## C. C. DEFEATS NORMAL 20-19 ON LAST PLAY

WITH BUT FIFTY SECONDS TO PLAY AND ONE DOWN TO GO. GOODWIN CROSSES GOAL ON BUCK FOR WINNING TOUCHDOWN.

A successful buck through right tackle by E. Godwin on the fourth down and within the last fifty seconds of play at Mangum Friday afternoon staved off defeat and wrested from the Northwestern Normal College the most sensational victory the Bulldogs have won this season.

The game ended 20 to 19 in favor of C. C. but one minute before the College but one minute before the whistle blew the Bulldogs were trailing with 14 points. They were established on the Oklahoma eighty-yard line and with three downs gone to the bad on unsuccessful attempts to penetrate the line the Methodist were faced with the problem of negotiating that intervening space within fifty seconds or losing the game. In the spirit of that tenacious determination of the animal for which they are named, that problem was solved and football fandom was given a concrete and impressive example of that principle of gridiron sport so often preached by coaches: That the game is never over until the last whistle is blown.

The last minute of play Friday afternoon marked one of the most tense situations imaginable in a football contest. During the entire of the last quarter the Clarendon team had been "off". The Normalites had been instilled with an arrogant self-confidence that had been communicated to their rooters on the side lines until the idea of losing the games had been relegated by them to the realm of impossibilities. It was getting dark and the spectators were leaving the stand, intent upon hastening to send a message of victory to their respective homes. But the result of one last, supreme, successful effort by the Texans left them shocked speechless. The impossible had happened.

The game Friday was one of the most closely contested and interesting contests ever participated in by the local collegians. The teams were about equally matched in every department of football and the Bulldogs were opposed by a machine that was pretty well able to cope with their characteristic open playing. The Oklahomans resorted pretty much to the same tactics offensively and were drilled in the defense of this character of playing. They had a good passing combination and some exceptionally swift men in the backfield and on ends. In spite of their efficiency, however, the Bulldogs were able to complete several long passes and Jackson more than once circled their flanks for material gains.

The contest in Mangum had been well advertised and was considered a football classic in that section of the state. It was moved from Weatherford, the home of the normal, to Mangum as a feature of the entertainment program of the State Education Convention in session in that city. Fifteen hundred passes had been issued to teachers in attendance and special trains from Duke, Hollis and Weatherford swelled the crowd.

The victory over the Oklahomans is considered quite an event in the history of Clarendon College athletics for it is the first time the Bulldogs have been victorious over this team. It is considered all the more significant in view of the fact that the Normal is believed to be stronger this season than usual. They had lost only one game and that was to Phillips University by a score of 34 to 13.

The Bulldogs started in with a rush and counted within the first two minutes of play when Jackson received a lateral pass from O. Close and raced fifty yards for the first touch down and then kicked goal. A successful pass by the Normalites a few minutes

## LOCAL PASTOR IS RETURNED TO CLARENDON

READING OF APPOINTMENTS SUNDAY NIGHT AT CONFERENCE IN QUANAH REVEALS MANY CHANGES BUT ONLY ONE IN THIS DISTRICT.

Presiding Elder J. R. Henson and Rev. J. T. Griswold, pastor of the Methodist Church will make their home in Clarendon for another year. They returned Monday morning from the thirteenth annual session of the Northwest Texas Conference which closed at Quanah Sunday night with the news that they had not been changed. The conference was conducted by Bishop J. E. Dickey and the reading of the appointments revealed an unusually large number of changes. Plainview was selected as the next meeting place.

Bishop Dickey's list of appointments included two new men for Clarendon. They are Rev. Z. B. Pirtle, Clarendon circuit and Rev. W. H. Strong conference evangelist.

Bishop Dickey preached the sermon at the Methodist church Sunday morning before one of the largest crowds ever gathered in Northwest Texas Methodism. Visitors came by cars and train from Memphis, Childress, Vernon and from Oklahoma. The service ended with a scene of intense religious demonstration featuring by some old time Methodist shouts.

The reports of most of the pastors financially, were exceptionally favorable for a year full of depressions such as this has been. Over 8,000 additions to the church this year were reported.

Special attention was given to the hospital interests of the church. A new hospital board was appointed of which Rev. S. W. Hayne of Amarillo is chairman, Rev. B. Y. Dickinson of Trent is secretary, and L. G. Hawkins of Vernon is treasurer.

The Christian Education movement was particularly stressed in the session Thursday. Rev. G. S. Slover, president of Clarendon College, was among the educators to speak on the subject.

The question of re-admitting O. P. Kiker to the conference was taken up with the result that he was refused admission. L. O. Lewis of Clarendon was re-admitted to the conference and his name was referred to the committee on superannuation. The conference voted to accept additional conference appropriations amounting to \$15,000.

Bishop Dickey announced but one change in the Clarendon district. Rev. J. R. Rich of Lelia Lake was moved to Textline and his place was taken by Rev. J. B. Weems. Several shifts were made in the presiding elders of the conference. Rev. Geo. W. Shearer was named as presiding elder for the Amarillo district, being shifted from the Lubbock district. His place as presiding elder of the Lubbock district was taken by Rev. E. E. Robinson who was last year pastor of the St. Paul church in Abilene. Rev. A. L. Moore was announced as presiding elder of the Stamford district. He was pastor at Memphis last year. Rev. J. W. Story, formerly presiding elder of this district and at one time pastor of the Clarendon church, was sent to Quanah as pastor.

Following are the appointments for the Clarendon district:

Presiding elder, John R. Henson; Clarendon, J. T. Griswold; supernumerary, J. B. McCarley; supernumerary, R. E. Bonner; supernumerary, Leon Henderson; Clarendon circuit, Z. B. Pirtle; Claude, M. E. Hawkins; Claude circuit, C. B. Ingram, supply; Hedley, S. H. Young; Lakeview, A. O. Hood; Lelia Lake, J. B. Weems; Plaska, Enoch Eiland, supply; McLean, J. S. Huckabee; Memphis, J. T. Hicks; Mobettie, P. E. Yarborough; Pampa, J. M. Fuller; Shamrock, C. O. Wright; Turkey, J. E. Boyd; Shamrock circuit, C. A. Duncan; Wellington, A. B. Davidson; Wellington circuit, E. L. Sisk; Wheeler, J. G. Thomas; Hedley circuit, John Crew; Washburn, to be supplied; president Clarendon College, George S.

## DATES SET FOR LIONS BENEFIT

PLAYGROUNDS SHOW AT PASTIME MONDAY AND TUESDAY, NOVEMBER 20 AND 21

Monday and Tuesday, November 20 and 21, are the dates set for the benefit motion picture to be staged by the Lions Club at the Pastime Theatre for the purpose of raising funds to equip playgrounds for the local city schools. A Paramount picture, "North of the Rio Grande," starring Jack Holt and Bebe Daniels will be shown with a Harrold Lloyd Comedy.

Attendance at Lions meetings was the point given special attention at the weekly luncheon of the Club Tuesday. Following an impressive discussion of the subject by Holman Kennedy measures were taken to build up a 100 per cent attendance at all meetings. Special committees are to be appointed weekly to remind the brethren of the meeting and all members who can not attend and who do not turn in a valid excuse by Monday night will be taxed the price of his plate at the luncheon. In addition to the above provisions, the Club decided unanimously to enforce the constitutional provision to the effect that three consecutive unexcused absences automatically drops the member from the roll.

The matter of attendance was given special attention for the reason that the Club has to report to the Lions International monthly and this phase of Lions activities is of exceptional importance in the international organization. It was decided to have a thermometer placed in the meeting room and the attendance for every meeting registered. From the weekly readings the monthly averages will be struck and reported to the Chicago headquarters.

The chairman announced that all members whose name begins with A or B will have charge of the program for next week.

A reading and a song by little Miss Lois Clark and a reading by Miss Elizabeth Davis, all of which were exceptionally well rendered, contributed materially to the entertainment at the luncheon. They were extended a rising vote of thanks.

Mrs. Callie Houk returned Friday from a week's visit in Panhandle with her daughter, Miss Myrta. Miss Myrta returned with her mother and spent the week-end visiting friends and relatives in Clarendon.

Slover, professor in Clarendon College, Justine V. G. Anderson; conference evangelist, W. H. Strong.

## CITY TO HAVE ELEVATED TANK

NEW RESERVOIRS WILL GIVE CLARENDON 350,000-GALLON WATER SUPPLY.

Clarendon's new elevated tank will be shipped within about a week, according to advice received by Mayor W. P. Cagle from the contractors. The new reservoir will have a capacity of 150,000 gallons and will be erected on Clarendon Heights. The present tank of 80,000 gallon capacity, located at the water works plant, will be replaced by a 200,000-gallon reservoir. This means that when the city's water improvement project has been completed Clarendon will have a reserve supply of 350,000 gallons, meeting fully the requirements of the State Fire Insurance Commission for a reduction in the key rate.

The specifications of the larger tank have not as yet been agreed upon. A concrete structure to be partly underground is being considered. A six-inch main will lead from the elevated tank down Second street and this supply will be supplemented by the water in the large tank at the water plant. The eight-inch mains in the business section of the city will feed from both reservoirs.

The James Construction Company has organized its crew and the ditcher is steadily progressing with the excavation. First dirt was broken on South Front street. The machine turned south on Gorst street, west on Third street, and north on Jefferson, completing the fire loop for the business section. All of the pipe has been laid and tested in this loop. The pipe crew is keeping pretty well up with the ditcher.

Having finished the fire loop the excavation then proceeded out west on Second street to the hill. From there the machine will be brought back to Winnie and a cross ditch cut to Fourth and then the excavation for the main leading from the stand pipe site on West Fourth will be made.

## DENVER CHANGES SCHEDULE FOR THREE TRAINS TODAY

Effective today, the Fort Worth & Denver announces a change in schedule as to three passengers. Southbound No. 2, formerly due at 8:45 a. m., will in the future be due at 8:10 a. m. Southbound No. 8, formerly due at 8:05 p. m., has been changed to 8:15 p. m. Northbound No. 1, formerly due at 8:05 p. m., is now due at 8:50. Northbound No. 7 has not been changed. It is due at 10:25 a. m.

## C. H. S. HIGH IN T. U. AVERAGES

FRESHMAN FROM LOCAL SCHOOLS SHOW SUPERIORITY IN SCHOLASTIC WORK

Clarendon students in the freshmen class of the University of Texas last session made a scholastic record approximately 12 per cent better than the average for the state over, according to figures recently received from the registrar by Superintendent Nelson. Taking the records from freshmen from all affiliated schools over the state, the figures show that the average freshman passed 4.64 courses with an average of D. The record of students from Clarendon was 5.02.

The following explanation is offered as to how these figures are arrived at: Arbitrarily, D is given a value of 65, C, 75; B, 85; A, 95. All grades are translated into terms of D and only passing grades are considered and only regular students (those taking four courses) are counted. The number of courses taken by the student is also considered, the presumption being that those with fewer courses should make a higher grade.

Clarendon's attainment of 5.02 surpasses the record made by students from most of the larger schools of the state. Amarillo, Austin, Dallas, Ft. Worth, San Antonio, and Waco are among the larger schools whose records are lower than Clarendon's.

A notable fact revealed by the figures from the registrar is the apparent superiority of the students from the smaller schools. Some of the lowest grades on the record came from some of the largest schools and if the towns were classified according to size there is no doubt but that the record of the smaller division would be higher than that from the larger places by a large percentage.

## WALTER DONNELL IS INJURED

Walter Donnell has been in a serious condition since Thursday afternoon as a result of injuries received in a run-away. Mr. Donnell was coming from his place east of town and was just entering the main highway when some boys passed in a car and ran so close to his team that the mules became frightened, suddenly turned and started to run. Mr. Donnell was thrown from the wagon and one of the wheels ran over and broke his leg. He was otherwise injured but to what extent has not been ascertained at the last report. He has been unconscious a great deal of the time since the accident.

## MAYFIELD IS GIVEN LARGE MAJORITY OVER GEO. PEDDY FOR UNITED STATES SENATOR

DEMOCRATIC NOMINEE MORE THAN DOUBLES HOUSTON MAN IN DONLEY COUNTY. IS 150,000 AHEAD OVER STATE. LANDSLIDE TAKES SIX SENATE SEATS FROM REPUBLICAN PARTY. MRS. WHITE WINS FOR DISTRICT CLERK.

An overwhelming majority for Earle B. Mayfield for United States Senator is revealed by a compilation of the votes cast at ten of the largest boxes in the county in the general election Tuesday. The Democratic nominee received 824 votes while 239 voted for Geo. E. B. Peddy, the fusion candidate. "A Gump" was the choice of one voter in the Clarendon box. Peddy carried but one box in the county, Rowe Ranch, where he received five of the nine votes cast for senator. He received no votes at the Smith box.

In the district clerk's race Mrs. H. B. White received over twice as many votes as her next highest opponent, W. E. Nelson. The vote in this race was: Mrs. H. B. White, 524; W. E. Nelson, 228; Nick Fryar, 161; A. A. Howell, 62; Lottie E. Lane, 4. Miss Lane received her votes in the Clarendon box. Mrs. White carried all boxes except Lelia Lake, Smith, McKnight and Ashtola.

The Republican candidate for governor, W. H. Atwell, received 43 votes which is about the vote cast for all candidates of that party where no other issue was considered. Pat Neff received 925 votes.

Up till 10 o'clock this morning the following boxes had not been reported: Goldston, Whiteface, Hackberry, Skillet, Watkins and Wilson. These are all small boxes, however, and they would not materially change the results.

The amount of interest manifested in the election Tuesday fell far below the expectation of many. The vote was exceedingly light, there being but 1,115 who participated in the voting at the ten boxes reported. Only 610 votes were cast at the Clarendon box. This precinct has a voting strength of something near 900. The vote in the Clarendon box for governor was: Neff, 486; Atwell, 20. It appeared that 16 voted a straight Republican ticket in this box. For senator the city gave Mayfield 456 and Peddy 124, and in the district clerk's race the vote was as follows: White, 323; Nelson, 142; Frayar, 50; Howell, 13; and Lane, 4.

The following were the officials at the Clarendon box: T. F. Connally, judge; C. R. Skinner, C. H. Bugbee, E. F. Bryson, John Ryan, Fred Connally, J. H. Mann and H. M. Ellis, clerks.

Reports from Dallas this morning say that Mayfield has a majority of 150,000 over the state. He carried every large county in the state. Mayfield is one of the youngest men ever to be elected to the senate. He is forty-one years of age.

Efforts to keep Mayfield from taking his seat will be made according to an intimation in a statement made in Dallas by R. B. Creager, Republican State chairman.

Reports of the election over the nation show a Democratic landslide. The Republicans lost six seats in the senate, and their majority of 24 will be reduced to 12. The Republicans defeated for re-election are: Kellogg of Minnesota, Frelinghuysen of New Jersey, Dupont of Delaware, Townsend of Michigan, Calder of New York, and France of Maryland. The first three are close personal friends of President Harding.

The Democrats lost Hitchcock of Nebraska and Pomerene of Ohio but the Farmer-Labor vote elected Brookhart in Iowa and Shipstead in Minnesota. Mrs. Oleson the woman candidate in Minnesota ran third, Kellogg, the Republican candidate being third.

## HOME COMING IS BEING PLANNED

GAME WITH CANYON THANKSGIVING TO BE FOLLOWED WITH RECEPTION

A big time is being planned by the alumni of Clarendon College for Thanksgiving. That is the date for the game between the Bulldogs and West Texas State Normal of Canyon and this contest has been selected as the "home-coming game" for this season.

The local executive committee met yesterday afternoon for the purpose of formulating plans for the celebration. It was decided that the visitors will be entertained with an elaborate dinner at the college dining room followed by an informal reception, on Thanksgiving evening shortly after the game. It is the purpose of the committee that this event shall be brought to a close in time for those who wish to catch the northbound train that night. Following the reception a meeting of the alumni will be held for the purpose of electing officers.

According to the present plans, a personal invitation will be mailed to every graduate of Clarendon, appealing to them to be present and bring any other alumnus they may happen to know. It is the intention of the committee to put the project over big and make the event Thanksgiving the largest of its kind ever staged here.

Plans looking to the drawing of the alumni of Clarendon College into a closer association was discussed by the committee yesterday. An organization something similar to that maintained by the ex-students of other institutions is the object toward which efforts will be directed. The benefit of such an organization to the institution was pointed out and then the fact that such association will retain the close friendship fostered in college is a large consideration, one committee member mentioned. It was suggested that there is no reason why ex-students from Clarendon can not gather for their annual meeting and banquet as do the alumni from the State University, for example. Particularly is this true of the towns in the Panhandle where so many of the alumni reside.

## MISS McCORD AND OSCAR HILL MARRIED IN DALLAS

News has been received in Clarendon of the wedding in Dallas on the evening of Wednesday, November 1, of Miss Ella McCord and Oscar Hill of Claude. Miss McCord formerly was employed as nurse at the Adair Hospital and is well known in Clarendon. Her marriage came as quite a surprise to her friends here. The couple will make their home in Claude.

## trailing the Democratic nominee, C. C. Dill, in Washington at last reports.

In Michigan, the Democrats elected a senator for the first time in 70 years. Former Governor Ferris defeated Senator Townsend. The Republicans retained 218 seats and a majority in the House of Representatives, judging from the returns at 2 o'clock this morning. At that hour the Democrats had 205, the Socialists 1, Farmer-Labor 1, Independent 1, and nine districts were unreported. Wurzbach in the San Antonio district, the only Republican representative from Texas, was re-elected by a large majority.

REWARD FOR THE RIGHTEOUS

Mark the perfect man, and behold the upright: for the end of that man is peace.—Psalm 37:37.

Senator Mayfield of Texas. He is a fighter and a winner.

The Republicans didn't want him and the Democrats wouldn't have him. Mister George Peddy meet your new senator, Earle B. Mayfield.

Retribution will now fall heavily upon the Kaiser. He is the possessor of a high tempered, second wife, with a small, but powerful iron heel.

We want the Million Inhabitants by 1927, alright, but we hope that they are of the same sterling, hundred percent, white, anglo-saxon citizenship that now characterizes our people of the Panhandle and Plains country.

Full warning was given, so two and four years hence when certain former Democrats seek to pass in to the Democratic primaries they can't frame to say the shibboleth aright and will then realize the consequences of their acts in 1922.

The News welcomes Presiding Elder Henson and Rev. J. T. Griswold back to Clarendon by action of the annual conference at Quanah. They are good men and true, who labor constantly for the upbuilding of God's kingdom.

The Clarendon Lions have chosen equipment of the public school playground as their civic work for the coming year. It is a splendid, unselfish work and one which will appeal to all the people. May the Lions' tribe increase.

Now, after many months of turmoil, the political battle is over and the usual sweeping victory for Democracy has been won in Texas, let us hope that people will resume their friendly manners and that peace shall again abide with us. Even business is usually bettered with the cessation of hostilities and it ought to be a wonderful Thanksgiving, if all these things come to us.

There's several ways of knowing a Democrat when you meet him. A Democrat always votes for the party nominees when he has gone into the primary to select such a nominee. Then a Democrat always bows to the will of the majority. Then, too, Democrats do not make pledges that they do not intend to keep. There are Democrats—and there are others.

Amarillo and Plainview are in a lovely tilt over the location of the Panhandle Tri-State Fair soon to be awarded by the special committee of the Panhandle-Plains Chamber of Commerce. We ought to have the great fair and The News hopes the city offering the best facilities and inducements gets the plum. It will be worth millions to the winner.

Our friend, Dean Dalton, son of Editor Jerry Dalton of Memphis, has launched the Estelle News and last week issued Number One of its first volume. The Estelle News will be printed in the Democrat office at Memphis, but Dean will operate a job printing establishment at Estelle and will serve the people from that office. Good luck, Dean.

Talk about the rapid work courts can do when public sentiment demands, take a pointer from the recent case at Muskegon, Mich., when the brute abductor of a pretty, eleven-year-old girl, was apprehended, tried and sentenced to thirty-five to forty years in the state prison within twelve hours, and within four days after the horrible crime was committed. Blind justice can be swift when the people demand it.

Our idea of the poorest sport and the off-scourings of the political sewage disposal plant is the buck who still tries to mouth around about our senator-elect. Earle B. Mayfield, after that gentleman and Democrat has won three elections all in one season. He led the field in July, he beat thunder out of Jim Ferguson and the liquor crowd in August and cleaned up in grand style on the Republicans, negroes and mugwumps in November. Few men in Texas history have ever surpassed such a magnificent record.

The Old Home Town Edition of The Clarendon News, on Dec. 21st, will be a wonderful vehicle for carrying the messages of the merchants of Clarendon to the buying public. It will go into over two thousand homes and will be preserved on account of its stories of early days and of present progress.

There is a growing sentiment and more insistent demand that Clarendon should not be without the services of a virile chamber of commerce. The News hopes there shall be raised up a leader in this matter and that before the old year is tolled out and the bells ring in the new year of 1923, plans will be laid and public sentiment crystallized behind an organization that shall surpass anything of the kind we have ever had in Clarendon and one that shall again lead other Panhandle towns in the paths of progress and achievement.

The only sad part of the election of Nov. 7th, it seems to us, is the wreck of the career of a young man who gave promise of being a strong upstanding man among men. So far as we know George Peddy was a clean minded, Christian young man, but his awful spleen against the ku klux klan, an organization that desires only the good of the country, led him into the arms of those who seek to destroy every good thing that he thought he stood for. His ambition brought about this unholy alliance, and like many another, his ambition led him to ruin. Henceforth and forever, Peddy will be a broken reed, a poor loser, a player who broke the rules of the game he sought to play, a Benedict Arnold to his party and a disappointment to his church and his fellows. Politically and morally he is a bankrupt and will be dealt with as such. It ought to be an eternal lesson to young men of this state to stand true to the principles of Christianity, to be loyal to party and to play the game according to the rules or to stay out of the game. It's a sad spectacle, even if the lesson is heeded.

CLARENDON GOES DOWN BEFORE CLAUDE 18-6

When they were called back for being off side and lost the touchdown made within the first two minutes of play at Claude Monday afternoon, the Clarendon high school team lost its spirit of fight and a listless football game went to the home team by a score of 18 to 6.

## Farm Woman and Mule in Hall Case.

The natural curiosity of a mule was an important factor in solution of the murders of Rev. Hall and his pretty choir singer, Eleanor Mills, at News Brunswick, N. J.

Mrs. Jane Gibson, farm woman, in the early evening was riding "Jenny" in search of corn thieves when the mule attracted her attention to the murder party just as the shooting started. Mrs. Gibson came forward as a witness when an innocent boy was accused.

# Facts and Theories

It is a well known fact that facts and theories do not agree in all things. Theoretically oil engines are designed to operate automatically, use very little fuel, very little lubricating oil. Theoretically they will not wear out for many years, and it will require very little labor to operate them.

Our chief engineer is a man of long experience and special education. He knows the oil engine game. Yet we are continually having to get expert advice on some problem that comes up with reference to the operation and repair of the plant.

We find from experience that while oil engines operate automatically that it requires the experience of a skilled operator to keep the automatic devices working. That they consume twice as much oil as the theory would indicate, and many times as much lubricating oil. Our bill for repair parts average several hundred dollars per month. We have also found that after an oil engine has run a few years that it is cheaper to junk it, or use it as an emergency unit only, than it is to keep up the repairs.

The writer of this advertisement has been in the public service business many years. Has had much experience with all classes makes, and types of engines, oil as well as steam engines. And has examined the record of many others operating different kinds of machinery and has found the following to be true:

We have also found out from costly experience that it is necessary to employ highly trained men to operate and repair this class of machinery. In order to keep this class of employees we are compelled to pay wages and salaries that will command their services. It often happens that we can't find trained men when we want them. Then it is up to us to train one. We have a high grade man as chief engineer who is employed to train such men, supervise operation of the plant and to make such repairs as the operating engineer can not make. We have five regular men in our employ who are trained to this class of work, and we are continually having to employ extra men to assist them.

That all makes, and types of oil engines have their good and bad qualities, and there is not a great deal of difference in the final results obtained by using any particular make or type. That a steam plant will consume more fuel, but will require less lubricating oil repair parts and labor. But that there is not a great deal of difference in the final results totaled after a period of ten years. And that the operating cost at Clarendon's power plant are less than the average.

It is a well known fact that a big engine will operate at a smaller proportionate expense than a smaller one. We can and do sell power at a price whereby we can make a small profit to our selves and a big saving to our customers. Small oil and steam engines have their place but they can't compete with electric power where electric power can be obtained.

## Your Future

How much money have you saved in the past five years?  
 How much money do you intend saving in the NEXT five years?

As a safeguard against want and privation in old age, it is well for every man or woman to develop the savings habit, and Stick to it.

You may not always have the health and earning capacity that is yours today.

If you will open an account with this bank, you will be agreeably surprised how easy it is to save, and the future will be more pleasant to look forward to.

"Come on, Alice, you know Mother said we are going to have Kellogg's Corn Flakes for lunch. And that's the kind I like to eat about a whole box of, because they ain't tough to eat! Come on an' hurry up!"

**Kellogg's  
Corn Flakes**

**are a taste thrill  
at meals or any time**

That's because Kellogg's Corn Flakes are so deliciously flavored—the Kellogg flavor that is known all over the civilized world! You, as well as the little folks, can eat great bowls of Kellogg's Corn Flakes day after day—and each sunny-brown, crispy, crunchy spoonful thrills the taste as though it was the first!

Put Kellogg's in comparison with imitation corn flakes! Kellogg's Corn Flakes are never tough or leathery or hard to eat! They are all-the-time crisp, all-the-time good! Don't miss such enjoyment!

Insist upon Kellogg's in the RED and GREEN package that bears the signature of W. K. Kellogg, originator of Corn Flakes! NONE ARE GENUINE WITHOUT IT!

**Kellogg's  
CORN FLAKES**

Also makers of KELLOGG'S KRUMBLES and KELLOGG'S BRAN, cooked and krumbled

Open from 4 a. m. to 12 midnight.

**PREPARE NOW FOR WINTER!**

Everybody is putting his house in order for cold weather. Windows and flues must be repaired, out-buildings overhauled and many other things will need attention.

Protect your cattle, swine and poultry from the cold and rain. An inexpensive shelter will make them snugly comfortable for the winter, and will pay you dividends in money and in satisfaction.

**Galbraith - Foxworth Lumber Co.**  
CLARENDON, TEXAS      LELIA LAKE, TEXAS

**WORTH WHILE WORK**

Work, well done, is a balm to the troubled heart. But work in the abstract is much too great a subject to deal with in an impersonal manner. All work is worth while if it accomplishes something in a concrete way. But the work that I have most in mind is the work for the betterment of the community in which one lives.

We work for a livelihood first—our homes, our children—but the world will not be improved, so long as we do only that. It is when we see ourselves as part of the whole, having a desire to give of our best, to make our niche a little more charming, a place of happiness and peace to each individual, then our work will be worth while.

The small towns are surfeited with people of talent, who declare there is no way for them to express themselves, or have any real advantages. Hence, they go to the city, perhaps leaving the family behind while the talented in selfish ambition, try to carve out a career. Many are worthy of careers, but many more could do so much for the people at home by giving of their talent in helping to awaken others to an appreciation of the real and beautiful in art, in music, and the drama. Every community needs the aid of the few who are able to be teachers and guides, and the spirit of co-operation to forward all movements toward its uplift.—E. B. W. in Texas Commercial News.

**POSTED NOTICE**

All persons are hereby warned against hunting, wood hauling and trapping in the C. T. Word & Son pasture in Hall and Donley counties. All violators will be prosecuted promptly.

C. T. Word & Son.

**\* Jots And Dots From  
Other Lots.**

The cotton committee of the Hereford Chamber of Commerce has bought 800 bushels of cotton seed from Tulia to be distributed among the farmers in the Hereford community in connection with the "grow more cotton" campaign.

Hale county will produce 2,000 bales of cotton this season, cotton men predict.

A pipe line from the Panhandle oil fields to Colorado is practically assured according to the oil men at Amarillo.

The construction of a big dam at Red Bluff, near the New Mexico-Texas line, at a cost of \$2,000,000 is being seriously considered. The reservoir would have a capacity of over 300,000 acre feet and would mean the irrigation of over 90,000 acres of North Texas land.

A man near Moskoge, Okla., was barely missed by a two-pound meteor that fell in that community last week. It struck and broke the bench on which he was sitting. Fragments of the celestial body struck the roof of his house and a chicken crossing the yard was killed by one of the missiles.

Vernon is planning to open a supplementary supply of water for the city on a tract of municipal property just east of Condron Springs, two miles west of town. From tests, the officials believe 500,000 gallons daily can be obtained from the new source and with very little excavation as the stream comes near the surface from the side of a hill.

McLean shipped a car load of watermelons last week to Corpus Christi. This is said to be the record for late shipment of melons from the plains country.

The contract has been let for the construction of a new courthouse at Olton.

A bolt of lightning struck a railroad man in San Augustine last week and knocked him from his chair. When he attempted to arise he found that his leg had been cleanly severed just above the ankle.

Houston spent the roughest Halloween in the history of the city. It is reported that \$6,000 worth of window panes were broken out. Most of the depredations were to school buildings.

The Piggly Wiggly Company is rapidly establishing a chain of general merchandise stores. They will be run on the "Piggly Wiggly" plan, the customers waiting on themselves and paying as they leave.

A farmer near Wylie raised a sweet potato weighing seventeen and a half pounds and measuring thirty-three inches in circumference.

As a result of a cat having died, an estate of \$25,000 has been thrown into the Massachusetts courts for disposition. Eighteen years ago a lady left her property in trust for her pets—seven cats, two dogs, two canaries, a parrot and a cockatoo. The cat above mentioned was the last of the list to die and now the lady's neices and nephews are fighting over what is left of the estate.

Seven men were held up and relieved of \$120 by four hi-jackers within about thirty minutes on North Main street in Vernon last week. The first holdup occurred about 9 o'clock.

A workman on a sky-scraper in Dallas fell ten stories and landed in a wheelbarrow of mortar. He climbed out, scraped the mortar from his clothes and resumed work. He stepped in an elevator shaft just after the elevator had started to descend and overtook it ten stories down.

A man near Campo cleared \$3,000 on 100 acres of broomcorn this year.

Bids are being received in Dalhart for a new courthouse for Dallam county.

Revenue officers in Wichita Falls spent five hours last week unloading a car of shingles in search for some "booze" that was there according to a "tip" they had received. But it wasn't there.

The Higgins public school system has recently been equipped with a playground.

High rents and hardhearted landlords are given as the reason for the construction on numerous houseboats on the Neches river, just outside of Beaumont.

A man near Farwell made a bale of cotton to the acre on some irrigated land.

Harris county is to vote on a series of bond issues, totaling \$19,000,000 to be used on improved highways.

A seven-year-old boy near Tahoka picked 150 pounds of cotton in one day last week.

A man in Illinois lost a \$250 diamond the other day. He suddenly remembered that he had been feeding the chickens before discovering the stone was found in the gizzard of the eighteenth victim.

**HALL COUNTY TO HAVE  
\$150,000 COURT HOUSE**

Hall county is to have a new court house. The old structure has been condemned by the State Inspector of Masonry and the commissioners court in session on Tuesday of last week decided to submit to the voters the county the matter of issuing \$150,000 in bonds to finance the erection of a new building. The notes proposed will draw 5-1-2 per cent and will run serially for thirty years. The commissioners set the election for December 2.

The issuance of warrants for the amount was first considered but deliberation by the authorities resulted in the abandonment of this idea in favor of the bonds. In case the bond election fails, however, the new county capitol will be erected with funds obtained from the issuance of 6-1-4 per cent warrants. The election, primarily will mean a selection by the voters of the method of financing the venture.

Judge McIntosh has leased new quarters for the offices of the county officials. All county property is being removed from the courthouse and work of razing the building will be started immediately. It is planned to have all of the debris removed and material for the new edifice on the ground by the first of next year.

**This Simple Mixture  
Helps Weak Eyes**

Clarendon people are astonished at the QUICK results produced by simple camphor, hydrastis, witchhazel, etc., as mixed in Lavoptik eye wash. After being afflicted with weak, watery, red eyes for many years a lady reports the FIRST bottle Lavoptik helped her. One small bottle usually helps ANY CASE weak, strained or sore eyes. Aluminum eye cup FREE. The Peoples Pharmacy.

Jerome Stocking was in Mangum Friday attending the football game between the Clarendon College Bulldogs and the Oklahoma Southwestern Normal College.

**CORN - COTTON - FRUIT - GOOD**

WATER—What else do you need to make a prosperous and happy home, except a quarter section of good Spearman farm land in the South Plains at Seagraves, Texas, where we are offering to sell this land in quantities to suit the purchaser at very reasonable prices, on long time and at a low rate of interest? If you are interested in securing a home for yourself and family where they have no boll weevil and other destructive insects and where one man can raise more corn and cotton and other farm products than a whole family can gather, write a card today to W. A. SoRelle, General Agent, Clarendon, Texas, for descriptive pamphlets of this country, or better still, come and pick out a piece of this land and let us help you secure a home before it is too late. **CHINESE SPEAKER TALKS  
ON STUDENT MISSIONS**

Pledges amounting to something like \$200 were made for the advancement of the Passo Fundo Movement following the address of Peter S. T. Shih at Clarendon College chapel Saturday morning in the interest of this students' missionary venture.

Mr. Shih, a Chinaman, by birth came to Clarendon to speak for missions as a representative of the Methodist Church South, of Brazil. He is a graduate of the Soochow University of China and at present a student of the Peabody School for Teachers in Nashville. He is an accomplished orator and delivered a forceful address on missions. He defined the Passo Fundo Movement as a project by Texas students for the erection of a College in Brazil.

A speech by Mr. Shih in the College auditorium Friday night was directed to the public at large. By request he confined his remarks to Chinese customs and conditions. A strain of humor was revealed in his delineation of some of China's peculiar customs. He dealt at length upon the high opinion of Woodrow Wilson held by the Chinese. They think he was the greatest president ever to occupy the White House, he said. As a closing number Mr.

Shih sang the Chinese national anthem which was probably well rendered.

**CLARENDON'S REPRESENTATIVES AT CROWNING OF QUEEN DALLAS II, AT DALLAS, SATURDAY EVENING, OCT. 14th.**

Miss Muffet Sims, Maid of Honor

Miss Ethel Gentry, Princess

Miss Olive Martin, Maid of Honor

Royalty in Europe is a serious business. Here in America we play at royalty, with jests, with smiles and with the exuberance of youth. The greatest and most brilliant social event of the Southwest was staged in Dallas on the evening of Oct. 14th, during the State Fair, when Queen Dallas II, was crowned amid the pomp and splendor of a magnificent pageant, where all the leading cities and towns of Texas and adjoining states were represented. Clarendon's representation and royal party were the beautiful young ladies whose pictures appear above, viz., Miss Ethel Gentry, Princess; and Misses Olive Martin and Muffet Sims, her maids of honor. After the brilliant ceremonial these young ladies were honored guests at a number of social functions given in the first homes and at the leading clubs of Dallas. These favored young ladies are receiving the congratulations of their many friends on the success of their appearance in the pageant.

**IMPROVEMENTS PLANNED FOR LOCAL LIGHT PLANT**

Improvements demanding an expenditure of \$25,000 will be installed at the local light and power plant, according to Frank Houston, manager of the Texas Central Power Company. While Mr. Houston was not in position to announce in detail the nature of the improvements, he was positive that the local patrons are in line for more and better

vice. It has been definitely decided to erect a brick building over the local plant some time this winter. The erection of a high line between Clarendon and Childress is among the changes being considered. This will permit supplemental assistance between the Childress, Memphis and Clarendon plants. Another important improvement taken under ad-

vice. It has been definitely decided to erect a brick building over the local plant some time this winter. The erection of a high line between Clarendon's plant will be materially increased.

**CLARENDON HAS TWELVE RADIO RECEIVING SETS**

The radio craze has taken Clarendon by storm and the city can now boast twelve receiving sets. The following local citizens own sets: Mark Kelly, Dick Allen, Bill Cummings, John Henson, Rhodin Chase, Robert Tatum, Warren Bray, Moulton and Wade Youngblood, Derwood Skelton, Bomar and Byron Skelton, Marvin Land and Homer Mulkey.

The following stations have been heard by the local fans: Los Angeles, Fort Worth, Dallas, Houston, San Antonio, Davenport (Iowa), Kansas City, St. Louis, Cincinnati, Des Moines, Denver, Norman (Okla.), Minneapolis, and Jefferson City. These stations range all the way from 250 to 1,200 miles in distance from Clarendon.

Mrs. J. H. Watters of this city has received from the Brookfield Poultry Farm, Versailles, Ohio, a pen of Tom Barrows strain of Single Comb White Leghorn chickens. The pen contains six females and one male. They come from a world champion egg-laying strain and are considered 200-egg birds.

Mrs. Sella Gentry left Wednesday for Washington. She will be joined in Fort Worth by Mrs. Mollie E. Gray, Past Grand Matron of the Eastern Star of Texas, and the two of them will go to Washington as delegates from the local chapter to the National General Grand Chapter.

**LELIA LAKE LOCALS**

The Home Demonstration Club met with Mrs. A. B. Bynum Monday afternoon. Miss Richmond was present. A very interesting time was enjoyed by all present.

Miss Richmond reorganized the girls club for another year at the school building Monday evening.

We regret to lose Bro. Rich, as he has just returned from Quannah and says he will be sent to Texline but our loss will be their gain.

Mr. and Mrs. H. D. Burris were Clarendon visitors Sunday.

Mr. and Mrs. J. A. Conner made a business trip to Floydada Monday.

There will be a carnival given by the Parent-Teachers Saturday night the proceeds will be used for the library. A free entertainment will be furnished, but other amusement will be had which will be worth your money and is used for a good cause.

G. T. Adams had business in Clarendon Monday.

Grandma Clark returned to her home in Clarendon Sunday after a few days visit here.

Dr. and Mrs. Fowler left for points in Arkansas Monday.

Stanley Coner and wife of Hedley visited in the Buster Conner home Thursday.

**LAYMEN TALK ON PROBLEMS**

**MORNING SERVICE SUNDAY DEVOTED TO DISCUSSION OF CHURCH QUESTIONS.**

The services at the Methodist church were well taken care of Sunday in the absence of the pastor, Rev. J. T. Griswold, by the laymen. Rev. Griswold was in Quannah attending the Northwest Texas Conference and Sunday morning's service was under the supervision of W. T. Hayter. The program was devoted to the discussion of the church problems from the laymen's standpoint.

A large crowd was present to hear the following program:

- Hymn.
- Responsive Reading, No. 738. (Ten Commandments)
- Gloria.
- Prayer.
- Anthem—"Lift Up Your Heads, Ye Gates."
- Announcements.
- Offering.
- Brief History of the Organization of the Clarendon Methodist Church—P. A. Buntin.
- Suggestions for Handling Church Finances for the Coming Conference year.—D. O. Stallings.
- Fellowship in the Church—A. M. Beville.
- Spirituality, the Necessary Foundation for Growth in our Church.—R. M. Chunn.
- Doxology.

The evening service at 6:30 was given over to a program by the Epworth League. At 5:30 the choir rendered the following program:

- Organ Prelude.
- Hymn No. 180—Congregation and Choir.
- Prayer.—Rev. L. O. Lewis.
- Anthem, "The God of Heaven"—Heyser.
- Violin Solo, "Still as The Night"—Carl Bohm—Miss Beulah Dann.
- Duet, "Rock of Ages", Johnson—Mr. and Mrs. F. A. Story.
- Organ Offertory.
- Anthem, "Angels of Jesus"—Wil-dermere.
- Solo, "My Task", Ashford.—Roy Beights.
- Organ Solo, "Meditation", Sturges—Paul E. Allen.
- Anthem, "Let Mount Zion Rejoice"—Herbert.
- Evening Hymn, (Welch Folk Song)—Heber.
- Organ Pastlude.
- Miss Betts, Organist.
- Sam M. Braswell, Director.

Mr. and Mrs. W. F. Reedy of Claude were in Clarendon Wednesday.

**WHY WE DIDN'T "PEDDY"**

Gee whiz, I will be doggoned, Ain't it a grand and glorious harbor Why didn't Mayfield run some? In spite of Nichols and Scarborough.

O Lord give us noble big men, That can guide the boat steady, Men with a head as well as chin That is why we did not Peddy.

Scarcely any votes for Andy and Min, They did not know the worth of a dollar, He has some head and no chin, And wears no man's collar.

Now folks quit acting fools, Don't swell up like toads Boost for bigger better schools, Hump your back for better roads.

Roll up your sleeves and breeches Vote for the road bonds right away, Clean out the weeds and ditches, And enjoy a bright, happy day.

For six years at the least, Mayfield will guide our boat, And represent us in the East, For Paddy didn't get his Goat.

O Prodigal! come home again, Eat husks no more with swine. The Democrats will forgive thee son, And pardon shall be thine.

Yours for cleaner politics and better roads. Matt Bennett.

**NOTICE TO PATRONS**

Dr. D. Richardson of Paris, Ark., graduate of McKillop's Veterinary College has moved to Clarendon and I have disposed of my practice to him. I desire to add my endorsement to his ability to the very high recommendations that he brings with him. He is moving here this week and will give prompt attention to all calls. Dr. C. E. Richardson. (45pd)

**C. M. CARPENTER'S HEREFORD SALE**

The second annual sale of Meadowbrook Herefords will be held at McLean, Texas, Nov. 15. Twenty-seven head of 2 and 3 year old heifers will sell. Sired by a son of Yost's Bonnie Lad 20, and bred to Pathfinder by Bright Stonway. Dam by Domino and Rex Randolph by Beau Randolph 2; dam by Bright Stonway. This will be your opportunity to buy richly bred cattle cheap. (45c)

**LYCEUM NEXT THURSDAY**

Allen D. Albert will appear at the College auditorium next Thursday evening in the second lyceum number for this season. Mr. Albert is a lecturer of note and his theme Thursday will be "The Young People of 1923."

**NO MORE KU KLUKS**

No more political issues, no more red tape, or anything raised on hot air. Dr. Shofits Kerogas Burners consumes hot air and converts it into fuel. **METHODIST WOMEN HAVE ANNUAL WEEK OF PRAYER**

This afternoon will mark the close of the "Week of Prayer" by the members of the Methodist Missionary Society. They met for an hour at the church on Tuesday and Wednesday afternoons and again this afternoon for the closing service. The "Week of Prayer" is an annual event observed by the Methodist Missionary Society and has as its object the study of the accomplishments of the missions, and an outline of the objects for which mission funds are spent. At this time the foreign object of the society is the girl's home in Havana, Cuba, and the home object in the French work in Louisiana.

**MRS. BRASWELL IS HOSTESS**

Mrs. Sam Braswell was hostess to the members of Mrs. J. T. Griswold's Sunday school class of the Methodist church Tuesday afternoon. It was the occasion of their monthly social. The class is composed of young married women and about twenty-six were present.

**CONSUMERS MATTRESS FACTORY**

MONDAY AND TUESDAY, NOVEMBER 20 AND 21  
at the Pastime Theater

## 'North of the Rio Grande'

with  
BEBE DANIELS AND JACK HOLT

A real drama swept by a whirlwind of mighty climaxes from the story "VAL OF PARADISE" by Virgie E. Roe. Scenes from the cliff dwellers in Arizona, inhabited 4,000 years ago included in a series of some of the most beautiful and gorgeous scenes in the United States.

Also a Harold Lloyd Comedy.

Under auspices of the Clarendon Lions Club and for the benefit of a playground for the Clarendon Public Schools. Come out and see a tip-top show, get your money's worth in laughs and thrills, and at the same time help a worthy cause.

Admission 25 and 50c

## RAINS LATELY REVIVE WEST

PRECIPITATION DURING LAST  
TWO WEEKS BOOSTS STOCK-  
MEN'S OPTIMISM.

While the precipitation locally was not such as would be of material benefit, reports from other section of West Texas indicate that the drought was broken by considerable showers during the last two weeks. Wichita, Wilbarger and Harcoeman counties report good rains. The San Angelo country got a soaker and Lockney reports rain. Some rather severe storms in which considerable damage was done was reported Saturday night around Tulsa, Okla.

The rains, although not as much as was needed, have resulted in the inspiration of consideration optimism in West Texas and New Mexico, according to observers who have had their fingers on the pulse of the situation. It will mean in many sections that cattle will not have to be moved to Old Mexico for range and will have a decided affect on the financial phase of the cattle industry, they believe, resulting in this section of the country rising with other states in the predicted industrial revival.

The improved condition of business is summed up by Eugene Meyer, managing director of the War Finance Corporation, in the following dispatch from Washington.

"General business conditions throughout the West are 'enormously improved,' over a year ago, Eugene Meyer, managing director of the War Finance Corporation, declared today after a three weeks tour of six western states.

"General business in the West, he said, is on the mend except where interfered with by car shortages and where local conditions have taken temporary turns for the worse. Mr. Meyer's tour included California, New Mexico, Utah, Minnesota, Wyoming and Montana.

"In the intermountain district the surplus potato crop adversely affected business. Mr. Meyer notes, while in the Northwest the lack of cars has hampered the wheat movement.

"Otherwise, he asserted, conditions are improving steadily, the sheep and wool industries are in satisfactory shape and the feeding of cattle in the corn belt is satisfactory."

Mr. and Mrs. F. W. Reedy have returned to Clarendon from Oklahoma City, where they have resided for some months. Mr. Reedy has a farm near Ashola and they both express themselves as being glad to be here again.

The crop you produce with this machine is not affected by too much rain, or too much dry weather, or the mortgage at the bank.

"It brings you a weekly pay check."

TEXAS

## ROAD SYSTEMS ARE EXPLAINED

SIXTY PER CENT OF FEDERAL  
AID TO BE SPENT ON 5,000  
MILES HIGHWAY.

Reports from those who have discussed the question of voting bonds for the improvement of the Donley county highways are to the effect that the project is becoming more popular daily and that the opposition is diminishing with the enlightenment of the voters as to the gravity of the situation. It seems that Donley county citizens, generally, have given little thought to the relation of good roads to the progress of the community and those who have given the matter any consideration have been laboring under the delusion that the cost of improving the highways would be exorbitant. With the dispelling of this and other misinformation the good roads proponents are daily enlisting new workers.

M. M. Nobles, chairman of the steering committee, has not as yet had an opportunity to call a full meeting of the committee but expects to assemble with his fellow workers sometime within the next few days and begin a thorough organization with a view to thoroughly canvassing the county.

One of the phases of the Federal aid proposition concerning which there seems to be a general misunderstanding is what is known as the "primary and secondary systems of roads." For the benefit of the voters the committee submits the following explanation offered by the Texas Highway Bulletin, published by the Texas State Highway Department: "There seems to be a confusion in the minds of many concerning the secondary and primary system of roads in this state and especially in determining the difference between these two systems. In order that the public may better understand this system and the plans of the State Department and the Federal Government, we will take this subject and discuss it in detail from the very beginning.

"In the first place the Federal Highway act requires that the State Highway Commission designate seven per cent of the entire mileage of the State on which Federal aid can be used. This is known as the seven per cent system and no Federal aid can be allotted or used on any other roads than those contained in the seven per cent system. In arriving at the correct mileage, the Federal Government, in co-operation with the State and county officials, made a complete survey of the State. This survey shows that Texas has approximately 150,000 miles of road; seven per cent of which equals approximately 12,000 miles of roads. Another provision of the Federal Aid Act requires that the State Highway Commission divide this system into a primary and secondary system of roads. The primary system is known as the three per cent system, or three-sevenths of the seven per cent system. The secondary system is known as the four per cent, or four-sevenths of the seven per cent system.

"On the primary road, or on the road designated as the primary system, there are certain Federal restrictions that is, these roads are to be known as interstate roads, making connections with interstate roads of other states, and touching as nearly as possible the principal points in Texas, but not necessarily connecting up the minor towns in the various counties through which it might pass, and must be constructed according to certain Federal specifications. They must have a surface eighteen feet in width, a road-bed twenty-four feet in width, bridges must have a clearance of twenty feet between curbs and must be constructed of sufficient strength to care for the traffic in this particular locality. No Federal aid shall be allotted on this primary system unless the roads are to be built up to specifications. Sixty per cent of the Federal aid allotted for Texas must be used on the primary system. Forty per cent of this aid is used on the secondary system.

"The secondary or four per cent roads is known as inter-county highways connecting up the county seats of the various counties through which this system of roads passes. On secondary roads the road-bed must be twenty-four feet in width and the surface sixteen feet in width and bridges must have a clearance of eighteen feet between curbs. There are at the present time 5,000 miles of the primary system and 7,000 miles of the secondary system. Sixty per cent of the Federal aid allotted will be used to build 5,000 miles on the

## LOCAL HAPPENINGS

Mrs. A. N. McCardell is here visiting with Miss Marjory Turner.

T. J. Allen was in Hedley on business Thursday.

Paul Nunn of Amarillo was a visitor in Clarendon Wednesday.

Mrs. C. C. Powell went to Amarillo Wednesday for a visit with relatives.

Attorney Ralph Porter is in Lefors on legal business today.

John Ryan and F. E. Chamberlain were business visitors in Silverton Wednesday of this week.

Mrs. Emory Sager of Childress is visiting at the home of her sister, Mrs. F. E. Chamberlain.

Born to Mr. and Mrs. Mace H. Trout near Jericho a girl, on Monday, November 6.

Mrs. Gordon O. McMurry and two children of Montreal, Canada, arrived Wednesday for a visit with her sister, Mrs. H. L. Wilder.

W. N. Blanton, secretary-manager of the Panhandle-Plains Chamber of Commerce, was in Clarendon Wednesday on business.

Mr. and Mrs. Geo. Taylor went to Amarillo Tuesday. Mrs. Taylor went on to Panhandle for a visit. Mr. Taylor returned Wednesday night.

Joe Goldston is in Fort Worth on business this week. Mrs. Goldston accompanied him as far as Quannah and will visit in that city and Wichita Falls before returning.

R. C. Vinson and family left Sunday for Aquilla to attend the funeral of his sister-in-law who died in Temple. The body was shipped to Aquilla for interment.

Rev. Nelson Smelser has gone to Beaumont to take up some church work. Rev. Smelser received his appointment at the conference at Quannah last week.

Fred Connally, T. O. Garner and Wilson Turner were among those from Clarendon who witnessed the football game in Mangum Friday in which the Bulldogs defeated the Oklahoma Southwestern Normal 20 to 19.

Guy Kerbow arrived Thursday from Dallas to spend several days visiting at the home of his parents, Mr. and Mrs. H. C. Kerbow. He is traveling out of Dallas for the Birmingham Stove and Range Company.

Dr. D. Richardson, V. S. of Paris, Ark., has moved to Clarendon and will take the practice of Dr. C. E. Richardson who is moving to Adrian, Mo. Dr. Richardson is a graduate of the McMillon's Veterinary College at Chicago. He was married only recently.

C. C. GIRLS DEFEAT  
H. S. IN BASKETBALL

The Clarendon College girls' basketball team defeated the girls of the local high school at the Y. M. C. A. court Friday by a score of 29 to 12. The high school team was out-classed in every phase of the game by the collegians and the result of the game was at no time uncertain. The score stood C. C. 22 to the high school 2 at the end of the first half but a number of substitutes were put in the college team and the city girls were able to run up their score.

The contest Friday marked the beginning of a series of games to be played by the College girls. The team is composed of: Lorena Lewis, Hazel Bynum, Lucille Stratton, Grace Pirtle, Thyra Nell Collins and Josephine Seay.

primary system and forty per cent to build the 7,000 miles on the secondary system."

In this connection the committee calls attention to the fact that the road through Donley is at this time a designated interstate highway and within the 5,000 miles of the primary system upon which sixty per cent of the Federal aid is to be spent. However, it is pointed out, persistent complaining of the conditions of the roads through this section presents the danger that traffic will be diverted to such an extent that the road through Donley county will lose its rating—that the interstate highway will be diverted through some other counties.

# New Footwear For Ladies

When Clarendon Citizens Show a Way

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Head what a Clarendon citizen says:

Mrs. Ellen Andreas, E. 4th St., gave the following statement on November 29th, 1915: "I have used Doan's Kidney Pills with good results, getting them at Stocking's Drug Store. I advise anyone troubled with weak back or bothered with irregular action of the kidneys to try them. They proved satisfactory for me, and I don't think there is a better kidney remedy."

**GONE FOR GOOD**  
On April 21st, 1919, Mrs. Andreas added: "I have not had any signs of kidney trouble since Doan's Kidney Pills cured me."  
60c, at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

**RAILROAD ACTIVITY SHOWS INCREASE IN BUSINESS**

Washington, Nov. 8.—Indications of rapidly improving conditions in the country's general business life were given recently in reports to the car service section of the American Railway Association, which among other things showed the greatest weekly loading of freight from which the railroads derived revenue in two years. The report disclosed that with the exception of four weeks in September and October, 1920, the loading of 1,003,759 cars of revenue freight the week of October 21 was the greatest on record.

A record of 596,392 cars loaded with merchandise and miscellaneous freight which includes manufactured products also, was established during the week, the association reported. This was an increase of 7,294 cars over the week of September 30 when all previous high marks for that class of freight were broken.

**poem by UNCLE JOHN**

When you see a feller a-mopin' around, a-huntin' for somethin' that's on the ground,—that never could whistle or sing a song,—you can bet a doughnut there's somethin' wrong! When a feller is huntin' for things of worth, in the dirty fifth of the heartless earth,—and can't aspire to the stars in sign, you can safely bet that he ain't built right.  
God gives the man that can life his face with a constant faith in the higher place. . . . Whose step is timed to obey His will, and who ain't afraid of the path uphill. . . . Who'd rather climb where the storm-clouds frown than to jine the crowd that's a-goin' down.  
God loves the man with the heartenin' song—who can change his tune if he gets it wrong,—that can fit his soul o the all-wise plan, with somethin' to spare for his feller-man. . . .  
And—beyond the clouds, and toil and strife, there's a crown of joy—and eternal life!

**A MAN WITHOUT A COUNTRY**

E. D. SHURTER

What did Theodore Roosevelt of one country and a supporter of mean when he said that there must be 'no divided allegiance' in a country. And can you imagine a more pitiable plight than a man in this position? The words of Philip Nolan, "the man without a country," should be burned into the mind and consciousness of every boy and girl in the United States.  
"Youngster," Nolan said, "if you are ever tempted to say a word or to do a thing that shall put a bar between you and your family, your home, and your country, pray God in plain, he belongs to that country and should go there at once. All that America asks is that he shall choose some country, and then live in the country of his choice; with 'no divided allegiance.'  
Beginning with the home, and extending to the community, the state, the nation, the current of our lives must flow from the well-spring of loyalty. If a man says, 'I am a citizen of the world,' the reply is: 'Very well, but just as you must first be a good, loyal member of your own household before you can become a good member of your community, even so must you first be a good loyal citizen of some one nation before you can be a good citizen of the world; you must first of all be a good nationalist before you can qualify as a good internationalist.'  
The man who is an internationalist in the sense of disclaiming allegiance to any one country, or is a resident stand by your mother."

**The Clarendon News' Americanization series**  
(Editor's Note—The articles appearing in the above space from week to week are taken from "Americanization" by Elwood Griscom, Jr. This excellent volume, which is a collection of articles upon the general theme of patriotism and good citizenship, is presented to the schools of Texas by the Bodies of Scottish Rite Masonry in Texas.

**HOMEY PHILOSOPHY for 1922**

What a great thing it would be if all the musical geniuses thought of the mob and wrote for the mob, an' if the fellows that think they're musical geniuses thought of the mob an' didn't write for the mob. Music lifts the soul, it inspires to action, it stimulates in war, and comforts the souls of the afflicted. A thousand souls are more important than one soul, an' the mob is being born, is growin' up an' is dying every day. Classical music may be all right in its way, but who knows it? When the long-haired critic laughs because you don't know the definition of classical music, slip this over to him: "Classical music is music that is not popular."  
Friday, Nov. 3rd, the Kill Kare Klub enjoyed a very pleasant afternoon with Mrs. Crockett Taylor as hostess. Mrs. Robt. Wilton will entertain the Club Nov. 17th.

### BLANTON RELATES MANY INTERESTING FACTS OF PANHANDLE RESOURCES

W. N. Blanton, secretary-manager of the Panhandle-Plains Chamber of Commerce, relates some interesting facts concerning the resources of the Plains in the following article:

The Panhandle-Plains region is composed of thirty-eight counties in Texas and two counties in Oklahoma, known as the Panhandle of Oklahoma.

The hardy pioneers who carved out of this unchartered area the great Panhandle-Plains region, suffered untold hardships and many sacrifices. They loved this country because it was so hard to conquer. We love it because it is so easy to make a living in. Few people in Texas who have never visited the Panhandle-Plains section of Texas, I dare say, have little conception of what this country has to offer to the farmer, stockman, merchant and manufacturer.

As has been said, less than one-third of the tillable land in the Panhandle is in a state of cultivation, though each year hundreds of progressive families are arriving in the Panhandle to secure homes. No section, known to civilized man, can boast of a larger body of tillable land than is found in the Northwestern (Panhandle) section of Texas. Acres, even millions of acres of land—rich tillable land—may be found in one body. It is possible to plow a furrow a hundred miles long without a stop. And the beauty of it all is the fact that the land is all fertile.

When this land is seeded it is very prolific. For this reason, together with many others, homeseekers are turning their eyes toward the great Texas Panhandle—the country, which without doubt, offers an opportunity to every man who is willing to work. There is sufficient farm land in the country now, which is idle, to furnish a home for a hundred thousand farmers, and then each farmer will have more land than is customary in the average farming sections of America.

In this territory there is contained approximately 20,000,000 acres of land plus, ranging in price for \$15 to \$100 per acre, and when figured out on the average price per acre settles approximately at the \$25 mark.

This is pre-eminently an agricultural and stock farming region. Its great wheat belt is famous the world over; and its feed crops are enormous, sufficient to support its immense live stock production, with a great surplus for shipment. In the southern portion of the cotton fields yield their hundreds of thousands of bales of this staple product.

Oil activity is steadily increasing in the Panhandle. The field is now estimated to have production of more than 1000 barrels daily. A pipe line company has been chartered to pipe oil to the refinery in Amarillo. Six new oil well locations were recently made in Carson and Hutchinson counties where they are now four wells known to be producers of from 200 to 600 barrels each daily.

While most of the activity in drilling is now in Carson and Hutchinson counties, where oil is already actually in production, wells are also drilling in Potter and Gray counties with excellent prospects. Collingsworth county also promises to be developed soon. Oil activity on a limited scale extends from the Potter county field northeast to Canadian and northwest to Dalhart.

But regardless of whether much oil is ever found the soil products—wheat, oats, kaffir, maize, etc., will make the country independent, as the agricultural resources are unsurpassed. Oil men are welcome in the Panhandle, and should a great oil field be brought in it will make it possible for an early development of the country. Oil men declare that prospects are bright. Geologists, without an exception, have made favorable reports. Representatives of the major oil companies in America have holdings in almost every county in the Panhandle.

The greatest gas field in the world is located just north of Amarillo. One well, alone, is making more than

one hundred million feet of petroleum gas daily. Several other wells in this section have enormous flows. This makes it possible for Amarillo people to have cheap fuel. There is talk of factories and manufacturing plants, and these, like an oil field, will be welcomed. The total gas production is nearly 600,000 cubic feet daily.

### ARMISTIC DAY

We sometimes hear complaints against the custom of national memorial days, made by those short-sighted, materially minded people, who arrogate to themselves the word "practically," but who in the most far-reaching sense of that word, are the least practical of citizens. Such days, they complain, are a waste of public time, and are meaningless displays of public sentiment, hypocritically or superstitiously observed. Fortunately, the direction of nations is not in the hands of such blind guides, men who can see nothing beyond the day's work and the day's profit. Wiser heads have managed, from generation to generation, to gain control of our destinies. Such men have always realized one cardinal defect of human nature—the shortness of its memory for the great moments of history, its significant instructive crisis of achievement and warning. A great object is achieved, a great danger is passed, in the hour of triumph and escape, men read the skies with jubilation, crowd them with flags, irradiate them with bonfires. Never was such a moment. Left to themselves, however, a week or two would suffice for the achievement to become a commonplace, the danger to be forgotten. But, those wiser, far-seeing ones, as they look on at "the tumult and the shouting," perceive the eternal significance of such moments. Great moments of achieved freedom. For these there must be consecrated monuments, commemorative days forever set apart, lest men should, through forgetfulness, fall into bondage again. Heroes, saints, fighters, workers, dreamers, the dauntless martyrs for ideas, for these it is not merely well, but necessary, that there should be abiding memorials, by which men looking up from the dusty preoccupations of their daily tasks shall be sharply and inspiringly recalled to that something in our lives which we call the soul.

The world has recently gone through one of the gravest crises in its history. But already, like men who have survived a tidal wave that has laid their city in ruins, we have begun to minimize the danger that threatened us. It is past and gone, and once more we return to our work and our play. The dead that died for us to sleep, and the grass grows. Yet, as the sea but waits its hour to sweep once more against our careless walls, so the danger that will surely menace us again, unless we make sure that its lesson shall never be forgotten, and so school our minds against it that not only shall it never again catch us unawares, but that it shall in time be wiped out from the category of permitted things.

Armistic Day has been decreed that it shall keep alive in a symbol, from year to year, the memory of the horror of the cruellest and foulest war ever fought, the memory of the vast gladness that swept the world as its nightmare came to an end, the memory of the universal resolution that no such infamy should ever stain the human record again.

In the past war has been regarded as a necessity, the only method of deciding conflicting issues between races and nations, and its evils have been systematically concealed beneath the various bedazzlements of its fictitious glory, so that we forget.

But the time has come for us to see the monster as it is. Whatever be the matters in dispute between nations, it is now realized as imperative that some other way of deciding them must be found. Differences must inevitably arise, but the sword shall no longer deal with them. Surely, if slowly a League of Common-Sense has been forming among the most ad-

vanced people of the earth which condemns war as obsolete as it is criminal.—The Elks Magazine.

### SCARCITY OF PULP BOOSTS WASTE PAPER TO \$35 TON

In New York, old newspapers, the kind householders toss in the ash can, are said to bring \$35 a ton. Fifty million dollars will be spent this year by book, paper and paper board manufacturers for waste paper to convert into new paper.

Waste paper to the amount of \$50,000,000 will be bought by paper mills this year, it is estimated by the American Paper and Pulp Association, to be converted into new stock. This represents an increase of some \$20,000,000 over the waste paper bill of last year. Today there is a shortage of waste paper among the mills using this raw material and the price has mounted until in some districts waste paper is bringing as much as wood pulp.

Book paper mills in the middle west are paying as high as 3 cents a pound for good magazine stock, while mixed grades, used in paper board, are sold for \$35 a ton f. o. b. Chicago. Householders are now offered a chance to sell folded news and magazines for a reasonable price.—Texas Commercial News.

### TURKEY CROP SHORT IN TEXAS THIS YEAR

A survey of the turkey crop for the state reveals the fact that there will be a material decrease as compared with the production last year. This is the result of the consideration of the entire state. Reports from the Panhandle, generally, indicate an increase in this section. The number of turkeys produced in Donley county this season is about equal to the production last year, according to poultry men who are in touch with the situation. Amarillo reports two cars which is an increase of 100 per cent over last year. Childress estimates a production of 4,000 turkeys in that county which is a material increase over last year's figures. Crowell reports a decrease as does practically every section south and east of that city.

The decrease over the state may be accounted for by the spring rains. This is given as a primary reason from practically every county in South and East Texas, although disease ravaged the flocks considerably. Spring rains affected the situation locally to some extent. However, poultry men believe Donley county would have shown an increase but for the late spring which cut down the number of eggs set.

The price at present varies between 20 and 25 cents with little indication as to the effect the approach of Thanksgiving will have on the market. The produce men report that the Spring rains had the effect to reduce the size of the birds offered for sale and while the tonnage for the season will be decidedly reduced, the individuals, generally are of a more desirable size.

According to a report of the Bureau of Agricultural Economics, cold storage held October 1 a total of 2,626,000 pounds as compared with 2,479,000 last year. All poultry in cold storage amounts to 25,882,000 which is a total of 280,000 pounds less than for a year ago.

### NINETEEN CARS CATTLE SHIPPED DURING WEEK

Fourteen cars of cattle were loaded from the local yards Sunday for shipment to Kansas City. John Blocker loaded one car. The other shippers were W. J. Lewis and Park Chamberlain who loaded four and nine cars, respectively. Mr. Lewis shipped five cars to Vega, Texas, Tuesday, bringing the total number of cars shipped this week to nineteen.

Geo. Ryan, Harry Sitner and Ed Barnes were in Amarillo on business Monday.

### WINTER NOT AFFECTING ROAD WORK IN TEXAS

Fort Worth, Texas, Nov. 8.—The usual slowing down of highway work at this season of the year is not being felt in Texas, according to A. R. Losh, Sixth District Engineer of the Bureau of Public Roads in Texas, Oklahoma, Arkansas and Louisiana. The State Highway Commission is working on plans and surveys for work to be done next year and are filing plans and project statements for next season's work with the Federal office, Mr. Losh said.

In proof of the activity of the State Highway Commission Mr. Losh pointed out that the following projects have been submitted in the last few days.

Plans and specifications for project 309 in Tarrant County, consisting of two concrete bridges, one on the Keller cardinal and one on State Highway No. 10 over Mary's Creek.

Plans and specifications for 9.22 miles of gravel road in Falls County

on State highways No. 44, which is the main highway north and south through the county. The estimated cost of the project is \$108,179.73, or \$11,733 per mile. Federal aid in the amount of \$47,500 has been allotted. There will be one cross-timed timber bridge of 150-foot span, all other structures will be of concrete. The Fort Worth office has also approved a project in Schleicher County 9.75 miles long. This project connects two other Federal aid projects in this county. The improvement is estimated to cost \$120,933.39, with \$30,166.96 Federal aid.

In addition to this work the Bureau of Public Roads has approved plans and specifications for three projects, one in Wilbarger, one in McLennan, and one, a bridge over the Sulphur River between Cass and Bowie Counties. The three projects involve the expenditure of \$531,466.

H. O. Lewis of Wellington was a visitor in Clarendon last week.

## Wreath For Our Dead in France.

When the American Steamship, George Washington, swung its prow to the East from New York last week it carried a huge wreath to be placed on the grave of our soldier dead in France, Armistic Day, November 11th. Thos. V. Fields, representing the American Legion, was this year commissioned to make the annual pilgrimage, and place the tribute on the grave of America's Unknown Soldier buried in Paris. Photo shows Mrs. Fields on board ship at sailing time.

### LOCAL "Y" PICTURE IN P. P. C. C. PUBLICATION

The Panhandle-Plains Publisher in its November issue carried on its front page a picture of the Clarendon Y. M. C. A. over the following statement: "Clarendon, Texas, can boast of being the smallest city in the United States to have a modern Y. M. C. A. building. The building is completely equipped with every modern convenience that most any of the Y. M. C. A.'s

have in the large cities. More proof of the progressiveness of the cities of the Plains." The Publisher is a monthly periodical published by the Panhandle-Plains Chamber of Commerce.

### C. C. DEFEATS NORMAN 20-19 ON THE LAST PLAY

tes later resulted in their first touchdown but they failed to kick goal and the first quarter ended with the score 7 to 6 in favor of the Bulldogs.

The Oklahomans counted for the second time within a few minutes after the opening of the second quarter. This touchdown was a result of a line buck. A trial at goal was successful. But the Bulldogs waged ahead shortly when Jackson received a pass from O. Close for forty yards and went across the line. Jackson kicked goal and the half ended with the Texans ahead, 14 to 13.

She pedagogues came back strong in the opening of the last half and scored early but failed to kick goal. The score was then 19 to 14 against the Bulldogs and it so remained throughout the game until the last fifty seconds.

Within the last few minutes of the contest, Jackson attempted an end run but was thrown for a loss and slugged several times by his tackler. This was in the middle of the field and the Normal team was given a penalty of half the distance to their goal line. A series of bucks and runs brought Clarendon to Oklahoma's ten yard line. Goodwin gained two yards through the line. Two bucks against right tackle netted no further gain. It was then the fourth down and but fifty seconds to play. Jackson called the team in conference. Returning to play and without signals, Goodwin again rushed right tackle. He was checked momentarily but after

the waver the Clarendon line smashed through the opposition and Goodwin crossed the line. Jackson failed to kick but the apparent defeat was turned into a victory. Clarendon College 20, Southwestern Normal College 19.

The outstanding stars for the Bulldogs were Jackson, the Goodwin twins, and O. Close.

## HARDING SAYS BE THANKFUL

### IN THANKSGIVING PROCLAMATION PRESIDENT FINDS CAUSE FOR GRATITUDE.

Recounting the progress and achievement of the country, President Harding insists in his Thanksgiving proclamation issued Friday that "as we survey the experience of the past twelve months we shall find our estate presents very much to justify a Nation-wide and most sincere testimony of gratitude for the bounty which has been bestowed upon us."

Following is the text of his proclamation:

"By the President of the United States of America:

"A proclamation: "In the beginning of our country, the custom was established by the devout fathers of observing annually a day of thanksgiving for the bounties and protection which divine Providence had extended throughout the year. It has come to be perhaps the most characteristic of our National observances, and as the season approaches for its annual recurrence, it is fitting formally to direct attention to this ancient institution of our people and to call upon them again to unite in its appropriate celebration.

### Trials and Triumphs.

"The year which now approaches its end has been marked in the experience of our Nation, by a complexity of trials and triumphs, of difficulties and of achievements, which we must regard as our inevitable portion in such an epoch as that through which all mankind is moving. As we survey the experience of the passing twelve months we shall find that our estate presents very much to justify a Nationwide and most sincere testimony of gratitude for the bounty which has been bestowed upon us. Though we have lived in the shadow of the hard consequences of great conflict, our country has been at peace and has been able to contribute toward the maintenance and perpetuation of peace in the world. We have seen the race of mankind make gratifying progress on the way to permanent peace, toward honor and restored confidence in its high destiny.

### Owe Tribute of Gratitude

"For the divine guidance which has enabled us, in growing fraternity with other peoples, to attain so much of progress; for the bounteous yield which has come to us from the resources of our soil and our industry; we owe our tribute of gratitude and with it our acknowledgement of the duty and obligation to our own people and to the unfortunate, the suffering, the distracted of other lands. Let us in all humility acknowledge how great is the debt to the Providence which has generously dealt with us and give devout assurance of unselfish purpose to play a helpful and ennobling part in human advancement. It is much to be desired that in rendering homage for the blessings which have come to us we should earnestly testify our continued and increasing aim to make our own great fortune a means of helping and serving, as best we can, the cause of humanity.

"Now, therefore, I, Warren G. Harding, President of the United States of America, do designate Thursday, the 30th day of November, as a day of thanksgiving, supplication and devotion. I recommend that the people gather at their family altars and in their houses of worship to render thanks to God for the bounties they have employed and to petition that these may be continued in the year before us.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. "Done at the city of Washington, this second day of November, in the year of Our Lord one thousand, nine hundred and twenty-two, and of the independence of the United States of America, the one hundred forty-seventh.

### "WARREN G. HARDING."

L. E. Nobles suffered several broken ribs and severe bruises about his body in an accident near Canyon City Friday when a Ford truck turned over. The injured man is a nephew of M. M. Nobles of this city.

The brickmasons have about completed the laying of the brick on the new high school building and the work of putting on the roof will be taken up within a few days. No delay has been experienced in the erection of the structure since the arrival of the window frames about a month ago.

### THE COLLEGE PARENT-TEACHER'S ASSOCIATION

The Parent-Teacher's Association of the Clarendon College met at their usual place on Monday afternoon. Several visitors were present, who enrolled as members before the assembly adjourned. The business of the afternoon consisted of two things brought over from the last meeting. The first of these was the linen shower which had been decided upon for the domestic science hall. A handsome table cloth and a set of napkins were presented by the ladies to the domestic science department in appreciation of the use of the hall.

The second matter was a report from the committee on ways and means for obtaining a curtain for the auditorium stage. The committee presented an offer made by Mrs. Stegman to serve a dinner at a nominal price, the proceeds to be applied to the curtain funds. This offer was accepted by the association, and the decision was made to serve the dinner on Tuesday evening, Nov. 21st, at 7:30 p. m., in the dining room of the young ladies' hall. This dinner is to be a good, old-fashioned, informal dinner, accompanied by an entertaining program, and all lovers of a good menu, good music and a social time may anticipate a pleasant evening. Tickets will be on sale soon at 75 cents each, and the public is cordially invited to attend.

As the year book of the association announces, the subject under discussion for the month of November is "health." The speaker of the afternoon was Dr. Wilder, who talked on the specific subject of "communicable diseases among school children." He classified the various contagious diseases into those of the milder type and those more dangerous, the latter subject to strict and prolonged quarantine. He impressed his hearers with the fact that many diseases, especially diphtheria and scarlet fever, can be transmitted by "carriers", persons who have recovered from the disease and still retain the germs, spreading them by coughing or sneezing, and persons who have never had the disease themselves, but carry the germs upon them. He condemned the ubiquitous fly as the great menace to health conditions. He stated that there is no absolute preventive against disease, but that in recent times vaccination had been found to be the surest for a limited time. He expressed the belief that if one could be vaccinated for all diseases, generation succeeding generation, that eventually all disease would be stamped from the earth. But at present the most effectual general remedy was to preserve the normal neutrality of the body between an acid and an alkaline condition by the frequent use of doses of common soda. This is especially good in the case of colds, which cause an abnormal acid condition. The tonics were spoken of as the worst enemy to the body, since from their nature, they are a collector of germs, and they lie so close to the blood stream that the germs can readily be thrown into the blood. Dr. Wilder discussed a number of the contagious ills of children, urging, as the best and only real preventive, the keeping of the bodies sound and in good health.

Following this instructive address, the hostesses, Mrs. W. H. Patrick and Mrs. O. C. Watson, served refreshments to the ladies and two or three gentlemen present, and after a short social period, the club adjourned to meet again on Nov. 20th at which time an address will be given by Dr. B. L. Jenkins.

Mary H. Howren, reporter.

### BULLDOGS PLAY GOODWELL JUNIOR A. & M. FRIDAY

The Clarendon College Bulldogs met the Junior A. & M. team from Goodwell, Okla., on the local grid-iron Friday afternoon. The Oklahoman were defeated in their first game of the season by West Texas State Normal College of Canyon City but reports from Goodwell are to the effect that they have been materially strengthened and are coming here with a club that has dangerous offensive strength. In view of the record made during the last week or two by the farmers the local team does not consider the contest with Canyon as a fair indication of their relative strength and are preparing for hard fight.

The contest here Friday, Armistice Day, will be the last one to be staged on the local grounds until the last game of the season with Canyon on Thanksgiving. The Bulldogs will be entertained at Wayland and Canyon City on the intervening two week-ends.

H. B. Hill of Shamrock was a visitor in Clarendon last week.

## November Eleventh

### 1918 --- ARMISTICE DAY --- 1922

**W**E Pause Today upon the threshold of this solemn occasion to bow down our heads before the tomb of him who typifies the thousands who have suffered that the world may live again in peace.

It must not be said that we have forgotten the blood they have shed, nor that we are wanting in appreciation of the ideals for which they fought.

It behooves this Nation to love and cherish through the long, dim years of the future the memory of those who suffered their young lives to be extinguished in the cause of world democracy and lasting peace.

We hope that God may give to the nations of the earth the vision to see, and the will to execute for all time—a glorious, lasting PEACE.

## The Clarendon News

### DECORATIONS IN HOTEL AMARILLO BY LOCAL MAN

Harold Bugbee, who has been employed as decorator for the new Hotel Amarillo, it at home for a few days before resuming a second contract with that hostelry. The local artist was given the contract for the elaborate artistic decorations with which the lobby of the hotel is to be beautified. A second and larger contract followed the completion of his first work.

Reports from Amarillo are to the effect that Ernest O. Thompson, manager, is planning to make the formal opening of the hotel to the public a state-wide event on Armistice Day, November 11. The management has taken considerable pains to construct the new hotel with every modern convenience and at the same time to give it the air of a real home. Every detail has been arranged with this idea in view.

The lobby of this Hotel is designed with the idea in view, and in the hope that when the weary traveler steps within the doors he will feel the spirit of restfulness and warm welcome which is most pleasant even if so seldom found. Every line in the design of the lobby and public space of the Hotel has been carefully studied and executed with the view that its effects would be restful to the eye and pleasing to the tired body.

The room clerk and mail clerk's desk is located in an unobtrusive

fashion on the backside of the lobby, and near the clerk's desk are located the telephone booths, the elevator and the public check room. All these facilities have been carefully located so as to serve the traveler most conveniently and cut down unnecessary traffic through the lobby.

The public spaces of this hotel have been designed with the view of making it so attractive that the traveler will be happy to arrive and loath to leave. It really carries out the idea of making the Hotel Amarillo a "home away from home."

### W. L. BUTLER MAKES 375 BUSHELS YAMS PER ACRE

An average production of 375 bushels of sweet potatoes per acre is the record of W. L. Butler of the Lelia Lake community this year. Mr. Butler has just finished harvesting his crop and is placing the yams in the curing plant. He made a total of 6,374 bushels from this small patch and these figures do not take into consideration quite a quantity of potatoes that were not gathered—those that were not marketable.

Mr. Butler feels that he has proven beyond question that the sweet potato is a profitable crop for this section. He believes that it can be made one of the most remunerative crops to be grown here, with a little attention. In his experience it has proven to be much more profitable than a number of the more staple

crops. The Lelia Lake farmer grows the Nancy Hall variety. He has found that this kind is most suitable for the Plains climate and soil. He has experienced little difficulty in marketing his produce but he does not attempt to dump all of the stuff on the market at once. That is the advantage of the curing plant, he said. It works as an efficient warehouse in which to keep the yams and at the same time, it dries them out and makes them a better produce for sale. Mr. Butler has an exhibition at the Donley County State bank an enormous yam grown in his patch this year. It weighs over seven pounds and measures twenty-four inches in circumference.

### DRAMATIC CLUB TO STAGE BENEFIT PLAYS MONDAY

The Clarendon College Dramatic Club will present two one-act plays in the college auditorium on the night of Monday November 13, at 7:30 p. m. The name of the plays are "Her Picture and "Pet Boiler." The proceeds will be used to purchase drapery for the stage. Admission 35c.

### SWEET POTATOES

For neighbors and friends who want sweet potatoes for personal use I will sell them at \$1.50 per bushel, or will store them for the winter for you at \$2.00. W. L. Butler, Lelia Lake, Texas. Phone 1014 1L-1S. (45c)
