Quick Action on Highway Construction Aim of Court

DONLEY TO HURRY NO. 5 RIGHT-O-WAY

COURT WILL RUSH RIGHT-O-WAY PURCHASE TO HURRY CONSTRUCTION

Under President Roosevelt's program of full-speed ahead in the matter of all construction of every sort in the nation, Donley County took swift steps Tuesday afternoon to brush aside the last obstacle in the building of highway five across the county, when the commissioners voted unanimously (Commissioner Beck being absent) to purchase the right-of-way on the accepted route through the county and to complete the job promptly, so that construction might begin at the earliest possible date.

Divisional Engineer W. J. Van London met with the court and many of the troublesome details were ironed out, and the proposed change in the routing between Lelia Lake and Hedley on account of the drainage situation at Bell Creek, was abandoned after the court had urged the return to the original routing and pledged itself to the task of securing co-operation of the Fort Worth & Denver Railway in securing the additional drainage needed at that point. This means that with sixty square feet of drainage added to the present culvert the dump for the highway can be built for about half what it would have cost at the level demanded by the present drainage. By this route it will not be necessary to go through the L'Attrell orchard and shoulder the heavy damages this would bring about.

Commissioner J. Les Hawkins of Hedley made the motion for the purchase of the right-of-way on this route, which he has sought to maintain for many weeks, and his motion also contained a clause which rescinded an order to stop all further right-of-way purchases passed some weeks ago when the highway department first urged that the route be swung further to the south in order to avoid this matter of drainage at Bell Creek.

Commissioners Sid Harris and Roy Beverly of precincts one and two, were in full accord to the plans worked out which brought the motion by Commissioner Hawkins, and they feel that Donley county will be ready now to turn over the right-of-way to the state by the time the new \$25,000,000 federal appropriations for highways is in the hands of the department for allocation to contracts let in Donley and Armstrong counties.

There are few instances where land owners have not signed deeds, and the court is making an effort to have an adjusted settlement with them without the necessity of going to court in condemnation proceedings. If these are successful in the next few days Donley bids fair to have her right-of-way troubles behind her in the next two or three weeks. This means that contracts can be let within another thirty days and construction work begin about the time farmers have their crops laid by, or a little later. Mr. Van London told the court that construction could proceed during the winter with very little delay from the weather.

Judge Sam Lowe said that insofar as the court was concerned he felt that it was agreeable for the department to begin construction work at either end of the county, and it is generally considered that contracts will be let on such divisions as are first ready with all deeds for right-of-way in hand.

Mrs. George Ryan and daughter, Berkeley, Mrs. Sella Gentry and Phillips Gentry, Jr., left Monday to spend a week or more with Mr. Ryan, who is camped at the foot of White Mountains in New Mexico. They will spend a part of the time at Roswell, which is near by.

Boy Scouts Enjoy Camp At Word Ranch

Twenty-six Boy Scouts of the three patrols of this city enjoyed a camp Friday night at the beautiful grove about two miles south of the Word Ranch Headquarters. They were headed by Scoutmasters S. L. Tidwell and Lee Vaughn and Rev. B. N. Shepherd.

Practice at signling, racing and tree-climbing were followed by a swim in the fine pool among the trees, after which supper was cooked. The boy's appetites were never keener and, so and exercise, that soon after supper and exercise, the moon after supper they went to bed for a fine night's sleep.

Three scouts passed their cookery tests—Houston Gattis, Truitt Holtzclaw and Bob Boston. The happy lads returned early Sunday morning, delighted with the fine outing they had enjoyed.

LIONS PRESENT ATTENDANCE PINS

FIVE LOCAL LIONS MADE PERFECT ATTENDANCE RECORD FOR CONTEST

The Clarendon Lions Club had five members who made a perfect attendance record during the International contest period from Sept. 29th to April 9th, and had many others who failed only once in registering one hundred per cent. At Tuesday's luncheon, President Ira C. Merchant read the list of the one hundred per centers and presented them with the International lapel button award for their achievement. Those winning the buttons were, Lions Sam Braswell, Fred Rathjen, D. O. Stallings, Odos Caraway and C. J. Douglas.

After the luncheon Lion Mulkey gave a report on the Crippled Children's work with special reference to the Ragle child who was given treatment here at the Adair hospital Sunday, when Dr. Gray, the orthopedic specialist of Amarillo made a visit here with Lion McCullough of Amarillo. Lion Mulkey reported entertaining the visitors at the Country Club during the afternoon.

Program Chairman Boykin introduced Divisional Highway Engineer W. J. Van London of Amarillo who told the Lions that highway five through Donley county is the most important highway in this section in the minds of the highway commission and that when requirements are met locally construction to close the gap in Donley and Armstrong counties will be quickly started. Lion Braswell of the highway committee reported in the absence of Lion Nored on the highway meeting in Pampa last Friday and the proposed connected highway system in the Panhandle as discussed at that meeting.

Lion J. R. Bartlett was introduced as a recent transfer from the Childress Lions Club, back to his old home club. Lion Bartlett made a short talk voicing his pleasure at being back in Clarendon and having his family here with him again.

Lion J. T. Patman, who has been absent from the club meetings for several weeks on account of illness, was welcomed back again, and some reference was made to his extra skill at golf as he shot a hole-in-one since he left the hospital. He responded thanking the club for flowers and mentioning the need for the Lions room at the Hospital for awnings to check the summer sun in the afternoons. This was referred to the board of directors for consideration and action.

Other visitors of the day were Mrs. Van London of Amarillo and Judge Sam W. Lowe of Donley County.

HILLCROFT CLUB PLANS TOURNEY

THIRD ANNUAL INVITATION TOURNAMENT TO BE HELD HERE JULY 4-5

Elaborate plans are being made by the Hillcroft Golf Club's tournament committee, Carl Parsons, chairman, for the entertainment of the third annual invitation tournament which will be held here July 4-5.

The committee has sent letters of invitation to clubs and members over a wide area, and are making plans for a record attendance. This annual event has grown in popularity each succeeding year and last year attracted eighty-seven of the best golfers of the Panhandle-Plains and adjoining states, representing fourteen towns. Last year's tournament brought the highest praise to the Hillcroft club for its management and the courtesies shown to visitors, who pronounced it one of the best ever held in the Panhandle.

As in the past, players will be allowed to qualify over their home courses. Match plays in all flights will start Tuesday morning, July 4th, and there will be as many 16-player flights as will be required to place every player. Appropriate prizes will be awarded the winner, runner-up and consolation winner in each flight, also the winner of the long-drive contest.

The Hillcroft course, one of the sportiest in the Panhandle and always well kept, is in the best condition in its history. The fairways are well sodded and freshly mowed; the greens have been re-sanded and are in perfect order. More than 100 trees have been set out on the course recently, adding to the general appearance and making play more inviting. No expense is spared to keep the course in perfect order that it will please the most exacting golfing critic.

Advance information indicates much interest in the coming tournament, and members of the Hillcroft Club are expecting it to be the best from every standpoint that has ever been held here.

INJURED WHEN CARS MEET ON SHARP TURN

The occupants of two passenger cars had narrow escapes from serious injury or death when a collision occurred last Monday morning at the sharp turn on No. 5 highway, about two miles east of Hedley.

Mr. and Mrs. D. V. Brooks, after a visit with her mother, Mrs. Matt Bennett, were returning to their home at Ft. Worth. As they were rounding the turn their car collided head-on with another driven by Mr. and Mrs. J. W. Moore, of Monroe, La. The Brooks car was badly wrecked, and Mrs. Brooks sustained severe cuts and bruises, as did Mrs. Moore also. They were all brought to Clarendon for treatment by Drs. Stricklin.

The Moores left the same day for Borger, and Mr. and Mrs. Brooks stayed over until this morning.

GEORGE WATSON DOING NICELY AFTER OPERATION

George, ten-year-old son of Mr. and Mrs. O. C. Watson, was operated today at the Carrell-Diver Clinic in Dallas. A telegram from Mrs. G. W. Antrobus today said, "George operated this morning operation a success doing nicely."

The many friends of George and his family join them in the hope that the operation will enable him to walk without support of the braces which he has been wearing heretofore.

Mrs. Bob Younger and children of Amarillo are visiting her parents, Mr. and Mrs. W. H. Martin.

Eleven Clarendon Citizens On Special

When the Amarillo special train pulls out Sunday for a Century of Progress at Chicago it will have on board a party of eleven people from Clarendon. The party will include Mrs. A. L. Chase and her three children, Rhodin, Arthur, and Mrs. Keith Stogall; Mrs. J. L. McMurtry and three children, Alfred, Lavonne and June, and Misses Julia Wiedman, Katherine Patrick and Gwendolyn Couch.

The special will arrive at its destination 22 hours after leaving and the trippers will have five full days and nights at the exposition. All reservations for the train were sold early in the week.

Former Citizen Of Clarendon Passes

W. A. Guill, of Memphis, who lived in Donley county for about 14 years, passed away Monday morning, at 6:15 o'clock, June 19, 1933.

Alexander William Guill was born in Tennessee Feb. 17, 1879. He moved to Texas with his parents in 1887, and settled in Tarrant county, where the family resided until their coming to Donley county in 1900. Mr. Guill remained in Clarendon until 1914, when he entered business in Memphis, where he resided until his death.

Surviving him are his wife, Mrs. Anna Talley Guill (daughter of Mr. and Mrs. R. W. Talley of this city), his daughter Marjorie; son, A. W. Guill, Jr.; father, A. R. Guill, of Memphis; brother, Hugh of Alanreed, Bird and Charlie of McLean, Jess of Hedley; sisters, Mrs. G. W. Estes of Byers, Mrs. J. B. Hodges of White Deer, and Miss Lillie Guill of Memphis.

Funeral services were held Tuesday morning at 10 o'clock at the Presbyterian church of Memphis by Dr. J. A. McMillan, the pastor, with interment at Fairview cemetery by the Masonic lodge of which he was a valued member. The funeral was attended by Mr. and Mrs. R. W. Talley, Mr. and Mrs. H. G. Kerbow, and Hugh Brown, all of this city, the latter an uncle of the deceased.

Mrs. O. T. Smith and son, A. J., spent Father's Day in Amarillo with her father, J. H. Enoch. All of his children met at his home for the occasion.

JOE BOURLAND IS ROTARY SPEAKER

ANNAPOLIS HONOR GRADUATE OUTLINES TRAINING FOR EMBRYO ADMIRALS

Clarendon Rotarians got a new understanding of the United States Naval Academy at Annapolis, Md., and its work in training young men for service in the various branches of the naval service, as commissioned officers, when Ensign Joseph H. Bourland, recent honor graduate at the Academy appeared before the club at its Wednesday meeting as the speaker of the day.

Mr. Bourland, or more properly Ensign Bourland, received marked attention of the club members as he explained the four years' study in the Academy, and the actual service aboard ships received by the young admirals as they are given every practical demonstration of the problems of the various naval branches.

He classified the vessels of the U. S. Navy as battleships, or dreadnaughts with the heaviest armaments and guns to be used primarily in coat defense; the cruisers, lighter type vessels designed for speed, scouting and defense work; and the destroyers which are also light vessels used in defense and scouting as well as guard duty, these latter being the fastest ships of the service.

Much interest was created in Ensign Bourland's outline of the war maneuvers through which the young officers are carried with true war-time detail. This also brought to light the various types of armor used by the ships, varying from four to sixteen inches of the finest steel.

The speaker also gave attention to the several auxiliary services of the navy which includes the submarines, carriers, tenders, transports, supply ships, hospital ships, aero and hydroplanes, all of which fill their part in the proper defense of the nation.

Ensign Bourland goes to San Pedro, Calif., in a few days to join the U. S. S. Maryland, to which he has been assigned for regular duty.

This proved to be one of the most interesting programs the club has enjoyed in some time, and the speaker received the thanks of the body for his address.

ANNAPOLIS HONOR GRAD

ENSIGN JOS. H. BOURLAND

REXALL CLIMBS TO FIRST PLACE

OILERS CLOSE BEHIND IN TWILIGHT LEAGUE; ONLY EIGHT MORE GAMES

As could have been expected the last week of playing in the twilight league witnessed some upsets. The Rexall team climbed into first place, exchanging with the Oilers, as the result of game between the two top-liners during the week.

As matters now stand between these two teams, the Druggists have played eight games and won six. The Oilers have played seven and won five. The Oilers' next game is with the Highway, whom they should defeat. The Rexall's next game is with the Baptists, today. That the Rexall should lose to the Baptists is at least a possibility, as the latter are due to stage a recovery from the off days they have suffered recently.

The Lions are holding third place consistently, having won five out of eight games. They have yet to play with the Highway and the Oilers, with a possibility of two wins if they succeed as well against the Oilers as when they last played them.

Since the Rexall's two remaining games are with the Baptists (today) and the Legion, and the Oilers' three remaining games with the Highway, the Lions and the Baptists, the writer is going to make the prediction that Rexall will win both its games and thus win the league series of games, as the Oilers must win all three of their games in order to tie the two wins by the Rexalls. If each team loses one of their games, they will be tied and a play-off would be in order.

One of the most surprising "blow-ups" of the series was that of the Baptists when they played the Legion last Thursday, losing to the Legion by a score of 12-3. Another near blow-up almost lost the Lions game to the same Legion team Wednesday, but as the Lions staged a rally at the right time, toward the end of the game and defeated the Legion by a score of 18-16.

The standing of the six teams at present is as follows:

Team	Played	Won	Lost	Pct.
Rexall	8	6	2	750
Oilers	7	5	2	722
Lions	8	5	3	625
Baptists	7	3	4	433
Legion	7	2	5	288
Highway	7	1	6	144

The following games, including today's game, are yet to be played:

- June 22—Baptists vs Rexall
- June 23—Oilers vs Highway
- June 24—Legion vs Baptists
- June 25—Lions vs Highway
- June 26—Oilers vs Baptists
- June 27—Legion vs Rexall
- June 28—Oilers vs Lions
- June 29—Highway vs Legion.

Miss Elgin Patrick is visiting her cousin, Tom Bugbee and Mrs. Bugbee on their ranch near Goodnight.

FREE AUCTION IS FEATURE OF DAY

CROWDS EXPECTED TO TAKE ADVANTAGE OF "LET'S SWAP" OFFERINGS

Every body in the Clarendon trade territory is invited to come to Clarendon next Saturday, June 24th, to attend the "New Deal" Dollar Day, which is a triple-purpose event planned by the business men of Clarendon.

The first purpose is to meet the recognized need for a definite day of the month when the greatest number of people will assemble in Clarendon, the county-seat. People from many other Texas counties know what "First Monday" means—the one day of the month when the owner of horses or mules knows there will be others at the county-seat with whom he may be able to trade. As matters now stand, there is no one day of the month for trading horses—or anything else.

Clarendon wants to establish one day of the month as "Let's Swap Day," not only for swapping horses but for swapping anything you don't need for something you DO need. And Clarendon has arranged a place for swappers to meet with their swap stuff—animals, implements, furniture, canned goods, or anything of any kind.

Second Purpose: Maybe you do not want to swap, but want to sell for cash at an auction sale. It would be no use to try to auction one or more articles unless you had a crowd present. But it would be easy to auction them off if other people brought their articles along and all combined them in one big auction sale, with a big crowd present. Clarendon offers, FREE, the services of an experienced auctioneer to sell, one article or many—no matter what it is. Each sale will be clerked and handled separately. If your article, whatever it is, is salable at all, you can convert it into cash. No fee or commission of any kind will be charged.

Third Purpose: For those who wish to take advantage of them, there will be a great array of special bargains, offered by Clarendon merchants for "New Deal" Dollar Day shoppers. With merchandise of all kinds advancing steadily, the bargains offered by the merchants will be worth more than will be asked for them. Wonderful opportunity is afforded the careful shopper by the Dollar Day offerings. Many of these are advertised in this issue of The Clarendon News, whose splendid coverage of the Clarendon trade territory is carrying the story of the "New Deal" Dollar Day to its outermost limits.

All On Same Day All these events will take place on the same day—next SATURDAY, JUNE 24th. Incidentally, it is planned to have these events occur once each month, probably on the fourth Saturday of each month. It is believed that everybody will approve of the idea of having one day each month for a general "get together" of the people. Folks like to go where they are reasonably sure to meet friends

(Continued on Page Ten)

Children's Story Hour Begins 7 P. M.

Since there seems to be some confusion as to the time the Children's Story Hour begins, The News has been requested to announce again that the story hour begins each Tuesday evening at 7:00 o'clock.

Thirty-two children heard Miss Carrie Davis tell stories last Tuesday evening in a very interesting manner. Mrs. Tom Goldston will be the story-teller next Tuesday evening, and parents of children who have not been attending are invited to bring or send them.

"New Deal" Dollar Day Endorsed By These Clarendon Business Firms

Recognizing the sincerity of purpose behind the three-fold objects of the "New Deal" Dollar Day, the business firms of Clarendon have enthusiastically endorsed the plan of establishing a monthly day at a time, a very frequent comment was this: "That's a plan that 'get together day.'" When the plan was outlined to them, one firm will benefit everybody who takes part in it." Of course, neither farmer nor merchant will benefit by it except by taking part in it. But there is a sincere belief that the plan will grow in the esteem of farmers and merchants alike as the months go on.

NATIONAL EDITORIAL ASSOCIATION MEMBER 1932

Baseball has always been a good game and the revival of interest in it, due to the adoption of the ball known as the "playground" ball by so-called "twilight leagues," has resulted in many pleasant hours for both players and spectators.

In Clarendon, six teams are approaching the end of a series of thirty games. Weekly reports of the games, with the percentages of the six teams, in this newspaper have helped to stimulate attendance at the games. Many who attend the first time out of idle curiosity have become keenly interested in the games. Playground ball does not make as heavy a demand for the utmost in skill as does regulation baseball, but it does afford equal opportunity for all the thrilling plays possible to the regulation game.

The fans appreciate the excellent games the players have given them, and the hope is frequently expressed that the present series, closing July 3, will be followed by another. The rivalry and good humor which have characterized the games are wholesome and men and boys are better acquainted with each other than ever before. And this, after all, should be the real purpose of all sports.

The Community Weekly, of Plainview, tells the story of a farmer who is using the "prevailing winds" to keep the 32-volt batteries of his farm lighting plant charged at no expense to him. The use of wind-power for pumping water is almost universal, except in the heavily wooded, and therefore practically wind-less, sections. And yet no other practical use is made of this cheapest of all natural power. Much amateur effort has been expended in experiments with the use of wind-power. But we have never heard of any well-financed experimentation with it. With sufficient funds at hand for extended experiment, there are men who could harness, in a practical fashion, the abundant force in the winds which almost constantly blow over a large part of the country. Why not an endowment of a "wind-power research foundation" by a Plainsman who could afford such an endowment?

START DRIVING NAILS

In an editorial concerning the renovizing campaigns that have found a welcome in a multitude of American communities, the Saturday Evening Post says: "When a city or a town makes a united effort to improve the local employment and business situation, it also builds up its own confidence. There is less uncertainty and apathy when everybody pitches in to stimulate work of such a useful kind. . . . It is nothing but good local business. But its greatest benefit will come when it is adopted by practically all the cities and towns in the country. The slogan of the renovize movement is a simple one, but for that very reason it is capable of having a far-reaching effect. The slogan is: 'If a man drives a nail he helps business.'"

"FIRST MONDAY" NEXT SATURDAY

In many of the older counties of Texas the custom of observing "First Monday" has existed for many years. On the first Monday of each month the farmer who wishes to trade off a horse or mule takes it to his county seat town, knowing that others of like mind will be there toicker with him.

But the majority of those who went to town on First Monday went because they were sure to see their acquaintances from over the county on that day. Merchants fell into the custom of timing special offerings of merchandise for the crowds, with satisfaction to everybody.

Next Saturday will revive the custom in Clarendon, county seat of Donley. Saturday was selected because it is already, by custom, the most popular day for visiting the town. But the scope of the original pattern has been enlarged. It will be made a day for the exchange of articles and livestock no longer needed for others that are needed.

Free auction service will be provided for those who prefer to sell for cash what they do not need. Merchants will vie with each other in offering bargain merchandise. Those who attend will be increasingly confident that they will see their friends and acquaintances on "Dollar Day," which has been designated to start with as the "New Deal" Dollar Day. It is the hope of those who have fostered its promotion that it will come to be known as "Fourth Saturday," so that its date will be definitely established in the minds of the people.

Sincere desire on the part of Clarendon business men to render a real and friendly service to their trade territory is back of the new move. The monthly "get-together" day can be made mutually profitable and enjoyable to all who take part in it. And if this end is attained, the sincere hope of Clarendon business men will have been realized.

HOPE IN A FREE PRESS

Freedom of the press is ever an alive and active topic. Every day in every community stands the man or woman who would muzzle the press, who would censor what the press has to say. But when it comes to finding the proper person to do the censoring, even the advocates of censorship run amuck. Censorship of the press, of the church, of school books, of the man at the curbstone, is absolutely the right thing to do. The only trouble we find in carrying out this right is to find the right man to do the censoring.

If you are "agin" religion, you don't want the preacher to be the censor. If you try to live a life of abstinence and want others to live that way, too, you don't want to let the wets do the censoring. The believer in war does not want the pacifist to censor and the pacifist argues that war propaganda should be censored.

The makers of the American constitution saw with what difficulties the nation would be confronted in years to come when they wrote in plain language that "Congress shall make no laws respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press." This phase of the constitution, like all other phases, has been violated many times. Wars always bring about censorship of the press, because those fighting the war in unpopulated offices are anxious to fight it their own way.

As a people, let us always cry for a free press. The right is abused but much less so than would be a censored press. Men's freedom goes hand-in-hand with freedom of the press. Censor the press and you jeopardize your own liberty. — Grit-Advocate, Julesburg, Colo.

NOT HER TYPE

Fond mother to daughter—What did the editor tell you when you submitted your poem to him? Daughter—He said he couldn't print it because he was out of poetry type.—Jayhawker Press.

Contempt will sooner kill an injury than revenge.

FEEDING METHODS SHOW GOOD GAIN

Many farmers and others interested in cattle feeding have watched the calf feeding during the past month conducted by the Wes-Tex Grain Company. Ben Smith, manager, has equipped the feeding lot so that all grain and forage is accurately weighed, the water is metered and the young steers are weighed monthly. Saturday was weighing day for the calves and a number of persons were on hand to witness the first weighing since they went into the lot May 3rd at an average weight of 312 pounds.

The weight at the end of the first month, June 3rd, showed an average weight of 465 pounds or an average increase in weight per head of 153 pounds in thirty days.

County Agent W. W. Evans, who is co-operating with Mr. Smith in the public feeding test explained that while the increase in weight is very good it should be remembered that about one half of the gain is fill, since they were weighed in without feed or water. The feed consumed for this period averages 10 pounds of roughage per day consisting of a mixture of alfalfa hay, grass hay and redtop bundles. The grain mixture at the present time consists of the following: Ground milo heads.....600 lbs. Ground oats.....300 lbs. Wheat bran.....100 lbs. Cotton seed meal.....125 lbs. Black strap molasses.....125 lbs. Oyster Shell Flour.....20 lbs. Salt.....20 lbs.

The above grain mixture contains 750 pounds of cotton seed hulls and the calves are now eating an average of seven and one-half pounds of the grain and hull mixture daily. They were started on one pound per day and gradually increased to the present amounts.

Mr. Smith invites those interested in calf feeding to visit the pens. "There is nothing new about this feeding that we expect to discover but we are interested in having a demonstration that we can watch closely and keep records of performance of the animals on," he said.—Plainview News.

Make Perfect Coffee . . . EVERY TIME . . . with These Automatic "Electrical Servants"

Authorities agree that the only perfect coffee is real French Drip Coffee. This is because a perfect brew requires three very definite things. First, that coffee grounds and water should come in contact but once. . . . Second, that the contact should be of about 3 1/2 minutes duration. . . . Third, that the water used in coffee-making should not be boiled, but maintained at a temperature about 16 degrees below the boiling point. When these three definite things are done, the result is a smooth, rich flavor . . . a clear, sparkling amber color . . . and an intriguing, appetite-awakening aroma.

Here are two appliances that enable you to make perfect coffee EVERY TIME! The Manning-Bowman French Drip Coffee Urn, and the Hotpoint Coffee-Maker automatically assure the perfection of all your coffee. No embarrassing failures . . . no disgusting "dishwater" coffee . . . none that would "float an egg." You'll have perfect coffee every time through the automatic perfection of these modern "Electrical Servants."

Specially priced, for a limited time only, you'll find one of these modern appliances an absolute necessity in your home. Like all electrical appliances, too, they may save money for you—for this modern way requires less coffee to produce a wonderful brew. Ask any employe for a demonstration TODAY. Convenient terms if desired!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule . . . and adds only a small amount to your total bill?

not need. Bring It In Saturday!*

Free Auction

An experienced auctioneer has been secured to auction off live-stock, implements, furniture or anything (no new merchandise) for their owners, FREE OF ANY CHARGE. Just bring your stuff in. CLAUDE R. GAMBLIN will be the auctioneer—and he is said to be a cracker-jack. No charge for his services as your auctioneer. TURN USELESS THINGS INTO CASH AT THE FREE AUCTION.

AUCTION LOT LOCATION.

Bring your stuff for Auction or Swap to the lot between Clarendon Grain Co. and Talley Super Service Station.

"LET'S SWAP" DAY

Bring what you'd like to swap to the Auction Lot, where there will be opportunity to swap it for something you need. If you don't find a good swap, you can have it auctioned off if you wish. Somebody wants what you have, if you will let them know about it. Bring it to Clarendon next Saturday, June 24.

CLARENDON MERCHANTS OFFERING

RED-HOT BARGAINS

Merchants, too, are uniting in the effort to make the NEW DEAL DOLLAR DAY a profitable one for you.

In the face of an advancing market on practically all kinds of merchandise, they are offering special bargains, RED HOT Bargains, for the NEW DEAL DOLLAR DAY. You can write it down for future reference that prices will be lower that day than can last long.

READ THE ADVERTISEMENTS in this issue of THE CLARENDON NEWS. You will make money by saving money on purchases made next Saturday. No need to be afraid to buy at the prices quoted in these ads.

Maybe you don't intend to Swap, Auction or Buy Bargains. If so, fine and dandy—Come visit with your friends!

RAYBURN L. SMITH

Clarendon And Donley County Men Attend Public Works Meet At Pampa

\$3,300,000,000 Industrial Recovery Act of Congress Explained In Detail And Speed Urged In Panhandle Application For Funds For Construction Of All Kinds

Possible far-reaching benefits of President Roosevelt's vast public works program were made clear to a group of Panhandle officials and leading business men by T. W. Hanlon, Jr., representing the recently created Texas Rehabilitation and Relief Commission at an informal conference held at Pampa Friday of last week.

Clarendon was represented by Mayor W. P. Cagle, County Judge Sam W. Lowe, G. L. Boykin, secretary-manager of chamber of commerce; Bill Ray, president of that organization; Ralph Kerbow, Sam M. Braswell, Joe Holland and Homer Mulkey. Hedley was represented by J. Les Hawkins, county commissioner, L. E. Thompson, mayor of Hedley, J. G. McDougald and B. L. Howard of that city.

The auditorium project in Clarendon and the sewerage system at Hedley were the items of immediate interest of the Donley County men.

Title 11 of the measure known as the National Industrial Recovery Act is to be the Pres-

ident's ungloried, knockout blow to the depression. The Act is to put \$3,300,000,000.00 in the President's fist for this specific purpose.

Mr. Hanlon said a swift decisive campaign to bring home to the people throughout the State the advantage of quickly seizing the opportunities presented to them under terms of the bill is being carried on by the new employment-relief agency at Austin.

The motto under which the campaign is to be conducted will be:

"Take families off the relief rolls and put them on payrolls."

It is estimated that at least \$250,000,000.00 for public works can be obtained for Texas from this enormous Federal fund if prompt action is taken by those in position to negotiate loans covering eligible projects.

It is said that wide-spread interest is already being shown and it is considered likely that the minimum goal will be exceeded.

Experts have estimated that 1000 men receive jobs for each million dollars of construction to be in force. On his basis more men would receive employment in Texas that are now on R. F. C. rolls in this State.

Under terms of the bill, virtually every type of public works is eligible.

On acceptable projects the Federal government will make an outright grant or gift of 30 per cent of the construction cost, and will loan the balance of 70 per cent at a low rate of interest. Among suggested eligible projects are as following:

1. Building Construction: Administration—City-Hall, County Court House; Hospital—City and County; Schools; Auditoriums; Stadia, Prisons; Markets; Libraries; Factories; Docks; Warehouses; Terminals for air, road, rail, water; Police Stations and Fire Stations.
2. Health And Sanitation: Water storage; Water filtration; Water softening; Water lines; Sewage systems, Civic centers, Water front beautification, Pollution of streams, Slum eradication, Parking spacing, Abattoir.
3. Marginal Lands: Drain swamps and much lands, Irrigate arid areas, clear scrub timber lands, Reforestation, Game Preserves, Artificial Lakes, Fish hatcheries, Resorts, Camp sites, Golf courses, Amusement parks.

4. Natural Resources: Food control, Drouth control, Hydroelectric development.
 5. Rivers and Harbors: Breakwaters, Harbors, Channels.
 6. Roads And Pavements.
 7. Highway Structure.
- Title 11 of the National Industrial Recovery Act takes the place of the self-liquidating loan provisions of the old R. F. C. Act, which specifically prohibits loans, the retirement of which involves the securing of revenue from taxation. This tax feature of the R. F. C. Act served to eliminate practically every type of public works from consideration.

While no definite policy concerning administration of the new public works program has been made, it is known of good authority that it will be an unusually liberal one.

AID TO GOOD GOVERNMENT

Publicity is an aid to good government, says James P. McDonnell, vice president of the Minnesota Taxpayers association. Following are extracts taken from a recent address:

"People must rely on the printed page to enlighten them of the material transaction, financial and otherwise, of our representatives in public life today.

"No people can have any confidence in any set of public officials if these officials hesitate to give a clear and candid accounting of their stewardship.

"Every voter has a right to know what his officials are doing—and he has a right to know where the public money is going, since the money comes from the pockets of every citizen, no matter how humble.

"The knowledge that all public transactions will appear in print has a restraining influence on tax-levying bodies. There never

has been a time when public reports were more thoroughly scrutinized by a tax-conscious people than they are today. This is indeed a wholesome condition. The net result is that the taxpayer is brought closer to his government."—N. E. A. Bulletin.

A certain famous motor car manufacturer advertised that he had put a car together in seven minutes. The next evening he was called on the phone at dinner time and asked if it were so. "Yes," was the reply. "Why?" "Oh, nothing. But I believe I've got the car."

It is a well established fact that for every three families living in a town or city there should be a family on a farm, devoting itself to the production of food. Don't Overlook The Farmer. He is an important factor in building a growing city.

This Man is finally CONVINCED that it pays to carry INSURANCE. He would unselfishly urge YOU to... Phone or See...

What Makes a Safe Tire? ... I KNOW!

ARE you willing to risk your life on advertising statements claiming blowout-proof and unblowable tires? One manufacturer gives as the reason for claiming blowout-proof tires—the use of one ply of another color—another, a patented "no breaker" construction—a mail order house, high stretch "elastic" cords, etc., etc. Actually the fundamental cause of a tire blowout is the flexing of the tire which causes friction of the fibers in the cord, resulting in heat and causing the rubber to soften and the cords to deteriorate.

THE MASTERPIECE OF TIRE CONSTRUCTION

There is a reason why Firestone Tires have won the 500-mile Indianapolis race for 14 consecutive years, the most gruelling tire test. The reason is the Firestone patented extra process of Gum-Dipping which saturates every fiber and insulates every cord with pure rubber—which gives strength to the cords and prevents friction and heat in the fibers. This year 42 drivers in this race equipped their cars with Firestone Gum-Dipped Tires and not a single driver had any tire trouble.

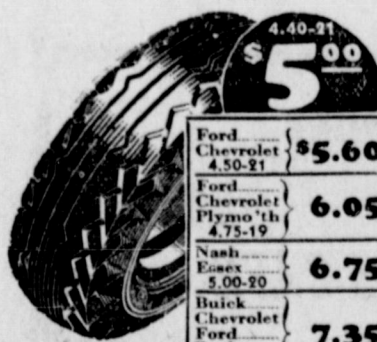

Race drivers know why Firestone Gum-Dipped Tires are safer and not subject to blowout and will not risk their lives on ordinary tires. Your life and the lives of your family are often in danger at the high road speeds of today and you should not take greater risks than the race drivers who make sure that they have the best and safest tires they can buy—Firestone. Come in today. We will give you a liberal trade-in allowance for your old tires on new Firestone High Speed Tires—the safest tires in the World.

Firestone

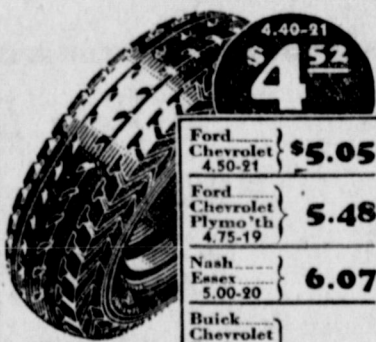

Patented Construction Features Give You Greater STRENGTH, SAFETY and MILEAGE

Firestone SUPER OLDFIELD TYPE
This tire is the equal of all standard brand first line tires in Quality, Construction and Appearance. Sold at a price that affords you real savings.

Firestone OLDFIELD TYPE
This tire is superior in quality to first line special brand tires offered for sale by mail order houses and made without the manufacturer's name and guarantee. This is "The Tire That Taught Thrift to Millions."

Firestone SENTINEL TYPE
This tire is of better Quality, Construction and Workmanship than second line special brand tires offered for sale by mail order houses and made without the manufacturer's name and guarantee.

Firestone COURIER TYPE
This tire is of good Quality and Workmanship—carries the name "Firestone" and full guarantee—sold as low as many cheap special brand tires manufactured to sell at a price.

Firestone BATTERIES
Firestone Batteries set a new high standard of Power, Dependability, Long Life and Economy. We will test any make of Battery FREE.
As Low As \$5.40 and your old battery

Firestone Brake Lining
Firestone Aquapuf Brake Lining is moisture-proof and embodies a new principle which produces smoother braking action.
Free Brake Test At \$2.40 Per Set Retining Charges Extra

58c Firestone SPARK PLUGS
Give a hotter spark, increased power, and have a longer life. Double tested and sealed against power leakage. Old worn plugs waste gasoline. We will test your Spark Plugs FREE.

A New Deal For Liver Sufferers

Don't be misled any longer. Calomel, salts, oils, mineral waters, laxative pills, herb teas, powders, etc., have no effect whatever on the liver. There are only two generally recognized substances which actually cause a sluggish liver to increase its production of bile, Sargol Soft Mass Pills contain both of them. You can't feel well and strong unless your liver furnishes plenty of fresh bile every day. Without bile food doesn't digest properly—it just ferments and decays—Constipation, gas, sour stomach, headaches and nervousness follow. Unless you have tried Sargol Soft Mass Pills you can have no idea of their effect—You feel stronger, healthier, happier—life and color return to faded eyes and cheeks—appetite and digestion improve rapidly. Only one for a full 30-day treatment. At your druggist, or write G. P. Willis, Inc., Atlanta, Georgia.—(adv.)

Douglas-Goldston Drug Co.

Here are real Bargains—offered to you for one day, on Clarendon's "NEW DEAL" DOLLAR DAY. You'll be glad you bought at these prices.

Local Golfers at Borger Last Sunday

Thirteen Hillcroft Golf Club members won seven out of thirteen matches played last Sunday on the Borger golf course with local golfers. The Clarendon winners were: Ira Merchant, H. B. Kerbow, A. N. Wood, Lee Casey, Fred Buntin, George H. McCleskey and Otis Jackson. Clarendon players who lost to Borger players were: Jack Merchant, P. B. Gentry, Dick Allen, Carl Parsons, U. J. Boston and Dick Cooke. The Clarendon players were enthusiastic in their appreciation of the courtesies shown them by the Borger golfers.

SEBORN WILLIAM BUCK BURIED AT MEMPHIS

Seborn William Buck, son of Mr. and Mrs. W. W. Buck of this city, died last Saturday morning at 1:17 o'clock at the Hyder hospital at Memphis, aged 29 years, three months, nineteen days. He is survived by his widow, the former Miss Doris Tomlinson of Memphis; his parents, and one brother, Ben Buck, of Clarendon.

Funeral services were held Sunday afternoon at 2:30 o'clock by Dr. J. A. McMillan, pastor of the Memphis Presbyterian church, after which the body was laid to rest in Fairview cemetery. The family has the sympathy of all their friends in their bereavement.

AN AMUSING ERROR

Showing how important a single letter can be and the twisted meaning that may result, an error in a personal mentioned item last week caused many inquiries as to who S. L. Tidwell's "friend" is. The news item stated that S. L. Tidwell has accepted a position with the Piggly Wiggly store "where he will be glad to meet his friend." Slim has a large plurality of friends, as any one knows who knows Slim, and the implication that he has only one friend is all wrong. Somebody owes Slim at least a nickle drink.

Party To Abilene On Road Matters

Judge, Cary, Ivy Duncan and George Briggs of Pampa came through Wednesday at noon en route to Abilene to confer with Judge Ely on matters effecting a connected system of state highways in the East Panhandle. G. L. Boykin, secretary of the Clarendon chamber of commerce joined them here and will represent Donley County's interests in the discussion. Plans are on foot to get state designation on highway 88 south from Clarendon, and on a new proposed highway from Hedley to McLean and Miami, along with other projects north of Donley. The party will return Thursday evening or Friday morning.

FORMER BAPTIST PASTOR VISITS CLARENDON FRIENDS

Rev. S. R. McClung, formerly pastor of the First Baptist Church of Clarendon, but now pastor of the Baptist church at Floydada, visited here from Thursday evening to Saturday morning of last week with friends. He was accompanied by his oldest son, Truitt, and the two younger sons, Bro. McClung is one of the most popular and beloved pastors ever to serve a local church and he is always welcomed back here. He has recently moved to Floydada from Lawton, Okla., where he served as pastor after having moved from Clarendon.

SAM BRASWELL, JR. ELECTED CHAMBER SECRETARY

At a recent reorganization meeting of the Forney Chamber of Commerce, Sam Braswell, Jr., was elected secretary of the body. These duties he assumes in addition to his work of editing and conducting the Forney Messenger and the Wylie Herald.

Joe Goldston, Walter Taylor, Allen Bryan and Judge Sam W. Lowe were in Amarillo Wednesday to appear as witnesses in the Bernie Baldwin insurance case in federal court.

Old-fashioned Ice Cream Supper July 1

Martin Community cordially invites everyone to come out to an old fashioned ice cream supper at the school building Saturday night, July 1. There will probably be some speaking and we are sure that everyone will have a social good time. "Our communities should have more of these neighborly get-togethers to help dispel this gloomy depression atmosphere. So come out and enjoy yourself. There will be a small charge for the cream and cake—the proceeds to be used for new song books," said a resident of the Martin community in connection with the announcement of the ice cream supper.

AT THE BAPTIST CHURCH

9:45—Sunday School. A class for everyone.
11:00 a. m.—Good singing. Songs you like.
11:20 a. m.—Preaching. We are always out on time.
7:45 p. m.—Training Service. Help our young people. They need your backing.
8:30 p. m.—Lively, peppy, song service.
8:15 p. m.—Sermon. Short and Spiritual. All out in less than one hour.
The auditorium is always cool and pleasant. Electric fans.
Every one OWES it to HIMSELF, his FAMILY, his COMMUNITY, and his LORD to be in both worship periods each Sunday.
Can your church count on YOU?
Elbert Bowen returned Saturday from Hereford, accompanied by Frank Mosley who will visit him for a few days.
Miss Dorothy Householder of Byers is visiting her father, Sam Byers on the Chenzult ranch.

T. F. Connally left last Thursday for Ft. Worth to accept a traveling position with the Ft. Worth Elevator and Warehouse Company, with whom he had a similar position in 1924-5-6. He expects to be away from home throughout the grain movement season.

Miss Lois Alexander returned Sunday from Crowell, where she visited her sister, Mrs. H. K. Edwards.

Miss Josephine Murphy is visiting relatives at Jacksboro.

Glenn Costello of Pleasanton, Kansas, who has been visiting here, returned to his home Saturday morning.

Mr. and Mrs. J. D. Browder of the Browder ranch near Memphis spent Sunday with Mrs. R. A. Chamberlain.

Mrs. Helen Roberts, of Healdsburg, Calif., arrived Tuesday to spend the summer with her mother, Mrs. N. S. Percival, and other relatives. She came by airplane to Amarillo.

SOCIETY

LORRAINE PATRICK, Editor

Beach—Davis

A quiet wedding in Oklahoma City Friday afternoon, united in marriage Miss Madge Davis and Otto Beach of this city. The ceremony was performed in the parsonage of the First Methodist Church, with the Rev. H. W. Jayne officiating.

Immediately following the ceremony, the couple left for Guthrie to visit Mrs. Beach's sister before returning to Clarendon Sunday.

The bride has been associated with her brother, Denis Davis, in the City Gas Company since its opening here and has made many friends.

Mr. Beach is the son of H. Beach and is one of the owners of Beach Service Station.

The News joins the many friends in wishing the young couple much happiness in the years to come.

Les Beaux Arts

"Other Arts in Germany" was the topic, with various subheads, which was discussed at the meeting of Les Beaux Arts Club at its meeting, Saturday, June 10th, at the Woman's Club Room.

Mrs. James Headrick as leader discussed Goldsmith Arts, after which Mrs. J. W. Evans gave a description of the Etchings of that country. Others appearing on the program included Mrs. R. L. Bigger, who gave a talk on Dresden China and Mrs. L. L. Swan, who told of the Art Galleries.

In the business meeting Miss Howren, the retiring president, expressed her appreciation for the splendid co-operation of the club in all its activities this year and turned over the reins of office to the new president, Mrs. J. H. Morris. Mrs. F. E. Chamberlain is the vice-president; Mrs. W. W. Taylor, secretary; Miss Anna Moores, treasurer; Mrs. Charles Trent, parliamentarian; and Miss Katherine Ross, historian and librarian.

At the conclusion of the program, the hostesses, Mesdames J. D. Stocking and W. H. Patrick served an ice course.

St. Agnes Altar Guild

The St. Agnes Guild of the St. John Baptist Episcopal Church met with Miss Katherine Patrick on Friday afternoon, at the home of her parents, Mr. and Mrs. W. H. Patrick.

Mrs. J. B. McClelland, who has been Directress of the Guild since its beginning twenty-five years ago, led the study and discussions.

At the close of the study dainty refreshments were served.

Mrs. R. A. Chamberlain Entertains

The 1912 Needle Club and several invited guests spent a very pleasant afternoon Thursday, as guests of Mrs. R. A. Chamberlain at her home.

The rooms were attractively decorated with bouquets of garden flowers, which added to the afternoon's enjoyment. A delicious salad course was served to:

Miss Mary Jo Chamberlain, Mrs. Whit Carhart of Greenville, Mrs. F. E. Chamberlain, Mrs. Carroll Knorrpp, Mrs. J. D. Browder of Fort Worth, Mrs. J. D. Stocking, Mrs. C. B. McCanne, Mrs. R. L. Bigger, Mrs. Kelly Chamberlain, and Mrs. George Ryan, guests.

Mrs. L. S. Bagby, Mrs. W. H. Martin, Mrs. Sella Gentry, Mrs. J. B. Baird, Mrs. Anna Hall, Mrs. A. A. Mayes, Mrs. B. L. Jenkins, Sr., Mrs. J. T. Patman, Mrs. C. W. Taylor, Mrs. Homer Glascoe, Mrs. Anna Hasty, Mrs. A. L. Chase, and Mrs. A. R. Letts, club members.

Summers—McClenny

The marriage of Charles Summers and Miss Lily McClenny was performed Saturday afternoon at six o'clock at the Methodist parsonage. The Rev. E. B. Bowen read the marriage service.

Mrs. Summers is the daughter of Mr. and Mrs. C. T. McClenny of this city while the groom is the son of Mr. and Mrs. R. A. Summers, also of Clarendon, and is employed by Lemons-Thompson Grain Co.

The young couple have the best wishes of the entire community.

Mrs. B. G. Smith and sons, Phillip and Benton, left Tuesday for Austin where they will make their home during the summer months.

Former Clarendon Girl Marries

Mrs. Velma Sue Holmes and Hubert R. Budke of Amarillo were married Tuesday afternoon at the home of Mrs. Holmes' uncle, Mr. B. V. Blackwell and Mrs. Blackwell in Amarillo. Rev. Roy C. Snodgrass, pastor of the First Christian Church presided.

The bride wore a handsome peach lace made princess style, with tiny ruffles of lace at the hem of the skirt. Her flowers were pink Johanna Hill roses.

After the service an informal reception was held with ice cream in the shape of roses and individual wedding cakes being served from the dining room.

Mr. and Mrs. Budke left on a honeymoon trip to Denver, Colorado Springs and other points. Upon their return they will be at home at 2119 Ong Street, Amarillo.

Mrs. Budke is the daughter of Mrs. Donna Green, who was a former resident of Clarendon for many years.

Mr. Budke is the son of Mrs. Fannie Budke of Independence, Kan., and is assistant secretary-treasurer of the Amarillo Gas Company.

Picnic

A gay group left town about dusk Saturday evening headed for Bell's Ranch, and upon arrival there found Mr. and Mrs. Charlie Bell and Mr. M. E. Bell awaiting them.

Fist came an invigorating swim, followed by a thoroughly enjoyed supper. Afterwards a slumberless night was spent, with another good swim the next morning. 'Twas late afternoon before the crowd returned to town, very tired, but each one still enthusiastic about the good time.

To enjoy this were: Misses Wylfa Lee Alexander, Latrice Benson, Betty Walker, Elgin Patrick, Messrs J. P. Rhode, Bus Bell, Shine Martin, Shy Johnson, Mr. and Mrs. Dick Bell, Mr. and Mrs. Meade Haile, Mr. and Mrs. Charlie Bell, and Mr. M. E. Bell.

Strawn, Rosalyn Bass, Oleta Woods, Vivian Taylor, Frances Sanford, Avis Lee McElvaney, Laverne McMurtry, Virginia Wisdom, Dorothea Watson, Jack Latson, Drew Wilkerson, Randall and Thayer Acord and Thomas Clayton.

The Chaperones for the evening were Mrs. G. L. Boykin, Mrs. W. A. Clark, Jr., and Mrs. J. R. Porter.

GIANT SHOVEL CAN TOP EIGHT STORIES

J. T. Patman recently received from his son, James Patman, of Kansas City, Mo., a large framed photograph of one of the giant electric shovels used by the Hume-Sinclair coal mining company with which both James and Mr. Patman's son-in-law, William Price, are associated. The photograph hangs on Mr. Patman's office wall.

Standing "flat-footed" on the ground, the giant shovel can dump its load on top of an ordinary eight-story building. Yes, that's

right—eight stories. It weighs over two million pounds, or 1,100 tons, to be exact. Its shovel can scoop up 16 to 22 cubic yards of material and its regular crew consists of three men. The shovel is used in "stripping" the surface soil off the deposits of coal which lie under it, thus permitting surface coal mining instead of underground shafts and galleries.

Two of the crew are photographed with the giant shovel, affording a good idea of its great size by comparison. The shovel is mounted on crawlers, laying its own tracks and going wherever its operators want to

PHILLIPS 66 STATION UNDER NEW MANAGEMENT

The Phillips service station on Highway No. 5, opposite the county jail, is now under the management of Clyde ("Shine") Martin and Bill Wood. Martin is an experienced service station man, having been connected with I. O. Noble for several years. He is the son of W. D. Martin. Bill is the son of F. O. (Doc) Wood.

Both young men have a wide circle of acquaintances and will

appreciate the patronage with which they may be favored.

The Chamberlain Home Demonstration Club met with Mrs. Karl Adams Thursday, June 15, with sixteen members and six visitors present. Subject of the lesson, "Living Wives of Ex-Presidents." After the lesson was over a social hour was enjoyed. Delicious refreshments were served. The ladies entertained their families with an ice cream supper Friday night at the home of Mr. and Mrs. O. B. Rumpy. Next meeting will be with Mrs. Roy Beverly on July 6.

Library Notes

By MRS. C. A. BURTON

"Her Son's Wife" by Dorothy Cranfield is a recent acquisition to our library. It is a story which attracted much attention when it came out a few years ago. At the time that eminent critic, William Lyon Phelps, said of it, "Her Son's Wife" is Dorothy Cranfield's masterpiece, and it is really a masterpiece. It is a profound, subtle analysis of human character and human life; a very remarkable book. It deserves the Pulitzer Prize and I predict it will win it."

The Bookman said of it, "By far her most interesting novel. There is no phase of life in an American community that Dorothy Cranfield does not illuminate with rare understanding and with taste. It is a fine performance." The Boston Transcript said, "Not since 'The Brimming Cup' has Dorothy Cranfield written a story of such gripping human interest."

It is the story of Mary Bascomb, a widowed mother, and her only child, her son Ralph. The adored husband and father had closed his brave dark eyes on life when Ralph was a tiny lad. Henceforth the mother lived for the boy alone, striving to put into his life everything that was fine and splendid, giving him every advantage which the salary she earned as a successful teacher in the public schools could secure. Life was beautiful, well-ordered, happy. But Mary Bascomb made the mistake we see made around us every day—in her ambitions, dominating love for her son she did his thinking for him and planned his life for him. He is within two months of graduation from college after

which he is to begin his law course when, like lightning out of a clear sky, comes the blow. A letter from Ralph tells of his marriage, and a postscript to the letter says, "Lottie is not your kind, Mother, but she's all right." Her world reels about her—for the whole night she sits in her lovely little home and tries to face the reality, with the coming of the dawn she wires a message for Ralph to bring Lottie home. Lottie came. Lottie truly was not "her kind", and the story is one long struggle to help, to mold, to build, with but little foundation. The baby girl with the eyes of the long lost husband gives a new impetus to life for Mary Bascomb—a new hope amidst the chaos of her life. You find yourself living with her poignant struggles of the years as she comes to an acceptance of the changed valuations of life and finally to calmness and serenity.

The book gives you a new appreciation of Dorothy Cranfield. A Boston critic says of her, "It would be sheer inadequacy to characterize Dorothy Cranfield as a novelist. She is that rare creature, a woman of letters. Whatever her hand finds to do for the printed page will be well done. She has a kind and generous nature, and she scatters blessings freely upon her readers. She reveals a thousand points of loving contact between us and the world as it is. We may well rejoice in her generous temper, the purity of her spirit, and her whole-hearted belief that the things which are unseen are eternal." She has an international reputation, her books having been published in France, England, Holland, and in the Scandinavian Countries.

Although she has spent much time in Europe, yet she is regarded there as a full-blooded American of the best type. She blends her New England culture

and her European experience in a way which has made her later books most acceptable on both continents.

Besides "The Son's Wife" we have "The Bent Twig," "The Brimming Cup," and "Understood Betsy."

An increasing number of "summer memberships" are being taken in the library by the young people who are out of school, some of the teachers who are home for the summer, and others. Remember that we are open three afternoons each week—on Tuesdays and Thursdays from 4 to 5:30 o'clock, and on Saturdays from 2 o'clock.

THE WEATHER AND RELIGION

There is a strange connection between the weather and religion. It hardly ever is "just right" to go to church! When the weather is warm all the week we go back to our work, but it suddenly becomes unendurable on Sunday. Spending an hour in the house of worship on a hot day is just out of our program, and yet we do more strenuous things on Sunday than going to church.

We visit, eat big dinners, drive many miles in the heat, but are afraid to venture out in the heat to go to church. We have known of church members, who will spend the whole day on the golf links, walking, chasing the little ball from hole to hole, in the scorching heat of the sun. Perhaps they are sure of their eternal destination, are not afraid of that endless punishment that burns with unquenchable fire for ever and ever (?).

How often does a pastor meet some of his folks on Monday, who were absent from the services on Sunday, and have them tell him blandly that "it was so hot that they just could not come out." Perhaps Monday is much warmer than was Sunday, yet they are getting ready to go on a fishing trip and spend several hours sitting in the sun, but they are not afraid of this heat. People seem to think preachers are easy, but they do not always betray by their looks what they really think.

So hereafter, try to think of some other explanation, or reasonable excuse when you meet your pastor on Monday and try to enlighten him about the unbearable conditions, that made it utterly impossible for you to be at the church for it to be recorded in the "account book" of heaven. Try to justify your self in the sight of God and not the preacher's. The preacher is interested in the salvation of your souls, he wants you to be saved. You cannot fool God about the weather and your religion, he knows about both. Don't lie to God any more.

We invite you to be present and hear our message Sunday, on "Christian Fellowship," and

TREE ARMY BOYS SAY, "SATISFIED"

INTERESTING LETTERS INDICATE "ROUND ROBIN" WAS WRITTEN IN FUN

(Editor's Note: The News is happy to publish the following two letters from the boys in the "tree army" at Ft. Sill, Okla. They want all of us to know that the "round robin" published last week was written in a spirit of fun, and that they are really having the time of their lives.

The spirit of obligation for the experience and training through which they are now going is commendable and, if maintained, will make of them the highest type of boys in the "tree army." Good luck to you, boys! Write us now and then.)

The following letter, signed by a number of Donley county boys, is self-explanatory:

Dear Sirs: We are writing an apology for the previous letter which we sent you. Everything we said in the letter was not the holy truth, but the potato deal was true. But understand we are having plenty of other good cats. We never was better satisfied in all our lives than we are now.

We didn't intend for all you folks to believe all we said for we were just having a little fun. We all try to obey orders that are given us.

We are all figuring on being away from Fort Sill by July 1st and we have some of the finest officers you ever heard of. If we happen to write you again we will try not to make such a bad impression of Roosevelt's Reforestation Camp as we did the first time.

Yours, truly,

THE BOYS.

P.S.—We received the papers and enjoyed reading them very much. We will send you a long column every once in a while after we get to camp.

(The above letter was signed by Alvin Hicks, Gordon Heatherly, B. F. Lyles, Buck Andis, Jimmie D. Johnson, Preston Clark, Jack Robertson, Ted Wiley, Star Reid, Earl Hill, Leverett Melton.)

Earl Hill Writes

(Our readers will especially appreciate, we think, the following wess written account of life as the Donley county boys have

"Jesus As a Preacher." You will like these lessons.—W. E. Ferrell, Minister, First Christian Church, Clarendon, Texas.

found it in the "tree army." Thank you, Earl.)

Fort Sill, Oklahoma June 17, 1933

Clarendon News Clarendon, Texas

Your response to the letter from the boys over here is a challenge to us boys. We do not feel as the letter indicates, and feel that the folks back home will receive the wrong impression of what our camp life really is. My impression is entirely different, and I know the other boys' is too.

I am going to tell about our daily camp life as I see it. First I wish to describe our meals. For example, this morning we had for breakfast sausage and gravy, fried potatoes, bread and butter, stewed apples, post bran, coffee and milk.

Our menu is changed every day. We have a variety of meats, such as, steak, pork chops, lamb chops, and of course we have all the fixing that go with them. Some times we have ice cream, cake, apples, oranges and fresh vegetables.

These articles of food may not be cooked like "Ma" can cook them but they taste good just the same, and you just ought to see the boys run when the "chow" whistle blows.

Now for clothes, they gave us two work suits, one pair of shoes and one pair of O. D. (Olive Drab) trousers, which, after several alterations are good enough for any occasion which will arise while we are in the "Forest Army." They also gave

us two O. D. Shirts, tie, belt, hat and a rain coat. They gave us toilet sets which consist of tooth brush and toothpaste, razor and blades, toilet soap, shaving soap and three towels, one bath and two hand towels.

Although we actually receive \$30 cash per month, figuring clothes, board, medical attention, water for baths, transportation, vacations, etc., we receive several hundred dollars as well as valuable training and experience, for the time we serve in the "Forest Army."

The hikes and exercises are for our benefit. I have been here three weeks now and have worked three days. And many times I have done harder work for \$1.00 a day, than the work we do here.

When not at work there are several ways to pass our time. There is a Recreation hall where there are magazines, writing materials, games, etc., and furnished. There is also a radio, and the army band comes over once

a week and gives a program. On Sunday afternoon there is church at the Recreation hall.

Trucks are furnished to carry us swimming to the post, to the movies, to the horse races and horse shows. There is base ball equipment, volley ball equipment, etc., for those who wish to take part in these sports. So it is easy enough to find something to do.

In addition to all these things we have a chance for a new experience, a chance to make new friends, a chance to study human nature. In other words, we are just lucky. When we grow to be old men we can look back and remember our six months in the "Forest Army," as six months of valuable experience and pleasure.

This, dear folks, is life in the "Forest Army."

Sincerely yours, Earl Hill, Fort Sill Okla., Co. 77, C. C. C.

Bits Of WASHINGTON'S Current Comment

The hottest potato at the date of the present writing is veteran's compensation, and no one cares commenting upon it is by no means easy. A soldier from Pennsylvania makes a good showing when he says:

"If the Government will give me a job that will enable me to earn a living I will with joy renounce my claim to a cent of compensation."

The case for the opposition is summed up in the following, attributed to a statesman who has the reputation of knowing what he is talking about:

"Either we will have to impose a gross income tax or a general sales tax. The people who are fighting for the veterans are not for the sales tax, and the only other way I know of to levy a gross income tax. We have all the luxury taxes now the country will stand for and we can't get any more money by increasing net income tax rates."

Congress inclines to liberality, but has been informed by the President that it must back up its generosity with new taxes to raise funds. With the veterans as one millstone and the taxpayers as the other Congress is getting a pretty thorough grinding.

Indiana has voted for the repeal of the Eighteenth Amendment. The vets are entitled to claim that they have done well to line up ten states in the short time at their command. On the other hand, almost every one will recall the old song about forty-nine blue bottles hanging on the wall, one bottle being removed as each stanza was sung. The chorus was strong at the beginning, but there was some gasping for breath before the song was ended. Repeal has made a start that attracts notice, yet the race goes

not to the swift, but to those who endure to the end.

Noting the amount of money collected by various persons in connection with a certain railroad deal under investigation by the Senate, the road should be known by some more appropriate title than the Nickle Plate.

Opposition to the appointment of a governor for Hawaii who is not a representative of the islands, has brought to life the old Civil War phrase "carpet-bag government." Originally, it meant government by persons who moved in for that purpose, bringing their luggage with them. Considering the unfavorable impression that would be created today by a guest who arrived with a conspicuous sachel made of Brussels carpet, its flamboyant and flowered surface exposed, the Hawaiians may have selected a more expressive catch-word than they intended.

An American aviator endeavoring to break the record for a flight around the globe, suffers a ten hour delay in getting service in Russia. Since 149 languages are spoken in that country, it may be that he was up against it no worse than the Russians themselves.

Congress is concerned over the price paid for the toilet kits in the conservation camps, which is a good sign. Anyone who demanded time for the consideration of such a matter three months ago would have been suppressed as a trifle. The serious questions must really have been settled. The gleaming ordinarily does not begin until the harvest is over.

A commencement picture shows five graduates who studied together for ten years, from the graded schools up through college. It is saddening to think what the world does to such friendships, and indeed to friendships in general.

On the fourteenth of June,

ODD BUT TRUE

MEN WHO WEAR MUSTACHES HAVE MORE VANITY THAN THOSE WHO DO NOT

GLOBES WERE USED FOR ILLUSTRATING GEOGRAPHIC THEORIES, EVEN BEFORE THE DAYS OF CHRIST, WHEN IT WAS THOUGHT THE WORLD WAS FLAT

THE ANT'S AVERAGE LIFE IS FROM EIGHT TO TEN YEARS

1777. Congress officially adopted the stars and stripes as the banner of the nation, and early in August of that year, the new flag was first flown in battle, at Fort Stanwix on the Mohawk River, in the state of New York. Although the general design has remained unaltered, the United States never has had precisely the same flag in any two wars. Of all the poets who made the flag a theme for their verses, Francis Scott Key is the best known. His house in Washington was torn down a few years ago to make room for the abutments of a new bridge, but his last resting place, at Frederick, Md., is within an hour's drive for those Washingtonians who came for a patriotic pilgrimage Flag Day.

A picture of Mr. Venizelos, former premier of Greece, and prominent European diplomat, shows that he looks a good deal like George Bernard Shaw. Perhaps the man who took a shot at Mr. Venizelos lately may simply have been a joke-weary soul who got into trouble through an error in identity.

It was not at the eleventh hour, but more exactly speaking, at ten-thirty at night, that the Senate passed the National Industry Recovery Bill, by a vote of 57 to 24. An analysis of the provisions of the measure would fill more space than can be allotted to it here. It is sufficient to state that the President is authorized to establish a code of fair competition for any line of business, and that such business may be carried on only under federal

license. The interest in the act centers less in its exact terms than in the possibilities of its application and enforcement. Such matters as the control of the grade of a product, hours of labor, price, and shop conditions do not appear to be beyond its contemplation. What the Senate disposed of almost as a matter of routine on a hot June night in 1933, may be looked back upon as the most important piece of legislation of the decade, of the century, or even the entire history of legislative enactment in America.

Members of the Morgan firm are serving as directors in more than eighty-five corporations. The unemployment fog still hangs in the valleys, but the mountain tops seem to be reasonably clear.

It seems as though the chief business of the World Economic Conference was to persuade the United States that it would have to accept ten per cent or nothing.

There is a grim sternness to be read between the lines of the account of a plane crash at Chicago, which took a toll of seven lives. Man covers acres of ground with exhibition buildings to show what he has accomplished, but the elements sprinkle them with air plane wreckage as a none too gentle reminder that he still has something to learn.

Mr. Hitler is enforcing his extreme nationalism in Munich in a way that is not altogether acceptable to the Bavarians. When Bismark unified the German states, Bavaria had least

to gain, and the hold of the German Empire on Bavaria is perhaps weaker than its grip on most of the other constituent states. If Bavaria should take it into its head to stage a walk-out, the united fatherland would have a real problem on its hands. That such an action would not lack external support is obvious. It is an unfavorable comment on Mr. Hitler's statesmanship that he did not prepare a mild and much-diluted prescription for South Germany.

OLD-TIME COWHANDS OF CROWELL IN CONTESTS

Crowell, Texas, June 21.—Crowell, which in the middle nineties was headquarters for a number of big cow outfits operating in Foard and adjoining counties, will have a delegation of old cowhands at the Texas Cowboy Reunion in Stamford July 3, 4, and 5.

Heading the delegation will be J. H. (Jimmie) Olds, former R 2 cowhand and later boss of the same company's S T V outfit in Foard County. Olds was noted for his skill with a rope and his ability to handle wild cattle in the cedar brakes that lay in the S T V range.

He roped in reunions and cowboy contests at Quanah, Seymour and Haskell 35 years ago. He will rope in the oldtimers calf

roping contest at Stamford this year, where he will meet and renew acquaintances with J. Ellison Carroll against whom he roped in the earlier contests.

Another oldtimer who expects to attend is Bud Harrell, 75, who has been a cowboy since he was thirteen years old, and won a prize recently in a saddle horse contest at Crowell.

LAST CONOCO PROGRAM OF SEASON WEDNESDAY

The summer yacht races on Grand Lake, Colorado, where it is more than a mile above sea level, hold a decided appeal for Carveth Wells, Continental Oil Company radio entertainer who on Wednesday, June 28, will devote his last broadcast of the season to a second description of the Columbine state.

Among other Colorado scenes which the famous globetrotter considers phenomenal are the mountain sunsets, the stone formations in the Garden of the Gods near Colorado Springs, Yampa canyon, the Great Sand Dunes in the San Luis valley, and Carbon Mountain, the peak that is shaking itself to pieces.

"Tourists who would like to see a real old fashioned gold rush should go up into the mountains near Canyon City," says Wells. "Hundreds of excited people are busy panning the precious yellow metal there right now."

The Conoco program may be heard by local listeners who tune in on stations WFAA or WOAI Wednesday night at 8:30 o'clock.

YOUR CHILD PROBABLY BEHAVES LIKE YOU DO

AUSTIN, Texas, June 13.—According to the State Press of Health, a child's habits are responsible, in a large measure, for its mental actions in later life. A child of five or six years may have a bad temper. He can be taught as he grows older, to exercise self control so that it will not be often manifested. It would be better for him though if he had acquired a good temper instead of a bad one.

Now is understood better than before the enduring influence of habits that begin in the earliest years of life, in the nursery, or even in the cradle. In the young child, as a result of habit, certain types of behavior become established.

Perhaps the child had learned while yet an infant, that he could get what he wanted if he cried long and loud enough. Perhaps he had learned, when a little older, that bad behavior, as tantrums, screaming, rolling on the floor, or sulking, brought him what he wanted after his request had been refused or ignored. If he had this experience once you may be sure that he would repeat the action the next time the occasion arose. If he found that such actions did not bring the desired results he would not try it again.

Other behavior habits, good and bad, are acquired from imitating

older children and adults. In this way many likes and dislikes, tastes and ambitions which in later years become crystallized into character habits have their beginning. Calmness and poise, as well as nervous and panicky behavior in the presence of an emergency, are nothing more than behavior habits established by imitation and made permanent by reputation. The elders are responsible far more than they realize for the conduct of the child in the family. In this we see a new meaning of the old adage, "As the twig is bent the tree is inclined."

LOYAL WORKERS UNION

Free Auction—
(Continued From Page One)

from other parts of the county. The "New Deal" Dollar Day, with its Let's Swap, Free Auction and Merchants' Bargain Events, offers a real motive for coming to Clarendon on that day. And so Clarendon invites you to attend the "New Deal" Dollar Day. If you do not want to swap anything, to auction off anything, or buy any bargains, come and visit with your friends. You may be sure that you will see most of them that day.

Auction Lot Location
All animals and articles for either "swapping" or auction should be taken to the lot across the street south from the Clarendon Grain Company's elevator, and north of the Talley Super-Service Station. They may be brought to the location as early Saturday morning as may be desired.
The Auction Sale will be cried by Claude B. Gamblin, an experienced auctioneer. He will offer anything put up, "from knitting needles to an entire outfit of household furniture or farming tools," singly or in groups as desired. As already mentioned, no fee or commission of any kind will be charged.

GOLDSTON NEWS
(By Mrs. G. R. Grant)

Rev. Reavis preached Sunday morning and night. There was very good attendance at Sunday School. It was decided to have a Sunday school picnic some time in the near future.

We are still having dry, windy weather. A good rain would be very acceptable.

Mr. and Mrs. Floyd Shannon and family of Martin visited with Mr. and Mrs. O. G. McDonald last Sunday and attended Sunday school.

Miss Lola Manis of Hedley is visiting with Mr. and Mrs. Nelson Seago.

Mr. and Mrs. Gorman of Clarendon who had their house and contents burned last week are staying with the lady's parents, Mr. and Mrs. Stegall at the Country Club.

Mr. and Mrs. Ernest Stevens and little daughter of near Clarendon, Mr. and Mrs. Clyde Hudson, Mr. and Mrs. Postayne Elmore, of this place, and Mr. and Mrs. Warren Bray and little son of Amarillo visited with Mr. and Mrs. Grant last Sunday.

Perry Seago of Waco, came in Sunday to visit with relatives and friends.

Mr. and Mrs. Hahn of Quitaque visited with relatives here over the week-end.

Mrs. G. R. Grant spent the week-end with her daughter, Mr. and Mrs. Warren Bray of Amarillo, bringing her home Sunday.

Mr. and Mrs. Nixon's little boy is right sick. We hope he soon recovers.

R. V. Hatley is working in the Hill Mixon store this week.

The Mothers Club of Clarendon gave Mrs. Gorman a nice shower Friday afternoon at her mother's home.

INSURANCE CASE TRIED AT AMARILLO THIS WEEK

Chas Baldwin, of Lamesa, was in Clarendon Monday on his way to Amarillo to attend Federal court. His suit against the U. S. Government for payment of life insurance on the death of his son, Bernie, was heard there Tuesday and Wednesday. No decision had been reported here today.

Witnesses from Clarendon included Mr. and Mrs. W. T. Hayter, Mr. and Mrs. Buel Sanford, W. W. Taylor, S. W. Lowe, Joe Goldston, Allen Bryan and Carl Parsons.
