Williams Tolls
By Fred L. Williams

Thought for the Week—
"Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence when built."—Abraham Lincoln.

Might See Frank—
A press release from Centennial headquarters states that Oscar, world famed chef of the Waldorf-Astoria Hotel in New York, is appealing to Texans for a good old fashioned recipe, namely barbecued beef.
Someone might do well to refer Oscar to Clarendon's own maestro of the barbecue pits, Frank Whitlock.

Dillard Is Visitor—
Bill Dillard, genial superintendent of schools at Alanreed, was a visitor at The News office Saturday. Mr. Dillard states that a big "blow-out" is being planned in Alanreed for April 11, the date upon which the new gymnasium will be formally dedicated.

Incidentally, there is a very unique angle to the Alanreed gymnasium. And that is the fact that it is NOT a WPA project. A thing that's very seldom heard of these days.

A complete story concerning the dedication of the new building will appear in The News at a later date.

Share the Wealth—
A South Dakota newspaper sums up the "share-the-wealth" movement in the following manner:

"Bill asked Jake if he was in favor of the divide-the-wealth plan. Sure, said Jake. If you had a thousand dollars in the bank, would you give me half? asked Bill. Certainly. If you had a dozen cows would you be willing to give me six? Sure! If you had forty acres of land would you give me twenty? Of course. And if you had two pigs would you divide? No, you dern fool! I have two pigs!"
And it would work just about that smoothly.

Praises Flood Control Work—

City Commissioner H. C. Brumley and E. T. Archer, consulting engineer from Kansas City, Mo., were callers at The News office Wednesday afternoon. They had just completed an inspection tour of the flood control project that is under way here, and Mr. Archer was very enthusiastic about the work that is being done.

"Clarendon need not fear another flood, once the system of dams is completed," Mr. Archer said. "Those dams are large enough and strong enough to retard the water sufficiently to prevent flooding, and when the outlet through the railroad bed is enlarged it will allow the water to pass on through the large drainage ditch as fast as the dams will let it through. The project has been gone about in the proper manner, and I feel sure that it will adequately serve the purpose."

And that, coming from good authority, will make all residents of the city feel a little better when (and if!) the next big rain comes.

Show Their Colors—

An old boy from out of town was in the office the other day, and said that the bootleggers were so thick in the town he came from that they had to wear badges to keep from trying to sell it to each other.

Note to Guy Pierce: The town is NOT in Donley County.

Believe He's Askeered!

Well, folks, it begins to look like there isn't going to be any Linotyping duel after all. Mr. Odum, over to The Hereford Brand, might possibly have been doing some talking when he should have been listening himself, or sumpin'.

Anyway, I took my pen in hand and formally accepted his formal acceptance of my challenge, and requested him to formally accept my formal acceptance of his formal acceptance, and I even go and print all them hard things in this column he said in his column about how bad his man can beat me setting type. And then I offer to meet his man for money, marbles or

HISTORIC OLD FORT DAVIS IN THE BIG BEND

High in the rugged mountains in the Big Bend country is old Fort Davis, founded in 1854 by soldiers seeking a "water route" to the Far West and abandoned nearly 42 years ago. Vivid reminiscences of the picturesque frontier are afforded old timers who visit this old fort nestling beneath the gaunt cliffs of the Davis range.

CO-FOUNDER OF NEW CLARENDON DIES IN DALLAS

MORRIS ROSENFIELD, PIONEER PANHANDLE RESIDENT, EXPIRES SUNDAY.

Morris Rosenfield, pioneer merchant and co-founder of the new town of Clarendon, died in a Dallas hospital, Sunday, March 15. Funeral services were held at 4 p. m. Monday at Dallas, with Dr. David Lefkowitz, rabbi, Temple Emanu-El, officiating. Burial was in the Emanu-El Cemetery.

In 1882 Mr. Rosenfield moved the stock of Sanger Bros. store in Wichita Falls, to Clarendon, and later bought the store with B. H. White as a partner.

During his 22 years as a resident of both old and new Clarendon, Mr. Rosenfield was a progressive civic leader. He was on the first school board and appointed the first teacher for the first school in Donley County. He was also instrumental in bringing J. D. Stocking, the first doctor, to the old town.

In 1883, when Clarendon was made county seat, Rosenfield was elected as the first county treasurer. He later financed the first telephone exchange here.

He was a member of the citizens committee that bought land and decided it to the railroad for the round house and shops, when the new town was located in 1887.

In 1905 he returned to Dallas where he was connected with the James and Clark grocery and the Roth Sign Co. for a number of years.

Mr. Rosenfield has supplied much information for the collection of historical stories of Western Texas for the Panhandle-Plains Historical Museum at Canyon.

A native of Prussia, he came to Texas with his parents in 1867, and at the time of his death was almost 80 years old.

Happy Landings!

The picturesque color of the old West is being vividly reflected in rodeos and cowboy reunions from Fort Worth to El Paso, and from Borger to Falfurias. Centennial visitors are witnessing the re-enactment of the most thrilling episode in American history, the "Winning of the West."

NEW TERRAPLANE AND HUNDREDS OF DOLLARS OFFERED

WORKERS WILL RECEIVE PAY CHECK EACH WEEK; \$1 OUT OF EACH \$5.

In order to put The Clarendon News in every home in Donley County and the immediate trade territory of Clarendon, this newspaper has announced one of the most outstanding free gift distributions ever made to the reading public of this section of the state.

All subscribers to The News whose subscriptions are delinquent at the close of the campaign will POSITIVELY be removed from the mailing list! The News will go ONLY to those subscribers whose subscriptions are PAID IN ADVANCE!

In this intensive subscription campaign every reader of The Clarendon News and every resident in this trade territory will have full opportunity to participate in this great event.

About \$2,000 in prizes will be awarded to the energetic and ambitious candidates that enter this campaign, headed by a beautiful new Terraplane DeLuxe Brougham, and a trip to California and return. In addition to the leading gifts, other prizes distributed will be the payment of a "weekly check" to each and every person who enters this campaign.

It is freely predicted that this liberality of which exceeds any previous attempt in this section will be the most successful in the history of any newspaper in the vicinity affected.

To become a candidate in this distribution is an easy matter. Elsewhere in this issue, there appears an entry coupon, which properly filled out and mailed or brought to the campaign department will start you in this interesting work.

To the person who first sends or brings in to The Clarendon News office the name of the candidate winning first place in the campaign, \$10.00 will be given. Send in as large a list as you wish. Nominate yourself, your sister, wife, or mother, father, son, brother, sweetheart or friend.

As soon as your "Entry Coupon" is received at this office a supply kit will be furnished each entrant, and thus equipped all that is necessary is to see your friends and neighbors and sell them The Clarendon News, the easiest selling proposition in this section.

When you have sold and delivered to this newspaper your first subscription an opportunity coupon will be issued in your favor in the amount of 100,000 votes, together with the votes issued on the subscription and those for your entry coupon will give you up to 108,000 votes.

It makes no difference where a candidate resides, so far as his or her chance of winning first is concerned. We want and must have candidates from every section of the country.

Here is an opportunity for you to earn that certain amount that you have been wishing for, and at the same time enjoy your work. Each candidate will be paid every Saturday night 20 per cent for his or her collections; that means one dollar out of every five collected is yours. The amount of the Saturday checks depends on you alone, just as big as you care to make them. The territory is here, the newspaper is here, and the PRICE of the newspaper is here and right.

During the "Weekly Payroll" circulation drive, everyone has an opportunity to subscribe, or to renew their subscription at the rate of \$1.50 per year in Donley and adjoining counties; \$2.00 per year outside. All subscribers who are delinquent at the close of the campaign will be taken off the list.

LOCAL WPA WORKERS TO FEEL 'THE AXE'

HOME DESTROYED BY FIRE SATURDAY

C. C. MAY RESIDENCE COMPLETE LOSS IN FIRE OF UNKNOWN ORIGIN.
The home of Mr. and Mrs. C. C. May in Southwest Clarendon was completely destroyed by fire last Saturday night, the alarm being turned in about 8:45 o'clock.

The fire department responded to the call, but when the trucks arrived on the scene the house was too far gone to be saved. The firemen were greatly handicapped by the lack of water, no fire hydrant being located in the immediate vicinity. Chemicals were used, but to no avail.

No one was at home at the time the fire started, and the blaze had gained considerable headway before it was seen by a neighbor who turned in the alarm. Mr. and Mrs. May were away from home only a few minutes, but when they returned their home was only a mass of smoldering, charred wood.

Stolen Articles Are Returned By Thief

A pocketbook containing several valuable gold pieces and heirlooms and several other articles was stolen from the S. A. Pierce home recently.

The family was away from home for a time Sunday, and when they returned they found that the miscreant had returned all of the stolen property during their absence, leaving no clue as to his identity.

FLOOD CONTROL QUOTA REDUCED; COUNCIL TO CHOOSE BETWEEN HIGHWAY AND SCHOOL PROJECT.

Work on Clarendon's flood control project is going to be impaired considerably, and either the Highway 88 project or the school project will probably have to be dropped, according to information received by County Judge S. W. Lowe this Thursday, morning from A. A. Meredith of Amarillo, district WPA director.

The following self-explanatory letter as received by Judge Lowe from Meredith this morning: "Texas has exceeded its quota of workers allowed, by a considerable number, and mandatory instructions have been issued that the quota of workers on Works

Laughing Around the World With IRVIN S. COBB

Why They Called Him Speedy

By IRVIN S. COBB

BERT SWOR, the minstrel man, is something more than a mere black-face comedian. He was born and reared in a Texas town and he probably knows as much about the true interpretation and, what is more, the true delineation of certain negro types as any

living man. He knows what most Northern-born men do not, that the essence of the Southern negro's humor usually is based on a gorgeous hyperbole, a natural instinct for exaggerated comparisons. Much of the material out of which he coins his laughs on the stage is based upon things he heard or saw when his boys down in Texas.

One of his most popular wheezes is a faithful rendition of something which a colored man at Fort Worth said years ago. Two negroes were talking together. As Swor passed he gathered that the subject under discussion was the relative fleetness of foot of the pair. As he came within earshot one of them said:

"You claims you is fast! You says you's so fast folks calls you speedy! Jest how fast is you, nigger?"

"I'll tell you how fast I is," said the other. "De room whar I sleeps nights is got jest one 'lectric light in it. 'De dat whar I lights is forty feet from de baid. W'en I gets undressed I kin walk over to dat 'lectric light and turn it out and git back into baid and be all covered up befo' de room gits dark."

SAYS PROSPERITY DEPENDS ON SOUND FARM PROGRAM

JACK SHELTON, EXTENSION DIRECTOR, SAYS FARMERS ONLY WANT EQUALITY.

College Station.—"Business men and farmers and ranchmen have a common problem in finding the way to restore agriculture to a paying basis, because as the president of the Galveston Chamber of Commerce as well pointed out in a recent speech 'Civilization begins and ends with the plow and so does prosperity! Prosperity not alone for farm and ranch families but for the families of men engaged in commerce, industry and other occupations," said Jack Shelton, vice director of the Texas Extension Service and state agent in charge of men's work, in a recent interview.

"No one wants class legislation for the farmer—the thing which affects him affects every agency which sells to him or touches him in any way," Shelton said. "The farmer does not want class legislation nor any unfair advantage for himself either. All that he has ever asked for is an opportunity to produce and market on an equal basis with industry."

"We have been thinking a lot about the new agricultural program as we have been able to catch details of what Congress has been considering. The job is going to be to apply it to local conditions as they are found throughout the state so we have been studying how it could be applied to the Panhandle where the great wheat lands are located; how to apply it to the Plains where cotton and grain sorghums are important crops; how to apply it to the Blacklands—the central cotton belt; how to apply it to East Texas and how to apply it to the Rio Grande Valley."

"As I understand it," Shelton said, "it is just a question of developing a good sound agricultural program in each region and on each farm. Nothing will be required except the application of those practices of soil utilization and conservation which have become recognized as the best for Texas."

"Farmers themselves should have a large part in applying this program. They will know their local conditions and they will know not only the general regional conditions, but special conditions applying to individual farms."

"It is fortunate that there is a great deal of experimental information available to aid in establishing any new agricultural program which may be offered. There are 17 experiment stations placed in strategic positions over Texas, many of which have work-

Stamford Cowboy Reunion Will Hold Roundup At Dallas Central Exposition

Stamford, Texas, March 18.—Following the seventh annual session in Stamford July 2, 3 and 4, the Texas Cowboy Reunion will join with the Central Exposition of the Texas Centennial in staging a reunion and rodeo of regular ranch cowboys in Dallas August 1 to 9. The Dallas roundup, which will be held in the Stadium on the Exposition grounds, will give visitors to the Central Exposition in Dallas the same opportunity to see the famous cowboy rodeo as the visitors to Stamford in July.

In inviting the Cowboy Reunion to stage a roundup at Dallas, Exposition officials asked that the show be of the same nature as the one staged in Stamford each year. The invitation came through former Mayor Chas. E. Turner of Dallas, who is director of special events for the Centennial Exposition, and was accepted in behalf of the reunion by W. G. Swenson, president.

The Cowboy Reunion roundup at Dallas, as well as the regular session at Stamford, will give Centennial visitors a view of actual cowboys in their work and sports in contrast to the film and fiction version. Ranches from all over the state will send their top hands to the reunion and rodeo to match their skill and the speed of their horses in roping and tying calves and milking wild cows and to risk their necks in riding outlaw horses and ferocious Brahma steers. The branding of calves as it is done on Texas ranches will be demonstrated. Prizes totalling \$12,000 will be awarded in the various cowboy contests in the Dallas show.

Each city and town in the state will be invited to send a cowgirl sponsor to the Dallas roundup just as they are selected for the Stamford Reunion each year. Sponsors will be judged on their appearance and horsemanship and on the appearance and performance of their mounts and the winners will be awarded prizes totalling \$1,500.00.

The Salesmanship Club of Dallas has accepted responsibility for a long period of years. They have accumulated much tested information which is going to be of great value in establishing what is proper land utilization and conservation," Shelton said.

the social entertainment of the girls during the nine days in the Exposition city and will arrange a round of social affairs and amusements in their honor.

The Texas Cowboy Reunion was organized in 1930 as a means of keeping alive the traditions and sports of the ranch country. In six years the annual gathering at Stamford has grown to enormous proportions, bringing 50,000 to 60,000 visitors to this city for the three-day celebration each year. This year's roundup of cowboys and cattlemen here on July 2, 3, and 4, has been designated as the Texas Cowboy Reunion Celebration of the Texas Centennial.

Different because it's

alloyed

We don't mean one of those "talking point" differences. We mean a real difference. Alloying Germ Processed oil goes beyond refining and re-refining. After every harmful element is cleaned out, the patented Conoco Germ Processing element is scientifically put IN.

That's what brings you this alloyed oil, with its strange attachment for pistons, cylinders, and all other engine parts—including every known type of bearing. All these parts really become oil-plated!

This oil-plating is extra. It's a plus—added to the tougher, more slippery, heat-beating Germ Processed oil film. You've got this high-durability oil film, sliding on thoroughly oil-plated surfaces, and so you're that much farther from wear and noise.

You're facing hotter days and harder runs. Out with dirty winter oil! Only the Conoco man can change you—quickly—to Germ Processed, the alloyed oil. Continental Oil Company.

Emergency Crop and Feed Loans For 1936 To Be Available Shortly

Emergency crop and feed loans for the year 1936, as authorized by the president's executive order of February 28, will be available within the next 10 days, according to C. C. Gibson, field supervisor of the Farm Credit Administration with headquarters in Childress, who was in Clarendon Monday. Regulations governing the loans have been issued. Governor W. I. Myers of the FCA said the loans will be made through the same channels used in previous years. Farmers eligible may obtain applications from the field supervisors or the local emergency crop loan committees already operating in most counties. He said the loans will be limited to the minimum amount necessary to meet the immediate and actual cash needs of farmers who are unable to obtain credit from any other source, and in no instance exceed \$200 to one farmer. Applicants who can get credit from any other source, including a production credit association, will not be eligible for emergency loans, he explained. Loans will be made for the production, planting, cultivating, and harvesting of crops, for summer fallowing, for supplies where they are necessary for production of 1936 crops, or to produce necessary feed for livestock. According to the governor's statement, preference will be given to applications of farmers whose cash requirements are small, and no loans may be made for purchasing livestock or machinery or for payment of rents, debts or taxes. The loans will bear interest at the rate of 5 1-2 per cent a year and be secured by a first lien, or an agreement to give a first lien, on all crops financed in whole or part with the proceeds of the emergency loan. Where loans are made for the production of feed for livestock, they will be secured by a first lien on the livestock to be fed. Gibson stated that Donley County farmers could obtain

DUB SHOTS
(By DICK COOKE)

Announcements of spring have been forthcoming since the first robin was seen, the first warm weather, the first sprigs of green, etc., but conviction came to me only Sunday when I saw the crowd of golfers at the club. Practically everybody that ever played was out. Glenn Allison had his sights set for the first green when he teed off on No. 1 Sunday, "to get his name in the paper," he said. But as a lopping topped shot followed here's his name for consolation. A. N. Wood will celebrate his 58th birthday Friday, March 27, with a round of golf with his sidekicks, R. C. Weatherly, Sr., J. T. Patman and T. F. Connally. The birthday foresome get together for a match each time a member passes a milestone. Incidentally, Wood is the junior member of the quartet whose combined ages reach a total of 246 years. They challenge, and guarantee to beat, Wood says, any four golfers of the same age in the Panhandle. Joe Goldston, who also has a birthday the same day, will officially referee the match. All this present argument going around as to how proficient one could become at this game of golf by practicing two hours a day for six months, proves absurd. (Continued on Page Nine)

Progress Administration projects in the state be reduced to the extent that the state quota will be brought within a given figure to balance the number of workers for the period ending June 1.

"This makes it necessary that we discharge several hundred people employed on projects in District 16, some of whom may be reassigned by the U. S. Employment Service to the non-Works Progress Administration projects. In our reduction we will, of course, discharge the unencumbered men and women first, and in view of the fact that you are working a number of single men on the city dam project at Clarendon, this is going to reduce the number of workers on that project considerably; however, I understand the project can be finished by labor available in the county aside from these unencumbered men.

"We regret exceedingly that such action was found necessary by Washington but the order is mandatory and there is nothing we can do about it. In other words, our district will have its quota that we can employ and if we should go beyond that, pay rolls would not be recognized."

After receipt of the letter,

Judge Lowe talked with Meredith over the telephone, and was advised that the county planning council and the county commissioners should hold a meeting this afternoon to determine which of the two projects was most needed, the school project or the Highway 88 improvement project. Meredith stated that in all probability only one of the projects would be allowed.

"The Black Ace" To Be Given Fri. Night

The College Curtain Club presentation, "The Black Ace," which is to be staged tomorrow night, Friday, March 20th, will have, in addition to an excellent plot and an appropriate cast, an unusual stage setting. Through the kindness of the owners, several of the most beautiful pieces of antique furniture in town have been obtained for this performance, and the setting promises to be one of the most beautiful that has been seen on the local stage in several years.

The plot of the play is suspected by his friends of having murdered his cousin, a brilliant actress. So he arranges a party in his cottage duplicating the guests, setting, and circumstances of the murder. The people at the party begin to hate him for his grim determination, and for forcing them through a rehearsal of the murder. One of the party is murdered. Then it's up to Inspector McKenzie, with the unhelpful assistance of Ryan, to solve a baffling crime. Another of the guests, beats him to the solution, but pays for her brilliance with her life. As the tension mounts among the guests, the inspector suddenly finds the answer and unmask a clever and vicious killer.

Cast of Characters
Philip Martin, who gives the party, Ralph Stewart; Alice Martin, Philip's cousin; Sarah V. ADVANTAGES OFFERED BY OUR JUNIOR COLLEGE

A smaller college like our junior college offers many advantages over the larger universities.

Following are a few of the general advantages of Clarendon Junior College:

It is possible to do in the junior college the work of the first two years of the general four-year college courses, or the highly specialized professional courses. It is also possible to get full credit for two full years of work when transferring to any of the leading universities or colleges.

The young student in the junior college, with a small student body and with the close personal contact with the skilled instructors, has a better opportunity to

This play, which is the culminating activity on the College Week, is being presented by the Curtain Club to raise money for the college athletic fund. It will give the audience many thrills and possibly a few chills, for it is an unusually exciting murder mystery.

Statistics have shown that junior college graduates do better work when juniors and seniors than students who have completed their first two years' work in the larger universities.

Special attention is given by junior colleges to the fact that high school graduates now enter college when much less mature than formerly, their work and methods of instruction being especially planned by educational experts to meet this condition.

FOOTBALL FOR THIS COLLEGE

Clarendon College has had an illustrious line of football teams. The first football game was played in 1903, on a very rough and sloping field. The men had practically no equipment and knew very little of the game of football. These ambitious students

find himself, eventually to fit himself to his place in life.

The expense of attending a college at home, or near home, is much less than attending a large university at a greater distance. The restricted size of both classes and of the student body as a whole promotes general participation, not only in class room work but in general life, thus enabling the average student to supplement his book learning by experience in doing—the laboratory method of study, applied to college life and activity.

The extra two years training, together with the continued influence of the home, community, and the church, better fit the student for adapting himself to his new surroundings when he finds it necessary to leave home.

FIRST FOOTBALL GAME OF C. J. C.

The first football game played by the old Clarendon College was played in 1903. They played their old enemy, Goodnight College. Goodnight had played Clarendon several times in baseball and in February they sent a challenge to play Clarendon in football. The boys didn't have

time to play in and most of them didn't know how to play nor how many it took to make a team.

(Continued On Page Nine)

grew to like the game, and learned more about it. Finally discovering that it was customary to have a coach, they procured one. For a period of over 20 years, the Clarendon College Bulldogs proudly carried the green and white, usually winning their games. More than once, the Bulldogs were undefeated for a whole season. In 1926 the Clarendon School District took over the college, and because of the reduced enrollment, most of the athletic activities were terminated. The enrollment has been gaining each year, until now there are approximately one hundred students. In 1935, football was renewed. Many difficulties were presented, but the team did very well for the amount of equipment and training that was available. In 1936, the college expects to have a full schedule of games, with fun, excitement, and thrills for everyone. Let's everyone get behind the Bulldogs in 1936! Give them your support by attending their games, and if possible, attend the college and play on the team.

FIRST FOOTBALL-
 (Continued from Page Eight)
 There was one man who knew about the game, however, so he coached the boys. With only about a week's practice, the C. J. C. team journeyed to Goodnight for the battle. The boys rolled up their pants legs and shirt sleeves and were ready for the battle. Goodnight made two touchdowns in the first five or six minutes of play. They went through the Clarendon team even though Clarendon made a gallant

fight. At the end of the half, Goodnight was leading by ten points. In the second half, however, the tide was turned and the Clarendon boys made enough points to tie Goodnight. Later in the game with only a few minutes to play the C. J. C. team received the ball on the kick-off and ran for a touchdown to win the game by a score of 16-10.

DO YOU KNOW?

That Clarendon has an excellent junior college.
 That all the teachers have M. A. degrees.

That all the teachers have traveled over the United States, and two have traveled abroad.

That there are 95 students enrolled this year in C. J. C.

That C. J. C. has the best library of any junior college in the state. It is composed of 7,600 volumes. Thirty-five years ago it consisted of one bookcase partly filled.

That C. J. C. had a football team this year for the first time in the junior college history. It also had an excellent basketball team.

That the old college football team was the Panhandle champion. They lost this title only two times in eight years. The old college also produced good basketball teams.

That many of the prominent men of the Southwest are graduates of the old college.

That every woman teacher in C. J. C., except one, has a last name starting with H.

For the first time in the history of Clarendon College—new or old—a mother and her son are in the same graduating class.

That one of the students of Clarendon College has been chosen as one of the 2,000 outstanding personalities in the state of Texas.

That for the first time in the history of Clarendon College—old or new—a "College Week" is being observed.

Mrs. Roy Blackwell and Bill Shirley went to Olney Sunday to attend the funeral of their brother.

Says Dangerous Varicose Veins Can Be Reduced At Home

Rub Gently Upward Toward the Heart as Blood in Veins Flows That Way

If you or any relative or friend is worried because of varicose veins, or bunches, the best advice for home treatment that anyone in this world can give, is to get a prescription known as Moore's Emerald Oil.

Simply ask your druggist for an original two-ounce bottle of Moore's Emerald Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you should notice that they are growing smaller and the treatment should be continued until the veins are no longer troublesome. So penetrating and powerful is Emerald Oil that old chronic sores and ulcers are often entirely healed.

Workers Transferred Here From Hedley

Forty-three workers who have been employed on the WPA street project in Hedley have been transferred to Clarendon and will be temporarily employed on the flood control project which is under way here, according to F. L. Goldston, who is in charge of the local project.

The transfer was made in order to provide employment for the men who would otherwise be idle in the county, Goldston said, and will greatly expedite the construction works on the retarding dams.

T. F. Connally was in Dallas on business last week.

Arts Club To Hold Shrub Exchange

The Les Beaux Arts Club will hold its annual flower and shrub exchange in the club rooms here Friday, March 21, according to an announcement by club officials.

The annual exchange is sponsored by the club for the purpose of enabling residents of the county to exchange plants and shrubs of which they have an over-supply for other varieties they may desire. A special invitation is extended to all women residing outside the city limits to participate in the exchange this year, Mrs. L. S. Bagby, president, said.

BREEDLOVE URGES PRODUCERS TO SIGN PROMPTLY TO OBTAIN CHECKS.

Cotton sales certificates are now ready to be signed at the county agent's office, according to an announcement by H. M. Breedlove this week.

These sales certificates are for the producer to use in obtaining the difference between the average of the 10 spot market and the 12-cent cotton on the day he sold his cotton, Breedlove said.

"Approximately one-half of the producers of the county have signed their cotton sales certificates," he said, "but the producers who have not are urged to come to this office and sign their papers as soon as possible so they may be mailed to Washington and expedite the mailing of their checks. Producers are urged to give this their immediate attention and sign their sales certificates as soon as possible."

"To date there has been no information received on the new farm program but as soon as this office receives instructions from the Washington office they will be given to the farmers of the county."

Railway Co.—

(Continued from Page One) property extends, will be enlarged. Brumley states that the city expects to continue widening the ditch all the way to the lake.

Railway officials expect the work on their property to require about two weeks for completion, Brumley said.

The work being done by the railway is in co-operation with the city in its flood control project. It is believed that with the passage through the railway property enlarged to care for a greater quantity of flood water, and upon the completion of the system of retarding dams, Clarendon will be relieved of the flood threat which has been present ever since the city was founded.

Circus To Show—

(Continued from Page One) who wait to purchase their tickets at the gate, will pay 20 and 40 cents, while those who purchase tickets in advance will obtain them for 10 and 20 cents.

The Schell Bros. Wild Animal Show is a complete four-ring circus, and features its collection of wild animals. Elephants, horses, monkeys, dogs, wild animal tamers, clowns, etc., all go to make up the complete circus program that is presented by the show.

The tents will be erected on the vacant lot just across the street south of the Piggly Wiggly Grocery. Doors open at 1 o'clock for the afternoon show, and at 7 o'clock for the evening show.

Co-Founder—

(Continued From Page One) Survivors include one daughter, Mrs. Gertrude Roth; five sons, Henry Rosenfield, Alfred Rosenfield, Max Rosenfield, of Dallas, and Jonas Rosenfield and Mitchell Rosenfield of Los Angeles; one brother, Aaron Rosenfield of Los Angeles; and three grandchildren, Alfred Rosenfield, Jr., Betty Jean Rosenfield, and Robert J. Roth of Dallas.

Mr. and Mrs. F. E. White of Clarendon, close friends of the deceased, attended the funeral.

They also state that quite a few relics and curios are being brought in from time to time, and request the co-operation of citizens of the county who have articles of historical interest which they might donate or lend.

Mrs. Ethyl Nippert of Lelia Lake is visiting her father and sister in Fort Worth this week. She will also attend the Southwestern Exposition and Fat Stock Show.

Ball Tournay Will Be Held Saturday

Because of lack of time the date for the play-ground ball tournament, held each year in connection with the County Interscholastic League meet, has been moved forward to Saturday, March 21. The dates for the other league events are Friday and Saturday, March 27, and 28.

The playground ball will begin at 9 a. m. at the Junior High School grounds with 30 teams competing during the day. Seven games will be in progress at the same time. The winner of the tournament will represent Donley County at the district meet at Pampa.

chalk. And, what does he do? Nothing! Never an answer to my letter did I get, and not a word have I heard since I printed that in this column last week, and personally, I'm beginning to believe he is askeered! (And, personally, I don't much care because I was kinda askeered that Nix guy might beat me too.) But, anyway, I think I made that big boast stand up as far as Mr. Odum and The Hereford Brand was concerned.

Sam Braswell, Jr., Here—

Sam Braswell, Jr., of Amarillo, son of the former publisher of The News, was in Clarendon a few days last week, helping in getting out last week's edition of The News. Due to the fact that the skipper of this department was somewhat foggy in the "think tank" as a result of missing a couple of nights' sleep in getting out the extra large edition, he forgot to mention that Sam was here. However, Sam, was a little foggy in the head himself, from the same cause, and it is doubtful if he noticed the omission until he had done a little "pillow pounding."

Home Destroyed—

(Continued from Page One)

All of the furniture was lost, with the exception of a washing machine. The cause of the fire was unknown. Mrs. May stated that no fires or lamps had been lighted at any time during the day.

Mr. and Mrs. Arlie Wood and Lewis are attending the Fort Worth Fat Stock Show this week.
