Firethorne Beautification Project Launches New Drive This Week

Mrs. J. D. Swift and Mrs. Pete Kunz, Co-chairmen of the Firethorne Beautification Project, this week enlisted the aid of local school children in urging the planting of Firethornes this spring. The school children are distributing letters which read, in part:

"Dear Citizen:

The City and rural schools, in cooperation with the Texas Roadside Council, are sponsoring a Living Memorial to the men and women of the armed forces of World War II.

This is a peoples' program, and the plan gives every citizen an opportunity of participating that should be considered a privilege—that of planting one or more shrubs in their front yards as a gesture of respect and appreciation. One shrub of the same variety in each yard will, over a distance, display the motif and produce an effective memorial.

From a poll taken recently in this county, the Pyraeantha (commonly called the Firethorne), a beautiful shrub with orange berries, was the planting motif to be used in Donley County. May we count on your support in this program?"

Mrs. Swift recently contacted Mr. Bruce, of the Bruce Nurseries at Alanreed, and made arrangements to buy these shrubs, eighteen to twenty-four inches high and set in gallon cans, for a special price of \$1.35 in lots of one dozen or more. Mrs. Swift suggests that home-owners get together and make up group orders so that they may take advantage of this special price.

Anyone who desires to plant Firethornes, and who cannot get up an order of one dozen or more, is urged to call either Mrs. Swift or Mrs. Kunz.

The eighteen to twenty-four inch size is particularly recommended for this area; this shrub has been found difficult to plant in large field-grown sizes. March has been recommended as the best month for planting.

Specialist To Conduct Demonstration On Fruit Tree Pruning

J. F. Rosborough, horticulturist with the A&M Extension Service, will be in Donley County on the afternoon of the 14th of February to conduct a demonstration on fruit tree pruning.

Mr. Breedlove has arranged for this specialist to be here because of the many farmers who are interested in pruning their orchards this year.

The demonstration will be held on the Leroy Luttrell farm by the Midway school house. If you are interested in knowing how to prune your orchard for more and better fruit, you are invited to attend this demonstration.

Stock Show Finance Committee To Work Premium List This Week

J. R. Gillham, chairman of the stock show and fair finance committee, announced that the committee would be busy this week and next securing the money for the premium list and expenses for the 1947 Donley County Fat Stock Show, the 1947 Donley County Dairy Show, and the 1947 Donley County Fall Fair. The committee is composed of Nolie Simmons, Forrest Sawyer, Lee Bell, R. E. Drennan, and O. D. Lowry.

Merchants and individuals will be contacted only the one time for the entire three shows, and the money raised will be divided to take care of the expenses of the entire agricultural program. Approximately \$500 will be necessary to care for the three events.

OREGON COUPLE AGAIN VISITS CLARENDON

When advised that this is the "toughest" part of the season, and that it is the Panhandle at its worst, the visitors stated that they liked Texas and had made their plans to spend some three months in the biggest state.

Mr. and Mrs. J. Lewis Renton reside in Portland, Oregon. He is a native of Hawaii where he owns extensive sugar and pineapple plantations. He also has a number of gold mines in British Columbia.

Barely past middle life, they have already "let down", as they term it, and just visit around and add to their collections of semi-precious gem stone collection which is said to exceed that of any other in the Nation, either in a museum or individually. They never boast, each of them being modest in the extreme.

They visited here in April of last year and purchased a large number of choice specimens from J. C. Estlack. This trip they took away some of the choicest material brought from Mexico by the postmaster last July.

They like Texas, her people and her wondrous scenery and size. Mr. Renton is due to lecture at the Arizona gathering at the Petrified Forest. They will visit Flagstaff and Phoenix with friends and then return to Texas where they will tour the entire state, they stated.

Sugar Allowance Boosted to 10 lbs. On April 1st

Announcing that a bigger sugar allowance this year is "fairly certain," the Office of Price Administration Wednesday night ordered a new ration stamp—good for ten pounds—validated on April 1, one month ahead of schedule.

Early validation of the new stamp means that spare stamp 53, which had been good for five pounds on Jan. 1, will serve for only three months instead of four.

The number of the new stamp will not be announced until just before it becomes valid if OPA follows its customary practice.

REPORT INCOMPLETE ON MARCH OF DIMES

Inasmuch as some contributions were still coming in yesterday to the local March of Dimes committee, it was impossible to make a complete report, but it was thought that the drive in Donley County would net over four hundred dollars.

A complete financial report will be available for next week's paper.

FORMER NAVY MEN GET BACK ON JOB AGAIN

Two local young men, Donald "Ed" Beard and Gilbert "Alkie" Ray showed off to the navy again Monday night. They went to Amarillo and from there will be sent to Albuquerque and then to the Pacific coast.

Beard served fifteen months in World War II, and Ray put in two and a half years. Each go back into the service rated as seamen of the first class.

Mr. and Mrs. Charlie Johnson and son Loyd were called to Elk City, Okla. last Sunday due to the illness of her brother Budie Martin. At the time they returned home he was much improved.

MRS. MAULDIN REOPENS COFFEE SHOP

Mrs. Mauldin announced this week that she had re-opened the Clarendon Coffee Shop located next door to Holland Bros., and wishes to invite her friends to visit her there. This is the third time that Mrs. Mauldin has operated this particular business, and has always enjoyed a nice patronage while under her management.

LARGE NUMBER PAY POLL TAX

Officials at the Donley County Tax office reported a very good poll tax business before the closing date of January 31st. This being an off year for elections, it was expected that a much smaller amount of receipts would be issued but upon final tabulations it was found that 1,484 had paid for this year and eleven exemptions were issued. 1946 was a general election year and only 1,739 paid their poll tax at that time.

Irrigation Test Well Plans Progressing

The committee in charge of the irrigation test well program has completed most of the details of the work necessary for the first irrigation test well in Donley County, according to J. R. Gillham, local chamber of commerce secretary. Ray Noblitt, chairman of the committee, stated that enough money had already been raised to assure the completion of the test well program, and that the detailed plans on the program would be released at an early date.

Donley County has long been known as one of the most diversified in the entire region and if the irrigation tests are successful a new area of agriculture and industry should be opened for this section. Hereford, Lockney, Tulia, Plainview, and many other sections have been able to capitalize upon their irrigation facilities, and Donley County with its excellent growing season could profit as much or more from irrigation than any of the other sections.

Farmers To Meet At Chamberlain

A meeting, sponsored by the Texas Farmers Union, will be held at the Chamberlain School House on Friday night, Feb. 7th. Bill Stubbs of Alanreed, state Farmers Union director, will be the speaker for the evening. All persons interested in farming problems are invited to hear Mr. Stubbs.

The meeting will get underway with an entertainment program made up of local talent. Coffee and doughnuts will be served at the conclusion of the program.

Coyote Slaughter To Continue

During 1946, bounties were paid by the county on 1,712 coyote scalps. During January of this year, various parties have pulled down \$286 for the same reason. Not only are these men doing the entire section a big favor, but they are finding the scalp bounty, plus the skin sale price, most profitable.

Frank Hommel's tenants turned in 22 scalps for January. Ross Collie bagged 18 more and W. O. Simmons is among the large number to bring in nine or less. Geo. Heckman makes a practice of bringing in a batch each month. He had 13 to his credit for January.

Dick Walker, old-time resident of Clarendon and employee of W. T. Hayter, was down from Pampa Monday.

Local School System Retains Membership In Southern Ass'n.

Again the Clarendon Public school system is regarded among the top schools of the state. Supt. H. T. Burton received a letter this week from the State Department of Education stating that the State Executive Committee and the Southern Association Reviewing Committee passed favorably the renewal of membership in the Southern Association.

This is quite a benefit to the students who will graduate from the local schools as they can enter any college or university in the South without taking entrance examinations.

There are 1,249 accredited schools in Texas and Clarendon happens to be one of 275 of this number who is a member of the above mentioned organization.

Drunken Highway Hazzard Lifted

One hears much complaining against drunken driving these days. Most everyone is opposed to it. The operator of the tourist courts on east First street, Buster Emmons is not only against it, but also proved himself a good citizen and showed his interest in highway safety measures late Tuesday when he turned in a drunk driver.

It was about six o'clock Tuesday afternoon as Constable W. Tom Roberts was returning from Hedley with his family and grandchildren. The officer spied a car weaving on the highway. He gave chase but was no match for the escapee with his folks in the car with him.

The driver of the "wobbly" vehicle, accompanied by another party, took shelter at the Emmons courts when he reached Clarendon. Mr. Emmons immediately called the office of the sheriff and Sheriff Guy Wright and deputy Truett Behrens went out to the courts and picked up one Eugene LaBoon of Chickasha, Okla.

The alleged drunk entered a plea of guilty in county court and paid a fine of one hundred dollars and costs of nineteen dollars and forty cents. He did not start on west until thoroughly sober, the sheriff stated.

Donley Farm Bureau Met At Lelia Lake Tuesday Night

The Donley County Farm Bureau met at the Lelia Lake school house Tuesday night at 7:30 with approximately 65 members and guests in attendance.

Mr. and Mrs. Forrest Dozier of Canyon were guest speakers for the evening. Mr. Dozier outlined the purposes of the Farm Bureau and how they could be used to an advantage in Donley County. Mrs. Dozier gave an interesting account of their recent trip to San Francisco, Calif., where they attended the National Farm Bureau Convention.

After an enjoyable hour of musical entertainment, coffee and doughnuts were served to those present.

It was understood that he passed away two hours before his brother, William (Blackie) Osbourn, who died from a heart attack here last Tuesday week ago. His brothers were unable to locate him when word was received about Blackie's death and they came on to Clarendon and then later learned of their other brother's death. No other particulars could be learned here concerning his death and funeral arrangements.

Health Department Reports Q-Fever Cases In Texas

Dr. Keith S. Lowell, County Health Officer, has received word from the State Health Department at Austin that a number of cases of Q-Fever have developed over the state.

These cases come on like flu and may develop into a real pneumonia. The patient is much more ill than the chest signs would indicate. The disease does not respond to ordinary treatment, and seems to run its course in spite of all that is done.

The patient complains of headache, backache, cough, a severe cold, and may run high fever, loss of appetite, and sometimes vomiting.

Similar outbreaks have occurred in years past. The disease has been called Q-fever, Balkan Grippe, pneumonitis, and dust pneumonia. Blood specimens are being sent to Austin on all suspicious cases. Due to the severity of the condition, all cases should be checked thoroughly.

High Newsprint Prices Forecast

WASHINGTON, Jan. 31—Senator Murray of Montana, predicted today "sky-high" prices for newsprint, with small users being denied a fair share of the short supply unless Congress acts to "break the bottlenecks."

In a statement accompanying the report, Murray said "there is no such thing as an open newsprint market in which small papers may bid for and buy the paper they need."

He said a Federal Trade Commission study of conditions in 1939, made public as part of the committee's report, "shows that the prices of newsprint for part or all of the United States are set at private meetings in Canada, outside the jurisdiction of the anti-trust division (of the Justice Department) or the Federal Trade Commission."

COTTON GINNING REPORTS

According to W. M. Patman, Special Agent, the Census report shows that there were 6,651 bales of cotton, counting round as half bales, ginned in Donley County, from the crop of 1946 prior to January 16, 1947 as compared with 8,344 bales ginned to January 16, 1946.

Mrs. W. H. Patrick, who has been in an Amarillo hospital for the past two weeks, returned home last Wednesday much improved. Her many friends will be happy to know she is home again.

FT. SUMNER RANCHERS VISIT IN CLARENDON

Meeting for the first time in thirty years Tuesday, was Mr. and Mrs. Fred King of Ft. Sumner, N. Mex. and who stopped over to visit Postmaster J. C. Estlack.

Mrs. King is the former Eunice Carson after whom Eunice, N. Mex. is named. She was a pupil of J. C. Estlack during the three years that he taught there in 1911 to 1914. Her father, who died in 1943, was a cousin of the late Matt Bennett who was a prominent business man of Clarendon many years ago.

Mrs. E. M. Ozier was in Amarillo Monday.

Boxing fans will not be disappointed this Friday night when they make their plans to attend the Clarendon-Memphis boxing event, for the Memphis group say they will definitely be here and be ready to put on a good show with the local boxers. There was a sell-out house for the boxing event last Friday with Dalhart but something happened up that way to cause the boys to call the entire deal off, so local promoters don't have too much love for them any more as they had gone to a lot of trouble to have everything in readiness for the event.

The boxing this Friday night will be held at the Pastime Theatre. The doors will open at 7 p. m. and the bouts will start promptly at 8 p. m. The boxing ring which has been erected next to the stage in the show building was built to where everyone in the house would have clear vision of the boxers.

This is expected to be a very good boxing match, for everyone knows the rivalry that exists between the two towns and both have some mighty good boxers that can climb into the ring and make it nip and tuck.

Tickets are now on sale at the Norwood Pharmacy and the reserved seats are selling fast, so if you want to be sure of a seat you had better hurry and get yours now as there is no doubt about a sell-out for the event.

Officials in charge of the event have asked us to call to the attention of the fans that it would be appreciated by the boys who are doing the fighting if you would hold your smoking down or refrain from doing such, for when the smoke gets very thick it makes it very hard for the boys to hold their wind and put up a good scrap.

In addition to the event this Friday night, there will be another invitation meet here next Tuesday night, February 11th with Shamrock. This is expected to be a very good meet also, so you can be looking ahead and make your plans now.

BERT BREWER RITES ARE HELD SUNDAY

Former district manager of the West Texas Utilities interests of this section, Mr. Bert Brewer was well known for his kindly manners, his intense interests in every community serviced by the interests he represented.

He had been a resident of the Panhandle since 1930, having been manager of the Dalhart unit before moving to Childress to become district manager.

He was 68 years of age and diabetes is said to have been the cause of his untimely death.

He is survived by his widow, two daughters and a son.

LIBRARY NOTES

By Mrs. C. A. Burton

Most welcome was the gift of three books during the past week—"Favilion of Women" by Pearl Buck, the gift of Mrs. H. D. Toland, and "Canal Town" by Samuel Hopkins Adams, and "The Red Cock Crows" by Frances Gaither—both given by Mrs. C. B. Morris.

When we think of China, we think of Pearl Buck. She has in-

terpreted China to us as no one else ever has. We are told that for many years while Pearl Buck was doing much other writing she had been working on this, her latest novel. She has given it more time and more thought than any other. Most of her Chinese stories have been of the peasantry, the common people. This is a story of China's wealthier, more cultured people, her lauded gaither—a very timely story now.

"Canal Town" is a story of the Erie Canal—which was known as the Big Ditch. Samuel Hopkins

instrumental in its digging. This story is described as "a romantic novel about a young doctor when America was in the making"—a young doctor who combatted ignorance and superstition among a frontier people. It contains a wealth of fascinating medical lore and authentic historical events. Mr. Adams was the first American writer to popularize public-health topics—exploring patent medicines and contributing to the passage of the Pure Food and Drug Act. He has written extensively, both short stories and novels.

"The Red Cock Crows" by Frances Gaither is a race-problem story, written by a southern woman who has faced the problem in its stark realism.

A majority vote in the November elections increased the St. Louis City library tax from 4c to 6c on the \$100—which increase will give \$240,000 additional for the St. Louis libraries.

Ben Hecht and Quentin Reynolds are working on an adaptation of "Miracle of the Bells" at Hecht's home at Oceanide, Calif. John Steinbeck's new book, "The Wayward Press" has an assured sale of 750,000 copies.

Cornelia Otis Skinner is writing a book about her father, her mother and herself.

Mary Ellen Chase has taken her Pulitzer prize winning play to England where she will arrange for a London production. The play is called "Harvey."

Longfellow's old home at Cambridge, Mass., may become a rooming house. Anna Longfellow Thorp, owner of the 187-year-old house which once served as headquarters for George Washington, desires to help relieve the housing shortage by taking some Harvard students as roomers.

The French government has conferred the Legion of Honor on Ben Lucien Burman, author of "Miracle on the Congo," for war time services to the nation.

Mr. and Mrs. W. J. Lewis of Dallas are visiting their son, Mr. and Mrs. W. J. Lewis, Jr.

SKYLINE TIDINGS

By Ethel R. Harvey

The Ex-GI's who have enrolled in the private flight course are flying as the weather will permit. A regular schedule has not been followed because of the uncertain winds, and because the class has not yet been completed.

The sandstorm last week did not do any damage at the airport. All the planes were retied to extra stakes Wednesday morning before the full force of the storm struck.

Dr. Keith Lowell flew his Cessna to Amarillo last Thursday.

L. L. Wallace flew J. L. Naylor from Conway to Carlsbad, N. M. last Saturday to be with his daughter who was ill. They flew an airline course from Conway to Carlsbad in 3 hours and 17 minutes, with a headwind of 14 to 16 miles per hour. The flight back Sunday afternoon was made in 2 hours and 15 minutes, with a 30 mile tailwind. The wind was rather gusty and they climbed to an altitude of 3500 feet to get above the wind, party of the way back. On the entire flight, they averaged about 20 miles to the gallon of gasoline.

Local flyers considered the wind too strong for air races Sunday afternoon, and for that reason did not attend the races at the Amarillo Municipal Airport. The races for light planes were cancelled due to the strong wind.

DO YOU BUDGET INSURANCE?

Your earning power should determine the amount of your life insurance. A definite portion of income should go into insurance each year as long as you earn. That is why an occasional check-up is advisable. One-tenth of income will give reasonable protection for loved ones and old age. Less is usually inadequate. Many do much more.

My, how she's grown!

This is the snow-suit that fitted Sally so well only two years ago. It was a little snug last winter, but still wearable. Now it's outgrown. Sally needs a new outfit—fast!

A lot of businesses are in the same spot as Sally. Their facilities are outgrown too. During the tight war years, they nursed old equipment along, patiently waiting for new materials and machines. And all the time they, too, kept on growing. But a lot of things they've been needing still aren't available.

That's why so many businesses—our own included—are like Sally, straining at the seams, waiting for the new materials we need.

This is a friendly apology to those folks who've asked to be added to the service lines. Though we haven't gotten around to you, we haven't forgotten you. We appreciate your patience, and want you to know that—as soon as the needed materials become available—we'll be happy to bring cheap, dependable electric service on to you, too.

THE TEMPLE OF TRUTH
By the Apostle

FASHIONS.
Women's styles change from year to year, but their designs never do.

TWO MEANINGS.
A sign in a real seate window reads: "Get a lot while you are young."

DISCOVERY.
Growing old is merely a matter of a bad habit which a busy man does not have time to form.

SLOPPING THE FOLKS.
When the soybean producers of the Mississippi valley could

not market their beans to the auto and other plastic manufacturers, a yelp went up. Some fields were owned by the plastic people direct. What happened? The beans went to the bad. Then what happened? They were 'dehydrated' and ground into soybean flour. What next? That soybean flour was mixed with the wheat flour and the American people had to eat it. There never was a shortage of wheat. It is really patriotic for the folks to eat what ordinarily would have been fed to hogs, and they did it so much quicker because there "is" far more patriots than hogs and the loss was made in a gain in a few months.

COMMUNISM AGAIN.
Some of the big boys in Washington have communed with each other and decided that 'distiller-

ies should be allowed to make syrup out of that part of the corn that will not make likker. In that case, the sugar shortage will continue so that the housewives will have to use the distillery corn syrup.

IGNORANCE.
An Arkansas hermit is said never to have seen an automobile. He doesn't know what is missing him!

INDUSTRY.
The fellow who is really going places these days may not have much ambition, but his wife is out of town.

EXPLANATION.
The word "chiffonier" comes from the French word meaning "rag gatherer." If you doubt this, just pull a drawer out of one of the blamed things.

MODERN MA.
"Pull on your pants," said the mother, "and git out and git to marryin' somebody. You may have to change up several times to keep up with the other gals!"

ATTORNEYIN' AROUND.
Your law library is not complete any more unless it contains a copy of the laws as written by John L. Lewis. (P.S. Sometimes I get \$5 for advice like this.)

 From her hometown, how happily she goes
 To her low rocking chair where each detail
 She studies with a zeal she seldom shows.

 Here are old friendships that make new ways sweet.

Lem's Dogs vs Thad's Chickens

Running a newspaper, you get to know a lot about human nature.

Thad Phipps was in the other day, all burned up. Wanted me to run an item on how Lem Martin's dog had raided his chickens again, and ought to be put away by law.

I told him: "Lem was in on Saturday. Said you shouldn't be allowed to keep those chickens so close to his house—and in a residential zone, at that."

Thad shuts up right pronto then. And that very evening I see him making his peace with Lem

at Andy Botkin's Garden Tavern—over a friendly glass of beer.

From where I sit, anyone can find something in his neighbor to complain about. (Some folks may even disagree with Thad's right to enjoy that glass of beer with Lem!)

But where would we be if everybody tried to have a law passed against everything they disagreed with? We wouldn't have many neighbors left!

Luther Gribble Appointed Presiding Judge of the 9th Administrative Judicial District, Last Week

The Governor's Office recently announced the appointment of Luther Gribble, Judge of the 100th Judicial District, as Presiding Judge of the 9th Administrative Judicial District which includes Donley County.

Judge Gribble resides at Wellington. The 100th Judicial District, in which he holds the elective office of District Judge, is comprised of Childress, Hall, Collingsworth and Donley Counties.

A native resident of Collingsworth County, he began the practice of law in Wellington as a member of the firm "Coke and Gribble." Prior public service includes a professorship and coaching position at Clarendon Junior College, and the offices of County Attorney and County Judge of Collingsworth County.

Judge Gribble is a graduate of Clarendon Junior College and Southwestern University at Georgetown. He received his law license in 1918, and has been active in the legal profession since that time.

Mrs. Maurine Lackey who is teaching school at Abernathy, spent the weekend with her mother, Mrs. Mullins.

Mr. and Mrs. Harry Blair took their son Harry Edward to Austin last Friday where he will enter the university. They also visited Mrs. Will Lott and family at Lytle, Texas. They returned home Monday.

Mr. and Mrs. Jim Woodburn of Claude visited Mr. and Mrs. W. E. Betts of Clovis, N. M. in the home of his sister, Mrs. C. A. Burton Friday.

Heard this on the radio: four things that cannot be bought with money, a Baby's Smile, Youth, when it's gone, Love of a Good Woman, and Entrance into Heaven. Made me think of the old saying, "The best things in life are free", free, so far as money is concerned.

Senator Hazlewood has introduced a bill in the Texas Senate, designed to protect us from the spread of the Foot and Mouth disease, and Rep. Worley is on the committee in Washington dealing with the problem. Texas should take the lead, because we are in "The mouth of the gun", so to speak, if it does get across the border.

I wish we could judge our fellowmen
By the good that's in each one
And could forgive them real often
For some little bad they'd done.

When we hear of some boy, that because he didn't have any parents to love him and teach him the right things, or didn't have the right kind of parents, he became bitter toward society and drifted into crime, and prosecution, and persecution, and all the cruel things that follow, it breaks our heart. But when we hear of some lad that starts "behind the eight ball" and comes from behind to carry the ball for humanity, we feel like shouting. And the boy that does this deserves the best there is for a reward.

You may have your name
In the halls of fame
Or, written in somebody's Who's Who.
But if with love it's written
Into the hearts of men
It will live long, long after you.

Conversation of my little niece, while observing a worm for the first time; "Not much to you Mr. Worm, no arms, no legs, and no face, not much of anything to you Mr. Worm, just a tail. Mama said when she heard about it "that the worm reminded her of some of the rumors, that are always going the rounds, not much of anything to them, just a Tale.

During the dust storms, I heard

of a young man, who lived out on his mothers farm, who became so discouraged that he was about to not plant his oat crop one spring, and he was talking to his mother in town over the party line. "Go ahead and plant them son", said the mother. "Do your part, and the Lord will do the rest." "Mamma, said the son, "He didn't do'er last year."

They were getting ready to go some place one evening, and the father was slow about getting ready. The mother kept shouting at him every little while to "Snap out of your trance, and let's go." Finally the very young daughter took a hand, and trying to imitate her mother shouted "Snap out of your pants, Daddy and let's go."

Mr. and Mrs. Carl Allmond, Mrs. L. E. Thompson, Mrs. Pete Kunz, Mrs. U. J. Boston, Mrs. Simmons Powell, Mrs. Allen Bryan, and Miss Anna Moores were in Amarillo for the musical program sponsored by the Phil Harmonic Orchestra.

Mrs. Ottis Rolls and children, of Phillips who visited her parents, Mr. and Mrs. Victor Smith, returned home Tuesday.

Heard this one on some friends: **Donley County Leader, \$2.50 year**
