BUGBEE WILL "DO" COVER FOR AMARILLO FAT STOCK SHOW BOOKLET.

(Sunday's Amarillo News) The Amarillo Fat Stock Show catalogue is to be an official souvenir booklet for the Texas-Southwestern Cattleman's Association convention, according to Charles Lowe, who is in charge of its publication.

This issue of The News carries the announcement of the candidacy of George W. Kavanaugh for the office of county superintendent, subject to the action of the voters in the Democratic primary July 25, 1936.

It is his belief that the children of Donley County deserve the best instruction that it is possible to offer and he has prepared himself to render such a service.

Births And Deaths Jump During 1935

MARRIAGES AND DIVORCES ALSO SHOW INCREASE OVER LAST YEAR.

The upward trend of business in 1935 was not confined to matters of finance, according to statistics gathered at the court house this week. Dan Cupid was unusually busy, with Mr. Stork putting in many hours overtime. Twelve divorces were granted, and the distressing total of 65 deaths was recorded.

Comparatively speaking, 1935 reached a new high for marriages, births, divorces, and deaths, for the three-year period from 1933 to 1935. In 1933, 59 marriage licenses were issued, with 74 in 1934, and 96 in 1935, an increase of 22 over the preceding year, and 37 more than 1933.

Births took the greatest jump, more than doubling the figures for the past year. In 1933 there was an even 100 births, with 102 for the following year, and 226 during 1935.

Divorces, after a decline in 1934, failed to reach the 1933 mark by two, although gaining four over 1934. The divorces granted in 1933 totaled 14, as against 8 in 1934 and 12 in 1935.

The death records for 1935 show a staggering increase over the other two years with 65 for that year, compared to 33 for 1934, and 38 for 1933. This represents a gain of 27 over 1933, and 32 over 1934.

214 POLL TAXES PAID IN COUNTY

"UNDERS" MUST SECURE EXEMPTION CERTIFICATES FOR "FREE VOTES."

Poll tax payments may be paid through January 31, 1936, according to announcements today from the county assessor-collector's office. Saturday a total of 214 poll tax receipts had been issued for 1936, the announcement stated.

A total of 1,219 poll taxes were paid in this county in 1935, however, the amount is expected to be much greater this year since 1936 is a general election year. In 1934, the last general election year, a total of 2,307 poll taxes were paid, and the number is expected to be even greater this year.

Three-Inch Snow Falls In County

FARMERS JUBILANT OVER CROP PROSPECTS AFTER PRECIPITATION.

Donley County farmers, as well as those over the entire Panhandle, were jubilant over crop prospects this week after snow had sifted from laden skies practically all day Tuesday to bring the best general precipitation in many years. The snowfall had totaled approximately three inches Tuesday night, and coming closely upon the heels of a similar snowfall just before the first of the year, has gone a long way toward putting a good, early season into the ground.

Heavy clouds Monday brought a fine mist that froze instantly. Sleet fell intermittently, and snow began falling Tuesday morning and continued throughout the major part of the day.

Livestock was reported to be undamaged by the sub-freezing temperature. A low of 17 degrees was recorded here Tuesday night.

Wednesday morning broke bright and clear, and the blanket of white soon disappeared under the warm rays of the sun, giving grasslands a thorough soaking and sending wheat growers' hopes for a bumper crop soaring.

SCHOOL NOTES

By SLOAN BAKER

Dean R. E. Drennan, president of the Donley County Teachers Association, was in charge of a very profitable program given in the Junior High auditorium last Friday afternoon. Bill Todd, principal of Chamberlain, led the assembly singing. Invocation was by Rev. Robert S. McKee, pastor of the First Presbyterian Church. Arthur Chase played a popular piano solo. Hubert Reavis, accompanied by Mrs. Lalar Wilkerson at the piano, played a beautiful clarinet solo. The tap dance by Alex Cooke, with Mrs. Alan Bryan at the piano, was much enjoyed by the teachers. These three young men are students at the Clarendon Junior College.

Each teacher of Donley County schools, was introduced by the superintendents and principals. W. J. Poovey, president of the county board of Donley County and two trustees of Bray school, W. H. Clay and L. M. Spear were among the other visitors at the meeting.

President Drennan introduced County Superintendent Baker who in turn introduced Superintendent R. B. Fisher of the Pampa schools, who spoke on the subject, "World Problems," based on his observations made on an educational tour of England, Russia and Germany, last summer.

While in England the party of which Mr. Fisher was a member studied the slum clearance problems in London, Birmingham and Glasgow, Scotland. The village for workers built as a suburb of London houses one hundred thousand workers in modern homes and apartments. Birmingham has a number of these villages of new homes built for workers around the large industrial plants. From England Mr. Fisher's party took a small Russian ship to Leningrad, Russia. Russia was found to be a country of no religious belief. Communism is not working as shown by the fact that the leaders of Russia Bolshevism are awarding talent and initiative by paying for the education of people of exceptional ability. The former idea of companionate marriage and easy divorce is giving way to more strict regulations on marriage and the reestablishment of the home. In Russia only about one hundred thousand officials of the government rule the other one hundred and sixty-five million people. Atheism is taught in all the schools, but a person may worship as he pleases. All the churches have been used for other purposes such as recreation halls and hospitals. A funeral in Russia is a gay affair with bands leading the procession. The working classes of Russia live on the collective farms, large families being crowded in small rooms in apartment houses. The utter disregard for sanitation was one of the striking characteristics of the average Russian. There being a shortage of clothing, the

Russian servant never removed his clothing when once put on until it was worn out. They never take a bath or follow any health rules. Baths are given to hogs as religious rites. Women think nothing of working on railroad section gangs without shoes. There is a great opportunity in Russia under the communistic rule for a child to be educated at the expense of the government. Mr. Fisher's prophesy is that communism will fail in Russia because it has no foundation based on spiritual values.

Next Germany was visited. Hitler's right hand men speak fluent English. The people of Germany everywhere said, "We do not want war," but military camps are found all over Germany, and the youth is being trained for war. The Jews are being driven out of Germany to break their control of the wealth and industries so the pure German may gain control. Hitler allows no women to work. A young married couple is given a home built on one acre plots. As the family increases, rooms are added until sometimes two or three generations are taken care of in the same residence. This plan of taking women out of employment and also furnishing homes for the family at once solves the unemployment situation and slum problems. Hitler's plan is for a state religion. Germany on the surface seems not to want war, but at the same time is planning on an extensive scale for war. The German has not forgotten the loss of her colonies at the end of the late war. The party came away from Europe believing that anything may happen in Europe because of the fear of attack and racial hatreds of the different nations.

Mr. R. E. Drennan voiced the appreciation of the Donley County teachers for this excellent address by Supt. Fisher. County Superintendent Sloan Baker announced that the Interscholastic League executive committee had fixed the time of the County Interscholastic League meet for March the 27th and 28th in Clarendon. Playground ball contests will be held April 4th in Clarendon. The class B rural basketball meet will be held in Lelia Lake this year. On invitation from Supt. W. C. Payne the next meeting of the teachers will be Friday afternoon, March 13, 1936, in Hedley High School Auditorium.

LIBRARY NOTES

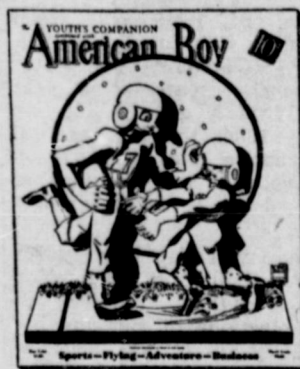

(By Mrs. C. A. Burton)

The best sellers of Christmas week as listed by about sixty booksellers over the nation were: "Edna, His Wife" by Margaret Ayer Barnes; "It Can't Happen Here" by Sinclair Lewis; "Europa" by Robert Briffault; "Silas Crockett" by Mary Ellen Chase; "Vein of Iron" by Ellen Glasgow; "Spring Came On Forever" by Bess Streeter Aldrich; "Green Light" by Lloyd C. Douglas; "Honey in the Horn" by H. L. Davis, and "Mutiny On the

Bounty" by Nordhoff and Hall are far down the list, while "North of the Orient" by Anne Morrow Lindbergh leads the non-fiction list. "Old Jules" by Mari Sandoz, the Atlantic \$5,000 prize book for 1935 comes farther down. Such varying opinions, both individually and collectively, greet literary productions as well as other things, "Tobacco Road," Jack Kirkland's dramatization of Erskine Caldwell's novel about Georgia "White Trash" was closed in Chicago in its seventh week by order of the mayor who called the play "a mess of filth and degeneracy." At the same time "Tobacco Road" was play-

We suspect the East knew more of the accuracy of the portrayal. The story is somewhat like Caroline Miller's prize winner, "Lamb In His Bosom" which has been highly praised and greatly criticised. We have the latter, but not the former.

J. B. Priestly came to the United States early in the fall for a six month's stay in Colorado and Arizona. Texans to Spend Millions in 1936 As Host to U.S.A.

Southwest Empire's Fete of Independence to Center in Dallas

Dallas, Texas.—In 1936 the State of Texas will celebrate the passage of a century since her pioneer settlers won freedom from Mexican rule and established the Republic of Texas, which later became a state.

Throughout the Lone Star State there will be celebrations at places of historic and patriotic interest. The cities and towns which were battle scenes in the Texas Revolution, and communities founded during the exploration and colonization preceding the Republic, will commemorate progress of the only state that existed as an independent republic, recognized by foreign powers, prior to its entrance to the Union.

Under the six flags that have flown over Texas soil—those of France, Spain, Mexico, Republic of Texas, the Confederacy and the United States—since 1519, there has been written by men and women, in thought and action, a saga that is truly mighty.

Highlight of the gala and festive celebrations of the Centennial Year will be an event that is in its own right an historic one. It is the Texas Centennial Exposition, to open in Dallas on June 6 and continue until November 29.

The Texas celebration represents an investment of more than \$20,000,000. The City of Dallas pledged \$8,000,000 in cash and property and the \$4,000,000 plans of the State Fair of Texas, located within her city limits, will be used as the Exposition grounds. Dallas also pledged \$5,500,000 in cash for building her share of the enterprise, \$3,500,000 of which was raised by a municipal bond issue and \$2,000,000 bonds sold by the Texas Centennial Central Exposition Corporation, comprised of Dallas citizens.

The Texas Legislature appropriated \$3,000,000 and the United States Government a like sum.

The Dallas Exposition grounds consists of approximately 200 acres. Exposition buildings and their cost follow:

- Texas Hall of State, \$1,200,000;
- Hall of Fine Arts, \$550,000;
- Hall of Varied Industries, Electricity and Communications, \$440,000;
- Hall of Transportation, \$440,000;
- Hall of Livestock and Animal Husbandry, \$300,000;
- United States Building, \$325,000;
- Hall of Natural History, \$250,000;
- Rural Boys' and Girls' Dormitory, \$250,000;
- Hall of Foods and Beverages, \$230,000;
- Hall of Aquatic Life, \$180,000;
- Hall of Agriculture, \$170,000;
- Hall of Domestic Arts, \$75,000;
- Hall of Horticulture, \$75,000;
- Band Shell and Pavillion, \$50,000;
- Hall of Negro Life and Culture, \$50,000;
- Radio, Police, Fire Station, Texas Ranger Headquarters and Hospital, \$40,000.

Cost of landscaping and paving is estimated at \$75,000. In addition, a half-million dollars worth of utility equipment and \$350,000 in electrical equipment will be installed.

A million dollar sports plant will enable the Exposition to handle sporting events of all kinds. The grounds already have a \$400,000 stadium seating 48,000 people, a horse race track and grandstand costing \$300,000, and indoor boxing and wrestling arena costing \$100,000 and seating 6,000 persons, a polo field, straightaway and oval running tracks and tracks suitable for automobile or motorcycle races. A standard-sized swimming pool will be constructed for aquatic events.

Main entrance of the Exposition grounds will face the Esplanade of State, 300x1000 feet, leading to the Texas Hall of State. The esplanade's center will be a reflecting basin 200x700 feet with concealed lighting effects flashing from the pool to adjacent buildings.

The Texas Hall of State, built of native granite, will be 488x258 feet. An 80-foot high center will house the Niche of Heroes, dedicated to illustrious figures of Texas history. The front wings will be devoted to regional rooms, a replica of a Texas mission representing the Hall of 1936. An auditorium in the basement will be used for convention purposes.

"Peter Ibbetson" Coming To Pastime

Gary Cooper and Ann Harding

All the delicacy, beauty and poignancy of George Du Maurier's immortal love story lives again in Paramount's picturization of "Peter Ibbetson," starring Gary Cooper in the title role, which will make its debut at the Pastime Theater Wednesday.

A gigantic task at best, in novels, all concerned in the production of this fascinating fantasy deserve high praise for maintaining the dignity and ethereal atmosphere which characterized Du Maurier's classic, as well as giving it an added robustness and warm blooded appeal in its latest screen regalia. Although old-fashioned romance and sentiment run riot in the film, its tendency to become saccharine in treatment is skillfully avoided by that astute director, Henry Hathaway, who gave us the highly successful "Bengal Lancer."

It is interesting to watch Gary Cooper's fine interpretation as Ibbetson. Cast in a role entirely foreign to any he has attempted, Cooper achieves a memorable characterization, revealing hitherto hidden versatility in his dramatic makeup just as he displayed amazing undiscovered capabilities in "Lives of a Bengal Lancer."

Given the difficult part of Peter Ibbetson, Cooper endows the character with the fine shadings and heart warming appeal the role demands. "Peter Ibbetson" is a distinct achievement for Cooper, definitely stamping him as an actor of great depth and wide range. Ann Harding who appears in the leading feminine role opposite Cooper, as the Duchess of Towers, also can be accorded highest commendation for her portrayal that has been enacted by so many illustrious forebears. Miss Harding brings a warmth of understanding to the tragic, yet pathetic Duchess, doomed to lifelong separation from her lover.

Laid against the picturesque, colorful background of the Victorian period, "Peter Ibbetson" depicts the beautiful love between a man and a woman, a love so great that surmounted every obstacle, even those of life and death. Playmates and sweethearts in childhood, their friend-

ship cut short when Ibbetson's uncle takes him from Paris to England to be educated. Years later, Cooper, as a promising young architect, is sent to the Duke of Towers' estate to design new racing stables. There he meets the Duchess, Ann Harding, who is the "Mimsey" of his school days. Their new found romance almost immediately has a tragic ending. The jealous Duke, excitedly acted by John Halliday, is accidentally killed, and Cooper is sentenced to life in prison for the crime.

Their love thwarted by prison walls, the two spend the rest of their lives together in a dream world of their own creation. An unforgettable, impressively dramatic climax marks the finale of this immortal love story. Expertly directed in romantic settings, the supporting cast is splendid in individual roles. Virginia Weidler and Dickie Moore are especially well cast as Cooper and Miss Harding as children. Ida Lupino and Douglas Dumbrille rate mention in respective parts. "Peter Ibbetson" can definitely be classed as an innovation in picture-making. Heretofore produced as a play and an opera, "Ibbetson," as a photoplay, gains much in scope, with the decided advantages that the screen can give it. A dream fantasy in the strictest sense of the word, the finest photography creates the necessary dreamlike illusion, without at the same time detracting from an impression of solidity and down-to-earth atmosphere that gives it its feeling of reality.

837 Convicts Are Granted Clemency By Allred in 1935

In the first year of Governor Allred's term, reports show that 837 convicts had been shown executive clemency. This is a small number compared with former years.

The report, from the secretary of state's office, on December 28, listed 1,029 clemency proclamations issued since January 16, 1935. The governor revoked 102 clemencies while other acts did not mean freedom for convicts.

During the second term of former governor Miriam Ferguson 5,142 clemencies were granted. Former governor Ross S. Sterling granted 5,328. Governor Allred and Sterling favored general paroles while Mrs. Ferguson issued more conditional pardons than any other type of clemency.

Governor Allred added a new feature in clemencies soon after his inauguration. He established

Corpus Christi Girl Gets Unique Penalty

Much of a 14-year-old Corpus Christi girl's time during the holidays was spent in writing because she drove an automobile too fast.

Justice Joe Browning ordered the girl to copy three times in longhand the now famous "Sudden Death," an article of about 3,000 words dealing with the horrors of traffic accidents.

"The girl wept—said 'sorry'—and then agreed to carry out the writing orders. She was accused of driving 61 miles an hour on a crowded street.

county parole boards to whom the released convicts were paroled for regular reports. The boards, formed in many counties, also were charged with aiding ex-convicts who had served their terms.

Out of 603 convicts granted general paroles, only nine returned the governor's term for instances where revocation was necessary. He revoked one of the conditional pardons.

THERE IS ALWAYS WORSHIP-FELLOWSHIP-SERVICE

This is going to be a great year. Things are already happening unprecedented. Breathing court decisions and New Deals and Old Deals are being contrasted by new and old foes. It looks now as if there will not be a dull moment in 1936. We are going to be kept on our toes or swept into oblivion. We must be alert if we expect to live. The time demands sane, sound, sensible, serious thinking. This is exactly the time for Christian people to let their lights so shine that men may see the good we can do and be constrained to glorify God. Church-going will mean more perhaps this year than any other time in the history of the world. We have big, serious, perplexing problems confronting us on every hand which calls for our diligent attention, and challenges the best there is in us. This is the Centennial year in Texas, commemorating 100 years of the independence of our great state. Every law-abiding and patriotic citizen in Texas will want to enter wholeheartedly and enthusiastically into this celebration. Every Christian will want to make this the greatest year in Christian history in Texas. To do so we must put on the whole Armour of God and be ready for every challenging moment. This can best be done by a close allegiance to our church life in supreme devotion.

VOL. I Devoted To The Students Of Lelia Lake High School No. 7

The Whirlwind

Editor-In-Chief --- Bob Leathers
Assistant Editor --- Bernice Self
Sports Editor --- Winston Nippert
Sponsor --- Mrs. Frank McInnis

DEPUTY SUPERINTENDENT WILL VISIT HERE

During the week of January 20, the Lelia Lake High School will be visited by J. D. Wilson, deputy state school superintendent for this district. This will be Superintendent Wilson's first visit to our school and every effort is being made to have everything in condition to meet requirements. It is indeed very important that the entire school does meet all state requirements, because we are asking, and must have, a considerable sum from the rural aid fund. This money will be withheld unless the school is up to standard in every respect. Every teacher and pupil will be asked to do something extra during the next few days to help in improvement of the school. Many compliments were received last year from Mr. Dickson. Let us be eligible for the same commendations this year.

GYM CONSTRUCTION PROGRESSES

Rapid progress is being made in the construction of the gymnasium in spite of the fact that weather conditions and the Christmas holidays have intervened.

The structural steel has been delivered and a car load of lumber is scheduled to arrive soon. This will enable the work to continue, as was first expected.

According to Mr. Chas. Speed, contractor, the building should be completed within two months, provided that favorable weather conditions prevail.

SENIORS ENTERTAINED

Last Thursday evening the Seniors were entertained by their sponsors, Mr. and Mrs. Raymond Wilson, with a theater party. After seeing "Becky Sharp," the class returned to the home of their hosts, where refreshments were served.

Those attending this entertainment were Fern Martin, Marie Howard, Mavis Wiggins, LaNelle Lewis, Ruth Robertson, Vera Morrison, Bernice Self, Frances Johnston, Bob Leathers, Tommie Allen, Winston Nippert, Jeff Wiggins and the host and hostess.

GABBY GOSSIP GAGS

By Gussie

Listening in last Saturday I overheard the following telephone conversation:

Jeff: Hello, Sugar Foot. How are you?

Mrs. Gerner: W-h-a-t-?

Jeff: Oh-ah-er-is Laura Mae there?

Mrs. Gerner: No she isn't. She's gone to town and won't be back until four o'clock.

Jeff: Thanks-er-Mrs. Gerner.

Several faces certainly brightened up during the holidays. Maybe it's because of all those new diamonds we see flashing around. Maybe it's that permanent wave that caused Ruth Robertson's face to be so bright, and the arrival of a certain boy from Commerce has brought back the color to Bernice Self's cheeks.

Marie Howard and Fern Martin were seen riding in a '35 Chevy Monday night.

You should have seen Bob Leathers at the kid party Wednesday night and say, Vernelle Leathers has certainly been looking at that picture that her boy friend gave her for Xmas.

Several girls were seen taking up a collection to buy gas for their model T ride Friday night, and it seems as if this same group was invited to the New Year's dance at Giles; however, none accepted and it might have been because of this ride.

Here comes LaNelle Lewis telling about that new fitted bag, but Winston Nippert certainly isn't telling much about that black eye he has.

Well, I may be back soon if I don't get married. This is Leap Year, girls. Let's get started. Mabel.

When A Merchant Is Fooling Himself

The merchant who is not advertising and who observes that his competitor is not advertising either, is fooling himself if he believes that competitive advertising is not hurting him.

Newspapers from neighboring towns come into his town every day. Some of his potential customers read them, and note the advertising messages they carry. Unless the home merchant is meeting this competition with similar advertising, he is losing business that he should have. If he doesn't think so, he is kidding himself, and the longer he kids himself the more business he will lose.

A certain amount of business will come to a town regardless of the efforts put forth by merchants. But there isn't enough business of this kind to make any town a good business town. It is the business that may come to a town or go to a competing town, depending upon the type of merchants in the two towns, that keeps a business institution out of the red.

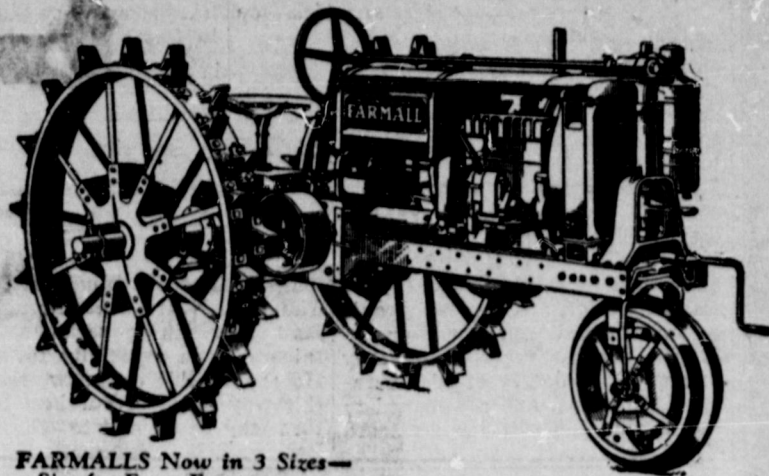

Business recovery for one town may mean business recession for a neighboring town. Which kind of town are you, Mr. MERCHANT, going to do business in, in the future?

CONSISTENT, CONSTRUCTIVE ADVERTISING PROVIDES THE ANSWER!

In "Their Home Paper" of course—

Here Is True FARMALL POWER

reduced in size, weight, and capacity to take over the power problems on tens of thousands of small farms, and to serve as an auxiliary tractor on larger farms.

FARMALLS Now in 3 Sizes— a Size for Every Farm.

THE tremendous success of the McCormick-Deering Farmall tractors naturally created a demand for the same efficient Farmall power in a smaller size. International Harvester engineers have produced such a tractor. The new McCormick-Deering Farmall 12 is the result. It has surprising power for its size. Weighing a little over a ton, it displaces four or more horses in field work. It handles all the operations in growing and harvesting all crops. Pulls a 16-inch plow bottom or two 10-inch bottoms. It is an ideal tractor for planting and cultivating corn, cotton, etc., the capacity on these operations being 25 to 33 acres a day. Wheels are adjustable to a wide range of row spacing. The Farmall 12 is ready to middle bust, handle haying operations, pull tractor binder and corn picker, cut ensilage, grind feed, etc. Like every other Farmall, the Farmall 12 is a true all-purpose tractor. Ask us for full details as to specifications, equipment, etc.

nately that it would be impossible to maintain an office in each county," Carpenter said. "Although plans for definite organization have not been completed, it was the opinion of the commission that the limited amount of money available for administrative expense would definitely preclude the establishment of an office in each county.

"The commission expects to work out some sort of a plan for district offices, with possibly a representative in each county who will receive applications and transmit them to the district office. Definite plans will be announced in January."

Letters have been received from county judges in about one-half of the Texas counties offering offices in the court houses.

The commission announced it would receive no more applications for jobs at this time. Employees will be selected from the 4,000 applications already sent in.

Cocke & Braden, Contractors

Cocke & Braden, with offices located in Amarillo in the Herring Hotel, phone 2-3077, are contractors of proven ability who have provided themselves with the most modern equipment to give the best service in general contracting and construction work.

The first improved roads in the United States were constructed of two parallel rows of small timbers embedded in the earth about three feet apart. The first one was constructed by George Geddes in 1837 at Syracuse, New York, at a cost of approximately \$2,000.00 per mile. The road was maintained by collections at toll-gates. Since these gates were allowed by law at intervals of three miles, these roads, despite their frequent need of repair and the necessity of rebuilding them completely every seven years, often paid fat dividends to their owners. Even as late as 1859 we might have traveled upon planked streets in the city of Chicago.

Today is a day of experts. We no longer travel upon rough plank roads. No longer do we stop every

three miles of our journey to pay at the toll-gates. We have, thanks to the efforts of such contractors as Cocke & Braden, smooth, durable, improved roads upon which we may travel comfortably for miles and miles.

There is no greater need in the country today than good, well-improved streets, roads and bridges. The tremendous increase in traffic, due to modern motor cars, has made it a matter of public interest that all road and bridge building be done by firms that are known for dependability and square dealing. Cocke & Braden employ in their organization only men who can be depended on to do good and competent work.

The thorough manner in which they execute all contracts and their public spirited policies have won them wide favor. They have completed many jobs in this section of the state. They have a complete line of equipment and are continually adding new equipment. We are very glad to compliment Cocke & Braden upon the excellent service they offer.

"Extra Girl"

When Texas Centennial Exposition officials began to select the Rangerettes, hostesses for the Exposition, they planned to have one who was born in each of the 48 states. Then along came Mabel Rooks, shown above, and she passed the strict requirements. Officials found later she had been born in the District of Columbia, so they increased the corps to 50, giving themselves a little leeway in the matter of states.

You are always more than welcome to worship with us and if you are not going to some other Sunday school, why not try some of the Chamberlain classes.

Youths Charged With Burglary

Three youths, who gave their names and addresses as Harold Welch, Bob Clossen and Richard Bolt, of Denver, Colo., were taken into custody by Deputy Sheriff Marion Quisenberry at the depot following a burglary of the C. A. Thomasson filling station here Monday night.

According to Quisenberry, the boys were about 18 years of age, and were hitch-hiking through the country.

Entrance was gained by forcing a window, Quisenberry said. Only cigarettes, cigars, gum and candy were taken.

The suspects signed a full confession when confronted with fingerprints taken at the scene of the robbery, Quisenberry said.

(Continued from Page One) above the average in scholastic ability, and he has demonstrated leadership in many instances in his school work.

After teaching two years at Windy Valley, Mr. Kavanaugh moved to Martin, where he has taught for the last four years. His work there has been very successful and he is highly commended for his moral influence and his efforts to give the pupils of his schools the best advantages possible.

Since his connection with the Martin school a new brick school building has been erected which contains the best equipment that could be purchased. The playground equipment that he constructed without cost to the district is good evidence that he is interested in his work.

Mr. Kavanaugh's school will be standardized this year as a result of his untiring efforts and willing service to help make it possible.

Mr. Kavanaugh solicits the support of the voters of the county in the forthcoming election, and states that, if he is elected, he will endeavor at all times to faithfully and efficiently discharge the duties of the office.

AAA Is Killed

(Continued from Page One) the Barkhead Cotton control bill the Kerr-Smith Tobacco Act, and all other agricultural control measures would fall.

The court's action was so drastic, reports said, that only an amendment to the federal constitution will permit re-enactment of any similar measure. President Roosevelt, seated at his desk, received the note of the AAA decision, smiled and said there would be no comment. Observers believe a constitutional amendment may be offered.

The court held that control of agricultural production, even by voluntary agreement, and upon payment of bounties, was beyond the power of the government. It also held that the AAA was an invasion of states' rights.

FDR WARNS CONGRESS ABOUT NEW TAXATION

President Roosevelt's message to congress Monday warned that additional taxes will be necessary if the soldier's bonus is passed and the processing taxes stopped. The message was written before the AAA was declared unconstitutional which automatically stopped processing taxes.

The message showed that the national debt would be 31 billion in 1937, double the 1930 figure. The President said the CCC and public works program in the future would be on the regular and not the extra budget.

Senator Wright Patman of Texas meanwhile pushed his fight to get the bonus authorized by the last of this week. His proposal is to pay it with more than two billion dollars of new money. He is willing to let that rest, though, until the payment is authorized.
