUCK IS HELPING

Farmers in Donley County are beginning to load their own tables and market the toothsome truck from their acres, and conditions are looking better in this section.

Raising plenty to eat, and a surplus to sell makes times better any year, and there never was a year when it helps so much as in 1931.

When Donley County farmers are doing that thing, the outlook is certain to get rosier.

### HARMONY AND TEAM WORK NEEDED

Harmony and team work is always desirable, but there never was a time when these two elements were so needed in the County affairs here in Donley.

County commissioners are elected to represent their own precincts in details of purely local interest, but they are also elected to carry on the business of the entire county.

Let us hope we may have more harmony, which goes before teamwork in doing things for the best interests of Donley County as a whole.

### GOOD CROPS ALL OVER THE NATION

Having passed through the central and northern states of the Union last week and noted the splendid crops in Oklahoma, Kansas, Iowa, Illinois, Michigan, Ohio, Indiana, Missouri, Arkansas and Texas, this editor is ready to believe the reports that the nation is on the verge of harvesting one of its most bountiful crops in its history.

Prices are low, and are likely to remain so for many months, but the fact is that people are raising lots of feed and food; they raised it at an unbelievably low cost; they have all returned to economy; therefore conditions are already on the up-grade.

Good crops and common sense will restore confidence and normal conditions to the nation.

### "TEXAS NIGHT" AT TORONTO

Texas delegates to the International Convention of Lions Clubs at Toronto last week staged a "Texas Night" program to an international audience which overflowed the great concert hall of the largest hotel in the Dominion of Canada. The object of the program was to "sell Texas" to the other sections of the nation and Canada, and that the job was well done is attested by the flood of compliments from every delegation present. The program was varied from voice numbers from singers of grand opera reputation to novelty dancing of the vaudeville circuit, and the All-Lions Cowboy Orchestra from San Angelo was the "hit" of the convention. At the conclusion of the program souvenirs and Texas fruits, nuts and candies were distributed to the three thousand attendants before the dancing began.

This putting Texas out in front by Texas Lions was backed in a financial way by the West Texas Chamber of Commerce and the East Texas Chamber of Commerce, and is another proof of the team work existing in our state now in promoting and advertising Texas.

The world eagerly hears the message of Texas and Texas Lions did a good job of putting it across at Toronto. They will do it again at Los Angeles in 1932.

### LIVE BY LIQUOR, DIE BY LIQUOR

Some four years ago a district judge in East Texas killed a man in Walker county because their automobiles had wrecked, and the judge, being drunk, picked a row and finally killed the driver of the other car. He was tried at Brenham and went free, but at the next election the great court of the American people retired him from office. A drunk man has more luck than a sober man any time.

Monday of this week, this same ex-judge was killed in his own home by his wife. Her version of the occurrence is that the man had been drinking heavily and had become unbearable when drunk. He had threatened her life. She took his pistol and hid it under a sofa pillow. He came downstairs in a rage, finally spied the handle of the pistol and made a dash for it. She also rushed for the pistol and beat him to it. He then drew another pistol from his clothes and she snapped the one pistol. He then rushed her and she pulled the trigger the second time, and shot him in the eye. As he fell to the floor he grabbed at her and in the excitement, another shot was fired which tore through his right side, and he rolled over dead. It was not stated which pistol fired the second shot.

The newspaper account states that he had threatened the life of three sons and also some of his neighbors in Madisonville. Surely a drunk man has luck. Had he been a sober man and made such threats he would have been reached by the law. Anyway, he lived by drink and died by drink. Interment took place at Bedias Monday. The widow did not attend the funeral.—Giddings News.

### SHORT COURSE PROGRAM IS WELL FILLED EVENT

The following is a partial explanation of the Short Course program to be presented at College Station this year from July 27 through August first. Detailed programs too are of interest to all who plan to attend may be had from the County Agent or from the County Home Demonstration Agent. There is something of interest to all ages and groups who plan to attend this year's program at the Short Course.

**Mornings At The Short Course**  
Barns, shops, laboratories and offices of all departments of the College will be open to inspection by visitors every morning from 8 A. M. to 9:30 A. M. Every morning from 9:45 until noon will be held general programs of interest to all men, and for certain ones indicated later, women are scheduled to attend also. These general programs will be held Monday morning in the Assembly Hall, and every morning thereafter in Guion Hall. A variety of subjects of wide appeal are scheduled for discussion by prominent State and National speakers.

**Monday**  
The welcoming address will be delivered by Judge Byrd White of Dallas, a member of the Board of Directors of the College. He will be followed by Director O. B. Martin of the Extension Service speaking on "The 6-S Plan"; by Congressman J. P. Buchanan of Brenham in an address on "Agriculture"; and by a ceremony honoring the five Master Farm Home Makers of Texas as selected for 1931 by the Extension Service in co-operation with "The Farmer's Wife," national farm paper published in St. Paul, Miss. Orin Johnson of that journal will make the presentations.

**Tuesday**  
In his first of two Short Course addresses, Honorable A. F. Lever of Columbia S. C., author of the Smith-Lever Act authorizing extension work, and at present a representative of the Federal Farm Board, will discuss "The Farm Board and its Works." J. B. Thomas, vice president of the Texas Electric Service Company of Fort Worth, will explain "Linking the Farm and the Power House"; and Walter Page, general manager of the manufacturing department of the Borden Company, New York, will speak on "Marketing Dairy Products."

**Wednesday**  
"Game As An Auxiliary Farm and Ranch Crop" is up for discussion by William J. Tucker of Austin, executive secretary of the Texas Game, Fish and Oyster Commission, followed by an address on "Serving Texas Farmers" by J. E. McDonald, State Commissioner of Agriculture, and second of the series by Honorable A. F. Lever, this time presenting "The Legislative History of Agricultural Education."

**Thursday**  
Director A. B. Conner of the Texas Agricultural Experiment Station talks first on "Recent Progress in Research"; Col. C. S. E. Holland of Houston, president of the First Texas Joint Stock Land Bank on "Bankers and Farmer in Team Work," and Louis J. Taber, Master of the National Grange, Columbus, Ohio, on "Agriculture's New Day."

**Friday**  
Louis J. Taber will give his second and final address Friday morning on the subject "Organ-

ization and Progress"; Professor W. L. Stangel, head of the animal husbandry department of Texas Technological College at Lubbock follows with a discussion of "Livestock Trends in Texas"; and the morning programs are concluded with a talk on "Marketing Our Great Crop Co-operatively" by E. F. Creekmore of New Orleans, vice president and general manager of the American Co-operative Cotton Association.

**Afternoons At The Short Course**  
Subject matter meetings and various conferences will occupy the afternoons of all Short Course visitors on schedules given herein.

**Nights At The Short Course**  
Home talent entertainment features of a county fair will be staged Monday, Tuesday, Wednesday and Thursday nights on the College drill field which will be improvised with lights, booths and arenas into a fair ground. Wholesome carnivals operated by club boys and others, homely farm contests and community play will form the chief parts of the optional program. Motion pictures will be given in the Assembly Hall as usual with boys and girls attending at 7:15 p. m. and others later, as they desire.

On Friday night United States Senator Morris Sheppard and Governor Ross Sterling have been invited to make addresses preparatory to the announcement of winners in the various State contests held during the week.

**Boys And Girls**  
Boys and girls will meet jointly every morning in Guion Hall for an inspirational meeting from 8:40 to 9:00 o'clock.

Every night in the Assembly Hall a motion picture show will be staged for boys and girls at 7:15 lasting until 8:30.

Girls will be divided into five groups each in charge of a chairman for the regular educational programs occupying every morning and afternoon, details of which are given in the home-makers' program later in the bulletin.

Boys will be divided into four similar groups, each getting the same program at a different time throughout the week, announcement of which is made in the Farmers' Program later in this bulletin.

### NEW ENTERTAINMENT FOR SHORT COURSE VISITORS

College Station, Texas, July—A new and novel feature planned for the twenty-second annual Farmers Short Course at the Texas A. & M. College July 27—Aug. 1st will be the nightly entertainment program on the college drill field. This program will be much the nature of a county fair entertainment program of days of the past, including such homely sports as a ducking stool event, barnyard contests such as hen killing and picking, harnessing work teams, guessing at the production of dairy cows, climbing the greased pole, old time community play and the like. In addition the customary free motion picture show will be given every night.

The short course visitors themselves will participate in the entertainment features, every event to be staged by home talent and to be of a nature that can be duplicated at any county or community fair.

"This should prove wholesome and inexpensive fun for all and serve as a demonstration in how

country people can get more enjoyment out of their fairs by entertaining themselves than by resorting to professional entertainers," said Director O. B. Martin of the Extension Service in commenting on the entertainment feature plan.

A large variety of talks and demonstrations, touching virtually every phase of farm and home activities, will make up the programs during the daylight hours. Special programs have been arranged for boys and girls in addition to the farm and ranch and homemaking programs for adults. A number of special conferences are scheduled.

Sewing buttons on his skin and calling it an eruption has put a French soldier named Didelet in jail.

While sleeping in a cell with several other prisoners, Charles Horn of Chicago, accused of picking pockets, was robbed of \$110 he had hidden in his shoe.

## A Veritable Treasure-Chest of Delightful Summer Delicacies

THE entertainment season reaches its height during the warm summer months, when the very thought of sparkling ice cubes, frozen desserts and crisp salads is like a breath of cool breeze. . . And to be an entirely successful hostess, you must be prepared to serve these dainty and delicious summer refreshments.

Modern home-managers have found, in the Electric Refrigerator, a simple solution to this ever-present problem. They merely keep a supply of sandwich materials and a tray of frozen dessert or salad always on hand, and—thus prepared for any emergency—regard unexpected guests as a genuine pleasure.

A trained salesman will be happy to arrange a complete demonstration for you. He will explain the unusual economy of Electric Refrigeration and the many advantages of Safety, Convenience and Comfort that a new Frigidaire will bring to your home. A Convenient Term Payment Plan enables you to enjoy these advantages immediately. Call for a representative, today!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

Mrs. Edgar Palmer and Mrs. Doss Palmer were callers in the Hugh Riley home Sunday afternoon.

BUILDING PERMITS SHOW LOSS FIRST HALF OF 1931

AUSTIN, Texas, July—Building permits granted in 35 Texas cities during the first six months of the year totaled \$27,809,000, compared to \$33,307,000 during the first half of 1930, according to the Bureau of Business Research at The University of Texas. Only seven cities of the 35 showed an increase, but these increases were large in most cases. Amarillo per-

mits increased from \$1,287,000 to \$1,598,000; Dallas, from \$3,426,000 to \$4,608,000; Galveston, from \$760,000 to \$1,658,000; Paris, from \$86,000 to \$167,000; Ranger, from \$12,000 to \$16,000; Tyler from \$52,000 to \$1,351,000; and Waco from \$62,000 to \$1,497,000.

The decline of 29 per cent from 1930 was less than the shrinkage of 31 per cent reported

by F. W. Dodge Corporation in the value of new construction throughout the United States," the Bureau's statement said. "The May to June decline in Texas amounted to 27 per cent, compared to the three-year average decrease of 23 per cent during this period. Permits in May amounted to \$5,386,000, compared to \$3,956,000 in June."

Picnic Outing At Morris Ranch

With the picturesque Morris Ranch as a setting and Mr. and Mrs. Wiley Morris and daughter Eleanor showing what hospitality is like, a group from Clarendon spent an enjoyable time from Sunday afternoon until Monday morning.

WORK AND PLAY

Farm people work too many hours, according to Dr. Seale Harris, one of the South's most prominent physicians, who declares that an eight-hour day is needed on the farm as well as elsewhere.

He thinks that the farmer gets into the habit of working long hours and consequently does not put forth as effective efforts as he would if he limited his daily period of labor.

While most farmers would resent being told that they work "feebly", there is no doubt that when one knows he is going to stick on the job fifteen hours in a day he will not exert himself as energetically as he would for a shorter period.

THIS DIZZY WORLD

Circling the globe is not, as many people suppose, a strictly modern pastime. Magellan in 1519 did it. True, it took him three years, and he wasn't strewn with confetti by a hero-worshipping populace when he returned, but his feat is circled in history.

aviation, the first high mark was reached in 1924 by United States fliers who made their 'round-the-world trip in 175 days, including stops for leisurely visits.

SPARE THE BIRDS

Although some varieties of birds are considered a great nuisance by farmers and others, it is doubtful that any of these feathered tribes are more destructive than useful.

Birds are the natural enemies of insects and insects are the greatest enemies of mankind. Scientists have declared that without continued research and employment of improved means of combatting insect pests they would overrun the world and destroy all life, including man.

With this ever present menace of insects to combat, we can hardly have too many birds. Not only out of humane sentiment, but as an actual protection to civilization, the birds should be spared.

Collecting marbles is a new hobby proving popular among London society people, according to dealers in antiques.

Mrs. Nora McMurtry returned to her home here last Sunday evening after an absence of some weeks in C. I. A., where she and her daughter, Miss Frances were studying. Miss Frances will remain at Denton for at least three weeks more to complete the work in hand.

Capps and two sons, Kirk and Bud who was at home and cared for his father through his illness.

Grandpa Alley of Giles was visiting a few days last week in the home of Mr. and Mrs. W. O. Hill. Mrs. Hill is his granddaughter.

Mrs. Marvin Capps and son and Miss Hazel McDaniels attended the funeral of U. U. Johnson Wednesday afternoon at the Johnson home.

Western Man Discovers Idol of the East on Pacific Island

Kept Figurine as Relic of War Days; Finds Traces of Origin in Magazine Article

What manner of man in what remote age whittled and carved this little image out of a tropical swamp tree? What navigator, explorer, whaler or trader carried him to far-off Luzon, there to barter him for food or water? Could he have been abducted, come to Luzon at the hands of dark-skinned Spaniard or a pirate whose galleon was wrecked on the jungle coast? This curious figure would then have been left to the mercy of the natives. Perhaps they made him their God, elevated him to the bamboo upright to be worshipped as the symbol of strange men who rode the

seas in great white wings called sails. These thoughts were surging through the mind of Leroy Deardorff, of the Hawthorne Works as he sat at home gazing at the little figurine he found in a Luzon hut back in 1899 when fighting in the Spanish American War, says the Western Electric News. How he came upon this idol of the East, if such it was, is a very interesting story.

A clearing at last! A strip of sky. A sign of habitation but withal a warning of peril. A flood of sun washing a cultivated patch fringed by mangroves, mahoganies of great girth, rattan of jungle palms. Squatted low on a shaded knoll thatched abodes lent suspicion to the pensive silence.

Eighteen months and a day serving his country in arms against Spain, Private Leroy Deardorff had been routing out stealthy, elusive jungle men, the Filipinos of Luzon in the Philippines. A scout on the Davy Crockett order, Private Deardorff was reconnoitering with 34 compatriots when he chanced upon this gap in the thick forest. But the wily Filipinos had flown to the friendliness of the jungle.

The Americans would have preferred some active sign of life to this heavy stillness. The natives were evidently not at home—at least not in view. In a hut on a bamboo upright hung a hollow-eyed figurine of wood. It held and fascinated Deardorff. It stared at him, seeming to say, "Take me away."

Private Deardorff quickly made place for it in his knapsack, counting this rare wooden likeness among

tended the funeral of U. U. Johnson Wednesday afternoon at the Johnson home.

Mr. and Mrs. H. M. Noll were callers in the home of Mr. and Mrs. W. D. McDaniels Wednesday morning.

Prominent negroes have long complained that Amos 'n' Andy slur the black race by the introduction of such shiftless and otherwise objectionable characters into their broadcasts. The Association for the Advancement of Colored People is making a vigorous protest in the hope of removing the "film" of ignominy they feel is being spread over their virtues.

That our organs of sense are unreliable was again proved by a test at College University. Several boys were placed in a closed room and asked to tell the odor of a perfume which was to be sprayed around them. Among the odors presented were jasmine, hellebore, lily of the valley, and others. They were all wrong. What had been sprayed was plain distilled water.

**DALLAS FOOD PRICES DROP 22 PER CENT**

Retail food prices in fifty-one of the leading cities of the United States have shown a decrease of 20 per cent since June 15, 1930, according to statistics compiled by the United States Department of Labor and received Monday morning by Sherwood H. Avery, local representative of the department of commerce.

Dallas retail food prices showed a decrease of 22 per cent from May 15, 1931, to June 15, 1931. The month of June, 1931 as compared with May of the same year, showed a decrease of more than 2 per cent. The bureau's figures, with average prices in 1913 set at 100 as a basis, were 147.9 for June 15, 1930, 121 for May 15, 1931, and 118.3 for June 15, 1931.

During the month of May 15, 1931, to June 15, 1931, thirty-four articles on which monthly prices were secured decreased as follows: Potatoes 14 per cent, plate beef 6 per cent, chuck roast and lard 4 per cent; rib roast, oleomargarine and cheese 3 per cent; sirloin steak, round steak pork chops, sliced bacon, sliced ham, leg of lamb, hens, fresh milk, butter, corn meal, navy beans, cabbage, canned corn, corn flakes, canned peas, prunes and bananas 2 per cent; canned red salmon, bread, corn flakes, macaroni, rice, pork and beans, canned tomatoes, coffee and oranges 1 per cent; wheat cereal and tea, less than one-fifth of 1 per cent.—Dallas Journal.

Walter Champaign was fined for contempt of court when he applauded a Kansas jury for acquitting a bootlegger.

While the thermometer stood at 103, Mrs. Palmer Ice of Fairmont, Ind., and Mrs. C. E. Winters of Buffalo, N. Y., registered at a hotel recently in South Bend, Ind.

Special fuels for high compression automobile engines are unnecessary if spark control is adequate, according to a bulletin of the University of Michigan engineering department. It also says a moderate degree of engine knock means more rather than less power from the fuel used. Who's knocking now?

**50 YEARS OF TEACHING FOR FORMER DONLEY MAN**

WELLINGTON, July 21.—When schools open in Collingsworth County in September, one of this county's teachers will begin his fiftieth year in the teaching profession. This is the record of N. C. Duggins, principal of the Pleasant Hill school, who gained his first teaching experience in 1881 when, at the age of 18, he taught the school of Mount Moriah, Kentucky, and who has continued in this work since that time, remaining out of the school room only one year.

Duggins first taught in Collingsworth County 21 years ago. Since then he has been employed in schools of several other counties, including Lamar, Denton, Armstrong, Carson, Donley, Wheeler and Gray.

This year will mark his eight year to teach in Collingsworth County, his fourth year at Pleasant Hill school, and his fiftieth in the teaching field. Duggins makes his home with his family near Quail, where he owns a farm.

He was born in Kentucky in 1863, moving to Texas in 1886. During summer months of several past years he has attended school at West Texas State Teachers College in Canyon and at Clarendon College.

**A PREACHER'S FAREWELL**

Probably it is an old story, but anyway it's full of logic. A preacher had been greatly discouraged and had sought a new field of labor. He happened to have a friend in the governor, to whom he appealed, and not in vain. He got a political job. In taking leave of his flock he said:

"Brothers and sisters, I must say good-bye.

"I don't think God loves you, because none of you ever die.

"I don't think you love each other, because none of you ever get married.

"I don't think you love me because you have not paid my salary.

"Your donations are moldy fruit and wormy apples—and by their fruits ye shall know them.

"I am going to a better place. I am going to be chaplain of the penitentiary.

"Where I go ye can not yet come, but I go to prepare a place for you, and may the good Lord have mercy upon you. Good-bye."

The world's largest telescope, located on Mt. Wilson, California, is equipped with a 100-inch reflecting mirror.

Under cover of darkness unknown persons sawed off and hauled away the 100 cedar posts which supported a fence surrounding a cow pasture at Middleboro, Mass.

**LOCAL BOY DRAWS PICTURE OF JA RANCH**

Of more than passing interest to the folk of this section is the map of the JA Ranch that was recently drawn by Walker Lane of this city. The map shows the approximate location of all the camps, and gives some idea of the character of the holdings of the ranch at the present time. The map is known as a pictorial map and contains the locations of the activities of the various sections, together with the location of the towns nearest the boundaries of the map. The city of Tulsa was at one time inside the bounds of the ranch. The size of the ranch when it was at its largest is shown by one colored line, while the present size is shown by a different color. At the present time the map is on display in Lowe's store, where it was taken after it had remained in the window of Alderson's Studio for some time after it was completed and framed.

Tomboy, an elephant owned by the city of Erie, Pa., was recently insured with Lloyds of London for \$2,500. It is said that no American insurance company would take the chance of having a dead elephant on its hands.

**CIGARS AND ROMANCE**

The recent action of a large motion picture company in forbidding its male stars to smoke cigars on the screen was attributed to a theory of the movie magnates that cigar smoking was unromantic.

Movie officials, explaining the ban, intimated that the lustre of their younger stars was dimmed, so to speak, by fragrant cigar smoke. A critic of this view rises to the defense of cigar smokers in this fashion:

"It would seem that the movie men's prohibition was based on a badly warped conception of romance. After all, romantic qualities in men are shown in their habits and characteristics; and since cigar smoking has become almost a symbol of masculine success and power, it indicates an addition to their romantic appeal rather than a subtraction from it.

"Ever since tobacco was first rolled and smoked cigar smoking has been allied closely with romanticism. From the early adventurers in America to modern captains of industry, sport heroes, world fliers, and thousands of young men in universal sites, the cigar has been a mark of manliness and romantic appeal."

If this critic is correct, as seems more than likely, the motion picture men seem to have made a grave error in that they have confused romanticism with effeminacy in the American male's make-up, and by so doing have been uncomplimentary both to men and women.

**THE DEADLY FOURTH**

This year's Fourth of July toll in deaths and injuries was the heaviest in recent years, and one of the largest in the 155 years during which the nation's birthday has been celebrated.

Accidental deaths from all causes in connection with the day's festivities are placed at 483, or 500 more than died on the same date last year. Motor car deaths were 160, while 181 were drowned, 24 died from heat, and 14 were killed in airplane crashes. Only six fatalities from fireworks were reported, but nearly 2,500 were injured. No figures concerning automobile injuries are available, but it is certain that the number ran to many hundreds.

This frightful total of dead and injured in a single day was largely the result of carelessness or criminal recklessness. If everyone who set out to celebrate the Fourth had exercised reasonable caution the story would have been far different. But few seem to realize the need for carefulness until it is too late.

**FEW IMPEACHMENTS**

Only eleven Federal officeholders have been impeached since the foundation of the United States government. Of these three were removed from office, one was expelled from the Senate and another resigned his judgeship. Those impeached were: Senator William Blount of Tennessee, charged with conspiracy, expelled by the Senate in 1797 and impeachment dropped. He later served as president of the Tennessee state senate.

Judge John Pickens of New Hampshire, removed from office for drunkenness, 1804.

Supreme Court Justice Samuel Chase, acquitted of misconduct, 1805.

Judge James Peck of Missouri, acquitted of mistreating counsel, 1831.

Judge West W. Humphreys of Tennessee, removed for supporting the secession, 1862.

President Andrew Johnson, acquitted of charges of high crimes and misdemeanors, 1868. The vote, 35 guilty, 19 not guilty, was less than the two-thirds necessary to convict.

Secretary of War William W.

ICE CREAM SOCIAL  
The Episcopal Ladies Auxiliary will hold an Ice Cream social on Thursday, July 23rd on the lawn of Mrs. Glascoe's home. The social will start at 7:30 p. m. The public is cordially invited to attend. (30c.)

Belknap, acquitted of bribery charges, 1876.

Judge Charles Swaine of Florida, acquitted of misconduct, 1905.

Judge Alston G. Dayton of West Virginia, impeached but proceedings abandoned, 1915.

Judge Gorge W. English of Illinois, resigned under impeachment, 1926.

Jackie Farrell of Buffalo had to be taken to a hospital to have a hardened wad of chewing gum removed from his ear.

Al Gregor has trained a big police dog to guard the cash register in his store at Spring Creek, Arizona.

Carl Moeller, who saved two girls from drowning, has had to flee Switzerland to escape from women wanting to marry him.

Because the bride whispered "not" after an outspoken "I will" during the marriage ceremony, Henry A. Rupert of Cleveland, O., won a divorce.

A man named Navy Blue was recently married to Blanche Chocolate at Dillon, S. C.

All the 250 waitresses of a chain of London restaurants bobbed their hair within three days after rules against bobbing were rescinded.

Tom F. Connally spent the past Sunday here from Dumas, where he is buying wheat during the harvest season.

Dr. Earnest Gleaves, blind osteopath of Memphis, won a divorce from his blind wife on charges of misconduct with a former sweetheart, also blind.

The only assets scheduled by Henry Moore of Chicago in his bankruptcy case consisted of a set of golf clubs.

Mrs. Anna Fry of Chicago asked the judge to have her brother put in jail, explaining that he had killed 30 of her chickens and 11 of her rabbits after an argument with her.

Now 76 and 74, respectively, Frank and Tom Leachman of Fall City, Neb., have never seen a street car, never talked over a telephone, listened to a radio nor viewed a movie.

### SINGLE LANE PAVEMENTS FIT INTO PICTURE

THREE ILLINOIS COUNTIES FIND SINGLE LANE PAVEMENTS SAVE MONEY

(By E. E. Duffy)  
The ever present problems of how to get serviceable local roads with limited funds has been answered in Illinois, a recent survey of the roads and records of three counties shows.

For a number of years Vermilion, Champaign and Iroquois counties have been building what are known as single lane pavements—pavements of nine and ten-foot wide strips of concrete with wide earth, gravel or crushed stone shoulders. This type of pavement, the cost a little more than half that of full width hard surfacing, has enabled these counties to extend their road pavements to distant corners of the counties so that all farmers are within easy striking distance of stable roads that carry them to market quickly.

Aside from the low cost of these single lane pavements, the wisdom of building them is further demonstrated in their low maintenance cost. A study of the upkeep costs of these pavements in Vermilion, Champaign and Iroquois counties reveals that the upkeep on the traveled roadways, built six to 14 years ago, averaged from about \$75 to \$135 per mile per year.

By the end of 1930 these adjacent three counties had paved a total of 460 miles of single lane concrete. Each county's mileage is the result of careful planning along with bond issue financing which enabled them to immediately pave the essential roads. Further, their paving programs are continuing. This year Champaign county will build nearly 18 miles of nine-foot concrete, while Vermilion and Iroquois counties have let contracts for about five miles of 10-foot concrete.

So, whereas many rural communities are rebuilding their most used roads every year or few years, these Illinois counties are freed of that trouble and expense. Vermilion was one of the pioneer Illinois counties in single lane pavement building with her first laid 16 years ago. These early pavements give evidence of many more years of service.

The earliest single lane concrete pavement is still in excellent condition even though it is carrying much more traffic than was anticipated. The pavement is near the largest oil field in the world and every kind of vehicle from burro-drawn carts to well drillers' trucks weighing 14 tons are numbered among the three or four thousand vehicles that use it daily. The stability of the pavement is shown by the fact that more than \$150,000 in fines have been collected from owners of overloaded trucks.

Emil Pope was arrested and fined \$1 a foot for driving his automobile over 500 feet of newly laid concrete on a highway near Sherwood, Wis.

To enable the proprietor of a San Francisco butcher shop to keep his accounts straight, a burglar left a receipt for the 75 pounds of meat he had taken.

### FRENCH ENGINEER POINTS OUT REAL VALUE OF ROADS

DR. MARCOTTE SAYS AMERICANS' PAVEMENTS GIVE ECONOMIC ADVANTAGE

CHICAGO, July — "American people, with their thousands and thousands of miles of concrete highways, have a distinct advantage in facing the inevitable economic changes. A country equipped with such a vast mileage of modern highways and with the ambition and courage to make 1931 her greatest road building year, despite adverse factors, can, I believe, ride through any economic storm."

This declaration was made by Edmond E. Marcotte, chief of the laboratories of the French National School of Bridges and Roads, who was sent to the United States by the French Government to study American methods in concrete construction. Dr. Marcotte was accompanied to Chicago by E. F. Kelley and H. H. Kelley of the U. S. Bureau of Public Roads of Washington. Dr. Marcotte came here to study the laboratories of the Portland Cement Association and those of other organizations and to attend sessions of the American Society for Testing Materials.

Dr. Marcotte in his studies of American concrete pavement building methods was particularly impressed with the scientific principles followed by road builders on the job, wherein materials are measured carefully and strength tests frequently made. He was struck by the pavement smoothness requirements which will permit no variation greater than one-quarter inch in ten feet and in many cases which will not permit a variation in excess of one-eighth inch.

In commenting on the serviceability of American concrete pavements built in Grenoble, France, in 1876 many of which are still giving good service. "When one comes from Europe to study road building accomplishments of the United States he is overwhelmingly impressed with the magnitude of projects and the efficiency of American engineers," Dr. Marcotte said. "Perhaps," he added, "the visitor is more impressed than those who live so close to this remarkable development."

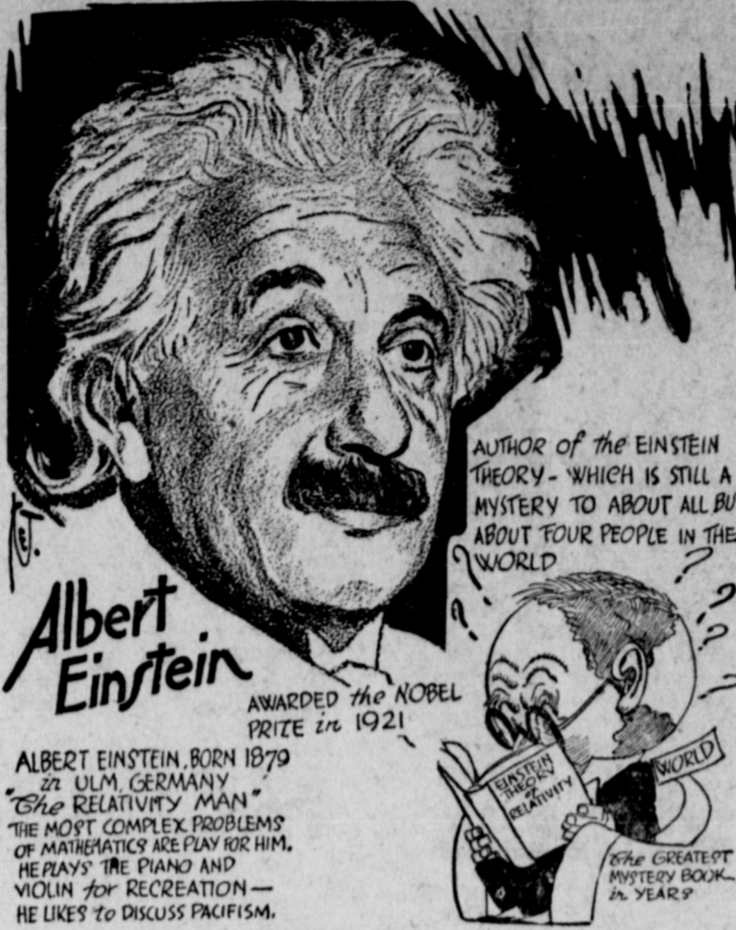

### HAVE TWELVE GAMES ON FOOTBALL CARD

Football at the State Fair this year promises to be a real feature, with four intercollegiate games and eight red-hot interscholastic games now scheduled. With 42,000 seats in the new \$300,000 stadium completed last year, and which is now the biggest stadium in the entire South, there will be ample and suitable accommodations for everybody.

Another important innovation, introduced with splendid success last year, is night football. Six of the games scheduled will be played at night by a \$10,000 lighting system. Last year, night football proved remarkably popular with thousands of State Fair visitors and now, that this feature is better known, officials of the Fair are anticipating record-breaking crowds for every game.

### STATE FAIR TO REFLECT RETURNING PROSPERITY

With business in general on the uptrend and with good crops throughout the entire State a bumper year is predicted for the 45th annual State Fair of Texas, Oct. 10th to 25th, by T. E. Jackson, who is serving his third consecutive year as president of the institution.

Plans to make the 45th exposition the greatest in the history of the institution have been made by the directorate of the fair, and a corps of workmen have been busy during the past several months putting these plans into execution.

Many new and novel features have been planned by the directors of the institution. Not only have new amusement features been planned, but the plans have been extended to practically every department of the State Fair of Texas. As a result of this year's planning and work on same, the directors of the State Fair expect to present to the people of Texas and the Southwest the best balanced program ever seen by patrons of the World's largest State Fair.

The directors in charge of the various departments at the State Fair have been hard at work in their respective departments, co-operating with their superintendents and making plans which would be of benefit to the exhibitors, the State Fair, and which will make a better picture for the visitors to the State Fair.

"Business is getting better throughout the Nation, every day," Mr. Jackson said, "and, working on this general trend of affairs, the State Fair of Texas has gone forward and made plans to present its greatest 'picture of Texas' to the visitors at the Texas State Fair this year. "Business will continue to bet-

ter itself, for as crops are being harvested throughout the land, the farmers of this Nation find them better than for many years. The oat and wheat crops of Texas have been generally better. With recent rains, it looks as if Texas will produce a great corn crop. Cotton is at its best and the fruits and vegetables of East Texas and the grains of West Texas have been up to par.

"True, prices for crops have been higher in other years, but, at the same time, the farmer has been producing his crops cheaper than ever before in the history of farming in Texas. Bankers have insured rigid economy in the production of all crops, and in the final analysis the farmer is going to be better off this year than in the past—for what he does sell is going to belong to him.

"We believe this prosperity will extend to the State Fair of Texas and be well reflected in the results of our exposition. "We have made plans accordingly and are bringing the very best in every line to Texas for the benefit of Texas people. We have not a department in all of our rather large institution that has not been bettered during the past year.

"The directors have made not only every effort to give the people a greater show, but we have also made it possible for them to save money on their prices of admission—offering them, for a limited time, bargain tickets. We have done this because the trend of prices is towards a generally economic level.

"I can speak for the entire board of directors in saying that we look for a big year for the State Fair of Texas, and also in saying that the people of Texas can look forward in seeing the greatest exposition ever offered the visitors in this institution."

### DUAL SHOW AT FAIR TO PROVE POPULAR

DALLAS, Texas, July—Because of the popularity of divided shows at the State Fair of Texas, officials have made arrangements to again divide the Poultry show. During the first week of the Fair, which will be Beef Cattle Week, beef cattle, sheep, goats, mules and heavy horses will be shown. During the second week—Dairy Cattle Week—dairy cattle, milk goats, swine, and light horses will be shown. Rabbits and pigeons and 4-H Club poultry will be shown in the poultry building during the first week, while the main poultry show will be held during the second week. It has been announced here by T. E. Jackson, President of the State Fair of Texas.

### SHUBERT SUCCESS FOR STATE FAIR

July—"Three Little Girls," the latest Shubert Success has been booked at the Auditorium attraction at the 1931 State Fair of Texas, Oct. 10 to 25, it has been announced here by T. E. Jackson, President of the institution. "Three Little Girls," will present an innovation in theatrics when presented at the State Fair. It is presented on a revolving stage and is said to be the fastest moving musical show ever produced on any stage.

### How One Woman Lost 20 Pounds Of Fat

Lost Her Prominent Hips—Double Chin—Sluggishness

Gained Physical Vigor—A Shapely Figure.

"You're fat—first remove the cause!"

Take one half teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning—in 3 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer—you feel younger in body—KRUSCHEN will give any fat person a joyous surprise.

Get an 85c bottle of KRUSCHEN SALTS from Douglas Goldston Drug Co. or any druggist in America (lasts 4 weeks). If this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—your money gladly returned.

After a fistic encounter with his neighbor, John Goodhouse, justice of the peace at Pierre, S. D., fined himself \$10 and is now serving a self-imprisoned 30-day sentence.

### AFTER 40 bowel trouble

Constipation may very easily become chronic after forty. And any continued constipation at that time of life may bring attacks of piles and a host of other unpleasant disorders.

Watch your bowels at any age. Guard them with particular care after forty. Whenever they need any help, remember a doctor should know what is best for them.

"Dr. Caldwell's Syrup Pepsin" is a doctor's prescription for the bowels. Tested by 47 years' practice, it has been found thoroughly effective in relieving constipation and its ills for men, women and children of all ages. It has proven perfectly safe even for babies. Made from fresh laxative herbs, pure pepsin and other harmless ingredients, it cannot gripe; will not sicken you or weaken you; can be used without harm as often as your breath is bad, or when your tongue is coated; whenever a headachy, bilious, gassy condition warns of constipation.

Dr. W. B. CALDWELL'S SYRUP PEPSIN A Doctor's Family Laxative

### Striped Cottons for "Sun Sports"

In tune with the modern tempo of simplicity in play-time costumes, striped cottons have already taken their place as the smartest thing under the sun. There are colorful awning stripes, bright Roman stripes, gay candy stripes, classic shirting stripes and an amazing galaxy of new variations.

Awning-stripe cottons are smart in both beachwear and general sports costumes as illustrated by the costume at the right. The interesting use of the stripes in this double-breasted model subscribes to the shirtwaist mode. The hat and sun-protective accessories, while the shoes of a lacy cotton fabric are smart and cool.

### FLEET OWNERS TURN TO CHEVROLET FOR CARS

Large industries in their purchases of automobiles in fleet quantities for commercial use apparently are paying little attention to "buying lulls" and expressions, a survey of Chevrolet's fleet sales for the first six months of the year discloses. During this period fleet sales increased 9.4 per cent over the same period last year, 71 per cent over the first six months of 1929, and came within 2,000 units of equaling the figure for the full year of 1929. These figures include passenger cars and trucks purchased by large companies who contract to take a given amount of equipment within an agreed period.

The gain already recorded this year over previous years is expected to be maintained throughout 1931 in line with the domestic sales expectations recently expressed by H. J. Klingler, vice-president and general sales manager.

Not only have sales of fleet units gained this year over previous half-years, but the number of fleet users likewise has increased until today practically every large fleet operator in the country numbers Chevrolets among his equipment, according to Sidney Corbett, manager of the commercial car division. Among the largest users are the United States government, public utilities, fire and rubber, packing house, telephone, telegraph and express companies. Of nearly 500 users of Chevrolet fleet equipment, 73 have purchased 27,605 units to date, Mr. Corbett said.

### PLAN BIG PRESS DAY AT DALLAS

DALLAS, Texas, July—Elaborate plans are being made for Press Day at the State Fair of Texas, which will be observed on Saturday, Oct. 10, it has been announced here by Fred E. Johnston, Chairman of arrangements for the celebration. The plans have not yet been completed, but preliminary plans call for the biggest Press Day celebration in history of the newspaper industry in Texas.

Pursued by his wife from city to city, C. K. Waterfield was finally arrested in New York on a charge of desertion after evading her for 17 years.

G. G. Gregory of Memphis, Tenn., is the owner of a Maltese cat which recently gave birth to a tailless kitten.

A recent survey discloses that 110 Vermont towns are without physicians.

### BAYER ASPIRIN is always SAFE

### Beware of Imitations

GENUINE Bayer Aspirin, the kind doctors prescribe and millions of users have proven safe for more than thirty years, can easily be identified by the name Bayer and the word genuine as above.

Genuine Bayer Aspirin is safe and sure; always the same. It has the unqualified endorsement of physicians and druggists everywhere. It doesn't depress the heart. No harmful after-effects follow its use.

Bayer Aspirin is the universal antidote for pains of all kinds.

Headaches Neuritis  
Colds Neuralgia  
Sore Throat Lumbago  
Rheumatism Toothache

Aspirin is the trade-mark of Bayer manufacture of monoaceticacidester of salicylicacid.

**NEW PASSENGER AGENT  
KATY YOUNG MAN**

Promotion of Frank B. Griffin, Assistant General Passenger Agent of the Missouri Kansas Texas Lines to the newly created position of General Passenger Agent of that Company has been announced by J. F. Hennessey, Jr., Passenger Traffic Manager. Griffin will have jurisdiction over Passenger Department activities of the Katy of Texas, with headquarters at Dallas. His promotion, said the announcement, was made in recognition of his long record of loyal and efficient service and of his ability as a Passenger Traffic Executive.

According to Katy officials decision to create a General Passenger Agency for the Texas Lines at Dallas was made necessary by

FRANK B. GRIFFIN  
Dallas

the broadening scope of activities of the Company in the Southwest. Since his appointment as Assistant General Passenger agent in 1930, Griffin is said to have accomplished much for the Katy in increasing the efficiency of Passenger Traffic operation. Forceful, energetic and enthusiastic Griffin is regarded as a typical Texas product and is widely known and popular in the Southwest.

Born in Hearne, Texas, in 1890 Griffin entered the service of the Katy at Austin as Assistant City Passenger Agent in 1908 and later served in that capacity for the Company at Houston and San Antonio, Texas. In 1912 he was made City Ticket Agent at San Antonio. Was transferred to Austin in 1914 and in 1918 was appointed Division Passenger Agent, the Passenger Department Senior Executive at San Antonio. Shortly following his return to San Antonio, he was made Military Agent for the Company with supervision over all Army movements handled by the Katy and from the San Antonio Army camps. At the close of the war, he was returned to the Company position as Division Passenger Agent at San Antonio, where he remained until last year when he was appointed Assistant General Passenger Agent at Dallas.

**PROGRESS IN FARM KITCHENS**

Farm women have modernized their kitchens more rapidly in the past five years than city folk, according to recent business survey showing the installation of automatic refrigeration in rural districts. In relation to summer cooking, farm wives state that modern refrigeration has taken hot weather cooking out of the agony column and put it on the sports page. A study of prize summer recipes submitted by farm women in 1931 shows that most of the recipes have more to do with the refrigerator than the cook stove.

"The main step in heat fighting has come to consist of getting something cold to eat and drink," Collier's Weekly declares in summing up the results of these studies. "Probably the man who invented modern household refrigerators pictured them in the role of achievements in food preservation. While this is undoubtedly their most important function, it has been supplemented by women of imagination who promptly saw the possibilities for food concoction new things to eat when the family appetite had to be coaxed, new ways of putting the summer dinner hour back into the morning so far as preparation is concerned."

Letters from 1000 housewives indicate that every woman who has ever "cooked" in her refrigerator thinks first of frozen desserts. There are several different variations, depending on ingredients, each with its advantages in luxury of taste or economy of preparation.

Mousses are the favorite desserts. They have a whipped cream base, and the simon-pure kind need nothing else but sweetness and flavoring, with or without fruit pulp. They are expensive, it is true, but the quickest to get ready.

A jury of women has prepared the following foundation recipe which will serve four people, requiring one-half pint of heavy cream and four level tablespoons of confectioner's sugar. "This mixture," they state, "will take a cup of any fruit pulp, or it

Mrs. Herman Schulze  
Kerrville, Texas

Mrs. Noah Staggs  
Weatherford, Texas

Mrs. John P. Impson  
Beville, Texas

Mrs. Andrew R. Hanna  
Floydada, Texas

Mrs. Edgar Lumpkin  
Buffalo Springs, Texas

THESE five women, representing the rural homemakers of Texas, will comprise the fourth group to receive the title of Master Farm Homemaker conferred annually by THE FARMER'S WIFE, national farm women's magazine of St. Paul, Minn., in co-operation with the Extension Service of the A. & M. College of Texas.

**1931 FARMERS SHORT COURSE**

COLLEGE STATION, Texas, July 22.—Five outstanding Texas farm women will be honored as winners of the Texas Master Farm Homemaker title for 1931 on the opening day of the twenty-second annual Farmers Short Course at the Texas A. & M. College July 27. The following have just been announced as winners of the title for this year: Mrs. Noah Staggs, Weatherford; Mrs. Herman Schulze, Kerrville; Mrs. Edgar Lumpkin, Buffalo Springs; Mrs. A. R. Hanna, Floydada; Mrs. J. P. Impson, Beville.

Selection of the title winners and the public ceremonial in their honor are sponsored by The Farmer's Wife, national farm women's magazine of St. Paul, Minn., with the cooperation of the Extension Service of the College. Judging committees to select the winners were named by Miss Mildred Horton, state home demonstration agent of the Extension Service. Presentation of trophies will be made by Miss Orinne Johnson of the farm publication.

With the recognition of this year's group, the number of farm women in Texas accorded the master farm homemaker title will reach twenty. Such recognition ceremonies are held in twenty states. Since the farm women's magazine and cooperating colleges of agriculture began naming master farm homemakers four years ago, 362 names have gone on the roll. The groups in each state have been formed into guilds. In selecting the winners a careful study is made of their answers to more than 500 questions concerning their homemaking records. Emphasis is placed on how well the homemaker managed with funds at her disposal rather than on the costliness of the farm home equipment.

Born 64 years ago and reared in the community in which she now lives, Mrs. Skaggs has taken an active part in the development of her community from a wild, sparsely settled section to one with good schools, churches and community organizations. One of her present interests is a community library project being promoted by the literary society of which she is a member. She has a family of six children who are leaders in their communities.

"The function of a home is to make a place of security for ourselves and our children," says Mrs. Lumpkin. She has two daughters and one son. Besides caring for her family and giving attention to community affairs, Mrs. Lumpkin finds time to can fruit and vegetables and to raise turkeys and chickens for market. Earnings for the year totaled \$518.

Mrs. Schulze is a member of three community organizations and holds office in each. She has two sons and a daughter. The daughter is attending college, one son is a research chemist, the other a farmer. Raising garden plants helped Mrs. Schulze earn \$175 the past year.

Mrs. Hanna, mother of five daughters and two sons, is vice president of the Floydada

may be treated to a teaspoonful of your favorite extract. Take care not to whip the cream too long if you want smooth results; get it just to the point where it holds its shape. And don't substitute cane sugar if confectioner's sugar is called for, because the former is sweeter, bulk for bulk, and a mixture that is too sweet may refuse to harden. Again, don't forget that mousses may become too firm if left over-long in the freezing trays. Make them and eat them the same day."

Federation of Women's Clubs. She teaches in Sunday School and is active in parent-teacher association work.

Mrs. Impson is actively interested in community affairs also. She is secretary-treasurer of local home demonstration club which just now has as its main project the building of a community house. She is the mother of two daughters.

**MANY BUSINESSES STARTED IN TEXAS FIRST HALF YEAR**

AUSTIN, Texas, July.—Charters were granted to 1,229 new corporations to operate in Texas during the first half of 1931, according to the Bureau of Business Research of The University of Texas. This figure compares with 1,231 during the corresponding period of 1930.

"Capital represented by these charters amounted to \$58,669 this year, compared to \$23,138,000 in 1930, an increase of 83 per cent in the total money involved, though the number of companies was approximately the same," the Bureau's report said. "Classification of these new corporations was as follows: Oil companies, 258 in 1931 and 127 in 1930; public service corporations, 23 this year and 20 last year; manufacturing enterprises, 125 in 1931 and 132 in 1930; banking and finance organizations, 73 this year compared to 50 last year; real estate and building firms, 93 this year; miscellaneous companies, 657 this year and 811 last year. Permits to out-of-state corporations totaled 244 for the first six months of 1931, compared to 207 during the similar period of 1930.

"June records fell below the previous month in both number of companies chartered and in capitalization. A total of 179 char-

ters were granted in June, with capitalization of \$9,857,000, compared to 226 in May, with capitalization of \$14,417,000."

**NEW LIBRARY TO BE BUILT AT TEXAS UNIVERSITY**

AUSTIN, Texas, July.—If present plans mature, the proposed new \$1,000,000 library building at The University of Texas will be started during the summer of 1932 and an additional year will see the structure finished and ready for occupancy. The present library building will then be used to house a museum, a recent announcement said. There are already a great number of collections of various kinds which will go to form the nucleus of what is expected to become the largest and most important museum in the Southwest. Among the notable collections already in the possession of the University are those composed of base and precious minerals, fossils, anthropological specimens, oil coins, statuary, specimens of Texas woods, relics of early Texas days and zoological specimens.

**IS YOUTH RELIGIOUS?**

Bruce Barton has been trying to find out whether modern youth is as irreligious as some people charge. "If modern youth is not religious, it is only because youth has never been religious," he decides in the American Magazine. "In all the fundamentals of living I cannot see that the young people of today are any different from those of forty years ago. Religion, however, is not a gift with which we are born. It is an achievement, an experience, forged out of years of living, suffering and thought."

John D. Sloan, coal miner of Kona, Ky., aged 54, is the father of 34 children.

**UNIVERSITY REGENTS ACCEPT PLANS FOR BUILDINGS**

AUSTIN, Texas, July.—At the last meeting of the Board of Regents of The University of Texas, preliminary sketches of six of the eight new buildings proposed under the \$4,000,000 building program of the institution were submitted for inspection by the building committee. The building program is expected to get under way as soon as final plans for one or more of the buildings can be completed. It is thought that construction will start on the \$800,000 union building soon after the first of the year. The building program will include, besides the union structure, a library, an architecture building, physics building, engineering building, home economics building, a men's dormitory unit and a geology building.

**BUSINESS FAILURES SHOW GAIN FIRST HALF OF 1931**

AUSTIN, Texas, July.—An increase of 43 per cent was noted in the number of commercial failures during the first six months of 1931 as compared with the corresponding period of 1930, according to the Bureau of Business Research at the University of Texas. Failures for the first half of 1931 totaled 447 with liabilities of \$8,855,000, compared to 312 failures during the first half of 1930, with liabilities of \$7,061,000.

During June firms failed, compared to 58 in May and 47 during June of last year. June liabilities of \$364,000 were 77 per cent less than those of May and 76 per cent less than those for June, 1930.

## BOYKIN MAKES PARTIAL REPORT

### LIONS ARE PLEASSED WITH REPORT OF CONVENTION PLEASURES.

Attending to other matters that come to the attention of the Lions, such as the report of the zone meeting which all members attended, and the calling of the attention of the Lions to the fact that all local members remained for the luncheon and for the business session, the luncheon of this past Tuesday was turned to the hearing of a report from Lion Boykin on the pleasure side of the convention.

In the beginning he stated that Lion Braswell would make the report of the business since he was closely associated with that part than with any other. The first thing to be mentioned was the great and glowing success as found in the first "Texas Night" ever staged at any convention. So great was the success that there was not standing room in the hall where the entertainment was held. Favors of Texas peaches, pecans and Mexican candies were passed out, along with badges of miniature Mexican sombreros furnished by the El Paso Lions. These, with a few packs of American cigarettes made the Texas delegation one that will be long remembered by the Canadian Lions and the others who made this convention.

On the trip going up, seven hours were spent in Chicago and seventeen hours were spent in Detroit. Much was seen in these two cities and quite too much to be related in a short report.

In the convention city of Toronto, some few high points were touched, principally a trip to the blind rehabilitation school, the observation of Canada Night, a visit to the Superintendent of the liquor control Board and other like entertainment features. The cruise to Niagara Falls was described, along with the visit to the tunnel under the falls.

The address touched most upon by the Boss Lion were those given by Alvin Owsley of Texas, who spoke on "Russianism," and the concluding address of one of the convention days as given by Dr. Davis.

Los Angeles was reported as having won the convention for 1932, while Julien C. Hyer of Fort Worth was elected to the highest place in Lionism. In the presentation of gifts to the new President of Lions International, El Paso gave a hand woven blanket, Fort Worth presented a handsome silver service, California gave a huge cake and the Texas Lions presented him with a memento that he will cherish as long as he lives. The last named is a gavel, turned from wood which was grown on the San Jacinto battlefield, encircled with two silver bands giving the date and reason for the presentation and bearing in one end of the gavel a stone taken from the walls of the Alamo. The presentation of this gavel was made by Lion Sam M. Braswell, Governor of Texas District "T" and member of the Clarendon Club.

The return trip was made by St. Louis where a trip was made to see Lindbergh's trophies and the Botanical Gardens. Other parts of the return trip were made without incident.

A director's meeting was called for the next Monday evening at the usual time and place.

Lion Murrell made explanation of a letter he had mailed recently and stated that he was back in the club to stay. He also complimented the club by stating that he thought it was

## GOOD BRAKES AND SAFETY

A safety council bulletin declares that an automobile without good brakes is more dangerous than a war-time projectile. Because, once the projectile reaches its destination it is a thing of the past. It has either hit or missed, and it is well known that the percentage of hits is relatively small.

The automobile, on the other hand, continues on its perilous way until it reaches the scrap heap. When new it is a marvel of convenience and safety, but unless it is kept in good condition, especially with respect to its brakes, it often becomes a deadly menace.

An interesting observation is made by W. T. Palmer, an executive of the company making Rusco brake linings, who says: "A high-powered car can accelerate from a standing start to 60 miles an hour in 30 seconds, during which time it travels 1,320 feet, but six times the power is required to stop it in 220 feet. We talk a lot about the power of our engines, but do we consider the power of our brakes?"

The most capable and careful driver is helpless when any part of his car's mechanism fails to function in an emergency. Defective brakes are one of the most common causes of traffic accidents. The simple and inexpensive means of keeping them in perfect condition should engage the serious attention of every motorist. Thereby the ghastly total of more than 30,000 killed and 800,000 injured every year in automobile accidents might be materially reduced.

Mrs. Bill Price and daughter of Pleasanton, Kansas are visiting Mrs. Price's parents, Mr. and Mrs. J. T. Patman.

doing more good than any other organization at this time. He placed it next to the church for the work being done.

Dean W. A. Clark, Jr., was introduced as the guest of the day and stated that he was pleased to be back in the club for another meeting.

Adjournment followed the singing of the first verse of "America."

## LOCAL TOURNEY TO BE CLOSED SUNDAY

### EVENT TO BE CELEBRATED BY HUGE FEED SOME TIME NEXT WEEK

One of the hottest of all warm golf tourneys is under way this week between members of the Hillcroft Golf Club. Bennett Kerbow and Walter Wilson chose the sides and the manner in which they are fighting for the winners one would think the future of the world were hinging on the outcome of the matches.

As a concluding feature of the event, a feed will be given at some time next week, the date to be set at the discretion of the president of the club. At this banquet, some matters of importance will be discussed and some other items will be brought to the attention of the membership of the organization.

The sides and their respective captains are:

H. B. (Speedy) Kerbow, Captain, Ira Merchant, Bill Cooke, A. N. Wood, Dick Cooke, Holman Kennedy, Pinky Kerbow, Wesley Knorpp, G. L. Boykin, J. T. Patman, T. M. Shaver, Frank Stocking, R. C. Weatherly, G. H. McClesky, Homer Parsons, John C. Knorpp, U. J. Boston, Lex Goldston, Joe Goldston, Doas Palmer, Ed Teer, Floyd Keener, Rev. E. B. Bowen, Bill Leverett, Roy Clayton.

W. A. (Windy) Wilson, Captain, Al Cooke, Dude Gentry, Meredith Gentry, Hank Bagby, Fred Buntin, Lee Casey, V. A. Kent, Clyde Douglas, Carl Parsons, Ernie Hardin, Dr. Harter, Ralph Kerbow, Forrest Taylor, Pinky Price, Allen Bryan, Dick Allen, Clarence Miller, Carroll Knorpp, Leslie Foxhall, T. D. Nored, Ernest Pope, Rev. W. M. Murrell, Earl Alexander, J. M. Potter.

Mr. and Mrs. G. G. Kemp, Elizabeth Kemp, and Carroll Holder left for Denver Tuesday morning to drive four used cars.

## THE HOOVER PLAN

As this is written the acceptance of President Hoover's plan for a year's suspension of international debt payments by all the nations concerned seems fairly assured. While it is too early to predict definitely what effect this moratorium may have on the world's economic situation, and particularly on a return of prosperity to the United States, it seems safe to say that its general results will be beneficial all around.

Without some such agreement it appeared inevitable that Germany would be forced to take advantage of the provision of the Young Plan whereby she could suspend reparations payments in order to prevent an economic collapse. By voluntarily granting to Germany a year's respite from the heavy burden imposed upon her, the other nations will make a gesture of good will far more important to the world peace than is represented by the amount of money involved.

It is encouraging to note that leaders of both political parties in the United States, with the exception of a few parrot-minded politicians, have endorsed the President's plan as a piece of constructive statesmanship.

Many believe that this marks the turning point of the depression, and the steady, if slow, recovery from the long period of deflation may be confidently expected.

Mrs. O. T. Smith returned to her home here last Saturday with Mrs. Eula Cox, who has been in a hospital in Amarillo for the past several weeks. Mrs. Cox was taken to Hedley Monday of this week and will remain there for a time.

Mr. and Mrs. Henry Shoffitt and family returned home last Saturday from a two weeks vacation spent in the New Mexico mountains at Ruidoso. They also spent some time in Juarez, El Paso and the Carlsbad Caverns. Returning by way of Roswell, they visited in the home of Mr. and Mrs. Elmo Shoffitt. They were accompanied here by Mrs. Elmo Shoffitt, Miss Reba Shoffitt and Miss Faye Barnhart.

# REGULAR ADVERTISING

(From a Speech by C. W. Johnson, Oakland, Nebraska, Merchant)

"I have been in business 27 years and seldom miss an issue of the local paper with an ad of some kind.

"I believe that the constant spitting of a machine gun does more execution than the occasional boom of a big Bertha. Its spat-spat shot gets results. So it is with advertising; the small ad run every week is better for results than the large ad run hit or miss. Consecutive advertising gets the business.

"We are told that American business now has hit the bottom, and that things will be better. Now is the time to advertise our wares and get the public to start buying.

"There are all kinds of advertising schemes, and I have dabbled in them all, but the advertising in the local newspaper is best and gives the largest results for money spent.

"Put more time in writing your ads, and then talk it over with the printer. It pays in the long run to spend this extra time.

"Create a desire to possess, in your ad, and it will get the business.

"If you had a whole bushel of chain links it would not pull a load. Put them together in a continuous chain, and you have a strong and powerful thing with which to pull a load. So it is with advertising. Link your ads together, run them in a continuous string, week after week, and you will have a power that will produce results."
