### Pledge

Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotic love for Texas' beroic past; my confidence in its glories that are to be. . . . . .

#### CLARENDON, LET'S SHOW OUR GRATITUDE!

The News doubts if there is a person, young or old, in the entire Clarendon community who does not feel a real sense of gratitude and appreciation for Dr. B. F. Collins. Claremore, Oklahoma, physician, who rendered such valliant, timely and unselfish service to Clarendon boys and men who were poisoned near Tulsa on their return trip from the Century of Progress at Chicago.

Now it is a fine thing to feel gratitude, it is noble to hold appreciation, but it is a finer thing—a nobler thing to show such gratitude and appreciation in a tangible way.

Let's show our composite community appreciation to Dr. Collins in a way he will never forget the Texas town which not only says it is grateful, but takes positive, decided steps to demonstrate its feelings.

Let's invite Dr. Collins and his good wife, who aided him in ministering to our suffering boys, to be the guests of honor at our Annual Father and Son's Banquet here This Fall. Let's provide transportation for these two Good Samaritans from our neighboring state and honor them as Panhandle people know how.

Clarendon, Let's SHOW our gratitude.

#### ALLRED THE WORTHY AND GENEROUS VICTOR

Winning the nomination for Governor of Texas in the August run-off with all other candidates biting at his heels and using their influence against him along with other powerful interests who selfishly knifed him, proves Jimmy Allred a courageous and redoubtable warrior and well worthy of victory.

Reading his sincere expression of appreciation for his majority and honors thereby conferred, one cannot but be impressed with his evident feeling of grave responsibility in taking up the direction of government in Texas in so crucial an hour. It takes a big man to realize the bigness and solemnity of responsible position such as chief executive of the Lone Star State.

Noting his ready declaration of "no bitterness' toward those who opposed him, his earnest invitation for all to join him in bringing relief to Texas needs, and his urgent hope for a united effort from friend and erstwhile foe for the good of Texas, one cannot but declare Jimmy Allred a most generous victor.

Governor-elect James V. Allred approaches the threshhold of the Governor's office with admirable humility and worthy aims. His own open generosity will add thousands of friends to his forces for the public weal.

#### THE ALL-PANHANDLE LEAGUE

The organization of the Panhandle League is of first importance to the Panhandle country and its potency will be measured by how general is the adherence and support in the twenty-six counties it proposes to serve.

If it is dominated by those who sincerely seek to promote the general interests of this section-if it is represented by those who demand a fair and impartial consideration of the demands of all the counties, without bravado and bluster—if it never substitutes noise for logic and appeal-if it speaks with all the Panhandle behind it—then it will be a great and lasting benefit to the name and citizenship of the Panhandle country.

In consideration of the worthiness and need for such an organization it should be remembered that the various projects of the federal government are in process of proving and stabilizing-many of them are here to stay.

The Panhandle League is not simply for today or tomorrow—it will be operating for the welfare of this people and this section for decades to come if its support is general, its strength is established and its leadership farvisioned and courageous.

Before condemning a writer's work because it is not original, think how much worse it would be if it were.

Human rights have taken first place over property rights in the New Deal and all that it portends.

#### IF JUDGE ELY GOES-THEN WHAT?

If next February, Governor Allred neither re-appoints Judge W. R. Ely as member of the state highway commission, nor names a West Texas or Panhandle man to the post, it may be that Panhandle people will have real cause to complain of neglect.

Judge Ely has a record of kind and considerate attention to the rightful appeals of West Texas people insofar as he was able to aid them, and The News doubts if a man in all our territory would be found more acceptable to West Texas as a whole.

We hope Judge Ely can be re-appointed and will accept the appointment if it should come. Failing that, we trust some able man of sympathetic understanding of the problems of the Panhandle and West Texas will receive he appointment of the governor and the confirmation of

It is a matter of greatest importance to nearly half the area of the State.

#### REGULARITY IN ADVERTISING ESSENTIAL

Karl E. Kilby, publisher of the Raton (N. M.) Range, directed the following striking message to retail merchants to emphasize the necessity of regularity in advertising as in every other business endeavor:

"You sweep out, you trim the windows, you dust off the counters, you make up new price cards, you unpack and arrange new stock, you plan your merchandise showings, you do these and a hundred other necessary jobs REG-ULARLY in the normal conduct of your business.

"But haw about the biggest job of all—contacting the people and telling them repeatedly that you are in business and have the goods they need. Do you do that REGULAR-LY? Do you figure you are going to get your share of the available business if you don't tell folks about your merchandise or your service at REGULAR intervals instead of doing the job spasmodically or not at all?

"By all known tests, experience and thousands of records, the acknowledged best-of-all medium for REG-ULARITY is adevertising in the local newspaper. A newspaper going REGULARLY into the homes of your possible customers, not only in your city but the surrounding territory as well, makes it easy enough for anyone to see how your newspaper offers you the finest kind of a vehicle for carrying your business message REGULARLY to the

"And don't think these folks will miss your REGU-LARITY of advertising. They look for their newspaper REGULARLY, READ IT REGULARLY, study its advertising (yours, if it's there) REGULARLY.

"And what's more, you'll find they are buying fairly REGULARLY, too, if you'll just check up, especially with the advertisers who do use space REGULARLY.
"YOURS FOR MORE REGULARITY IN ADVER-TISING.

Dr. Collins, the Claremore physician who did such unselfish work for the Clarendon delegation of Scouts and others who were poisoned near that city in Oklahoma, on their return journey from the Century of Progress, has written a letter here to Frank Whitlock in answer to a telegram Mr. Whitlock sent him about the safe return of the party here. ### Famed Kid Stars In Fair Musical

Dallas, Texas, Aug. 29.—The Hudson Wonders, most famous of all kid stars of the stage, who have just returned from a triumphant tour of Europe which extended over a period of three years, will be among the featured acts in "The Show of A Century," the musical extravaganza, which has been booked as the auditorium attraction at the 1934 State Fair of Texas, Oct. 6 to 21.

Ray and Gerry Hudson became famous several years ago and European theatrical managers began clamoring for their service es, resulting in what is now a record for the longest European tour ever made by Americans. The tour took the two kid dancers and singers to England, Belgium, painful circumstances. Here's the Holland, Sweden, Denmark, Norway, France, Germany, Austria, Italy and North Africa. On the tour they played before the crowned heads of England, Denmark, Belgium, Sweden and the
