REMAINDER OF BRICE HIGHWAY TO RECEIVE BLACK TOP

Work is now in progress preparing the remainder of the Brice Highway for black-topping. This includes the strip from the Donley County line to the intersection with the highway to Memphis.
Residents of Brice, Antelope and all around that area are quite jubilant over the prospects of the new bridge across Mulberry. The old structure has been torn away and they are now building the approaches for the new structure at the same location where the old bridge stood. Since this project is handled out of the Childers office, exact details are not available here, but it has been reliably understood that the construction company will finish the paving job and then turn back to the bridge construction just as soon as steel for the structure can be obtained.

DONATIONS NEEDED TO KEEP CEMETERY BEAUTIFUL

The Trustees of the Citizens Cemetery report their request for donations for the up-keep of the Cemetery were very gratifying up to this time; however, a number of lot owners have not as yet sent in their donations.

One electric pump has been installed and another will be soon as funds are available. When the two pumps are in, plenty of water should be available. Two men are working full time and another man is doing special work when needed.

The Trustees would like for everyone to visit the Cemetery this week end and see just what is being done in the way of keeping it in good condition. It takes a lot of hard work and a lot of money to make it so.
"You are urged to send in your donation as soon as possible and help keep our little Cemetery beautiful," one of the trustees stated.

FARMERS EXCHANGE CELEBRATING TWO OCCASIONS THIS WEEK

The Farmers Exchange, Grocery & Market, is doing a bit of celebrating this week by offering a big sale for their patrons' benefit as well as letting them know that there has been some changes made in both the ownership and the remodeling of the store itself.
Mr. Neely Hudson is now a partner in the firm with Howard Stewart who has been managing the business for a long number of years. It was formerly operated under the partnership of Stewart and U. J. Boston. Mr. Hudson is taking an active part in the business and will be on hand to greet his many friends during the sale and upon every day visits to the store.

The interior of the Farmers Exchange was enlarged a short time ago in order to give more display space and allow more room for shopping convenience. Read their page advertisement in this issue of the Leader for more particulars in regard to the sale.

HEDLEY GIRL EMPLOYED IN SOUTHERN ASIA

It's a long way from old Donley county to an oil town in Saudia Arabia in southern Asia near the Red Sea. Miss Zona Adamson, daughter of Mr. and Mrs. S. G. Adamson of Hedley recently made the journey by plane via New York City.

In this connection, are any other citizens of Donley County employed in foreign lands? If you know of any, kindly supply your Donley County Leader with their correct address.

CATTLE SPRAYING PROGRAM NOW IN FULL SWING

Cattle spraying program is in full swing in Donley county for the control of horn flies and to date H. M. Breedlove has sprayed three thousand head of cattle with the sprayer he has for his office. Nineteen sprayer machines are now owned by ranchers and farmers of Donley county and Breedlove says that this year the majority of all cattle in the county will be sprayed three or four times for the control of flies.

DDT is being used for the control of horn flies and the reduction in prices by manufacturers has made this program much more attractive to ranchers, dairymen and farmers.

In spraying with wettable powder, fifty percent powder should be used, and other liquid sprays should be used according to directions, Breedlove said, because of different strengths of the DDT content.

Anyone wishing information on the spraying of cattle with DDT should call by the county agents office.

School Closing Activities Begin Sunday, May 9th

So far, no comment from the Readers about letting the Editors write a guest column each. Let me hear from you at once, as one Editor has already volunteered. Drop me a card today. Should I take the risk?

Sometimes people fall out with us over a very small thing; sometimes people doubt us, and talk about us when they shouldn't; but there is one person that never loses faith in us. We can never sink so low but that person will believe that we will change for the better some day. Whether we do right, or wrong, and if the whole world forsakes us she will still love us. She may not approve of the things we do, but her heart will never turn against us. This person is our mother; your mother and my mother. Next Sunday is her day. A day set aside lest we forget, marked on the calendar to help us remember the 365 days in every year that she has always remembered us.

Had a nice card from Mr. Al Gerner of Lelia Lake. He assures me that I will have more readers down there than ever. I was afraid that after they saw me some of them would quit reading our column. I hope he is right. Anyway, I enjoyed the trip, and the eats, and the chance to meet so many nice people. Lelia Lake, the watermelon capital of the world, and I forgot to hint for an invitation to eat watermelon with some of them this summer. I meant to apologize for the amount Mr. Reed and Mr. Hunt ate and I forgot that. Also, Mr. Reed criticized the little poem that I wrote for the occasion. Anyway, apologies to everyone, and thanks again to all of you for the swell time.

As I am a farmer, and this is supposed to be a farm column and so far I have never mentioned the Flying Farmers, Willard Knox and Herbert Hunt gave me a good going over. They claim that the whole world would look different and better to me from the air. I don't have a thing against Flying Farmers, and I don't mind associating with them, on the ground that is. Anyway, I will write about them more, and they are nice folks, as a rule, on the ground, that is.

Somehow, I have the blues this week. It didn't rain again as the weather man promised. The wind has blown a gale from every direction. I haven't gotten many letters from the readers. Washington hasn't made even a single good promise all week. Mama is wanting to go set out some flowers, and I just as well do it now as later. Maybe next week will be different.

COUNTY DELEGATES NAMED—INSTRUCTED

The County Democratic convention was held Tuesday at the J. T. Patman & Son Insurance office and the following men were elected as delegates: J. R. Porter, Tom Connally, and Cap Morris. They were all instructed to support Harry S. Truman at the State Convention which is to be held at Brownwood.

Nancy Ann Bell who is attending college at Canyon spent the weekend with her grandmother, Mrs. A. T. Cole.

SERVICES HELD SUNDAY AT MEMPHIS FOR W. M. CRAIG, JR.

Funeral services were held Sunday afternoon for Willie M. Craig Jr. at the Methodist church in Memphis. Mr. Craig, age 42, was reported to have been killed almost instantly last Friday while he was working with a construction crew on a new REA line between McKnight and Wellington. He had been a resident of Donley County for the past two years.

He is survived by his wife and one daughter of Clarendon; his parents, Mr. and Mrs. W. M. Craig Sr. of Memphis and three sisters.

Pallbearers were Richard Cannon, George Bulman, Floyd Crofford, Buck Roberts, Pete Land, Guy Sibley, Wm. Jordan and Clyde Davis.

Burial was in the Memphis Cemetery with the Womack Funeral Home in charge of arrangements.

Clarendon Independents Win Over McLean

By John Gordon
The Clarendon Independents won by a score of 15 to 8 over McLean. Who are the Clarendon Independents? They are a club of ball players who, like many others over the country, are keeping baseball the Great American Sport. They are the fellows who will travel forty or fifty miles with a handful of scarred, cover torn baseballs, a few broken bats, to do battle with other ball teams. They are not the fair weather boys who play only when chance comes their way. They go looking for chances. They play for the love of playing. In all fairness does it not behoove Clarendon to get behind this ball club and back up their fighting spirits.

J. H. Spier, Jr., F. C. Crofford and Raymond Adams have worked earnestly in building this ball club.

COLLEGE STUDENTS SPONSORING DANCE TUESDAY NIGHT

Students of the Clarendon Jr. College are sponsoring a first class dance this coming Tuesday night at the Opera House and are inviting the public to come out and help them make it a big success.

They have secured a very good orchestra that needs no introduction here, the West Texas Collegians from Canyon. This band is capable of playing all types of music and especially the kind that you enjoy dancing to most.

The dance will start at 9 p. m. and the admission price is only \$1 per person and that is a very reasonable price to pay to get to dance to a band of this type.

The college committee in charge is urging everyone to get their party together and come up and have a big time. Don't forget the date is Tuesday, May 11th.

VACCINATE STUDENTS NOW, URGES P. T. A.

All parents who are anticipating having their youngsters vaccinated before school starts this coming fall are urged to do so now by the local Parent Teachers Association so the vaccination place will have plenty of time to heal before school starts.

Mrs. F. G. Patching who suffered a stroke last week, is in St. Anthony's at Amarillo and reported doing as well as could be expected.

Mrs. Victor Smith returned home Sunday from a visit with her daughter, Mrs. Harry Constantin at Levelland who has been real ill. She is improving.

Another school year is nearing an ending as evidenced by final examinations which began Wednesday, and scores of students in the local schools will rejoice next week when they wind up another year's work and look forward to a long, joyous summer vacation.

The Baccalaureate Sermon will be the first program to be held for the graduating classes. It will be delivered Sunday night, May 9th at 8 p. m. by Rev. Paul Wright, pastor of the local Presbyterian Church. The program will be held in the new gymnasium building. There will be 31 College graduates, 58 High School and 54 Junior High School students participating in this program.

The Senior High School will hold their class night Wednesday night, May 12 at the College Auditorium.

Commencement exercises for the Clarendon Junior College will be held on Thursday night, May 13th at the College Auditorium at 8 p. m. This year the occasion is more significant as it will mark the 50th anniversary of the establishment of a college in Clarendon. The graduating class will give their own program.

The Jr. High School exercises will be held Friday morning, May 14 in the Jr. High Auditorium.

The Senior High School graduating class will have its exercises Friday night, May 14 at 8 p. m. in the new gym building. Johnny B. Linn, prominent radio announcer for KGNC, will be the principal speaker for the occasion. This will be the last program in connection with the termination of the current school year.

City Clean-Up Drive Now In Progress

The City Clean-Up drive is now in progress - but not progressing very fast according to the city officials. Some people have already cleaned up their premises and stacked their trash in the alley but a large number have not adhered to the call as yet, they reported.

Everyone is urged to hustle around and join in the drive and clean-up all around their own place and help clean up adjacent vacant lots before the deadline which is Monday morning at which time the city truck will start its rounds to pick up the trash. After the truck has made your part of town there will be no return trips, the city officials stated and reminded further that you will be required to dispose of your own trash if you don't have it placed in the alley in time.

If you don't have time to do your own work, then hire someone to do it for you, but do your best to join your neighbor in this task as we want our little city to be clean and look its best at all times, they added.

FARM HOME BURNS SOUTH OF LELIA LAKE SUNDAY AFTERNOON

Fire which was discovered about 5 p. m. Sunday afternoon, destroyed the farm home in which Mr. and Mrs. Cecil Mills were living a few miles south of Lelia Lake. Josephine Mills, a daughter, was awakened from a nap by the fire and just did get out before it was too late. She received several painful burns before she reached safety. All of the Mills family effects were destroyed.

The farm where the Mills were living is owned by Carl Bennett Jr.

Mr. and Mrs. Johnny Johnson were Amarillo visitors Thursday.

THE TEMPLE OF TRUTH
By the Apostle

A politician is one who has what it takes to take what you have got.

When a man is tight, his mouth and morals are loose.

A miser is one who is willing to let the rest of the world go by.

Man is a strange animal. He always wants people to agree with him, but craves food that won't.

A preacher friend informs me that he really is getting somewhere with his preaching these days. He gives as his reason that the old man who formerly went to sleep during the sermon, limps out at the close with only one foot asleep.

This is the season for sending out graduate announcements with a desire. If you have that desire, be sure that you know and were courteous to the person to whom your announcement was sent. There might be disappointment. Besides, the friendly spirit just simply operates all the year.

Health Notes

AUSTIN—It is a tragedy that Texas parents continue to allow their babies to suffer and die from that painful and killing disease diphtheria. This is the opinion of Dr. Geo. W. Cox, State Health Officer, who says "It is up to the parents. If they protect their children with immunization, they need not have diphtheria."

Dr. Cox said that it is amazing that this disease should be allowed to take its toll of young lives when it can be entirely stamped out by proper immunization. Yet in the past week, 33 cases were reported in this state.

"Babies should be immunized by the age of eight or nine months," Dr. Cox advised. Authorities on the care of infants recommend a first dose by the age of eight or nine months, and sometimes as early as six months. A second dose is usually given later.

To maintain complete immunity, Dr. Cox said that a reinforcing dose of toxoid is advised when a child is old enough to enter school if a Schick test reveals the need of one. Children who have never been immunized certainly should be protected without any further delay, the State Health Officer declared, and added that the responsibility of the parents to save the lives of their children.

From where I sit ... by Joe Marsh

"What's Your Opinion, Mister?"

Fellow from one of those public opinion polls was in Andy's Garden Tavern, querying Andy's patrons on everything from that "new look" to the next election.

And it occurred to me that there's nothing more typically American than collecting other folks' opinions, as well as giving out with one's own. And from where I sit, it's a mighty healthy habit.

So long as people can discuss both sides of a question that comes up—whether it concerns short skirts versus long, beer compared with cider, or the larger issues of party versus party—we're sure of the individual liberty that has made this country great.

For it isn't differences of opinion that matter. The important thing is tolerance for differences of opinion—whether they affect the right of an individual to vote, to speak his mind, or enjoy a glass of beer. They're all parts of the freedom that we cherish!

SERVEL Lasts Longer Because It Freezes With No Moving Parts!

Yes, that's right! Servel DOES have a proven permanency vouched for by thousands of Panhandle people. Owner after owner tells of Servel Gas Refrigerators which have given up to 15 years of uninterrupted, faithful freezing. An owner of a 1934 Servel Gas Refrigerator says he has not spent a single penny for maintenance of any kind. Furthermore it is as silent as the day it was first put into service.

The reason for Servel's long life is its method of freezing with NO MOVING PARTS. All the work is done by a tiny, low cost natural (or liquid) gas flame. So there's nothing to wear out or get noisy.

But dependability and silence are just the start, for Servel is also a beauty. Its modern cabinet styling is unexcelled and its convenience is all one could ask for. It has plenty of ice cubes in its trigger-release trays. It has a convenient Servel meat storage tray. It has dew-action vegetable fresheners ... a handy egg tray and flexible interior arrangement with sliding shelves adjustable to eleven different positions. Plastic coating on shelves keeps them rust-free, scratch-free and makes them easy to keep clean.

And, Servel's nationally famous low operating cost drops even more in the Panhandle. For we Panhandle folks, luckily, live near the heart of the world's largest gas fields and so enjoy unusually low natural gas rates.

To see a Servel is to want a Servel ... with good reason why!

CO-OP TRACTOR TIRE!

CONTROLLED: QUALITY — PRICE — CONSTRUCTION

The unusual lug design of this big husky tire is what gives your tractors more pull, less waste motion. Firmly buttressed to the heavy undertread, these deep rectangular lugs are powerfully braced to give extra years of service. They bite in, they forge ahead, regardless of soil conditions.

Each lug meets the soil squarely, assuring a full bite of the tread from shoulder to shoulder.

Scientific spacing and curvature of the lugs forces mud and clay out as the wheel turns. Mud pockets don't form. You get positive traction in any type of soil.

Strong plies of powerful cord fabric give this tire the inner strength to support the massive lugs, take punishing treatment without weakening of the tire.

FARMERS MANUFACTURE OWN HEAVY DUTY TIRES
 During the war, while tires were being rationed due to general shortages throughout the country, literally millions of people became acquainted with the Co-op Heavy Duty tire. This tire is manufactured by farmers in their own molds and distributed through the farmers own distribution system—his Co-op. More than 3,000,000 farmers have banded together through their 5,810 cooperative organizations to own their own tire manufacturing process as well as their own refineries and oil wells and hundreds of other facilities making and distributing farm supplies.
 According to Mr. F. O. Naylor, manager of the Donley County Consumers, a farm cooperative operating in this community, the quality of this Co-op Heavy Duty Tire has been greatly improved while the price is much lower. A higher percentage of natural rubber has been incorporated into this tire, according to Mr. F. O. Naylor, and it is even better than ever.

Look who gets squeezed!
 Union leaders representing less than one-tenth of railroad employees reject recommendations of President's Emergency board—refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employees, have called a railroad strike that would paralyze the nation.
 These leaders refuse to accept a 15 1/2 cent an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman.
 This increase of 15 1/2 cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employees have accepted. They have called a strike to get more!
Unions refuse rules discussion
 Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more—they demand that the railroads put into effect ALL the changes they asked for, including those the Board felt should be denied.
 On top of this, they insist that certain rules changes proposed by the railroads be withdrawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these arbitrary terms.
Greater wage increase not justified
 Engineers and firemen are among the highest paid of all employes in America, as figures in the box show. This strike threat doesn't justify giving a greater increase than other railroad workers received.
 Emergency Boards are a means provided by the Railway Labor Act in the public interest to avoid strikes. The President's Board,

In contrast, this small group of railroad union leaders are attempting to flout the intent and spirit of the Railway Labor Act, and dictate their own terms.
 They have dictated a paralyzing railroad strike.
 You will be the victim!
 How long will the American public stand for the undemocratic, arbitrary, and abusive use of the right to strike and the disregard of the obligation to provide transportation? How long can the American people permit a few dictatorial union leaders to defy the processes provided for peaceful settlement of disputes?
 Force seldom produces settlements that are either fair or lasting. Moreover, a point is often reached when personal interests must be held subordinate to the greater public welfare. That is why the railroads have accepted the Emergency Board recommendations. That is also why the leaders of these three unions should reconsider their decision to call a paralyzing strike.

Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15 1/2 cent per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.

Weekly SURPLUS NEWS WAA

Production equipment such as machine tools and industrial machines are in the war surplus spotlight again during the month of May. In Texas and the southwest such equipment has been held from sale pending a screening by a special armed forces committee which earmarked a considerable portion for an emergency reserve. Some, however, now has been released and is to be offered on a competitive bid basis to all buyers. Sales of a total of \$600,000 worth of such equipment have been scheduled to be held at the McAlester, Okla., Naval Depot and the Grand Prairie Dal 6 Warehouse during the latter part of May. In each case a thirty day inspection preceded the sale to allow priority claimants ample time to select items needed and also to alert the armed forces to make additional withdrawals. Another smaller machine tool sale is to be held at Camp Gruber.

Congressional proposals for the withdrawal from surplus and reactivation of Camp Maxey, Camp Gruber and Sheppard Field will halt indefinitely any further disposals of real property at these

sites. Any personal property deemed unneeded for the possible reactivation will probably be disposed of by the War Assets Administration. In many cases, WAA officials have pointed out, it is a greater saving to the government to market and remove surplus, scattered stores of surplus property, than to continue the cost of stor-

our own hall of fame

We would like to create a special hall of fame for good telephone users. These are the folks who use the telephone party line sharingly. They respect their neighbors by not talking too long nor too often. They always replace the telephone on the hook after talking. Our hall of fame would include courteous children—considerate teen-agers—neighborly adults. This would be a gallery of really good neighbors—don't you agree?

COMMUNITY "C" IN THE AAA PROGRAM

Community "C" is one of the largest communities in Donley County. It covers the land around Clarendon, extending south to the County line and west to the county line on the other side. This includes the part of the JA ranch located in this county.

The three community committeemen representing this community are Melvin Rampy, Forrest Sawyer, and Luther Byars. These three men are as busy help-

ing with triple A work as any of the community committeemen in the county. It is their duty to see that the practices are carried out and reported properly for Community "C".

Some of the practices being carried out in this community are extensive. There are 322 pounds of grass seeds being drilled by Luther Byars, Frank White Jr., and C. E. Bairfield. John Gillham, Joe McMurtry, Melvin Cook, and R. E. Drennan planted 2186 pounds of Austrian Winter peas which are being turned under

now. Simmons Powell, Frank White and C. A. Wright are applying 1400 pounds of superphosphate to their winter legumes and pasture grasses. Lonnie Wood, R. E. Drennan, and John Gillham planted 800 pounds of Hairy Vetch under the AAA winter legume practice. There is one farmer planning to control bindweed by spraying 2-4, D, that is John Gillham who has been issued an approval for control on 15 acres. There are 30 miles of large ridge type terraces being constructed by Forrest Sawyer, Oscar Kerr, Harold Phelps, Thomas Speir, Melvin Rampy, Charles Bugbee, Charles Wright, Gordon Bain, Dennis Lindley, Claude Moore, Wilson Dolman, and J. L. Talley. Tom Shadle and W. G. Tims are constructing 5500 ft. of diversion terraces.

This is only the beginning of the program year and there are

many farmers planning to carry out other practices this year such as strip cropping, leaving stalk and stubble on the land, eliminating of destructive plants, constructing dams and tanks, and drilling wells for livestock water.

Mrs. Mildred Ritter, Secretary of the Donley County ACA has recommended that anyone wishing to carry out the practice of strip cropping make application for this practice before they start planting. There is some money left in the AAA funds for this practice and anyone who carries out this practice to the specifications set up by the state office may receive payment as long as there are funds left.

Mr. and Mrs. Bert Smith Jr. and Mr. Bert Smith left Friday for Dallas where Mrs. Smith will receive a check-up in the Baylor Hospital Clinic. Bert Smith Sr. has returned home.
