## Bronchos Defeat Cyclone 19-7

The annual Traditional football game for the Bronchos with the Memphis Cyclone went into the history column last Friday night with another win marked up for the Bronchos, and it wasn't an easy one as the 19-7 score would indicate.

The Bronchos were fighting all the way and were taking advantage of every break. The Bronchos defense was working better than the defense as the Cyclone moved right along for numerous first downs but several of those drives were halted by fumbles that the Bronchos turned into scoring opportunities.

The Bronchos found pay dirt first in the first quarter. This counter started from the Memphis 41 yard line where Allen Homer Estlack covered the first Memphis fumble. After several plays, Robert Mills went over from the 3 yard line, the attempted pass for the extra was no good.

Memphis came back in the second period to move ahead 7-6, starting their drive on their own 38 yard line. Joe Young went over from the one and Butch Adcock made the extra point. The Bronchos bounced right back with John Payne tossing a beautiful 57 yard pass to Jimmy Philley who carried the pigskin to the 10 yard line, and a few plays later carried over from the 1 yard line. Carl Evans' kick went thru the uprights for the extra point.

The Bronchos third tally started as the first one with James Graham recovering a Memphis fumble on the Bronco 41. This drive wound up with Payne tossing to Mills for 9 yards and the final 6 points as Evans attempt for the extra was blocked.

At the half-time intermission, Miss Linda Lambeth, escorted by Billy Mack Hicks, was crowned football queen; her attendants and their escorts were: Tan McCully and Robert Mills, Paula Vanderburg and Jimmy Philley, Glenda Borden and Eddie Joe Baten.

## Broncho B Squad To Play Memphis Tonight There

The Broncho B squad will journey to Memphis tonight for their second engagement with the Memphis B Squad. Game time will be 7:30. The locals defeated Memphis in their first game and will be trying for another win tonight.

In games played last Thursday night, the B squad lost to Wellington 25-0, and the Jr. High Colts lost to the Wellington Jr. High team 20-0.

## City Acquires Additional Water Reserve

Mayor H. T. Burton announced yesterday that a deal had been completed between the City of Clarendon and the Ft. Worth and Denver Railway Co. which will assure more water reserve for Clarendon.

In exchange for \$500 cash and 2,500 yards of paving, the City will receive the Railway water system which includes the 75,000 gallon steel water tank, two water wells, two automatic electric pumps and the pipe joining the three units, all of which is valued at \$59,600 upwards.

The Ft. Worth and Denver will be furnished water free when needed which will not be very often now since practically all of the engines have been replaced with Diesel units. The City has leased the ground where each installation is located for \$1 per year.

The City plans to connect the new water tower with the ground reservoir at the pump station where the water can be chlorinated. This water reserve will help immensely in any type of crisis or summer water shortage.

The paving which the Railroad Company will receive will start at the intersection of 1st and Sully and go northward across the tracks and eastward 1 block and back across the tracks to join with existing paving on Kearney (main street). The paving will be a credit to our city as well as the additional water supply.

## October Weather Data Compiled

The month of October 1955 revealed weather of all types according to data released this week by Tommy Saye, local weather observer.

The moisture total for the month was 2.69 as compared with .85 a year ago, giving us a grand total to date of 22.63.

The first freeze of the season was recorded the night of the 23rd with 29 degrees. The warmest day was the 20th with 90 degrees and the coolest night was the 29th with a low of 28 degrees. The coldest day was also the 29th with 62 and the warmest nights were the 3rd and 4th with 61 degrees.

The coldest spell of the winter so far blew in yesterday to start the duck season off in grand style if the hunters were able to do much shooting in the strong wind and blowing dirt.

## Dale Carnegie Course To Begin In Clarendon

The Directors of the Clarendon Lions Club announced today that arrangements had been made for the Dale Carnegie Course to begin in Clarendon. The minimum number required have been enrolled and now the Lions are trying to fill the class. The class will be held on Tuesday nights in the Lions Club building and will last for 15 weeks. This is an adult education course in human relations, effective speaking, memory training and leadership training. The instructors are all certified Dale Carnegie instructors.

Local citizens who have already enrolled include: Tom Buehler, Ruth Richardson, Dr. Beek, Homer Estlack, Frank Phelan Jr., Bill Lowe, Mike McCully, Eugene McElroath, Rebecca McElroath, B. B. Osburn, Mrs. Mildred Ritter, Junior Spier, W. W. Sandler, Emmett Simmons, Mrs. Rogan Bryan, Frank Thomas, Robert Talley, Rev. Vanderburg, L. L. Wallace, Frank White Jr., Dr. Chas. Deyhle, Mrs. Melvin Cook, and Ben H. Williams.

The first meeting is open to the public and those interested may visit next Tuesday night at 7:30 in the Lions Club building without any obligation or call 106 for information or enrollment.

## City Paving Almost Complete

According to the latest report forty blocks of city paving have been completed with the exception of minor detail work. The only other paving to be done at this time while machinery is here is the U shape strip from 1st street around the north side of the depot and back to main street and the one block strip between the south end of main street to the bridge crossing the city ditch. Weather is hampering paving at this time and no other new work will be started. It has been understood that the Farm to Market highway leading toward the JA ranch will be completed within a few days also.

## Patching Club Board To Meet Nov. 7th

The Patching Club Board will meet Monday, November 7th at 10 a. m. at the Club House. All members of this board are urged to be present as the city street paving project will be discussed.

## Local Coca-Cola Co. Introduces Two New Bottle Sizes Here

The familiar Coca-Cola bottle now has two new helpers to deliver quality refreshment to your home. The new king-size and family-size bottles of the famed soft drink are on sale in food and beverage stores here this week. Frank Phelan, Jr., president of the Memphis Coca-Cola Bottling Company, revealed yesterday.

"The Memphis and Clarendon area is the second area in Texas to introduce both the king and family-size bottles," Mr. Phelan said. "This is the first change Coca-Cola has made in its packaging in forty years."

In announcing the new bottle sizes, Mr. Phelan pointed out that the present standard Coca-Cola bottle will continue to be the Company's mainstay. "Our aim is providing the king-size and family-size bottle," he said, "is simply to make it more convenient for people to buy and serve Coca-Cola. For several years we have been doing extensive research on buying habits relating to soft drinks. Our surveys show the majority of the public prefer the standard-size bottle, since it is the ideal size for individual drinks."

"The surveys also show, however, there is a potential market for other size bottles. The king-size and family-size offer ideal sizes for refreshment in the home."

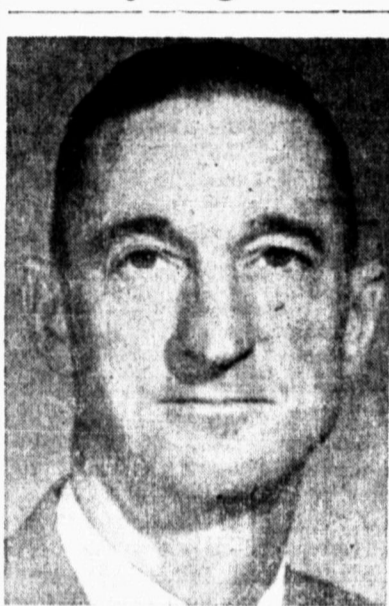

"Mr. Phelan disclosed the new bottle sizes have the same distinctive shape as the present bottle. "The three will be companion packages," he said. "Both in appearance and in uniform quality. The size is merely a matter of preference and now the public can have its choice."

"The king and family-sizes will be available in all food and beverage stores this week," Mr. Phelan explained, "look for the new packages in your favorite food store this weekend."

## REBEKAH MEXICAN DINNER SATURDAY NIGHT

Those of you who enjoy good Mexican food are reminded again that the Rebekah's annual Mexican dinner will be served this coming Saturday night, November 5th at Lions Club Hall. Serving hours will be from 5 to 9 p. m. Tickets to the dinner are \$1 each and may be purchased from any of the Rebekah's.

## Bronchos To Play McLean Tigers Friday Night At McLean

CLARENCE TILLEY

## Tilley New Minister Church of Christ

Clarence Tilley is the new minister of the local Church of Christ. He comes to Clarendon from the Church in Girard, Texas where he previously labored as local minister.

Tilley is a man of mature age, and is well experienced in the work of the church. His convictions are that when, and where the truth is taught, it will produce Christians, and will glorify the God of Heaven. Everyone is extended a genuine welcome to come to the Church of Christ and hear this man of God speak. He and his wife Ollie, and son George, will welcome you to visit them in their home, and to call for any Spiritual Services.

## Allan Pittser Is New Band Instructor

Supt. W. W. Pinkerton announced this week that Allan Pittser of Grand Junction, Colo. is the new Band Instructor for the Clarendon schools. This vacancy was created in the local school faculty by the recent resignation of C. D. Whitaker.

Mr. Pittser holds a Masters degree and has had six years experience, two of those at Tulsa. His wife and son will join him here at a later date.

## SERVICES SUNDAY AT EPISCOPAL CHURCH

At 11 a. m. on Sunday, November 6th, the Venerable Claude Canterbury, Archdeacon of the Missionary District of North Texas, will celebrate Holy Communion and preach in the Episcopal Church of St. John Baptist, Clarendon. After services, a buffet luncheon will be served in the Mission Hall.

## ATTEND GRAND CHAPTER ORDER OF EASTERN STAR

Mr. and Mrs. Charlie Bairfield, Mr. and Mrs. Clyde Hudson, Mr. and Mrs. Nelson Seago, Mr. and Mrs. Cap Morris, Mr. and Mrs. Oscar Thomas, Meslames, Bill Bromley, J. R. Brandon, W. N. Poole, W. R. Christal, Luther Butler, and J. R. Batson attended Grand Chapter of the Order of Eastern Star in San Antonio last week.

## CLOTHES NEEDED FOR FAMILY HERE

Mrs. Allen Jefferies, chairman for the United Charities, is asking for clothing for a needy family here. If you wish to donate such, you may call Mrs. Jefferies and she will pick them up. Clothes needed are for a woman, size 18; two girls, ages 4, 6 and 9 and a boy 2 years old.

## LEGION NOTICE

B. C. Antrobus has announced that the Legion Membership Drive kick-off breakfast would be held at the Donley Hotel Coffee Shop Monday morning, November 7th at 7 a. m. Those involved are urged to keep this date in mind.

After two weeks of playing on home ground the Bronchos will journey to McLean Friday night to see what kind of a job they can do with the McLean Tigers, the only team in the district running from a single wing formation. Game time will be 7:30.

Coach Ray Moore reports that this is expected to be another rough one for the Bronchos defense as some of them haven't played against a single wing formation. Our squad on the defense will have to play better ball than they have been if they hope to keep the Tigers to a no-win conference record. Moore stated, "The McLean boys will probably be gunning for the Bronchos after taking the leading they did from Wellington last week which was a 6-0 win 49-0."

The Bronchos will be in top shape for the game with the exception of Robert Mills who will be out on account of a leg injury suffered in the Memphis game Friday night. Richard Vallance is expected to take over his position for the Tiger game.

The probable starters as released by Coach Moore, beginning at left end: Baten, Mann, DeBord, Pittman, Hicks, K. Evans and C. Evans; Vallance at right half, Jimmy Philley at left half, Jerry Behrens at full and John Payne in the quarterback slot.

If you can make the trip, go along and let the Bronchos know you are behind them 100 percent. They have made a mighty good showing so far considering their age and experience, so let's all help them to bring home another win.

## Bulldogs To Open Basketball Season At Decatur Sat.

The Clarendon Junior College Bulldogs will journey to Decatur Saturday night to open the 1955-56 basketball season with the Decatur Baptist College Indians.

Coach C. R. Brown has been working his squad hard for several weeks in preparation for the season's opener. Brown is beginning his first year at the helm of the Bulldogs although he has been in the Clarendon Senior System for three years. He will take fifteen boys to Decatur Saturday night where they will play both an A and B game with the Indians.

Brown has announced his probable starting line-up as follows: Bob Garten, center, 6-2 sophomore from La Casa, Okla.; Boyl White, forward, 6-1 freshman from Lelia Lake; Sherman Cosper, forward, 6-1 sophomore from Estelline; Billy White, guard, 6-1 sophomore from Clarendon, and Gary Kunka, guard, 5-8 sophomore from Follett. Garten and Cosper are lettermen from last year's team. Billy White is a Korean War Veteran. Kunka is a transfer student from West Texas State and Boyd White, the only freshman on the starting five, was an outstanding high school player at Lelia Lake the past three years.

Other members of the squad include returning sophomore lettermen Gene Harris, 6-4 from Kirkland; Jack Williamson, 6-9 from Silvertown and Robert Pickrel, 5-10 from Kirkland. Other sophomores on the squad are Carrol Stepp, 5-9 from Lelia Lake; and Fate Broedlove, 5-10 from Silvertown. Freshmen squadmen making the trip to Decatur are Jay Wilson, 6-0 from Follett; Kenneth Newman, 6-3 from Mobeetie; Don Reeves, 6-2 from Hedley; Don Landers, 6-3 from Clarendon, and Carol Favors, 5-9 from Sannorwood.

Watch next week's paper for a complete schedule of the Bulldogs basketball games for this season.

Mrs. Bob Hutson and children of Berger visited the week end with her parents, Mr. and Mrs. J. I. Spurgeon and other relatives.

**Whooper Show Ready To Open**

AUSTWELL—One of the stand-out birdlife exhibits in the world is about ready to open at the Aransas National Wildlife Refuge near here, according to Julian Howard, refuge manager.

It is the annual assemblage of the rare whooping cranes which each fall migrate from the Arctic region to winter on Blackjack Peninsula.

Howard said facilities have been improved this year for the giant white birds with black wing tips, as well as for the sightseers who visit this semi-tropical climate each winter.

Added fresh water impoundments have been provided inland

from the whoopers' favorite feeding grounds and expanded arrangements have been established for the thousands who come from far-flung areas to gaze, gasp and gossip about the celebrated cranes.

There is extra suspense this fall, said Howard, since official observers at the northland nesting grounds reported possibility that at least a few young whoopers were noted during the summer.

The Executive Secretary of the Game and Fish Commission pointed out that the whooper show "has more than a mere birdwatchers' angle." "The dramatic fight to save these beautiful birds from extinction," he said, "is truly symbolic of the struggle to save wildlife itself."

The giant armadillo is five feet long.

## TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

### THE UNITED STATES IN EUROPE

A sizeable group of Europeans looks upon Americans in much the same respect as many Easterners look upon Texans. They think that all have a lot of money, just because they come from the other side. Another group, well in evidence, takes the view that Americans have no goal in life, other than to get as many dollars together as possible. This group feels this applies to all Americans and that, therefore, the United States does not know how to enjoy life just for the sake of living. There is, of course, the very substantial group who feels most friendly toward Americans and so obviously shows it. Some look with great suspicion on any foreigner from across the sea, but by and large, this is a marked minority.

The Scandinavian countries all enjoy a very high standard of living, with Sweden holding top rank. There are more automobiles and other luxury items that are not so much in evidence in the other countries. The rural areas appear in excellent shape. Mostly small farms. Many women are seen working in the fields. One Swedish woman says this explains why the farms are so well kept and in such excellent condition.

Both animals and machinery are used. The horses are huge draft animals. The Swedes love their animals and take good care of them. Only the other day, while en route to a conference at the Swedish Shale Oil Company Plant, I saw an old woman driving a large horse to a small wheeled wagon. Traffic had gotten congested and someone behind the old woman blew a horn. This frightened the horse and made him skittish. A bus driver pulled his large bus to a stop, blocking traffic in all directions, got off the bus, went up to the horse and placed his hand on his bridle, patting the horse with the other hand. This reassured and quieted the horse and created a most grateful look on the face of the old woman. The driver said something to the hornblower in Swedish. I couldn't understand it, but I venture to say that the hornblower thinks twice before he scares another horse.

I mentioned that we were en route to the Shale Oil Company Plant for a conference. Sweden

has no production of oil or gas other than that produced from shale or rock. This process was in an experimental stage when Germany invaded and occupied Norway and cut off Sweden from any possible oil imports. The Swedish government immediately ordered the building of the actual plant, although the research was far from finished. The plant was built and sufficient oil was produced from this rock shale formation to answer emergency needs during the war. The end of the war brought expansion of this plant and the production of many by-products. The operation has been subsidized, but the management tells me that present figures indicate its subsidy-free operation within the near future. It might be pointed out that the oil content of this shale is only 6 per cent. The United States has a pilot plant in Colorado engaged in the same type of operation, but the oil content of our shale is many times that of the Swedish shale. The entire operation here has been the

source of much helpful information in the development of the process and more is being contributed each day. Its development under the circumstances left little doubt as to the resourcefulness of the Swede and his self-sufficiency in a tight. They are a proud people, and rightfully so.

Finland is the most surprising of all the Scandinavian countries. An industrial exhibit, equal to anything any of us have ever seen, was in progress, and we

were escorted through and had many surprises on the way. These people manufacture everything from telephones to textiles. They

are great boat builders, especially icebreakers. They have about everything you can imagine except television.

### Last Word in Farm Machinery

Curly Lawson was first in this area to use one of those roadside vending machines. He's sold milk and eggs in one about a year now, and recommends them highly—but with reservations.

"Mine's the latest model," says Curly. "Built-in refrigeration unit—heater—an automatic sign turner-on for night. Takes any combination of coins."

"However," he warned, "those machines aren't cheap to buy... or operate. They run about \$3500. If you're not on the main highway like I am—where lots of city

people pass—you'd better stick to the old methods."

From where I sit, you have to admire Curly for his pioneering spirit. Of course, there's also plenty to be said for those who tend to stick to the old proven methods. People's ideas differ on the subject—on any subject. Like you may always drink buttermilk with your meals... while a glass of beer's the "automatic" choice with me.

The hot one's even hotter!

THE '56 CHEVROLET BEL AIR SPORT SEDAN—above is a beautiful example of Chevrolet's bigger, bolder look. Four doors and no sideposts in this one—did you notice?

# the '56 Chevrolet

New models—all with bold new Motoramic Styling. More models—including two new 4-door hardtops and two new 9-passenger station wagons. New excitement under the hood—up to 205 horsepower and 9.25 to 1 compression ratio. This—remember—is the car that broke the Pikes Peak record in a history-making, preproduction trial. Come on in, look it over and try it out!

They're sitting in our showroom right now champing at the bit. For these '56 Chevrolets were born with an urge to go places! But look 'em over first. Look at that bigger, wider, more massive grille. Follow that lower speedline of chrome back to those sassy, high-set tail-lights (the one on the left swings down to uncover the gas cap!).

V8 or 6—19 Models in 3 Series Any kind of model anyone could want! Your choice of the new "Blue-Flame" 6 with 140 h.p. and new higher compression or Chevrolet's record-breaking V8 power ranging up to a new high of 205 h.p. and 9.25 to 1 compression ratio! Automatic, and comfort and safety features? If Chevrolet doesn't offer them, it's only because they haven't been invented yet. Come in and drive the '56 Chevrolet!

Oldsmobile Presents "The Great Waltz" November 5th

On Saturday evening, Nov. 5,

Oldsmobile presents the second of that week's video productions. Patrice Munsel, Keith Andes, Bert Lahr and Jarmila Novotna will co-star in the scintillating musical, "The Great Waltz," with

the imperishable, lilting music of Johann Strauss, Jr. and Sr. from 9 to 10:30 p. m. (EST) over NBC-TV. Max Liebman is producing 17th Oldsmobile spectacular in full compatible color as well as

black and white. "The Great Waltz" not only features the incomparable Strauss melodies but the actual story of the rivalry between father and son for the title of Waltz King of Vienna. Patrice Munsel plays the role of Resi, a young and vivacious singer who is in love with Johann, Jr. and who almost forfeits her affections for the young genius to advance his career. Miss Munsel, who is one of the prettiest and most talented Metropolitan Opera singers in history, is, of course, extremely well known for her previous video and film appearances. Keith Andes, who portrays Johann, Jr., is the rising U-I film star who starred as a singer on Broadway in "Kiss Me Kate" and "The Chocolate Soldier" as well as an actor in Hollywood's "The Farmer's Daughter," "Clash By Night" and the forthcoming "Away All Boats" and "Pillars of the Sky". Bert Lahr, long celebrated as one of America's funniest comedians, appears in "The Great Waltz" as the boisterous father of

Miss Munsel as well as the uproarious operator of a Viennese coffee shop. Mr. Lahr's hilarious antics have convulsed audiences in such Broadway successes as "Burlesque," "Two On The Aisle," "Zeigfeld Follies" and "DuBarry Was A Lady" as well as in the films, "The Wizard of Oz" (he was the Cowardly Lion), "Ship Ahoy," "Always Leave Them Laughing" and others. He's been a celebrated guest on top TV shows.

Jarmila Novotna, one of the Metropolitan Opera's leading sopranos, will take the role of an amorous and exciting woman whose interest in Johann, Jr., injects a lively and racy romantic triangle into the story.

days before the goose season which runs sixty days through January 13.

"This is going to put the burden on the hunter," he said. "The law stipulates that mistaking one kind of game for another is no valid excuse. In other words our wardens have no other choice but to act when they note killing of geese before November 17."

Most waterfowl experts approve postponing the goose opener to give the big birds a chance to fatten up after their exhausting flights from the far north nesting areas.

Other regulations are unchanged on ducks. The limits are five per day and ten in possession after the opening day. Guns must be plugged to a three shell limit. Outboard motors must be detached from the mount if the boats are used in the open but may remain in place if the boat is placed inside or secured to a shooting blind.

The Executive Secretary cautioned hunters about banging away at unidentified birds, adding: "The postponement of the goose opener will generally protect the big non-game birds, such as the rare whooping cranes, which are rigidly protected. Many of them will have migrated safe through the danger zone before November 17."

"It looks like a fine waterfowl season," he added. "Plenty of legal game and lots of shooting space. Everybody should have fun and reasonable success if they will take the pains to be careful; get permission of land owners if they don't already have a lease; get the \$2 Federal duck stamp and have a regular state hunting license if shooting out of the hunter's home county."

The Volstead Act became law on October 28, 1919, over the president's veto.

youngsters.

Included in the other fatal accidents were a ten-year-old boy who was pulling a .410 shotgun toward himself as he removed it from a car when it was discharged; a thirteen year-old boy whose rifle was discharged into his own body as he crawled through a fence and a thirteen-year-old boy who threw his loaded gun hard over his shoulder after shooting at a squirrel causing it to fire and kill a fifteen-year-old boy walking behind him.

One fifteen-year-old boy hunter was unloading a .22 rifle when it was discharged, killing a fourteen-year-old companion.

Some time-worn causes were connected with non-fatal accidents already reported. A sixteen-year-old boy picked up a loaded, cooked gun by the barrel and it was discharged, striking him in the chest. A twenty-year-old lad was shot in the legs when a companion fell down crossing a ditch and discharged his shotgun.

"It's pretty rough," said the Executive Secretary, "and the

thirteen gun fatalities to date this hunting season compares with only seventeen fatalities reported all last year. But hunting is the oldest custom and certainly is here to stay.

"But it does seem that we are asking too much when we send mere unescorted youngsters out with their own crowd with assorted firearms and expect them to observe safety precautions which simply are beyond their own capacity."

He said the toll certainly calls for cooperation by parents and persons interested in permitting youngsters to fully enjoy the outdoors.

AUSTIN—Failure of adults to properly guide youngsters in gun training seems mainly responsible for a high hunting accident rate this fall, reported the Executive Secretary of the Game and Fish Commission.

Thirteen gun fatalities to date, he said, found only two adults responsible and they died of self-inflicted wounds while hunting. Another adult was killed by a stray bullet fired by a sixteen year old. A mother died instantly when her 11-year-old son lost control of an automatic 12 gauge shotgun as he fired at a squirrel.

The nine other fatalities, according to the Executive Secretary, involved boys in their lower teens hunting with other boys without supervision.

Four of the fatalities involved .22 rifles, a favorite weapon of

## Answers To Your Questions About Polio Vaccine

By Ben K. Humpfrey, M. D.

The National Foundation for Infantile Paralysis provided free vaccine for first and second grade children throughout the United States last April and following its use some children became ill with Poliomyelitis. This unfortunate happening disrupted the schedule for use of the vaccine and caused much doubt and many questions to be planted in the minds of people whose children were prospective recipients. As County Health Officer I feel it is proper that I should attempt to clarify the picture concerning the use of Salk Polio vaccine as now produced.

The cases of polio which resulted from vaccinations last April caused several changes to be made in the processing control and safety testing of all commercial polio vaccine. The vaccine is now both safe and effective. It should reduce the risk of paralytic polio by 80 to 90 percent among children who receive it. The April vaccinations showed no unsafe vaccine to have been produced by the company which furnished the vaccine for Donley County and which produced the vaccine now available in this County. The vaccine is yet in short supply and under the control of the U. S. Public Health Service in order that its use be restricted to the most susceptible persons. Since the recent announcement concerning polio availability word has been received that vaccine is now available to all children under the age of 15 years and to all pregnant women. It is obtained by doctors in the County who must report periodically to the Texas State Department of Health giving details on the use of each dose.

At present there are no prospects of more free vaccine such as has been used three times in this County this year. All future vaccinations must be obtained from the doctor of your choice on a private basis. Charges for these vaccinations will probably be the same as charged for other routine

vaccinations against the diseases of childhood. The recommended dosage is 1 cc intramuscularly repeated in two to four weeks with a booster dose in 7 months. The first injection does not induce enough antibody formation to insure a protective effect against paralytic polio and until the second injection has been given no protective effect can be counted upon. Complete immunization results only after the third or booster dose which should be given not earlier than seven months after the first dose. If the above schedule has not been adhered to but the second dose has been given within a year after the first, the booster or third dose will still be effective when administered seven months after the second dose.

Polio vaccine may be given at any time—even during an epidemic but is most effective when given before the polio season. Polio is most prevalent in children under 15 years of age but all age groups are susceptible. Pregnant women are about twice as susceptible as other women of the same age. In order to assure maximum protection before the next polio season, vaccinations should be started as soon as possible on eligible persons.

The vaccine should not be given to the following:

1. One suffering from an acute illness.
2. An individual exhibiting symptoms of minor illness, especially fever, sore throat, or gastro-intestinal upset.
3. Individuals in a household where a case of polio has just occurred.

It is particularly well advised to give a child at least his first two polio vaccine doses before having his tonsils or adenoids removed.

Present stocks of vaccine have 200 units of Penicillin per dose. This quantity is so small as to offer no hazard to persons allergic to Penicillin or as a source of newly acquired Penicillin sensitivity.

How long does immunity last? This question remains to be answered. It seems probable that the immunity will be of several years duration.

### THE LION'S TALE

By Carl Allmond

Without Boss Lion Lowe, the Club met as usual. 1st Vice President Spier was in charge. We have been out of town for the past two meetings, and we were afraid the club might close down. The fact that no one missed us proves that we are not indispensable. Anyone want to take a crack at writing this column? George Caddel (the Dale Carnegie man) announced that the minimum number of members had been secured for the course and stressed the importance of having a maximum class of 40 members. The course starts next Tuesday evening, 7:30 at the Lions Club Hall. All members and guests are invited to this first meeting.

Program chairman Drennan introduced John Gillham and four of his F.F.A. boys who gave our program. John did all the talking, and the boys showed their prize banners won at the hog show at the State Fair at Dallas. Gillham gave us a "run-down" on the history of the FFA program. The local chapter was organized in 1923. Since its organization, the local chapter has been No. 1 five times in the State and No. 1 twice in the U. S. This is a wonderful record, and Clarendon is justly proud of the boys and Lion Gillham. Tuesday were James Mahaffey, Harold Lindley, Jimmie Gattis and Dannis Gibson.

Tuesday guests were Tom Hughes and George Caddel of Amarillo and Allen Pittser, the new band director.

Joe Jinks, assistant coach, and Rev. C. M. Ryan, new pastor of the First Methodist Church, were introduced as new members.

Visitors in the Carl Naylor home Sunday were their children, Mr. and Mrs. Calvin Naylor of Amarillo and Mrs. Melvin Vick and Robert of Panhandle.

### Cutting Farm Labor Costs

John White, Commissioner Texas Dept. of Agriculture

The need for whittling down labor requirements in livestock production is a problem facing farmers—particularly small ones—today.

Since the start of World War II, farm wages have quadrupled, and the resultant necessity of cutting back labor requirements has been met, in some areas of farming, by mechanization and modernized methods.

However, livestock labor input has been shortened by only seven per cent during this 14-year period, contrasted with a 34 per cent crop labor reduction.

Large livestock producers have managed to keep ahead in many areas with improved, efficient but expensive methods. Unhappily, the small farmer who has relied in the past on a reserve profit from a sideline in dairying, poultry raising, or some other livestock project finds himself in something of a bind over the labor situation.

By the old hand-milking method, it requires an average of 61.7 man-hours to produce \$100 worth of milk. That labor cost can be cut by 20 per cent if milking machines are used.

In hog production, size of the herd makes the big difference in labor required. That's because a large herd can use automatic feeders and waterers economically, whereas small herds can't. In Texas, labor input per \$100 of pork products amounts to about 25 man-hours. And there's quite an investment involved in hog-raising.

Probably more has been done to mechanize the poultry industry in recent years than any other single phase of livestock raising. Production-line broiler raising takes 5 to 15 hours of labor per 100 birds, whereas the less-routinized raising of chickens to the same age for laying flocks takes 25 to 35 hours.

Very few of these labor-saving devices are practical unless they can be applied to large numbers because of initial cost. And many small farmers have neither the space required nor the capital for investment in a large number of animals.

Our agricultural researchers are working to find a solution to the problem, for only as a farmer is assured of an income on such assured commodities can he feel safe in continuing his perpetual game of chance with nature; a crop success or failure.

Arizona is known as the Valentine State.

### FORMER RESIDENT BURIED HERE WED.

Graveside services for Richard C. French, Long Beach, Calif., were conducted here Wednesday morning at Citizens Cemetery.

Mr. French, who died in Long Beach Sunday, was a resident here prior to moving to California about 25 years ago. He is survived by a son, Elvis French, of Long Beach, and a brother, Emmett French, Pomona, Calif.

Mrs. Emma Burnett and Martine Dexter and son Bob of Ardmore, Okla. spent a few days last week with Mrs. E. W. Bromley.

Mr. and Mrs. Doyle Martin of Amarillo visited Sunday in the home of Mr. and Mrs. C. W. Martin.

L. T. Whitlock and Larry of Amarillo visited relatives here Friday.

Here it is for '56—

**Best  
Buick  
yet**

When better automobiles are built Buick will build them

IT COMES upon the heels of the most successful Buick in history—and beats it on every score.

In shimmering steel and solid sinew, it's Buick for 1956—and there's never been anything like it for pure automobile.

You get a good hint of what we mean when you take in its sweep-ahead styling—from the

air-splitting prow of its V-front grille to the robust rake of its canted rear profile.

You get an even better hint when you open the doors and see the dazzle there.

But it's when you put this beauty to the city streets and the open highways that you learn the best of it.

For here is performance without parallel. A new advance in Variable Pitch Dynaflo\* goes airplanes one better—steps up your getaway in normal driving without flooring the pedal to switch the pitch. But when you do need that extra surge, it's there instantly—and in extra abundance.

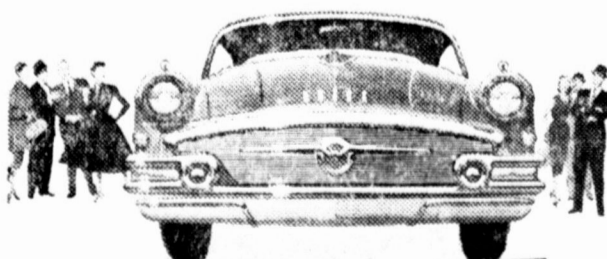

The might of big 322-cubic-inch V8 engines in every Series brings new record high power to

all Buicks—ROADMASTER, SUPER, CENTURY, and the bedrock-priced SPECIAL. And to handle such dynamic driving power, the whole rear end has been endowed with extra brawn and heft and solidity.

We could spread before you an acre of blueprints on the engineering gems that spark the spectacular performance and ride and handling and roadability of these great Buicks for 1956.

But you can get the full and magnificent story right now, at our showroom, in a face-to-face meeting with the best Buick yet—now on display, and setting a dazzling new pattern for 1956.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

## SOCIAL SECURITY NEWS

Many farm wives have been making inquiries as to their need for a Social Security Card said Mr. Sanderson, District Manager of the Amarillo Social Security Office.

Mr. Sanderson went on to add that a wife does not need a card unless she operates a farm separate to that of her husband. The income from a farm is reported as the earnings of the spouse that performs the majority of the work on the farm. It cannot be reported as the earnings of both the husband and wife.

These net earnings are reported at the end of the year on the income tax return. It is possible that no income tax will be due because of the number of exemptions allowed but a tax return should be filed and the Social Security, or the Self-Employment Tax paid.

Once this tax has been paid, the account of the spouse is credited with that amount of net earnings. When social security benefits are applied for, the amount of the benefits are based upon the average net earnings that have been reported to a particular account. A wife can be entitled to benefits based on the wage record of her husband. Therefore, there is no need of a wife obtaining a Social Security Number unless she operates a farm separate to that of her husband.

## Quail Rally Takes Shape

**AUSTIN**—The long, slow road back for bob white quail is expected to be apparent in many Texas areas this fall, said the Director of Wildlife Restoration for the Game and Fish Commission.

He added that a combination of improved weather conditions and man-made aids have improved the quail population particularly in the Panhandle, certain other sections of north Texas and a good share of East Texas.

"In the favored areas," he said, "quail again have demonstrated their tremendous procreative powers. It has shown that these wonderful game birds need only a fair chance to come back all the way."

The Director said it is a little early yet for the Commission's state-wide habitat restoration program to show marked results. But he expressed confidence that another hatching season should show population gains.

More than sixty colonies of various foreign peoples are settled in different parts of the Republic of Paraguay.

#### 1956 UPLAND COTTON QUOTA AND ALLOTMENT PROCLAIMED; REFERENDUM DECEMBER 13th

A national marketing quota of 10 million bales and a national acreage allotment of 17,391,304 acres for the 1956 crop of upland cotton were proclaimed October 14 by Secretary of Agriculture Ezra Taft Benson.

The Secretary also announced that a referendum on the cotton marketing quota will be held on December 13, 1955. At least two-thirds of the cotton farmers voting in the referendum must approve marketing quotas if they are to be effective. Under the basic formula provided by law, the upland cotton quota would be below the announced level if it were not for a "minimum" provision in the law. This minimum is 10 million bales, and that automatically becomes the marketing quota under the present supply situation.

The national acreage allotment, under the legislative provision, is that acreage based on the national average yield per planted acre for the 5 years 1950-54 inclusive, required to produce an amount of cotton equal to the national marketing quota.

According to the latest available statistic, the total supply of upland cotton for the 1955-56 marketing year is estimated at 24.4 million running bales, about 8.8 million bales above the "normal supply" of 15.6 million bales. The normal supply, as defined in the legislation, is the current marketing year's estimated domestic consumption of 9.0 million bales and exports of 3.0 million bales, plus a 30-per cent reserve of 3.6 million bales. (A running bale is a bale as it comes from the gin and usually averages heavier than 500 pounds gross weight.)

Sgt. and Mrs. Darrell Brogdon of Augsburg, Germany announce the arrival of a son, Joseph Darrell, October 11. The young man weighed 9 lbs. and is the grandson of Mr. and Mrs. J. H. Helton of Clarendon and Mrs. Mammie Cunningham of Amarillo.

#### OUT-OF-TOWN GUESTS ATTENDING J. F. BLOCKER GOLDEN WEDDING CELEBRATION

#### Eight Identify Mystery Farm Number 26

Eight persons correctly identified the Leader Mystery Farm of the Air No. 26 last week. It was a little harder to identify as it was off the main traveled highways. Walter Lowe drew out for the free subscription to the Leader; Mrs. Bill Land drew out for two free movie tickets to the Mulkey Theatre and Mrs. Dewey Goodman, J. Gould and Mrs. Will Chamberlain drew out for one free movie ticket each.

Others correctly identifying the Mystery farm were Mrs. Carl Barker, Warren Neighbors and Mrs. E. P. Hahn.

#### CHARLES GORE RECEIVES 3 YEARS FOR FORGERY

Charles Gore, age 20, was sentenced to three years in the State Penitentiary for forgery in District court here last Thursday morning. The forged check was given to Bill Greene Jr. Sept. 15. Local officials have detainers on Gore from Oklahoma, Colorado and Borger for the same offense.

District Attorney Allen Harp announced that a new policy in trying different cases in District Court had been mapped out to go along with the busy farming seasons here. Jury cases will be tried from January thru May and August and September to avoid calling up farmers during their busiest times. Cases not requiring a jury will be tried during regular court terms as they come up, Harp added.

#### FAMILY REUNION HELD IN MISSOURI

**Blowin' Out the Corners**  
by Uncle Zeb

It has been some time since we have picked a squabble with our good friend Uncle Bob, the Scotchman from Washburn, Texas. However when we heard the following joke we just couldn't resist. It seems that a young Scotchman was furnishing blood

for transfusions to a very wealthy old lady. For the first one she gave him \$50.00. Then for the next pint she handed him a measly \$20.00. According to the story, after the third transfusion she had so much Scotch blood in her veins that she just thanked him. Actually, I never really knew a Scotchman who was tight. Are they really? Anyway, most of the free-hearted folks that I know are fresh-out so that angle usually doesn't help.

Along the line of thinking above we found the following little poem called;

**REALITY**  
By Lois Snelling

"If I had a million dollars,  
The good that I would sow,  
I'd give about a thousand  
To everyone I know."

Oh, you are a generous dreamer,  
With your millions more or less;  
But how do you plan to use  
The pennies that you possess?

"I am a great believer in Luck. The harder I work the more of it I seem to have,"—Lincoln.

Miss Barbara Fain, newly appointed Home Demonstration agent for Armstrong county, hands us the following clipping to use. In so doing Barbara admitted in so many words that she was one of our readers already. Thanks a lot, anyhow.

"If we could get religion like a Baptist, experience it like a Methodist, be positive about it like a Disciple, be proud of it like an Episcopalian, pay for it like a Presbyterian, propagate it like an Adventist, and enjoy it like the Negro—that would be some religion."

Still another—"It is not what people eat but what they digest that makes them grow; it is not what they read but what they remember that makes one learned; it is not what they profess, but what they practice that makes them righteous."

To save my life I can't remember now whether Miss Fain looked accusingly at me or not as she handed me the following 10 commandments; sort of as an afterthought probably. Anyway, they are good for all of us.

1. Speak to People; there is nothing so nice and cheerful as a

word of greeting.  
2. Smile at People; it takes 72 muscles to frown, and only 16 to smile.

3. Call People by Name; the sweetest music to anyone's ear is the sound of their own name.

4. Be sincerely cordial; speak and act as if it were a genuine pleasure.

5. Be considerate of the feelings of others. No one likes to be rebuffed.

6. Be thoughtful of the opinions of others. Remember, there are three sides to any controversy; yours, the other fellows, and the right side.

7. Be genuinely interested in other people. You can like something about everybody if you try.

8. Be generous with praise. Praise lifts—criticism lowers.

9. Be alert to render service. Above everything else that counts in life is what we do for others.

10. Be honest.

LIBRARY NOTES  
By May L. Prewitt

We are elated to announce that we received a gift of twelve nice new books this week. Not one

duplicate except "Lydia Bailey" by Roberts. Our shelf of "new" reading material was becoming stagnant as only one book had been received in a month of the fiction list. Our recent purchases have been memorial copies that were historical or devotional.

We purchased several of the 15c "Tell-a-Tale" books for little people.

Harnett Kane has a new book published, "The Smiling Rebel." His books are well written and worth the purchase price. We can buy one in Dec. Funds are scarce, but it is gratifying to note that all except a very few pay their fines for every day over time on books and magazines. They have their fine money ready when they are late, and do not have to be reminded that their books are over due.

Jean Bowie Shor, has a new book, "After You, Marco Polo." She and her husband are said to be the most widely-traveled American couple we have, traveling as they do for National Geographic Magazine.

We received several Spanish, French, Hawaiian and other non-fiction editions, also a few fiction copies this week. They were from a collection of a friend who has "passed on." These books were appreciated.

Our readers are fewer than usual. We miss them and their "book talk."

**Newspapers Used To Push Dodge Contest**

DETROIT — Because of their great impact on the American reading public, nearly 4,000 newspapers will be used to convey news of the "Car for Life" contest which will be sponsored by Dodge Division, Chrysler Corporation, beginning Oct. 31.

Jack W. Minor, sales manager in charge of advertising for Dodge, said that a heavy schedule of newspaper advertisements is being prepared. The ads will give details of the unique contest,

termed the "greatest safety campaign in history", which will provide a new car every year of their lives for four lucky motorists. Eight "runners-up" will receive a new 1956 Dodge.

The contestants will appear on the Lawrence Welk show (ABC-TV Saturdays, 8 to 9 p. m. EST) for four weeks beginning Nov. 12, being flown to Los Angeles from all over the nation. Application blanks will be available at all Dodge dealers, Oct. 31 to Nov. 28, Minor said.

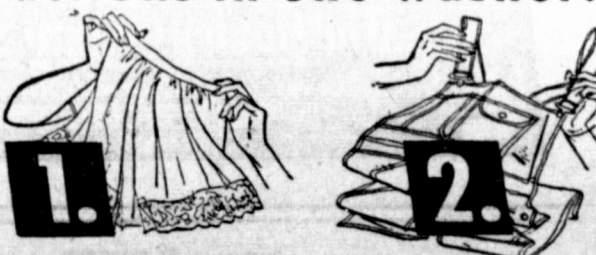

Dr. Mary Walker was a famous Union spy who wore male attire. She was a pioneer woman suffragist and a doctor in the Civil War.

**Banded Game Has Meaning**

AUSTIN—Texas hunters were asked by the Director of Wildlife

Restoration for the Game and Fish Commission to report bagging banded or tagged game.

He said the principal purpose of marking birds and other ani-

mals is to help technicians trace migratory habits of the game and to accumulate other vital data which can be used in wildlife management.

By VERN SANFORD  
Texas Press Association

AUSTIN—Speculation is running high that both Gov. Allan Shivers and U. S. Sen. Lyndon B. Johnson will have leading roles in the selection of the next Democratic presidential nominee.

Both have denied participation in any movement for a Southern coalition to block re-nomination of Adlai Stevenson.

Johnson denies that he is heading up a coalition. Nomination is up to the delegates, he said, and he will support whoever wins out. And, he is not a "conservative," the senator stressed, but a "moderate."

Johnson, before his heart attack last summer, was considered a likely future contender for presidential nomination. Some believe, should he regain his health sufficiently, he again will enter the picture.

Gov. Shivers, at the conclusion of the Southern Governors Conference, took a slightly different approach. He said he will vote for the presidential candidate "I think is best for the future of my country, and I hope the Democrats can produce that man." He also said he knew nothing of a drive for Southern control.

**DAC vs DSE**

Texas has two Democratic organization drives, highly competitive, under way. Selection of Lt. Gov. Ben Ramsey as a harmony-unity choice for Democratic State Committeeman so far has not reduced the competition.

Leaders of the Texas Democratic Advisory Council, set up by Speaker Sam Rayburn, say

they plan to carry on organizational and money-raising efforts. This liberal group, organized to "carry on the functions of national committeeman" during the years Wright Morrow was barred from the seat, has raised money the past four years for the national party. It now is busy organizing for control of presidential conventions next year.

On the other side of the picture is the Democratic State Executive Committee, conservative Pro-Shivers organization. DSE also is carrying on organizational and money-raising efforts and has no intention of stopping, according to State Chairman George W. Sandlin.

A DAC meeting is scheduled for Nov. 4, to select a leader to replace Navarro County Judge Jim Sewell.

Outside observers have suggested a connection between the resignation of Sewell from the

liberal group and the ousting by conservatives of Wright Morrow. It is part of an over-all effort, they hint, to rid both groups of extreme left and right-wingers and merge Democratic party factions for a strong voice in national affairs.

**Third Shot Necessary**

Officials of the State Health Department have declared that three Salk polio shots are necessary for maximum protection against crippling effects of polio. Children who have had two shots should have the third

"booster shot" early in the Spring of 1956, the Department urged. In answer to a series of questions, the Health Department explained that it is not known at present exactly how long protection from three Salk shots will last. Experts now estimate protection at about two and one-half years. Perhaps after that time, booster shots again will be advised.

Persons who already have recovered from polio also should have the shots, the Department (Continued on next page)

(Continued from page 10) said. There are three types of polio. Having a case of one type will not set up immunity against the other two. The Salk vaccine is aimed at giving immunity to all three types.

Only nine Texas children have been stricken with paralytic polio despite Salk inoculations. Dr. Henry A. Holle, state health commissioner announced. The nine cases were among 473,830 vaccinated children.

UT Entrance Exam Approved Beginning next fall the University of Texas will admit students on the basis of aptitude test scores.

Tests are to be given probably three times a year, without cost to the applicant, at centers throughout the state.

Rapidly increasing enrollment necessitated tests to eliminate

students who will be unsuccessful, the Board of Regents stated.

Booby Prize Stolen

Last year Austin received the "booby prize" in the Safe Driving Day contest. Award was a dented fender which was displayed—but not proudly—on the city hall lawn.

Painted on the fender, in white, was "Awarded to Austin, Texas for Last Place in the First Annual Safety Bowl."

Theft of the "prize" was discovered last week when preliminary work began on the upcoming S-D Day. Nobody knows who took it, or when. "We never were too happy about getting that thing in the first place," said Captain Bob Miles of the Austin Police Department. "We didn't keep up with it very closely."

Texas P-T 47th State Convention Set For November 16-18

The Texas Congress of Parents and Teachers has just released its annual Call to the membership to end accredited delegates and representatives to the 47th state convention in Fort Worth, November 16-18.

Highlights will include addresses by Dr. Finis B. Englemen of Hartford, Conn., States Commissioner of Education, and vice-chairman of the Committee for the White House Conference on Education; Dr. Andrew Holt of Knoxville, Tenn., vice-president of the University of Tennessee, and Mrs. T. J. Mims of Greenville, S. C., vice-president of the National Congress of Parents and Teachers.

Mrs. Leon S. Price of Dallas, state president, will present the

convention theme, "The Blessings of Liberty," and preside at all sessions, assisted by the state vice-presidents.

Greetings will be brought by Dr. J. W. Edgar of Austin, State Commissioner of Education, and by local city, school and P.T.A. officials.

November 17 will be "Rededication Day" at which time four of the five objects of the congress will form the subject matter for the work sessions into which the delegate body will be divided.

Voting for state vice-presidents will also take place the second day. Nominees are as follows: From Region II, Mrs. T. A. Swenson, Tyler; Region IV, Mrs. W. S. Pickett, Karnes City; Region VI, Mrs. F. C. McConnell, Austin; Region VIII, Mrs. Robert Cross, Anson.

Features will include special music, assembly singing, chuck wagon supper for delegates, ban-

quet session, life membership breakfast, state board dinner, courtesy of the Fort Worth Board of Education, past presidents' luncheon, district get-togethers Wednesday and Thursday evenings.

The final session will be given over to the "Battle of the Districts" at which time local unit publications chairmen will report the number of subscriptions tak-

en for the state and national parent-teacher magazines, the amount to be totaled at that time.

General sessions of the convention will be at the Will Rogers Memorial Auditorium; headquarters hotel will be the Texas.

### DONLEY COUNTY SOIL CONSERVATION DISTRICT NEWS

The farmers are busy getting out what crops that "the August rains we didn't get" left to get out. Reports that have come in indicate that the yield isn't going to be quite up to expectations in most cases. Although there isn't much local evidence to prove it

**Are All Cold Remedies Alike?**  
 No! For example, 666 is the wide-activity medicine, which combines 4 of the most effective, widely-prescribed drugs known, to relieve all cold miseries sooner. 666 is more potent and gives positive, dramatic, rapid relief from miseries of all kinds of colds. That's why 666 is unsurpassed in effectiveness. Try it.  
 No other cold remedy can match 666 liquid or 666 Cold Tablets. **666**

yet, the experience of a few indicates that where a soil building program to increase the organic matter and improve the tilth of the soil has been followed, that lack of rain in August did not reduce the yield quite as much.

Edwin Eanes has been planting guar as a soil improving crop longer than any other cooperater with the Donley County Soil Conservation District, and is thoroughly sold on its value. This year he had cane planted on some non irrigated land on his place, part of the land was in guar last year and part of it was in feed. Edwin reports that the cane made just about twice as much on the land where the guar grew last year as where he had feed, and that you could tell to the row where the guar had been.

Of course this is only one instance, which isn't definite proof. However a number of farmers planted guar this year with the intention of putting their cash crop on the land in 1956. By this time next fall, these farmers should be able to give testimony

as to the value of a summer growing legume as a soil improving crop.

Those who are interested in improving their terrace systems might want to get in touch with technicians of the Soil Conservation Service assisting the Donley County Soil Conservation District. Because of a change in the terracing program which ACP will pay for in 1956, it is likely that these technicians will be kept busy on terraces during that period of the year when no crops are on the land.

Alexander Hamilton, the first Secretary of the United States Treasury, was the father of our financial system.

### Drawing For Public Hunt Is Outlined

AUSTIN — Varying procedures for hunters' application for public hunt drawings was outlined by the Director of Wildlife Restoration following recent Game and Fish Commission approval of a plan to harvest surplus game on wildlife management areas.

Nimrods may participate in only one shoot and each may hunt only one day.

Correspondence should be addressed to the Game and Fish Commission, Walton Building, Austin, Texas.

For the Kerr Area Hill Country

harvest, applicants should state deer sex preference. Hunts will be November 16 through November 22 and November 25 through November 29. Applicants successful in the drawing will be notified concerning the day they may hunt.

For the Engeling Area, near Palestine in Anderson County, applicants merely apply for a permit and then draw on the grounds to determine which may try for an antlered or antlerless deer. Hunt dates are November

16 through 20 and November 29 through December 3.

The Kerr Area hunt calls for harvesting one hundred eighty-six deer and the Engeling Area is pegged for bagging one hundred fifty deer.

A drawing also will be held for the Black Gap Area in Brewster County where twenty-five buck mule deer will be taken along with 30 to 50 javelina. Hunters may not take both deer and javelina there. The shoot will be within the regular West of the

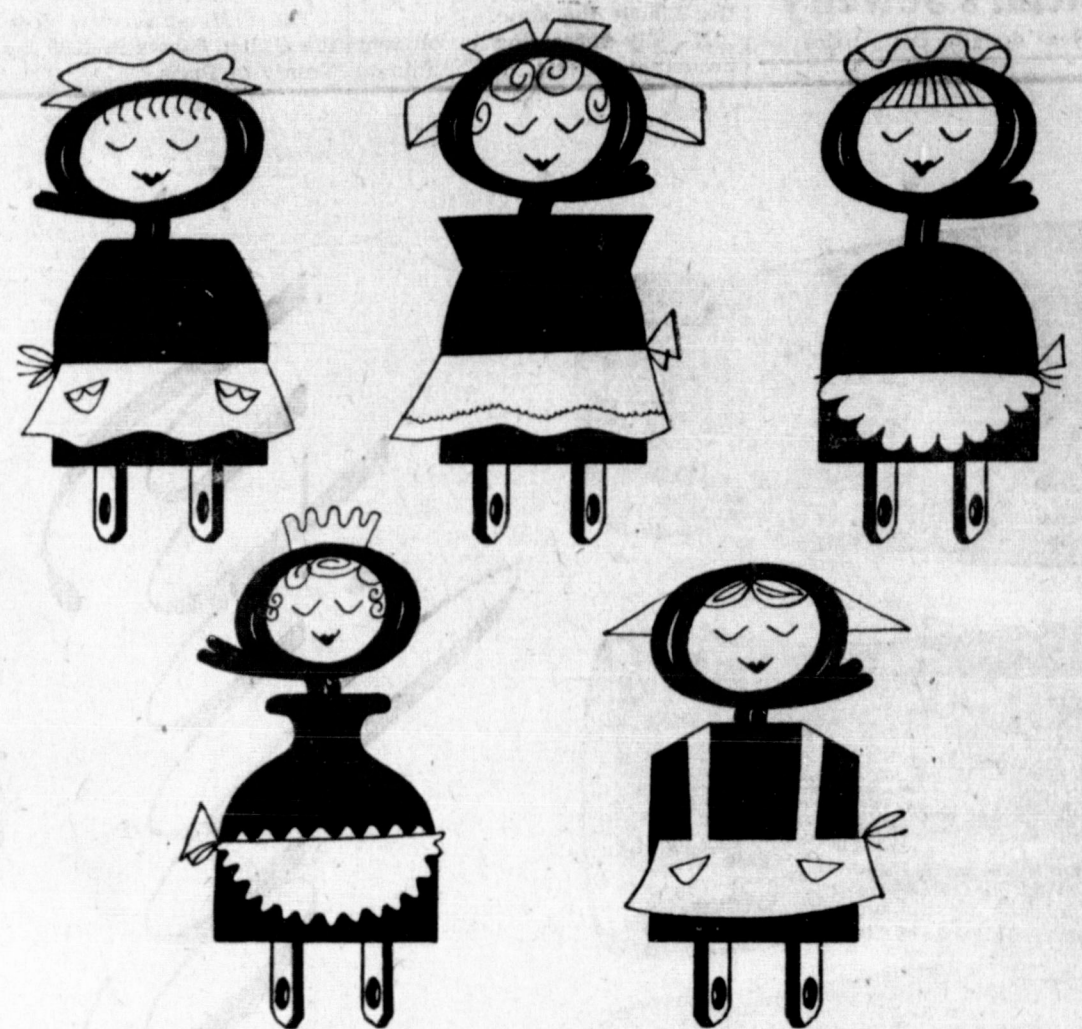

Pecos season, November 20 thru the 25th.

Yes Ma'am, you can have  
a housefull of servants for pennies a day!

Yes Ma'am, they're your electric servants, and you pay their wages with your electric service bill. Total cost—just a few pennies a day for the average family!

You know, you've about doubled your use of electricity in the last 10 years. So your monthly service bill is more than it used to be. But the average cost of a kilowatt-hour of electric service in homes served by WTU is 22% less than it was 10 years ago.

And when you think of all the things your electric service does for you—don't you agree, it's the biggest bargain in your family budget?
