I will think—talk—write . . . Texas Centennial in 1936! This is to be my celebration. In its achievement I may give free play to my patriotic love for Texas' heroic past; my confidence in its glories that are to be . . .

HOW MUCH ARE YOUR TAXES?

If you have an annual income of \$2,080 or less, how much of it goes for taxes?

There's a good chance that you will say "none", inasmuch as your income is below the level reached by the income tax, and you may have little or no property on which taxes must be paid.

But, according to an article by Royal F. Munger in the Chicago Daily News, your taxes come to some \$480 a year. One hundred and twenty dollars of this represents taxes included in your rent—the landlord pays them and passes the cost on to you. Ninety-six dollars is included in the price of your family's food—the farmer, the processor, the distributor and retailer pay them, and they become part of the cost of everything in the grocery store. Twenty-four dollars is included in the clothing, furniture and similar items you and your dependents purchase—here again, manufacturers, middlemen and retailers are all heavily taxed and must pass their taxes on to the public.

This totals \$240. Finally, says Mr. Munger, other indirect tax burdens that affect the cost of living are estimated to take \$240 more out of your family's \$2,080 annual income. On a percentage basis, as a result, you pay almost twenty per cent of all you earn to government.

Too many people have accepted the fanciful theory that the rich pay all the taxes while the rest of us get the benefits for nothing.

No one escapes taxes—no one ever will. And the average man, with a small or medium income, would gain most from retrenchment in tax levies, regardless of the guise under which they may be labeled.

THEY DON'T MIX

Whether you are "wet" or a "dry," this fact will interest you: Repeal of prohibition has resulted in a tremendous increase in drunken driving, according to reports of police bureaus, safety departments and similar organizations. No one knows whether this is due to people drinking more now than during the prohibition era—but it is a fact that more people are taking drinks and then getting behind the wheels of their cars.

A driver does not even have to be noticeably drunk to be dangerous. Investigations show that very moderate doses of alcohol produce the following effects on the average driver: Slower reactions, less uniformity in response, a narrowing of the field of attention, a rise in self-assurance which breeds recklessness, and a general decline in mechanical efficiency. The change occurring may be relatively slight—but when the driver is in sole charge of a hurtling mass of metal, it becomes important indeed. A man who shows few signs of his drinking, and is a pleasant and rational companion, may become a menace to the public in his car.

The "wets" of the country should take the lead in discouraging the drunken driver. He is one of the worst dangers to the cause they espouse—"alcohol on the highway" is certain to be used as a potent argument for prohibition. Today, with liquor legally on sale in the bulk of states, legislation to curb drunken driving should be made even stiffer than in the past—and should be enforced to the letter. Alcohol and gasoline don't mix.

1934 HOME TOWN EDITION DECEMBER 13TH.

According to our custom of long standing The Clarendon News will issue its 1934 Annual Home Town Edition on Thursday, December 13th—just ten shopping days before Christmas.

It is our plan to use a different method in compiling the copy content this year, and we believe that the innovation will be of especial interest to the reading public of this section.

As usual, the Town Edition will go into every home in Donley County and nearby trade territory, and we hope it will prove the most notable edition in the history of the paper.

MUNITION MAKERS AND ARMISTICE DAY

John Knott's cartoons in the Dallas News are always strikingly apropos, but to our mind he never produced a better one than appeared Sunday, November 11th—Armistice Day—when he depicted a bloated, saucy munition manufacturer standing with bowed head "at attention" in honor of Armistice Day, but surrounded on all sides with cannon shells, shrapnel and engines of war.

From all sources in Europe comes distributing rumors and news of events that openly presage another war. Many world-wide authorities say that war will come within the next few years at the latest—maybe much sooner. All the while munition makers the world over are deliberately planning to add many ugly millions to their profits from another war.

Ah, the mockery of it—when such men and those who believe like them—when they stop to render homage to Armistice Day, secretly praying and planning for another war that will kill and maim, and choke, and sear, and blind, and craze, and break millions of hearts, and reduce to bankruptcy men and nations.

War must cease and the peoples of every nation must rise to avert such a monstrous maelstrom or else we all perish by the sword.

ANOTHER STATE PARK IN PROSPECT

The Texas Panhandle may be the proud possessor of another state park if plans recently formulated at Quitaque are realized. Counties represented in the meeting were Briscoe, Floyd, Hale and Hall, and a strong organization was perfected with Col. R. P. Smyth of Plainview as president. The proposed park site is the well-known Quitaque Falls, one of the beauty spots of the Panhandle country.

Effort will be made to interest the state parks association to take over the project and beautify and improve the grounds through CCC workers, as is being done in other sections of Texas.

Quitaque Falls runs an estimate fifteen million gallons of water daily and the promoters hope to impound a great lake with a dam, with propability of an irrigation project being included.

Panhandle people, generally, will applaud this move, for the project is deserving of the united support of the entire section.

DEVIL DON'T ASK FOLKS

The devil don't ask folks if they want to go with him, but he holds out inducements. If folks follow in the lead of the devil, they should not be surprised if they go to the devil. And while other folks are saying "What a pity," the face of Satan will be all smiles. He has landed another big sucker.—Higgins News.

A new motion picture is named "Here Comes the Groom." It is about time that the poor guy was getting a little attention.

FINER FOODS

You Need Refrigeration Every Day of the Year

There are only a few days each year that the temperature is low enough for the proper refrigeration of foods. Although foods may not spoil during cold Fall weather, the temperature is not low enough to prevent the growth of bacteria, the real danger of poor refrigeration.

The electrical refrigerator's economy and dependability of operation has been proven. The saving on foods alone makes the investment of your money amply repay you.

To protect your family's health, proper refrigeration is a necessity every day of the year. The cost is no greater than obsolete methods of refrigeration.

Low incentive rates make it possible for you to secure the maximum of benefit at the minimum of expense. Buy safe—buy dependable electrical refrigeration.

Relief Governed By New Laws

Clifford Davis, county relief administrator has asked the News to print a part of new laws passed which will govern the procuring of relief by clients. A careful restriction must be made by the administrator and only those entitled to relief can be given assistance.

Two phases of the law are as follows:
Sec. 35. Any person or persons who shall knowingly make any false statement or misrepresentation in order to procure any sum or sums of money or other relief provided by this Act, or secure any relief or funds under any other than his true name, shall be deemed guilty of a misdemeanor, and shall, upon conviction, be punished by a fine of not less than Ten Dollars (\$10.00) nor more than Fifty Dollars (\$50.00) or be confined in the county jail for a period not exceeding three (3) months, or by both such fine and jail sentence.

Sec. 36. The Board of Control, as such members of the Texas Relief Commission, the Director appointed by them, and the Assistant Director by them appointed, shall have the power to administer oaths or affirmations relative to the discharge of their duties, and in an inquiry relative thereto, and any person testifying falsely before such Board of Control, or such Director, or Assistant Director, shall be subject to the pains and penalties prescribed in the Penal Code of the State for false swearing. No person or family shall receive any relief, either direct or work, unless and until such person or the head of such family shall have subscribed a statement under oath duly administered by some person authorized to administer oaths under the laws of this State or by some person authorized to administer oaths under the laws of this State or by an officer and, or case work-er for the State Board of Control or any County Relief Board, and all such officers and case work-ers of the play is "Yommie Yonson's Yob."

Frances Walls is the new pupil for the 7th grade this week. The community young folks are working on a program for the pie supper.
