

LARGEST CLASS IN HISTORY OF SCHOOL TO RECEIVE DIPLOMAS FROM HIGH SCHOOL THIS YEAR

THIRTY-THREE ARE FINISHING WORK PREPARATORY TO GRADUATION THIS MONTH. HONOR STUDENTS HAVE UNUSUALLY HIGH GRADES AND THE SCHOLARSHIP OF CLASS HAS BEEN ABOVE THE AVERAGE. INCREASE OVER LAST YEAR.

Thirty-three pupils are doing senior work in the High School this year, and present indications are that they will all be graduated the latter part of this month, thus giving the high school a new record for graduation so far as numbers are concerned. At the finish of the eighth month's work, it became apparent that Miss Ruby Lee Landers and Lester Schull will be the honor graduates, the former being valedictorian with an average for the year of 93.2, the latter salutatorian with an average of 91.4.

The class accepted the invitation of Dr. Slover to join with the senior class of the college in receiving the baccalaureate sermon, which invitation was accepted, and the sermon will be preached May 28. The graduating exercises will be held on Friday evening May 26th at the High School Auditorium, while the High School Class Day exercises will be held on Wednesday evening May 24th. The exercises to be conducted by the seventh grade will be Tuesday evening May 23rd.

Of the thirty-three graduates, twenty are girls and thirteen boys there being three more boys than was the total number of graduates the first year that Mr. Nelson assumed the superintendency. That was three years ago, but the class last year surpassed the numbers of the year before by one hundred percent; while the class this year surpasses that of last year in number by practically sixty percent.

During the three years of Prof. Nelson's administration, eight units of affiliation have been added, bringing the total of accredited work in the high school of twenty-three units; thus showing that it has a standing that is practically unsurpassed in this part of the state. To do this work, eight teachers are employed in the high school the majority of whom have degrees.

The enrollment of the high school is two hundred and twenty-six, and the total enrollment of all the public schools of the city was more than eight hundred at the end of the eighth month.

With the completion of the new building, and it is thought that this will be before the beginning of another term, the present high school building will be used only for high school purposes and the added room will give great advantages for efficiently doing the work more efficiently. It is also hoped that with the addition of the many facilities, among which is a gymnasium of the first class that the enrollment next year will even surpass that of this.

The complete list of the graduating class is: Mary Lou Baldwin, Richard Bell, Ruby Lee Bennett, Ralph Bourland, Etta Mae Bryan, Louise Bryan, Ella Clark, Helen Cooke, Mildred Crane, Genoah Doshier, Byron Emmons, Irene Gibbs, Alma Hall, Dick Hughes, Sibil Johnson, Payne Kent, Ruby Lee Landers, Zeda Mae Minknick, Edgar Mae Mongole, Lucy Noble, Theo Northcutt, Evelyn Patman, James Patman, C. W. Ratcliff, Stephen Russell Lester Schull, Fannie Florence Sims, Lillian Steed, Mildred Stewart, Robert Tatum, Marie Thornton, Dave Waldron, and Moulton Youngblood.

TOMORROW OBSERVED AS HOSPITAL DAY

Tomorrow, or May 12th, is observed throughout this nation as Hospital Day. It is then that everyone is urged to visit some hospital, and witness some of the many ministrations of mercy; and anyone who feels so inclined may make a gift to any of the hospitals. It is particularly fitting that tomorrow should be observed as such a day throughout the nation, as it is the anniversary of the birth of Florence Nightingale.

K. O. SOCIAL IS DELIGHTFUL AFFAIR

The Knights of Oblivion, of the College, entertained their lady friends Saturday evening with a delightful dinner and lawn party. By seven thirty the Knights were gathered at the Womans Building, and before eight o'clock the march began ending at the White House, where the dinner was served. Various toasts proposed by the Knights made the affair go with the smoothness that is so enjoyable on such occasions. The motto of "Once a K. O., always a K. O.," was remembered, and former members of the organization were invited to be present for the occasion. D. M. Beights acted as toastmaster.

Following the dinner, the party repaired to the home of Mrs. J. D. Stocking where the remaining part of the evening was most enjoyably passed playing games and in wandering about the lawn. All too soon did the hour come when the parting was necessary, but everyone repaired to his home declaring that the affair was one of the most delightful.

SECOND CHILD HEALTH CLINIC IS SUCCESS

The second Child Health Clinic of the season, conducted by Miss Ella Yeager Saturday afternoon in the Y Building was a decided success. Several children were examined by Miss Yeager, the examination including weighing and making recommendations in some instances. In this work Miss Yeager was assisted by Dr. T. H. Ellis.

This will be the last clinic held until May 23, when the Child Health Conference under supervision of experts from the University of Texas, will be held here. A nutrition specialist will be here, and the conference will, no doubt, prove as valuable as did a like conference of last summer. The child health conference will be held in Hedley May 22.

CONDON IN DEMAND AS COMMENCEMENT SPEAKER

Dean S. H. Condon, of Clarendon College, has had several invitations to make the addresses to the graduating classes of various high schools of the Panhandle. He will speak to the senior class of the Lelia Lake High School at the commencement exercises on the 19th of this month, and will address the graduating class of Wellington High on the 22nd. He recently spoke to the senior class of Wheeler High School, and his excellent presentation of the meaning of an education today was received with great favor, an audience of about eight hundred people being in attendance.

CONNALLY ATTENDS GRAIN DEALERS CONVENTION TUES.

Tom Connally returned yesterday morning to his home in this city from Amarillo where he attended the convention of the Panhandle Grain Dealers Tuesday. Mr. Connally reports that several matters of importance to the Panhandle were taken up, and that the reports show the wheat crop prospects short of those of last year. Mr. Connally was elected one of the directors for the ensuing year. The affair was ended with a banquet Tuesday evening.

CLARENDON WINS PLACE IN FINALS

Eugene Smith, James Patman, and Stephen Russel, accompanied by Prof. J. E. Nelson returned to their homes in this city Sunday evening from Austin where they participated in the state contest of the Interscholastic League. Patman and Russel lost to the Kenedy debating team which in turn lost to the Temple High School; and Temple was defeated by the Brackenridge High School of San Antonio. Eugene Smith went into the finals with the shot put and won fourth place in the state, with a distance of forty-three feet and eight inches.

Miss Myrtle Hill, Public Health Nurse, of Memphis, visited in this city Sunday with friends.

THOMAS SPEAKS TO LARGE AUDI- ENCE THURSDAY

FOLLOWING THE VISIT OF THE CANDIDATE FOR U. S. SENATOR A CLUB IS FORMED TO FURTHER HIS CAMPAIGN. HIS PLATFORM GIVEN.

Hon. Cullen F. Thomas, of Dallas, candidate for the United States Senate, addressed the voters of this county in the district court room of the courthouse Thursday evening.

A large audience greeted the speaker, and the favor with which he was received was shown by the liberal applause that he received. The following morning several of the supporters of Mr. Thomas met and formed a "Thomas for Senator" club. The speech of Mr. Thomas was along the outline printed of his opening address. He gave special attention to the railway question, labor troubles, and immigration. He went rather fully into the Federal Banking and Farm Loans, and stressed the "Farm Bloc." Taxation and extravagance in expenditures of government funds were given equal consideration.

Mr. Thomas arrived here by auto from Claude, and, although tired when he reached here, spoke with his usual force and eloquence; and his supporters are well pleased with the impression made.

The following officers were elected by the Thomas Club: Tom Connally, president; C. E. Thompson, secretary; and an advisory board composed of W. A. SoRelle, Fred Chamberlain, S. W. Lowe, W. D. Van Eaton, Joe Goldston, H. L. Wilder, E. F. Bryan, E. A. Thompson, J. J. Goldston, J. F. Jones, Frank Whitlock, Mrs. Cliff McDowell, and Mrs. T. H. Peebles. While no active canvass has been made, quite a long list of names has been handed in for membership in the club; and the club expects to be active throughout the remainder of the campaign.

CONDON IN DEMAND AS COMMENCEMENT SPEAKER

Dean S. H. Condon, of Clarendon College, has had several invitations to make the addresses to the graduating classes of various high schools of the Panhandle. He will speak to the senior class of the Lelia Lake High School at the commencement exercises on the 19th of this month, and will address the graduating class of Wellington High on the 22nd. He recently spoke to the senior class of Wheeler High School, and his excellent presentation of the meaning of an education today was received with great favor, an audience of about eight hundred people being in attendance.

CONNALLY ATTENDS GRAIN DEALERS CONVENTION TUES.

PROJECTED HIGH- WAY ATTRACTING MUCH ATTENTION

OTHER CITIES OF PANHANDLE ARE AROUSED BY THE POSSIBILITIES OF A ROAD FROM HERE TO SILVERTON AND ARE BOOSTING IT.

That many other cities of the Panhandle are becoming interested in the projected route from here to Silvertown is manifested by the fact that much publicity is being given to the movement. It now seems certain that there will be two good routes connecting the two cities, one by the way of Brice and passing near Quitaque to Silvertown, and the other across the JA ranch. The route first worked upon, and petition have been signed by the residents of Briscoe county calling for a bond issue of ninety thousand dollars for the construction of a road across that county to the edge of Hall, and a like petition is being signed in Hall county for the construction of the road in Hall, and the route will strike Donley near Brice. H. Lott has been prominently identified with this movement, and is optimistic over the results obtained thus far. This route will pass through one of the finest farming areas in the entire Panhandle, one that is unsurpassed by acreage and yield. In order that both roads may be got across the country, Mr. Lott agreed with prominent officials of the JA ranch to divide the territory between the two roads, thus giving the best possibilities to each road.

That other cities of the Panhandle are becoming interested is manifest from the following article which appeared in the last issue of the Tullia Herald:

W. H. Patrick, Tom F. Connally, M. T. Howard, Odos Caraway, G. A. Anderson, B. F. Naylor, F. L. Goldston, County Agent Roy W. Hendrix and a number of other prominent business men of Clarendon were visitors in Tullia Monday evening. Messrs. C. E. Duke, J. M. Simpson and others of our citizens met these gentlemen at the Crystal Cafe and during the supper hour held a very pleasant consultation.

These estimable Clarendon gentlemen were here in the interests of a public highway across the Palo Duro canyons, on a direct line between Clarendon and Silvertown.

There are many and good reasons for the opening and establishing of this road.

This public road would give a more direct route to Clarendon. An evidence of this was the route that these visitors were compelled to take on their return to Clarendon. They left Silvertown and returned via Tullia and Amarillo to Clarendon, a distance of 151 miles. Whereas, if this proposed road had been opened the distance would have been about fifty miles.

This proposed public road will open 30,000 acres of farm lands in Donley county and from 10,000 to 15,000 acres in Briscoe county. These lands belong to the famous JA ranch.

Mrs. Cornelia Adair, the beloved owner of the JA ranch, just before her death, made a request that this land be sold to home owners, at a reasonable price, on easy terms, long time and reasonable rate of interest. And it is in furtherance of this request, and to see to the opening of this important public road that these gentlemen made the trip from Clarendon to Silvertown.

The JA ranch officials have offered the route for this new public road. It is to run on practically a straight line from Clarendon to Silvertown. The route is the old mail route between the two towns, which was abandoned about 1906—mail having been carried over this route for a number of years.

This route is not only feasible for Briscoe county, but will also be advantageous for the people of Swisher County. Besides the vast difference in mileage which it will save to Clarendon, it is a scenic route as well. But a small per cent of our people have ever seen this canyon—(ye editor being of that number). And added to the pleasure for our home people, this road through these canyons

(Continued on page 8)

MAYFIELD WELL RECEIVED HERE ON LAST FRIDAY

CANDIDATE FOR U. S. SENATE EXPLAINS HIS PLATFORM TO VOTERS OF THIS COUNTY FRIDAY EVENING. RECEIVES MUCH APPLAUSE.

Hon. Earl B. Mayfield, candidate for United States Senator spoke to an audience last Friday night, which overtaxed the capacity of the District Court room, and many people stood in the doorways and in the rooms adjoining the courtroom. Every seat in the house was filled, and many chairs and benches were brought from other rooms and placed for seats, which were soon filled, one of the largest crowds ever gathered at a strictly political speaking in Clarendon being present.

Hon. A. M. Beville, introduced the speaker in a short talk in which he told of some of the incidents of the present campaign, and of Mr. Mayfield's public life, and character, and something of his services as Railroad Commissioner of Texas.

Mr. Mayfield was greeted with splendid applause, and started speaking by expressing his gratitude to the people of Donley county for their past generous support in his races for Railroad Commissioner, and his interest in the Panhandle country, having many friends in this section. The speaker then went into a very earnest discussion of the transgression of Federal government upon the powers of the State Railroad Commission, placing the power in the Interstate Railroad Commission, which has made the State Commission practically powerless, and made an argument for States rights in this regard which the large crowd evidently agreed with judging from the splendid applause given the speaker. Mr. Mayfield spoke of the common point rate case which came before the Commission a few years ago, when the railroad attempted to move the common point in the Panhandle from Amarillo to Aeme, and that several Clarendon citizens appeared before the Commission, and that he had voted to let the common point remain as it was, at Amarillo, thus giving this territory lower rates. This statement drew immense applause from the audience, as the question was one of vital interest to this section. The speaker dealt with the problems of the agricultural interest and drew smiles from his hearers when he defined the difference between an agricultural and a farmer, and told of the prices paid for products. In dealing with these problems Mr. Mayfield spoke not only told of the conditions existing, but went into the cause for them, and then advanced his ideas of the remedies for the conditions. In beginning his address Mr. Mayfield took a small silk American flag from his pocket and told how it had been given him by a friend in Austin when starting on his campaign and that he was better able to present his arguments when speaking with Old Glory near him and dealing with questions so vital to the interests of the American commonwealth. After speaking of the transportation and agricultural problems, Mr. Mayfield spoke of the many bureaus in our Federal governmental system, of the Federal Reserve system, for long term credits and proper financing for farmers and live stock men, and more especially came out strongly in favor of the "Farm Bloc" in the Senate, which he declared has done much for the agricultural interests of the country; that he stood for prohibiting immigration to America for a period of time, and spoke of the condition existing as to immigrants coming into the country many diseased, ignorant, and not having ideals of Americanism, but the speaker declared, we should endeavor to teach what we have on our shores now something of our government stands for, and its ideals and history, and for a thorough Americanizing of America.

In closing his address Mr. Mayfield paid one of the most beautiful tributes to the American flag, which has ever been heard in Clarendon. The speaker is forceful in speech, dives into his subject, speaking clear-

CLARENDON COLLEGE PREPARING FOR ELABORATE COMMENCEMENT EXERCISES BEGINNING MAY 25TH.

THE GRADUATING CLASS OF FORTY-FIVE IS AMONG LARGEST EVER KNOWN BY THE INSTITUTION. MANY PROGRAMS WILL FEATURE COMMENCEMENT WEEK CULMINATING IN BACCALAUREATE SERMON SUNDAY MORNING, MAY 28TH.

LOCAL MEN TAKE KNIGHT TEMPLAR WORK TUESDAY

Eight local men received the work of the Commandery at Memphis Tuesday. More than twenty of the local Knights Templar accompanied them and were present for the conferring of the work. Those receiving the work were: A. T. Cole, Meredith Gentry, Ernest Hunt, R. C. French, Clint Perdue, George Benson, Richard Wilkerson and Homer Mann. Knights Templar accompanying them were: Homer Mulkey, J. H. Rutherford, B. W. Moreman, Frank Whitlock, LeRoy Funk, J. R. Bartlett, Flen Caraway, Harry Warren, C. S. Boston, Bill Riddle, George Clifford, J. H. Hunt, F. N. Reynolds and C. G. Stricklin.

REV. HENSON FILLS METHODIST PULPIT

Rev. J. R. Henson, presiding elder of the Clarendon District, filled the pulpit of the First Methodist Church Sunday in the absence of the pastor, Rev. J. T. Griswold who is attending General Conference in Little Rock. A large audience greeted Rev. Henson for the morning service, and his sermon was heard with much pleasure.

LOCAL MEN ATTEND HARDWARE MEETING

Several of the local dealers returned the first of the week from Amarillo where they attended the convention of Panhandle Hardware Dealers held in that city Monday and Tuesday. Among those in attendance were W. C. Stewart and wife; O. C. Watson and wife; Jim Headrick, and Bennett and Guy Kerbow.

ROOSTERS AND LEGION- ISTS TO BATTLE MONDAY

The "Roosters," the baseball team of the Methodist Sunday school and the American Legionists will officially open the baseball season in Clarendon Monday afternoon commencing at four thirty o'clock when the Roosters will attempt to make a scatterment of the Legionists. Each of the teams has excellent baseball material and has been practicing consistently of late; thus the game promises to be a good one. Everyone is urged to come out and boost for their favorites.

Sheriff Rutherford is having two rent houses erected in the southeast part of the city.

ly and distinctly, and getting through with what he has to say and is able to hold the attention of his audience until he closes his address. His address was punctuated with applause at intervals and after his close many people crowded around the speaker tendering him support and shaking hands with him.

Mr. Mayfield arrived on the morning train from Memphis, where he spoke Thursday night, and was met at the station by a committee of representative citizens, who took the distinguished visitor through the business section of Clarendon where he personally met many of our people, and at his hotel many citizens called on him during the day.

In speaking of the campaign, Mr. Mayfield expressed great gratification over the splendid crowds coming to hear his addresses, and stated that he was well pleased over the receptions given him and the support in all sections of the state which had been tendered him, and was especially pleased with his reception in Clarendon.

Mr. Mayfield spoke to the college students Saturday morning, along the lines of transportation problems, he having been requested by the students to give them something along those lines in his address.

Clarendon College is preparing for one of the most elaborate commencement programs in the history of the institution, with a graduating class of forty-five. Commencement proper will begin Thursday May 25th, when various members of the Fine Arts Department will appear in a grand concert. The boys' oratorical and girls' reading contests and the annual inter-society debate will make up many of the programs during the rest of the week.

The preliminaries to commencement will start tomorrow evening when the Primary Department will give its annual program under the direction of Miss Wattie Vaughn, the teacher.

The Grand concert will consist of instrumental and vocal solos, choral and orchestral selections. The program will be under the direction of Miss Nina Jeanne Ridgell, director of the Fine Arts Department.

The oratorical contest for the boys will take place in the young ladies ten o'clock. This will be under the direction of Miss Ruth Pirtle head of the Public speaking department. In the afternoon the Domestic Art and Domestic Science exhibit under the direction of Miss Ruby Fincher, will take place in the young ladies home. In the evening commencing at eight o'clock the senior play, under the direction of Miss Ruth Pirtle, will be given.

Saturday morning commencing at ten o'clock, the girls' reading contest will be given under the direction of Miss Ruth Pirtle. And in the evening the annual inter-society debate will take place. A labor question, discussed from an angle of compulsory arbitration through state action will be the subject. Messrs. Cecil Peoples and Johnnie Jenkins, representing the Addisonian Society, will uphold the affirmative of the question, while Messrs. Eugene Craig and P. W. Walker, representing the Panhandle Society, will hold down the negative side of the issue.

Sunday morning the commencement sermon will be preached in the First Methodist Church at eleven o'clock by the pastor of the First Methodist Church in Waco. On the evening of the same day, the sermon will be preached to the undergraduates.

The commencement exercises by the Senior Class and the delivery of diplomas will take place Monday morning at ten o'clock in the college auditorium. Announcement will also be made of the plans for summer school, which will commence Thursday June 1st.

The year that is closing has been one of the most successful that the school has yet enjoyed, and the senior class, forty-five in number is a very large one. The announcement of the honor graduates will be made at a later date.

VARIOUS TEAMS ORDERING GOOD BASEBALL UNIFORMS

This summer promises to be the best year in the history of local baseball with the working out of more teams than ever before. Not only is the interest manifested in the work outs, but several teams have ordered uniforms of the best class, and every team of consequence will be donned in the latest baseball regalia. Those who have recently ordered uniforms are the "Roosters" of the Methodist Sunday school, the American Legionists, and the Clarendon Shriners. Each of these organizations is whipping a good team into shape, and the fame of Clarendon this year promises to go to the bounds of the Panhandle.

T. M. Little is in Mineral Wells this week spending the time for the benefit of his health.

H. B. Spiller and A. M. King returned yesterday morning from a business visit to Amarillo.

Opportunities-

Now lie all around for the man who has "ready money." The man who hasn't it, is always embarrassed by seeing the other fellow seize the "big chance" and forge ahead.

Don't envy him his "luck." Practice his forethought. Why not open a Savings Account here.

The amount doesn't count. It's the start—that's the thing.

 THE AMERICAN PRESS ASSOCIATION

Another way we can help in bringing every man to love his neighbor, is to be lovable ourselves. Let's not overlook that element in the matter.

We presume it will now be in order for all these newspapers who have been so vociferous against the Ku Klux Klan to throw up their editorial hats in support of the candidacy of Judge Napier for governor of Texas, since his platform seems to be just "anti-klan."

Furthermore, if Alex Robertson is made out of the stuff that most British "Tomnies" are, he will still win out over "Pa" and "Ma" Culbertson, carrying Miss Mary away as his bride. It does seem just a little unthoughtful, though, for those

young people to give the senator so much worry just now when he has such state-wide worry right here in Texas.

With seventy thousand made homeless by the rampage of the Mississippi river, with severe cyclones all over the country and with unprecedented overflows of nearly all streams, the property losses and loss of life is giving some credence to that prophecy made some months ago that 1922 was to be a year of disaster. After the July primaries there will be many candidates who will admit that the year is "disastrous."

When the postmaster of New Orleans refused to allow the Knight Templar banners and colors to be swung from the federal building in that city recently the host to the grand convocation of that order, appeal was made to the president of the United States. He promptly ordered that official to allow the decorations. Sometimes it requires executive interference to keep some people from mixing church and state.

This week the Texas Press Association is holding its convention in Denton, where its membership is being entertained at C. I. A., with room and board at cost. The attention of sixteen hundred pretty Texas girls is thrown in. You people who don't know the News editor as well as his wife does, will please take note that she let him go to the convention unattended this year, in spite of its added seductiveness. That proves everlastingly that he is a mighty nice man.

If any Texas editor was undecided as to making the trip to Denton this week to attend the annual convention of the Texas Press Association, he

was certainly disabused of the uncertainty last week when he received the 44-page edition of the Denton Record-Chronicle, published by that prince of goodfellows, Will Edwards. The big edition was dedicated to the Texas Press Association and was in reality a 44-page invitation to every newspaper man and his family to attend the convention in its home city. The edition was profusely illustrated with the public buildings of Denton, its business man and a great number of the membership of the Texas Press Association. The News thanks the Record-Chronicle for the nice mention of this editor and hopes to be able to live up to the qualities attributed.

Governor Neff had a wonderful new experience when he visited the Texas Panhandle some days ago. He goes back to Austin with a much greater appreciation of this vast domain and the high order of intelligence possessed by its people. He does that in spite of the unpleasant episode at Amarillo where he was hailed before the grand jury and catachised about a matter over which the grand jury had absolutely no jurisdiction, and very little legal right to curiosity. The News believes and has said that the Governor went wrong when he pardoned Asher. The great majority of Panhandle people think so, too, but at that a grand jury far oversteps its limitations when it assumes official cognizance of any particular the governor chooses to issue. Gov. Neff has pardoned so few inmates of the penitentiary that he deserves hearty commendations from every section of Texas. Let's let it go at that.

There is a merry row going up in "old Missouri." Senator Jas. Reed is running for re-election to the U. S. Senate and Woodrow Wilson is rearing up in his invalid chair to take a final crack at the man who dared to defy him while he was in the white house. There are hundreds of democrats all over the country sympathizing for both factions and three promises to be a "hot time" until the primary on Aug. 1st. Both factions delight to point out that the situation today proves their contention about the "bullheadedness, imbecility, and autocracy" of the principal parties. We shall see, what we shall see.

With our thousands of shade trees, our blooming locusts, our beautiful situation, our fine schools and churches, our steady progress and our beautiful homes, Clarendon is the most inviting city in Texas to the homeseeker who wants to move into a town where business is good, and where conditions are as good as can be found in this modern era. Come and see Clarendon—you'll be impressed.

Several months ago the N. W. Ayer & Son, advertising agency of Philadelphia made a contract with The News to carry on a campaign of advertising for the Kellogg's Toasted Corn Flakes. This was a new departure for the big concern as their advertising has been done mostly in magazines heretofore, but they had come to the position that most national advertisers now hold, that the best advertising medium is the county papers of the nation. They paid us our regular rate of 35c per inch without any quibble. Several days ago we received a letter from Ayer & Son, saying that the advertising had paid the Kellogg people so well and that they were so delighted with the results in Clarendon that they were authorized to make a new contract for a continuation of the campaign. There is no guess work about the matter because this great concern and every other great concern that carries advertising with The Clarendon News and other county papers, make a careful, cold-blooded check of advertising results and withdraw or place new business accordingly. The Kellogg people are now spending \$28 per month with the Clarendon News, because they know from results that it pays them to spend that amount. They are spending that amount on only one product—one article. Local merchants ought to be able to get the lesson from this far-off, far-seeing business concern and profit more from the medium of paying publicity that is afforded them. If a national advertiser can make money spending \$28 per month in Clarendon advertising one article how much more ought a local merchant be able to earn by spending that amount or a larger amount advertising many articles? It's a simple problem and one that you may solve every week—fifty two times a year.

I. D. James, of Leonard, is here visiting with his daughter, Mrs. T. J. Jolly.

THE IDEAL NEWSPAPER

A newspaper publisher, says Leslie's wishing to please his readers asked for suggestions.

"How can I make mine the ideal newspaper?" he inquired.

"Cut out the crimes, the murders," said the nice people.

"Cut out the accidents, the railway and steamship disasters," said the people who "couldn't bear" to read such things.

"Cut out politics," said the old-fashioned woman, "I don't understand it, and haven't time for it."

"Cut out the League of Nations and all that heavy stuff," yawned the flappers of both sexes. "What's it all about anyway?"

"Cut out the so-called funny pictures," said the careful mother. "Such pictures aren't funny, and they're bad, very bad, for children."

"Cut out the ponderous editorials," snapped the man who merely scans the headlines. "Nobody reads 'em nowadays."

"Cut out the sports and theatres," said the intellectual. Both are bad influences, and both have received altogether too much notice."

"Cut out—" began another, and still another, but the publisher beat them to it.

"Stop, all of you," he cried. "On second thought, I have decided to cut out myself. It is no use trying to publish the ideal newspaper until I come across the ideal reader."

Saying which, he shut up shop and went into the wholesale saxophone business for rest.

STATE SANATORIUM MAILING VALUABLE BOOK FREE

The News is in receipt of the "Tuberculosis Primer", a valuable booklet for school children and dealing with one of the worst scourges of today. The whole is written in plain, simple language and is filled with many illustrations that will impress on the mind of the child the necessity of great precaution in the work of preventing this disease. As has been pertinently stated concerning the booklet, "The solution of the tuberculosis problem lies not in the present but with the future generations, and the best care for the adult of tomorrow is the prevention of infection of the child of today. We all know that it is easier to prevent tuberculosis than to cure it, and it is our duty to give the children a true conception of the disease and its symptoms."

The State Sanatorium, in the effort to educate the children as much as possible concerning the fearfulness of the disease, is mailing copies of these booklets wherever requested, and asks the co-operation of all citizens in fighting the "White Plague."

THE HAPPIEST MAN

A Georgia man claims to have found the happiest man in the world. He has six fiddles, ten children, thirteen Lounds, a deaf and dumb wife and a moonshine still that has never been spotted by the enforcement officers. No doubt the Georgian is a happy man but we believe we know a man who is getting more joy out of life than the Georgian. Our hero is a negro about six feet high. He preaches in the summer time and shoots craps in the winter. He can wear an overcoat in August without discomfort and a seersucker in January without feeling the cold. Anybody's shoes will fit him and all of his neighbors raise chickens. He wields a razor so savagely that every negro is afraid to kick one of his dogs or smile at one of his wives.—Honey Grove Signal.

AN OLD JOKE

I never believed in platonic friendship. I've heard a lot about it, but I claim it's a joke.

But one summer I met a pretty girl who believed in it. She told me that our friendship would have to be platonic or nothing. She said we could be good chums and not spoil it all by being sentimental. I didn't want to get married, so I readily agreed. As we both then knew that it would be perfectly safe, we started in at once with moonlight and so forth.

That was ten years ago. Today we have seven fine children and my wife is very busy. So am I. Any woman who has ever had to take care of seven fine children knows how busy my wife is, and any man who has ever had to provide for that number knows how busy I am.

I never believed in platonic friendship. I've heard a lot about it, but I claim it is a joke.—William Sanford in Judge.

Get rid of that indigestion, stomach trouble and nervousness, build up your system and regain that lost weight. Take Tanlac. Sold by Stocking's Drug Store and R. A. Long Dug Co.

NOTICE TO FARMERS

Farmers who own 80 acres or more in Donley County and have outstanding liens against it that are past due, or to become due in the next 4 or 5 months can now get 6 percent money to take them up, also additional money at the same rate to stock your farm and make improvements.

C. E. (Jack) Killough. Across the street east of Court House, at the Donley County Abstract Office. (20pd)

If you are all run down, weak and nervous and feel out of sorts with everything and everybody, get back in line by taking Tanlac. Sold by Stocking's Drug Store and R. A. Long Drug Co.

DEVOL

LEAD & ZINC PAINT

FREE!

If you can find a cheaper paint or a better paint

Here's the offer:

PAINT half your house with Devol Lead and Zinc Paint; Paint the other half with any other paint you choose.

If Devol doesn't take fewer gallons and cost less money, we will make no charge for Devol.

If Devol doesn't wear a year or two or three years longer—longer and better—we will give you enough Devol to do the job over.

Or, paint half your house lead-and-oil, the other half Devol. In three years the lead-and-oil half will be hungry for more paint with Devol still sound.

If not, we'll give you enough for the whole house.

Devol Products are time-tested and proven, backed by the 168 years' experience of the oldest paint manufacturing concern in the U. S. Founded 1754.

Eat sensibly during the warm weather!
Kellogg's CORN FLAKES
 are nourishing-retreshing-delicious

It's a long step for health and riddance of summer drowsiness and that sluggish feeling if you'll all stop eating so much heavy, greasy foods and let Kellogg's delicious Corn Flakes do your health a good turn! With cold milk and luscious fresh fruit, Kellogg's are extra delightful—so crisp, and appetizing.

Kellogg's Corn Flakes are nourishing and supply all the summer energy you need; yet, they digest easily and actually rest the stomach! On such a diet you'll feel so much better; your mind will be keener and you'll accomplish a lot more work—and help yourself keep cool and snappy and cheerful!

Be certain to buy Kellogg's Corn Flakes in the RED and GREEN package bearing the signature of W. K. Kellogg, originator of Corn Flakes. None are genuine without it.

Also makers of KELLOGG'S KRUMBLER and KELLOGG'S BRAN, cooked and krumbled

Use Burrell-Dugger' Talcimized Sodium Fluoride for lice and mites on chickens. It is the most effective.

FISK TIRE

RED-TOP 30 x 3 1/2
 Extra Ply of Fabric—Heavy Tread
 Price \$17.85

FOR poor roads, for heavy loads, for hard use anywhere the Fisk Red-Top cannot be equaled for small cars. An extra ply of fabric and a heavy tread of extra tough red rubber make a strong tire built to meet exacting conditions.

Time after time one Red-Top has outworn three ordinary tires. Its distinctive looks indicate your selection of a high-grade tire while its extra mileage more than justifies your choice.

There's a Fisk Tire of extra value in every size for car, truck or speed wagon

"STONEWALL" JACKSON

MOSES D. HOGE

The day after the first battle of Manassas, and before the history of that victory had reached Lexington in authentic form, a crowd has gathered around the postoffice awaiting with interest the opening of the mail. In its distribution the first letter was handed to the Rev. Dr. White. Recognizing at a glance the well-known superscription, the doctor exclaimed to those around him, "Now we shall know all the facts."

The letter was from General Jackson; but instead of a war bulletin, it was a simple note, inclosing a check for a colored Sunday-school, with an apology for his delay in not sending it before. Not a word about the conflict which had electrified a nation! Not an allusion to the splendid part he had taken in it; not a reference to himself, beyond the fact that it had been to him a fatiguing day's service! And yet that was the ever memorable in his history, when he received the name of "Stonewall" Jackson.

When his brigade of twenty-six hundred men had for hours withstood the iron tempest which broke upon it; when the Confederate right had been overwhelmed in the rush of resistless numbers, General Bee rode up to Jackson, and, with despairing bitterness, exclaimed, "General, they are beating us back!" "Then," said Jackson, calm and curt, "we will give them the bayonet." Bee seemed to catch the inspiration of his determined will; and galloping back to the broken fragments of his overtaxed command, exclaimed, "There is Jackson, standing like a stone wall. Rally behind him Virginians!" From that time Jackson's was known as the

Stonewall Brigade—a name henceforth immortal, for the christening was baptized in the blood of its author; and that wall of brave hearts was, on every battlefield, a steadfast bulwark of their country.

In the state where all that is mortal of this great hero sleeps, there is a natural bridge of rock, whose massive arch, fashioned in grandeur by the hand of God, springs lightly toward the sky, spanning a chasm into whose awful depths the beholder looks down bewildered and awestruck. But its grandeur is not diminished because tender vines cluster over its gigantic piers and sweetscented flowers nestle in its crevices. Nor is the granite strength of Jackson's character weakened because in every throb of his heart there was a pulsation ineffably and exquisitely tender. The hum of bees, the fragrance of clover fields, the tender streaks of dawn, the dewy brightness of early spring, the mellow glories of matured autumn, all by turns charmed and tranquillized him. The eye that flashed amid the smoke of battle grew soft in contemplating the beauty of a flower. The ear that thrilled with the thunder of the cannonade drank in with innocent delight the song of birds and the prattle of children's voices. The voice whose sharp and ringing tones had so often uttered the command, "Give them the bayonet," called even from foreign tongues terms of endearment for those he loved; and the man who filled two hemispheres with his fame was never so happy as when he was telling the colored children of his Sabbath school the story of the Cross.

 C. R. Sullivan, Mgr.
 AMARILLO, TEXAS

May 6, 1922

Mr. Homer Mulkey, Manager Pastime Theatre Clarendon, Texas.

My dear Mr. Mulkey:

I have just finished reading an announcement in 'The Clarendon News', that you are to run 'Over The Hill' three days starting May 15th.

Recently we ran "Over The Hill" showing it to more than three fourths of the population of Potter County. "Over The Hill" I am sure holds our house record for all time to come. The third day Matinee we showed "Over The Hill" to twelve hundred paid admissions and turned them away that night.

If you ever worked in your life on a feature do it now. You owe it to the motherhood of Clarendon to see that every person in Clarendon sees this picture.

In all my life and experience in this business I have never yet run a picture that so thrilled me.

I only wish that I could say something that would make all Clarendon want to see this picture but you know that is impossible.

Wishing you success with this picture, I am,

Yours very truly,

C. R. SULLIVAN.

POSTED NOTICE

All persons are hereby warned against hunting, wood hauling and trapping in the C. T. Word & Son pasture in Hall and Donley counties. All violators will be prosecuted promptly.

C. T. Word & Son.

Thousands of people who had lost hope of ever being well again have been restored to health and happiness by Tanlac. Sold by Stocking's Drug Store and R. A. Long Drug Co.

Use Burrell-Dugger' Talcimized Sodium Fluoride for lice and mites on chickens. It is the most effective and the least expensive of all lice powders. Stocking's Drug Store sells it. (19c)

Elmer Bell, of Goodnight, was in this city Saturday morning. He went on to Memphis also where he transacted business the same day.

Talcimized Sodium Fluoride is the best germicide for lice and mites. Stocking's Drug Store sells it. (19c)

CASH BASIS

We are often asked why it is necessary for us to be so rigid with our collections. The reason is very easily explained. Every thing we buy must be paid in cash.

We have adopted the policy of paying cash for all material and supplies that we buy locally.

When we buy fuel we have to pay cash in advance.

Freight and express are always cash.

Labor is always cash.

Ninety-nine per cent of everything we buy must be paid for in cash. This plant is owned by a big company, but it is operated by itself. We have to pay all expenses out of the money we collect. As all our expenses must be paid in cash it is necessary for us to have the cash to pay them.

We all know that following up delinquent accounts is an expensive process. And that if we can pay cash for what we buy and get cash for what we sell we can operate our business on a cheaper basis.

The state laws limit our profits to a reasonable return on the physical value of the property. It is to the interest of our customers to help us reduce our expenses. You can do this by paying your bill as early in the month as possible, so that we can keep our business on a strictly cash basis.

This is the reason why we ask our customers, to pay their accounts before the 10th of the month.

Clarendon Light & Power Comp'y

CLOSING OUT ANNOUNCEMENT

I have sold my grocery business to Taylor & Skelton, and delivery will take place May 15th. All accounts owed me will then be due. Please arrange for settlement of them.

My successors will be pleased to have the continued patronage of our customers.

CONTRACT LET YESTERDAY FOR WATER SYSTEM

DALLAS AND CHICAGO COMPANIES TO DO THE WORK. WHICH WILL COMMENCE WITH ARRIVAL OF MATERIALS. TO USE LOCAL LABOR.

The contract was let yesterday afternoon by the city to the Janes Construction Company, of Dallas, and to the Chicago Bridge and Iron Works for the installation of the new water system, the work to commence as soon as the materials arrive on the grounds. The Dallas company will lay the piping which amounts to approximately seven miles altogether, and the latter company will erect the new stand pipe. The site of the stand pipe will be on the high hill southwest of the college, and a tank of one hundred and fifty thousand gallon capacity will be put at a height of sixty feet.

The Janes Construction Company in taking the contract for laying the piping, agreed to complete the work within forty-five working days after the arrival of the material; and, if the work is not complete within that time to the satisfaction of the engineer, a forfeit of twenty-five dollars for each day thereafter until finish shall be paid the city. The contract calls for the laying for 3,900 feet of eight inch piping; of 24,500 feet of six inch piping; and of 8,300 feet of four inch piping; and the piping will be placed at a depth of three and one half feet. A new ditching machine of latest type was ordered yesterday for the work here, and they will rush the work as fast as the arrival of the material permits.

The tank which is to be erected by the Chicago Bridge and Iron Works will insure the city fire protection at all times as forty-two new fire plugs will be placed about the city. The tank will be given two coats of paint one at the factory and the other upon the completion of the structure. The cost was \$8,200.00 exclusive of the foundation, and the foundation will be put in by local contractors. The total cost of the erection of the tank will be \$9,175.00; and the contract calls for its completion to the satisfaction of the engineer within ninety days after the arrival of the materials.

An important feature of the agreement between the city and the contractors was that as much local labor as possible shall be used in the work; the contractors state that there will be work for everyone, and declare that they will depend on Clarendon to furnish the labor needed to complete the work. It is interesting to note that the bids were all close together, the fact being that there was a difference of only \$1215.00 between the lowest and the highest bids; and as four companies were bidding, the work was secured at a very close margin. With the completion of the system, which is being installed under the supervision of engineer W. D. Howren, of Amarillo, Clarendon will have a water system that is not only adequate but that is unsurpassed; and this will mean a very great saving by the lowering of the insurance rate.

EASTERN STAR INITIATION FRIDAY EVE

An initiation into the Eastern Star was held at the lodge rooms in this city Tuesday evening. One local candidate and four candidates from Groom were taken into the order. The evening was a very delightful one, and a delicious course consisting of cake and coffee and of pineapple sherbet was served to those present.

BENNETT SELLS TO TAYLOR AND SKELTON

Miss Ella Yeager left Monday morning for El Paso to attend the annual meeting of the Texas Medical Association.

Dr. H. L. Wilder left Sunday morning for El Paso where he is attending the annual meeting of the Texas Medical Association.

Mrs. Guy Martin and baby left Monday evening for Cisco for an extended visit with Mrs. Martin's parents.

Misses Hulda Cannon and Ella Yeager, accompanied by Tom Connelly Jr., attended the first annual banquet of the graduate nurses of this district in Amarillo Thursday.

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

HAVE DARK HAIR AND LOOK YOUNG

Nobody can Tell when you Darken Gray, Faded Hair with Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. It's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful. This preparation is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

A Stylish Shirt

We Have Just Received a New Assortment of Shirts for Spring That You Will Want to See

Brands: Arrow, Rotary, McDonald and Wilson Bros.—a guarantee by itself.

Wear: But the fabric, cut and finish will stand alone.

Price: And the Price is down to the old 1914 level.

There is a material to suit your pocketbook; a pattern to suit your taste, and a style to suit your friends. And after all, WHAT MORE CAN BE DESIRED?

HAYTER BROS.

KINDERGARTEN PROGRAM THURSDAY EVENING 18TH

The kindergarten pupils of Mrs. J. A. McKillop will render a program Thursday evening May 18th commencing at eight o'clock at the High School Auditorium. The ex-

hibit of the work will take place at the same place at seven thirty o'clock, and the public is cordially invited to be present for both the exhibit and the program.

J. S. Um returned this morning from a business trip to Amarillo.

It will pay you to look over our samples before purchasing that summer suit. Barney's Tailor Shop. (19c)

F. W. Gordon returned this morning from Pampa and Miami where he has been on business.

"Over the Hill"

The Mother—Mary Carr—and her children in "OVER the HILL" WILLIAM FOX PRODUCTION

The Story of a Great Love—a Mother's Love. The Wonder Picture of the Century that Will Live Forever

The black sheep of many a family has been in reality its most lovable member. This is certainly true of the black sheep in the William Fox special production "Over the Hill," the startling photoplay exposition of all humankind's faults and virtues, visualized with the living prototypes of Will Carleton's imaginative genius in his remarkable "Farm Ballads," from which the film play was made.

AT PASTIME THEATER

CLARENDON, TEXAS

ADMISSION 25 AND 50c.

THE UNBALANCED WOMAN

If she is unbalanced or unseated or out of her place, what is the cause? Who is to blame? Who brought about this blame? There is but one answer. Her God-decreed protector is to blame. Man is wholly responsible. The federal head of the family is guilty.

Woman's place is home. Her throne is the domestic circle. She didn't leave it of her own volition. She didn't sacrifice her place voluntarily. Man is wholly responsible for the unbalanced condition of woman. He is the federal head of the family. It is his business to provide and protect. And it is his business to exercise the righteous discipline necessary to a perfect home and a good government. He has utterly failed in these last two duties. He has failed through indulgence, because of a lack of courage, a sense of responsibility, and unwillingness to face his plain duty. He has practiced indulgence until he has made the woman extremely extravagant.

The average girl hates work, despises domestic responsibility, and is criminally conspiring to avoid those high duties.

The man has neglected to build the home, to make it attractive and

magnetic. Consequently, the woman has gone out into the world. Many of them because of necessity have been forced into the trades to live. Many of them have gone out into the world because the head of the family did not perform his duty, did not make the home happy, did not regulate it. Women have been thrown into the nerve-racking conditions of the outer world. The strain is too great, her nerves are unsettled; she is unbalanced. Her unbalanced condition has produced a state of extravagance, female recklessness, which is jeopardizing the whole domestic life of America. The man is wholly to blame for these wretched conditions.

If fathers do not go back to their homes and husbands do not perform their duties as federal heads of their families, the domestic life of America will suffer irreparably. The guilt of the men has unbalanced the woman and has produced social conditions which bring the blush to every cheek.—M. A. Matthews, D. D.

Packing ready to move—Saturday is the last day. Meek & Smith at the Bankrupt Store.

Misses Bess Pritchard and Reda Clay spent the week end with their home folks at Wellington.

CHAPEL EXERCISES ARE WORTH WHILE

One of the excellent features of the Public Schools under the superintendency of Prof. J. E. Nelson is the chapel which is conducted almost every day of the week except during examinations. The singing and memory work is especially to be commended. The pupils are taught anthems, and the manner in which they are able to sing some of these compositions is inspiring. The memory work consists in memorizing quotations from the greatest authors and in memorizing many of the great quotations from the Bible. Almost every pupil of the High School can in this way quote many passages from the Scripture and give many of the gems of literature. It is a treat to go to Chapel, some morning and hear the pupils sing music of the character that they do and repeat some of the great passages in concert.

Rev. and Mrs. J. H. Watts went to Amarillo Monday where they received the children of Rev. and Mrs. H. B. Watts, of Lockney, the latter couple being enroute to General Conference.

Joe Goldston was a business visitor in Amarillo the first of the week.

LARGE ATTENDANCE AT INTERSCHOLASTIC MEET

Austin, Texas, May 10.—With an attendance of some 2000 official and unofficial delegates from all parts of the state, the twelfth annual meet of the University of Texas Interscholastic League was held at the University last week. The closing contests were held Saturday, and the presentation of final awards and trophies to the winners took place. A window of silver loving cups and medals, as trophies, was on display at the University Co-op during the meet.

The majority of the delegates arrived the first day of the meet due to limit on rebate on tickets. Many University students assisted in the task of meeting the delegates, getting them registered at the Y. M. C. A. and conducting them to the places where they were assigned to stay while in Austin. Badges of delegates and badges of reception committees of students of the University began to flood the campus. Huge trucks secured from the state government with large banners of the Interscholastic League and automobiles belonging to private students, and citizens of Austin were drafted to convey the delegates from the station to the University campus. Doors of all boarding houses, fraternities and sorority houses and dormitories of the University and of many private homes of faculty members, and people of Austin were thrown open for the entertainment of the 2000 delegates.

The rain and hail storm which accompanied the cyclone that struck Austin the afternoon of the first day of the meet cut sharply into the preliminaries in tennis, and made the courts belonging to the University unavailable for the play. Approximately 200 boys and girls were here competing for state titles in tennis so Colorado street just west of the capitol was roped off with the permission of the city commission; and on this pavement five courts erected for the tennis games.

The second day was largely given over to preliminaries in tennis, track and field meets, debate and declamation contests. There were more than 600 entrants in the track events, with 200 to go into the finals. Governor Neff held a reception at which time music was furnished by the Wichita Falls High School Orchestra.

AMARILLO SEEKS PRESS MEETING

Clarendon, May 9.—Sam M. Braswell, editor and owner of the Clarendon News, has gone to Denton to attend the annual meeting of the Texas Press Association, being a member of the executive committee and assistant secretary. He was also selected as chairman by the Panhandle Press Association recently held at Amarillo to secure the 1924 meeting of the T. P. A. for Amarillo.—Ft. Worth Star Telegram.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat, which clogs Kidneys, then Back hurts and Bladder bothers you.

Most folks forget that the kidneys like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, constipation and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with bicarbonate, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

GEOLOGICAL SPECIMENS FOUND IN WEST TEXAS

Austin, Texas, May 10.—Finding ten specimens in the West Texas triassic formations in half a day, and showing the possibilities of many more that have not been discovered to the present, F. L. Whitney, associate professor of geology in the University of Texas, returned a few days ago from a trip to Sterling City with members of the advanced classes in the school of geology. The trip was the result of the suggestion of C. E. Case, professor of paleontology in the University of Michigan who had heard of the specimens in that part of the state.

Determination of whether the fossils found come under a new species or not has not been effected since the time of Mr. Whitney was limited, and complete skeletons were not uncovered. They are of the crocodilian type and are rather large, being about thirty feet long. The hills in that section of the state are deeply eroded, and many specimens that might have become uncovered have been broken, and scattered until it was impossible to get a form of the prehistoric reptile.

Interest in the West Texas specimens was started by the article of a member of the Texas legislature, giving a description of the remains found in the hills there. The Michigan authorities became interested, and asked that a trip be made, and a report sent to them, with the idea of sending men down here for further investigation. The resulting trip to Sterling City, according to Mr. Whitney, showed that there is a possibility of finding examples of new species, and better fossils of those already in collections over the country.

"The fact that we found ten specimens in half a day, is indicative that there are many more, and probably some very perfect examples of triassic reptiles could be found if time and money were not lacking," said Mr. Whitney.

SLIDES WILL BE SENT TO PUBLIC SCHOOLS

Austin, Texas, May 10.—Slides illustrating the industrial development and possibilities of Texas are being collected by the Division of Visual Instruction of the Bureau of Extension, University of Texas. It is expected that within the next week 100 pictures will be on hand on this subject. These pictures are to be used in schools in connection with regular school work in such subjects as geography, agriculture, physical geography, history and others.

There are views on a great variety of subjects, among them the harbor and manufacturing establishments of Galveston, views showing the mining development around El Paso and numerous agricultural scenes from West, East and South. No pictures have been accepted without absolute proof of their authenticity. Slides will be sent to the public schools of Texas in convenient packages but each school must provide for its own projection.

RECITAL AT BAPTIST CHURCH FRIDAY 19TH

The pupils of Miss Anna Moores and Mrs. Edythe Bryan Cameron will appear in recital Friday evening May 19th at the Baptist Church commencing at eight o'clock. The recital will consist of work in expression and voice and piano. These teachers have enjoyed a large class this year, and the recital of their pupils promises to be a treat. The public is cordially invited.

FIERY, ITCHY SKIN QUICKLY SOOTHED BY THIS SULPHUR

Mentho-Sulphur, a pleasant cream, will soothe and soothe itchy skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops and after two or three applications, the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a skin remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up. A small jar of Mentho-Sulphur may be had at any good drug store.

BRYAN STAYS WITH TRUTH

Mr. Bryan is one of our most interesting citizens. Like Banquo's ghost he can't be downed. In between political campaigns the commoner devotes his energies to false theological doctrines and to combating the theory of evolution—Amarillo Daily Tribune.

Mr. Bryan is doing a splendid work when he champions the Bible story of creation and condemns the Darwin theory that man sprang from a monkey or a tad pole. Infidelity and atheism is being propagated in this country. The damnable doctrine that man sprang from a monkey is being taught in our public schools and colleges. This theory found its way into our text books and is acting as deadly poison to our boys and girls. Bryan the Great Campaigner, dares to raise his voice against this doctrine and he is criticized and accused of seeking cheap notoriety. Some people dislike Bryan so much that they can't really do him justice. Nevertheless he is the greatest private citizen living in this country. The Beacon is glad that such men as Bryan have the nerve to raise their voice against these high-brow college infidels and show them up in their true light. High science as taught by college professors is undermining our Christian religion. It is German propaganda and ought to be outlawed in this country.—Lockney Beacon.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Brest Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system. Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of oil honest St. Jacobs Oil

When your back is sore or lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 35 cent bottle of oil, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone. Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back, and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly!

Consider The Builder

He is the man who does not look upon the dark side of life, nor does he wait until the proper time comes to do things; he goes out and makes the times right for his work by being incessantly on the job, and making the job fit the times by doing it in time.

If you contemplate building, why not come in at once and let us figure with you. Don't be discouraged about the cost of building before you have been given the right figures from us.

Wm. Cameron & Co., Inc.
Phone No. 8 Clarendon

LUBBOCK COMMUNITY AUDITORIUM SOON COMPLETED

The Community Auditorium contemplated for the city of Lubbock is fast taking the form of a completed structure as far as the paper work and figures on estimates are concerned, and within a very short time, actual construction is expected to be begun on the building. Bids are now being received by the building committee covering the construction and material, and it was expected by this time to have all the bids in and a contract closed, but an account of the lateness of the submission of these a little delay is being experienced.

The original plan is submitted was a rectangular structure 80x125 feet, but on account of the added seating capacity to be gained by an octagonal building it has been decided that one of this kind will be more suitable, and the original plans have been changed, and a building of eight sides will be constructed, 94 feet in diameter outside measurements. Windows will be placed in the walls sufficient to afford ample light and ventilation arranged so that the building can be thrown practically into an air-dome through the summer months, and closed up and heated comfortably through the winter season. A seating capacity of 2500 to 3000 is estimated. By using the octagonal shape building a balcony will be built practically two-thirds of the way around the walls, whereby much added seating capacity can be gained.

In the entrance of the structure will be a nice, spacious lobby, on either side of which will be rest rooms for both ladies and gentlemen. A stage 22x40 feet will be in the rear, with dressing rooms and wash rooms, etc., on either side. A moving picture booth for use on special occasions will probably be built also a wireless receiving room for the installation of equipment of this kind, the possibilities of which are unlimited. We are not only in quick and direct contact with the outside world with the market reports, but have access to the many great lectures and concerts staged throughout the country.

Taken all in all nothing could add more to our city from every standpoint of both business and pleasure, with as little expense, than the erection of this building. It is estimated that that structure will cost complete with seats between \$5000 and \$6000, and applications are in already for the use of same that will keep it occupied practically the entire summer, and only a small revenue from each night of use will add very materially to the financial end of the institution.

The money necessary for the construction of this building has all been subscribed, at least the estimated cost, and as soon as bids are received and accepted and the contracts closed, it is expected to begin actual construction, which will necessarily have to be rushed.

Mmes. J. E. Richey and W. B. Ponder, of Amarillo, who visited here last week with their sister, Mrs. H. Mulkey and their mother, Mrs. John M. Williams, returned to their home Saturday.

Mrs. Elba Ballew and Misses Rae Ballew and Mary Culwell arrived here Monday morning from Lelia Lake where the latter two young ladies visited the week end with the former.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

PRICE PROSPECTS AND THE COTTON ACREAGE FOR THE 1922 COTTON CROP

Many cotton growers have asked me about what I think the 1922 cotton crop will sell for. No one is able to answer this question, but we know that in determining the price some of the following items will be involved.

According to the government reports the average number of bales for the last five years produced in the world was 16,251,000 while the recent reports for 1921, shows only 12,773,000 bales produced, which is the lowest number of bales produced in any one year in 25 years. The average world production from 1908 to 1914 when the World War started, was around 22 million bales. This shows a decreased production of 35 million bales during the last 7 years. Is there a demand for cotton? I believe there was, and is at this time, but a war can go farther, than is generally supposed, toward making humanity get along with fewer clothes. Some suggest that half the world which composed the famine stricken area is naked at this time. If this and the above figures are true, it would lead one to believe that 1922 cotton prices are bound to be secure. In this connection the law of supply and demand sometimes steps aside and gives way to another economic law, the Ability of the public to pay. The fact that half of the world is without clothing, is a handicap to the cotton market. If the price is high, it will be impossible for those who need the cotton most to buy it. Even though the world needs cotton, they cannot pay for it when it gets above the comparative price of other farm products.

Another thing to consider the cotton acreage will be increased 10 percent over 1921 probably. The yield per acre will certainly be increased over 1921 for only once in the last 60 years have we made as low a yield per acre as in 1921. It is hardly reasonable to believe we shall make another such low yield in 1922. Do not be misled by boll weevil conditions, for Texas has been infested with boll weevil for 10 years, yet in 1920 she produced 4,200,000 bales. The corn and feed acreage are most certain to be decreased this means better prices, for them this fall. Last year we made a large feed crop, but even now some of the farmers are buying feed at a high price, and before this crop is

made some will be buying from other sections and paying almost prohibitive freight rates.

We are in a good cotton county almost free from insect pests. Cotton is one of the chief money crops. It will be the most foolish, reckless gambler who will plant all to cotton, expecting to buy corn, hay, and meat with cotton money, in the face of existing prospects, or on any year. But the following rule seems to be safe almost any year: Plant at least 1-5 more acreage in feed crops than it will take to supply your needs even though we had a bad crop year. Have a good garden, plenty of chickens, and dairy products for family use. After that is done this year, put every available acre you can cultivate properly, in money crop. It would seem that this cotton crop would sell readily, for the world is certainly short of cotton, but it is also disastrously short of cash. I would state here a most optimistic opinion, had it not been so impressively proven in 1920 that the world will not always buy cotton in proportion to what the figures show it needs.

THE STATE OF TEXAS, TO THE SHERIFF OR ANY CONSTABLE OF DONLEY COUNTY, GREETING:

You are hereby commanded to summon all persons interested in the estate of Richard Walsh, deceased, and also all persons who would have been entitled by inheritance, had there been no will, whose names are unknown, to be and appear at the next regular term of the County Court of Donley County, Texas, to be held at the Court House of said County in the City of Clarendon on the 3rd Monday in June, 1922, then and there to contest, should they desire to do so, the probate of the hereinafter mentioned will, as well as the application of W. H. Patrick, filed in said Court on the 5th day of May A. D. 1922, and numbered 363 on the probate docket thereof, which will then and there be acted upon for the probate of the last will and testament of the said Richard Walsh, deceased, the original of which last will and testament cannot be produced in court because of the fact that the original of said last will and testament has been heretofore admitted to probate by and is now on file with the Master of the High Court of Southern Rhodesia, South Africa, but a duly certified copy of said will, is filed with said application, and the said W. H. Patrick alleges that he is named executor of the American property mentioned in said will, and asks for a probate of the same.

You are further commanded to serve this citation by publishing the same in a newspaper which is published nearest to the Court House of said county for four successive weeks previous to the first day of the term of this the County Court of Donley County, Texas, to which this citation is returnable, to wit: the 19th day of June 1922.

Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness W. E. Bray, Clerk of the County Court of Donley County, Texas.

Given under my hand and seal of said Court at office in the City of Clarendon, Donley County, Texas, this 5th day of May, 1922.

W. E. Bray, Clerk County Court, Donley County, Texas. (22c)

BONES OF GIANT MASTODON FOUND IN TEST

Segments of mastodon bones, large enough to be identified as part of a skeleton of some prehistoric animal, were drilled up in the test of the Harvey Oil company near Alnared, in the Panhandle, according to J. I. Harvey, who is putting the test down. There was more than 200 feet of sand, first drilled into about 400 feet from the top, and these bones made going exceedingly hard as they were drilled up practically all through the sand.

The theory that the oil deposits in this country came from herds of huge prehistoric animals makes this find, at this depth of more than ordinary interest. So far as is known this is the first oil test that has shown mastodon bones in the cuttings. The sand was dry, and was directly on top of a layer of red bed which all Panhandle test logs show during the first few hundred feet.

The Harvey well is now drilling below 700 feet.—Wichita Falls Record News.

Whipple Produce Co., buys your Poultry and Eggs. (19c)

LADIES! DARKEN YOUR GRAY HAIR

Use Grandmother's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

WILL BEGIN PAVING THREE MILES NORTH AND COME THIS WAY

Most of the equipment has been placed for paving the highway six miles north of Electra and it is expected that material will begin arriving at once. This information was given out yesterday by J. M. Isbell engineer in charge.

The McCollum Construction company will begin paving about three miles north of town and work this way. Afterwards the three-mile stretch further out will be laid.

Mr. Isbell is of the opinion that it will require ninety days to complete the work. After the pavement is laid it should be permitted to set twenty-one days before being traveled upon.

According to the county engineer section of the road north from Electra will be opened from time to time as the work progresses, just as rapidly as the concrete ages sufficiently.—Electra News.

NOTICE

Notice is hereby given that A. M. Beville, Sr., was on April 30th, 1922, granted letters of administration upon the estate of J. L. Gray, deceased, and all persons having claims against said estate are notified to file same properly sworn to with said A. M. Beville, Sr., Clarendon, Texas. (21c)

OLD-TIME GOLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia.

Lumber up! Get a 35 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pain, aches and stiffness. Don't suffer! Rub rheumatism away.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat, which forms uric acid.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, chances often get sore, water seals and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

HEDLEY WAKING UP AND GOING AFTER OIL BIZ

EIGHTY BECOME MEMBERS OF THE CHAMBER OF COMMERCE IN ONE DAY, AND PREPARATIONS ARE MADE FOR PUTTING CITY ON MAP.

That Hedley is very much alive is manifest from the fact that eighty prominent business men became members of the Chamber of Commerce last Monday, and they are getting behind every movement that will put that city on the map. A few of the live articles showing how that city is waking to its possibilities are given below.

HEDLEY CHAMBER OF COMMERCE AWAKENS

A membership drive was put on the first of the week, by Ed Dishman and others, in behalf of the Hedley Chamber of Commerce, and proved a distinct success. It is the purpose of these loyal citizens to boost Hedley into her rightful place as one of the leading little cities of Northwest Texas.

An alert Chamber of Commerce is a powerful factor in the upbuilding of any town, and the time has come when Hedley cannot afford to be without one.

OIL MEN CONTINUE TO ARRIVE IN HEDLEY FIELD

For the past few days there has been great interest shown in Donley county, in and around Hedley.

Judge Owens, of Oklahoma City, representing The Swanson County interests, has been busy for the past few days, examining titles, etc.

Work still continues on the Finch No. 1, where the rig is being completed and the tools moved in ready to go to work.

Harle No. 1 cellar is being dug and sills being laid for same. A large shipment of tools, boiler and supplies are now on the side track and will be taken out at an early date.

J. M. WATSON, CONTRACTOR OF OKLAHOMA CITY, ENTERS HEDLEY FIELD

Mr. Watson is well known among the oil fraternity in Texas and Oklahoma. He has drilled a great many wells in proven territory in Texas. It is rumored that he is purchasing a block of acreage here for the purpose of developing same. It is a well known fact among the oil fraternity that Mr. Watson is one of the best equipped contractors in Oklahoma. He further states that this part of the country looks good to him.

CLARENDON MAN INTERESTED IN HEDLEY FIELD

Mr. Joe M. Warren of Clarendon is taking a great active part in the progress shown in and around Hedley. Mr. Warren is a man who has had a great deal of actual experience in the oil game, and says without magnifying or exaggerating that the large oil companies have got their eyes on Donley County. He has been busy for the past ten days helping to adjust the Buck Creek acreage, which is now being taken over by Swanson & Co., who will resume drilling as soon as possible.

HEDLEY SCHOOL BUILDING CONTRACT IS LET

The Hedley School Board late yesterday evening awarded the contract for the construction of our new school building. Contractor Randal of Amarillo was the successful bidder.

This means a substantial and commodious building, adequately equipped, ready for the next term of school, beginning the first of September.

Another long step forward!

AIRPLANES HERE YESTERDAY WILL ADVERTISE HEDLEY

Ellis Black, National Advertising Agency is closing contract with Cyle Horchem of Wichita Falls for a big airplane advertising trip, to acquaint the country with Hedley and her oil field activities and possibilities.

Mr. Horchem was in Hedley yesterday with two airplanes, and spent the greater part of the day here. The party consisted of Mr. Horchem and another pilot and their wives.

A later date will be announced when planes will start on the three thousand mile trip advertising the Hedley oil fields.

CHILDRESS ON VERGE OF GREAT BUILDING BOOM

Childress is on the eve of the greatest building boom since the shops were located here in 1902, and this summer there will be more buildings and public work under way than at any time in the city's history.

The building of the big dam across H-K Canyon will start about the middle of June, so states Engineer R. G. Carraway.

There is now one brick building with a frontage of two lots under construction on North Main street. Martin Coyne is planning a building to adjoin his two-story building on the west side of Swearingen street. Another building with a frontage of seventy-five feet is planned for North Swearingen street.

It is said by Messrs. Phillips & Layton that they contemplate getting underway the new theatre building this summer. The theatre will be erected on lots on Main street opposite the First State Bank. This is a desirable location. When this building is started J. R. Leach will build filling all the lots on that block.

The school board plans the erection of a school building this summer to house the increase expected in scholastic. The census this year shows quite a gain over last year.

The light and power plant have placed orders for a new engine and generator that will double the capacity of the present equipment. This machinery will be received late in June and will be installed during July.

The railroad officials have made known that more stalls will be built to the roundhouse and some necessary additions to the shops. As business improves the railroad will make improvements.

A number of new homes are under construction and some of them are expensive homes. The Index man has heard several men of means say that they expect to sell their homes this year and erect modern homes of brick or tile.

The Baptists are planning a large addition to their building. The Southside Church of Christ and the Methodists also plan new buildings and it will be necessary to get them started this year.—Childress Index.

LAMB CO. COURT HOUSE BURNED SUNDAY NIGHT

The Lamb County court house burned to the ground Sunday night at Olton. The fire started about 2:30 Monday morning and the building was all aflame before anyone became aware of it.

It was a two-story frame building, and was built in 1908.

The county records and public documents were saved, as they were stored in a brick vault, built alongside the court house. Guy Willis county clerk, in a telephone conversation, stated that all these were saved in fairly good condition, though they were slightly injured.

Olton has no fire department, but a bucket brigade was organized, quickly by the citizens to fight the flames. The fire had such a start, however, that they were unable to check it. No plans have yet been made to replace the building, Mr. Willis said.

CITY PAVING BONDS APPROVED AND NOW IN CITY'S POSSESSION

The paving bonds for the city of Canyon have been approved, the bonds printed and are now ready to be turned over to the Commissioners Court, which body has bought the bonds for the county's sinking fund.

There is no hitch in the way of getting the money, and from indications the city council will be able to get the contract for paving when the bids are opened on May 27.—Randall County News.

Mr. and Mrs. Allen Beville, of Amarillo, spent the week end here with relatives. Mr. Beville returned to Amarillo Monday morning.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid.

MARKET SQUARE TO BE USED AS AUTO TOURIST CAMP SITE

The City Council held their regular monthly meeting Tuesday night, and disposed of the regular monthly routine matters.

The Mayor was out of town, and the meeting was presided over by F. N. Foxhall, president pro tem.

It was decided to devote the market square, east of the depot, to be used as an auto tourist camp ground during the months of June, July, August and September.

Electric lights, water and sewer connections will be provided at once, and every convenience installed to make the grounds attractive. It will be free to campers. The auto camp ground will thus be close to the business section.

After September the block will be used for a market square for the other months of the year.—Hall County Herald.

THEATRE IMPROVED AND REMODELED

A large force of workmen are now engaged in completely remodeling the Princess Theatre, on the north side of the square, and when their work is finished, Memphis will have one of the most modern and attractive playhouses in the Panhandle.

The remodeling of the theatre will include every part and practically amounts to the rebuilding of the entire building.

The present inclined false floor is to be torn out and replaced with one slanting in the other direction, as the theatre is to be faced the other way.—Hall County Herald.

SCHOOL BONDS APPROVED

The school board received notice from the Attorney General's Department at Austin that the North side school bonds to the amount of \$45,000 had been approved, and the bonds are now in the hands of the board.

The contract for the erection of the building will be let about the 10th of May. Architect Kauffman, of Amarillo has informed the board that he has had calls for about 10 sets of plans.—Dalhart Texan.

A LESSON FROM THE STARS

In the garden of a country home two men were talking. Near them sat a small boy looking at the stars. Said one of the men: "I am making a product that I know is the best in its class—and still I can't sell it."

There was a moment of silence . . . Then the second man called to the boy who sat near them.

"Son," he said, "if you had your choice of any of those stars up there, which one would you choose?"

The boy promptly pointed to the brightest star in sight. "That big one over there!" he said.

The man who had addressed the boy turned to his companion. "As a matter of fact," he said, "there are other stars in the heavens, which the boy cannot see, that are far brighter and bigger than the one he chose. But he didn't know the other stars were there—and so he couldn't choose them. That's why your product isn't selling. People simply do not know that it exists."

"I know what you mean," said the first man, "advertising. But I tried advertising in the past—two or three times—but it didn't work."

His companion steeled preoccupied with the stars . . . "If we stand here and watch the sky for a few minutes," he finally said, "we shall see a shooting star. It will spurt across the heavens for a second, and then it will die out. There are thousands of shooting stars every night. People pay little attention to them and they are instantly forgotten. That's the kind of an advertiser you were."

"The Pole Star," continued the speaker, "has stayed on the job so long and faithfully that its very name has come to mean 'a guide, a controlling principle.' And that's the way to advertise. There are certain products today whose names are regarded as a guide-to-satisfaction and a controlling principle of quality. They are the pole-stars. In this present economic situation it is the pole-stars that are doing the business."—From an advertisement of N. W. Ayer & Son in the Saturday Evening Post.

BURNETT AND RUSHING WILL BUILD THREE NEW BRICK BUSINESS HOUSES

J. T. Burnett and S. L. Rushing have bought the two lots just east of the Canyon Paint Company from J. T. Service and expect to start work within a short time upon three lots.—Randall County News.

Henry Tombs and family, of Claude, visited here the past week end with relatives.

WELLINGTON TO PUT WHITE WAY ON SQUARE; TO VOTE ON PAVING

Wellington, April 27.—The city has just received twenty-eight street lighting standards to go on the square. This will make the square in Wellington one of the best lighted places in the Panhandle. These standards are of the regular street lighting type and are ten feet high. There will also be eighteen of the bracket style standards put up on another circuit to the school house and churches making a lighting system of forty-six lights on the town. There is a strong desire now to pave the square. If the paving and sewer bond issues carry there will be much improvements to be done in the near future.—Amarillo Tribune.

HARROLD WILL ERECT HIGH SCHOOL BUILDING

A high school building to cost in the neighborhood of \$15,000 will be erected at Harrold this summer. Bonds for the new structure were voted last year. The structure will be of brick, two stories high, and will contain eight rooms.

Plans are being completed, and it will be of brick, two stories high, and will contain eight rooms.

Plans are being completed, and it is expected to let the contract at once, so that work may begin as soon as school closes. The building will be directly in front of the temporary high school structure, which will be torn down.—Electra News.

Frank Whitlock returned Thursday evening from Ft. Worth where he recently underwent an operation. At one time grave fears were entertained for his recovery, but his many friends are glad to see him in our midst once more, and looking so well.

IF SKIN BREAKS, OUT AND ITCHES, APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness. You do not have to wait for improvement. It quickly shows. You can get a little jar of Mentho-Sulphur at any drug store.

RED PEPPER FOR RHEUMATIC PAIN

Red Pepper Rub takes the "ouch" from sore, stiff, aching joints. It cannot hurt you, and it certainly stops that old rheumatism torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any good druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

BUILD In 1922

PROJECTED HIGHWAY ATTRACTS ATTENTION

would bring a great number of tourists to view the scenery,—which, it is said, equals the best in Colorado.

Wayside, one of the most prosperous communities in Texas, is located in the southwestern portion of Armstrong county, in the Palo Duro canyon. The people of that community could have access to this road by building a lateral of about ten miles. And besides this would give them an outlet to their county-site, Claude,—a much nearer route for them than they now have, which is around by way of Canyon.

The building of public roads and the extensions of railroads are matters of vital importance to the people. The vast appropriations by the states and the national governments toward the building and maintenance of public roads are evidences that such facts are recognized by the law-makers. The people of Tullia and Swisher County have never been slow to take up, work for and boost good roads. And this proposed highway from Clarendon to Silvertown ranks with the more important ones. And we are sure that all of our people will be consistent boosters for it. Not only does it shorten the distance by travel between the towns, but it also puts us in more direct connection with Clarendon, a town of thrifty people, good schools and progressive ideals. And we are sure that the more of these towns of the Panhandle and Plains country with which we can link up,

the better it will be for us. So let us all boost and work for this highway through the Palo Duro canyons.

FIRST CHRISTIAN CHURCH
Lord's day, May 14. Bible study 9-45. Preaching morning and evening. Morning subject, "The Children of Light Reproved." Evening subject "The Christian Invitation." HOGS HIGHER; CATTLE STRONG; SHEEP LOWER

Though receipts were fairly liberal trade in fat cattle was active at strong prices. Quality of the offerings was below the average of last week. Stockers and feeders were in active demand at strong prices. Hog prices were 10 cents above the high close last week and the highest since early April. Top price was \$10.65. Sheep and lambs were lower with trade quiet.

Receipts today were 11,000 cattle, 15,000 hogs, and 10,000 sheep, compared with 10,000 cattle, 11,000 hogs, and 7,000 sheep a week ago, and 12,650 cattle, 13,975 hogs, and 17,150 sheep a year ago.

The few choice steers here today sold at \$8.35 to \$8.50 and the fair to good kinds which predominated brought \$7.50 to \$8.25. Prices, quality considered were quoted strong. All classes found a ready outlet. Demand from local killers was especially active, and for all classes. There was a good shipping demand for medium and strong weight steers. Cows and heifers were steady at last week's and strong weight steers. Cows and heifers were steady at last week's close. Good fat cows are scarce. Some half fat kinds are beginning to show grass sap. Veal calves were steady.

Some selected stockers and feeders sold at \$8.35 to \$8.50, and most of the thin steers brought \$7.25 to \$7.75. Trade was active with prices strong. Indications that thin cattle will continue to bring strong prices.

Hog prices today were up 10 cents, compared with last week's close and 50 cents above a week ago. Trade was active and the full advance was maintained on the close. The top price was \$10.65 and bulk of sales \$10.40 to \$10.65. A good many salesmen expect a further advance this week. Demand is large, with packers buying more freely than in April. Pigs sold at \$9.50 to \$10.35.

Prices in the sheep division were 40 to 50 cents lower. Large shipments direct to Chicago packers caused a big decline there and turned other markets down. Woolen lambs here sold up to \$15.00, clipped lambs \$13.75, spring lambs \$16.10 and clipped Texas wethers \$9.50.

Moderate receipts of good heavy horses sold readily at steady prices. Plain classes were slow sale. There is evidence of a fairly good demand for mules at Tuesday's auction.

Chas. M. Pipkin, Market Correspondent.

BUILD FOR THE FUTURE

Clarendon is your home, why not speak well of it, improve it, trade here, be public spirited, take a personal pride in everything of a civic nature; remember it is your home trade and induce others to do so, welcome the stranger he may stay, support all local institutions that are trying to benefit your home town; it will advertise your home and city in such a way all will be benefited. Some methods are good, others are better, we want to advertise our county and city in such a way every one will be surprised and not disappointed; is surprised they will make inquiries, look at our advantages and figures with us; but if, on the other hand, they are disappointed they will pass us by.

I am reminded of a trip to Cuba years ago, and on going through Morro Castle was impressed with the solid construction; it was built to stand for centuries, and unless destroyed by an earthquake, bomb or shell, no natural cause will destroy it during the lives of anyone living today, or for another century. The architect built with an eye to the future; yet how many today in building, think no farther than their own lives; it is the cause of the dissatisfaction of today.

When we start any improvement in our county or city would it not be a good idea to build with an eye to the future? Figure what can happen and what most likely will happen and in that way save much money, and prove satisfactory to all. If we improve our streets, our roads to our city, let's make the improvement with the thought of the future; dollars well spent save many dollars in the future, and the satisfaction will mean more in all of our improvements.

Let us make this county and city one we all will feel proud of all the time; let's build for the future.

AUDITORIUM WILL BE READY FOR C. OF C.

"Unless something very unusual happens, the Auditorium will be ready for the West Chamber of Commerce Convention on the 22nd and 23rd," J. B. Maxey, the builder, said yesterday. There are thirteen more working days before the Convention, and Mr. Maxey says that he will have all he can do until that time, but that all necessary parts of the building will be ready for use.

Today the second section of the floor is being laid. This is a great job and one that requires a great deal of time. The first section has been laid.

Yesterday the job of wiring the building was started by the G. C. Electric Company. Workmen are fast putting on the roof, and covering it with the fire-proof material. Plasterers are busy on the interior of the walls and brick masons are fast completing the remaining brick work on the front of the building. The chimney is up and the furnace room is completed. But the heavy work, that of erecting the great beams and supports, which are of structural steel is over.

There will be much to do after the Convention is over, such as completing the various rooms, the Chamber of Commerce room, the library and the exhibit rooms, and some work on the stage and furnishings. In all essential details, however, the huge building will be ready for the Plainview's visiting host and the great Convention.—Plainview Evening Herald.

MUCH COTTON WILL BE PLANTED ON THE PLAINS

Cotton is going to be a very profitable crop for the Plains this year, and thousands of acres will be planted. Last year's crop was the shortest in decades, and the surplus has been reduced to such an extent that many factories have closed. English and other foreign mills are wanting American cotton, and as their credit is being restored they will be able to buy the fleecy staple, to make up the cloth for the clothing of their millions of people.

The great floods that have inundated the Mississippi valley, and nearly all other rivers throughout the Southern states, have destroyed millions of acres of cotton which was already planted. When these waters subside and the ground gets dry enough for planting, the season will be too far advanced for cotton planting, the season will be too far advanced for cotton planting, as such cotton as might be planted will fall victim to the boll weevils, which depredate on late cotton.

Hence, there is going to be a tremendous shortage in the cotton crop for this year, and the price will be high.

The price is now increasing and will undoubtedly continue to do so. Here on the Plains cotton grows as successfully as it does in any section of the state, and the yield runs high. On account of the high altitude and the sturdiness of the stalk, insects have never depredated on cotton, and it is a sure crop. This year farmers in Hale county should plant cotton; it is the best crop that can be planted for ready money. Every farmer should plant a few acres. There is approved seed enough on hand in the county to plant between six and ten thousand acres.—Plainview News.

9,000 BUSHELS COTTON SEED SOLD FARMERS

That even more cotton will be planted than has been predicted by those who were most informed on the subject, is indicated by additional sales of cotton seed, Capt. Winfield Holbrook, manager of the T. L. D. Company, stated yesterday. Capt. Holbrook says that very conservative figures show that up to date there has been sold to farmers in the Plainview farms, a total of 9,000 bushels of cotton seed.

One firm reported selling 300 bushels in a single day this week. Capt. Holbrook says that many farmers are busy now planting their cotton crop, where it is dry enough for them to get into the fields to do so. The first week in May, he said is an ideal time to plant cotton on the Plains, and it is doubly so this year he thinks, because of the recent rains which put an abundance of moisture in the ground.—Plainview Evening Herald.

HILL SEEKS RE-ELECTION AS STATE REPRESENTATIVE

Hon. H. B. Hill of Shamrock, was in this city Monday seeing the voters, and while here authorized the News to announce his candidacy for re-election to the office which he now holds as state representative from the 122nd District. Mr. Hill has held this office for four years, and during this time has shown his thorough interest in the welfare of his constituents by being prominently identified with many bills that affect the welfare of this part of the state. He was author of the uniform time bill which called upon our United States Senators to put forth a bill putting West Texas in the same time belt of the rest of the state. He was also author of the Senatorial redistricting bill which cuts the present senatorial district into two and one half districts thus giving this part of the state three new senators. He was also joint author and one of the floor leaders of the bill for creating the West Texas A. & M. College.

He is one of the outstanding figures in the House of Representatives, and if re-elected pledges his whole energy to putting forward the interests of his constituents. His candidacy is subject to the action of the Democratic Primary in July.

Mrs. R. T. Wilson is spending the week visiting with relatives and friends in Vernon.

Horace Park, of Lakeview, visited here with friends at the college last week, returning to his home Monday.

This is bargain week on stationery. You will miss our bargain if you need stationery. R. A. Long Drug Company. (19c)

EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to flush kidneys if bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys; they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders. Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

Ford
THE UNIVERSAL CAR

\$580
Most for Your Money

And remember—the lowest first cost, the lowest upkeep and the highest resale value of any motor car ever built.

No other car of this type is priced so low — no other will give you more real motor car value—more convenience, more comfort, more dependability than a Ford Coupe. Equipped with electric starting and lighting system, demountable rims, extra rim and non-skid tires all around, it makes the ideal enclosed car for business or for pleasure. Reasonably prompt delivery. Terms if desired.
