DONLEY COUNTY PIONEER LADY PASSED AWAY

Rev. Herb Mings, of Burk Burnett, Methodist minister and a friend of the family many years, conducted the funeral service at the family home in Clarendon for Mrs. Zell Loveless Sims at 2:30 p. m. February 22, 1950. Mrs. Sims passed away in Memphis Monday.

Attending the casket were Carl Bennett, W. B. Armstrong, Jack Molesworth, H. M. Breedlove, James D. Gouley, Charlie Bell, Houston Bell, and Carroll Knorpp. Interment was in Citizens Cemetery with the Murphy-Spicer Funeral Home in charge of arrangements.

Honorary pallbearers included W. H. Patrick, James Trent, Wesley Knorpp, Chas. Bugbee, F. E. Chamberlain, Odos Caraway, W. J. Lewis, Dr. M. H. Rhoades, Dr. T. H. Ellis, Dr. B. L. Jenkins.

Mrs. Sims is survived by four daughters, Mrs. J. H. Morris and Mrs. L. B. Merrell of Memphis; Mrs. C. M. Whitmire of Houston, and Miss Nettie Sims of Clarendon. John T. Sims of Pampa is the only son in the family. Mrs. D. H. Davenport of Lakeview is a sister and the brothers are T. T. and M. D. Loveless of Tucson, Arizona.

Mrs. Sims was the wife of John T. Sims who died on June 17, 1937. She came as a bride from Hall county in 1895. Mr. Sims all during his active years engaged in the grain and ranch business, the firm of Bennett & Sims being prominently known over north-west Texas.

During all of her active years, Mrs. Sims took a prominent part in civic affairs. She was a charter member of the Methodist church here, the first candidate to be initiated into the Eastern Star. She promoted the organization of the local P-T-A. and was president for many years. She was a charter member of the Pathfinder club and active in founding the county library system that has meant so much to citizens all over the county.

When a farmer signs up in the Agricultural Conservation Program he indicates he is going to help build a better farm for himself and a better land for all the people. It is a recognition of his responsibility to help protect the Nations soil and water resources. It also signifies that he is cooperating with the other farmers in the program and that all of them are working with all the people of the country to keep soil from blowing and washing away and to keep it productive. And farmers who use the ACP to help build a stronger agriculture through conservation are the farmers who are helping to provide a better living for all the people of the country. So much depends on agriculture that the Nation cannot afford to allow farmers to waste the soil and water resources of the country. Many Nations require certain conservation practices by land owners, but in the United States, the Nation cooperates with its farmers by sharing the cost of needed soil and water saving practices. Our farmers of Donley County are now signing up to carry out certain approved conservation practices in 1950. Think about the contents of this article and maybe you will understand "what it means."

Mr. Doyce Graham and Mr. Leo Wallace started measuring wheat in Community D this week. This is in the Naylor and surrounding communities. And Mr. Harvey Shaw and his crew (H. C. Shaw, Jr. and Freddie Hutson) only lack four farms having Community E (the Lelia Lake neighborhood) completed. Mr. Edwin Bailey has started measuring in Community C.

FARM NEWS From the County PMA Committee

MEETING AT CHILDRESS: Mrs. Ritter, Administrative officer, Douglas Lowe, Senior Field officer, and Mrs. Frank Jackson, clerk, went to Childress the first of this week to attend a meeting, held by Mr. Wesley Stevens, State Engineer, on ACP performance. They discussed every practice i., the Texas handbook for 1950 and how each PMA office could serve the producers in their respective Counties to a better advantage. A "round table" discussion was also held on problems concerning cotton and wheat allotments in the different counties.

ONLY ONE MORE WEEK At the present time, our budget still stands empty. However, we hope to have some money after the first of March to help give the farmers assistance in carrying out conservation practices.

CLARENDON RESIDENT DIES IN DENVER HOSPITAL

Miss Nevt Ethel Tyree, a resident of this city for about a half century passed away Feb. 20, 1950 in a Denver hospital where she had been for treatment some two and a half years. The remains were returned here for interment in the family burial plot.

Rev. Paul Wright, former pastor of the local Presbyterian church, of which the deceased had long been a member, conducted the service at the local church at 2:30 p. m. Feb. 23, 1950.

Attending the casket were Joe Holland, Bill Patman, J. H. Howze, Lee Bell, Lee Holland, Neal Bogard, Roy Clappitt and Glenn Churchman.

Miss Tyree for many years was recognized as a prominent school teacher until creeping paralysis became such a handicap that she was forced to leave her chosen profession. The malady eventually caused her death, but not without the skill and sincere efforts of specialists in a hospital that specialized in her particular type of illness.

She is survived by her mother, Mrs. Mattie Tyree, and a sister, Mrs. Faye Scoggins, both of Glendale, Arizona. Other survivors are two brothers, Walter Tyree of Wichita, Kansas and Will Tyree of Prescott, Arizona, two nephews and five nieces, one of whom is Mrs. George Wayne Estlack of Clarendon.

The funeral service was under the direction of the Murphy-Spicer funeral home here.

WORLD DAY OF PRAYER PROGRAM FRIDAY AT PRESBYTERIAN CHURCH

The World Day of Prayer has particular significance for every church woman because on that day she feels in close fellowship with Christian women from the South Sea Islands to Alaska. The term Christian sisterhood becomes alive and warm; women sing with true conviction, "We are not divided, all one body we; One in faith and doctrine, one in charity."

On that day, Christian women know the power of united prayer, that intercessory prayer which "renews a right spirit within us." Half the power of the World Day of Prayer lies in the fact that Christian women in imagination can see their sisters in the Belgian Congo marching to tribal drum beats, bringing gifts of corn and sweet potatoes; Indian sisters carrying clay lamps with flickering lights; Chinese sisters giving sacrificial offerings of rice; and Eskimo Christians ending the day of prayer with offerings of furs and fish. These have been pictured to our American church women, so they can feel a bond of Christian fellowship. Our World Day of Prayer money is translated into human needs all around the wide world. Our praying should not be a petition to God to help us work out our plan but an offering of help to God to realize His plan for us. Part of that help is the giving of our substance to make God's plan work.

The theme for our program this year is "Faith for our Time," and is prepared by the Christian Papanese educator, Miss Michi Kawai. She was graduated from Bryn Mawr college in 1904 and on her return to Japan helped to found the Nat'l YWCA. Later she founded a Christian school for girls, Miss Kawai, wise Christian educator, remains the guiding, inspiring genius of this center for youth, which sparkles with hope for a Christian Japan. Such a woman of faith is our author.

All Clarendon women are invited and urged to take part in the World Day of Prayer program at the Presbyterian Church, Friday at 2 p. m.

—United Council of Church Women.

POLIO CHAPTER REPORTS \$1924 CONTRIBUTED

One thousand dollars will remain in Donley county's polio fund as a result of the 1950 March of Dimes.

Practically all contribution points had been checked and closed at noon today, and \$1924 had been contributed to the March of Dimes account.

Campaign expenses were very light this year and when these are deducted, one-half of the remaining funds will be deposited in the First National Bank to the account of the Donley county Chapter for Infantile paralysis, to be used in Donley county. The other fifty percent of the funds will be forwarded to national headquarters for use in polio research.

Later if the Chapter executives committee sees that part of the funds can be spared, a payment will be made on the five thousand dollar grant received from national headquarters last summer. The Donley county Chapter highly complimented the 1950 campaign director, Mr. Keith Bain under whose leadership Donley county raised more money than ever before to fight polio.

Special appreciation was voiced to Lee Bell and all employees of the Mulkey Theatre, to Clarence Pipes, Charlie Murphy and the Texas Swingsters orchestra, and to Mrs. Katherine Bugbee and her aids. Also to the Lions club, the Womens' Culture club, Aviation club, Boy Scouts, the Athletic Council. Also the Hedley and Lelia Lake schools, and the Elizabeth Stevens and Junior High and North Ward school of Clarendon.

To coach Benly Clinton and all the boys in the benefit ball game. And to the American Legion Auxiliary who helped with the wheel chair drive in front of the Post office. Also the Home Demonstration club and Jr. Home Demonstration club, I. O. O. F. lodge.

The Chapter also wishes to thank each merchant who kept a coin collector, and each individual who contributed time and money to the drive. Without these aids, the drive would have fallen far short.

HOUSE WARMING

To welcome Mrs. Marguerite C. Goodner to her new home, friends in Clarendon entertained her with a house warming, Sunday afternoon, February 19th, from 3 to 6 in the afternoon.

The dining room table was laid with silver and with white tapers in crystal candle holders. The centerpiece was made up of snapdragon and Johanna Hill roses. The dining room table and chairs a gift from friends, was a complete surprise to Mrs. Goodner. The corsage she wore for the occasion was sent by a former pupil, Pete Brumley.

Out of town guests were Mrs. E. D. Landreth, Mr. and Mrs. Paul V. Jones, Jr. and their son, George Warren, Mr. and Mrs. Fancher Upshaw, all from Amarillo.

About 125 guests called during the afternoon, and coffee was served by the following hostesses: Mrs. Rolle Brumley, Mrs. O. D. Lowry, Mrs. L. N. Cox, the Misses Carrie Davis, Mantie Graves, Ruth M. Richerson, Lloyd Richerson, Lucille Polk, Edgar Mae Moñgole.

Bill Greene Jr. has been returned home after several days in an Amarillo hospital. He is said to be showing a decided improvement in health.

Mr. and Mrs. J. R. Cowan and daughters of Borger spent several days here with relatives returning home Tuesday.

Mrs. Dorothy Williams of Amarillo spent the week end here with her parents, Mr. and Mrs. F. A. White. Mrs. Hazel McDonald returned to her home at Plainview Tuesday after spending several days with her mother, Mrs. J. D. Jeffries.

Mr. and Mrs. F. A. White visited in Borger Wednesday.

Panhandle Plains Historical Society Publishes Historical Book of Old West

Symbolic of the lusty traditions of the West, the legendary brands burned into the tough hides of hundreds of thousands of beef cattle are the inspiration for a recent limited edition published by the Panhandle Plains Historical Society at Canyon, Texas.

Bearing the title of the "Heraldry of The Range", the 35-page book consists of eight historical sketches by the Southwestern rancher and historian, J. Evetts Haley. Author Haley wrote the sketches from material he has gathered during the course of many years of research into the history, legends and lore of the famous old cattle ranches of the Southwest. The stories deal with the significance of such famous brands of XIT, the brand that built the State Capitol of Texas; the famous Bells of New Mexico; the 101 brand, famous throughout the plains of Oklahoma and Kansas; the historic JJ brand of Colorado fame and five others; many of which still survive on the hides of cattle as well as in the minds of men. The stories are attractively illustrated with the fine pen and ink sketches of artist Harold D. Bugbee of Clarendon, Texas, and with reproductions of brands and text material selected from early day brand registration records.

The material for this historical book was prepared for and originally published in "The Shamrock", a publication of The Shamrock Oil and Gas Corporation, and Shamrock newspaper advertisements. Shamrock gave the material to the Historical Society for publication of the book. The company has purchased a quantity of the books and is making a complimentary distribution of them to high schools and public libraries in Donley County and throughout New Mexico, Colorado, Texas, Kansas and Oklahoma.

A limited number of the books are available to the public at \$5.00 per copy from the Panhandle Plains Historical Society, Canyon, Texas.

Reference Manual On Veterinary Drugs To Be Published

AUSTIN—A reference manual on veterinary drugs will be published this year by Dr. Stanley G. Mittelstaedt of the University of Texas College of Pharmacy.

The guide is expected to facilitate service by pharmacists and veterinarians to the livestock industry. "We think it is the first compilation in its field," Pharmacy Dean H. M. Burlage said.

The publication will list many veterinary pharmaceuticals, cross indexed according to name, manufacturer, and therapeutic uses.

"There has been a general pharmaceutical and biological encyclopedia in use for some time. But, so far as I know, there never has been one written specifically for veterinary drugs," Dr. Mittelstaedt declared.

He will call the new reference book A Directory of Veterinary

Better Range Grasses Expected In Future

AUSTIN—Texas stockmen and farmers may expect better range grasses and crop plants in the future as a result of basic plant research now underway at the University of Texas.

Dr. Gordon Whaley, Plant Research Institute director, and 10 other staff members are working on three fundamental investigations.

"We are studying reproductive characteristics in 84 grass species to learn which ones can be crossed to provide better plants for Texas rangeland," Dr. Whaley said.

Other studies are being made of ragged corn, an "outcast" type characterized by ragged leaves, and ears with irregular, half-filled grain rows, and of corn grass.

Ragged corn, which has outstanding inheritance characteristics, is being checked by the researchers to learn more about normal corn inheritance factors which cannot be traced so easily, Dr. Whaley explained.

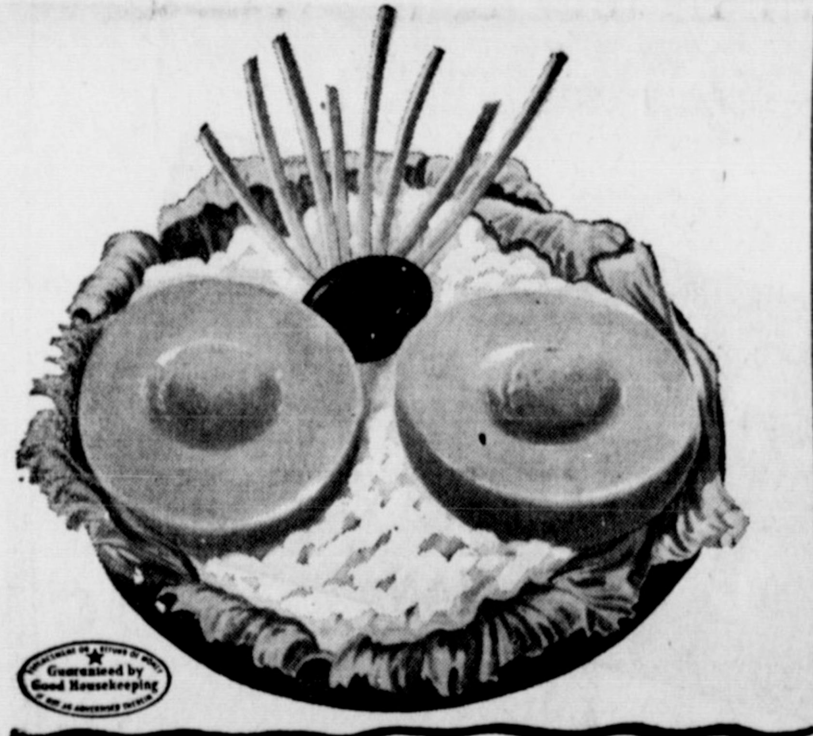

Corn grass is being studied because it may have some use as a fodder plant, he added.

The scientists are conducting the experiments in the University's new "Utopia" laboratory in which all factors affecting plant life—temperature, light, and nutrition—are rigidly controlled.

More than 800 official camps were conducted last year by Local Councils of the Boy Scouts of America.

Scouting includes in its membership boys of all religious faiths and national origins.

The Philmont Scout Camp near Cimarron, New Mexico, is the largest Boy Scout Camp in the world, in square miles.

Making Both Ends Meet

Furnishing good service at reasonable rates has always been the aim of this company. We have done this, while at the same time trying to keep operating expenses within the limits of income. However, the sharp increase in the cost of everything during recent years has hit us just as it has you. Now our operating costs have been increased again due to something beyond our control. Federal legisla- tion has sent our wage scale soaring.

We believe in paying good wages. In fact, the major increases in our operating cost during and since the war years have been the result of a series of wage increases. We will pay this new increase as the government de- creed, but it does create a serious new problem for us. We want to continue giving you good service. We can do this only through new service rates reasonably adjusted to our changed operating conditions. However, you can still depend upon telephone service as the best bargain in the community.

THE PEOPLE SPEAK — When Governor Allan Shivers invited the people of Texas to express their views on his program to improve the State Hospitals (termed by one survey group the worst in the nation), his mail picked up sharply. In this picture he is shown reading some of the letters, seeking ideas for the message he delivered to the Special Session of the Legislature. Virtually all the letters urged immediate action to improve these rundown institutions, the Governor reported.

Colored Couple Honored On 50th Anniversary

More than a hundred white and colored friends of Albert and Mary Boyd attended the elderly Negro couple's golden wedding anniversary here Sunday.

White friends of the couple helped to arrange the affair in Henderson Chapel of the colored Methodist church.

J. W. Jolly, a local pastor acted as master of ceremonies and called upon other pastors and friends to speak.

Albert Boyd is 72 and his wife 67, both being native Texans. They were married near Tyler in 1900 and became residents of Clarendon in 1924.

Albert is a plant specialist, and many garden is made possible through his plants and the suggestions as to cultivation that goes with each sale.

Mary Boyd has worked in many homes of the white folks of Clarendon, and these white ladies aided materially in making a grand success of the affair as a matter of appreciation. The white and colored citizens of Clarendon have always worked in unison to the advantage of both races.

Three of the Boyd's daughters, Alberta and Maurine Boyd and Ernestine Ingram live in Clarendon. Two other daughters, Willie Myrtle Hammon and Maxine Boyd live in California.

After the service, the two groups of guests lined up, one group at a time, to receive refreshments which the white friends had helped prepare.

Mrs. L. N. Snoddy was taken to the Groom hospital Friday where she had an eye removed. She is not improving as rapidly as her friends would like.

Mrs. Gene Watley of Portales, N. M. visited in the U. T. Devers home this week.

Albert Johnson visited his sister and husband, Mr. and Mrs. Ben Daniels at Ft. Worth the past week end.

Mr. and Mrs. L. R. Dean were Amarillo visitors the last of the week.

Judge and Mrs. W. J. Williams attended the dedication of the new Baptist church at Groom Sunday.

Mr. and Mrs. Wayne McElroy are the proud parents of a son, weight six pounds and eight ozs. born the 16th. He has been named Jimmy Rhodes McElroy.

Mr. and Mrs. Paul Allen and Mr. and Mrs. Morrison of North Canton, Ohio spent the week end with Mrs. Cal Merchant.

Mrs. Conrad Alexander and baby Marcia of Silverton and Geraldine Rumpy of Claude visited their parents Mr. and Mrs. M. C. Rumpy this week end.

Selden Bagby of Clarksville spent the week end here with his brother Geo. Bagby and friends.

Mr. and Mrs. Bill Todd were guests of Mr. and Mrs. Leonard Darnell in attending the Knife and Fork club in Borger Wednesday night.

Mr. and Mrs. Wayne J. Tiller of Muleshoe announce the arrival of twin boys, David and Daniel, on February 12th at Amhearst hospital. Mrs. Tiller will be remembered as the former Billie Nell Warren.

Mr. and Mrs. Rex J. Jones of Dallas will arrive tomorrow to spend the week end with her parents, Mr. and Mrs. J. F. Blocker. Mrs. Jones is expected to remain for a longer visit.

Mrs. Homer Mulkey and Mrs. J. F. Blocker were in Amarillo today to see the musical comedy "Oklahoma."

Mrs. A. G. Lane left Sunday to visit her daughter, Mr. and Mrs. Roy Gammon.

AMERICAN LEGION NEWS

By Commander Mike McCully
Clark-Brock Post 126,
The American Legion

EDITORS NOTE—This is the second of a series of articles by the local commander of The American Legion on his organization's views on that part of the Report of the Hoover Commission dealing with veteran affairs. In today's article, Commander Mike McCully discusses the proposed dismemberment of the Veterans Administration into five separate experimental agencies.

A HOUSE DIVIDED

The one-stop service agency—

the Veterans Administration—now handling veterans affairs without any run-around, would be split up into five separate government bureaus if the proposal of the Hoover Commission is adopted.

In the name of ECONOMY THE VA would be dismembered into the following separate federal agencies:

1—UNITED MEDICAL ADMINISTRATION—to handle veteran hospital and medical services.

2—DEPARTMENT OF THE INTERIOR—to handle hospital construction.

3—VETERANS' INSURANCE CORPORATION—to handle all insurance matters.

4—HOUSING AND HOME FINANCE AGENCY—to handle home loans only.

5—VETERANS ADMINISTRATION—to handle remaining veteran services.

This is the equivalent of telling General Motors "you may retain your administration functions but you will have to divorce yourself from the other operations of your corporation! Ford will take over your production! Engineering will go to Studebaker! Your distribution will be assumed by Chrysler! And your sales will be handled by Kaiser-Fraser!"

That is substantially what the Hoover Commission recommends so far as the Veterans Administration is concerned!

In such a situation, could you possibly expect more efficiency—more economy?

The American Legion, with the poignant memory of the chaos of the days of 1920-21, has to laugh!

IT'S A CLEAR CASE OF FIVE EXPERIMENTS VERSUS ONE SUCCESS!

Legion Not Consulted
The American Legion's greatest

monument today is the Veterans Administration. It was solely responsible for bringing into being a single agency handling veterans affairs exclusively. Over the years it has kept a watchful eye over all VA operations.

The American Legion has been working in the field of veteran rehabilitation for 31 years. It knows more about veteran affairs than any other organization.

YET THE AMERICAN LEGION WAS NOT EVEN CONSULTED BY THE TASK FORCE OF THE HOOVER COMMISSION WHICH RECOMMENDED THE DISMEMBERMENT OF THE VA! That recommendation was made by the task force members who had no previous experience in veteran affairs!

THE AMERICAN LEGION KNOWS FROM BITTER EXPERIENCE THAT THE CARVING UP OF THE VA CANNOT

POSSIBLY RESULT IN ECONOMY. IT CAN ONLY LEAD TO UNPRECEDENTED CONFUSION, DUPLICATION AND WASTE.

The VA maintains a case folder on each of 19,000,000 veterans.

Just imagine five separate government bureaus trying to operate on one such file! Think of the army of typists that would be necessary to make duplicate files! Picture the huge force of clerks that would be needed to file the duplicate records! Reflect on the acres of additional space that would be needed for new filing equipment!

A special corps of tracers might have to be set to locate individual veteran files!

Even a mere change of address by a veteran would precipitate him into endless complications of red tape.

For the veteran needing hospitalization—well, his case would be sad. He would again be on a greased bureaucratic shuttle. But this angle of needless hardship for the veteran requiring hospital care will be covered in next week's article.

When a star precedes the number on some U. S. currency, it indicates that the bill is a substitute, issued to replace one that was worn or defective.

SOCIAL SECURITY NEWS

Questions and Answers

Q—Does the 50% increase in Social Security taxes automatically increase the benefits?

A—No. The increase in these taxes effective January 1, 1950, has no bearing on the present benefit payments.

Q—Then why were the taxes increased?

A—The original Social Security Law provided for taxes on wages to be raised every three years until a maximum of 3% each for the employer and employee was reached, but this was deferred by Congress each year until 1950. The present tax increase is designed to help build a reserve sufficient to take care of the ever-growing number of persons over age 65 and the survivors of deceased workers.

Q—Haven't I read in the papers recently about some possible increase in the Social Security payments?

A—Yes. A bill which passed the House of Representatives last year and is now pending before the Senate proposes many changes. If and when Congress completes any action raising benefit rates according to the present wording of the bill, those now receiving monthly payments would receive increases automatically.

For further information you are invited to write the Social Security Administration, 324 New Post Office Building, Amarillo, or contact the representative when he is in Clarendon, Tuesday, February 28, at 9:15 a. m., in the Department of Public Welfare Office in the Court House.

How to Get That Homework Done

Miss Gilbert, our grammar school principal, spoke the other night at the regular Parent-Teachers' meeting, on getting children to do their homework when they want to listen to the radio.

"We mustn't give them a flat 'no'," Miss Gilbert said. "If we adults really believe in tolerance and moderation, we should instill these qualities in our children. Listening to the radio is fine—in moderation—as long as homework gets done, too."

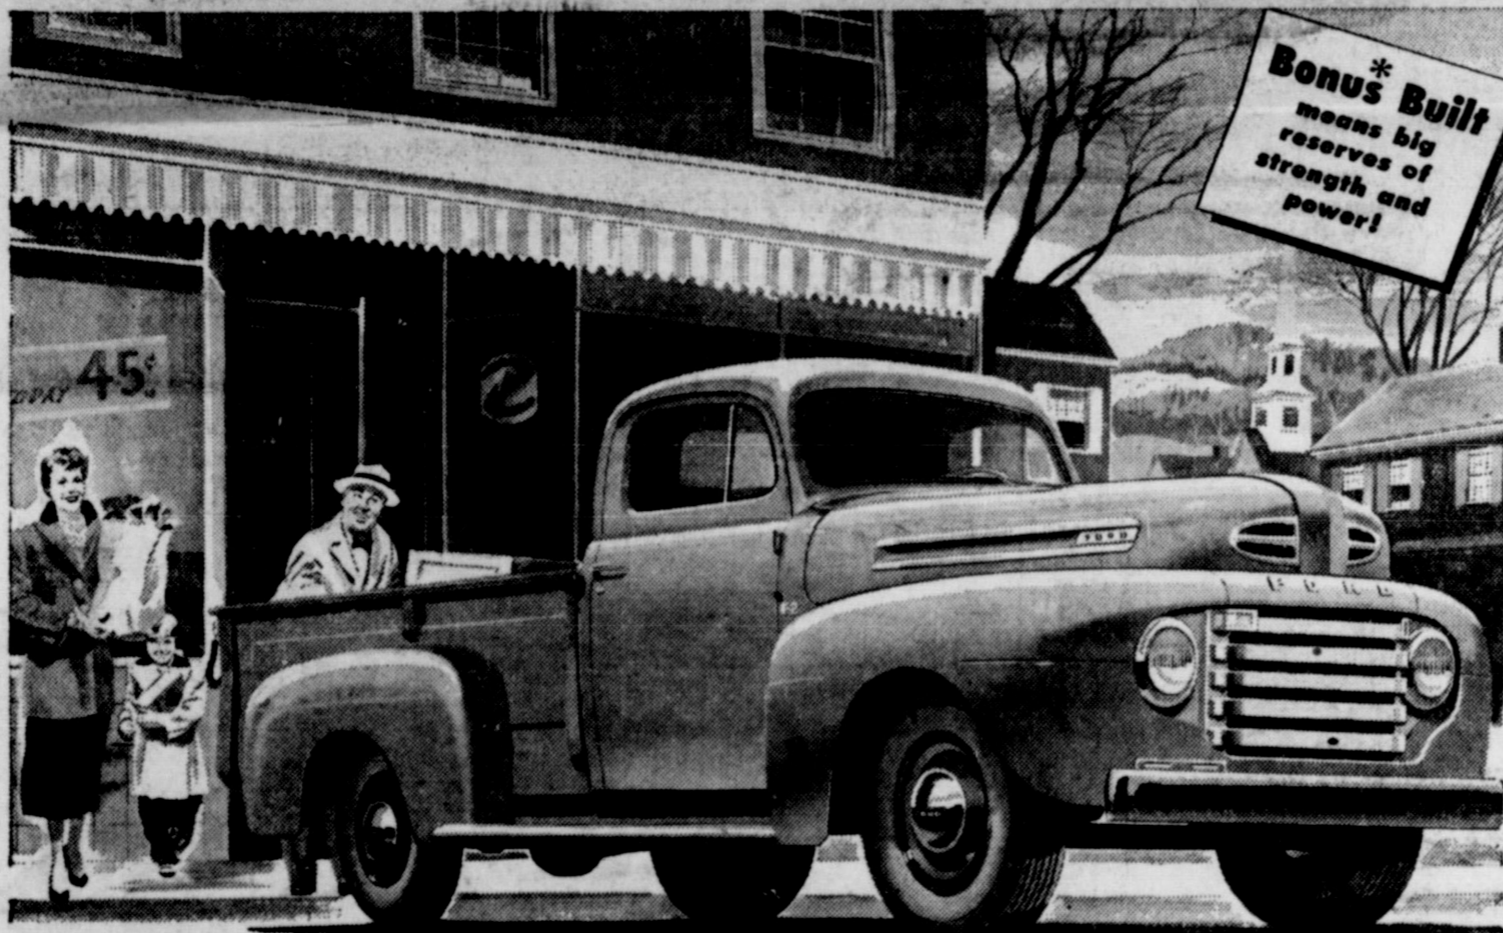

From where I sit, the lady was dead-right. This radio vs. home-

work problem is a wonderful way to see to it that our youngsters acquire the sensible moderate habits they'll need later on.

I've never believed in hard and fast rules—except where absolutely necessary. Let the other fellow do as he likes, as long as he's temperate and tolerant. Guess that's why I've never felt we should quarrel with the fellow who is partial to a glass of beer—the "Beverage of Moderation."

What one thing made these old-fashioned?

You're right if your answer is "cheap electricity." Part of the miracle of electric service today is its low cost.

You've helped make electricity inexpensive by using it for more and more jobs. So have the men and women who operate your business-managed electric company. They long ago foresaw the need for low-cost electric service.

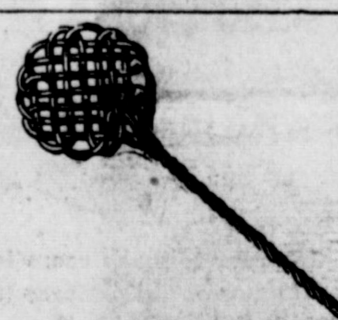

Their skills, and experience, and sound business methods have made it today's best buy. What else can you buy that costs so little—and does so much?

OLD PATHS
By
DOYLE WILLIAMS
Minister
Church

God elected Saul to be the first king over Israel. He told Samuel how he might know him; and having presented him to the people, "Samuel said to all the people, see ye him whom the Lord has chosen, that there is none like him among all the people? and all the people shouted and said, God save the king." I Sam 10:24. He not only elected him, but he gave him the spirit of prophecy, and when "a company of the priests met him, the spirit of God came upon him, and he prophesied among them." Nor was this all, but he sacredly anointed him to reign over his people. "Then Samuel took a vial of oil, and poured it upon his head, and kissed him, and said, is it not because the Lord hath anointed thee to be captain over his inheritance?" The Lord was with and prospered

him in battle, as long as he was faithful to him, but when he disobeyed him Samuel said: "Hath the Lord as great delight in burnt offerings and sacrifices, as in obeying the voice of the Lord? Behold, to obey is better than sacrifice, and to hearken than the fat of rams. For rebellion is as the sin of witchcraft, and stubbornness is as iniquity and idolatry. Because thou hath rejected the word of the Lord, he hath also rejected thee from being king." Will the reader observe the fact that he was rejected, not because God had eternally reprobated him, or unchangeably fore-ordained his rejection, but because he rejected the word of the Lord. From all the examples that have been given, we learn that when God elected any one to any position however important, it did not unconditionally secure for him an entrance into the climes of endless bliss, or even a continuance in the office to which he was elected, but he prospered him as long as he was faithful to His will, and failed not to punish and reject him when he rebelled against him.

If God has unchangeably fixed the destiny of every man before time began, then it follows that such destiny can not be changed by any act of the creature—nay,

not even by the creator: for that which is unchangeable can not be changed even by God himself. Therefore none of the eternally elected can fall if that doctrine obtains; and when ever it is clearly shown that a Christian may apostatize, and be lost, the whole theory of unconditional election and reprobation is exploded. We will therefore be somewhat careful to see how it is. And if there was not another sentence in the Bible touching the subject, Paul's most solemn warning to the Corinthians would be sufficient to settle the question for ever. He tells them of the falls of the Jews as examples to his brethren, and that their deplorable end was recorded as a solemn admonition to others, lest they, feeling secure, might fall. What could be more

conclusive Paul says concerning himself, "I keep under my body, and bring it into subjection: lest that by any means, when I have preached to others, I myself should be a castaway." I Cor 9:27. If Paul, the great apostle to the Gentiles, had to keep such constant watch-care over himself, lest, after all his labor, he should be lost, is it not possible that others may fall? God elected him to preach to the Gentiles, yet, he lived in fear of destroying that election through disobedience.

Scientists Have New Hope For Curing Bang's Disease

AUSTIN — Cows with Bang's disease in a dairy herd at the Gatesville Boys' Training School have thrown off the disease and given University of Texas scientists an important lead in seeking a reliable cure.

Bang's disease is a form of brucellosis, an incurable illness causing abortions and infecting milk in cattle, goats and hogs, and losing \$100 million for U. S. livestockmen every year. It attacks humans as well as animals.

"The infected cows at Gatesville may have had some antibiotic organisms developed in

their bodies which were strong enough to kill brucella organisms," Research Director V. T. Schuhardt said.

Antibiotics are products of organisms that attack other organisms. Scientists have used this effect recently in fighting disease. Penicillin is a well-known antibiotic.

By studying Gatesville cows' kidney excretions, University researchers have found some significant brucella antibiotics. Also research has revealed the possibility that foods eaten by the cattle influenced antibiotics that killed brucella organisms.

If sufficiently powerful antibiotic organisms can be found isolated, and produced in significant quantities, a brucellosis cure

may be found, Dr. Schuhardt declared.

50,000 Miles - No Wear!

1. Five Years' Driving in 70 Days! To test the wear-fighting ability of amazing new Conoco Super Motor Oil, six brand-new cars raced over blistering highways along the Mexican border . . . 14 hours a day for 10 weeks. After 50,000 miles of continuous driving, engines showed no wear of any consequence . . . in fact, an average of less than one one-thousandth of an inch on crankshafts and cylinders! Astounding proof: factory polishing marks were still visible on piston rings!

2. New-Car Mileage! For the last 5,000 miles of this gruelling test—equal to 5 years of normal mileage—gasoline mileage was as good as for the first 5,000 miles . . . actually there was an average difference for the fleet of only 4/100 of a mile per gallon! Proved: Conoco Super Motor Oil—with crankcase drains at proper intervals and regular care—can keep your new car new! New Conoco Super Motor Oil conclusively showed itself to be the great new modern wear-fighter!

3. New-Car Power! Quicker Starts! Yes—Conoco Super Motor Oil's extra protection keeps that factory flash . . . that showroom smoothness . . . year after year! Conoco Super Motor Oil's exclusive ability to OIL-PLATE metal surfaces makes your engine last longer, perform better, use less gasoline and oil! Conoco Super Motor Oil virtually stops wear before it starts . . . keeps your engine new and clean!

THE TEMPLE OF TRUTH

By the Apostle

Many a woman has married a man for life, but has seen very little of it.

The only kind of miser worth while is the fellow who wants to save every friend he can make.

Isn't it silly to try to write jokes about marriage when every married one knows it is no laughing matter.

"Single men pay all the compliments, and married men pay the bills", so the old saying goes.

Why do tourists travel hundreds of miles just to get a kodak picture of themselves standing by their car?

A tourist lost his way in the Ozarks up in north Arkansas and stopped to inquire where the road finally led to. The old man shoved in another batch of snuff, squinted his eyes toward the tourist and began: "Fust it peters out low, then turns to a bridal path, then a hog trail, and finally

a squirrel track that trails up a tree and ends in a knothole!"

There is just as much logic in worrying as advising your friends not to worry.

OUR WEAKLY POME.

One thing sure to annoy you, As almost nothing else does: Is to be described as a "has been" By someone who "never was."

Folks who are over tempermental, generally have more temper than mental.

Then there was the first hatched baby chick that looked over the incubator at unhatched eggs: "Well it looks as if I am to be an only child. Ma has blown a fuse!"

Health Notes

AUSTIN—If public health is to contribute to health and happiness in 1950, the people of the State need to gain a new knowledge of its significance and to convince their leaders of the importance of the support of the people, said Dr. Geo. W. Cox, State Health Officer.

The State Department of Health is the state agency responsible by law for the health of all the people in Texas. The working out of this responsibility, however, must be a joint affair shared by all the people.

The State Health Officer is the administrative and executive head of the Department. The field activities are organized in 18 different divisions. A division director with specific training and experience in one of the specialized fields of public health as well as in general public health measures directs the activities of each division.

The many problems faced today by every American community and by every school, farm, business and industry are: how to prevent and control illness, malnutrition, and epidemics; how to make the community in which

one lives as free as possible from hazards to health.

The world of disease is not divided; it is a common world. Tuberculosis in the United States is not different from tuberculosis in any other country. In terms of human needs, the world is truly one world. Public health and medicine have a tremendous part to play. They possess one of the important keys that unlock the door to future world progress.

No public health program anywhere can be completely successful, however, unless it has the confidence and support of the people who benefit by it. Full support cannot be expected unless the people understand the purposes and the objectives of the program. Your health department is interested in preventing disease and it never interferes with your relations with the doctor of your choice. Dr. Cox pledges the personnel of his department in keeping you well. When you are ill he advises you to consult your family physician.

BUTANE PROPANE Liquefied Petroleum GAS

The Law of Texas says EVERY PERSON or firm who installs piping for or connects equipment to Butane or Propane (liquefied petroleum) Gas systems MUST be specially licensed by the Gas Utilities Division of the State Railroad Commission to perform such work. Licenses are issued by the Gas Utilities Division only after thorough examination of the applicant.

NO others qualified

A Master Plumber's license DOES NOT PERMIT the holder to make Butane or Propane connections UNLESS he has the Special Gas Utilities Division license. The fact that a store SELLS butane and propane appliances DOES NOT PERMIT the storekeeper or anyone else to INSTALL such appliances UNLESS he has this SPECIAL LICENSE. Some plumbers, hardware, furniture and other dealers have passed the necessary examination and ARE licensed by the Gas Utilities Division to make butane and propane installations. But all are not so licensed. ANY butane or propane installation or connection made by any person lacking this SPECIFIC LICENSE is done IN VIOLATION OF THE LAW.

PROTECTION FOR YOU

This Law was passed for YOUR PROTECTION. Properly licensed butane and propane installers KNOW their business. They KNOW the characteristics of the gases with which they deal. For your own benefit and protection YOU should cooperate in the full and complete observance of this law.

Be Sure You're Sure ASK

Yes—be Sure You're SURE! Be SURE that the man who installs or connects ANY butane or propane (or any kind of "bottled gas") equipment for you holds this specific license from the Gas Utilities Division of the Texas State Railroad Commission. If you are not ABSOLUTELY SURE, ask the undersigned Association. There is a PROPERLY LICENSED butane and propane installer near you. We will gladly furnish his name and address.

Panhandle Pastors' And Laymen's Conference Closes 29th Annual Session

PLAINVIEW—The Panhandle Pastors' and Laymen's Conference, which met at Wayland College this week in its 29th annual session, elected W. A. Mays of Amarillo as its new chairman.

Other officers named at the closing session were A. T. Moseley of Odessa, vice-president; and J. L. Harden, business manager of Wayland College as secretary-treasurer. All three new officers are laymen.

President for 1950 is Dr. Robert L. Dobson, head of Wayland's Bible Department, who gave a series of lectures on Ephesians at the conference.

A series of sermon on the Decalogue was brought by Dr. W. Boyd Hunt, pastor of the First Baptist Church of Houston.

March 12 has been set as the date for churches of the Panhandle to have an opportunity to take up collections for Wayland College. This was proposed by the Rev. O. C. Curtis of Perryton to clean up a debt of \$30,000 still owed by the college.

Some 500 pastors and laymen attended the conference session at Wayland.

Mays is a trustee of Wayland.

THE SOFTEST CUSHION —

STEEL SPRINGS IN YOUR EASY CHAIR or bed determine their comfort, but the "temper" in that steel spring determines the QUALITY of buoyancy — or comfort. Warrtime springless furniture taught us the importance of these "invisible ingredients" to comfort.

To make those springs resilient and buoyant, it required plenty of "know how." From the mining of ore, through all the processes of steel making, one AMATEUR touch can spoil the quality of the product.

So it is with the quality of medical care. Your Doctor is highly interested in constant vigilance and improvement in the "know how" in Medical Schools, Hospitals, Clinics and private practice. Keep amateur, political hands off the "tempering processes"—or quality, of health education and care.

ANNUAL STAFF WORKS HARD ON YEARBOOK

All the staff for the annual are working hard to produce a worthwhile yearbook. Billy White and Bobby Hill are doing some good work in the advertising. Bobbie Seago, feature editor, has announced that she hasn't received enough pictures for the feature section. T. J. Carter, business manager, in a meeting held last week, urged the students to get their money in for the annuals, as the deadline is soon.

Shirley Aten, editor, says that the yearbook is going to be much better this year than last.

GIRLS LOSE LAST GAME OF SEASON

NOTICE TO ALL CITY TAX PAYERS

We have a chance to build a barn to keep all the City machinery in. In order to do this we want to sell the two lots Nos. 23 & 24 in Blk. 8, or for a better description the lots across from DuLaney's Farm Supply. We have a party that is willing to pay a good price for above mentioned property, in fact enough to build a 40' x 60' building on the property that we now own by the pump station across from the Coronado Courts. This building will adequately house all of our city materials and machinery. We the City Commission feel that this And we will have a nice business building erected where we now have a vacancy. Also we will be

getting some taxes off the lot that we do not now get.

We, the City Commission could sell as is but there is always a probability there might in future years be a kick back; so we are putting it up to you taxpayers and voters in an election that will be held on April 4th, 1950, at that time you will also elect your new city commissioners.

"And now for a nice warm bath"

A tank full of hot water is wonderful after a tiring day's work... yet it is only one of the many labor-saving, money-saving conveniences made possible by your natural gas service. Gas, at a cost of only a few cents a day, fuels appliances which do all the big household jobs, quickly, efficiently, dependably.

Natural Gas Service Is Constantly Expanding

Each year, additional Gulf South communities are added to the long list served with dependable natural gas fuel. Many millions of dollars are invested each year by natural gas companies in expanding and improving their production and delivery facilities. These huge expenditures make natural gas service available to more people and help make business better for everybody.
