Twelve head of registered Holstein-Friesian and Jersey cattle will be exhibited at the Panhandle Plains Dairy Show to be held at Plainview, April 13-19, according to J. R. Because of the rapid development in recent months, the exhibit will be a good test of the comparative quality of dairy cattle here and at other Texas, New Mexico and Oklahoma sections.

Group Meets To Discuss Local Golf Course

An enthusiastic group met at the American Legion Hall Monday night to get the fireworks started toward reviving the old Hileroff Golf Course here.

The needs and costs of putting the course back into playing condition was discussed and committees were appointed to look into the situation and also to secure individual memberships for the course.

It will take a fair sum of money to put the course up in good condition, but golf players will be assured of one of the best courses in this part of the country.

If you are interested in playing golf and have not been contacted, you can see U. J. Boston, Tom Connally, Clyde Douglas or Homer Parsons and they can explain the set-up as it looks at the present time.

Clarendon is in need of a recreation of this type and everyone whether interested in playing or otherwise should get behind the movement and put it over right away in order that the course could be put into operation for summer golfing.

MRS. ALFRED ROWE DIES IN WALES

Advice has just been received of the death of Mrs. Constance Rowe, wife of Alfred Rowe, on March 7th last at her home in Glandwr Hall, No. Barmouth, Merionethshire, Wales.

Her husband, Alfred Rowe, was a pioneer cattleman in the Panhandle of Texas and until his death some years ago, was owner and operator of a large ranch in Donley County.

A memorial service was held for Mrs. Rowe at the local Episcopal Church on Sunday, April 7th conducted by the Rector, Rev. W. Fry.

FIRST AID COURSE TO BE OFFERED HERE

The Donley County chapter of the American Red Cross will offer a Standard First Aid course here beginning April 15 at the College building.

W. A. Riney will be in charge of the instruction. It will be an 18 hour course consisting of 2 hours a night, 3 nights a week.

The course is open to anyone that desires to take it. All it will cost is .10 cents for the text book and your time, stated Mr. Riney.

The American Legion, Post 126, will sponsor the biggest dance held in Clarendon in many years next Tuesday night, April 16, at the Clarendon Opera House.

In the past, the problem of dance music has always been the greatest barrier toward having a good, entertaining dance, but that problem has been solved ahead of time on this occasion, and the explanation follows: The local Legion Post has engaged Phil Phillips of Amarillo, conductor of a ten-piece orchestra currently playing nightly at the Avalon Club in Amarillo, and at the Amarillo Country Club on various occasions. He directs one of the best dance bands in this section of the country. C. A. Rogers, popular vocalist, will voice the lyrics of the latest popular songs.

The dance will be semi-formal; that is, either evening clothes or street dress will be worn. This is up to each individual's own choosing.

The highlight of the evening will take place at midnight when a large cluster of about fifty balloons will be broken, allowing them to float down over the audience. In each balloon, there will be a small slip of paper bearing a number, and two of the fifty numbers will correspond with the figures on a pair of Nylon hose and a man's dress shirt to be presented by Greene Dry Goods Co.

Tickets are on sale at Norwood Pharmacy and Douglas & Goldston Drug Co. at \$2.50 each. This price will admit one couple or one stag. This price of admission sounds high in comparison with that of local dances in the past, but good orchestras come high regardless of where they're playing. The Legion sincerely believes you will get your money's worth in good dancing entertainment.

The orchestra will begin playing at 9 p. m. and play until 1 a. m. with two short intermissions during the four hours.

Those wishing to see the match are urged to buy their tickets early as ticket sales are mounting each day and the locals would like to have a sell-out house before the fights begin.

The price of admission is 60c and \$1.20 and you are guaranteed to get your money's worth. The Wichita boys are reported to be pretty fair boxers and we have some mighty good ones here. In this match you will have local interest in every bout and just can't fail to enjoy the entire event.

LIBRARY NOTES

By Mrs. C. A. Burton

Never have the spring catalogues of books been more attractive. Various types of books are replacing the war books. Historical novels are being popular, such as "The King's General"—and many others. Hervey Allen of "Anthony Adverse" fame, is at work on a three part historical novel of which he hopes to complete the third part in 1946. He has found the war years difficult. He served a year with the information division of the War Manpower Commission. He is continuing his work at his home ranch at Cocoon Grove, Florida.

Walter Duranty, winner of the 1932 Pulitzer Prize for outstanding reporting, is to be in Amarillo

this week. He is considered the best informed man in this country on Russia, having spent thirteen years there as a correspondent. His "USSR" is on our shelves. He is a native of England, but joined the staff of the New York Times before the first World War, and during World War II has been read by the entire English speaking world.

Gwethalyn Graham is working on both stage play and a magazine serial. She expects to go to Hollywood this summer for the movie production of her "Earth and High Heaven."

After taking an intensive course in Spanish, Kathleen Winsor, author of "Forever Amber," and her husband, Robert John Herwig, ex-Marine and winner of the Navy Cross and the Silver Star, have gone to South America to

remain until June.

Eugene O'Neill's unpublished play, "The Iceman Cometh," still remains locked in his publisher's safe, but is to be published in book form in the fall.

In non-fiction, the outstanding book is "The Autobiography of William Allen White." It is a Book-of-the-Months selection for April.

Franz Werfel, whose "The Forty Days of Musa Dagh" and later "The Song of Bernadette" were best sellers, was revising the final draft of "Star of the Unborn" at the time of his death last August. The book is being published by Viking, who regard it as one of their most important publications. It is a story of the world a hundred thousand years from now.

Gladys Schmit's "David the King" was both a Literary Guild and Heligius Book Club selection for March.

"Papa Went to Congress" by Kenneth Horan is attracting as much attention as "Papa Was a Preacher" did a few months ago.

Several Texas authors are being discussed just now. Hart Stilwell of Brownsville has "Hunting and Fishing in Texas"; Garland Roark of Houston has "Wake of the Red Witch" which has become a Literary Guild selection; Monte Barret's last is "Tempered Blade", the story of Bowie, the Texas hero; Donald Joseph, a one time teacher in Texas U. has "Straw in the South Wind."

PRICE CONTROL NEWS

By Peppy Blocker

EDITORS NOTE—Due to lack of space the Price Control News was crowded out last week.

Housewives can deliver a knock-out blow to black market meat operators, who continue to cheat their customers, by using a powerful and highly effective weapon—so small that it will fit into any purse or pocket—convenient for instant use when demands for above-ceiling prices are made by unscrupulous meat merchants.

This never-failing weapon, Miss Ruth Donnell, local Price Central Clerk, said is protection in the form of a new miniature price ceiling list which she urged every woman to get from her local Board and carry with her at all

times. "In this way she can be sure of not being charged over the prevailing ceiling prices for meat," she said.

"Shoppers should check meat prices just as carefully as they check the scales while their meat is being weighed. If they pay more than the lawful price for meat it is the same as paying for less meat than they receive," Miss Donnell pointed out. "No one hesitates to call attention to short weights nor should any one allow himself to be cheated by other means. The majority of merchants are honest and many of them sell under ceiling prices. No merchant can cheat the customer by selling at over-ceiling prices without his cooperation and approval," she

said. She appealed to housewives to visit their Price Control Board and ask for a copy of the new miniature ceiling price list for meats which can be easily folded and carried in even a small purse.

"Then by refusing to pay more than the listed price and be refusing to be cheated, she will not only save money but she will be doing her part to smash a business which is victimizing housewives of hundreds of thousands of dollars annually."

19th Annual Panhandle Plains Dairy Show To Be Held At Plainview April 13th Through 19th

Prize money for this year's show totals \$3,035, the largest amount in the history of the exposition. A tent has been rented to take care of the overflow of entries. Last year the approximately 500 animals on display could not all be placed in the barns.

Sunday's program calls for completion of the production contest. Future Farmers of America and 4-H Club boys will start judging cattle at 8:30 Monday morning to open that day's program. N. C. Fine, Lubbock, is superintendent of the FFA and 4-H judging contest which is being held this year

is scheduled Tuesday night at 8 o'clock.

Wednesday is designated as official Jersey day and judging of cows and groups in that department will continue throughout the morning. The Jersey auction is scheduled at 1:30 that afternoon.

At 8 o'clock Wednesday night the bathing beauty revue will be held on the stage of the Granada theater.

Milking Shorthorns will be judged Thursday starting at 8 a.m. with Carl Tyner, Tipton, Indiana, scoring the entries.

Last of the Milking Shorthorns will be judged Friday morning. The auction in the afternoon will draw the curtain on what show officials predict will be the biggest and best attended Panhandle Plains Dairy Show ever held.

AIR NEWS

By J. Fred Smith, Jr.

Adrian Myers, one of the local students, soloed this week. Adrian is just sixteen but he did a very good job of flying. L. L. Wallace is working on maneuvers for his private flight test. Dr. Cox of Hedley soloed the Fairchild PT.19, this week. Dr. Welsh of Clarendon purchased a Stearman PT.17, from Bob Boston this week.

Local flyers with the help of Claude flyers, flew formation over Clarendon, Army Day. From

all reports it looked pretty good, very few of the pilots had flown formation before.

Donley County Aviation Club, held their second meeting in the basement of the Antro Hotel last Thursday night. Several new members were present at this meeting, a very good meal was served, and talks were made by several of the members.

A contract was signed this week between the War Department and J. Fred Smith, Jr. authorizing army planes to use the local field for transit aircraft.

Don't waste your time and money; if a student pays a non-rated private or commercial pilot for dual time he will find this money lost, as he will again have to pay a rated instructor for 10 hours certified time before he can apply for his private license.

Governor Stevenson has endorsed a comprehensive aviation

promotion program, which includes these principal objectives: Air-markers for each community in Texas to serve as signs to guide pilots from the air;

Air-parks and small airports for personal and business flying in hundreds of Texas communities; and

The promotion of personal and business flying throughout the state.

Fore-sighted civic and community planning groups cannot afford to delay longer in making an inventory of their present status in aviation," said the governor, "because what they start today will determine what they will accomplish in the years to come in this fast developing field."

"Air-markers, air-parks, and small airports are just as important in developing aviation for Texas as road-signs, paved highways, and filling stations were in the early days of the automobile.

School System Complimented

Following a visit some days ago by E. H. Boulter, Deputy State School Superintendent of District No. 1, H. T. Burton received this week a report of Mr. Boulter's findings during his visit here concerning our local school system. The report received here in part is as follows:

In order that the schools may be properly certified it is essential that minimum requirements be met. To that end the supervisor who recently visited your school makes the following report: Credits added: TH $\frac{1}{2}$. Credits dropped: None. Philosophy: This school has a philosophy which seems to hold to the idea that the school exists for the boys and girls and that one of the primary objectives is to teach citizenship. This philosophy is on file in the superintendent's office. And, too, added emphasis is given to dependability on the part of the pupils.

Commendations: 1. Exhibits are filed in due order. 2. The curriculum is very liberal and it seems that the proper emphasis is being given to the fields of study needed for this particular locality. 3. Free textbooks properly cared for and covered. 4. One of the things that

impresses the supervisor is the freedom and dependability that the student body enjoys throughout the high school. This is a very definite characteristic of Clarendon and deserves commendation on the part of the administration. 5. The high school library is adequate and the latest publications and titles have been added. 6. A splendid spirit of cooperation is found to exist between teaching staff, pupils, and patrons. 7. Thanks are extended to Superintendent Burton and High School Principal Drennan for the nice cooperation of the year.

Recommendations: 1. Continued thought and study should be given to the handbook for the evaluation of elementary schools, especially does this apply to elementary teaching staff. 2. Continued emphasis should be given to Safety Education. 3. A very definite need is observed for a gymnasium. This building would make it possible for the school to operate a physical education program broad enough to care for the student body as a whole.

Signed: E. H. Boulter
Deputy State Supt. of Dist. No. 1.

Mr. and Mrs. Frank Hommel and son Chauncey were in McLean Monday.

Rev. E. D. Landreth is holding a meeting at Borger this week.

County Agent Stresses More Home Gardens

The United States Department of Agriculture is requesting that the year of 1946 be one of the largest in recent years for home gardens says county agent H. M. Breedlove. Mr. Breedlove says that he has been advised by the department to ask people of the county to make preparations to plant a garden for every family in the county where it is possible.

Food that is being shipped over seas is going to make the food situation more complicated for the house wife and there will definitely be the same shortage this year and possibly worse than the past year. This can be remedied a great deal for the individual family by a good home garden, and Breedlove says that this is a "must" year for gardens throughout the country. Contests will be put on among 4-H club members in the county for the best gardens in 1946 and gold medals will be given to those having the best gardens. This is something we cannot over look and if any information is needed be sure to call by the county agent's office for any help that you might need to make that garden a success.
