### Mayor Sims Offers For Re-Election

This week The News carries the name of Mayor John T. Sims as a candidate for re-election as Mayor of Clarendon in the April election. At the solicitation of friends Mr. Sims has allowed his name to be entered in the formal announcement column, without any intention of waging a personal campaign for the office a second term. He feels that if the people approve the efforts of the city commission to conduct the city's business in the most economical manner possible while rendering the necessary services to the citizenry, they will say so by their votes, otherwise he would not want to hold the office. Serving the city in the capacity is always a sacrifice, and Mr. Sims is willing to make this contribution to the welfare of Clarendon if the voters want him.

Those endorsing the candidacy of Mr. Sims for a second term point out a record of economy and service of which any public servant might well be proud, and invite the support of Clarendon voters in re-electing him.

### MISS BAKER IS MISS CLARENDON

**BEAUTY AND ATTENDANTS ALL BRUNETTES; ELISE NORWOOD WINS JUNIOR.**

Miss Dorothy Nell Baker, attractive daughter of Mr. and Mrs. Sloan Baker of Clarendon, was chosen Miss Clarendon by a unanimous vote of the judges Thursday evening at the beauty contest and style show held in the College auditorium. Little Miss Elise Norwood, daughter of Mr. and Mrs. George Norwood, was chosen as Clarendon's most beautiful junior miss.

Attendants of Miss Baker were Dorothy Jo Ryan, Helen Risley, Mildred Baker and Jane Kerbow, all brunettes.

The winners were selected from a group of thirty-five entrées and seventeen models sponsored by local firms. Miss Baker represented Nadine's Beauty Shop; Miss Risley, Clarendon Hatchery; Miss Ryan, Norwood Pharmacy; Miss Barker, Antro Hotel; and Miss Kerbow, Sanford Grocery. A gold bracelet was presented Miss Clarendon and little Miss Norwood was given a ring and locket set.

Out-of-town judges picked the winners and later remarked to those in charge "You have no idea how hard it was to judge in this beauty contest. Each and every entrée deserved a place."

Miss Baker is fourteen years of age, five feet four inches, weight 115 pounds, black hair, and hazel eyes. She is a junior in high school and last year was chosen the most attractive girl in her class. She wore a frock of black taffeta with trimmings of red.

Seventeen models were shown in latest spring fashions from local firms and latest styles in hair dressing by Clarendon Beauty Shops. The affair, a benefit for the college graduating class, netted the class \$50.00.

A musical program consisting of "Neapolitan Nights", "The World Is Waiting for the Sunrise" was sung by the glee club and was followed with a vocal solo by Miss Kitty Ruth Baley and two tap dance numbers by students of the Mary Cooke dancing class.

### School Census Is Started This Week

H. T. Burton, H. M. Lane, R. E. Drennan and Glenn Allison commenced taking school census for Clarendon March 1. A per capita allowance of \$19.50 is granted the school on each child within the scholastics whose names are included in the census.

All children between the ages of six and eighteen must be included in the school census. Oftentimes, Dean Drennan pointed out, the school does not obtain much of the per capita allowance because parents neglect to list the names of children who will be six years old before the next September term of school or children who will still be eighteen that term.

Providing a child will be six years of age by September 1, 1937, he must be listed when giving the data for the school census. Anyone who knows of a family moving to Clarendon during March who have children of school age, please notify Dean Drennan.

## WELCOME 4-H CLUB BOYS

### MARVIN JONES TO HEAD S.C.S. GROUP

**IMMEDIATE ACTION TO BE TAKEN FOR SOIL CONSERVATION MEASURES.**

Congressman Marvin Jones was named chairman of a permanent committee of five southwestern states and charged with the responsibility of directing the drive for soil and water conservation measures for the region in congress, at a dinner held in Washington Monday night.

Carl Hinton, secretary of the Amarillo Chamber of Commerce, presided and is busy this week compiling briefs for use in the committee work in calling on various governmental agencies in carrying out a program mapped out by Congressman Jones. Aiding him was a delegation of Plains laymen from Texas, Oklahoma and New Mexico and members of the Congress.

At the conclusion of a number of addresses last night Senator Carl Hatch of New Mexico moved that the senators and congressmen of the five states and those laymen present be resolved into a permanent committee on soil and water conservation legislation. His motion was quickly seconded by Senator Josh Lee of Oklahoma and passed unanimously. Separate treatment as a region was specially urged.

Congressman Jones was called before the President Monday in connection with the problem and has virtually ready for submission to Congress two bills dealing with the Southwest area and treating it as a separate unit. The necessity for considering the great Plains apart from the rest of the country was stressed by many of the speakers.

Every speaker at the meeting was unanimous in discussing the need for concerted action, proper legislation and consideration of the problem. Full support of the soil conservation measures, emergency listing, range rehabilitation, pond and dam construction was expressed and urged. Representative Jones said he be-

### Extensive Repairs At Adair Hospital Completed Monday

Repairs costing over \$4,000.00 were completed this week at the Adair Hospital. Clarendon now boast one of the most attractive and well-equipped hospitals in this section of the state.

Exterior improvements were small with the extent being refinishing the doors and windows. The reception room of the hospital has been repainted in cream, replacing the gray walls which made the hospital always dark and gloomy. A new modernistic suite, upholstered in red, has been purchased to brighten the lobby and a new rug placed on the floor.

The most outstanding repair work done on the interior is in the kitchen where built-in cabinets have been added to two walls of the room, an alcove built for the electric refrigerator and a cover and vent for the top of the stove. The kitchen has also been refinished and painted in a light color. Adjoining the kitchen, a storage room and pantry were removed to build a comfortable and attractive dining room for the hospital staff.

The office furniture has been painted in cream and the walls of the entire hospital repainted to add light to the interior. The walls of the utility room, the medicine room, and the linen closets have been painted in the same color.

To maintain our hospital and afford the equipment that is necessary in an institution the size of the Adair Hospital, we must collect delinquent fees", the chairman of the hospital board said this week.

The Decker Bros. were in charge of the decorating and the built-in features were made by the Watter Planning Mill.

### Last Rites Held For Young Boy

Funeral services were held Tuesday afternoon at 2:30 o'clock from the First Methodist Church for J. D. Moss, Jr., who died Monday night, at 9:45, after a short illness.

J. D. Moss, age 5, was born January 13, 1932, in Texas and moved to Clarendon in July, 1936, where his father is employed at the McGowan Barber Shop.

Last rites were conducted by the Reverend E. D. Landreth, Methodist pastor. Interment was in the Goodnight Cemetery. Pallbearers were Dick Tomlinson, Bob McGowan, Austin Rhodes and Van Knox.

Surviving are the child's parents, Mr. and Mrs. J. D. Moss, and two young sisters.

lieved a ne wagency, such as a great Plains authority or committee, should be created to attack properly the dust problem in Kansas, Oklahoma, Texas, Colorado and New Mexico.

### Lawn Soft Place For Car Wrecks

Lightning never strikes in the same place twice and ordinarily two automobiles do not turn over in the same place; however, in the past two months, two automobiles have hit the dips on East First street to turn over in the yard of the W. C. Stewart home.

A car, occupied by Memphis people, turned over Friday night near 12 o'clock. Aside from breaking all the glasses, badly damaging the body of the car and breaking many bottles of liquor which were in the automobile at the time of the wreck, no damage was done. Occupants of the car escaped injury. The car was righted and able to run under its own power.

The first accident occurred December 9, when a Houston man, carrying a rotary bit in the rear of his coupe, hit the dips at high speed and lost control of the automobile.

And again the news came home to the News reporter.

### SCOUT EXECUTIVE ADDRESSES LIONS

**HEAD OF ADOBE WALLS AREA HERE TO EXPLAIN SCOUT SET-UP.**

Scout Executive Fred M. Roberts, head of the Adobe Walls area, with headquarters at Pampa, was the speaker of the day Tuesday at the Clarendon Lions Club, being introduced by Lion Cap Morris.

Mr. Roberts came over to survey the local Boy Scout situation and to confer with Scoutmaster Stults and local leaders of the movement in Clarendon. In his address Mr. Roberts stressed the importance of the boy and his future, declaring that the labor, the expense and all efforts were fully repaid in the saving of one boy to clean living and good citizenship. He urged that all the men of the town back the Scout movement, saying that such backing was necessary if the Scout troops were to succeed here. According to the speaker the cost to the community would run approximately \$360 a year for full connection with the supervision that goes to all local councils in the area.

Chairman Lowrey of the cafeteria committee, told of the need of volunteers to collect the groceries each morning for the school cafeteria, and a number of Lions offered their services.

A. C. Stults, teacher in the local schools, was elected as a member of the club.

### Hedley Woman Is Buried In Memphis

Ms. Ruth Priestly, 41, died Monday at Hedley. Funeral services were conducted Tuesday afternoon by pastors of the Hedley Baptist and Methodist Churches from the First Baptist Church of Hedley, and burial was in Memphis.

Mrs. Priestly was an esteemed resident of Hedley. She is a half sister of T. M. Pyle of this city. She is survived by three children, two daughters and one boy; four half brothers, T. M. Pyle of Clarendon, F. M. Pyle of Van Horn and Horace Pyle of Logan, New Mexico, and Paul Pyle of Hedley; and two sisters, Mrs. J. G. McDougald of Hedley and Mrs. E. M. Ewin of Memphis.

### Forty Boys May Come Out For Spring Football Training

Spring football will open with the prospects very bright for a good team this coming season. Coach C. C. Jones hopes to have a crew of 40 boys working each afternoon beginning March 29, until May 7. This will give the team six weeks of work where fundamentals of blocking and tackling can be taught. Every boy who plans to play next fall is urged to take advantage of this training.

The 1937 Bronchos have three letter men back with which to build a team along with some good reserve material. Billie Cooke, Jimmie Watters and Jerry McGowan are the returning letter men.

"In Bill Cooke we have a boy who should make the boys sit up and take notice as Bill is a good ball carrier, and also a punter and passer. We expect Bill to be the spear head of the team this fall. Jimmie Watters played center this year but because of his size and speed plans are being made to play him in the back field this fall. He is a big boy and should be plenty hard to stop when he is lugging the ball. Jelly McGowan played guard last fall until the last game where he was shifted to the blocking back position and there did himself credit. It is likely he will be seen in this position this year. Other boys who were good reserves last year are Johnnie Grady, Curley Huffman, Max Wilson, H. L. Lane, Red Hays, Durwood Mears, Jack Reeves, George Reeves and a number of others," Coach Jones said.

It is hoped that a new plan that has been talked over will be realized and it will be possible to have many of the boys who ride the buses out this fall. The plan is to arrange the schedules for the morning so they can work out before the buses run. Let's all get behind the Bronchos this fall and encourage every boy that you know to come out for football. Every position on the team is open and the boy who can show that he is the boy for the position will be in there this fall, so all you boys be out there and let's give Clarendon and the school a championship team. Remember the date for spring training is March 29, plan to be there, the Coach urged.

### CHURCH SUPPER TO BE FRIDAY

**GATHERING OF CHRISTIAN CHURCH WILL BE LARGE; NEGRO MINSTREL.**

One of the most interesting social gatherings ever held by the First Christian Church will be held Friday evening when the ladies entertain the men at a covered supper at 7 o'clock. A negro minstrel, under the direction of Mrs. Frank White, Jr., will furnish the entertainment.

Pep talks during the supper will be given by Reverend R. E. Austin, Roy Clappitt, chairman of the board; Frank White, Jr., Sunday School superintendent; and Homer Mulkey, assistant superintendent.

Songs to be sung by the minstrel are "Old Black Joe", "Swing Low Sweet Chariot", "Standing in Need of Prayer", "Oh Susanna" and "I Got Shoes."

The middle man will be played by Earnest Eudy as Mr. Van Swazzer and end men are Paul Lasson, Bro. Crawford; Kenneth Lyle, Samba; Lee Shelley, Rastus; J. A. Howard, Snowflake; Chester Tally, Lightning; Harry Kerbow, Kingfish, and Billy Jack Shelly, Molasses. A Southern belle will be played by Bettye Baily. A large crowd will be present.

### Car Collision Saturday Night

Oscar Butler suffered a slight brain concussion Saturday night when the car in which he was riding with Billy Cooke collided with a stalled automobile north of town on the way to the Butler home.

Young Cooke, who was driving a 1937 Buick coupe, did not see the automobile driven by M. S. Chas. Risley, which has stalled in the road. Cooke's car turned over. The accident was unavoidable, officers said.

While Cooke returned to town to summons aid, his coat, gloves and hat were taken from the automobile.

Lee Muse announced this week that he was establishing a cafe in Jacksboro, Texas.

Mrs. O. C. Watson returned Sunday night from Dallas, where her young son, George, underwent an operation. She reports that George is doing nicely.

### Just A Few Contenders For Donley Stock Show Honors Here Saturday

The above are three calves typical of the twenty-five which are being entered in the second annual Donley County Fat Stock Show Saturday. Besides vying for honors locally, each of the twenty-five entries will be sent to the Amarillo Fat Stock Show to try for Panhandle honors.

Each of the three Donley County boys pictured with their calves expect to place high. On the left is Jack Lewis and his calf, center is Don Harlan and his entry and right is Leland Lewis and his calf. Premiums amounting to over \$150.00 will be distributed.

## A TRIBUTE AND A LESSON WORTH NOTING

On a recent visit to Austin and during an interesting conversation with Dean Tom Shelby of the University of Texas, this editor heard a spontaneous tribute to a local citizen, which impressed him deeply with the lesson involved in the circumstances.

Speaking of Clarendon and her recognized high-class citizenry, Dean Shelby recounted his early-day training as an awkward pupil of Mrs. Gabie Betts Burton, then teaching in Wilbarger County, where he attended his first school. Dean Shelby told of how his teacher encouraged him as a timid lad, too mindful of his own shortcomings, buoyed him up with an understanding influence and lighted in his plastic mind the ambition to get an education such as local schools afforded, with the ultimate determination to go to the University for its facilities, faraway as that goal then appeared. He declared that he owed all he had accomplished to the influence of this good woman, who was possessed with the touch of a real teacher—and he was proud to render such homage.

To this writer, such a story and tribute, brought home in a powerful way the truth of how little we grown-ups dream of the power and potency of our associations with children and adolescents. There's scarcely an adult person worth while in all the country, who cannot hark back to the influence and personality of some man or woman in early life who lighted a spark of ambition and determination in them which furnished the motivating drive which brought them to their varying degrees of success.

As many good deeds as our esteemed townswoman, Mrs. Burton, has performed along life's pathway—and they have been many—yet this one instance, alone, recounted above is great pay in our estimation. Dean Shelby is a man of large capacity and influence, therefore her influence many years ago is multiplied a thousand fold through him. Little did she dream of the eternal train of constructive good she was putting into motion, when she extended kindness and inspiration to the gawky lad in the long ago.

This lesson is not for teachers alone—it is to all of us.

## OUT OF STEP

A favorite pastime of some American prophets is to point at other countries as examples of progressive thinking. Implied in their remarks is a denunciation of the past in America and a warning to this country to do as about-face. The past, they tell us, is dead. Look at these other countries for a hint of what the future holds.

In substance, this means that the United States is out of step with England, France, Germany, Spain, Italy, Russia, China and the Fiji Islands. In a word it means that anything peculiar to the United States in the dead past as the world's highest standard of living, such as an automobile to every four families, such as three radios to every four families—anything so peculiar to the American past as this is to be condemned.

There can be no doubt that these prophets are absolutely right on one point. Politically, socially and in the field of economics, the United States has been out of step with the rest of the world, all right.

What's more, the United States has been out of step with the rest of the world for a hundred and fifty years.

## Approval of Treaties

Who has power to make and approve treaties?

Our Constitution provides that the Executive "shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur."

The power to make treaties is important because it relates to war, peace and commerce and therefore should not be given except in such a way and with such precautions as will afford security and protect the best interests of the whole country.

For this reason, our Constitution gives this power to the Executive, and provides further that this important power be balanced, not by a large popular assembly like the House whose members hold office for a short term, but by the Senate as a body small enough and holding office long enough to become thoroughly acquainted with international affairs and able to form a continuing system for managing them.

To gain the respect and confidence of foreign nations and to maintain effective political relations with them requires discernment, stability, deliberate investigation

and an enlightened and constant policy.

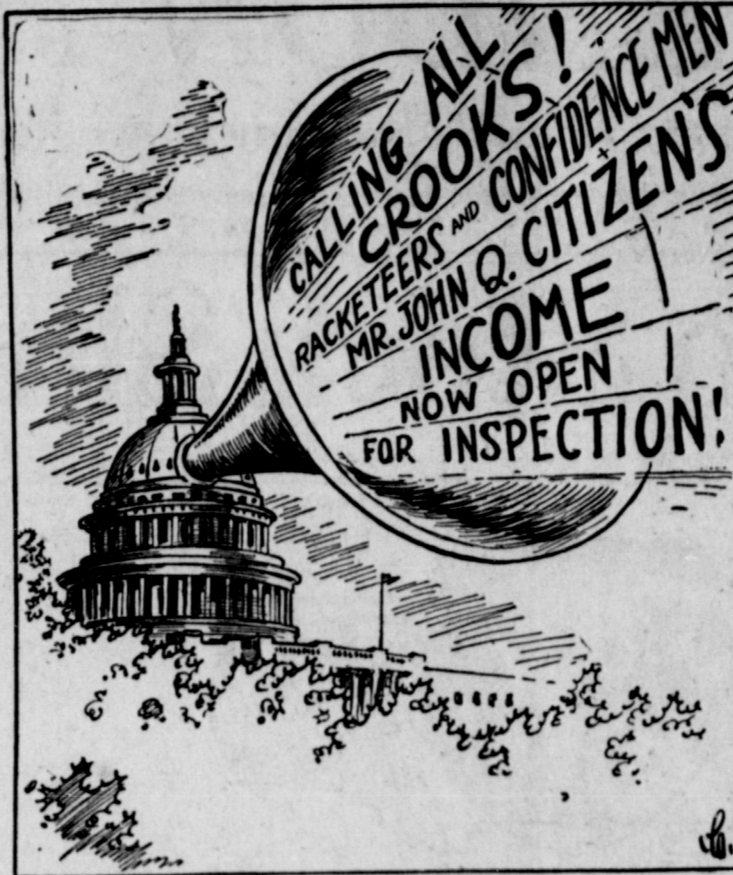

To check the Executive in this important power, our Constitution requires approval by the Senate as

an assembly better fitted for this purpose than the House. Experience shows that Senatorial control has discouraged the taste for foreign entanglements and has thereby avoided entangling alliances against which President Washington so earnestly cautioned us.

## TELLING THE WORLD

We must be something apart because we have fed upon a brand of fodder not grown beyond our borders.

Out of step with the rest of the world! What America will not proudly admit this fact! And yet, wouldn't it perhaps be a bit nearer the truth to phrase it this way: "The rest of the world is out of step with the United States?"

## DRUNKEN DRIVERS

Using tobacco in any form is very disagreeable to the user. If he smokes a pipe or cigarette, he may burn holes in that new suit he put on last Sunday. If he chews tobacco, he will surely get "tobacco juice" on come part of the new suit. Yes, indeed, it is a very bad habit, but not half so bad as drinking whiskey while driving an automobile. The latter habit has been known to kill innocent women and children on our public highways. The men are not by themselves. We see many women going into drug stores and buying a pint of liquor with just as bold a front as a man. Women who try to drive a car while intoxicated, or even partially intoxicated, should be condemned just as much so as men. It is against the very nature of any woman to smoke cigarettes or to drink whiskey, therefore, we believe this habit was formed because of the association of some gentlemen friends, who taught them this bad habit. No man wants to marry a woman who is a drinker, and no lady should marry a man who is a drunkard. Gasoline and whiskey will not mix without disastrous results. Just think of the thousands who are being killed and crippled for life because of drunken drivers.—Claude News.

## Shall We Back The Bronchos?

R. E. DRENNAN.

The approach of spring football season in Clarendon calls to immediate attention several needs of the city in forming a backing for their team.

First of all, of course, the questions arise: Does Clarendon want a good football team during the next season? Is a good football team the type of advertising that the city wants?

Assuming that the business men of Clarendon realize the value of the good advertising of our city that a good football team brings to them, not to mention the out-of-town people who will be brought in to witness the good football games that naturally go with a good team, then we must realize that there are four cardinal factors that will contribute toward a successful season for Clarendon High School during the next year:

First, there must be good material. In the outlying districts near Clarendon are many young farm boys, anxious to play football and capable of playing the kind of a game that tends toward finer athletics. But these boys either cannot make themselves available for play, or cannot receive enough coaching so that they can learn the basic principles of the game.

Second, there must be good equipment. It stands to reason that boys with ill-fitting shoulder pads, breeches that do not form sufficient protection for the legs that suffer from constant tackling and blocking, and helmets that do not offer sufficient guard. Then, too, boys garbed in good equipment have freer movement, less thought of their personal condition, and are able to throw themselves wholeheartedly into the game, a thing that is essential to winning the game.

Third, there must be a good coaching staff. In Coach Jones Clarendon has been fortunate in securing a man whose past record assures us of his ability. He came here after astounding successes at Dana College in Nebraska and Canyon High School. His season last year, which might not be termed successful by some few skeptics, was nevertheless considerably above all expectations. Pre-season predictions placed the Bronchos in seventh place and they finished fifth. They were not conceded a chance to battle evenly with the team that later won the district title, but they not only tied the Wheeler Mustangs, but out-played them completely. The season ended with the Bronchos' standing set at .500 per cent.

Fourth, the team must have the moral support of the town. The boys can play their hardest and their best when their friends and their friends' friends are on the sidelines for them.

The answer to most of these problems is found in the organization of a Clarendon Athletic Club which can offer the backing of the business men and friends of the team in a concrete way.

By banding together, the Athletic Club would be able to raise the funds necessary for the better equipment, and they, as business men, would be repaid by the assets of a better football team.

Through co-operation from the Clarendon Athletic Club, the problem of getting the farm boys to and from football practice could be easily solved.

It is up to the people of Clarendon whether or not they want a good football team.

The time for action is now. Let's band together and back the Bronchos and watch them go to town!

### DON'T TAXES TAKE THE CAKE?

MOTOR TAXES  
by Ed. S. Snover

The auto owner has to bear  
A whole lot more than his just share  
Of taxes, we maintain!  
Whenever legislative gents  
Need cash to liquidate expense,  
They hasten to ordain  
Another levy on the man  
Who owns a new or antique van  
That burns up gasoline—  
Right now it takes most all the pay  
A chap can earn from day to day  
To sponsor a machine.  
Old Uncle Sam grabs off a few  
Bucks every time a new  
Car's sold and Michigan  
Takes three per cent of what one pays  
After he's labored hard to raise  
The price of a sedan.  
And no small portion of the cost  
Of fuel by gas stations tossed  
Into one's tank is tax—  
No other thing could bear the load  
That taxing units have bestowed  
Upon our benzine hacks!  
Though vigorously we protest  
The robbery that soon divests  
Us of our hard-earned dough,  
The chaps who have authority  
To hijack folks like you and me  
And fill our souls with woe,  
Refuse to stop their practice vile  
But, on the contrary, they pile  
More burdens on our backs—  
Some day, we hope, our sovereign state  
Will grow much more considerate  
About the auto tax!  
(Reprinted from Fort Huron, Mich., "Herald")

**NEWS ITEM:** "February 25, 1937 is the 18th anniversary of state gasoline taxes, which have cost motorists more than \$6,000,000 since first levied at 1c a gallon in 1919. The cost for 1936 alone is estimated at \$685,000,000. Federal gasoline taxes have cost an additional \$772,658,000 since 1932, making the grand total cost from 1919 through 1936 about \$6,169,876,693. Efforts now are being made to eliminate the duplicating federal gasoline tax, to reduce excessive state taxes to reasonable rates, and to assure the expenditure of all revenue for highways only."

### "CRAIG'S WIFE" UNMASKED

A tensely dramatic moment occurs in Columbia's "Craig's Wife," currently showing at the Pastime Theatre, when John Boles, as Walter Craig, learns that his wife, portrayed by the beautiful Rosalind Russell, has implicated him in the murder of his friend. This scene is a climax in the stirring emotional drama which has been picturized from George Kelly's memorable Pulitzer Prize play by the same name. Supporting Miss Russell and Boles is a large cast including Billie Burke, Jane Darwell, Dorothy Wilson and Alma Kruger. Dorothy Arzner directed.

Rosalind Russell and John Boles, as Mr. and Mrs. Walter Craig, will be seen in the picturization of George Kelly's famous Pulitzer prize-winning play, "Craig's Wife," which opens Sunday at the Pastime Theatre.

The stars are supported in lesser roles by an imposing cast including Billie Burke, Jane Darwell, Dorothy Wilson, Alma Kruger, Thomas Mitchell, Robert Allen and Raymond Wilburn. Dorothy Arzner, foremost woman director in Hollywood, guided the film transcription through its production, based on the screen play by Mary McCall.

## WITH YOUR ENGINE OIL-PLATED

OIL-PLATING differs widely from other forms of lubrication in this plain, understandable way: It remains lastingly fastened to the pistons, bearings and other engine parts, even when they are not in motion. This is made possible by the Germ Process—patented—which gives Conoco Germ Processed oil its strong attraction for metals, so that every working part becomes durably Oil-Plated.

Oil-Plating is not live any lubrication that merely goes on-and-off. Once Germ Processed oil covers the parts it never leaves them bare of Oil-Plating... Never when the pistons are racing thousands of strokes a minute... Never on any hills, despite any load... Never while you park at a dozen different stores.

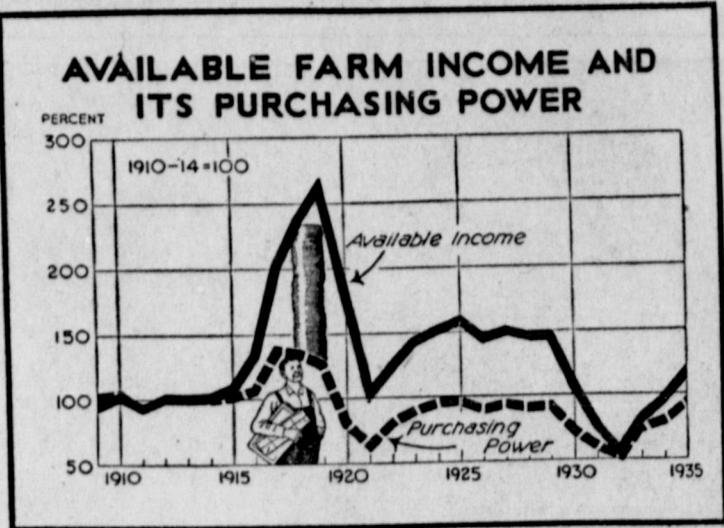

So it's nothing to you, when engineers blame more than half of all engine wear on so-called "dry starting." Nor need you worry over all the rest of the annual Spring oil scare. Whether your car is new or old, you can make your longer runs... hit your higher speeds... enjoy your hotter sunshine. Oil-Plating can take it like the longest-lasting part of your engine. For Oil-Plating really becomes a long-lasting part of your engine, as you change to long-lasting Conoco Germ Processed oil. Continental Oil Company

The Texas farmer is not so much interested in how many dollars he receives for his products as he is in how much he can buy with these dollars. When, as in 1932, farm

income and the purchasing power of the farm dollar both declined to disastrous lows, agriculture, industry and labor entered the depths of the depression together.

From 1910 to 1915 the relationship between prices received for farm products and prices paid by farmers was about on the same level. This condition is known as parity, and while Texas farmers enjoyed parity, they also enjoyed a period which saw them raise their standard of living

and reach a sound economic basis. In 1932 there was a wide spread in prices paid and prices received, with prices received by farmers at a new low point and prices paid above the 1910-15 level. When parity was approached, agriculture again enjoyed a more favorable condition.

It was found that there would not be quite enough miles of line so it was decided to continue it on a larger scale.

Mr. H. M. Breedlove has offered to bring a R.E.A. representative into the county to make a survey of the county. This survey would determine whether or

not enough consumers are in the county to justify a county-wide project. This project would not necessarily be limited to those in the county, due to the fact that there are a few communities and farmers just outside of the county.

Those who are interested may get in touch with Mr. Breedlove or Mr. Brown of Martin school.

Mr. and Mrs. Richard Dingle are the proud parents of a little baby girl. Both mother and baby are doing very nicely.

We are very sorry to report

**Uncle Sam Looks to Texas in Battle To Rewin Markets Lost to Foreigners**

With more than 50 per cent of America's sulphur export market lost to foreigners in last six years, Uncle Sam is counting on sons of the Lone Star state to shoulder responsibility not only of recapturing our lost markets, but of preserving the domestic industry thus assuring U. S. farms and factories an adequate supply of sulphur at low cost in time of either peace or war. So declares Porter A. Whaley, inset, upper left, general manager of Texas State Manufacturers' Association. Texans are already in forefront of this battle to regain lost markets and among leaders is J. T. Claiborne, Jr., inset, upper right, native of Tarrant County, and vice-president of a leading sulphur company. Center, big plant erected in 1931 by large Italian sulphur company in Sardinia, Italy. (Ewing Galloway Photo.) Lower right, loading sulphur in Brazoria County, Texas.

SAN ANTONIO—America is counting on the sons of the men who defended the Alamo and fought with Sam Houston to regain the sulphur markets it lost nearly six years ago to foreign nations.

So declares Porter A. Whaley, vice-president and general manager of the Texas State Manufacturers' Association, who cites figures showing that Texas, which produced about 40 per cent of the total world's supply of sulphur in 1931, today produces only about 20 per cent.

"According to United States Bureau of Mine statistics," Mr. Whaley said, "America's exports of sulphur have declined from 255,163 tons in 1929 to 492,353 in 1935, a loss of more than 50 per cent of our foreign markets. The reason for this is not hard to discover. The war lords of Europe have stimulated production in their own countries with huge subsidies to producers and high

tariff barriers. These government premiums on sulphur sometimes run as high as \$7.00 per ton. Italy last year handing 30,000,000 lire over to her sulphur producers to be used in expanding export sales.

"Uncle Sam must rely on Texas as America's largest producer to shoulder the responsibility of winning back our sulphur markets," Mr. Whaley declared. "And, since the sons of the Lone Star state have never taken defeat lying down, I am sure that Texas can be counted on to do her part. We must realize sulphur's importance, not only on our farms and in industry, but in the defense of our liberty in event of conflict.

"With many a foreign nation rattling sabers and re-stocking arsenals in preparation for the next war, anything can happen, and while I don't want to be an alarmist, I think we must consider the importance of the preservation of the American sulphur

industry from every aspect. Because we are America's chief source of supply, it's virtually a case of Texas against the rest of the world in the battle for markets and the struggle to hold down the cost of sulphur to our own consumers."

Texas "boys who have made good" are in the forefront of this battle. To a large extent Texans are guiding the destinies of America's sulphur industry today, not only here in Texas in the effort to produce sulphur as cheaply as possible, but also in New York where, as officials of the U. S. companies, they direct the fight to regain the lost markets. Among them is J. T. Claiborne, Jr., Tarrant County native, who is now vice-president of the Freeport Sulphur Company; R. K. Shirley of Van Zandt County; Roy B. Johns of Johnson County; T. J. Knapp of Galveston County and others well known to many Texans.

### EDITOR'S CORNER

The style show and beauty contest presented last Thursday was successful, we believe, from every view point. It was certainly encouraging and gratifying to see the large attendance at this show. It was, in fact, the largest attendance seen in the college auditorium for a school presentation for years. Everyone seemed to enjoy the show and beauty contest to the fullest. The sophomore class realized a profit of approximately fifty dollars on this presentation.

College students are already making plans for College Week. College week was introduced last year, and it was so successful that it was decided to make it an annual affair. The object is to acquaint the students and people of this county and surrounding counties with the opportunities and advantages found in attending Clarendon Junior College. The date for college week this year is set for March 29-April 4.

### Just Ramblings

Miss Blair's education class had the misfortune to find out just how smart they really are through an intelligence test they took last Tuesday. As yet the number of morons has not been deducted; however, the totaling of the geniuses could be accomplished with no great difficulty. Joe Phipps greatly lamented parting with the five cents for the test, for, he logically argued, his intelligence is not worth so much.

Coincidences do happen, and it is a small world. Last week as Joe Phipps (I'm not going to devote all my time to the worthy fellow) was enjoying the holidays at Chillicothe, who, who should he see sailing by but Beth Weatherseebe? While on her way to Fort Worth, Pauline Carlyle encountered Beatrice Garmon going in the opposite direction.

As I look from my window, I see several juveniles pushing each other in wheel-barrows. My near-sighted eyes prohibit my identifying all of them, but one looks a great deal like Peggy Word, and another like Arvin White. I have been looking approximately thirty seconds and the wheel-barrows and occupants have been returned about half this number of times. I fear for the casualties.

Pardon for mentioning Joe again, but lately I've been seeing girls combing his hair. Is this laziness, Joes, or just a subtle line you're employing? Anyway one blond had a look in her eyes as if she wished the hair were more tangled, so as to prolong the tete-a-tete, you know.

### Sigma Delta Chi

The Sigma Delta Chi, science club, met Thursday night at 7:00 for a short business meeting. After roll call, Mr. Stults, sponsor, gave interesting information about a Junior Academy of Science; plans for joining this club were discussed. Plans were also forwarded for a social next week. The meeting adjourned after this business session.

### Future Teachers Meeting

The Future Teachers Association will have a regular meeting, Friday, the fourth period, March 5. There will be a discussion and actual practice on the subject, "Problems the Teacher Will Face". The discussion will be presided over by the club president, Ina Riley.

## Style Show and Beauty Contest Is Very Successful Thursday

MISS DOROTHY NELL BAKER CHOSEN "MISS CLARENDON" FROM LARGE LIST.

The style show and beauty contest, sponsored by the College Sophomores last Thursday evening, was very successful. Miss Dorothy Nell Baker was selected as "Miss Clarendon" in the beauty contest out of thirty-seven entrants. Miss Ellise Norwood was chosen winner of the "Miss Clarendon Junior" contest.

The style show consisted of men's styles by Bryan Clothing Company and Greene Dry Goods; women's styles by Mellinger & Rosenswasser, Greene Dry Goods, and the Ladies Shop; hose styles by Bryan Clothing; hair dress styles by Nadine's Beauty Shop, and Irene's Beauty Shop.

Entrants in the "Miss Clarendon Junior" contest included Warnell Smith, Margaret Ann Jenkins, Clyde Fern Wilson, Marilyn Bartlett, and representatives of first grade, Shirley Dell Hillard; second grade, Ellise Norwood; third grade, Betty Jo Rhodes; fourth grade, Marilyn Maher; fifth grade, Betty Ann Craft; sixth grade, Bobby Jo LaFon.

During the intermission a short program was presented. The public school music class gave two numbers, "Napoleonic Nights" and "The World Is Waiting for the Sunrise". Kitty Ruth Bailey, winner of amateur contest, sang a solo, "When My Dream Boat Comes Home". A tap dance number was given by Eloise Hill, Peggy Word, Avis Lee McElvany, Dorothy McCormack and Jo Word. Music was furnished throughout the style show by the orchestra, directed by Ray Robbins.

The college sophomores wish to express their thanks to the Clarendon merchants for the co-operation extended them in this presentation.

### POSTSCRIPTS

Jessie J. Tomlinson has a large number of admirers among the entire student body. Max Wilson, J. B. Martin and a redheaded soph are leading.

Why do Pauline Riley and Thelma Hardin fight every day at noon? A rumor is being spread to the effect that they both like the same boy. (Poor boy!)

Howard of Memphis! Frances Hott thinks she fooled me, but it's really T. C. I. of Chamberlain that she likes best.

James Bailey, the newest addition to the sophomore class, has caused much favorable comment. Everyone seems to like him.

Frank Mahaffey was not exactly excited about singing over the radio—so he says!

We bet a nickel the rendition of "Sleep Kentucky Babe" was coming from his heart instead of his tonsils.

Billy Headrick, Raymond Hay and Freddie Chamberlain just adore going down to Biology Laboratory the sixth period. Wonder why?

Wish someone would take the wind out of Neal Thompson's sails.

The essay writers were in "hot water" all last week. Some of the attempts were very good.

Has Lalar Belle Wilkerson really taken B. H. away from Lois Marie Taylor? We wager it isn't a "swan song" for Taylor, yet!

## Memphis High Band Plays At Assembly

The Memphis high school band under the direction of Milton Pullis, entertained students of Clarendon high school and Clarendon junior college in an assembly program on Friday, February 26.

The seventeen members were attractively uniformed in dark trousers or skirts and white jackets. They played several numbers; then one of the girls in the band appeared in an old-fashioned costume and gave a reading on the right of women. A mock wedding ceremony was carried out by three boys with the band adding the musical background.

### PERSONALITIES

For the following few weeks, we are going to present descriptions of interesting personalities in the school. The names of the persons will be omitted, for you are to guess the name of the person described. The answers will be given the following week.

The first person that we will describe is a young lady. This young lady is a junior in high school. She is very cute with beautiful brunette hair. She is very, very popular, having a noticeable personality. She was a member of the '36-'37 Pep Squad and a regular member of the present girls basketball team. Your guess—

Number two description is of a young gentleman. This young man is a blond with blue eyes. He stands fully six feet and weighs approximately 160 pounds. He is a senior and is liked by everyone. He was a member of the '35-'36, as well as the '36-'37 team. He "saved the day" many times for the Bronchos last year. Your guess—

### Hints for Homemakers

LEFT OVER vegetables are apt to taste flat when reheated. A teaspoonful of sugar, along with salt and pepper will work wonders in restoring "garden" flavor—the sugar serving as a blending agent for the other ingredients. This is a seasoning trick common among continental chefs.

One way to prevent windows from sticking is to rub the cords occasionally with soap, running the windows up and down a few times after the application.

## Junior - Senior Banquet Feb. 26 Proved Most Brilliant Affair

The Junior-Senior banquet was given Friday, February 26. The program was opened by the chorus singing "Texas, Our Texas". This was followed by the invocation by Mr. Drennan. Another toast to the Seniors was given by the Sophomore president, Billy Patman. Jane Williams gave a toast to the faculty with a response by Mr. Burton. Ethlyn Drennan tap danced, with Billy Cooke at the piano. The program was closed by the chorus singing the school song.

PAT SLAVIN ENTERTAINS JR.-SENIORS WITH DANCE

Pat Slavin, senior class president, entertained with a dance at the home of Mrs. R. L. Biggers Friday night after the banquet. Approximately thirty couples attended the dance. Music was furnished by a nikelodian.

### London Lady Makes Gift To Clarendon

This week marked the first anniversary of the Clarendon Museum, which opened March 2, 1936, under the direction of the Les Beaux Arts Club. Mrs. L. S. Bagby, who is in charge when the museum is open to the public each Monday afternoon in the Clarendon College, reported that many lovely donations had been made the museum in the first year of its existence and the most recent has been a picture of Mrs. Cornelia Adair, made in 1904.

The picture was sent the museum by Miss Royce of London, England. Miss Royce will be remembered here by a wide circle of friends as the private secretary of Mrs. Adair. The picture has been framed and now hangs in the museum.

Together with the picture, Miss Royce sent the museum a mastodon's tooth that was given to her by Mr. Brown, who came to Clarendon in 1904, as a representative of the Natural History Museum in Central Park, New York. He made many remarkable finds on the JA ranch and before leaving presented Miss Royce with the mastodon's tooth which she recently sent the museum.

## Mrs. Sims Hostess To Kilkare Klub

Mrs. W. B. Sims entertained the members of the Kilkare Kneelie Klub on Thursday afternoon at her home.

## B.&P.W. Club Dinner Is Held

Miss Annie L. Bourland, international chairman for the local club, assisted by Mrs. O. L. Jenkins and Miss Lotta Bourland, was hostess to the Business and Professional Women's Club and guests Friday evening at 6:30 o'clock at the annual international dinner held in the Woman's Club Rooms.

Those taking part on program represented a foreign country in the International Federation. Two United States flags were draped over the mantel and the small tables where the guests were served, were decorated with flags from every country in the International Federation. The flags, used as place cards, were made by the students of Mrs. Altha Lane.

One dish from each country represented was served during the dinner in buffet style from a large table laid in white Irish linen and centered with a Chinese piece and miniature American flags. Red tapers framed the centerpiece and a brass vase from Damascus was among the appointments. Coffee and tea were served with Miss Lotta Bourland presiding over the silver services.

The menu consisted of Kibib, a Syrian dish, prepared by Mrs. Jim Barkett, who is a native Syrian; rice served with chop sticks, tortillas, sour kraut, weiners, spaghetti, salmon salad, Swiss cheese and salad wafers, olives, potatoes, and date pudding topped with cream. Grapejuice, chosen as a French favorite, was served.

Miss Bourland was in charge of the program, which was opened with unison singing of "America" and a song in Dutch. "Switzerland and the B.&P.W. Club" was spoken on by the leader. Miss Ethel Swanson spoke on "The French B.&P.W. Club" and "Mar-seilles" was played by Mrs. Allen Bryan. Other topics on the program were: "Belgium, Czechoslovakia and India", Miss Bourland, followed by an Indian song; "Great Britain", Miss Fanny Perry; "Holland", Miss Lotta Bourland, following which "Coming

Through the Rye" was sung; "Italy", Miss Fanny Perry; "Spain, Greece and Hungary", Miss Mattie Graves, followed by "Juanita", sung in unison; Austria, Miss Ruth Hartzog; and "Korea", Jo Ella Stewart, after which Mrs. Bryan played a Chinese melody.

"When the Lord divided the dry lands and the seas, he forgot Sweden" was the manner in which Miss Swanson introduced her talk on Sweden. Miss Swanson, a Swede, told of her travels and experiences in Sweden in connection with her talk on the Sweden Business Women's Club.

One of the outstanding features on the program was a talk by Mrs. Jim Barkett on Syria. Mrs. Barkett was born sixty miles from Jerusalem. Information concerning the Syrian Club was given by Miss Anne Bourland, who has traveled extensively in European countries. "Come Thou Almighty King" was sung with Miss Bourland leading. Miss Swanson entertained the group with a selection from the works of John Greenleaf Whittier.

The program closed with Miss Lottie Lane discussing Germany and giving a comparison of the America Federation of B.&P.W. Club with other clubs in the federation. The prayer, written by the President of the International Federation, was read as a benediction.

Guests present were Mesdames Clyde Martin, O. L. Jenkins, Allen Bryan, Seldon Bagby and Misses Katherine Cole and Lotta Bourland. Members present were Misses Lottie Lane, Fanny Perry, Ruth Hartzog, Mantie Graves, Ethel Swanson, Annie L. Bourland, Jo Ella Stewart and Mrs. Jim Barkett.

Mr. and Mrs. Edwin Murff on the arrival of a ten and one-half pound son, Robert Lynn, on February 23. Mr. and Mrs. Murff live in the Brice community.

Robert Marion was the name chosen for the son born to Mr. and Mrs. Robert Webster Tuesday night at the Adair Hospital.

Guests Sunday in the Hays Robbins home were Mr. and Mrs. Miller Chote of Levelland, Miss Frances Chote of Amarillo, Mr. and Mrs. Lon Matteson of White Deer and Mr. and Mrs. Odos Burson of Levelland.

# TYPICAL EFFECTS OF A STRIKE IN ANY MAJOR INDUSTRY

## SUNNY VIEW (By Cynantha Hester)

bit of damage to the truck. We had a nice crowd present at Sunday School Sunday with a total of 48 present. We hope to pass the 50 mark next Sunday provided everybody will help. Singing was also well attended Sunday night. We didn't have very many visiting singers, but we had good singing. I don't believe Miss Lopez Whitt will make any more trades in regard to leading songs. If you wish to know why, you might ask her. In case you have forgotten, I must remind you that there is to be a pie supper with plenty of coffee at Sunnyview Friday night, March 5. We promise to have plenty of music and a program. Don't forget two prizes will be given away; one prize for the pie bringing the most money. The money is to be used to buy folding chairs. Be sure to be present as we are expecting you. School is progressing nicely. We have only three more months and are having quite a bit of

work to do. We have had splendid attendance record this year, and not a single tardy. We are also proud to say Ivon Ellis hasn't been absent or tardy this term. She wasn't absent or tardy last term, which we think is a remarkable record. Misses Lopez Whitt, Orene Riley, Wilma Putman, Ivon Ellis visited Misses Louise and Dollie Hall Sunday afternoon. Mr. Otis and Doyle Koontz spent Sunday with Mr. Henry Hall. Ivon Ellis spent Saturday night in the C. W. Martin home in Lelia Lake. Roger Hester visited Joe Smith Sunday afternoon. Miss Eula Haley visited relatives in Hedley Sunday. Mr. and Mrs. W. T. Haley and daughter visited Mr. and Mrs. Paul Smith and family and Miss Eula Haley Sunday afternoon. J. M. Hall, Wendell Davis and Earnestine White visited Charley Ann Whitt Sunday afternoon. Mr. and Mrs. Clarence Peabody and family visited Mr. and Mrs. Jim Cannon Sunday. Mrs. Clayton Mahaffey and children visited in S. T. Clayton and

F. O. Naylor homes Sunday. Mr. and Mrs. Otto Elliott visited in the Leon Foster home Sunday. Jack Ballew visited in the Glen Williams home Sunday. Mrs. S. T. Clayton visited in Amarillo over the week-end. Mr. and Mrs. J. A. Meaders visited Mr. and Mrs. Glen Williams Sunday.

## HEDLEY (By Mrs. M. W. Mosley)

Mr. Garden Mann and Miss Irene Bryant of Childress were united in marriage Saturday, Rev. Will Holland, pastor of the Church of Christ performing the ceremony. He is the son of Mr. and Mrs. Jim Mann of this community and is very popular among the younger set. Mrs. Mann used to live in the Giles community. We join their many friends in extending wishes for a happy future. Mr. Travis Bland and Miss Ruby Dell Aldridge were united in marriage Saturday afternoon. Pen Johnson, our mayor, performed the ceremony. He is the oldest son of Mr. and Mrs. J. W. Bland and Mrs. Bland is the daughter of John Aldridge. They both attended the Hedley high school. Mrs. Bland graduated in 1935 from Hedley high school. They were both very popular among their friends. We wish them much happiness and success in their future life. Announcement has been made in Hedley of Mrs. J. L. Tims' marriage Feb. 13, to Mr. D. D. Lindley of Lubbock. Mrs. Lindley used to be a resident of Hedley and Clarendon. Fuzz Richardson has returned from a trip to California. Mrs. Mae Quisenberry Hensly Dickson of Amarillo visited relatives here this week. Dickson of Amarillo visited Mr. and Mrs. Cecil Nash and

family of Amarillo spent the week-end here with relatives. We regret losing Mr. and Mrs. Alton Quisenberry, who moved to Amarillo last week to make their home. Mrs. Edd Boliver spent last week in Newcastle with her mother, who has been very ill. Mrs. C. L. Kinsey of Amarillo is visiting her daughter, Mrs. Lake Dishman and family. Shorty Spalding, manager of the Barnes & Hastin Grocery store as a benefit of the Hedley school milk fund for undernourished children, auctioned a large amount of merchandise donated by wholesale firms. Chickens and half dollars were auctioned off to the highest bidder. There were ten half dollars donated, then they were sold to highest bidders. They brought from 56c to a dollar each. The proceeds amounted to \$34.00. M. W. Mosley was the auctioneer. We are glad to know Miss Opal Cooper is still improving in the Northwest Hospital. Aunt Pen Johnson is no better. Grandma Dickson was very ill last week, but is reported better at this time. Rev. W. A. Dawson moved to Hedley last week. We are very glad to have them with us. Max Webb, son of Dr. and Mrs. J. W. Webb, is sick in the hospital at Dallas. His mother is with him. The report is that he is not much better at this writing. On Feb. 19 Mrs. J. T. Mace surprised her mother, Grandma Posey, with a birthday dinner. The children, grandchildren and friends came with well filled baskets. The pretty birthday cake was a delicious angel food with pink decorations. It was baked by Mrs. Effie Kennedy of Lelia Lake, a granddaughter of Mrs. Posey. The table was covered with lots of good things to eat, including a golden brown turkey, and strawberry shortcake for dessert. Those present were Mr. and Mrs. J. R. Mace, Mr. and Mrs. Will Mace, Mr. and Mrs. Alvin Mace and Mr. and Mrs. Elmer Kennedy of Lelia Lake and Mr. and Mrs. H. Thorn-ton of Ralls, Mr. and Mrs. Henry Posey and Mrs. S. P. Johnson, Mrs. Reed Sanders and boys and Mrs. T. L. Hunnicutt and sons, Tom, T. L., and Mannie Hunnicutt. Mrs. M. W. Mosley has been confined to her bed for the last four weeks and is some better at this writing. Mrs. W. C. Bridges was sick last week with the flu. Hedley was honored by a visit of the Memphis band last Wednesday morning. The members of the band made their presence known by playing their instruments in the hall and auditorium. At the close of the first period the students of Hedley school assembled in the auditorium with eager anticipation. Mr. Payne introduced the band director, Mr. Pullis. The members of the band were arranged on the stage. Their program consisted of marches and overtures together with several feature performances. They showed all the students what they look like when they are the leading characters in the matrimonial rites. The girls found that they were not by themselves in upholding the slogan "Down with the men." We are looking forward to the next visit from the Memphis band. Mrs. L. H. Cordary is reported very ill. Homer Hill of the Naylor community spent the week-end with his sister, Mr. and Mrs. Joe Wood. Mrs. Priestly died at the home of her brother, Mr. Paul Pyle,

## LIBRARY NOTES (By Mrs. C. A. Burton)

That people are appreciating the library and reading from it is evidenced by the fact that 208 books were checked out last Saturday afternoon. Of course Saturday is the busiest day at the library by far, because the large number of readers from the country come on that day, but each of the four days on which the library is open brings its quota of readers. My request for magazines last week brought several of the needed ones, but not all. Perhaps some of you still have some of them for me. Our second-hand magazines are a very great bargain. The winner in the Little, Brown novelette contest will be announced in March and the \$25.00 award will be given. One thousand and three hundred forty manuscripts were submitted, all but two of the United States being represented and seven provinces of Canada, as well as several foreign countries. The modern library is giving reprints of many of the classics at very moderate prices. Recently Thackeray's "Henry Esmond" was added to their list. Shortly afterward a letter came to Modern Library from a Hollywood agent addressed to William Makepeace Thackeray, asking if he might handle this and future books for him. "Believe it or not". At a luncheon in New York within a few days Christopher Morley will announce the winners of the national book awards for 1936. Last year the booksellers of the country inaugurated this annual selection of the most distinguished books of the year in the fields of fiction, biography and non-fiction, as well as "the most original book and "the forgotten book". A bronze paperweight in the form of a book will be presented to the author of a book chosen. Texas is represented on this national book award committee by Mr. Lovick Pierce of Whitmore and Smith of Dallas. A book on international law which is spoken of by the critics as a thoughtful and well written volume is "The Juridical Bases of Diplomatic Immunity" by Montell Ogden, associate professor of government in Texas Technological College at Lubbock. The book is described as an eloquent answer to those who insist that scholarship in the educational institutions of the state is at a low ebb. The first national prize for literature in Mexico was recently awarded to Gregorio Lopez y Fuentes for his novel "El Indio", a story of an obscure Indian ranch. The impression left by the story is the well founded fear and distrust the Indians have for all whites. It is spoken of as more a social document than a novel, epitomizing the whole history of Mexico in the experiences of this small ranch. It brings out vividly the hopeless resignation and stoical endurance as well as the dignity and reserve of the Mexican-Indian. The translation was

made by Anita Brenner. One of the most noticeable results of the Centennial has been and still is the increased interest in everything relating to early Texas history. The latest evidence of this is a unique scheme sponsored by the Southern Literary Institute at San Antonio. This is a "story round-up" conducted by John Burgoyne Ely, who came to Texas in the early 1870's. He plans to travel by prairie schooner—a reproduction of the one in which he first came to Texas—from Arkansas down to the Big Bend country. At every stopping point along the way he will conduct a pioneer night where the old-timers will meet and reminisce. Their stories will be recorded and studied with the thought of being used in future stories for publication. In line with the above is the recently published book, "Buckboard Days" by Sophie A. Poe, edited by Eugene Cunningham. "The Saga of Billy the Kid" made

such a strong appeal to people in this part of the West. Mrs. Poe writes of this same period. It was her husband, John William Poe, buffalo hunter, sheriff, detective, cowman and financier, who trailed "Billy the Kid to Fort Sumner. She writes also of such famous characters as John Chisum and John J. Pershing, who became General Pershing of A.E.F. fame. Mrs. Poe's book is spoken of as "being worthy of permanent place upon the shelf of Western sources, even of America in general." Mr. and Mrs. R. V. Payne of Turkey spent Tuesday with her parents, Mr. and Mrs. F. E. Chamberlain. Miss Berkeley Ryan left last Wednesday evening for Atlanta, Ga., where she spent the week-end attending a house party. She is now visiting in Baton Rouge, La., and before returning to Clarendon will visit friends in New Orleans.

**PROBAK JUNIOR BLADES** 4 FOR 10c

**NOBODY'S BUSINESS**

BY JULIAN CAPERS JR.

Austin.—A militant delegation of West Texans, with fire in their eyes, brought a sharp crisis to Austin this week. They came to protest against what they claim is rank discrimination by the major oil companies against West Texas oil, in fixing purchase price scales. They assert there is as much as 40 per cent discrimination against their oil, as compared with the East Texas product, and they brought an expert, Dr. W. L. Nelson, of Tulsa University, who quoted figures to prove just what comes out of a barrel of West Texas crude, what those products sell for, and why a 12-cent increase in the posted price in East Texas ought to bring more than a nickel a barrel up in the West Texas price. The major oil companies, obviously perturbed by the matter, asked the joint investigating committee for time to analyze the situation, and the hearing was to be resumed March 9.

The truth is the oil companies are extremely anxious to settle this matter without too much publicity, because of two good reasons. First, the University of Texas is largely interested, owing much of the oil-producing West Texas land, and everybody in Austin knows it is bad luck to get "the university crowd" out after your scalp. The university has many powerful friends in high places, and if they get the idea somebody is gyping the university, they can and will make plenty of trouble, political and otherwise. The other reason is some very good lawyers have expressed the opinion the university and other land-owners might instigate a lawsuit to recover millions in back royalty, if they can prove discrimination in the posted price. Whether they could win such a suit or not, it is one no major oil company wants to be mixed up in. So the chances are an amicable adjustment in the price of West Texas oil will be worked out in the near future.

**Safety Laws in Spotlight**  
Highway safety legislation took the spotlight in Austin again, as a house committee definitely turned down the plea of truck operators to double the present 7000-pound load limit on trucks. There were enough votes in committee to bring out a majority report, but observers here felt the chance of filling the highways with huge trucks again was pretty slim in view of the adverse committee recommendation.

Meanwhile, a favorable report was brought out of a senate committee on a bill to permit merchants and manufacturers operating their own trucks to deliver their own products, but charging a delivery fee, to avoid regulation as common carriers. But Clint Small put on an amendment limiting the drivers of such trucks to 10 hours service daily—which the safety folk claim would be a big factor in reducing the highway hazards created by drivers of such trucks who now work as high as 16 to 20 hours continuously, out of 24.

The house registered its strong approval of safety plans by passing to engrossment a greatly strengthened drivers' license bill, requiring license-holders to prove their ability to drive, and carrying other important provisions of the uniform national drivers' license law.

**All-Chairman Session**  
Judge R. L. Bobbitt, new highway commission chairman, officially began his duties at a highway contract letting session here, sitting with Harry Hines and John Wood, both former commission chairmen. Hines was late to the meeting, and didn't get to introduce the new chairman, but Wood gracefully did the honors. All the members pledged co-operation and it looks like the year of bickering and political checker-playing in the highways department, resulting from a divided commission, will be succeeded by a period of good-will and efficiency, under Judge Bobbitt's able leadership.

**Utility Problem Up**  
The perennial problem of regulating public utilities was again in the forefront, with the usual difference of opinion among those affected as how best to do the job. With the federal government making it possible for cities to obtain substantial grants to build their own power plants, many legislators lean now to the belief that such open competition results in lower rates than a state-regulated monopoly granted to the private power interests might obtain. The power representatives are citing some rather convincing figures, compiled by the federal power commission, showing the average price for 40 kilowatt hours of energy in 40 Texas cities with many plants is \$3.45, and the average price of the same amount of current in

**Twice A Day Boston Talks By Wireless to Fishing Fleet**

**SPECIAL "fishermen's broadcasts"** from a Boston radio station now keep the men of the North Atlantic fishing fleets, many of whom are at sea for months at a time, informed of market conditions ashore and in touch with their families and friends.

These broadcasts, given twice daily, report the amount of fish brought in by every vessel and the day's prices at the market. Interspersed between items of trade and weather news are such personal messages as this: "To George L. Swayne, mate on the schooner Gertrude C. Mullins: Your six-year old daughter was taken to Malden Hospital with pneumonia on Friday night. She has passed the crisis and is improving."

Another recent message, addressed to the engineer of the Gloucesterman Thomas B. Robbins fishing for halibut out on Middle Ground, said: "Wife seriously ill. Will keep you advised of her condition.—Jim."

Fishermen on schooners and dory boats from the coast to Sabie Island tune in these broadcasts regularly—within their limit, the fishermen's programs are probably

all Texas Towns over 1000 population privately served is \$2.60.

Then, too, there arises the old objection of larger cities, who now regulate their own utilities, and don't want to relinquish the power to do so to a state commission. The house passed the Tennyson bill, extending this regulatory power to cities under 2000. The house corporations committee has favorably reported a substitute bill which provides for a dual system of regulation by cities, with reviewing power granted to a state commission, and it appears if any utility bill is passed, it will be something on this order, rather than a general transfer of the sole regulating power to the state. Mayors of several Texas cities who have appeared here have been emphatic on this point.

The house exhibited a not unfriendly spirit toward the utilities when its corporations committee turned down a bill that would have prohibited the utilities from selling appliances.

**Child Labor Act Dead**  
Nineteen senators voted "No" on the resolution to ratify the federal child labor amendment, thus killing it for this session, and preventing the necessity of the house voting on the question. Voting "No" were Aiken, Beck, Burns, Collie, Cotton, Davis, Head, Holbrook, Isbell, Moore, Neal, Newton, O'Neal, Redditt, Roberts, Spears, Sulak, Weinert and Woodruff. Albert Stone was paired against with Vernon Lemens for.

**Hat Race In Sight**  
Funeral rites for a beloved Texas congressional leader, "Mex" Buchanan of Brenham, were scarcely over before a mad scramble for election as his successor in a special election expected to be called within a month by Gov. Alford, began. Numerous possible candidates were mentioned, including Senators Albert Stone and Houghton Brownlee, Jim Ferguson, Polk Shelton, Harry Graves, and

the most popular on the air. Besides business and personal news, the radio also brings entertainment to the fishermen when their day's work is done, effecting a change in the lives of the men as remarkable as any since the day of the heroic Gloucesterman of legendary fame. The use of radio sets on fishing craft has developed almost entirely since the perfection of the air cell battery. Storage batteries proved unsatisfactory for radio purposes because they require recharging and, as they gradually wear down, provide fainter and fainter reception. The air cell battery furnishes uniform power for more than 1,000 hours of actual service. In addition, air cell radio sets pick up none of the rumblings and other interference caused by the proximity of machinery.

A few skippers have also installed radio telephones on their boats and call their families every night, but this is a luxury that can be enjoyed by only the most prosperous. Air cell radio sets, however, have been brought within the reach of all.

**Home Ec. Girls Plan Banquet**

The Junior and Senior Banquet which was Friday, Feb. 26, was prepared by the Home Economics girls, sponsored by Miss Berry, the teacher.

The Home Economics department and tables were beautifully decorated. The color scheme for the evening was the motif of Decoration Day. Red, white and blue candles which were resting in nests of their own color were used for table decoration. The nut cups were bluebonnets, the Texas state flower. The place cards were the Lone Star made of red paper on which the map of Texas was drawn with white ink. These very attractive decorations were made by one of the second year Home Economics girls.

The second year Home Economics girls very carefully showed what they had learned in their two years of studying by preparing a very attractive and delicious menu which consisted of tomato juice cocktail, baked turkey, giblet gravy, dressing, scalloped corn, green beans, beet pickles, Edgewater pear salad, hot rolls, heaven's delight dessert, mints and pecans.

The menu was very skillfully served by Russell Ryan, Ruth McDonald, Thelma Hardin, Pauline Riley, Dorothy Wisdom, who are first year girls and Ava Marie Guffin, who is a second year girl.

Dr. T. S. Barcus, presiding elder, has accepted an invitation to preach in the revival services. Doctor Barcus has had wide experience in evangelism and preaches the kind of gospel that is calculated to bring deeper consecration to the Church and a definite challenge to the unchurched people to follow Christ. A great deal of interest is being manifested already in the revival, and the pastor and congregation expect a successful meeting. All of the people of the community, regardless of church affiliation, are invited to attend the services and have a part in this effort for the good of all. Rev. Landreth said.
