Plans Complete For City Flood Control DONLEY AND HALL COUNTIES JOIN IN MOVE FOR SOUTH HIGHWAY

U. S. TRANSIENT CAMP TO DO WORK

OLD DENVER HOTEL PROP- ERTY SECURED FOR HOUSING WORKERS HERE

Mayor J. W. Martin and members of the city commission see the final solution of Clarendon's flood control problem, as plans culminate for the allocation of from 100 to 200 workers by the U. S. transient bureau, to do the terracing and build retention dams in the drainage areas South and West of town.

Engineers from the parks bureau and the Fort Worth & Denver railroad will meet here Friday afternoon and Saturday for a preliminary conference on the engineering problems of the project, and all work will be under the direction of competent men from these organizations, the latter being committed to the solution of the problem as the railroad has also been a sufferer from recurrent floods. Engineer Alexander from the parks service and Mr. Stainer of the railroad will be in consultation on the plans.

The city commission has had the help of the chamber of commerce and local citizens in working out the plans for the work, and this week received the assurance of W. R. Bowden, federal transient bureau director in Amarillo that his department was ready to send the men here for doing the work and the first contingent is expected to arrive next week to build the bunks and prepare the old Denver Hotel for occupancy.

Besides the main objective of prevention of disastrous floods here in Clarendon as experienced on September 1st, this year, the locating of the camp here will be equivalent to a small factory, since the food and clothing will be purchased here and the small sum of personal spending money furnished the workers will also add to local sales totals.

The city will not be out anything for labor costs to the federal workers, merely furnished the housing, transportation to and from work, supervision and the plans of the project. All land owners in the drainage area have signified their co-operation in having their land terraced and small earthen dams constructed so that storm waters will be retarded to equal the capacity of the concrete drainage ditch through the city.

Engineering will be left to the engineers and only general plans and methods are known of the details to be employed for control of the menacing flood waters.

It is estimated that the completion of the flood control project here will require from one to three years and services of the bureau workers are assured for duration of the work. Drainage of Clarendon Lake may also be included after the preventive construction is finished.

Parking of the drainage ravines through the city will also have attention at the hands of a landscape engineer as a collateral project.

Clarendon leaders express themselves as most fortunate in being able to get a flood control and parking project estimated from \$50,000 to \$100,000 at no appreciable cost to the taxpayers, at a time when no tax money is available.

LIONS CLUB IN SHORT SESSION

PRESS OF "BUSINESS" ON LAST DAY OF WORLD'S SERIES GENERAL.

By a very strange coincidence every member of the Clarendon Lions Club had very pressing "business" Tuesday noon and when President Patman found himself in the same predicament, he agreed to a short session. Coming on Tuesday as did the last game of the world's series baseball classic between St. Louis and Detroit, the coincidence was even more striking.

The Lions showed their interest in the Cardinal-Tiger battle when roll call came and each member was asked to declare which team he was backing, with a result of 26-12 victory for the Cardinals, or "Dizzy Dean," as one Lion expressed it. President Patman announced a

DONLEY COUNTY MEN AT- TEND HIGHWAY PARLEY AT PLAINVIEW FRIDAY.

Donley County was represented at the highway meeting called at Plainview last Friday to discuss the need for connected highways in the Panhandle, by County Judge S. W. Lowe, G. L. Boykin, secretary-manager of the local chamber of commerce, Tom F. Connally, city commissioner, and Homer Mulkey of the highway committee of the local organization.

The meeting developed into a warm session when an attack on Judge W. R. Ely, highway commissioner of Texas, became apparent, and lasted far into the afternoon. Tom F. Connally of this city was a member of the resolutions committee and participated in the battle in a majority report asking for the reappointment of Ely, urging the new governor to name a West Texas man if he does not reappoint Ely, and making a plea for the early paving of gaps in this section. A minority report asking the new governor to appoint a Panhandle man to the post, was lost. The meeting enjoyed a parliamentary battle with the victory going to the friends of Ely on every count.

Hallowe'en Show At College October 30th

An event of sparkling mirth, and Hallowe'en fun making, will be staged Tuesday, October 30, when the Clarendon Junior College Stunt Show and Carnival is presented.

Side shows will feature a fat lady, Spark Plug the famous Barney Google race horse, Alice the Goon—a person or animal—of unnatural features, and many others too numerous to mention. There will be stunts to delight the grown-ups as well as the kiddies.

A queen is to be elected to reign over the carnival. Nominations for queen cost twenty-five cents, and with it the nominee gets 25 votes. Other votes cost 1 cent each. Nominations close at noon Friday, October 12. The contest closes at 8 p. m. October 30. The coronation will be held the same evening at 9:45, with the runner-ups in the contest holding places as maids of honor. The contest for queen is open to all college and high school senior girls.

The public is invited to this gala event. At press time the following had been nominated as queens: Misses Frances Fowler, Callie Walters, Wanda Mayfield, Dorothy Powell, Frances Sanford, Viola Barker.

Mr. George Ryan returned Saturday from Nogal, New Mexico where he spent the summer.

meeting of the group at Pampa Thursday night and plans are in the making for the Clarendon club to have a good representation there. District Governor Pitts will be on hand for the group meeting.

Tuesday night, October 30th, was announced as the date of the Annual Charter Night Anniversary of the local club, which will be Ladies Night, according to the usual plan.

Mrs. J. Perry King, wife of Lion Perry King, and Mrs. Joe D. Garland of Cooper, were guests of the day. Mrs. Garland is conducting classes in the Bible Training School at the Baptist church this week.

SIMILAR CORN-HOG AAA- PROGRAM FAVORED FOR 1935

Last Saturday at the Donley County Courthouse, county agent T. R. Broun met with the 1934 signers of corn-hog contracts, for the purpose of the signers expressing themselves on a plan for 1935 of the corn-hog section of the AAA.

After numerous discussions on the subject a vote was taken, with the result being about 98 percent favor of a program for 1935 similar to that of 1934. The signers expressed themselves as well pleased with the aid given them, and the result of the program as sponsored and worked out by the AAA.

The results of this meeting were sent to the AAA headquarters, where the general results of meetings held all over the United States will be made known as soon as tabulated.

BRONCS MEET MIAMI FRIDAY

FIRST OF THREE CONFER- ENCE GAMES TO BE PLAYED HERE.

When the Miami football players invade the Bronchos here Friday, both teams will have the benefit of practices held for the past two weeks instead of regularly scheduled games.

Miami as well as Clarendon took a holiday last Friday, in playing, other than inter-team scrimmages. This game will be a conference game and is expected to attract unusual attention, as it is the first of the three conference games the Bronchos will play this year. The second one will be held at McLean, and the third one will be with LeFors here.

1911 VIEW ZEPHYR HERE SATURDAY

LARGEST CROWD IN YEARS HERE SATURDAY TO SEE TRAIN ON NATION TOUR.

One of the largest crowds to gather in Clarendon in several years was here Saturday to view the "Zephyr", streamlined train of the Burlington System which is making a trip from California to Galveston, which stayed here from 3:30 to 4:30 in the afternoon.

This great example of engineering, came into Clarendon, glistening in the bright sunlight, and under the guiding hand of Jack Ford, engineer of 40 years experience, of Aurora, Ill. Ford has the distinction of being the only man to pilot a train from coast to coast, having done this on its trip to California.

Over 8,000 saw the train in Amarillo with thousands being left in line when it pulled out on its trip toward the Gulf. More than 1,400 passed through it in Claude, 1911 at Clarendon with hundreds failing to have the privilege of passing through. It rolled on to Memphis where the Memphis High School band greeted it, and 2,292 passed through and hundreds were left in line when the one hour was up.

Officials on the train were W. E. Fuller, Chicago, assistant to the president of the Burlington system, who was in charge of the train; Gen. John A. Hulien, Vice President Ft. W. & D.; D. Farrington, Ft. Worth, general manager of the Ft. W. & D.; L. M. Hogsett, Ft. Worth, general freight agent; F. D. Daggett, Ft. Worth, general passenger agent; Judge Barwise, Ft. Worth, general solicitor; S. A. Covington, Wichita Falls, general superintendent; J. W. Mode, Amarillo, superintendent and John Pfeiffer, Childress, superintendent of motive powers; Frank Rhoades, engineer-pilot; Paul Fowler, conductor and Harry DeFoe, brakeman comprised the crew.

Homer Estlack and Sam Braswell Jr., boarded the train at Amarillo for a ride to Clarendon. Those getting on at Claude were: Mayor J. W. Martin, Judge Sam W. Lowe, Dr. Oscar Jenkins, Dr. T. W. Ellis, W. H. Patrick, G. L. Boykin and two sons, W. P. Cagle and Jim Morris.

Those boarding the "Zephyr" at Clarendon and riding to Memphis were: Dr. and Mrs. B. L. Jenkins, Mr. and Mrs. Clinton Henry, Odos Caraway and daughter Miss Bettie, Arthur Chase and son Arthur Jr., D. F. Wadsworth, J. H. Howze, H. Mulkey, B. P. Brents, Frank A. White, Tom Connally and Judge J. R. Porter of Clarendon; Kenneth Fink of Childress; Mr. Foxall, Dr. Dickey, Dr. Belew, Dr. Wilson and son Dr. Wilson of Memphis; Mr. and Mrs. W. E. Hodges and two children of Dalhart.

Mr. Hodges and family arrived in Amarillo too late for boarding the train there so drove to Clarendon where he caught it.

The "Zephyr" was not scheduled to stop in Hedley, but nevertheless there were several hundred persons there lined up on both sides of the right-of-way to see the stainless-steel train as it slowed down in Hedley, giving the hundreds a good view of it in motion.

The passengers ride in complete comfort, with the outside noises being barred from the coaches, by the sealed windows, enjoying the radio as the miles slip underneath the wheels. If one wishes more comfort, one may use the semi-reclining position of the seats. The air-conditioned coaches keep the passengers in splendid comfort in contrast to an outside blistering heat. After making a test speed run

Fire Wednesday Night 2nd In Week

A house in the southeastern part of the city belonging to A. J. Carter of Hartford, Arkansas, was practically destroyed by fire about 8:45 Wednesday night. The home was vacant, and it is understood Carter had \$1000. insurance on the building. The fire had gained headway when the alarm was given and the fire department could do little work toward saving the house.

CENTENNIAL IS THEME AT PAMPA

CLARENDON GROUP AT- TENDS BANQUET AT PAMPA TUESDAY.

The junior chamber of commerce at Pampa was host Tuesday evening to Centennial leaders of the Panhandle at a banquet and program which included addresses by Judge John Sturgeon, Hon. Ray H. Nichols, Vernon, representing the Texas Centennial Commission, and a one-act play "Introduction To A Sacrifice," based upon actual incidents in the life of Stephen F. Austin, and written by a Pampa author.

The banquet was served in the basement of the Methodist Church and Judge Ivy Duncan served as toastmaster. The meeting passed a resolution asking the legislature to pass a \$5,000,000 appropriation for the Texas Centennial, and other resolutions urging each community in the Panhandle section to stir interest in the movement by Pre-Centennial celebrations of their own, pledging co-operation to the Pampa Pre-Centennial celebration, and a hearty vote of thanks to the Pampa organization for the hospitality of the evening.

Those attending from Clarendon were: Mrs. C. A. Burton, chairman of the Donley County Centennial advisory board, Mr. A. T. Cole and Sam M. Braswell members, and Mrs. Braswell.

SURVEY ON NO. 88 SOUTH IS PLANNED

SHORT ROUTE CLARENDON TO TURKEY IS OBJECTIVE OF MOVEMENT.

Following a joint meeting of the Donley-Hall County commissioners' court in Memphis a few days ago, plans are now under way to secure the preliminary survey of the much talked-of short route from Clarendon South to Turkey, with the ultimate aim of Highway 88 and Highway 18 being joined for a great national highway from Kansas to Del Rio and Mexico.

Tuesday the Donley County court agreed to allow \$150 for the preliminary survey provided Clarendon would raise the other \$150, making the \$300 charged to Donley County for its part, Hall County guaranteeing the larger part of the expense. The \$150 from this county must come entirely from Precinct No. 2, road funds.

Clarendon merchants, who have long clamored for this road, will be asked by the chamber of commerce to contribute the \$150 needed for this first necessary step before the highway department will designate the highway, which must be done before the state will consider paving the route. Local committees will see the business men here at once, and already some volunteer subscriptions have been made.

Cannery Establishes Week Record Here

Processing in the Donley County Cannery increased last week to 3675 cans which is a total increase of 430 cans over the previous week.

Since storage space in the cannery is limited, producers are requested to call for the products on the date assigned to them by the supervisor at the time the producer's agreement is made. All producers have copies of these agreements so there should be no conflict of dates. They are also requested not to ask for agreements by telephone since they will not be granted.

The Texas Relief Commission has spent approximately \$800.00 for equipment installed in the cannery and Donley County has spent more than \$400.00. The Relief Commission is furnishing funds for the labor and the county is paying the utility costs. No additional funds are available from either source and they are in need of cup towels for the cannery. If there are individuals who can donate not more than one cup towel each, please send or present them to Mrs. J. M. Acord at the cannery. All donations will be greatly appreciated and will aid materially in keeping the work in the cannery up to its present standards.

ARISTOCRACY OF LABOR A NATIONAL MENACE

Discussing the problems of labor and its renewed demand for a full week's pay for thirty hours work, as one of the greatest barriers to economic recovery constituting a menace to the social order, Peter Molyneux aptly says in The Texas Weekly:

"Chronic unemployment as a social menace is no new idea to readers of these columns. It goes without saying that we agree heartily with President-Roosevelt when he says: "Demoralization caused by vast unemployment is our greatest extravagance. Morally, it is the greatest menace to our social order." And we are glad to have the President declare that "we must make it a national principle that we will not tolerate a large army of unemployed and that we will arrange our national economy to end our present unemployment as soon as we can and then to take wise measures against its return." We suspect that among the "some people" who have tried to tell the President that we must make up our minds that for the future we shall have millions of unemployed permanently there are members of his own official family. For some of his administrative lieutenants have been trying to tell that to the American people. However, we sincerely hope that this declaration of the President's is more than a mere expression of purpose, for something more than that is needed. And the first thing that is needed is to get rid, once and for all of the nonsense about removing the menace of unemployment by creating an aristocracy of labor, working only thirty hours a week at high wages, and then "protecting" it against "foreign competition" with high tariff walls, embargoes, and other trade barriers. That is the surest plan we know to perpetuate "vast unemployment" and to make it chronic. It is the surest way we know also to foster discontent and promote extreme radicalism—to convert the army of unemployment into a very active menace to our social order. The counsels of Secretary Hull should have more and more weight and those of Miss Perkins less and less. Also it might help to fish the Democratic platform out of the waste-basket."

ANOTHER WAY TO HONOR CENTENNIAL

What we would consider one of the most profitable ways of celebrating the Texas Centennial would be to lay greater stress on the use of good, clear, classic English in conversation, press and public address.

No one can read the documents of the founders of Texas without being impressed with the purity, clarity and elegance of the language used by Austin, Houston, Burnett, Lamar, Wharton and Jones. Few of these men had college training, but by the careful training in the log schoolhouse, and long hours of painstaking study by the light of a pine-knot these leaders of a crude day and generation set a high standard of simple elegance in expression that deserves our profound honor and respect, yea, more-over, our emulation.

If in our schools, our news columns, our pulpits and public forums "Centennial English" might be used, we would honor ourselves as we honor the founders of this great state. Our thoughts would be better expressed and our communication purged of much verbal and printed trash.

Let us honor the Centennial by the use of purer, clearer English. It is another and a more personal way to celebrate the occasion.

THE HIGHWAY—THE CAR—THE DRIVER

When you take your car on streets or highways, three definite factors are involved. First, the road. Second the car. Third, the human element—yourself.

Practically every automobile accident can be traced to one of these three factors. And the third is infinitely the more important. Highway engineers have done their part to make driving safer—they have given us model highways, with scientifically constructed turns and the safest of surfaces. Automobile development in safer bodies, brakes, steering, lights and tires have been nothing short of sensational.

For every accident that can be blamed on the road or the automobile, a dozen can be blamed on the driver. It is an established fact that the bulk of accidents occur on good, straight highways in ordinary weather, and involve cars whose mechanical condition is adequate. Apparently, if a road and a car are produced which make it safe to drive ten miles an hour faster than in the past, a legion of drivers will at once start driving twenty miles faster—and the inevitable result is a mounting accident toll.

The present year is witnessing a tremendous increase in accidents over 1933—if the trend continues a new high in fatalities may be established. The cure is knowledge that tells you how to drive under all conditions, and a sense of the responsibility you owe to all who use the public highways. If every motorist would start an individual safety campaign of his own the automobile accident record would go into a tailspin.

SMALL HOMES NEEDED

There are two crying needs in this county. One is particularly the problem of the towns and the other applies to both towns and rural areas. During the last few months there have been a score or more of persons in this office inquiring for a small modern house. Most houses are too large for the average salaried man. These larger houses were built in every country town a few years ago when building costs were less. The smaller houses built at that time were largely of cheaper construction and often were not, and have not since been made modern. If rents ever reach a point where they will pay the landlord even a small return on his investment, there should be a spurge of modernizing of small houses and the remodeling of larger houses into compact, pliable apartments. One must remember that an automobile, radio, iceless refrigerator and a few other modern inventions are a necessary part of the salaried man's household equipment. He cannot afford a large home. Further, and mighty significant, we believe, there are more and more salaried men coming to live in rural centers like St. Johns. They like the environment. They believe it is a wholesome and healthy place to rear and educate their children. They tell us they have more real friends and more real enjoyment in smaller cities. They mention our schools, our hospital, our golf course the park and the reasonable prices charged by merchants. This we believe is one of the very outstanding needs—more small, modern living quarters for small families.—Republican-News, St. Johns, Mich.

LIBRARY NOTES (By Mrs. C. A. Burton)

Listen to this, written by Richard de Berry in 1344, more than a hundred years before the invention of printing: 'Books—these are the masters who instruct us without rods and ferules, without hard words and anger, without clothes and money. If you approach them, they are not asleep; if investigating you interrogate them, they conceal nothing; if you mistake them, they never grumble; if you are ignorant, they can not laugh at you. The library, therefore, of wisdom is more precious than all riches and nothing that can be wished for is worthy to be compared with it. Whoever therefore acknowledges himself to be a zealous follower of truth, of happiness, of wisdom, of sincere, or even of faith, must of necessity make himself a lover of books.' Isn't that splendid?

RETAIL CODE FORBIDS ALL GAMBLING SCHEMES

Washington... Lotteries, guessing contests, and similar trade-promotional "schemes of chance" have been outlawed in the retail trade by a code amendment effective October 1. Approval of the amendment, which was submitted by the Code Authority, was announced by the National Recovery Administration.

The intent of the amendment is not to prevent a merchant from inviting the public to take part in legitimate contests in which merit or skill would be the determining factor. The purpose is to eliminate the gambling element.

The addition to the code provides that when a contest is held the rules shall be clearly defined and adhered to; it shall be judged by competent and disinterested persons; and none of the employees of the establishment sponsoring the contest, nor members of their families, shall enter the competition.

JOAN CRAWFORD MAKES MOST OF EXCITING ROLE

The many fans of Joan Crawford who look forward with anticipation to her every film appearance, will not be disappointed in the star's new Metro-Goldwyn-Mayer picture "Sadie McKee," playing October 15 and 16 at the Pastime Theatre.

The story by Vina Delmar, is ideally suited to the Crawford talents, and gives the lovely Joan every opportunity for a display of dramatic and emotional fireworks.

Joan is seen as Sadie McKee, daughter of a cook in a wealthy household but ambitious to improve her status in life and making a valiant effort to claim the happiness which she firmly believes is every girl's due.

Her resolution takes her to New York where she finds that the life of a pretty girl trying to get ahead, is not exactly a "bed of roses." Franchot Tone, Gene Raymond and Edward Arnold are three men who play a prominent part in her subsequent career.

"No More Dynamite for Me!"

And that's What YOU would Say, After Making the "Liquid Test" Described Here

DAVID H. WADSWORTH

Cold Springs, Kentucky, discovered the value of a liquid laxative about three years ago, and would never use violence again in relieving a constipated condition.

If, by making one little change, you could relieve a condition of sluggishness within 24 hours, and feel about 100% better—would you do it?

David Wadsworth did. You can do the same. All that is necessary is to get your bowels in the right condition. But you can't do that by doing them violence.

Doctors and hospitals use liquid laxatives. They've seen the damage sometimes done by highly concentrated drugs in the form of pills or tablets! They know that a properly made liquid laxative containing senna (a natural laxative) does not do this harm. And they use a liquid laxative to relieve the bowels, because the dose can be easily regulated.

To Relieve Bowels

Constipated or sluggish bowels can never be corrected with violent purges. They can be safely relieved with Dr. Caldwell's Syrup Pepsin without forming the laxative habit.

Dr. Caldwell's Syrup Pepsin is an approved liquid laxative made from fine herbs, pure pepsin, senna and cascara. It is most agreeable to take. The comfortable bowel movement from Syrup Pepsin is a joyful relief

from the violent action of strong mineral drugs!

If you are a victim of "sluggish bowels"; an occasional sufferer from constipation, here's the secret of prompt and safe relief until nature restores your regularity. Use a liquid laxative.

Start tonight with Syrup Pepsin. If necessary to repeat the dose use less each day, until the bowels are moving regularly and thoroughly without any help at all.

If there is an occasional return of the trouble, Syrup Pepsin will comfort and relieve you again, as easily as it did the first time you ever took it.

Ask any druggist for a bottle of Dr. Caldwell's Syrup Pepsin, and make the "liquid test."

pers Tuesday. Mr. and Mrs. Heckel Starks, Mr. and Mrs. Millard Starks, Mr. and Mrs. Sam Roberts were guests in the Neal Bogard home of Hudgins, Monday night. "42" was enjoyed until a late hour.

PONCA SALESMAN ROBBED TUESDAY

PONCA WHOLESALE DRIVER LOSES CASH AND MERCHANDISE NEAR HEDLEY

J. P. Walker, of Childress, salesman of a Ponca Wholesale Mercantile Co., truck reported to the Donley County sheriff's office Tuesday afternoon the holdup and robbery of his person and truck of valuable merchandise, which occurred about three o'clock Tuesday afternoon a few miles east of Hedley.

Just as Walker was driving his truck over a hill, on his way toward Hedley, a man driving a 1934 Chevrolet coupe, drove up by the side of the truck and demanding him to stop. Just as the demand was made the highwayman shot at the truck with a rifle, the bullet entering the cab just above Walker's head, he stated.

Walker immediately came to a stop and while the robber held a pistol on him, was forced to load into the car 5 boxes of candy, 3 cases of cigarettes, 25 boxes of cigars, and 3 boxes of chewing gum. Besides the merchandise the robber relieved Walker of a 21 jewel Elgin watch and about \$35.00 in currency and silver, according to Walker's statement made to a News reporter.

The robber intended locking Walker into the rear end of the truck but changed his mind when Walker pleaded with him not to do so. Instead, the highwayman did not lock it but

RELIEF ROLLS TO BE RE-CHECKED

EVERY CASE NOT CLEARLY ENTITLED TO RELIEF TO BE DROPPED.

Austin, Oct. 9.—Calling upon county administrators for a complete recheck of relief rolls, State Relief Director Adam R. Johnson declared today that "we must drop from the rolls every case not clearly entitled to relief before winter comes. The exhausted condition of our funds makes it essential that we pare our rolls so that we may adequately care for those in dire need during the winter months."

To county administrators, Johnson quoted the following excerpts from a letter from Harry L. Hopkins, federal emergency relief administrator:

"I know that you will agree that it is imperative that relief rolls in your state be examined at this time to remove therefrom any persons not actually in need. A complete recheck of your relief families is possible now, and it should be made before entering upon the heavier period of the late fall and winter. I will appreciate your cooperation in having this review made at this time."

"There have been some reports reach this office which would indicate that a few families are receiving relief wherein the head of the family is employed on full time. I wish to advise you that it is contrary to our policy to supplement the wages of full time employes with relief funds."

In line with this communication, Johnson instructed administrators to "scrutinize relief rolls most carefully, reinvestigate where possible, and weed out all of those ineligible. Some counties in this respect are in excellent shape, but there are a number where the relief load is out of proportion, and immediate steps must be taken to cut the load in these counties. Administrators can ascertain whether the load is out of line by comparing it with the population of their counties."

The state director also sent a questionnaire to counties seeking to determine the number of families and individuals removed

Sloan Baker left Wednesday for Austin, where he will transact business incident with the county superintendent's office.

Mrs. T. G. Stargel and daughter, Jean, of Amarillo spent Tuesday and Wednesday in Clarendon visiting Mrs. Stargel's mother, Mrs. G. W. Antrobus.

Weldon Jolly, who is editor of the Whittenburg Phillips 66 News, was a Clarendon visitor Monday.

Mr. and Mrs. H. B. Lovett and Miss Velma Brown of Pampa attended the Les Beaux Arts Flower show Saturday.

Mr. and Mrs. J. D. Swift, and two children, returned Monday from a visit with relatives in Texarkana and Linden.

from rolls due to placement of workers in cotton fields.

Johnson said he was interested to know whether farmers had had difficulty in obtaining cotton pickers. He asserted protests had reached Washington that clients will not leave the relief rolls and go to the cotton fields.

"If that's true, it's a grievous situation and we intend to remedy it. Our relief program was not intended for people who shirk opportunities to make an honest living and we won't stand for such individuals attaching themselves to our relief rolls and chiseling their way into a portion of the funds rightfully intended for honest unfortunates," Johnson declared.

"I already have caused to be inserted in the newspapers in the state an advertisement wherein it was explained that clients refusing to accept jobs at the prevailing wage scale were to be summarily dropped from relief rolls. That message was intended for the entire citizenship of Texas. It is up to our citizens to report to the administrator persons who refuse to work. Clients must accept jobs. If the job is temporary, we'll take them back on the rolls when it ends."

Mrs. W. H. Patrick and John Bugbee returned Sunday after spending ten days in Temple. They also made a trip to Dallas to visit the State Fair before returning to Clarendon.

Mrs. Tom Blasengame returned Friday from a visit in Lawton, Oklahoma. Her little niece, Gayle Holloway, returned with her to spend two weeks with her grandmother, Mrs. Wylie Morris.
