### LEGION AFFAIR WELL ATTENDED

DISTRICT COMMITTEEMEN AND AUXILIARY HEAD MAKE TALKS.

One hundred and thirty Legionnaires and auxiliary members gathered at the Legion hall Thursday evening to celebrate the organization of the American Legion in Paris in 1919 and to hear District Committeeman Lu Roberts of Borger speak on "Community Service". Delegations from Hereford, Borger, Dalhart, Shamrock, Panhandle, Wellington, Amarillo and Happy were present making a total of 52 out-of-town visitors.

Members of the Aubyn E. Clarke Post of the American Legion Auxiliary served dinner to the group. Post Commander R. W. Moore opened the meeting and introduced the district speaker.

H. T. Burton, first commander after re-organization of the new Legion in 1927, was master of ceremonies.

Mr. Guy E. Clay of Wellington, district president of the American Legion Auxiliary, spoke to the group. Group singing was led by G. G. Reeves, following which several songs were sung by a quartet composed of Dean R. E. Drennan, Frank Mahaffey, Bobby Leathers and Nick Stewart. Eloise Hill, Dorothy McCormick, Avis Les McElvany, Peggy and Jo Word danced with accompaniment by Mrs. Allee Bryan. Novelty tap dances were given by Alex Cooke, with Billy Cooke at the piano, and Vera Noland, with Mrs. Bryan playing the accompaniment. Billy Ralph Andis read "Father, I Was There".

Mrs. Ben Hill, in behalf of the local auxiliary, presented the Aubyn E. Clark Post with a Community Service Plaque and birthday cake.

Wellington was presented with the prize for gaining the largest number of new members since the district meeting held in Hereford in February. Amarillo had the largest visiting delegation present at the affair.

Mrs. B. B. Cash, mother of Mrs. Curtis Thompson, is seriously ill at her home in Wayland, Texas. Mrs. Thompson and two sons were in Wayland last week and a letter reaching Mrs. Thompson yesterday informed her that her mother's condition was still critical.

### NEED FUNDS TO FEED CHILDREN

UNDERNOURISHED CHILDREN FED DAILY AT SCHOOL SOUP KITCHEN.

Chas. Lowry, chairman of the Soup Kitchen committee at the local grammar school, is making an earnest effort to secure additional funds in order that the undernourished children attending Clarendon schools may have a daily ration of soup, milk, crackers and prunes.

"At the present we are short on funds and are trying to feed seventy-five kiddies. However, if someone would spare us a small amount of milk each day, it would help a great deal. Recently Mrs. Curtis Thompson brought milk to the soup kitchen and thereby helped us feed many hungry children," Mr. Lowry said.

Composing the committee are Chas. Lowry, H. T. Burton, Odos Caraway, and Rev. Robt. S. McKee. Donations may be left with any of the committeemen or at The Clarendon News.

### Two Civil Cases Heard This Week

Two civil cases were brought before the court this week and Judge A. S. Moss granted judgment to the plaintiff in both cases.

In the case of O. C. Hill vs. Mary Helen Hill, divorce, judgment was granted the plaintiff and in the case of Foxworth Galbraith Lumber Company vs. Mrs. Janie Espey, et al, judgment for title and possession was granted as prayed for. Civil cases will continue throughout the week.

### EASTER CANTATA HOLDS INTEREST

ANNUAL PROGRAM TO DRAW LARGE CROWD EASTER SUNDAY EVENING.

A program of unusual seasonal interest is the Easter Cantata, "The King Eternal", by Dr. Ira B. Wilson, which will be presented next Sunday evening at 7:30, at the First Methodist Church in Clarendon.

For many years the Methodist choir has been producing special programs of Easter Cantatas, and this year augmented by some of the best singers in other choirs of the city, interest in the rendition of the selected musical portrayal of the wondrous Easter story is at a new high level and even a greater crowd than usual is anticipated.

A new point of interest in the preliminary program to the cantata is an organ solo, "March Triumphant", composed by Charlotte Ingham Word, and played by the composer, who to Panhandle folk is known as Mrs. Millard Word, a citizen of the Goldston community at present. Mrs. Word is known for her musical achievements in the Panhandle and her many friends will want to hear this new and thrilling composition which will open the program preceding the entrance of the choir.

Thirty-two voices do the choral work of the Cantata, and Mrs. H. R. Kerbow as accompanist of the work, will render two beautiful numbers as processional and recessional. The director, Sam M. Braswell, announces the following personnel of the select choir for the program: Soprano—Mesdames Word, Landreth, McMurtry, Powell, Boston, King, Kirtley, Woods, Shelton and Bones; Misses Averitt, Harned, Hendricks. Alto—Mesdames Howze, Wilkerson, Whitlock, Warren, Braswell, and Hicks; Misses Smith, Wilkerson, Harned and Grav. Tenor—Mess. Hicks, Bulls, Drennan, Rathjen, McClellan. Bass—Mess. Landreth, Hudson, Hayter, Connally, Chunn.

The program will begin promptly at 7:30 and the ushers are requested to seat late comers between numbers and with all quietness in order not to intrude upon the reverential nature of the hour.

J. B. Haile of Lubbock visited Monday with Mr. and Mrs. W. B. Haile.

### Gas Fittings Must Be Checked in City

Not five hours before the New London tragedy claimed the lives of over four hundred school children, Densil Davis, manager of the City Gas Company, met with the City Commission to formulate plans whereby Clarendon citizens will be compelled to have all gas fittings and repair work tested before gas service is available.

As a preventative measure of gas explosions and fire, the City Inspector will inspect without compensation all gas fitting jobs. "It is for your own safety that we insist this be done. It has been brought to the attention of the City Commission that there have been several jobs of gas plumbing done that does not meet with the requirements of the ordinance, which calls for inspection on all gas extension and repair jobs before the gas is turned on," Mayor John T. Sims said.

### BAPTISTS HOLDING DISTRICT MEETING

335 REGISTER AT BAPTIST CHURCH WEDNESDAY; MORE ARRIVE TODAY.

A total of 335 visitors registered yesterday at the opening of the District Baptist Sunday School and B.T.U. convention now convening in this city. Together with the unprecedented number of delegates and out-of-town visitors, a large number of local Baptists are attending the sessions.

Thirty-two towns in District 10 sent delegates yesterday and an additional number of towns in this district were represented today. Delegates registered Wednesday from Amarillo, Hartley, Leola, Lake, LeFors, Memphis, Panhandle, Martin, Whittsburg, Pampa, Spearman, Borger, Turkey, Eli, Lakeview, Wellington, Goodnight, Canadian, Estelline, Grover, Alameda, Lesley, Keiserslee, Ashola, White Deer, McLean, Dallas, Booker, Bethel, Tullet, Groom and Hedley.

Registration began yesterday morning at 9 o'clock. W. S. Savage of Amarillo, presided at the opening session, with the theme of "Enlistment" and the slogan, "Every Church Member Enlisted in Sharing the Responsibilities of the Church."

State Missionary Secretary, Dr. R. C. Campbell of Dallas, gave the principal address yesterday morning and W. J. Lites, of the State Sunday School department in Dallas, spoke during the afternoon. The Wednesday evening session was led by the Mr. Savage with Mr. Lites again addressing the group.

A varied and interesting program is being conducted today with State B.Y.P.U. officers and State Sunday School heads delivering the addresses.

Homes were assigned nearly two-hundred delegates who remained for both the Wednesday and Thursday sessions.

New officers were elected as follows: R. A. Springer, Amarillo, District Sunday School President; Reverend W. A. Fite, Canadian, vice-president; W. S. Savage, Amarillo, B.T.U. president; Reverend J. W. Mason, Memphis, B.T.U. vice-president; and Mrs. Walter Hill, Amarillo, secretary to convention.

One of the outstanding addresses of the convention was given yesterday afternoon when Dr. Campbell chose his topic from Lam. 3-27, "It's good for a man that he bear the yoke in his youth."

Three points, discipline, direction and destiny were brought out in the splendid address. "Overcome obstacles", Dr. Campbell said, "It is not the distance one travels but the direction one takes that counts. If one follow in the right direction, arrival at the proper destination is inevitable."

Pampa was announced this morning as the next convention city and the District Sunday School and B.T.U. convention will be held there March 24, 25, 1938. A committee was appointed this morning to formulate plans for a joint convention of the W.M.S. and B.T.U.

The five associations attending this convention are the Trans Canadian, Canadian, North Fork, Palo Duro and Panhandle.

### SAFETY PICTURES FOR LIONS CLUB

GROUP FROM AMERICAN LEGION BRING FINE SAFE DRIVING PROGRAM.

An instructive and telling two-reel program on safe driving was presented Tuesday at the Lions Club in its regular weekly luncheon at the Clarendon Hotel, when Post Commander Moore and Legionnaires Elmer Palmer and A. C. Stultz were present as guests of the club.

The first of the reels dealt with scientific facts relative to inertia, momentum, etc., the infraction of which laws figure so continually in highway accidents all over the nation. This was followed by a reel discussing "The Other Fellow", showing that the human tendency is to blame the other fellow for accidents, while co-operation with the other fellow solves most all traffic problems of the day. Stories of traffic and accident control in Evansville, Milwaukee, Syracuse and other American cities were graphically shown in the pictures, with the appeal that each and every community organize for mutual effort in the avoidance of accidents and injuries.

The Legion was given the honor of the Lions for such a fine and timely program by Lion President Stallings.

All ranchers who have not signed work sheets and intend to do so, must contact committeemen at the office of the county agent in Clarendon this week.

All ranchers who have not signed paper on grazing capacity are advised to make appearance at the county agent's office at once.

### MIAMI MAN NEW C. OF C. MANAGER

J. R. GILLHAM NEW SECRETARY OF C. OF C. AND AG. TEACHER AT C.H.S.

J. R. Gillham of Miami moved to Clarendon this week to assume the duties of secretary of the Chamber of Commerce and Vocational Agriculture teacher, vacated when J. M. Hill moved to Tulsa to accept a position as agriculture teacher.

Mr. Gillham, an enthusiastic civic worker and a conscientious instructor, resigned his position as vocational agriculture teacher at Miami to move to this city. He taught one year in the Miami schools and before that time was for five years principal of the Carey school, large consolidated school near Childress. Mr. Gillham obtained his Bachelors degree from W.T.S.T.C. at Canyon and received his M.A. degree from Texas Agricultural and Mechanical College. He also did graduate work at Texas Technological College at Lubbock.

He is a member of the Miami Lions Club but is requesting his membership be moved to Clarendon. With the moving of Mr. Gillham to Clarendon, the Miami club lost one of its most enthusiastic tailwalkers. He was superintendent of the Methodist Sunday School in Miami.

Mr. Gillham has not outlined his work, as yet, in connection with his duties as secretary to the Chamber of Commerce, but plans to assist in every way in carrying out the proposed C. of C. balanced farm program and project.

The new secretary is known in Clarendon as a football official and takes an interesting part in sports, having played three years as guard on the Buffalo, West Texas State Teachers College, football team.

Outlining his work for the remainder of the school year, Mr. Gillham said stock and poultry judging would be stressed. Stock teams will be taken to the dairy and livestock shows at Plainview and Lubbock.

Mr. Hill, who left Monday, said the position he was taking was an advancement, but that during his two years in Clarendon in connection with the Chamber of Commerce and the school, his connections had been altogether pleasant. Mr. Hill proved himself a credit to Clarendon high school and to the chamber of commerce of this city.

Mr. and Mrs. Gillham are living in the McHenry Lane house in Southwest Clarendon.

W P A LABOR PROBLEM IS SOLVED WITH PROJECT FOR NEW ROAD WORK.

The new work project in Donley County may solve the Highway 88 paving problem north of Clarendon and will furnish WPA labor for a period of practically a year.

Recently Clarendon was granted a unit setup of four miles which will be completed within two months. In a letter from A. A. Meredith, district director of WPA Clarendon has been granted work on the balance of Highway to Jericho, which is approximately eighteen miles.

### WICHITA BECOMES HALF OWNER CLARENDON RANCH

The Chenault ranch near here of 22,000 acres has been sold to S. W. Richardson of Fort Worth and Howell Smith of Wichita Falls.

J. J. Perkins of Wichita Falls was the former owner. The consideration was not made public. The ranch is stocked with 1,100 head of cattle.

Mr. Hill, who left Monday, said the position he was taking was an advancement, but that during his two years in Clarendon in connection with the Chamber of Commerce and the school, his connections had been altogether pleasant. Mr. Hill proved himself a credit to Clarendon high school and to the chamber of commerce of this city.

Union services for the college students will be held beginning at 7:30 o'clock Sunday evening in the First Methodist Church.

College week this year is being given greater prominence in Clarendon due to the drive under way to make Clarendon a college center with buses operating from McLean, Pampa and LeFors. The year a bus has brought a large group of students from Memphis, Estelline and Lakeview to Clarendon College.

Established in 1927, after the Methodist College had been moved from Clarendon, the college has grown yearly and although Clarendon is the smallest town in Texas to have a public junior college, it is one of the two junior colleges in Texas which does not charge tuition for students who live within the college district.

Excellent training is offered in the departments of English, Mathematics, Natural Science, Social Science, Foreign Language, Education and Commerce. Clarendon Junior College enjoys full accredited work at all universities.

Dean R. E. Drennan and President H. T. Burton believe Clarendon Junior College faces a period of unprecedented growth and development and as enthusiastic heads of Clarendon's institution are offering fullest cooperation in further publicizing Clarendon College with "College Week".

The committees for college week are as follows: Banquet, Dorothy Powell, Jeanette Watson, Anna Moore Swift, Party, Avis Les McElvany, Beatrice Garmon, Mary Lois Hayter and Martha Thompson. Upon request of Rep. Marvin Jones, the examinations will be held in six other Panhandle cities in addition to Amarillo. The cities where the examinations are to be held are: Clarendon, Dalhart, Pampa, Paryton, and Shamrock. In the past examinations were held only in Amarillo.

According to Harry B. Mitchell, president of the civil service commission, an official of the commission will be in Clarendon and other Panhandle cities about May 1 to make arrangements for the examinations.

Marvin Land returned Monday night from Dallas, where he received medical treatment.

## "COLLEGE WEEK" IN CLARENDON

Next week is "College Week" in Clarendon and Donley County. Celebrating its second annual observance of "College Week", the students and faculty of Clarendon Junior College, seek through a week's schedule of activities to impress anew among the adult population of this area the importance and possibilities of education as projected by our own home institution. They seek to create a new and driving ambition for education—at least that of junior college standard—in the minds and lives of every boy and girl in this section.

This issue of The News is devoted largely to "College Week", and it's our earnest hope that every citizen of Clarendon and Donley County will lend their aid and interest to the carrying out of its purposes. Clarendon Junior College deserves our best.

## "ROUGHNECKS," EH?

From the heart-rending stories of the appalling tragedy at New London, where nearly five hundred pupils were killed and mangled in the gas explosion which demolished the splendid, modern school building last week, comes one note, which to this writer deserves heralding to the four winds of the earth.

As news of the horrible accident spread over the adjacent oil fields, there rushed to the rescue work hundreds of the common laborers—"roughnecks" they call them—and not one pause for rest or sleep did these heroes—these "roughnecks"—take until the last ton of debris had been lifted and the ruins thoroughly combed for the pitiful forms, mangled and dismembered, of the most precious possessions of that community.

Ever so often, the human family needs a renewal of its faith in itself. The sordid striving and cares of this hurrying modern age, promotes a cynicism and a selfishness that lowers man's regard for man, and it is these occasional tragedies that abruptly halt such cynicisms, and throw a new white light of hope and faith into the souls of men.

So they call them "roughnecks"—these humble men of brawn—these men who would hardly rate up in intelligence and culture to our vaunted American standards. They call them "roughnecks"—these stalwarts, who never appeared in full-dress—whose names are never listed among those at brilliant social functions. They call them "roughnecks"—these who leaped to struggle with twisted steel girders, and shattered blocks of concrete—who gladly toiled and sweated in the dust, and dirt and stench, hour after hour, to bring the wounded out for succor—to give into loving, despairing hands the torn bodies of their dead.

Yes, they called them "roughnecks", but never again in Texas, in the Southwest, will that word carry an inflection of indifference or superiority. It will be said with a new note of respect—almost reverence—it will be flowered with an inflection of brotherly admiration.

"Roughnecks", eh? How near the plane of Sons of Light, do we as uncouth mortals sometimes approach. How sad we do not attain that plane as we all so well might.

The great end of education is, to discipline rather than to furnish the mind; to train it to the use of its own powers, rather than fill it with the accumulations of others.—Tyron Edwards.

## Age of Jurists

How old are the members of the Supreme Court? Men selected for this high honor and important position invariably are of ripe experience and outstanding achievement. At their nearest birthdays, Hughes is 75, Brandeis 80, Van Devanter 78, McReynolds 75, Sutherland 75, Butler 71, Cardozo 67, Stone 64, Roberts 62.

In comparison with these, Marshall Foch commanded the Allied Armies at 70; Palmerston was premier of England at 81, Gladstone at 83, Bismarck administered German affairs at 74, Adams at 90 and Jefferson at 80 were forces in American affairs. Franklin flew his kite, took part in a balloon ascension and did some of his best work for his country between 70 and 82. Goethe was past 72 when he finished his masterpiece, Faust. Verdi wrote operas at 80; Titian painted when he was 95 and Cervantes finished Don Quixote at 68. Herbert Spencer at 83 and Tolstol at 74 were literary Titans. Pope Leo directed the Pontificate at 93.

The average age of these men is 72.

The average age of the Supreme Court Justices is 72.

## HE NEEDS A "NEUTRALITY ACT" TOO!

## CONDOLENCE

The News joins the Panhandle newspaper fraternity this week in sincere expressions of condolence to Editor J. Claude Wells of the Memphis Democrat on the passing of his aged father, J. W. Wells, buried at Memphis Sunday. A civil war veteran, a pioneer, a stalwart citizen and father has "gone home". Peace to his ashes.

## EASY TO WHIP

Almost every Sunday issue of Texas daily papers carry stories of beer and liquor elections in counties and precincts of the state, and in nearly every instance the people have voted to outlaw these scourges of modern life.

It might be well for the members of the Texas legislature to take a tip from the regularity of these "dry" verdicts, and quit their toying with liquor legislation.

Liquor is easy to whip in Texas now, and with excesses and lawlessness on every hand, the job is getting easier all the time.

A human being is not, in any proper sense, a human being till he is educated.—Horace Mann.

## In 1886, Goodnight Predicted Irrigation

"Some day, Kid, they are going to dam up this creek and it will mean cheap electricity and irrigation for this whole country."

That was the famed Panhandle pioneer, Charles Goodnight, talking. The time was in the fall of 1886.

"Charley Goodnight was talking to F. M. Hilliard, now a leading Childress merchant, who was then general roustantout for the Panhandle's first big-time rancher.

They were up near the mouth of Turkey Creek, which is a few miles above Dr. Roy Barr's suggested irrigation project which is receiving considerable publicity at the present time.

"We were getting posts for the first corral for Goodnight's Buffalo," Mr. Hilliard said.

"I asked 'Uncle Charley' who would spend enough money to put over such a big project and he said that the government would do it," Mr. Hilliard continued.

"'Uncle Charley' believed strongly in the Panhandle. That day he told that some day there would be railroads running in every direction over the Panhandle (there were no railroads in this country at all then) but I thought it a dream and too big to ever be realized.

"'Uncle Charley' told me that I would live to see this section of the Panhandle irrigated and now I believe I will."—Childress Index.

MARTIN (By Billie Ruth Bulman)

Sunday School and Church Affairs. Bro. Brister filled his regular appointment Sunday night, and we want to thank everyone for their attendance to hear his sermons Sunday night. There were 83 present Sunday morning and we were very proud to have our new members and visitors. We want to ask all of you back again next Sunday, for we are planning on having an Easter program, which we think you will all enjoy. We were happy to have Bro. McKenzie with us Sunday. He preached in Bro. Brister's place. Everyone seemed to enjoy his sermon. Mrs. George Bulman's Sunday School class has started a contest which will last for six weeks, and the side that loses has to entertain the winning side. We want to encourage all the boys and girls who are in the class to come back next Sunday and try to help your side win.

Richard and Mrs. G. E. Bulman spent Sunday evening with Mr. and Mrs. Edd Hodges. Mr. and Mrs. U. G. Pittman and son, Clyde, spent Tuesday night with Mr. and Mrs. Jack Edding. Martin School News. The Martin basketball boys were very unlucky at the basketball tournament at Lelia Lake Friday night and Saturday. They were defeated in all games they played. We had our sub-junior and junior declaimers try out last Tuesday. The winners in the sub-junior girls was Helen Joe Bulman. The winner in the Junior girls was Kitty Ruth Bailey and in the junior boys was Ralph Morrow. We also had our spelling try-out for the sixth and seventh grades Monday. The two girls who go to town Saturday, March 27, are Billie Ruth Bulman and Jewell McCrary.

GILES (By Margaret Perkins.)

Editor—Margaret Perkins. Reporters—Lena Pearl Childress, Eva Tims, Leon Painter. Mr. and Mrs. John Nash of this community are the proud parents of a seven-pound baby girl, Nancy Jane, who arrived Saturday, Mar. 20. Mr. and Mrs. Travis Bland have moved to the J. W. Bland place, five miles northeast of Hedley, where they will make their home for the next year. Mr. and Mrs. A. R. Childress spent the week-end in Memphis. The Giles basketball girls won over Hedley basketball girls Thursday. The score was 15 to 12, in Giles' favor. Mr. and Mrs. Bob Myers spent the week-end with Mr. and Mrs. A. G. Tims. The Donley County rural basketball tournament was held at Lelia Lake Friday and Saturday the 19th and 20th of this month. The tournament proved to be a great success and much enthusiasm was shown throughout the tournament. Giles won two first places. The other two championships were taken by Goldston and Midway. This year is seven straight for our junior boys and two for our senior boys. Giles girls beginning their first year of basketball, turned in some nice games. We forfeited to Goldston through ineligibility. We feel that we forfeited to a good team, in fact, we left two good teams in the finals. So we say good luck to both Goldston and Midway and better luck to us next year. Pennants, made up in the winning colors, will be awarded the winners. Now let us all look forward to calm Friday and Saturday of this week, or could we have a county meet without sand? The Giles basketball teams have been invited to a banquet at Midway Friday night, which they are looking forward to with great pleasure.

MIDWAY SCHOOL NEWS (By Pearl Derrick)

In spite of the weather Friday our senior girls won first in the county basketball tournament although we did not win any other championships. The play "Going Modern," was well attended Thursday night. We made \$7.42. We are looking forward to the Interscholastic League meet and also the playground ball tournament. We have several entries. The boys are fixing a tennis court today. Lillie and George Talley were absent from school a few days last week, because of a new brother. How dull life would be if all the girls didn't like to go to Lelia Lake. Giles wasn't on the map. Sue didn't attend school here. We elected Robbie Zoe Moreland captain of our baseball team. Miss Harlin went to Canyon Monday and Donald Harlin taught in her place. We appreciate Mrs. Millsap making our basketball shirts. Mrs. Bill McConnell of Panhandle spent the week-end visiting her mother, Mrs. J. D. Stocking. Mr. and Mrs. Roy Ingram and children and Mrs. Ingram spent Sunday in Amarillo.

They include conventional four-wheel units, six-wheelers, with both dual drive and trailing axle, and cab-over-engine types. ## Trailer Free To Travel All States

Denver, Colo., Mar. 24.—Trailers are free to come and go throughout the United States in spite of reports to the contrary, state Joe H. Thompson, director of the Conoco Travel Bureau with national headquarters in Denver, Colorado.

From a legal standpoint, they are still classed as motor car accessories, rather than dwelling places, in spite of the fact that they have many of the appointments of the modern home. Eighteen states do not even tax trailers as personal property.

There have been rumors concerning possible inimicable legislation pertaining to trailers, but thus far only one state has passed legislation preventing trailers from passing state borders at will, provided the owner is not engaged in gainful occupation. Georgia enacts a \$3 registration fee from every non-resident trailerite crossing its borders.

The majority of the other states grant unlimited reciprocal privileges to non-resident trailerites who are properly registered in their home state, though ten of these do require them to procure a visitor's permit within a few days after entering the state. In most instances no fee is charged for this permit, according to Thompson. The few states with limited reciprocal privileges allow time limits of thirty, sixty, or ninety days, with some as long as six months.

Mr. Thompson states that house trailers have been popular in Europe since 1923 in spite of the passport and visa nuisances which hinder free travel there, and that it is remarkable that only recently the wonderful potentialities of trailer travel in the United States have been recognized.

There are some 300,000 trailers in the United States at this time, declared Thompson. The production in 1936 was about 30,000 units, and although the demand is considerably higher it will probably be impossible to manufacture more than 75,000 units in 1937.

For this reason the progress of the industry will be somewhat slow, judged by the average American's standard of comparison, based on recent production methods in the manufacture of motor cars which doubtless will run about 5,000,000 during this year. The largest during any current year.

These figures lend belief to the fact that trailers themselves will present no problem in this country in the next several years. Facilities for trailerites are adequate and new camps and resorts catering to trailers are constantly being constructed.

## GOOD WHITEWASH

Almost five years ago a hollow tile plastered barn at the Georgia Experiment Station was whitewashed with a mixture made up in one of the laboratories there. This whitewash, which looks almost new at the present time, was made as follows:

- 50 pounds common lime
- 10 pounds salt
- 2 pounds alum
- 1 bar laundry soap
- 10 gallons water.

To make the whitewash, chip the soap into small thin pieces and dissolve it in about two quarts of hot water; then make up the mixture to ten gallons with either warm or cold water. Next add the lime, salt, and alum, and stir until the salt and alum are dissolved. Allow this mixture to stand in a wooden barrel or tub for 24 to 36 hours before using it. Then add enough water to make a thin creamy mixture and apply with a whitewash brush or spray pump. This mixture may be used on wood, brick, or plastered walls, just as any other whitewash is used.

The secret of success with this whitewash is to allow it to stand at least 24 hours before using. If handled in this way it gives a white glossy surface which sticks well and will endure a long time.

—H. P. Stuckey, director, Georgia Experiment Station, in the Progressive Farmer.

## Style Points For Easter

Pre-collection rumors that color would play an important role in spring fashions have been justified by the first Paris showings. Black and navy, the old conservatives, are still used for daytime, but, navy, so far, is superseding black to a large extent. The big news, however, is the extensive use of bright shades. Designers definitely feature vivid pastels, such as orange, red, turquoise and coral, for town suits, with a whole range of warm yellows and beiges. Black and navy are seen in this collection, but invariably relieved by some bright shade. Color contrasts are almost as important as single vivid shades, and they are effect in new ways.

Burgundy-red reevers appear on a walnut beige jacket the color scheme is carried further with a burgundy-red blouse and hat; a vestee in red is attached to the front of the skirt, giving it a high-mounted waistline. Narrow, dark green bands are used to pipe a shot fitted jackets in beige suede that is worn over a green skirt. Colored piping is displayed in many ways—at the wrists, the collar, the closing, and even at the hem of jackets; a navy blue wool suit has both navy wool and lilac linen lapels. One designer also shows triple color alliances, such as a black shirt with a yellow jacket and a prune blouse.

Another courtier likes vivid colors, particularly employed for shot coats or jackets worn over dark skirts or dresses. Striped blazers and wraps in bright yellow or raspberry rose over dark frocks are seen. Stripes are staging a reappearance. Another fashion that will undoubtedly be seen this spring is the navy or black dress with a jacket in a vivid color—as bright as the wearer chooses to make it.

Color is significant, not in plain fabrics exclusively, but in patterned ones as well. They are using Lesur's "pastel plaids" for jackets and coats, shown over plain skirts. The plaids are not in faded shades but in warm tones, frequently with mauve and purple predominating.

Detail has also come to the fore in the first of the new spring and summer collection. This is evident not only in phases of trimming, but also as an intrinsic part of the silhouette. Double and triple pockets on many wraps, suit jackets, three-quarter and long coats is one example. For instance, there is a full length coat with large patch pockets on the hips and a smaller one above, that is practically for loose change. Revers on jackets and coats come in for a great deal of attention. They are very pointed, and not too large. They are usually high on both jackets and coats that have a double-breasted closing. There are a few rounded revers ending at the waist on hip-length jackets, which are double-breasted below the waistline; they show the entire front of the blouse. Narrow cuffs on jackets and coats and attached waistcoats are other details. So also are fastenings.

Full-length redingotes, either in wool or in a new souple grosgrain from Colobet, are featured. These coats are usually double-breasted—fastening up to high-pointed or rounded revers—and fitted to the waistline, below which there is flared fullness at the back; some are beltless, on others there is a half-belt. Grosgrain is a fabric that may well become a runner for spring, for coats, short jackets for day and evening, for blouses and also as trimming notes.

Enter Jumper Dresses A number of "jumper" or "apron" dresses that are particularly suitable for the young girl. Some of these are made in plaid

woolens, others in floral printed surrahs, printed linens and crepe de chines. The jumper dresses having a U-shaped neckline or halter straps are quite high at the front; in back they come to the waistline. They are worn with short-sleeved tailored blouses that have high Peter Pan collars.

One-piece flared dresses have culotte skirts. They are either short-sleeved or sleeveless, and are made with high necklines; for sports they are shown in fat artificial silks. A bicycling dress is in black and white checked linen; the culotte skirt is calf-length; it is worn with a bright green visor cap, scarf and short gloves in silk cochet. Gored skirts with pressed ridges, giving the effect of pleats, are numerous in this collection. Pleats, it is expected, will be popular again this spring; box pleats and pressed ridges looking like pleats (the kind that were introduced last season) are especially liked.

## Plan Memorial For New London

Announcement was made today by Governor James V. Allred of the formation of the New London School Memorial committee composed of Mrs. M. A. Taylor of Bonham, president of the Texas Congress of Parents and Teachers; Drury M. Phillips of Huntsville, commander of the American Legion of Texas; George Clarke of Austin, to represent the Governor; Mrs. Fay Beidleman, president, New London Parent-Teacher Association; and Mrs. H. Mr. Phillips has already asked commanders of Legion posts throughout the state to begin their activities immediately.

"Hundreds of letters and telegrams have been sent to me," the Governor said, "asking information as to where contributions might be made for the purpose of erecting a suitable memorial to the memory of the school children and their teachers. I have determined upon this state committee as the proper central organization for the handling of these funds. I appreciate deeply the proffered services of the State Parent-Teacher Association and the American Legion in this connection."

**New Easter Bonnets Take On New Slants**

Denton, March 17.—As Easter bonnet time arrives, style-conscious women can relax in the knowledge that for once they can choose a hat that is both smart and gloriously becoming. This unusual situation exists because of the variety of shapes and types this season.

Beginning with the shallow-crowned sailor, which has already taken somewhat of a lead in popularity, consider the variations possible in this one style. Flowers, grosgrain ribbon, feathers and even small birds can be perched on top the brim in front or circled around the head under the brim in back.

For those fortunates who possess distinctive hair lines, or originally arranged bangs, the square-cornered, off-the-face Dutch bon-

nets are a success. They frame the face beautifully, besides giving a definite tinge of newness to any outfit.

The veiled pill-box has won the fancy of girls at Texas State College for Women (CIA). In all kinds of straw and often trimmed with velvet bindings, it is what's commonly called a knock-out.

Last on the honor roll are the tiny, sophisticated turbans which are so adaptable to all uses. This year they are featured in shiny dark staws trimmed in bright contrasting chiffon rolls. They can be slanted backwards or forward at will. This mode is favored especially right at this moment, since it contrasts nicely with the broad-brimmed hats which are sure to come with summer fashions.

Mrs. W. W. Wilson and Mrs. N. W. Durham of Memphis spent Thursday and Friday with Mrs. Lennie Cauthen.

**School News League Tournament**  
The Interscholastic League basketball tournament for rural schools was held in the Lelia Lake gymnasium, Friday and Saturday, March 19-20. In spite of the sandstorm Friday, many people attended the game both day and night.

During the entire tournament the gym resounded with yells of joy or groans of dismay of the many fans which accompanied the teams to Lelia Lake. Champion basketball teams of Donley County rural schools for 1936-1937 are as follows: Midway Senior Girls; Goldston Junior Girls; Giles Senior Boys; Giles Junior Boys.

Mr. Harry Hartzog, director of the rural basketball for the County Interscholastic League meet, made a talk after the finals were played, which was very interesting. He stated that the winning teams were to each get pennants in their school colors. After the final tournament games, the Lelia Lake Senior Boys played the ex-Senior Giles boys. The Lelia Lake boys won by a score of 24-14. The home boys exhibited their ability to handle the ball all through the game. This game was probably the final game of the season. This was the first game the Lelia Lake boys had played since their conference games. Mr. Frank McInnis refereed all the games.

Most of the eliminations which will determine who shall represent Lelia Lake in the Interscholastic League meet on March 26-27 were held last week.

**At The First Methodist Church**

Services 10:50 a. m. and 7:30 p. m.

Easter Sunday morning will mark the close of the revival services at the First Methodist Church. The sermon will be preached by the pastor on the theme, "The Living Christ in a Modern World". The morning service will begin at 10:50 o'clock and at 11 o'clock the pastor will baptize infants that are presented for holy baptism. All who wish to dedicate their babies in holy baptism are invited to be present before eleven o'clock. At the close of the service members will be received into the church. A goal of fifty new members has been set and at this writing, (Tuesday noon) twenty-nine have already given their names for membership. The organist and choir will render beautiful Easter music that will enhance the morning worship. We expect a great crowd at Sunday School and at all the services of the day.

May it be a day of joyful worship for all the churches, and for all Christian people everywhere.

Friday of this week is Good Friday, the day of the crucifixion of Christ. This day is so sacred that none of us should be willing to let the day pass without worshipping Him. Surely there will be a great host of people who wish to show adequately our appreciation of what Christ has done for us on the Cross. Therefore it is planned that Friday evening a service will be held in connection with the Methodist revival for the families and individuals of the community. Let the families come and sit together. Let every man join his family in worship on this sacred evening. Fathers and mothers, and children worshipping in the house of the Lord in thanksgiving for the sacrifice of Christ.

E. D. Landreth, Pastor.

**At The First Baptist Church**

**THERE IS ALWAYS WORSHIP—FELLOWSHIP—SERVICE**

Next Sunday, March 28, will be Easter, and we are expressing the hope that every person in our city shall avail themselves with the opportunity of worship. If you have not submitted yourselves to the Lion of The Tribe of Judah in whose memory this day is observed, won't you do so next Lord's Day? He is the hope of our Resurrection. He is the hope of our eternal bliss. All other efforts will fail. Resort to the one who has conquered the grave. Place your trust in him. You can follow him and fear no danger of what lies out beyond.

What you believe about the observance of the Resurrection of our Lord will not change the greatness of the doctrine. On this one fact hinges the hope of the entire world. If Christ be not raised then we are of all people most miserable. Our hope is vain, our preaching is vain, and our efforts at a nobler life in this world and the world to come will come to naught. What a blessed privilege it is to call attention to and observe in a special way the fact upon which all Christianity is based. The big thought uppermost in all of our minds next Lord's Day should be the Resurrection of our Lord, and the hope of our own resurrection at the last day.

Regular services Sunday at the Baptist Church morning and evening. J. Perry King, Pastor.

**JOHN MEADE'S WOMAN**

Francine Larrimore, famous actress of the legitimate stage, makes her film debut opposite Edward Arnold in "John Meade's Woman," a powerful drama of a love that turned to hate, which will be shown Sunday and Monday at the Pastime Theatre.

**Noted Stage Star Makes Debut In New Romance**

Francine Larrimore, Broadway stage star, makes her initial screen appearance in "John Meade's Woman," a gripping romance in which she is co-starred with Edward Arnold, which will be shown Sunday and Monday, at the Pastime Theatre.

Noted for her histrionic ability and her "finished" acting, Miss Larrimore plays the role of Teddy Connor, unemployed country girl, whom Arnold, a wealthy industrialist, marries in order to humiliate his fiancée, Gail Patrick, after he discovers her unfaithfulness. After the wedding Arnold offers to pay off Miss Larrimore well to give him back his freedom. Heartbroken, she leaves him, spurning his offer. Her love turns to intense hate. She tries to hurt him as he has hurt her but when the times comes she finds herself unable to inflict the punishment she planned. She learns that love cannot be stifled with hate, and he learns that there are women to whom money and power mean nothing in the face of love. It is a difficult role, calling for

the display of a wide range of emotions, but Miss Larrimore shows the same success in portraying gripping emotion as on the legitimate stage.

Also in the cast are George Bancroft, John Trent, Sidney Blackmer, Jonathan Hale and a host of other favorites.

**PUBLIC INTEREST DEMANDS FAIR PLAY!**

Texas now has good state laws for the regulation—in the public interest—of all transportation. These laws are helping to stabilize transportation, and all business and industry that has to use transportation. These laws are helping to reduce the terrible accident toll on your highways. They are helping to conserve your investment in your highways.

Regulation of transportation in the United States has been developed over a period of fifty years. Reasonable regulation is admitted to be both advisable and necessary in the public interest.

Strict regulation of one form of transportation and the lessening of regulation of any other form is unfair and un-American, and can only result in crippling that part of your transportation facilities which is handicapped—

without any resulting benefit to the people of Texas.

Texas railroads obey the rules of the game,—those imposed by the agencies of government and those taken on voluntarily in the interest of public safety.

Texas railroads are spending this year, large sums of money for new and modern equipment—locomotives, freight and passenger cars, improved rail and roadbed facilities, and are expediting freight and passenger schedules to meet growing public demands. All of this is being done in the interest of improved service to the public and at the lowest rates in twenty years.

All the railroads of Texas are asking—have ever asked—is a FAIR DEAL in a fair field.

**Drinking Spots Of Clarendon Warned**

Sheriff Guy Pierce served notice this week that any business where habitual drinking is carried on is subject to be closed by injunction and steps are being taken to that effect.

The business houses are being warned, through this announcement, he said, and providing this behavior is checked immediately, will be allowed to remain open; otherwise injunction will be served and the doors of the firm closed. More than three business houses are in danger of such occurrence, Sheriff Pierce said.

People operating business houses where there is habitual drinking of intoxicants are asked to stop drinking on the premises, in order to escape this ruling.

**JUDGE A. S. MOSS DELIVERS CHARGE**

**EMPHASIS PLACED ON WHOLE CRIMINAL CODE; INVESTIGATIONS URGED.**

Judge A. S. Moss, judge of the one-hundredth judicial district, delivered the charge to the grand jury here Monday at 10 o'clock and placed in the hands of Foreman W. A. Poovey the criminal code.

In his charge Judge Moss said: "I charge you with reference to the whole criminal code and give you the Criminal Code as a basis of your investigating for the purpose of determining whether or not any of the offenses defined by the code have been violated and it is your duty where facts are sufficient to return bills of indictments, in all cases, where evidence satisfies you, that the code has been violated. Being impaneled on the grand jury, you become a part of the District Court and upon the district court falls the responsibilities of seeing that principal laws which have been enacted by our legislative bodies for the purpose of protecting the public and society against wrongs of those who have violated them, are enforced. Unless all of the officers upon whom such duties are placed as well as the grand jury work in harmony meeting the full responsibility which the law places upon the District Court, a full and complete enforcement of the law cannot be had. But working together, with the assistance of the good people, will bring about an enforcement of law to meet the requirements of the court."

"Now in making your investigation, I repeat. It is not necessary for me to single out any part of the law for reason that all of the code is important and any violation thereof should be thoroughly investigated. Yes, I desire to call your attention to the fact that it is sometimes rather difficult in some cases now termed as misdemeanors which can be disposed of by completing the information for officers to get all the facts so that they might dispose of them without indictment. In these cases, the grand jury can be of great assistance to officers along these lines. I call attention to liquor laws and gambling of every character, these being carried on behind doors. I am sure you can be of great assistance to officers in helping them determine who are guilty of violating these laws. Again I call your attention to the matter of reckless driving on our public roads, often by those who are intoxicated. It has come to pass where it is dangerous to ride upon roads and the peaceful driver must look after himself as well as the balance. Those engaged in violating this law must be brought to justice so we can travel on public roads with a reasonable degree of safety. Let these matters receive your closest attention and indictments be returned where evidence is sufficient. Violations with reference to theft, generally and cattle theft, especially, all should receive your earnest attention. But mentioning these few matters specifically in no manner relieves us of investigation of violation of the whole code.

"It should become the policy that if a man violates a law, he must pay the penalty, regardless of whether he likes the law or does not like it. It being the law, it should be obeyed.

Judge Moss concluded his explicit and rather lengthy charge to the grand jurors with a further explanation of the Criminal Code relative to their investigations.

Grand jurors are Foreman Poovey and B. F. Wolford, Edwip Bailey, J. C. Bible, Sam Dale, C. C. Ayres, Jake Masterson, Shorty Bland, Roy Darnell, Tom Bain, J. H. Hurn, Bob Duckworth with Clarence Peabody and Gene Whatley, presiding bailiffs and S. A. Pierce, Jr., door bailiff.

# 'Four-Square' Policy of L-Z Camp Teaches Southwest Boys To Ride, Shoot and Pray

A panorama of activity at Ellzey's Four Square Life Training Camp for Boys. Top to bottom: the boys on horseback follow the chuck wagon in a rodeo parade; a trail herd; chuck wagon dinner on the prairie; the boys brand L-Z on a dog's hip; a race at the annual rodeo; and the good old swimming hole.

## Every Farm Home Needs Big Garden

College Station.—"One half acre of garden, properly cared for will produce an average of \$100 worth of food for the family. This statement was made by J. F. Rosborough, extension horticulturist, who pointed out that year in and year out, the garden should be the most profitable area on the average farm.

between rows. By this method, the peas will tend to support each other in their upward growth, Rosborough pointed out.

## FRATER OF A MODERN MOTHER

"They are so small, Dear God! Their steps so prone to lag At bits of color in the street. Make keen the eyes of drivers, Stay The grinding wheels of trucks— Spare us from tiny splintered bones, From flesh, like blossoms, Crushed upon the stones."

School Boards at The News.

From the humble beginning of a daily family worship hour has grown one of the Southwest's leading summer camps for boys. It is the L-Z Four Square Life Summer Training Camp for Boys, on Tom Ellzey's L-Z ranch 25 miles southeast of Perryton on Wolf Creek. Seven camp sessions have been held and the eighth will open June 6, continuing until July 1.

Tom Ellzey is first a cattleman, second a churchman. He has a deep rooted conviction of what is needed to lay foundation for business and professional leaders of tomorrow. He calls it four square.

"First, a man must be physically sound, then he must have an alert mind, he must be sound morally and have a close connection with God," he says. The camp slogan is typically commensal. It is, "Swim, work and pray, ride, shoot and pray."

The camp slogan is typically commensal. It is, "Swim, work and pray, ride, shoot and pray." Boys attending the L-Z camp learn to ride, shoot, swim, milk and a dozen other things essential in life in the open west.

**Sleep in Bunkhouse.** In camp the boys sleep in bunkhouses, like those used by cowboys. They arise at 6:30 in the morning, make the flag, do some setting-up exercises, take a dip in Wolf Creek, then help with the ranch chores. When this is done they have breakfast, which ends in a worship period conducted by Mrs. Ellzey, who likes to be called "camp mother."

The boys are all young and she tries to be a mother to each of them. After breakfast there follows a camp clean-up period and an inspection, then a class in nature study and another swim in Wolf Creek at 11 o'clock.

Dinner at noon is followed by a two-hour rest period in which the younger boys sleep and the older ones write letters. After that comes regular riding and athletic activities—they go horseback riding every second day—and at 5 o'clock they go to the swimming hole again.

**Do Night Chores.** Supper is served at 6, then the boys do the nightly ranch chores and wind up the evening in a campfire program. They are in bed by 9 o'clock.

An hour a day is set aside for some task, for which each boy is paid 10 cents an hour.

"We want to teach each of them to do something with his own hands," says Ellzey. When camp opens the boys are divided into two groups—the cowboys and the rangers. Competition is lively. At the end of camp several awards are made by the Ellzeys, one for the most efficient kitchen police group, the best all-around camper, best target shot and best rider.

The boys learn to use lariat and branding iron in actual round-up work along with the Ellzey cowboys. They learn to live in the open in camping trips and a three-day trail drive, in which an all-time chuck wagon is taken.

They attend the annual Kivric Fair, located in Canadian and an outdoor show at the ranch, then stage their own rodeo near the close of camp. They are allowed to compete only in those events sanctioned by their parents.

**Some and Their to Speak.** On July 16, the year, Congressman Marvin Jones and Old Texas of the American Farm-Business will be speaking at a dinner and "good citizenship day" program. The Northwest (Montana) Chamber of Commerce will be with July 15 and the boys' rodeo attended only by the boys and their parents, will be July 11.

The Ellzey ranch covers 100 sections, two of which are on Wolf Creek. Ellzey raises jackrabbits and registered Hereford, polo ponies, dogs and chickens. A portion of the ranch is set aside to diversified farming.

Mr. and Mrs. Ellzey, as usual, will be assisted by their sons—Tom V., W. Clark, M. Lawrence, Jack and Charles Homes—in staging the camp. In addition there will be two or three other ladies—College instructor Tom Ellzey is an instructor in the University of Carolina. W. Clark is studying for his divinity degree at Duke University and M. Lawrence and Jack are students

at Southern Methodist University. Here is their camp creed: We believe the greatest thing on earth is a child.

We believe the biggest job in the world is to be the right kind of a mother, the right kind of a father and the right kind of a teacher of a child.

We believe the supreme task of the universe is to train a generation of childhood and youth "in the way they should go."

We believe that every normal child has the inherent right to know the truth about the story of life and its relations to life at the right time and in the right way.

We believe that the right concept of the story of life and its relations to life by childhood and youth is a fundamental of an enduring Christian civilization.

We believe that every normal child is a four-fold being; he's mental, he's physical, he's religious and he's social.

We believe the normal way for a normal child to grow is like the boy of Galilee grew. "He increased in wisdom, in stature, in favor with God and man." He grew four-square—strong mentally, physically, religiously and socially.

Therefore, it is the aim of the L-Z Four-Square Life Summer Training Camp to help the parents train their boys so that when the responsibility of home life and citizenship comes to them they will be able to stand and live four-square.

1937-38, December 31 and January 1, 1938, was established by Confederate soldiers under General G. B. Magruder—Texas State College for Women

## The Broncho Range

Published exclusively each week in The Clarendon News by students of the Junior College, High School and Junior High School.

### STAFF

Editor—Lowell LaFon

Sponsor—Ineva Headrick

### EDITOR'S CORNER

This week's Broncho Range is a special "College Week" edition and most of the page is devoted to articles about Clarendon Junior College.

C.J.C. students have made extensive plans for a very successful Second Annual College Week. The purpose of such a week is to inform the people of Clarendon, Donley County, and surrounding towns and counties as to the kind of school we have in Clarendon Junior College.

Students participating in these programs and other activities will gain valuable experience in appearing before the public and working the plans for college week and then in carrying them out. The results of the college week are therefore two-fold.

The numerous programs to be presented next week by C.J.C. students are for your approval, and we, the students, hope you find them interesting, entertaining, and enjoyable.

Mr. Gillham completed the Vocational Agriculture work at West Texas State Teachers College and later was graduated from Texas A. and M. He has taught Vocational Agriculture in Carey and in Miami.

## Many Advantages Are Found In Attending Clarendon Jr. College

Clarendon Junior College offers many advantages not found in larger schools and universities. These general advantages are as follows.

In Clarendon Junior College it is possible to do the first two years of the general four year college courses, or the highly specialized professional courses. A major point we wish to stress is that a student when transferring to any of the leading universities or colleges will receive full credit on the work he has done in Clarendon Junior College.

The young student in this junior college, with a small student body and a close personal contact with the skilled instructors, has a better opportunity to find himself, eventually to fit himself to his place in life.

The expense of attending a college at home or near home is much less than that of attending a large university at a greater distance.

The restricted size of both classes and of the student body as a whole promotes general participation, not only in class room work but in general life, thus enabling the average student to supplement his book learning by experience in doing—the laboratory method of study, applied to college life and activity.

The extra two years of training, together with the continued influence of the home, community, and the church, better fit the student for adapting himself to his new surroundings when he finds it necessary to leave home.

Statistics have shown that junior college graduates do better work when juniors and seniors than students who have completed their first two years' work in the larger universities.

Special attention is given by Clarendon Junior College to the fact that high school graduates now enter college when much less mature than formerly, their work and methods of instruction being especially planned by educational experts to meet this condition.

### EXHIBITS WILL BE DISPLAYED ON TUES

As an activity of college week, Clarendon Junior College students will have some very interesting exhibits on display at the College Building on Tuesday, March 30.

There will be an especially good exhibit of office equipment and machines sponsored by the Commercial Department. Many of the office equipment firms in Amarillo will have new models of machines and other office equipment on display that will be very worthwhile.

There will also be an exhibit of the Science department. This exhibit will display projects from the Biology, Physics, and Chemistry departments of C.J.C.

The Art 123 Class will have an exhibit of the work they have completed this year. These various exhibits should prove to be very interesting, and everyone is invited to view the displays.

### C.J.C. STUDENTS TO GIVE "OPEN HOUSE" PROGRAM

On Friday evening April 2, Clarendon Junior College students will hold an "open house" program beginning at 7:30 o'clock in the college auditorium.

The public is enthusiastically invited to attend this program prepared for everybody's entertainment. There are to be musical numbers, readings, skits, and possibly a one-act play.

There is no admission charge for this presentation. It is one of the activities the students are participating in as an observance of "College Week".

### BAND MEMBERS WILL SELL "EATS" AT COUNTY MEET

Members of the High School band will sell sandwiches, coffee, cocoa, cold drinks, candy, gum, hamburgers, etc., at the county meet events on Thursday evening, Friday and Friday evening, and Saturday. The Band Parents Association will prepare the food to sell.

Proceeds from the sale will aid in the payment for the new uniforms which were ordered on March 8 and are due to arrive in Clarendon on March 28.

## CLARENDON JUNIOR COLLEGE OFFERS EXCEPTIONAL ADVANTAGES

The present Clarendon Junior College, established in 1927, is a non-sectarian junior college, maintained by a tax upon property in the Clarendon Independent School Districts, joined by eight neighboring school districts.

There has been one other college, Clarendon College, located in Clarendon. It was established in 1898 by the Methodist Episcopal Church, South, and was successfully administered by that body as a junior college through the first quarter of the twentieth century. A change from junior to senior standing in 1926 was transitory and unsuccessful, and Clarendon College was removed, the school property being subsequently sold to the Clarendon Independent School Board.

Although the present junior college is in no way a successor of the former, it enjoys the support of the citizens long accustomed to supporting a college.

As for facilities, Clarendon Junior College offers a library of seven thousand volumes, adequate equipment for both scientific and commercial courses, and studios for the teaching of artistic courses. Excellent training is offered in the departments of English, Mathematics, Natural Science, Social Science, Foreign Language, Education, and Commerce. Whether a student wishes to continue his studies in the arts and sciences or to pursue professional courses, his basic training may be had in Clarendon Junior College.

That the training given in Clarendon Junior College is of the best order is shown by the fact that both the State Department of Education and the Texas Association of Colleges have recognized the institution as a class "A" Junior College. All of the work is fully accredited and will be accepted by all the universities and higher institutions of learning.

Clarendon is the smallest town in Texas to have a public Junior College, and it is one of the two public Junior Colleges in Texas which does not charge tuition for those students who live within the junior college district.
