## ELECTRIC RATES TO BE REDUCED

**BLOCK RATE SCHEDULE TO  
REPLACE THE ROOM  
COUNT SCHEDULE.**

"Clarendon will receive a reduction in its electric rates, effective with billing rendered from meter readings covering September consumption," says Mr. H. H. Monk, District manager, The West Texas Utilities, while in the city last week. "Our main purpose now is to increase our sales of electric service and bring back the revenue which will be lost through this proposed reduction and change, as well as increased Governmental expenses," further states Mr. Monk.

Following is a letter from the district manager to the Mayor and City Commission:

Childress, Texas  
September 18, 1934  
Hon. Mayor and City Commission  
City of Clarendon  
Clarendon, Texas  
Gentlemen:

Due to the constant increasing public objections to the present residential rate structure, the West Texas Utilities Company now propose a plan to change this rate structure from the room count schedule to a block rate schedule, which we believe will meet the desires of our customers.

In order to make this change in rate form, it is necessary that we make some rate reductions to prevent raising a large number of three and four room customers. It is proposed to drop the rate 1-1-2c on the first step and 1c on the second step for lighting, making the new rate to any size house 9-1-2c per kilowatt hour for the first twenty-five kilowatt hours, 6c per kilowatt hour for the next twenty-five kilowatt hours; and all in excess at 4c per kilowatt hour, unless they have an electric range or electric heating, in which case all service used will be 9c for the first twenty-five kilowatt hours, 6c for the next twenty-five kilowatt hours, and 3c per kilowatt hour for all over the first fifty.

This gives a very simple rate structure; and while it does not equalize the cost of serving as correctly as does the room count rate form which has been universally adopted over the United States, it does provide an easy, understandable or incentive rate which this company feels will be more helpful in the development of increased business, or more unrestricted use of its service.

Our main purpose now is to increase our sales of electric service and bring back the revenue which will be lost through this proposed reduction and change; as well as increased Governmental expenses. We have found that over the last eight or ten years, our consumption per residential customer has more than doubled, yet we are not collecting as much in dollars and cents per customer as we did when they used less than one half as much service. While we have materially improved service and have supplied a large increased amount of service, Government statistics show that the utility industry collects from the domestic customer only about 1 per cent of his total household budget expenditure, while the investment by utility companies in facilities to render such service is many times that required of other household items, such as food, or clothing, for which the customer pays over twenty times as much.

Utility companies, through private capital and private initiative, supply more electric service in the United States than is supplied from any other source in all the rest of the world; and yet it is surprising to learn that this nation pays \$100,000,000 more for the single item of tobacco alone than it does for the total of all household electric service supplied in the United States.

The West Texas Utilities Company believes that in changing from the room count schedule, which it proposes to do in all of its 160 communities within the next few months, it can improve its customers relations and sell an increased amount of service. It is with this in mind that we submit for your approval, rate attached new residential rate

## Enrollment For CCC Camp To Start October 1st

According to Clifford Davis, County Relief Administrator, a general enrollment for enlistment into a CCC camp will be held between the first and fifteenth of October.

In this enrollment Donley County is allowed a quota of five, and anyone wishing to investigate this is urged to see Mr. Davis.

To obtain enlistment one must be: Unmarried, between the age of 18 and 25, must have dependents, must be on the relief rolls or have a member of the family on the rolls, or, must be in actual need of his wages to avoid public aid, no two boys from the same family are eligible.

Other general requirements will be explained to the applicant by Mr. Davis.

## PORTER RESIGNS AS S. S. SUPT.

**SUCCEEDED BY D. R. DAVIS  
AFTER SERVING TEN  
YEARS.**

Judge J. R. Porter after nearly eleven years as general superintendent of the Methodist Sunday School, has resigned his place and will take over the teaching duties of a class formerly taught by Tom F. Connally.

Judge Porter will be succeeded by D. R. Davis who has been teaching a class.

Other than the above changes the organization of the Sunday school will remain as it has been for the past several years, namely: Supt., adult department, W. T. Hayter; Senior Young People, Mrs. B. F. Kirtley; Intermediate, Mrs. U. J. Boston; Junior, Mrs. Fannie Perry; Primary, Mrs. H. T. Tooms; primary beginners, Mrs. J. R. Porter, and the cradle roll, Mrs. W. R. Holder.

Judge Porter has served as superintendent very faithfully, and the congregation is appreciative of his services. He has not been selfish in his duties, and the Sunday School has benefited by his faithfulness.

## Commissioners Add To Statement Made By Hospital Board

Last week there appeared in The Clarendon News a statement of conditions as regards the Adair Hospital over the signature of two of our citizens. The Commissioners Court of Donley County being in a position to know whereof these gentlemen speak would like to add the weight of their approval to the statement.

The Commissioners Court desires to support the Hospital in every way possible. The members of the court have not become weary in appropriating funds for its support but when funds are at such a low ebb we are made to wonder just what will come next.

Reports are made to this body each month and we are aware that there is now due the Hospital more than \$12,000.00 in notes and accounts. This amount if collected only in part would support the hospital without additional help from the county for a considerable length of time. The court is aware of the condition of the times financially, but it joins the hospital representatives in urging every one who possibly can to come to the aid of a public institution that we cannot afford to see closed.

Commissioners Court of Donley County.  
Your acceptance and approval of this rate will be appreciated.  
Respectfully submitted,  
H. H. Monk  
District Manager.

## IMPROMPTU PRO- GRAM FOR LIONS

**SCHOOL DAY REMINISCENCES  
FROM LIOM MEMBERS  
ENLIVEN LUNCHEON**

Grade and junior high school teachers were guests of honor at the weekly luncheon of the Clarendon Lions Club Tuesday noon at the Antro Hotel, in the plan this Fall of the Lions being host to all the teachers of the local schools.

Those present and introduced Tuesday by Lion Burton were: Misses Logan Price, Clark, Hogan, Alken, Stevens, Mongole and Waldron; Mesdames Goodner, Prewitt, Drennan, Headrick and Lane; Messrs. Bone and Lane.

Other visitors for the day were Mayor J. W. Martin, and Mr. H. H. Monk, district manager of the West Texas Utilities Co., of Childress.

Miss Stevens made a brief response for the teachers, while Mayor Martin and Mr. Monk also expressed their appreciation of the occasion.

Impromptu talks were made by Lion Caraway and Chamberlain reminiscent of school days in Clarendon, experiences on the school board of trustees and in appreciation of the loyalty of the teachers. Lion Patrick spoke of the loyalty of the teachers all through the years and of their great services to the community. Mr. Bone sang "Drink to Me Only With Thine Eyes" to the great pleasure of the members and visitors.

In conclusion President Patman of the local club read a humorous comment on the trials of the modern day teacher by that newspaper feature character, "Aunt Het," which drew the applause of all.

Only a few Lions were absent on roll call.

## Ed Stanton To Die At Huntsville Friday Morning

Huntsville, Texas, Sept. 25.—Ed (Perchmouth) Stanton, 45, ruthless West Texas outlaw, grew restless tonight as the time for him to keep his tryst with death in the electric chair Friday morning drew near.

The killer, who was assessed the death penalty for the slaying of Sheriff John Moseley of Tulsa, Swisher county, held faint hope of escaping electrocution through executive clemency. His brother has written Stanton a petition for clemency has been signed by 500 West Texans but no further evidence of the petition has been forthcoming.

Stanton today kept up a lively conversation with his fellow death row inmates, Joe Palmer, pal of Raymond Hamilton, escaped killer and Charley Fraizer, one of the leaders in the recent break in which Hamilton, Palmer and Irvin (Blackie) Thompson escaped from the death house.

## Bone of Hugh Elephant Found On McCreary Farm

A piece of a large bone, described by J. D. Stocking as part of a thigh bone of a now extinct mammoth elephant, was found by J. C. McCreary Sunday on his farm three miles Northwest of Clarendon. The bone was found in the banks of Kelly Creek, and has been washed out of the earth during the recent rains.

Mr. McCreary knew the bone was there for sometime, but did not wish to take a chance of damaging it by digging around it.

The piece of bone was about 15 inches long, and about ten inches in diameter at the joint. The circumference at the joint was 36 inches, which proved it to be from a hugh animal. J. D. Stocking now has the bone at his drug store, to remove it from a solidified clay it is partially embedded in.

## Grand Jurors For District Court Are Selected

The grand jurors for the October term of District court beginning October 15, with Judge Fires presiding have been chosen and are as follows: V. V. Johnson, C. E. Griggs, F. L. Bourland, J. M. Cornell, Walter I. Lowe, T. R. Adkins, C. E. Mixon, F. O. Naylor and W. M. Picking of Clarendon; Roy Jewel, W. I. Rains, J. W. Bland, C. A. Crow, of Hedley; Guy Taylor of Lela Lake, Earl Holley of Ash-tola and G. A. Shoop of Jericho. This district court circuit is composed of Childress, Hall, Collingsworth and Donley Counties.

## Corn-Hog Contract Signers To Vote On 1935 Plan

Corn-hog contract signers in Donley county will be asked to vote on the 1935 plan of the corn-hog section of the AAA according to word received here by county farm demonstration agent T. R. Broun from E. M. Regenbrecht, Extension swine husbandman. The referendum is set for the first week of October.

Regenbrecht represented the Texas Extension Service in the AAA meeting held recently in Kansas City where farmers and representatives from state agricultural colleges from Kansas, Missouri, Iowa, Nebraska, Oklahoma, Arkansas, and Texas met to make recommendations for the next steps in the corn-hog program. The first question discussed at Kansas City and to be voted on by corn-hog contract signers in whether or not there shall be any sort of adjustment program in this field, Regenbrecht stated.

The second point to be decided is whether the contract shall deal with corn only or hogs only or be a joint contract as in 1934.

The third question will ask for preference on the type of contract which they wish to follow the 1935 program. This refers to a possible unified contract for the six basic grains: wheat, corn, rye, barley, grain sorghums and flax. It would represent a shift from several single crop contracts to a board program of developing better systems of farming through less intensive use of land conservation of soil resources, and use of land for those crops for which it is best adapted.

The fourth question will be voted on only by those contract signers who are grain sorghum growers for grain. It will ask if they prefer that grain sorghums be included in the 1935 contract. The exact wording of the questions will be available at the time of the referendum.

At Kansas City the voting was that benefit payments be made on both corn and hogs, that the established 1932-33 base in the 1934 program for both corn and hogs be used, with benefit payments of \$3 per head on 75 percent of the 1932-33 hogs, and of 40 cents per bushel on the appraised yield of contracted corn acres; and that the growing of hogs be permitted up to 80 percent or 85 percent of the base, and corn acreage increased up to 75 percent to 90 percent of the base, the exact percentage to be optional.

Other recommendations made by the conference were that contracted corn acreage be used without restriction for hay, pasture, soil improvement, soil erosion prevention crops, fallow, that grain sorghums be including or for forest plantings; and in the 1935 contract on the same basis as corn as to adjustments, benefits and tax; and that the base of processing tax be broadened to include other commodities in proportion to the benefits accruing to them from this program.

It was also recommended that the plan for warehousing corn on the farm be continued and the same principle extended to other grains, and that the 1935 corn-hog contract be made a step toward a long-time contract program to begin in 1936. It was asked that the referendum be held the first week in October; that the questions be clarified and made more specific; and that the poll be taken by unpaid

## CHILICOTHE TO BE BRONC HOSTS

**MAROON AND WHITE DOPED  
TO LOSE FRIDAY GAME  
TO VETERAN ELEVEN.**

The Clarendon High School Bronchos will leave their corral this Friday and journey to Chillicothe where they will try to kick a few tail feathers out of the soaring Eagles of Chillicothe High School in a gridiron fracas at that city. While the Clarendon team topped a victory in last Friday's initial contest, the lads will enter this battle with heavy odds favoring opponents, who bid fair to have their strongest team in a number of years.

Press reports from that city indicate that the game is being widely advertised and preparations are being made to entertain a large gathering of the football fans at this what might be termed an inter-sectional high school contest. The Chillicothe Eagles will present a powerful, well balanced eleven featuring lettermen in every position, with a well rounded detail of replacements should the first stringers wilt under the Broncho attack.

The Bronchos will race this veteran line-up playing on its own field with a band of stout hearted youngsters, playing their second game and with only two lettermen from last year's eleven which costed through an encounter with Friday's opponents to win easily 18-0. Coach Stocking and Kerby have worked faithfully and tirelessly with the new material since last weeks game, and even should the Eagles take a few pecks at the local horses, fans may be sure that a merry battle will be staged before the final gun.

## \$5058.15 In Cotton; \$858.00 In Cattle Checks Received

The office of County Agent T. R. Broun has been busy since last Friday delivering the last consignment of the first payment of cotton checks.

One hundred five checks totaling \$5058.15 were received.

Monday a consignment of five cattle checks were received. The five added to \$858.00, and was for the second weeks cattle purchases.

The first weeks purchases came to over \$2600.00, and have all been delivered.

More checks in payment of cotton rent and cattle purchases are expected most any day by the county agent.

## Ford Dealers To Sponsor Broadcast

When the 1934 Worlds Series opens on October 3rd, play will be radioed into every set in the nation as a courtesy of the Ford Dealers of America. Palmer Motor Co., in Clarendon will be host at a special World Series Radio party at their show rooms and a large score board will be operated for the pleasure of the fans, but if you get the series over your own radio over either national chain hook-up, you will still be the guests of Clarendon's Ford dealers. Play starts at one p. m. Monday, October 3rd, with Detroit against either the Giants or the Cardinals.

Rev. and Mrs. C. B. Stephenson of Houston, Texas arrived last Friday for a visit with their parents, Mr. and Mrs. C. W. Taylor, after returning from Berlin where they attended the Baptist World Alliance meeting. While they were gone, their two children, Bettie Jean and Ruth Taylor, stayed with their grandparents.

workers. "It must be remembered that these were merely recommendations to the AAA and that they may or may not be followed," Regenbrecht said.  
The vote will be held at the County Courthouse, Saturday, October 6, 1934, at 2 p. m. according to T. R. Broun and County Agent Committee.

## College Students To Broadcast Sunday At 4:30

Clarendon Junior College will carry the name of Clarendon through the ether waves Sunday afternoon at 4:30 when a group of students will give a program from Radio station WDAG at Amarillo.

The arrangements for this program have been in the making for several weeks, and at last word has been received giving them thirty minutes on the air Sunday.

Everyone is asked to tune in on WDAG and listen to the following program: Clarinet solo, Hubert Reavis, Trumpet solo, Bill Walker, Trumpet solo, Gus Stephenson; Reading, Miss Wilma Dee Smith.

Duets, and other specialties will be featured on the program while Miss Delphia Bones will be the accompanist.

## BRONCHO ELEVEN TAKE FIRST GAME

**BEAT PRICE MEMORIAL COL-  
LEGE 6-0 IN 1ST. 5 MIN-  
UTES OF GAME.**

Despite the fact that the Clarendon Bronchos had only two letter men, they made a creditable showing last Friday against the Cardinals of the Price Memorial College, with putting the ball across the east goal in the first five minutes of play for a touchdown. They held their own against the visitors, and the game ended with the Bronchos being victorious to the tune of 6 to 0.

The starting lineup is as follows: Clarendon; Ends, Powell and Martin; Tackles, Easterling and Boston; Guards, Strawn and Butler; center, Darrow; fullback, Word; halfbacks, T. Holtzclaw and F. Holtzclaw; quarterback, Greene.

Price Memorial College; Guards, Huckert and Bilgrie; Tackles, Spinhirne and Van Dever; ends, Camel and A. Bottom; center, Gau; half-backs, Sweet and F. Bottom; full-back, Kuehler; and quarterback, Smyer.

Clarendon won the kick off and selected to defend the west goal for the start. Greene started the fight by kicking to the Cardinal's 10 yd. line, with F. Bottom receiving the ball and returning it to Price's 25 y. line. After trying to plough through the Bronco line without success, Kuehler punted. After trying to reach their goal the Cardinals lost the ball to Clarendon, with Greene, Word, and F. Holtzclaw working the ball back towards the East goal. Greene tried a trick play, then a pass, and finally resorted to a punt to send the ball further down the field.

Price took charge of the ball and by working a few quick tricks and punts, Smyer, F. Bottom and Kuehler advanced the ball to the Bronchos 45 yd. line. Word recovered the punt and returned to Price's 28 yd. line. Greene ran around right end for a 9 yd. gain. Greene, F. Holtzclaw and Word worked a few combinations to advance the ball to within 8 yds. of the goal. Price made two substitutions during this stage of the game. Greene then plowed through the line for the touchdown. He did not succeed in winning his extra point.

During the last few minutes of the third quarter the Price boys put on a new burst of steam, and succeeded in carrying the ball to Clarendon's 23 yd. line. In the fourth quarter Clarendon was defending the east goal, with the Cardinals coming on strong to try and take the ball across the line. At this point McDade of the Cardinals passed to Sweet who was running in the left end territory. Sweet stumbled, rolled over and received the 10yd. pass while he was lying on his back, on Clarendon's 18 yd. line. However, the ball soon went to Clarendon, who punted the ball out of dangerous territory.

Soon afterwards under the fast teamwork of the visitors the ball was in their hands for another rush until they were

## NEGRO IS CAUGHT SHOP LIFTING

**ONE CAUGHT, TWO ESCAPE  
IN ATTEMPT AT BRYAN  
CLOTHING CO.**

A capture made Tuesday of one negro man and the escape of two more, while attempting to get away from the Bryan Clothing Company store with four suits of clothes valued at about \$125.00 "may lead to the solution of a series of thefts which have occurred in the past few weeks on the store," stated Allen Bryan, Tuesday after a negro giving his name as Herman Mayfield of Ladonia, Texas, was captured.

From the evidence uncovered it appears the negroes working together have a well planned scheme to effect their shoplifting tours.

During the noon hour Tuesday the three negroes came into the store, two of them carrying large pastboard boxes while Mr. Bryan was the only one in the store. One of the negroes engaged Mr. Bryan's attention in the shoe department, while one of the negroes set his box down on the floor near the suit rack. The third one set his box down on the floor underneath a table where trousers are kept.

Mr. Bryan's suspicions were aroused, because merchandise had been missed from the store at other times, and looking up he saw the second negro, Herman Mayfield just as he had placed four good suits of men's clothes in the largest of the two boxes.

Mayfield began to get ready to leave the store, and Mr. Bryan told Winfred Gattis, who was passing the store at that time, to follow the negro. Mayfield went North to the Rexall store corner, turned west and then went south down an alley with Gattis hot on his trail. Just at this time, B. P. Brents, a News reporter joined in the chase, which took Gattis behind the Piggly-Wiggly store, then east, and north on Kearney street, where Mayfield cut through the middle of the block going east just north of the West Texas Utilities Co. building.

At the shooting gallery Gattis attempted to get help in chasing the negro, but was unsuccessful. Just as Brents emerged from the alley on third street the negro was going around the northeast corner of the Christian Church.

He was found in a basement entrance on the east side of the church and was promptly placed under arrest by Sheriff Guy Pierce.

Search was continued for the other two negroes but they eluded searchers, in the excitement of the chase after Mayfield.

Mayfield is being held in the Donley County jail under a charge of theft over \$50.00.

## Final Exemption Certificates Are Received

According to R. C. Land, Assistant in Cotton Adjustment, the final Cotton Exemption Certificates were brought by him from College Station and distribution started this morning.

Mr. Land spent the past week in College Station receiving instructions incident to the distribution of the certificates, and brought them with him when he returned to Clarendon Tuesday night.

## PRESBYTERIANS MEET HERE ON WEDNESDAY

The District Conference of the Presbyterian Church will meet in Clarendon Wednesday. Luncheon is to be served to the guests by the ladies of the Church. A very interesting all day program has been planned, and Clarendon people are invited to attend the services.

Rby Heath of Crosbyton spent Saturday in Clarendon.

stopped on the Clarendon 13 yd. line. The game ended in the center of the field, with the Bronchos carrying the ball.

### SHALL THE COUNTY HOSPITAL CONTINUE TO SERVE?

A crisis has arisen in the operation of the Adair Hospital as a county institution.

Taking care of charity cases in Donley the hospital has accumulated over \$12,000 in notes against citizens of the county for services rendered and for which payment must be made if the institution is to continue to operate. There is no difference between the county hospital and any other business—it simply must collect for services to those not on charity lists, if it stays open.

It is obvious to all that the county cannot operate the hospital free of charge to all citizens of Donley. It could not afford to do that even when times are prosperous. Most certainly it cannot do so when it is a struggle to provide charity treatment for the many needy folks of the county.

There are two alternatives—either those who owe the hospital must pay at least a part of their notes now, or the Court will be forced to the necessity of closing this institution of great benefit to all Donley people.

Let us earnestly hope that in the Fall season a reasonable payment may be made on all notes and accounts, so that charity may be served—so that all citizens may have the protection of a local institution open and ready to serve in emergencies.

It may mean the difference between life and death to someone. That someone might be you or an inmate of your home.

### CENTENNIAL SPIRIT IS CATCHING

The Centennial spirit in Texas is catching fire all over the state.

The Dallas headquarters reports that already some forty Texas cities and districts have begun plans for local Centennial and Pre-Centennial celebrations, which is according to the original plans of the state committee.

Here in the Panhandle there will probably be a number of most excellent celebrations. Dalhart is working on plans for an Old Tascosa Celebration. Pampa was first in this section with a noteworthy Pre-Centennial celebration last Spring, and will stage an even greater one next year. Adobe Walls will no doubt have its inning through work of the Borger leaders. Old Clarendon may be brought back to reality by Clarendon people, and then there is the big 31st Senatorial District Pre-Centennial celebration to be held next Spring in some outdoor location for the benefit and interest of all the Panhandle.

The Centennial spirit is catching—there's work enough and glory enough for all—and the Panhandle along with all Texas will benefit thereby.

### GETTING THE BUSINESS

Make free use of printer's ink. Talk to the world about your business—the line of goods you carry; their style, peculiarities and adaptabilities. In purchasing, do so with care, remembering that goods well bought are half sold. Make careful selections, buy cheap, and make the selling price reasonable. Tell the people what you will do, and do as you advertise, every time. Send out your messages every week. The people look for it and are disappointed if they see it not; and it is often the case after your long silence, the constant appeals of others have caught the eye and drawn thitherward many a good customer you once had, who is now a patron of him who neglected not to tell where to go to get what he wanted, at reasonable rates. This is as it will be, and as it should be, in this busy age. People take and read the paper for a purpose, and one is to find out where they can get what they want without spending a day hunting all over town for it. The merchant who appraises them, of this fact, in a judicious way, will be the one that catches the trade, builds up a lucrative business, and makes his calling a success.—Haskell Free Press.

There's no law or code restriction against putting on a little muscle and putting aside a little cash by hard work while waiting for your ship to come in.

### FIRE PREVENTION WEEK COMES AGAIN

In a few more weeks—between October 7th and 13th—Fire Prevention Week will be observed again. The week, which has become a national custom, will be formally initiated by proclamations by the President, governors of states, mayors of cities and other prominent persons in private life.

During the week every Clarendon citizen will have a splendid opportunity to learn the fundamentals of fire prevention and control. Through speeches, newspaper and magazines articles, exhibits and other means, an intensive effort will be made to enlist the citizen's interest. He can blame no one but himself if he fails to learn.

Fire prevention is a civic duty which every citizen owes to himself and to every other person. We all pay for fire—we pay for it in lost business, destroyed jobs, higher taxes and insurance rates. On the average, each family contributes \$4.00 a year as a tribute to Moloch—dollars which are destroyed as surely as if we tossed them into a stove. Worse still, three people—two adults and a child—out of each 39,000 of our population, are sacrificed to the pagan god—because we are ignorant and careless when it comes to fire.

In the past, it has often been the experience that fire losses dropped during the week and for a short period thereafter, only to rise again as the public gradually forgot the information gleaned. This year we should look forward to the week and devote a little time during it to really learning the fundamentals of fire prevention, then remember and practice them in the future.

### A GREAT SECTIONAL EXPOSITION

The 1934 Tri-State Fair just closed at Amarillo was one of the greatest events in the history of the exposition and considering the difficulties of drought and financial stress was a most noteworthy achievement.

Already standing at the head of regional fairs in the Southwest, there is every reason to believe that under the splendid leadership furnished by Amarillo and this immediate territory, the Tri-State Fair is destined to become one of the great Fairs of the nation, and the greatest asset this section of the Southwest has within its borders.

May it continue to grow and prosper by the united support of all our people.

The worst thing in giving charity is politics. We would guess that more money has been squandered in charity by the scheming politician than has ever been lost through the inexperience or lack of understanding of those who spend the public's money. It seems impossible to keep politics out of the work of helping people. That is not a new condition. It is as old as charity, itself.

## FIREARMS MUST BE REGISTERED

THE GOVERNMENT SEEKS A BETTER CHECK ON ALL VIOLATORS.

Firearms owned by individuals must be registered within 60 days, under the Firearms Act which was approved June 26, or the owners will be subject to \$2,000 fine or imprisonment, according to a notice which Ralph Keneston, Deputy internal revenue collector has received from the Treasury Department.

In addition the act also imposes special taxes on manufacturers, importers, dealers and pawnbrokers of certain firearms, silencers and on transfers of firearms.

"Firearms" under this act is defined as a shotgun or rifle having a barrel of less than 18 inches in length, or any other explosive weapons which is capable of being concealed on the person. This also includes machine guns, according to the federal notice.

The letter defines a machine gun as any weapon which is designed to shoot automatically or semi-automatically more than one shot without reloading, by the single function of the trigger.

The federal agents of the government are going to make war on persons not registering their guns," according to Keneston. "Under this act, it will be possible for the government to exert a greater control over gangsters and persons having no right to carry guns."

## Reading Fun In Store For Boys

Here's important news for the boys of America. THE AMERICAN BOY—YOUTH'S COMPANION, the nation's quality magazine for boys, has been reduced from \$2.00 a year to \$1.00. The three-year rate, formerly \$3.50, has been reduced to \$2.00.

"For a long time we have been seeking a way to reduce the cost of THE AMERICAN BOY to readers," states Griffith Ogden Ellis, editor. "Recently we have effected savings that make the cut possible, and we think boys will agree that the new price is big news on the reading front. We hope boys will help us to spread the good news by telling their friends."

Along with the cut in cost, the magazine's publishers are planning a magazine that will continue to set the pace in fiction, articles, and departments. The favorite characters of millions of boys will parade through THE AMERICAN BOY in new stories. Douglas Renfrew of the Royal Canadian Mounted, Hide-rack, the red-and-gold colie, Bonehead Jim Tierney, the detective, will give the reader many exciting hours in the months to come.

William Heyliger, whose true-to-life, gripping vocational stories have won him wide acclaim from parents and libraries, as well as the hearty approval of boys, is working on new stories. Staff writers are interviewing famous coaches and athletes and world-renowned explorers, to bring boys the color and fun of sports and travel.

In short, THE AMERICAN BOY, under its new price, will continue to give boys a magazine that measures up to the best standards set by adult magazines. Send your subscription to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Michigan. Enclose your name and address and the proper amount of money, and THE AMERICAN BOY will soon be headed your way, loaded with reading thrills.

## RADIO AMATEUR 'HAMS' ATTEND CONVENTION AT CORDELL, OKLA.

Wade Hilliard, Frank Adam, James Hedrick and Johnny Johnson attended a convention of the Western Amateur Club, an organization of amateur radio fans, at Cordell, Oklahoma Sunday. The club is composed of members of western Oklahoma and southern Kansas. Plans are to embrace the Panhandle of Texas in the organization. The "Hams" reported an interesting meeting.

## Headquarters Are Opened At Dallas For Centennial

Dallas, Texas, Sept. 23.—Completing its organization by seating two new members from Dallas, the Texas Centennial Executive Committee has swung into action on the task of marshaling the entire state behind plans for celebrating 100 years of freedom and progress in 1936 with appropriate observances at San Antonio, Houston, Goliad, Brenham, Nacogdoches, Huntsville, Dallas and other historic points.

Plans for financing the State's share of the celebration without burdening the general fund are being prepared now and members of the executive committee have shouldered the responsibility of working out this problem to the satisfaction of the Legislature. The State committee's organization was completed in Dallas when Fred F. Florence and R. L. Thornton were seated as new members of the executive group. Both men were nominated by the Dallas Centennial Executive Committee of which Mr. Florence is chairman. Mr. Thornton heads the ways and means committee of the Dallas group.

Both men are presidents of National banks and are actively identified with civic affairs in Dallas. Mr. Florence served as chairman for Dallas county relief work several months and Mr. Thornton is now President of the Dallas Chamber of Commerce.

Members of the executive committee approved the work that already has been done in getting the Centennial movement started and set their sails for more work in every section of Texas.

Centennial workers will do their best in the immediate future to have the question of an appropriate legislation considered by the special session of the Legislature. If the present session cannot handle the assignment for lack of time, leaders hope another session will be available so plans for the special event can be laid on the knowledge of the money that will be available.

## "ZEPHYR" TRAIN WILL BE HERE

HOLDER OF WORLD'S SPEED RECORD TO SHOW HERE LAST OF MONTH.

The par excellence of all stream lined trains, the Burlington "Zephyr," will be exhibited in Clarendon sometime between September 28th., and October 2nd, according to information received by D. F. Warrsworth, local agent of the Fort Worth & Denver City Ry. Co.

The "Zephyr" is now in California, where it is acting the part of a movie star in a picture being produced by RKO entitled "The Silver Streak."

The stream lined train will be exhibited in Amarillo, then Clarendon where it will stay one hour and forty-five minutes. It will then proceed East into Dallas, making stops in between.

It is then planned to make a high speed test run from Dallas to Houston.

Forty-five minutes of the time the train will stay in Clarendon, will be used in setting up and taking down ramps, guide ropes, etc.

## A. & M. College Urges That Hay Be Stored

College Station, Texas, Sept. 23.—Hay that normally would not pay for cutting may be put up to advantage this year in the opinion of C. N. Shepardson, head of the dairy husbandry department at Texas A. & M. College. In a discussion of probable feed shortage due to drought throughout the state, Mr. Shepardson pointed out that feed prices are approximately double those of a year ago and that under such conditions, it is urgent that every farmer save every possible ton of feed for the coming winter.

"Many farmers have grass and weed patches on land that has been turned out, which would yield several tons of hay," Mr. Shepardson said. "Road sides, fence rows and stream banks, especially in sections where there have been a few showers, all have some growth of weeds and grass that can be saved. While such crops do not make the best feed, they can be made to winter many animals in case of necessity."

"While many farmers do not have hay equipment, a mower and rake can be found in almost every community and efforts should be made to have these used to save every ton of edible forage in the state."

"Hay of the type mentioned, while not highly palatable, can be made more appetizing by sprinkling with dilute black strap molasses when fed," he continued. "The molasses should be diluted with about three gallons of water to one gallon of molasses. It can be sprinkled over the hay in the feed rack by using an ordinary bucket with several

# The Broncho Range

C. J. C.

VOL. 5

Devoted to the Students of Clarendon High School, Junior College and Junior High School

## THE BRONCHO RANGE

Published exclusively each week in The Clarendon News by students of the Junior College, High School and Junior High School.

**STAFF**

Editor — Arthur Chase  
 Assistant Editor — Eloise Hill  
 School Activities, Wanda Mayfield  
 Sports Editor — Robert Nichols  
 Soc. Editor, Avis Lee McElvany

Contributors — Mary Frances Dewey, Phoebe Anne Buntin, Jane Kerbow, Jeanne McDonald, Emma Ruth Barkett, Lovie Beavers, Dorothea Watson.

From The College News Service was gleaned the following interesting item originating in Schenectady, New York.

"Professors of Union College have been taking it 'on the chin' here this week, and students are the ones who are dishing it out.

Following a checkup by the college newspaper, The Concordians, of all professors allegedly implicated in unfair academic practices, the faculty of that school has been constantly under close student surveillance.

"We are going to see how many instructors are adding strength to the college and how many are doing their jobs right," student leaders there declared.

The campus paper challenged the professors to eight points which were to determine how closely they approached the students' ideal:

Does he find his greatest interest in his students and in intellectual pursuits?

Does he try to introduce them to life and thought, rather than merely to coach them to pass examinations?

Does he put himself forward as a dispenser of truth, not as an ingratiating vaudeville actor?

Does he give the students all that he has of scholarship, wisdom, and understanding, despite their supposed immunity to such?

Does he stimulate the mind of the student to suggest ideas and to correlate the the loose ends of information?

Is he enthusiastic, alive, free from all dull pedantry and dogma?

Is he striving to be a personal friend of students, a guide and an inspiration?"

The students of Clarendon High School and Junior College should be thankful that it is a fact that practically all of their faculty conscientiously try to live up to these rules or others similar to them. They should feel grateful that their teachers are of such a type that it is absolutely unnecessary to start such a controversy as was necessary in this eastern college.

### Cheerful Chatter

Although it has been only a few days since Mr. Burton severely reprovved all forms of "sponging" on the campus, the chatterer has definite reasons to believe that his words are already being forgotten. While walking down the hall on one of the days when the old members of Alpha Delta were endeavoring to aid cosmetic corporations by having the men pledges use make-up, she saw Willard Skelton and the girl-looking pledge, Elerly Watson, ahead of her, walking in the style of a confused army (mixed up arms), and actually saw Willard kiss Elerly in broad daylight.

During the last football game the pep squad studied the art of crooning while the band played. Had there been a few more members in the band, it would be doubtful if the pep squad could have been heard. An impious young man bragged on the squad, and one of the leaders, catching the tone of satire in his voice replied that they did not yet have their suits. He is now hoping that they will get bright yellow ones, since that is the loudest color he knows.

Ashtola students seem to be quite contented to have a bus that merely runs before and after school hours; Clarendon students have one that runs not only at these times, but in between also. The owner is J. O. Vinyard and his roadster is continually in use either by students or teachers. It might be called a "we rent, you drive car" except that there are no charges. This fact may be regarded as advantageous for the drivers, but our sympathy goes out to the owner.

# Bill Walker is Elected President of College Student

The two college classes met Friday, September 21, in order to organize both separately and as a college organization. This is the first year that the junior college has had a complete organization including all members of the college, and it will be of great aid in planning and executing the various school and social activities of the year that will include both of the college classes. The most important business of the joint meeting was the election of officers. A freshman, Bill Walker, was elected president of the new organization, and the other two offices of Vice-President and Secretary were given to two Sophs, Homer Estlack and Delphia Bones, respectively. Tentative plans for a carnival sponsored by both high school and college were discussed before the joint meeting adjourned to allow the separate classes to elect their officers.

The officers elected for the Freshman class for the coming year were as follows: President, Wylie Buchanan; Vice-President, Robert Nichols; Secretary and Treasurer, Reporter, Lovie Beavers; and, Sergeant-at-Arms, George Wayne Estlack.

The Sophomore class elected as its officers: Robert McKee, President; Alec Cooke, Vice-President; Drew Wilkerson, Secretary and Treasurer; and, Thayer Acord, Reporter.

### MANY SCHOOL STUDENTS ATTEND TRI-STATE FAIR

In a single "personals" column we could not enumerate all the students and faculty members who attended the Tri-State Fair last week. It is safe to say that probably one half of the students were absent at least one day and sometimes two for this purpose. Looking over the building during the Fair Week, we found one class with only one pupil, a student teacher failing to quell a bunch of supposedly dignified Seniors, several Sophomores clapping their hands after the fashion of the circus' trained seal, and discussions of the exposition and wild west show in nearly every class.

The staff of the paper has made an effort to gather at least a representative list of those who attended the Fair, so if you attended the Fair and do not find your name mentioned in this column you may blame yourself for not reporting it to the staff.

It seems that everyone that went to the fair has come back telling a different tale of what happened to him there. However, the best story of all was told by Norris Dewey to the English class as an Oral Theme. If you have not already heard it, you should have him tell it to you; it is too long to be printed here.

While at the Fair, Pete Powell got lost several times and each time she was found in a coffin booth in the Merchant's Building. She apparently fell in love with the coffins, for she has been telling everybody that she wants to be buried in a lavender one that she saw there.

Robert Nichols and Frances Fowler went to Amarillo Thursday, supposedly for the purpose of seeing the Fair, but ended up by going to a picture show.

If you see Frances Sanford walking around in circles, you will understand that she got that way from riding on the Merry Mix-up too long.

After spending the afternoon at the circus and races, Ardis Patman, Price Whitlock, Ardis Chase, Tillie Pratt, and Geraldine Pratt enjoyed dancing at the Nat Dance Palace.

Thursday, the Fair was honored with a distinguished delegation from Clarendon including Sarah Virginia McGowan, Virginia Cluck, and Pete Powell.

Among others who attended the Fair are Wanda Mayfield, Lovie Beavers, and Louise Smith.

By far the largest single delegation from the high school, however, was the bus-load of Ashtolians who visited the fair Thursday. These representatives of the 'dear old city of the hour' met at 7 o'clock in the morning at the Ashtola school building, all dressed in their Sunday's best and prepared to make the day one memorable occasion. "Ashtola's Masterpiece" carried these thirty-five light-hearted merry-makers to their destination in the full glory benefitting an Ashtola citizen, but their buoyancy was completely depleted by the time of the un-nignified return. Maybe it shouldn't be exposed to the

### School Choral Club Organized

Election of officers as well as singing occupied the interest of the members of the Choral Club at their meeting last Tuesday, September 18, Peggy Word was chosen to act as President and Avis Lee McElvany, secretary and treasurer. A manager is to be chosen later.

The Choral Club is undoubtedly a predestined success owing to the large number attending and chiefly because of the efforts of the most efficient and capable director, Mr. E. L. Bone. Many things are planned for the Club and after some practice, Clarendon High School will be able to boast of a real Choral Club, something that she hasn't had for a long time.

### French Class Almost Annihilated By Fair

The pursuit for knowledge of advanced French was practically forgotten last week on account of the attractiveness of the Tri-State Fair at Amarillo to certain college sophomores. For two days Professor Hall conducted a study of French verbs and phrases with only one pupil before her. It seems that the student chose to attend the circus, carnival, exhibits, and all other features; and, not finding time for all these interests in one day, remained two. In truth, the entire student body of the class attended the Exposition at some time during the week.

The catch to it? Yes, there are only three students in this class. These are Geraldine Pratt, Louise Smith, and Wanda Mayfield; and although such a small class is not sanctioned by the college system, the course has been retained as a graduate requisite of the three.

### SOUTH WARD AND JUNIOR HIGH NEWS

The first grades are having the swings put up and are getting experts at the pastime of swinging. Miss Mongole's pupils are making a nature study this week. In Miss Hogan's room the pupils are conducting a health contest, and the boy and girl who win will receive a prize.

Mrs. Prewitt's room has opened a store. Miss Steven's room is pressing flowers and drawing cat tails. Miss Clark's room got prize at the last P. T. A. meeting. The fourth and fifth grades are having a dog show Thursday, the proceeds of which will go to the P. T. A. fund.

In Junior High there is not much to report. We have a new librarian, however. The Choral Club has had two recent meetings.

### PEP SQUAD

In spite of the fact that the pep squad was unable to appear in uniform, a large majority of its members were present at the game between Clarendon High School and Price Memorial College, Friday, September 21. The pep squad leaders believe that the suits will have arrived by the next home game, which will be played a week from tomorrow, and invite the spectators to come and see not only a good game but also a well trained pep squad.

The most exciting event of the whole game, Friday, was the appearance of Kennedy Davis at the park. The entire pep squad joins in wishing Kennedy all the luck in the world in recovering from his injuries.

critical eye of the public, but only one Ashtolian, and that was the driver, was wide-awake enough to remember the return home that night, since the hour was very late and Ashtola citizens are in the habit of retiring at an early hour.

Laverne McMurtry and Frances Sa-ford were not content with spending one day at the Fair. They stayed over the week-end, and in addition to enjoying the Fair, they have been making everyone envious by raving about the motion picture, "Dames," which they saw there.

### Wee Willie Wonders

What all the excitement was about last Wednesday night? Some things that Wee Willie saw would make a Chicago gangster homesick. Things were tame at first, only a few painted Mugs and Mugges near the Pastime, fishing in some wash tubs for suckers. A few more were the emptying a five gallon container with eye droppers; they must have been finding how many drops in five gallons of water. Soon, however, there was a great commotion, as up the street came Clarendon's Star hurdle man with a damsel in a wheelbarrow and a whooping gang behind. Now for the fun—A black sedan pulls slowly up besides a tangled group of mobsters, doors are flung open and a slim figure is pushed in with many protests; with a jerk the mysterious speeds away, twisting and turning to escape pursuit—Later the same black sedan pulls up beside a blue sedan, again mobsters rush forth and subdue the victim, fling him in the car and speed away, baffling pursuit—Not yet is the bangdom satisfied—the mob put two of the last victim's feminine companions on the spot and take them for a ride—Flash—A great battle on the river road, and the Painted Papposes are the victors—Result—Three girls are left in the hands of the villainous crew and enjoy a two mile trek back to town on the hoof. Whew! Clarendon College is waking up.

If C. H. S. knows that a certain Editor in the Broncho Range is a good sport? It is reported that when taken for a ride Wednesday night the said Editor was a great sport and earned well deserved compliments after he was dumped. Power to him, sez me.

If two members of the Alpha Deltis slept well after the initiation Tuesday night? It is reported that they were given the standard cure for all ailments that affect the younger generation. They were in the pink of condition Wednesday.

The Palo Duros are offering the Seniors a great chance to be something—The Seniors will be wise to join a society and get up where men are men and gentlemen at the same time (if they are the kind that make men). Chances like that aren't offered every year, so the social Seniors had better grad it if the chance comes.

If you knew that there are two Bakers, a Cookie, and a Ham on the Ashtola bus, not to mention all the other Peaches and Eggs on it?

Why Clarendon fans are expecting the Bronchos to lose all their games? Sure, they aren't very big, yet they aren't very small nor very tender. That bunch is going to make fans scratch their heads and wonder. The Broncs have the last Word in Quarterbacks, so Wee Willie hears. There is some Greene material in the back field, but Holtzclaw ought to fix that trouble with the help of a Buttercup. There is also a Rosebud in the line, but Boston is there with Martin and Suitcase Sibley, so don't worry fans—yet.

(Charge all mistakes to Wee Willie and his Secret Agents, for we are that. What we don't know we find out—sometimes).

### SOPHS DULL

The high school sophomores class have spent the past week quietly, with very little of importance happening to the class as a whole. The dullness of this week has caused many of the Sophs to begin to wonder why their class does not surprise the supposedly active Junior and Senior classes by starting the year's social events in the high school. The weather is still warm enough for a picnic; the weather is always perfect for parties; so why shouldn't the Sophomores begin the year right with a social of some sort?

Although the week has been inactive for the class as a body, several individuals have had exciting times visiting the fair. The main attraction for everyone seemed to be Tom Mix. Billie Jo Wilson enjoyed the fair so much that she stayed two days.

### Alpha Delta Psi

On Tuesday evening, September 18, old members met candidates for admission into the Alpha Delta Literary Society at the Society hall where initiation rites were performed.

A brief program was rendered before the business of the evening was begun. The official constitution of the organization was elucidated by Wanda Mayfield. Arthur Chase and Billy Walker entertained the group with music on piano and trumpet.

Each new member was blindfolded and led through the deserted dormitory halls, into a mysterious locked chamber in an unknown part of the building. From there the ambitious but somewhat bewildered young people unwound themselves, and, encountering many hazards, finally arrived at the starting point.

The pledged freshmen consumed a feast of onions and cornbread while veteran Alpha Deltans enjoyed ice-cream. Other penalties were imposed, then president Estlack gave directions for further initiative duties for the remainder of the week. During these days at school, many explanations of boys smeared with feminine cosmetics and of girls wearing huge buttons on their hose, had to be made.

On Wednesday evening another hilarious time was enjoyed by both old and new Alpha Deltans. Elerly Watson, Harold Hamms, T. J. Mann and Wylie Buchanan, were required to empty a large canful of water with small eye-droppers. This feat was painstakingly accomplished in front of the Pastime Theatre. Other performers so conspicuously located were Ruby Dell Scoggins, Sue Powell, Nellie Grady, Mildred Self, Billy Walker, Red Estlack, David McClesky and Robert Nichols who aimlessly fished in washtubs of clear water. Hubert Reavis, followed by a train of jolly supporters, hauled Rosa Lee Grady in a wheelbarrow up and down Main Street.

Those participating like good sports in the ceremonial acts received a valuable certificate of membership which entitle them to all rights and privileges of the club.

### CAMP FIRE TROOP

The Abohahanta Camp Fire Troop met Tuesday in the home of their guardian, Mrs. Hill, for a business meeting. Two new members, Athelyn Drennan and Virginia Butler, were unanimously voted into the organization. The girls intend to do bigger and better things this year than ever before with the help of these new members and others whom they intend to annex in the near future. After a few other business matters had been discussed, Mrs. Hill served the troop lovely refreshments, and the meetings was adjourned until the next meeting, to be held at the regular room of the troop at the dormitory.

### A Worcester (Mass.) college professor recently "sprung" a very complex equation on his class. Cornored and asked what the mysterious symbols represented, by inquisitive after-class students, he admitted he hadn't the slightest idea, but it must be right because he had used it in the same source for years—College News Service.

### Senior Class Rings Arrive

The seniors, worried by a report that their president was ill and would not be able to attend school for several weeks, are pleased to announce that this was only a rumor and that she is back at her post.

The Senior rings have come C. O. D., but those who have already paid for theirs despondently declare that the rings will probably be Christmas presents to them unless those who have not paid cough up the money so that they may be taken out of the office.

Seniors, for the school's sake, wake up. Do you not realize that three weeks of school have passed already and you have made little progress. Juniors, to you, we would say, offer some competition in order that you both may be roused from your slumbers. The Sophs are already suggesting a social. Do you intend to allow them to leave you behind. Like the "Baby Ben Alarm Clock," we have whispered a warning; if you fail to do something, we shall shout.

Several girls gathered Lee's home last Friday to had a chill supper.

### Palo Duro Society

A few of the old, and several of the new members of the Palo Duro Society met Tuesday night, September 18, in the first meeting of the year for the Society. By an almost unanimous vote, Miss Hall, the language teacher, was elected sponsor of the society, and all the members will be glad to learn that she has accepted this position. It was decided that the election of officers for the society would be put off until the meeting on Tuesday, September 25, in order to give the members more time for consideration of candidates.

It is believed that the inclusion of the seniors in the society has given it far more lift and spirit than it has had for several years. It is hoped, however, that more of last year's members will be present at the future meetings than at the first, for the society should not be allowed to evolve into an all-Senior organization, since it is, fundamentally, a college society.

### BAPTIST CANVASS TO BEGIN NOV. 11

TEXAS BAPTIST WILL UNDER TAKE TO RAISE FOUR MILLION DOLLARS

Texas Baptists will undertake to raise \$4,639,087.40 for local church expenses, missions of all types, Baptist schools, hospitals and orphanages during the next Convention year. This is approximately \$50,000 more than the state raised last year. A campaign known as the Every Member Canvass movement has been launched to secure pledges covering the above mentioned budget. The plan of the Every Member Canvass in Texas is to first present the campaign educationally.

The entire month of September is devoted to organization setups and associational and district rallies. The first two weeks in October are to be given to the training of campaign workers. The latter part of October and the first ten days in November is the time for education, information and inspiration. The exact time to actually secure individual pledges from the 576,945 Baptists in the state is November 11th to December 9th.

A state Promotional Committee has been appointed, with Dr. W. R. White, Fort Worth, Chairman; Mrs. Geo. J. Mason, Dallas, Secretary; Dr. J. Howard Williams, Dallas, General Director and State Organizer, and Mr. T. C. Gardner, Dallas, Publicity Director. This committee has planned 17 big mass meetings in 17 different sections of the state to be held September 25th to 28th. It will be recommended at the 17 district meetings that the 3,153 Baptist churches undertake to raise \$150,000 cash for state missions by December 1st. It will also be recommended that the 576,945 Baptists in Texas undertake to raise \$500,000 for the Baptist Cooperative Program,

### Fair Success Is Attributed To Newspaper Ads

Amarillo, Texas, Sept. 24.—"The outstanding success of the 1934 Tri-State Fair, one of the greatest from every standpoint in the fair's history, is a great tribute to the efficiency and economy of newspaper advertising and publicity," said Wilbur C. Hawk, President of the exposition, as its close here. "Sixty newspapers in the great Tri-State territory each carried newspaper advertising for several weeks on the fair with exceptionally satisfying results."

Mr. Hawk declares that this year such forms of advertising as tire covers, window cards, road signs and expensive items were eliminated from the fair budget and the entire advertising expenditure placed with the newspapers of this territory. The result was an attendance much greater than even during the prosperous years and a generally improved interest in the fair.

"This is another striking example of the results to be expected from newspaper advertising and I deeply appreciate the part played by the newspapers of this area in making the 1934 fair so outstanding an event, especially from the standpoint of attendance from such a large territory," said Mr. Hawk.

Judge J. R. Porter, Dr. Oscar Jenkins, Crockett Taylor, Frank White, Sr., and Homer Mulkey attended Federal Court in Amarillo Monday.

Ruby McNeal, Arnold Baten, Catherine Crawford, and Barney Batton visited Mrs. Lois Sibley in Amarillo Monday. The couples also visited the fair while in Amarillo.

which includes missions of all types, Baptist schools, hospitals and orphanages, during the next Convention year.

### Suspension Is Not Fair Says Jones Of Cotton Bill

Washington, Sept. 20. (AP).—Chairman Jones, Democrat, Texas, of the House Agriculture Committee today said he would resist any effort of Senator Bankhead, Democrat, Alabama, to influence the Agriculture Department to recommend suspension of the Bankhead compulsory cotton control act to President Roosevelt.

In a formal statement, Jones, who put the bill through the House at the insistence of Senator Bankhead and his brother, Representative Bankhead of Alabama, said: "To suspend the Bankhead Act now in the interest of a few sections which have over-produced would be unfair to the great drought and flooded areas which have fully complied with the program and which are relying on the value of their excess certificates."

"The certificates, accepted in penalty tax for over-production,

### Business Failures In Texas Less In 1934 Than 1933

Austin, Texas, September 17.—The number of business failures occurring monthly in Texas continues to be small, according to the University of Texas Bureau of Business Research. Failures in Texas during August totaled seventeen, the same as in July but only about half the number for August last year. Liabilities of \$209,000 were 20

per cent lower than in July and 73 per cent below August, 1933. Average liability per failure of \$12,294 was 20 percent lower than in July and 47 per cent below that of August last year. Total assets of the seventeen firms that failed in August were \$107,000 against \$83,000 for an equal number in July, an increase of 29 per cent.

### TEJAS TRIBE

The fourth, fifth, and sixth grades of Chamberlain School organized on the 20th of this month under the name of the Tejas Tribe. It was for this famous Indian tribe that Texas received her name, and it was at the suggestion of the sixth grade pupils, who study Texas History, that the organization be called for this tribe.

Officers for the tribe were chosen as follows: Chief, True Barbee; first, second, and third degree warriors, Bailey Estes,

Mary Dell Heathington, and David Peabody; Medicine Man, was the title given to Martha Jean Hayworth, and Della Mae Heathington was appointed official drummer. These officers were representative of their classes. In the Chapel programs which occur each Friday afternoon, the Tejas Tribe was represented by a reading given by the Medicine Man and a report by Alma Green, member of the tribe. It is planned that the tribe take complete charge of the program at some early date.

Mr. and Mrs. T. M. Pyle and Opal were Newlin visitors Sunday.

## GREATER MOTOR PROTECTION— LOWER OIL CONSUMPTION

# PROVED

AT Indianapolis Motor Speedway, under AAA supervision (Sanction No. 3001), New and Improved Conoco Germ Processed Motor Oil was tested against five other nationally known motor oils.

Six identical stock cars were broken in on oils assigned them by lot. Each car was filled with five quarts of its assigned oil—no more added—and driven until the motor was wrecked.

New and Improved Conoco Germ Processed Motor Oil carried its car 4,729 miles—3,105.8 miles farther than the first oil to fail and 1,410.2 miles farther than the best of the five oils!

Could you ask for better proof of greater motor protection and lower oil consumption? Drive into a Conoco Red Triangle Station today and fill with New and Improved Conoco Germ Processed Motor Oil!

## CITY SEWER ORDINANCE AMENDMENT

Be it remembered that there convened in recessed regular session the City Commission of the City of Clarendon, on the 22nd day of September, 1934, all members thereof being present, to-wit: W. Martin, Mayor, T. F. Connally, Commissioner, H. C. Brumley, Commissioner, Mae Shaver, Secretary, and among other business that came on to be considered was the following motion:  
It was moved by Commissioner T. F. Connally that Section 29 of the Sewer Ordinance be further amended so as to read: after such further amendment, as follows: to-wit: "Any of such users failing, neglecting or refusing to pay such charges as fixed and prescribed in the amendment to Section 29 of the Sewer Ordinance, on an amendment bearing date of November 7, 1933, on or before the 10th day of the month next succeeding the month for which such monthly charge is due, shall have the use of such sewer discontinued and be deprived of the use thereof, and the same shall remain discontinued and such user deprived of the use thereof until all past due service charges are paid in full, and \$5.00 each paid in advance for re-establishing the use of the sewer and the continuance of the service of such sewer."  
The motion was seconded by Commissioner H. C. Brumley.  
After a full discussion and thorough understanding, and a calling for the question by the mayor, Commissioners T. F. Connally and H. C. Brumley voted AYE; voting NO: NONE.  
And the amendment embodied in such

## CATTLE BUYING PROBABLY ENDED

FEDERAL GOVERNMENT INSTRUCTS TEXAS TO DISMISS BUYERS.

Austin, Texas, September 22.—According to C. Z. Crain, the cattle program appeared to be definitely ended. Crain said he had been informed by George Barnes, representative of the Agricultural Adjustment Administration, which supervised the program in Texas, that federal authorities had instructed him to dismiss his staff of buyers.  
"I understand the total quota for Texas has been exceeded by 100,000 head and the chances are that no more cattle will be bought in Texas," Crain said.  
"Nearly all of those we have bought have been shipped and we have enough meat in storage to run our 19 beef canning plants about a week longer. Then we will have to close these plants, at least temporarily. Later they may be used for a vegetable canning program under a system to control surpluses of vegetables when the price has gone below production costs or when the market has been glutted with a particular variety of vegetables. Of course not all canneries could be operated under this program and chances are none could be operated full time."

**Post Office Cafe Being Opened Saturday Morning**

# Electric Service is Cheap

West Texas Utilities Company has made large investments to provide modern facilities for electric service in Clarendon, even ahead of present day requirements. It is supplying over double the amount of service per customer as was supplied some few years ago. It has made six domestic rate reductions since 1927 and is now collecting less per customer than it did in the days when it was supplying near one-third the present amount of service. In addition thereto, it is shouldering for you much more of the tax burden than in previous years.

Your part is to further increase your use of facilities provided. Electric service is one of the most valuable commodities of the household, yet it is sold at the lowest prices, takes only about 1 per cent of the workman's total household expenditures.

The present domestic rate schedule in Clarendon will provide 515 kilowatt-hours per month for what only 84 kilowatt-hours would have cost you in 1927. A simple way to figure your electric service in Clarendon on a completely, electrified home is as follows:

**First 50 Kilowatt-Hours at 7½c  
All Over at 3c**

When water heater service is controlled so as to use investment in capacity already provided for the range, such added service costs only 1c per kilowatt-hour which makes such total service cost for the completely electrified home in Clarendon even lower than any of the four largest cities in the State of Texas.

**Electric Service is Cheap. You Should Use More of It.**

## Donley County Cattle Purchases In Three Weeks Totals Over \$25,000 Benefitting Sixty Local Producers

County purchases of cattle by the government in the three weeks operation before buying was temporarily stopped, will bring over \$25,000 to Donley, and direct help will be given sixty cattle producers, aside from the indirect benefits to business in general, and the saving in feed which would have been required for the winter months.

Name of producers on the list of cattle purchased as shown in the county agent's office, proves the fact that aid has been extended the little man just as well as to the owner of large herds, and shows that government policy of spreading its helping arm over all the people has been carried out in Donley.

Checks for about \$3500 of the total purchase money has been received and distributed by County Agent Broun, and other checks will be forthcoming from week to week.

Following is the list of producers, number of cattle condemned and sold, and even dollars received for same in tabulated form as taken from the records of the county agent:

### "THE CHURCH, ITS PURPOSE AND MISSION"

We learned in a previous lesson that the Bible is the inspired word of God and that it was given to humanity to reveal Christ as the world's Saviour (John 5:39-40; Matt. 1:21) and the plan of salvation and the plan and program of the church. We also learned, when, where and how the church was to be established and the results of its program. Today we wish to study "The Church and Its Purpose and Mission."

The reason for the church's existence is to glorify God by its holy life and good works, to mutually edify one another for the higher life and to win the world to Christ. It is the whole business of the whole church to win the whole world for Jesus.

The Church is God's greatest work on earth, as it is God's only life and soul saving institution on earth. The mission of the church is to evangelize, to preach and teach the gospel and conditions of salvation to the whole creation. It exists to save the lost, to give Christ to the world. It is a part of the church's mission to teach man his duty to do to his fellow man and to himself.

The church was established to make known the wonderful love of God and his desire to save men from their sins. This should be the first mission of the church. The church has no right to change any of the laws outlined in God's word but must

faithfully declare the full truth. When God outlines a program for man to perform, man must fulfill every item in the program to obtain the end desired. Many cases can be cited to prove this point. For instance, Joshua before the walls of Jericho, Naaman the leper, the Ark and the flood. There was but one way of escape provided in the days of Noah. The Ark is a figure of the Church in many points. Those who accepted God's plan and condition were saved, those who refused the method of escape offered were destroyed. The church as God's life and soul saving institution on earth today, must make known God's plan, as it is the only plan that will bring salvation. May we be fair with it and go back to His word and learn what He desires of us.

Next lesson—"The Church Named."

W. E. Ferrell, Minister First Christian Church, Clarendon.

Nita Cudd, Dortha Dunbar, Norma Ruth Cole, Audre Lofland, Lorce Webster of Memphis were guests of Eugenia Noland and Dorothy Jo Ryan Sunday.

### The Broncho Range—

(Continued From Page Four)

#### Socrates Of Sports

This 'n' that—

Master O. C. Watson Jr. arrived home the other day after a few weeks' visit with Mr. Sul Ross and his boys, the Lobos. O. C. says Mr. Ross' boys play too rough, thus the reason for Junior not staying any longer. If Turnbow, the man who hails from points west, had as excellent control of the regions pertaining to the medulla oblongata, cerebellum et al. as he does or those flying feet of his, the Bronchos would have a lot better player. The Bronchos' passing ability was notably poor Friday, mostly on the receiving end. That no-hit, no-run game of Paul Dean's the other day was certainly a masterpiece. The S. S. picks the St. Louis cards to beat the Giants out for the pennant, although they are behind at present. Sibley, the man mountain from Martin, was just another tackle in what time he played Friday; he should do better. Rankie Reavis, a real track star, and his colleagues are greatly handicapped in their practice because of the lack of a good track. What about it, school officials? Why not provide one? The Broncho's game Friday with Price Memorial was full of fumbles as are most early games.—Strawn and Holtzclaw played great defensive football for Clarendon. Paul Greene of the local squad, and Sweet of the Memorial team proved their abilities to lug the leather for their respective teams.—As a forewarning the McLean Tigers swamped Miami 36 to 0 in a conference game. Looks bad for the home team.—Tomorrow the Clarendon High Bronchos will journey to Chillicothe where they will take on the strong Chillicothe Eagles. This will be a severe test for the Bronchos, and everyone should make an effort to accompany the team if he desires to see what promises to be a bang-up football game.

An interesting feature of this year's squad is the youth represented, especially in comparison with their ability to play good football as was exhibited last Friday. Below are the ones who started the game against Price Memorial and their respective ages. This eleven is truly representative of the whole Broncho squad as to age.

- Powell, End—15.
- Martin, End—18.
- Easterling, Tackle—16.
- Boston, Tackle—16.
- Strawn, Guard—16.
- Butler, Guard—16.
- Barrow, Center—15.
- Word, Fullback—17.
- T. Holtzclaw, Halfback—15.
- F. Holtzclaw, Halfback—17.
- Greene, Quarterback—17.

Rosalyn Bass went to Memphis to see her new little cousin Sunday.

### C. H. S. Dance

#### Orchestra Organized

To add to the many school activities which have been started this year, a class dance orchestra has been organized. This group of musicians is composed of college students who have proven their ability in the past. A name has not been chosen as yet for these merry music makers, but they promise a really melodic type of dance music. The orchestra is now prepared to fill engagements at very nominal charge. Robert Nichols is the manager of these future Paul Whitmans.

There are six Roosevelts enrolled in Harvard College at Harvard University this term, it was announced this week. They are Franklin D. Roosevelt Jr. and John Roosevelt, sons of the president; Kermit, Cornelius Van S. and Theodore (III) Roosevelt, grandsons of the late President Theodore Roosevelt, and Henry Parrish Roosevelt.—College News Service.

#### KICUAWAS MEET WITH GUARDIAN TUESDAY

The Kicuawas met with Mary Francis Caraway Tuesday afternoon, September 18, instead of the usual meeting day, Wednesday, because some of the girls wished to attend the Tri-State Fair at Amarillo on that day. The girls were asked to enlist the aid of their fathers and brothers to build the sales stand of the troop at the foot-ball field at some convenient time. The troop has a small number of cook books which they are planning to ask the Girl Scouts of McLean to sell in that city for them. After discussing plans for a social, the meeting adjourned.

#### Dalhart Texan To Publish Anthology Of Poetry Nov. 15

### WHITEFISH

(By Vida D. Byerly)

School was closed last Wednesday to allow the children to help with gathering the crops. No date was set for the reopening, however a large number of the patrons expressed the belief that 3 or 4 weeks would be sufficient time for work this fall.

Misses Effie Worsham and Eulene Sherwood of Alanreed spent Sunday with Misses Marguerite Crisp and Lula May Dumble.

Miss Willie Ana Garmon returned to her home in Clarendon Saturday.

Mesdames Frank and Enloe Crisp and Miss Mabel Crisp made a business trip to Clarendon Friday.

### AUDIT STOPPED CATTLE BUYING

\$25,000,000 SPENT IN BUYING  
1,000,000 HEAD OF CATTLE

Austin, September 17.—The federal government's cattle buying program in Texas was halted abruptly Tuesday, it was announced today by C. Z. Crain, head of the commodities distribution department of the Texas Relief Commission.

Crain said he was informed of the action in a telegram from George W. Barnes, representative of the Agricultural Adjustment Administration at College Station. Cattle have been bought by Agricultural Adjustment Administration representatives, turned over to Texas Relief Commission county administrators, who, as representatives of the Federal Surplus Relief corporation, have been responsible for shipment of the livestock from concentration points out of the state and to processing plants in the state.

The wire explained that the order was issued to permit AAA officials at Washington to make an audit of all operations. It did not say when the program will be resumed.

Crain hastened to assure ranchmen that all cattle bought by AAA representatives will be received by the Federal Surplus Relief corporation, even though they may not reach government pens for several days. He estimated that perhaps 20,000 head will be so received. These will not be shipped out of state but will be processed for canning in Texas plants. With approximately 2,000,000 pounds of boned meat on storage at Fort Worth and San Antonio, it was believed the 19 government plants in Texas can be kept busy until buying is resumed. There are some 8,000 persons employed at these plants and, with cattle distributed in the fresh meat program, the state itself is able to consume some 3250 head per day.

Crain estimated that between 800,000 and 1,000,000 head of cattle have been bought and that the government has expended approximately \$25,000,000 in the program in Texas.

### ASHTOLA

(By Floy Dell Dawey)

Mr. Dillard arranged for almost all of the children in school to go to the fair. The school bus was used and first the primary grades were taken; then, last Thursday the High school students, including those who were going to Clarendon were taken and enjoyed the unusual displays and amusements. Also Miss Pauline Shelton and Miss Garland helped to chaperon the trip last Saturday.

Mrs. George Van Eman of Leavenworth Kansas and Mrs. R. A. Riley of Kansas City, Missouri have been visiting in the home of their parents and grand parents, Mr. and Mrs. H. W. Lovell.

Mrs. Brown from Wyoming is visiting her brother, W. E. Gregg.

Mrs. Roy Nix and Mrs. Jim Nix and daughter Dolores, and Welch Nix and family of Farwell visited W. E. Gregg last weekend.

Mr. and Mrs. Walter Gregg of Lelia Lake visited W. E. Gregg and family Sunday.

Mr. and Mrs. George Warrick and Grady Henson and family and Fred Mandgrofsky enjoyed the evening until a late hour with W. E. Gregg and family Saturday night.

M. L. Baker, Jr., visited in Abilene this week-end.

Grace Hardie visited friends in her home town, Memphis, Thursday.

Mary and Sue Graham visited friends and relatives in Amarillo over the week-end.

Lu McClelland, Jr., spent the week-end with Doyce Graham.

Keith Swinburn and Norris Dewey spent Saturday night with Willard Cooke.

Mr. and Mrs. Taylor Bowles and Mrs. Guy Beck of Altus, Oklahoma arrived in Clarendon Tuesday to visit Dr. and Mrs. Mark Stricklin. Mr. Bowles and Mrs. Beck returned to Altus Wednesday morning, but Mrs. Bowles plans to visit her sister, Mrs. Stricklin, a week.

### "THE CHURCH NAMED"

The questions dividing the religious world of today are not questions of interpretations, but questions of authority. No one objects to a name that is Scriptural; neither should any one wear a religious designation that is not found in the Bible. All human names are unscriptural and should be discarded.

We have found in prophecy that God was interested in the church many years before it was established and we will also see that He is interested in the church of today and that He expects the church to wear the name that was given to it in the beginning.

The church belongs to Christ (Matt. 16:18). He purchased it with His own precious blood, (Acts 20:28).

The church is the body of Christ, (Rom. 12:4-5). He is the Head, (Eph. 1:22-23). He is the true vine, and the individual members of His body or the branches, (John 15:5). Therefore the members of the body should wear the name of the Head of the body.

The church is the bride of the Redeemer, (Rev. 21:2; 22:17). The bride should wear the name of the bridegroom. Therefore the church should be, "Christ's Church" or the church of Christ. To take any other name would be to dishonor the Bridegroom.

The scriptural names used in the New Testament referring to the church are, "The Church of God," (Acts 20:28; I Cor. 1:2; I Tim. 3:5.) "The Church of the Living God" (I Tim. 3:15.) "The Body of Christ" (Col. 1:24; Eph. 4:12; 5:23.) "The Church of Christ" (Rom. 16:16; Eph. 5:23.)

All other names are sinful and unscriptural and should not be used. In our plea for Christian Unity on the bases of the Bible, we believe a name for the organization can be selected from the Bible that can and should be accepted by all who believe in God and trust in His word. In considering prophecy concerning the name, read Isa. 62:1-3; 65:15; Amos 9:11-15. (In our next lesson we will consider the name of the members of the Church.)

W. E. Ferrell, Minister First Christian Church, Clarendon.

### FORT WORTH HOTEL IS READY FOR FALL RUSH

Fort Worth, Texas, Sept. 18.—(Special).—In anticipation of the early fall business revival, which includes the resumption of horse racing at Arlington Downs, Dallas State Fair track and the State Fair itself, and all of which undoubtedly will attract thousands of West Texans to the twin cities in October and November, the management of the Worth Hotel, Fort Worth, has completed a program of enlargement and redecoration, which more than definite puts this hostelry in a class by itself among the better class hotels in North Texas. Spacious new dining rooms and banquet halls have been added, and a costly system of ventilation installed in the lower floors, centering about the Worth Hotel coffee shop and mezzanine dining room, which enjoysiced air during the hot months from the same plant.

West Texans for many years have made the Worth Hotel headquarters and it is the keen desire of Jack Farrell, manager, well and favorably known through the great Southwest as a host par excellence, to concentrate his efforts toward gaining additional patrons from the large group of visitors from West Texas during the fall months.

There will be no increase in rates at the Worth Hotel, according to Mr. Farrell, who has built an enviable clientele through the very low rates in effect at the Worth Hotel since its inception, and he declares that the Worth Hotel's program of expansion and redecoration is the hotel's contribution to the nationwide recovery schedule, and to assist in maintaining the Worth Hotel's position at the top of the list of hosteries, which strive to be "homes away from home" for their respective patrons.

The Worth Hotel, and its management, has been keenly interested in West Texas, and is represented every time the Fort Worth Chamber of Commerce charts a trade trip into that territory. Excursions have been made to Brady, Menard, Seymour, Abilene, San Angelo, Brownwood and other points too numerous to mention, for Manager Farrell is a keen believer in the old fashioned adage that friends who visit him like to have him visit them. Which is just another way of saying that the Worth Hotel reciprocates the patronage West Texas and West Texans have given it, and to send word down the line that West Texans will find the latch-string out when they visit Fort Worth, where the West begins.

Evel Alexander of Kilgore spent the week-end in Clarendon.

### A LITTLE BIT OF EVERYTHING

By B. Powell.

In the News week before last we carried an ad that free wood would be given to persons clearing the land the wood was on. The ad was surely answered and we guess by now the trees are falling fast and furious on that land. This is further proof the ads of The News are read and pay profitable returns.

On the streets Saturday we observed an Easterner smiling in wonder as he looked at some of the cowpuncher boots being propelled up and down the streets by long and sturdy legs. We guessed he was really thinking he was "way out west where men are men." Of course if we were to go to Africa we would smile in wonder as we saw the leg bracelets worn by the female natives of that dark continent. BUT—there is a quite a large difference between the two

### LIBRARY NOTES

(By Mrs. C. A. Burton)

When I am in another town and have an hour to spare, I always spend it in their library if they have one. Recently it was my pleasure to have a little time in the Potter County Library, and the thing that impressed me most was the splendid support given the library by the Women's Clubs of Amarillo. One of the staff told me that practically all the money they had had for new books for a long while had been given them by the clubs, one club having recently raised two hundred dollars for them. The women of the clubs have realized the invaluable help the library is to the children of the schools as well as the adult life of the city, and have made its welfare one of their chief objectives.

It seems that the Pampa Lions Club has been one of the best friends of the Pampa Library, giving their hearty support to all their efforts. At Port Arthur the building and a large part of the books were the gift of one woman in memory of her husband. And again I found the clubs of the city making the library their chief interest—raising money for new books and things of that kind. The head librarian told me of the splendid cooperation between the City Library and the school libraries. When the schools close for the summer, they place a large part of their books in the City Library for the children's use through vacation time, and these are returned to the schools in the fall. Of course these are free libraries, their financial backing being such that they are not forced to charge for the use of the books in the life of a child. They have seemed to think they were for pleasure only, and that when serious school works begins, then general reading must end. They are overlooking the fact that the child who reads general literature has a much readier grasp of the contents of a text book than has the child who does not. All teachers will vouch for this. And the average child in the grades does very little school work at home, therefore has almost as much time for reading as during vacation. Every book read is that much gained—a forward step in his education.

The Junior High pupils are making good use of our books in their outside reading. They are doing it enthusiastically, and getting some splendid results.

S. R. Ranganathan in "The Modern Librarian" says the phenomenal spread of the library movement during the last fifteen years in Soviet Russia has resulted in such a widespread love of reading that a reading room is not infrequently found even in the lobbies of cinemas where the audience waits for the next performance. According to the same writer, Japan, which had less than two hundred libraries at the turn of the century, has now over five thousand. The writer goes on to say that public library service—well planned on a national scale—is necessary for the progress and well being of a people.

Reversing its former policy of banning the publication of classical children's literature, Soviet Russia is now issuing the old favorite in hundreds of thousands of copies. The first two books to be published in translation are "Robinson Crusoe" and "Gulliver's Travels." These are to be followed by the fairy tales of Anderson, Grimm, Perrault, and Haaff. The success of a book in one country is no guarantee that it will find favor in another. Upton Sinclair's novel, "Sylvia's Marriage," sold only two thousand copies in this country, whereas in England the sales have passed the hundred thousand mark.

pieces of "clothes." Our boots denote an occupation, while the "leg bracelets" denote superstition, and a desire for ornament. Of course we couldn't take time off to explain all this in detail to the Easterner, but we left him in silence, because we knew before long his thoughts would travel to the old time history of the West, and he would be rewarded. Way back then our men—and some women—were quick on the draw, and fast with the thumb fanning.

One Clarendon man has contributed to the Panhandle-Plains Historical museum an article of inestimable value. Namely, the model replica of the original Goodnight home made by Mayor J. W. Martin. The News carried a photograph and an article about this several weeks ago, and the reason we dwell on the subject is because we think Mr. Martin has done something noble, and this writer commends him for his forethought in wishing the home of Col. Goodnight to be preserved in the minds of the visitors to the museum at Canyon. Our country DOES have a history. And 1875 when Goodnight entered Palo Duro Canyon, was a long time ago. May the shrines of the Panhandle be forever preserved.

And speaking of the shrines of the Panhandle, all local and civic organizations have been called upon to work out their particular show places, and historical spots to be held in reverence, for the different Pre-

Centennial Fetes which will be held over the state of Texas before the date of the Centennial, which will be held in Dallas in 1936. We urge the organizations not to delay in this work. Do not wait until the last minute to perfect plans for dedicating these historical spots. Cooperation of the people must be had if our proposed Panhandle fete is to be a success.

As the title of this column is "A Little Bit Of Everything" we will state here that we do sometimes have serious thoughts as well as some nonsense. We titled this column so we would not have to confine it to nonsense, all the time.

We have not received any information as to whether or not the watermelons on the court house lawn floated during the Clarendon flood.

And we might ask this question—Just how near did the Clarendon Flood come to being a world wide flood? Didja ever think of that. No! I am not trying to scare anyone—for the Bible somewhere, I believe, says the world will be destroyed by fire! So after all, I don't believe the Clarendon Flood would have gotten any higher than our necks. Then that presents more thought. What about the short men's chances against the tall men, when the water would get that high?—Oh, this is getting on my nerves, and before long I will feel water lapping around my feet.

We hope someday to see one

or more drainage ditches here which will carry off the excess water and save the trouble of scooping mud from our homes and stores. OR, shall we all have to keep a collapsible rubber boat around handy?

In Emporia, Kansas the city government placed the residents on their own honor to use not more than four inches of water in their bath tubs in which to bathe, during the drouth now passing on into history. There was an acute shortage of water. Just the other day the city was drenched with a bountiful rain, so now the presidents of Emporia are "Singing in The Bath Tub."

Did you notice the nice crowd in town Saturday? Seems as tho' we are not far from the "Happy Days are Here Again" era. Let us hope so at any rate.
