

BUILDING FOR WATERWORKS IS GOING UP FAST

BOILER IS INSTALLED AND WORK ON THE BUILDING IS GOING FORWARD WITH ALL POSSIBLE SPEED. BUILDING IS BRICK.

"The boiler is installed, and we are pushing the work on the plant as fast as we can," said Mayor McLean speaking of the system which the city is building for taking over the waterworks.

The boiler to be used by the city will furnish steam for an engine of 125 horsepower, and this will be connected with the present engine which is of 25 horsepower.

The assistant state fire commissioner was here last week looking over the situation, and he returned his report recently. One statement in the report that will be of great interest is that the building of the new brick wall around the pump house will lower the key rate ten cents.

Other plans of which Mayor McLean hopes to take advantage are outlined in the letter. "We hope, in this way, to reduce the key rate to one of the lowest in the state," said Mr. McLean.

It was the plan of the city authorities at the time of the commencement of the plant to have the work completed in sixty days so that the full benefits of the new service might be enjoyed.

These improvements are necessarily taking a good outlay of the city's funds, but the saving and the added conveniences will soon make up for this.

NEW SYSTEM OF LONG DISTANCE CALLS EFFECTIVE

Commencing the first of this month, the new system of putting through long distance calls is effective. Whenever a call is paid, the long distance operator at the receiving station, instead of calling the party to whom the call is directed as heretofore, merely establishes telephonic connection with such party, and the operator at the sending station speaks directly with him.

CITY TAX ROLLS ARE COMPLETED BY SECRETARY

CITY OFFICE ANNOUNCES THAT ALL TAXES ON CITY PROPERTY MAY BE PAID NOW. TAXES AMOUNT TO SLIGHTLY MORE THAN LAST YEAR.

Announcement is made by Mrs. William Nelson, City Secretary, that taxes on city property may be paid now, as the rolls are now complete. The total of the taxable property will amount to more than two million dollars. Among other things, 663 poll taxes have been assessed. The total of the taxes for this year will amount to \$16,371.61.

The money is needed badly for the improvements that are being made, and those at the city office announce that they are in a thoroughly receptive mood.

KEEP THE BOLL WEEVIL OUT OF DONLEY COUNTY

COUNTY AGENT R. W. HENDRIX GIVES SOME PERTINENT ADVICE ON KEEPING DONLEY FREE FROM THE BOLL WEEVIL.

The large cotton crop that Donley is capable of producing is in large part due to the fact this county is absolutely free from the boll weevil. County Agent R. W. Hendrix, in speaking of possibilities of the boll weevil's becoming a serious menace says that a fine place for the boll weevil to hibernate is in trash of all kinds.

"So far as we know, there is not a boll weevil in our county, and let us all sincerely hope that we will continue to be spared the ravages of this, the South's most destructive of insect pests. We must not trust in good fortune alone to protect us from this insect, but instead use every measure we can to prevent their introduction into our county.

When ordering seed in the future, let's be sure they were not grown in a district which is contaminated. "Boll weevils hibernate in old stalks, weeds and any kind of trash, so a very good step toward prevention is to burn off all weeds and trash along the roadsides, being careful not to burn over any tillable land, as this would destroy some very valuable fertilizer."

REV. GRISWOLD TAKES UP WORK AS NEW PASTOR

With appropriate services of installation, Rev. J. T. Griswold became the pastor of the Methodist Church Sunday morning. At the beginning of the service, the stewards had been seated together in the center section of the church. Following the voluntary, M. M. Noble, chairman of the board, introduced Tom Connally who made the address of welcome.

Following the rendition of the anthem "Loud Through the World Proclaim" by the choir, Dr. Griswold preached his sermon. He has a deliberateness of delivery that gives dignity to his sermon, and is a fine thinker. The congregation of the Methodist Church is highly pleased with Dr. Griswold, and everyone feels that a fine year will result.

MARBLE BUSINESS BEING OPENED HERE

J. B. McCarty is the vice-president and manager of a marble and monument business that is being opened here. Other yards of the same company are located at Plainview and Lubbock. Half a car of marble arrived the first of the week, and more is enroute. The building of the new business is being erected a block east of the Caraway and Chase Garage.

PARENTS-TEACHERS ASSOCIATION DRIVE THIS WEEK

Starting Monday the Parents-Teachers' Association of the High School is conducting a drive for new members. The drive will last through next week. The great help of the association to the schools is already known, and it is to be hoped that they will be able to bring their membership to that of former times, and that they will realize the success as heretofore.

SCORING OF DONLEY EXHIBIT AT FAIR EXPLAINED

MCCARDLELL GIVES FACTS SHOWING INCONSISTENCIES OF THE GRADING OF DONLEY'S EXHIBIT AT THE DALLAS FAIR.

The exhibit was loaded on a truck here and left Clarendon Tuesday morning, October 4th, and arrived in Dallas, Thursday the 6th, about noon. Everything in a very good condition. The exhibit was displayed in a way we considered very attractive. Our picture is on display in the office of the Chamber of Commerce for your inspection.

We were informed none of the exhibits on the score card should be shown on the main part of the platform, and in our opinion, only a few counties carried out this part of the score card; and we carried it out to the letter. Before the judging started, we found out that two tomatoes out of he dozen were removed by someone; but did not discover two heads of red kaffir had also been removed. On our vegetables, which included the tomatoes, we received forty out of a possible fifty. On our kaffir and corn we received a blank. What makes it seem most strange in regard to this is that Jeff Tanner, of Lelia Lake Boys' Club, received first prize on his white kaffir; and our display was part of the same kaffir; and our red kaffir was conceded to be the best shown. In fact, a gentleman wanted the red kaffir for display at the Cotton Palace at Waco.

Dallas had a wonderful fair in every way, a credit to any state; and it is not for us to mention the names of the gentlemen from the different counties who made remarks in regard to the premiums awarded. But it is a self evident fact that this is the time for the counties of the Panhandle to get together, and have a big TRI-STATE FAIR at Amarillo, Texas. The time to start is now.

COLE AND SIMPSON FORM PARTNERSHIP

Hon. A. T. Cole and Hon. E. A. Simpson will, the first of November, become associated in the practice of law. The success of both these attorneys is already known, and each of them enjoys a large practice before the formation of their partnership.

COMPANY H 142ND INFANTRY TO BE RECRUITED HERE

ORDERS ARE RECEIVED FROM ADJUTANT-GENERAL REGARDING HOME GUARD COMPANY TO BE RAISED HERE SOON.

Advices concerning the organization of a Texas Home Guard company here have been received from the Adjutant-General's Department, and Byron Blevins is working at the recruiting of the company. It is the intention of the authorities to organize the skeleton of the 36th Division, under the jurisdiction of the Adjutant-General; in this way it will only be necessary to have sixty-five men to the company.

ADJUTANT-GENERAL RE-ARRANGING HOME GUARD COMPANY TO BE RAISED HERE SOON.

No former officers will be arbitrarily placed in command of the local company, but promotions will be based on the merit of those enlisting as evinced by their drill work. When those who were not enlisted during the war have been drilled until they are fairly soldier-like, an effort will be made further to recruit the company by engaging the men who were enlisted during the war.

MANY MATTERS DISCUSSED AT TUESDAY LUNCHEON

LUNCHEONITES CONSIDER PROPOSITION OF A BAND FOR CLARENDON ALSO GOOD ROADS. GUESTS ARE PRESENT.

Although no direct action was taken on anything many important matters were discussed and the means of their accomplishment planned at the Tuesday Luncheon. Following a fine chicken dinner served at the White House, Secretary McCardell made some prefatory remarks, and introduced Sam Braswell who spoke on the possibilities of a band for Clarendon this year.

Mr. Braswell expressed himself as feeling sure of the character of talent in Clarendon and gave many interesting observations on the work of a band; declaring among other things, that the time to organize a band is at the beginning of the winter. President Long stated that the only feasible plan whereby to get the petition for better roads before the Commissioners' Court seems to be that of sending petitions to individuals in the various communities of the county and having them get signatures. In this way it would take about ten petitions.

It was voted that Mr. Long appoint a committee to look after the matter. Mr. Long furthermore made announcement of the fact that potatoes are being stored in the local curing plant, the operation of which has been taken over by individuals of this county. The plant will be operated on the money derived from the storage of the potatoes.

J. B. McCarty was then introduced, and in turn he introduced in a pleasant manner, Dr. J. T. Griswold, pastor of the Methodist church. Dr. Griswold responded in a most pleasing manner; and he received hearty applause when he said that whenever there was a move on foot for the betterment of Clarendon in anyway, to count on him as being elbow to elbow with the rest of the men working at that job.

LITTLE INJURY IN CAR ACCIDENT YESTERDAY

When the twelve year old son of I. N. Bowers cranked up his car which was standing in front of Baldwin Brothers' store yesterday afternoon, a serious accident was narrowly averted. The car was in gear, and immediately started forward; but it did not stop at the curb. It climbed upon the sidewalk and was only stopped by a large iron post at the front of the Baldwin store. The base of the post was moved some three inches before the car was brought to a standstill. Luckily the post was far enough away from the glass of the display window that the window was unharmed. Right-of-way having been given to the car, no one was hurt.

night so as not to interfere with the work in which the members of the company are engaged. Those joining will be paid twice a year by the state at the rate of forty dollars per month for service rendered; and each hour and each hour and a half that it is drilled will count as a day. Once a year the recruits are taken to general headquarters for drill.

All equipment is furnished and all expenses are paid by the state. Such equipment will consist of uniforms, rifles and such, and it is reported that a fund of \$6,500 has been appropriated for a local rifle range.

The company, if recruited here, will be an automatic rifle company, using the new type Army automatic rifle which is said to be far superior to the Browning.

Col. W. L. Culberson, who was prominent in the 142nd Infantry is very highly pleased with the material that can be secured here and at Amarillo. He says that he can take four such companies and whip any German regiment.

The full details as to the recruiting of the local company are expected to arrive within the next few days, and it is hoped that the minimum of sixty-five men will be secured for the company.

DONLEY COTTON CROP APPROACHES 2000 BALES

NUMBER OF BALES GINNED HERE REACHES THIRTEEN HUNDRED. COTTON PICKING SEASON IS DRAWING TO CLOSE.

Although the cotton acreage is much less than last year, the yield is approaching that of last year, with almost two thousand bales in the yards here or shipped from here. The local gin has ginned about 1,300 bales. Practically one thousand bales have been shipped and more than eight hundred bales are in the yards here at present.

The market here for the last week has varied from seventeen to eighteen cents, which is as good on the average as any market in the Panhandle.

The quality of the cotton has been good through all the pickings, and especially since the first. An expert from down state who was here recently pronounced the Donley cotton of as good quality as is to be found anywhere in the state.

A good percentage of the cotton has been sold this year as it is being picked; and, so far as this county is concerned, there will not be the heavy carry-over from this year's crop that there was from last year. The weather has been ideal for picking the cotton crop this fall. There was no rain during the cotton season with the exception of the small showers Monday evening. The fine weather has been the most material factor in the fast gathering of the crop. Many days the number of bales weighed here ranged around a hundred. According to reports arriving from over the county, the crop for this year is nearly gathered.

The planting of a small acreage next year is being urged by many, not only over the whole state, but in this county. In this way it is hoped to bring one influence to bear on keeping the price as high as possible.

PRESBYTERIANS TO HAVE SPOOK PARTY

The cause of much planning and the occasion of much spooky secrecy is the party to be held Monday evening at the home of Mr. and Mrs. J. W. Morrison in east Clarendon.

We believe about the best and most interested committees we have seen are on the job to make this affair a happy one. Little folks, medium folks, big folks, young folks, and old folks—if there are any such—are all wanted. Come happy and you'll enjoy yourself; come unhappy and we'll make you happy—at least for awhile.

LOCAL MASONIC LODGE TO ENTERTAIN TOMORROW

LODGES FROM SURROUNDING CITIES HAVE BEEN INVITED TO BE HERE WHILE MASONS' DEGREES ARE CONFERRED.

Commencing at four o'clock tomorrow afternoon, the local lodge will confer the Master's Degree on three candidates. The Master Masons from the Hedley, Goodnight, and Groom Lodges have been invited to be present at that time. Upon the completion of the work tomorrow evening, refreshments will be served.

A cordial invitation has been given to all Master Masons to be present at that time, and the secretary announces that it is especially desired that there be a full attendance of the Clarendon Lodge.

From the communications, it is hoped that there will also be a goodly number of visitors present.

W. P. Cagle left Saturday morning to attend the Confederate reunion. Mr. Cagle, while not an old soldier, is the son of one and is, for this reason, attending the reunion.

LARGE PERCENT OF PUPILS ARE ON HONOR ROLL

LIST OF THOSE MAKING HIGHEST GRADES SHOWS THAT HIGH STANDARD OF SCHOLARSHIP IS BEING MAINTAINED

The first month of the present session of our city schools closed Friday, October 7, with a total enrollment of 682 for the month and a distinction list of 143. The enrollment was distributed as follows: 214 in the high school, 100 in the grades in the high school building, and 368 in Central Ward. The distinction list is distributed as follows: 21 in the high school, 37 in the grades in the high school building, and 85 in Central Ward. Number of visits made by superintendent to the different rooms during the month was 50. Number of visits made by patrons and friends to the different schools this month 96.

The work in the different schools is moving along smoothly. The new teachers have taken hold of their work with an interest and enthusiasm that augurs well for the success of the year's work, and the new pupils have settled down to work in real earnest.

The High School was pleased to have as a visitor during the first month Miss Jessie Harris from the State Department of Education at Austin. Miss Harris is Director of Vocational Home Economics in Texas, and was here to visit us for the first time since our home economics work was made vocational under the Smith-Hughes' Act. Miss Harris' report on her visit to our school appeared in last week's issue of the News and we think will be very interesting reading to everyone interested in the schools.

The distinction list given below consists of those pupils in our schools who made a general average of 85 or more for the month. Those making an average of 90 or more for the month are recorded with highest honors (Summa Cum Laude); while those making a monthly average of 85 or more and less than 90 are recorded with high honors (Magna Cum Laude).

HIGH SCHOOL

- Summa Cum Laude—(90-100) Ruby Lee Landers, 91; Lester Schull, 90; Elton Campbell, 90; Rhodin Chase, 90. DONLEY IN MOST PROSPEROUS TERRITORY IN U. S.

FIGURES COMPILED BY THE UNITED CHAMBER OF COMMERCE SHOW BUSINESS CONDITIONS HERE BEST IN U. S.

A map put out by The Nation's Business, the official publication of the United States Chamber of Commerce, shows at a glance the business conditions over the United States. A. W. Douglas, the noted business authority, compiled the figures which the map is drawn to illustrate. The fact that will be most astounding to those who have been talking hard times is that Donley county is in the center of the largest territory in the United States enjoying what Mr. Douglas terms good business. There are only five places which Mr. Douglas says are having a good business, and three of those are very small, one being in Illinois, another in Missouri, while the third is in California. In the northwestern part of Colorado, there is a good sized spot where the business is good according to the map, but this is not nearly so large as the spot which includes the Panhandle of Texas and the southeastern part of New Mexico.

All of the upper part of the Panhandle of Texas is embraced in the good business section down the eastern line of the Panhandle to about even with Childress. Thence the line runs as far south as Ballinger and Abilene. Bounding just on the south of this is a strip where the country is marked as in fair condition; and by far the greater part of the rest of the state is indicated as being in poor condition.

The greater part of the rest of the United States is indicated as being in fair condition. The authority of the map cannot be doubted as it is compiled from the figures on business.

Regardless of how some may declare that the times here are bad, we should be impressed with the fact that we are living in the center of the best business section in the entire United States.

JIM PATMAN RECOVERED FROM FOOTBALL HURT

Jim Patman regained consciousness Sunday morning following his hurt in the football game between Clarendon and Amarillo the previous afternoon. Once when Jim was tackled, his head struck the ground with great force, and the result was a very small concussion of the brain. Although he is feeling fine, his physician has advised that he not play on the gridiron any more this season.

F. O. Garner made a business trip to Estelline Tuesday.

CITY DUMPING GROUNDS MOVED FARTHER AWAY

REFUSE WILL NOW BE DUMPED ON THE RIVER BY ARRANGEMENTS WITH LAND OWNER THERE. MOVE IS BADLY NEEDED.

With a view of having a more sanitary and a healthier Clarendon Mayor McLean has arranged for the removal of the city dump grounds from the present location shortly north of town to the river. This project has been worked on for some time; and with the consent of Robert Sawyer for a part of his land near the river to be used for that purpose, the change is made.

For many years, the proximity of the present dumping grounds has been an eyesore to Clarendon; but with the first of November, the change will be made. For a long time, also the matter of cutting a ditch from the lake north of Clarendon to the river has been discussed, and with that the removal of the dumping grounds. At least we shall realize one of these improvements of not both.

The new location is a canyon near the river, and is a desirable location for such grounds.

The man who still cries hard times when business is improving every day ought to be "kicked where his brains are and hit where they ought to be." Such a calamity howler is doing his own and his neighbor's business an irreparable injury. Follow the biblical injunction written for every booster, "do good to all men."

Gov. Neff, who has been romped on for nearly everything, of late has been undergoing quite a bit of criticism for his silence regarding the Ku Klux Klan. He has even been accused of being a member of the Klan. This statement, if true, would line him up as a strict opponent of the Catholics, and yet in the past few days he has appointed Hugh Nugent Fitzgerald, editor of the Wichita Falls Record-News, and a life-long Catholic, as a member of the board of trustees of one of our

state schools. Seems like somebody "guessed" a little too quick. Give every man a "square deal"—even the governor who hasn't been any too friendly to West Texas and the Panhandle.

Clarendon, evidently hasn't lost any of her reputation for open-hearted generosity in these selfish days. During the past week or two, there has been a blind or crippled begger on our streets almost every day—and sometimes two. It is all right to help these unfortunates, but it is well to see to it that we do not neglect the needy right at home. The travelling beggar is sometimes an imposter, as evidenced here some time ago when one approached a merchant who refused to give him any aid until he had gone over to the Chamber of Commerce office for identification and sanction, the beggar walked out saying, "Hell, I've heard that stunt before" and was no longer seen in this city. Every claimant on public charity ought to have an OK from the secretary of the local Chamber of Commerce. We pay him to do the detail work of our united efforts and every transient beggar should carry a card of official sanction or should be unaided.

Those papers who have been saying so much about the Klan of the Ku Klux being mixed in a deplorable disaster at Lorena, will probably not say anything about the fact having been established by eye witnesses that officers did the shooting and stabbing and the sheriff when very near death's door, made the statement that, "he had just as well die, he had committed a sad blunder and was to blame for the trouble."—Richardson Echo.

BE LOYAL

Don't go abroad to buy something when you have a few dollars

to spend and then ask your home merchant to sell you on time when you are broke. If you have bills with your merchant who has given you credit and an extension of time and accepted small payments, and take your cash to the city to spend with a stranger who has no interest in your town, nine times out of ten he will "do" you because he never expects to see you again. The home merchant will save you money with reliable goods, which he guarantees with his reputation. A town that is large enough and good enough for a man to earn his living in is good enough for him to buy his provisions in.—Durand (Ill.) Gazette.

Advertising makes a town, therefore, the men who do the advertising of any town are the makers of it and should have the credit for doing so. In Childress, as in all towns, there are some non-advertisers—men who do business, or try to, with never a cent spent for advertising. These fellows get part of the benefit from their progressive neighbors' advertising, therefore, in a sense, they are mooching on their neighbors' investment. When you come to town to spend your money you should always try to trade with the firm that spends its money freely for advertising, for that is the kind of people that makes your town and keeps it going. The Post believes this is done very largely. The people are rapidly learning that it pays to trade where they are invited and many will shun the store that does not think enough of his business to solicit same. "Business goes where it is invited and stays where it is well treated."—Childress Post.

Of course, conditions would cut the attendance at the Dallas Fair some, this would probably amount to a 25 percent cut. The failure of the management to properly use printers' ink this year will cost the Fair Association more than \$100,000. When certain people who have nothing to do but sit back in a swivel chair and sweat up over their job, the organization over which this kind of a person presides is bound to suffer. The Fair Association tried to redeem itself in a way. They made much of the few newspaper men who attended on Press Day but the boys from the "forks of the creek" did not fall for this and did not come. That ultimatum of a "page of free plate with each measly \$5.00 ad." was taken at face value and the country editor is declaring his freedom from the fifty cent pass, which calls for subservience to plate serfdom.—Richardson Echo.

Last Sunday at the Christian Church Elder Liff Sanders delivered a sermon that was timely and to the point, touching on the social evils of the day and a remedy for same. So favorably impressed were we with his remarks that we have concluded to offer comment. Brother Sanders went to the Old Scriptures to prove that God created man as a social being, and that he must have social intercourse. He pointed to the fact that under the Jewish religious rights and government feasts were held when all the people were compelled to attend, both freemen and bondmen, and spend several days in social intercourse. Christ was referred to as attending a marriage feast, where his first miracle was performed, when he turned water into wine. These statements are preface to the charge made that parents were responsible for the immodesty among the young people of today. Instead of arranging wholesome entertainment, for the young people in the home they are driven out to seek social entertainment at picture shows, automobile riding, picnicing, etc. He stated that mothers do not entertain the young people now as they did a few years ago, therefore young people being social creatures they have been compelled to seek entertainment out of and away from home. He boldly laid the blame at the doors of the parents, and the Beacon adds its hearty endorsement to the charge. Mothers and fathers do not entertain their children in their homes as they should and as often as they should. We rarely ever hear of young people being entertained in Lockney. They never have a party given them these days, therefore they are driven out on the streets, into automobiles and picture shows for their social entertainment. We never hear of the old-time candy-pulling, tacky parties, masked parties, Hal-loween parties, or entertainment given them of any description. Young people must have entertainment. They are social beings. God

created them as such, and if parents will not go to the trouble of opening their homes to them in order that they may have good, wholesome entertainment, they will seek it elsewhere and without chaperones. Brother Sanders charged in his sermon last Sunday that the Mothers Club of Lockney was not doing their part in entertaining the young people of the town. Instead of entertaining themselves once a month, it was the suggestion of Bro. Sanders that they entertain the young people. The keynote has been sounded in this regard. Married women are entertaining themselves in social gatherings and paying no attention to the young people of our town. There should be a change in these matters. The young people of our towns and communities should be given first thought in good wholesome entertainment. We need not expect a discontinuation of automobile riding nor seeking entertainment elsewhere unless we furnish entertainment in our homes for the young people. The home is the place to entertain the young people. The church, the school or any other place will not meet the requirements like the home. We owe it to the young people to furnish them with social entertainment, and if we as parents, will not furnish this entertainment in our homes, they will seek entertainment in the dance hall, the automobile and picnicing.—Lockney Beacon.

DEPUTY GAME WARDEN EXPLAINS GAME LAWS

Having accepted the office of Deputy Game Warden of Donley county, I herein set forth the fact in order that I may have the co-operation of every good citizen of the county. The game laws of our state have been unthoughtfully and habitually violated. We all have been guilty alike—not with the presumption and interest of malicious law-breakers; but only by common customs and practice. Well we all understand just how we have been acting in this line. Careless and unconcerned—Jack Jones is killing, guess I had as well have a few—in season and out of season alike. You know all about that, so do I.

Now we are in one of the world's greatest reconstruction eras—at a time when people are beginning to recover from this common violation of laws. When we are trying to get our houses set aright politically, economically, morally and religiously. So let us give more heed to our duties legally. If one good man breaks a law, which he does not consider of much consequence it encourages his boys and neighbors to do the same thing. Let's all unite in conserving our game in Texas first, because it is right, secondly because it will be profitable in many ways which I'll try to set forth in some future issue of this paper. In accepting this position, I asked permission to appoint five or six good men in various portions of the county to assist me. In making these appointments I shall endeavor to secure the very best citizens of our county in order that we may put on an educational campaign that we may take more pride in conserving and protecting our remnant of wild game.

I herewith set forth some of the features of the game laws of Texas which apply most specifically to our county:

H. B. No. 457. An Act to preserve, propagate, distribute, and protect the wild game, wild birds, wild fowl of the State, to provide adequate penalties for the unlawful taking, slaughter, storage, sale, purchase or shipment thereof, to provide for the appointment of Deputy Game Commissioners and fixing their salaries, to define the duties and powers of the Game, Fish and Oyster Commissioner and his deputies; to fix the venue of prosecution under this Act; to provide for the issuance of Hunting Licenses and prescribe penalties for hunting without a license; to declare that certain moneys shall belong to Special Game Fund of the State, and the disposition to be made of said moneys, and to repeal all laws in conflict herewith; and declaring an emergency.

Be it enacted by the Legislature of the State of Texas:

Section 1. All the wild animals, wild birds, wild fowl within the borders of this State are hereby declared to be the property of the people of the State.

Sec. 2. Wild turkeys, wild ducks, wild geese, wild grouse, wild brant, wild sandhill cranes, wild prairie chickens or pinnated grouse, wild pheasants, wild partridges, and wild quail of all varieties, wild doves of all varieties, wild pigeons of all varieties, wild shore birds, wild robins, and wild Mexican pheasants, known as "chacalaca" and wild plover are hereby declared to be the game birds, within the meaning of this Act.

1. Wild game can be killed only in open season.
 2. Persons desiring to hunt out-

CLARENDON DEFEATED BY DECATUR COLLEGE

In a game played with poor form by the local team, the Decatur Baptist College defeated the Bulldogs on the former's grounds Friday afternoon. The Decatur team started the game with a rush, making a touchdown in the first three minutes; and from that shock the Bulldogs never regained their equilibrium. Praise should be given to Pope of the local team for bucking Van Meter, the 235 pound Decatur tackle, with all the strength he could muster.

The Decatur team went on the field at 3:45, and the Bulldogs followed at 3:50. After a short signal practice by each side, the game was started at four o'clock. The features of the game were the fast playing of Rush and Petty for Decatur. The final score was 36-6. This was a retaliation for the crushing defeat that Clarendon gave the Decatur team last year.

W. T. Clifford was a business visitor to Claude Friday.

Mother-Home-Heaven

It's no accident that these words are thus connected so often.

Home—the magic word that ties the dearest thought of earth to the beautiful idea of eternal joy.

Give more thought to HOME—the center of happiness for the family. Should you not make it the best you can afford?

We show many "Ye Planry" Homes, the highest type of home designs, yet inexpensive to build.

Let's talk it over—no obligation on you. We will gladly give you an estimate on a new home or the old one remodeled.

Have You Ever Thought of This?

Every time you withhold a dollar from circulation you are not only in danger of losing it, but you remove it from circulation; you make an idle dollar of it; you thereby reduce the working capital of your community; you withhold bank credit from someone—and you gain nothing whatever for yourself. There is no argument in favor of withholding your money from the bank. We offer you the full facilities of this modern institution.

Fifth Annual Thanksgiving Sale

Begins Friday Oct. 28th

It has been our custom since opening up our business to hold a Thanksgiving Sale every Fall. This is our fifth annual sale, and in price reductions we are going to eclipse all previous sales, on account of the "tight" money conditions.

We have gone the limit in price reduction; cost or replacement prices HAVE BEEN IGNORED. We have marked everything in our stock down to prices that will stagger the common-sense buyer. You all know this store and its policy in conducting our business. WE NEVER ALLOW a fictitious representation of comparison of values and guarantee every statement in our advertising—every value as represented and we now make this statement to the people, that the sacrifice we are making now at this sale, in all profits and part of the original cost is the greatest we ever made in our mercantile career. We are not employing a slick sale artist and paying him ten percent of our sales. We will not throw chickens or turkeys off our roof with money tied to their legs. We don't use circus methods to draw a crowd. No ballyhooing—THIS SALE IS DIFFERENT.

THE PRESBYTERIAN CHURCH

October 30th is known as Reformation Day, because it was on October 31st, 1517, that Martin Luther started some interesting things in Germany, that has continued in the name of Protestantism, by nailing a piece of paper on the church door with some writing on it that was "different."

Reformation Sunday will be observed in this church by a program concerning the Protestant Church in Europe, and by an offering for the aid of Protestant churches in France, Belgium and Bohemia.

The Reformers gave their lives in the early days for the sake of purity of life and doctrine in the church.

What care you, if their children need our aid now after their works have been partially or wholly destroyed?

We gave much to free France politically. What shall we give to help her people continue free religiously?

You are invited to attend this service.

The Bible school meets at 9:45 a. m., Sunday morning. The morning service at 11 o'clock. Mr. Foster will sing "Christ in Flanders" Evening service at 7:00 o'clock.

SUGGESTION FOR UNION THANKSGIVING SERVICE, NOV. 24.

Wednesday of this week the News editor was approached by a business man of this city, prominently identified with one of our churches on the matter of arranging a union Thanksgiving service on Thursday, Nov. 24th. He suggested that the largest auditorium in the city be used and that no regular set sermon be arranged and that the program consist of congregational singing, prayers and talks by as many people of the community as would take part in the service.

The gentleman who made the suggestion stated further that he thought that a special invitation be issued to the people of the surrounding country to come in a worship with us on that day, taking part in all features of the service. He further asked that The News get the matter before the public and try to see if such a program could be arranged.

FINANCIAL AFFAIRS OF THE COLLEGE

Statements have been sent out this week to all who are due the College anything in the way of subscription or for board and tuition. It is necessary that these amounts be met promptly if the school is to be able to meet its obligations and not be hampered and embarrassed.

Eleven men are individually responsible for \$18,000.00 at the local banks due now. No banks were ever more loyal to a school than the banks in Clarendon are to Clarendon College. It is only by their assistance and the unity and loyalty of the local board of trustees that the school was able to weather the financial strain of last session. These trustees all have their private affairs to care for and should not have to carry heavy obligations outside of their own affairs during such financial strains. If these notes are cared for, it will be necessary for every one who has made subscriptions to pay what will be due by December 1st. Also that those who have not subscribed, add about \$5,000.00 to what has already been donated. A united effort on the part of the community will be necessary in order to relieve this strain. (43c)

OFFEN THE HOME MAN IS UNAPPRECIATED

Last week the city was blessed (?) with a carnival, the first to be allowed here in the past three years. The carnival seemed to be well patronized and in conversation with H. Mulkey of the Pastime Theatre, a News representative was told that while the carnival was in town the attendance at the local picture show was greatly curtailed. Home people, who clamor for clean amusement, turned away from the home owned house of amusement for a hurly-burly travelling carnival. Mr. Mulkey has invested over ten thousand dollars in his modern show house, and those who know say he operates the cleanest show to be found anywhere, and Mr. Mulkey says he had rather have the approbation of the home people who want clean shows than the money to those who demand low, suggestive pictures. Recently he lowered the price of admission to benefit the people in lowered costs of living, and he says unless he gets better patronage he will be forced to go back to the old price, as he will not buy cheaper pictures for a community who wants the best. Attention is called to this just to show how the home man who invests his money and tries to please the public is often unappreciated and forgotten when something transient shows up. Stay with the home man. (43pd)

THE FIRE ALARM

Sends a thrill through everyone and all begin to wonder if it may be their property. It is the time now to reinstall the heating stoves. Great care should be exercised in seeing that all pipes and flues are secure and safe as a preventive measure. Then place a proper amount of insurance with a reliable agent in a company whose solvency is unquestioned and whose record for fair treatment of customers after the fire is also unquestioned, then when the fire alarm sounds, you can reasonably hope that it is not your property, but if perchance it should be, that you will be safe for the amount of your policy. In 32 years in Clarendon as Insurance Agents our office has paid out more than a Half Million Dollars in losses and never a Policy Contested. We offer you this kind of service and protection and will greatly appreciate your business. A. M. BEVILLE & SONS Established here 1889. (48c)

Friday afternoon, Mrs. Massey was the gracious hostess to the K. K. K. A very enjoyable afternoon was spent in sewing. The election of new officers took place in the business session. About twenty-five guests had the pleasure of enjoying a delicious salad course which was served the latter part of the afternoon.

WHITE HAVING GREAT REVIVAL.

Rev. Sam J. White, in a letter to the News, states that he has been having a great revival at Commerce. He also says that the weather has been hot and dry, and that the country is not in as good shape as this county. Although he has received a royal welcome from those people, he says that he will be glad to get home.

Nat Perrine, of Hedley, was a business visitor in this city Tuesday.

when you feel blue, tired,
nervous, mean—

Now—at last—you can use the marvelous power of music in a practical way. Noted psychologists have just completed, for Mr. Edison, a two-year research into the effects of music. They discovered that certain selections—when RE-CREATED by the New Edison, the perfect instrumentality of music—actually change people's moods. Some are wonderful for soothing ragged nerves. Others supply more energy. Still others bring cheerfulness. This better, finer kind of music—

Mr. Edison's MOOD MUSIC

is fully explained in a fascinating 32 page book, "Mood Music."

HOW TO KILL YOUR C. OF C.

Don't come to the meetings.
But if you do, come late.
If the weather doesn't suit you, don't think of coming.
If you do attend a meeting find fault with the work of the officers and other members.
Never accept an office, as it is easier to criticize than to do things.
Nevertheless get sore if you are not appointed on a committee; but if you are do not attend the meetings.
Do nothing more than is absolutely necessary; but when other members roll up their sleeves and willingly and unselfishly use their ability to help matters along, howl that the association is run by a clique.
Hold back your dues as long as possible, or do not pay at all. Don't bother about getting new members. Let the secretary do it.
When a banquet is given tell everybody money is being wasted on big blow-outs which makes a noise and accomplish nothing.
When no banquets are given say the association is dead and needs a can tied to it.
Don't ask for a banquet ticket until they are all sold.
Then swear you have been cheated of your money.
If you do get a ticket don't pay for it.
If asked to sit at the speaker's table, modestly refuse.
If you are not asked, resign from the association.
If you don't receive a bill for your dues, don't pay.
If you receive a bill after you've paid, resign from the association.
Don't tell the association how it can help you, but if it doesn't help you, resign.
If you receive service without joining, don't think of joining.
If the association doesn't correct abuse in your neighbor's business howl that nothing is being done.
If it calls attention to abuses in your own, resign from the association.
If asked by the chairman to give your opinion on some important matters, tell him you have nothing to say. After the meeting tell everyone how things ought to have been done.
Keep your eyes open for something wrong, and when you find it, resign.
When you attend a meeting, vote to do something and then go home and do the opposite.
When asked for information, don't give it.
Talk co-operation for the other fellow with you; but never co-operate with him.—Beville Picayune.

RIGHT WHERE YOU ARE

Where is the best place to make a success? That question is often asked, and too frequently the individual doing the answering thinks that the fields afar off are the greenest and hold the greatest possibilities.

In a recent issue of Commerce and Finance "Seven Leaders of the Southern Textile Industry" were selected by vote of the Southern Mill Officials. A brief sketch of the works of each was given. In analyzing these sketches, here is what we found:

JAMES W. CANNON
Born on a farm in Maclennan county, North Carolina, sixty-nine years ago. Began as a clerk in Concord, earning \$48 the first year. In 1888 organized Cannon Manufacturing Co., Concord, with capital of \$75,000, and built a 4,000 spindle cotton mill. Has built largest towel plant in the world, with three plants in North and South Carolina. Is interested in more than twenty cotton mills with 600,000 spindles and more than 10,000 looms.

FULLER E. CALLOWAY
Born in, and still lives in, La Grange, Georgia. One of the leading cotton manufacturers of the world. In 1901 he became manager of a small cotton mill built with local capital at Conyers, Ga. His interests now embrace seven very large cotton mills in Georgia which do an annual business of approximately \$25,000,000.

ELLISON A. SMYTH
Born in Charleston, S. C. seventy-one years ago, and now lives at Greenville, S. C., just sixteen miles away. In 1881, the Pelzer Manufacturing Co., was formed at Charleston, and Mr. Smyth was elected President and Treasurer, a position which he still holds. The mill was built with local capital and had but 10,000 spindles. The company now has four mills with 136,000 spindles and giving employment to 1,500 operatives.

Mr. Smyth is also connected with a number of other large cotton mills, and industrial plants in North and

South Carolina.

CAESAR CONE
Born in Tennessee, but began his business career in North Carolina where he still lives. Built first cotton mill near Greensboro, N. C., in 1885, with 240 looms. This mill has grown until it has 4,600 looms. Other mills were built, one of them being the largest denim mill in the world. His plants consume annually more than 50,000,000 pounds of cotton and produce more than 150,000,000 yards of cloth.

J. H. MONTGOMERY
Born in Spartanburg. At the age of nineteen started his business career as a clerk at \$5 a month. In 1881, at the age of forty-eight, he became president and treasurer of a small cotton mill built at Pacolet, S. C. By 1894, this mill had grown to a capacity of 57,000 spindles and 2,200 looms, consuming 30,000 bales of cotton annually, and has been growing ever since. He has organized the Spartan Mills, at Spartanburg, S. C. This plant grew until it had 85,000 spindles. He built other mills and at his death had extensive textile mill interests in South Carolina and Georgia.

D. A. TOMPKINS
Born in 1851 on a plantation in Edgfield, S. C. Was a builder of cotton mills. Through his work of writing, speaking, designing and supplying machinery, he aroused interest in cotton mills which led to the Southern States bordering on the Atlantic, developing into textile manufacturing states. He urged that 30,000,000 spindles could handle the cotton crop of the South, with 1,000,000 operatives. He scorned the idea that sufficient operatives couldn't be found.

LEWIS W. PARKER
Born in Abbeville, S. C., in 1865. Trained for a lawyer and banker. In 1897 withdrew from the practice of law to take charge of Victor Manufacturing Company, Greens, S. C. He was successful and became the greatest cotton manufacturer in South Carolina, controlling seven big mills in Arlington, Columbia, Greenville, and Greens, S. C., with a total of 340,000 spindles and 8,564 looms,

representing a capitalization of \$4,910,000.00.

Without an exception these men found their big success in the community of their birth. All started in a very small way and used local capital to build the first units.

Where is the best place to succeed? "Right where you are, and with the implements at hand."—Southwestern Machinery.

Andrew Smalley, accompanied by his sister, Miss Bettye, spent the week end with home folks at Claude.

PEOPLE'S PHARMACY

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Lumber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

PANHANDLE CAN PRODUCE HOGS CHEAPER THAN ANY AREA SAYS LANDERGIN

Most people think of Landergin Bros., of Amarillo, Texas, as cattle kings, and they are. But Pat Landergin can be pictured in another role, that of a producer of well fattened swine, fattened on milo and Kaffir, and of as good a quality as can be put on the market off corn in the corn belt.

"Just at present California is draining the Panhandle dry of fat hogs," Mr. Landergin said at the stock yards today. "Somehow people seem to have overlooked the Panhandle of Texas as a great swine producing area, and it is a great one. Of course we have some corn there this year, but we do not have to rely on corn to fatten our hogs. I have had as good success fattening hogs on milo and Kaffir as I ever had with corn, and for cheapness of production nothing can beat these feeds."

The Pecos Valley country in New Mexico is coming into its own as a swine producing area, according to Mr. Landergin. Here there is an abundance of alfalfa under irrigation from the artesian wells that water that valley, and the climatic conditions are as good as farrowing and maintenance as the alfalfa and feed supply is favorable to the swine breeder and feeder supply is favorable to the swine breeder and feeder. Here, too, is another potential source of supply of stock hogs for Kansas City market, the place where the stock hog buyers naturally congregate for their purchases. Mr. Landergin says.

The movement of hogs from the Panhandle to California, very marked at this time, has made the Fort Worth and El Paso hog packers sit up and take notice and bid for Texas hogs, and Texas swine producers are sitting up and taking notice of the general situation. The swine show at Dallas last week was one of the biggest things on the state fair calendar and program.

E. W. Houx, president of the Kansas City Live Stock Exchange, looks on Texas, and the Panhandle and Pecos Valley in particular, as two of the greatest potential producers of stock hogs for the Kansas City market. Panhandle breeders and Pecos breeders are using good boars.

Pig club work has gotten results in the Panhandle, according to county agent reports made at Dallas last week to a representative of the Telegram who was in attendance on the fair, and these county agents are awake to the possibilities of Kansas City as the great market for Panhandle and all other Texas stockers.

The California demand may slump, and probably will. Texas breeders are convinced and they see in Kansas City a continual market for the well bred stocker hogs that can be produced so cheaply and easily in the Panhandle of Texas. The Panhandle always has its milo and Kaffir, and since farmers are convinced that these are as good if not better, feeds for hogs they have turned their attention directly to hogs and are making them pay big dividends.

The Oklahoma Agricultural and Mechanical College at Stillwater has demonstrated the advisability of fattening hogs on Kaffir and milo in preference to soy-beans and peanuts, and has demonstrated beyond a doubt that the maize can be used to excellent advantage in fattening hogs as well as maintaining them while getting them ready to be put on the Kansas City market as stocker hogs.—Daily Drivers Telegram.

EPWORTH LEAGUE SOCIAL

The members of the Senior Epworth League will enjoy a social Friday evening. At 7:45 immediately following choir practice, the League will meet in the auditorium of the Church in a business session. Some important matters must be taken care of; but the business will be finished within thirty minutes, and the meeting will be turned into a social affair. Miss Beatrice Story is superintendent of the Third Department, which is the one having charge of the social affairs, and she is making plans for the entertainment. An enjoyable time awaits everyone.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no straining for breath at night. Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head, eyes, and throat yield like magic. Don't stay snuffing and miserable. Buy Ely's cream.

A Thousand Ton Coal Sortage In Clarendon ! !

Clarendon and community are already a thousand tons short of their usual coal requirements and we are on the threshold of the winter. The summer has been extremely hot—the winter may be severely cold.

Besides the shortage, coal will cost you more later. You owe it to your family to prepare for their comfort in the coming winter months.

D. O. STALLINGS

PHONE 316 —THE COAL MAN— CLARENDON

GRIN—BUT DON'T BEAR IT

"He is one of the finest fellows you ever met. Never lets anything worry him. He is losing money every day, but you would never know it to look at him and hear him talk. He is no piker. He is a good loser."

I knew the man of whom my friend was speaking. He was, indeed, a good loser. He had considerable practice in losing. He had been in a number of enterprises and he had failed in every one of them largely because he met each situation with a smile—and nothing else. But because he smiled through smiling, because he always had a cheerful explanation as to why things did not go right—in short, because he was such a likable sort of fellow—he found money for new enterprises.

A cheerful disposition is all right in its way, but one must know how to handle it, and especially in business. I should not like to hold stock in a company with Pollyanna as president.

The notion seems to have grown up that what is called prosperity is purely a state of mind and can be beguiled into our midst by pretending that it is already here, by keeping a stiff upper lip, by chasing away the glooms, by calling a man a crape hanger who does not agree that everything is lovely by saying that the worst is past.

A considerable number of con-

cerns that have been kept alive by an oxygen-pumping process are going to be reorganized within the next six months. Likewise there are going to be many reorganizations of personnel. When a factory goes on part time only the best workmen applies all the way through business. The weak sisters, be they workers, executives, or corporations, must pass away. They always do pass; nothing has happened to make the world safe for the incompetent. Nothing will happen. We can pray that something may or we can say that something will happen. But it won't. The optimist is just as abnormal as the pessimist. One hopes too much and the other fears too much. Neither faces the facts.

What are the facts? There is today plenty of business for those who know how to get it. They are getting it. They are getting it not merely because they are optimistic, not even because they have faith in the U. S. A., but because they have gone out and got that business as individuals, from individuals. They adjusted themselves to the needs of their customers. They took losses, but they were not merry about them.

Business is bad, and it is bound to be bad, it ought to be bad, and it is going to keep on being bad for all those who are standing around waiting for something to happen. Business begets business. And who is going to get the final reward? The man who has made a scientific adjustment of his business and is

working, or the man who says he is manfully standing up and taking his medicine?

A Good business is not a "good sport." It does not sit and grin while its money is being taken away. It takes losses to heart and prefers to be known for a while as a bad loser, so that it can later be known as a good winner.

BRONCHOS LOSE FOOT-BALL GAME TO AMARILLO

The Bronchos lost to the Amarillo High School Saturday afternoon on the latter's grounds. The score was 28-0. The boys of the local High School, according to those who saw the game, were frustrated by the work on foreign grounds, and by no means reached their usual form; but at the same time they were working against a strong team. Thus far their record was one without defeat; but the coaches feel that the defeat will go a long way toward driving home to the boys some football principles that have been regarded lightly. The only serious injury in the game was the hurt which James Patman received on his head, causing him to be unconscious until the next morning.

Mrs. J. D. Browder, of Memphis, visited in Clarendon Sunday with her parents, Mr. and Mrs. Rufus Chamberlain.

Prince Albert's a new note in the joys of rolling 'em!

Talking about rolling your own cigarettes, we'll tell you right here that Prince Albert tobacco has 'em all lashed to the mast!

You've got a handful-of-happiness coming your direction when you pal it with P. A. and the makin' papers! For Prince Albert is not only delightful to its taste and pleasing in its refreshing aroma, but our exclusive patented process frees it from bite and parch!

And, for a fact, rolling up Prince Albert is mighty easy! P. A. is crimp cut and stays put and you whisk it into shape before you can count three! And, the next instant you're puffing away to beat the band!

Prince Albert is so good that it has led four men to smoke jimmy pipes where one was smoked before! It's the greatest old buddy-smoke that ever found its way into a pipe or cigarette!

Prince Albert is sold in tippy red bags, tidy red tins, handsome pound and half pound tin humidifiers and in the pound crystal glass humidifier with sponge moisture top.

WOMEN'S MISSIONARY SOCIETY NOTES

The Woman's Missionary Society has resumed its work for the year. All officers have taken up their labors with renewed energy and the outlook for a successful completion of the years work is very promising.

Mrs. Talley who has recently moved to Clarendon, is an experienced worker and has assumed the responsibilities of secretary for the Clarendon district.

The second Wednesday in October Mrs. Will Lott conducted a very instructive lesson from the Missionary Voice. At the conclusion of the lesson, Mrs. Burton, who was with us for the first time since her illness forced her to relinquish the work, introduced Mrs. N. G. Rollins of Abilene, who is our conference president. Mrs. Rollins is one of the leading women of the conference and made an earnest talk to the society regarding their duty towards christian citizenship.

On the afternoon of Wednesday the 19th, Mrs. Soelle opened her home to the society for a social meeting. The entire afternoon was very informal. Either chatting over their fancy work or omitting the work entirely if they desired.

This week we had our mission study. Mrs. Shawver, the very efficient study superintendent used an entirely new plan for presenting the new book, "The Kingdom and the Nations." The book is divided into six chapters telling of the needs and conditions of countries which should be the objective of our society in its work. The chapters were presented by six women, who had prepared their talks concisely and in the most interesting manner possible. Those assisting Mrs. Shawver in presenting the book were Mesdames Brogan, McCarley, Slover, Burton, Braswell and Edline. Miss Vaughn read a splendid paper prepared by Miss Howren, telling of conditions as she was impressed by them during her trip through the war torn countries of Europe this past summer. Additional pleasures were the special musical numbers. Miss Betts, Mr. Craig and Mr. Phillips rendered a beautiful trio and Miss Beatrice Story with her violin, as usual delighted every one. Miss Mattie Eva Lane presided at the piano for both numbers.

We had as our guests for the day several members of the Hedley society together with their new pastor and wife, also Mrs. Stanton of Goodnight, Rev. and Mrs. Fuller Bro. and Sister Griswold and their mother, Mrs. Ellis were presented to the society. It was a pleasure to greet them and bid them welcome.

Bro. Henson introduced Bro. Fuller of Hedley who spoke a few earnest words to us.

Much credit is due Mrs. Geo. Taylor and Miss Alta Long for preparing and serving the excellent luncheon. In truth it was a delightful day and well spent both spiritually and socially. Much inspiration was gained and may our society grow—come join us. Let us work together for good.

Reporter.

MISS BETTS ENTERTAINS FLORA FOREMAN CLASS

Miss Mabel Betts was hostess to the Flora Foreman class of the Methodist Sunday School Thursday evening at the home of Mr. and Mrs. C. A. Burton. Misses Pansy Lane and Maude Shaw were in charge of the entertainment, while Misses Alta Long and Myle Benedict provided refreshments. The evening was delightfully spent by Misses Maude Shaw, Beatrice Story, Kate Mendor, Nena Waters, Lottie, Pansy and Mattie Eva Lane, Mabel Betts, and Misses E. H. Alexander, C. A. Burton and Eva Betts.

STRICKLAND-STORY HAVE UNIQUE DISPLAY OF CAR

In order to gain as great amount of business as possible, Strickland-Story are offering a Ford car to the person holding the lucky number at the end of a sale to last the rest of this year. Friday evening they placed the car in their store, and it now stands on exhibition supported by some large timbers that are fastened to the sides of the store. Even so early in the deal, there is a growing interest in the affair according to the proprietors of the store.

J. W. Gordon returned Tuesday morning from Ft. Worth where his wife recently underwent an operation for mastoiditis. Mr. Gordon reports that Mrs. Gordon is getting along well at this time, and that they hope to have her home within the next two weeks.

At the last word received today from Nathan Cox, who has undergone an operation at Dallas, he was doing some better, although in the early part of the week, the best surgeons in Dallas thought it impossible for him to live. The operation was performed on the tube leading from the gall bladder to the stomach.
