One Dead Five Hurt In Christmas Crash

NEWS WILL AGAIN SPONSOR FUNDS FOR WARM SPRINGS FOUNDATION

TWO CARS COLLIDE WEST OF HEDLEY

DEATH CLAIMS GLENN SIBLEY, FOOTBALL STAR IN EARLY MORNING WRECK

Death claimed Glenn Sibley, 18, Thursday morning at 9 o'clock as the result of a head-on collision early Christmas morning of two automobiles just west of Hedley, in which five others were cut and bruised, as the cars met on top of a hill.

A five-passenger car driven by Sibley, star 1934 Broncho grider and a senior of Clarendon High School, and Henry Rowden, Fred Jackson, Herbert Heatherly and Gordon Heatherly of Clarendon, as passengers collided with a coupe occupied by Charles Bourland of Pampa and Miss Lorraine Patrick of Clarendon.

Sibley received a fracture at the base of his skull and was brought to the Adair Hospital in a serious condition. Attending physicians despaired of his recovery, and Thursday morning he succumbed.

Miss Patrick sustained cuts on the forehead and across the right eye. Hospital attendants stated that the car being equipped with shatter-proof glass doubtless prevented more serious injuries to her.

Bourland escaped injuries, but was badly shaken up from the impact.

Other passengers of the two cars received general cuts and bruises, and will be confined for several days.

According to latest reports the funeral services for Sibley will be held Friday morning at 10 o'clock.

BUSINESS HOUSES CLOSE CHRISTMAS

GENERAL BUSINESS OVER DISTRICT HAS BEEN BETTER THAN PAST YEARS.

The business houses of Clarendon closed shop for Christmas so that the employees could spend Christmas at home or visiting with relatives.

The Post Office which has been a busy place for the past ten days was closed, and only mail which was dispatched to the trains was handled. For the past several years the post office activities during Christmas day have been few. The rule has been to deliver all Christmas packages by Christmas day, then the postmaster and clerks could eat Christmas dinner with their families, a thing which they were unable to do years back.

The three banks also closed for the day. The banks have also been rushed this season, more so than in the past years, due to more monies being spent during the holidays. This has necessitated more bookwork on the part of the employees, and the holiday was one to be enjoyed by those employees.

There was a quietness extending over the business district Christmas day which was understood to mean that the owners of businesses and their clerks were enjoying Christmas day at home with their families or visiting with relatives over different parts of the state. The clerks in the different businesses have been rushed during the holidays and the one day was enjoyed to the utmost by them.

The schools dismissed Friday at noon for the Christmas holidays, and will reconvene January 7.

Mr. and Mrs. Leslie Duerson of Jackboro spent the holidays visiting Mrs. Duerson's father, C. D. Murphy.

Hon. Eugene Worley In City Wednesday

Hon. Eugene Worley, of Shamrock and state representative of this district, was in Clarendon Wednesday visiting among his constituency, preparatory to his departure for Austin where he will be in his place when the new legislature opens the third week in January.

Mr. Worley is enthusiastic over the prospects of a very constructive session of the legislature under the new administration, and announces himself as favoring the election of Calvert over Stevenson for speaker of the house. Governor-Elect Allred has indicated a wish to have Mr. Calvert elected and Allred supporters and many others feel that the new governor should have a friend in the speaker-ship.

Mr. Worley was accompanied here by Vernon Close of Shamrock, one of the famous football stars coming from that family.

Mr. and Mrs. S. A. McCarroll and daughter, Katherine, and Mr. and Mrs. Glenn White of San Angelo were visitors Christmas in the home of Mr. and Mrs. Frank White.

1934 PROGRESS IS SUMMARIZED

CITY AND COUNTY DEVELOPMENT RUNS TO HIGHWAY—FLOOD CONTROL

A summary of developments in and around Clarendon for the year 1934 largely turns one's mind to highways, trade extension and flood control. Some very outstanding developments have been made along those lines during the past year. The first state and federal highway contract to be let in the county was finished last spring with No. 5 from Armstrong County line to Clarendon. At present, contracts for grade and drainage from Clarendon to Hall County have been let and when completed this spring will account for the spending of about \$185,000 on this highway during the past eighteen months.

For a period of ten years, the Clarendon Chamber of Commerce organization has waged a fight for a connected road system through the county. This fight has been waged by working very closely with the county officials, the state, and federal highway authorities, the local Chamber, and its highway committee, leaders in the fight for highways in this county. These officials at present are ready to carry on plans for the completion of highway 88 at an early date, and already funds have been spent to defray expenses for surveying the route from Clarendon to Turkey, to connect with the pavement on highway 18 at that place. The expenses of this was borne jointly with the Chamber of Commerce and precinct 2, Donley County. The highway committee is composed of Sam Braswell, H. Mulkey, and P. B. Gentry at present and in the past has been composed of such highway champions as A. L. Chase, T. D. Nored and J. T. Patman.

Twice during the past season, although the county suffered from a drought, the city of Clarendon was flooded with considerable damage being done to downtown business houses, automobiles, residences and property in general. When the city was visited on September 1st with its worst overflow in history, this organization together with the city commission, immediately made plans to secure a C. C. C. Camp to control the flood waters. After several conferences with

New Ford To Have Showing Saturday

Doss Palmer, local Ford dealer, and salesman John McMahan and Selden Bagby accompanied by M. P. Gentry went to Oklahoma City Wednesday to attend a pre-showing of the new 1935 Ford V-8, and dealers' meeting.

Palmer will bring one of the new Fords back to Clarendon for a display at his show rooms Saturday, December 29, to which the public is invited.

An advertisement in this issue of The News gives more in detail the new 1935 Ford V-8.

TRANSIT CAMP HAS CHRISTMAS TREE

FRUITS AND CANDIES GIVEN BY CITY, VICTROLA BY LIONS, BRINGS JOY.

The local Federal Transit Camp was the recipients of a large box of oranges and one bushel of candy, presented by the City of Clarendon. These gifts were greatly appreciated.

The Camp also received from the Lions Club a Victrola and about one hundred records. These were presented by J. T. Patman, president of the Club.

Besides the local gifts presented the camp, there was a quantity of candy sent here from the Amarillo headquarters for the boys.

The members of the local camp presented to W. M. (Pop) Herndon, camp manager, Christmas morning a lovely and useful pen and pencil set.

Mr. Herndon, in behalf of the camp, is appreciative of the remembrances and asks The News to thank the city officials and the Lions Club for the gifts.

The high esteem in which Mr. Herndon is held by the members of the camp is shown by the lovely gift presented him.

The camp, located in the old Denver Hotel had the dining room all dressed up in the Christmas spirit, with a large Christmas tree adorning the center of the room. All the members participated in the festivities of the season and saw again that "there is a Santa Claus."

A. O. Walker and wife and daughter, Ann Marie, of Amarillo spent Christmas Day with Mrs. Walker's parents, Mr. and Mrs. W. B. Sims of this city.

LITTLE CHANGE IN ELECTIVE OFFICES

OFFICES OF TAX COLLECTOR AND ASSESSOR COMBINED BY LEGISLATIVE ACT.

The elective and appointive offices in Donley County for the coming year will have seven new occupants when office holders are sworn in January 1, 1935.

The new office holders will be: Commissioner's court, Precinct No. 1, John Hermesmeier; No. 2 G. G. Reeves; No. 4, Will Chamberlain; Tax assessor-collector, Joe Bownds, with Glenn Chamberlain as deputy; Justice of the Peace, W. A. Davis, and Rayburn Smith as Public Weigher.

Guy Wright was elected Constable. The other office holders will remain the same, some having won the race they were in by a majority vote, and some by having no opponents.

The deputy force under Guy Pierce as Sheriff will be the same with one exception. Los Hancock, deputy at Skillet, is moving to another county. His successor has not been announced.

The Clarendon News welcomes the new office holders and wishes for them a successful tenure of office.

HEDLEY HIGHWAY STARTED MONDAY

CARLOAD OF MATERIALS ARRIVE THURSDAY FOR McKNIGHT COMPANY

The McKnight Company of Amarillo, contractors of the grading and drainage work to be done on Highway 5 from Clarendon to Hedley started preliminary work Monday.

A car of materials was received in Clarendon today, and intensive work on this project will be under way within a few days, it was announced by G. K. Reading, resident highway engineer, this morning.

The contract of the work from Clarendon to Hedley entails work on 13 miles of roadbed. This is a shortening of the distance to Hedley and the highway will be entirely on the South of the Fort Worth and Denver Railroad.

Department Answers Midnight Fire Call

The Clarendon fire department was called out Tuesday at midnight in answer to an alarm from the apartment of J. A. Warren in the old Wilder Sanitarium building, East of the business section.

Christmas decorations became ignited when his family, returning from a church service, attempted to light a lamp. The flames spread from the decorations to window curtains.

A damage of about \$20.00 was sustained by the curtains and wall paper.

CENTENNIAL COINS AUCTIONED HERE

FIRST TWO HALF-DOLLARS HERE BRING \$16.50 IN SPIRITED BIDDING.

The first two Texas Centennial half-dollars to reach Clarendon were auctioned off Saturday night at the Pastime Theatre after the regular show, by M. L. Putman, local auctioneer.

Sloan Baker, county superintendent, was the highest bidder on the first coin with a bid of \$11.00. H. Mulkey, owner of the Pastime Theatre, was the winner of the second coin with a high bid of \$5.50.

Preceding the auctioning, G. Lester Boykin, representing the local post of the American Legion, explained the purpose of the auctioning off of the coins.

The silver half-dollars are a part of 1,500,000 recently coined under a special act of Congress, to be sold under auspices of the Texas Department of the American Legion to provide funds for a state memorial museum on the campus of the University of Texas.

The coins went on local sale through the First National Bank of Clarendon. The sale price is \$1.00, 50c goes to the memorial fund and 50c goes to the Treasury to pay for the coins.

F. E. Chamberlain and L. T. Skelton returned Saturday from Kansas City and other points in the North, where they have visited and conducted business.

Miss Obie Crabtree, who is teaching school in Memphis, spent the holidays with her mother, Mrs. M. T. Crabtree.

CLYDE PRICE HEAD '35 BIRTHDAY BALL

LOCAL PEOPLE WILL HAVE CHANCE TO PARTICIPATE IN WARM SPRINGS FUND

Clarendon people are again invited to participate in the nationwide contribution to the Warm Springs Foundation for the battle against infantile paralysis, which will be celebrated in the President's birthday, Wednesday, January 30th, 1935.

As in 1934 The Clarendon News will sponsor a free-will contribution from those who do not care to dance at the Birthday Ball, and contributions from fifty cents up will be accepted at The News office until Thursday afternoon, January 31, 1935. Names of contributors will be printed in our issue of February 7th, after the funds have been forwarded to the New York office of the national committee.

The Birthday Ball for the President in Clarendon on January 30th, will be under the direct management of the local Post of the American Legion, with Clyde Price, Post Commander as general chairman, who is already busy with plans for the big event here which will have as its aim, "no profit to anybody" and with all the funds going to the Warm Springs Foundation, as intended.

Under this dual plan, those who dance, and those who have scruples against dancing, will both have opportunity to contribute to this worthy cause which will engage the nation's attention and interest just as it did in 1934.

DUCKETT FAMILY IN HOLIDAY REUNION

OLD SETTLERS OF CHAMBERLAIN GIVEN DINNER BY RELATIVES

Mr. and Mrs. J. H. Duckett of the Chamberlain community enjoyed another happy Christmas with all their children and grandchildren home, with the exception of one son.

The house was decorated carrying out the Christmas colors. The day was begun with rejoicing when the grandchildren presented a program. Standiford; song, "O Little Town of Bethlehem" by Vera Marie Standiford; The Lord's Prayer by Emma Lee Standiford.

Afterwards the many presents on the beautifully decorated tree were distributed. Every one was happy that Santa Claus had remembered them again.

A delicious dinner was enjoyed by the following: Mr. and Mrs. Albert Standiford and children from CeeVee, Mr. and Mrs. John Short and children from Clarendon, Mr. and Mrs. S. L. Tidwell from Plainview, Mr. and Mrs. Leslie Wallace and children from Clarendon, Mr. and Mrs. Leonard Darnell and daughter of Pampa, Grandmother Rowten and J. B. Duckett. HAIL 1935 AND ITS OPPORTUNITIES

Just a few days, now, and 1934 will have passed into history, and facing us will be 1935, a New Year, and with it, New Opportunities.

Many of us will be happy to see 1934 pass, and nearly all of us will welcome the advent of the New Year, and the new opportunities and adventures it will bring.

1934 hasn't been all bad, and yet for most of us 1935 will offer great opportunities for betterment in many ways. During the past year those who had been stubborn about recognizing the depression in its true significance, had another chance to see that even in the trough of financial gloom, most of us still lived at a better level than did our parents three or four decades ago. Some of us began to believe that things weren't so bad as we had gotten to believe—that maybe, after all, we were getting along pretty well—as well as we deserved.

But now, that 1934 is passing, let us prepare to wipe clean the slate of false pride, little follies of living, unwise thoughts, unwise activities, petty jealousies, unworthy hates and all those things which did not contribute to our betterment or happiness, nor to the good of any other person. Let us face the New Year with hope and courage and determination to fight a better fight, to live a balanced life, to be neighborly, to spend wisely, to do a better job, regardless of what worthy job we undertake—to live simply and cheerfully—in harmony with God and man.

Hail to 1935 and its New and Greater Opportunities.

TEXAS NEEDS A DRIVERS LICENSE LAW

For many years The News has been among those who have advocated a drivers' license law for Texas, and for many years we have deplored the legislative neglect which has been the insurmountable obstacle in its attainment.

The new legislature will have an adequate drivers license law presented for its consideration and with greater demand from the people generally, than ever before. Texas is one of the few states in the Union which has no license law for drivers and traffic control in this state has continually deteriorated without this check.

Here of late, since the repeal of the eighteenth amendment, there has been a tremendous increase in accidents and death toll on our highways, and even the "wet" newspapers are admitting that something must be done to make highways safer through saner driving. This cannot be done without a drivers license law. Take a careless driver's driving privilege away from him for sixty days for his first accident, and he will usually reform; if he doesn't then a permanent disbarment from a license to drive will protect the public.

We must have a drivers license law in Texas, and the legislature of 1935 can contribute no more worthy piece of protective legislation to the people of this state.

BRITAIN CURBS GAMBLING

England grows highly moral. Betting in any form has usually been a venial offense in that country. The British have been great patrons of horse races and lottery schemes. Now Parliament forbids the printing, sale or distribution of lottery tickets. It even forbids newspapers to print lottery announcements or lists of prize winners. Only small, innocent lotteries, such as those of churches, clubs and bazaars are permitted. The reason given is that the government wants to keep at home the millions that have been going to Dublin for Irish sweepstakes racing tickets.

There is probably something to that. Ireland has certainly been profiting by this British weakness. But there must be a moral reason too. Responsible Britons, like responsible Americans, want to curb the gambling mania that has swept through all classes during the depression.—Quanah Tribune-Chief.

Just as long as there are men who deep in their hearts have the desire to leave the world a little better place than they found it, just that long will service clubs flourish.

SHELTER BELT AND SOUND JUDGEMENT

Sometime ago Dr. Knapp, president of Texas Technological College at Lubbock, made a strong plea for the shift of the proposed federal shelter belt of trees from the East side of the Panhandle to the Westerly section, on the grounds that Texas' greatest hot wind and drying atmosphere threatened from New Mexico.

The good Doctor might be right but for the existence of the Paloduro Canyon and its recognized effect on the winds and moisture laden cloud formations in this region. Those who have lived in this section longest know to a better advantage the great influence the Canyon has upon currents and moisture in the Panhandle country. They will tell you that the most uniform rainfall is along its Eastern territory for a width of some fifty miles.

With this in mind it is not hard to reason that if the shelter belt is planted in the Western Counties of the Panhandle then the principal benefit will accrue to Eastern New Mexico, while the hot winds of the Southwest Country will continue to bedevil the South Plains as usual and with greater intensity. If the shelter belt is planted as proposed then the rainfall of the Canyon contiguity will increase and be spread West of it by reason of having checked the hot currents from a lower altitude in Oklahoma.

As we see it the only change that might be of benefit at all would be to plant a division of the belt from the North Panhandle down West of the Canyon to a point not further South than Lubbock. This straddling of the Canyon would give the fullest benefit from its rising currents warmer than the protected areas on each side and would increase rainfall on both sides.

If we ask the government to make any changes at all, let's ask for an angular leg of the shelter belt into the South Plains. Let's not ask for a re-location of the belt from the Eastern Panhandle and run the risk of decreased rainfall in both Eastern and Western counties.

HELPING BOYS

"No man stands so straight as when he stoops to help a boy."

With so many million men out of work it is such an easy matter to become careless and pay no attention to boys. Men are doubly busy with affairs of business and trying to figure out how they can live up to their codes. Worrying details occupy one's mind. Yet, all about us, are boys who need help—the help that comes from encouraging words, a helping hand, a little boost. All these helpful things take just a minute of any man's time—and yet they mean so much to a boy.

It does not take long for a boy to grow and develop into a man. It may be that what we say today will have a big influence on what kind of a man he will be. Are we doing the thing that will help the boy? Just a cordial word of greeting in the morning as the boy is on his way to school will frequently give the lad just the needed encouragement for that particular day. Do we do that? Can we truthfully say that we have been the means and channel by which a boy gets inspiration to do better things?

Historic All-America Team Appears Again

Southern colleges take the leadership in the All-America football world this year for the first time. The Collier's team, just announced, is a perpetuation of the original All-America, founded 50 years ago by Walter Camp, famous father of modern football. It consists of: (Ends) Hutson of Alabama and Larson of Minnesota; (Tackles) Lee of Alabama and Reynolds of Stanford; (Guards) Barclay of North Carolina and Bevan of Minnesota; (Center) Shotwell of Pittsburgh; (Quarterback) Grayson of Stanford; (Halfbacks) Wallace of Rice and Boaries of Navy; (Fullback) Lund of Minnesota.

Winning Entry in News-Globe Better Housing Essay Contest

"National Housing Benefits for Texas Homes" was the subject on which Miss Wanda Mayfield, of Clarendon Junior College, wrote the winning essay in the College Class of the Amarillo News-Globe Better Housing Essay Contest, which closed last week.

Miss Mayfield was awarded a cash prize of \$15 for her efforts.

The winning essay follows:

Although the Texas Plains cities do not have as serious problems concerning crowding, sanitation, and ventilation as northern manufacturing cities, the National Housing Act can certainly be of benefit to our enterprising communities. Farm life plays an important part in the industry of Texas, and it is on the farms that the great need of proper housing is found. The Better Housing program provides generous loans to persons who want to improve their property, and it offers to finance repairs on easy terms with proper security.

Among the important points to be remembered by those who take advantage of these loans to effect improvements of their homes are to buy substantial materials, to carefully plan the repairs, to adapt changes to climate and use, and to consider the family who lives in the house to be improved.

There is no plausible excuse for allowing country homes and their surroundings to show the lack of enterprise. Forcing helpless farmers to occupy filthy, rude shacks appears to be a result of lawlessness indulged in by miserly land-owners. When President Roosevelt in a message to Congress in May said, "Many of our homes are in decadent condition and not fit for human habitation," he accurately portrayed the circumstance of the Texas Plains tenant houses. A surprisingly large number of rural homes do not have modern or sanitary bathrooms, convenient kitchens, good floors, decent paint, or cleanly papered walls. With this opportunity offered the landlords of decrepit farm houses every home on the Plains can be equipped with these necessities. A farm that has only disreputable shacks for its tenants is branded as an unsuccessful business. Not only is the life of the farmer made more pleasant, but the sale value of the property is considerably increased by an attractive, commodious home, completely modern, painted with quality paint, and well roofed.

Painting exteriors, re-shingling, and modernizing of kitchen and bathroom seem to be the jobs that patrons of the Better Housing Act are most eager to begin. In accomplishing the improvements so they will be an asset to the property, it is essential that the best materials obtainable be used. We can only

reach the Utopia of living conditions by laying a dependable foundation—employing only those materials of unquestionable quality applied with expert hands. Materials of indisputable high merit and good labor may cost a little more, but the construction will outlast one of cheap building stock badly handled, and the expense will prove a saving in the end.

In this section of the country where extreme weather conditions exist in the form of high winds, intense summer heat and winter cold, occasional hail, and frequent sandstorms, poor building material and inferior paint are menaces rather than improvements. What is the advantage of re-roofing our homes if, when an unexpected heavy rain or snow falls, the flimsy, inefficient roof gives way or warps so that water reaches the wallpaper? New electric equipment should be installed at this time, but insulation jobs should not be attempted unless materials are of the best and installed by skilled workmen.

In making over the kitchen, modern metals may be used to obtain the utmost convenience. Monel metal inks, table tops, and other kitchen furnishings are inexpensive, and they have been proved wear-worthy over a period of many years. All better materials can now be purchased at reasonable prices, but after a few years the now cheap building stock will cost more than quality materials today. Too, expert laborers can now be hired for small sums, and in furnishing employment to a few worthy men we are doing our part to restore national prosperity under the plan of the NRA.

In renovating homes the various changes to be made must be carefully planned so they will accommodate the individuals of the home. Creating workshops, recreation corners, or nurseries from waste space such as basements and attics can be cleverly adapted to the needs and wishes of the family. Appropriate furnishings will create a child's interest in his room; he will be proud instead of ashamed to invite friends to his home.

Well designed woodwork, built-in bookcases, closets, and cabinets

Now that each of us are endeavoring to rid ourselves of severe cases of Christmas over indulgence, or whatever it was we did that we shouldn't, let's get back to the run of events—namely the coming high school football championship contest this Saturday in Dallas between the colorful Amarillo Golden Sandstorm and the surprisingly powerful Corpus Christi Pirates.

Many believe the Coast eleven carries too much versatility for the Sandies and will win the titular contest, however this writer refuses to join this class of crepe hangers for West Texas' bid for gridiron supremacy. No doubt the Pirates have a fine football machine—perhaps the best ever turned out from the South portion of Texas—it had to be to defeat Greenville's Lions in such an overwhelming manner in Saturday's semi-final, but even so there are a number of facts and reasons which might tend to detract a bit of the power from Corpus Christi which we believe is only superficial.

Greenville lost, 'tis true, by a pretty bad score, but when one considers that two of its all state men of last year's titular eleven and a couple of other regulars were pretty badly crippled and saw only part service in this game, it is not too surprising the outcome was such. Bert Marshall, Greenville's all-state quarterback of '33 and one of the best was badly crippled and failed even to start the game. This in itself, was reason to throw the usual smooth running machine

make rooms more inviting and livable. Repairing the old porch may increase the family's satisfaction in retiring to the porch swing or garden furniture in the evening. Proper outdoor chairs may be purchased with the federal housing loan. Our improvements will have to be thoughtfully planned to accommodate the individual needs and desires of the several households. With these few common sense thoughts in mind, if it will not be difficult for any normal property owner to wisely use his federal loan to the best advantage for himself, his property, and his fellowmen.

of Coach Frnka out of gear, and those things are common in football. You will remember S. M. U. lost to a much inferior Baylor eleven this fall by virtue of the same reason. Corpus just happened to meet the Lions at their lowest point in two years, whereas they were playing at the top even perhaps over their head. When a grid team starts off bad it seems nothing can change the inevitable results. The southerners have one excellent back in Haas, but Amarillo has had no trouble in taking other teams which boast a one-star eleven. The Sandies this season have one of its best balanced clubs in history and we believe in the history of the Interscholastic League. While no one player is basking in the glow of stardom, the entire Black and Gold machine sparkles with a brilliance seldom seen on high school fields. This Haas, fine as he undoubtedly is, is more than probably not so good as White of Lubbock, and this one-man eleven was completely routed by the united power of the Sandstorm.

The charges of Coaches Cherry and Lynch have been brought through a marvelous season and these two mentors deserve the medal for turning out the most amazing coaching job in the state and perhaps the nation. Starting slowly the Sandies have smothered their opponents with the same smooth steady power as the tough games have arrived and passed. Lubbock, Pampa, Ranger, Big Spring and the Masonic Home elevens have all been helpless before the crushing attack of the West Texans and we feel that the same will be true in the Fair Park Stadium this Saturday afternoon.

In disposing of the Masons Saturday, Amarillo turned in one of the most perfect games of straight football we have ever

Mrs. James R. Ware, Jr., of Tacoma, Washington, came in Monday to visit her father, Mr. Rich Bowlin and Mrs. Bowlin also other relatives and friends.

Miss Ava Hefner of Roswell, New Mexico, is here for the holidays, the guest of her parents, Mr. and Mrs. A. O. Hefner.

Mrs. A. E. Tidrow, Mr. and Mrs. Leroy Tidrow, K. C. Reed and three sons, John, Jr., and Tom were Memphis shoppers Saturday.

Mr. and Mrs. A. O. Hefner and son, Lloyd, visited Sunday afternoon with Mr. and Mrs. R. Bowlin.

Ance Burton of Clarendon spent Sunday in the Hefner home.

Mr. and Mrs. E. H. Estlack and daughters will spend the holidays at Clarendon with relatives.

Mr. and Mrs. A. J. Parker spent Christmas with relatives in Paducah.

Never in danger and fortified with two penetrations which were just as good as the three points added later, other than saving the Butler Field tradition, the Sandies played a tight, safe and powerful game against the Masons to beat who we believe was the next best team in the state. A great Sandie forward wall fought evenly with the superb play of Allie White and Robert Cook, two potential all-state tackles, to smother every offensive gesture of the slight but gallant Mason backs. Amarillo will win and all west Texas should be proud of the Golden Sandies.

The West will "take" the East, Alabama will beat Stanford and Temple will win from Tulane.

A LITTLE BIT OF EVERYTHING

By B. Powell.

The Christmas season of 1934 passes with good cheer left at many doors, for which the recipients are thankful, the expressions made in their own modest manners. Some with words and some with tears. But it all means the same.

Thanks may be expressed in many words, in many signs, or tears, but the sincere thanks all mean the same.

The poor families this year were given Christmas gifts of various articles. Some were given food while others were given clothing which was sorely needed.

The different churches contributed to the poor as they have done in years past. This is mighty fine work and the ones responsible are to be complimented.

Clients of the relief rolls were given employment up to as near Christmas as was humanly possible, so that the needy could efficiently provide for their families.

Besides the Christmas season being one of distributing gifts it is also a season for giving thanks. We are all thankful for those who remember us with either gifts or kind words. This writer is very thankful indeed for the many kindnesses extended him during the short time he has been a citizen of Clarendon and Donley County. We think that kind words are to be treasured more than gifts of gold.

During this Christmas season it seems that everyone has been mindful of everyone else. That is a good spirit, and is to be commended. Neighbors get along better when they are mindful of one another's existence, as well as do friends who may live across town from each other.

So let us remember that Christmas ought to be a period of thanksgiving as well as one of remembrance.

Turkey and foods carrying out the red and green scheme were served in this lovely three-course luncheon.

Each member was presented with a lighted candle, and after making a Christmas wish, extinguished the flame. Stories of the celebration of Christmas in various countries furnished entertainment during the luncheon, and the concluding feature was the presentation of the Spanish "Urn of Fate." Simmons-Mimms

Homer F. Simmons and Miss Myrtle Mimms, both of Hedley, were quietly married here Wednesday evening at six-thirty at the Methodist parsonage. The ring ceremony was read by the Pastor, the Reverend E. D. Landreth.

Mrs. Simmons home is in Wellington but for a number of years, she has taught music in the Hedley Schools. The bride is a graduate in music from Southern Methodist University, and the groom is a member of one of the pioneer families of this county, having resided at Hedley all his life.

The couple will be at home in Hedley where Mr. Simmons is engaged in farming.

Longan-Watters

Beautiful in its simplicity was the wedding ceremony which united Harold K. Longan, son of Mr. and Mrs. Pat Longan, and Miss Mary Sue Watters, daughter of John Watters, Saturday evening at eight o'clock in the parlors of the First Christian Church of Amarillo. Dr. Snodgrass, pastor of the church, read the impressive ring ceremony.

The bride was attired in an attractive suit of blue tree-bark crepe with harmonizing accessories of navy. She attended school at Abilene Christian College and at West Texas State Teachers College at Canyon. Mrs. Longan teaches in the Goldston community.

Mr. and Mrs. Clarence Johnson of this city attended the ceremony.

The couple will be at home on the Longan farm.

WINTER SPORTS IN CANADA

WANTLES of purest crystal snow spreading over glen and vale, the smooth sparkling ice surface of rivers and lakes and the joyous tinkling of sleigh-bells remind one that the season for beneficial and enjoyable winter sports is again at hand. Other forms of recreational activities are, for the time being, quite forgotten. The toboggan, ski, skate and sled are taken from their summer store-house and properly conditioned for the season's festivities. Children whose years scarcely

exceed the finger numerals of a hand, youths of teen age, adults of middle life and frequently those whose years are well extended toward the allotted span of life, all join in the merriment of typical Canadian winter sports.

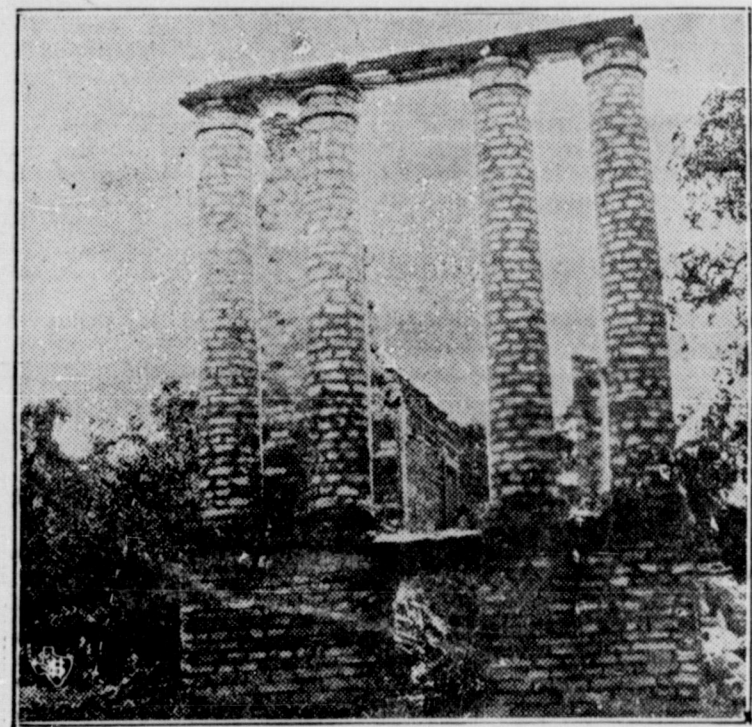

During the winter season every settled area in Canada is as easily accessible by railroad as in the summer and autumn months. Many miles of provincial highways are kept free of snow enabling the motorist to reach cities, towns and villages of international repute as winter sport centres. Nearly everywhere are natural sites for skiing,

snowshoeing and tobogganing. Covered rinks for hockey, skating, and curling are found in cities, towns and many smaller centres, while open-air rinks are legion. Carnival feasts, including bonspiels, toboggan racing, hockey matches, figure skating competitions, ski-jumping contests, snowshoe processions, and firework displays, add greatly to the enjoyment of a Canadian winter vacation.

The National Parks of Canada, Department of the Interior, Ottawa, will gladly supply information pertaining to Canada's winter sport attractions.

TEXAS HISTORY IN THE MAKING

Independence, the "Athens of Texas"

—Think—Talk—Write—Texas Centennial in 1936

Independence, Texas, was once proudly proclaimed and undisputed as the Athens of Texas, because of its grace of culture and refinement, and strength of military and political leadership. Independence flourished for 41 years as the home of Baylor University and Baylor College. In 1886 both schools were moved, and with General Sam Houston gone, old Independence went into ruins. Above is what the visitor sees today—all that is left of the building which once housed the great institution of Baylor University. The Baptist church, attended by Houston, the grave of his wife and son, and the old Houston home stand nearby, but this once proud city is now a mass of ruins. (Texas News Photos.)

Health Department Warns of Influenza

Austin, Texas.—Reports from widely separated parts of Texas to the Texas State Department of Health show that influenza is on the increase in the state. It is expected that by the last of this month over seven hundred cases of this disease will be reported in Texas.

Colds, grippe, influenza, or whatever we may call them are believed to be spread from person to person through discharges from the nose and throat. To protect yourself and others from such diseases, here are some things to be remembered and some precautions to be observed.

1. Influenza is highly infectious. Practically everybody is susceptible to it. No matter how many times you may have had the disease, you may contract it again. Therefore, keep away from people who are sneezing, coughing or sniffing, or who are actively ill with colds, influenza, or pneumonia.
2. Keep away from crowded places.
3. Have your own towel and drinking cup and always wash your hands before eating.
4. Keep yourself as fit as possible, by drinking plenty of water, by eating simple, nourishing food, by some exercise out of doors every day, by dressing according to the weather, by having plenty of sleep in a well-ventilated room, and by keeping the bowels regulated.

If you feel an attack of grippe or influenza—or even of what you may think an ordinary cold

Cotton Program is Announced for 1935

College Station.—All cotton reduction contracts signed in 1934 have been declared effective in 1935 by the Secretary of Agriculture and require a reduction of 25 per cent of the base acreage with optional reduction and payments being made up to 30 per cent, according to information received from Washington by H. H. Williamson, vice-director and state agent for the Extension Service. Rental payments of 3 1-2 cents per pound on the average yield and parity payments of not less than 1 1-4 cents per pound on the farm allotment will be made. New one year contracts will be offered growers who did not sign contracts this year. These are expected to be ready soon so that they can be signed and accepted by March 1.

In recommending this program, C. A. Cobb, chief of the Cotton Production Section of the Agricultural Adjustment Administration, emphasized that the rate of reduction would permit an expansion of about 25 per cent of the acreage planted by contracting producers over the acreage planted in 1934.

J. H. Peden of Houston spent the Christmas holidays with his parents, Mr. and Mrs. D. C. Peden.

Farm Census To Be Taken in January

United States census enumerators will visit every farm and ranch in the Nation during January, 1935, to take the mid-decennial Census of Agriculture. They will make inquiry as to farm ownership, farm acreage, which includes all crop land; all pasture land and all farm woodland; the total value of the farm; acreage and yield of the principal field crops and vegetables; the number of trees and yield of the principal fruits and nuts; number and value of each class of livestock, poultry and eggs, and farm population.

William L. Austin, Director, Bureau of the Census, Department of Commerce, has declared that this is the most significant farm enumeration since the inception of farm statistics in 1840 and he earnestly requests the co-operation of all farmers and ranchers to the end that complete and accurate statistics may be procured and tabulated at the earliest possible moment. The unprecedented destruction of crops and livestock caused by the drouth and the many changes that have occurred in the utilization of land due to the depression make it imperative that the farm statistics be available as soon as possible, if agriculture is to be assisted in going ahead with other industries.

Farmers and ranchers can cooperate by writing immediately to the Bureau of Census, Washington, D. C., for a sample copy of the schedule and prepare themselves to give accurate answers to the questions when the enumerator calls in January.

Mr. and Mrs. Everett Clark of Odessa, Texas, are spending the holidays with her parents, Mr. and Mrs. C. M. Lane.

E. T. and D. B. Pope, members of Hanna-Pope & Co, spent the Christmas holidays in Quanah.

"The Green Pastures" Former Old Timers Sends for The News

The widely discussed, long heralded Pulitzer prize play, "The Green Pastures," will have its Amarillo premiere at the City Auditorium on Saturday, January 5.

Written by Marc Connelly and based on Roark Bradford's amusing southern negro sketches, the renowned dramatic triumph has been running for the past four years since its initial presentation in New York, February 26, 1930. With the exception of two roles which have been vacated by death, "The Green Pastures" still retains its huge Broadway cast headed by Richard B. Harrison who never has missed a single performance in his internationally-famous role of "de Lawd."

Mr. and Mrs. John Sims of Pampa were here during the Christmas holidays with his parents, Mr. and Mrs. John T. Sims.

1934 PROGRESS—

(Continued From Page One)

government officials, Hon. Marvin Jones, and competent engineers, a plan presented itself whereby a federal transient bureau camp could more nearly meet our needs. Accordingly application was made for the camp, briefs were prepared showing flood pictures, and carrying estimates of damages caused by the floods and in due course of time, the camp was established.

Some difficulty has been evidenced in getting the work started, but several of the boys have been working on the drainage ditch through the city, and it has been promised by the bureau officials that they will have enough workers here after the holidays to begin work in earnest on the building of dams and terraces in the watershed. The Chamber has offered its services in any way to help get the work started.

There has been a growing demand among local business houses for some kind of trade campaign for Clarendon. In this connection, a monthly trades day campaign was started last spring and closed with trades day, Monday, December 24th. This committee is composed of Allan Bryan, H. B. Kerbow, H. Mulkey, Rhea Couch and T. D. Nored. The trade territory in every direction from the city has been covered with circulars carrying invitations to the city for trade with local merchants. The campaign closed this month; how successful it has been can be evidenced by local merchants members of the league only.

A most successful summer celebration was held in August when Leonard Stroud presented a three-day rodeo under the auspices of the Chamber of Commerce. The organization only sponsored Stroud's appearance and advertised the show. The success of the show was largely due to the superb showmanship of Stroud, and the management of Dude Gentry, local rodeo hand and committee chairman for the Chamber of Commerce.

Many other activities have claimed the attention of the organization during the year, among which are raising a premium for the first bale of cotton ginned in Clarendon, sponsoring a county exhibit at the tri-state fair, co-operation in some activities with the West Texas Chamber of Commerce, sending a F. F. A. to the state fair, donating a rifle for the first prize in the local invitation golf tournament, purchasing groceries for the Boy Scout trip to the World's Fair, helping to sponsor legislation to raise the price of cotton, sponsored a poultry show, cooperated with other organizations and agencies in the city and county for the welfare of Clarendon and Donley County. Among the organizations and agencies, the Chamber of Commerce has helped when and where it could was the Extension Service and County Agent by providing an office and telephone, the Lions Club, American Legion and Relief Agencies of the county. The president, Mr. Joe Goldston, wishes it said that the organization appreciates the chance to help and do its part in worthwhile projects for Clarendon and Donley County.

CORRECTION IN HOMMELL BROTHERS FIRESTONE AD

In the Annual Home Town Edition of The Clarendon News, a listing on tire prices in Hommell Bros. Firestone ad, was fifteen to twenty percent under the present-day price level, through an error of this newspaper. In getting the copy together a schedule of several months ago got into print instead of the current list which carries a general increase.

The News is very sorry that this error occurred, and desires to make the correction and to say that no standard tire prices are as low as the list we printed in the Hommell Firestone Ad.

Mrs. Gladys Wilkinson and son spent the Christmas holidays visiting friends in Amarillo.

CHRISTMAS SPIRIT PREVAILS MONDAY

ONE OF LARGEST CROWDS THIS FALL HERE FOR BUYING AND TRADE DAY

Christmas shopping and the trades day attractions Monday caused one of the largest crowds to gather in Clarendon, the city has seen this fall.

Every one was in a jovial mood and buying was the order of the day.

The merchant's all report a very nice business and it is believed that the gross receipts will exceed those of last year for the holiday season.

Approximately five thousand people jammed the street in front of Little Mercantile when the trades day drawing was held. During this drawing business in the several stores was at a standstill, but immediately after it was over all clerks were busy waiting on throngs of customers, who lingered until 9:30 in the afternoon.

Business was brisk until at a late hour Monday night. Stores stayed open late to accommodate the late shoppers.

Christmas Day was rather quiet in comparison to the large crowds in town Monday. Most every one enjoyed their holiday staying at home or visiting.

This holiday season marks the climax of a very busy season, with the merchants, in that Government money has poured into the city. The merchants have enjoyed a goodly portion of this money.

"OUR YEAR'S STUDY"

Dear Friends, this year is rapidly drawing to a close. We have enjoyed many blessings along the way, but we count one of our greatest joys, the opportunity which has been ours to appear before you weekly in our little Chats. We wish to thank you one and all for your patience and interest in these articles. We feel that the most interesting book in all the world is the one about which many of us know the least. If we could read the thoughts of people we would find that some think the Bible to be a little fore than a group of fables and superstitions, while others believe it to have been dictated word by word by the Holy Spirit. If we have helped you to obtain a better knowledge of the Bible and have led you nearer to your Heavenly Father we feel glad and proud of our year's work, and hope that we might get more information and aid in the days to come.

The teachings of the New Testament makes men better, happier and holier. It sets forth the majesty and dignity of man. It works moral revolutions in character. It adapts itself to every want of the soul. In following the gospel of Christ as it marches down the centuries, we behold the hardest hearts softened. Many martyrs because of their faith in Christ and the love of His word, have welcomed the agonies of torture. On every hand asylums for the afflicted and homes for the orphans speak eloquently of the power of the gospel. Regenerated lives are unanswerable arguments in favor of the genuineness and worth of the New Testament. The good tidings, the gospel, "The power of God unto salvation to every one that believeth."

We thank you for your co-operation and interest during the past twelve months and hope we have been able to assist you in obtaining more information concerning the Bible, if we have accomplished this one point, we feel that we have been richly paid for our endeavors. With many wishes for the days to come and a better understanding of God, Christ and the Plan of Salvation, I beg to remain Your friend in Christ's cause. W. E. Ferrell, Minister, First Christian Church, Clarendon.

CHRISTMAS BOXES ARE DISTRIBUTED

MATTER OF PREVENTING DUPLICATIONS DECIDED BEST HANDLED BY CWA.

A committee composed of H. Mulkey, Christian church, Judge J. P. Porter, Methodist; Joe Goldston, Baptist and B. P. Brents, Presbyterian, appointed to cooperate in preventing the duplication of Christmas baskets to be distributed this year, reported to their respective churches Sunday that Clifford Davis, Donley County relief administrator, had offered the services of his office in distributing the baskets this year.

This plan was generally adopted, because the facilities of the relief office would be used in getting the baskets to the needy families of the city. The case workers were well familiar with the needs of the different families on relief rolls.

The distribution of these baskets were begun Monday morning.

The good cheer brought with these baskets was gratefully received by the families, and the churches were assured that the baskets would reach those where most needed as long as there were baskets to distribute.

WATCH NIGHT SERVICE TO BE AT METHODIST CHURCH

The First Methodist Church announces a Watch Night Service for Monday night beginning at 11:15 and closing at 12:05 a. m. The lights will be on and the building heated at eleven o'clock, the service beginning at 11:15 with organ music. The pastor will deliver a brief address and the people will be invited to begin the new year upon their knees in the house of God, rather than in places of sin. All who will are invited to be in this service. It should indeed be a time of rededication for all of us alike.

E. D. Landreth, pastor.
