C. Of C. Banquet Tickets Will Go On Sale Saturday

Williams T cells

By Fred L. Williams

Smoothing It Over—

One of the best current newspaper stories was carried in a recent issue of The Publisher's Auxiliary, and more recently in the highly estimable "We Saw" column of the Memphis Democrat. It ran something about like this:

A newspaper publisher had disagreed with the city council of his town, and was pervaded with a feeling of bitterness. In one issue of his newspaper the following statement was published: "Half the city council members are idiots."

Naturally, the council members resented the assertion, and the publisher was approached with a demand for a retraction. He willingly obliged, and in the next issue this statement appeared: "Half of the city council members are not idiots."

Birthday Ball—

A feature news item in this issue calls attention to the fact that the annual Birthday Ball for the President will be held here again this year. Homer Mulkey, who has always taken an active interest in crippled children's work, has taken the responsibility of staging the affair, and is due the whole-hearted support of the community in "putting it over." Mr. Mulkey is acting as an individual in the undertaking. Seventy per cent of the net proceeds, however, will go into the local crippled children's fund, and the other 30 per cent will be sent to the Georgia Warm Springs Foundation to assist in the battle it is waging against infantile paralysis.

Clarendon citizens are urged to purchase tickets whether they plan to attend the dance or not. The proceeds will go for a most worthy cause.

And if you do plan to go, the date is Friday night, January 31; the place, Clarendon Opera House; the music, by Harry Hickox and his 10-piece orchestra.

An Apology—

This writer wishes to apologize for several mistakes which appeared in The News last week. In the political announcement column, in the introductory paragraph, it was stated that the candidates had announced for office "subject to the action of the Democratic primaries in July and August, 1935," which of course, should have read "1936." And then as the result of another mental lapse the designation, "re-election," was omitted under the names of present office holders who are out for the same office.

And, just to make it a perfect day, politically, for no evident reason whatever the initial "A" was inserted in the name of Eugene Worley, candidate for reelection as state representative from this district, making it read Eugene A. Worley. As a matter of fact, there is not an "A" of any description in Mr. Worley's name, and we haven't been able to figure out till yet where we got the idea.

We try to be very careful about errors, both typographical and technical, but they will creep in occasionally. And last week just seemed to be our "big week."

All of the above mentioned errors have been corrected (I hope), and a perusal of the political announcement column this week will give a somewhat more accurate picture.

Stupendous!

The citizens of Clarendon and Donley County are in for the greatest theatrical treat of the year. Rehearsals were started this week on "A Dumb Waiter," a two-act musical comedy which will be presented by local talent in the near future for the benefit of the crippled children's fund of the Clarendon Lions Club.

You simply MUST see this production. It will be stupendous, gigantic, colossal; to say nothing of magnificent, astounding, amazing. (Continued on Page Eight)

H. H. FINNELL IS PRINCIPAL SPEAKER

FARMERS OF COMMUNITY
ARE ESPECIALLY URGED
TO ATTEND.

Arrangements have been completed for the annual Clarendon Chamber of Commerce banquet, to be held in the basement of the First Christian Church Monday, January 27, at 7:30 p. m., according to an announcement this week by J. T. Patman, in charge of arrangements for the affair. Food for the occasion will be prepared by the ladies of the church, and a charge of 50 cents a plate will be made.

W. H. Patrick will be toastmaster for the evening, and H. H. Finnell, head of the Soil Conservation service in this district will be principal speaker of the evening. Mr. Finnell's subject will deal with soil conservation and erosion in this section, and he will explain what can be done to prevent the devastating erosion that has been occurring here during the past few years. It is (Continued on Page Four)

C. HUFFMAN ASKS SHERIFF'S OFFICE

ANNOUNCES CANDIDACY FOR
ELECTION TO DONLEY
COUNTY OFFICE.

Authorization has been made to The News this week to announce that C. Huffman is a candidate for election to the office of sheriff of Donley County, subject to the action of the Democratic primary. In making his announcement, Huffman made the following statement: "I have resided in Donley County for the past seven years, being engaged in the bakery business. It has been hard to get by the past five years, but I have made a decent living, and to do that you have got to know how to save and cut down expenses."

"It has always been my plan to work along and attend strictly to my own business, and treat my fellow man in all fairness. "I am announcing for the office of sheriff of Donley County, first, because I think I am qualified and capable of filling the office, and second place, I have been solicited by many to make the race. Then again, I promised you two years ago that I would make the race this time.

"As to how I stand for law enforcement, I think the people of Donley County know that I want to see them enforced fairly to all alike.

"Why do we have elections every two years? Ask yourself that question. To elect new officers (Continued on Page Eight)

Congressman Marvin Jones Discusses Problems of Devising Farm Program

By MARVIN JONES
Our tariff system makes a farm program necessary in the interest of the entire nation. Complete and permanent recovery can be had on no other basis. No one wishes this country to sink back to the depths it had reached in 1932.

The decision of the Court in the AAA case is a far-reaching one. However, I cannot believe that a national tariff is legal and that a national farm program which merely restores the price balance cannot be made legal.

I cannot believe that the cotton farmers and the producers of other world market crops must purchase their supplies in a higher-priced protective market and that there is no constitutional means by which they may be given an even break.

The greatest fundamental in our system of government is equality in the operation of its laws.

CRIME COMMITTED 43 YEARS AGO IS INVESTIGATED HERE

T. E. BLACKBURN BELIEVED
TO HAVE BEEN KILLED
HERE IN 1892.

The 43-year-old murder of T. E. Blackburn, believed to have been committed in Clarendon, is being investigated by H. E. Blackburn, son of the murdered man, of Kansas City, who was here Saturday.

T. E. Blackburn, a fireman on the Fort Worth and Denver Railroad in 1892, is said to have been slain on the depot platform Nov. 29 of that year, by William Castrop, a call boy for the railroad, after Blackburn had dismounted from the engine.

According to Blackburn, the son, his father had reported Castrop for failure to report engine troubles, causing the dismissal of the latter from the company. Blackburn said Castrop was enraged over his discharge, and (Continued on Page Four)

Story of Wheat Exhibit Planned

The "Story of Wheat" will be told by the Panhandle's exhibit at the Texas Centennial Exposition in Dallas this year, committees having been appointed to plan the exhibit. Other resources of the Panhandle also will be displayed, though wheat production will be the principal theme.

Representatives from each of twenty Panhandle counties and from Tucuman, New Mexico, have been named to make arrangements for the exhibit.

3,500 POUNDS FOOD CANNED IN COUNTY

RESETTLEMENT WIVES KEEP
STEP WITH HUSBANDS;
1,000 CONTAINERS FILLED.

For every one of the more than a million and a half dollars their farm husbands have repaid on rehabilitation loans, Texas Resettlement wives have stored in their pantries, cellars, kitchens, and bedrooms a full dollar's worth of food grown on these farms or picked from wild plants.

To be more specific, they have canned 5,489,236 containers of food, averaging quart size, and including pint bottles of juices, quarts of vegetables, half-gallons of fruits, gallons of honey and barrels of sauerkraut and pickles.

In addition to the canned product, they have dried and cured 3,876,165 pounds of meats, fruits and vegetables, or an average of 228 containers and 161 pounds of food per family. In Donley County, Nannie Mae Gaines, home supervisor, reports a total of 10,000 containers and more than 3,500 pounds of food has been preserved.

"In an average county the cost of supervising and encouraging this canning was only one-third of a cent per quart of food (Continued from Page Eight)

Congressman Marvin Jones Discusses Problems of Devising Farm Program

I am sure a constitutional method of putting all our citizens on an equal footing can be found. Certainly in the interest of simple justice the effort should be made. To this task the House Committee on Agriculture is devoting its earnest attention.

Personally I favor a domestic allotment plan linked with a soil conservation and rebuilding program and also including the seeking of new and additional outlets and markets, domestic and foreign.

While proper adjustment is desirable, we should of course produce all the market will absorb. (Continued from Page Eight)

More Prosperity!

Ford Predicts "Sounder
Prosperity Than We
Ever Dreamed Of"

"Sounder prosperity than we have ever dreamed of in the past, provided we keep our heads," is predicted by Henry Ford.

In a signed article appearing in the American Magazine recently the automobile manufacturer advises business men to stop worrying and to "go sanely and resolutely ahead with healthy production followed by wealth-sharing through high wages and low prices."

He described sound prosperity as an ever-widening distribution of useful goods and services as contrasted with an era of bounding stock markets, crowded night clubs and spectacular riches for the few.

COLDEST WEATHER OF SEASON FELT

MERCURY TUMBLES TO 11
DEGREES HERE SATURDAY
NIGHT.

The coldest spell of the winter sent the mercury down to 11 degrees above zero, here last Saturday night following a day of intense cold, preceded by snow flurries and a temperature reading 15 degrees Friday night. The former low mark for the year was 17 degrees.

The frigid spell, predicted early Friday morning, struck the city that night in the form of a real norther, accompanied by a dry snow that was of little benefit to the soil, the moisture being too slight to be recorded, according to Joe Goldston. Sunday was fair and warmer with the minimum reading Sunday night of 17 degrees.

ALLRED POSTPONES SPECIAL SESSION

SAYS MAY NOT BE NECESSARY;
IS STUDYING AUDITOR'S
REPORT.

James V. Allred said recently that there would be no immediate session of the legislature to raise taxes to pay the old-age pensions and that no such session would be called. The governor added:

"I still am studying State Auditor Orville S. Carpenter's report to see how much we will have to start paying the pensions after the many requirements of the law have been satisfied. It does not become effective until February 14 and it will take some time thereafter to comply with its provisions."

Replies to the governor's questionnaire disclosed that a majority of both branches of the legislature favor a special session to pay the pensions and most of them preferred it now or at any time before the primaries.

Of twenty senators the governor said fourteen favored a special session, three said it was up to the governor, two were indefinite and one said anything Allred did would be acceptable. Of these, eleven wanted it before the primary elections, two after all facts have been obtained and six were indefinite.

Of 114 house members, 82 wanted the session, six were against it, seven said it was up to the governor and 19 were indefinite. Of these, 74 wanted the session called immediately or before the primaries, four in the fall, six after the facts have been compiled and 17 were indefinite.

There are 31 senators and 150 representatives, and a majority of each house favors a special session at once. Generally they expressed the opinion that it would accomplish the desired end—to raise the pension—though many were indefinite, the governor said.

Implement Dealers of Nation Are Looking for Best Season in Years

Farm implement and hardware dealers recently predicted the biggest buying season since 1929 as they trundled wares into Kansas City's auditorium for their annual Western show.

"The farmers have money," said Erb Kreider, a committeeman at the display, which Tuesday officially opened the spring buying season for farmers of four states. "They're buying things they need," others agreed.

All available exhibition space was contracted for long before the doors opened. Exhibitors say the Supreme Court ruling outlawing the AAA would have no effect on attendance.

"Some of the farmer's cash came from the AAA," said Kreider, "but remember, growers are getting better prices for their products than they have for years—since about 1929.

"They feel their way clear to buy hardware, equipment and things they've long needed. A lot of farmers are replacing equipment that had to serve them throughout the depression.

"Farmers will be here from a large part of the grain area, and they'll be looking for new stuff." One farm implement dealer said his company's Southwestern division did a better business last year than in any season in twenty years and expected a substantial increase this year. Vir-

ASHTOLA SCHOOL IS STANDARDIZED

IS FIRST RURAL SCHOOL IN
THIS COUNTY TO OBTAIN
STANDARDIZATION.

After two years of constant effort on the part of students and teachers, Ashtola Public School has become a standardized school, according to Robert G. Dillard, principal. Deputy State Superintendent J. D. Wilson officially scored the school Monday morning and announced that Ashtola had scored 929 points out of a possible 1,000 points.

Standardization is to the rural school what affiliation and accrediting is to the city school. Mr. Wilson was well pleased and voiced his approval of the school and the work that was being done.

Two years ago Mr. Dillard set out on a program of Standardization and missed it last year by a small margin, coming back this year stronger than ever. The building was remodeled, played (Continued on Page Four)

L. O. LEWIS ASKS COUNTY OFFICE

ANNOUNCES HIS CANDIDACY
FOR OFFICE OF COUNTY
TREASURER.

The News has been authorized this week to announce the candidacy of Leon O. Lewis for election to the office of county treasurer of Donley County, subject to the action of the Democratic primary. In announcing, Mr. Lewis made the following statement:

"I ask your support for the office of county treasurer of Donley County for the term of 1937-1938.

"You are aware that I have been more than 50 per cent blind for several years, and thus have been seriously hindered in the matter of earning a living, and the depression has seriously crippled me financially.

"That I may be able to provide all things honest in the sight of God and all men I am asking your assistance in helping me to win this office at the coming election.

"I can attend to this work with ease, and my training has fitted me for its duties.

"I have nothing to say about my opponent or opponents, nor anyone who feels they should support them, and this shall be my policy throughout the campaign. I ask the same treatment.

"Allow me to say here that should anyone deem it proper to make any statement concerning (Continued on Page Eight)

HOMER MULKEY IS LOCAL CHAIRMAN OF ORGANIZATION

WILL BE HELD ONE DAY
LATE HERE; BENEFIT OF
CRIPPLED CHILDREN.

Homer Mulkey, local chairman for the Birthday Ball for the President organization, announced this week that a dance will be held here this month, in keeping with similar affairs over the nation. The annual birthday ball is staged on Thursday night, January 30, throughout the United States, but the local affair will be held on the following night, Friday, January 31, due to the fact that a good orchestra was not obtainable on the former date.

Mr. Mulkey is acting as sponsor of the affair. He stated that he had accepted the responsibility as an individual, and that 70 per cent of the proceeds will be turned over to the local crippled children's fund, and the other 30 per cent will go to the Georgia Warm Springs Foundation, to assist in its fight against infantile paralysis.

Mr. Mulkey is being assisted by J. W. Beard in making arrangements for the ball. Harry Hickox and his 10-piece orchestra, of Pampa, will furnish the music for the occasion. This is one of the most popular dance orchestras in this section, and a large crowd is expected to turn out to enjoy the music.

The dance will be held in the Clarendon Opera House, and will start at 9 o'clock Friday night. Tickets will go on sale this week.

Mr. Mulkey calls attention to the fact that this is a wholly non-profit undertaking, and urges that everyone who can possibly do so buy a ticket whether or not they go to the dance, as the net proceeds will go to benefit the crippled children of this county as well as those of the nation.

Those who plan to attend the dance are urged to keep in mind the fact that it will be held one day late, being staged on Friday night, January 31, instead of Thursday night.

County Officers Will Continue On Fee Basis

Donley County officers are to continue receiving wages under the fee system for another term, according to a decision by the commissioners court in a called meeting here Monday.

The court also ordered payment of \$600 to the county hospital fund in this session.

County Basketball Race Begins Feb. 5

The county basketball race will get under way here Wednesday night, when both the high school boys' and girls' quints will tangle with the Hedley teams at the high school gymnasium at 7:30 o'clock.

Proof that Coach Kerby is rapidly whipping the Broncho material into shape was evidenced Wednesday night when the prep school boys nosed out their older brothers, the junior college, in a hard fought battle, by a score of 31 to 27. The game was well played with no individual starring. Lovell, of the college was high point man with 14 points to his credit.

Hedley All-Stars Win Over College

Coming from behind in the last few seconds of play, the Hedley All-Stars defeated the Clarendon College basketball team by a 24 to 23 count at the Junior High School gymnasium here last night.

Going to rest at the half, the college had a 7 to 5 advantage, and it looked as if the game was iced when they ran their lead to eight points midway in the last stanza. Hedley came back strong in the closing minutes of the game and added the winning point just before the final whistle.

John McClelland was an Amarillo visitor over the week-end.

AN UNEQUALED RECORD

TWO HUNDRED FORTY-GRADUATES ACCEPTED POSITIONS.

At the beginning of 1935 Byrne College adopted the slogan "A position for every 1935 graduate." On December 29th, 247 positions had been filled and our employment register showed only two girls and two boys to be placed during the remaining ten days of the year. These four graduates should be placed provided they do not take too much "time out" for Christmas and we hope they will go for it if they are placed it will perhaps be the first time in the history of commercial schools that its entire list of graduates received diplomas and complying with the employment regulations of the placement department have all been placed by the time the year closed. We doubt seriously if any other commercial college in the Southwest has devoted time and money to this important end of their business to have placed half this number of fine young men and women holding diplomas.

We are planning our 1936 employment work with a view of placing 400 graduates. We realize that 99 per cent of the young men and women as well as those of middle age who attend Byrne College do so to increase their

Mr. Roscoe Trostle, principal of the Hedley Junior High School, was in the court house here with a committee of pupils Friday securing information as to the establishment of the Hedley schools from the county commissioners court records. The members of this committee were Eutha Davis, Della McLaughlin, Inez Meek, and Yvonna Meeks. The seventh grade of Hedley is editing a School History of Hedley. The information the pupils received will become a part of this history. Deputy State Superintendent J. D. Wilson and County Superintendent Sloan Baker are inspecting the rural schools of Donley County this week for both standardization and state aid. Mr. Wilson is supervisor for the State Department of Education of Texas for twenty-five West Texas counties.

Mr. and Mrs. Jimmie Milsap and Miss Mattie Rhodes called on Mr. and Mrs. J. C. Longan Friday night.

Jimmie Milsap has been quite busy the last week fixing the playground for which the children are so glad. With the swings and sea-saws we have a real up-to-date playground.

Mr. and Mrs. Winfield Mosley moved to Hedley this week. We welcome the Will family who moved to the Mosley farm.

We welcome Mr. and Mrs. Seaton to our community. They came from Wellington and are living on the J. A. Meadows farm. Kenedy Davis is visiting his brother, Ernest and wife, who live on the South Plains.

"KING OF BURLESQUE" IS LIVELIEST MUSICAL HIT

About the 'love drama of these three—WARNER BAXTER, MONA BARRIE and ALICE FAYE—the gay new Fox picture, "King of Burlesque", weaves its colorful story. It has a dozen stars and a dozen tantalizing song hits.

Beneath the glittering color, the haunting tunes, comedy and gay dance routines which adorn "King of Burlesque," the Fox picture which opens Sunday for two days at the Pastime Theater, is a fascinating love drama which elicit the same enthusiastic response from you that it got from the opening day audience.

Presenting Warner Baxter, Alice Faye and Mona Barrie in the leading dramatic roles, this happiest of the new musical shows boasts an all-star cast of talented performers.

The story of "King of Burlesque" delves back-stage into the life and loves of the people of the theater. Warner Baxter is the leading personality, an impresario who has brought the technique of the 14th Street burlesque to an enraptured Broadway.

At the height of his success, he deserts his two old friends, Jack Oakie and Alice Faye, to marry the aristocratic but impoverished Mona Barrie.

Through whirling, kaleidoscopic backgrounds, and a series of adventures, the picture traces the gradual descent of this rajah of entertainment under the influence of his wife. Finally, cast off and deserted, he rejoins his two old friends, launches his most daring project, to meet with a startling success. The close of the picture shows Baxter and Miss Faye happily rejoined in romantic mood.

Abitly supervised by the versatile Kenneth McGowan, the picture presents a gay series of hit tunes from the pens of Ted Koehler and Jimmy McHugh. "Lovely Lady," "Shooting High," "Spreadin' Rhythm Around" are the entrancing names of some that will set you humming.

Arline Judge, the pert little comedienne; George Ratoff, Fats Waller, Nick Long, Jr., Kenny Baker and the Paxton Sisters are only a few of the names in the cast that make "King of Burlesque" the gayest, liveliest musical entertainment of the year.

READING FOR FUN
Most high school and college students feel that reading for fun involves the reading of some popular weekly magazine or, perhaps, a "shady" book. We suggest that reading for fun may also be worthwhile reading. Several magazines as Scribners, Harpers, the Atlantic, and the Forum contain items of interest for any high school or college reader. These articles, while entertaining, are beneficial as a means of keeping informed upon subjects which are arousing nation-wide attention. We might mention several books which are amusing enough to keep you thoroughly interested and are worth your while, but instead, we shall suggest that you, who wish to do some worthwhile reading for fun, consult the librarian. She will be glad to help you and will prove to you that our school library is the solution to your reading problems.

NEW BLEACHERS
For several years the Broncho stadium has contained only a few small bleachers rotted by age. The spectators do not even try to stand on these bleachers; the pep squad do so only at the risk of falling when a piece of lumber breaks. It is true that the school has not had a good season and does not have very much money, but field lights were purchased. It was argued that every stadium in this district, except one, had lights; Clarendon must have them.

A TO Z

After such a long vacation I should know plenty of dirt, news, and baloney, but it seems like the longer I wait for news to come to me the less news I hear; now I wonder why? Could it be that I'm a punk writer or something like that. Ah, no, surely

Granting that this true, how many of these stadiums are not equipped with good bleachers? It must be admitted that there are very few. If enough money can be raised to buy lights, certainly the nominal sum required to build bleachers can be obtained. Give the pep squad a safe place to cheer and the spectators a better place from which to witness the game. Then and only then will the team receive full support.

ATHLETIC ACTIVITY

The athletic activities for the high school and college here could be greatly improved. At present there is just one major activity, football. Only a few can play football, and those few are the ones who do not especially need it. A program should be planned whereby every student might receive benefit by participating in some form of activity. A few improvements should be made. The base ball, volley ball, and tennis courts could be worked over. Also a number of new tennis courts should be built as tennis is one of the very best games a person can play. Golf, another fine sport, should be made a school activity. This could easily be accomplished as students could more than likely obtain a special playing rate. Besides organizing a good golf team as any number of surrounding schools have done, the players, whether good or bad, would find much enjoyment and benefit in this game. The greatest aid to the athletic activities in our school, however, would undoubtedly be the erection of a good gymnasium where many of the mentioned games could be played.

please assassinate the composer of "Music Goes Round and Round."
Well, "Nuts seems to be still nuts about the Higgins lassie."
And now a few of the college boys are getting out their spikes and oiling them up to start galloping around the cinder track, and by the looks of things now I believe C. J. C. will have a pretty fair track squad for this spring; time will tell though.
Being as this typewriter is getting "red hot" I better say Au Revoir until next week.

STUDENTS BEGIN WORK ON DEBATE

High school students in the debating group are working upon the Interscholastic League debate question: "Resolved, that the federal government should control the production of cotton." The question should prove to be of the nation wide attention and great interest to all students and patrons of the school because discussion it now has. Up to the present, the following students belong to the debating group: Juanita Estes, Jeanne McDonald, Sloan Baker, M. L. Baker, Earl Eudy, Raymond Clemmons, Jimmy

SPORT SHOTS

Well, it won't be long till some of the old faithful tennis players will begin playing. Just the other day I noticed a number of players over at the tennis courts, even though it was rather cold. It's a shame that we do not have better tennis courts and more tennis courts for the students and anyone else who enjoys playing the game. It seems like the basketball season got off to a slow start. Interest, however, will undoubtedly pick up as the season progresses. All the college teams down state have lost at least one game; the last week T. C. U. lost to Rice, A. & M. was defeated by S. M. U., and Baylor lost to Texas University. Monday night Rice defeated S. M. U. and A. & M. defeated T. C. U. The only other conference game in the Southwest Conference is that of A. & M. and Baylor Saturday night. There have been quite a number of local games lately. The C. M. J. C. boys played a nice game against a team of local stars last Friday, but lost by a score of 21-18. They are contemplating playing Groom here on Thursday night. The high school team journeyed to Memphis last Friday where they were defeated by the Cyclones, 31-27, after a furious game. The Memphis team will come up here tomorrow night, Friday, where a return game will be played. As a result of the Bourland, and John Lott. Others are considering debate as their league activity. The college debate question for this year is thus stated: "Resolved, that congress should be permitted, by a two-thirds majority vote, to over-ride any decision of the Supreme Court, declaring a law unconstitutional." Like the high school question it is a timely issue. Sam Barrow and Robert Nichols are now reading up on this subject.

CAMPUS DIRT

It seems that Miss Howren interrupted two or three college girls in a performance of "The Dance of Spring" the other day. Maybe that explains the sudden tendency of Beatrice Garmon to hide behind Eloise every time they go to math class. When a gushing girl asked Lowell LaFon if he didn't just adore "Beautiful Dreamer" which is, as we all know, one of Stephen Collins Foster's most popular pieces, she was somewhat taken back when he replied in that slow drawl of his, "I do not think I ever heard of it. You see I don't know many of those new songs because I have been too busy to turn on the radio lately." There are some of us who think that "Red Sails in the Sunset" is the loveliest song that has been written this season; however, Pete and Sue Powell have a cat that disagrees. Each time the cat hears this piece, he goes into a fit. He lays his ears flat on his head and swishes his tail angrily. If the piece continues, he walks majestically to the door and howls to be put out. Maybe it is the way the girls sing it. Long, long ago: When Ardis Patman was a small boy, his heart's desire was to see Santa Claus when that old Saint made his yearly rounds and stopped at Ardis' home. Each year while anxiously awaiting St. Nick's arrival, he had fallen asleep. Then one year he had the idea of putting phonograph records under the rug so that when Santa stepped on these it would make a cracking noise and wake him up. They made the cracking noise, but he did not hear them. Imagine his surprise when he received a whipping on Christmas morning. What is that we hear about Jack Hayes and Beatrice Hardin not being faithful? closeness of the score last week, there is quite a bit of interest in this game, be sure to come out to see the college play on Thursday and the high school play on Friday nights.

SWEATERS ARRIVE FOR BULLDOGS AND BRONCS

The football sweaters of the college and high school football players which were ordered some time ago have finally arrived. It seems that it will take that much longer for everyone to turn his money in so that the sweaters may be taken from the post office; however, practically everyone has paid now; so they will probably be taken out this weekend. The high school sweater is of the usual maroon color. The large red "C" is surrounded by a white stripe which makes it stand out against the maroon background. The attractive C. M. J. C. sweater is a myrtle green color, having a large white "C" mounted on the front. The "C" surrounded by a green and white stripe stands out well on the myrtle background. There are two different weights in the sweaters; some ordered a light sweater while others preferred the heavier ones. The name of each player is found on his sweater along the waist band. ENTERTAINING ASSEMBLY PROGRAM BY SOPHOMORES The regular assembly program was held Thursday afternoon in the auditorium. The program for the afternoon was furnished by the members of the sophomore class. After the student body had sung several songs, Dorothy Kerbow played two popular piano solos. A tap dance was then given by Maxine Ellis, Jean Teat, June McMurtry, and Ethelyn Drennan. Another tap dance was next given by Billy Cooke. After these numbers, Juanita Estes gave two amusing readings. Lawrence Hickman brought the program to a close when he played two harmonica solos. After this program, Mr. Drennan and Mr. Burton made a few announcements and dismissed the student body. Wesley Knorpp returned to Clarendon Tuesday after an extended visit at his home in Long Beach, California.

LEAGUE WORK

Under the supervision of Mr. Kirk, all the teachers are directing some phase of the Inter-scholastic League work. The following assignments have been made:

Mrs. McInnis, ready writers; Mrs. Westmoreland, one-act play and tennis; Miss LaFon, declamation and tiny-tot story telling; Miss Holland, girls' playground ball; Miss Headlee, boys' playground ball; Miss Taylor, spelling and story telling; Mr. Wilson, debate, extemporaneous speaking and track.

Active preparations are now being made for these various contests. We realize that if we are to win we must prepare. We are justly proud of the record which this school made last year at the county meet, and of course we want to do even better this year.

In the picture, there are fourteen seniors, Raymond Wilson, the sponsor; B. F. Kirk, the superintendent, and the school building. Substitute Farm Program Worked Over by Leaders

An administration drive for a substitute farm program by amending existing soil conservation and other laws was announced from Washington Thursday night following a White House conference.

The first sketchy outline given reporters of the decision reached by President Roosevelt and his advisors after an hour's discussion did not disclose whether continued payments to farmers was contemplated.

It was said, however, that an immediate attempt would be made to provide funds to reimburse farmers for performance under 1935 AAA contracts up to their termination January 6 by the Supreme Court.

Mr. Roosevelt discussed the situation created by AAA's invalidation with Secretary Wallace, Secretary Morgenthau, Attorney General Cummings, Speaker Burns and Senator Robinson of Arkansas, the majority leader.

Also present were Chairman Smith (Dem.), South Carolina, of the Senate Agriculture Committee; Chairman Jones (Dem.), Texas, of the House Agriculture Committee; Chester Davis, AAA administrator, and Solicitor-General Stanley Reed.

(Continued from Page One) and give some one else a chance. I am asking for that chance now. You are the judge as to who you vote for. Don't let any man dictate to you whether you should vote for a new man, or one already in office. Be your own judge as to whether a new man can make a good officer. It has been done, and I will do that if you elect me to that office. I think the office belongs to the people and not to one person.

"I want to take this opportunity to thank those who supported me two years ago, and I earnestly solicit your vote and influence in the coming election. And to those who did not vote for me, will you please give me your consideration, for this time your vote and influence will be more than appreciated. And if you elect me sheriff of Donley County, I will work earnestly as an officer to enforce all laws alike."

"I am asking for your vote and influence, and assure each of you that both will be greatly appreciated."

to set the time and place for our annual tournament.

"I am very anxious that the Clarendon Club extend an invitation to the association to hold this tournament on the Clarendon course. The upper end of the territory is entitled to this meeting if they want it and in addition to that, I believe that the tournament being held at Clarendon will hold the McLean and Sayre clubs in the association and also that we will probably secure the LeFors and Pampa clubs as new members without the loss of any of the members from the lower end of the district.

"The association pays for the professional or starter, for men to drag the greens during the tournament, and for all prizes. In fact there will be no cost to your club except that you put your course in first class condition in advance of the tournament and to see that your hotels do not increase rates on the visiting players (In fact they should give us better rates than the ordinary)."

"Because of the fact that you have no club house, I believe the present shelter you have should be put in better condition, fairly large tent provided. As to entertainment, it is not required but I believe if you could put on one of Frank Whitlock's famous chicken barbecues, it would be highly appreciated. As to a dance—it was handled very satisfactorily at Quanah by just having a public dance to which visiting golfers were invited without charge, expenses being paid by local people attending at a fixed charge. However, that should not cost your club or the association anything."

"I wish you fellows would get together and consider this proposition and let me know your decision soon as possible."

"Very truly,
"O. T. Nicholson,
"Pres. Greenbelt Golf Association."

This tournament is rated one of the best in the state, drawing approximately 100 golfers from the green belt of Texas, and Western Oklahoma annually.

The officials of the club here have called a special meeting to discuss the question. The meeting will be held Friday night at Parsons Bros. Tailor Shop, and all golfers or anyone interested in golf are urged to be present, whether members of the club or not.

canned," according to Miss Gaines and this county's cost is in line with this general figure. In addition to showing women how to can, a very important phase of her work is teaching mothers to budget this canning so that the diet will be well balanced, and health maintained for the grueling climb to stability.

Miss Gaines says the primary purpose of this program is to make these families independent and self-reliant through educational as well as financial backing. As soon as the preliminary farm and home plans are completed the home supervisors' function is that of guide and teacher who demonstrates better methods of living in order that the home may use more effectively the products of the farm. This includes gardening, poultry raising, dairy work, hand-made articles, comforts in the home, and sanitation.

The making of nearly a thousand mattresses out of their own cotton, renovating, and remodeling the thousand dollars worth of clothing, and the neighboring exchange of more than 64,000 pieces of literature gives some idea of the tremendous importance of work other than that of home budgets and canning.

"The best part of all this food conservation program is the fact that it saves the cash received from crops for acutely needed clothing, medical attention, books, and recreation," Miss Gaines believes.

Forrest Taylor, assistant cashier at the First National Bank, says Pinky Price is no gentleman. Said he went in the drug store the other day and paid his bill with a personal check for \$8.40. Several minutes later, he came back with a "hot" check which Pinky had accepted and deposited. In payment of the check, Taylor received \$1.60 in cash, and his own personal check for \$8.40! Said he guessed Pinky didn't want him to have to make another trip!

tually all exhibitors said there is a mounting demand for new farm machinery.

"There is a better feeling on the part of the farmers, and consequently the dealers," said Kreider. "Things are improved in the farm country and this year's show probably will be the biggest in its history."

Congressman Jones—

(Continued from Page One)

The legislature should be broad and flexible so as to permit different plans for different commodities, thus fitting to each commodity the plan best suited to its peculiar production and marketing conditions.

Such a program will be to the advantage of both producer and consumer.

The congress added the domestic allotment plan, the soil conservation and market expansion features to last year's legislation. However, as other plans were already in operation, these had not yet been brought into full effect. Since the domestic allotment, soil conservation and market expansion plans were not involved in the decision of the Supreme Court, these were prob-

ably not affected; but as they were linked with some of the provisions that were held invalid, it would probably be wise to carry them forward in a new act.

The domestic allotment plan is peculiarly suited to cotton and wheat, but other methods will probably be better suited to some of the other crops. No single plan would be suited to all of the different commodities.

These are merely my own views. Legislation will be worked out by the congress to accomplish the desired end in so far as it is possible to do so within the limits set out in the decision of the Supreme Court.
