

ALMOST 2,000 VOTES POLLED IN DONLEY COUNTY SATURDAY

J. L. BAIN IS ELECTED COUNTY JUDGE BY SMALL MAJORITY. MISS LOTTIE LANE RECEIVES GOOD MAJORITY FOR DISTRICT AND COUNTY CLERK. BRUMLEY AND CRANE TO BE IN RUN OFF FOR SHERIFF. VOTE POLLED IS ABOUT SEVEN HUNDRED MORE THAN TWO YEARS AGO.

The results of Saturday's Democratic primary have been tabulated, and preparations are being made for the run off which will be next month. There was much interest in this something more than 1,900 votes being polled. J. L. Bain will be the next county judge and Miss Lottie Lane the next county and district clerk as the result of Saturday's vote. The run off in the sheriff's race will be between Harry Brumley and W. L. Crane.

Of the county races the judge's race was most exciting, as it was not apparent until the last which candidate would receive the nomination. Early results gave Alexander a considerable lead on Bain both in this box and several boxes in the county, Hedley being the only notable exception to this. With the completion of the count in this box, Bain nosed out with 468 votes to 458 votes for Alexander. The total of the county's vote gave Bain 993 and Alexander 938 votes.

Much interest centered in the clerk's race also. The first few votes counted in this box seemed to give W. E. Bray, the present incumbent the lead, but after the first forty votes that were counted Miss Lane took the lead and gained gradually until the final count in this box stood 264 to 565 in her favor; the county wide results gave Miss Lane a vote of 1159 to 782 for Bray.

In the sheriff's race Brumley began to climb from noon after the first count in the whole county, while the race ran fairly evenly in this box with Rutherford leading and Crane holding second place. In the county the vote stood 828 for Brumley, 562 for Crane and 549 for Rutherford.

Naylor defeated Allison for tax assessor by a vote of 1338 to 574. Other county offices were uncontested.

Considerable interest centered in the District Judge's race with Bishop carrying the county by 1289 votes to 506 votes for Pearson. Judge Bishop also carried Randall and Armstrong counties by large majorities which gave him a majority of almost 1,200 over Pearson in the district. Pearson carried Potter county by 64 votes according to Amarillo papers.

Lloyd Fletcher will be the next district attorney by virtue of the large vote that he rolled up in Potter county. In this county, however, Flesher led Fletcher by 958 to 806 votes.

Among the candidates for the state offices, in this county Mayfield won a large plurality receiving 695 votes, while Cullen Thomas was a low second with 332 votes. Clarence Ousley was third, getting 278 votes.

Rogers led the ticket in this county as candidate for governor, getting 822 votes, while Neff followed with 705 votes, Warner was a low third with 191 votes.

W. A. Johnson, of Hall county, led the ticket in this county for nomination as lieutenant governor, having received 631 votes. Col. Billie Mayfield was second with 508 votes.

Kerr was the favorite for state treasurer, receiving 436 votes, while C. V. Terrell was second with 379 votes.

In the race for commissioner from this precinct, J. H. Harn won a large plurality, receiving 360 votes, while G. A. Anderson, the second man received 222 votes.

In the race for representative from this district Dewey Young, of Collingworth county received 1,056 votes in this county, while H. B. Hill, of Shamrock, present incumbent of the office received 591.

Ed Dishman, of Hedley, was elected the county chairman of the Democratic executive committee.

The latest returns from the state-wide election give the following report:

Dallas, July 26.—With more than a half million votes accounted for when the Texas election bureau closed Tuesday night, Ferguson was leading Culberson by 19,792 votes for second place in the senatorial race. The run of the returns since Monday noon has been continuously in favor of Ferguson as Mayfield's opponent in the run-off primary of August 26, and Culberson's defeat is practically certain.

Tonight the vote stood: Culberson 90,357; Ferguson 110,240; Henry 37,647; Mayfield 140,259; Ousley 51,589; Thomas 77,094. The vote accounted for totals 507,095.

**MISS MARTIN HOSTESS
TO HOUSE PARTY HERE**

Miss Helen Martin was delightful hostess to a progressive house party here last evening. Those composing the party are friends who met while students at T. W. C. The party began down in the state and has continued to be held in the various cities, and will end in Medicine Park, Oklahoma. Miss Fray Stallings and Miss Helen Martin returned yesterday morning from Memphis where the last party was held and were accompanied by Misses Georgia and Lily Castleberry, of Vernon; Miss Beulah Stroud, of Memphis; and Miss Gottys Quinby, of Wortham. They left for Claude today where the party will continue.

SITNER BACK FROM MARKET

Harry Sitner returned Sunday evening from market where he purchased the fall stock of ladies ready-to-wear for his style shop. He marketed in St. Louis and eastern markets.

SOMETHING TO THINK ABOUT

In Saturday's primary election, about seven hundred more votes were cast than two years ago. The vote was approximately 1,950 as compared with approximately 1,250 two years ago.

Donley County has never known a crop failure. Rain will surely come.

People are coming west from the east in search of work, for their crops have been destroyed by floods or boll weevil. Can you remember when the people traveled the opposite direction in search of work?

The tourists comment on Clarendon as a city of shade trees. And some of them take time to express their gratitude for the nice camp grounds with the building that they can occupy in case of stormy or rainy weather.

The democratic run off will be Saturday August 26th.

Less than half a dozen ballots were so mutilated that they would not be counted in this voting box Saturday.

Half the ballots in Donley county were cast in the Clarendon voting box Saturday. Some people have suggested that the box should be divided.

Conservative oil men feel encouraged over the prospects of oil in Donley and consider that the chances are exceedingly good.

July 1922 has had some of the hottest weather ever known here, the temperature on one day being 107 in the shade.

Clarendon's latest addition to the corporation limits is of approximately two hundred and eighty acres and one half million dollars valuation.

The public school grounds are being cleaned up.

Work is going on day and night on the new school building in order to have it ready for occupancy by the beginning of the next school term.

The Wisdom sisters are, without doubt, the greatest religious singers that have sung in a revival meeting in Clarendon.

The Clarendon News was first to tabulate election results in this county.

Several radio telephones have been installed in Clarendon and are working successfully. Some of them are powerful enough to pick up messages off the high seas.

Work will commence on the improvement of Clarendon's water system as soon as the material arrives. The railroad strike is delaying the shipment of most of the necessary material.

Clarendon completed its several blocks of paving three years before the cities nearby. Many of them are just now commencing their pavement.

The Clarendon News has the largest circulation of any weekly paper in this part of the state.

The advertising merchant is the one on whose wares you can depend. He has faith in them and will stand behind them else he would not advertise.

Mrs. C. E. Griggs and daughter, Miss Oma returned last week from a visit with relatives and friends in Vernon.

Mrs. J. R. Griggs, of Vernon, is visiting here this week with the C. E. Griggs family.

D. T. Dewell and daughter, Miss Frances, are in Clovis this week on business and visiting with friends.

ELECTION DAY IS A BUSY ONE IN CLARENDON

MANY PEOPLE HERE ON THE DAY FOR CHOICE OF THE CANDIDATES ALTHOUGH THE BUSINESS MEN REPORT TRADE WAS NOT LARGE.

Election day proved to be as big as the old time circus days. In part this may be accounted for by the fact that the Clarendon voting precinct is a very large one, extending several miles east, west and north, and reaching into the JA ranch southwest and the Hudgins community to the southeast. Some idea of the size of the crowd may be got from learning that 945 ballots were cast in the primary.

Kearney and the other streets were crowded with cars during the day, and the crowd had not appreciably diminished when the returns began to be received and posted on the bulletin board on the north side of the Long drug store. Evening proved a time for giving vent to enthusiasm. Whenever returns came in indicating an increase in the vote of several candidates, their supporters would applaud vigorously. At midnight there were still several hundred people watching the board and listening for the latest from the county, district and state; and it was surprising to some that some two hundred people were there to hear the last announcement which was made at two o'clock in the morning.

Although the crowd was a very large one, the business men state that the day was not unusual from the business standpoint. The candidates and their campaigners were busy making the last effort to roll up the much desired majority.

The day was not different from many others that we have had as regards the weather. With no sign of rain, the sun poured down and the mercury stood around the one hundred mark.

MANY TOURISTS ENROUTE TO THE MOUNTAINS NOW

Many tourists are enroute to the mountains and cooler climate now. Almost any evening now one can pass by the grounds in this city and see eight or ten cars parked for the night. The travelers come from all parts of this and other states, and are going both to the mountains of Colorado and New Mexico.

Many of these tourists have interesting stories to tell. For instance, last week "Rambler Jack" and "Princess Tiny" camped here.

"Rambler Jack" is a graduate chemist from South Carolina and is connected with the Government's chemical warfare division. "Princess Tiny's" claim to distinction is her diminutive figure; her height is forty-eight inches and she is traveling to the mountains with her husband "Rambler Jack."

There are others traveling across the country who are to be sympathized with. Many of them are crossing the country in the big old wagons of bygone days. They are poor people from the east who have lost their crops and are coming into the west for work. Have you stopped to think how this is the reverse order from a few years ago? Then those who came out and settled on the "barren claims" in the west came back east in search of work when their crops failed; today those who have lost their crops in the east are coming to the west in hunt of work and sustenance.

**BUTLER AWARDED MAIL
CARRYING CONTRACT**

John W. Butler, who is carrying the mail from this city to Brice on the star route, has been awarded the contract for carrying the mail from the trains to the post office. Various plans have been tried for getting the mail from the depot to the post office, but it seems that this plan will prove the most successful.

REVIVAL MEET- ING REALIZING GOOD RESULTS

SEVERAL CONVERSIONS HAVE RESULTED AND MUCH INTEREST IS MANIFEST. REV. HENSON ASSISTS. WISDOM SISTERS SING.

The revival meeting which is in progress at the Methodist church in this city is realizing good results with several conversions thus far and much interest manifested in every service. Dr. J. T. Griswold, the pastor assisted by presiding elder J. R. Henson, the past two days, is doing the preaching. The Wisdom Sisters, of Macon Missouri, are rendering special music of the greatest kind, while a good choir is assisting in making the meeting a success. The day services are being held at ten o'clock each morning, while the evening services commence at eight fifteen o'clock.

The large crowds that have been attending attest the favor with which Rev. Griswold's evangelistic messages are being received; and like results were realized when Rev. Henson filled the pulpit. Much favorable comment is being heard on the singing of the Wisdom Sisters. They are considered among the most famous gospel singers on the continent, and well do they merit that distinction. Their voices blend to make a trio of the highest quality, and their interpretation of the religious songs together with their distinct pronunciation combine to make gospel singing of the highest character.

Personal workers are busy at every service, and everyone feels that more conversions will result before the close of the meeting. Rev. Griswold is preaching his sermons with a force that calls the sinner to repentance and brings back the backsliders to a working relation with his religion.

The stewards of the Methodist church are meeting at the Methodist parsonage each evening at eight o'clock for a short prayer service just preceding the preaching hour. The ladies are holding prayer meetings in the various sections of the city; while the young people are meeting at the church each evening at seven thirty o'clock for a short prayer service following which Miss Lottie Wisdom talks to them on the various phases of personal work in the meeting.

The meeting began Sunday before last to run for two weeks, and will be closed Sunday evening. Although much good has resulted, those interested feel that there is much more work to be done; and everyone, of whatever denomination, is invited to join in the services.

NEWS MAKES FIRST ELECTION TABULATION

The News is glad that it can offer in this issue a complete tabulation of Saturday's primary election. Of course the results were phoned in from most of the boxes Saturday night, but it was not until Monday that the returns were brought in. But by the time that the returns were beginning to arrive Monday, the News began the tabulation of the vote. It was not until Tuesday morning that the tabulation was completed owing to the tediousness of the work. The county executive committee will meet Saturday afternoon to canvass the vote, but it is very improbable that the official work which they do will materially change the results as given by the returns.

COLLEGE QUARTET RETURNS FROM TOUR

The Clarendon College Quartet, composed of Messrs. John Thompson, P. W. Walker, William Craig and Cecil Peoples, returned to this city Thursday from its summer tour. The boys report a delightful trip during which they made cities in this part of the state and in New Mexico. The last week of their trip as planned had to be abandoned on account of the illness of John Thompson, who was suddenly taken ill with appendicitis.

COMPANY H 142ND ENTRAINS AT NOON TODAY WITH ORDERS TO RE- PORT TOMORROW TO CAMP MABRY

SIXTY MEN ARE UNDER THE COMMAND OF CAPT. NAT PERRINE. FIVE COMPANIES ARE ON THE SPECIAL TRAIN. OTHER COMPANIES HAVE REPORTED TO STRIKE HEADQUARTERS AND IT IS BELIEVED THESE MAY DO SO.

MISS MILDRED MARTIN AND WEATHER- LY RECIPIENTS OF MANY SOC- IAL AFFAIRS ON VACATION

Misses Mildred Martin and Winnie Weatherly, who are enjoying a vacation in central and south Texas, have been the honorees of many social affairs given by their friends. Below are the accounts of several such entertainments at Blum, the stories being taken from the Blum Bulletin:

Miss McCullough Entertains

Honoring Misses Mildred Martin and Winnie Weatherly of Clarendon, Miss Agness McCullough entertained with a progressive "84" party, Friday afternoon from four to six. The house was beautifully decorated with Mexican zinnias and Shasta daisies.

Misses Minnie Dea Coffin and Vesta Chrisman gave several piano selections. Delectable refreshments were served to the following: Mildred Martin and Winnie Weatherly of Clarendon, Myrtle Hess of Sherman, Mary and Maurice Taylor, Myrtle Mae Andrews, Minnie Dea Coffin, Clara and Vesta Chrisman, Ione and Velma Read and Agness McCullough.

Swimming Party

Miss Clara Chrisman gave a swimming party for Misses Mildred Martin and Winnie Weatherly of Clarendon.

The guests met at the Chrisman home at 5 o'clock and at 5:30 o'clock they left in their cars for Nolan river. After a long swim in "Blue Hole" a picnic lunch was served to the following: Misses Mildred Martin, Winnie Weatherly, Maurice and Mary Taylor, Minnie Dea Coffin, Clara and Vesta Chrisman, Ione Read, Vivian Hanks, Vera Tucker and Myrtle Mae Andrews, Messrs. John Coffin, Leland Fry, Dorsey, Read, Crockett Wornel, John and Sidney Files and Joe Martin.

Entertains With Luncheon

Friday at 12:30, Miss Ione Read gave a luncheon at her home in honor of her guests, Misses Mildred Martin and Winnie Weatherly of Clarendon.

The home was beautifully decorated with cut flowers, the color scheme being yellow and white; a lovely center piece of Shasta daisies adorned the dining table.

Covers were laid for Misses Mildred Martin and Winnie Weatherly of Clarendon, Clara Chrisman, Agness McCullough, Velma and Ione Read.

VOTERS TURN IN GOOD BALLOTS

That the voters are coming to understand the process of balloting better as the years pass is seen from the fact that there were few ballots which could not be counted in the primary election which was held Saturday. E. A. Thompson, who was presiding judge of the election in the Clarendon box, states that there were less than half a dozen ballots that could not be counted; this is realized as a particularly low percentage in view of the fact that 945 ballots were cast. This must go to show that we are learning as the days go by.

BAND CONCERT TO BE GIVEN TUESDAY EVENING

The Clarendon Band will give a short concert Tuesday evening on the steps of the Y building. This will be their first appearance since the 4th of July and everyone is invited to be present. The concert will begin at 7:45 o'clock and will last for thirty minutes.

Mr. and Mrs. Al Kennedy of Tur- key are visiting Mr. and Mrs. Chas. Speed.

Misses Viola and Ella and Glen Casey, of Abilene, visited here the first of the week with their brother, Clifford Casey. They were enroute to Oklahoma.

Mr. and Mrs. Homer Mulkey, Miss Zell Ryan and Lee Casey motored down to the Harle ranch in Hall county Sunday. Miss Ryan will visit there for two weeks.

Mrs. Homer Speed of Clinton, Oklahoma is visiting Mr. and Mrs. Charlie Speed.

Company H of the 142nd Infantry entrained this morning for Camp Mabry so far as their orders read. There was an air of mystery about the whole affair, and the fact that several companies of the Home Guard have already been sent to the strike centers leads many to believe that they will be sent to some such place. The company was under the command of Capt. Nat S. Perrine.

On the special train which arrived shortly before noon were also companies E of Hereford, F of Canyon, G of Amarillo and Headquarters company of Claude.

Sixty men were in the company as it left, and are in good shape. It had been the intention of the National Guard authorities to train the companies of Texas at Camp Mabry for two weeks this summer; but with the serious situation of the railroad strike in many places, many of the companies have been used to protect the lives of the men who are working to keep the trains going while the strikers are trying to prevent such work.

The fact that four companies have state rangers have been sent to Childress and like points, leads some to wonder if the companies entrained today will not see like service, although their officers had no orders at the time of leaving other than to report to Camp Mabry.

According to the original orders the company was to have entrained yesterday; later orders came saying to start there tomorrow; then telegrams were received yesterday asking that the company leave today. With the air of mystery that surrounds the whole affair, the local people are anxious to see the outcome.

COLEMAN ON STAFF OF UNIVERSITY PUBLICATIONS

Oswald Coleman, son of Mrs. J. H. Rutherford of this city, returned Sunday evening from Austin where he has been attending the University of Texas. Oswald has acquired prominence among the student as a writer as is evidenced by the fact that he has been selected as an issue editor of the Daily Texan for next year and is also associate editor of the Longhorn Magazine. Oswald has also been successful in selling some of his stories to the magazines.

J. F. Jones, a prominent farmer of the Sunnyview community, was in this city yesterday on business. Mr. Jones says that corn in the sandy communities is still in good shape and will make well if we get a rain within the next week. Feed in such places is also in good shape, and the cotton is doing fine.

Alvin Osborn, of Munday, one of the graduates of Clarendon College this last commencement, returned to this city Monday and is now being apprenticed to the art of photography by photographer J. R. Bartlett.

Mrs. Brokaw and little daughter, of Houston, are visiting here this week with their friends, the Misses Lane.

Misses Viola and Ella and Glen Casey, of Abilene, visited here the first of the week with their brother, Clifford Casey. They were enroute to Oklahoma.

Mr. and Mrs. Homer Mulkey, Miss Zell Ryan and Lee Casey motored down to the Harle ranch in Hall county Sunday. Miss Ryan will visit there for two weeks.

Mrs. Homer Speed of Clinton, Oklahoma is visiting Mr. and Mrs. Charlie Speed.

BE CHARITABLE

Brethren, if a man be overtaken in a fault, ye which are spiritual, restore such a one in the spirit of meekness; considering thyself, lest thou also be tempted.—Gal. 6:1.

Those Mayfields are some runners. Nowhere in the stars is there a sign of defeat.

It is reported that a merchant in Clarendon has been approached in an effort to have one of his employees discharged on account of his vote and influence in Saturday's election. Is this Russia or America?

Eleventh or twelfth hour campaign lies seldom do the cause of the perpetrator any good. Most intelligent people resent the telling of any "cock and bull story" against any candidate on the eve of an election.

The people of Texas greatly facilitated the protection of railroad property and workers Saturday when they gave Gov. Neff a majority over all his opponents. In short order the state troops were on their way to do their duty.

The Amarillo News, having fought for the lost cause of Thomas, has announced that it will support Mayfield against Ferguson in the second primary. A monster bandwagon has been prepared to hold all those who supported their favorites in the first race, and Mayfield will win hands down in the run-off.

But when all the hullabaloo is over, man in his calmer frame cannot but feel that there is no activity or line of endeavor that will make for his present peace of mind and future security of soul, like following in the footsteps of Jesus of Nazareth. It is a duty that every man owes his Maker, his neighbor and himself.

For the first time in several years the local election passed off without anybody jumping on the Clarendon Chamber of Commerce. Some people either had their mind off their business or the organization must be a little lame just now. The best recommendation that a chamber of commerce can have is to be cussed by the "aginer" and reactionary element of its home community.

The first primary is over and so far as we have heard there has been no personal encounters over the men and issues. True, it takes several days for the hot-heads to cool off, but with the thermometer standing over a hundred every day, with the heat sapping human energies, The News predicts that the danger is past and that except for the interest in the run-off on Aug. 26th, the conversations of the street will soon be normal again.

As we have said before the unionists and the railroads are both in the wrong, but the unionists are unfortunate in having made a test case against the government. Pub-

lic sentiment is aroused against them and the reign of anarchy that the radicals are trying to bring about. They will lose and lose without recourse, as they should, then will come the final battle and victory for the public—the lowering of freight rates on all commodities especially those that effect the farm products of the nation.

Germany denied the atrocities charged against her. Union leaders say their men have committed no act against the men who are working at the jobs they have spurned. As near as Childless the strikers have flogged several strike-breakers, according to a reputable citizen of that city, and neither newspaper or the correspondents of the state dailies have seen fit to report it to the world. Such a condition is unbearable and will result in the complete overthrow of the present-day union organizations if continued. The solution to the case is to be American and force those to be American who prefer to be bolshevik.

Old Jim Ferguson polled enough votes to prove that Texas ought to do a little home missionary work as well as sending missionaries to the heathen. When an old cuss like Jim can poll over a hundred thousand votes in a race where there are five other men better mentally and morally than he is there is still work to be done right here in Texas. Sometimes statistics dishearten. When we made Texas dry and in later years have seemed to see the state become a more moral commonwealth, it stuns just a little to have over a hundred thousand men and women back such an "unregenerate son" (to use Jim's own words) as Jeems. But, mark you this—Ferguson polled his strength generally speaking, in the first primary and the vote on August the 26th will prove to his benighted mind the utter uselessness of ever offering for any office in Texas again.

BARRIER TO REFORESTATION

Approximately two hundred and fifty million feet of standing timber are to be found in the southern pine forests of the South Atlantic and Gulf states, extending between Virginia and Texas. This sounds like an immense quantity, but it is not so very much when the immense quantities consumed are considered.

Southern pine is heavy and strong surpassing in strength and stiffness all other soft woods. In hardness and durability it is unexcelled by other woods of its class when exposed to the weather or in contact with the soil. It is tough, straight-grained, does not warp or split in seasoning, and can be had in large sizes and lengths, well manufactured.

It is not surprising, therefore, that in America the place of southern pine in manufacture and building construction is such that it is about 33-1-3 per cent of all lumber consumed, while in normal times enormous quantities go to Europe, South America and Africa.

There is no scarcity of southern pine now and no likelihood that it will be immediately exhausted, but the supply must be maintained and even increased, for the demand for it never slackens. Much reforestation has been and is being done, and it is generally appreciated that this work must not slacken.

The attitude expressed at conventions of lumbermen shows that lumber manufacturers are both willing and anxious to do their part in safeguarding the timber resources of the country, so as to insure a permanency of lumber supply.

According to J. E. Rhodes, secretary-manager of the Southern Pine association, lumbermen generally want to do their part toward insuring a permanent timber supply for the country, insisting only that requirements fixed by the authorities to govern timber cutting shall permit of natural regrowth, be economical, feasible and practical, and that the system of taxation of standing timber and of lands bearing regrowth during the requisite 40 to 100 years must be adjusted so as to make it possible for private owners to co-operate.

It is the contention of Mr. Rhodes that the "present system of annual taxation is an absolute barrier against the adoption of any forestry principles whatever," and that there must be a radical change in taxation methods to produce trees for future generations.—Ft. Worth Record.

Misses Etta and Ida Harned are in Chicago where they are purchasing their fall stock of millinery and spending a short vacation.

ANNOUNCEMENTS

The Clarendon News is authorized to announce the following candidates for the offices under which their names appear, subject to the action of the second Democratic primaries in August:

FOR SHERIFF:
 W. L. CRANE
 HARRY C. BRUMLEY.

FOR COMMISSIONER PREC. 2
 G. A. ANDERSON
 J. H. HURN

FOR COMMISSIONER PRECINCT 4:
 F. B. THOMAS

FOR PUBLIC WEAVER PRECINCT 5:
 W. M. COTHRAN

JUST CONSIDER A MOMENT

The bank deposits of the United States exceed by millions the combined bank deposits of the whole world outside of this country.

We have more actual cash than any other country.

Our national wealth at the time of the civil war was about seven billion dollars; at present it is about 225 billion dollars.

In a single year we produce by manufacture and agriculture more than the entire national wealth of France.

England's wealth is only 80 billion dollars as against 225 billions for the United States.

Of the wheat in the world we produce 22 per cent.

Of all the oats in the world we produce 35 per cent.

Of all the cotton 60 per cent.

Of all the corn 80 per cent.

Of all the horses 25 per cent.

Of all the cattle 27 per cent.

Of all the hogs 40 per cent.

Of all the world's dairy products 25 per cent.

One half of all the world's pig iron is taken from the earth in the United States.

Fifty percent of the world's copper.

And sixty per cent of the world's petroleum.

Besides this we produce 55 per cent of the total production of the woollens of the earth.

Twenty-five percent of the linens.

Twenty-five percent of the cotton cloth.

Forty-five percent of the glass.

Thirty-six per cent of the shoes.

Fifty per cent of the steel products.

And we do this having but 5 per cent or one-twentieth of the world's population.

MANY FACTORS AFFECT COST OF HOMEMADE BREAD

Tests in the experimental kitchen of the United States Department of Agriculture show that the quality of flour used, the retail price paid for it, the method of buying, whether in small quantities or by the barrel, the bread formula used, the kind and price of fuel, the sort of oven used, and the number of loaves made at a time are all factors affecting the final cost of the homemade loaf of bread.

In case of a batch of five loaves for which materials were bought in small quantities and which were baked in an uninsulated gas oven when the gas cost \$1.20 a thousand feet, a single pound loaf was found to cost 7-1-3 cents. The recipe called for shortening, sugar, and compressed yeast. Milk was not used in the formula tested and would have increased the cost of the bread.

A batch of eight loaves was made by a more economical formula, and all materials, though bought at retail prices, were purchased to better advantage. "Strong" flour which gives a high bread yield was selected and it was bought by the barrel, as the farm women would be likely to buy it. Dried yeast was used, shortening was omitted, and the baking was done in a kerosene range. Under these conditions the cost of a 1-pound loaf was only 14-5 cents. The details and figures obtained in these tests are available upon application to the department.

Don't be what you ain't;
 Jes be what you is,
 If you is not what you am,
 Then you am not what you is.
 If you're just a little tadpole,
 Don't try to be a frog;
 If you are just the tail,
 Don't try to wag the dog.
 You can always pass the plate,
 If you can't exhort the preach,
 If you're just a little lake,
 Don't try to be the beach.
 Don't be what you ain't,
 Jes' be what you is.

WHEELER CO. COMMISSIONERS PLACE WORK BEFORE PEOPLE

The Wheeler county board of county commissioners published in the Texan at Shamrock last week an annual exhibit of the county's finances, showing each voucher written during the year, to whom paid and the amount. No man in Wheeler county need guess about where the county money goes, for the published report tells him. County commissioners make a mistake when they try to keep the official business of the county out of the papers, because it costs a few dollars to publish them. Each session of the commissioners court should be published, giving a brief statement of

1 1/2 H. P. BATTERY EQUIPPED

at a new low price \$4480

F.O.B. FACTORY

Come in and see the new "Z." Its remarkable value is due to scientific study and the large production facilities of Fairbanks, Morse & Co. Delivers more than rated horse power; operates on gasoline alone; has simple, high-tension battery ignition; hit-and-miss

governor; new type, safety flywheels and quiet-running, spiral-cut gears. Wonderfully simple—no complicated parts. A truly sensational value. See it without fail.

the business transacted, the money paid out and to whom. Other states do this. The cost to the county is small; the publicity given cannot be computed in dollars and cents. It is a service to the people of the county that they want—Canadian Record.

FOR SALE—Alfalfa hay; new crop and bright green. E.M. Ozier. (21tf)

Reduced Lighting Rates

The following reduced electric lighting rates are now in effect.

Minimum \$1.80, 10 kwh.....	allowed
Next 40 kwh.....	18c
Next 50 kwh.....	15c
Excess	13c

The cost of fuel, labor, freight, supplies, etc., are almost double what they were before the war. Some of our costs like labor are more than double. The price of electricity with this reduction in effect is less than 10 percent higher than it was before the war. We find that there are very few businesses with prices as near pre-war prices as is the electric business.

Clarendon Light & Power Comp'y

"GHOSTS WHAT AIN'T"

The majority of us run our own ghosts factories. In our minds we manufacture "ghosts what ain't"—then spend our days and part of our nights in

RUNNING FROM THEM

The man who seriously studies his problems—uses sane judgment, and utilizes all the expert assistance obtainable, need have no fear of "ghosts what ain't" or of ghosts what is."

It is part of our business to help you Scare your financial ghosts away,—and we like to see them run.

THE SPEARMAN FARM LANDS

located in Terry, Gaines and Yoakum Counties, South Plains of the Panhandle, Texas, are now being offered at prices and terms, which will enable any industrious farmer to buy and pay for a farm with less money than pay rent. Productive lands, a fine climate, abundance of good pure water, and a country in which one man raises more cotton, more corn and more sweet potatoes and other farm products, than a whole family can gather. No insect pests. We make landlords out of our customers instead of renters. Farmers who are anxious to own their farms, are invited to come to Seagraves, inspect our farm lands, look at the crops, and talk to the men who raise them.

A card to W. A. SoRelle, General Agent, 4 Santa Fe Building, Clarendon, Texas, will bring you a descriptive pamphlet, giving detailed information about these lands and plan of purchase.

A reliable agent wanted in each county. (28-3-tfc)

Indigestion? Try Ironized Yeast

Do you suffer with indigestion or dyspepsia? Are you troubled with that uncomfortable bloated feeling after meals? Are you bothered with frequent headaches, gas, nausea, or chronic constipation? If so you should lose no time in trying Ironized Yeast, which has brought amazing relief to thousands of stomach sufferers. Simply take two tablets with each meal. Then watch the results. See how your appetite immediately improves. Note how quickly the bowels become regular—how painful and distressing symptoms of indigestion disappear. In a remarkably short time you will have no thought of stomach trouble. Eating will become a pleasure. You can get real joy out of every bit of your food. Get Ironized Yeast today. Then experience the blessed feeling of being able to eat a hearty meal without the least thought of discomfort. To try Ironized Yeast entirely free simply mail postcard for Famous 3-Day Test. Address Ironized Yeast Co., Dept. 103, Atlanta, Ga. Ironized Yeast is recommended and guaranteed by all good druggists. Sold by CITY DRUG STORE.

INTERNATIONAL PATRIOTISM

BLISS PERRY

The unpatriotic man is not the internationalist; he is the citizen of any country who does not care what is going on beyond his own village so long as his own dinner pail is full. If he is an American, what makes him unpatriotic is not that he holds this or that view in regard to this or that policy; what makes him unpatriotic is the belief that the good father at Washington will attend to all that and it is not any business of his.

The visionaries are the men who can see nothing in the world except the chariots and the horses and the future campaigns. The visionaries are the men who have forgotten their multiplication tables, and forgotten history, and ignored human nature, and believe that it is safe to play with fire, who under the pretense of taking no chances are making chances; who are doing as they did in Melrose the other day—piling dynamite on a wagon, and then giving the wagon to a boy to drive. Those, I say, are the impractical men. The advocates of peace have with a clear vision, with steady forethought and purpose, been building a straight road for the nations of the world to walk in, and that road can be seen by every man.

Our foreign friends in making the acquaintance of other Boston institutions should not fail to take notice of the Boston policeman.

He is one of the finest specimens of his profession; he speaks softly and he carries his "big stick"—in his pocket. He is patient, he is respectful, he is self-respecting. Now when the white-gloved hand of a policeman on one of our dangerous narrow crossings is raised, the whirling electric car and the murderous automobile and the laden dray stop, so that our women and children may go safely over. We respect the policeman, not because he is the embodiment of arbitrary, despotic force, but because he represents the peace sentiment of the citizens of Boston. Now we advocates of peace are not impractical enough to believe that the time has yet come when we need no police at the

world's cross roads. We do need policemen in Armenia and in the Congo Free State; but we ask that they shall not be sent there by greedy powers or through the chivalry of a single nation. We ask that they shall stand there as the embodiment of international law, and backed by international public opinion.

We have used the Boston policeman as a type; let us use the Boston subway as an allegory. A few years ago Tremont Street was in a state of hopeless confusion—turmoil, blockade, warfare, nothing less. One day some one began a quarter of a mile away from Tremont Street to dig a hole in the ground. He had the subway in his mind—and to-day men are carried from the suburbs of the city to the heart of the city by a swift and safe and pleasant course. Now when you return to your homes you will be able to tell your friends that you have been riding in the Boston subway, and you can also say that you have been helping yourself to dig a bigger and a better subway than that, namely, the road that leads straight from heart to heart of the great nations of the world—the road of goodwill. It is hard to do that kind of digging year in and year out. There is the solid rock of opposition still to be blasted. But But we must remember that all the poetry does not belong to the men of war. We must praise this road that we are building against the shifting sands of popular sentiment, drifting, changing with the hour. But the road has already been marked, and the proceedings of the last five days have given another yard or another hundred yards to it; and those forward steps once taken can never be retraced. We have no right to say, in those solemn words that Tolstoy prints at the head of his pamphlet, "This is your hour, and the power of darkness." Perhaps we have not yet won the right to say, "This is our hour, and the power of right," but we can at least say with St. Paul, "Brethren, now is our salvation nearer than when we first believed."

The Clarendon News' Americanization series

(Editor's Note—The articles appearing in the above space from week to week are taken from "Americanization" by Elewood Grison, Jr. This excellent volume, which is a collection of articles upon the general theme of patriotism and good citizenship, is presented to the schools of Texas by the Bodies of Scottish Rite Masonry in Texas.

PLAINVIEW MERCHANTS ORGANIZE LAST WEEK

In order to deal promptly and directly with the problems which pertain exclusively to them, merchants of Plainview completed yesterday the permanent organization which will be composed of representatives of each line of business of the city. Saturday afternoon, the first meeting was held, and it was then definitely decided to perfect such an organization, and E. H. Humphreys, C. G. Stubbs and David Neal were appointed members of a committee to interest other merchants to attend the permanent organization meeting Monday afternoon.

The Monday afternoon meeting opened with a general discussion of the purpose and plans of the organization. After which the work of organizing was gone into. Charles Reinken was elected President; E. H. Humphreys, vice-president; and E. B. Miller, secretary-treasurer. At a meeting it was thought wise and expedient to have a board of directors, the membership of which will be composed of representatives of each line of business in Plainview. It is proposed to have one man from each line of the Board of Directors. This board is designed to meet problems quickly and promptly and take immediate action in cases of emergency. Chas. Pierce, W. E. Boyd and D. D. Neal were appointed a committee to canvass each line of business and secure the name of the representative each line of business desired for the Board of Directors.

It has been suggested that as far as possible, the different businesses should organize themselves into groups as the groccymen, lumbermen, dry goods men, etc., each of these groups to form a unit of the main organization. No name has as yet been applied to the organization, though it will likely be something similar to a Business Men's Organization.

The organization will deal with problems which affect them exclusively and it is not intended that the new arrangement should interfere with the recognized activities of the Chamber of Commerce or with those of the Board of City Development. Such problems as holiday agreements, trade extensions and customs, bad checks and the like will be those with which the organization will have to deal.—Plainview Evening Herald.

HALL COUNTY FAIR ASS'N. MAKING IMPROVEMENTS

The management of the Hall County District Fair is busy now, arranging for the four days exhibition September 19th to 21st, inclusive.

Indications are that the fair which is this year a district attraction, open to entries from Hall, Donley, Collingsworth and Childress Counties, will far surpass anything yet attempted in the fair line in this part of the state.

Ten lots have been purchased by the fair association, joining the present grounds on the west at the northwest corner, which will give additional room of 140 to 250 feet, to be used for attractions and concessions.

A new and larger agricultural building will be erected, and the present building will be used exclusively for the poultry department, which is expected to be large this year. The new building will give ample room for the exhibits from the other counties now included in the fair territory.

A new horse and mule barn is to be erected. Heretofore, the horses and mules have been quartered in the cattle barn. The new building will give additional and ample room for both departments.

Plans are under way for a large merchants exhibit hall, to be erected by local merchants, who will have permanent exhibit spaces in same.—Hall County Herald.

Read the advertisements.

Deviled Spanish Green Olives

Here's a little hors d'oeuvre that may be prepared in a few minutes. It's novel and tasty. The family will enjoy it, and so will the guests. It's one of those "surprise" appetizers that labels your dinner "unique and charming." Pit large green olives and fill with the yolk of hard-boiled eggs mixed to a paste with a little butter. Lay an olive on a strip of bacon, sprinkle with paprika and a tiny pinch of mustard, roll up, fasten with toothpick and broil just long enough to crisp the bacon. "Serve on toast fingers."

THE VOLCANOES OF HAWAII

The entire group of Hawaiian Islands, twenty in number, extending in a chain for hundreds of miles, is of volcanic origin, says the World Almanac, though some of the islets and reefs are but the wave-battered remnants of volcanoes whose fires died out long ago. The island of Hawaii has been formed by the coalescence of many recently formed volcanoes. The walls of the crater of the active volcano of Kilauea, on the island, are broken down on one side, giving access to its "lake of fire." This volcano has not always been gentle in its ways, but it is now so well behaved that the visitor can stand safely on the edge of its fiery pit and, if the volcano is active, watch the molten rock boiling and spouting 100 to 300 feet below. Sometimes many fountains throw up jets of glowing sulphurous lava and light up with ghastly glare the frowning crags that rim the crater. Then, suddenly and with deafening detonations, the jets rush together and convert the lake into a burning, seething, roaring mass, making a scene to which few others in the world are comparable. Mount Loa, on the island of Hawaii, and a neighboring volcanic cone, Mauna Kea, both nearly 14,000 feet above sea, are among the highest island mountains in the world. On the other islands of the Hawaiian group there are volcanic mountains scarcely less interesting. The crater of Haleakala, in the summit of East Maui, 10,000 feet above sea level, is one of the largest extinct craters in the world and is as well preserved as if its fires had been extinguished but a few years instead of perhaps several hundred years ago.

The active volcanoes of Hawaii give a wonderful demonstration of the processes by which all these island mountains have been built up from the great depths of the ocean. Since the days of Capt. Cook, geologists and others who are interested in the problems of volcanoes have visited the Hawaiian Islands and written about them. Near the base of these mountains of igneous rock lie fields of sugar cane, which are just now of special interest. They are supplied with water from mountain streams and from wells and drainage tunnels that tap underground supplies.

HALL COUNTY FARMERS TO HIRE WHITE LABOR

The question of securing labor for the gathering of the crops in this county this fall was discussed at length by the Farm Labor Union at its meeting here last Saturday.

Hall county has the largest cotton acreage in its history this year and with a fair yield will have almost double the usual crop. Conservative estimates place the probable yield at between 60 and 75 thousand bales.

In view of these facts the matter of securing adequate labor was discussed by the convention, the consensus of opinion being that every effort possible should be made to secure the needed labor without bringing in negroes, as was done last year for the first time.—Memphis Democrat.

STRIKE PREVENTS CATTLE SHIPMENT

Sam Harle brought in two carloads of calves Friday and loaded them for shipment; because of the strike situation the railroad refused to accept the shipment, so Mr. Harle was forced to unload them and take them back to the ranch.

A shipment of cattle from the Griffith ranch, in Collingsworth county were brought in Saturday; but were refused shipment because of the uncertainty of the strike situation.—Memphis Democrat.

POSTED NOTICE

The public is hereby warned that hunting and wood hauling is forbidden in the R. O. pasture. All trespassers will be vigorously prosecuted. (tf) W. J. Lewis

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffing, blowing, headache, dryness. No struggling for breath at night, your cold or catarrh will be gone. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

Blame mental fatigue Kellogg's on over-eating! CORN FLAKES are the ideal summer diet!

Over-heavy foods cause more illness during the summer weather than any other thing you do! Simplify your diet. Men, women and children will work and play and sleep better if they'll switch-in on Kellogg's Corn Flakes and plenty of cold milk and the delicious fresh fruits now in season!

Kellogg's are wonderfully refreshing—and nourishing—and always mighty crisp and delicious for any meal. Let the little folks eat as much of Kellogg's as they want, for Kellogg's Corn Flakes digest quickly and easily and rest the stomach.

Be certain to get Kellogg's—the original Corn Flakes in the RED and GREEN package which bears the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it!

Pearson Appreciates Support

To the People of the Forty-seventh Judicial District:

I wish to thank the people of the Forty-seventh Judicial District, composed of the counties of Donley, Armstrong, Randall and Potter, for their generous support in the recent primary. I believe in democracy and accept the verdict of the majority with good grace.

We should all unite in the support of those in authority, to the end that law and justice may prevail, thus securing to every citizen the full enjoyment of true liberty and happiness and the safety and protection of his person and his property, none of which is possible of full realization except in a well-ordered society. Believing in tolerance, I concede and respect the right of every citizen to exercise his own choice, and this right, I hold, is one of the chief virtues of true democracy.

Our courts should always administer the law fairly and impartially, without favor, for only when the courts are so administered can they have or do they deserve the respect and support of a justice-loving people.

(Signed) PERRY S. PEARSON.

TO THE PEOPLE OF DONLEY COUNTY

I wish to take this means of thanking you individually for your support, good words and friendship shown me in my campaign for Sheriff.

You gave me a nice lead of 258 votes over second man, Mr. Crain for which I am very grateful to the people of Donley County. In my 22 years which I have lived in Donley County I have always tried to make the kind of a citizen that you would like to have for your neighbor.

In the run off primary I am going to make a clean race as I have in the one just past and further solicit your vote and influence, and if elected promise my very best efforts to make you a good sheriff.

TO THE VOTERS OF DONLEY COUNTY

Again I thank you, H. C. Brumley. (30c)

TO THE VOTERS OF DONLEY COUNTY

This is to express my sincere appreciation of the handsome majority that you gave me in Saturday's primary. For those who supported me I have unbounded gratitude; and I hope to be of such service to those who did not support me that they will never regret my election. With best wishes for everyone and the desire to be most useful, I am, Sincerely, Lottie E. Lane. (30c)

Read the advertisements.

TO THE VOTERS OF DONLEY COUNTY

I take this method of expressing my thanks to my friends for the support they gave me in Saturday's primary and also for the many courtesies extended me during my term of office. I feel under deep obligation for all these favors, and have tried to merit them. Sincerely, J. H. Rutherford.

We want to renovate every old mattress in the county. Whipple Produce Co. (30c)

OPTIMISM CHARACTERIZES BUSINESS DEALINGS NOW

One has but to listen a moment to hear the note of optimism that is being sounded by everyone. Despite contrary predictions, business on the whole is as good as it was during the summer season last year, and everyone is looking forward to a great fall.

Donley county has more cotton planted than ever before, and although the corn crop has been materially shortened by the hot dry weather, the cotton crop is growing fast with prospects of a bountiful crop. Some of the farmers report that when the hot winds strike, the cotton sometimes shows the effects,

but that the growth continues nevertheless.

Such a crop assures much ready cash this fall, and as one prominent business man said this week, a good part of the value of the crop lies in the labor that it will require to gather it; for it is well observed that the cotton pickers do not carry all of their money to the next town, but spend a good portion of it in the country where they work.

Again by reference to the bank statements which were published last week, one can readily see that the loans are a low figure, and within two months money from this year's crop will begin to be realized.

It seems, then, that there is basis for the optimism that characterizes business these days. The farmers say that not many of them have much money, but they will soon have. The business men say that they are just about getting by, but they expect a good business this fall. And the bed rock of Normalcy is being approached, it is recognized that everything is now getting on a firm basis from the crash of 1920. With the gathering of the bountiful harvest and the sale of cattle at prices that mean money to the cattleman, the first almost certain and the latter assured for this fall, watch Donley step ahead.

NOTICE OF SALE OF REAL ESTATE UNDER ORDER OF SALE

STATE OF TEXAS COUNTY OF DONLEY

In the District Court of Hall County, Texas. W. P. Dial, Plaintiff, vs O. C. Brown and The First National Bank of Groom, Texas.

Whereas, by virtue of an order of sale issued out of the District Court of Hall County, Texas, on a judgment rendered in said court on the 6th day of June, A. D. 1922, in favor of the said W. P. Dial and against the said O. C. Brown and The First National Bank of Groom, Texas, No. 1179 on the docket of said court, I did, on the 27th day of July, A. D. 1922, at 10:30 o'clock A. M., levy upon the following described tracts and parcels of land situated in the County of Donley, State of Texas, and belonging to the said O. C. Brown and on which The First National Bank of Groom, Texas has an inferior lien to wit: a certain elevator property situated in and near the town of Jericho in said Donley County, Texas, and being one complete grain elevator located on the right-of-way of the C. R. I. & G. Ry. Co., in the town of Jericho, and all equipment, out-buildings and machinery belonging thereto and used in connection therewith, together with all leasehold and rights of occupancy of said right-of-way held and used in connection with said elevator by the said defendant O. C. Brown, and being the same property conveyed, transferred and assigned by W. P. Dial to the defendant O. C. Brown by an assignment in writing of date November 7th, 1918, which is of record in Donley County Deed Records; and on the 5th day of September, A. D. 1922, being the first Tuesday in said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m., on said day, at the courthouse door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said O. C. Brown and The First National Bank of Groom, Texas, in and to said property.

Dated at Clarendon, Texas, this 27th day of July A. D. 1922.

J. H. Rutherford, Sheriff of Donley County, Texas. (30c)

RED PEPPER HEAT STOPS BACKACHE

The heat of red peppers takes the "ouch" from a sore, lame back. It can not hurt you, and it certainly ends the torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers.

Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

THERE'S ENOUGH RED IN OLD GLORY TO SUIT ME

There's a flag in our Nation with colors red,
It's the banner of strife, anarchy and dread;
It's the flag of rebellions, battles and strife,
Where it is floating they will often take life;
It was brought to this country as you may know,
The seeds of anarchy it always will sow.

Old Glory has been floating since Seventy-Six,
Don't change for a red one and get colors mixed;
Washington carried it in the olden time,
And the Dough Boys carried it over the Rhine.
Here's to the flag with colors red, white and blue,
There's nothing can change it, there's no room for two.

Then which flag shall we serve, which one will it be,
Will it be Old Glory that stands for the free?
Shall it be our Banner, the one we adore,
Or a red one that came from a foreign shore?
Stand up for the colors, unfurl them to the breeze,
And down with the red one from over the seas.

We love the Banner our forefathers bore,
And our Dough Boys carried to a foreign shore;
It is the flag of freedom that floats on high,
Under those colors let us live and die;
Down with the red one, trample it to the dust,
Hoist the Stars and Stripes o'er the land of the just.

Now which flag shall we follow, which one is right,
Shall it be one that stands for hunger and strike?
Let's follow Old Glory and all give a cheer,
Down with the red one, there's no room for it here;
There is only one flag for our land and sea,
There's enough red in Old Glory to suit me.

CHORUS

There's enough red in Old Glory to suit me,
The colors blend so well,
And they all look so swell,
There's enough red in Old Glory to suit me.

E. O. DEXTER, Okemah, Okla.

COMMON SENSE

There are two kinds of sense in men—Common and Preferred, plain and fancy. The common has become the greatest asset of mankind; the preferred its great liability. Our forefathers had large holdings of the common, certain kings and their favorites of the preferred. The preferred represented an immense bulk of inherited superiority. It always drew dividends whether the common got anything or not. The preferred holders ran the plant and insisted that they held a first mortgage on it. When they tried it foreclose with military power to back them some of our forefathers got out.

Now is the last three years have taught us anything it is this: The Superman is going to be unseparated. Considering the high cost of upkeep and continuous adulation he does not pay. He is in the nature of a needless tax upon human life and security. His mistakes even, to use no harsher word, have slaughtered more human beings than there are in the world. The born gentleman and professional aristocrat, with a hot air receiver on his name, who lives in a tower of inherited superiority and looks down at life through hazy distance with a telescope has and can have no common sense. His disposition is above reproach; he is a brave soldier; he knows the habits of the grouse and the stag; he can give an admirable dinner; he is acquainted with the history and principles of international law; he can obey orders, but when international law becomes international anarchy and the orders are worthless he is not big enough to disobey them and find the way of common sense through an emergency. He has not that intimate knowledge of human nature which comes only of a long and close contact with human beings. Without that knowledge he will know no more of what is in the other fellow's mind and the bluff that covers it, in a critical clash of wits, than a baby sucking its bottle in a perambulator. He fails, and the cost of his failure no man can estimate. He stands, discredited. As a public servant, he is going into disuse and his going vindictive, at last, the judgment of our forefathers regarding like holders of sense preferred. It is a long step toward democracy and the security of the world.

My friend, be of good cheer. The God of our Fathers has not been Kaisered or Krupp'd or hurried in the least. The shouting and the tumult dies. The captains and the kings depart. Still stands Thine ancient sacrifice, The humble and the contrite heart. Oh, God of Hosts, be with us yet, Lest we forget—lest we forget.

Lest we forget that the spirit of man has been lifted up out of the mud and dust of the battle lines, out of the body tortured with pain and weariness and vermin, out of the close companionship of the dead into high association on the bloody altar of liberty and sacrifice.

Lest we forget the high spirit of our own boys and our duty to put our house in order and make it a fit place for them to live in when they shall have returned to it from battlefields, swept, as a soldier has written, by the cleansing winds of God.—Irvin Bacheller.

JUST BE WHAT HE MADE US

What do you care about the scandal monger? Nothin'. Just smile at him. Ain't he puttin' you on the map? All you need worry about is that what he says isn't so. Everybody'll find that out by an' by an' then you'll be better off than ever—if you keep on smilin'. The man who knocks you'll help you more than the man who boasts you, because the booster's likely to paint things up just as much as the knocker and when folks find out you're not a white winged angel, they may wonder if you're an angel at all. Opinions don't cut much figure anyhow, an' there's no use trying to stop folks from havin' 'em because they're like measles, bound to be. We don't have to improve on what God made us. If we just be what he made us, we'll be about all right, an' he made us to smile, particularly on the poor fish of a silly corner gossip.—Exchange.

HENDRIX MEMBER OF STATE CLUB COUNCIL

County Agent Roy W. Hendrix left Thursday evening for College Station where he is attending the A. & M. summer short course. Mr. Hendrix left two days earlier than did the other representatives from this county, due to the fact that he is a member of the State Club Council.

IDEALS

Ideals are of two kinds. There are those that correspond to our highest sense of perfection. They express what we might be were life, the world, ourselves, all different, all better. Let these be high as they may! They are not useless because unattainable. Life is not a failure because they are never attained. God Himself requires of us the unattainable: "Be ye perfect, even as I am perfect!" He could not do less. He commands perfection! He forgives us that we are not perfect! Nor does He count us failures because we have to be forgiven. Our ideals also demand of us perfection—the impossible; but because we come far short of this we have no right to count ourselves as failures.

What are they like—ideals such as these? They are like lighthouses. But lighthouses are not made to live in; neither can we live in such ideals. I suppose they are not meant to shine on us from afar, when the sea of life is dark and stormy, perhaps to remind us of a haven of hope as we drift or sink in shipwreck.

But there are ideals of another sort. As we advance into life, out of larger experience of the world and of ourselves, are unfolded the ideals of what will be possible to us if we make the best use of the world and of ourselves, taken as we are. Let these be as high as they may, they will always be lower than those others which are perhaps the veiled intimations of our immortality. These will always be imperfect; but life is not a failure because they are so. It is these that are to burn for us, not like lighthouses in the distance, but like candles in our hands. For many of us they are too much like candles—the longer they burn, the lower they burn, until before death they go out altogether.

At first you will have disappointments and sufferings the world one side, unattainable ideals of perfection on the other. But by degrees the comforting light of what you may actually do and be in an imperfect world will shine close to you and all around you, more and more. It is this that will lead you never to perfection, but always toward it.

As one clings to himself despite the evil that is within him, so he must cling to the world despite all the evil that is in the world. To lose faith in man, not in humanity; to see justice go down, and not believe in the triumph of injustice; for every wrong and more the fairness and beauty of what is right; and so to turn with ever increasing love from the imperfection that is in us all to the perfection that is above us—the perfection of God; this is one of the ideals of actual duty that must be as candles in our hands.

Many a time will these candles go out; as one can he must snatch any torch within his reach and relight them. And by and by our candles will all begin to burn low. For as we advance far on into life, one by one our active duties end, one by one the lights go out. Not far ahead of us must always lurk the great mortal change, coming always nearer, always faster as it approaches. One must look less to his candles, more toward his lighthouses—those distant, unfailing beacons that cast their rays from the calm ocean of the infinite.

NOTICE TO FARMERS

Farmers owning land in Donley County, who have outstanding indebtedness against it which is due, past due or to become due within the next five months are eligible to a loan from the Federal Land Bank of Houston, at 5-1-5 per cent interest.

For particulars inquire of C. E. Killough, at Donley County Abstract Office, across street east of Court House. (33pd)

TRUTH IS NOT POETRY

As a rule people line up on matters of public contention according to self interest and even a neutral is apt to find himself under fire from both sides. When a court judge, whose duty it is to balance the scales of justice as between conflicting interests renders an opinion there are people who would impeach his honesty and fairness merely because such rulings fail to comport with their personal interests and preconceived notions.—Amarillo Tribune.

Miss Sallie Hightower, of Wichita Falls, formerly deputy clerk in this county for some two years, arrived here Friday morning for a visit with friends. She was enroute home from a vacation spent in Colorado.

RULES FOR FORETELLING THE WEATHER

A Rising Barometer
The following rules for foretelling the weather have been compiled from the best official sources here and abroad:

A rapid rise indicates unsettled weather.

A gradual rise indicates settled weather.

A rise with dry air and cold increasing in summer indicates wind from the northward; and if rain has fallen, better weather may be expected.

A rise with moist air and a low temperature indicates wind and rain from the northward.

A rise with southerly winds indicates fine weather.

A Steady Barometer
With dry air and reasonable temperature indicates a continuance of very fine weather.

A Falling Barometer
A rapid fall indicates stormy weather.

A rapid fall with westerly wind indicates stormy weather from the northward.

A fall with a northerly wind indicates storm, with rain and hail in summer, and snow in winter.

A fall with increased moisture in the air, and heat increasing, indicates wind and rain from the southward.

A fall with dry air and cold increasing in winter indicates snow.

A fall after very calm and warm weather indicates rain with squally weather.

The barometer rises for northerly winds, including from northwest by north to the eastward for dry, or less wet weather, for less wind, or for more than one of these changes, except on a few occasions, when rain, hail or snow comes from the northward with strong wind.

The barometer falls for southerly wind, including from southeast by south to the westward, for wet weather, for stronger wind or for more than one of these changes, except on a few occasions, when moderate wind, with rain or snow, comes from the northward.

Weather Wisdom

A gray, lowering sunset, or one where the sky is green or yellowish green, indicates rain. A red sunrise, with clouds lowering later in the morning, also indicates rain. A halo occurring after fine weather indicates a storm. A corona growing smaller indicates rain; growing larger, fair weather. A morning rainbow is regarded as a sign of rain; an evening rainbow, of fair weather. A deep-blue color of the sky, even when seen through clouds, indicates fair weather, a growing whiteness an approaching storm. Fogs indicate settled weather. A morning fog usually breaks away before noon. Unusual clearness of the atmosphere, unusual brightness or twinkling of the stars, indicates rain. The first frost and last frost are usually preceded by a temperature very much above the mean.

QUANAH ABOUT OUT OF WATER

The water supply of the city has been so depleted that it is necessary for consumers to use as little as they possibly can get along with. This morning the water was cut off, but turned into the mains from 10 a. m. to 1 p. m. After today it is probable that water will be turned into the mains one hour each day.

The suggestion has been made to the city council to fix the rate for residences at \$1.00 for the first 1,000 gallons, \$2.00 for each succeeding 1,000 gallons. It is believed that this will discourage the unnecessary use of water and permit the accumulation of the city tank full at all times.—Quanah Tribune-Chief.

ONIONS DO WELL IN DONLEY COUNTY

That onions are a paying crop for Donley county has been proved time and again this spring. Recently the News started a little onion contest, and the exhibits have proved the thriftiness of the crop. Monty Garrison picked five or six onions at random from his garden the other day, and they averaged about a pound each. The experience of the onion growers as evidenced in the "Magic Valley" of the Rio Grande. At the rate of yield of the three rows of Mr. Garrison's onions, an acre of onions at the market would yield two hundred dollars.

Mrs. J. D. Barrow, of San Antonio, is visiting here with her father, E. E. Moore and her sister, Mrs. Charles Speed.

Buick Takes Care of Buick Owners

Buick responsibility does not end with the sale of a Buick car. It follows the car throughout its entire life.

That is why Buick has organized a nationwide authorized Buick service that extends to practically every city, town and village in the United States.

Buick owners do not need service often. But they have the comfortable feeling of knowing that they can always be supplied with genuine Buick parts and have their work done by Buick-trained mechanics wherever they may happen to be.

PROMINENT CHURCH WORKERS ON PROGRAM OF BAPTIST ASSEMBLY OF AUGUST 2 TO 11

The complete program for the Third Annual Session of the Panhandle Baptist Assembly has been given out by Rev. B. F. Fronberger, general manager of the Assembly. The dates are August 2 to 11, and the meeting place is the new Encampment Grounds which were bought last winter for this purpose.

The following the special lecturers and leaders during the encampment:

Sunday School—Rev. E. D. Morgan, Normal Annual; Miss Vera Hunt, Plans and Programs; Rev. L. L. Burkhalter, Seven Laws of Teaching; Rev. Harlan J. Matthews, What Baptists Believe.

W. M. U.—Miss Johnny Swann, All the World is All the Word; Mrs. B. T. Johnson, Conference Work.

Educational—President E. B. Atwood, President J. A. Hill, President J. D. Sandefer.

Doctrinal—Rev. E. F. Adams. Inspirational—Dr. George Green, Dr. H. W. Virgin.

Devotional—Rev. Layton Maddox, Early Morning Watch Services.

Musical—Mr. M. H. Keith, General Director.

CLIPPED HERE AND THERE

A Jack London memorial in the form of a library of books dealing with the West is being sponsored by an Oakland, California club. The building, built of stone and steel, will be located near London's ranch home at Glen Ellen, California.

A kerosene carburetor, which has been invented by a Danish bicycle maker, is used both on motor cars and airplanes. Less fuel is needed and there is no carbonization.

Skim milk, thickened with coconut oil, to replace the butterfat of which it has been robbed, is widely sold in condensed form, according to reports. This oil lacks the vitamins that the original cream possessed and results obtained from feeding it to growing children and babies are described as disastrous.

Fossil remains of mammals and dinosaurs have been discovered in the Desert of Gobi, China, by the third Asiatic expedition. No dinosaurs had ever been found in Central Asia and very little is known concerning the fossil mammals of that region.

The lettuce crop alone in the Imperial Valley of California, in 1922 brought the growers a gross income of \$5,000,000.

INEFFACEABLE TRUTH

The principle is founded on human justice that any man has a right to quit work if he pleases and the same principle of right and justice holds true that any man who wants to work and can find a job has a perfect American right to work free from molestation or intimidation.—Amarillo Tribune.

IF KIDNEYS AND BLADDER BOTHER

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and some times very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salt from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is a mild diuretic for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

RATES FOR SCOTTISH RITE DORMITORY AT T. U. MADE

Austin, Texas, July 19.—At a recent meeting of the directors of the Scottish Rite dormitory for girls in the University of Texas, which will be opened in September, rates for rooms in the building were made.

Single special rooms accommodating two girls, with one in the room, and one on the sleeping porch, will be charged for at the rate of \$35. Double room for two girls without bath will cost \$35.00 and single special for one girl without bath will cost \$40. A double room with private bath for two girls will cost \$45. These prices include all room furnishings, bed linen, draperies, rugs and towels.

Mrs. J. E. Kaufman will have charge of the dormitory, as matron, and Mrs. Martha R. Johnson will be business manager.

PLAINVIEW LAYS MORE SEWER PIPE

Col. R. P. Smith is superintending the installation this week of 2,225 feet of new sewer lines. The long line 1,325 feet is being put in on West Tenth street, while 900 feet of the new sewer is going in on streets on the East side.

While these lines will serve hundreds of people who have been anxious for sewer connections, the Colonel says there is now a demand for approximately 3,000 feet of sewer in addition to that now going in. However, the city is not in a position to install the extra lines just now, he said, though they will be put in at a later date.—Plainview Evening Herald.

TEXAS NOW FIFTH IN POPULATION OF STATES

According to the United States Bureau on the Census Texas has a gross area of 265,896 square miles, of which 262,398 represent land surface. The inhabitants of the state in 1900 numbered 3,048,710; in 1910, 3,896,542; and in 1920, 4,663,228. Texas ranked fifth among the states in population in 1920. The number of inhabitants per square mile in 1910 was 14.8, the corresponding figure for 1920 being 17.8.

BLACKLEG PREVENTIVE

Black Leg Aggressin (Germ free liquid vaccine) in 100 dose bottles, 11 cents a dose. For particulars phone Dr. Charles Earl Richardson. (37c)

SULPHUR CLEARS "ROUGH, RED SKIN"

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It never fails to remove the torment and disfigurement, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Mentho-Sulphur from any good druggist and use it like cold cream.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Brest Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 35 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly!

SIZE OF FARMS IN THE U. S.

U. S. totals, 1910—Under 20 acres, 839,166; 20 to 49 acres, 1,414,376; 50 to 99 acres, 1,438,069; 100 to 174 acres, 1,516,286; 175 to 499 acres, 978,175; 500 acres, and over 175,430.

The 796,534 farms under 20 acres, as reported for 1920, comprised 20,350 farms under three acres in size, 268,422 farms from three to nine acres, and 507,782 farms from 10 to 19 acres. More than six tenths of the farms under 20 acres in size are in the Southern states. Of the farms from 20 to 49 acres, likewise, a very large percentage (71.2 per cent in 1920) are found in the Southern states.

More than 45 per cent of all the farms in the United States are between 50 and 174 acres in size. This group contains, of course, those farms which consist of a quarter section of land or half of a quarter section.

In the group of large farms were included in 1920, 530,795 farms of 175 to 259 acres, 473,692 farms of 260 to 499 acres, 148,812 of 500 to 999 acres, and 67,387 of 1,000 acres and over.

PAVING BEGINS AT MEMPHIS

Preliminary work on the paving of eighteen blocks in this city was begun Monday morning and is now well under way, enough of the business firms having waived the formal hearing to enable the work to go forward.

The storm water conduit on Main torn up for several weeks, and west of the tracks, is being torn out, getting about in the business section and will be replaced with a large conduit of reinforced concrete, am- buting to take care of the flow of storm water which comes down the right-of-way.

The locust trees on North Fifth, walks being taken up, to make room

Condensed Statement of the Condition of

Does Advertising Pay

- "Advertising has made the Victrola Dog famous."
- "Advertising has run a Ford over every navigable bit of dry land in the United States."
- "Advertising is carrying Piggly Wiggly all over the world."
- "It has made the cash register a big brother to retailers all over the world."
- "It has introduced the world to a substitute for sole leather."
- "It is displacing the truck horse with 40-horse trucks."
- "It has made the hand written letter an oddity in business."
- "It has helped you to an appreciation of Stetson Hats, Walkover, Douglas and Emerson Shoes."
- "It has put Manhattan Shirts on your back, B. V. D.'s next to your hide, Sloan's Liniment on it and Bevo in it."
- "It has put hair oil on heads where no hair oil would do any good, and on heads where no hair oil was needed."
- "It has put Castoria down your throat, left bristles in your gums, and then came along with a Rubber-set and took them out."
- "It has put Sozodont, Pebeco and Pepsodent on your teeth."
- "It has put a Gillette against your hayfield."
- "It has put Murine in your eye, sold you Cuticura for pimples. Pears for the bath and Ivory for the tub."
- "It has put Arrow Collars around your neck and Ingersolls around your wrists."
- "It has jammed your feet in Holeproof Sox, put Paris Garters on your legs, and Tiffany Rings on your fingers."
- "It has stuck Robert Burns Cigars between your teeth, worn out your jaws on Wrigley's and posted you on what to buy to cure corns, warts, bunions, and ingrowing toe nails."
- "It has helped you to buy clothes and has brought fame to Messrs Atterbury, Kuppenheimer, Hart-Schaffner & Marx, Old Man Styleplus and a few Irishmen by the name of Rogers Peet and Hickey Freeman."
- "Go anywhere you want, do anything you wish, and advertising has had a hand in it."
- "AB-SO-LUTELY!"

And then you ask "Does Advertising Pay?"

 E. L. Hughes, Minister.

INTERMEDIATE LEAGUE

Topic—"The New Immigrant." Scripture—Mark IX:38-42. The Immigration Problem—Paul Montgomery. The Way of Fear—Hazel Bourland. The Way of Friendliness—Fletcher Smith. The Way of Faith—Coy Latson. Leader—Paul Montgomery.

CARD OF THANKS

I take this method of expressing my thanks and gratitude to my friends for the support given me in the race for county commissioner, and hope that I merit a continuance of same. I also wish to thank my opponents for the fair manner in which they treated me at every time.

Sincerely,
 J. H. Hurn.

TO THE PEOPLE OF DONLEY COUNTY

This method is used to express my gratitude to you for the large majority you have given me in the primary election for district judge. I surely do appreciate the confidence in me the people of this county have shown in every election in which I have offered for office.

Very sincerely,
 Henry S. Bishop.

TO THE VOTERS OF DONLEY COUNTY TEX.

I wish to thank the voters of Donley County for the majority given me in your county for the office of District Attorney. Although defeated by the overwhelming majority of Potter County, I shall ever remember with true appreciation the substantial support given by you.

Yours very truly,
 W. J. Flesher.
